VERY GENEROUS RESPONSE FOR ROSEBUD DAY

Several Checks Received by Committee in Addition to Street Contributions—The Committees in Charge of Arrangements.

The committees that had in hand the Rose Bud Day activities on behalf of the Children's Aid Society met with a generous response in the collection in the city and suburbs today. The workers were on duty early this morning and by noon there was hardly a pedestrian in the streets who was not wearing a tag. In addition to the amounts which were dropped in the boxes on the street, several checks, amounting in some cases to as much as \$50, were received by the committees. Commencing at 11 o'clock luncheon was served to all the workers. Mrs. E. Atherton Smith was in charge of general arrangements, while the general convener for the tagging were Mrs. A. W. Estey and Mrs. A. C. Wilson. Mrs. W. B. Tennant was convener for refreshments and was assisted by Mrs. David McLellan, Miss Constance Sinclair, Mrs. J. H. Doody, Mrs. Finnigan, Mrs. J. H. White, Mrs. A. B. Gilmore, Mrs. W. P. Bonnell, Miss Annie O'Neill and Mrs. J. E. Secord.

Mrs. J. H. Doody was in charge of the automobiles and those who loaned cars included John Pugsley, W. Cooper, J. A. Gregory, Mr. Brennan, Miss Stetson, Mrs. J. V. Anglin, Captain Evans and Miss Annie O'Neill. Mrs. F. E. Holman was convener of the committee which prepared the tags, and Miss Alice Estey looked after the arrangements for the banks. Mrs. W. Edmond Raymond was in charge of the finance committee and was assisted by Mrs. H. H. Pickett, Miss Emma Hall, Mrs. J. H. Frink and Mrs. H. B. Peck.

The following were convener for the ward and district committees:

King's—Mrs. John Owens, for the Catholic Women's League, and Mrs. R. Gregory; Queens—Mrs. G. Wilford Campbell, for the King's Daughters; Sydney—Mrs. F. E. Holman, for the Free Kindergarten Association; Victoria—Mrs. G. C. Poole; Prince—Mrs. Charles Christie, for the Benevolent Society of St. Andrew's church; Miramichi—Miss Emma Higgins, for St. Vincent's Alumnae; Wellington—Miss Frances Alward, for the Fundy Chapter, I. O. G. T.; Dalrymple—Miss Margaret McCloskey, for the north end branch of the Catholic Women's League; Lunenburg—Miss Lillian Trainor; West St. John—Mrs. E. A. Young and Mrs. Ernest Waring; East St. John—Mrs. A. A. Cooper; Glen Falls—Mrs. George Cuthbertson; Riverside—Mrs. Fred Rouse; Rothesay—Miss Allison.

The president of the Children's Aid Society received a letter today from Fredericton enclosing \$1,000. "I feel that I should like to send something to help out. Wishing you all success on Rosebud Day and at all times, sincerely yours," the lady writes. "But I feel that I should like to send something to help out. Wishing you all success on Rosebud Day and at all times, sincerely yours."

Rosebud Day developed one large-hearted citizen who wore last year's rosebud to wam off the taggers.

CRADLE SONG.
Little brown feet, that have grown so weary
Fludding on through the heat of day
Mother will hold you, mother will fold you
Safe to her breast; little feet, rest!
Now is the time to cease from play.

CRADLE SONG.
Little brown hands, that through day's long hours
Never rested, be still at last;
Mother will rest you; come, then, and
Here by your side, nestle and hide;
Creep to her heart and fold it fast.

CRADLE SONG.
Little brown head, on my shoulder
Lying,
Night is falling and day is dead;
Mother will sing you songs that shall bring
Childhood's soft sleep, quiet and deep;
Sweet be your dreams, O dear brown head!

According to reports of thousands who have tried it, the new remedy is almost magical in effect. The very first dose invariably stops the tendency to sneezing and coughing and the second or third

HEAVY LOSS IN CHESTNUT FIRE

Estimate of \$75,000 in Fredericton Canoe Plant Blaze.

Fredericton, N. B., Dec. 10.—The entire plant of the Chestnut Canoe Company, Ltd., was destroyed by fire here early this morning, together with 800 completed canoes and all the machinery of the plant, the models and rough material. The loss is estimated at about \$75,000.

The insurance, so far as known, was said today to be only \$20,000.

James Toner, a fireman, suffered painful bruises on the leg when he was struck by a piece of flying steam pipe during an explosion. Some large pieces of pipe were thrown 100 feet or more from the building.

While 300 completed canoes and a large lot of rough material, including two large stores used by the company and located near the factory, escaped, it is estimated that between 300 and 400 more completed canoes.

It was said at noon today that the company's stock was valued at \$100,000 and might be used for a resumption of operations until a new factory is built.

Harry G. Chestnut of this city, who was head of the canoe manufacturing business, is at present in North Bay, Ontario, and is expected here early next week.

ENGAGEMENTS ANNOUNCED.
Mr. and Mrs. F. T. Smith, the Drummond apartments, Woodstock, announce the engagement of their daughter, Dorothy Helen, to Donald Alan Burpee, son of Mr. and Mrs. C. W. Burpee of McAdam, N. B. The marriage will take place the latter part of this month.

Mr. and Mrs. R. R. Herrington, Salisbury, N. B., announce the engagement of their daughter Sadie A. to N. Hillburn Bradley, C. E., Calgary, the marriage to take place at an early date.

Mr. and Mrs. Chas. H. Collier, of River Glade, announce the engagement of their eldest daughter, Amanda Elizabeth, to Benjamin Charles Randall, eldest son of the late Mr. and Mrs. Levi Randall, of Moncton, wedding to take place at an early date.

PASSED CENTURY MARK.
Harland Observer.—The death of Isaac Gaunce occurred on Nov. 25, at the home of his son, H. Elmore Gaunce, in this city during his early life. He lived in this city during his early life. He moved to Upper New Brunswick in 1840, and has resided there ever since. On the occasion of his hundredth birthday, Aug. 25, about 200 of his relatives and friends gathered to celebrate it. At that time he was hale and hearty and enjoyed the festivities as much as the younger people. Miss Amy Bizzard, an aunt of Mr. Gaunce, died a few years ago at the remarkable age of 108 years.

Mr. Gaunce is survived by two sons, Amos L. and H. Elmore, of Riley Brook.

GONE TO FLORIDA.
Sackville Post.—Mr. and Mrs. W. B. Fawcett left yesterday for Haines City, Florida, where they expect to remain until May. Mr. Fawcett has been in poor health lately and it is hoped the change of climate will prove beneficial.

SOVING THE CHRISTMAS PROBLEM. Dear Sir or Madam: Remember the perplexed Christmas shopper who was asked why she didn't send a book as a gift—and the reply—"Why, she has a book?"

This often is the attitude of many puzzled Christmas buyers. You yourself may have hesitated about sending records as a gift, feeling that it would be foolish for you to send records already owned by the person for whom your present is intended.

We have solved this problem for you. If the person to whom they are sent desires, these records can be returned on the Tuesday, Wednesday or Thursday after Christmas, and other records can be selected in place of them.

This is a new feature you'll appreciate. We have thousands of beautiful records on our shelves waiting for you. Here's an ideal "last minute" gift.

Energy for the Day!

Just one food meets the varying needs of every member of the family.

The Man of the House loves Bread because it gives him the clear, alert brain, the spring in his step, the perfect digestion and quick smile that make him a favorite in his family and a factor in his business.

The Lady Opposite loves it because she can keep her family happy, healthy and well nourished on Bread at a much reduced cost.

The Two Bobbed Heads love Bread for its delicious flavor—that's enough. They can eat it three times a day and many times between meals without ever tiring.

Try reducing your high-priced luxury foods and increasing your bread-eating. You may be surprised to find how you'll cut expense without loss of food-value.

Flavor, nourishment, economy, are all combined in BUTTERNUT BREAD, the loaf that completely satisfies.

AT OTTAWA.

