Youths Long Pant Suits \$3.95 to \$13.50. Boys' Suits any of Description

**J. N. Harvey,** Clothing and Tailoring, Opera House Bldg

## DOES NOT THINK CANADIAN CHURCH UNION PRACTICABLE

**Sir Robert Perks Says That Sentiment Among British, American and Some Canadian Methodists is Against It—Looking for Dry Dock Site—The Effect of the Big Canal on Maritime Ports**

Sir Robert Perks, of London, Eng., who is in Canada in the interests of the company which wishes to build the Georgian Bay Canal, at a cost of \$10,000,000, arrived in St. John this morning and will remain here until Thursday evening. He is accompanied by his son, W. Malcolm Perks, and G. G. W. Voickman, of Ottawa.

Sir Robert was met at the station by Mayor Bullock, Rev. Messrs. Pianders, Campbell, Marr, Heaney, Howard and Parker, and J. N. Harvey. After greeting this delegation he proceeded to the Royal Hotel, where he is registered.

In appearance the eminent capitalist closely resembles the typical picture of John Bull. His manner is alert and brisk and when he talks he displays a rather quick incisive manner of speech and some of his remarks show him possessed of a keen eye for business in addition to the more weighty qualities which have won him a prominent place in the world.

In reply to The Star's question as to the object of his visit to this part of the country, Sir Robert said: "I am already well informed regarding the development and commercial situation in the Maritime Provinces, so it was not necessary for me to come all the way here to learn about that. I am here to look over the possibilities of some places as sites for a dry dock. I and my family are very heavily interested in the Grand Trunk Railway and in view of its extension to the eastern coast I wish to gather some further information about those ports. I am looking into the possibility of erecting the dry dock in the interests of some other capitalists as well as in my interests, but I could not say what the result of my investigation is likely to be."

(Continued on Page 7.)

## FEELING TRIBUTES TO JUDGES HANINGTON AND GREGORY

**Chief Justice Barker and Mr. J. D. Phinney Speak of the Two Now Missing from the Bench—Percy Guthrie Appointed to Succeed Mr. J. H. Barry**

FREDERICTON, N.B., June 1.—(Trinity term of the Supreme Court opened this morning, the Chief Justice presiding, and the other justices present being Justices Landry, McLeod, and White. Owing to non-arrival of commissions the newly appointed judges did not take their seats upon the bench. Judge Landry, now sits at the Chief Justice's right, while Judge McLeod occupies the seat formerly occupied by Judge Landry. Judge White sits at the chief's left and Messrs. Barry and McKeown will sit to his left.

When the judges had taken their seats the Chief Justice spoke as follows: "Before we proceed to the regular business of the court it is appropriate that some reference should be made to the loss which this court has sustained since we met here in April last. During that short period two vacancies have been made in the bench one by the death of Mr. Justice Hanington, the other by the resignation of Mr. Justice Gregory."

"The late Mr. Justice Hanington occupied a seat on this bench for upwards of sixteen years with a physical energy which no strain seemed to weaken and a capacity for work which in emergency seemed to be boundless. With a mind which had been expeditiously well trained in his student days and which upon examination proved to be the experience of a long and varied practice, he came to the bench with qualifications especially well adapted for so distinguished and responsible a position."

"Mr. Justice Gregory was appointed to the bench on the 9th of October, 1908. He also had qualifications of the very best for the position. His professional attainments were of the highest order, and his experiences had been large and varied. He brought to the consideration of matters before him a mind entirely open to argument and singularly free from bias or prejudice. It was with great regret that the other members of the court realised some months ago that his strong and equal to the strain upon it caused by his judicial work."

"There are none who can estimate more accurately than their colleagues how great a loss it was to this court as Mr. Peed, the president of the N. B. Barriers' Society, though present on the bench of these two were ended. We can but express our regret at the death of the one and let out warmest sympathy follow the other into his retirement."

Mr. J. D. Phinney, K. C., said that on behalf of the New Brunswick bar he wished to say his tribute to those who had gone from the bench. He did so as Mr. Peed, the president of the N. B. Barriers' Society, though present on the bench, being closely related to Judge Hanington, did not feel that he could express his feelings on the occasion. Mr. Phinney spoke feelingly. The bar had always recognised in the late Mr. Justice Hanington a man of very strong vigor and one who brought to the bench an exceptional knowledge of the law. And the profession always

## THE WORLD'S FAIR AT SEATTLE WAS OPENED TODAY BY PRESIDENT TAFT

**An Exposition Ready for Visitors on the Day Gates Were Thrown Open—Description of Buildings and Exhibits and Something About the Hustling Officials in Charge**

WASHINGTON, June 1.—An interesting event at the White House today will be the opening of the Yukon-Alaska Exposition at Seattle by President Taft. He will touch a solid gold key ornamented with gold nuggets found in Alaska and will transmit the electric spark that will start the machinery in the exposition grounds. He will receive messages from the exposition officials and will transmit one of congratulation and good wishes. The ceremony will take place at 3 o'clock this afternoon in the East Room of the White House. The gold key which the president will touch was presented to him a few days ago by secretary of the Interior Ballinger and the Washington congressional delegation. It is to be the most costly and unique instrument ever used by a president for similar purposes.

SEATTLE, Wash., June 1.—The Alaska-Yukon-Pacific Exposition cost \$10,000,000, and was built in two years. The grouping of buildings is much different than at other expositions. The structures are compactly placed; there is no long, streamy walk from one exhibit to another. After entering the main gates, two buildings standing in a cluster of trees to the left, first meet the eye. One is where the administration of the exposition is centered and the other the auditorium, a brick and steel building of imposing architecture.

To the right, and across Puget Plaza, is the Fine Arts Palace. This building contains a valuable art display loaned from museum collections all over the world. A few steps lead to the intersection of Olympic Place and Alaskan Avenue. To the right is a view of the "Pay Street," the exposition

## BROTHER WANTS MONEY GIVEN BY DYING SISTER

**But Court Holds Evidence of Gift Scarcely Sufficient—Interesting Probate Case Heard Today.**

PROBATE COURT.

Estate of Emma Jones of the West Side, wife of Hiram Jones. This case was before the court all day yesterday and was an application for administration on behalf of Francis Nice, of the West Side, fisherman, a brother. A caveat was filed by William H. Nice, a nephew of deceased. It appeared that Emma Jones died intestate in the lifetime of her husband. Previous to her death she had lived with her nephew, Frank Nice, a son of the petitioner. She had an account in the Savings Bank of over \$1,500, her own money, but with permission for either herself or husband to withdraw. It was claimed by the brother that she deceased in her last illness gave the bank book to him as a donation causa mortis, and that she died leaving comparatively nothing beyond the money so deposited, and the petitioner claiming the same. The court held that he was entitled to all, or nearly all, of the estate.

