NO SETTLEMENT YET EVIDENT IN BAND DIFFICULTIES

With Borrowed Instruments Band Engagement was Filled—
New Band to Be Organized—Bandmaster Philp to Issue
Statement—Outside Press Comments.

Although Chatham now has no
Regimental band this city is still the
possessor of a musical organization—
and a good one too. It is the Pen-
insular band, an association of young
colored men. A little over a year
ago a number of the musicians among
the colored population decided to form
a band, and they did so. They bought
all their own instruments and have
practiced diligently and faithfully till
to-day they have a good band. They
have only as yet made one public
appearance, but on that occasion they
performed very creditably indeed.

The ex-members of the now de-
funct 24th Regiment band are in-
debted to the Peninsular band. For
it was through the kindness of the
latter that they were able to fulfill
their engagement at Erieck Tuesday
night. When the instruments and
music were taken away from the
24th Regiment band and they were
in a hole, their colored comrades
kindly came to their assistance and
loaned them their instruments. By
reason of the kindness of the Pen-
insular band, a band of about 16
pieces was secured to play at the
Eau. They had no music, however,
and played nothing but marches, so
that those who desired to walk were
unable to do so. They played one
piece at the C. P. E. station before
leaving by way of practice and won
applause from a number of boys.

A CITIZEN BAND.
Although no official public an-
nouncement has been made, several
of the members of the late band say
it is the intention to form a citizen
band. New instruments have been
ordered with this end in view, and
it is the intention, they say, to pro-
ceed with engagements as usual.
Bandmaster Philp will state the
bandmaster's position in a public let-
ter shortly.

PRESS COMMENTS.
Windsor Record.—The 24th Regi-
ment Band, of Chatham, got gay the
other day and have now been
reduced to the ranks. The action
was taken by Colonel Rankin and
was heartily cheered by the soldiers.
St. Thomas Journal.—The Chatham
Regiment Band have been disciplined
for unseemly conduct. The Chatham-
ites have a good band, but it
has suffered from a bad attack of
"swelled head" and the punishment
meted out will doubtless do good.
Hamilton Spectator.—The 24th Regi-
ment Band of Chatham have been
disciplined by the commanding officer
for unseemly conduct at church
parades and on other occasions. The
announcement was accorded three
days by the soldiers in the ranks.
The prompt action of the Colonel will
be commended by all who have the
best interests of the Canadian militia
at heart. Canada wants gentlemanly
soldiers.

HEARTRENDING SCENES.

AFTERMATH OF THE DISAS- TER AT HANNA.

Two Hundred and Thirty-five Miners
Killed—Some Injured Men
Fought Against Rescue.

Hanna, Wyo., July 2.—According
to the best information obtainable, 235
men out of 242 who were in the Union
Pacific Mine No. 1 were killed in the
explosion here Tuesday. The majority
of the victims are Finlanders and
negroes. A small army of rescuers,
spurred on by the frantic appeals of
wives, mothers and children, who gathered
at the mine, worked with desperate
energy all night. They tell of pitiful
scenes in the mine. Some of the
survivors were driven insane and
fought furiously against rescue. Dazed
and half-dead survivors were found sitting
on cars or lying on the floor, careless
of whether they lived or died. Near the
seventeenth level twenty bodies were
found strewn over a pile of debris, which
the men had striven to surmount be-
fore they were overcome by the deadly
fumes. Some were scared and black-
ened by the flames that were too weak
to bring out a body. For hours the
scene at the mouth of the level was
heartrending. Mothers, wives and
children huddled together, weeping and
wringing their hands. The most tran-
sient of the edge of the gap, and
tried to force a way into the slope. An
expert, who went almost to the seven-
teenth level, says the mine cannot
possibly be cleared for a month. It is
feared that men in the lower levels
were torn to pieces by the explosion,
which hurled great timber high over
the town and 1,700 feet beyond the
mouth of the slope. The fire bosses,
who had reported all safe before work-
ing time yesterday, met death while
making a second inspection.

MANITOBA POLITICS.

Election Clashes With Winnipeg Fair.

Winnipeg, July 2.—The announce-
ment that the Manitoba Legislature
had been dissolved caused no surprise,
as it had been generally expected that
the election date would be fixed for
July 20th. The chief objection to the
date is that it clashes with the Win-
nipeg Industrial Exhibition, and will
interfere materially with the success of
the show, many of the farmer candi-
dates being exhibitors of stock. Both
parties are thoroughly organized for
the fray, and there are no vacancies in
the list of candidates formerly nomi-
nated. Indications point to the defeat
of at least three Cabinet Ministers,
including Provincial Secretary McFad-
den, and Attorney-General Campbell.
Premier Roblin will also be given a
close race in Daferin by "Jimmy"
Kiddell, the farmers' candidate. The
returning officers for the city divisions
are—Winnipeg Centre, Capt. Doug-
lass; Winnipeg North, F. B. Wellan;
Winnipeg South, E. W. Low.
Premier Roblin addressed meetings
at Crandell and Minota to-day, while
ex-Premier Greenway spoke before a
large gathering at Grand View.

No one can be disloyal to any civil
duty without being false to his coun-
try.

THE DINGHY UPSET.

