LAW RESPECTING NEWSPAPER
Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions.
If subscribers order the discontinuance of their papers, the publisher may continue to send them till all arrearages are paid.
If subscribers neglect or refuse to take their papers from the office to which they are directed they are held responsible till they have settled their Bill, and ordered their papers to be discontinued.
If subscribers remove to other places without informing the publisher, and the paper is sent to the former direction, they are held responsible.

European Intelligence.

THREE DAYS LATER FROM ENGLAND.

The steamship Europa arrived at New York on Saturday 9th inst. with Liverpool dates to 26th March.
The market for breadstuffs continued inanimate, but no change in prices.
There is no particular news of interest; almost the only item is the settlement of the dispute between Russia and Turkey. The difficulty appears to have blown over almost as suddenly as it arose.
A terrific explosion took place in a coal pit near Wigan on the 23d. From 30 to 40 persons were killed.
The weather was unpropitious for crops, and sowing was much behind the usual time. Cotton unchanged, but not quite so firm.
Madia, the Italian who was imprisoned by the Tuscan Government, is said to have become insane.
A full pardon has been granted by Radetzky to all concerned in the Milan insurrection.

FRANCE.

Beyond the alarm caused by the anticipated outbreak between Russia and Turkey, and which has now somewhat subsided, nothing of moment had occurred. French funds have again advanced.
Austria.—Haynau's funeral procession moved through Vienna on the 17th towards Gratz, where he was to be buried. Three of the Arch Dukes and other Austrian noblemen followed the body. Haynau had written a history of the Hungarian Campaign; the manuscript has been found among his papers, and will be published.
Several of the students of the University of Prague have been sentenced to be beaten with rods, for making wanton demonstrations in favour of Kossuth.

ITALY, LOMBARDY, AND PIEDMONT.

From Milan, 17th inst., it is announced that three more persons had been executed for their share in the insurrection of 6th Feb. Five others had been condemned nominally for robbery, but in reality on the same grounds. Of these five, three also had been sentenced to stand in a forest along the Ticinese frontier, and twenty persons are under arrest on suspicion of having placed the bombs.
The Parliament mentions that the refugees sent out to Genoa were nine in number. At Ferrara three persons had been executed for offences; ten others had been committed to death, but the sentences of seven had been commuted.
The Hungarian Garrison in Ancona is to be changed, as the soldiers are very much dissatisfied; so much so that it is thought the regiment will be disbanded from the Austrian service.
Sweden.—The brother of Capt. Ericson has patented for him his calorific discovery.

Sale of the late Mr. Webster's Live Stock.

The live stock of the late Hon. Daniel Webster, consisting of the cattle of the Alderney, Devonshire, Hereford, and Ayrshire breeds, sheep, horses, &c., was sold at auction by order of the executors, yesterday, at Marshfield, by Col. Thompson, of this city. Many of the best specimens were bought in for the use of the farm by James W. Paige, Esq., but yet the number sold for removal were mainly rich experimental farmers, and they paid high prices. The horses which were given to Mr. Webster by his New York admirers, in 1850, were sold for about \$400, and were purchased by Col. Thompson. The number of persons present at the sale was quite large.—(Bos. Courier, 7th.)

RAILROADS IN MAINE.

In Maine there are 1070 miles of railroad authorized, 412 of which are built. The 412 miles in operation have cost over twelve millions of dollars, and when fully completed will carry the aggregate of expenditures as high as \$30,000 per mile. Ten millions of this expenditure have been made within the last five years—or a sum equal to two millions per annum has in that time been applied to the building of railroads in Maine.

A MISTAKE.

It is quite a mistaken idea, that a woman cannot keep a secret—nobody can so well. Trust her but with half, or try to keep it from her altogether, and she is sure to betray you, because her pride prompts her to find out what you wish to conceal, and then her vanity induces her to tell what she has found out, and this in order to show her power of discovery. Trust all to her, and she will never betray you; but half a confidence is not worth having.

CHURCH MUSIC.—Rev. John Cumming, D. D., an English clergyman, in his treatise on "Music, and its relation to Religion," makes the following remarks relating to the comparative value of the church organ and the human voice. He writes as if he thoroughly understood the subject, and his ideas

