CONTRACTORS.—PLANING MILL.—BUILDERS.  
DRY KILN, DOOR AND SASH FACTORY.  
CAMPBELLTON, — — — N. B.

**BEAVER BOARD**  
If you are building or going to complete some unfinished room, let us show you some colored samples, illustrating the beautiful color effects obtained by using this sanitary and durable board for walls and ceilings in all classes of buildings.  
We carry a large stock in assorted sizes.

**MAIL ORDERS**  
We solicit out of town orders which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the rotation in which they are received, and customers can always depend on our doing everything in reason to give prompt dispatch.

Our Office is connected with the N. B. Telephone Co.'s line by two separate lines insuring prompt attention.  
Office Hours—8 A. M. to 6 P. M.

## VETERANS WIN FROM SHIVES COLTS

Poor Ball Played and Score of Seventeen to Eight Piled Up.

In a poor exhibition of Baseball the Vets downed the Colts, score 17-8. This game was witnessed by a large number of fans and was of such a loose style that the bleachers were not heard from as usual.

The Vets batted both Dobson and Ayles heavy which helped to make the large score.

Vets. 5 4 1 6 1 x x—17  
Colts 0 0 0 1 4 3 x—8

**SUMMARY.**  
Strike Out—Duncan 7, Dobson 1, Ayles 3.  
Base on Balls—Duncan 1, Dobson 1.  
Left on Bases—Colts 2, Vets 2.  
Two Base Hits—Matthews and Payne.  
Three Base Hits—Jardine and Duncan.  
Hit by Pitched Ball—Duncan 3, Ayles 1.  
Wild Pitch—Ayles 1.  
Ayles relieved Dobson in 3rd inning.  
Time of Game—1 hr. 25 min.  
Umpires—Sam Moore and Geo. Harding.

**REMARKS.**  
Babe John was at bat four times, he got two singles and a three bagger. Also brought in three runs. Chandler will also be after him with a contract. The Vets Dark Horse in the Box done even with seven strike-outs.

The Colts new uniforms did not help them much towards winning the game.

Perch should get a Ford to run the bases for him. His team mates are not fussy about doing it.

The only excitement was when the Vets allowed three of the Colts to cross home base while they played ball-ball-whose got the ball.

The scorers could not keep count of the errors when the Baloon went up.

Friday's game is between the Vets and K. of C. They are both ties for first place in the league and it should be the most exciting game so far this season. Game starts at 6:45 p.m. sharp.

**EASTERN CITY ON VERGE OF STARVATION**

London, July 28.—The city of Adana, in Asia Minor, with a population of 70,000 Christians and 10,000 Mohammedans, is entirely cut off from the outside world by the Turkish Nationalists and is on the verge of starvation, according to an official despatch received by the Armenian bureau from Larnaca, Cyprus, under Saturday's date.

**TORONTO MEN CLAIM RE-DISCOVERY OF LOST PROCESS OF TEMPERING COPPER**

Toronto, July 28.—Two local returned men, Lieut. David D. Dell and Private W. J. Auchincloss, are patenting what they claim to be the discovery of a secret possessed by the ancient Egyptians, but long since lost to the world. It consists of the tempering of copper and the coppering of steel.

Scientific authorities declare that the discovery will be valuable.

## COUNCIL BUYS MOTOR TRUCK

Fire Equipment to be Brought Up-to-Date—War Trophies For Campbellton.

A meeting of the town council was held Tuesday evening His Worship Mayor Murray in the Chair with Councillors Dickie, Matthews, Devereaux, Ingram and Belle Isle present. Minutes of previous meeting read and confirmed.

A communication was read from Poor Commissioner Wm. Savidant recommending that a bill of \$13. for board of one of the town charges be paid at \$11. On motion the Poor Commissioner's recommendation was adopted.

A communication was read from the Canadian Alliance Chambers Co. stating that the electric motor rented by the town to drive the water pump had arrived back in good condition, and the Company would make no charge for the use of the motor. Clerk instructed to acknowledge receipt of letter and to thank the Company for their generosity in the matter.

A communication was read from Mr. D. K. Graham, Secretary of the L.O.L. of Restigouche protesting against one of the town policemen stopping innocent games at the 12th of July Celebration and asking for an explanation as to why it was done. Laid on table to be taken up later.

A communication was read from the Town Solicitor with reference to the dealing over to the town of a piece of land to widen Central street by the members of the Church of Our Lady of the Snows. The Solicitor pointed out the deed was given in good faith, but it appeared they had no authority to give it. Authority would be obtained for this at the next meeting of the Provincial Legislature when a legal deed would be executed. Laid on the table.

A communication was read from the Sun Insurance Co. in connection with the temporary buildings vacated by the town on King street. The company claimed these buildings were badly in need of repairs, also that the grounds about them should be tidied up and kept clean. Laid on table.

His Worship the Mayor then read a letter received by him from the Department at Ottawa notifying the town that one 77m German Gun and four machine guns had been awarded Campbellton. The question of where these guns would be located on arrival here was left in the hands of the Educational and Improvement Committee.

His Worship received an urgent call and deputy Mayor Ingram was called to the Chair.

An application for a license to conduct a refreshment business from Geo. Dow was read, also an application from S. M. Moore for an auctioneer's license. Both applications were referred to the Police and License Committee.

The usual departmental accounts were then gone into and ordered paid.

The report of Mr. Tremblay, formerly Chief of the Montreal Fire Department, and Chief A. E. O'Donnell, who had been requested by the council to look into the needs of the Campbellton Fire Department was read. This report was a lengthy one, going fully into the necessary articles to bring our equipment to a high state of efficiency. The total cost of the material required was in the vicinity of \$5,000. A motor driven combination chemical engine and hose car, value \$3,150, was recommended. Extension ladders to the value of \$460, twelve salvage covers, \$50 each, twelve fire extinguishers for firemen's homes, \$16 each. Four of these extinguishers to be placed in each ward, so that firemen close to a fire and on the spot early may have an opportunity of doing effective work before the arrival of the department. Many other smaller but most necessary articles were recommended. There was much discussion over this report and the various items were carefully considered. During this discussion His Worship returned and resumed the chair. All councillors were in hearty accord with the report, and on motion it was decided to purchase at once the above mentioned articles, delivery to be made in thirty days time.

## WAR TROPHIES FOR CAMPBELLTON

German 77m Gun and Four German Machine Guns Now on Way Here.

It will be remembered shortly after the close of the war, His Worship Mayor Murray wrote the Department at Ottawa making application for war trophies. In acknowledging the receipt of His Worship's letter Lieut. Col. A. G. Doughty stated that at that time no promise of war trophies could be made, but his application would be kept in mind.

In February last His Worship again took up the matter of war trophies for Campbellton and several letters passed between himself and the Department in which His Worship put forth Campbellton's claim to receive at least some recognition for the service rendered, pointing out that Campbellton had supplied more men during the war than had any other Canadian town, according to population. Finally word was received that Campbellton would be awarded some war trophies.

On Saturday last His Worship received the following letter from Lieut. Col. Doughty which speaks for itself:

**PUBLIC ARCHIVES OF CANADA**  
Ottawa,  
July 23, 1920.

Sir,—  
In accordance with the distribution of war trophies approved by the Government, the Town of Campbellton has been allotted the following trophies:—

One German 77m Gun, No. 2402, and four German Machine Guns.

These trophies, which have been declared the property of the people of Canada, are sent to you with the understanding that proper care will be taken of them and in taking over these guns, it is understood that you agree to this condition.

Yours truly,  
A. G. DOUGHTY,  
Lieut.-Colonel,  
Director of War Trophies.

The Mayor,  
Campbellton, N. B.