The husband survived the wife and then died intestate. Administration of his estate had previously been granted to Whitney O. Dunham. Evidence was given as to the gift, but at the conclusion of the hearing Judge Armstrong held that there was not sufficient proof of the donative causa mortis to make it conclusive that the gift was made, but that the matter could be gone into more fully, and if new evidence could be found the same could be heard at the final order for distribution. In the meanwhile eliminating the question of the donatio he held that the property would go to the husband, if having survived the wife, and he now being dead to his next of kin, and that administration of the goods of an intestate follows the property in them—that the grant of administration would be granted to the representatives of the husband's estate. Mr. J. Joseph Porter, proctor for the petitioner brother. Mr. John Whittet, K. C., proctor for the caveat. Mr. J. B. M. Baxter, K. C., proctor for the husband's representatives.

Estate of Lewis B. Saunders of the West Side. The deceased having died intestate his widow applies for administration and asks that Michael E. Mooney, contractor, be appointed as administrator, she claiming that the property of which deceased died possessed was her own, and he now being earned by the use of her money and by the use of her money and by her efforts. She was granted as prayed for. Real estate, \$500. Leasehold, \$400. Personalty, \$7,900. Mr. W. H. Harrison, proctor.

## GERMANS ANGRY WITH GOV'T FOR GIVING OUT INFORMATION

**with the request of the American Government. The matter is likely to come up in the Reichstag.**

BERLIN, June 1.—The charges made at Washington by various American senators that the German government was endeavoring to influence tariff legislation in the United States by supplying official information regarding the proposed tariff, have caused a great deal of indignation in Germany. It is alleged that the information was given to them by the German manufacturers in the hearing before the ways and means committee of the house has caused a disagreeable impression in government offices here.

This is especially the case at the ministry of the interior and the foreign office, where the information in question was prepared in reply to a request sent in by the state department. The German government has been subjected during the past two months to attacks by German trade journals for having supplied American officials with confidential information. This knowledge of German wares, it is alleged, made it possible to adjust the tariff to a level where German goods could not be exported to the United States. The abstract of the foreign office communication through Ambassador Hill to the state department appeared in these despatches March 29 and was later reproduced in the German newspapers. It brought out savage attacks on the government for yielding to the "impudent demands of the Yankees for official reports on wares, thus arming Germany's competitors with vital information."

The state department, in formulating its request sent through Ambassador Hill, is understood to have complained the point that Germany's advantage lay in supplying trustworthy information with regard to wares, so that the United States could frame its tariff schedule equitably. Otherwise, it was argued, Germany could not complain if erroneous information was used as a basis. This request was received on December and was made the subject of a communication to the federated states of Germany, each of which ultimately obtained the information desired from the official chambers of commerce. The mass of reports was first collected in the ministry of the interior and in the trade division of the foreign office. It was transmitted about March 27 and arrived in Washington about April 8, being sent in duplicate both through Ambassador Hill and Count Von Bernstorff, the German ambassador at Washington. Some surprise is expressed here that for two months the matter apparently did not reach the American congress, or if it did, reach either house it must have been pigeon-holed.

German officials have been enduring attacks at home, but they are amazed at the accusation from America that they acted strangely in supplying

## STRIKERS TAKE CHARGE OF SUPPLY OF DYNAMITE

**California Lumber Co. Employees Driven Away—Fifty Police Face Six Hundred Strikers—Trouble Exploited**

SEISSON, Calif., June 1.—Armed with knives and rifles a party of striking lumbermen at McCloud, 14 miles east of here, drove the guards away from the powder house of the McCloud River Lumber Company last night and now is in possession of a ton or more of dynamite according to telephone advice received early today. Shortly after the message was received communication with McCloud was interrupted and it is not known whether the wire was cut or not. Sheriff Howard of the county is at McCloud with forty or fifty deputies but six hundred armed strikers are opposed to him. The message from McCloud stated that the strikers were in an ugly mood and that serious trouble was expected. Two hundred strikers went yesterday to the logging camps in the hills forty miles to the east of McCloud. All carried dynamite of some sort and they forced every man at work in the camps to lay down his tools.

## PHILADELPHIA HAVING LOTS OF GOOD EXERCISE

**Car Service is Badly Demoralized by the Strike—Railroad Companies Do a Rushing Business**

PHILADELPHIA, Pa., June 1.—Extraordinary efforts are being made today by the Philadelphia Rapid Transit Company, the majority of whose motormen and conductors are on strike for higher wages and better working conditions, to increase the number of cars in operation. Less than fifty per cent of the cars now are in operation but conditions are slightly improved. Several hundred new men brought from other cities and picked up here since the strike was inaugurated last Saturday, have been put to work under the protection of the police. In all parts of the 130 square miles of the city people are compelled to walk to and from their places of employment because of the strike. The Reading, Pennsylvania, and B. and O. Railroads are carrying more than ninety per cent of the people from the outlying sections.

Each company has opened new ticket windows and extra equipment has been drawn from other sections to handle the increased traffic. There has been an effort made by other side to the struggle by third parties to end the strike by peaceful means. The police are in complete control of the situation. Two to four policemen accompany every car sent out from the yards.

## DENIES THE CHARGE THAT OFFICIALS WERE BRIBED

**French Foreign Office Explains the Reason for the Recall of the Two Ambassadors.**

PARIS, June 1.—The Foreign Office has authorized a most categorical denial of the story first published in the Berlin Lokal Anzeiger that the sudden recall of M. Constant, the French Ambassador to Turkey, and M. Zinovoff, the Russian Ambassador, was due to the discovery in the Yildiz Palace of documents showing that Abdul Hamid, the deposed Sultan, had paid the former \$10,000 and the latter \$5,000 a month for a term of months. It pronounced this allegation as a calumny absolutely without foundation and explains that the nominations of M. Bompard and M. Tcharykoff as French and Russian Ambassadors to Turkey were made after an understanding between the two governments whose purpose it was to secure harmony of action between their representatives accredited to the new regime in Turkey.

