THIRTY-SECOND

ANNUAL REPORT

OF THE

MISSIONARY SOCIETY

OF THE

Wesleyan-Methodist Church

IN CANADA,

IN CONNEXION WITH THE ENGLISH CONFERENCE.

FROM JUNE, 1856, TO JUNE, 1857

Toronto:

PRINTED FOR THE SOCIETY AT THE CONFERENCE OFFICE,  
STEAM POWER PRESS, No 9, WELLINGTON BUILDINGS, KING-STREET.  
1857.

## Annua

The THIRTY-SEVENTH ANNUAL MEETING OF THE SOCIETY OF CHRISTIAN WORKERS IN CANADA, was held at Toronto, Ontario, on November 15th, 1887. The Meeting was opened by the Rev. G. H. Green, D.D., and the following Resolutions were adopted:

I. Moved by the Rev. G. H. Green, D.D.

*That the Report of the Executive Committee be read and circulated unaltered.*

II. Moved by the Rev. G. H. Green, D.D.

*That the increase of the membership of the Society in Great Britain be read and unaltered, and that the Report of the Executive Committee be read and unaltered.*

III. Moved by the Rev. G. H. Green, D.D.

*That the suppression of the constant claims of the Society for the support of the cause of the oppressed, and the indispensable, and the prayers, and the liberation of the oppressed.*

IV. Moved by the Rev. G. H. Green, D.D.

*That this Meeting be held at Toronto, Ontario, on November 15th, 1888, and that the Society, and the all Religious Conference be held at Toronto, Ontario, on November 15th, 1888.*

# PROCEEDINGS

OF THE

## Annual Meeting of the Society.

The THIRTY-SECOND ANNUAL MEETING of the MISSIONARY SOCIETY of the WESLEYAN METHODIST CHURCH IN CANADA, was held in Queen Street Church, Toronto, on Tuesday, December 15th, 1857. The Reverend RICHARD JONES in the Chair. The Meeting was opened with singing and prayer, and the Report having been read by the General Superintendent of Missions, the following Resolutions were adopted:—

I. Moved by the Rev. L. O. RICE, seconded by PETER LE SUEUR, Esq.—

*That the Report, of which an Abstract has been read, be received and printed, and circulated under the direction of the Committee.*

II. Moved by the Rev. J. BORLAND, seconded by J. McDONALD, Esq.—

*That the increasing and animating success granted to this Society, the honoured Parent Society in Great Britain, and other Christian Missionary Institutions, calls for prompt and unreserved thanksgivings, and they are most devoutly offered by this Meeting to Him who is Head over all things to the Church.*

III. Moved by the Rev. G. DOUGLASS, seconded by the Rev. ANSON GREEN, D.D.—

*That the supreme command of Christ, and the growing facilities of his people, the constant claims of existing Missions, and the urgent wants and solicitations of many unregenerate men in Canada, Hudson's Bay, and different Countries, render Divine energy indispensable, and make it the duty of all Churches to multiply their sympathies, prayers, and liberalities for the salvation of a world redeemed by the blood of the Lamb.*

IV. Moved by the Rev. J. H. BISHOP, seconded by the Rev J. LEAROYD.—

*That this Meeting presents its sincere and hearty thanks to all the Ministers, Officers Collectors, and Contributors of all the Branch Societies, who have so effectually aided the Society, and earnestly entreats from its numerous adult and juvenile Friends, of all Religious Communities, a continuance and augmentation of their valuable services.*

# Report.

D., Super-

It is with great satisfaction and pleasure the Committee of the MISSIONARY SOCIETY OF THE WESLEYAN METHODIST CHURCH IN CANADA present their Thirty-Second Annual Report to its numerous members and supporters; and with gratitude to the adorable Giver of every blessing, and to his people for their zealous and generous coöperation.

Missions.

Several considerations have continued of paramount importance in the judgment of the Committee,—and before all others, the duty of unwaveringly submitting to the Divine requirement which authorises evangelical Missionary operations. Next to this, it has been their wish firmly to retain, and sedulously to exhibit the cardinal principles of the Society,—one of which is, that every thing done is to be to the glory of God,—and another, that the truths and privileges of the glorious Gospel of Christ are to be universally diffused under the influence of the Holy Spirit, that all men may be saved. A third consideration has been, the constant necessity of suitable Agents, that in the graces they possess, and the gifts they employ, they may abound in the fruits of holy labour: and if the success of this and every past year is a sure criterion, the providence of God has plainly made the adaptation of the Agency to appear. Then, with large funds entrusted to the General Treasurer, he and the Committee have felt that their responsibilities were proportionate, and that prudence and economy should mark their outlay; while, shunning the evils of an unyielding and parsimonious policy, due attention should be given to the diversified circumstances and claims of the Missionaries, whether their Stations be among the New Settlers and Indians of Western Canada, in the midst of a Lower-Canada Romish population, or in the remote wilds of Hudson's Bay. Personal allowances, and appropriations to localities could not, therefore, always be uniform, nor small in amount, without injustice and inefficiency. It is with much thought and anxiety, and in the fear of God, that the Society's funds are yearly expended: and it is exceedingly

gratifying that year after year an augmented Income bespeaks a growing confidence in the ministerial and lay management of the Missionary Department, the procedure of which it is always a pleasure to state with frankness and frequency.

The position and proceedings of the Society for years have been prominent, and as one of Canada's oldest Institutions it obtains great respect, and an aid unprecedented in this or any other country; while its potency has never been and is not, derived from secular facilities, but from sources purely religious and benevolent. One of many Colonial Societies in existence for spreading the savour of a Redeemer's name, it rejoices in their spiritual advance; its catholicity being descended from the Founder of Wesleyan Methodism, it is the rival of none, but the sincere well-wisher of all Protestant Evangelizing Agencies; and favoured with the countenance of the liberal of every Colonial Church, it is a blessing to all, and the difficulty is increased when it has to be decided, whether the benefits of the Society's Missions are more abundant within the Wesleyan Church, or beyond its ecclesiastical boundaries. This may be said without presumption or invidiousness, the influence of those Missions is too widely extended in its ramifications for the statistics of the Society to take cognizance of all its effects, and results are produced which only eternity can declare.

Only seven years ago the Society's published Stations were 54—for the year now reported they have been 134. At that time there were 64 Missionaries in the Stations—this year there have been 164, besides other preachers, teachers, and interpreters. Seven years ago the Receipts were hardly £3,400—now they are more than three times that amount. During that period many Missions have become Circuits of repute; but it cannot be told what labours have been performed and difficulties surmounted by the Missionaries. It cannot be told how salutary the Gospel has been to the Aboriginal Tribes, nor what families of Emigrants and scattered Settlers have been cheered in their solitudes, and elevated by Christian privileges. And but for an extra-ordinary liberality in the Society's friends, and a yearly welcome increase of them, much that has been done must have been unaccomplished. The work has had its impetus from Omnipotence; and

"More and more it spreads and grows,  
Ever mighty to prevail."

As the most extensive and flourishing Auxiliary of the WESLEYAN MISSIONARY SOCIETY of Great Britain, the Canada Committee are

gratified with the vigour, respectability, and success which that connexion conduces to secure, and with a stronger attachment year after year in this country to the Parent Society, a succinct, though necessarily imperfect account of which is always with great pleasure incorporated in this Report.

The amplitude of the Parent Society's Missions, their strictly Wesleyan agency, and constitutional management are admired; and their past results, obtained often amidst virulent opposition and opprobrium, are identified with the enlightenment and happiness of many Pagan multitudes on earth, and with the glories of immortality, which men of different colours and tongues enjoy eternally with Abraham, Isaac, and Jacob in the kingdom of God.

From time to time princes of the Wesleyan Israel in England, and eminent standard-bearers in Foreign climes have fallen in death, and there was lamentation, and by some a supposed opportunity for discouragement, but from the death of Dr. Coke on the Indian Ocean to the death of Dr. Beecham at his distinguished post of official labour, God has graciously interposed and replenished the ranks with men of sanctity, wisdom, fortitude and fidelity, and the Missions have been honoured by the Holy Spirit with wonted effusions, and rapid progression. It is almost impossible to find among its Missions anything to dishearten but the paucity of Missionaries, and that paucity, is in many cases the consequence of success. On some Missions peculiarly circumstanced a maintenance of position without accessions of members has been success. In India and elsewhere, where numbers may not have much advanced, it has been most important success silently to spread the truth in castes and communities preliminary to a marvellous, expected disruption of ancient systems of superstition and sin; and it is felt that the Christian decision on the part of one Hindu or Chinese, is invested with an importance, not exceeded by the decision of many in other circumstances. On other Missions the effect has been more after the manner of European success, and large bodies of men have been awakened, and converted, and then added to the Church, though in not a few of such instances—as in Polynesia, years of self-denying application had preceded the day of salvation and triumph. Whichever way, Christ and his servants have been satisfied with the nature of the work done.

For a lengthened period—such have been the demands of Providence upon it—the Parent Society has deplored a great want of labourers, and the English *Notices* have contained appeals to the stated Ministers and others for fresh devotedness on their part to the cause of the Saviour; and it is a joyous consideration that the large accession of preachers granted to the

Committee are

British Conference this year will help to lessen the present want, and aid the destitute in heathen countries; while such a supply now will only give new impulses to the work, and as it has been from the first, still larger demands will be made by the heathen for Gospel agents.

The following are the last annual statistics published by the Parent Society:—It had last year 458 Central or Principal Stations, 3624 Chapels and other Preaching Places, 633 Ministers and Assistant Missionaries, 886 other paid Agents, 9833 unpaid Agents, 114,428 Church Members, 4337 on trial for Membership, 92,619 Scholars in the Mission Schools, and 8 Printing Establishments. Forty-five Missionaries, and Wives of Missionaries, were sent out last year to different parts of the globe. The Income was £119,205 8s. 2d., including the Juvenile Offering, £6,688 5s. 2d.; and receipts from the Society's Foreign Auxiliaries—of which Canada is one—were £25,720 11s. 7d. The sum of £6,397, the balance of a long standing debt of the Society, has been paid, and the Rev. Thomas Jackson thus spoke at the last Annual Meeting in reference to the pleasing fact: "We shall never keep this Society out of debt, from year to year, unless we increase our contributions, and exert ourselves to raise its income. The necessities of the world must be met." There is now an attempt made to raise the income to £150,000, and high hopes are entertained of success. The Rev. Dr. Hannah said at the same meeting in Exeter Hall, "I do not know that the Society ever had brighter prospects than it has at this hour, ever more unequivocal tokens of the presence and blessing of Almighty God."

But again that Society states its claims, though God hath done great things for it, and the appeal of its Committee is unusually cogent:—Occupied fields must continue to be cultivated; then China, Thibet, Persia, Turkey, and Central Africa, are presented to notice, and it is said, "*All* these are to be evangelized, and their needs and miseries as unevangelized nations must be kept under consideration by those who are pledged to aim at, and to be satisfied with nothing less than, the conversion of the world."

The Committee now submit a Summary of the operations of the **AUXILIARY SOCIETY IN CANADA** for the past year, and beg to refer its intelligent friends to the numerous reports from the various Missions on other pages, for those particulars which they always expect with lively interest—particulars stated with much conciseness and plainness by men of toil, and accustomed to deal with matters of fact. This Society has supported 23 Indian Missions, 111 Domestic Missions, 27 Missionaries to Indians, 157 Mis-

sionaries to W  
19 Day and S  
preters, and 1

sionaries to Whites, including about 20 employed by Chairmen of Districts ; 19 Day and Sabbath Schools, 2 Industrial Schools, 20 Teachers, 10 Interpreters, and 1 Printing Establishment, beside defraying the contingent expense of management, of outfits, travelling, printing, and publications. On the Indian Missions there are 1458 Members of the Church, shewing a most gratifying increase of 146 Native professors, as the fruit of energetic effort in Hudson's-Bay and Canada. On the Domestic Missions there are 14,740 Members. The previous year there were 103 Missions, and 172 paid Labourers of every class ; this year there have been 134 Missions, and 214 Labourers. But, though this state of remarkable enlargement has been reached, no fixed limits to the work appear ; on the other hand, not a month passes, but there is an earnest commencement in some new locality of the same Christian work ; applications to the General Superintendent for more Missionaries are frequent ; and accumulated triumphs await the Society in its fearless encounter with error, vice, and paganism, in which it has the indispensable presence of the God of grace and power, giving to Truth invincibility and the energies of renovation, and opening anew lips of praise to the Saviour of sinners.

No fact more regularly claims a place in the Report, than the steady and certain progress of the DOMESTIC MISSIONS, from a condition of embryo formation, to the perfection of Circuit efficiency ; and the Committee are not aware of any process more necessary and befitting, upon which more important results depend for the promotion of Canada's greatness and happiness ; and while they willingly bear testimony to the great usefulness of other means, civil and ecclesiastical, they consider that the Wesleyan Missionary Agency is inferior to none in the accomplishment of that patriotic and Christian object ; and they exceedingly rejoice, that at the time other British Provinces are strengthening and beautifying their domestic and religious Institutions, Canada is year after year becoming more deserving of the just and benignant rule of Her beloved Majesty, Queen Victoria, and of the admiration of all nations.

The work among the Indians is done under the influence of all the reasons which constrain to action in the Domestic work ; but among the Aborigines there are additional reasons,—thousands within reach of the Society never heard the Gospel ; many are allied, in ferocity and superstition, to the unsaved natives of Feejee ; they are a despised and injured people ; and another reason, of which the Wesleyans feel the force, their instrumentalities have been, beyond others, blessed to Indian elevation. As usual, there

have not been wanting this year the attempts of enmity and bigotry to damage the Indian work, by covert means and by the press, but they have been as futile as they were puerile.

The Committee are happy to state, that at all the INDIAN STATIONS there has been a resolute adherence to tried principles and means, notwithstanding the vigilant and vicious machinations of base white men; that conversions have taken place at several of the old Missions; that in Hudson's Bay, though the number of Missionaries is much under the number necessary, there has been a cheering increase of hearers, scholars, baptisms, conversions, and classes, while the Missionaries have been much facilitated in their labours by the courteous and liberal attentions of the gentlemen of the Honourable Hudson's Bay Company; that Walpole Island on the St. Clair, and Pigeon River, at the head of Lake Superior, are new Indian Missions; that the Stations on Lakes Superior and Huron now form a new Indian Mission District, in charge of the Rev. Thomas Hurlburt, whose regretted removal from Hudson's Bay on account of Mrs. Hurlburt's precarious health, from a District where he was very efficient, has rendered it necessary to send the Rev. Charles Stringfellow, accompanied by his devoted wife, as the successor of the Rev. Robert Brooking, who now resides at Rossville, Norway House, and is Chairman of the Hudson's Bay District, where, it is not doubted, his well-directed exertions will be as effective as they were at Oxford House. The Rev. Allen Salt has been obliged to return from Lac-La-Pluie because of Mrs. Salt's unfavourable state of health; but a supply for that place will be sent as soon as practicable. The Revs. Messrs. Woolsey and Steinhaur are labouring very harmoniously, and with good effect, in the Saskatchewan region, the first at Pigeon Lake and Edmonton, and the other at Lac-La-Biche. Mr. Woolsey has very praiseworthy spent much time among the Indians of the "Thousand Miles Plains;" has introduced himself to several large, unevangelized Tribes, and hopes, by establishing a Mission at Pigeon Lake, and frequent journeys, to bring many souls to God. These faithful and esteemed men are again commended to all the friends of the Society, especially when they pray that the "waste places" may be made to "rejoice."

The Wesleyan Missions in Lower Canada report some prosperity, though impeded by peculiarities and drawbacks such as the Missions in Upper Canada have little to do with. The dominant religion, and the majority of the inhabitants are Romish. The Protestant religious profession of too many is variable. The supposed superiority of the West to the East is a reason with many for changing their place of residence. The very existence of

Papery has a tendency to impede the progress of the work; so that the removal of obstacles relative to those Missions is a matter of great importance, and one which is indispensable to the forward progress of the work.

The Society's assiduous Missions in the Canadian Paps are the devoted of Roman has been an attention since interest to the people from their heart are not is it is satisfactory the Italian faith of Schools ordered Press; a train a word, a plan this and other Canada!

The large attendance of 1856 several Missions; and a desirable purpose Spirit of God prayers of His respectfully call men and means vast Hudson's-

To sustain the altar for God's their Samuels is, that other Funds shew no

Papery has a tendency to produce listlessness and unbelief even in Protestants; so that the Society's Missionaries there have to proceed in the midst of obstacles religious and financial, and, consequently, the productiveness of those Missions is necessarily disproportioned to the outlay incurred, and the judicious and unwearied efforts of the Missionaries. Their efforts, however, are indispensable, and their maintenance a duty: and the best of their reward is postponed until the predicted period when Babylon shall fall.

The Society's FRENCH MISSION bears a promising aspect, and its four assiduous Missionaries have not exposed their lives in vain among the French-Canadian Papists. Two have suffered publicly from the furious attacks of devotees of Rome, and all have been threatened; but so far the wrath of man has been made to praise God; for a sympathy has been excited, and an attention since bestowed even among the Romanists, which have added interest to the public services held by the Agents, and removed some obstacles from their path of usefulness; and instances of true regeneration of heart are not isolated, but sufficiently numerous to encourage constancy; and it is satisfactory, that among the Agents are men once ardent promoters of the Italian faith. There is needed an augmentation of talented Labourers; of Schools ordinary and superior; a broad application of the power of the Press; a training for Agents; an increase of generosity for these ends; in a word, a plan on a scale commensurate with the object contemplated by this and other valuable Societies—the thorough Protestantizing of Lower Canada!

The large accession of Ministerial probationers received by the Conference of 1856 enabled the Society to add to the number of labourers on several Missions, and extend its agency to remote and necessitous settlements; and a still larger accession last Conference serves the same most desirable purposes—purposes which have hitherto been realized only by the Spirit of God being poured out on young and gifted men, in answer to the prayers of His people for more labourers: and now incessant attention is respectfully called to the same weighty duty, that there may be no lack of men and means to supply the spiritual exigencies of the Canadas and the vast Hudson's-Bay Territory.

To sustain the cause many offerings have been laid on the Missionary altar for God's acceptance. Christian Hannahs have gone to that altar, and their Samuels now minister in holy things: and, yet, the wish of the Church is, that other Hannahs should go and do likewise. The Contributions to the Funds shew no fluctuation but that of increase. The opulent give of their

abundance; and even the penury of some makes payments precious before the Lord. With many yearly social advancement is a reason for an advancing liberality. There must be genuine principle, and ardent attachment. The spirit of benevolence is extending among the Youth of Wesleyan families, and among the Children of the friends of Wesleyan Missions, and in Sabbath Schools. The Missionary Box is more generally made the receptacle of stated deposits, and, it may be, of accidental, but prized presentations; the professional income, and the merchant's stock, and the field, the orchard, the flock, and the hive are placed under sacred tribute; and the bed of death is made radiant by a pious generosity. Here is the ingenuity of Christian love, admirable for its purity and spontaneity! "The people rejoiced, for that they offered willingly, because with perfect heart they offered willingly to the Lord."