Attached to this letter is the way bill showing that one German 7m Gun, No. 2402, and four German Machine Guns, Nos. 312, 4561, 4196 and 2269 had been shipped from Ottawa to The Mayor of Campbellton on July 21st last.

There were war trophies should reach Campbellton within a day or two, having as stated been shipped by freight on July 21st.

**PROPERTY SOLD.**  
Mr. Gordon Wallace has sold his double house on Duncan Street to Mr. Joseph S. Walker.

Did you ever see a young society woman driving her own airplane? See Corinne Griffith in "The Climbers."

was made the first order of business at the meeting.

An invitation was read from the Mayor and Aldermen of the City of Quebec, inviting our Mayor and Councillors to attend the meeting of the Municipalities Convention to be held in that city July 28th, 29th and 30th. Clerk ordered to acknowledge receipt of same.

Councillor Devereaux reported that the old hose station in the West end had now been removed and the fire committee was authorized to engage a mason to erect a new hose station with the tile block now on hand.

The letter of Mr. D. K. Graham, Sec. of the L. O. L. of Restigouche, was then taken up, and the matter complained of thoroughly gone into when Policeman Gray was severely criticized for his action in taking it upon himself to stop games at the 12th of July Celebration. On motion it was ordered "That Mr. D. K. Graham, Secretary of the L. O. L. of Restigouche, be notified that the action of Policeman Chas. B. Gray in interfering with the playing of innocent games near the Soldiers' Memorial Hospital on July 12th was undertaken on his own responsibility and was not ordered or authorized by the Town Council or Police and License Committee or any person responsible thereto, and we regret that such an incident has occurred."

The hour being late council then adjourned.

## LIQUOR CASES UP FOR TRIAL

Some Activity in Prohibition Matters During Past Week—Fines Imposed.

It has been said that much liquor is offered for sale contrary to the Liquor Law, both in town and in the country districts. From the evidence at hand it seems that the assertion is all too true. We are glad to see that a start has been made to round some of these illegal dealers up.

Mr. John Morrissey of Dalhousie was on Saturday convicted of having liquor in a place other than his private dwelling and was fined \$75.00 and costs.

On July 16th, Arthur Brideau of Arsenau Siding was convicted of selling liquor without a license, and was fined \$80 and cost. Joseph Dion, of St. Quentin was also fined \$75 and costs for having liquor in a public place. Both these cases were tried before Justice of the Peace Somers at St. Quentin.

On Saturday Police Magistrate Matheson imposed a fine of \$75.00 and costs upon Joseph Labby of Arsenau Siding for selling liquor illegally. Fines were also imposed on Nicholas Roy, Mrs. Joshua Cooling and Mrs. F. Dugas, all of Ferguson Manor, for having their licensed beer premises open on Sunday.

An interesting case was before Police Magistrate Matheson Tuesday. The informant in the case Raoul Roshette had information laid against Adair Labby, Onezime Labby, Pea Beaulieu, Francois Beaulieu and Hilaire, who were accused of stealing or taking from the informant a quantity of liquor to the value of \$1,200. All the accused were sent up for trial. Several charges are being laid against informant relative to the prohibition act, as a result of the preliminary examination.

**MONDAY NIGHT'S BASE BALL GAME**

Town Lost Game to K. of C. in 5th Inning—Score 11 to 10.

Monday night was kind of chilly but there was a warm crowd in O'Leary field hooting at the ball game. In the second inning the Town made six runs, which should have made the game safe, but it was not long before the K. of C. commenced to find Duncan and after the fog raised in the 5th inning, the K. of C. had the score nine to eight in their favor. In this inning the Town took Duncan out and put in Cyr, but it was too late. Champoux struck out eleven men and he did not get the support that Duncan got. The Town boys had thirteen assists to their credit, the best this season so far, and only five safe hits, while the K. of C. had ten safe hits with eleven runs which goes to show that the Town teams were playing good tight ball.

## ANOTHER GERMAN PLOT

POLAND A STRENGTH-STONE IN WORLD POWER.

Careful Analysis of Main Outlines of Teutonic Policy Which Desires to Exert Strong Influence in Newly-Organized State—Berlin Has Clever Scheme to Make Ambitious Use of Neighbor.

Circumstances alter cases. The present position of Poland is very different from what was foreseen by President Wilson, Mr. Lloyd George and M. Clemenceau last June. Its safety within the frontiers fixed for it by the Treaty of Versailles was admittedly dependent on the capacity of the League of Nations to uphold the rights of the weak and on the complete disarmament of Germany. Can Poland's access to the sea be regarded as secure now, in face of a great German army and the doubts which overhang the future of the league?

Of the dangers which threaten Poland from the East and the West there is no reason to suppose that, if the Poles are given sufficient munitions and equipment for their army, they will not be able to repel the Bolsheviks, but the German menace is not one which can be met by armed force. The German aims toward the east were manifestly clear by the von der Goltz and Bernotat affair. Though that adventure failed, they still hope to use Russia as a colony and as soil in which to develop their ambitions for world power, and Poland comes into their scheme.

It is not for nothing that they call it a "Südpolstadt." The strong men, who, with or without the Government, control the fortunes of Germany to-day, the chiefs of the military caste and the great capitalists do not intend that it shall exist for more than a season as an independent state. The plan is to prevent it from ever becoming strong, to keep it under German influence. Poland is to be a stepping-stone to Russia. In pursuance of this plan half a dozen new railway lines were planned and partly built. A new scheme for reorganizing the railway stations at Warsaw for the speedier handling of goods traffic was thought out. The Nicola and the Bug were surveyed with an eye to their development for large traffic; the prospects were bright, and the work was well advanced at Plock and other places. On the other hand, the Lódz textile mills and hundreds of other factories were stripped of all their most valuable machinery. The Germans openly avowed their intention of smashing these possible rivals.

The general lines of this policy are still being held in view. The consolidation of Poland as a state is to be prevented in every possible way. Every opportunity is to be taken of encouraging strikes, communist agitation, and political dissensions as a means to this end. At the same time, if the Poles are induced to accept the help of Germany, advantage is to be taken of the opportunity to establish German influence in Poland as strongly as it was established in Russia when the war broke out; the Prussian officials in Poland are openly encouraged to remain at their posts for this purpose.

The Prussian Poles are to be discouraged and discontented by having every law and weakness in the Polish methods of administration held under their noses and contrasted with Prussian efficiency. The Polish market is to be flooded with products of German manufacture, and German capital is to be skillfully used to establish controlling influence in every big enterprise that the Poles may undertake.

Motor cars, agricultural machinery and every sort of manufactured goods, from airplanes to fountain pens, are now being effected in Poland by Germans at prices at least 50 per cent. lower than anything which Entente countries can produce. The comparatively favorable rate of exchange between Polish and German marks of course helps the German. It is to his advantage that the Polish currency should stay so low that the Poles cannot afford to buy from England, France or America, and there is a good deal of evidence that the market has been manipulated by German agents with this object in view.

The way in which the German authorities have persistently hindered the Poles from enjoying free use of Danzig for imports and exports, and the careful steps they have taken to remove from the port everything that could be of use to the Poles (all in defiance of the terms of the treaty) are just one more example of German determination to prevent Poland from developing normally. The wretched Poles are to be shackled into making a mess of their country, and then, when they are quite helpless, the Prussian will step in and run it for them.

It will be impossible for the Poles to set aside every official who served Austria or every man who collaborated with the Germans in the kingdom from 1918 to 1919, but both Poland and her allies must beware of the danger which lies in seeking help from an enemy. It must be admitted, however, that only too often there are initial advantages to be won for Poland by looking to Germany. The Allies waste months in deciding whether Poland's demands are justified, how they can be met, and who is to meet them. The Allies have friends in Poland who will support their connection with Poland through thick and thin rather than risk dependence on Germany, but there are others, equally apostate.

