JAPAN OFFERS RUSSIA TWO SETS OF PEACE TERMS.

\$750,000,000 and Sakhalien If War Ends Now---If More Fighting Vladivostok and Other Territory Will Be Demanded.

NEW YORK, Aug. 8.—According to a special to the Tribune, Japan will present two sets of terms for the consideration of Russian envoys, according to trustworthy sources. Baron Komura will submit to M. Witte and Baron Rosen a proposition which, in the estimation of Japan, is extremely moderate. In substance it will involve an indemnity of approximately \$750,000,000, the cession of all control of Manchuria and Manchurian affairs and the recognition of Japan's protectorate over Korea. These terms will, however, be made conditional on their immediate acceptance by Russia.

Accompanying this proposal will be an outline of the extremely drastic terms which Japan will feel called on to demand in the event that Russia rejects the primary proposition and compels Japan to continue fighting. What the latter are cannot be definitely ascertained but it is learned that they include the return of Vladivostok and a considerable portion of Russia's possession in Asia. It is declared that the president expressed regret that Japan should consider it necessary to present a second set of terms immediately fearing that they would be regarded by M. Witte and his associates as a threat, but this assertion, while not improbable cannot be verified.

The course of the Russian plenipotentiaries when confronted by Japan's dual proposition can, of course, only be conjectured at the present time but the opinion is held that both parties to the conference will be disposed to yield much before permitting their labors to come to naught appears to be gaining ground.

ALEX. WILSON'S BODY FOUND. Particulars of the Sad Accident in Which Promising Young Fredericton Man Lost His Life.

(Special to the Star.) FREDERICTON, N. B., Aug. 8.—Word was received this morning from St. Clair to the effect that the body of the late Alex. T. Wilson had been recovered and if connections could possibly be made would arrive in Fredericton this evening. Full particulars of the sad fatality have been received. The party were removing their camp, McCallum, Wilson and another man, were following a bateau bearing crew and articles. The canoe bore no sail but began to take in water and McCallum decided to turn back to the starting point. It was very equally and in turning the canoe upset. Each caught hold of some article and Wilson seized a box but in doing so threw up his hands and went under and never rose to the surface again. Those on the bateau knew nothing of the accident until later. McCallum and the others managed to hold on to the canoe until rescued.

LAKE OF WOODS CO. SUFFERS \$150,000 FIRE.

(Special to the Star.) MONTREAL, Aug. 8.—Fire started at 11:20 this morning in the storehouse of the Lake of Woods Milling Co. in the town of St. Louis adjoining Montreal. The fire spread rapidly and was soon beyond the control of the local fire department. Montreal was asked for assistance and all available apparatus from the city was sent out. The property is valued at \$300,000 and up to 12:30, when the fire was under control the loss was estimated at \$150,000, covered by insurance.

ST. JOHN TOURISTS MET THE POPE. Mr. and Mrs. Louis Comeau, of McIntyre and Comeau, arrived in the city this morning on the Maritime Express, after a three month's vacation in Europe. They landed at Quebec on Sunday, having come over in the Athenia. Mr. and Mrs. Comeau had a very pleasant trip, and travelled extensively over the continent, including the British Isles, France, Italy and Belgium.

At Rome Mr. Comeau had an audience with the Pope. They had the privilege of seeing Vesuvius in eruption, and Mr. Comeau climbed up to the mouth of the crater. The sight was a grand one. They visited the Leeds exhibition at Belgium, and there by a strange coincidence they met Mr. Gazon, M. P., of St. Stephen, and had a long chat with him.

DEATHS. SEELY.—At Greenwich, Kings Co., on August 7th, Eva Louise, daughter of Geo. T. and Anna K. Seely, aged 20 years.

DRY DOCK SCHEME HELD UP AGAIN.

Company Can't Make Terms With Property Holders.

City Asked to Help in Securing Fair Estimate of the Present Value of the Land Needed.

Only a very small matter now stands between the Imperial Dry Dock Co. and the consummation of the scheme that will give St. John one of the largest and best equipped graving docks on the western Atlantic sea board. That little stumbling block is the city leased property—occupied by the Gordon mill works and the Steeh-Quinlan concern, stone cutters. Part of this property the Dry Dock Co. will want.

Mr. Robertson had intended going to Montreal tonight, but will be delayed till he can get a statement from the city. The matter is now in the hand of a special committee order that an adjourned meeting of the common council was held this morning, when there were present His Worship the Mayor, Ald. Lewis, Holder, Tilley, Baxter, Sproul, McArthur, Macrae, Bullock, Hamm, Pickett and Recorder Skinner. His worship explained that he had been advised by the recorder that under the present law any debentures issued by the city must be payable at one place, so that they could not issue them payable in both the United States and Canada, or in any two cities in Canada. It has been suggested that it might facilitate the sale of the dry bonds for the water extension if it could be arranged that they could be made payable in different places, but the law will not allow of this.

Mr. Sarah P. Tuck and Mrs. N. McPherson Smith were reappointed to the library commission. The council then adjourned to meet in general committee to hear Geo. Robertson, M. P., president of the Imperial Dry Dock Co. Mr. Robertson briefly outlined the early efforts to equip this port with a graving dock, and the company wish to acquire, and in conclusion said he would ask the council if there is anything that the mayor and corporation can do to assist the Dry Dock Company at this crucial point. Would the city be justified in accepting the sum mentioned when the contract is signed for that property and give a deed?

In reply to a question Mr. Robertson said the deed would have to be for the entire property. If the dock is to be a big success it is to be in the repair work to be done. They might consequently find it necessary to utilize that property so that was why he considered it indispensable. They had no intention to interfere with the right of Mr. Gordon or Steeh, Quinlan & Co. The matter was one for valuers to decide. If the company could be assured of all the land absolutely necessary, it was possible the negotiation could be carried through, and if later they needed it all the company would pay for it.

In answer to a question, Mr. Robertson said the amount of money the company had apportioned for this part of the enterprise was for the whole property and not for a small part of it. Considerable discussion took place over the improvements that have been placed on the property. The mayor wanted to know if it would be possible to say to the holders of the leases on November, 1906, "We will renew the lease except for that strip which the Imperial Dry Dock Co. want."

Mr. Sproul moved that the committee go into private session. The press representatives and Mr. Robertson withdrew without the motion being put. It is understood that a committee consisting of Ald. Pickett, Tilley and Macrae were appointed to deal with the matter.

The matter of the new wharves at Sand Point was also discussed, and there was a feeling that construction on at least one section should begin at once, as there is sufficient material at hand to start with.

