The Standard.

ST. ANDREWS, DEC. 12, 1860.

THE PRESIDENT'S MESSAGE is a recent column in length; a few extracts from it are given in another column.—The President commences with congratulations on the prosperity of the United States, in all its interests. The next topic he advertises to is, the all-engrossing one of the Secession movement; and attributes all the discontent which at present prevails, to the long and continued interference of the Northern people with the question of Slavery in the Southern States, which has at length produced its natural effects. He argues the question at great length, and is of opinion, that disunion will be inevitable, if the apprehension of domestic danger, extend until it pervades the Southern people. "It has been decided that the Constitution has never delegated the power to Congress to coerce any State into submission, which is attempting to withdraw or has withdrawn from the Union." The President alludes to the Prince of Wales' visit as a most auspicious event, calculated to increase kindly feelings between both countries. Referring to foreign relations, he says:—"With Great Britain our relations are of the most friendly character."

WAY OFFICE AT THE ROLLING DAM. The inhabitants of the thriving village at the Rolling Dam, Dumfriesshire, complain loudly of the serious inconvenience they are subjected, owing to the present location of the Way Office in that district, which is situated at the extreme end of the Parish. They allege that the principal trade and business from St. Stephen, St. Andrews, and the surrounding country, centres at the Rolling Dam, that the settlement is increasing, and that in several instances the people in that vicinity have suffered considerable loss from not receiving their letters and papers in proper time. We are informed that by a slight detour in the mail route, the inconvenience might be remedied, without either entailing extra expense or loss of time to the public service. An application to the Hon. Mr. Brown to lay the matter before the Postmaster General, and urge the necessity of the change, would no doubt meet with that consideration which it merits.

THE UNIVERSITY OF NEW BRUNSWICK is claiming particular attention from some of our contemporaries. The "Colonial Presbyterian," under the head of "Where should Candidates for the Ministry of the Churches in New Brunswick receive their Collegiate education," has a very able article on the advantages to be derived from a thorough Collegiate education—such as can be obtained at our University, with its accomplished staff of Professors; or, to use the words of the Col. Presbyterian, "It is to our University, now imparting an education superior, we believe, to any to be had elsewhere in the Lower Provinces, that every denomination in the Province, Protestant and Catholic, should apply in order to obtain a thorough under-graduate education for its students."

The "Reporter" also, has a leader in its last issue on the University, in which it claims are set forth, and shows the impolicy of any religious denomination in the Province attempting to transmute the most efficient Academy into a College to compete successfully with the University. The answer is plain: "The living material for such cannot be found in the country, nor can the pecuniary but necessary means be furnished by any single denomination." The Sackville Academy, proposed Presbyterian College at Woodstock, and Baptist Seminary, must be content to serve as feeders to the University, with its distinguished Professors, energetic President, extensive library, valuable philosophical apparatus, laboratory and cabinet of minerals, popular system of government, and liberal charter. There are indications that denominational grants to schools will not be extended, but rather curtailed; and as the grant to the University is divided with the Collegiate school, an extravagant to the College would extend its usefulness. The Journal observes, that "the President is the soul of the Corporation, and to him alone is mainly owing anything that has been done," he should be furnished with ample means to carry out improvements.

We have received by Mail a copy of Mr. Avery's ALMANACK for 1861. In addition to the calendar, the calculations of which are carefully and correctly made up, it contains a large amount of reading matter of a useful description to all classes. Every house and office should have one of these Almanacks. They are for sale at the stores in town.

Loss of the ALMA.—From the following report, copied from an American paper, we fear that the schr. Alma, Hays, master, of this port, was lost at sea during the gale of the 21st inst. The vessel was owned by Wm. Whitlock, Esq., and we regret to learn was not insured:—

The schr. Alma, from Kingston, Jamaica, for New York, was taken in with 2nd inst. (Havengate bearing W. 15 miles,) with loss of main boom, head of foremast and both topmasts, sails blown away, and leaking badly—by brig E. S. Ward, which took off all hands, six in number, and brought them to New York. Same night a vessel, supposed to be the Alma, was seen on fire.

CUSTOM HOUSE RETURNS.—We feel obliged to the Controller of Customs at St. John, for a pamphlet copy of the Customs Returns. It contains a large amount of statistical information with reference to the trade of the Province, and gives in detail the returns at the different Ports, the number of vessels registered, emigrants arrived, Import and Export duties, value of Imports and Exports, and other reliable information, made up in a concise form.

THE INSTRUCTOR, for December, is received and contains many useful articles.—As an educational journal it should be extensively circulated—only 75 cents per annum; to clubs, 50 cents.

