Another Milestone Reached.

THE issue of a new number of the Canadian Shopper's Hand-book marks another year of progress in the history of this great shopping concern. It has been, perhaps, the most eventful year in the history of the house, now extending over a period of more than a quarter of a century. Large as we had been in store area before, within the year we have increased this area just double.

REALIZE what progress on these lines means. Walk leisurely through the new addition, No. 170 Yonge Street, and which has been christened the Annex; take the elevator to the various floors; wend your way through the whole house, among its multiplicity of departments, for all are under one roof, and an object lesson in modern store-keeping is furnished that you'll not easily forget.

You learn of improved store service; the addition of many new departments; and of the enlargement of other departments, that had broken their original bounds and called lustily for more room. The new departments are many, and of these you'll learn much by a careful study of this book. Further, they foreshow achievements yet to be attained, for Excelsior is the motto of the house.

First Floor New Annex.

BELIEVING that order is heaven's first law, system has been carefully studied in the planning of this house. In the new Annex, which you can reach from any section of the house, or by any entrance, and which is directly reached from 170 Yonge Street, will be found what in dry goods parlance are termed the staples of the business. Near the door, where splendid light is given, are cottons, sheetings, linens, towels, towellings, and kindred goods. Adjoining these are prints, sa'cens, cretonnes, felts, quiltings. Securing all the advantage of the fine light of the west windows, looking out into the grounds of Knox Church, are flannels in myriad variety, shirtings, skirtings, tweeds, serges, astrachans, and mantle cloths. Before you leave this quarter we will introduce you to the department given over to furs and shawls, stocks suggestive of comfort on a Canadian winter day. Here also are the counting rooms and business offices of the house.

Second Floor New Annex.

CONVENIENTLY and quickly reached by a new and well-running elevator. On *terra firma*, in this floor you find one-half, that part looking out on to Yonge Street, given over to millinery—we believe the handsomest and most lightsome millinery rooms in the city. The west half is the mantle section of the house, and a part occupied by boys' clothing. A large amount of space for three lines of goods, but the importance of the departments requires it.

Third Floor New Annex.

We climb still higher, though with modern store conveniences climbing is only fun, and the dress-making parlors are reached. What dress-making means with this house is told in separate story elsewhere. By all means visit the dress-making parlors. On the same floor are found the offices of the mail order department, one of the busy corners of the house.

Such in brief is the story of the new Annex, albeit we've told fully elsewhere the tale of the Basement, a generous extension of the business since last we talked to shoppers through the medium of our yearly Hand-book.

SEE INDEX AT BACK PAGE OF HAND-BOOK.

**This Book Aids You to Order by Mail.
Follow the suggestions below:**

Write Plainly and with Ink,

pencil writing frequently becomes blurred and indistinct. Date your order, state the amount enclosed, and how we shall ship goods.

Give Number of Page in Hand-book

where article you want is to be found; quote the exact descriptive wording.

Give Your Post Office Address Correctly and Legibly,

with County and Province, in every letter you write us, no matter how often. Where goods are to be sent by express, and the express office has a different name from the post office, state the fact.

How to Order Goods from Samples.

Samples of piece goods, of whatever quality, are sent free of cost to those who write for them. All we ask is that in writing, you be clear and explicit in your statement of exactly what is wanted. Give width, price, color, etc., so that we can send you just what you need, instead of a great lot of samples that are of no use to you and cost us considerable money. Be very particular about prices, for remember our stock covers the entire range of goods manufactured. If you cannot state exactly what is wanted, do so as near as possible. As far as possible give us a choice of two patterns, in case one line should be sold. Kindly return samples.

We Cannot Send any Goods C. O. D. unless

the order is accompanied by one-quarter of the amount of the total value of the order, nor for sums less than \$5.

of time, no return is made to your correspondence (whether an order for goods, samples or letter of enquiry), please advise us, giving all necessary particulars.

How to Send Money by Mail.

The safest way is by post office money order in favor of R. Simpson, Toronto. If post office order cannot be obtained you can send by express money cheques that can be obtained from any office of the Canadian or Dominion Express Company. Failing these methods, letters can be registered at the post office.

Sign Your Full Name Plainly

to any communication, that our answer may be properly addressed. A woman should always sign herself Miss or Mrs. Where the latter, the husband's name is preferable. In no case should she sign her husband's name at one time and her own at another; it is sure to cause error and confusion.

How Goods are Sent.

Goods are sent either by mail, express or freight. When specific instructions are not given as to method, we study your interest and send goods in the cheapest way. Parcels up to five pounds in weight, but not in excess of this, can be sent by mail at a cost of one cent an ounce. It is well to register parcels of value. The charge is only five cents extra.

Perfect Security.

This store's record, coupled with its unquestioned ability to redeem every promise made, is the one guarantee that stands behind each of its thousands of transactions daily with the shoppers of Canada. For twenty-five years the success that has attended this work has been uninterrupted and unbroken. The individual standing of the proprietor in the community has long since been established, and of itself furnishes the best guarantee that can be asked by any shopper. When money is sent in excess of orders, balances due customers are promptly returned by us.