Narrow Escape of Toronto Yacht- men.

Oakville, July 2.—The lake sailing
skiff races here Tuesday and yester-
day were a great success. About 700
skiffs and yachts are in the river, and
some four or five hundred yachtsmen
have visited the strawberry town. Ow-
ing to a heavy gale yesterday all
races were called off. About 230 three
young men started out in a dinghy for
Toronto. Everything went well until
they were opposite the Gooderham
farm, about three miles down, when a
heavy sea struck her stern, completely
swamping her. The three occupants
all clung gamely to the boat. Lyman
Gooderham, a young lad of about 15,
who was at the farm, and Mr. J. A.
H. Bridge, a fruit-grower on the lake
shore, saw the accident and put out in
a boat to rescue the unfortunate men,
but before getting very far a heavy
sea proved too much for their small
boat, and they, too, were swamped.
For over two hours these five men
were in the water. One of the men tied
his vest to an oar and kept it aloft.
Fortunately, the steamer Niagara, on
her way in Toronto, noticed the dis-
tress signal and promptly put in to-
wards the boats. Captain Cook and one
of the deck hands immediately lowered
a boat and rescued the five perish-
ing occupants, and not a moment too
soon. Ten minutes more would have
been too late. Two of the men were
already numb from their wet and down.
They were quickly put to bed on board
the Niagara and restoratives applied.
Dr. Urquhart was in attendance when
the Niagara arrived. Too much praise
cannot be bestowed on young Gooder-
ham and Mr. Bridge for the heroic
manner in which they ventured out at
their peril to rescue the distressed.
Captain Cook also deserves great credit
for his alertness in noticing the distress
signal, and the prompt manner in which
he put out in the yawl and brought
all the men safely on board. The Cleo-
patra also put out to rescue the drown-
ing men when the news came up by
phone from the Gooderham farm, but
the Niagara had already picked them
up.

THIEF GOT AWAY.

Daring Escape at Carberry, Mani- toba.

Carberry, Man., July 2.—Alphonse
Menagh, a young man who arrived re-
cently from Montreal, made a daring
escape from Chief Tidsberry, after the
latter had cleverly caught him in the act
of robbing Manville's clothing and shoe
store. Menagh was suspected of sev-
eral petty robberies, and Chief Tids-
berry set a trap for him. Menagh had
been informed that a large sum of
money had been left in the till, and
then a clerk and the chief hid them-
selves in the store to await the appear-
ance of the thief. About 3 o'clock
Menagh entered the store, gaining en-
trance through the coal chute. He was
in the act of opening the till, when
the chief caught him. He offered no
resistance, but broke down and con-
fessed to previous thefts. He asked to
be taken to his room at the hotel. As
the officer and his prisoner reached
the second floor of the hotel, where
the prisoner's room was, a chamber-
maid passed between them. The pris-
oner passed into a room, and instan-
tly made a bolt through the window to
a verandah and escaped before the offi-
cer realized what had happened. He
is still at large.

A NARROW ESCAPE.

Three Young People, Upset in Hamil- ton Bay.

Hamilton, July 2.—Miss Gallagher,
daughter of Mr. R. E. Gallagher,
principal of the Canada Business Col-
lege; Mr. Walter G. Harvey, teller of
the Bank of Hamilton, and one of
the Bank of Hamilton clerks had an
unpleasant experience on the bay
about 11 o'clock to-day. They were
out in a skiff and it upset about op-
posite Rock Bay. The three clung
to the upturned vessel for some time,
and were rescued by Fleming Ren-
son, 474 Bay street north, and Geo.
Hallerow, 337 Catharine street north.
The rescuers had to row about half
a mile to reach the party in dis-
tress, and then they were unable to
take off the trio. They took Miss
Gallagher in their boat first, and
rowed her to the Acacia's wharf,
whence she was brought in the
steamer Acacia across the bay and
escorted home. As soon as she was
placed out of danger the rescuing
party returned for her companions,
who were still clinging to their up-
turned skiff, and they were taken off,
pretty nearly exhausted. The skiff
drifted to the beach, where Constable
Hazel saw it and instituted inquiries
as to who had been in it. The boat
had been rented from Massie's.

THE GREAT MOTOR RACE.

Elaborate Precautions For the Com- test.

Kildare, Ireland, July 2.—Everything
is now in readiness for the interna-
tional race for the James Gordon Ben-
nett Cup, which will start at 7 o'clock
to-morrow morning. All day long the
counties of Carlow, Kildare and
Queen's, through which the course
winds, has been overrun with num-
berless motors. At speeds varying from
15 to 60 miles an hour cars of all sorts
and descriptions have been passing
along the course, which is dotted with
stands and warning flags, and is lined
at interesting points with spectators. It
is announced that M. Gabriel will re-
place Henri Fournier in the French
coincident, and M. Gozary will take
the place of H. Braun in the German
trio. The four competing teams will
therefore be as follows:—
England—S. F. Edge, C. Jarrott and
J. W. Stocks.
France—Chevalier R. de Knyff, M.
Farman and M. Gabriel.
United States—A. Winton, P. Owen
and L. P. Moers.
Germany—Baron de Caters, Foxhall
Keene and M. Genatzy.