There need be no serious speculation as to what will happen when the new government faces parliament. Though its majority over all the other parties will be small, there is no danger that the others will unite to compass its defeat. There can be no alliance between the Conservatives and Progressives. Their political views are too widely at variance. Moreover, if either of them should be called on to form a government its case would be hopeless. There is no reasonable doubt that enough moderates will be found in the other parties to ensure the government a good majority, and its position will be strengthened as time goes on. With the cabinet material at his disposal Mr. King will be able to form such a government as will command public confidence, and we may be sure the Liberal policies will be so shaped as to gain popular approval, because they will be in the interest of all the people. Nevertheless, the next session of parliament will be of greater general interest than any for many years, owing to the war period. Not only will new policies be developed, but the attitude of the senate toward them will be the subject of deep and universal interest. The Canadian people will read their Ottawa news with a new and personal eagerness, because it will be quite different from that to which they have been accustomed for ten years past. The Dominion is entering upon a new era, and Liberals believe it will be an era marked by great national development.

Montreal Herald: "The stabilizing result of the election was reflected in the firm tone which marked financial and industrial transactions in Canada the day following. Stocks were steady and in some instances rose a point or two. The responsible character of the new men of affairs, the return to stable party administration and the disappearance of all danger of irresponsible class government inspired general confidence in the world of commerce and investment. There was, indeed, a comfortable reaction from the tension of inflation and uncertainty which lent a buoyancy to all commercial barometers. This was plainly reflected in the interviews to which the Herald yesterday gave prominence. The value to the Dominion of this confident and hopeful outlook is incalculable. It is the lifting of the mind of a cloying load; a breaking of the sun through the fog of doubt and ambiguity."

The Ottawa correspondent of the Montreal Gazette says that Premier Meighen will remain in politics. He writes: "The premier will remain in public life. Already he has been offered the choice of seats in Ontario, New Brunswick and British Columbia, but he will await a conference with his colleagues before making a decision. It is thirteen years since he entered political life, and in that period he has not enjoyed a vacation of any duration. After his strenuous campaign it was expected that he would take a holiday, but he has decided to remain and supervise and assist in the plans of reorganization of his party."

Montreal Gazette: "The continuation of medical inspection of children in city schools should be recognized as a real necessity; that the present system under the civic health department is inadequate and that whatever grants are made by the municipality should not only be continued, but amplified, were points that were emphasized at a meeting of the welfare division of the Montreal Council of Social Agencies, held yesterday."

The A. A. U. of Canada has again declared against the gambling of professional and amateur in group games. The Union is right in this matter. Such smugling invariably kills clean sport. There has been more or less agitation in its favor by some small groups in the maritime provinces on the ground that it ensures faster sport, but when money walks in it is not long until clean sport disappears.

The Anglo-Japanese alliance is to be replaced by a four-power treaty between the United States, Great Britain, France and Japan. This is a great achievement in the interests of world-peace. The Washington conference is accomplishing momentous results.

Reports submitted yesterday revealed the splendid work of the Red Cross in this province. That organization is fortunate in its selection of leaders and the value of its services cannot be estimated in terms of ordinary currency.

The Irish hierarchy is practically unanimous for the ratification of the Anglo-Irish agreement. In the face of its pronouncement the opposition of de Valera will have little effect in the country.

Halifax Chronicle: "The defeat of Hon. Dr. J. W. Edwards in Frontenac will be generally applauded. It removes a trouble-maker from the House of Commons. His cabinet honors were short-lived."

A WISE DECISION.

In deciding to co-operate with the vocational training board of the province in making a vocational survey of this city, the local committee has taken a forward step that is heartily commended. Such a survey in Fredericton has had excellent results. The cost to the provincial board assumes the bulk of the expenditure. It is very gratifying that there is a live provincial board, with so earnest and well qualified a director as Mr. Fletcher Peacock, to give encouragement and assistance to every centre desiring to have vocational training. The survey to be made will indicate clearly the lines along which development should proceed, and we may at last indulge a hope that St. John will not lag behind without an adequate technical school. The assistance available from federal and provincial grants will greatly reduce the cost to the city, and the need of such a school, not only in the interest of ninety per cent. of school children, but of working boys and girls, and men and women who need more training, has long been obvious. There is not a town of any size in Ontario but has a vocational school or is taking steps to secure one, and St. John cannot justify longer delay in the matter. The vocational training committee has therefore acted wisely and altogether in the public interest. Such vocational work as has thus far been done in evening classes has been of great benefit. With a properly equipped technical school the benefit would be shared by others and by great numbers of boys and girls who leave school in the early grades because the vocational training they need is not provided. There is no longer any question as to the greater earning capacity in after life of the boy or girl so trained. Actual comparisons made in the United States have left no room for doubt. Parents should therefore give their hearty support to the movement which means so much to the future of their children. Hon. H. A. McKeown, the chairman of the board, is most anxious to promote what is best in education, and the whole outlook is bright.

Toronto Globe: "It is acknowledged that when the Laurier-Piddington tariff was enacted progress and prosperity took the place of stagnation and depression, and not only agriculture, but manufacturing industries flourished as never before. Canada was not ruined either by American importations or by the British importations which were increased by the Laurier preference established by the Laurier government. Our imports increased, but so did the product of our own factories, which were valued at \$481,000,000 in 1900, \$1,165,975,639 in 1910, and \$1,881,847,223 in 1915. Clearly our industrial prosperity does not depend upon refusing to trade with other countries."

There is, naturally, much speculation as to the personnel of the new cabinet at Ottawa. Hon. Mackenzie King has a great opportunity, and there is no lack of splendid material. Not only are their able members of the former Liberal government to choose from, but the whole Liberal party is available for cabinet-making material. It will be the premier's duty to choose from a wealth of material a cabinet that will command the respect and confidence of the country, and he will naturally take time enough to make a wise choice.

The apparent determination of de Valera to oppose the Irish settlement is regarded as very unfortunate. The general belief is that the Irish parliament will ratify the agreement.

The Montreal Gazette says that Hon. Mr. King "is to be congratulated upon the fact that he has strong men about him."

Betterly-Breeding Ranch.

A butterfly ranch is the interesting and lucrative venture of a Maine woman. While the ranch does not pay her so well as the chicken farm, which she also owns, it calls for less work, smaller equipment and nowhere near so large an investment. A few boxes, some barms, boxes, gravel and earth form the whole outfit.

In the early days of her venture she depended upon finding the cocoons from which the butterflies and moths are hatched in the woods near her home, but for some time she has been breeding them on the ranch. Hatching boxes are manufactured at home. The great difficulty in the breeding of moths from home-produced cocoons is that of keeping the caterpillars where it is formed. The moths lay their eggs on the bark of trees, on leaves and in other places. The eggs are closely observed until the caterpillar, which is the embryonic butterfly or moth, hatches. Then the caterpillar is placed in a tree branch until the cocoon has formed. The latter is placed in the hatching box to remain until the moth comes forth, when the process is repeated. The moths are mounted and sold to collectors, schools and museums.

UNUTTERABLE THOUGHTS.

(By John Reade.)
There is a voice that never stirs the lips—
Felt, but not heard; that vibrates through the soul—
A solemn music; but no human speech
Can give this music in the ambient air.
The noblest poem poet ever wrote;
The greatest picture artist ever drew;
The loftiest music lyricist ever sang;
The gentlest accents woman ever spoke—
Are paraphrases of a felt original.
That lip, or pen, or pencil, cannot show
Unto the seeing eye or listening ear
The thoughts we utter are but half
themselves;
The poet knows this well. The artist
knows
His hands bear not the burden of his
thoughts
Upon the canvas. The musician knows
His soul must ever perish on his lips.
Oh, hast thou ever loved? Thou, too,
canst tell
How little of thy love the air can bring
Unto the ear of thy loved one as well
Nay, even the eye—"the window of the
soul."
Though it may shed a light a little way,
Gives but a glimpse of that which burns
within.

IN LIGHTER VEIN.

Wants "Culture"
"A girl what yours can't have no social life."
"Don't you ever go to the dance halls, Imogen?"
"Yes. But how you're gonna meet a fellow there what's got any culture or refinement? Why, them lounge lizards don't even speak good grammar."—Birmingham Age-Herald.

Good at Watching Others.
"Somehow or other," said Uncle Eben, "de man dat ain't never learned to do no regular work himself allways manages to get filled up wid de notion dat he would make a good boss."—Washington Star.

Hardship.
Benevolent Old Lady—And I suppose you are a widow, my poor woman?
Mrs. Slugg—Yes, dear, but the trained nurse has to keep him.—Edinburgh Scotsman.

Wanted Demonstration.
Bobby—"Are you the trained nurse mamma said was coming?"
The Nurse—"Yes, dear, but the trained nurse."