DRESS GOODS lead in merchandise and mark the advance in a great business like ours. To reach our high standard requires a knowledge of goods, and all the producing processes from the sheep's back to the perfect and beautiful fabric. Our buying has covered the world's greatest markets for the newest and best. Our Dress Goods' Counters are overflowing with a stock unrivalled in the Dominion; the largest, the rarest the most varied. This season's styles of dress goods are largely new. Novelties are in greatest varieties of wears; all show the talent and artistic taste of the designer. The exquisite changeable colorings are beautifully produced. Many patterns approach roughness of surface. Some of those New Goods show touches of sunlit threads, buried beneath heavy cords of Bengaline; others are commonly wrought in tangles of figures. Solid-Color Goods also in many New Weaves, popular for present styles of Dress. Buying at first-hand in immense quantities, the Prices touch the lowest possible mark.

Dressmaking Parlors.

THE satisfaction that beams from the faces of the lady shoppers, represented in the picture above, is a result of securing a well-fitting and creditably-made dress in the dressmaking parlors of this house. There are no cross looks, or gentle explosives, from those who entrust their orders here.

Dressmaking is one of the new departures of the house, an outcome of the recent extension of store premises. The department is under the management of skilled artist-dressmakers. There are dressmakers and dressmakers, but we could be satisfied with nothing short of the best talent procurable in this line.

No garment is allowed to leave the place until it has undergone critical inspection, and our experts are satisfied that the work is in every respect perfectly executed.

"But your charges will be high," perhaps, some one remarks. Not so. Only first-class work is furnished, but the prices fixed are reasonable, and within the ready compass of any lady requiring a well-made dress.

Ladies out of town, desiring a dress made at these parlors, can, by following our directions, be assured of satisfaction.

Black and Colored Silks and Velvets.

THIS will again be a great season for Dress Silks, and we were never so well prepared to meet it. The store space given to the Department has, within the past few months, been increased to nearly double the former dimensions. The Stock, large at any time, has been correspondingly increased. Our gatherings of Silks from the World's Markets are larger and more varied than ever before. Leading Fashion Centres point to Black Silks, with White Designs for Promenade; White Silks and Colored, with Black Figures, for Dinner and Reception Gowns; Grecian Satins for Brides and Bridesmaids. The newest Colored Silks are surprisingly beautiful and exquisitely rare in color combination. It's well known to the cleverest shoppers that we sell Silks lower than any other house.

Buttons and Smallwares.

HAVE you any idea how many buttons are made in a year? The number is something enormous, and a button factory is a most interesting place to visit. The variety is very great. Buttons of apparently no significance, yet most useful, and buttons that are as handsome as they make them. We tell here of buttons, needles, pins and a "thousand and one" smallwares which have a place somewhere in the economy of women.

Ribbons.

THENS of thousands of yards of ribbons are to be found in stock in this house. No end of variety as there would seem to be no end in length. Ribbons are sold by a scale. It is a convenient way to order. Give the number and description in class, and a mistake cannot be made. The scale is as follows: No. 5, 1 inch wide; No. 9, 1½ inches; No. 16, 2½ inches; No. 22, 3 inches; No. 24, 3½ inches, etc.

Muslins and Flouncings.

THE goods we list in this Department are of prime importance to every shopper. The term "Muslins and Flouncings" may not seem to embrace a very wide range of stocks. But a glance at the lists that follow will show how large is the variety. The rule applies generally to all sections of the house, but it is the case with perhaps an additional emphasis that we have here not a few altogether out-of-the-way values calling for attention.

Ladies' Cotton Underwear.

THE list will be found to be of some length, for this house attaches much importance to Ladies' Underwear. We believe in ample variety that all desires may be fully met. Moreover, we believe in the character of the goods we offer ladies: A first essential is the material. Let that be good. We watch that it is so. But, how the material is put together is an important matter. Shoppers may take it for granted that we can be satisfied with only first-class workmanship on every garment. Then, there is a finish about the Underwear of this House that has the commendation of ladies.

Mantle Cloths and Tweeds.

HARDLY anything can be more disappointing with shoppers than to find that they've been sold in the quality of purchase made. Shoddy runs through many articles of merchandise, and shoddy is repeatedly associated with cloths and tweeds. We only say, Beware. Of the genuine quality of all mantle cloths and tweeds offered by this house there can be no doubt. We have the best and we have the cheapest. Mantle cloths for ladies. Tweeds for men's and boys' suitings.

Boots and Shoes.

SCIENCE has joined the ranks of the shoemakers, and now it is possible to get ready-made shoes of better material, more perfect form, and more comfortable fit, than ever before. In best shoemaking this country has a good lead. When not getting at home just what may be wanted this house has the choice of the markets of the world. Our shoe store is a great shoe store—the greatest that exists in Toronto. It has reached beyond all competition, and on merit has a right to claim your interested attention.

Mantle Department.