ANTHONY HOPE MARRIED.

The Famous English Author Weds a New York Woman.

London, July 2.—Anthony Hope
Hawkins, the author, and Miss Eliza-
beth Sheldon of New York, sister of
Susanne Sheldon (Mrs. Ainley), the
actress, were married at St. Bride's
Church, Fleet street, this afternoon
in the presence of many distinguished
literary and society people. The
church was handsomely decorated,
and the Bishop of Stepney officiated.
There were six bridesmaids, among
them being Ethel Barrymore.

A Canadian Honored.

Middletown, N. J., July 1.—At the
Wesleyan University commencement
today Secretary of the Treasury Shaw
and Rev. David Allison of Mount
Allison College, New Brunswick, Can-
ada, were among those to receive the
degree of LL.D.

Exodus to the U.S.

Toronto, July 2.—Immigrants
who have been brought out
to Canada, and upon whom, it
is understood, the Dominion Govern-
ment are paying a commission, are
said to be finding their way across
the border into the United States.
The claim is put forward by those
who leave the country that condi-
tions here were misrepresented, that
they were told they could earn big
money by agents who induced them
to come, and that when they arrived
here they found they were unable to
obtain work.
While it is true that a number of
old countrymen who came to Can-
ada with the intention of settling
down here have found their way
across the line, still there is no rea-
son to believe that the number is
large, and would probably not exceed
one hundred since the season of navi-
gation opened. Most of them on a
boat, and are easily traced, not only
by the boat lines themselves, but by
the agents kept here by the Ameri-
can Government to prevent undesir-
able immigrants getting into the
United States.

TELEGRAPH BREVITIES.

The whole Austrian Cabinet has re-
signed.
There were two deaths from the heat
in Chicago.

Ground was broken at Whitby for the
new Grand Trunk station.

Twenty people were injured in a rail-
way accident near Brussels, Belgium.

Dominion Day was celebrated in a very
enthusiastic manner throughout Canada.

Near Horon Lake, Jackson County,
Minn., eight people were killed by a tor-
nado.

SUCCESSFUL CONVENTION

The Western Ontario Dentists
Held Excellent Gathering
in Maple City.

Many Important Papers and
Interesting Discussions—
Officers Elected For
 ensuing Year.

The second annual meeting of the
Western Ontario Dental Association
concluded their convention yesterday
afternoon after having held a most
successful meeting. The afternoon
and evening session on Tuesday was
devoted to papers, while the Wednes-
day session was almost exclusively
taken up with clinics.

Dr. A. J. McDonagh, Toronto, gave
an interesting paper on "The im-
mediate treatment and filling of the
teeth." He was followed by Dr. Har-
old Clark, Toronto, who gave an in-
structive paper entitled "Posts and
post holes."

Dr. J. B. Willmott, Toronto, was
to have given a paper, but he was
too ill to attend and at the evening
session his paper was read by Dr.
Thornton. The discussion upon it
was participated in by Dr. Webster,
Toronto; Dr. Harold Clark, Toronto;
Dr. Teskey, St. Thomas; Dr. Thorn-
ton, Chatham; Dr. Caldwell, Dundas;
and J. E. Wilkinson, Toronto. Dr.
C. H. Reynolds, Stratford, also gave
a paper.

Dr. J. A. Sherwood, Buffalo, gave
a paper on the use of porcelain in
crown bridge work. This concluded
the first day's business and after-
ward two hours were pleasantly spent
socially in song and story.

Wednesday morning the officers for
the ensuing year were elected as fol-
lows:

Honorary President—Dr. Thornton.
President—Dr. Mills, Brantford.
Vice-President—Dr. Beasley, Lon-
don.
Secretary—Dr. C. Alvin Snell, Es-
sex.

Supervisor of Clinics—Dr. Babcock,
Brantford.
Executive committee—G. T. Ken-
nedy, St. Thomas; W. A. Piper, Lon-
don, and Will Revel, Windsor.
Brantford was selected as the
meeting place for 1904.

A resolution conveying a very
heartily vote of thanks to the retir-
ing officers, and particularly to Pres-
ident Dr. Thornton, was passed. On
motion of H. R. Abbott, London, and
Dr. Bennett, St. Thomas, a hearty
vote of thanks was passed to Dr.
Thornton and Dr. Hicks, of this city,
for the splendid entertainment ac-
corded the visitors.

Dr. J. Young, Detroit, gave a clinic
on "Counter gold filling." He oper-
ated on Dr. Robertson, of Harwich.
Dr. E. E. Bennett, St. Thomas, gave
a clinic on prolonged anesthesia, and
extracted a number of roots from
Joseph Northwood's jaw without pain.

Clinics were also given by Dr. J.
A. Sherwood, Buffalo; Dr. E. Doyle,
Brantford; Dr. E. C. Abbott, Tor-
onto, and Dr. A. J. McDonagh, Tor-
onto.

Dr. Mills, Brantford, exhibited a
number of appliances of his own
manufacture. He is looked upon as
the leader among dentists in the
field of mechanical appliances. He
makes his own and has invented many
very useful instruments.

It was remarked that a number of
the older men who had never at-
tended a convention before were
present. The dentists all said they
had a most enjoyable time. Dr.
Frank Adams, Toronto, remarked
that he had had a good time and
that the convention was a splendid
one.