COLONIAL EMPIRE.—Mr. Thomas McHenry has issued a Prospectus of a new Paper to be published at St. John, with the above title. It is to be issued three times a week—semi-weekly and weekly. Mr. McHenry has purchased the Temperance Telegraph Office.

THE NORTH BRITISH REVIEW for November has been received the contents are:—Modern Thought its Progress and Generalization. The Disturbances in Syria. Leigh Hunt. The Spanish Republics of South America. Province of Logic and recent British Logicians. Lord Macaulay's place in English Literature. American Humour. Revivals. The Martyrdom of Galileo. The Sicilian Game.

The news by the steamer Asia which arrived at New York, on Saturday last, is uninteresting.

Lines on the death of Melville Bennett, are full of errors and the veriest doggerel; rejected.

EMIGRATION TO NEW BRUNSWICK.—It is scarcely necessary to repeat that it is now universally conceded that New Brunswick as a field for emigration, stands unexcelled. Viewing the climate as extremely healthy and conducive to long life regarding the soil as rich and superior in quality considering the cheapness of land, the few facilities, and the abundance of our resources and the overflow of our natural facilities we cannot but ask the intending settler to cast a wishful and longing eye at our noble country, and freely invite him to our shores. Not only should our extensive fisheries, our mines, our wild lands, and our agricultural growth present unfailing sources of inducement, but the general prosperity and happiness which can everywhere be discovered, the apparent change which has taken place in the circumstances of hundreds who came to the province years ago possessed of little or nothing, and who now occupy creditable and respectable positions, together with the various means of improvement and education which have been so bountifully provided, should dispel every doubt and remove every fear existing in the minds of individuals in the mother country who are seriously disposed to emigrate. The correspondents of the English press give the preference to New Brunswick of all colonies, and if favorable impressions can be produced from the opinion freely uttered by them, their visit across the Atlantic will be accompanied by much lasting good. The formation of the N. B. and N. S. Association, will materially aid us in capital, and give us many facilities for the more extensive development of our manifold resources.—[Exchange]

The City Council of Manchester, England, have memorialized the Home Secretary on the subject of Capital Punishment. The following is their memorial:—"Your memorialists are deeply and painfully impressed with the recent prevalence of the crime of murder. That in the opinion of your memorialists it is of great importance that an inquiry, either of a parliamentary committee or otherwise, into the operation of the present law of punishment for such crime should be instituted. Your memorialists therefore, respectfully but earnestly pray that you will be pleased to take such steps as shall secure an early and careful enquiry into the operation of capital punishments, with a view of ascertaining whether other punishments would not prove equally, if not effectual in the repression of the crime of murder. And your memorialists will ever pray, &c."

FORGOTTEN REMOVED.—About 1400 passengers were taken on board the boatman of

of the night ferry while proceeding to Carleton side, heard cries of distress, and on searching round the wharves, found a man in the water at the end of the wharf in the rear of Adams' Mill. He stated that he belonged to Parrsboro, N. S. He is said to have been some time in the water and when picked up was much exhausted. His only hold of the wharf was by his nails. He appeared to be under the effects of liquor.—[Nalder.]

Arrival of the Canadian.

PORTLAND, Dec. 5th 1860. The steamship Canadian from London, 23d ult., has arrived.

The Prince of Wales has resumed his studies at Oxford. The Empress Eugenie had arrived in Scotland and was sojourning at Edinburgh. The Brazilian war Corvette, "Donna Isabel," had been wrecked on the coast of Barbary.—123 lives lost.

Reactionary movements were at work in the Neapolitan Provinces. The navigation was closed between "Ronsard and St. Petersburg."

The Empress of Austria had arrived at Plymouth on Friday morning, on her way to Madeira. Consols 93½. Breadstuffs and Cotton unchanged.

Extracts from the President's Message.

Peril arises from incessant agitation north for a quarter of a century, inspiring slaves with notions of freedom and exciting fears of servile insurrection. Let us take warning and remove the cause.

It is only necessary to leave the South alone. Election of any man to Presidency is no cause for disunion. To justify revolution Government must be guilty of deliberate unconstitutional acts. New President must be conservative.

Is a remarkable fact that no law ever passed by the recent foreign allies that two elaborate articles have appeared in the Constitution and the Opinion Nationale, upon the Emperor's policy. The first is evidently by authority, and intimates a disapproval of the present attitude of Austria, invading Italy, while it insists upon the right and duty of France not to interfere against the Italian revolutionists or Victor Emmanuel.