Returning the Favor.
"Have you ever made a noble effort to reform your fellow men?"
"Often," replied Senator Sorghum, "but on one occasion I thoroughly reformed that fellow before me to study me to see if they couldn't discover some weak points that would permit them to reciprocate."—Washington Star.

Gave Himself Away.
A young man sat in a parlor alone. To him a beautiful girl entered. Thereupon the young man arose, took six cigars from his upper waistcoat pocket, laid them carefully on the piano, and then advanced to the girl passionately, his arms outstretched.
But the girl drew back.
"You have loved before," she said.

PRINTERS' OFFER BLOOD

Toronto, Dec. 10.—A dozen striking printers have offered to submit to a blood transfusion operation to save the life of George Dawson, one of their number, who is lying in St. Michael's Hospital. When the request was made twelve offered themselves and two of the number were chosen.

A FAMOUS VISITOR

(Montreal Gazette.)
A world-renowned soldier, brilliant general, and able strategist arrived in Montreal on a short visit on Sunday next. Ferdinand Foch, Marshal of France, the frank, fearless, and indomitably courageous hero of the world war, was ably and aptly described as the greatest general since the days of Napoleon. He will be a welcome most honored guest, not only in Montreal, but elsewhere in Canada, wherever he chooses to visit.
Montreal will honor itself in honoring Marshal Foch, the idol of Paris, who displayed such brilliant boldness and initiative on the fields of France and Flanders, where he so worthily maintained the great traditions of military deeds of the past. The gallant soldier most honors within the gift of the Allied Powers who vied with each other in their desire to try to bring to one who was so conspicuously worthy of meritorious acknowledgment. The sagacity, prudence, and courage of the great general are indelibly written upon the map of Europe. His creative mind is responsible for the recovery of the Allies from the disaster and their peoples. Ferdinand Foch has long been an admired figure in Canada, and all classes of her population will join in the acclaim "Vive La France" coupled with heartfelt good wishes to the popular Marshal himself.

THE RIGHT SPIRIT.

(Amherst News, Conservative.)
The spirit of good feeling is already abroad in Amherst. Let us all forget the hasty word and the over-zealous action and do our best by our town. H. J. Logan, M. P., will be the representative for Cumberland in the new parliament. All should recognize him as such and co-operate in everything that will advance the interests of Cumberland. Those who in the long political contest, preceding the casting of the ballots, were in opposition to the followers of Hon. Mr. McKensie King should now that the struggle is over and the result decisively settled, rejoice those that do rejoice, and lose no time in adding the force that hitherto was expended in opposition, to the constructive efforts those who are now entrusted with our government.

"Dixie Land."

A recent monograph on the history of the old Citizens' Bank of Louisiana, at New Orleans, reveals the origin of the name "Dixie Land," the term applied now to the Southern states and preserved in the famous Southern war song, "Dixie." Prior to the civil war the Citizens' Bank, having the power to issue paper notes, issued several millions of bills in denomination of \$10 and \$20 but most \$10. The \$10 bills were engraved in French with the French word Dix featured on their backs. The bills became known as "Dixies" and the money becoming popular, Louisiana was referred to as the "Land of Dixie" or "Dixie Land." Eventually the term was broadened as to apply to all the Southern states. This seems a very acceptable explanation of the origin of the term, which has been subject of considerable discussion in the United States.

WHEN 'JOHN HENRY' SAVED THE C. P. R.

(From Skelton's Life of Laurier.)
Toward the close of 1883 the (C. P. R.) company seemed to have reached the end of its tether. Funds were badly needed, and investors were coy. In this emergency the Canadian members of the syndicate gave their cash and credit to the utmost. Stephen and Smith pledged their St. Paul and other stocks in Montreal and New York to make advances to the road, but to no lasting purpose. There seemed only one recourse left—some shrewd partner who had sunk so much in the road that perchance he could not refuse to advance the remainder. They determined to make the government for a loan of \$22,500,000. Twenty-odd million, it must be remembered, meant infinitely more in the frugal eighties than it meant in later years when heavy prosperity, and particularly inaction, was and rash speculation, had changed all standards. In the eighties it meant nearly a whole year's revenue of the federal government.
Later in the winter of 1883 Stephen Angus, McIntyre, Van Horne, and the C. P. R. solicitor, J. J. C. Abbott, were sent to Ottawa to seek to convince Sir John of their and the country's necessity. They drove at night to Baraboo, and put their case before him, making it plain that every other resource had been exhausted and that the aim was to ask was the least required to see them through. Macdonald heard them patiently, but gave no comfort. "Gentlemen, I need not detain you long. You might as well ask for the planet Jupiter. I would not give you the million you ask, and if I did the cabinet would not agree, and if they did it would smash the party. Now, gentlemen, I did not like to get to bed. I am sorry, but there is no use discussing the question further. They tried to argue the matter, but he would not listen. Somewhat apprehensive, from the beginning of the greatness of the country's risk, abating in the reaction that had come with the slackening of settlement and the bankruptcy of western roads, not convinced that this application would be the last, fully aware of the opening a further loan would give an eager opposition, Macdonald felt the time had come to call a halt. He bowed the petitioners out and

Blue and dejected and silent, Stephen and his associates drove back to town, to wait for the four-o'clock morning train to Montreal. They decided to spend the hours that intervened at the old Bank of Montreal offices. Here John Henry Pope, who was acting minister of railways during Tupper's absence in England, was waiting. They found him lying on a couch reading, with a strong habit of cigar in his mouth and a glass of whisky in his hand. He had just offered cigars, put his feet up on a chair, and questioned, "Well, what's the matter, gentlemen? You're all here. McIntyre danced about excitedly. Pope listened, got up slowly, lighted another cigar, put on his old outer cap and a coat called a carriage—it was then after one o'clock—and departed, with the words, "Well, I'll get up, and after a half hour he returned, entered without a word, kicked off his rubbers, hung up his cap and coat, poured out another glass of whisky, and lighted a cigar, all with deliberation and an impassive face, while his visitors waited with their hearts in their mouths, for the fateful word. "Well, boys," he broke the silence at last. "He'll do it. Stay over till tomorrow. Pope had roused Macdonald out of bed and put the case before him with the intimacy of an old friend. He had a private conference with the C. P. R. party.

"The day the Canadian Pacific busts," the day the Conservative party busts the day after."

*Afterward Lord Mount Stephen, whose death is just announced.

THE LABOR VOTE.

(Montreal Gazette.)
Only one straight Labor candidate appears to have been elected out of the considerable number who presented themselves as candidates. There are some of whom were men of ability as well as of ideas. The situation is not so bright in Canada, though it is a long way since a Labor political party first sought to secure a voice in parliament. This is no fault of the men who had the fortune to be elected. Ralph Smith of British Columbia was a man of great character and capacity, but when he dropped out he had no successor. Mr. Verville of Montreal ranked high in the average member of the House of Commons, in which he sat for many years; but he could not continue to hold the confidence of his constituents, and he also has dropped out. One member from Winnipeg, of extreme views, that detract from his influence, will be the one elected Laborite in parliament. Like the relative failure of the United Farmers on Tuesday, a statistic from the affairs of the day may be that the leaders of Labor do not lead in political matters. Some of them are excellent in existing conditions, but not distinct from other workers. The case of James Simpson, of Toronto, is an illustration. He commands considerable influence and men who think they are politicians court him. His influence will not respond to his calls on election day, and though they are somewhat frequent he is rarely elected to the office to which he aspires. He would have a revolution by quiet means. Those who would proceed by violent means and use violent language do not do even as well as he does. Leader has had few labeled representatives in the parliament of Canada. It has had proportionately fewer in the congress of the United States, though, across the border, as here, the wage earners constitute the majority of the voters. Perhaps the reason is to be found in general rather than class conditions. The laborer is not distinct from others who make up the population. Men of his class are always moving forward, many entering the employers' ranks or becoming managers of the great industries that make up the commercial and productive force of the country. The law, where it makes a distinction between the laborer and others, does so by creating generally unless and sometimes miscellaneous privileges presumed to be in his interest. There is in existing conditions no real ground for class grievances, and efforts of agitators to make the contrary seem to be the case are failures. In fact, no class seems to pay less attention to the class grievance maker than the workers. Tuesday's election returns are in striking proof of this, not only in Montreal and Toronto, where most is heard from Labor politicians, but everywhere.

Smart Young Lady of 96.