Mr. Sproul moved that the committee go into private session.

BIG STORE COLLAPSES; HUNDRED IN THE RUINS.

Plunged Down Three Stories Into Cellar---Number of Dead Not Yet Known, Probably 50--- Many More Injured.

ALBANY, N. Y., Aug. 8.—Three hundred persons employed in the large department store of the John G. Myers' estate, at Nos. 39-41 North Pearl street, had just gone to work this morning when the whole centre of the building collapsed from roof to cellar. Nearly a hundred men, girls and children were carried down in the wreck. The first estimate placed the number of killed and injured at 40. Thus far all those taken out of the ruins have been alive. There is no doubt, however, that when the rescuers reach the bottom of the debris they will find a number of dead. The catastrophe, which is the worst of its kind in the city's history, occurred about 9 o'clock. The Myers' estate has been making extensive repairs on its building. This morning a gang of Italian workmen started to remove an iron pillar that supported the main floor. Evidently they had failed to brace the floor properly, for scarcely had they loosened the pillar when down came all three upper floors within a radius of fifty feet from the fatal pillar. The wreck crashed through to the cellar, carrying down those who happened to be working in that portion of the building. The fire department was called out and the work of rescue began at once.

The scene which followed the collapse is indescribable. Its like has never before been seen in Albany. Most of those injured were young women. The collapse took place at 8:45 o'clock and came without warning. The walls and roof of the centre of the structure forming a mass of debris under which were the unfortunate victims. It is reported at this hour that Robert M. Chalmers, one of the members of the firm is missing. A clerk with whom he was working when the crash came and who escaped said: "He was at my side and then there was the crash and I saw him no more."

There is absolutely no way to get tidings of those in the building. It will take several hours to dig out all of the victims.

ALBANY, N. Y., Aug. 8.—Up to 10:30 a. m. there had been taken from the ruins seventy-five people, half of whom were seriously injured. The manager of the store at that time made the statement that there were fifty more underneath the ruins.

ALBANY, Aug. 8.—Up to eleven o'clock one dead body had been recovered.

CARLETON ELECTION TRIAL BEGAN THIS MORNING.

(Special to the Star.) WOODSTOCK, N. B., Aug. 8.—The election trial resulting from the petition of J. R. H. Simms against the election of Hon. W. F. Jones, by reason of his nomination paper being refused acceptance by the sheriff in February last, was begun today before Judge Barker. Mr. Simms was represented by A. B. Connell, K. C., and Mr. Jones was represented by the attorney general and F. B. Carvell. Legal objection was taken to the petition by the attorney general upon which point the judge reserved his decision. Mr. Simms was on the stand an hour before adjournment and gave his version of the circumstances connected with his nomination paper being refused. He said that he found the Bible missing, although it had been in hand a little previous to when he went out and got another at a neighbors. It was four minutes to twelve when he got back. He gave his papers to the sheriff and the deposit, which the sheriff counted twice, the first time finding only \$88, but the second time he found \$100. He then refused to accept his nomination, claiming that it was after 12 o'clock. Mr. Simms was sharply cross-examined by Mr. Carvell, who still has the witness in hand when the court adjourned for lunch.

\$500,000 NEW YORK FIRE.

Railroad Tunnel Destroyed and Two Ferry Boats Burned—Water Front Was Lighted for Miles.

NEW YORK, Aug. 8.—Inside of three-quarters of an hour late last night, fire swept across the Delaware, Lackawanna and Western R. R. Co.'s terminal in Hoboken, seized upon two ferry boats and practically ruined them and for half an hour threatened a conflagration of the entire waterfront in the vicinity, including the big Hamburg-American and North German Lloyd steamship docks at which several big ships were lying. The property damage is estimated at from \$400,000 to \$500,000. So far as is known no lives were lost.

For over an hour huge tongues of flames leaped from the wooden structures on the Lackawanna docks, lighting the New Jersey and New York water fronts. For a time it promised a loss greater than that of the big dock fire of several years ago when the North German Lloyd piers were destroyed with a great loss of life. Blazing ferries cut from their docks, floated in the river, wandering fire-ships, which for a time endangered shipping on the river. The fire started on an old wooden ferryboat and swept by a northerly breeze communicated with the ferry house, spread to the main building of the Lackawanna and then to the Dukes House, a famous Hoboken hotel. The hotel was a frame structure and was a ready prey for the flames.

IMPROVEMENT AT MEMORIAL PARK.

Visitors to Riverside Memorial Park note a bright change in the appearance of the park monument. Thanks to the kindness of Messrs. Cruikshank and Pedersen, the monument is surrounded by beds of many kinds of flowers. Those in the front were contributed by Mr. Cruikshank, while Mr. Pedersen's flowers are on the other three sides.

The park directors wish to thank these gentlemen for their gifts, and also express their appreciation of an unsolicited gift of \$5 from George E. Day, through whose generosity it was possible to secure the earth for the flower beds.

Considerable grading has been done around the park, and this brightening spot is keeping up its popularity with the public. The directors had intended to buy a piece of land immediately adjoining the park, and to make it a public playground for children, but owing to the fact that Messrs. Hamm and Marvin stepped in and secured a lease of this property, it was impossible for the directors to carry out their philanthropic designs.

NO NEW WHARF FOR NEXT WINTER.

The government plans for the dredging of west side have arrived and provide for one deep-water berth and an approach from the harbor, so that little will have to be done to make ready the three other berths which this city expects to build. The one that it is hoped to get ready for this winter is 850 feet long, but it is considered doubtful if all the work can be completed in time.

E. T. P. Sheven, resident engineer of the public works department, has received the plans and a glance at them shows that the government will have to spend more than the \$100,000 voted.

The tenders close Aug. 15th; the contractor will have a month from that time to begin work and he must have it completed in one year. No alien labor can be employed; wages must be the same as prevailing at St. John. The dredge employed must be registered in Canada.

Some fear is expressed that no Canadian dredge of suitable size can be had.

YELLOW FEVER STILL SPREADING.

NEW ORLEANS, Aug. 7.—Official yellow fever report up to six o'clock p. m.: New cases today, 32; total cases to date, 565. Deaths today, 8; total deaths to date, 113.