THURSDAY, JULY 2.

BILL SHOULD PASS.

It is very strange that the Government and Senate should delay the passing of the Radial Railroad charter for Chatham and Kent.

This enterprise would mean much to the whole district and the people are anxious to have the work proceed at the earliest possible opportunity.

An earnest effort should be made to secure prompt action—wire-pulling and gratifying should not be tolerated and the bill should be dealt with and passed upon its merits.

DOMINION DAY.

Canada's children enthusiastically doffed their hats yesterday and heartily wished their beloved country many happy returns of the day.

Canada has reached the years of maturity, but Canada is still growing, growing in wealth, in population, in material prosperity and in the self-reliance of her people.

We are proud of our country, but we do not seem yet to realize, many of us, how great that country is, or how worthy of our hearts' best devotion.

Let Young Canada don the Maple Leaf and rejoice and be thankful that a kindly fate has given him such a glorious birthright. Let him take fresh inspiration from the National anniversary and resolve to move with more confident step to the possession and development of his great inheritance.

MR. DODDS ON GAMBLING.

Canadian Sportman.

I haven't an atom of regard for the professional gambler, though I have known many of them whose word was as good as a bond of the bank of England; but neither have I any respect for the clergymen who, while they liberally damn gambling with cards, and betting, however trifling, on a horse race, will religiously refrain from condemning gambling in stocks, because some of the most reckless operators in that line are pillars of their churches, shining lights in their Sabbath schools, generous subscribers to their church funds, and, what adds to their influence, they give pointers to many of these clergymen about the most promising stock to play for a quick profit.

DISTRICT DOINGS.

DRESDEN

June 30.—James Blackburn and Mrs. Alexander Terrie were married in Windsor yesterday, arriving home last evening. Their many friends are offering congratulations.

The piano recital given by the pupils of Miss Effie Lawrence, in the Grand Opera House yesterday afternoon, was a most delightful affair, the little pupils acquitting themselves in a manner highly creditable to their teacher. The piano used for the occasion was a fine Newcombe, kindly loaned by H. T. Quigley.

Mrs. J. M. Shaw is seriously ill in the Maple City.

Osborne Neely is having his house re-painted.

Robert Alkin is having his verandah enlarged.

Mrs. John Deaper leaves next week for Detroit, where she will visit relatives.

BLENHEIM

June 27.—Miss Neta Bounsell leaves to-night for her summer vacation. The social held at Mr. Dan Proctor's, Communication Road North, by the young people of Haffman's Corners Methodist church, was a great success. The football match between Haffman's Corners and Northwood resulted in a tie. It was a good game.

June 29.—Mr. and Mrs. A. Jacklin and Mrs. Hanks and daughters spent Saturday in Chatham.

Mrs. F. Smith, of Chatham, spent last week with relatives in town.

Rev. D. W. and Mrs. Collins leave to-day to spend the week with old friends in Wardsville.

R. H. Bounsell, of Chatham, spent Sunday with relatives in town.

The Blenheim and Rodney Juniors play here on Wednesday morning. The juniors are practicing hard for the game.

A lawn social will be held by the Ladies Aid of the Baptist church on the large lawn of the Rev. G. B. Brown. The Blenheim orchestra will furnish the music. Strawberries and cream from six to nine a. m.

Frank Lipscomb, of the Dominion Bank, Belleville, has arrived at the Beau to spend his vacation with his grandparents, Mr. and Mrs. C. Malory, Sr.

Mr. Joshua Meade left for Leamington this morning.

Harry Faust is home from Chicago on a two weeks' vacation.

R. Bannan, of Bank of Commerce, is

The Proof is in the Eating.

People have been talked to so much about what they should eat for breakfast that mere words have lost their value. The real test of a food is found in the numbers who continue to use it after they have given it a fair test.

Malta-Vita

is so deliciously appetizing that one single trial is all that is asked for it. The people have found out that it is easier to digest than the raw meal foods insufficiently cooked, that it makes one feel brighter and more ready for work, and that it is more convenient to use.

No Work—No Heat—Just Cream—Then Eat and after that—well, all other breakfast foods are forgotten.

back from Toronto.

Mr. and Mrs. G. M. Baird go to Erieau for their summer vacation tomorrow.

Mr. W. Dean spent Sunday with his parents in London.

WALLACEBERG

June 29.—The Masonic fraternity attended service in the Presbyterian Church yesterday morning, when the pastor, Rev. J. M. Nicol gave a very suitable and worthy address.

Rev. J. S. Cook preached his farewell sermon last evening to an exceptionally large congregation. Special music was rendered by the choir. Dr. Cook has been pastor of the Methodist Church for the past four years and it is needless to say that he has made many warm friends, who will be sorry to lose Dr. Cook and his family.

Ross Archer, of Cleveland, is the guest of his brother, A. E. Archer.

Miss Dolly Dupont spent Sunday with friends here.

Decoration Day was held yesterday by the I. O. O. F., Firemen, Orange Young Britons and Oddfellows. The companion lodges also assisted.

Miss Ethel Hookwith, who has been attending school in Leamington, has returned for the holidays.