Amherst News.—Mrs. Humphrey Terrie, 164 Church street, helped to swell the enormous majority yesterday, Dec. 6th, at the Dominion election. Although Mrs. Terrie is only ninety-six years young conceived it the right to help send her candidate to Ottawa, and triumphantly polled her vote.

VISITING TEACHERS.

One of the latest developments in the socialization of education is the employment of the visiting teacher. Bulletin 1921, No. 10, of the United States Bureau of Education, is entitled "The Visiting Teacher," and gives considerable information about the type of work carried on by this teacher. The cities which seem to have made the largest use, so far, of the visiting teacher are Los Angeles, San Francisco, New York, Boston and Minneapolis. New York has nine full-time teachers employed by the Board of Education and seven by the Public Education Association, a private organization. Boston has five full-time teachers, while social settlements and other private organizations have twelve part-time workers. Minneapolis has twelve full-time teachers employed by the Board of Education.

"The function of the visiting teacher is the adjustment of conditions in the lives of individual children to the end that they may make more normal or more profitable school progress." This adjustment of conditions makes the visiting teacher a link between the home and many independent agencies. She first goes to the school, then to the home, and lastly enlists the co-operating agency necessary in solving her specific problem; thus she gathers up the loose threads, focusing them upon the school and the home as centers.

It would appear that there is a real need for the visiting teacher and this phase of our educational responsibilities is worthy of careful study.

It is Man-like to love it for being the best.

RECENT WEDDINGS

Green-Boscoe.
The wedding of John W. Green to Miss Lillian, daughter of John W. Boscoe, of Fairville, was solemnized yesterday at the Knox church manse by Rev. R. Moorhead Legate. The bridegroom is the chief engineer of the dredge Leonard, and the bride is a registered nurse, a graduate and a recent member of the staff of the General Public Hospital, St. John. After a short wedding trip, Mr. and Mrs. Green will make their home in Manawagonish road.

RECENT DEATHS

Mrs. Mary N. Walsh.
W. B. Walsh was called to Halifax yesterday because of the death of his mother, Mrs. Mary N. Walsh, which occurred in that city on Thursday evening. Mrs. Walsh was seventy-five years of age and had been a sufferer from the Halifax explosion. Four sons survive, three of whom are living in Halifax and the fourth, W. B. Walsh, in St. John.

Mrs. Agnes Vroom.
Mrs. Agnes Vroom, wife of the late John Vroom, died here today. She was the daughter of the late Hon. John Campbell, of Weymouth, (N. S.), and the late John Campbell, of St. John. Her husband was born in St. Stephen, (N. B.) and his wife was formerly resident of Richmond, (N. B.), Petticoat Street, and St. Martin's.

ROBB PLANT CLOSED.
(Amherst News)

The closing of the Robb plant, as mentioned in this issue, is indeed a matter of regret. The only hope is better times in the maritime provinces. Such are bound to come in the near future.

but just how near no one knows. We in this part of the world are feeling the depression that is world wide. The fortunate part of the whole thing is that there is a fortunate part, in that we in Canada, and especially we in the maritime provinces, are not hit as hard as the people in other places. The announcement of the Robb management is candid, and leaves no room for doubt. Those who have been employed at the legal plant would do well to seize the opportunity for work that presents itself either here or elsewhere.

DYE THAT FADED DRESS YOURSELF

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions so simple any woman can put new, rich, fadeless colors into her worn garments or draperies even if she has never dyed before. Just buy Diamond Dyes—no other kind—and your material will come out right, because Diamond Dyes are guaranteed not to streak, spot, fade, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods.

THIEVES CARRY OFF SAFE DURING BIG CELEBRATION

Dundas, Dec. 7.—Breaking into the cigar store of Arthur J. Malloy, 119 West Sandwich street, early Wednesday morning, thieves carried off a small safe, containing \$500 in cash and valuable business documents. The robbery, which was not discovered until nine a. m., when Malloy opened the store, took place near midnight, the police believe, while thousands of citizens less than a block away were celebrating the Liberal victory. The rogues entered the store through a basement window, and then loaded the safe onto a motor truck which was seen last night in an alley at the rear of the building. The safe weighed nearly 300 pounds.

Christmas Blouses Are Wonderfully Pretty

Where Could You Find a Gift to Give More Genuine Pleasure?

Blouses for Christmas have taken on many new whims and fancies. Of soft crepes, clinging georgettes, finest voiles and washable silks are the newest models. Many striking color combinations are noticeable and a decided tendency to the use of lace and figured nets.

A blouse of distinctive character is fashioned of Nile green and white georgette, joined at the seams with silk fagot stitching and trimmed with wide silk fringe.

A blouse of Mohawk georgette has apronette front and draped back of silver and blue lace. Tie-back sash is of self material. Other effective combinations are: Grey embroidered with black; sand embroidered with Jade.

Tailored and semi-tailored blouses fashioned of white or striped washable silk are showing in attractive varieties.

Hand-made blouses of sheerest Voile are hemstitched and embroidered.

Hand Crocheted Over-Blouses—Frisled georgettes; and all other kinds popular for wearing with suits or dressy skirts and also included in our wonderfully complete collection.

(Blouse Department, Second Floor.)

Big Warm Fur Collared Coats

Fashioned in the new generous proportions, and developed in rich velvety, velours, jersey cloths and bolivias. Belted and free hanging styles in such popular colors as brown, grey, fawn, beaver and taupe. \$37.75 to \$75.00

Some particularly good-looking coats in Polo Cloth and heather mixed tweeds; without fur collars. A good assortment of colors. \$15.75 (Costume Dept., Second Floor.)

Silk, Satin and Jersey Slips

Many people have been looking for a garment like this. Made with plain camisole top, elastic at waist and plain skirt with wide hem. You can find them here in black, navy, grey and brown.

Just What You've Been Needing.

"Mary Pickford" Dresses

As Dainty as the Movie Star Herself.

Made in Chemise style with or without sleeves; mostly Gingham and Repps. These are showing in big checks and plain dainty colors, trimmed with organza sashes and frills, or with rows of the rick-rack braid. There are blues, pinks, mauves, and exceptionally clear-cut checks.

NEW ORIENTATION OF MAN'S HISTORY

London, Dec. 10.—(By Mail)—Scientists say the Darwinian theory of Africa may have been the original home of the human race received partial corroboration from the discovery just made

in Northern Rhodesia of a fossilized skull which gives a new orientation to the early history of primitive man.

The skull, which is complete save for the lower jaw, resembles that of the ape man (pithecanthropus erectus), discovered in Java in 1892, which has been regarded as the most primitive human skull known until now. The Java skull, however, lacked a face. In this respect, the Rhodesian fossil reveals a type curiously similar to what is known as the Gibraltar skull.

Moreover, a collar bone, a leg bone and part of a hip bone believed to belong to the skull have also been unearthed, and these may enable anatomists to reconstruct the main parts of the whole Rhodesian skeleton.

The scene of the discovery was the "Bone Cave" of the Broken Hill mine, already famous for the beauty of its stalactites and stalagmites and for the remarkable fact that the lime of which they were originally composed has been largely replaced by phosphates of zinc and lead.

It was the commercial value of these formations that led to the transformation of this cave into one of the strangest mines ever worked.

The floor consisted of a mass of fossilized remains of elephants, lions, hippos, rhinoceros, hippopotami, antelopes, birds, bats and small mammals. Hundreds of tons of these animal remains had been removed, but no trace of man was discovered until a depth of sixty feet below water level was reached, where the bones described were found surrounded by soft friable lead conglomerate.

Too Much to Expect.
"You are charged with permitting your horse to stand unattended for over an hour," said the magistrate.

"Well, I defy anybody to teach the brute to sit down," protested the defendant, before being dragged away."

SOLDIERS' BONUS FOR U. S. MEN COMING SHORTLY

Long Looked For Benefit in
Sight and Many in Canada
Will Get Slice — Several
Living in St. John.

(Canadian Press Despatch.)
Washington, Dec. 9 — United States veterans of the war are within eight days of receiving their bonus. This will be interesting news for their brethren of the world war in Canada. Moreover, many men now living in Canada who served in the U. S. army or navy will be beneficiaries.

The Harding administration blocked the passage of a bonus measure last summer, but the pressure for action has now become so strong that Republican leaders in both houses of congress now concede that a bill will be passed in the regular session which opens Monday, Dec. 5. The truth of the matter is the Republican party leaders are afraid to go into the congressional campaign of 1922 unless a bonus measure is put through.