## Ho Was Safe.

Boy—"Can a person be punished for something he hasn't done?"  
Father—"Of course not."  
"Well, I haven't done my arithmetic."

## Works Both Ways.

"One by one our children leave us," said the mother sadly, as the fourth daughter started on her wedding journey.

"Yes," replied the father a little more sadly, "and one by one they bring our home-in-law back to us."

## OWES HER LIFE TO "FRUIT-A-TIVES"

After Years of Suffering with Dyspepsia, this Fruit Medicine Cured Her.

MILE ANTOINETTE BOUCHER

917 Dorion St., Montreal.

"I am writing to tell you that I owe my life to 'Fruit-a-tives' for this remedy relieved me when I had abandoned all hope of ever recovering my health. I suffered terribly with Dyspepsia. I had it for years and all the medicines I took did not do me any good."

I read something about 'Fruit-a-tives' being good for all Stomach Troubles and Disorders of Digestion so I tried them. After finishing a few boxes, I was entirely relieved of the Dyspepsia and my general health was restored.

I thank the great fruit medicine, 'Fruit-a-tives', for this wonderful relief."

Mile ANTOINETTE BOUCHER.

50c. a box, 6 for \$2.50, total size 35c.

At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

An ostentatious member of a certain London club whose father is well known as a retired omnibus driver was one day displaying a large seal representing St. George and the dragon.

While several bystanders expressed their admiration, its owner remarked: "Aw—one of my ancestors is—aw—don't you know?"

"Dear me," inquired one of his hearers, "how knew something of his pedigree, 'did he run over it?"

## Have YOU? Dyspepsia?

If your stomach is sour, and you have a "heavy" feeling after eating—if your food is not readily digested and assimilated—you are plainly in need of

## SINGING SANDS

Science Explains Strange Phenomenon of Nature.

An interesting attempt is made by writer in Science to explain the singing sands of Lake Michigan. These extend along its eastern shore from Gary, at the southern extremity, to Mackinac, at the northern, with comparatively few breaks or interruptions. Throughout this region the sands near the water's edge, in dry weather, emit a peculiar but distinct and unmistakable sound when the foot of the pedestrian pushes through them in an abrasive way. This unusual sound is produced not only by the leather-shod foot, but is emitted also if the bare foot or hand is struck through the grains or if a stick is trailed, boy-fashion, behind. Thoreau, in the Journal, said it was like the sound made by rubbing wet glass with your finger or by waving a table. It was a squeaking sound, as of one particle rubbing against another.

"My hypothesis, briefly stated, is this," says a writer in Science. "The sand grains on the lower beach and as far as the upper limit of the storm beach are bathed periodically by the waters of the lake, which contain various salts, including calcium and magnesium bicarbonates. This water dries on the grains as sand, leaving the surfaces with an extremely thin film of salts, including calcium and magnesium carbonates. This film is of such a nature as to create considerable friction when rubbed, and thus when the grains are brought into contact with various surfaces a sound is emitted. One may compare the action of the film of dried salts on the sand grains with the action of rosin on the violin bow."

"The beach sand is, of course, the same sand which later goes to form the dunes when transported by the wind, but during its transportation, due to the abrasive action of grain against grain, much of the salt film is rubbed off and is blown by the wind in the same manner that clay dust is, to be deposited in quiet places, on the forest floor beyond. After deposition in blowouts or on dunes, the grains are subjected from the removal of calcium and magnesium carbonates (in the form of bicarbonates and of the other salts) so that the original sand grain surface is restored, to its original metaphysical state. In fact, only pelicans—live on the island in the great inland body of salt water.

An Island Sanctuary. About twenty miles from Sault, Utah, on the Great Salt Lake, is Bird Island, recognized as the sanctuary of pelicans. Bird Island derives its name from the fact that only pelicans—live on the island in the great inland body of salt water.

There are countless thousands of pelicans on the island, and many tourists leave Salt Lake City every summer to spend a few hours there. The birds are so thick, and fly so low, that most persons tour the small island with their umbrellas or parasols open to prevent the pelicans from alighting on their heads.

There are no fish in Great Salt Lake, and many have asked how the pelicans survive. The answer is that the older pelicans fly every morning to Utah Lake, about thirty miles distant, and consume a meal of fresh water fish, and then return with their pouches full to feed the younger pelicans on the island.

Bird Island is nothing more than a rocky structure. There is no habitation there. Neither is there any vegetation. The reason for the pelicans remaining at Bird Island and making the daily flight to another lake for food has never been fully explained, although fish and game officials say that the pelicans understand that they cannot be molested at the island, and that therefore the sanctuary in Great Salt Lake will always continue as their permanent abode.—Popular Science Magazine.

## Skeletons for Sale.

This is not really as gruesome as it sounds. The most essential impediments of the medical student is a skeleton, and at the moment there is a considerable dearth in the latter commodity.

Before the war, medical men and students of Great Britain used to purchase the material required for carrying out anatomical examinations from Paris. Now, for some unaccountable reason, the supply has been greatly decreased, and, unhappily, the profiteer has also stepped in. Four or five years ago the student could get a complete skeleton in pre-war times; now the price is at least ten guineas. A certain hunter went to the situation for the appearance in medical journals of advertisements asking the loan of a skeleton for a short period. It recalls the story of a conversation between Bob Sawyer and his fellow-student, Buchanan Alice, at the breakfast-table, when Dingley Delites were regaled with details concerning the competition for the possession of a skull at "Bart's."

## From Another Angle.

"Do you think you can get me out of this scrape?" the company promoter asked his lawyer.

"How much would it be worth to me?" retorted the lawyer promptly. "Suppose we say five hundred pounds?"

"And you made ten thousand pounds out of the deal? No, sir, I don't see the slightest chance of getting you acquitted for two hundred pounds; but—ah—well—we might view the matter from another angle."

"What do you mean?" "Looking at your case from a thousand pounds' angle, I don't see the slightest chance for you to be acquitted."

## The Modern Game.

Jones—"We've pretty nearly ended these days! Saving is a waste!"  
Jones—"What does your wife think about it?"  
"Oh, great! She thinks we're going to buy a motor-car!"

## "Summer's Almost Here."

"Mother?"  
"Yes, daughter?"  
"Don't you think it warm enough now for me to wear my furs?"

## A Question.

"A wise old owl sat on a limb, Oh, yes, we've often heard of him. But, tell us, while we pardon beg, Did he sit on an ass or a leg?"

### NEW YORK WRITER BOOSTS CANADA

Former Winnipeg Girl Says the Dominion Has Call—Great Possibilities Before It.

Winnipeg, July 24.—"Wake up Canada." This was the clarion call brought to Winnipeg by a former Winnipeg girl, Miss Agnes C. Laut, now a New York financial writer, who came here to visit with friends before "roughing it" on vacation, on Mackenzie River. Incidentally Miss Laut hinted with a significant flick of the right eye, that "You never can tell when a person will stumble on virgin oil fields."

"If Canada pulls together, if labor and capital and east and west bury their grievances in staunch unity of war days, this Dominion will see a prosperity boom not even dreamt of by real estate dealers."

She said: "There's a panic coming in the United States. It may come all of a lump; it may come in germs. But the handwritings are on the wall. Factories are cutting down to two days a week schedules, and banks are calling in their paper."

With hard times this winter, American labor, hundreds of thousands of skilled men and women, will look about for employment. Europe is impossible and Canada offers the only field. American capital, too, must inevitably turn to the Dominion at least \$1,000 millions of American money should come here in the next few years. But Canada today is thinking in small down figures, when the world demands billion-dollar programs. The mines here are sending out a third of what they should; shortage of labor will mean a one-half crop in the east, and a three-fourths crop here in the west.

"In ten years the United States will not produce enough grain to feed its people. Either Canada or the Argentine will get the grain trade."