In Sarnia, on Saturday, June 27th, to Mr. and Mrs. John Reynolds, of this place, a daughter.

"Take care of the pennies and the pounds will take care of themselves."

Large things are but an aggregation of small things. If we take care of the small things we are in effect taking care of the large things which the small things combine to make.

Take care of what you eat, when you eat, and how you eat, and your stomach will take care of itself. But who takes care of such trivial things? That is why, some day, the majority of people have to take care of the stomach. When that day comes, there is no aid so effective in undoing the results of past carelessness as Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, and restores the organs of digestion and nutrition to a condition of healthy activity. It cures biliousness, heartburn, flatulence, indigestion, palpitation, dizziness, cold extremities and a score of other ailments which are but symptoms of disorder in the stomach and its allied organs.

TILBURY

June 29.—Miss Maude Powell, of Merlin, is the guest of her cousin, Miss Beatrice Sales.

Mrs. Angus Macintosh, and Miss Jessie Macintosh, of Tilbury East, spent Sunday with relatives in Leamington.

Rev. Robert Wilson, of Birr, who is visiting his brother here, A. A. Wilson, will conduct service in the English church here next Sunday morning.

Mrs. Wm. Ward, of Essex, is visiting friends here.

Cliff Richardson is visiting relatives in Detroit.

Dr. Macdonald, of Detroit, spent Sunday in town.

Mr. and Mrs. James Reynolds, of Wheatley, spent Sunday here the guests of Mr. and Mrs. J. R. Palmer.

June 30.—Mrs. Frank Beno left last night on a visit with friends in Toronto.

Tilbury baseball club expects to go to Ridgetown to-morrow to take part in a ball tournament there.

Mrs. Dusty has returned from an extended visit in St. Mary's.

H. S. Shaw, of Toronto, is holidaying at his home here.

Miss Mary Dupuis, of Tilbury East, and Mr. Coutier, were married in St. Francis church here yesterday by Rev. Fr. Langlois.

Mrs. Douglas, of Dakota, is visiting her sister here, Mrs. J. Wilson, Fort street.

Miss Lydia Beno, of Essex, is visiting relatives here.

Miss Nellie Norry, of Detroit, is visiting relatives here.

Happiness and unhappiness are qualities of mind—not of place or position.

PERFECT MANHOOD

is right yours; but if you are not the man you should be, if you are losing your energy, your vital force, your strength, and feeling you don't care what happens, you are suffering from Lost Vitality; it creeps upon you unawares; it does not deceive yourself or remain in ignorance while you are being dragged down by this disease; no matter what the cause may be, whether early abuse, excess, or overwork and business cares, the result is the same: premature loss of strength, energy, vitality, and business success. THE LATEST METHOD TREATMENT WILL CURE YOU. I guarantee it as a positive cure for these conditions. Read the following sworn affidavit. Positively no testimonials used unless patients give written permission.

State of Michigan, County of Wayne, ss.:
I, J. E. L. CHENEY, do hereby certify that I had been a sufferer from Nervous Debility, loss of vitality and weakness for a long time; had been doctoring both in Canada and Detroit without receiving any benefit, and placed myself under Dr. J. E. L. CHENEY'S care, Dec. 28, 1902. I noticed an improvement in my condition in less than one week; was completely cured April 15, 1903, and have had no return of said trouble.

Subscribed and sworn to before me this 15th day of January, 1903.
Wm. A. Smith, Notary Public, Wayne Co., Mich.

Cure Guaranteed—Pay When Cured.
I cure Varicose and Stripped veins without cutting, stretching or loss of time; also Blood Poisons, Chronic Nervous Prostration, Impotency, Kidney Liver, Bladder, Hemorrhoids, Female and Male Troubles. Consultation Free. If you cannot call, write for book for home treatment. Perfect system of home treatment for those who cannot call. Book Free. All medicines for Canadian patients shipped from Windsor, Ont. prepaid.

FLOODS IN NEW YORK.

FIVE FEET OF WATER IN SOME OF THE STREETS.

Children Had to be Taken to School in Row Boats—Number of Houses Damaged.

New York, June 30.—New York and vicinity were flooded yesterday by a downpour of rain during which about half as much water fell as in the prolonged period of wet weather this month. The storm was accompanied by thunder and lightning, and several conspicuous spots were struck by bolts of lightning.

The flood extended to the foot of Broadway, where the ferry houses of the Brooklyn Ferry Company were flooded. This was due to the rush of water descending the decline from Bedford avenue. It poured down that thoroughfare fully a foot deep and whirled into the ferry houses, making it impossible for passengers to gain the boats for over an hour. One of the houses along Harrison avenue, where the flood was greatest, became so badly undermined by the rush of the water that it sank several feet below the level of the street, and the occupants had to run for their lives. Several other houses will have to be vacated because of the washing of the foundations.

His Own Reflection shames the man whose face is branded with Ecze-ma. Let him anoint his inflamed, itching skin with Weaver's Cerate and purify his blood with Weaver's Syrup.

A word of kindness is seldom spoken in vain, while witty sayings are as easily lost as the pearls slipping from the broken string.

Do It Yourself.