## HONOLULU IS AFTER FOREIGN LABORERS

**European Families are Desired to Work on the Plantations With a Chance of Securing Homes of Their Own**

HONOLULU, May 31, via San Francisco, June 1.—The Territorial Board of Immigration has received requests from the various plantations requesting that two thousand families of Portuguese or other European laborers be brought here. They offer \$20 a month for the first year, \$21 for the second and \$22 for the third year of employment to male adult laborers and from \$10 to \$15 a month for women and children; also a two-room cottage for families and an acre of ground, the house and land to become the property of the laborer on the completion of three years' service.

## KRAMER MAKES A NEW WORLD'S CYCLE RECORD

NEW YORK, June 1.—National Cycle Champion Frank L. Kramer established another new world's record for the sixth of a mile at the Newark Velodrome Race Meet yesterday. He rode the distance in sixteen seconds which is one fifth of a second under the old mark held by Kramer himself. The event was a one sixth record trial. The distance measured one lap of the track and Kramer won out of a field of sixteen. Each man rode a separate lap. Jackie Clark, the Australian, and Willie Fenn tied for second and third places in 16 1/2 seconds.

## JUDGE WELLS NOT ABLE TO ATTEND COUNTY COURT

Summerside Man Gets Three Months for Theft—Moncton Couple Married.

MONCTON, N. B., June 1.—Westmorland County Court has been adjourned indefinitely owing to the illness of Judge Wells.

Ernie Perry, of Summerside, arrested at Point du Chene yesterday afternoon by the police as he was about to board the steamer Empress, this morning in court he pleaded guilty to the charge of theft of some clothes from a young man who boarded in the same house as he, and was sentenced to three months in Dorchester Jail.

The police here have learned that he is a ticket of leave man from Dorchester penitentiary, but Perry says he never was before the court before.

The marriage of Alice Bell, daughter of the late Thos. Bell, to Alfred Roy, took place this morning at ten o'clock in St. Bernard's Church, Rev. Father Savage officiating. The couple left on the St. John express for a honeymoon to American cities.

Poor tax is poor economy--use "Salada" and you will appreciate the excellent qualities of high-grade soap.

Last evening the Rev. D. Hutchinson united in the bonds of matrimony Justin Hugh Wallace and Miss Mary Emma Fraser. The ceremony took place at the home of Stephen Foster, Metcalfe street. Only relatives and immediate friends were present.

The death occurred yesterday of Annie McGinn, at the residence of her father, Francis McGinn, Millville avenue. Miss McGinn had been an invalid all her life. She was in her twentieth year. A father, mother, one sister and to brothers survive.

At Padlock's corner last evening W. H. Willis, an evangelist of ability, spoke to a large and interested audience for over an hour. Mr. Willis is of rather an intelligent class, many speaking very good English, which is quite a contrast to the average immigrant of their nationality.

The Canadian Commissioners sitting in settlement of the international dispute regarding obstruction to navigation in the St. John River leave this morning by an early train for Van Buren, where the Commissioners will convene tomorrow for the purpose of taking evidence. Incidentally the Commissioners will investigate the jam conditions now obtaining in that vicinity.

Last summer The Sun mentioned the practice of women and children picking flowers from the King square beds. Similar practices are being indulged in this year. Last evening Policeman Hughes caught a woman on the grass plucking one of the plants from a flower bed. His only reason for letting her go with a severe reprimand was that she was partially intoxicated and did not appear to realize what she was doing.

Dr. L. A. Curry, of the St. John Steamship Company, when asked last evening concerning the libel suit against the Standard Publishing Company stated that he would give that newspaper a chance to retract some of the exaggerated statements made among the owners of the river steamers the article in the Standard is recognized as having the finest equipped fire apparatus on the river. The recent interchange of tickets decided upon has prevented any racing on the river. The rivalry has ended and masters are moving along peacefully.

About 300 immigrants passed through the city last night from Halifax on their way to Montreal and the West. They were chiefly Italians and Germans, of rather an intelligent class, many speaking very good English, which is quite a contrast to the average immigrant of their nationality.

The friends of Hugh McCormick will regret to learn of his very serious illness. About two months ago Mr. McCormick was operated upon at the General Public Hospital and at that time it was thought that his absolute recovery was certain. He recently suffered a relapse, however, and his condition is said to be regarded as critical by his medical adviser, Dr. Murray MacLaren.

ORGANIZE TO COMBAT THE WHITE PLAGUE

An Anti-Tuberculosis Society Formed

Judge McKeown First President of County Organization

The Board of Trade rooms were well filled yesterday afternoon when the meeting called to form a county branch of the Association for the Prevention of Tuberculosis was called to order.

Dr. Daniel presided at the meeting. The St. John county branch was formed, a constitution adopted and officers elected for the coming year. Speeches were made by the chairman, Dr. Thomas Walker, Dr. J. P. McInerney, Hon. J. G. Forbes and others.

The meeting was a very enthusiastic one and gives promise of an early and energetic campaign against the great white plague.

At the close of the meeting forty-two of those present headed in their names as charter members of the association.

DR. DANIEL IN THE CHAIR. Dr. Daniel took the chair at 3.45, and in opening the meeting expressed his gratification at the large attendance.

He referred to the organization of the provincial society for the prevention of tuberculosis. Its purpose was to unite the various organizations and to be left the actual work.

This meeting was called for the purpose of forming a society for St. John county. He then referred briefly to the prevalence of the disease and the necessity of taking steps to combat it.

Dr. Daniel then called on for a speech, but excused himself on account of the lateness of the hour.

Dr. Rowley then presented the report of the nominating committee, which was as follows: President, Judge McKeown; vice president, Dr. McLaren and Mrs. D. McKeown; secretary, Mrs. E. A. Smith; executive committee, Mrs. J. P. McInerney, Mrs. T. H. Bullock, Miss G. W. Leavitt, Mrs. E. A. Smith, Mrs. W. W. White, Father Chapman, W. S. Fisher, Dr. S. S. Skinner, Thos. Gorman, Dr. P. L. Kennedy and E. A. Rising.

On motion of Judge Forbes, seconded by T. O'Brien, the report was received and the meeting then adjourned.

COMMITTEE RETIRES. The committee retired, and while waiting for their report the chairman called on Dr. Thos. Walker to make a few remarks. He said that the subject was very close to his own heart.

The need of the work was shown by the fact that 100 out of the 700 deaths in the city last year were due to tuberculosis. The disease is preventable, and while it might not be possible to cure everyone in St. John who had the disease it is possible to keep it from spreading and in that way stamp it out.

COMMITTEE RETIRES. The committee retired, and while waiting for their report the chairman called on Dr. Thos. Walker to make a few remarks. He said that the subject was very close to his own heart.