### IS THE PICTURE OF HEALTH, NOW

Dartmouth Woman Gets Rid of Indigestion and Gains Twenty-Three Pounds.

The story of how a young wife, who for four years has been a martyr of indigestion and its attendant evils, has been restored to perfect health and strength again, is one of the most pleasing which it has been our privilege to publish. The following statement was made by her husband, Mr. Edward Ford of 34 North street, Dartmouth, N. S., who is employed by the Imperial Oil Co., in Halifax, a few days ago.

"This is the seventh bottle of Tanlac that I have bought for my wife, and I am more than gratified with the results. It may seem hardly credible but nevertheless it is true that she has actually gained twenty-three pounds in weight and is in better health today than she has been for years."

"For four years now she has been a sufferer from indigestion and stomach trouble. She was never able to eat a meal without being in misery for hours afterwards. She had to force herself to eat in order to live, but whatever she ate only caused her pain and distress. She was also subject to severe sick headaches, and her nerves were so bad that she couldn't sleep at night but would wake up every few minutes and many a night would hardly close her eyes at all. I am safe in saying that she hasn't known what it was to be really well for a single day during the past two years and for over a year now she has been in such a weakened, run-down condition that she couldn't do her housework and was only just able to get about."

"American capital must come to Canada to develop oil, timber, and mineral resources. Canada will benefit by it."

about able to keep up and about. She had fallen off until she only weighed

### HON. C. MARCIL'S HOUSE BURNED

Fire Completely Destroys Building With All Its Contents.

On Monday Hon. Mr. Marcil's house at Carleton, P. Q., was completely destroyed by fire with all its contents. Mrs. Marcil was alone at the time, in the house and was engaged in heating a little tar on the kitchen stove. The soder on the can or kettle becoming too hot melted, the bottom dropping out of the can and permitting the tar to run over the kitchen floor. So rapidly did the flames spread that it was impossible to save any of the household effects. Houses in close proximity were saved with much difficulty, some of them caught fire three or four times. A spark from the Marcil building ignited an old unoccupied grist mill about one half mile distant, which building was totally destroyed.

a hundred and one pound and was almost a wreck.

"None of the many medicines prescribed for her ever seemed to meet her case, and at last in sheer desperation I decided to give Tanlac a trial. Its effect was immediate and truly marvelous. The indigestion and stomach troubles were soon overcome. Before long she had a keen appetite and found that she could eat meats, fruit or vegetables without having to suffer from it afterwards. Her nerves have got steady and strong and she can now sleep fine. As I said before, she has gained twenty-three pounds in weight, and is so much stronger that she can now do all her own housework. To-day she is the picture of health, and I have to thank Tanlac for it."

Tanlac is sold in Campbellton by THOMAS WRAN, Druggist; in Jaccet River, by S. McALLISTER; in Archibald Settlement, by M. SMEARER; and in Chandler, by ARTHUR NADEAU.

### PRESENTATION TO REV. AND MRS. JOBB

Congregations of District Retiree Retiring Clergymen And His Wife.

The Presbyterian Congregation of New Mills, in its various sections, last week testified in no unimpeachable manner their good wishes and esteem for Rev. F. L. Jobb and Mrs. Jobb, who leave this week for their new field of labor in Morewood, Ont. The expressions of appreciation of the fine work of the minister, ably seconded by his wife, were cordial and warm. Rev. Mr. Jobb has been minister of the New Mills Church for eight years and under his pastoral charge the congregation has greatly grown and prospered.

One evening last week a large company, representing the New Mills and Black Lands sections of the congregation, assembled at the Manse, where an address was read on behalf of the people by William C. Hamilton and following this another by Miss Ruth Hamilton, the latter for the young people of the Sunday School and Mission Band. Both addresses spoke of warm and deep appreciation of the splendid work done in the congregation by Mr. and Mrs. Jobb, who had been unceasing in their efforts for the welfare of the people and the up-building of the congregation in its varied interests. The addresses were accompanied by envelopes containing tangible expressions of the regard of the people. Appropriate replies were made by Mr. and Mrs. Jobb.

On a subsequent evening a similarly pleasant assemblage of the people of Archibald's Settlement took place in that section of the congregation, where also there was an address and presentation. It is understood the envelopes contained about \$200.00.

Messrs. R. McMichael and T. V. Tozer, train despatchers, have been transferred to Moncton, and leave Monday for the railway city. The office here has been closed by the C. N. R. management—Leader.

## A BIG VESSEL.

The large four-masted schooner "Florence A. Stone", which arrived at Dalhousie on Saturday, is apparently the hardest vessel to tow that has been brought up the Restigouche for years, as after several attempts, four ordinary tugs could bring her no farther than the ballast ground, where they were compelled to leave her.

The Dalhousie Lumber Co.'s powerful tug, No. 26 (Capt. Gould) towed her to Campbellton on Monday, making the town in a little over four hours, against a strong wind and tide.

## LEAVING FOR TRIP TO ENGLAND.

Rev. F. E. Boothroyd left Friday evening for Quebec from which place he sails on Wednesday next on the steamship Prince Frederick William for England. Mr. Boothroyd will spend about three weeks in England and on his return to Canada will take up his parochial duties in Campbellton.

Rev. F. E. Boothroyd arrived here last Saturday morning and occupied the pulpit of the Methodist Church at both services and made very favorable impressions on the congregations at both services. He left Monday evening for Quebec, from where he sailed for England.

## POTATO CROP INSURANCE.

The cheapest and most remunerative form of insurance for the potato crop is the Potatoes Bordeaux Spray. Farmers in the North Shore of New Brunswick are just beginning to get acquainted with this method of protecting their potato fields against the dreaded disease called "Blight" or Rust.

As "an ounce of prevention is worth a pound of cure", now is the time to spray, and delay will only mean a loss, because late blight will soon be baking its appearance. This disease is caused by a fungus which kills the leaves of a plant and thereby prevents its proper functioning.

Chlorophyll or the green coloring matter in the plant has the property of converting the carbon absorbed from the air in the form of carbon dioxide gas, into starch which is stored in the tubers. As soon as a plant loses its green color, the storing or manufacture of starch stops, and consequently the growth of the potato is also checked.

It is estimated that potato plants make potatoes at the rate of five to ten bushels per acre per day. These figures are estimated on a three hundred bushel crop allowing about forty days for the growth of the plant and approximately sixty days for the maturing of potatoes. The loss through blight can therefore easily be estimated if out of sixty days allowed for the maturing or growth of the tubers, the plant dies twenty or thirty days before time.

The value of Bordeaux spray as a protection against blight has been demonstrated time and time again.

At the Experimental Farm in Fredericton, last year, results on potato plots were obtained as follows:—

Bushels per Acre.

Marketable Rot Small Total

Sprayed with Bordeaux 398 14 412

Untreated 221 77 298

The total cost of spraying was in the vicinity of \$20. per acre; and, as the figures show, the time and money was well spent since the increase in yield was 117 bushels of marketable potatoes.

Many similar results have been obtained in different parts of the province and in other countries. The average increase obtained during ten years by the use of Bordeaux spray at the New York Experimental Station was 97½ bushels to the acre and 113 bushels at the Main Experimental Station. Surely then spraying is a good investment if it can bring an extra hundred bushels per acre at a cost of approximately twenty cents per bushel.

Preparing Bordeaux Mixture. The materials required for Bordeaux are: 4 lbs. Blue stone (Copper Sulphate), 4 lbs. Stone lime, freshly slaked, or Hydrated lime, 40 gallons of water.