How to raise the money to meet the bonus is a hard question to answer. The latest suggestion and one which the administration and congress leaders are seriously considering is to utilize the British debt of about \$4,000,000,000 for the purpose of meeting the bonus. This plan was taken up recently when it was found that the plan of raising the bonus by a sales tax would be bitterly opposed by the agricultural "bloc" in house and senate and probably could not be carried.

The plan to utilize the debt arising from the war loans to Great Britain originated with the treasury department. The view here is that as a matter of fact Great Britain is about the only country abroad that can be relied on to

Highest Quality

THERE are no higher grades of wool than those in Mercury—soft, finely woven, durable and COMFORTABLE, with absolute freedom of movement everywhere.

And Mercury has every other comfort feature worth having—tailored-to-order style of fit, special Mercury-cut neck, neat shoulders, plenty of room under the arms, closed crotch with one button.

Ask for "Twelve-eighty" in pure wool cashmere, or "Twenty-two-eighty" if you want heavier weights.

For indoor workers we recommend "Twelve-hundred"—highest grade cashmere over soft, combed cotton, giving wear and silky feel.

either on interest or principal or both, were resumed. Various plans have been proposed to meet the bonus by proceeds of the foreign debt, but they have not been regarded as practicable by the treasury department, simply because it is recognized that repayment of much of the debt and much of the interest is highly uncertain and problematical.

HIS FATHER PROPHESED KING WOULD BE PREMIER

"My son is a clever man. Some day he will be premier of Canada. I wish that I might live to see the day."

This prediction was made to an Osgoode Hall court stenographer some years ago by the late John King, K. C., father of Hon. W. L. Mackenzie King, premier-elect of Canada. At that time Hon. Mr. King was active in politics.

"Something seems to tell me that he will be premier," said the late Mr. King.

The court stenographer used to type lectures for the law school in large type for the late Mr. King to aid him with his failing eyesight. He now recalls the prophetic words and adds his regret that the premier's father did not live to see his son honored by the people of Canada.

PICTURED GRAVES OF HEROIC DEAD

A deeply interested audience, the majority of whom had near relatives who had made the great sacrifice in Flanders, listened to an illustrated lecture on the work of tending the cemeteries in France and Belgium by Rev. Captain M. Mullineux, M.C., in the G. W. Y. A. hall last evening. Simply and directly, he told the story of a noble work that is being carried on by the Imperial War Graves commission and the St. Barnabas Hostel, which Captain Mullineux founded for the purpose of assisting those who went to France to view the graves of their heroic dead.

By special request Earl Spier will sing "In Flanders Field" at the unveiling service in Centenary Church tomorrow morning.

GIRLS IN LEAD.
There were thirteen births in the city for the week. The girls outdistanced the boys, there being four boys and nine girls. Six marriages were performed during the week.

TRAFFIC MATTERS.
Samuel, Siegh and James Sherwood, charged with allowing their horses and sleds to stand on the north side of King Square, unattended and without footstraps, pleaded guilty and were fined \$10 apiece.

STORY TELLING.
The Saturday morning story-telling class at the Public Library was addressed this morning by Rev. Canon R. A. Armstrong, who told the children stories concerning bird life and habits. About thirty children attended the class.

INQUIRY ON MONDAY.
It is likely that an investigation into the death of Robert Clark, the negro boy who was found at Red Lead on Thursday, will be made on Monday before W. H. Purdy, shipping master. The unfortunate youth will be buried on Monday.

DEATHS FEWER.
The death list in the city for the week is unusually small, there being only six from the following causes: myocarditis, fracture of hip, arterio sclerosis, cardiac failure, lobar pneumonia and carcinoma of stomach, one each.

CATTLE SHIPMENTS.
Work on the cattle sheds on the West Side is proceeding rapidly and it will be finished by the last of the week. There will be accommodations for 1000 head. The steamer Laconia, the first cattle boat of the season, is due the last of next week, and everything will be in readiness to receive the shipments of cattle which will be coming through on her.

HAS RECEIVED MEDALS.
Mrs. Amelia C. McKnight, 291 Rockland Road, has received from municipal headquarters, Ottawa, the medals and ribbons awarded to her son, Harold E. McKnight, who gave his life in the great war. He went over with the 160th Battalion and was transferred to the 26th, and was killed in one of the minor engagements after the great battle of Vimy Ridge.

ENJOYED SUPPER.
A successful supper was held in the Orange Hall on Thursday evening by the Ladies' Auxiliary of the Newfoundland Society. The convener for the supper was Mrs. Fred Pike. Those who assisted her at the tables were Mrs. J. Curtis, Mrs. J. Clarke, Mrs. Mercer, Mrs. Webb, Mrs. Olford and Mrs. Noseworthy. Mrs. Jewett had charge of the fancy work table, and Miss S. Noseworthy had charge of the candy table. The society wish to thank those who made the supper a success.

POLICE COURT.
Andrew McDougall and John O'Kane, charged with wandering about and not giving a satisfactory account of themselves, pleaded not guilty and they were just returning to their homes from a restaurant when they were arrested. Policeman Gill testified he had seen the accused at 10:40 o'clock last night in Queen street, and that they told him they were just looking around. The men were remanded.

Albert Dolery, charged with selling liquor in Union street, forfeited a deposit of \$200 when he did not appear to answer to his name this morning. W. M. Ryan appeared for the prosecution.

AWAY ON FIRST TRIP TO ITALY

Caserta Has Fair Sized Passenger List—Fine Ship for Capt. A. J. Hailey.

The C. P. S. Ltd. liner Caserta will sail this afternoon for Naples and Genoa with a fair sized passenger list and general cargo. This is the first trip of this liner from St. John to Italy.

The Melita is en route to this port from Liverpool and is bringing out 204 cabin and 180 steerage passengers. The former are made up of 196 British subjects and six continental, and the latter of 176 British and four continental.

The Empress of France will sail from here next Tuesday for Liverpool and will be the last Christmas sailing of this line. Among the passengers leaving will be Captain A. J. Hailey, N. B., who will be accompanied by Mrs. Hailey. Captain Hailey was the commander of the Empress of Asia until October, when he was granted a furlough. He is leaving for England to take command of the new Canadian Pacific liner Empress of Canada. He has a distinguished record with the Canadian Pacific during the last twenty years, associated with the Empress of Japan, Empress of China, Empress of India, and the Empress of Asia.

It is officially announced that the final trial run of the Empress of Canada is scheduled for December 28, and the actual sailing date will be between January 15 and February 1, when this new queen of the Pacific sails direct for Hong Kong. The Empress of Canada is a twin screw geared turbine passenger liner of 22,000 tons and was built for the Pacific mail and passenger service between Vancouver, Japan, China, and Manila. She will be the largest—still—Aluminum steamer on the Pacific. She is 633 feet long and is seventy-seven feet nine inches in breadth and fifty-three and a half feet depth to the bridge deck, with a straight stem and cruiser stern, three funnels and two masts. She will accommodate 400 first class, 100 second, 240 third and 800 steerage passengers. She is regarded as a regular floating palace and has every modern convenience.

PLANS FOR STREET CAR SERVICES

P. W. Thomson Outlines the Situation re Fairville and the Carleton Loop.

P. W. Thomson, manager of the New Brunswick Power Company, said that he was willing to restore the service on the Fairville and the loop line in West St. John under certain conditions. With regard to the former, he said, he wrote to the councillors in Fairville some time ago and told them the track in Fairville was in bad shape and if they wanted the service restored to notify them before winter set in so they could make necessary repairs. He pointed out that they would not go in with litany competition and asked to have them taken off. At the present time, he said, there seem to be a demand to have the service resumed and that would mean putting the cars over a very bad track, which would result in damage to the rolling stock. To do this, he said, would cost money. He said if the councillors would let the company's share of the cost of the keeper at the crossing, allow them to go along without a snow removal charge and would not charge any duty to citizens and therefore must make a sacrifice. To do this he asked the city not to take any profit from them in the shape of taxes or upkeep or to look after the upkeep of the wharf section. If these requests were granted, he said, they would put the loop line on meeting every trip of the ferry and running as far as Queen Square along Winstow street and doubling back to the ferry. By operating along this route, he said, the necessity of having special work done over the Shore Line track section would be eliminated.

This he said might seem, on the face of it, as if they were asking too much, but the service was an unprofitable one but they were willing to do their part in accommodating citizens.