seem to us replete with good sense. We commend them to the attention of our readers:—
"You have excommunicated the violin and consecrated the organ, and, like many kindred papal organizations and curses, on very unsatisfactory grounds.—But the organ, grand as it is, is nothing to the human voice. The Old Hundred, given by all the voices in this hall, is grander without than with the organ. The organ, in short, to express its true value, is a good auxiliary to bad congregational singing; but, like the use of a crutch, too long used it prevents our walking without it; or, like an ear trumpet too much had recourse to, it renders us unable to hear without it. The human voice alone is the wonderful organ. Intellect is visible on the brow,—the heart is seen looking through the eye; but the soul reveals itself in the voice. Man's soul is audible, not visible, as God gave an apocalypse of himself of old, not in the blazing fire, nor in the bursting earthquake, but in the still small voice." The sound of the voice alone betrays the flowing of the inner and inexhaustible fountains of the soul, otherwise inappreciable to man. Mercury may have made the lyre, Apollo the flute, Jubal the harp and organ; but God made the human voice, and the instrument shares in something of the perfection of the Maker. * * * Nor do I wish to encourage a mere musical exhibition before the congregation. I want the whole congregation to be one grand choir, each member taking his part; and for this purpose there ought to be four leaders instead of one. I want not an organ to listen to, nor a choir for it to applaud, but one or other, just to sustain, lead, and regulate the congregation."

Arrest and Delivery to Canadian Authorities.

We learn from the "Times," that the Sheriff of Kent county in Canada, together with officer Sprague, yesterday arrested a man accused of having stolen \$2000 from a colored woman in Chatham. On searching him they found \$1,800 of the money secreted about his person. He was taken across the river and delivered to Her Majesty's officers, to be sent to Chatham. We are informed that this man formerly owned the woman whom he had robbed, and had sold her on two occasions while living in the South; that she, finally obtained her freedom and removed to Illinois, where she purchased a small farm and where he, having become poor in circumstances, came and lived with her as her husband, that to get rid of him, she sold her farm at a large advance on its cost and removed to Chatham, where he again overtook her, and after living with her for a short time she was taken ill, when he robbed her of her money, found on him when arrested here.

THE SIN AND FOLLY OF SCOLDING.

"Fret not thyself in any wise to do evil."—Psalm xxxiv. 2.
1. It is evil, and only evil, and that continually. David understood human nature and says, "Fret not thyself in any wise to do evil." That is, if you cannot speak without scolding keep silence.
2. IT DESTROYS AFFECTION.—No one ever did endure or ever will love an habitual fretter, fault-finder, or scolder. Husbands, wives, children, relatives, or domestics, have no affection for the peevish, fretful, fault-finders. Few tears are shed over the graves of such. Persons of high moral principle may tolerate them—may bear with them.—But they cannot love them more than the sting of nettles, or the noise of mosquitoes. Many a man has been driven to the tavern, and to dissipation, by a peevish, fretful wife. Many a wife has been made miserable by a peevish fretful husband.
3. IT IS THE BANE OF DOMESTIC HAPPINESS.—A fretful, peevish, complaining, fault-finding person in a family, is like the continual chafing of an inflamed sore. Woe to the man, woman, or child, who is exposed to the influence of such a temper in another. Five-tenths of all domestic trials and unhappiness spring from this source.—Mrs. D. is of this temperament. She wonders her husband is not more fond of her company.—That her children give her so much trouble. That domestics do not like to work for her. That she cannot secure the good will of young people. The truth is, she is fretful and peevish. Children fear her, and do not love her. She never yet gained the affections of a young person, nor never will till she leaves off fretting.
4.—IT DEFEATS THE END OF FAMILY GOVERNMENT.—Good family government is the blending authority with affection so as to secure respect and love; indeed, this is the great secret of managing young people.—Now your fretters inspire fear, but they al-

ways make two faults where they correct one. Scolding at a child, fretting at a child, sneering at a child, taunting at a child, treating a child as though it had no feelings, inspires dread and dislike, and fosters those very dispositions from which many of the faults of childhood proceed.—Mr. G. and Mrs. F. are of this class. Their children are made to mind; but how? Mrs. F. frets and scolds her children. She is severe enough upon their faults. She seems to watch them in order to find fault.—She sneers at them—treats them as though they had no feelings. She seldom gives them a command without a threat, and a long, running, fault finding commentary. When she chides, it is not done in a dignified manner. She raises her voice, puts on a cross look, threatens, strikes them, pinches their ears, slaps their hands, &c.—The children cry, pout, sulk, and poor Mrs. F. has to do her work over pretty often. Then she will find fault with her husband, because he does not fall in with her ways, or chime with her as a chorus.

FROM CALIFORNIA PAPERS TO MARCH 16.

