J. R. GOGGIN. The advantages claimed for thinning fruit.

POINTED PARAGRAPHS. The toast of the evening is taken from a bottle.

THE HOUSEWIFE'S DAILY BURDEN. It is a common remark with hundreds of men that they wonder "what women find to do all day."

THE POTTER OF KUNG. It was Capt. Stiffe of England who was visiting towns along the Persian Gulf a while ago he came to the large fishing village of Kung, where a couple of centuries ago had stood a city of much commercial importance.

SETTING A STRAWBERRY BED. The selection of the plants is very important, to have good, thrifty plants of the previous season's growth.

CLEANING THE UTENSILS. In the washing of churns and all other vessels for milk or cream, they should first be rinsed with cold or tepid water.

THE ADVANTAGES OF THINNING FRUIT. The advantages claimed for thinning orchard fruits are about as follows: Thinning increases the size of fruit, gives it more color and better flavor.

THE HOUSEWIFE'S DAILY BURDEN. It is a common remark with hundreds of men that they wonder "what women find to do all day."

Agricultural THE FAMILY COW. Official statisticians take no note of the family cow.

THE POTTER OF KUNG. It was Capt. Stiffe of England who was visiting towns along the Persian Gulf a while ago he came to the large fishing village of Kung, where a couple of centuries ago had stood a city of much commercial importance.

FOR WEEKS PAST SIX persons have been kept busy packing Union Blend Tea, working from 7 a.m. to 12 midnight, and yet Messrs. Geo. S. deForest & Sons say they are still behind with their orders.

FIRE AT BOSTWICK.—The school house at Bostwick was totally destroyed by fire Saturday afternoon. The fire is believed to have originated from a spark from the mill alighting upon the roof.

SURELY NOT!—The Gleaser publishes a despatch alleging that a fire at Bostwick "is believed to have originated from the mill alighting on the roof."

A PLUMBER FOR CHATHAM.—Mr. L. E. Dryden, plumber and locksmith, of Sussex, is now in the employ of Mr. G. R. Marquis, and will attend to plumbing work in any part of the county.

ALL OUT.—The ice went out of the Restigouche on Monday last week with a rush. There were two peculiar features in connection with the disappearance of the ice in the Restigouche this year.

THE STANLEY GOLD FIELD.—High water is the only thing that interferes with the operations of a large number of prospectors at Stanley looking for gold.

MIRAMICHI MARBLE WORKS.—Now is the time to place your orders for cemetery work and send the money down.

A SOCIAL REUNION of the congregation of St. Luke's Church, Chatham, is to take place this Thursday evening.

UNRIVALED TOURIST SLEEPING cars for the accommodation of passengers holding second class tickets, are run by the Canadian Pacific Railway on Transcontinental Express train, leaving Windsor Station, Montreal, at 11 a.m. every Thursday and running through to Seattle.

FIRE AT CAMPBELLTON.—The Commercial hotel at Campbellton was very badly damaged by fire on Saturday morning.

ADVERTISERS are interested in the advertisement of Mr. John Connell, in another column. Mr. Connell is the leasee of both the Bartibogue and Tabusiatine rivers, which are favorite resorts for the best-furnished anglers and sportsmen.

MR. F. J. GATIN'S DEATH.—A Bathurst despatch of Monday last says:—"The death of Mr. Francis J. Gatin occurred here on Saturday night at 12 o'clock, aged 48 years.

FIRE AT CHATHAM JUNCTION.—About seven o'clock on Saturday evening the Jellison house at Chatham Junction was observed by assistant station agent Clancy to be on fire and the few persons about undertook the task of putting it out.

MIRAMICHI ADVANCE, CHATHAM, NEW BRUNSWICK, MAY 11, 1899.

gest. The subject was discussed and it seemed to be the general wish that the trophy be competed for each year for three years; the member owning the winning yacht to retain it in the first and second years respectively to hold it for one year, the cup, the third year, to become the property of the member whose yacht or yachts had won the most first in all the Club races of the three years.

The regular programme for the coming season was arranged as follows:— May 24: Queen's Birthday regatta—yachts to rendezvous at a point between Newcastle and Chatham at 10 a.m.

June 8: Triangular race at Newcastle—Governor Fraser cup and cash prizes. July 1st: Dominion Day cruise, rendezvous at Queen's Birthday.

July 6: Race from Chatham to Newcastle and back—Adams Cup and cash prizes. Aug. 10: Race from Black Brook to St. John's Bay and back—Stewart Pennant.

Sept. 7: Triangular race at Chatham—Douglass—Middle Island—St. John's Bay cup and cash prizes. Oct. 3: Triangular race at Newcastle.

On Saturday two spans of the Metepedia bridge were washed out, with the third likely to follow. The second and third spans from the Quebec side are carried away and the one near the landing just left.