The inference is that the Emperor will abstain from aiding either party. The Opinion loudly calls upon the Emperor openly to recognize Victor Emmanuel as King of Italy, and to say to the Pope that any further protection of the temporal power of the papist is out of the question; while he declares to Austria that her first offensive movement beyond the Mincio and Po will be considered by France as a declaration of war.—[Albion.] This energetic advice of the Opinion is strictly in its way, as an ultra Republican paper, it is not impossible that the Emperor may be at the bottom of both articles, so as to be able to provide plausible motives for his conduct in advance.

ATTEMPT TO ASSASSINATE GARIBALDI.—Another attempt has been made to assassinate Garibaldi. A Neapolitan officer on his staff fired a pistol at him in his room. The shot was rendered innocent by an officer present knocking up the assassin's arm while in the act of firing, and the ball lodged in the roof. Garibaldi, without moving from his seat, ordered the assassin to be deprived of his sword, and then told him to begone. The villain is said to have confessed that he had been two months seeking an opportunity to take Garibaldi's life. As similar attempt had been made on the life of General Cavour.

Later from California. **FORT KEARNY, Dec. 23.**—The Port Express from San Francisco Nov. 11th, has arrived.

The market is quiet. The ship Tropic sailed for New York on the 21st, with a cargo valued at \$125,000. The steamer Golden Age sailed for Panama on the 21st with 320 passengers, and \$1,216,000 in treasure, including \$1,075,000 for New York.

Financial affairs were healthy but hardly easy. The vote of the State at the late election, so far as reported, was 117,811, of which 11,000 received 38,016; Douglas 37,349; Breckinridge 33,551; Bell 81,57. The total vote cannot have exceeded 118,500, and Lincoln it was generally conceded, had carried the State by from 700 to 1000 plurality.

Returns from all the counties in Oregon give Lincoln a majority of 318 over Breckinridge. Douglas was third in the race. The late storm did much damage in the interior of California.

Mr. Sherman, editor of the Vetical Democrat, had been killed in a street fight by Mr. Morris, a lawyer. The latter was arrested and acquitted on the ground that he committed the act in self defence.

The fillusters had been driven out of Lower California. The Fremont mines had yielded \$32,000 in two weeks.

St. Joseph, Mo., Dec. 5.—The Pony Express, from San Francisco Nov. 24, has arrived.

Large numbers of Chinese had arrived in Portland, who were driven from the mines in the British possessions by the Indians.

A serious riot occurred in the Victoria Theatre on the 3d inst. The whites undertook to expel a negro from the theatre, when a party of negroes, armed with clubs, came to the rescue of the latter. A number of whites were knocked and kicked. The theatre was set on fire during the melee by the explosion of a lamp. The negroes drove out the whites, but were in turn repulsed. Some of the negroes had fire-arms; order was restored by the police after the arrest of the principal rioters; one hundred negroes were engaged in the riot.

The Milledgeville (Ga.) correspondent of the Savannah News gives the following account of an attempt to hang a Northern man at Milledgeville on the 21st.

"Last night a mob collected in the streets of this city, on the receipt of the news that a man was taking in favor of Lincoln's election. The mob got hold of a Northern man who seems had been travelling on foot through this and the adjoining counties, who had for his baggage a formative with one shirt in it, and could give no satisfactory account of himself. He was without money, and could not satisfy any one as to his occupation.—Reports were current of having announced himself glad of the election of Lincoln, and had announced himself a 'Lincoln man.' The crowd attempted to get a rope to hang him, but could not find one; they took a halibut and tied it around his neck, and proceeded to swing him up. The Mayor of this city, in company with a posse of militiamen, made a rush upon the crowd and took the man out of the hands of the mob and put him in jail for safety."

At a meeting of the Committee of the New Brunswick Auxiliary Bible Society, held last evening in the house of the President, Hon. Judge Parker, it was resolved, that the Anniversary of the Auxiliary should be held on Thursday, the 10th of January next. It is desirable, then, that all the Branch Societies should have their Reports and Lists of Subscribers sent to the Secretary during the present month, that particular notice may be taken of them in the Auxiliary Report. Reports have already been received from Milford and Northampton; and we have also learned with pleasure that the Annual Meeting of the Doncaster Branch was held some days ago. A much attention cannot be paid to the great object, the British and Foreign Bible Society has in view, the circulation of the Holy Word of God throughout the whole earth.—[Church Witness.]