New sub-foci today, 4; total sub-foci to date, 97. NEW ORLEANS, Aug. 4.—With the marine hospital service placed in control at noon of the scientific fight to eradicate yellow fever from New Orleans before frost, the campaign against the scourge today took fresh life. With ample funds, the best available medical talent and an army of willing workers at his back, Dr. J. H. White, surgeon in charge, hopes for a successful termination of the struggle. During the day Dr. White received formal orders from Surgeon General Wyman informing him that the federal government had decided to assume the task prepared for it. Dr. White then visited the state and the city board of health, where he arranged for the transfer of control of the work.

It will probably never be possible to estimate the losses which New Orleans has suffered financially through the diversion of business, but the heavy tax on the people by the fact that besides the money already spent by the board of health and the \$250,000 to be raised for the government, thousands of dollars have been subscribed and expended in ward sanitation.

NEW YORK, Aug. 7.—One passenger and two of the crew of the steamer Comus, which arrived from New Orleans this morning, were transferred to Hoffman Island for observation, all of them showing a high temperature. The steamer was detained at quarantine until 6.40 this evening.

Royal Household Flour must be better than all other flours. We will not be satisfied to even share the honors of first place. THIS assertion is not made through any selfish desire to deprive other millers of their right position; but we know that our facilities for producing THE BEST FLOUR are beyond contradiction the finest in Canada. Ours are the only mills where flour is scientifically purified while in the course of being ground, and if you could see the dirt that we take out, and then think of what others must of necessity leave in, you would not long hesitate as to which is best for your stomach. You would quickly agree that HOUSEHOLD must be the best. The OGLVIE FLOUR MILLS CO., Ltd. MONTREAL

FARM LABORERS' EXCURSIONS 1905. Latest advice received to date show that the wheat crop of Manitoba and day report of the Canadian Northwest will exceed that of past seasons, consequently a greater number of laborers than usual will be required to assist in harvest. A farm laborers' excursion will be run from points in Cape Breton and Nova Scotia east of New Brunswick Aug. 15. From all other points in Nova Scotia, and from points in New Brunswick and Prince Edward Island Aug. 15. One way second class tickets to Winnipeg will be sold from coupon ticket stations. The rate from points on C. P. R. lines in New Brunswick will be \$12.50 going and \$18 returning. From points on I. C. R. lines in New Brunswick and Nova Scotia, also from points on the D. A. R., the rate will be \$13 going and \$18 returning. From points on the P. E. I. railway the rate will be \$13.50 going, \$19.50 returning. Tickets will be sold to female as well as to male laborers. Tickets will be sold at half rate to children. With each ticket purchaser will be given a farm laborers' verification certificate and an extension coupon. At Winnipeg the special trains will be met by farmers and by representatives of the Manitoba government. Laborers will engage at Winnipeg, and on presentation of extension coupon signed by a farmer stating that the holder has engaged to work for him as a farm laborer, ticket agent will issue free ticket from Winnipeg to C. P. R. station nearest the point where laborer has engaged to work, and on arrival at such station laborer must deposit the farm laborers' verification certificate with the C. P. R. agent. If anyone has made prior for him as a farm laborer, ticket agent will issue free ticket from Winnipeg to C. P. R. station nearest the point of work, provided such point is not beyond Moosejaw, Yorkton or Estevan, as free tickets will not be issued nor baggage checked to points beyond these stations. After laborer has worked for at least thirty days and has certificate signed by the farmer with whom he has worked, such certificate will be honored prior to ticket, and on return to Winnipeg, and on return to starting point on payment of the return rate shown above. One hundred and fifty pounds of baggage, weighing apparel only, will be allowed on each ticket, and each piece of baggage checked should bear the name of the owner and show their permanent address. It will be readily understood that some difficulty will be experienced in handling some thousands of laborers to one station, and some delay may occur in the delivery of baggage. Therefore, when possible, baggage should be carried in hand grips, and these passengers should take in the cars with them. They should not be checked. It is expected that special passenger trains (particulars to be announced later) for the accommodation of laborers will be run on the main lines, and tickets will not be accepted on regular trains. All further information will be supplied on application to F. R. Perry, D. P. A., C. P. railway, St. John, N. B., and intermediate stations, who should notify nearest ticket agent at once.

MRS. J. W. MANNING'S NEPHEW MURDERED BY HIGHWAYMEN. WOLFVILLE, N. S., Aug. 7.—T. W. Bigelow and Mrs. Joseph Kempton of this town have just received the sad news of the sudden death of their nephew, Thomas W. Cook, son of the late Thomas C. Cook of Canis, at Fruitvale, California. He was in charge of the business of his brother, Frank Cook, during his absence on a vacation to his home in Canis, and was returning to his home on Saturday evening for home, carried a large sum of money. He was struck on the head by a man, whose name is not known, and he fell senseless and was robbed. When discovered he was taken to the hospital, where he died. His sister, Mrs. Edna Cook Harper, and his nephew, Mr. J. W. Manning of St. John.

SPINAL MENINGITIS EPIDEMIC. HALIFAX, Aug. 7.—There is an epidemic of cerebro spinal meningitis in Lunenburg county. It appeared in the town some time ago, and now it is prevalent in Bridgewater and vicinity. So far there have been five deaths from the disease. All the victims have been boys. It is children who have been attacked, except in two cases, one a youth of about fifteen and the other a man of about 35 years. The children who have died are two sons of Capt. E. B. Manning, a son of Michael Griffin, a son of Dr. Stewart and today a son of F. W. Clark. All the deaths have occurred within a very short time after the moment the disease appeared. The local board of health has ordered a quarantine of infected places, and the Sunday schools have been closed.

ENGLISH OFFICERS FOR CANADIAN TROOPS. HALIFAX, N. S., Aug. 7.—It is known in military circles in Halifax that the dominion government is applying to the imperial authorities for officers for the artillery engineers and ordnance corps, which will be required when their new garrisoning force is established. Imperial officers would not be needed for the infantry and they are not asked for. A rumor has been prevalent for some days that the imperial troops in Halifax would leave this station on Sept. 15th. The rumor is not accepted in the highest military circles here. No officer has heard anything at all to confirm it. One officer told your correspondent that he believed there would be no transfer of months.

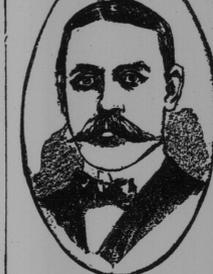

CHILD DIES FROM OVERDOSE OF MEDICINE. More Salmon Caught With Files on St. John River, Below Woodstock. FREDERICTON, Aug. 7.—The year and a half old son of Mr. and Mrs. Robert Wandless died suddenly yesterday afternoon at 5 o'clock with service at the cathedral. It has been fully demonstrated without a doubt that salmon can be caught in the St. John river below Woodstock with files. Local anglers fishing at Hart's Island during the past week have proved this fact. Quite a large number of fish have been taken out all together and this sport promises to continue this week. This morning Harry Atherton succeeded in landing a good salmon and Harry Chestnut also had one, but lost his cast, after playing the fish for some time. The drifting by people has been stopped and excellent sport is promised.