LOSS OF THE STEAMSHIP TENNESSEE.—The Tennessee left Panama on the 19th Jan., at 6:30 P. M. The Cortes sailed three hours previous. Arrived in Acapulco February 6th, at 7:30 A. M. The Cortes and Pacific in port. Sailed at 12:30 M. Pacific three hours previous, and Cortes one hour after.—February 27 to March 3, Cortes in sight.—March 5, passed the Pacific thirty miles southeast of San Miguel. The Tennessee was at the Heads at 1 P. M., on the morning of the 6th, and went ashore four and a half miles northward of the North Head, at 9:30.
The moment the danger was discovered, orders were given to back the ship, and though running slowly at the time, it was too late.—As soon as it was found that she would not back from the shoal water, headway was again given, to try, if possible, to clear it, but all to no purpose, the sea having almost entire control of her; a second and third attempt was made to back her.
During this critical time, the captain's presence of mind never forsook him.
The ship struck several times, and so heavily the first time that dishes were thrown from the table and broken. She rolled heavily for a short time. Almost as soon as she had struck, the first officer threw himself into the sea with a line, and swam for the shore; after reaching it he returned, in a nearly exhausted condition, to render that assistance which his position demanded.
Shortly after she had stopped, she swung broadside on, with her stern nearest the shore, which was high and dry at low water. The confusion and excitement when she first struck was great, but order was promptly restored.
As soon as the passengers were landed, sails, &c. for tents, were brought from the ship and the passengers, with the exception of about one hundred, who had left for Saucelino, among whom were four ladies, were making preparations to adopt, for a short time, a camp life on the shore. Provisions, beds and bedding, were also furnished in abundance.
After the mails, &c. had been landed, the passengers held a meeting on shore, at which resolutions, expressive of their high esteem for the captain, their regret at the occurrence, which, in their opinion, was purely accidental, and attributable to no negligence of his, were adopted.
The last accounts from the ship were, that she was going to pieces fast on account of the heavy surf.
The Tennessee had on board six hundred passengers, one hundred of whom were ladies and children—all saved.
FROM THE MINES.—Rush Creek.—The Marysville Express publishes a few facts concerning mining operations at this place, gleaned from a private letter:
"There are from fifty to seventy five men at work on this creek, and they are all doing a fine business, making from \$10 to \$20 per day each. They are a little cramped for provisions, but as the roads are becoming passable again, there is no danger of starvation. There is any quantity of country up there that will pay from \$6 to \$10 per day to the man, and I am under the impression there will be a crowd up here in the spring. On Rich, Indian and Smith's Bars, there is a good business done by those who are working; there are, however, but few people on the river. Several trains have succeeded in getting as far as Meadow Valley, and flour is worth 50¢ now, instead of \$1 50, as heretofore."
New and Rich Diggings.—New diggings have been discovered in a ravine near the lower end of the bar at Hess Crossing, on the Middle Yuba, and about five miles above where the middle flows into the main Yuba. The gold found in these diggings is in lumps varying from a few grains to half an ounce, and is free from quartz. The ravine promises to yield abundantly.
Curtisville Diggings.—Big Strikes.—The accounts from all the mining regions of the State, of the finding of huge lumps of gold, appear almost fabulous. The greatest excitement which has yet been noticed seems to have been evoked at Curtisville, in some new diggings, where three Mexicans, in three days, took out thirty thousand dollars. Lumps "as big as bricks" are thrown out of these diggings almost every hour. It will be long, we think, before we shall chronicle an instance of good luck equal to the above.

TREMENDOUS CONFLAGRATION.—WEAVERVILLE BURNED.

The Santa Courier, of Tuesday March 5, gives the following account of the entire destruction of the town of Weaver-ville:—
"The fire broke out, about two o'clock yesterday afternoon, in the American House, and spread up and down the same side of the street with the rapidity of thought. From the Magnolia Saloon, it crossed over to the building immediately opposite, and then swept both sides of that entire street as far up as the Spanish Curra, a house of ill-fame. In the opposite to this from the American House, and upon the same side of the street only, it consumed every building to the Diana Saloon. Thus in a few hours, has another of the most flourishing towns been almost consumed by fire.
We append a list of the losses hurriedly furnished us by Mr. Rowe. They may be somewhat incorrect in detail, but we are assured that in the aggregate the amounts will be found to be under, rather than over, the actual loss:
Property destroyed.—The American Hotel, owned by Mr. P. M. Eder & Bros., loss \$16,000; Building owned by Mr. Graham, \$5,000; Post Office building, by Mr. Davidson, \$3,000; Mr. Clifton's store and dwelling house, \$9,000; Mr. McKenzie's dwelling house, \$1,500; L. Delap & Co's store, \$2,500; Spanish dwelling and barber shop, \$1,000; a store house and goods, \$1,500; a new bowling saloon, \$2,500; Magnolia saloon, and 10,000 Clothing store adjoining, \$1,000. Howe's large building, known as the Head Quarters, \$300; Carpenter's shop, \$1,000; Dugle's meat market, \$1,500; Union Hotel, by Lehman & Co., \$800; gunsmith shop, \$200; Mr. Van Meter's dwelling house, \$300; two carpenter shops, \$500; Wm. Wove's blacksmith shop, \$200; a two story dwelling-house, with blacksmith shop in the rear, \$500; Gallard & Isaac's clothing store, in wing of the American Hotel, \$4,000.
All the papers, &c., in the Post Office were consumed. The Postmaster barely having time to make his escape."