Regarding the service Mr. Thomson said they were operating more street cars today than they had for many years, and would continue to put on as many more as the traffic would absorb. At the present time the company was negotiating for ten new motor cars.

With regard to the gas situation, he said, they were landing American coal here and it was expected that much better gas would result.

OAK HALL - Scovil Bros., Ltd. King Street.

What Wonderful Things Everett Has for the Little Folks!

Here's genial, bluff old Santa all ready to fill the requirements of those who have been so good to their parents—at least during the last few weeks!

And in accordance with its progressive policies this store is well filled with the very things the little folks demand.

Briefly, there's a new idea known as the baby's wardrobe. And what a contrivance it is, too. No more will the little clothes be anywhere but in their own private wardrobe.

Then there is the new low-high chair, which so breaks in the centre that folded up it serves its natural function of any real high-chair; folded down we have a low chair facing the neatest little table you ever saw. And all together, too.

Then of course there are doll carriages which any little lady will demand, rocking chairs and sleighs and kindergartens sets when dolly has a party, rocking horses for baby and larger ones for more militant brother of a larger growth. Blackboards, and chippy cars with rubber tires.

Why—we've scarcely scratched the surface, so many are the things here. But we'll tell you what to do. Take a peep into our window, and then come right in and see for yourself what there is for the little folks.

Visiting Real Estate Men Optimistic re Outlook.

Good Times Near—Next Ten Years to See Big Developments in the Dominion, is Belief.

(Toronto Mail and Empire.)
Confident predictions that Canada is about to enter upon a period of great prosperity and development marked the opening address delivered at the monthly meeting of the Toronto Real Estate Board, held last evening at Bingham's. Representatives of various real estate boards in cities throughout the province were guests of the Toronto board, and the remarks of all of them were marked by an optimistic outlook for the future of the dominion.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

Ted Charters With Dumbells This Time

When the "Dumbells" return to the Imperial Theatre, Monday, they will have with them Ted Charters, who has just recently rejoined the company after an absence of more than two years, during which time he has been playing, in great demand among vaudeville engagements in England and the colonies. Most of the men who saw the "Dumbells" in France will remember Charters as Lord Spoutum-Spoutum, delivering his supposed message from Lloyd George and inquiring as to whether there was anything the boys might require to add to their comfort, and also promising a batman for every soldier, as well as the immediate issue of umbrellas. Because of his ability to write such monologues as King Inspection, he was in great demand among vaudeville booking agents as soon as the war was ended, but it was not like being with the old original "Dumbells" of which he was a charter member (no pun intended), so once again Ted is doing his bit towards making the original "Dumbells" what the papers say, at least that's what all the papers say, and they are usually right.

SUCIDE IN MASSACHUSETTS

Rate Nearly Tripled in 70 Years—Unemployment Party to Blame.
About 500 persons a year commit suicide in the State of Massachusetts, and the suicide rate has increased from 49 per 100,000 persons in 1850 to 139 per 100,000, according to Dr. A. Warren Stearns, who has recently completed a study of suicides in Massachusetts for the National Committee for Mental Hygiene. Part of this increase Dr. Stearns attributes to the growing tendency of population to concentrate in cities and part to a relaxation in social discipline. In the economic field Dr. Stearns made three studies—a comparison of the suicide rate with bank deposits, with the index of commodity prices, and with unemployment. In the case of bank accounts and the cost of living no correlation was found, but there did seem to be a positive connection between unemployment and suicide.

FRENCH PRESS ON THE ELECTIONS

La Presse rejoices over the result of the elections because it assures the constitution of a cabinet which will have the solid support of the public and enable it to meet itself resolutely and without delay to the work of national reconstruction. The verdict is clear and decisive. It dissipates the fogs which obscured the road the country ought to take. We can now see clearly ahead of us. If the Progressive party is sincere—

and we hope it is—in its protestations against those who accused it of being actuated by selfish class interests, it can hardly have any other alternative than an attitude of sympathetic co-operation with the Liberal party." Stable Government Assured. La Patrie:—"Although the defeat of the Meighen government was expected, the result of the election was fruitful in surprises the greatest of which was the decisive victory of the Liberal party which, contrary to general expectations, obtains an absolute majority. The majority may appear to be small, but the strength of the ministry which Mr. Mackenzie King will be called upon to form is not to be measured merely by this numerical superiority. It must be remembered that the opposition will be constituted of two virtually incompatible

The reports submitted by the officers of the Maritime Commercial Travelers' Association at the annual meeting held in Halifax on Thursday evening show that the resources of the association are at present \$197,960.87 and the membership 1624. In 1921, the year of the organization of the association, the membership was 105 and the resources \$291.88. The increase in the association's resources during the year was \$18,497.31. The amount paid in mortuary benefits to ten beneficiaries during the last year was \$5,496. Thirteen members died during the year.

A Welcome from Without A Cheeriness from Within

What a wonderful difference good lighting makes in genuine home comfort, promoting cheerfulness and ease. The well-lighted porch or verandah is, too, a compliment to your guests, furnishing an attractive setting for your house and registering a friendly message of welcome. Good home lighting is dependent upon good quality lamps. The best plans for lighting and the most expensive fixtures are futile if you equip with cheap lamps that blacken and burn out quickly. It pays to exercise care in the selection of lamps. It pays to equip your fixtures with high quality LACO NITRO Lamps. They embody the very latest improvements of modern science—producing a clear full light of high intensity most nearly approaching sunlight. If you use them in your fixtures or in shaded lamps—you will derive not only improved, artistic effects in your home furnishings—but increased home comforts and pleasures.

LACO NITRO LAMPS

groups, of which one, that of the farmers, has traced a programme nearly identical with that of the Liberals. There can be no doubt therefore that Mr. King will be able to form a stable government. It is not without comfort to observe that in the revenge which Quebec has obtained at the ballot, it was not this province which changed its attitude, but that the other provinces fell into line with us. This is an encouraging step towards national unity."

Will Now Revive Economic Life.

Le Canada:—"After fighting against two parties, the Liberals have obtained a brilliant success, and one which clearly indicated that the public sympathy is with them. The country can now proceed to repair the frame-work of its economic life which has been so seriously compromised by Meighen. Men of the first order will contribute to this work of reconstruction."

Government Faces Difficult Task.

Le Devroit:—"The government collapsed under the weight of its own faults and those of the ministry from which it accepted the succession. The whole country was in revolt against it. The revolt was directed under different banners and diverse marching orders, but all had the same objective. Now the problem of government faces the Liberal leaders. It may not inspire the joyful thoughts that the acclamations of their partisans stirred in them on the night of the election. A change of government does not automatically get rid of the enormous financial responsibilities which were incurred during the war, nor of the annual charges that result therefrom."

TEACHERS' ASSOCIATION.

The programme of the Teachers' Association meeting in the Natural History rooms in Union street last night, was in keeping with the Christmas season and had for its subject, Ancient Palestine and Modern Mesopotamia. The teachers of the Aberdeen school arranged the programme which was full of interest and much appreciated. H. C. Ricker, the president, was in the chair and there was a large attendance of mothers. The first paper, given by Miss Mary Anderson, was on the Samaritans and Their Buried Cities. Miss Jean McEwen gave a reading on the Hanging Gardens of Babylon and Miss Isabelle J. Cain gave a paper descriptive of Modern Mesopotamia.

A New England Murder Is Agitating Fifteen Nations

"Save Sacco and Vanzetti!" Most of the countries of Europe and South America, even Mexico, it is said, are better acquainted with this slogan than is America, where it originated. Within a few weeks a Massachusetts court will decide whether the two Italian convicted of murder shall have a new trial, and in the meantime bomb outrages, boycotts of American goods, and general strikes throughout the world will emphasize the international Communist conviction that the men are being railroaded to death, not because of what they did, but because of what they thought. Thus far, bombs have been sent to the American Ambassador in Paris and to the American Consul-General in Lisbon. American representatives in Havana, Peru, Buenos Aires, and Juarez, Mexico have been warned that their own deaths will follow the execution of the two Italian Communists. American goods are boycotted in several places in South America; demonstrations have been held in front of the American Embassy in Brussels; 5,000 Parisian police were mobilized in Paris following the receipt of a bomb and some fifty threatening letters by Ambassador Herrick; many men and women who had gathered in Rome to protest against the "American judicial murder" were injured, and more than 100 arrested, in a conflict with the police.