MORE LUMBER WAR. Situation at Chamberlain Lake Grows More Serious—Twenty Feet of the Dam Destroyed by Dynamite. CHESUNCOOK, Me., Aug. 7.—It is stated by a messenger from Chamberlain that a more serious condition of affairs exists there, between men supposed to represent lumber companies along the St. John river and the Marsh & Ayer Co., who represent the East Branch Improvement Co. of Maine. On Friday last, it is learned, the men blew up the dam for some twenty feet near the gates with dynamite. The messenger said the lumbermen expected serious trouble to occur should any other attempt be made to release the water. It is stated that the names of the men who used the dynamite are known, and attorneys are prosecuting enquiries, with a view to arresting them. At present the Marsh & Ayer employes are sufficiently in the majority to control the situation, but should additional opposition appear, a clash will occur. The St. John river mill men say that the State of Maine had no authority to grant a charter giving any concern the right to divert water which would flow naturally into a river running through the two countries, to another river which does not touch territory of either of the states. The scene of the trouble is more than a hundred miles by river from the New Brunswick water and is nearly 200 miles by that route from Van Buren in the place where the clash over obstructions in the St. John river occurred.

ROYAL ARCANUM RATES CONSIDERED. BOSTON, Aug. 7.—W. O. Robson, supreme secretary of the Royal Arcanum, announced tonight that the supreme council will meet at Put-In-Bay, Ohio, on Aug. 20 to consider the developments growing out of the establishing of new rates. Forty-two representatives from the grand councils have signed a request made to Supreme Regent Wiggins that a special session be held.

INSPECTOR DAMERY IN MURDER TRIAL. The shooting of Detective Fraser by Joseph Evans of Somerville, Mass., brings a St. John man, Inspector Damery, brother of Proprietor Damery of the Park Hotel, into the Evans murder trial. Fraser along with Damery and another man, John J. O'Connell, accompany Allan Barber, who wanted his wife, who had deserted him and was keeping house for Evans. Fraser went in and grappled with Evans, who shot him through the heart. The others rushed in and disarmed Evans. Fraser was married and lived in Roxbury, Mass. He was born in Plover, N. S., and for many years followed the Evans was arraigned in the Somerville court and pleaded not guilty. The case will be continued Aug. 12th.

STEAMER SUNK WITH 180 ON BOARD.

INDIANAPOLIS, Ind., Aug. 7.—The excursion steambreak Sunshine sank this afternoon at Broad Ripple park, ten miles from the city, with 180 passengers on board, all of whom were men except one, a woman, who was rescued by a launch. No one was drowned, but several were injured in the panic. The boat piles on the back water of Broad Ripple dam on White river, and was carrying a picnic party consisting of employees of the Indianapolis stock yards. The overweighting of the boat caused it to turn over on its side and the superstructure broke from the hull. The water is 14 feet deep in the channel, but the boat was near the bank when the accident occurred and in but seven feet of water. The upper deck remained above the water. Five persons were more or less injured. Persons in launches and canoes took a number of people from the water. The greater number clung to the upper deck, which was not submerged, until taken ashore by boats. Ungar's collars and cuffs have no rough edge.

BAPTIST CONVENTION THIS WEEK.

The Maritime Provincial Baptist Convention opens at Charlottetown on the 19th of this month. All the churches in this city will probably be represented. From Germain street church the delegates will be Rev. Dr. Gates, T. S. Simms, W. H. Colwell, W. C. Cross and W. F. Nobles. Other clergymen from this city will be Rev. Christopher Burnett, Rev. David Hutchison and Rev. Perry J. Stackhouse. Rev. J. A. Manning will represent the P. M. Board and E. S. Spill the Messenger and Visitor. All the delegates will pay their own expenses. Previously the churches in the convention city provided entertainment but it was considered that the load was too heavy. The programme in brief is as follows—Saturday after election of officers, a discussion of the foreign mission situation. In the evening a public meeting at which a number of returned missionaries are expected to speak. On Sunday, the annual convention sermon will be preached by Rev. W. F. Parker of Windsor, N. S., or in his absence by Rev. Mr. Burnett. On Monday report of Acadia College will be read. On that evening there will be a platform educational meeting. Tuesday will be devoted to home missions.

The Pandora Reservoir. The Pandora is the only range with a reservoir stamped in one single piece of steel and enamelled. It is the only reservoir without seams, rivets or places to catch dirt. It has no sharp angles. All angles are made with rounding curves, and the whole reservoir is beautifully enamelled. McClary's are the only range makers in Canada with a plant for making enamelled steel reservoirs, and that is why the Pandora is the only range that has a one-piece reservoir. McClyary's Pandora Range. Warehouses and Factories: London, Toronto, Montreal, Winnipeg, Vancouver, St. John, N.B., Hamilton.

SERVICE NOT SATISFACTORY.

People on the Paradise Row Line Find the Present System Inconvenient and Want a Change.

The new Paradise row street car service is not meeting with any immense amount of approval by the people along City road, Winter street and the neighborhood, who make most use of the line.

The old time service was three cars on the route from the head of King to the corner of Main and Paradise row. This service, however, has never been satisfactory to its patrons, and they have time and time asked that four cars be put on the route. This request was granted by the company quite lately, but not just in the way that was expected. Instead of stopping at the old terminus the cars ran along King, Dock and Mill streets, thus making a loop.

Theoretically the new arrangement was a good one. A lot of transferring was done away with, and a better service given in other ways. For instance when getting on a car on Union a person going towards King and wishing to go out to the North End might have an opportunity of getting on a yellow or green car running along Prince William street, instead of being limited to the red line as before. The cars had long waits at the crossings, however, did not work well, and the service in many cases got very much balked up.

Next came a new plan, the present one, which those interested say is the worst of them all, namely, to run all cars in one direction, along Paradise row, Dock, Mill, King and around. This service has now been in use two or three days, and if the company are doing it as an experiment, as has been hinted, the people along the line will be glad when the experiment is over. The cars keep a worse service than ever. Instead of a five minute interval between cars there is at times a half-minute, and again a half-hour wait.