CALENDAR FOR APRIL.

April, says the author of the "Mirror of the Months," is spring—the only spring month we possess—the most juvenile of the months, and the most festive—the sweetest month of all the year; partly because it ushers in May, and partly for its own sake, so far as anything else. It is worth two May's, because it tells tales of May in every sign; that it breathes, and every tear that it lets fall. It is the harbinger, the herald, the promise, the prophecy, the foretaste of all the beauties that are to follow it—of all the delights of summer, and all the "pride, pomp, and circumstance of glorious autumn." It is fraught with beauties that no other month can bring before us and
"It bears a glass which shows us many more."
Ah, April! April! this might have been thy character once, or in other climes, but we should scarcely recognize the portrait here. True, it has its flush of new green on the meadow, its crocuses, hyacinths, daffodils, and other gems of beauty; its gives us the first voice of the gentle birds, and a thousand awakenings of new life about us, but, all, has it not its fierce winds, chilling frosts, snows and pelting storms from the eastern sky?
Treachery April. Did it not send its heralds last year, the robin and the blue-bird, and sweet gales from the south, and ere their voice and fragrance had died away, the fierce North returned her way and poured her stores of icy winds and chilling snows into her lap. Where were the birds and the southern airs on the 7th of April, one revolution of the earth ago, when the roads were blocked with drifts, and the stone wall were out of sight?
But then we are thankful for April, fickle as it is, and couldn't well do without it, as it affords opportunity to make so many preparations for the busy season.

PLANS.—All the general plans of the farmers must be laid out now, if it has been neglected until this time. Do not enter the field by-and-by and wonder what crop you shall apply to this part or that, and hesitate whether you shall break up an acre or two on the hill or take another piece on the meadow. No, no, this is perplexing when the

day is waning and men and team are waiting.

So of the garden; take the plan in your hands when you carry out your seeds. Here is the spot for the beds, their length and width all laid down; the new pear trees are to occupy that vacant and sheltered spot in the south corner, the raspberries and strawberries, the tomatoes, cucumbers and melons, the beans, peas and cabbages the early potatoes, corn, radishes and lettuce, all have their particular place assigned, and the mind is not distracted with the feeling that all must be done promptly, and yet it has not decided how to direct the operations.
Make as much garden as you can, —it is the most profitable part of the farm. There is often more profit on a quarter of acre in garden than from 2 or 3 acres of the farm. Get in early peas and potatoes. On the sunny side of a wall, spring up to briars and young bushes, clear up and put in seed for early potatoes; it is just such a spot as they like; the new earth so light and warm. You may have them by the 4th of July in perfection.

PRUNING.—The Messrs. ALLEN, in the American Agriculturist for 1842, page 65, say that pruning should be done "after that period when the excessive flow of thin and watery sap has subsided, and the leaves have fully matured, which happens in this latitude from 20th of June to the 15th of July." It is worth while to try this mode and see how it works. At any rate cut off no limbs in April.

Plowing.—Plow not while the soil is wet and mixes with mortar. It will take in lumps and remain so through the summer unless by dint of hard knocks they are broken up. Even though the season be late, it is doubtful whether any thing is gained by plowing before the ground is sufficiently dry to have it drop partially to pieces on its being turned over.

But plow deep—take hold a little lower than you did last year; an inch of yellow subsoil will soon become more than inch of black upper soil. Remember the proverb about having "corn to sell and keep."

The Acadian Recorder concludes a review of the past session of the Legislature of Nova Scotia in the following philosophical strain: "The observations of our contemporary contain more truth than fiction:—
"Nothing is more illusory than those prospects of great advantage to a people by discovery, or by legislation. Industry, sobriety, and perseverance, are the surest aids to honorable independence. Public places of trust, office and honor, may have attractions, and doubtless they have—may more, they are commendable incentives to laudable ambition—but, after all, it seems to us that the first and highest qualification for office, is the ability to live without it. Success in public life is but too much like success in private life. Each new acquisition increases the desire for further possessions, and after the giddy height becomes too much for poor human nature, the successful aspirant in a moment of triumph, reels and topples, and tumbles from the place it had cost him long, long years of toil to obtain.
One favorable season, a succession of good crops, will do more for the good of the Province than half a dozen of your successful Legislative Sessions. One lucky Mackarel season will bring more joy and gladness along our shores than a book full of Railroad Incorporations. A mild winter, an early spring, and a bountiful harvest, will add more to the public wealth than ten of your best Law Procedure Bills.