The Committee would devoutly ascribe unto God, for the signal favour he has shown to the Society another year, wisdom, and might, and honour, and majesty; for He alone is worthy; and they would humbly beseech Him still to let His work appear unto His servants, and make "the beauty of the Lord" to abide upon it everywhere,—that the blessings of the future may be even more than the blessings of the past, for individuals and families, throughout the Society's immense field of Christian enterprise and exultation.

Many have coöperated to give the Society its present lofty position and influence—many of the Wesleyan Church and of others;—Ministers, who have been the Society's officers and advocates; Local-Committees of gentlemen, who have greatly aided its proceedings; the Collectors, who have gratuitously and untiringly served it most satisfactorily; Contributors, adult and juvenile, of all the Branch Societies, who by a "copious liberality," in doing more than ever to bless others, have more than ever honoured and blessed themselves; and numerous hospitable and active Friends, who, besides their regular subscriptions, have kindly done the Society good service. To *all* the Committee present their very cordial acknowledgments, and well-wishes for their prosperity.

While they have been coöperating for the glory of Christ, and the Missionaries of the Society have been in labours more abundant, the Holy Spirit has made the Word to have free course, and men have turned to God with full purpose of heart; and while in remote heathen lands the Gospel has triumphed, in our own land it has added conquest to conquest. In the language of a Report of the Parent Missionary Society, written by the eloquent Richard Watson, it may be said, "The trumpet of Jubilee has sounded, and

---

## INDIAN MISSIONS.

---

The following and former Reports from the Indian Missions, the Committee think, cannot be read without the conclusion being arrived at that the course must still be pursued with them which was taken at the first,—that is, they are to be unremittingly trained, and prime importance be attached to strictly Christian teaching; from which all the advantages of domestic and national life are to flow to individuals, tribes, and the rude nations of the wilderness. Systems of rule will control the irregularities of multitudes, and the reciprocities of home will humanize, and nature with its magnificence and minuteness, and matchless forms and hues, will give sensibility to stoicism; but without Christian teaching, and an accompanying grace, there must be government, as in China, without the abolition of idols; there must be science and philosophy, as in India, without the loss of obscene superstitions; there must be the enchantments of nature, as in the Southern Isles, without the loss of savagism and blood. Whatever of permanent order and happiness have been beheld among the Natives of British America, have been the effect of the truths, and laws, and spirit of Christ.

The sanctification of the Spirit was wanted in the beginning, and continually, to change the Indian's heart, and lead his footsteps to the inviting blessings of social elevation; and the same sanctifying and impulsive power as at first, is needed to move him now for the good of his fellows. The ordinary appliances of civilization have been ever found to be insufficient to induce fellow-feeling in the highest sense; and, therefore, no civilizing zeal or ability in white or red man has yet been known equal to the full accomplishment

of what red men require for time and eternity. It was when a Case, a Torry, a Jones, and a Davis, constrained by the love of Christ, sought the debased denizens of the forest, that band after band became not only decorous in their habits, but regenerated in spirit, and desirous from the moment of conversion of attaining all the joys and benefits of civilization, and of conferring them on others. Many thousands of pagan Indians are accessible to the Society, and it is only by baptisms of the Spirit, that men can be made fit evangelists to those thousands, and the Society's white and native Agency be as ardent and all-conquering as it was thirty years ago. These remarks are made emphatically, under a conviction of the Ministerial wants of the Society in the vast North-West.

During those years, thousands of Indians have been gathered, after much weary traversing of woods and waters, and now among the most touching social scenes in Canada and Hudson's Bay, are Christian Indian Villages; and among the most imperative duties of the Society's Missionaries is the conservation of the good done; and for this, never was a prudent and earnest pastoral system more requisite to keep undeteriorated the purity and freshness of Indian piety. This is needed to repel the foul attempts of the adversaries of the Indians to throw them back into barbarism; this is needed that the Christian Indians, may yet supply regenerated agents for regenerating other Indians.

Ever absolutely necessary are Gospel instructions and ordinances; and for some time it has been seen that more attention should be bestowed on the Youth of the villages, and an increase of Industrial Institutions be secured. This would tell on the Native Agency, and greatly assist to perpetuate the good done, while it would beget hopes of future achievements. The utility of such Institutions has nothing speculative about it; for the two well-conducted establishments, of which we present Reports from their respective Principals, have not failed, but succeeded.

From the Letters now published, it will appear that though the practice of interpretation, where unavoidable, has its evident uses, Missionaries to the Indians who know the native tongue have superior facilities, and save the funds; and it is a serious question, whether they should not more frequently give themselves for life to this work, and from high motives acquire the language? In his attractive volume on the Mysore Mission, the Rev. William Arthur says:—"Every Missionary ought at the very outset to determine that, by the help of God, he will preach to the people in their own tongue as well as if he were a native. To fix an aim lower than this, is suicidal to his own

respectability and influence." This would much aid a system which the Parent Society has proved to be the best; men of various gifts and tested experience are entrusted with the superintendency of the central stations, and Natives of piety and zeal are their coadjutors.

The intelligence now conveyed will obtain for the Missionaries—Anglo-Saxon and Native—a warm approval; the trials they endure will draw forth the sympathies of the reader; the difficulties they meet with will add to the earnestness of prayers put up for future success. To see that a people who from time immemorial roamed the desert, are in thirty short years so changed, will astonish the reasonable observer; and to see that the children of the wilderness are still sought and taught, will be an acceptable fact; and not less acceptable, that the evils to which the Indians are exposed, are, in many cases, abhorred and shunned; and it is delightful that idols have been cast away, and a large number of Indians have trusted in Christ, and joined the Church; while those who have died have not gone to some imaginative place of pleasure in the far West, but to everlasting happiness, prepared by Him who is for salvation to the ends of the earth.

### NEW CREDIT.

In taking my leave of this Mission, I have to say, that my success among the Indians has not been such as I could have desired, nevertheless, the Lord has not left himself without witnesses among this people; a very considerable number have been brought from darkness to light, and from the power of Satan to God since I commenced my labours among them, and not a few have been translated to the Church triumphant at God's right hand. During the last fifteen months of my stay, out of a population of some two hundred and twenty, no less than fifteen took their departure to the spirit-world. I am glad to have it in my power to say, that the greater number of them, that is, the adults, gave satisfactory evidence of having experienced a change of heart before they died.

The greatest hindrance to the salvation of this people, is their thirst for strong drink; and unfortunately for them there are men not far from them who are willing to furnish them with all the liquor they can find means to pay for. Oh! when will the time come that these persons, and all others engaged in the same business, will be prohibited from spreading their poisons broadcast over the land, to the destruction of the souls and bodies of their fellow men! If I had it in my power to strike a death-blow to the liquor traffic, there would not be a single groggery in the land an hour hence. I view the drinking customs of the day, not as one of the greatest, but as the greatest evil that now exists in our sin-stricken world; and my opinion is, that unless steps are taken by those who have the power to prevent this evil, it will bring the curse of God upon a guilty nation. This language may appear strong, but it is not more so than my feelings are upon the subject; nor do I think that my feelings are stronger than were

the feelings of the venerable founder of Methodism on the same subject more than a hundred years ago. Let us hear his language :—"None can gain by swallowing up his neighbour's substance without gaining the damnation of hell ; neither may we gain by hurting our neighbour in his body ; therefore we may not sell anything that tends to impair health ; such is eminently all that liquid-fire commonly called drams or spirituous liquors. \* \* \* All who sell them in the common way to any that will buy, are poisoners general ; they murder His Majesty's subjects by wholesale."

MATTHEW WHITING.

## GRAND RIVER.

This is our oldest Indian Mission in Canada, and during the labours of your Society, many souls have been converted to God, and gone triumphantly to heaven ; and several pious souls are now on their way to that "rest which remaineth for the people of God." This mission has been in a rather discouraging state for some years past, many of the most influential members having died, and some having gone back to the service of the devil, generally by being clandestinely supplied with "fire-water," by unprincipled white men, which has made your Missionaries to mourn ; and still the work of death goes on. But by the grace of God your agents are determined to try to stem the tide ; and they have some success, and hope to have more.

In coming to this charge at the commencement of the year, no house could be obtained within the bounds of the Mission, so that one had to be procured elsewhere at a high rent, and to a great disadvantage for the prosecution of the missionary work ; but after the lapse of a few months different arrangements were made, and although it involved the expense and trouble of a second move within the same year, it was deemed best, and a log house, 18 by 24, on the mission, is occupied by your missionary, with a large family, hoping that a new mission house will be immediately built, which really ought to be done at once, for many a night during the winter has my dear wife had to brush the snow off our children's bed up stairs, and to turn over the dampened pillow. From what I know about our beloved people in Canada, they do not wish their missionaries, toiling hard to save souls from death, to be uncomfortable in their circumstances : not they. A thousand of them would rather give an additional dollar, than to have one of their Missionaries ; that has been toiling hard for twenty-five years, obliged to live in a poor little log house, with a large family. Our Indian chapel requires to be underpinned, and painted outside and inside. The belfry is unfinished, and without a bell.

We have cause to thank God that some spiritual prosperity is apparent ; several souls have professed to obtain peace with God through believing ; and some can rejoice that the blood of Jesus Christ cleanseth them from all sin. Our congregations are good. Two new classes have been formed during the year among the Mohawk Indians, besides the Delaware class mentioned in the May Missionary Notices, now transferred to the New Credit Mission. One class has also been formed at the Salt Springs White Settlement, where we are making an effort to build a church. We have a promising Sabbath School at the Indian church ; 9 teachers, 45 scholars. We have 86 Indian members, and 10 on trial ; whites, 19 members. Three Indians have died *in peace*. Thank God our

people die well. We had rather an encouragement in the blessings will arise and Rev. W. Ryerson, when at home, to assist it.

Hoping that we and the House of God was more ready and known Saviour known.

Though we report a decrease in numbers on this Mission the present year, owing, principally to very many removals and deaths, yet we believe it was never in a more healthy state of spiritual prosperity. We realize a handsome advance in our connexional funds ; our day and Sabbath schools are improved both in numbers and efficiency ; our excellent agent, F. Talfourd, Esq., aided by Chief D. B. Wawanosh (I am happy to say) use their influence in favor of pure religion among this people, as well as sobriety and industry, and are exerting themselves to prevent them from roving abroad, and exposing themselves to temptations from unprincipled whites, and are collecting and settling them on this reserve, where they may enjoy the blessings of the gospel, and the benefit of schools. "Behold how good and pleasant it is for brethren to dwell together in unity."

It is with gratitude to the Divine Being that we inform the friends of Missions that a new door of usefulness is now opened to us on the Walpole Island, River St. Clair. It is well known that for many years a mission has been established on said island, by the Bishop of Toronto. It is also well known that the Potawatamies, the most numerous tribe connected with this band, have until recently refused and rejected every effort to rescue them from a most revolting state of pagan superstition and drunkenness. Last autumn a young man was induced to commence a series of religious meetings among them, assisted by some native speakers, and he succeeded in gaining their attention to the sufferings and death of Jesus Christ for their salvation, when an awakening took place among them, fourteen applied for Christian baptism, and were admitted into the church on trial. Since then our congregation is large and attentive. We could say much that would be considered as indications of Providence in regard to the time having come to proceed at once in establishing a mission in this special opening. At the Aux Sable River, thirty miles north of Sarnia, we have some ten or twelve families of Potawatamies, to whom we have preached during the year occasionally ; twelve of them have given in their names, desiring to become Christians and be baptized. We trust a good work is commenced in this band also.

S. WALDROX.

## MOUNT ELGIN AND MUNCEY.

At the close of another Conference year, in which we have had the strongest proof of the presence of the Divine Being in our midst, a sense of our indebtedness to God, prompts us to forward to you a report of the present state of this interesting and important field of labour.

My excellent predecessor, the Rev. S. Rose, returned 197 church members, in connection with our Indian work on this Mission, comprising three distinct bands,—the Ojibwas, Munceys, and Oneidas, speaking three different languages.

We have six classes among the Ojibwas, one among the Munceys, and five among the Oneidas, an Indian brother having charge of each class as its leader. All the classes have been regularly met during the year, with one exception, it having been suspended for about two months, in consequence of the absence of the members on their hunting excursions. We entered into a strict examination of the classes, at all our quarterly meetings, and were very much pleased with the punctuality and faithfulness of the members generally in attending class. After our camp meeting last fall, upwards of forty were admitted on trial, five have died happy in the Lord, and eight have removed from the mission. We now number 226, making a net increase of 29.

The Industrial School has been in successful operation through the year, and the boys and girls have performed their usual amount of labour, both in the field and in the house; and in relation to their literary attainments, Mr. Falkner, the male teacher, remarks: "In addition to paying due attention to, and making considerable advancement in the studies heretofore pursued in the school, the boys, especially the larger ones, have made great proficiency in rhetorical exercises. Some of their original productions, both spoken and written, would compare favourably with similar productions of a large class of young white men attending academies and high schools in our country."

On the 31st March, four boys and one girl, who had been in attendance upwards of five years, and whose time had expired, were called upon to give the parting hand to their fellow students, and to sever their connection with the Institution. The boys delivered each an address on the occasion, in English, dwelling at length upon their social and moral state and condition before entering the school, the advantages afforded, the benefits derived, and the grateful feelings they cherished towards those who had the charge of them, and taught them, by precept and example, both how to live, and how to die.

I had thought of embodying extracts from their addresses in this report, but the fear of swelling it beyond due bounds prevents me. Two of these young men are now employed as school teachers on our Indian missions, and the other two are also competent to teach the common English branches in any of our schools. The Sabbath school and Bible classes have both been regularly attended to; and I have great pleasure in bearing testimony to the zeal and faithfulness of our excellent teachers, Mr. and Mrs. Falkner, in this department of their work, as well as to their efficiency in teaching and governing the children in the day school. Mr. Falkner is also the leader of the class among the boys, and Mrs. Falkner among the girls, in the institution, and to their godly example and teachings, under God, may be attributed, in great part, the good work which has been in progress among the children for the last nine months: many of the larger boys and girls are now meeting in class.

The boys and girls double the number the highest position among the girls, hitherto. We have as forty, the accompanying. We have not being adequate we consider, that claiming the Indian them into fixed ha

The boys and girls have recited in the Sabbath school 7513 verses, more than double the number committed to memory last year. Elijah McDougal occupies the highest position among the boys, having recited 524; and Clara Wesley among the girls, having recited 375. There are now forty boarders in the institution. We have not had less during the year, and could as easily keep fifty as forty, the accommodations being provided, and the children desirous of attending. We have had to reject seven applications for admission lately, the funds not being adequate to support them. How deeply this is to be regretted, when we consider, that these industrial schools form the best ground of hope for reclaiming the Indian race from their roving and indolent habits, and of bringing them into fixed habits of industry and domestic economy.

May the Divine Being continue to smile upon us and bless our future efforts with still greater success.

JAMES MUSGROVE.

## NEWASH.

During the past year important changes have been made, which greatly affected the temporal condition of the Indians composing the Newash Band. Last winter a surrender was made of all the land which had been reserved for this band, extending from the head of the Bay at Owen Sound, several miles down the shore to Colpoys Bay. Since that surrender was made, the Indians appear more unsettled than before, and we have not been able to induce but very few of them to plant or sow any thing this spring. The principal part of the Ojibwas, composing this band, are unwilling to settle at Cape Crocker.

The deaths that have occurred during the year, are chiefly infants or young persons. With the exception of a few cases of intemperance, all the adults who make a profession of religion are still faithful. Some are truly consistent and exemplary Christians. The means of grace have been well attended to by all, when at home, and their children manifest an aptness to learn quite equal to any white children; but the school, as usual, has been frequently interrupted by their being absent, with their parents, from home. This, together with the disadvantage of being taught in a language they but little understand, renders it impossible for them to make very rapid improvement in their studies.

These Indians do very little to sustain the funds of our Congexion. Though they have many thousand pounds in the hands of others, yet very little is at their own command. The amount of annuity paid to each, is about from six to ten dollars a year, which does not supply their real wants one month, the rest of the time they fish, hunt, or beg. Having their teams and their land in common among themselves, none appear to have a heart to do much, and therefore but little of their time is occupied in cultivating the soil; and I fear they never will improve much in this respect, till each can have a team and a farm he can call his own. The Indian must have some responsibility, and be made to feel that he is a man, before we can expect him to act like one.

C. VANDUSEN.

## COLPOY'S BAY.

We have a small society of Indians at this place, who spent the most of last winter at Owen Sound, but have returned this spring to plant their corn and potatoes. They are supplied with the means of grace occasionally, by persons sent from Owen Sound to visit them.

C. VANDUSEN.

## SAUGEEN.

In closing up the affairs of this Mission, and reviewing the kind dealings of God with us during the past year, we find much to excite our gratitude for his goodness to us, and the people over whom we have been trying to exercise a pastoral watch-care. Although our advancement has been slow, yet I am confident that there has been an advance in religious enjoyment and morals. The fire-water is not drunk anything like so much now as it was last summer; there is an increased attendance on the means of grace; the congregation on the Lord's day is good: sometimes we have a good number of white persons mingling with our Indians in the worship of God. The Sabbath and day schools are well attended this spring. Since the sugar making, there appears to be an increased desire on the part of the youth to obtain knowledge. Our numbers in society are the same as was reported last year; yet there have been several cases of backsliders reclaimed, and the schedule will show twelve on trial.

There are two cases of peculiar interest on the Mission at the present time; I allude to an old man and his son from Manatooabning, who attend our chapel pretty regularly, and appear to be getting their eyes open. The young man says he never heard such things before; they appear to him altogether new; that their priest never told them so. We are in hopes they may be led to become Christians in truth and reality, as they are only Christians now in name, belonging to the Roman Catholic Church. There have been about twenty deaths among us this year, old and young. Two of our most faithful members have died. I trust they died in the faith of the gospel. One of them was Catharine Bedford, who was for a time at Alnwick Industrial School. The past winter has been a hard winter for our Indians here, as the frost cut off the crops last year, and provisions have been scarce and very high. Many of them were compelled to leave the mission for a good part of the winter. They have made this spring about fifty thousand pounds of sugar. This has been a remarkable year for sugar making.

J. K. WILLISTON.

## GARDEN RIVER.

Respecting this Mission we would say, a people here exist whose names are written in the Lamb's Book of Life, and yet were we to speak of the future we should do so with hesitation. Within the last six years changes have taken place calculated to thwart our plans and damp our expectations. Without entering into detail, we would first notice the great number of deaths; not less than

sixty-nine have perished, and the unsettled state of the country has given occasion to the expression is, that soon fall into the hands of the Christianization Society. The Catholics and Episcopalians are easily perceived, and the Missionary effort

sixty-nine have passed away since our connection with this band. In the next place the unsettled state of the Indian mind as regards their lands; the general impression is, that the reserves on the north shores of Huron and Superior will soon fall into the hands of the white man. Another serious hindrance to the Christianization of this people, is their division into different parties: the Catholics and Episcopalians, as usual, have divided the population with us. It will be easily perceived, that movements of this character must prove injurious to Missionary effort.