This mixture is called 4-4-40 Bordeaux and is prepared as follows: Take a wooden container, pour in it four gallons of water, dissolve in it the four lbs. of Blue stone by putting the crystals in a bag and hanging it near the top surface of the water. When the bluestone is completely dissolved and this will take from 10 to 20 hours, the four gallons of blue-stone solution can be poured into a barrel, and 66 gallons of water added to it, thus making a 20 gallon solution containing 4 lbs. Blue stone. The same is done with the lime. Slake four lbs. of Stone lime in four gallons of water, strain through a

fine cloth to remove residues which might clog the sprayer nozzles, and dilute up to 20 gallons by adding 16 gallons of water. Keep the solutions of Blue stone and lime water separate until ready to use. Be careful to stir the solutions well before mixing, and when ready to spray, put limestone in the sprayer and add an equal quantity of blue stone solution. The Bordeaux is then made and should be of a good blue color.

If insects are present, any of the common insecticides can be used with the Bordeaux, and the one spray will control insects as well as Blight. One pound of Paris Green to 40 gallons of the mixture is the general amount used. Arsenate of lime at the rate of one and a half pounds would be cheaper and a more satisfactory insecticide. Either can be mixed with the Bordeaux after it is made or with the lime water solution before mixing with Blue stone.

To make a satisfactory application, Bordeaux should be applied at the rate of at least 40 gallons per acre, and sprayers should be used that will cover the under surface of the leaves as well as the top.

Care should be taken to keep the plants well covered with Bordeaux, especially after the 20th of July by spraying every ten or twelve days.

For small potato plots, small quantities of Bordeaux can be made in the proportions of 1-1-10 instead of 4-4-40. J. E. McINTYRE, Agricultural Representative.

# TRADE AT HOME AND BUILD UP YOUR TOWN

Do YOUR part in building a great City of Campbellton, and the growth of the Bay Chaleur County, by patronizing Campbellton and Bay Chaleur Merchants and Factories. Every dollar you spend in Campbellton and Restigouche county circulates and leaves a profit in every hand that holds it. Money sent away from here rarely returns—when you send it away you are deliberately sapping the life and strength of your community. To patronize home industries is a duty every citizen owes to himself and those he loves.

Do you want a wealthy young woman to be allowed to choose her own husband? See Corinne Griffith in "The Climbers."

Did you ever see four exciting scenes flashed on the screen at the same time? See how this is done in Vitagraph's picture, "The Climbers."

**HOUSE DOCTOR****FOR HOTEL DIEU.**

Our progressive Hotel Dieu Hospital has taken another advanced step by the acquisition of an interne Doctor, Dr. Chas. Dumont, graduate of Laval.

It is a tribute to the quantity and quality of work done at the Hotel Dieu that it was able to secure a house doctor at the present time when scarcely any hospital can obtain its required quota of interns.

Dr. Dumont lived at Rogersville until his family moved to Rimouski a few years ago. He graduated with honors last May.

**AN OVERSIGHT.**

In a letter to the editor of the Graphic, Rev. E. Martin of St. Quentin states that in his letter of thanks he omitted to extend thanks to the citizens of Campbellton and particularly the ladies who helped so much by their work in providing clothing for the fire sufferers of his parish.

The rates for Transient Advertising in The Campbellton Graphic, effective June 1st, 1920 are as follows:

Per inch, first insertion.....80c.  
Per inch, second insertion.....40c.  
Local Reader adv. 15c. per line each insertion. Minimum charges 50c.

Card of Thanks, Notices of Engagements, Births, Marriages and Deaths 60c.

Poetry with Death or Memorial Notices, 10 cents per line extra.  
General mercantile display rates on application.

Campbellton, N. B., July 29th, 1920.

**OUR OVERDRAFT.**

The overdraft which the Town of Campbellton is today carrying should be a matter of deep concern to every citizen. The Graphic understands that the amount is about sixty thousand dollars. To the Bank of Nova Scotia we, as a town, are paying the current rate of interest. But the alarming statement was made recently by the Treasurer that on and after August 1st all cities, towns and municipalities were required by the recent excise and luxury tax legislation to pay two per cent per month on all overdrafts.

If this statement is correct, (we can hardly credit it) it means that Campbellton will be required to pay twelve hundred dollars a month tax on the overdraft, or at the rate of twenty-four per cent per year.

Under these circumstances it should be the policy of our finance committee and in fact the whole Council to spend every energy to wipe out this overdraft and thus save this exorbitant tax. In fact our citizens should insist that something be done at once to relieve the ratepayers of this added burden.

**TO SUBSCRIBERS.**

Because of the increased cost of news print paper, the extra cost of production and everything going into the making of a newspaper, we have been forced, in order to keep up the standard of the Graphic and make a reasonable profit, to increase the yearly subscription rate to \$2.00 to any address in Canada, Newfoundland or the British Isles and \$2.50 to the United States.

Is an honest name better than a million dollars? See Vitagraph's new picture, "The Climbers."

What happened to an ultra exclusive family in society when it loses its fortune? See Corinne Griffith in "The Climbers."

Newspaper Notes of Town and County  
Gathered by Graphic

How does society protect itself from invasion by outsiders? See Corinne Griffith in "The Climbers."

**FORESTRY CAR HERE.**  
The Canadian Forestry Association's Exhibition Car arrived in Campbellton Tuesday, and has been placed upon the track just above the depot. The public are cordially invited to inspect this car.

**FELIX—FIRE.**  
Peter Felix, son of Thomas Felix of Dawsonville married Miss Flora Fitch, daughter of Edward Fitch of Robbinstonville at St. Aloysius Church, Athol, July 23rd, 1920.

**DEER PLentiful.**  
While the editor of the Graphic was motoring to town from Upper Chatham one morning last week two deer were seen on the Point in Nim road. Reports from other sections state that deer are very plentiful. We have also heard of deer meat being offered for sale and hope the Wardens will be sharp after big game violators.

**AWARDED PHYSICAL DRILL PRIZE.**  
Miss Hazel Lingley, teacher at the Campbellton Grammar School on Saturday received word from School Inspector McFarlane that she had been awarded the Strathcona Trust Fund prize, \$4.00. This prize is awarded by the School Inspector to the teacher of each school district making the best showing in physical drill.

Do you know what a "climber" is? See Corinne Griffith in "The Climbers."

**NEW DRUG STORE.**  
Mr. James H. Moore, graduate druggist is about to open up an up-to-date drug store in the Thompson block, corner of the Subway and Water Street.

The store has been thoroughly renovated and Mr. Moore spent a week in Montreal, where he purchased a complete line of drugs and druggists' supplies.

Jim who is one of Campbellton's popular young men was employed with the Thomas Wran, druggist, previous to enlistment in August 1914, he received his commission on the field and returned in January, 1918, after a long, trying and honourable career with the Canadian forces in France and Flanders, and his many friends wish him a long and prosperous business career.

**NEW DRUG STORE.**  
Mr. James H. Moore, graduate druggist is about to open up an up-to-date drug store in the Thompson block, corner of the Subway and Water Street.

The store has been thoroughly renovated and Mr. Moore spent a week in Montreal, where he purchased a complete line of drugs and druggists' sundries.

Who who is one of Campbellton's popular young men was employed with Mr. Thomas Wran, druggist, previous to enlistment in August 1914, he received his commission on the field and returned in January, 1918, after a long, trying and honourable career with the Canadian forces in France and Flanders, and his many friends wish him a long and prosperous business career.

**NICHOL—SMITH.**  
A bright and pretty wedding was solemnized on Tuesday evening, July 27th, 1920, when Jas. D. Nichol of Flat Lake and Gertrude E. Smith of Sussex, N. B., were united in marriage by the Rev. J. S. Harrington, Rector of Christ Church.

Did you ever mingle with the ultra smart set? See Corinne Griffith in "The Climbers."

**CHEQUE FOR FIREMEN.**  
The members of the Campbellton Fire Brigade are in receipt of a cheque for \$250 from the Richards Manufacturing Co. for the service rendered them at the Kedgwick and Red Bank fire. Needless to say the firemen highly appreciate the company's great generosity and extend their thanks for the handsome donation.