The speaker told of his recent visit to New York and his investigation of the outdoor clinic used there for fighting the disease. A patient goes to the clinic, where he is thoroughly examined and is then given a card giving him full instructions regarding his own treatment. Three nurses are connected with each clinic, and one of them goes to the patient's home the next day and reports fully on the conditions in the home of the subject and other information regarding him. If it is found that the patient is destitute his case is referred to various societies, which make a point of caring for such persons. If the patient does not report at the clinic in the district in which he lives he is referred to the right place and his address is taken. If he does not turn up in four days a nurse is sent to look him up. Dr. Walker then said that if we are going to do this work in a workmanlike manner we must have a dispensary and employ a nurse trained in this work.

Dr. McInerney then submitted the report of the committee on the constitution, and on motion of Judge Forbes it was adopted as a whole. On further motion of Judge Forbes the date of the annual meeting was fixed as the second Tuesday of November in each year.

The constitution is almost an exact copy of that of the Ottawa Society. Among other provisions the annual fee of members is fixed at \$1 and the membership fee at \$20. Payment of \$5 for five years also makes the member a life member.

Dr. Rowley moved that a nominating committee be appointed by the chair, and Dr. Daniel selected the following: Dr. W. E. Rowley, Rev. D. Lang, Rev. F. Chapman, Mrs. G. F. Smith, Mrs. D. McKeown, Miss Leavitt, Dr. F. A. Godson and L. L. White.

While waiting for the report of the committee Dr. Daniel gave a synopsis of the report of the first year's work of the Ottawa Society, which they decided to work along the lines of an outdoor clinic. After raising \$1,000 they employed many nurses trained in this special work, who went from house to house investigating the case of and reporting to the clinic.

Her report showed that 57 cases had been reported to her which she visited. Many of them were in the last stages, but of this number seven were discharged as cured, fifteen were greatly improved, and others showed signs of improvement.

He referred to the recent legislation of the provincial society appointing a tuberculosis commission, granting \$16,000 for the work and adding tuberculosis to the list of contagious diseases. The last act makes it necessary to report each case to the local Board of Health, who will send literature to the patient and take steps to prevent the spread of the disease. It does not, however, make it necessary to place the patient in a hospital.

Mrs. E. A. Smith was called on for a speech, but excused herself on account of the lateness of the hour.

Dr. Rowley then presented the report of the nominating committee, which was as follows: President, Judge McKeown; vice president, Dr. McLaren and Mrs. D. McKeown; secretary, Mrs. E. A. Smith; executive committee, Mrs. J. P. McInerney, Mrs. T. H. Bullock, Miss G. W. Leavitt, Mrs. E. A. Smith, Mrs. W. W. White, Father Chapman, W. S. Fisher, Dr. S. S. Skinner, Thos. Gorman, Dr. P. L. Kennedy and E. A. Rising.

On motion of Judge Forbes, seconded by T. O'Brien, the report was received and the meeting then adjourned.

BALTIMORE NIGHT IN THE BIG TOURNAMENT

NEW YORK, N. Y., May 31.—Nearly two hundred out-of-town bowlers tried their skill on the Madison Square Garden alleys at today's session of the national tournament. The evening session was called "Baltimore night" on the programme and there was a large delegation of Baltimore men on the alleys and in the galleries.

Chicago, Utica, Washington, Columbus, Wheeling and Montreal were also well represented. The scores made were for the most part disappointing. The only high marks of the day were made by V. A. Karber, of New York, who scored 622 in the individual contest, taking fifth place, and by Smith and Gohardt of Buffalo, who scored 1311 in the two-man team contest, taking third place.

At the night session the alleys were crowded for the first time by five-man teams, none of which was able to do better than 2,800.

CHESS CHAMPIONSHIP

BOSTON, Mass., May 31.—G. H. Wolcott, of Boston, won the chess championship for 1909 at the annual tournament of the New England Chess Association held here today and tonight. The annual election was postponed to February 22.

HAYES WINS TEN MILE RACE

ST. PAUL, Minn., May 31.—Johnny Hayes, of New York, defeated Alex. Thibault in a ten mile race today on a muddy track by three-fourths of a lap in 56 minutes, 35 seconds.

LA TOURS VS. PICK-UPS

A very interesting game of baseball took place last evening on the Golf Field, between the La Tours baseball team and the Carleton Pick-Ups, in which the La Tours won out. The score stood 12 to 9 in favor of the La Tours. The line-up was as follows:

La Tours. Carleton Pick-Ups. A. Estabrook, C. W. Warnock, Pitcher. W. Baker, First Base. K. A. Carleton, W. Campbell, Second Base. Roy McKinney, W. Lowe, Third Base. R. Carleton, A. Purdy, Short Stop. H. Blissett, W. Barker, Right Field. I. Lanagan, A. Smith, Left Field. F. Robson, C. Campbell, Centre Field. J. Maxwell, C. Cunningham, Umpire.—A. Anglin.

SWINGING HAMMER AS BLACKSMITH'S HELPER MADE SICKLY RAY BRONSON FINE ATHLETE

RAY BRONSON.

INDIANAPOLIS, Ind., May 31.—The Beau Brummel of the lightweight class, they call Ray Bronson, the Hoosier Boxer, whose name is known to every follower of the game of give and take. As a satirical expert, Bronson has Mr. Philadelphia John faded to a sibilant whisper.

Nothing Bronson does is ordinary. He returned from the South not long ago, accompanied by a valet. He went to get Dixie to get the valet and fought a few times as a matter of course.

There is one thing the valet must do. He must wear diamonds. If he can't sport the sparklers, wear a Prince Albert and red, white and blue hosiery, at the same time, he won't last long.

When he turns his attention from the fashion plate long enough to box, Bronson is all to the piaz. He's one of the best state made famous by his fights, wrestling matches, anti-cigare law and winter health resorts where the tiger growls has produced. Although not a champion, he's one of the fellows the champions get mused up by.

MAJORS WERE EASY; MINORS GOWN HIM

WALTER QUIESSER.

MEMPHIS, Tenn., May 31.—When the big league teams were migrating northward in April, all sorts of stories were told about the kid pitcher Charlie Babb who had his Memphis team.

From the way he performed his stay in the Southern league was to be short and he would be burning the grass in one of the majors.

When Pittsburgh and the Boston Americans hit Memphis they bowed before the pitching of young Quiesser. Memphis hailed him as the star of the league, but fate has dealt the young man a strange hand in the game.

Since he championed season opened Quiesser has not won a game. He dropped seven in a row and the eighth was going to the low-boys when he was derricked. Each of the losses have been by one run and he earned the name of "Hard Luck" Quiesser.