In the past our humble labours have been graciously owned. Many happy spirits have been gathered home to the paradise of God, and a goodly number are now walking in the narrow way. The most encouraging part of our work in the past year, was the Day and Sabbath Schools. Our excellent neighbour, P. S. Church, Esq., pledged himself to the sum of £37 10s., for the purpose of sustaining a school, with the understanding that we should provide an experienced teacher. A kind providence directed us to the right man, and general satisfaction has been given. In this we rejoice, for though the mission school is a work of the first importance, yet to make it effective is a difficult task. We cannot act upon the children, for there is no parental authority to second our efforts; we cannot act upon the parents in reference to their children, for their habits are so fixed and against us; and yet the teacher who enters this work, influenced by a love for souls, will overcome all.

In the past year our Sabbath school has been very successful, the number of verses recited, not including many hymns which have been learned, was 3211. Number in Society, forty-two Indians and twelve whites. Amount collected for Missionary purposes, £7 10s. Let me implore the sympathy and liberality of God's people in behalf of the poor Indians.

G. McDOUGALL.

---

## MICHIPICOTON.

This is an important post of the Hudson's Bay Company, about half way up Lake Superior, on the north shore, to which many Indians resort in the year, and where the Company's agent and his lady are very attentive to the interests of the Mission. At present, Popish priests have by insidious means interrupted the good work in progress, as is their wont; and the Missionary has not had the usual attendance, either at the public services or the school. Still, there are Indians who will not be deterred from using Protestant means to save their souls, and who have come themselves, and brought their children to us, for baptism. There has, amid all the opposition experienced, been good done, and it is considered the first-fruits of an abundant harvest to be reaped; and the Missionary is likely to be useful to Indians beyond the post, who have conferred with him, and are favourable to the Wesleyan Church.

---

## LAKE SUPERIOR, NORTH SHORE.

This is the Pic Mission, where the Bay Company have an establishment; and the gentleman at which, and his lady, are kind to the Missionary. The year has been one of great prosperity, and the native agent has rejoiced in his work. There

has been an extensive revival among the Indians, and we have now forty-four in the Church. The School has been held with some success. Several houses have been erected, and preparations were in progress for building a Mission House. The missionary has followed his people to their fishery, and there held night school, singing school, prayer meeting, and preaching services among them; and he has not lost his reward. The visits of the Chairman, Rev. C. Vandusen, to this and other Missions, have been very serviceable, in connection with the camp meetings held on Lake Superior, and there is good hope that ere long, other saved Indians will shout the praises of God from the rocks of the north shore.

### SNAKE ISLAND.

The Indian Department of the Holland Landing Mission is much as usual, and we have twenty-two natives in the Church. Last summer the Indians remained on the Island longer than usual, and on several occasions the Most High was eminently present in our midst. During the winter and spring they have been much from home, which often proves detrimental to real piety.

GEO. T. RICHARDSON.

### RAMA.

There has been an increase in our membership during the past year, and we have reason to be grateful that in the midst of so many opposing influences, we have some pleasing indications of improvement. The congregation is generally large and attentive, but the wandering habits of the Indians render it hard, during a considerable part of the year, to bring any religious influence to bear upon them. The smallness and uncomfortable state of our church, have also been obstacles in the way of our prosperity; but there has been an effort during the past year to erect a neat commodious frame church, 40 by 28 feet in size, which when finished will be an ornament, and we hope a blessing to the place. The Indians have engaged to a considerable extent in the cultivation of the soil, raising wheat, oats, pease, Indian corn, and potatoes in considerable quantities.

It is regretted that that greatest of all enemies to our race, intemperance, is still exerting a fearful influence among the Indians, but the Missionary hopes soon to be placed in a situation to prevent more effectually than he hitherto could, the violation of the laws in reference to the sale of intoxicating drinks to the "red men" as Rama. The School has not had so large an attendance as it had last year, in consequence of many of the larger scholars having gone to the Alnwick School. Our Missionary contributions have fallen considerably below what they were last year, being only £7 7s., in consequence of building the church, to which the Indians have subscribed very liberally. May God greatly revive his work amongst them, and speedily raise them to that state of Christian enlightenment, which shall dispel the dark night of ignorance and error which has so long afflicted and destroyed the Indian race.

## BEAUSOLIEL ISLAND.

The labour and toil of the Indians in cultivating this sandy Island, is comparatively lost; their crops are withered by the scorching sun; consequently, they are obliged to leave their homes and scatter abroad in various directions in pursuit of a livelihood. We have been left entirely alone on the island, and Sabbaths have passed away without any public service, when it was impossible for us to get to any other place. The wandering habits of the Indians make against their religious privileges; yet, as a general thing, they keep up family worship, and observe the Christian Sabbath. When at home the means of grace are strictly attended, and enjoyed; the preaching of the word, the prayer-meeting, class meetings, love feast, and sacrament, are seasons of refreshing from the presence of the Lord.

A young woman of the Pagan band of the Christian Island, married into a family of our people of Beausoliel. She has been baptized into the Christian faith: she attends the means of grace, meets in class, has received the sacrament. She is truly in earnest for her soul's salvation. We have to lament the death of one of our faithful leaders, David O-mush-kos. He was a most devoted man; he hated the evil of drinking, and was grieved when any of our people would go astray in that respect. While confined to his bed, we had meetings in his house, which he very much enjoyed, and would frequently burst forth in praises to God. He earnestly exhorted his parents to be in earnest about religion, and prepare to meet him in heaven; to which happy place he is doubtless gone, to reign with Christ for ever.

There is some encouragement to hope this people will move to the Christian Island, during the coming year, where they will be rewarded in turning their attention to agricultural pursuits, the soil being of good quality. The School has made but little progress, the children being much from home with their parents.

Penetanguishene has been a rather barren field for many years, yet there is some prospect of good. Mr. Stephen Jeffery has granted a piece of land in a conspicuous situation to the Society, and upwards of £50 been subscribed for a church, and our people have commenced to build.

The Sabbath school in this place has suffered much from persecution, many of the children having been torn away from the school. Our faithful sisters, however, are determined to persevere, and trust in the Lord for his blessing.

E. SALLOWS.

## FRENCH RIVER.

We made two visits to French River during the year, and found our people still faithful to religion and our cause. They were thankful for the gospel privileges during our stay among them. The Chief said they were going to move to their planting ground during this coming summer; that they will give land, help to build a school-house and a house for a school-teacher, and they anxiously expect one to be sent; nor can they give up the hope that the Church will favour them by granting their request. The young man I recommended is willing to go there, and from what I know of him and them, I think he would be useful and do good among them.

The Shaw-wah-nah-gog and the Sandy Island Indians are contemplating settling together. Solomon James, who is made their Chief, is about holding a Council with them, and if they are willing to become Christians, he will reside among them. They will need a school teacher.

E. SALLOWS.

## RICE LAKE.

This is one of the Society's oldest Missions, on which some of the ablest ministerial talent has been expended, and where some of the most useful acts of the late Peter Jones were performed, and not in vain; for no mission has generally exhibited a more consistent Christianity. The men are, perhaps, as far advanced in agriculture as they are at any mission, and the women have considerably improved in the arts of domestic life. From Rice Lake some of the best native agents have gone forth, and at present the forty-seven members are for the most part steadfast Wesleyans; shewing that grace can not only convert, but keep. The School for years has been a blessing; and much of the stability of the mission must be attributed to a kind and wakeful pastoral supervision; while the praise of all—not for getting the peaceful deaths which have been witnessed at this station, on the banks of the beautiful lake—must be ascribed to Him who hath made of one blood all the nations of the earth, and given to Indian life in Canada the quiet and hopes of pure religion and civilization, which shall be a legacy to following generations, and add numbers to the finally redeemed.

## ALNWICK.

At the Brockville Conference in June, 1856, I reluctantly consented to take charge of the Alnwick Mission and Industrial School. On arriving here at the close of the Conference, I found no school. In the autumn of 1855, typhus fever raged among the children, a number of whom died of that malignant disease; on which account it was thought advisable to discontinue the school for a time, and allow the children to visit their parents and friends. On the 14th of July, last year, we took into our boarding hall nine of the children of this village. On the 6th of August following, Mrs. Case brought from Saugeen and other places thirty more, which, with a few from Rice and Mud Lakes, swelled the number of boarders in our family to near fifty. At one time I think we had 51. But on account of the unstable character of the Indians—"unstable as water"—the number varies very much. The average for the year now closed was thirty-nine; not altogether so bad as it might have been, when all the circumstances of the case are taken into account.

The improvement of the children in the school, as well as in industrial habits, has been of an encouraging character. The girls, last year, rendered us good service in many ways, and acquired much knowledge of spinning, knitting, and sewing, as well as necessary work in the house. About seventy yards of flannel cloth were made, the yarn for which was spun by the girls. We shall, I expect, do more this year.

Our farming operations are considerable. We have on the ground twenty-eight acres of wheat, twenty acres of pease, twelve acres of oats, four acres of potatoes, three acres of turnips, and two acres of beets and carrots. Our boys have borne a part in all the labour required to fit the land and put in the above mentioned crops. Should the Lord, in his gracious providence, favour us with a fruitful season, we shall have an abundant supply of provisions for our family.

At present we have only about twenty children in our boarding hall. Some of them went home with permission to visit their friends, promising to return in four weeks; others ran away. Whether they will return or not is uncertain.

I scarcely know Indians of Alnwick good. We have and women. The births; a decrease the women live n times I feel discontinue the children of the influence of Indian them.

The following Hurlburt, recent God, he has effected that important part and besides what application in translation press-man, has establishment at Rosetles having been three thousand undertaken by learning the C good work; even her evenings in makes her piety needy of the M

Mr. Hurlburtures will, he has and the Communion him from remembrance labour of love, tion he has ar two Native torfulness. It was and the Society expected and p valuable service

I scarcely know what to say, as to the religious state of society among the Indians of Alnwick. I think I shall be very near the truth when I say, it is not good. We have a few pious men and women, considering they are Indian men and women. There were, during the last Conference year, thirteen deaths and six births; a decrease in the whole community of nearly four per cent. Many of the women live now by basket making, just as they did thirty years ago. Sometimes I feel discouraged; sometimes I pity them. One word more. If I had the children of the Indians by myself, entirely detached from the example and influence of Indian character and habits, I think something could be made of them.

S. HURLBURT.

### NORWAY HOUSE.

The following very interesting report for the year, from the Rev. Thomas Hurlburt, recently of the Rossville Mission, shews that, by the blessing of God, he has effectually secured the extension of religion and civilization in that important part of the Honourable Company's Hudson's-Bay Territory; and besides what he reports, it is a pleasure to state, that he, after much application in translating, and in mechanical matters, assisted by an Esquimaux press-man, has made the Society's small and somewhat rude printing-establishment at Rossville very serviceable,—one of the Gospels and four Epistles having been neatly printed in the syllabic character, to the extent of three thousand copies,—the stitching and binding of which were willingly undertaken by Miss Adams, the devoted School Teacher, who, while busily learning the Cree language for future usefulness, occupied the girls in this good work; employs, when the day-labours in her large school are ended, her evenings in the domestic training of the mothers and daughters, and makes her piety, knowledge, time and means always available to the sick and needy of the Mission.

Mr. Hurlburt truly says in a letter, these portions of the Sacred Scriptures will, he hopes, scatter some rays of Truth in the surrounding region; and the Committee regret that Mrs. Hurlburt's debilitated health prevented him from remaining in the great North West to witness the effect of his labour of love, performed for a dark and numerous people, with whose condition he has an extensive acquaintance, and whose successful acquisition of two Native tongues, and aptness in Missionary duties, well fit him for usefulness. It was in his heart to spend the days of his strength among them; and the Society highly appreciated his labours, but could not, under the unexpected and painful Providential circumstances, require a continuance of his valuable services in the Territory.

ing hall. Some  
ing to return in  
is uncertain.

There is a gradual increase of the number of the Rossville tribe, partly from immigration, and partly from natural causes. During the past year I baptized twenty infants, born in the place during the year; while, during the same time we had but six deaths; leaving us a clear gain of fourteen. Our people are industrious; and from all sources—hunting for furs, fishing, gardening, and working for the Honourable Company, they manage to procure a sufficiency of good clothing, and also a good supply of wholesome food. \* The old Indian costume is unknown among them; and on sabbaths, when assembled in church, they present a very respectable appearance, and, what is far better, sing with the spirit and with the understanding, and join, intelligently and devoutly, in the worship of God. Even in the eleven o'clock service, which is in English, for the accommodation of the English-speaking part of our congregation, who are connected with the Honourable Company, the announcement of the hymns, lessons or text for the day, causes a rustling of leaves among our Indians; as many of them have English bibles and hymn-books, and are able to join intelligently in devotions with us.

Our people of Rossville are improving in many ways, and to particularise all would render the report too prolix. They are building a better class of houses. During my residence of three years, eighteen houses were renewed and much improved, or built entirely new. Latterly they are procuring stoves, and making partitions in their houses. One of our men saved enough, last winter, to send to St. Paul for a first-class cooking-stove, and paid £14 sterling for it, delivered at Rossville. They have seven or eight cows among them, and many more are making efforts to procure them. They are free from disease, and increasing and improving at a very satisfactory rate. Last year, there were about a thousand bushels of potatoes, with some other things, raised on the Mission; and there is an enlargement of gardens, this year, which promises even more.

This encouraging state of things is to be attributed entirely to the effect of a preached Gospel there. The unchristianised Indians are decreasing generally, and, in some places, very rapidly; while, on the Missions alone, is there any increase. One of the oldest of the Company's gentlemen informed me, that before the arrival of our Missionaries, these same Rossville-Indians were among the most degraded of the natives of that Territory, and only procured furs to the amount of ten packs (if my memory serves me), while at this time they procure ninety. Thus "godliness is profitable unto all things."

The Sabbath-school library recently sent to that Mission, by the Wesleyan Sabbath School of Adelaide-St. Church, Toronto, has been of great advantage. The books are read understandingly by many of the young people taught in our school.

From all I can learn from Nelson River, where our Native helpers from Rossville have laboured, the Indians there are ripe for the reception of the Gospel. One sent us word last summer, that he often sat and wept because no Missionary came to them. They said "We fear we will die before any one arrives to teach us."

It must, however, not be supposed that there are no adversaries when there are so many open doors. Neither must it be supposed that the inherent corruptions of our common nature are of a milder type there than elsewhere. Our principal enemy from without is the "hydra monster, rum", which finds its way to the Territory in large quantities, both by way of Hudson's Bay, and also by way of the United States. These opposing powers call for increased exertion on the

THOMAS HURLBURT.

## OXFORD HOUSE.

Mr. Brooking's report is properly so comprehensive and complete, that little is left to be said; but he may be congratulated on the signs of success during his three years' exertions at Jackson's Bay, where an efficient Teacher has met with his approbation, and on the propitiousness of Providence to the health and comfort of the Mission family—especially himself and Mrs. Brooking, who has much promoted the prosperity of the Mission by sedulous attentions to the Native females, and her written appeals; and it is earnestly wished that God may accompany them to their enlarged sphere of self-sacrifice at Rossville.

As the time of my removal is at hand, it seems desirable at this period to take a retrospect of our labours among the people of this Mission. On our arrival, we found that very little had been done in erecting the necessary buildings for carrying on the work of the Mission effectually. This arose from various causes. Mr. Steinhaur, my predecessor, had not the means at his disposal for this purpose; nor was it fully decided that the Mission would be continued at this place, as some of the Indians did not approve of the situation. On my arrival here, I soon found that it would not be possible to get *all* the Indians to agree on any one particular locality; I thought it, therefore, inexpedient to consult them in the matter, but was determined to judge for myself. All that was necessary, was to get a place where the greatest number of advantages could be combined; and after consulting those who had lived in this neighbourhood for years, and mature consideration on the subject, I found that the present site was the most advantageous; and a residence of nearly three years has only confirmed my first impression. The present situation being determined on, I at once determined to make the place every way suitable for the purpose.

The buildings we found here were a log church in a very dilapidated state, but capable of being made very good; a small Mission-house, 30 feet by 20, neither limed inside nor clap-boarded out; and all the inside work, from unseasoned materials and bad workmanship, entirely useless; so that it had all to be taken down, except the floors, and re-constructed, and all doors to be made new before it could be rendered habitable for the winter. There was also a back kitchen attached, which we were obliged to give up to the workmen, and for the use of

articularise all class of houses. ved and much es, and making vinter, to send or it, delivered many more are increasing and out a thousand ; and there is

Wesleyar Sab- vantage. The in our school.

ers from Ross- of the Gospel. se no Mission- one arrives to

when there are corruptions of Our principal s way to the lso by way of ertion on the

the Indians passing and repassing in the winter time. There was also another small log building, about 18 by 14 feet, which, although very inconvenient, has been occupied by the interpreter and school-master. About one and a half acre of ground was cleared and slightly fenced with small poles.

In order to make the place habitable for the winter, I had to get 250 seasoned boards from the Honble. Company, and work myself very hard to fit it up, as no carpenter could be obtained. Since that time we have erected a substantial fish and store-house, 20 by 18 feet, a school-master's house, 28 by 18 feet, and two wings to the Mission-house, for which we had to collect all the logs, about 200, and to get 2,500 boards sawed. The whole of the joiner's work I have done myself, with the exception of the floors of the school-master's house, which Mr. Sinclair has done when there were not children enough to keep the school open. No one, who has not been in this country, can form any idea of the amount of labour necessary to build a house here. The floor, ceiling, and lining around the walls have to be matched together, the boards not averaging five inches wide, and the labour of planing is much greater than of boards sawn by a saw-mill, in the proportion nearly of two to one. The room in which I now write, has in its ceiling, floor, and lining, no less than 278 boards, exclusive of the roof, which has about 60 more, all matched together. I have made and glazed about thirty windows of various sizes, besides a number of panel doors. In addition to this, I have made all the furniture in the house, amounting to many pounds worth; for all that we found here worth anything were three rickety chairs and a table. This winter I have got sawn 1,500 boards, of various descriptions, to finish the Church, and for other purposes. The cost of boards alone, which I have had cut since I have been here, would have amounted, according to the Company's charges, to nearly £200, to say nothing of the expense of getting them on the Mission!

In addition to the above, we have collected all the materials and erected about 1150 feet of close picket fence, to form a garden, by the river, and to enclose nearly a half acre of ground in front of the house, to keep the dogs and children out; we have also laid down about 320 feet of platform, a great deal of which is four feet wide, as the soil is so wet and swampy for a great part of the year that it is almost impossible for a female to walk out of the house. There is also about three-quarters of an acre of ground more cleared and under fence. I have, therefore, no hesitation whatever, in saying the Mission premises are worth more to the Committee now by quite two-thirds of all that the Mission has cost since we came here.

It is due to Mr. Sinclair to say, that whenever the children cannot be gathered, so as to have school, he makes himself very useful in various ways.