Why do you ask the teacher or some classmate to solve that hard problem? Do it yourself. You might as well let some one else eat your dinner as to "do your sums" for you, says the North-western Christian Advocate.

Do not ask the teacher to parse all the difficult words or to assist you in the performance of any of your duties. Do it yourself. Do not ask for even a hint from anybody. Try again.

Every trial increases your ability, and you will finally succeed by dint of the very wisdom and strength gained in this effort, even if at first the problem is far beyond your skill. It is the study, not the answer, that really rewards your pains.

Is Not the Weather—It Means that You Want Toning Up—Try Dodd's Kidney Pills and Dodd's Dyspepsia Tablets.

These are the days of lassitude, the days when people have that languid feeling, when they would be satisfied to throw work and ambition to the winds, to sacrifice everything to the desire to rest.

You blame it on the weather. It's not the weather, it's the condition of your system. It's clogged up—you're run down. Your appetite is bad and your circulation is worse. If you want to feel right and fresh, try a combined treatment of Dodd's Dyspepsia Tablets and Dodd's Kidney Pills. They will put an edge on your appetite, start your blood circulating and make you ready to enjoy your holidays. They've done it for others. Mrs. J. N. A. Lawrence, of Maple Grove, N. S., has tried them. She says—

"I have used six bottles of Dodd's Kidney Pills and six boxes of Dodd's Dyspepsia Tablets, and I have not enjoyed as good health for years."

Others will tell you the same. Try it.

While a woman may lack nerve force she has the power to conceal the fact.

\$100 REWARD. \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c. Hall's Family Pills are the best.

A little learning is a dangerous thing, but not so fatal as knowing too much.

The best way of recognizing a benefit is never to forget it.

DUTIES ON TOBACCO.

EXCISE LARGELY INCREASED
ON THE FOREIGN LEAF.

New Regulations Cause a Flurry in the Trade in Toronto—Users of Plug Tobacco Will Feel Increase.

Ottawa, June 30.—The inland revenue authorities have determined to get after the stemmed foreign raw leaf tobacco which is being brought into Canada in yearly increasing quantities by combination factories. They think that it is preferable to have the unstemmed leaf imported so that the process of getting it in shape for manufacture may be done in this country, and more work afforded for Canadians. A readjustment of the excise duties has accordingly been effected, under which those factories which use native and foreign leaf will have to pay higher rates if they insist upon having the stemmed article. Under the readjustment the excise duties on foreign raw leaf, in addition to the existing rates, will be as follows:

Except when used for the manufacture of cigarettes, 20 cents per pound on unstemmed and on stemmed 28 cents per pound. When taken for use in the manufacture of cigarettes, 37 1/2 cents per pound on unstemmed, and 53 cents per pound on stemmed. When taken for use in the manufacture of cigars, 16 cents per pound on unstemmed and 23 cents per pound on stemmed.

Toronto, June 30.—By those engaged in the tobacco trade in Toronto the opinion is expressed that the immediate effect of the increase in the excise duties will be an advance in the price of cigars of from \$1.50 to \$2 a thousand, and on smoking and chewing tobacco it will mean an advance of about four cents per pound. This will be the advance to the retailer, but he will probably make a still further advance to the consumer. At the present time, the trade here argue, the increased duties cannot be of very great benefit to Canadian manufacturers of cigars, because there is a very limited manufacture of cigars from Canadian tobacco that will suit the taste of the Canadian consumer, but they admit it is possible to encourage the growth of a tobacco that may catch the Canadian taste. They state that there is no Canadian tobacco used in the manufacture of cigarettes.

CREAMERY BUTTER.

Amendments Will be Made in Mr. Fisher's Bill.

Ottawa, June 30.—For a considerable time past the practice has prevailed in Canada of sending to the British market quantities of butter, represented as creamery butter, but which in the real sense of the term was not that product at all. This butter would be made in small lots, repacked into exports, marked "creamery" and then forwarded to the United Kingdom. Originally it may have been good, but by reason of the conditions of handling and the unevenness of the quality on reaching the market, it has tended to discredit Canadian butter with English customers. The protection of our export butter trade, upon which large sums have annually been spent, has therefore become necessary, and it was for this purpose that Hon. Sydney Fisher introduced a bill which was recently discussed in the House. Persons in the trade give the name "creamery" only to butter which is manufactured in a factory. It is a number of dairymen who produce what they term "creamery butter" at home, and sell it as such upon the local market with special brands. When the bill was first introduced it was thought that the number of these producers was inconsiderable, and not enough to justify an exemption from the provisions of the bill. They, however, seem to be more numerous than was supposed, and it has been represented that their interests would be very seriously affected by the proposed legislation. The Minister of Agriculture has no desire to incur in any way interests that do not conflict with Canada's export trade, and it is possible to exempt from disabilities these dairymen who are using the word "creamery" as an indication of the character of their retaining those provisions which are necessary for the protection of our reputation abroad. Hon. Mr. Fisher will probably be disposed to consider such a suggestion favorably. It is likely that an amendment will be made to the bill, confining the operation of the clauses with respect to the marking of creamery butter to the export trade, so that the bill will not interfere with the marking of butter as "creamery" intended for local use only. The clauses of the bill which deal with the penalties will also be amended. At present the penalties run from \$400 down to \$10. The heaviest penalties would apply to offences such as deliberately manufacturing and dealing in oleomargarine, process butter, etc., but there are several minor offences which scarcely merit heavy penalties. Accordingly it is proposed to divide the range of penalties. Fines ranging from \$200 to \$400 will then be applicable to serious infractions of the law, while the minor offences will be punishable by penalties of from \$10 to \$50. It should be explained that Mr. Fisher's bill is introduced at the instance of the exporters, who, equally with the Minister, are desirous of maintaining the standard of Canadian butter.