The following paragraph is being published in the press:— On Saturday two spans of the Metepedia bridge were washed out, with the third likely to follow.

MIRAMICHI ADVANCE, CHATHAM, NEW BRUNSWICK, MAY 11, 1899.

These matters over with your Committee with a view to ascertain just where both governments stood, and, if possible, to so adjust the position of each that their action in regard to the fisheries should be harmonious.

With regard to the first proposition submitted by your Committee, the Honorable Minister stated that while the decision of the Privy Council doubtless defined with sufficient clearness and accuracy the proprietary rights of the province in relation to fisheries in all ungranted waters situated within the territorial limits of the province, there was still a question, he thought as to whether the province possessed any such proprietary rights, or if so what proprietary rights they possessed, in those fisheries within the three mile limit, especially those below low water mark.

That in conducting fishing within the three mile limit the operator has necessarily to move from place to place over a very wide area, and that, except perhaps as to fishing by traps attached to or placed upon the sea bed, it seemed to him that it might very fairly be argued that these fisheries were not so independent of any proprietary right in the soil that they would not necessarily pass to the province, even though the soil within the three mile limit for certain purposes, and subject to certain restrictions, might be said to belong to the province.

That before this question could be definitely and permanently settled it might, in case the province and Dominion failed to agree, be necessary to have the point submitted for determination to the Supreme Court of Canada. He suggested that after the opinion of the Minister of Justice upon the question was obtained the representatives of the province might confer with the Dominion Government, with a view to seeing whether we could not come to some agreement upon the subject whereby it might be settled which government should have the control of the fisheries, either permanently or for such limited period as could be agreed upon, and subject to such terms as might be agreed upon.

That at the same time it could be settled by agreement as to what harbors should be taken to fall within the description of "public harbor," as used in relation to the fisheries.

That all proprietary rights in relation to fisheries in all ungranted waters situated within the territorial limits of the Province should be vested in the Dominion Government, such harbors as are "public harbors" within the meaning of that term as used in the Dominion Government's Fisheries Act, should be vested in the Dominion Government.

That inasmuch as their Lordships state, that "the title is extremely doubtful, that a definition should be sought of the abstract question, what falls within the description of 'public harbor' in any case, therefore decline to attempt an exhaustive definition of the term applicable to the case before them, but are of opinion that it is likely to prove misleading and dangerous. It may, to some extent, be of assistance to the public, what forms a part of a harbor."

That while, on the one hand, the Dominion Government is entitled to the right of the province to impose, for provincial purposes, the obligation to "make and maintain" the works which are the property of the province, and to prescribe the terms and conditions upon which such works may be granted, and which such works may be so granted, it is equally clear that the Dominion Government is not entitled to impose a tax by way of license as a condition of the right to fish.

That it is likely to prove injurious to the fisheries, and to both Provincial and Dominion interests, if the Dominion Government were to exercise independently and without any satisfactory agreement between the two Governments, the power to grant licenses as a condition of the right to fish.

That the Dominion Government should be empowered to regulate and protect the fisheries, and to make and maintain the works which are the property of the province, and to prescribe the terms and conditions upon which such works may be granted, and which such works may be so granted, it is equally clear that the Dominion Government is not entitled to impose a tax by way of license as a condition of the right to fish.

That the Dominion Government should be empowered to regulate and protect the fisheries, and to make and maintain the works which are the property of the province, and to prescribe the terms and conditions upon which such works may be granted, and which such works may be so granted, it is equally clear that the Dominion Government is not entitled to impose a tax by way of license as a condition of the right to fish.

J. B. SNOWBALL. Catalogues to any address. W. T. HARRIS, 1111, Hamilton, Chatham, N. B.

NOTES AND COMMENTS

The April number of the North American Review contains an article by Mr. M. G. Mulhall, in which the well-known statistician sets forth some interesting data relating to the amount of British capital which is invested in foreign countries.

Mr. Mulhall begins by comparing the principal European countries in respect to their floating capital, under which term are embraced all bonds, stocks and shares that may be transferred from hand to hand at a moment's notice.

There may be misguided people who think that a little girl only seven and a half years old and of exceptionally unusual intelligence should have been engaged in more ladylike pursuits—playing or doing needlework, for example.

According to Mr. Mulhall, the emigrating or overflow capital of the United Kingdom is more than half of the whole world, for which it is, as we have seen, \$2,340,000,000 that of France is but \$2,340,000,000 and that of all the rest of Europe only \$630,000,000.

DANGERS OF MATCH MAKING.

Further reports on the use of the indispensable yellow sulphur matches have been made for sixty-six years and no satisfactory substitute for the highly inflammable chemical product which is the igniting agent has been discovered.