A Soldier Drummed out of the Service.

From the British Whig 31st March.
Yesterday morning, a Private named Charles Martin, belonging to the Rifle Brigade, was drummed out of the Service in the customary disgraceful (to him) manner, in the Tete de Pont Barracks. It would appear that this man, while confined in Jail for some civil offence last summer, applied to the Sheriff for permission to hang the Indian, Henry, his fellow prisoner, convicted of Murder, and as men of his stamp are rare to be met with, his services were accepted, and the disagreeable duty was done and paid for. This matter came to the ear of the Colonel of the Rifle Brigade, and as the man was still a prisoner when the Battalion left for Quebec, there was no disposition manifested to allow him to rejoin his regiment. Consequently he has remained in Kingston, confined to Barracks, ever since. Meanwhile application was made to the Horse Guards, and instructions were received to drum the fellow out, which as Col. Prince would say, was done accordingly. Owing to the kindness of Colonel Young, who was present at the drumming, the fellow was allowed to escape out of the Back Gate of the Barracks, but had some out of the Front Gate, the crowd, waiting for his advent, many of them armed with sticks and stones, would not have allowed him to escape with his life.

European Intelligence.

ARRIVAL OF THE AMERICA.

The steamship America arrived at Halifax on Wednesday evening, with Liverpool dates to the 21 inst., and 98 through passengers.

A prevailing subject of interest in England is revision of the Income Tax, and it is known that the Ministry cannot agree in their views respecting it.

A dinner and testimonial have been given to Sir George Grey at Alnwick, for his free trade exertions.

A slight shock of an earthquake was felt at Brecon, Wales, on the night of the 27th ult.

Another election riot has occurred at Blackburn.

The colliers at Glasgow have struck successfully for higher wages. Also the Liverpool Railway clerks; and the operations of the movement have extended to Manchester and most parts of the Country.

At Southampton and elsewhere the merchants are entering into agreements with their clerks to remain with them for a certain number of years.

All classes of employees are receiving increased remuneration.

Sixty-four ships were up at Liverpool for Australia.

From Ireland the emigration sets chiefly to America.

A peace address from the London merchants has been presented to Louis Napoleon, which does not cause them to stand high in the public favour.

Men of the John Bull stamp say they were but mean Englishmen who would kneel with a petition for peace at the feet of Louis Bonaparte.

The Canadian Company had held their annual meeting. Their affairs are flourishing, and as her engine is on the rotary principle, it likewise occupies very little space.

The inventor, Mr. David Napier, says, "The advantages these engines have over others are, that they are more compact, consume about one-fourth less fuel, and require no engineer; the steamman, by a peculiar valve, moves the vessel ahead or astern, without communicating with any one. The furnace bars contain water, consequently the common furnace bar, in this case tends to the production of steam. There is also a simple application of the fan to assist combustion."

LEMUEL DODD, in the sperm oil and iron trade, has resumed payment.

Arrangements are completed by the anti-slavery committee to give Mrs. Stone a public reception in Glasgow City Hall.

The steamship Great Britain, from Australia, arrived at Liverpool on the 2nd.

FRANCE.—The coronation has been postponed until August. The budget of the next year is much reduced by the Council of State. The proposed expenditure is within the income, with military and naval estimates placed so low as would indicate peace.

On the 25th, a deputation presented to the Emperor the address of the London Merchants expressing friendly feelings to France. The Emperor replied that he had faith in the good sense of the English people. That at one time last year, he feared English opinion was misled respecting France. That he constantly laboured to develop the prosperity of France, and therefore, he said, like you, to draw closer the bonds which unite the two countries. The next day the Emperor received a deputation of the English Atlantic and Pacific Junction Company. Sir Charles Fox, President of the Company, explained the plans to the Emperor, who received them very warmly.

The Madiai are expected at Paris, where they will be met by a deputation of the London Bible Society.

Business was dull at Paris, both for manufacturers and exporters. At Bury, and in the vintage descriptions generally, inferior wines are lower, as are brandies.

RUSSIA.—A telegraph from Berlin says that a conspiracy had been discovered, and 20 persons arrested. Eighty houses had been searched, and arms and ammunition found. About 80 persons were arrested for wearing the Calabrian hat, a revolutionary symbol.

A disastrous fire had occurred at Cronstadt. All the principal timber wharves were burnt. Loss 600,000 roubles. Most of the houses in the timber trade suffer.

ARMY.—Arms continue in the south of Russia, and stores for 15,000 men are said to be collected at Odessa.

ASTRIA.—The Arch Duke Albert will take the place of Radetzky, in Italy.