**CONCERT AND RECITAL.**  
On Wednesday, Aug. 4, 1920, at 8.30 p.m. at the Inch Afton House, Dalhousie, N. B., will occur the annual concert and dramatic recital. This concert will be for the benefit of the hotel orchestra and is open to the public. It will be given under the personal direction of the leader, Julia M. Jones, A. F. of M.

Splendid talent is available for the concert and a pleasant evening is anticipated. Dancing will be enjoyed after the concert. Admission—Adults 75c, children 50c.

**CARR-HARRIS.**  
Percy L. Carr, son of the late Dr. Eleazar H. Harris, daughter of Mr. A. F. Carr of Campbellton and Miss and Mrs. F. Harris of Grand Bank, Nfld., were married at the home of the bride on Monday, July 19th, by Rev. A. F. Adams. Mr. and Mrs. Carr are spending the week with Mr. and Mrs. H. A. Carr at Oak Point.

**COL. SHARMAN HERE.**  
Col. Sharmar, C. B. E., of Ottawa, who commanded the expedition to Russia, and in whose Brigade the late Capt. Ollie Mowat of this town was a member, and who was at the bedside of his officer during his last moments, has been spending some eight days in Campbellton and vicinity the guest of Mr. M. M. Mowat, leaving for Ottawa on Monday night's limited. Most of the time here was spent fishing on Dr. Lunan's waters. On Sunday before his departure Col. Sharmar visited the Campbellton Rural Cemetery and placed upon the grave of his respected and esteemed officer a large handsome wreath.

## METHODIST CHURCH.

It is expected that Rev. Dr. Harrison will occupy the pulpit of the Methodist church at both services on Sunday.

## BAPTIST CHURCH.

Rev. Thomas S. Roy, pastor of the Talbot St. Baptist Church, London, Ont., is supplying the pulpit of the Baptist Church here during the vacation of Mr. Camp. Next Sunday morning Mr. Roy's subject will be "Harkening to God." In the evening, in recognition of the anniversary of the beginning of the war, Mr. Roy's subject will be "Our Debt to Flanders Fields."

## HEAVY SEIZURE.

One of the largest liquor seizures of the year was made by Liquor Sub-inspector of Daigle at Baker Lake, in Madawaska county on Thursday evening. Acting upon information received, Daigle seized a carload of various brands of liquor consigned to several parties along the border. The shipment contained 42 barrels and nine cases of whiskey, valued at about \$9,000, which is the second largest seizure to be made during the present year, that by Inspector McLaughlin being valued at about \$14,000.

## MOVING.

Messrs. Geo. G. McKenzie & Co. Ltd. are this week moving their stock of groceries, dry goods, etc., to the new store, formerly the Intercolonial Hotel.

## TO SUBSCRIBERS.

## FARM LABORERS FOR THE WEST

Canadian National Railways Will Give Reduced Fares and Special Train Service on August 6th and 13th.

Harvesters are urgently needed in the West to garner in the wheat yield of Canada.

Estimates are that over 300,000,000 bushels of wheat stand ready for reaping—This in addition to other grains.

The call of the West is for 30,000 Farm Laborers to harvest this immense grain crop. Canada's prosperity depends on the response.

The Canadian National Railways is prepared for the transport of Harvesters from all parts of the System. From Maritime Province points special arrangements have been made.

Reduced fares to Winnipeg are to be granted on August 6th and 13th and Special trains will run via Quebec Bridge, and from Quebec to Winnipeg via the Transcontinental Line as the best and quickest route from Maritime Province points. The trains will carry the best type of new colonial cars, and special arrangements will be made for the supply of box lunches en route. Special provision will be made for women accompanying the party or desiring to take advantage of the excursion rates.

The fare from Campbellton to Winnipeg is \$21.45 plus half a cent per mile to points West of Winnipeg. The return ticket at reduced fare.

From all points west of Winnipeg to Winnipeg, and \$25.25 from Winnipeg to Campbellton.

Verification certificates will be furnished by Ticket Agents when ticket is purchased enabling holder to secure return ticket is purchased enabling holder to secure return ticket at reduced fare.

Full information will be supplied by all Ticket Agents of the CANADIAN NATIONAL RAILWAYS.

July 26-2-wks.

## CAMPBELLTON WINS AT BATHURST

Good Ball Played at Bathurst Friday by Local Fans Against Pulp Mill Team.

(Bathurst Northern Light). "Chip" Duncan, Campbellton's heavily decorated war veteran, lead his baseball efforts from the railway town to a sparkling victory against the representatives of the Pulp Mill in an eight innings game played on the local diamond last night before a tremendous crowd of enthusiasts. Seven to two was the final tally recorded, the mill men being suspended on the tail end of the same.

For the first four ends the game was a real corner, O'Donnell for Bathurst and Champoux for Campbellton, pitching first class ball.

True, the visitors scored in the second, Keith making the circuit on a string of errors that could be divided among the local infield, but up to the fourth, when Bathurst took the lead, there was a distinct touch of class to the exhibition. England had hit safely to first, when Landry advanced to third on an overthrow and came in on a long fly by Hawke.

The status quo was preserved until the sixth when the break came, and as luck would have it, it broke against O'Donnell, his infield support failing him badly in the pinches. A flock of palpable errors crept into the Mill men's play and when the visitors were finally dismissed it was found that four men had crossed the plate in safety. They were Boulay, Champoux, Keith and Duncan.

In the seventh inning Landry attempted to stage a rally, starting off with a clean drive for two bags, but he got no further than third, when the side was retired.

In the last frame Campbellton went still further ahead. Woods hit safely to first, advanced to third on Keith's two base hit, and arrived home on the inevitable overthrow. Keith himself completed the scoring, stealing third, and making the plate.

WANTED...

A strictly sober and competent baker to come and examine a well constructed small bakery at New Carlisle, P. Q., with a view to start a bakery business. There are no other bakers in this town and this is an exceptional proposition for a young and energetic baker to start in business for himself. Pastry business as well as plain bread could be worked up successfully here. I will give bakery and equipments free for six months to help the right man in getting a start. But it is necessary to produce the very best of bread. Advertiser will accommodate applicant with room and board if necessary at the beginning. Apply to  
**GEORGE McDONALD,**  
July 9-2-wks. pd. New Carlisle, Que.

POORER—BUT WISER.

Last week the Royal Exposition Shows under the auspices of the G. W. V. A. and local band held forth their entertainments in the Watt field, near the station and many of the patrons are poorer but wiser this week than they were last week—Newcastle Advocate.

## WHEN USING WILSON'S FLY PADS

READ DIRECTIONS CAREFULLY AND FOLLOW THEM EXACTLY

Far more effective than Sticky Fly Catchers. Clean to handle. Sold by Druggists and Grocers everywhere.

## A THUNDERSTORM.

How the Great Spectacle Grows in the Skies.

Have you ever been up in the air to watch a thunderstorm grow? If you were merely on the ground looking up, then you saw only the bottom of it. The airman is the one who sees just what is happening in a thunderstorm, and the birth and growth of a regular summer joy killer.

A few hours before the sky was, perhaps, perfectly clear. All at once a few white patches become visible to the eye, and if they quickly begin to dot the whole sky it is a warning sign. Each fluffy cloud represents the point where moisture rising from the earth has begun to condense. The rapid formation of the clouds means a heavy heating of the surface of the earth, and the presence of lots of moisture in the air. The clouds grow together, forming a continuous rolling mass of dense vapor, cutting off the sun's view of the earth.