What is the basis of this international protest, which started with "three men in a dim-lit, scantily furnished office in Boston?" There is a comprehensive article in THE LITERARY DIGEST this week, graphically illustrated, which presents the history of this conventional murder case which has disturbed many governments. All the opinions upon the case are presented, and, all in all, it represents one of the strangest instances of the far-reaching influences of propaganda that the present generation has witnessed.

Willing to Take a Chance.

"What?" said the indignant old gentleman, "you want to marry my daughter? Why, sir, it was only a few years ago that you were caddying for me."
"Yes, sir," the young man replied, "but I don't intend to let that stand in the way. I hope I have sense enough to realize that a very bad golfer may make a fairly good father-in-law."

PUDDING PENNIES.

Mis Majesty's mint is getting ready for Christmas by coining 10,000 three-penny pieces, says a London despatch. The small silver coins are as popular as ever for the Yuletide diversion of placing them in Christmas puddings, with merry jests about what will happen to the person who gets them. Requests for the three-penny pieces have been made especially by Edinburgh and Glasgow banks, who say that they have been besieged by patrons for coins. Apparently the rich English pudding has lost none of its popularity.

MANY BORROW ON LIFE INSURANCE

Developments in Mortgaging of Policies.

Statistics Presented at Convention of Association of Life Insurance Presidents in New York—Hundreds of Millions of Dollars.

New York, Dec. 9.—While the present financial readjustment is being reflected in increased borrowing by policyholders on their life insurance, the high peak of such loans that was reached in 1914 is not in sight, according to original statistics presented at this afternoon's closing session of the fifteenth annual convention of the Association of Life Insurance Presidents. Figures received from companies transacting eighty-nine per cent. of the life insurance business in the United States showed that their policy loans on September 30th of this year amounted to \$82 million dollars. This represents 14.8 per cent. of the reserves and therefore has a long way to go before reaching the high mark of 17.87 per cent. in 1914.

The lowest percentage in ten years was 12.57, in 1919, which year was remarkable for the amount of policy loans paid off by the American people. Based on the September 30th figures, the life insurance men calculate that the policy loans for all United States companies now approximate one billion dollars. There is a wide difference in the percentage of borrowing as between different sections of the country, the farmers leading the city people in this respect.

These and other current developments in the mortgaging of life insurance policies were submitted by Henry S. Nolan of Des Moines, President of the Equitable Life Insurance Company of Iowa, to the convention in connection with the consideration of plans for next year's business by the life insurance executives.

"About 18 months ago, the demand for loans on policies began to show a marked increase, which has risen so steadily in all of the companies throughout the country that an inquiry into the prevailing tendency among policyholders to borrow upon the security of their policies seems timely," said Mr. Nolan. "A comparison of the geographical distribution in which the lowest and highest ratios prevailed, led to an investigation of the predominant activities of the population in each group. As a general rule, the higher loan ratios correspond to those districts in which the larger percentage of rural population prevails, reflecting the drop in prices of farm products. The percentages of policy loans to reserves in the different state groups as of September 30th of this year are as follows: New England, 11.93; Middle Atlantic, 12.93; Central North-western, 12.18; South Atlantic, 22.29; Gulf and Mississippi Valley, 21.24; South-western, 16.76; North-western, 16.06; Pacific, 17.88. Considering the years 1920 and 1921, the most favorable condition has prevailed in the New England and Middle Atlantic groups, in which the increase in percentage for the nine months of 1921 is practically the same as the

annual rate of increase in the period following the year 1907. The greatest acceleration has occurred within the past two years in the North-western and South Atlantic groups. The North-western has, within the current year, attained a percentage above the average of the United States, while, in prior years, it was comparatively low.

\$2 Places the New Edison DIAMOND AMBEROLO

With 12 Records of Your Own Selection—in Your Home

HERE IS YOUR CHANCE to have Edison's New Diamond Amberola—the family phonograph that plays songs and selections—all the latest and old favorites—and plays them as they should be played. Jazz for the young folks; classical music, vocal and instrumental—the Amberola plays them with all the clarity of tone and mellowness that music lovers appreciate.

And it is so easy for you to own an Amberola. The terms are so easy you'll scarcely notice them, if you take advantage of this

Special Club Offer:
\$2 and \$2 a week—and no interest charge—until you have paid. **\$72.80**

Then think of the other and great advantages of buying your Amberola right from us. It goes to your home on a trifling deposit (\$2.00), no waiting, no express charges. If repairs are ever necessary, we have an Edison-trained expert, of wide experience, right here at our store where we can make prompt repairs and send back your Amberola with least delay.

JUDGE FOR YOURSELF. Come in and hear the New Edison Diamond Amberola. Its clear, mellow music is a revelation to all who have heard the harsh, mechanical shrillness of ordinary "talking machines." The music of the Amberola is the true music of the artist, and whether vocal or instrumental, it is reproduced with all the harmony and feeling of the original.

ONLY FIFTY AMBEROLAS to be sold on these special terms—and the offer holds good only till Christmas.

Come in and hear the Amberola, and avail yourself of this limited offer which means the most extraordinary phonograph value on the market.

GET EDGE ON WAR TAX BY BUYING IN WINDSOR

Windsor, Dec. 10.—Because of the difference in Canadian and United States war tax Windsor is still the favorite place for Detroiters to buy railroad tickets when they are to travel any considerable distance. Until last March the Windsor ticket offices were receiving Canadian money at par, and they had more business than they could take care of. Now, however, an exchange rate is

charged, nine per cent. this week, and the only saving in coming to Canada for tickets is due to the fact that the United States war tax is eight per cent. as against one per cent. in Canada.

Frank Zebberman and Clifford Ritchie were found not guilty, on a charge of attempting to break and enter the store of Abraham Drekin in Main street, at yesterday afternoon's session of the circuit court, over which Mr. Justice W. B. Chandler presided.

IRISH LEAGUE TO CELEBRATE PEACE

(Halifax Chronicle.)

"Whatever suits the people of Ireland suits us," is the comment of W. P. Burns, provincial president of the Self-Determination League in regard to the press reports of Anglo-Irish peace. "If the agreement is ratified by the British parliament and the Dail Eireann," continued Mr. Burns, the S. D. L. will fittingly celebrate the achievement of Ireland's long struggle for a government of her own, the principle for which the war was fought and which the members of our league urged for two years should and must be applied to Ireland. The news from London certainly seems to bear out our contention that self-determination for the land of our forefathers is the only way to peace for both England and Ireland.

Tentative details are being worked out for a suitable commemorative in this city," says Mr. Burns "to which branches of the league throughout the maritime provinces will be invited. A feature contemplated is a mass meeting at which a prominent Dublin journalist will deliver an address on reconstruction work in Ireland under the new regime. There will probably be thanksgiving services for the peace in city churches. Complete details will be published as soon as the good news is confirmed that at last Christmas will bring real peace and the fruition of their cherished aspirations to the kindred in the Emerald Isle."

BACK TO HOME TOWN.

(St. Croix Courier.)

Two enterprising young men, natives of the town, have returned from Waltham, Mass., and established a machine shop in the old Lawler staple with entrance from King street, near the former McKenna store.

The proprietors are J. Arthur and Bruce Thompson, sons of the late William S. Thompson, and the firm will be known as Thompson Bros. They are dependable and enterprising young men.

GOLF. Winter School.

Because golf is so rapidly taking a hold upon the Montreal public, with half a dozen big courses jammed to capacity and the same number of new courses either in prospect or just starting, J. H. Blumenthal Sons, Ltd., announce that next week the first winter golf course and school of the season will be opened in their store. Instructors will be Harry York of the Murray Bay Golf Club, and Arthur Woodward, the 1920 Quebec champion, and for the past year pro at the Outremont Golf Club.

York and Woodward say that already they have over 100 members for

their winter course. The feature will be a putting course covering some 6,000 feet of space, with specially devised handicaps. Far more interesting than clock golf, the putting course will give exercise to the player as well as present a more interesting method of improving the game. There will be three large practice and instruction nets, and from time to time special contests will be held among the club members.

THE CHAMPION WILL DEFEND TITLE HERE

Russell Wheeler to Skate at National Meet in St. John.

—Joe Moore Also Eligible.—Track Experiments.

Russell Wheeler, the Canadian national skating champion, will be in St. John to defend his title this winter when the national championships are held here, it was learned yesterday by the Y. M. C. A., under whose auspices the biggest event of the year in Canadian skating will be held in St. John.