As to the more spiritual and important part of the Mission, we have still to report favourably. I have never in any case had to resort to disciplinary measures against any of them; they have invariably conducted themselves with Christian propriety. The duty of family prayer is observed by every family in connexion with us. The Lord has also graciously added to our number such as, I trust, will be eternally saved. During the past year we have received into full membership forty-one, and one on trial. Two of our old members have been removed from us by death, and both died very happy in the faith of the gospel. Our nett increase is thirty-six. There have been baptized, during the year, fifty-eight, of whom thirty-two are adults: and on the return of the Indians, nearly all that remain unbaptized, of this band, will be baptized, as they are nearly all

candidates for that ordinance. There is also a great improvement in their personal appearance, and this is very observable at the Sabbath services: all are there in time to commence the service, and, indeed, their general demeanour would not disgrace those who consider themselves far in advance of them in civilization. There have been also eighteen couples joined together in the bonds of matrimony. The school has been carried on with less interruption than at any former period; we have also been better supplied with the necessary apparatus than heretofore, and the average attendance has been upwards of thirty. The cases of clothing with which our friends in England and Canada have supplied us, have enabled Mrs. Brooking to relieve the necessities of many a poor widow and orphan, and the children whose parents have been sick: indeed, the amount of good that has been done is incalculable, and our dear friends who have been thus liberal will receive their reward.

ROBERT BROOKING.

### LAC-LA-PLUIE.

The Rev. Allen Salt has spent three years at this place, with varied feelings, but one purpose, to do the people good. The Fort is of consequence, and is much frequented for trade, and is one of those points which a Christian minister should occupy. The gentleman in charge had obligingly offered Mr. Salt all the facilities in his power; and he has untiringly devoted himself in every way likely to be useful; but, on account, perhaps, of the great influence of the "Metas," the work has been obstructed, and public Indian-services could not be held. There was, however, quite a disposition to have a School opened for the children; and more recently, there have been indications of willingness to have a Mission established, and the worship of God stately conducted among the Indians. The last letter informs the Committee that the Missionary was translating portions of Scripture; conducting Divine service every Sabbath at the Fort; on Sabbath evenings reading the Scriptures there; and in other ways serving the people. The subjoined documents will show what the Natives wish. There is in them much that can be approved, but evidences of a selfishness which is very generally prevalent in Hudson's Bay; as is the case in other Pagan countries. The path of the Society is not unimpeded; but the word shall yet have free course.

FOOT FRANCES, Lac la Pluie, June 8th, 1857.

To our Missionary.

You have come to this part to look for us, but our relatives will not do as you wish.

Now we Indians on the British side desire you to establish a Mission at the foot of Lac la Pluie, Little Rapids, where we wish to cultivate the soil, and build our houses, where you may teach wisdom to our children, and where we may hear the word.

We are poor: we do not wish our relatives to throw us down: we wish you to use all the power you have to help us, for we need help in tools, also clothing to cover us from the heat of the sun; and may our good ways go up to the sky.

Signed by the Chiefs by marking their respective totems.

GABAGWUN. (Buck.)  
WUZHUSHKOONCE. (Turtle.)  
SHINWIGWUN.

Witnesses, JOHN McDONALD, P. M.

NICOL CHANTELLAN, his + mark, Interpreter.

Addressed to Allen Salt, Wesleyan Missionary,

*The Speech of Pauyaubidwawash, Chief of Naumakau, to Allen Salt, Wesleyan Missionary.*

Now I speak to you, my friend. Give me that which will be useful to my child. Give me that which Kishamunido has given you to tell. I pull you to help me. I put that into your head.

Now I speak to you Missionary. Help me, for the white man is coming very fast to fill my country. You who speak the word of God, I want you to see me every time Kishamunido brings the day. Now we will listen to each other. I desire to follow your ways, so that my children may have the benefit. I want seed, that my children may plant and raise food.

Though my little speech is like shooting on the run passing by me on your way home, yet listen to me.

I have confidence in your person, in your high office, and that you will help me so that I may be able to subdue the ground.

Now I desire to raise my children in one place. Now look out for the best place for me, my friend.

Now I delight in seeing the sky which Kishamunido has made. I desire you to give me a domestic animal, for an Indian is not able to do what ought to be done.

You missionary, have you not the means so that you might let my children have something to cover themselves from the muskitoes.

Now my dish is stone. I wish to be as I see you. I desire to have dishes like you. If I see according to my words, I will listen to what you say to me.

Signed by marking his totem,

PAUYAUBIDWAWASH, Chief.

## EDMONTON AND ROCKY MOUNTAINS.

The following Letter from Edmonton House will make it evident that Mr. Woolsey has, with his colleague, adventured his life for the salvation of his fellow-men; and from his already published letters and journal informa-

tion of his success Mr. Steinhaur added to superstitious dicted to superstitious very attentive, and added to the search of souls, in the administration of the catchewan, and hundred miles apart, but it is contemplated from Papal influence its proximity to forward to the missions must be motion have a duty neglect of the Pacific coast.

Although a certain West, the scorching Madagascar and remote regions, of human civilization being traversed a little of this and Rocky-Mountains of which I for ramblings we have covering but a few kind friends to give refreshment. No a kind Providence but Divine protect ravenous bear, or

In projecting access to the Stone apprehensive of a long dreaded, that they are but men built fort, at Edmonton and pieces in each desperadoes come,

tion of his success will have been obtained. The Natives gave him and Mr. Steinhaur a joyous reception; and though they are inordinately addicted to superstition and cupidity, his congregations on the great Plains are very attentive, and not a few have been baptized, and some of the adults added to the Church. Mr. Steinhaur, who likewise traverses the Plains in search of souls, is actively engaged at Lac-la-Biche, where preaching and the administration of the sacraments have resulted in an accession of members. Mr. Wooley's new post, Pigeon Lake, is on the south of the Saskatchewan, and Mr. Steinhaur's on the north, and they are three or four hundred miles apart. At present they appear in the Stations under one designation, but practically they are two Missions, and of great importance. It is contemplated to remove the Lac-la-Biche station to a position isolated from Papal influence, which it is not now, and more convenient, because of its proximity to the buffaloes, for procuring food, and for pushing the work forward to the Mountains: and while the establishment of these two Missions must be most expensive and toilsome, the friends of Indian evangelization have a duty to discharge, from which they cannot shrink but to the neglect of the too-long neglected Tribes from the Saskatchewan to the Pacific coast.

Although a certain writer has declared that—"It is daring and adventurous to explore the primeval forests of America, the interminable prairies of the Far West, the scorching deserts of Africa, the wilds of Borneo, or the jungles of Madagascar and New Zealand," yet such feats have been performed, and these remote regions, where nature revels in unbounded majesty, and where the impress of human civilization has been unfelt and unacknowledged for ages gone by, are now being traversed by the heralds of the Cross; and I, as one, am honoured in venturing a little further into the Far West, and establishing a Mission between this and Rocky-Mountain House. In taking this step, I shall have to make sacrifices of which I formed but little conception twelve months ago. During our ramblings we have to camp in the open air for a succession of nights, with no covering but a fragile tent; no resting place but the cold earth. There are no kind friends to welcome us in the vast plains; no bland smile to meet us; no fair hand to give the friendly greeting, or to spread a bounteous supply for our refreshment. No; our table is God's green-cushioned earth; dependent upon a kind Providence giving success to the chase; and, to crown the whole, none but Divine protection (although that is sufficient) from the prowling wolf or the ravenous bear, or from man more wild than they.

In projecting this PIGEON-LAKE MISSION, it is supposed that we shall have access to the Stone Indians and the Blackfeet as well as the Crees. I am not apprehensive of any danger, except from the Blackfeet; but these have been so long dreaded, that I think it is about time they were given to understand that they are but men; although I must confess that when I look at this strongly-built fort, at Edmonton, and see a piece of mounted ordinance in the centre of it, and pieces in each of the bastions, and am given to understand that when these desperadoes come, the fort gates are barred and locked, and only a few allowed

it evident that  
the salvation of  
journal informa-

in at a time for purposes of trade, I am led to ask, what David can do with his sling and stone? Or I should rather enquire, what can he not do through the Captain of Israel's hosts? True it is, that the Jesuits, in their earlier movements in California, "deemed it rash and inexpedient to encounter the heathen with spiritual arms only, and therefore enlisted soldiers in their service,—a kind of fellow-labourers unknown to St. Paul's missionary experience." But we, I trust, go forth with "the sword of the Spirit, which is the Word of God;" and if our bodies fall in the conflict, our spirits will the sooner join the noble army of martyrs "who were slain for the Word of God, and for the testimony which they held;"—and, therefore, we calmly await the issue.

If I were to consult my own personal ease and comfort, I might wish probably to remain at the fort; but, in the *first* place, I should have but little access to the Indians; and, *secondly*, as the majority of the residents are Roman Catholics, and one or other of the priests very often here, I am afraid I should be of little service to them, for they will not attend our services. These people are most strangely given to dancing, which was carried on to such an extent at the beginning of the year, as not only to disturb my rest but also distress my mind, as my hearers were mixing so much in these movements, as to nullify my Sabbath exertions. Added to this, as it was carried on in the very room where Divine worship was performed, I was led to speak freely on the subject. Having seriously pondered over the matter, I at last told the gentleman in charge, that I could no longer conduct public worship in that hall, giving him my reasons for taking such a step. He very kindly placed the dining-hall at my disposal, where we have worshipped ever since. Though I would not place an undue estimate upon any building, yet I believe, with Bp. Horne, that—"While man is man, religion, like man, must have a body and soul; . . . and the two parts, in both cases, will ever have a mutual influence upon each other."

It is exceedingly annoying to find the priests rendering null and void any Protestant ordinance as administered by me. And while I wish to entertain all the personal respect possible for these Romish ecclesiastics, yet, as the ordinance of baptism, administered a few weeks ago, was declared nugatory by the priest, I spoke rather plainly upon the subject, especially as the parents had promised that the child should not be re-baptised. I said—As a general thing, I would carefully avoid saying or doing any thing that might prove offensive to any one in the fort; but that when I could not keep silence without violating my own conscience, or sacrificing my own religious principles, they might rest assured I should swing the Saxon battle-axe without fear or favour.

Mr. Rundle's late interpreter was desirous of being married to a Romanist. Her father (who is a French Canadian) did his utmost to cause him to *give up Protestantism*. This he would not do. He wished to be married by his own minister; but this could not be tolerated at all; so at last he agreed to be married by the priest, on condition that he retained his own principles. The priest was sent for, all preparation made, and the marriage expected to come off at once. But no! just at the last it was made known to him that he must *abandon his religion, or she would not have him*. In an instant, with a magnanimity of soul the most dignified, he said,—"*No! I will not give up my religion for any one!*" In conversing with him subsequently, I was delighted to hear a repetition of it. May his providential path be opened up!

## DOMESTIC MISSIONS.

A Christian patriot cannot become acquainted with the boundless New Settlements of Canada, without soon deciding that a genuine Christian Ministry is necessary for them. He will be affected with the struggling Settler's scantiness of temporal convenience,—with, perhaps, the great change in his circumstances, and with his anxieties, hardihood, and toilsomeness,—but he will feel and say, that the first want of the Settler and his family, in their loneliness and labours, is Gospel instruction from Gospel men. If this want, in the judgment of such a man, takes precedence of every other, what, precisely, is the Ministry those settlements of our own country require? The want is a moral one; the salvation of the soul is the foremost consideration; the well-being of thousands, living and to live, and the happiness and reputation of Canada, the goal of reward.

It must be a *scriptural* Ministry. Human consent and appointment, under certain regulations, have their use; but no council or convocation, or pope or prelate, is to furnish the first credentials: the Divine oracles must do that, and the Divine Spirit endow, call, embolden, and prosper the Agency. That the mind of man naturally loves darkness, needs no proof; and that there are always errors surrounding men, is a fact; and that individuals and families far away from the pulpits that have taught them, are liable to degeneracy of heart and mind, is known. No time, therefore, should be wasted in sending Evangelists to them, with "the form of sound words:" and no duty of the Wesleyan Missionary-Society of Canada is performed with a deeper concern than that of selecting men whose spirit, doctrine, and labours have been approved by the Quarterly and District Meetings, and the Conference; and it is believed that no class of Evangelists are more uniform and sound in their ministrations.

It must be a *sanctified* Ministry. It might serve in a simply moral enterprise to say less; but there is an end even more important than good morals to be reached; though that would be a hopeless pursuit with only Plato to instruct. "Holiness unto the Lord" is to be inscribed on what is done; and "the Lamb" was slain to "take away sin" from the conscience, the intention, the affections, and the life. It is only a repetition for the thousandth time, to say, that the Wesleyans' one grand calling is, to spread holiness; and that no man is ever knowingly admitted to their Ministry who is not

himself regenerated; and it is a striking fact, that from the day when Wesley was the examiner, the main and most searching questions in the Discipline, put to Candidates for this Ministry, have related to the heart—its principles, enjoyments, and breathings; and while it is so, God will bless us.

It must be a *prompt* Ministry. The tide of emigration never stops. The extension of Settlements is unlimited. The smoke of the "squatter's" unique dwelling proclaims progress. A stated, hereditary Ministry would not meet the case, with all its advantages: it must be sanctified in temper, aggressive in purpose to do it. What is done is to be valued, and what is yet undone to be attempted. The increase of eighteen Circuits and Missions at the last Conference, is the illustration of the Committee's meaning and duty. The apostle of the Gentiles objected to boast in "another man's line" of things; and the Wesleyan Missionaries of Canada, often the first in the new and distant settlements, take the Gospel to those who need them most, without delay, and joyfully.

It must be a *brave* ministry; for while there are the common obstacles to the Gospel to be surmounted, there are annoyances, privations, exposures, losses, toils, and perils; but the Wesleyan Missionary rushes to, and maintains his popular position on the frontiers of civilization, "counting all things but loss" in winning souls.

It must be a *persevering* Ministry,—ever humble, ever daring, ever confident in the Holy Ghost, that the honours gained for Christianity and Protestantism already may not be dimmed by neglect; that the fields already enclosed may blossom abundantly under the hands of culture which have planted them, and that the whole area from Labrador to Vancouver's Island, and from the Lakes to Dr. Kane's Polar Sea, may "shake like Lebanon." Such is the aim of the Wesleyan Missionaries of Canada and Hudson's Bay; and borrowing data from the successes of their heroic predecessors—Dunham, Whitehead, Ferguson, Metcalfe, and others, the object is not illusive, not sectarian, but in the light of Inspired assurances, catholic—sublime—practicable.

The Letters which follow are referred to for exemplifications of the essential principles these remarks embody, on the adaptation of the Society's Missionaries, and it is not doubted, that the various facts they state will be received with much satisfaction. The scene to be looked upon is very much the same in its evangelical and spiritual features as was beheld in apostolic days; the imperishable results in the eternal world the same: and God is glorified.

## GEORGETOWN AND ERIN.

The Erin Mission has been connected with the Georgetown Circuit the past year. We have had three men employed on it, and we have taken up five new appointments, and increased our labour at some of the old ones. Our work takes in a part of six Townships, extending more than thirty miles in length, and giving us a travel of more than 2,000 miles, besides extras.

This year we have erected two substantial churches, nearly free from debt. We have commenced a good, and we intend it to be a neatly finished church, in Erin village. It will cost upwards of £400. We have a few liberal and very warm-hearted friends in that village, chiefly from the warm-hearted Isle, and they retain their love to God and Methodism.

We have recommended the division of this work for another year—taking off Garafraxa, Hillsburg, and Caledon, connecting with it Charlestown and Orangeville; a section of our work that should be more vigorously sustained. We are the only church that has a regular appointment at present in Alton. God is opening up our way there, giving us favour in the eyes of the people, and they receive us gladly. We have a class of 15 members. At Charlestown they intend building a church immediately. We pray the Lord to prosper, extend, and perpetuate his work in that part of his vineyard.

SAMUEL C. PHILP, 1st.

## STOUFFVILLE.

It has pleased God during the past year to crown the united efforts, and the earnest petitions of his people on this Mission, with increasing prosperity. Our congregations have gradually improved, and harmony reigns generally throughout the work. Long has been felt the inconvenience of worshipping in small and uncomfortable school-houses; there being until lately no church in the whole Mission: the first was built last year. Now there are three others progressing favourably: one is to be a substantial brick church, 24 by 36 feet; the other two, both frame, will be somewhat larger. We expect (D. V.) to have them all opened during the ensuing year.

Attachment to the cause has been seen in an advance in all financial matters; £54 5s. 4 $\frac{1}{2}$ d. has been paid to the Missionary Fund, which prevents us from being much of a burden to the Society. Considerably more has also been raised towards the other Connexional Funds than in any preceding year. But we have greater cause for thankfulness, that at several appointments special outpourings of the Spirit have rested upon us. This has strengthened the church, by confirming its members; and many others have renounced their sins, found pardon through Christ, and joined the Church of God.

Received on trial 71; and members 15; total 86. Removed, withdrawn, died 25, leaving a nett increase for the year of 61. The numbers now in our Societies are: On trial, 38; members, 132; total 170. It is God alone who has blessed the feeble efforts of his people, and has given success. To Him, therefore, for ever be the glory; and we earnestly pray that the work may progress until every heart is filled with his spirit.

ALFRED ANDREWS.

## PRINCE ALBERT.

The year which has just closed, has been a year of anxiety and toil. Last year we had quite a harvest in our field of industry. Many were brought to a knowledge of the truth as it is in Christ Jesus; but, as is too often the case, after this revival many fell away. We thank God, however, that many are still in the way to heaven. Last year we closed with 69 members, and 52 on trial; this year with 86 members and *two* probationers.

I had the building of churches on hand, as well as the *other* duties of the Mission. One was completed last winter, at Epsom, in the township of Reach, and dedicated to Almighty God by the Rev. Enoch Wood, President of the Conference, and James Hodgson, Esq., of Whitby, on the 8th of February. For the want of a helper, during six months, I preached four times every Sabbath. For the rest of the time I had Local help,—especially by our worthy Brother, Nath. Battick, for three months. By the blessing of the Great Head of the Church, we aimed to cast good seed into the soil, and hope and pray it may yield some good fruit.

THOS. DEMOREST.

## DUNNVILLE.

Twelve months ago we were appointed to this field of labour, and find it more laborious than we anticipated. The geographical boundaries of the Mission are decidedly unfavourable, as the Missionary has necessarily to live at one extreme point. We are closing the twenty-fourth year of our ministerial toil, and the past may be strictly ranked as one of the heaviest. We have succeeded in relieving one chapel from debt in part,—forming several new classes, thereby increasing the membership, and considerably augmenting our Connexional Funds. Our prospects are brightening.

P. KER.

## CAYUGA.

Several facts in the following report are gratifying, and the deficiency noted in its conclusion shows the necessity of the Missionary Society's Collecting Book being given to the Collectors in good time, and the directions it contains being followed: a deficiency, then, will hardly occur.

It is with pleasure we take our leave of this delightful little Mission, situated along the beautiful banks of the Grand River; and we take this opportunity to record our unfeigned gratitude to Almighty God for the degree of health we have enjoyed, by which we have been able to attend almost uninterruptedly to our work during the past two years.

When we entered upon this Mission, we found some 30 members without anything in the shape of circuit-organization; we leave it with 55 members returned to Conference. While over careless professors of religion we sorrow, we have many others over whom we can rejoice, as estimable, liberal, faithful, consistent persons, "walking in the fear of God, and in the comforts of the Holy Ghost."

We may also record our obligation to the kindness of friends who are not members of our Church, but form part of our congregations; and particularly to those in York, where we reside, who, through the kindness of Mesdames Kiffen and Hacon, have each year presented us with fifty dollars as an expression of their regard. Indeed, had we in general such liberal, active men, as Mr. Hacon and Mr. Kiffen, for stewards, there would be little complaining of financial embarrassment, and our Church would advance fifty per cent. faster than she does.