Not only this, but the new plan would be a great inconvenience even with a regular service. A man on Winter street who now wishes to reach Haymarket Square must make a tour of the city. The Wall street women and children who patronize Seaside Park, tired and hungry after a day's outing, are forced either to get off at Hawker's corner and walk or make the same journey through the business sections. The management, however, had the good sense to go back to their old arrangement in handling the Sunday crowds.

When regular patrons were asked what system they consider the best, their answer was that the old three-car system is much to be preferred to the present. Double track the whole of the loop and run cars both ways around would be the ideal way. At present, however, it would be satisfactory to have the old branch service again, but with four cars instead of three.

The people who find it convenient to board the car on City road near Water street bridge think they have a kick of their own coming, for with the cars all running in one direction, that part of the line is not used, and intending passengers are compelled to walk to Paradise row and Wall street corner for a car.

SOCIAL CONDITIONS IN ALASKA. The Eskimos of Alaska are not yet beyond the stone age. They make their arrows and spear heads from flint, and stone lamps, hammers, chisels and knives are still in ordinary use. Fish lines and nets are made from whalebone or sinew. A large shallow dish of earthenware or bone, filled with seal oil, serves for both lamp and stove; a piece of blubber is hung above the flame, and its dripping keeps the flame replenished. The Eskimos have but few household utensils, these consisting mainly of grass-woven baskets and bowls of wood and stone; in these rude dishes water is boiled by dropping in hot stones. But among the northern tribes the food is usually eaten raw and nothing is thrown away, no matter how bad it may be. All classes have a craving for tobacco and whisky. Even the babies may be seen with a quid of tobacco in their mouths.

"Are your papa and mamma at home?" asked the caller. "No," replied little Marguerite; "one of them may be, but they never are both at home at the same time."—Chicago Record-Herald.

ST. JOHN STAR.
ST. JOHN, N. B., AUGUST 7, 1905.

BILL-BOARDS DON'T PAY.
A society has been in existence for
ten years in the United States whose
object has been to preserve the natural
beauties of the landscape from the de-
struction of the ubiquitous bill-board
whose glory it has been to make rocky
cliffs and splendid waterfalls and
beautiful groves proclaim in lurid, ele-
phantine letters the virtues of pain pills
for peculiar people, lotions for pre-
mature balditude and decoctions of var-
ious names and colors guaranteed to
cure everything including original sin.

Until recently it cannot be said that
the society has met with notable suc-
cess in its efforts to prevent this de-
famation of nature's temples, but dur-
ing the last year its agents report a
great decrease of energy in the cam-
paign of these soulless knights of the
pastebrush. And the cause of this set-
back to the poster-banners is one
which, while the society may not claim
the credit, is calculated to make them
and all lovers of nature unadorned to
rejoice; for it means that the reform is
permanent.

The reason is that the big advertisers
who have tried this method of publicity
most faithfully have proved that it
does not pay.

The fourteen largest advertisers in
the United States firms which spend
from two hundred thousand to a mil-
lion dollars in informing the public of
the quality of their wares have either
discontinued poster advertising
altogether or have greatly reduced their
appropriations to be spent in this
way. One and all have declared that
they regard it as an unprofitable way
of advertising, although some claim-
that if the advertiser had no purpose
beyond impressing the name of an ar-
ticle, it had its advantages. One firm
which spends \$1,000,000 a year in Can-
ada and the United States does not
use a single bill board in either coun-
try, but spends nearly one-half of its
Cuban appropriation in that fashion.

The reason given is that the compara-
tive illiteracy of the Cubans is best as-
saulted by sign boards. From this it
may be inferred that intelligent adver-
tisers who use sign boards desire to
address themselves to the more illit-
erate portion of the community. As illit-
eracy is decreasing, we may expect
advertising appeals to this class to de-
crease also. Street car advertising
was also unfavorably reported by the
same firms, and is classed with poster
advertising generally.

The verdict of every advertiser who
has had experience with all kinds of
publicity is that no other system
brings the results that follow a per-
sistent and intelligent use of newspapers
and other periodicals that go into the
homes of the people daily, weekly or
monthly and are read, more or less
faithfully, by every person in every
home who can read.

Speaking of newspaper advertise-
ments we may be pardoned for men-
tioning that the Star is fond of pub-
lishing them and that we distribute
daily from 6,000 to 7,000 copies of the
paper, about seven-eighths of which
find their way into the homes of the
purchasing people of this city.

It is suggested by the Transcript
of the Intercolonial, held by the late Mr.
Price, may be abolished, thus effecting
a saving. Judging by the past it
is much more likely that two new of-
fices will be created. The list of heads
of departments and inspectors has
steadily grown during the last pub-
lic years. We may look for further in-
creases in the number of officials and
likewise in the size of the deficits.—Sun.

If some of the Star's zealous con-
temporaries would devote less time and
attention to the search for flaws in this
paper and more to the pursuit of news
on their own account they might, some
day, have less reason for envy.

As soon as Roosevelt gets Japan and
Russia reconciled he had better take a
run up to the head-waters of the St.
John river and see what these lumber-
men are squabbling about. Dynamite
is a dangerous plaything for angry
men.

SOSA'S CURTAIN SPEECH.
Mr. Sousa, the famous band conduc-
tor, hates public oratory, and never, if
he can help it, makes a speech in pub-
lic. After one of his performances in
Cork his audience kept clamoring for
a speech, and refused to be satisfied
with the usual bow. Finally, Sousa
stepped to the front of the platform
and, raising his hand, said impressively:
"Ladies and gentlemen, can you
hear me?" There was the usual "Yes."
"Then I wish you good night," replied
the conductor, and promptly walked
off the stage.

THE UNTIMELY ENDING OF A
HARVARD ORATION.
A Harvard sophomore was reciting a
memorized oration in one of the classes
in public speaking. After the first two
sentences his memory failed, and a
look of blank despair came over his
face. He began as follows:
"Ladies and Gentlemen: Washington
is dead, Lincoln is dead"—then forget-
ting he had been heated a moment and
continued, "and—I am beginning to feel
sick myself."

NELSON'S FAREWELL.

Lord Nelson's farewell to England
on the eve of the battle of Trafalgar.
(By Sir Tolemache Sinclair, Thuro, Calneith).

Grand are the thoughts of thee, words
of thee, deeds of thee,
Charming at sunset, thy shores bathed
in foam;
Ah! my heart warms to thee, beats for
thee, clings to thee,
Welcome my country's call, England!
dear home!