So far the storm has been only threatening. The clouds have spread sideways as far as they can; now they begin to grow heavier. The heated air from the earth below rushes through the heavy layer and rises. It is upward, higher and higher it is pushed, while more and more moisture condenses, and the great bulging mass of vapor, sometimes three or four miles high, has become a thundercloud. Its bulging top are called thunder peaks or thunder heads, and they are responsible for the lightning, the heaviness of rain and the hail we sometimes have in midsummer.

The energy of a thunderstorm is amazing, says a writer in Popular Mechanics. A single great cloud may contain billions of pounds of water vapor. The flashes of lightning from cloud to cloud are sometimes twenty miles in length, and when we stop to think that it takes a current of 15,000 volts to produce a spark an inch long, we can only wonder at the approximate amount of electricity involved in a single flash.

Sometimes the wind of a thunderstorm or the "squall" as it is called, is violent enough to level trees, and is improperly called a tornado. There is a big difference. A tornado is a violent whirlpool of air that sweeps across the country and twists up trees and roofs in its path. The wind from a thunderstorm blows straight away from the storm and never returns. The tornado is always dangerous, while the wind from a thunderstorm is only occasionally dangerous.

Broadly speaking, there are three general stages in the development of a thunderstorm. There must be strong currents of moist air rising from the surface, as indicated by the appearance of the white patches of cloud. This condition must continue until the sky is covered. And lastly, the force of these upward currents must be great enough to push the clouds up into thunder heads. A thunderstorm then results.

News Photography.

Mr. William Hartley, sometime art editor of the Star, Morning Leader, and Daily News and Leader, gives an attractive account of the beginning and development of the photographic news picture in the London daily papers. It was not until the early '80s that any indications of a desire to pictorially illustrate "copy" was shown; but in 1888, when Mr. T. P. O'Connor issued his first halfpenny evening paper, the Star, illustrations began to appear in the form of four one-column blocks—crude line results—but there was no regular use of line blocks till 1891, after the appearance of the Daily Graphic, which may be said to have been the first daily picture paper, but can scarcely be said to have used the illustration as a news-picture. The wonderful progression in this line would seem nervous if compared with the results obtainable at the present time. From all over the globe—from heights unknown and unthought of by the ordinary person—accurate pictures are brought to their breakfast table, and even the bursting of a bud and the blooming of a rose are recorded and reproduced in a few hours; and now the air-pictures, giving a new view of old places, bid fair to become as popular as the pictures from the solid ground.

The Alarms of Peace.

Mrs. Jones' new looker had to get off to his work very early. It was dark in the first morning, and as he carefully made his way to the head of the stairs, his foot struck something with a hollow, metallic sound. Losing his balance, he fell from top to bottom of the stairs, together with the obstacle which had upset him—a large tin bath. As he lay panting at the foot, he heard a drowsy "light-ho!" from one of the upstairs rooms.

At supper-time he complained loudly about the carelessness of the person who had left the tin bath in such an awkward position.

"That was Mr. Tim's," said the landlady, with a smile. "He always puts it there. He's a very hard sleeper, and only a noise like that wakes him up. He calls it his alarm-clock."

Enthusiasm for aviation has reached such a point in Brazil that important factories of France, Great Britain, Italy, and the United States have sent representatives to that country. These have been devoting several months to the study of the market, and have tried to win concessions from the Government. With the exception of Great Britain, all the manufacturers have sent machines, and there are daily flights, aerial service, both freight and passenger, is to be established by a resident British company, between the chief cities of the republic.

All Upset.

Mother—"You must be very careful, dear; the doctor says your system is all upset."

Little Violet—"I 'specs it is, mamma, 'cause my foot's asleep, and people must be 'terribly upset when they go to sleep at the wrong end!"

His Weather Eye.

Two ladies were hurrying down the street with their umbrellas held low against the driving rain, when, on turning a corner sharply, the point of one umbrella struck a passerby in the forehead.

"Gracious!" exclaimed the woman.

"I'll keep an eye out in the future."

"Madam," returned the man, "you nearly had one out in the present."

The flight of a train is like the throbbing of an enormous pulse in the arteries of the nation. To slow the beat is to slow the life of the country.

THE train in this picture is one of the eleven hundred freight trains in daily service in Canada.

It consists of one heavy-duty freight engine and 45 standard box cars.

It can carry 2,000 tons of wheat.

In 1913 its engine could have been built for \$34,700—to-day \$81,000; its box cars for \$1,138.85 each—to-day \$3,797.50.

In other words the rolling stock alone in the movement of 2,000 tons of wheat has increased in cost from \$85,948.25 to \$251,887.50 or 193.1%!

The labor bill of the railways has risen in the same period from \$115,000,000 to \$231,000,000—101%!

The cost of rails for a mile of track has gone up from \$9,497 to \$19,680—107%!

No cost has been unaffected by the general rise.

Operating expenses continue to rise more rapidly than Gross earnings. Net earnings are sinking at an alarming rate.

These are the facts that lie behind the application for increased freight rates for the railways.

## FINED FOR VIOLATING FOREST FIRES LAW

Thirty Persons in Restigouche  
Up Before Magistrate  
Matheson.

Fredericton, July 26.—Forty persons charged with cases of violation of the forest fires law, were prosecuted by Chief Warden Gagnon during the past week before Magistrate P. Matheson at Five Fingers and Kedgwick, and fines amounting to between \$500 and \$600 were collected from offenders. The charges were in connection with the forest fires of the past season which broke out at St. Quentin and vicinity.

In thirty-three of the forty cases convictions were secured, three cases were withdrawn and three cases were dismissed.

Goes on, our grief unheeding

We wish that we could call a cop

And hold it up for speeding.

## A FATAL JEWEL.

De-Lake's Fall Led to Ill-Starred  
Diamond.

An ill-starred diamond, which last night as a central gem in the crown of Princess, is now credited with having been a factor in bringing about the ruin of the Hohenzollern dynasty. It is known as the "Blaze of Glory."

According to the tale about it, the diamond was given by King Solomon to the Queen of Sheba, having been plucked by him from his garden for her adornment. Curious carvings on two sides of it are supposed to be heraldic crests of the two ancient lovers. Tales of the gem were carried into Persia, where they existed the great of the Sassanid King Kavad, Hakin II, who robbed the Queen of Sheba's grave to secure it for himself. Within two weeks thereafter he was slain in his palace, and thereafter, through the centuries, rakes and princes who acquired the gem came to grief.

The marriage of Brandenburg, whose house started the Prussian dynasty, found the gem on a Jewish merchant in one of the Magdeburg raids into Silesia, and seized it, declaring that he would place it in the crown of a great kingdom he was to establish. The merchant was instantly slain when he ventured to remind the captor of the evil influence of the diamond. It seems to have been handed down the Prussian line, until finally it reached the one-time emperor now in retreat in Holland. It is said that Henry Zankelhorn, a learned antiquary, who had learned the fateful history of the gem and who in some way had forecasted that ruin would come to its owner between the years 1918 and 1922, implored the young emperor to rid himself of it before his coronation, and that to this entreaty William replied:

"You must understand that I am crowned by the Spirit of God and the will of my people. The Hohenzollerns must endure forever. No curse of evil can harm our dynasty." So he kept the gem in his crown, and tradition seems to have justified itself.—The Watch on the Rhine.

**Pancakes For the Poor.**

Perhaps you profess ignorance as to knowing how pancakes first came to be produced? Well, the story is very interesting, and worth telling.

Monks were the originators of pancakes, and we are told that on Shrove Tuesday, their supper consisted of thin cakes, made in a pan with flour, milk, eggs, fat, lard, etc.—hence pancakes. The idea was to use up all the foodstuffs remaining, which were prohibited on the following day—Ash Wednesday, the commencement of Lent. In the olden days the poor people would gather round various monastery gates, it being the custom for the monks to distribute what pancakes they had left after supper amongst the hungry shuttles. Shrove-Tuesday, and Shrove Tuesday, by the way, were in the first place, called Shrove-days. They were so called from the fact that in the Roman Catholic Church confessions are then made and regarded preparatory to the Fast of Lent. Shrove, which meant confession, later came to be called Shrove—thus we now get Shrove Sunday and Shrove Tuesday.