News of the lifting of ban of suspension which has been hanging over Joe Moore, another champion, also was received yesterday. Moore is now eligible to compete in the Canadian national events here.

Those in charge of the United States national and the international championships were to meet this morning in Pittsburg (Pa.) to set the dates for these events. The time fixed for the U. S. national and international championships will have some influence on the date to be fixed for the Canadian national.

A skating track, laid out on the same dimensions as those of the rink used for the Canadian national championships in Montreal last winter, will be laid out on the ice at Lily Lake today. The purpose of trying out the track is to give the local speedsters a chance to try it out. If as a result suggestions of possible ways of improving the shape and size of the rink are forthcoming these suggestions will be acted upon and changes made with a view to getting a track that is acceptable and that will enable the competitors to hit the fastest possible clip. The Montreal track was eight laps to the mile with 204-foot straightaways and semi-circular ends of seventy-four feet diameter.

STUFFY McINNIS RECORD.

First Sacker Made Only One Error Last Season.

Boston, Dec. 10.—"Stuffy" McInnis, the brilliant first baseman of the Boston Red Sox, made a most remarkable record last season.

Usually, when a player performs some unheralded feat, it is heralded all over the States in big headlines.

In many ways the record of McInnis was one of the most extraordinary feats ever performed in the major leagues, yet it has been given only consideration.

Playing throughout the entire season, McInnis made only one error in the field. Recall the canny difficult throws the first sacker has to handle. Do you remember that during the entire season McInnis made only one error, and you will have a fairly good idea of the magnitude of "Stuffy's" performance.

It was the irony of fate that McInnis should have made his only error in the Philadelphia. It was also a tough break that caused the official scorer to record the play as an error. It was really a play that involved merely the judgment of the scorer. Generous scoring would have made it an easy matter to have entirely overlooked the play.

Here is the play that was the only blot on "Stuffy's" great record. On no doubt you will express a regret that the scorer decided to give McInnis an error.

The scene was Philadelphia and the date May 30th, 1921. The error was recorded on a thrown ball. Jimmy Dykes was on first base, nobody out, and the score close. McInnis figured the batter was going to bunt, and went in on the pitch to make a play at second if possible.

The batter missed the ball. Jimmy Dykes, who had taken a big lead, seemed to be a sure out either at first or second. The moment the batter missed, "Stuffy" ran to first, watching Catcher Walters all the time. A perfect throw, properly handled by him would have gotten Dykes a couple of yards. Walters started his throw and then hesitated slightly.

This rather threw McInnis off his stride and he slipped slightly as he neared the bag. When Walters finally threw the ball, he floated it down to first rather than with his usual speed. A trifle off his balance, McInnis was forced to stretch for the ball and was unable to hold it. That enabled Dykes to get back to first in safety.

It seems the official scorer was of the opinion that Dykes was so far off the base when the throw was started that he would have been an easy out, had the ball been perfectly handled. He failed to take into consideration that Walters had once made a false start and that McInnis was off his balance when he received the ball.

It is a cinch the scorer would have overlooked the play entirely had he known it was to be the only thing that approached a misplay on the part of McInnis all year.

To me no record has ever been made in baseball that is more noteworthy than McInnis' stunt of playing an entire season at first base with only one error. And that was a questionable one.

**MISSIONARY LIFE
IN BAFFIN LAND**

Clergyman is Cook and Baker, as Well as Pastor—Mails are a Luxury.

(Montreal Gazette.)
A glimpse of missionary life among the Eskimos in the northern solitudes of Baffin Land is afforded in letters which have just been received by the Rev. Rural Dean Lackey of Lachute from his son, Rev. A. Osborne Lackey, who left Lachute in July of this year for that destination. The three letters all came together by the steamer Nascope, which was in port here in the summer. The Nascope returned from Hudson Bay to St. John's, Newfoundland, and the letters were mailed at the latter port. Mr. Lackey is apparently well trained in practical as well as theoretical matters, for he is chief cook and bread-baker, and states that, thanks to the bread-mixer and recipes given him by Lachute friends, he has had considerable success in the culinary department. He has in training two little native girls of ten and twelve years of age, who are rapidly becoming domesticated. The two missionaries, Mr. Lackey and the Rev. Mr. Atkinson, recently gave a birthday feast, as both their anniversaries fell near each other, and at this function the guests were the men of the Hudson Bay Company. The menu included soup, potatoes, roast venison, peas, pie and jelly.
Christmas and New Year greetings had to be thought of well in advance, and were sent in a letter dated October 2; in fact, there will be no further chance of outgoing mail until next August or September.
At the time of writing, there was not a white woman in the settlement, but Mr. Lackey's wife is at present in Scotland, and the factor of the Hudson Bay Company expects his bride with the missionaries' wives next summer. Another bride of one of the company's men

ENAMELEDWARE
The CLEAN Ware

THE proof of good cooking lies in flavour and nutrition through the preservation of natural animal and vegetable juices. Every kind of food stuff enclosed in a metal container and heated will cause chemical reaction lessening nutrition and flavour. Herein lies the superiority of Enameled Ware—its surface is non-metallic. Its heavy coating of vitrified porcelain enamel, oven-baked and hardened to the texture of china, ensures maximum cleanliness and waste resistance. Enameled Ware is proof against fruit acid stain, its glossy surface absorbs neither grease nor vegetable odors. Enameled Ware produces better, more efficient cooking because nothing cooked in Enameled Ware ever touches metal. —and, it is cleaner and cheaper than other much advertised kitchen utensils.

is also expected, while another man was counting on his wife coming across the ocean at the same time.
Catch is Divided.
A part of one of the letters reads: "This is the life; right back to Nature, away from the sham, the artificialities, the shallowness of so-called civilized society. Talk about Christianity; we find more real Christianity among these poor Eskimos than among many so-called Christians. If they catch two fish, we get one; if they catch a seal, everybody gets a piece." It is added that the natives almost worship the missionaries and do everything in their power to make them comfortable.
The last letter is dated November 14. The Nascope was so late in reaching Lake Harbor that the two missionaries had abandoned hope of her arrival, as Mr. Lackey had gone on a hunting trip with some Eskimos. On returning after some days' absence, he saw, from the top of a hill, the ship in the harbor, whereupon he made a sprint for the mission house, and, though he had not tasted food for several hours, he did not touch it until he had read all of his thirty-six letters.
When he wrote his last letter, the Rev. Mr. Lackey was about to leave with a band of Eskimos for the winter hunt at

point about 180 miles from the mission house. Rev. Mr. Atkinson was to accompany another band 200 miles in another direction. They will live in snow houses, adapting themselves to native customs, and they will not hear a word of English spoken all the winter. In this way they hope to quickly acquire the Eskimo language.
MAID WAS GAGGED.
Three Men Entered House and Stole Jewels.
Toronto, Dec. 10.—Laura Anderson, aged twenty-seven, a maid employed at the home of Mr. and Mrs. H. E. Smith, 340 Sunnyside avenue, was seized by three men in Mr. Smith's home, at ten o'clock Monday morning, was tied up and gagged, the men then robbing the house of \$1,000 worth of jewelry.
The girl was alone in the house when the robbers entered. Two men were arrested in connection with the affair.

A RECEPTION TO HON. W. S. FIELDING BY THE LIBERALS
Former Premier Desires Sympathy Rather Than Congratulations—Canada Has Stupendous Problems to Solve.
(Canadian Press Despatch.)
Halifax, Dec. 9.—In the House of Assembly, which knew him as provincial premier over twenty-five years ago, Hon. W. S. Fielding, member-elect for St. John's, was tonight given an enthusiastic reception by members of the provincial government, men and women electors of Halifax, and Liberal stalwarts from various parts of Nova Scotia. Premier G. E. Murray, in calling upon Mr. Fielding for a speech, said the eyes of all Canada had rested upon him during the election campaign, and his victory was a great thing for the whole country.
Mr. Fielding, after dwelling on the greatness of the Liberal victory in the east, said the task before the new government called for sympathy rather than congratulations. He doubted if in any country with so small a population there were such stupendous problems to solve. Under the best of conditions Canada had the problems of settlement, racial and religious differences, and every problem was accentuated by the gravity of the present situation. It would be necessary for the people to support the government in a policy of retrenchment to help keep the country from bankruptcy.