Beautiful the hills of thee, vales of
thee, lakes of thee,
There shall no foe man victoriously
roam,
Ah! I've borne grief for thee, pain for
thee, wounds for thee,
I've ever toiled for thee, England!
dear home!

Europe now looks to thee, sees to thee,
cries to thee,
Says: "We're all slaves but thee,
read our sad doom;
Oh! send us leaders from thee, troops
from thee, fund from thee."
Our triumphs will free thee, Eng-
land, dear home!

Just is the sway of thee, rule of thee,
World-wide thy fame, thou'rt far
greater than Rome;
Thy sons give gold for thee, blood for
thee, lives for thee.
Base rivals thee slander, England!
dear home!

I love the men of thee, dames of thee,
tombs of thee,
I cherish each spot of thee—house,
tower and dome;
Thy sons' hearts thrill for thee,
glow for thee, thrill for thee,
"Each will his duty do," England!
dear home!

Fondly I muse on thee, long for thee,
yearn for thee,
O'er all I adore thee I was born in
thy loam;
Oh! I'll think of thee, pray for thee,
fight for thee,
I'd even give my life for thee, Eng-
land, dear home!

The Nile's battles fought for thee,
gained for thee, prized by thee,
"Thy victory—Westminster, or St.
Paul's dome."
Poets to thee may win, they shall
see far from thee,
Trafalgar we'll win for thee, Eng-
land, dear home!

The centenary of the victory of Tra-
falgar and the death of Nelson falls
to be held this year, when celebrations
commemorative of the event will take
place on the 21st of October. Sir Tol-
emache Sinclair has written the above
verses, which have been set to music
by Mr. Denham Harrison, and which
were lately sung at a matinee in Lon-
don.

LARGE AUDIENCE PLEASED.
A large audience followed the many
exciting incidents of the melodrama
When Women Love, which was given
last evening at the Opera House, by
the Frank W. Nason Company. The
play was full of human interest, from
start to finish, and the enthusiasm of
the playgoers stamped the production
as a success. One of the most mem-
orable scenes of the play was that of
Joseph Galloway, who was with the
Sheeley-Youngs Company, gave a man-
ly portrayal of the lawyer juvenile, the
object of his affection, and the lady op-
ponent all the trouble hinges—Madge
Carleton, was sustained by Ada Green-
haugh. This lady was prone to chant
her lines a little too much, but never-
theless secured plenty of applause and
sympathy. Theo. V. Rennie, as the de-
fective, hit the popular taste, his many
disguises being cleverly effected. H.
Wilson was hardly a success as a miser,
his laugh being too frequent and too
forced. Beattie Dainty, as Josie Burd-
ham has a name that describes her
performance and appearance. The
rest of the cast is in capable hands.

WALTHY N. Y. CHURCH BURNED.
NEW YORK, Aug. 8.—St. Thomas'
Episcopal church, at 5th avenue and
58th street, one of the most richly fur-
nished religious edifices in America was
wrecked by fire today. Within a
block of the burned church are the
homes of a half a score of the country's
wealthiest men. On 54th street, direct-
ly in the rear, is the city residence of
John D. Rockefeller, H. McKay Twombly,
Col. J. J. McCook and the home of
the late Daniel S. Lamont. The
hotel St. Regis is scarcely a block
away and scores of the finest city
homes in America are in the section
of which St. Thomas' church was
practically the centre. The fire was
confined to the church.

LAW'S DELAYS PROVOKE LYNCHING.
WACO, Tex., Aug. 8.—At 2 o'clock this
morning mounted citizens numbering
six hundred surrounded the court
house and jail and after making pris-
oners of Sheriff Riley, the jailer and all
the deputy sheriffs, broke open the jail
took Hank Majors, colored, out and
after hearing his confession hanged him
from the new bridge.
Majors had recently been convicted
of criminal assault and given the death
penalty, but had been granted a new
trial.

LOCAL NEWS.

A monster blueberry excursion and
Foresters' picnic will be held at Wey-
ford Station on Thursday, the 17th
inst. Trains for the conveyance of
persons from St. John and points along
the C. P. R. will leave at different
hours during the day. The ladies of
the Wesleyan Methodist Church will
furnish meals for those attending. A
sight of Weyford Falls and Dou-
glas Mountain, which are special at-
tractions, will well repay any who
take the trip.

The annual picnic of St. David's
Presbyterian Church and Sabbath
school will this year take the form of
a mid-summer social on congregational
picnic. It was decided to hold the
picnic on the 24th of August, but
owing to the harvesters' excursion the
management cannot handle it on
that date. It is therefore neces-
sary to make a change. The picnic
will now be held on Saturday, August
13th at Westfield.

The smallpox patient, Harvey, now
in the isolation hospital, will be dis-
charged in a few days. He has never
been very sick, but the disease has
had to run its course. These cases
of very costly affairs for the Board
of Health, and though this one will
cost less than any former single case,
the bills will probably amount to
something over \$400.

Stetson, Cutler & Co. are unable to
state just when work will be com-
menced on the pulp mill, for there is a
lot yet to be done before the plant is
in proper order. It is the intention
of the company to practically double the
capacity of the pulp mill, and for this
new machinery has been ordered. Some
of it has already arrived and is being
set up, while more is to come. The
greater part of the wood to be used
will be brought from Musquash and
down there a long chute is being built
from the lake into the landing place. At
the lake a plant will be installed for
cutting the pulp wood into the requir-
ed lengths.

Rev. H. A. Cody, Anglican clergy-
man who is home from Yukon terri-
tory visiting relatives and friends up
river, will not return to his new charge
at White Horse alone, for on Sept. 13
he is to be married to Miss Jessie
Flewelling, daughter of Albert Flewelling,
Oak Point. Miss Flewelling is one
of the fairest and most popular
young ladies on that side of the river,
and has been active nearly all her life
in Sunday school and church affairs.

Rev. Mr. Cody is also much respected
in his old parish, his departure from
which was much regretted by the peo-
ple.

Six hundred would-be beauty pres-
ervers assembled yesterday afternoon in
the York Theatre to hear Dr. H. R.
Whitson's first lecture on how to
be beautiful though ugly. The lecturer
didn't give many secrets away during
the two hours he was speaking, mere-
ly pointing out the importance of
beauty, and the reasons why women
should be beautiful.

The directors of Rockwood Park
have decided to improve the entrance
from Mount Pleasant avenue, and
this will be the principal item on the
agenda for the autumn's work.
From the end of the avenue a road-
way now runs to Lily Lake. This
road is narrow and has on one side a
high rocky wall, while on the right is
a bog. It is the intention to cut
away some of the rock, enroach on
the bog, make a wide and attractive
driveway to the lake.