JAMES ARMSTRONG.

---

## DELHI.

It is with devout gratitude to God that we review his dealings with us on this field, during the past year; and though we cannot compete with some other fields of labour, as it regards revivals, yet we are prepared to say, good has been done; many have been enabled to say, when in the sanctuary, "It is good for us to be here." The Lord has given us a few "showers of blessing." A few have been converted, backsliders reclaimed, and God's people built up in their most holy faith; and we reasonably indulge the thought, that this will soon become a good Circuit. We have ten appointments, and generally good attendance—Sabbath and week nights; most of our members are lovers of the class-room. To do justice to this people, I may say, they are a kind-hearted and friendly people, loving their Minister and the cause of God; but the country is mostly new, and rather a poor soil, so that, though they are willing to minister to the wants of God's servants and his cause, they cannot to the extent they ardently desire. May the Great Head of the Church carry on his work among them, that we may meet this people in the land of eternal rest!

ISAAC CRANE.

---

## STRATHROY.

Strathroy exhibits a good example. It has given to the Connexion two prosperous Missions, and this year declares itself free of financial obligations to its Missionary,—a result of combined effort quite practicable on other Missions.

The official members inform me that this Mission has never stood financially free at the end of any previous year of its history. It is but right to observe that

two Missions, Warwick and Mount-Brydges, have been formed of portions of this Mission. Several have withdrawn in connexion with former difficulties, and others have had to be dropped from membership. A few, also, have removed; so that although upwards of thirty have been added during the year, yet we stand *three* less in number than the returns of last year. Some seem to have fallen off from the Church, here, just as dead branches fall from the tree—by their own weight. In many respects we have laboured under discouragements during the year; but there is, I trust, a little improvement in the tone of piety, and our financial accounts show quite an advance on former years. The Brethren resolved not to write the word "*deficiency*" this year, and by means of a Tea-Meeting, and other special efforts, we succeeded in meeting all claims and declared the Mission **FREE**.

We are glad to be able to say, also, that a few souls have been led to the foot-stool of Mercy. But nothing less than a gracious out-pouring of the Holy Spirit, and a mighty shaking among the dry bones will bring this section of our country and our work to its proper condition. Our congregations are generally pretty good—in Strathroy very good. O that a glorious revival of religion may be realized in this rapidly rising village, so that, as it expects shortly to take its place among Canadian towns, it may grow up under the influence of evangelical religion!

R. LYLE TUCKER.

## MOUNT-BRYDGES.

Truly this Mission affords many encouraging prospects. Last year it was but the extreme corner of Strathroy Mission, and thought by the people of that place to be of no material advantage to the Mission. Last Conference the few on said corner petitioned for a separation from Strathroy, and a preacher for themselves, which were granted. After Conference, our Mission consisted of 33 members, and three preaching-places; now our membership is ninety, and nine preaching-places. Twenty-eight have been received on trial during the last quarter. The increase has not been occasioned by any very exciting cause, but by God's blessing on the ordinary means of grace. During the last quarter I think that not one Sabbath has passed on which I have not received one or more individuals on trial for Church membership,—men and women offering themselves to the Church and to the Lord.

When set off we had no Church, now we have a large brick Church in Mount Brydges, neatly finished, all but the painting; and one in Melbourne, the walls of which were erected many years since, and then came to a complete stand still. This spring Bro. Clark has made another effort, and I expect that it will be ready for divine service early in June. We have a large field to cultivate. The nearest Station east is London, and west, Wardsville, a distance of 36 miles. With the Missionary appropriation, all the expenses of the Mission will be honourably met, and a kinder people are not to be found. My prayer to God is, that nothing may transpire to impede the spiritual prosperity of the Mission.

THOS. S. HOWARD.

## WARWICK.

In looking at the general aspect of this Mission, it is interesting and pleasing to observe that it is on the way of improvement; and, I doubt not, but in a few years it will change its relation and occupy the honourable position of a self-sustaining Circuit. The past year has been one of labour; but it has also been one of peace and prosperity. Our special services resulted in an accession of 40 members to the Church. It was a pleasing sight to see the young flushed with health, as well as the old bending beneath the weight of age, and ripening for the grave, crowding to the altar for prayer, and finding the pearl of great price together.

This Mission is already too large for one Missionary; besides there are many other places that could be taken up. Our people are willing to sustain the cause to the best of their ability; and we hope the day will soon come when this remnant of Warwick shall be in the midst of many people as dew from the Lord, as the showers upon the grass, that tarrieth not for man, nor waiteth for the sons of men.

T. CREWS.

## DEVONSHIRE.

It is with all confidence I say that this—to the Wesleyan Church—is an important field of labour. Wesleyan Methodism here, on the whole, is prominent in influence—the choice of the great majority. Some of the settlements are new; most of them lately formed. But while many of the friends have had to contend with the difficulties that are usually presented before new settlers, they have, very generally, anxiously remembered, and spiritedly met, the fiscal claims of the kingdom of Christ. Though we received from the Missionary Fund, our donations to the same have nearly doubled the amount.

Our congregations are good; evidencing that the claims of religion—the realities of eternity—are not forgotten by the multitude. We have received on trial this year, 75; have had to drop some, and some have removed; so that our net increase is only 36. It has been a year of toil, the Mission being extensive, the special services lengthy, and the roads very bad, but a year of pleasure through the kindness of the people, especially because of the manifested Divine goodness and saving grace.

E. L. KOYLE.

## WARDSVILLE.

In presenting our report of this Mission, we would gratefully record the signs of prosperity with which the Great Master has graciously favoured us. We have occupied the new parsonage since the 25th of September, 1856. It requires a little paint and paper on the inside, and then it will be every thing that could be

desired. The whole cost of improvements is thirteen hundred dollars; the debt now upon it is a little less than five hundred. During the year, a "Ladies' Aid Society" has been organized, with a view to furnishing the parsonage, and there is every prospect of Wardsville soon having really a first-class home for its minister.

The experience of the year has proved the wisdom of dividing the Mission. On this part of the divided field we had 56 white members, and 24 Indians; we now return 100 whites, and 29 Indians. Societies have been formed in the rising villages of Newbury and Bothwell, and a gradual but steady improvement has been apparent at most of the appointments. Precious souls have been converted, and believers have been encouraged to press forward.

W. AMES.

### WALLACEBURGH.

The tokens of religious prosperity which were seen at the close of last year, were certain indications of the more copious outpouring of the Holy Spirit which followed soon after your Missionary resumed his labour on this Mission. At a new appointment on the East Branch of the Sydenham River, where there were but four members, now there are twenty-six in Church-fellowship, who love the Class-Meeting, and will not allow the Prayer-Meeting to be forgotten or neglected. At the Village of Wallaceburgh there has been but a small increase in numbers, but the Church has become more holy. Some can now testify to the glory of God, that "perfect love casteth out all fear." Having entered into that perfect rest from sin, they "rejoice evermore," giving "thanks to God who giveth us the victory, through our Lord Jesus Christ." In other neighborhoods the work of the Lord has been extended; sinners being converted, and believers earnestly groaning to be "pure in heart."

The number of members returned last year was fifty, and eleven on trial. The number to be returned this year is seventy-five, and seventeen on trial. This Mission is without a parsonage, and struggling under the burden of high rent-paying. The funds have not increased as have the members in society. This has arisen from various causes. First, our people are not wealthy; yet "the poor have the Gospel preached unto them." Second, the crops, the past year, were fifty per cent. below average, when compared with previous harvests. While it becomes our duty to record some "light afflictions which are but for a moment," there is cause for joy and gratitude to the Great Giver of many mercies, for restoring our health and preserving our lives. Death has not taken any of Christ's "little flock," and has taken comparatively few of our neighbours. The climate is becoming more salubrious every year; and probably will be, in time, as healthy as any locality in the West.

AARON MILLER.

### FLORENCE.

The religious state of this Mission is highly encouraging. The means of grace have generally been well attended. The Lord has been pleased to pour out upon us the spirit of His grace. Judging from the feelings expressed in Love-feasts

and Class-meetings growing in grace, this year, 26 have united in Divine grace, and are angry with me, the Great Head of

At the last Conference making two Missions effect, makes the extent, membership has been better sustained

and Class-meetings, the membership has been revived, and many are evidently growing in grace, and in the knowledge of our Lord Jesus Christ. During the year, 26 have united with us in Church-fellowship, the most of whom are, through Divine grace, enabled to say,—“O Lord, I will praise Thee, though Thou wast angry with me, Thine anger is turned away, and Thou comfortedst me.” To the Great Head of the Church be all the praise!

The parsonage at Florence, referred to in the report of last year, by my excellent predecessor, the Rev. W. Ames, is finished, and partly furnished, which we hope to complete next year. I consider it due to this Mission to say, that there are on it many who are sincerely and ardently attached to Methodism—men who are true to their principles, and who are every ready to hold up the hands, and to cheer the heart of their Missionary, while endeavouring to build up the Church of Christ. The financial state of the Mission is encouraging, though the majority of the people have had to struggle with great difficulty, in consequence of the failure of their crops last year.

WM. HAWKE.

---

## MORPETH.

By unavoidable circumstances I have been hindered in holding special meetings. For sixteen years I have found these means greatly owned by the Lord; but, alas! this year I have not been so successful. There is some little in the way of conversion; a few on trial; some increase to the congregation; one new place occasionally taken up; and a kind of informal possession taken of a new church, not altogether completed, might be mentioned as a step towards the advancement of the cause of Christ. Though the field is not remarkably large, I find it remarkably hard to make it larger; and though the funds are not remarkably high, I find it remarkably hard to make them higher; though the membership is not very numerous (mixed up with ten congregations), it is not easy to increase their numbers: and though we may not have as high a toned piety as other more favoured fields of operation, we thank God for a little love and the hopes of more.

WILLIAM DIGNAM.

---

## SANDWICH AND WINDSOR.

At the last Conference it was deemed best to divide this section of the work; making two Missions of what was formerly one. This arrangement, carried into effect, makes the present “Sandwich and Windsor” Mission very limited in extent, membership, and means of support. The funds of our connexion have been better sustained than formerly; but, whatever cause may be assigned for

it, the hopes that may have been entertained at the commencement of the year, as to spiritual prosperity, have not been realized. We received 35 members : we have lost, by removals, death, and the exercise of discipline, 14 ; have received 18, and now return 39. Though there is here much to discourage labour—much that is not to be found in most of our Western Canadian work, yet it is important that we hold our position, and we will still hope and pray that the good work may greatly prosper in time to come.

THOS. CLEGHORN.

---

### AMHERSTBURG.

Owing to the reaction after the revival which took place last year in this Mission, the contemplated house for the Lord, mentioned in the report, was not built ; but we have succeeded in building, in another place, a substantial frame one, which, by the noble exertions of the friends generally, and the building committee in particular, is almost free of debt. We have had several conversions in the course of the year, but after replacing the numbers lost through backsliding and removal, we cannot report much increase of Church-membership. Some general improvement in the Mission is realized, and we are living in hope that a brighter day is about to dawn upon us.

JOHN HODGSON.

---

### PORT SARNIA.

During the past year we have been called to pass through some sore trials on this Mission. Death has made his inroads upon us, and some of our most valued friends have fallen. The emigration to the Western States has deprived us of many valuable members, and some of those received last year failed to maintain their steadfastness. Sickness, during the latter part of the year, prevented us from holding special services. From all these causes we are prevented from reporting an increase. Notwithstanding, through the Divine blessing upon ordinary means of grace, we are led confidently to report spiritual and financial prosperity. Numerically, we report a small decrease.

We have built one Chapel during the year, which is regularly deeded to the Connexion. The Corunna Church has been comfortably seated, and altar railing and other improvements made. There is an advance in all our funds. The Connexion funds are more than double the amount paid last year. The ground which we have occupied is by far too extensive for two labourers, and much ground remains to be occupied, which would warrant the formation of a new Mission in the South and East of this Mission. In nine of our appointments the people would be destitute of religious privileges but for our services. Many of those among whom we labour are Presbyterian in principle, but are free in supporting our institutions.

## E L O R A .

This Mission continues increasingly prosperous. We can report a goodly number of conversions, and the growth in grace of our people generally. Throughout the Mission the congregations are better than they were last year. There is decidedly a growing interest at Fergus. Our Church at Elora has been constantly crowded; but the old building is much against the enlargement of our cause. We doubt not if we had a Church to correspond with the place and population, Methodism would take a different position.

We are again able to report an increase in the number of buildings on the Mission. The brick Parsonage to which reference was made in last year's summary, has been completed at a cost of about £400. Two Churches have been finished at an outlay of about £750. Another, of stone, and handsome, 26x36, in Lower Nichol, has been commenced, and we hope, from the character of the worthy people in that section, that we shall have the pleasure of worshipping in it at an early date. It is matter for rejoicing that the debt on these excellent edifices is comparatively small. It is true one-half is on the Parsonage, which makes the trust rather burdensome; but from what we have experienced of the liberality of a number of our members, we expect to be able to state, next year, a material diminution.

We think it will be seen that, during the past two years, the Mission has done nobly in financial matters. There has been subscribed for Buildings, Connexional Funds, and Ministers' salaries, about £1800; and a debt of about £400 only, remains to be paid by the Trustees of the Churches and Parsonage. We thank God and take courage.

CHAS. SILVESTER.

## B E R L I N .

Absence from home, attending to the duties of this widely-extended District, prevented our paying that attention to this interesting field of labour, which its importance demanded. Wesleyan Methodism, in the County of Waterloo, has not made that progress that it has in many other parts of the Province, from the fact that the great proportion of the population are German, speaking their own language, and very tenacious of the religion of their forefathers. But in the midst of this community, we succeeded during the year in organizing an interesting field of labour, and were successful in establishing regular service in neighborhoods not enjoying Wesleyan ministrations. The means employed during the year were signally owned and blessed of God; so about fifty were converted and added to the Church. If we had an active agent who could preach in German, and would give himself to this service—to visit these populous neighborhoods, and converse with, and distribute our tracts among the people, printed in their own language, I have no doubt much good might be accomplished by such an instrumentality. It is but just, however, to say, that the German Methodists are exercising a beneficial influence among their countrymen in this county; but their *ministers* are few; and what are they among so many?

L. WARNER.

## P E E L .

In a religious point of view, this Circuit is, with two exceptions, in a good, healthy, prosperous state. During the last year its number of members, and their graces, have been increasing: several have been converted to God, and joined our Church, and are "walking in the fear of God, and the comforts of the Holy Ghost." Our Sabbath Schools are, in general, doing well. Several of the children are engaged week after week, in committing to memory those blessed truths of God which are able to make them wise unto salvation. At the close of our third year on this interesting field of labour, we feel laid under renewed obligations to our Heavenly Father, for his preserving grace, and for the religious prosperity which we have enjoyed. To God be all the glory.

H. REID.

## S T R A T F O R D .

The Conference year now coming to a close, has been one marked by great spiritual and financial prosperity: the numbers in Society have increased from forty-one to eighty-one. We have been able, by the blessing of God, to establish preaching in one new place, where there is now a thriving class of eight members: our new church in the town, the walls of which were up when I visited the place twelve months ago, has been completed under somewhat auspicious circumstances, and is now filled with worshippers, some of whom every Sabbath evening, for months past, have come forward to the altar of prayer, earnestly seeking salvation; nor have they sought in vain. During the year we have had in Stratford above twenty-eight conversions, so that instead of one small class of eight members, the number I found twelve months ago, we have now three large classes, containing forty-seven members; and let me here be permitted to say, that these are Christians indeed, in belief of our doctrines, and Methodists in tenacious adherence to our discipline. Our funds have as rapidly increased as our membership: in addition to paying their preacher the sum of near three hundred dollars, they have contributed to our Missionary cause the sum of fifty pounds. To God be all the praise.

JOHN JACKSON.

## G O D E R I C H .

In last year's Report it was stated that constant expectations were entertained that the coming year would be a prosperous one. We feel much pleasure in being able to announce that events have not disappointed us. Soon after Conference we received on trial six persons, whose hearts were turned to God in a camp-meeting held about eight miles from the head of this Mission. Towards the close of the second quarter, our hopes were more fully realized. About this time, great diversity of weather detained Brother A. Edwards from proceeding to his own Mission for the ensuing Sabbath's work. Favored, by this circumstance, with his assistance, we commenced immediately a series of special meetings. These were continued for five or six weeks, and resulted in the hopeful

Though there have been removals to the number of thirteen, one death, and three or four who have withdrawn, we have an increase of fifty; and prospects of a farther increase in the coming year, are more encouraging than they were at the commencement of this.

JOHN S. EVANS.

---

## M I T C H E L L .

The Conference year just closing has been one of some encouragement and prosperity in this interesting field of labour. After deducting the number of removals, &c., we are able to report a considerable increase in the membership, as well as other evidences of improvement. We have succeeded in getting our brick church in the village, pewed, painted, and neatly finished during the year. The pews were immediately all taken, but we have not been able to supply the demand for seats; and the number of applicants for pews is weekly increasing; so that the trustees have resolved, as soon as circumstances will admit, to enlarge the building.

We have three interesting classes in the village. Last fall we were visited with an outpouring of the Holy Spirit, the membership was refreshed and strengthened, and precious souls received into the kingdom and family of Christ; and although we have had since occasion to mourn over the spiritual declension of some, yet we can rejoice over others, who give satisfactory evidence that they are on their way to Zion. The appointments in the country part of this Mission are increasing in interest. In order to supply the demand for Sabbath preaching, two Agents will be required on this Mission. Many of the appointments are new, and the people in poor circumstances; so that they are not able to contribute much, although they evince a desire to do what they can towards the support of ministers laboring among them.

ANDREW W. SMITH.

---

## ART H U R .

The Arthur and Mount-Forest Missions have been worked as one during the past year, and one report will probably answer for both. On this field of labour we have no Local Preachers or Exhorters, but one Class-Leader, and only a small number of members. In Mount Forest we held a protracted service, which resulted in the conversion of some souls to God, and the quickening of the members. In this village we have a comfortable log Church, a Class of over twenty members, and a good and increasing congregation. Here almost all the support received from the Mission is raised. We enjoy peace in all our borders.

## WELLESLEY.

During the year we have experienced "seasons of refreshing" in some degree. Our congregations have been good; and a few have been brought to God. One appointment has been detached from the Mission, by which we sustained a loss of about fifteen members; in consequence of which, together with the loss of several more who have been dropped or expelled; and also there having been a larger number returned last year than could be found on the Mission, there will be a decrease in the number of members, though thirty have been taken into Society during the year.

J. M. CLARK.

## MORRIS.

This Mission embraces the townships of Morris and Grey, and part of Wawanosh, Turnbury, and McKillop: far too much labour and travel for one man. We came here with the determination to spend and be spent for Christ, and we rejoice to know that we have not "laboured in vain, nor spent our strength for naught." Prosperity has crowned our humble efforts at most of the appointments. We found, on coming to this Mission last June, 85 church members; we now find upon our books, 110 in full membership, and 43 on trial for membership. Two churches have been raised within the past few months, which bid fair to be completed in a short time. There are 14 regular preaching places, at most of which the congregations are in a growing state. When we look at the past, and then at the present, we feel as though we can forget the toil and sickness which have fallen to our lot during the past year (which were not small), and

"Labour on at God's command,  
And offer all our work to Him."