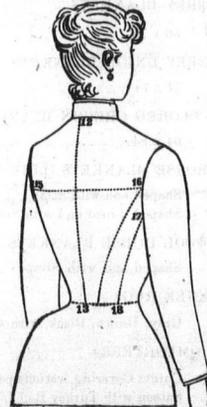

AN EARNEST of the importance we attach to our Mantle Department is to be found in the increased store space now given to these goods. Mantles are found on second floor of Annex, which is conveniently reached by elevator. It would seem next to impossible to excel the magnificent stock of these goods we're showing in the most correct styles of Jackets, Coats, Capes, Dolmans and Ulsters. Of recent years the stylishness of mantle goods has become increasingly marked. Our buyers spend a great deal of time in the foreign markets every year studying the styles and making sure that right goods are secured for our trade here. You can understand that going direct to the manufacturer, passing all middlemen at home or abroad, we can afford to quote exceptionally low prices for every garment, and we do so. The lists which follow are the proof. Out-of-town shoppers can make sure of being correctly fitted by giving measurement according to instructions below.

DIRECTIONS FOR SELF-MEASUREMENTS FOR COSTUMES MADE TO ORDER, ONLY

Boys' Clothing.

WE'RE great clothiers of boys. Years of experience have taught us the importance of selling only good goods for boys. Their elders may have some regard of the clothes on their backs, but boys are boys, and tears and tatters are the sequel if material is not sound and workmanship the best. Parents can place every dependence on our boys' clothing, notwithstanding the low prices we charge.

Specimens of New Season's Headgear.

The ever-changing variety of qualities, styles and colors makes it impossible to give particulars. Shoppers, however, hardly need the assurance that the best claims of the changing fashions are met by this house. The accompanying illustration represents leading styles of the present season, taken from goods actually in stock. Every care is given to orders for Trimmed Millinery, and customers may feel sure of their orders being filled in a satisfactory manner. The millinery parlors are on the second floor of the New Annex, very tastily furnished, with splendid light, and easily reached by elevator.

Domestic Paper Patterns

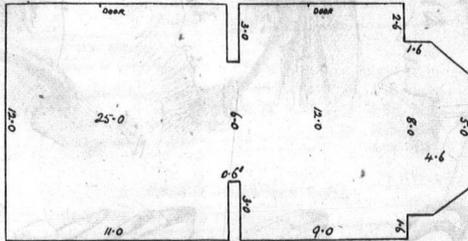

WE RECOMMEND Domestic Paper Patterns to shoppers because we know their excellence. We would not keep them on our counters were we not able to say they are the best. Catalogues are sent free on application, and our store monthly, "The Style," representing "Domestic Patterns," and containing store news of interest to every shopper, is sent to any address at the rate of 12 cents per year.

Carpets, Curtains and House Furnishings.

WHEREVER the best carpets of the best makers can be found we make our selections. A stock that is always ample in every department. No difficulty in choice can possibly occur. The finest Wiltons, Brussels of the best makes, Tapestries, Unions, Oilcloths and all sorts of floor coverings just as you would have them. The same will apply to Curtains, Curtain Materials, and all lines of house furnishings.

HOW TO MEASURE CARPETS

When sending measurements for carpets to be cut and made, follow these instructions closely and you will avoid mistakes. For plain carpets the length and breadth only of room is required. For bordered carpets more minute measurements are necessary. A careful study of the accompanying diagram will instruct

the shopper in the measurements required for bordered carpets. It is always well to show the position of doors and windows in the rooms, in case of half widths or cross joints. It will be seen also that the broken measures added together equal the through measures in width or length, or nearly so.

The Rise of Indian and Ceylon Teas, and the Eclipse of China Teas.

THIS Chart exhibits in a striking manner the extraordinary development in the production of Indian and Ceylon Teas, and the rapid increase in their consumption in Great Britain. The area in each circle represents the quantity of tea consumed in Great Britain in the year named. The hold that these teas have taken upon the public taste in Great Britain is due to their superior intrinsic merit in parity with China growths. In Canada they are slowly and surely winning their way into popular favor, warranting the prediction, that it is only a question of time when they will as fully supersede China-grown teas in Canada as they have done in the United Kingdom. These are the teas that this house offers to shoppers—the best blends of Indian-Ceylon Teas. They are done up in neat packages, a method of placing teas that is becoming growingly popular with house-keepers. Besides the convenience, teas packed in this manner keep better, the character and flavor being always maintained. Not the least essential feature of our entrance into the tea business, is the prices we've fixed for the several grades.

Our Book Department

IMMEDIATELY as you enter the door of the New Annex you're in the midst of our book stocks. You're at once impressed with the size of the stocks. A complete book-store. All the evidences are here of our progressive character as booksellers. The newest books; the best books—works of the great novelists, essayists, poets, historians. Everything in current literature, as issued, is found on our counters. We can but summarize from our large lists. A complete catalogue, however, of our books will be sent free on application to any one sending name and address. All books are marked at prices that are our prices without regard to publishers' notions.

The Avon 12mos.

Printed in large type upon good paper and well bound in fine cloth, with head bands and fancy linings, artistic side and back stamps, and titles stamped in gold leaf. The books in this series average 1½ inches in thickness, and it is by far the finest edition of popular 12mos. ever sold at a low price. The present list of titles numbers 200, to which additions will constantly be made. Retail price, 50 cents each. We name a few from out of the list.

Our Price, 19 Cents.