Rev. Dr. Carman in Boston.

Boston, June 29.—The celebration of the 200th anniversary of the birth of John Wesley by the Methodists of the New England conference was continued to-day, with Rev. A. Carman of Toronto and Rev. George Jackson of Edinburgh, Scotland, among the leading speakers.

What We Are Worth.

If Pierpont Morgan owned the world instead of only a part of it he would be worth about \$400,000,000,000. If he owned the United States his wealth would amount to about \$94,300,000,000. The United States has the greatest total wealth and the smallest debt of any of the world's great powers, but on a per capita basis Great Britain is the richest. While the property and money of that mighty nation amount to only \$59,000,000,000 as against our \$94,300,000,000, its wealth amounts to \$1,442 per person, while in the United States the wealth amounts to only \$1,285 per capita. The second richest nation in Europe is France, which has wealth aggregating \$48,000,000,000, or \$1,257 per capita. Germany's wealth totals up \$40,000,000,000, or \$700 per capita. In addition she has \$500,000,000 lent or invested abroad. Russia, with its immense territory and population, has wealth amounting to only \$82,000,000,000.—Nashville American.

HOUSEHOLD HINTS.

Cups and saucers that have become stained may be made fresh again by rubbing them with coal ashes.

The best sponges are the cheapest in the end, even though they may be treble the cost of the common sponge.

An interlining of asbestos paper in the carving cloth or in doilies to use on polished tables will protect the table top.

To clean bronze ornaments take one dram of sweet oil, one ounce of alcohol and one ounce and a half of water. Apply quickly with a soft sponge, but do not rub.

Pieces of old velvetene should be washed and used for polishing. They are an excellent substitute for camels leather and may be washed as easily as an ordinary duster.

To supplement the services of a small writing desk a deep aldered bag of heavy silk or of velvetene may be fitted and attached below the table of the desk. This is useful to hold letters, etc.

Alcohol and water constitute a good washing fluid for fine cut and plate glass. Soaps, cleaning powders and polishing preparations are apt to scratch and dim highly polished surfaces. Only old, soft towels should be used for wiping glass.

Curse
DRINKCURED BY
COLONIAL REMEDY

No taste. No odor. Can be given in glass of water, tea or coffee without patient's knowledge. Colonial Remedy will cure or destroy the disease, appetite or alcoholic stimulants, whether the patient is a confirmed inebriate, "tippler," social drinker or drunkard. Impossible for anyone to have an appetite for alcoholic liquors after using Colonial Remedy.

Indorsed by Members of W. C. T. U. Mrs. Moore, Superintendent of the Woman's Christian Temperance Union, Ventura, Cal., writes:—"I have tested Colonial Remedy on very many. In many cases the remedy was given secretly. I cheerfully recommend and endorse Colonial Remedy. Members of our Union are delighted to find a practical and economical treatment to aid us in our temperance work."

Free Trial: Package free by writing or calling on Mrs. M. A. Cowan (for years member of the Woman's Christian Temperance Union) 2204, St. Catherine St., Montreal. Sold at:

DAVIS DRUG STORE, Garner Block, King St., Chatham.

Minard's Liniment Cures Garget in Cows.

JEWS IN RUSSIA.

Outside Agitation Will Have no Effect in Their Case.

St. Petersburg, June 30.—The amendment to the "temporary regulations" of May 15, 1882, permitting Jews to reside and to acquire real estate in 101 additional towns within the pale of Jewish settlements is thus explained by the Jewish journal, The Voskhod: "The temporary regulations which have been in force during the last twenty-one years were hastily issued, and were not brought into conformity with other laws. Their enforcement caused nearly all the Jews living in the rural districts, amounting to about twenty per cent of the whole Jewish population in 1882, to be driven from the towns and cities. The pale of Jewish settlement, previously embracing fifteen provinces, suddenly shrunk to a limited number of towns. The number of towns open to Jews has continued constantly to diminish. As a result the towns with Jewish populations have been officially pronounced breeding-places for physical and psychical diseases. The Ministry of the Interior, in view of the dangers, has decided to open 110 new places to Jewish settlers.

"Among many expedients for driving out Jewish settlers under the 'temporary regulations' one of the most successful was to demand written charters from the towns. Those which could not produce a charter were at once pronounced villages. In this way all the towns in Poltava were wiped out of legal existence in 1895, and all the towns of Charnigov suffered the same fate in 1899. In other cases old towns decayed, or shifted towards newly built railroads. The Jews were, however, not allowed either in the new towns that grew up in their place, or in spite of repeated decisions of the Senate in the new streets of old towns.