D. HUNT.

## KINLOSS AND CULROSS.

This Mission was formed last Conference, and embraces the townships of Kinloss and Culross, and part of Ashfield. When we commenced our labours we found one appointment in Kinloss, with a small class of seven members, which had been appointed to by the Minister labouring on Kincardine Mission. If a Missionary had been sent here a year sooner it would have been to our advantage. We have now eight regular appointments, four classes containing forty-two in full membership, and seven on trial, making in all forty-nine. Our congregations are good, but we find ourselves under a great disadvantage on account of not having suitable places erected for public worship. We hope this will be partially remedied by the erection of School Houses in three or four settlements, and by the erection of one Church or more during the coming summer. The

settlers in these Townships are respectable and intelligent, and we have sufficient evidence to prove that sensible persons do not lose their intelligence by coming to the bush. We have met with nothing but kindness from the people. At our last Quarterly Meeting a blessed feeling prevailed. Our prospects are good for the future. To God be all the praise.

T. HADWEN.

---

## HOWICK AND TURNBURY.

We commenced our labours on this Mission with fear and trembling, but were soon encouraged by the kindness and cordiality of the people. After travelling the Mission all through, entering every dwelling as I went along, praying with the inmates, and enquiring respecting their moral state and religious attachments, I found seventy-three persons who had been connected with our Church, three of whom were in the habit of attending Class. During the year fifty-two joined our Church on trial, twelve from other Circuits; eight have been dropped because of neglecting Class, four removed, two dead; net increase 50; total 93, including those on trial. Many difficulties and opposing influences have been encountered and overcome during the year, and God enabled us to triumph in every place. We leave the Mission in a prosperous condition. To God be all the praise.

JOHN A. DOWLER.

---

## ELORA AND SAUGEEN ROAD.

This is a new field of labour, and it embraces at present an area of about twenty five miles in length and eight in breadth, comprising the greater part of Minto and Carrick, and the north of Wallace and Howick. A few months ago we had no people; but now some are made to rejoice in a sin-pardoning God. There are nine preaching appointments, four classes, thirty-eight members. They are an industrious, affectionate people; very anxious to be taught, and willing not only to hear, but to support the Gospel as far as their limited circumstances will allow.

WILLIAM CROSS.

---

## WAWANOSH.

This Mission, generally, is in a prosperous state. We have not had a large increase of members this year, but we have had a good work among believers. Some of the officials are now enjoying perfect love, and others are desiring the same blessing. The members generally, are attached, pious, and liberal; but they will need assistance for some time to come.

## BAYFIELD.

The work of God, on this Mission, is steadily advancing. Five months ago we entered on this field of labour. Since then we have taken up two new appointments. The people gladly receive the word; which we hope will be the power of God to their salvation. We have forty-six members, most of whom are kind and warm-hearted. During the past year there has been a very neat brick church, 26 by 36, erected in Bayfield. All things considered, we have reason to thank God, and take courage.

WM. NORTON.

## OWEN'S SOUND.

When I came to this Mission I found 210 members. We have had some prosperity during the year: 65 persons have joined the Church on trial, 18 members have been received from other circuits, 17 have been dropped, 14 have removed to other circuits, and 14 have withdrawn,—leaving 199 in full membership, and 49 on trial—a net gain of 38 over last year. We held two protracted meetings, and should have held others if the roads had not broken up so early. There is one frame church, 26 by 34, in course of erection. We need others. Our four Sabbath Schools are in a very prosperous condition. We need a much larger church in town. Our Quarterly Meetings were well attended, and were seasons of refreshing.

J. BRIGGS.

## ST. VINCENT.

Notwithstanding all the disadvantages we labour under, from the humble and embarrassing condition of our people, in this northern country, arising from the newness of the place, the badness of the roads, and the want of a market, I am happy to be able to report prosperity and advancement in every department of the Lord's work. Our finances are all in advance of last year; our people having arisen, in all, the noble sum of about £160; and this year will, doubtless, long be memorable for the ingathering of souls, no less than 85 having been added to our Church; and what is not the least source of gratitude is, very little human or ministerial effort has been put forth.

G. J. DINGMAN.

## SOUTHAMPTON.

This Mission is a laborious field: nothing but an ardent desire to serve God, and a fervent zeal for the salvation of souls, would prompt any Missionary to occupy it, as he must endure hardships and privations which none but those who are acquainted with our work in new settlements, can form a proper estimate of. We have succeeded in paying off the debt which was on the "Southampton Church", with the £20 we received from the Chapel-Relief Fund, and what I collected from the people, and advanced out of my own means for the purpose.

We have also done

We have also done a little toward finishing the church; so that we were enabled to occupy it through the Winter; but it is not nearly finished, and we shall require about £75 to finish it; and my opinion is that our people on the entire Mission will not be able enough for this purpose.

I think, however, this will become an important Circuit, after the population shall have increased, and our people have surmounted their present difficulties. Many are liberal according to their means, and we charitably hope their liberality will increase in proportion to their means. We regret that we have not succeeded, spiritually and financially, to the extent we desired. But we have the satisfaction to know that we have done what we could. May the Lord of the Harvest grant my successor greater prosperity than I have had.

S. BROWNELL.

---

### ARRAN.

This field of labour was formerly known as the Derby Mission. During the past Conference-year we have had a few conversions, and though we cannot report a great increase of members, yet a few have united with us. May their names be registered on high.

GEORGE JACQUES.

---

### DURHAM.

We now number 59 members; we have 3 Local Preachers, and 2 Exhorters, 3 Class-Leaders, 10 appointments. A log Church was opened for Divine worship on the 24th of May; we have no parsonage as yet. There are many denominations of professing Christians in this section. In the beautiful village of Durham we have a small society, which we believe would soon become a large one had we a suitable place of worship. We have lived in peace with all denominations.

JOSEPH HILL.

---

### BRANT.

In submitting a report of the state of this Mission, Brother Dyre says, your Missionary would humbly present his ascriptions of praise to Almighty God for the mercies bestowed upon himself and family. While our term of labour here has been characterized by many difficulties and privations, arising, in part, from large deficiencies, and the want of suitable places of worship, and of a parsonage; it has also been marked by blessings. We have been enabled to organize Societies where previously the people enjoyed no religious services, and the voice of prayer is now heard in many of the hamlets of this new section. O, may those struggling souls be kept firm and faithful unto the end of life.

months ago we

nd, and what I  
for the purpose.

The means of grace have been well attended at nearly all the appointments, and the word preached has proved effectual in convincing the sinner, encouraging the backslider, and in refreshing the people of God. There is a small increase in all the Connexional Funds, and also in the membership. After deducting 3 removals, 1 death, 2 expulsions, 3 dropped, and 1 withdrawn, there are 33.

It was deemed advisable to commence a new Mission having Paisley for its centre; and through many difficulties the Missionary has laboured during the winter and spring. Ten appointments for preaching are attended every two weeks. Three other Classes have been organized, now numbering respectively 6, 8, and 12. The last includes 6 members transferred from Southampton Mission. These Classes meet regularly, and are growing in grace. In one place the people have subscribed £40 toward the erection of a new Church. A Sabbath School has lately been established. These are only beginnings, but through the Divine blessing upon faithful, patient toil, the harvest will be abundant.

W. SHANNON.

---

## PROTON.

On a review of the two years since I first came to labour on this Mission, I am impressed with a sense of my obligations to Almighty God for his tender care and kind providences towards myself and family. At the Conference of 1856 an additional Preacher was sent to our aid. We gave Sabbath preaching where they had previously had week-day services only, and extended our labours to several destitute settlements, proclaiming, for the first time in these wildernesses, to the hardy pioneer, the cheering tidings of Salvation. We have enjoyed peace in all our borders, and some prosperity has attended the efforts put forth in the conversion of souls and ingathering to the Church.

JOHN L. KERR.

---

## OSPREY.

I feel a deep sense of gratitude to Almighty God for his goodness in granting me more than ordinary health, and giving his blessing to the word preached, so that about forty have professed to obtain the pardon of sin, and ten or twelve the blessing of sanctification. There has also been a large number added to the Church who were once members; some of whom had not been connected with the Church for years. The Mission takes in a large tract of country; consisting of the Townships of Melancthon, Osprey, part of Nottawassaga, Mulmer, and Sannidale; so that going round the Mission requires the travel of between 250 and 300 miles. We are in great want of Churches on this Mission, which must be the case for years to come. Our people are poor but noble-minded, as a general thing. This I think is established by the efforts they have made in the past year to build a Parsonage, and to support the Gospel. May they continue to prosper.

THOMAS HANNA.

The last year had a company holding the Mission. This fact has occasioned some calculation in the place. Influx, some coming, in our congregations and the number of places, at the last we have added a these, Jane Hooper. ## BRUCE MINES.

The last year has been a time of partial depression at the Bruce. The Company holding the Mines have offered them, by public advertisement, for lease. This fact has occasioned an unsettled state of feeling, as a matter of course, as few can calculate, with any confidence, upon the length of time they may remain in the place. Indeed we are, during the summer, in a state of almost constant flux, some coming, others going; which necessarily causes continual variations in our congregations and societies. The Wellington Mine is working briskly, and the number of its men is increasing. The number of inhabitants in both places, at the last census, was 513, being 64 more than in the previous year; and we have added a few to the number of the members of our Church. One of these, Jane Hooper, has recently died, after a long period of painful suffering. Her afflictive case is a proof of the importance of Christian sympathy, counsel, and prayer, in the time when heart and flesh fail. The Lakes being now open, our congregations have somewhat diminished on the Sabbath day, by parties seeking amusement and pleasure. The Sunday-School is promising, and doing well; the day School is for the present suspended. But whatever may be the fluctuations of society, or the ebbs and flowings of the numbers in our Churches, duty is ours, and fidelity will have its reward. I feel pleasure in acknowledging the kindness and liberality of the people of the two Mines, in raising and presenting, by way of unsolicited donation, for the assistance of your Missionary, upwards of two hundred dollars. May the Lord reward them.

JOSEPH FORSYTH.

## BARRIE.

During the past year we have had but few conversions on this Mission; but enough to prove that the Gospel is still "the power of God unto salvation." We have admitted 15 into the Church, but in consequence of 10 removals, and 6 who were on trial at the beginning of the year we had to drop, we have to report a decrease of 8; nevertheless we are not discouraged. Our congregations are large and attentive; the Sabbath-School, under the able superintendence of Brother James Edwards, is in a very flourishing state.

W. McFADDEN.

## HOLLAND LANDING.

We have endeavoured, in the fear of God, to supply the people of our charge with the word of life, as fully as time, and distance between appointments, would allow. Our protracted services during the winter, were not very successful numerically, but were productive of good among our members. Mr. James Aylward, the Circuit Steward, has very generously presented the Mission with a fine building-lot for a parsonage, in the Village of Queensville, a healthy locality in the centre of the work, with a daily post. I hope the friends will avail themselves of this favour, and build a good house upon it. I send you a brief report of Snake-Island with this.

BROCK.

The revolutions of another year having brought us to this interesting and solemn period, we are led to cast the eye back over the path pursued; and whilst pensively mourning our shortcomings, the mercies of the Lord rise in bold relief, cheering and admonishing the drooping soul. This Mission has not yet wholly risen above the disastrous effects of strife and division. We prayerfully wait for the fertilizing showers of heavenly grace, which alone can make the "desert blossom as the rose." A few souls have been converted to God, new openings occupied, one new Class formed, and upon the whole, there is some general spiritual improvement. Two of our respected sisters have exchanged mortality for life, whilst quite in the bloom of youth. O! may we increase in piety, and in numbers, and finally join the triumphant host; then we will give God nobler praise.

SAMUEL FEAR.

FLOS AND ORILLIA.

This Mission presents a pleasing evidence that the Gospel is still the power of God unto salvation to every one that believeth. Many, who a year ago, banished every religious thought from their minds, and sought happiness only in sensual objects, now know by happy experience that the ways of religion are pleasant, and her paths peaceful. Many families and neighbourhoods where no morning and evening sacrifice arose to God, and where all the means of grace were lightly esteemed, are now the habitations and scene of piety and order. All our connexional funds have been well sustained; for notwithstanding the financial depression which appears to have extended to every part of our country, the friends here have raised over fifty-two pounds, Missionary money, paid their preachers, built one commodious Church, and have the materials on the ground for completing two others, which are already raised, and will be fit for use in less than three months.

At the commencement of the year our friends feared that the want of an ordained Minister on so large a Mission, would prove a serious injury to the cause of God, and greatly hurt our influence; but this, though a very great inconvenience, was counterbalanced by the able assistance and prudent counsels of our esteemed Chairman, the Rev. Wm. McFadden, and the kindness of brother Stobbs, of Innisfil, who at much labour and inconvenience responded to our every call for help. Much praise is due to my excellent colleague, whose self-denying toil shows how much his heart is in his work. My prayer to God concerning this truly affectionate and pious people is, that in my successor he may send them a man after his own heart, and that the work of God may continue to prosper among them.

A. K. CAMPBELL.

CARTWRIGHT.

When I arrive here, Jeremiah's lamentation was a fit theme, and I cried,—  
 "How doth the city sit solitary that was full of people!" This plaintive strain

being dwelt upon obvious that some not slain, but that upon the willow "long dead." To was our first bush each "put on the regular siege on before dismay were heard, and, cleansed from a breach has not b a hope that it w field of labour w ness, bringing for

being dwelt upon in passive sadness on the walls of Jerusalem, it at length became obvious that some of "the precious sons of Zion, comparable to fine gold," were not slain, but that they were captives in a strange land, with their "harps hung upon the willows," and their tongues almost as silent as those who had been "long dead." To rescue these, and get them cheered, as they were "in days of old," was our first business. We then collected our ammunition, filed our little army, each "put on the whole armour of God," and thus equipped, commenced a regular siege on one of Satan's fortifications. Not long did we batter these before dismay was sent throughout his host; loud and earnest cries for mercy were heard, and, blessed be God, many souls found deliverance, and some were cleansed from all sin. The work, we trust, is still going on, and though the breach has not been fully repaired, there is some ground for the entertainment of a hope that it will ere long, and that this extended, and somewhat unfortunate field of labour will yet become fat and flourishing, filled with trees of righteousness, bringing forth fruit to the honour and praise of God the Father.

W. RICHARDSON.

## NORWOOD.

We received an additional labourer in the beginning of October, and were enabled to hold some special services, which resulted in the conversion of a goodly number of souls to God; several of them young in years: but the rising generation is the hope of the Church, and if they are faithful to the Lord and His cause, their influence, in a moral and religious point of view, will be felt through life, and some of them may be called to larger spheres of usefulness. There have been several removals from this Mission, during the past year, to other parts of the Province, where, we have no doubt, they will be a benefit to the places whither they have gone to sojourn: and a few of them were amongst our best supporters. We have also had to drop several who were nominally Methodists. From these two causes, though we have admitted between thirty and forty to membership, we return a small decrease.

Our cause in South Dummer has materially advanced in piety. We have a large society there, and in finances it stands at the head of this circuit: and North Dummer is first in Missionary contributions. We need a richer baptism of the Holy Spirit, and at some of our appointments especially a spirit of greater Christian liberality. "There is that scattereth and yet increaseth; and there is that withholdeth more than is meet, but it tendeth to poverty." We are able to report an interesting advance in our Missionary funds.

JOHN GOODFELLOW.

## SHANNONVILLE.

We are able to report an increase of finances on the whole, as also an increase of the membership; and what is of still greater importance, an increase of spirituality. Some are rejoicing in the knowledge, that the blood of Jesus Christ cleanseth from all sin. We have to report the removal of twenty-two from our Mission; some sixteen dropped or expelled; one death; and yet have an increase of rising of fifty in Society; for which we render all praise to the Great Head of the Church.

L. HOUGHTON.

The Hungerford Mission has for some time been the cheering scene of activity and great good accomplished, and the respected Missionary, the Rev. Michael Baxter, must in his arduous exertions have borne in mind the apt name of "Helper" which Mr. Wesley gave to his responsible preachers. The Committee rejoice in his success, and with thankfulness to God, participate in his expectations of greater things.

## HUNGERFORD.

Another year of gracious providence has evolved on this Mission more than ordinary good, and the valuable year is long to be remembered.

After removing four times in sixteen months, and in those migrations experiencing the breaking, the tearing, losing and smashing of effects, consequent on such "marchings," on the 28th of October, 1856, we entered our comfortable new parsonage.

On the 18th of Nov., the foundation stone of a new church was laid at Thomasburgh, by our esteemed chairman, Rev. J. Carroll; and so well did Mr. Clare, the builder, work, that he finished his contract for the erection, twelve days before his stipulated time. On the 10th of May we held our Quarterly Meeting in the church, and, of course, it was the first religious services held in it. The early and hurried attendance—the crowds that worshipped—the very gracious influence manifested through the whole of the exercises—the joy that was lit up on every countenance—yes, and also the very collection were proof how unmeasured a blessing this church was going to be.

On the 20th inst. (as intimated in the Missionary Notices for May, this year), Rev. J. Carroll laid the foundation stone of another new church, at Tweed. Although the day was unfavourable, the attendance to hear the addresses, out of doors, was very good, and all our intentions answered by this service. Great interest was excited for the success of the church, and in some that we are aware of a holy determination that the house ought to be and "should be built." The erection is going on rapidly.

During the year three protracted services were held, all signally owned of God. About thirty-five were received into society: one new class of great promise was formed; four new places of preaching opened; one of which we are very sanguine about—the Addington Road: one of the three sections of the country where Government are giving free grants of land to settlers. We have here an appointment already, and a few members—hearers attentive, and wishing to have a regular supply of preaching. In a few years we believe this Road will be ready for its own Minister, with a regular string of appointments for 30 or 40 miles through the entire extension. The people are Protestants, and many attached to Methodism.

Owing to forethought and labour, the instalments for building the church and parsonage have been early met, and in the matter of debt we have in those instances very little fear. During the latter part of the winter a Bible class and Catechism class have been held at the parsonage, attended with great pleasure, and promise of lasting good. From the present aspect of the Mission we count very confidently, should agents be faithful, on as much good resulting another year as the past, although it may not be altogether of the same form. May God Almighty grant it.

M. BAXTER.

My predecessor minded him of the Mission we have exertion. Soon expelling three men seven were received the number 116, straitened circumstances counts for a dearth at Stirling, and less over £25. To G

## STIRLING.

My predecessor, in writing the report last year, stated that this Mission reminded him of the coat of many colours; and verily he hit it to the life. On the Mission we have much opposition to contend with, and will need constant exertion. Soon after I entered this field I found myself under the necessity of expelling three members, and dropping nineteen; during the year eight removed, seven were received from other circuits, and twenty-four admitted on trial, leaving the number 116, the same as last year. Many of our people here are in rather straitened circumstances, some of them more so than usual, and this partly accounts for a decrease in the Missionary subscriptions. In improving our church at Stirling, and lessening the old debt, we have raised and expended something over £25. To God be all the praise.