GERMANY.—Matilda Hutzfeld, an American lady, apprehended recently at Hiedelberg, as an agent of the revolutionary committee, is condemned to six weeks imprisonment.

The Duke of Hesse Darmstadt, alarmed at the emigration going on, requests the neighboring potentates to arrest any of his subjects attempting to leave without his permission.

LOMBARDY.—A proclamation is published announcing an amnesty to all concerned in the recent troubles.

NAPLES.—From Genoa we have this despatch:—Rumours are rife of an insurrection in Palermo.

PERIA.—A rumour is circulated in the Paris Bourse that Persia had broken off diplomatic intercourse with England, and sought the protection of Russia; but this requires confirmation.

AFRICA.—Via Madrid, it is announced that the Emperor of Morocco is dying, and disturbances are feared at his decease.

TELEGRAPH.—Telegraphic despatches from Constantinople, dated the 21st, announce the continuation of the conferences respecting the Holy Places, but present no clue to the ultimate result beyond the fact that the menacing attitude formerly assumed by Prince Menschikoff had given place to a more moderate and conciliatory tone.

Heavy commercial failures are reported at Smyrna, which will materially affect the commerce of the Zollverein.

The vices of Cephalonia are reported to be greatly affected by an alarming disease.

The Trieste Gazette states that the old Turkish party which at present preponderates in the Divan, is decidedly favorable to Russia, and that a treaty offensive and de-

fensive, between the two countries was in course of formation.

INDIA, CHINA, AND AUSTRALIA.—A despatch from Marseilles says that the Indian mail has China dates to the 10th, Rangoon to the 4th, and Calcutta to the 19th Feb. Rangoon had been almost totally destroyed by fire.

Australia dates per Calcutta steamship are to Jan. 15th, from Port Phillip. Accounts of Gold favourable. The miners at all the diggings number 400,000. Political state of the colony unsuited; the social condition is much worse. Trade at Sydney brisk; Flour £25.

The Van Diemen's Land Assembly refuses to vote the supplies unless England will promise to immediately abolish penal transportation to the Colony.

MARKETS.—The Liverpool Cotton market has advanced 1d on all descriptions of American, except the low qualities, which are partially 1d dearer. Sales of the week, 82,620 bales. Market closed with less buoyancy.

GRAIN.—The Corn market during the week was quiet. A fair request for wheat at previous prices, with partial sales at 1d lower. Flour offered more freely at a decline of 6d to 9d. Indian Corn in fair request, chiefly for Ireland. Yellow being scarce sold at full price. The imports of breadstuffs were very small during the week.

It is said that the Baptist Missionary Society have determined to send ten additional missionaries to India, and that Mr. Feto, M.P., has engaged to give £1,000 a year for ten years and Mr. Gurney £500 a year for ten years in support of this object.

NEW DESCRIPTION OF STEAMERS.—A new description of steamer has commenced to ply on the Clyde, between Glasgow and Dumbarton. The peculiarity of her construction lies in her compactness, her paddles being much lower than her bulwarks; and, as her engine is on the rotary principle, it likewise occupies very little space.

The inventor, Mr. David Napier, says, "The advantages these engines have over others are, that they are more compact, consume about one-fourth less fuel, and require no engineer; the steamman, by a peculiar valve, moves the vessel ahead or astern, without communicating with any one. The furnace bars contain water, consequently the common furnace bar, in this case tends to the production of steam. There is also a simple application of the fan to assist combustion."

At the burning of the British ship Governor Higginson, involving a loss of upwards of £36,000, took place on the night of the 27th of January last, in the Madras Roads, under circumstances which have led to a supposition that it was the act of part of the crew who were not Europeans, and who, it is said, displayed some ill-feeling after being shipped on board.

The vessel belonged to Messrs. Blyth & Co., of London, and was 664 tons burthen. On Saturday intelligence was received at Liverpool, that at 10 o'clock that morning, a large Dutch vessel, called the Febro, had gone down to the Goodwin Sands. Immediately on the vessel striking, signal guns were fired and it being ascertained that she had 300 emigrants on board, the Deal boatmen and others put off in their luggers to render assistance and save the passengers. On nearing the vessel it was found that the sea was making a clear breach over her; and a line being got out, the women and children were dragged on board the luggers, and subsequently the men. Some of the latter, however, in their eagerness to escape, fell overboard, and were carried away by the sea, six unfortunately perishing. The remainder, however, were safely landed at Deal, where they received the most hospitable attention. Fortunately the weather moderated, and permitted the Deal boatmen to lighten the vessel by casting a considerable portion of her cargo overboard, and thus preventing her sinking into the sands; and it is hoped she will be got off with the flood. Unfortunately however, in order to save the ship, the private effects of the poor emigrants have been nearly all sacrificed.