NAPOLEON'S ITALIAN POLICY.—We see by the recent foreign articles that two elaborate articles have appeared in the Constitution and the Opinion Nationale, upon the Emperor's policy. The first is evidently by authority, and intimates a disapproval of the present attitude of Austria, invading Italy, while it insists upon the right and duty of France not to interfere against the Italian revolutionists or Victor Emmanuel.—[Albion.] This energetic advice of the Opinion is strictly in its way, as an ultra Republican paper, it is not impossible that the Emperor may be at the bottom of both articles, so as to be able to provide plausible motives for his conduct in advance.

ATTEMPT TO ASSASSINATE GARIBALDI.—Another attempt has been made to assassinate Garibaldi. A Neapolitan officer on his staff fired a pistol at him in his room. The shot was rendered innocent by an officer present knocking up the assassin's arm while in the act of firing, and the ball lodged in the roof. Garibaldi, without moving from his seat, ordered the assassin to be deprived of his sword, and then told him to begone. The villain is said to have confessed that he had been two months seeking an opportunity to take Garibaldi's life. As similar attempt had been made on the life of General Cavour.

From the report of the Attorney General of South Carolina, just submitted to the Legislature, we learn that the public debt, in stocks and bonds, is \$1,100,000; aggregate receipt of taxes near \$300,000; aggregate tax on lands a fraction less than five cents per acre. He advises the erection of a granite capital at Columbia, as the capital of the Southern Confederacy. A despatch from Columbia says that in consequence of a number of small pox cases, the Legislature will probably adjourn to Charleston.

W. F. Wade, of Maysville, raised the past season, from 12 quarters of wheat, 42 bush of wheat, sowed May 17th. From one and a half bushels of seed on three fourths of an acre, gathered thirty bushels of rye. Mr. Wade informs us that he and a small boy, last spring ploughed and hand plied six acres, clearing it without a team, and raised a good crop. Oats sowed about the 5th of June yielded sixty-five bushels per acre.—Pioneer.

MELANCHOLY AND FATAL OCCURRENCE.—On Monday forenoon, as Mr. and Mrs. David Pugh, of Douglas, were crossing the Nashua bridge the ice gave way; when Mr. Pugh fell in, and in attempting to help his husband, Mrs. Pugh was drawn in also. Aid was given them by those dwelling near by, but though their exertions to secure Mr. Pugh were successful, Mrs. Pugh was past all efforts of resuscitation when she was got out. Her husband, with two young children and a large circle of friends and relatives are left to deplore her untimely end.—[H. Quarters.]

Boston, Dec. 3d.—The John Brown sympathizers were out-voted at their meeting held to-day in Faneuil Temple, to celebrate the first anniversary of his death. Resolutions were adopted denouncing John Brown justifying his execution, and lauding Virginia. This conservative action led to a row

and the police, by order of the Mayor rejected all parties from the Temple and locked the door. The John Brownites re-assembled this evening, at the colored Baptist church in Joy Street, where they ventilated their opinions without interruption.

Second Crop of Corn in Texas.—The Galveston Christian says:—The second crop of Corn has been raised on the Rio Grande. It was planted in August and produced 40 bushels to the acre, besides a fine yield of fodder.

A MAN BURNED TO DEATH.—We learn that a young man named Cogswell whose parents reside near Gary, was last week so severely burned in a lumber camp at some place back of Sheffield that he died in four hours after. He and another man were sleeping in the camp when it caught fire, the other was awakened by the smoke and flames, but the first named was already so severely injured as to cause death. The survivor we understand was also badly burned.—[Religious Intelligencer.]

The editor of the Montreal Transcript positively asserts that Sir Edmund Head will never return to Canada again.

Hon. Schuyler Colfax of Indiana is one of the prominent candidates for the Postmaster Generalship under Mr. Lincoln, mentioned by leading Republican politicians and papers.

CHILDREN
TEETHING
MR. S. WISELOW
An experienced Nurse and Female Physician
presents to the attention of mothers, her
SOOTHING SYRUP,
FOR CHILDREN TEETHING,
which greatly facilitates the process of teeth-
ing, by softening the gums, reducing all inflam-
mation—will allay ALL PAIN and spasmodic
action and is
A SURELY REGULATES THE DIGESTION.
Depend upon it, mothers, it will give rest to
yourselves, and
BETTER AND HEALTHY TO YOUR INFANTS.
We have put up and sold this article for over
ten years, and the way, is as striking, and
truth of it, what we have never been able to
of any other medicine—NEVER HAS IT FAILED,
IS A SINGLE INSTANCE TO EXHIBIT A CHILD WHEN
timely used, NEVER did we know an instance
of disquietude by any one who used it. On
the contrary, all are delighted with its properties,
and speak in terms of commendation of its magi-
cal effects and medical virtues. We speak in this
matter WHAT WE DO NOT NOW, when we speak
experience, AND PLEASE OUR OLDEST PA-
TIENTS, FOR THE FULFILLMENT OF
WHAT WE HAVE PROMISED. In all cases
every instance where the infant is suffering from
pain and exhaustion, relief will be found in five
or twenty minutes after the syrup is adminis-
tered.
This valuable preparation is the preservation
of mothers, and the most PERFECTED AND SKILL-
FUL NURSES in New England, and has been
used with NEVER FAILING SUCCESS,
THOUSANDS OF CASES.