The evils resulting from the use of yellow phosphorus in match factories have been particularly prevalent in Great Britain, where the Government has just issued a Blue Book containing the reports of a committee of Mr. Oliver and Dr. Cunningham, who were employed to investigate the subject.

LEMON BATHS.

Lemon baths are popular in the West Indies. Three or four lemons are cut up and boiled in water for half an hour. The bath is very refreshing.

JACK

Jack was seated in a most precarious position on the top of a small yellow wagon, and was looking out furiously at the crowd of people.

Jack and her spirited team were drawn up comfortably in the parallel rows of the floating capital, which had but \$7,360,000,000 in the shape of floating capital, whereas France, with wealth estimated at \$18,400,000,000 has a floating capital of \$12,100,000,000.

There may be misguided people who think that a little girl only seven and a half years old and of exceptionally unusual intelligence should have been engaged in more ladylike pursuits—playing or doing needlework, for example.

According to Mr. Mulhall, the emigrating or overflow capital of the United Kingdom is more than half of the whole world, for which it is, as we have seen, \$2,340,000,000 that of France is but \$2,340,000,000 and that of all the rest of Europe only \$630,000,000.

LEMON BATHS.

Lemon baths are popular in the West Indies. Three or four lemons are cut up and boiled in water for half an hour. The bath is very refreshing.

It Will Out.

We had all been warned to appear before the magistrates upon the Thursday, but when the Thursday came there was no sign of our intended test.

There may be misguided people who think that a little girl only seven and a half years old and of exceptionally unusual intelligence should have been engaged in more ladylike pursuits—playing or doing needlework, for example.

According to Mr. Mulhall, the emigrating or overflow capital of the United Kingdom is more than half of the whole world, for which it is, as we have seen, \$2,340,000,000 that of France is but \$2,340,000,000 and that of all the rest of Europe only \$630,000,000.

LEMON BATHS.

Lemon baths are popular in the West Indies. Three or four lemons are cut up and boiled in water for half an hour. The bath is very refreshing.

SANS SIGHT—SANS TASTE.

It is seldom that any man, unless he is very full-blooded, breaks out in a rash of indignation, and I assuredly did not.

There may be misguided people who think that a little girl only seven and a half years old and of exceptionally unusual intelligence should have been engaged in more ladylike pursuits—playing or doing needlework, for example.

According to Mr. Mulhall, the emigrating or overflow capital of the United Kingdom is more than half of the whole world, for which it is, as we have seen, \$2,340,000,000 that of France is but \$2,340,000,000 and that of all the rest of Europe only \$630,000,000.

LEMON BATHS.

Lemon baths are popular in the West Indies. Three or four lemons are cut up and boiled in water for half an hour. The bath is very refreshing.

TRINIDAD'S WONDERFUL LAKE.

A law recently passed in Norway makes girls ineligible for matrimony unless they can show certificates of skill in cooking, knitting and spinning.

There may be misguided people who think that a little girl only seven and a half years old and of exceptionally unusual intelligence should have been engaged in more ladylike pursuits—playing or doing needlework, for example.

According to Mr. Mulhall, the emigrating or overflow capital of the United Kingdom is more than half of the whole world, for which it is, as we have seen, \$2,340,000,000 that of France is but \$2,340,000,000 and that of all the rest of Europe only \$630,000,000.

LEMON BATHS.

Lemon baths are popular in the West Indies. Three or four lemons are cut up and boiled in water for half an hour. The bath is very refreshing.

WOMEN LETTER CARRIERS.

Women are employed as letter carriers in several districts of France.

There may be misguided people who think that a little girl only seven and a half years old and of exceptionally unusual intelligence should have been engaged in more ladylike pursuits—playing or doing needlework, for example.

According to Mr. Mulhall, the emigrating or overflow capital of the United Kingdom is more than half of the whole world, for which it is, as we have seen, \$2,340,000,000 that of France is but \$2,340,000,000 and that of all the rest of Europe only \$630,000,000.

The evils resulting from the use of yellow phosphorus in match factories have been particularly prevalent in Great Britain, where the Government has just issued a Blue Book containing the reports of a committee of Mr. Oliver and Dr. Cunningham, who were employed to investigate the subject.

DANGERS OF MATCH MAKING.

Further reports on the use of the indispensable yellow sulphur matches have been made for sixty-six years and no satisfactory substitute for the highly inflammable chemical product which is the igniting agent has been discovered.

The evils resulting from the use of yellow phosphorus in match factories have been particularly prevalent in Great Britain, where the Government has just issued a Blue Book containing the reports of a committee of Mr. Oliver and Dr. Cunningham, who were employed to investigate the subject.

LEMON BATHS.

Lemon baths are popular in the West Indies. Three or four lemons are cut up and boiled in water for half an hour. The bath is very refreshing.

IT'S A STICKER for quality—remember the name—LUDELLA