GREAT TURFMAN IS DOWN AND OUT

ED CORRIGAN.

Noted owner of race tracks, race horses and breeding farms, who has lost his fortune, and now, in his declining years, is "down and out." The friends he knew in yester years are beating it for the long green cover where the "ex-Master of Hawthorne" can not reach them if he desires.

ST. JOHN THE BAPTISTS CAPTURE ANOTHER GAME

Before 750 spectators on the Shamrock grounds last evening the St. John the Baptist aggregation scored another victory over the Ancient Order of Hibernians by a score of 5 to 4. The winning run came in the last half of a five inning game, which was full of brilliant plays. The rooters of both teams turned out in earnest and many words of encouragement were given to the players.

A NEW RECORD FOR WOMEN BIRD SHOOTERS

POTTSVILLE, Pa., May 31.—Miss Annie B. Riecker, of Lancaster, Pa., in a handicap, live bird tournament today with Fred Coleman at Tumbling Run Park, established a new world's record for women shooters, by killing 47 out of 50 birds. The best previous record was 45 out of 50, made by A. E. Coleman killed 50 straight.

Playtime Stories.

ELISE IN FLOWERLAND.

Elise had curled herself up on the window seat and was looking out at the pouring rain, wondering why it always seemed to rain when she wanted to go outdoors and play. She began to feel drowsy when someone called her name. Elise looked, and there stood the prettiest, sweetest little fairy you ever saw, smiling and bowing.

ELISE IN FLOWERLAND.

"The fairy told Elise that the raindrop fairies had just come down to Fairyland to see the flowers in spring and they must hurry to go back to the Earth. They walked on and passed a great golden river. The fairy told Elise these rivers were what the world men were always seeking. Just as Elise tried to touch the water of the silver river someone called her.

ELISE IN FLOWERLAND.

There stood her mamma beside her, and she was back in the window seat. When Elise told her mamma about the fairy, her mamma smiled and said, "I'm afraid, dearie, you've been dreaming."

FOUR THE ST. JOHN STAR is published by THE SUN PRINTING COMPANY, (LTD.) at St. John, New Brunswick, every afternoon (except Sunday) at \$5.00 a year.

AN IMPORTANT OFFICE. There is no more important position in the province than that of Superintendent of Education. In considering the appointment of a successor to Dr. J. R. Inch the government should disregard every influence and qualification enjoyed by the applicants other than those which will have a direct bearing on the administration of the school system.

It is understood that there are several men connected with the educational system in this province who would willingly accept the office of chief superintendent, and the impression prevails in some quarters that Inspector W. S. Carter and Mr. B. C. Foster, principal of the collegiate school at Fredericton, are well up in the leaders.

Inspector Carter is another whose qualifications are beyond dispute. He is a man of more than ordinary executive ability, a ready speaker, a careful instructor, and one to whom his superior has made the duties of the chief superintendent.

Mr. Foster too has, because of his natural ability and his long experience, many qualifications for the high office. He has been an unusually successful teacher, and while not by any means an orator, has nevertheless the faculty of presenting a subject concisely and fairly.

None of these three officers have ever taken an active part in politics. Dr. Bridges and Inspector Carter are in line to Liberalism, the former has however always been looked upon as one who exercised his privilege of voting for whoever he regarded as the best man irrespective of party lines.

THE FORMATION OF THE COUNTY BRANCH OF THE ASSOCIATION FOR THE PREVENTION OF TUBERCULOSIS WHICH WAS effected yesterday, was a distinct forward movement in the campaign against this insidious disease.

movements for the betterment of mankind seem to get very far without the assistance of the clergymen to whom so many people look for guidance. The solid business and professional men of the city who will be expected to finance the campaign were also strongly in evidence. Last but by no means the least, there was a large attendance of ladies who showed their deep interest in the undertaking.

There were hundreds of persons present at the closing exercises at Mount Allison yesterday. The first of the day was the physical culture drill on the Ladies' College campus. One hundred and twenty young ladies, prettily clad in white with Eston collars and Windsor ties, went through various movements and evolutions in a manner that elicited much favorable comment.

THE LATEST name under consideration to possess a successor to Mr. Rockhill as American minister to China, is that of Prof. Jeremiah V. Jenks, of Cornell University. Free Taft is well acquainted with the work of Prof. Jenks in the Philippines and China in connection with the study of economic and financial conditions in the far east as a commissioner and agent of the United States government, and some inquiries have been made to learn the disposition of the Senate in case his nomination as minister to China should be sent to that body.

AT TEN O'CLOCK the annual supper by the university students in honor of the senior class was held in the dining room of the university residence. After supper the excellent toast list was carried out.

OATS BY FAR CHIEF OF ALBERTA'S CROPS.

Sixteen Million Bushels Were Produced in Western Prairie Province Last Year. EDMONTON, Alta., May 31. A recent report issued by the provincial department of agriculture shows that in 1908 the total spring wheat yield for the province aggregated over four million bushels. In 1907 the yield was 2,215,000 bushels and in the year previous 2,664,641, and in 1905, 2,617,506. The yield per acre in 1908 was 21.46 bushels, in 1907, 20.07, while in 1908 it was only 18.81. The total yield in 1908 was 72,417 bushels. This shows an increase in ten years of over three and a quarter million bushels.

OWING TO THE probable railway construction in the province within the next year or two, the government has broken up the land into lots in town sites along the proposed routes. Anything that favors a town site is broken up by the investing public. Some of these sites may ultimately be found to be some distance away from the real town, but, apparently, this does not in any way interfere with the sale of lots. Lots in the city are being sold as if they had been surveyed and laid out by the railway companies, when in fact they may be miles distant.

THE COMMERCIAL spirit of the West is also indicated by the organization of trading companies which establish lines of stores along the construction line to the uttermost end. Establon constitutes the base of supplies. To carry on business under existing conditions involves almost endless expense in the matter of transportation which is carried on over rough, unbroken trails. It is needless to say that the prices charged appear exorbitant, but the profits are not much more than are realized at the distributing centre. Local traders are handicapped in that they are obliged to compete with the company stores, or properly speaking, the contractors who are maintaining the line.

CHARLOTTETOWN, P. E. I., May 31.—Leo Chapman, who nearly died last night from alcoholic poisoning, will recover. Four times the doctor washed out his stomach and removed a large quantity of what is said to be wood alcohol. He was in an unconscious state from the time he fell in front of Union hall, on the corner, until 10 o'clock in the afternoon of twelve hours. The moral police are investigating.