It not only relieves the child from pain, but
invigorates the stomach and bowels, corrects
acidities, and gives tone and energy to the whole
system. It will almost instantly relieve
GRIPING IN THE BOWELS AND WIND COLIC
and all other nervous affections, which, if not promptly
removed, lead to death. We believe it is
the best and surest REMEDY in the WORLD, in
all cases of dysentery and DIARRHOEA in child-
ren, whether it arises from teething or from any
other cause. We would say to every mother
whose child is suffering from any of the fore-
going complaints—do not let your Prejudices, nor
the Prejudices of others, stand between you and
your suffering child, and the relief that will be
sure—yes, absolutely sure—to follow the use of
this medicine, if timely used. We would say to
every mother who is using any of the fore-
going complaints—do not let your Prejudices, nor
the Prejudices of others, stand between you and
your suffering child, and the relief that will be
sure—yes, absolutely sure—to follow the use of
this medicine, if timely used.

Reliable Testimony.
North Waverley, Aug. 10, 1860.
Messrs. S. W. FOWLE & CO.,—Gentlemen: Being
desirous to make known the worth of Dr. Wistar's
Balsam, I am happy to certify that it cured me a
year ago of a severe trouble of the lungs, which had
so alarmed my friends that doctors had been enlisted
in my recovery. I do not hesitate to recommend the
medicine as the most valuable preparation I have seen
for the THROAT and LUNGS.

Messrs. S. W. FOWLE & CO., Boston.—Gentlemen:
Please send me five doses of Dr. Wistar's BALSAM
OF WILD CHERRY immediately, as I am really out
of it. I find the Balsam is fast gaining in popularity, and
is approved by the public who have used it as the most
valuable preparation for Coughs and all Pulmonary
Complaints. Yours respectfully,
JOHN G. COOK.

Messrs. S. W. FOWLE & CO., Boston.—Gentle:
Although aware to commendation Patent Medicine, I
usually make an exception of your very excellent lung
preparation—Dr. Wistar's Balsam of Wild Cherry.
This preparation I have used in my practice for more
than ten years past, and have always found it to be of
more beneficial service than anything within my knowl-
edge. I recommend it with the greatest confidence to
those subject to Coughs and Pulmonary Complaints.
Yours, respectfully,
NATHAN LUTHER, M.D.

THE PECULIAR ARRANGEMENTS OF THE
Life Association of Scotland.
CONFER facilities and privileges on the Policy
holders which, it is believed, CANNOT be
obtained from any other Assurance Office.
FEDERATION RESTRICTIONS—The Policies
now being issued are unusually free from Restric-
tions (as commonly imposed by other Companies)
and confer important privileges. These relate to
Non-payment of Premiums—Indisputability—
Limits of Residence and Occupation—Military,
and Naval Service, &c.; and afford in most cases
almost complete protection against forfeiture.
SAFETY AND PERMANENCE—The Association
now of Twenty One Years' standing, is one of the
most extensive and successful Life Offices, and
thus possesses an element of safety and perman-
ence not contained in smaller institutions.
RISKS OF PERMANENCE—The Policies of Hold-
ers are wholly exempt from the Liabilities of Part-
nership, and the Sums Assured are guaranteed.
FUTURE CHARGES—A Share of Profits is allocated
yearly to every Policy-holder of five years
standing at the preceding annual balance and is
applied so as to reduce the present outlay for his
Policy.
HALF CHIEF SYSTEM—Policies of £500 and
upwards may be effected and kept up by payment
of only One-half the Premiums for the first six
years, with interest on the other half.
VOLUNTARY CORPS.—The Assured are permitted
without extra payment, to serve in Volunteer
Corps within Great Britain and Ireland during
Peace or War.
THERE IS A SPECIAL ADVANTAGE
in securing life insurance, because of the Books
of the ANNUAL PERMANENCE—The Year's earlier
participation in Profits with these advantages.
Applications will be received until 31st April.