N. BROWN.

## PERCY AND SEYMOUR.

Gratitude to God rises uppermost in our souls in penning this annual report of our interesting Mission. Five years ago this became a Mission, with 86 members in society; now we number 400, nearly half of whom have been added during the past year, and 71 remain on trial. We have had a year of toil, but nevertheless one of great comfort and satisfaction. The Preachers sent to the Mission last year, with an additional one taken out, have received their full salary. The Connexional Funds have all been supported above former years. For this improvement we are indebted to our active, self-denying, and persevering Missionary Collectors, and our truly generous public. We have taken up 10 new appointments during the year, most of which are doing well. With a field so extensive before us, we resume our labours for another year, anticipating incessant toil: but we rely on the promised help of our all-sufficient God.

EDWARD WARD.

## LOUGHBOROUGH.

On this Mission there are seven regular appointments every two weeks, all in the Township of Portland, but one, which is in Loughborough, so that it ought to be called the Portland, instead of the Loughborough Mission. On arriving on the Mission, I found 141 members, divided into seven Classes, but only one regular Class-Book, and I therefore immediately had the other six classes supplied. During the year, nine have been received on trial, seventeen have been received from other Circuits, fourteen have removed to other Circuits, and three have been dropped. The number I return on the annual schedule is 140.

There have been a few extra efforts made by way of "Protracted Meetings," but the tone of piety is about the same now as at the commencement of the Conference year; and my greatest hope, with regard to any large amount of good, for the future, being accomplished, is in the youth and children with whom I have associated in the family circle. My faith is strong in this respect, though

years may intervene before it is fully developed. During the year, I have preached, on the Mission, 144 times, baptized 10 children, and solemnized matrimony between one couple. The Local Preachers are faithful. A new and very comfortable and commodious Church erected in the Village of Spike's Corners, Portland, was dedicated to the service of God in February last, which will prove a great acquisition to the place and to this part of our work.

STEPHEN MILES.

## BATH AND AMHERST-ISLE.

We cannot say much of the prosperity of our cause on the Island; owing to deaths and removals, our number is greatly reduced. During the past year, one of our most devoted and faithful members and Class-Leaders, has been called to the eternal state. The number left are faithful to our cause, and continue to adorn the doctrine of God our Saviour. Our prayer for this part of our work is, "O, Lord revive thy work." No place requires a revival of religion more than this.

D. C. CLAPPISON.

## GANANOQUE.

The change made in this Mission, however well intended, has operated very unfavorably on the work. In regard to the religious state of the Mission, I am sorry to say that the general standard of piety is rather low; we have, however, a few good people who are walking in the "fear of God, and in the comforts of the Holy Ghost." During the year, we have had some encouragement in the conversion of a few souls. Fourteen have been converted, and added to the Church, who are in a hopeful way of making substantial and useful members. Our Quarterly Meetings have been seasons of sweet delight and spiritual comfort. The Connexional Funds generally, have been well sustained, and there is a large increase in most of them, although it has been a very hard year for the people in this part of the country, in consequence of the failure of crops last summer. We have a few people who are strongly attached to our church and ministry, and who endeavour, according to their ability, to support our institutions. We have formed one new class of fourteen members, in a place where none previously existed.

GEORGE CARR.

## SHEFFIELD.

The past year has been one of great harmony and peace on this field of labour. During the year we have put forth some special efforts in order to promote a revival of religion, and we are happy to be able to say that our labours have not been altogether in vain; as the result we have received more than thirty

C. CLAPPISON.

persons on probation, most of whom have proved faithful. However, owing to an unusual number of removals, we have lost many of our most faithful and devoted members; consequently we are unable to report an increase of numbers this year. Our people are making praiseworthy exertions to meet the wants of the public, by providing more ample church accommodation; and while they are careful to provide places of worship for the public, they are also making provision for the comfort of their own Minister. Through their liberality and persevering efforts, we trust our new parsonage-house will be completed early the coming year. Wesleyan Methodism is taking deep root here: perhaps our cause was never more prosperous, nor wore a more pleasing aspect, than at the present time. Still, the wants of the people are not supplied as they should be: more labourers are required to cultivate the field we now occupy: from a new and adjacent township the Macedonian cry is heard,—“Come over and help us.” We trust that the change now in contemplation, which will give this Mission an additional preacher, will be productive of much good to the people, and enable us to accomplish more fully our mission, so that the word of the Lord may have free course and be glorified.

Though we cannot report numerous accessions to the Church, yet good has been done. Some have been converted, others quickened, and generally the work of God presents an encouraging aspect. We have continued to visit those places which were reported last year to have been just entered upon, and with considerable success. Our membership is about the same this year as it was last. Financially this Mission has exceeded any former year. There is indeed, work enough here for three men. May the Great Head of the Church send “showers of blessings” upon this field of Missionary labour, and to Him shall be ascribed the praise, who alone is worthy.

 that our labours  
 more than thirty

This Mission is situated partly along the banks of the St. Lawrence, and extends up it a distance of twenty-three miles, and embraces a part of the townships of Cornwall, Osnabrock, Williamsburg, and Roxburgh. During the past year God has graciously visited this field of labour, and, by the outpouring of His Holy Spirit, forty profess to have found the pearl of great price; all of whom united with our Church. After deducting removals, withdrawals, expulsions, &c., we have a net increase of thirty-one members.

JOHN HOWES.

## WINCHESTER.

Most of the country embraced within the bounds of this Mission is new, and the people have to struggle with difficulties: but amidst all these things they show a willingness to support the ministry, and contribute very liberally to the various connexional funds of the Church. All things considered, I think it must be admitted they have done well during the year that is past. We have an advance in the funds, and a small increase in members. Our last Quarterly Meeting was the best we had on the Mission. With us progression is still the order of the day: and our prayer is that God will continue to bless this people, temporally and spiritually.

E. HURLBURT.

## OSGOODE.

The state of the work here exhibits no very remarkable feature. At some of our appointments there is much to encourage us. In other places there are some things having an opposite tendency. We have been discouraged to see members of the Wesleyan Methodist Church manifest inattention to those means of grace which are distinctively Methodistic. We continue to feel our lack of men who will take office. Any person acquainted with the working of Methodism is aware of the embarrassment that connects with a lack of efficient officers. A considerable sum of money was expended last fall in improving the Church in the Village of Metcalf. It was very uncomfortable before, in the winter season. By next fall we expect to have others equally comfortable.

W. MCGILL.

## GATINEAU.

Another year is gone. It has been a year of toil, but a year of triumph. By the Divine blessing on our labours, we have experienced, in more than one way, a very encouraging degree of prosperity. And, first of all, I would, with adoring gratitude, record the mercy by which a number of persons have, during the year, been happily and truly converted to God. Besides extra labours which have been given to some of the out-posts of this Mission, my esteemed colleague and myself have held protracted meetings at four of the principal preaching stations under my care, and at each of these places several persons have been blessed with the pardoning mercy of our Heavenly Father. We have received thirty persons on trial, during the year, and yet I am obliged to report a slight falling off in the number reported to the Conference last year. I have been involved in no small amount of obloquy and trouble in consequence of my determination to purge the Mission of evils I have met with. It has required all the skill and firmness I could command to bring the discipline to bear on unworthy members of the Church; and even yet the evil is not entirely cured. We have, at present, in full membership, 122; on trial, 16; total, 138.

GEORGE CASE.

CLARENDON.

As it relates to members, I found 180 on the part of the Mission that had fallen to my lot in the division. Of these one died, four removed, and nineteen were dropped. I received eighteen during the year : the numbers as returned are 6 on trial, and 167 in full membership. My salary was deficient only a little over seven pounds, while for our table and horse the supply was abundant. I may just say, that our prospects as a Church are cheering ; and if there could only be a young man sent on with an increased appropriation from the Mission Fund, so as to allow us to give Sabbath morning preaching at the church in Clarendon, and in the village of Portage DuFort, I feel satisfied that, under the Divine blessing, the Mission would rise speedily, and soon take its stand amongst important circuits. I shall gratefully remember the sympathy of our members, and the numerous friends, with myself and afflicted partner. My earnest prayer is, that the Divine blessing may rest upon this and all our Missions.

R. ROBINSON.

ON SLOW.

Formerly a part of the Clarendon Mission, Onslow includes at present five preaching appointments. During the former part of this Conference year, there were seven appointments, which were filled by the resident Missionary, assisted by a zealous brother, who is a licensed exhorter. The usual difficulties of a new country are found here ; but if proper attention be bestowed on this place, our cause may yet flourish in it abundantly. We have had many things to encourage us,—such as increasing and sometimes overwhelming congregations ; the establishment of a prosperous class ; several conversions ; and kind friends. One of the greatest hinderances to our prosperity has been the sending to the pastorate of this place a man who can not baptize the numerous children requiring that rite. There are others who can perform these functions, and they may gain the influence here.

J. ROX.

WEST MEATH.

Our cause at this Mission makes some progress. The appointment of a second labourer last year, enabling us to preach every Sabbath at important places, and visit regularly every part of our work, has, by the Divine blessing, to a great ex-

f triumph. By e than one way, uld, with ador-ave, during the labours which emed colleague icipal preaching sons have been e have received report a slight I have been ince of my deter-required all the bear on unwor-ly cured. We

tent prevented the reaction which too frequently follows a revival. A large majority of the converts of last year remain steadfast in the faith, and some of them give very encouraging promise of usefulness in the Church. There have also been a few additions to the membership of the Church during the year. After deducting deaths, removals, dropped, and expelled, we are enabled to return 21 of an increase, and nearly an equal number on trial. Amongst our people generally there is, I think, an improved state of piety, and a growing attachment to our branch of the Christian Church. It was the first to carry them the gospel, and through its instrumentality many of them were brought to God. Four new Sabbath-schools have been established during the year, making on the Mission a total of seven. In almost every branch of our financial department our friends have considerably exceeded their former liberality. A brick church is about to be erected in Westmeath. The deed of a very fine site has been procured, and £200 subscribed towards the erection of the building.

R. M. HAMMOND.

### BELL'S CORNERS.

Since you received the last report from this Mission, it has undergone some change. At the last Conference three appointments, with ninety members, were attached to the Richmond Circuit. This change has affected us numerically and financially. We cannot report as many members as last year. Our people here, though few, are behind no section of our Church in their endeavours to sustain the institutions of Methodism. John Dawson, Esq., of Bell's Corners, has given us a very eligible site for a Parsonage-house; the carpenters are at work, and expect to have it finished in September next: cost, about £150. We have three Sabbath-Schools, ten teachers, fifty scholars, and about one hundred volumes in the library. Two of our members have been called to their reward, and a few others have removed to other parts of the country; and now, at the end of three years labour and toil, we can say, through all our trials, the best of all is, God was with us.

THOMAS McMULLEN.

### GRENVILLE.

Among our members the Saviour's legacy is happily realized, *peace*; also a marked improvement in the attendance at our various places of worship, seven in number; increased liberality on the part of our own members, and the members of other churches, in supporting the Mission; which are matters of encouragement. We have now an excellent house as a parsonage, the gift of J. Anderson, Esq., within a short distance of our church, pleasantly situated. Several improvements are being made in this section of country. There are strong prejudices to overcome among the settlers, from the sale of bad books. By whom shall Jacob arise, for he is small? We hear it said—Not by might, nor by power, but by my Spirit, saith the Lord. We are encouraged to labour on at God's command.

## R A W D O N .

Most of the congregations on this Mission have been steadily increasing during the year. The number of our appointments is increased. Our special efforts for the conversion of sinners, and the edification of the Church, have not been crowned with the success we desired, owing to various causes. The Missionary has had more opportunity this year for catechising the youth of our church in the Conference Catechisms, and instructing them in general Bible truth.

W. CREIGHTON.

## W E S L E Y V I L L E .

Some of the best talent of the Church has been expended on this field of labour, and after all it does not wear a very encouraging aspect, for which a variety of causes may, with propriety and truth, be assigned,—such, for instance, as emigration. The Society has suffered much, and lost many valuable members and families, from this cause, and on the part of many who remain there is still a strong bias in favour of going west; and when our people, or families connected with other Protestant Churches, move off, their places are almost invariably filled up with French Canadians, and these, in the present state of things, furnish very different material to work upon, out of which to make up for our loss. Another cause of the lowness of the work on the Mission, is the lack of discipline at the proper time. Another grand cause is the fact that our people live so widely separated from each other, and, at the same time, in many cases, at such a distance from the place of worship, that it is often with difficulty they can attend religious services, either on Sabbaths or on week days.

But, notwithstanding all these difficulties, there is still ground for hope, and, with the Divine blessing, encouragement to go on. There are still those who, we trust, have not defiled their garments; who love the Lord Jesus; who love the way to Zion, and take pleasure in her stones, and favour the dust thereof—pray for her prosperity, and liberally and nobly support, according to their ability, the Missionary labouring among them; as they also do the connexional funds. When we came to this Mission we got 112 members returned. During the year two have died, one has been dropped, fourteen removed, one taken in on trial, leaving a membership of 95, and one on trial. O, that the Divine Being may revive His work, and send prosperity on this field of labour the ensuing and every future year.

A. ARMSTRONG.

## S T . J O H N ' S

The following statements, while well-written, comprise a fair specimen of the untoward circumstances which impede the work of the Society's devoted Eastern Missionaries; and yet such is the superiority of Protestantism to Popery, their duty, they feel, is to persist in their high calling, dependent upon the God of Truth, and encouraged and aided by the sanctified zeal of the members of their societies and congregations, whose laudable adherence to Wesleyan Methodism is cordial and liberal.

AMES MORRIS.

This Mission presents no features of a very encouraging character. The congregations are comparatively small, and the members in Society are few. There was a time when both were large and prosperous. The decrease we now deplore is not the result of any want of zeal, ability, and fidelity in the Ministers who have been stationed here; for, during a series of years, this field has been occupied by many talented, devoted, and successful Missionaries. It is the effect of a cause which has existed, and still exists, in this part of the Province, and particularly so in the villages and rural districts,—namely, the tide of Protestant emigration to the West; a state of things which threatens to deprive many extensive neighbourhoods of Protestant churches, and Christian instruction. The obvious fact need not be disguised, that Protestantism cannot long continue in large portions of Eastern Canada, unless the providence of God opens wide a door of access to the French population, who are, unhappily, living in a state of extreme spiritual destitution. Should the work of evangelization, already commenced by ourselves and others in this vicinity, be successful, the central position of St. John, standing in the midst of a dense Romish population, must render it a Missionary post of considerable importance.

Our congregations in the town, during the year, have been good. The average number attending public worship is about 65 or 70 persons, and though it may appear small, it is really large in proportion to that part of the community who prefer the doctrines and polity of the Wesleyan Church. At the close of last year, twenty-two members were returned. During the year now ending, three removed to other circuits, whose places have been filled up by others, so that the same number still remains. The liberality of our people, in proportion to their number and ability, is seldom exceeded, as the following figures will demonstrate. We have a Sabbath afternoon appointment in the country, about five miles distant, which has been well attended by a congregation who have listened with marked attention to the preaching of the Word, and manifested some signs of reformation, encouraging us to look for a gracious work of conversion and salvation in that locality.

In St. John we have a valuable Mission property, but it is encumbered with a heavy debt, which the Trustees are utterly unable to pay. Indeed, the income derived from all sources, together with the grant from the Chapel Relief Fund, is inadequate to pay the increased rate of interest which is now demanded, and the current expenses. We sincerely desire and hope that the Conference will devise some scheme to liquidate this debt, that the property we possess, and the position we occupy, may be saved to the Connexion.

RICHARD CLARKE.

### CHAMBLY.

In consequence of several families removing from this locality, our numbers have decreased during the past year; still we are encouraged by the devotedness of those who are connected with us, as members of the Church, and also by the marked attention and seriousness of those who compose our congregations. Judging from present indications we anticipate more evident progress during the forthcoming year. It is a duty we owe to our good people here to state, that they have, considering their small number, done more, I believe, for the support of

the ministry, than of in our Connexional respect disables them there is a spirit of union.

It is in justice that we remark, there is a spirit of union and liberality here, which is worthy of every commendation.

THOMAS CLEWORTH.

## HEMMINGFORD.

This Mission, in common with others in this Province, has suffered decrease of members by the current of emigration which is bearing so many to the west. At present we possess two churches, and occupy four other preaching appointments. We have sixty-one accredited members, and fourteen on trial. In the winter some special services were held ; which under the Divine blessing resulted in the conversion of those now ranked as probationers.

Protestantism here needs "the times of refreshing," if it would maintain its character for usefulness, elevate the religious spirit of those who claim a place within its pale, and be ready amidst the *armies* of Israel to make aggression on the error and superstition which are rolling heavily against it. It is pleasant to record that our own branch of the Protestant Church by much prayer and supplication, as well as by gifts to the treasury of the Lord, is earnestly seeking the needful blessings ; while we pray that what God has done for us during the past season may be the earnest of a yet larger outpouring of his Spirit upon us. It is to be hoped that our lack of numbers, and our isolation amidst contending influences, will recommend the Mission to the further liberality and care of the Missionary Committee.

S. E. MAUDSLEY.

## RUSSELLTOWN.

We have had to drop a large number of persons returned as members last year. We held some special services, and a few were savingly converted to God, some backsliders reclaimed, and seventeen united with our Church ; after making up the deficiency for removals, deaths, &c., I return 120 members. There is an increase in all our connexional funds, and especially in missionary money, which is 42 per cent in advance of last year.

We have purchased an excellent lot in the village of Franklin, upon which we intend building a parsonage this summer. We pay £75 for it. We have also a new church in progress, 28 by 40. It will be a neat, commodious church when finished. A great many of our people, and regular hearers, are yearly moving to Upper Canada, and the Western States. Their farms are chiefly bought by the Roman Catholics ; consequently Protestantism is decreasing, and Romanism increasing. "Arise, O God, plead thine own cause : remember how the foolish man reproacheth thee daily."

JOHN WEBSTER.

## HUNTINGDON.

Although our labours were arduous and unceasing, yet, *the best of all*, God was with us, to awaken sinners, and save souls. We have a net increase of about 20 members, notwithstanding we have lost 6 by death, 14 by removals, and quite a number dropped. We have witnessed here deaths peaceful and triumphant. We have been enabled to pay off a deposit of some three hundred and fifty dollars, on our church, besides having a very large increase in all our Connexional Funds. Our quarterly meeting has, unanimously, asked for a change in the relation of our *Mission*, to that of a *self-supporting Circuit*. May the Lord continue to smile upon Huntingdon Circuit, and may the graces and numbers of its members continue to increase, until they become a thousand times as many more as they are. To God be all the praise.

R. BROWN.

When the Papacy is dominant in a country, there is too much of the dryness and sterility of the desert, where the simoom sweeps its way; but a reviving Christian Mission like the following is an oasis hopeful and refreshing.

## BEAUHARNOIS.

At the Conference of 1856, Durham and two other less important places, containing altogether about 70 members, were set off from the Huntingdon Mission, and formed into a distinct field of labour; but at that time, and for several succeeding months, from various causes, this new field was in anything but a flourishing condition spiritually. During the latter part of the year, however, the work of God has progressed very considerably, as will appear evident from the following statement:—Twenty-four have been taken in on trial, nearly all of whom are enjoying a sense of Jehovah's pardoning love. About twenty are now rejoicing in that "perfect love which casteth out fear"—who, with many others, appear to be animated with a true christian zeal for the glory of the Redeemer. The congregations also have increased; long-standing prejudices, antagonistic to our beloved Methodism, are yielding to more fraternal sentiments; and prospects at present seem to predict a glorious triumph for Wesleyan Theology. Hence, should proper and continuous efforts in the future be made, to extend our cause in this neighborhood, there can be no doubt of their producing the most satisfactory results.