Following this is Ash Wednesday, which gets its name from the custom, in the Roman Catholic Church, of using ashes as a sign of penitence. These ashes were strewn on the head of the penitent on that particular day, consequently it came to be known as "Ash" Wednesday.

**Hardly the Same.**

The married lady at the wedding party wiped her eyes and grasped the bride's hands fervently. "Oh, my dear," she said feelingly, "only hope that Mr. Dinwiddie and you will be as happy as my husband and I are. Through all the twenty years of our married life we have continued to use to each other the dear little pet names of our engagement days."

Then the married guest went home, and found hubby waiting for his supper.

"Amelia, my angel," he snapped, "it's about time you did get home! I want some tea!"

"Don't you ever think of anything except eating, darling?" asked the lady with a sour look.

"Don't talk like an idiot, little sugar plum! I'm hungry!" was the man's only reply.

"Well, ducks, you've been hungry before, and I expect you'll be hungry again, so you needn't be disagreeable about it. And don't dare to call me an idiot, darling. I don't like it!"

As she spoke she grappled with a tin of salmon which she was opening for his supper.

**Giving the Better.**

Competition was keen in the street market. Two rivals were selling ready-made coats and things, and each tried to outdo the other.

"Look here," shouted the first, as a brain wave struck him, "I tell you I am selling these coats at rock-bottom prices. I charge only for the making. I don't need to make you pay a penny for the cloth, because I pinches it. See?"

The other stall-holder did some hard thinking. He saw that his opponent's glib he had attracted the crowd.

"Oh, yes!" he yelled derisively. "I says as I charge you only for the making. Cause he pinches the cloth. But I don't even charge you for the making, 'cause I pinches 'em all ready made!"

**Had His Money's Worth.**

"I canna get over it," a Scottish farmer remarked to his wife. "I put a two-shilling piece in the plate at the Kirk this morning instead of my usual penny."

The housewife had noticed the mistake, and in silence he allowed the farmer to miss the plate for twenty-three consecutive Sundays.

On the twenty-fourth Sunday the farmer again ignored the plate, but the old housewife held out a detaining hand, and in a loud, tragic whisper said:

"Your time's up noo, Sandy."

**Tommy's Little Mistake.**

Father—"Now, young man, come with me and get your jacket off."

Son—"You're not going to lick me, dad, are you?"

"Certainly—Didn't I tell you this morning that I should settle with you for your bad behaviour?"

"Yes, but I thought it was only a joke, like when you told the grocer you was going to settle with him."

## Healthy Mothers Healthy Babies

Every true mother realizes the fact that her baby's health depends upon her own, that the very vitality of her child is influenced by her own physical condition. How important it is, therefore, to guard against any derangement of the female organs, which induces general weakness, nervousness, constant fatigue and utter inability to properly care for her child. Please remember, that Lydia E. Pinkham's Vegetable Compound has brought health and strength to thousands of such mothers.

Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, some days I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia. I had gained in strength and was able to go around and do all my housework. My baby when I month old weighed 10 pounds and I feel better than I have for a long time. I never had any medicine do me so much good."—Mrs. FRANK MORTIMER, Mitchell, Ind.

Good health during and after maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.

## Something Fascinating About It

THE joy of the dance—the laughing lilt of the latest rag—a bounding, resounding cataract of soul-stirring sound—isn't that the picture your mind calls up when you think of music?

Perhaps that's the phase of music you best appreciate—the glad, joyous abandon, the vim and vigor of echoing melody.

Then—when you come to buy your piano it's the big feature you'll look for—the power to lift you out of yourself with the care-free, bountiful richness of its song.

You'll be wise to hear first and foremost the flexible tone of **Canada's Greatest Piano**

Note how it responds to the happy mind, makes the last red corpuscle in your blood glow with animation.

And then listen to its delicate murmurs, its bold, deep, rich harmonies. As you contrast them with the thrill of its ringing echoes—

—truly you will say there, is something fascinating about the tone of the Gerhard Heintzman.

Call at our store. Judge the merit of Canada's Greatest Piano. Compare its fascinating beauty—see the graceful lines, the richly finished cases of this famous piano.

Come and picture what it would mean to you to have this joy in your home—what an inspiration it would be to the children—how it would brighten home-life, make entertaining so delightfully simple.

You'll be surprised that so great a lifetime possession can be bought on such easy terms.

## LIBERALS ARE RETURNED IN N. S.

Only one Lone Conservative in House—Opposition Made up of Farmers and Labor.

Halifax, July 27.—The provincial results today were: Liberals, thirty; Conservatives, one; Labor, five; Farmers seven. Total, forty-three seats. In the election of June 20, 1916, the results were: Liberals, thirty-two; Conservatives, eleven.

HOUSE CAT WAS NO MATCH FOR WILD ONE.

Abram Steeves of Berry's Mills, was awakened the other night by a terrifying noise in his woodshed. Upon investigation he found that the noise was due to a fight between a wild cat and the house cat. The house cat fought bravely to save her kittens. But she was driven off, and when Mr. Steeves arrived on the scene the kittens had been killed and were being devoured by the ferocious beast which made its escape to the nearby woods.

TEN MIRACLES AT ST. ANNE DE BEAUPRE

Quebec, July 28.—Upwards of ten thousand people from all parts of Canada and the United States gathered at St. Anne de Beaur on Sunday and Monday to take part in the honoring of the feast of St. Anne at the far-famed shrine.

Up to Monday night, ten miracles had been reported, but the Redemptorist Fathers in charge of the shrine refused to make any official statement, explaining that they could not record a cure until they had fully investigated the case.

Miss Dorothy Duncan, Miss Lydia Matthews, Miss Estelle Bruce, Miss Freda Davidson, Miss Gladys Day (St. John), Miss Lucie Nelson, Miss Margaret McLennan, Miss Enid McKenzie, Miss Jean McLennan, Miss Ethel Lingley, Miss Winnie Delaney, and Messrs. E. Starrak, Ritchie Henderson, Lindsay Sullivan, Lane, W. G. Mott, W. M. Ferguson, W. Blackmer, Jas. Joudry, Geo. Wallace, L. Rafuse, Al. Myles and Colin McKenzie.

### WIRELESS TELEPHONY

The trans-Atlantic voyage of the Imperial press delegates which ended yesterday when they landed from the SS. Victorian will long be memorable for the first successful experiments in wireless telephony from land and even from a railway train to a vessel in mid-ocean. The experiments proved beyond doubt, that wireless telephony is now feasible as a practical medium of trans-ocean and trans-continental communication. In St. John's, Newfoundland, the messages from the ship, at sea, were said to have been transmitted by wire from one part of the city to another.—Ex.

### HOTEL DIEU BAZAAR.

Great preparations are being made for the Bazaar which is to be held next week in the Campbellton Skating Rink in aid of the Hotel Dieu Hospital. A long list of attractions is being made and meals and refreshments will be served.

### SMALLPOX CASES.

Two more cases of smallpox were reported from Queens county yesterday afternoon, both of them from Chipman in a house where there had been a case of the disease more than two weeks ago. This makes a total of seven cases of the disease in that county but no fears of a spread of smallpox in the area are entertained by Dr. William Warwick, district health officer, who says that the showing of the last two weeks has been most satisfactory.

### LEST WE FORGET.

We wish to remind the merchants and business men that our plant is fully equipped to handle all kinds of printing, including monthly accounts and index systems, ledger leaves, counter check books and every class of commercial printing.