At a meeting of Mount Purple, L. O.
at Lorneville, last evening, the fol-
lowing officers were elected and instal-

William G. Galloway, G. M.; George
McIntyre, Sec. Rec.; William F. Galbraith,

SIR HENRY MORGAN, BUCCANEER

By CYRUS TOWNSEND BRADY.

Author of "The Southerners," "For Love of Country," "The Grip of Honor," Etc.

COPYRIGHT, 1905, BY G. W. DILLINGHAM COMPANY

SYNOPSIS OF PREVIOUS CHAPTERS.

Sir Henry Morgan, a notorious buccaner, who had been knighted by King Charles II. and made vice-governor of Jamaica, was deposed by King James and ordered into arrest. Morgan admitted the two officers who came to take him, slew them and made his escape. With the help of one Benjamin Hornigold, a former assistant in his pirating, he collected a gang of a hundred cut-throats in Port Royal and announced his intention of holding his flag again. Hornigold actively aided him because he hopes in this way to get Morgan in his power and exact a horrible revenge for his brother's death. The buccaner had hanged.

After capturing the Mary Rose Morgan and his gang got safely past the forts with their prize, firing a broadside as they pass. During the next ten days the Mary Rose sailed south while Morgan drilled his crew. The frigate was captured in their lot with Morgan and walking the plank. Nearly all joined the buccaner. That venture in actual piracy, and he found it unprofitably pleasant. The officers, too, were all suspicious of one another. As each one nursed his own private designs he suspected the others of doing likewise and with respect to there was as yet little outward friction among them. Ravensau, for instance, was most scrupulously polite to the captain and his associates. Vessers was too stupid in his cupidity to be generally in them to do more than growl, and the Brazilian had all the capacities of his race for outside concealment. Although the necessary orders for working the ship were obeyed and Morgan personally imposed implicit obedience and respect, the crew was as much as they could be made to do. During the day when not at work or at drill they drank, smoked, gambled, and fought at pleasure, although, as the captain mercilessly exercised them during long hours at the great guns and with small arms, they did not have any too much leisure for play. During the night they kept watch and watch, of course, but in it all they took no care of the ship, and silt and dirt abounded. If they were called upon for long cruise things would necessarily have to be done differently, but as they had gone far to the southward now and might make a landfall at any moment there was no necessity for hurrying about mere cleanliness. Morgan had not communicated his ultimate purposes to his men as yet, but as he was the only navigator on the ship he was perforce allowed to have his own way. Breakfast had been served—a meager breakfast it was, too, for all hands were on short allowance and everything but spirits, and account of the unapproved state of the ship. Fortunately for their contentment there was plenty of rum on board. The men were congregated forward on the fore-castle or in the waist, wrangling and arguing as usual. The officers gathered on the quarter deck, and Morgan paced the high ridge of the mainmast. When the lookout suddenly reported three sail in sight. The half drunken sailor who had been sent aloft at daybreak had not neglected his duty, for almost as soon as he made his report the ships were observed from the deck of the frigate. The Mary Rose had the wind on her quarter, her best point of sailing, and she was covered with canvas from her tracks to her decks, from her sprit yard to her huge mizen crossjack, a lattice sail. The wind was light, but she was making good way, and the approaching strangers, who, with their landward tracks aboard, were beating up toward the English.

Attended by the maroon, Morgan, pistol in hand, went forward to the fore-castle, kicking his way clear through the canvas, black broad mass of weather. He ran a short distance up the weather fore shrouds and took a long look at the strangers. They all flew the yellow flag of Spain. One was a huge galleon, the other two smaller ships, though larger in each instance than the Mary Rose, and all heavily armed.

One of the plate ships from Porto Bello was due in this latitude about this time, and Morgan instantly surmised that the galleon was also and that the two others were Spanish frigates to give her safe convoy across the ocean. Spain was at peace with all the world at that time, and the two frigates would have been ample to ward off the attack of any of the small privateer craft which had succeeded the buccanier ships of the Caribbean. The Spaniards had no idea that such a venture as Morgan was about; therefore, although they had sighted the Mary Rose long before she had seen them, because they kept better watch, they became so fearlessly and without hesitation. It was evident to the experienced officers among them that the vessel was an English frigate, and as England was a country with which there was profound peace at the time they apprehended nothing.

The position of the approaching ships with reference to one another was somewhat peculiar. The first and smaller frigate was perhaps half a mile ahead of her consort, who were sailing side by side, a cable's length apart. Morgan at once determined to attack them. He knew that he possessed the handiest ship, and he believed that he had discovered a way to master the other three. The two frigates were the most dangerous antagonists. If he could dispose of them the galleon would be at his mercy. He did not hesitate to recognize such odds, and

from the Spanish frigates close behind on the port tack, were now within hailing distance. As they approached each other the buccanier could see that the other ship was crowded with men. Among her people the flash of sunlight upon iron helms denoted that she carried a company of soldiers. The Spaniards were entirely unsuspecting. The men had not gone to their quarters, the guns were still secured—short, save for the military trappings of the soldiers on board and the tumbled muzzles of her cannon she was in appearance as peaceful a vessel as sailed the seas.

The two ships were near enough now to make conversation possible, and the Mary Rose was hailed by a tall, richly dressed officer in glistening breastplate and polished steel cap standing on the fore-castle of the other ship. "What ship is that?" he cried in broken English. "This is the frigate Mary Rose." The usual answer to the question was, "This is his Britannic majesty's frigate Mary Rose," but the Spaniards suspected nothing as Morgan continued, "carrying Sir Henry Morgan, some time vice-governor of the island of Jamaica."

"I have the honor to wish the vice-governor a very good morning," answered the officer, "and I am sorry to see you here. I have just been ordered to take you to the galleon, but she'll never get there—from Porto Bello!" A perfect yell of delight drowned his further remarks. The men shrieked and shouted and hurrahed at the joyful announcement, as if all they had to do was to go aboard and take the ships. When the hullabaloo had subsided, Morgan continued: "I'm glad to see you take it so bravely, for while there is treasure enough on the ship, the great one will be one of the plate ships homeward bound—but she'll never get there—from Porto Bello!"

The trout aquarium of Andrew McIntosh, Marsh road, in the source of the lot of fine bargain underwear are the attractions at Mr. R. A.'s tomorrow for men and youths. Great chance to stock up for vacation trips.