AT TEN O'CLOCK the annual supper by the university students in honor of the senior class was held in the dining room of the university residence. After supper the excellent toast list was carried out.

LONDON SOLDIERS' PROTEST AGAINST MILITARY CLOTHING. Same Outfits Used in Coldest Winter and Hottest Summer. LONDON, Ont., May 31.—Now that the military authorities are revising the clothing regulations the forces in this district will make a strong effort to induce them to make some provision for summer and winter garments. The following letter has been framed and will be sent to Ottawa: "No doubt the Militia department knows that the greater part of Canada has a more extreme climate, the variation in some cases ranging from 95 above to many degrees below. What the respondent to show cause why the time for fixing the date of trial should not be extended, hearing was had on August 17th, 1909, at the Court House at Woodstock. It is understood that Mr. Jones will move the full court at Fredericton tomorrow for a rule nisi to show cause why Judge McLeod's order should not be set aside. In case the order should be set aside by the full court, the time having been extended to December, the matter would still be in court and a new application might be made to Judge McLeod.

GRAIN DOCKS BURNED; LOSS OVER A MILLION.

Big Fire at Port Costa, California—Much Grain Destroyed. SAN FRANCISCO, Cal., May 31.—Two thousand feet of the Nevada grain docks at Port Costa, in which all the grain from California for foreign ports was stored, was burned tonight. The loss is estimated at more than \$1,000,000. Nine hundred tons of grain and 100 tons of hops were destroyed.

ARBITRATION ASKED FOR IN GEORGIA R. R. TROUBLE.

ATLANTA, Ga., May 31.—Unable to agree upon the terms of settlement, the officials of the Georgia R. R. and of the Brotherhood of Firemen, have invoked arbitration under the Erdman law. It was nearly 7 o'clock tonight when Commissioner of Labor Neill and Chairman Knapp, of the Interstate Commerce Commission, reluctantly gave up hope of bringing the warring elements together. Commissioner Neill notified both parties to the dispute to select an arbitrator within five days.

**Beware of Ointments for Catarrh That Contain Mercury**

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is often fatal to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.

**NEW YORK, May 31**—One boy was killed and his three playmates were seriously injured today by the explosion of a forgotten fireworks bomb in a vacant lot behind an old factory building in North Woodside. L. I. The bomb was one of the kind intended to explode at a great height when fired from a mortar.

**BOSTON, Mass., May 31**—Boston harbor claimed another victim today through the overturning of a rowboat. Peter Kovacic, being drowned in Southum Bay.

**THE GREATEST AIRSHIP AT THE PRESENT MOMENT**

(By R. P. Hearne, Author of "Aerial Warfare.")

With startling suddenness the problem has been forced upon both naval and military authorities of building aerial vessels. British experts are now faced with the new work of turning out airships equal to those already in existence in Germany, France and Italy. All our past production have been failures, and it is clear that a very bold and determined effort must now be made if we are to show the world that we can lead in airships as in sea ships.

**WHAT ARE THE LINES?**

Leaving the question of aeroplanes and flying machines aside we have to consider on what lines the British nation will build its great dirigibles, vessels which fulfil roles impossible at present for any flying machine to assume. This point must be well borne in mind, for there is a school of theorists who, in the face of practical results obtained by dirigibles in Germany and France, would have Great Britain neglect dirigibles altogether, and wait until that indefinite period when flying machines will have entirely superseded dirigible balloons.

**THEIR PETITION IS TURNED DOWN**

A meeting of the representatives of the various river steamship companies was held last evening at the office of Currie and Vincent, Princess street. The five companies operating a service on the river were represented as follows: J. Willard Smith, manager Star Line; Dr. L. A. Curry, St. John River Steamship Company; Captain Weston, manager May Queen Steamship Company; D. J. Purdy, Crystal Stream Steamship Company; Captain Wasson, manager of the Atlantic Steamship Company. Mr. Vincent, a director of the St. John River Steamship Company, E. S. Orchard, purser of the Champlain, and Jarvis Purdy, purser of the Sir-ceneca, were also in attendance.

**HER DEATH DUE TO THE SHOCK**

HALIFAX, May 31.—Medical Examiner Finn filed his report of the post-mortem held on the body of Mrs. Samuel Harrison, who died on Friday night following an attack by Percy Wallace. The woman's heart was bad and death was due to shock. The medical examiner found external marks, including spots on the lobe of the left ear, a small scratch on the middle of the forehead, a larger one on the left side and several small scratches over the bridge of the nose, and a longer one running across the lower part of the nose from right to left in a downward direction. There were no marks of violence and no bones were broken. The lungs were found to be congested and frothy. There was considerable fat about the heart and the orata was longer than normal. The heart was not in a healthy normal state and the stomach was enormously dilated.

**A HUGE SKELETON**

The long, smooth lines of the Zeppelin suggestive of speed; her rigid frame and solid prow can withstand the air resistance at very high speeds. There is no car hanging at considerable distance from the main body, thus increasing the resistance enormously. The air resistance is reduced by the use of a semi-rigid type of hull, which is the only practicable type of high-speed ship, and, consequently, with lifting planes we cannot say what the limit of speed or development will be.

**CONSTRUCTION VERY COSTLY**

This mode of construction is very costly, and owing to the weight of metal employed the vessel has to be made very long to obtain buoyancy. The usual length being about 400 feet. But as the cross diameter is less than 50 feet (and thus smaller than that of the average non-rigid or semi-rigid vessel of half the length) the head resistance is relatively small. The advantages are numerous and cannot be attained by any other mode known to us at present. Far higher speeds are possible than with any other dirigible; the aerobent separate gas envelopes are protected from injury; the vessel can be used over water owing to its floating cars; it can mount duplicate engines of considerable horsepower; and it has a far wider range of action and utility than any other aerial vessel.

**The Why and Wherefore of MAGI WATER**

The analysis makes plain the therapeutic value of Magi Water, as well as showing just what Old Dame Nature has made it of. For remember, Magi Water is a natural mineral water—not man compounded.

**The Analysis**

Potassium sulphate	12340	1607
Sodium chloride	12340	18785
Sodium sulphate	12340	478,950
Sodium bromide	12340	850
Sodium iodide	12340	18,260
Sodium carbonate	12340	1011
Calcium chloride	12340	18,982
Magnesium carbonate	12340	8,500
Magnesium sulphate	12340	18,160
Phosphorus carbonate	12340	1,110
Iron	12340	2,071
Total		548,126

It should be understood thoroughly that while Magi Water is in no sense a medicine, but a delightful beverage, it has distinct influence in the direction of conserving and benefiting the health of its drinkers. Magi Water is a pure, natural mineral water bottled exclusively at the Springs. A delicious stable water, a pleasant soda fountain drink. Superior to soda with whiskey—both for flavor and healthfulness.