WM. HANSFORD.

## S T. A N D R E W S .

Family after family, comprising our most substantial supporters, are yearly moving away to the Western country. On the other hand, in those places where the population is increasing, the Church—if its members and ministers are acting under a sense of their duty to God and their fellow-men—will necessarily partake of the general advancement.

The number of our appointments, and the extended character of our work, render continuous, concentrated efforts, in any one place, very difficult; although

In giving a report least in population

this is highly desirable, in some instances almost essential, to any great success. I felt this very much last winter, in holding special protracted services, being compelled by other engagements to leave when the work presented the most interesting aspect. A large proportion of the membership, however willing, are not in circumstances to give a sufficient support to our institutions. There has also been an effort to divide the Methodist interest in several places where it was feeble enough already; without, however, any special effect.

Though we feel that we have not realized that degree of prosperity which we hoped for and expected at the beginning of the year, yet we rejoice that we have not been unfavoured with tokens of the Divine approval and blessing. Though several have removed, as many have been added as have supplied their place, at least in numbers, and we return a few of an increase. Several, during the last winter, professed to receive the blessing of peace through believing. Most of those were, however, members of the church. I always find that in a church containing a number of unconverted members there is a strong tendency to formalism, and any thing like spiritual progress is very slow. All our connexional funds are in advance of last year. May God revive us again, that His people may rejoice in His name.

E. H. DEWART.

---

### CAVIGNALL.

It is with mixed feelings of gratitude and humiliation, we review the three years' labour on this Mission,—gratitude for bodily health, and preservation while exposed to imminent dangers in crossing the St. Lawrence River: once in crossing on the ice, had it not been for Dr. Loy, J. P., who was conveying me, I probably should have been frozen to death, being about twenty minutes in the ice; it was with much difficulty he rescued me:—gratitude that some have been saved from the wrath to come, and gone to their reward. One case in particular;—a young woman blessed with all the world calls good, except health, heard the word; embraced the truth; gave her heart to God; sickened more; died. On her sick bed she blessed God she ever heard a Wesleyan Missionary, and said to him, "You were instrumental in saving me; I am happy; I love Jesus; I shall soon be with Him; I hope to meet you in Heaven."

Some have left this—gone to other places, and joined our Church: others are leaving and going up West. We feel humbled that comparatively little good has been done.

W. T. HEWITT.

---

### CHAUDIÈRE.

In giving a report of this Mission, I should not forget to notice that it is the least in population in this district. Here the word has been preached for many

years, but not regularly. This Mission has now been supplied for two years with the regular preaching of the word ; which has been attended with success. On it the number of accredited members is small, owing somewhat to the removal of some of the former members. But it is pleasing for me to notice, that there has been an addition made to our number, and that generally there is a good influence on the congregations.

It would be a most pleasing task for me if I could report more favourably as to the support of the cause. Although the accounts show a great deficiency, yet I can truly say that our people have contributed nobly considering their means, and they are willing to give as they are prospered, that they may be furnished with the word of life, which is to them great riches.

HIRAM FOWLER.

---

## MELBOURNE.

On this Mission during the year we have had peace and general prosperity. 22 persons have been received on trial. A part of the ground was taken to form the Danville Mission, cutting off a large and important country, several appointments, and about 30 members. We have expended about £50 upon the old churches, and built a new one, and although we have less territory and have suffered the above loss of members, all our funds are in advance of the previous year, and openings which we are invited to enter, are presenting themselves on every side of us, to which we are still unable to attend.

T. W. CONSTABLE.

---

## SHERBROOKE.

At the commencement of the year, things spiritual looked very discouraging. After much prayer, pastoral visitation, and extra services, symptoms of animation appeared : God in very deed visited his people. Fifty-two persons, during the year, have professed to experience a change of heart ; forty-five have united with the church. Some bid fair for great usefulness, and have been exceedingly liberal. May they all be faithful. This Mission has suffered much from removals, and the increase will, to a great extent, be required to make up deficiencies. The means of grace are well attended in town ; prayer and class-meetings especially are means of great interest. We have a few liberal old standard-bearers who still stand to their posts. Our financial affairs are improving. There is a plan in prospect for supplying several neglected places in this vicinity with the Gospel.

W. D. BROWN.

---

## STANSTEAD.

In reporting on the religious state of this Circuit, we would offer thanksgiving to God for the many mercies of the year, and for that measure of success which has marked the labours of his servants. Our congregation at the head of the

Mission has continued seasons of refreshing spirit of revival, and

The institutions of and having this ear God is about to pou

Mission has continued large and serious. The private means of grace have been seasons of refreshing, and one of our appointments has been visited with the spirit of revival, and a number of precious souls have been reclaimed and saved.

The institutions of the Church have been sustained with increasing liberality, and having this earnest of good, we look into the future with confident hope, that God is about to pour upon us all the spirit of his love.

M. McDONALD.

---

## COMPTON AND COATICOKE.

COMPTON.—We regret that we cannot report very favorably on the religious state of this part of the Mission. A number of kind-hearted and liberal friends cheerfully contribute in supporting the financial interests of the Church, but the membership is small and scattered, and spiritual death pervades the greater portion of the community. May God pour out his Spirit upon the people and revive his work!

COATICOKE.—When we first visited this village scarcely three years ago, its most prominent object was a large and frequented tavern,—no place of worship was found, no religious ordinances were administered, God was forgotten, the Sabbath desecrated, profanity and profligacy prevailed. We commenced our Missionary labours by establishing a week-evening service; at first few persons attended; gradually the number increased. We made a Sabbath appointment; the congregation improved, holy fire was kindled, a class was formed, sacrifices of praise and prayer were offered, souls were converted. A beautiful and commodious Methodist Church, with a fine-toned bell, has been built in the centre of the village, on a site comprising about three acres of land, at a cost of \$2000, the whole of which, with the exception of \$300, has been paid; and upwards of \$200 has been raised during the past year, towards the support of the minister. The Municipal authorities have restrained the sale of intoxicating liquors by a prohibitory law, and light, prosperity, and life, are rapidly dispelling the gloom of darkness, depression, and death. While with admiration we are constrained to say, "What hath God wrought?" we gratefully ascribe to Him alone the glory and the praise.

JOHN B. SELLEY.

---

## HATLEY.

The state of the work of God on the Hatley Mission is encouraging. Throughout the year, a few of God's people have been praying and believing for a revival, and the Lord has to some extent answered prayer. Since my appointment to Hatley, I have organized four classes, and at two of these, in Barnston—a place previously noted for spiritual sterility—some from time to time rose for prayers; and at meetings subsequently held, twenty-five or more testified that they had found peace in believing; two more are seeking mercy. It is true that we have not an addition of twenty-five to our church, but that is owing to most of those who have found the pearl of great price being related to members of another denomination, who still indulge a hope that their church may have a minister in the place. I fully believe that He who has said, "Every valley shall

be exalted, and every mountain and hill shall be made low," is removing hindrances to the extension of our Zion in this Mission. We have had spiritual and financial improvement during the year, and I believe that in answer to those who are still praying for an outpouring of the Spirit, we shall see greater things than these.

JOHN DAVIES.

### EAST BOLTON.

Another year with all its changes has past away. To us it has been a year of severe affliction and trial. At times the prospect has been painfully dark and discouraging; but our trust has been in "the Lord who made heaven and earth;" and he has kindly proportioned our strength to our day:

"And still he doth his help afford,  
And hides our life above."

In our distress we have sometimes been led to exclaim, "O, my Father, if it be possible let this cup pass from me," but at the same time we have submissively added, "nevertheless, not as I will, but as thou wilt." And this we have been enabled to do the more cheerfully from the fact, that the "chastening of the Lord was for our profit," that we might "more fully be partakers of his holiness." And "blessed be his holy name!" I trust it has in some measure been sanctified to this end.

Though the Mission, under the circumstances above alluded to, has not been worked so efficiently as could be desired, yet we have not been without some degree of prosperity. Our position both financially, numerically, and religiously is considerably in advance of the preceding year. "The word preached, being mixed with faith in many who heard it, has been rendered" highly "profitable to them." The state of the Church is remarkably healthy, and I have no doubt that times of still greater prosperity are nigh at hand.

During the year efforts have been made by ministers of the Episcopal Church, and another body to proselyte our members to their respective parties, but, I am happy to say, without the least success. By the former no pains have been spared to accomplish their object. Our people have been told that the Methodist Ministers are not lawfully ministers, that they have no authority, that they are not successors of the apostles, &c. &c.; but they know better, for they are capable of determining the quality of the tree by its fruits. May they abide, steadfast and immovable, always abounding in the work of the Lord." Amen.

JOS. HUGILL.

### SHEFFORD.

The extent of this Mission, comprising four large Townships, prevents that concentration of labour so necessary to great and permanent success. Nevertheless we have been enabled, through the mercy of God, not only to maintain our position, but to make some inroads on the kingdom of darkness. The stone church at Brome, reported last year as in process of building, was opened in September. We are thankful to state that it has already been the spir-

darkness. The  
ding, was opened  
y been the spir-

tial birth-place of precious souls. It has been consecrated by the Most High speaking peace to troubled consciences within its walls. A gracious work broke out in connection with special services held in the winter, and our cause has been much enlarged and strengthened in that neighbourhood. The new brick Parsonage was occupied early last winter; it is neatly and thoroughly furnished, and will afford our Ministers a comfortable residence for years to come. An additional Minister is much needed to occupy places now beyond our reach. Many of our members have done nobly, and some have even exceeded their ability in supporting the cause of God. May Heaven reward them!

A new Sabbath-School has been recently commenced in Brome, under very encouraging circumstances; it is conducted by seven teachers, and numbers already 40 boys and 20 girls, with good prospects of a large accession during the summer months. Two libraries have been purchased, and are in use. From the deep interest felt in it by our friends generally, strong hopes are entertained of its success. There are some other schools in process of formation on different parts of the Mission.

G. DOREY.

---

## SUTTON.

In attempting to report this Mission, we regret to say that the prospects, at present, are not very encouraging. We have sustained a serious loss during the past year, by the removal of several of our most influential members, which removals will account for the decrease in our financial returns. We are happy, however, to state that, through the blessing of God, there have been a few souls gathered into the fold of Christ, so that we shall not be under the necessity of reporting a decrease in our membership. There is a beautiful site obtained for a Parsonage-house at Sutton Flats; the house is in part built, and several of the materials are furnished for further proceedings. The Mission requires the fostering care of the Connexion, and we earnestly pray that God may direct them to make such provision for it the ensuing year, as will result to his own glory and the good of his cause.

F. HUNT.

---

The subjoined Letter from one of the Society's four labourers among the French population, will be acceptable to the Committee's numerous friends, who have in many ways manifested an interest in them; and the salutary effects of discreet evangelical effort produced by them will be satisfactory, and induce and enlarge hope for the future in an enterprise at once onerous and necessary.

## ROXTON—FRENCH MISSION.

If we take into consideration the position of our French Mission, and the difficulties which surround that work, we shall see that we have to thank God for the blessings which he has bestowed on the labours of your Missionary. During

the year there has been a remarkable change in this locality. There has been for many years a spirit of contention growing out of local matters, which has marred the progress of the Gospel, but during the year it has been dying away, and now we meet and worship all together, and kind feelings have taken the place of old feuds, so that our religious state has much improved.

We have introduced our Methodist usages as far as we have been able; and it must be borne in mind that the moral and religious education of that people have to engage the efforts and the attention of your agent, and such a work requires time before our Church discipline can be fully established. Our position toward the French Romanists is far better now than it has been at any previous time. We are made welcome among them generally, and can speak freely on any religious subjects, without any abuse or insult offered to us, no matter whatever efforts the Romish priest is making to keep a spirit of division and hatred against us; they come and meet with us in our meetings, and lately two families sent their resignation to the Romish priest. Our meetings are well attended; from 20 to 50 persons meet us at our different places of worship, which are four in number, Salem, Beree, Coriuthe, and Yamaska Mountain.

Fully persuaded that in labouring thus we are doing the work of the Lord, we shall continue and labour till the great Master of the harvest shall invite us to rest.

T. CHARBONELL.

---

## ARMAND.

In closing the labours of another year, we feel that it becomes us to be devoutly thankful to the Great Head of the Church, for His forbearance with us and care over us. At the different appointments of the Mission, peace and goodwill appear in the conduct of the members of our Church in their intercourse with each other. At some of our appointments we are favoured with a very encouraging measure of religious prosperity, and on the entire Circuit we are greatly in advance of what we were when we commenced our labours on it, three years now past. In finances our Circuit receipts, as well as our Missionary collections, far exceed those of any of the former years of our labour on it, and all the contributions to our other connexional funds show some increase. I am fully satisfied that, by judicious management and faithful ministerial labour, the Circuit will, in a few more years, sustain its former position, if not far exceed it, in religious prosperity and financial liberality.

J. NORRIS.

---

## CONCLUSION.

After so unreserved an exhibition of the proceedings of the Society, and its present elevated standing being so honourable to its members and supporters, little need be said in conclusion. Their attention is respectfully directed to the unusually lengthy catalogue of Contributions, and to the department of Expenditure, with the assurance that the local lists of which the catalogue is composed having been written by many different hands sometimes hurriedly, and not always with a perfect penmanship, the determined aim of the Committee has been to publish all names and figures correctly,

—though, as was

f the Society, and members and sup- on is respectfully ations, and to the cal lists of which y different hands hip, the determin- figures correctly,

—though, as was the case in other years, illegibility in the manuscript may have unavoidably, but to the regret of the Committee, made the publication of some valued names and amounts erroneous; and they beg to suggest to Officers, that to secure an immunity from incorrectness, and the disadvantages of a late issue of the Annual Report, which has been deplored for years, the early collection of the subscriptions, and the leisurely preparation of the Branch Society's Lists, and unfailling presentation of them at the May District Meetings, are indispensable for a conscientious observance of the Society's important regulations, and the information and gratification of its esteemed patrons.

To all its christian and generous Friends the Committee rejoice to say, This Canadian Society is *their own*. They have, as all Christians do, needed a sublime object to elicit and expand their piety; and here they find it; and while they have been pouring their sympathies and treasures on to this altar, the Missionary Cause has been repaying them with benedictions yearly more select and abundant. Christian charity cannot live without a receptacle for its exuberance. It is an unspeakable privilege to be permitted by God to do others good. Years have past since the corner stone of the Society was laid with tears of joy and faith by men of St. Paul's spirit; and now there is an edifice massive and merciful in design, and the unwearied people who have been strengthened by Divine love to build it, need not deem it presumption to appropriate the spirit of the Psalmist on another occasion; "Walk about Zion, and go round about her: tell the towers thereof. Mark ye well her bulwarks, consider her palaces, that ye may tell it to the generation following."

This Society encounters none of the obstacles which obstruct Missions in some other countries. The dread of supreme, vindicative Jesuitism is not here as in Italy. The Prefecture has not the unmanly mastery of religious bodies as in France. The remaining hatred of a false national system does not threaten and abuse the converts to a pure faith as in Turkey. The haughtiness and barbarities of caste do not block up the way of reformation as in India, nor a universal polytheism present as in China, a barrier to the truth ancient and formidable. Pagan superstitions there are here in one direction; Roman superstitions in another; the bigotry of Puseyism is somewhat widely spread, and the selfishness of worldlings is everywhere; but there is full liberty of ecclesiastical action, and none here under VICTORIA'S sceptre dare with impunity make Christian Missionaries afraid. Balaam cannot curse Jacob: "The Lord God is with him, and the shout of a King is among them."

Past success binds to present effort. The immense expenditure of last year was the result of a hearty benevolence,—and honor, fidelity, and divinely-imposed duty require *continuance* and *enlargement*: and the Board of Management will not be unsustainable.

The Wesleyan Missionary economy is not experimental. Enterprise and adventure,—new plans and beginnings there are, but long ago was the orthodoxy of the doctrines preached settled, the character and qualifications of the agents decided upon, the itinerancy, means, and diversified appliances needed chosen and made practical, as essentials which no social change could render inapposite and obsolete. It is sufficiently tested in its efficiency to meet the wants of millennial times.

Multitudes are in suspense for the Society's efforts. The letters now published from Western, Eastern, and North-west Wesleyan Missions prove it. The "Wesleyan Missionary Notices" of Canada prove it; and the valuable Wesleyan Missionary Notices from the Centenary Hall never arrive without conveying the melting wishes of some famishing portion of mankind, east, west, north, or south. *Who will hearken?*

The unanimity and liberality of many encourage fresh effort. There are in the community too many persons who prefer opulence to benevolence, and make commercial and family prosperity their sole and undeviating aim; but, thank God, to the friends of this Society not even the forcible language of the inimitable and now sainted Harris, can find an application: "Self is Dives in the mansion, clothed in purple, and faring sumptuously every day,—the cause of Christ is Lazarus lying at his gate, and fed only with the crumbs which fall from his table."

In making MISSIONARY efforts we become identified with Christians of every land. This is a true Evangelical Alliance, affectionate in spirit, and noble in work, on which the adorable Trinity looks down with smiles, and to which nations cast their imploring eyes with hope. Hallowed association! Munificent enterprise of Christian beings! The Redeemer has given you an existence, a position, a vocation. The ends of the earth wait for your services. Honour HIM, and your position is dignified, and your unequalled vocation is a perennial fountain of blessing to the world.

Christ can reign universally only as his people serve Him. Astonishing statement! But He in his wisdom has confided the agency of the world's salvation to man whom he hath made. The destiny of men is suspended on deeds of men. What, then, should the efforts of the Christian portion

of earth's great brotherhood be? Here is relationship, and responsibility, and God's command, and Christ's love, and the entreaties of destitute millions, pressing Christians to acts which would give life to the dead, and the globe to the Saviour. Reply to the call of duty by a thoughtfulness not soon dissipated, by a zeal never reluctant, by a generosity never meagre, by a purpose and a confidence in the Holy Spirit, never unstable, but ever vigorous and triumphant. Be the plan, *more Missions and Missionaries for the Society.*

What is the anticipated consummation in this great undertaking? "To make ALL MEN see what is the fellowship of the mystery, which from the beginning of the world hath been hid in God, who created all things by Jesus Christ: to the intent that now unto the principalities and powers in heavenly places might be known by the Church the manifold wisdom of God." A plenary Spirit is in the Sacred Volume; a universal Atonement was made on Calvary; all evangelical instrumentalities are sprinkled with Christ's blood! the Spirit is ready; Wesleyan Methodism is prepared; sanctified men are willing to sacrifice themselves; in every region — certainly in the Canadas and Hudson's Bay — myriads are waiting for instruction; and notwithstanding adversaries, Inspired predictions give the "dominion" to the Son of God. From morn to morn, and from year to year, let the comprehensive and sublime prayer be heard in closet, dwelling, school-house, and the temples of worship — "THY KINGDOM COME!"