DEPARTURES FOR AUSTRALIA.—The departures from the port of London for the Australian colonies, during the past week, have again been numerous, but among them were several small vessels. They consisted of three to Port Phillip, with an aggregate burden of 2899 tons; two to Adelaide, with an aggregate burden of 904 tons; one to King George's Sound, Western Australia, of 700 tons; one to Sydney, of 472 tons; and one to Hobart Town, of 221 tons. Their total capacity was consequently 5196 tons. Large shipments are still made of manufactured goods and general merchandise, but rates of freight show a further tendency to decline.

THE MARRIAGE BILL.—Dr. Rolph's Marriage Bill is exciting much anxiety amongst the sober minded and thoughtful portion of the people of Upper Canada. It is an Infidel, Socialistic affair, sought to be smuggled through Parliament; not only without being called for by the people, but without public discussion or the public knowledge. Let this vile measure be once adopted—let the sanctity of religion be expunged from the marriage rite—let the formality be nothing more—(as the Bill provides)—than a contract for the purchase of a cow, or the consummation of a partnership for mere commercial purposes; and what will be the result? Will not every year fill our Legislatures with Helles, and our law courts, with applications for divorce; and will not our whole country be plunged into a state of the most deplorable confusion and socialism? We call earnestly upon the members of the Legislature to pause ere they lend their sanction to the "delusion and snare" which the

"hoary-headed" Doctor has laid to entrap them. The title of the bill is a misnomer. It should have been named, "An Act to degrade Religion and to encourage Lust; by authorising every Warden, Mayor, Alderman and Justice of the Peace in Upper Canada, to secretly establish a GRETNA GREEN in his own house." (Toronto Patriot.)

THE HOUSE OF ASSEMBLY.—The House was again occupied with the Election Bill. Mr. Cutler moved an amendment to the first section to the effect that all Public officers enjoying emoluments be disqualified from holding seats in the House of Assembly. The amendment was defeated 24 to 9.

Mr. Johnson moved an amendment to the effect that all Deputy Treasurers, Excise Officers, and all engaged in collecting the revenue, Clerks of the Peace, Registrars, Supervisors of Roads, Commissioners of Public Works, all Government Commissioners and Contractors be excluded from being members of the Assembly. Negatively by a vote of 24 to 11.

Mr. Cutler then moved a resolution to the same effect as his first amendment, making some exceptions.

Questions of order arose—much recrimination and excitement followed—the motion was denounced as factious by those who supported his amendment and the amendment of Mr. Johnson—and three hours were thus foolishly wasted.

The vote was at length taken, and the amendment was negatived—31 to 17—seven of its friends voting against it as factious—the majority being Messrs. Cutler, Johnson, Barberie, and Botsford.

The first chapter then passed, and progress was reported.

April 15.—The Election Bill all day under consideration. Needham proposed an additional member for every County and for City of Fredericton, lost. Taylor moved a member for Kings and York, Wilnot Goddard and one or two others voted in favour. Section then passed without amendment. Smith proposed amendment for Biennial parliaments, few supported, lost. Needham proposed universal suffrage, lost, year—Needham, Cutler, and Thomson. Harding proposed franchise be extended to persons on £25 real property or 250 pound personal, a long discussion followed—only Harding, Needham, Johnson, Smith, Botsford, Hatheway, English and McPherson supported.

Parrielow declared he wished it known that he is in favour of Ballot and franchise extended to persons assessed on real estate, but opposed to extension without the Ballot and would prefer the existing law; he wished the question of Ballot tried. Botsford proposed the Ballot, a fresh discussion. Gray proposed the necessity of registration, &c. Thompson argued that the Ballot would necessarily lead to universal suffrage.

For the Ballot—Speaker, Parrielow, Botsford, Smith, Barberie, Williston, Rice, Ryan, Purdy, English, McPherson, Gilbert, Needham, Cutler, Hatheway, Harding, McLeod, Johnson, 18.

Against—Street, Wilnot, Gray, Thompson, Montgomery, Porter, Read, Lewis, Robinson, Jordan, Boyd, Hayward—17. Scullar in the Chair.

Gray then moved an amendment rendering registration necessary. Sustained by a large majority.

Taylor then proposed the Bill be postponed. Barberie consented. Wilnot said he would oppose the Bill while Ballot is in it. Progress reported.

Parrielow brought in a Bill to amend the Currency Bill.

Committee of accounts reported on the accounts of the Penitentiary and Lunatic Asylum.

The Agricultural Committee reported. Several entries in Supply Book.