Comes in quarts, pints, and half-pints—still or carbonated. Can be had at cafes, hotels, bars, chemists, on all R. R. cafe cars and at your grocer's, by the bottle or case.

**Magi Water by the Case** Order a case of Magi Water from your dealer. It is an ideal water for home consumption. Healthful and delicious. If your dealer cannot or will not supply you write us direct and we will see that you are supplied even if we have to ship it ourselves.

**AGED FIRE ENGINE DRIVER KILLED**

NASHUA, N. H., May 31.—George Hadden, the oldest active fire engine driver in New Hampshire, and probably the oldest in this country, was killed instantly today by falling under the wheels of his heavy exercise cart. Hadden was driving the three-horse hitch of Engine 2, attached to the cart when he dropped a rein. Creeping out on the pole to pick up the rein, he lost his balance, and fell, and although he clung to the lines and was dragged a long distance by the frightened horses, he was forced eventually to let go. The wheel of the heavy cart went over his head and shoulders, crushing him fatally.

**AMERICAN LIBERIAN COMMISSION RETURNING**

WASHINGTON, May 31.—The American Liberian Commission, which has been at Monrovia, Liberia, about a month, investigating conditions in the African republic, has practically concluded its labors. The commissioners have sailed from Monrovia on the scout cruiser Chester and Birmingham. They will reach the United States about the third week in June. To further investigate conditions in

**TWO INJURED WHEN BALLOON LANDED**

Passengers Had Thrilling Experience—The Springfield Was Mored Successful.

CONWAY, Mass., May 31.—The balloon North Adams, No. 1, which left North Adams this morning, landed about 1.30 this afternoon in this town. The landing proved exciting. The anchor caught in a stone wall, but broke and it was necessary to use the ripcord. When the balloon came down, the basket hit with such force that T. S. Hamadell, of Housatonic, one of the passengers, was thrown out and his shoulder injured. The wind caught the balloon and carried it into the air again and it landed in a tree.

FORTUNES IN WASTE PRODUCTS

One of the most interesting phases of the world's development is the manner in which the people of civilized nations are utilizing so many things which were only recently considered as valueless.

Other phases where it will prevent dirt from sticking to the floor. In recent years so many dolls and other "stuffed" toys have been made that the sawdust is used very extensively for this purpose also.

Usually perfumes and other useful odors are considered as being obtained principally from flowers. The oils coming from waste fruit, such as decayed pears, grapes and peaches, however, can be substituted for some of the most costly floral odors after being treated with acids and other liquids which give them a remarkable fragrance.

Slag brick is stated to be quite as strong as ordinary bricks, and much less permeable to moisture. To make 1,000 bricks, 6,000 or 7,000 pounds of granulated slag, and from 500 to 700 pounds of burned lime, are consumed.

Slag is also used for concrete. It is a mixture of slag and cement, which forms it is called "silicate of iron." Coal slag is a good structural material, mixed with slaked lime, it stiffens into a mass weighing from fifty to one hundred pounds per square foot.

One of the most important discoveries which has been made in connection with what we have called waste products is the value of sawdust. Usually sawdust produces such large quantities of heat, that it cannot be burned to advantage.

Like the sun, which dispels all darkness, the Pen-Angle trademark dispenses the gloom of uncertainty which enshrouds the buying of underwear. Pen-Angle garments fit best, wear longest, are unshrinkable, and guaranteed.

"EARL GREY A GREAT RULER."

Under the title "A Great Ruler," Thorpe Lee writes as follows of Earl Grey in the London Daily Mail of May 24th: "An old politician who had lived his life in close touch with great events, and thereby gained wide and deep experience as a student of mankind, was once asked what quality seemed to him to be the most necessary to a great man."

In how few men are these qualities of faith and enthusiasm united! How rarely our politicians are for the most part; with what hesitating voice do they speak—hedging, qualifying, always leaving a loophole for escape!

From MARY'S COOK BOOK: To keep milk cool from becoming soapy serve the boiling buttered milk in a covered pitcher, so that each one may pour it himself over his muffins.

Palpitation of the Heart.

One of the first danger signals that announce something wrong with the heart is the irregular beat or violent throb. Often there is only a fluttering sensation, or a "falling" sinking feeling, or again, there may be a most violent beating, with flushings of the skin and visible pulsations of the arteries.

CASE AGAINST BAYNE COMES UP THIS WEEK

TRURO, N. S., May 31.—The supreme court with Chief Justice Townshend on the bench will commence here tomorrow. One of the cases to be brought before the grand jury is that of the King against A. R. Bayne, the notorious election case in which choice committees were a leading feature.

NO WASTE ALLOWED.

In the industries of cotton manufacturing and cottonseed oil making, scarcely anything is allowed to go to waste. For many years the seed of the cotton plant was regarded as without value, now the cottonseed crop of the United States is worth about one-fifth of the total cotton crop of the country.

CONCRETE FROM DIRT.

But perhaps the most wonderful way in which what we have called ordinary dirt has been made a most valuable agent is in the making of concrete. It is needless to say that what is really concrete all comes from the ground. Even the cement lies in deposits here and there in the earth and is made ready for use by a very simple process.

"JAPANESE ART OBJECTS."

Hoofs are utilized according to their color. White hoofs are exported largely to Japan, to be made into various ornaments and imported back as "Japanese art objects." From striped hoofs are made the handles of tooth brushes and knives, chessmen, and nearly every article for which ivory is suitable.

LOCAL NEWS

No. 8 Field Ambulance will meet at the Armory at eight o'clock this evening. A lecture will be given.

In the Fairville Methodist church this evening a tea and entertainment will be conducted by the members of the Mission Band.

New Spring Suits at C. B. Pidgeon's popular North End store. It will pay you to inspect the qualities and compare prices.

The boys of the Y. M. C. A. will be taken through the brush factory of T. S. Simms and Co., Ltd., on Saturday for the purpose of giving them an opportunity to witness the processes of manufacturing.

The postponed annual meeting of the Y. M. C. A. will be held at eight o'clock this evening. The revision of the constitution and by-laws will be taken up and a trustee will be elected in place of R. B. Emerson, who has resigned.