The matter of the proving in solemn form of the will of the late Martin Ring came up at eleven this morning in probate court. The case was adjourned until the 14th of August to allow those who are opposed to the will to decide whether they would file allegations.

A particularly dangerous hole in the wooden pavement on Mill street, Mill street, in the Red Rose tea building entrance, will certainly cause a serious accident to horses if not attended to at once. It is about three feet square and the blocks all around it are loosening.

A number of the friends of Dr. and Mrs. E. S. Price invaded their home last evening and made merry during the evening. The occasion was the tenth anniversary of the marriage of Mr. and Mrs. Price, and as a result of the visit of their friends last evening they have now twined enough to last them all their lives.

Bruce Farris, son of Hon. L. P. Farris, arrived yesterday from theington state, where he has been employed for the past four years. He is here to attend the wedding of his brother, J. Wallace Farris, who is expected tomorrow from Vancouver and who will be married at Wolfville next Wednesday to Miss Evelyn Kierstead, daughter of Dr. E. M. Kierstead.

It is understood the Canada Street Car Advertising Co. has taken over the business of the organization headed by Mr. Purcell, who is well-known in this city. This company is a very large and important concern and practically controls the street car advertising in Canada. Many of the foreign cards seen in the cars now have been placed on the contracts of this corporation.

Dick Tibbitts did some heavy batting in the game against Coatesville, Pa., Monday, when Altoona won, four to three. Tibbitts had three of Altoona's nine hits, his batting being the heaviest in the game. One of his hits was a two-bagger. Tibbitts also had two put-outs, an assist and no errors. He is playing left-field for Altoona, which still occupies sixth place.

Joseph D. McCarthy, of this city, a former U. N. B. student and lately a student of St. Joseph's University, Memramcook, will leave here about the 28th inst. for Washington, D. C., where he will enter the Paulist Order to qualify for a Paulist missionary priest. Mr. McCarthy is a son of J. E. McCarthy, King street. He made a good record as a student both at the U. N. B. and at St. Joseph's.

The Massachusetts knights who are to visit the local lodges this week, will arrive here on Thursday afternoon. They will be met by a delegation representing the local knights. On Friday afternoon they will be given a sail on the river and in the evening they will be the guests at a reception in Castle Hall. The visitors—of whom there will be about two hundred—will leave for home on Saturday, being escorted to the boat by members of the Uniform Rank and a band.

BOOT BLACKS MUST CLOSE.

Pending Decision on Appeal Case Magistrate

Wants Sunday Workers Reported— Urges Police to Show No Favor.

Magistrate Ritchie asked this morning as to whether any of the officers had any reports to make of any of the shoe-shining establishments being open on Sunday last. The majority had, he understood, closed their shops, but it had been represented to him by one of those who closed, and who called on him at his house on Sunday, also attending the court again yesterday, that those shoe-shiners who were fined last week, and who had given notice of appeal through their lawyer, had again opened their places of business on Sunday last. It was a wrong impression of their that because they had appealed against his decision, they could keep open until the appeal was decided.

His honor exhorted the officers to show no favoritism in reporting any one, and asked to have the names of those who were opened last Sunday before the court.

The magistrate then paid a tribute to the London, England, police and asked whether the number of men in that force were commensurate with the population of London. If it was not for the fact that the people themselves had the utmost respect for the majesty of the law, in the form of a policeman, with a helmet on, a badge of office, and a baton, which was known by another curious name (truncheon). He was quite aware of the fact that St. John's were woefully under-policed, but even if the number was doubled, they would be of very little use at any time in order to police the whole 4,000 people who live in St. John, should the respect which the public had for the police force be lost by acts of favoritism. His honor in concluding said that he himself when trying a case did his best to shut his eyes as to whether those before him were colored or white, rich or poor, meeting out justice without distinction.

MACAULAY WON'T TELL.

Man Nearly Killed in Carleton Refuses to Reveal Names of His Assaulters—He Has Been Threatened.

The police are still making enquiries into the affray which took place on board the schooner in question at West St. John, last Wednesday evening, and which ended almost fatally for Samuel Macaulay, the greatest difficulty being experienced in getting anything definite as to what occurred, as the injured man absolutely refuses to give any information whatever as to how he came by his injuries, or by whom he was thrown into the water. There is no doubt in the minds of the police that the man has been threatened as to the consequences of giving certain well known parties away, or receiving a considerable monetary inducement to keep quiet.

There is no doubt whatever that Macaulay was very roughly handled on board the schooner in question by two men who are well known to the police, and afterwards thrown overboard, where he was on the point of sinking when rescued by a man from another schooner. The police have an admission that Macaulay was assaulted, but as the latter won't prosecute, and there were, as far as can be ascertained, no independent eye witnesses of the affair, it will be a difficult matter to bring the offenders to justice. However the police have not lost all hope yet.

CROWDS AT BISHOP'S PICNIC.

The day opened gloriously for the Bishop's picnic but during the forenoon, the clouds gathered with signs of rain. The weather, however, seemed to have little effect on the crowds and it is calculated that between 1,400 and 1,500 people took advantage of the day's outing.

Three trains were run at 10 a. m., 12:30 p. m. and 2:30 p. m. The first excursion had perhaps the jolliest crowd on board consisting of as did principally of boys and girls. The boys gathered at St. Malachi's school and the girls at St. Peter's and leaving at 9:30 they marched in procession down King, Mill and Dock streets headed by the City Cornet Band. The windows in moulders' strike at the Enterprise foundry on board the schooner in question by two men who are well known to the police, and afterwards thrown overboard, where he was on the point of sinking when rescued by a man from another schooner. PHOEBON W. GOT THIRD MONEY.

There has been considerable speculation as to just what Phoebon W. did in the Waterville races. The associated Press reports did not mention the horse, while private advices said he got a slice of the money. The Star wired E. P. Mayo, the secretary of the Waterville Trotting Association, asking for a correct statement. Mr. Mayo wired back that Phoebon W. won third money in the free-for-all. He was second twice and third twice. The best time was 2:11.

POLICE COURT.

There was practically nothing doing at the police court this morning, three drunks being quickly disposed of by one of them being fined eight dollars with the alternative of two months in jail, the other two getting off with fines of four dollars each or ten days.

James Connors was arrested after midnight last evening at the Victoria hotel and last night he was on King street when Connors came along and grabbed him, at the same time using very insulting language. The prisoner, through his counsel, E. S. Ritchie, admitted using the language, but denied taking hold of Mr. Furey. He also said he had been drinking. He was fined eight dollars or two months for the language.