**JUDSON'S
CHEMICAL EXTRACT OF**

CHERRY AND LUNGWORT,
FOR THE CURE OF
Coughs, Colds, Hoarseness, Spitting
of Blood, Night Sweats, Asthma,
Liver Complaints, and
CONSUMPTION.
DO NOT NEGLECT IT.

CONSUMPTION
Can be and has been cured in thousands
of cases by this only certain remedy.

THE MOST STRONGLY MARKED AND DEVELOPED
cases of Pulmonary Consumption
where the lungs have become diseased and
decayed and the case so utterly hopeless,
as to have been pronounced by Physicians
and friends, to be past all possibility of re-
covery, and at times thought to be dy-
ing, has been cured by this wonderful remedy,
and are now as well and hearty as ever—
It is a compound of medicaments which are
peculiarly adapted to and essentially neces-
sary for the cure of

COUGHS AND CONSUMPTION.
Its operation is mild, yet efficacious; it
loosens the phlegm which creates so much
difficulty, retrieves the cough and assist-
nature to expel from the system all diseased
matter by excretion, producing a most de-
lightful change in the breathing and chest,
and this, aided the precursors of the
best medical men and the inventions of
kind sorrowing friends and Nurses, have
failed to give the smallest relief to the
Consumptive sufferer.

THOUSANDS OF CONSUMPTIVE
persons have been deceived in buying
medicines which were said to be infallible
cures, but which have proved only pallia-
tives, but this medicine is not only a pallia-
tive but a cure for ulcerated lungs. It con-
tains no deleterious Drugs and one trial will
prove its astonishing efficacy better than
any assertions or certificates in curing con-
sumption and all diseases of the Lungs,
such as Spitting of Blood, Coughs, pains
in the side and chest, night sweats, &c. &c.

About 1000 certificates of almost miracu-
lous cures, performed by this medicine,
from some of the first Doctors, Clergymen
and Merchants, have been sent us for this
medicine, but the publication of the books
too much like Quackery, will show them
to any person calling at our office. This
medicine will speak for itself and enough
in its own favour wherever it is tried.

Caution.—This medicine is put up in a
large bottle and you must find the name of
Comstock & Brother, Proprietors, New-
York, on the splendid Wrapper around the
bottle. All orders must be addressed to
Comstock & Brother, No. 9, John St.,
New York.

**TO OWNERS OF AND DEALERS
IN HORSES.**

CARLTON'S FOUNDER OINTMENT.
For the cure of Founder, Split Hoofs,
Hoof bound Horses, and contracted and
Feverish Feet, Wounds, Bruises in the flesh,
Galled Backs, Cracked Heels, Scratches,
Cuts, Kicks, &c., on Horses.

CARLTON'S RING-BONE CURE.

For the cure of Ring Bone, Blood Spavin,
Bone Spavin, Windgalls, and Splint—a
certain remedy.

**CARLTON'S CONDITION POWDERS
FOR HORSES AND CATTLE.**

The changes of weather and season, with
the change of food and feed, have a very
great effect upon the blood and sinuous
fluids of horses. It is at those changes, they
require an assistant to nature to throw off
any disorder of the fluids of the body that
may have been imbibed, and which, if not
attended to, will result in the Yellow Wa-
ter, Heaves, Worms, Boils, &c. All of
which will be prevented by giving one of
these powders, and will at any time cure it
when any symptoms of disease appear in-
used in time. They purify the blood, re-
move all inflammation and fever, loosen the
skin, cleanse the water, and invigorate the
whole body, enabling them to do more work
with the same feed. The action of these
powders is direct upon all the secretory
glands, and therefore have the same effect
upon the Horse, the Ox, the Ass, and all
Herbivorous animals—all diseases arising
from or produced by a bad state of the Blood,
are speedily cured by use.

NEW BRUNSWICK.

HOUSE OF ASSEMBLY.

The following were adopted as Standing
Rules in the Session of 1851—
37th.—That no Bill of a private nature,
or petition for money or relief, shall be re-
ceived by the House after the long sabbath-
day from the opening of the Session, both
inclusive; and that the Clerk of this House
do, one month previous to the meeting of
the Legislature, cause fifty printed copies
of this Rule to be sent to each of the
Clerks of the Peace in the several Counties
for distribution, and cause the same to be
inserted in the Royal Gazette, and two
Newspapers in such County where News-
papers are published.

38th.—That this House will sustain no
application for allowances to Teachers of
Common or Parish Schools, unless it shall
be certified by at least two Trustees of
Schools for the Parish where such School
has been taught, showing the time actually
taught—the Teacher to be licensed—the
cause why such Teacher was not certified
to be Sessions in the ordinary way—and
that such Teacher was not compelled to
discontinue his or her School on account
of any improvidence.