A big wagon loaded with hay attempted to dispute the right of way with a street car on Main street this morning. The car struck the Saturday with a considerable jar and lifted the end of it clear of the pavement. No serious damage was done.

DISORDERLY HOUSE CASE AIRED IN POLICE COURT

Minnie Nairn Said to Have Transferred Her Affections From Morrison to Conboy.

Minnie Nairn, a colored woman, was before the court this morning on the charge of keeping a disorderly house on Carmarthen street. A white man named Conboy and a black man named Lapee were charged with being inmates. Policeman Marshall gave evidence that a week ago last Saturday night there was loud talk and swearing in Mrs. Nairn's house, and he heard Minnie threaten to cut Conboy's head off with an axe.

ROBERTSON-COLLINS The wedding of Miss Ethel M. Collins, daughter of Mr. and Mrs. James Collins, of 127 Lennox street, to Mr. Frank Nicholas Robertson, takes place at 4.30 this afternoon at the home of the bride's parents, which is prettily decorated for the occasion.

MR. MURDOCH BACK, BUT IS NOT CONVINCED Thinks St. John People Do Not Want to Pay \$3.00 a Yard for Fancy Pavements.

After an instructive and interesting trip Wm. Murdoch, the city engineer, returned this morning from Boston and the vicinity.

BERLIN, June 1—Count Zeppelin has sent a telegram to the Reichstag saying that he regrets greatly that he must postpone his invitation for members to make ascensions in his new model airship as the complete restoration of the damaged parts will require six weeks.

PERSONAL Dr. J. R. Inch is in the city. S. D. Scott and Jas. E. Crockett returned to the city at noon.

Rev. and Mrs. Duncan MacRae arrived in the city today and are the guests of Mr. and Mrs. A. W. Robb, of Elliott Row. While here Mr. MacRae will address the meetings of the Presbytery.

WILL TAKE SIX WEEKS TO REPAIR THE AIRSHIP

BERLIN, June 1—Count Zeppelin has sent a telegram to the Reichstag saying that he regrets greatly that he must postpone his invitation for members to make ascensions in his new model airship as the complete restoration of the damaged parts will require six weeks.

GIRL CHARGED ASSAULT; BROUGHT IT ON HERSELF

Drunk Believes He Fell From a Train But Does Not Know—Other Matters in the Police Court.

There was rather a busy session in the police court this morning. Two drunks who pleaded guilty were remanded to sober up.

Joseph Roberts, who falls from Cumberland Co., N. S., was found asleep in a box car in the I. C. R. yard early this morning. His face was badly bruised and when asked by the magistrate how he came by his injuries he said he had been told that he fell off a train, but he did not remember it. He was remanded to jail.

Wm. White pleaded not guilty to the girl first accused Campbell and after reaching her home returned up town to King Square. The magistrate said the woman must be protected, but they must not go along the street scraping their feet or looking over their shoulders to attract young men. He made a discrimination between respectable women and the other class. He allowed Campbell to go, telling him to be careful in the future and not even talk to the class of girls who parade the streets.

George Sealey was fined \$8 for allowing his horse to stand on Mill street without being in charge of an adult.

COMING IN THE INTERESTS OF WORK FOR BOYS

J. J. Davey Will Address Meetings at the Y. M. C. A. This Week.

In connection with the forward movement in work for boys in the Maritime Provinces of St. John will be visited this week by J. J. Davey, who is acting as special boys work secretary of the Y. M. C. A. in the provinces during this summer.

Mr. Davey will arrive here tomorrow and will remain until Friday. A programme is being arranged which will give all who are interested in this work an opportunity to meet him.

Tomorrow evening Mr. Davey will address a meeting of the cabinet of the boys' department. On Tuesday evening he will address a meeting in the Y. M. C. A. building in connection with the summer institute. Pastors, Sunday school teachers and superintendents and all others interested in the work for boys are invited. On Friday evening he will give an illustrated camp talk for the boys in the interest of the boys' camp to be held at Grand Lake from August 4 to 17.

Mr. Davey was for many years boys' work secretary of the west and branch of the New York Y. M. C. A. and has a large experience in the work.

While here he will endeavor to arouse deeper interest in the boys' camps held by the Y. M. C. A. on Grand Lake and in Pictou County, N. S. He is also here in the interest of the institute for older boys and adult workers with boys which is to be held at Big Cove, Sutherland's River, near Lake from August 4 to 17.

Among the speakers will be Dr. J. N. Sealey, of the Springfield Training School; R. A. White, Jr., a well known athlete from New York who holds several championship cups; G. W. Hinchey, of the Good Will Farm for boys; C. C. Robinson, Boys' Work Secretary for the State of Maine; F. H. Ritchie, Canadian Boys' Work secretary; Mr. Davey, and a number of maritimers.

MR. MURDOCH BACK, BUT IS NOT CONVINCED Thinks St. John People Do Not Want to Pay \$3.00 a Yard for Fancy Pavements.

After an instructive and interesting trip Wm. Murdoch, the city engineer, returned this morning from Boston and the vicinity.

Mr. Murdoch said the party of civic representatives inspected the work of the Housum Paving Company at Worcester and Lowell and that done by the Hithulthide Company at Boston and Cambridge, and saw the best results of the work done by both companies.

He thought the pavements were excellent and would be well suited to some parts of St. John. He did not believe, however, that there were many people in St. John who were anxious to see a pavement laid here that would cost about three dollars a square yard. He thought that something of a more moderate cost would have to do for St. John for a while.

The death is announced of Major Frederick Harris Daves Vieth which occurred at Ottawa yesterday. Major Vieth was a native of this city. He was the oldest son of Captain Frederick Vieth, at one time of the Imperial army, but who subsequently for many years, was assistant deputy commissary general stationed at Halifax. Recorder.

NELSON-FLEMMING

This morning the Exmouth street Parsonage was the scene of a quiet but pretty wedding when Miss R. A. Fleming was united in marriage to Mr. John L. Nelson.

The ceremony was performed by Rev. Mr. Howard. The bride was attired in a travelling suit of navy blue and carried a bouquet of carnations. The bridal couple left for their honeymoon at 10 o'clock.

Mr. and Mrs. Fleming received a beautiful silver pickle jar from Hon. Mr. and Mrs. Maxwell, a steel engraving from Mr. and Mrs. C. W. Stockton, a china scallop dish from Mr. B. L. Jerow, a set of silver spoons from Mr. and Mrs. Tait and daughter, and other numerous presents. On their return Mr. and Mrs. Nelson will reside at 15 Clarence St.