"The 'temporary regulations' may be briefly stated, forbid Jews to move into cities and towns where they had not been living when the regulations were issued, to remove from one hamlet to another or to acquire or rent land."

BASEBALL IN GEORGIA.

One Man Killed and the Umpire Hurt.

Quitman, Ga., June 30.—As the result of a ball game near here between nine composed of negroes from rival plantations, Sam Johnson, one of the players, is dead, and Umpire Dick Edmondson is seriously wounded. There had been great rivalry between negroes employed on the Spain and Griffith plantations, and trouble was anticipated when the game began. In Sam Johnson, a Spain negro, started to steal second. The man at the bat interfered with the catcher and the "steal" seemed easy for Johnson, when he was shot by an anti-Spain rooster among the spectators. The umpire insisted that a man should take Johnson's place at second and this so enraged the Griffith rooters that the umpire was shot and the game was broken up.

Johnson died soon after being shot. Officers have made no arrests, as the negroes refuse to inform.

COLLINGWOOD ASSAULT CASE.

Benj. Johnson Arrested on Complaint of a Little Girl.

Collingwood, June 30.—Benj. Johnson, a deck hand on the steamer Britannia, about forty years of age, was arrested yesterday by Chief Wilda and Constable Best, on a serious charge of assault on the little five-year-old daughter of Mr. Ayers, Campbell street, Collingwood. Johnson is well connected in town, and has lived here all his life. He has a wife, who is at present in the asylum. The assault was made on Sunday evening, at his own house, which is next door to the Ayers' residence, which is also owned by Johnson. The accused will appear before P. M. Nettleton on Tuesday at 10.30 a.m.

THE DWYER SILVERWARE.

Ownership Probably Discovered by Police.

Toronto, June 30.—It is believed that the owner of the silverware, which it is alleged was stolen by James Dwyer, has been found. Dwyer was arrested on June 22 by Detective Duncan, while trying to dispose of silverware in a pawn shop. It is thought that the articles belong to Major Mutter of Esquimaux. A quantity of silverware shipped at Montreal for Owen Sound, to be forwarded to Esquimaux for Major Mutter, was missed at Owen Sound. Major Mutter's whereabouts is not at present known, but the missing articles correspond to those found in Dwyer's possession.

THE CHRISTIAN SCIENCE CASE.

Toronto, June 30.—Christian Science treatment is manslaughter when it leads a parent so far as to deny medical assistance and medicines to his child and that child dies for want of these necessities. That is the effect of a judgment given yesterday by the Court of Appeal, and unless it is upset by a higher court it is now the law of the land. The decision is an important one, as it affects cases where Christian Science treatment is involved.

The case that led to the judgment was that of the King v. James Henry Lewis of Toronto, Roy, the little son of Mr. Lewis, contracted diphtheria, and died on August 13 last. The father, who is a Christian Scientist, was charged with manslaughter under the criminal code for neglect to provide the necessary medical treatment, medicines and assistance.

Lewis was found guilty, but sentence was reserved, pending an appeal to be taken on a stated case before the Court of Appeal.

LARGER SCHOOL USES.

Mr. Leake's Report to Mr. Harcourt Makes the Suggestion That Schools Be Open All the Time.

Mr. Albert H. Leake, Superintendent of Technical and Manual Training and Household Science, has reported to the Minister of Education the results of his observations made during his recent trip to inspect the schools of New York, Brooklyn, Jersey City, and Philadelphia.

After detailed references to the American system of education in the subjects of his department, Mr. Leake calls attention to the fact that the public schools serve the community less than one-fourth of the time, and only a small portion of the community at that. But they could, he said, be utilized not only for the education of the children, but as well for the general education of the community, and at present he believes the public school falls far short of what it might do for the public welfare.

But what can be done for the education of a community more than is now done in the public schools, he asks? This, he continues, is a proper question, and the Speyers School (Pennsylvania), will undertake in part to answer it. This school proposes to place its entire plant at the disposal of the community after school hours afternoons and evenings, and all day on Saturday, holidays, and during the regular vacations. The gymnasium and kindergarten rooms are so arranged as to be easily used for public lectures, social meetings and entertainments. Boys' clubs, girls' clubs, and mothers' meetings will be encouraged. The gymnasium, baths and library, will be open to the public when not actually needed for the school. Classes will be formed to meet afternoons and evenings in sewing, cooking and housekeeping, in music, in free hand drawing and design, and in wood-working, and in other simple industrial arts. Regular night school classes will be formed if there is a demand for them. In short, the purpose is to serve the community in every possible way, and particularly to experiment in ways and means of bridging the gap between the close of the public school work and the time when young men and women settle down to permanent employment at eighteen or twenty years of age.

Canada's Sinecurists.

Canada's Parliament always carries on its rolls a multitude of help-along ones, says The Toronto News. The most that many of them ever do is to lend a hand, now and then, when some trifling service of a clean and agreeable character, like packing and unpacking documents, is to be done in the office to which they are attached, and where they spend most of their time writing personal letters, telling stories or playing the news, which are subscribed to by the Department. Of course, there are exceptions to this rule. There is one man in the Public Works Department who is a very respectable citizen, and who declines to make an attempt to kill time. At one period he was the most noted man in the Department. Although the evident intention of the patron who got him his job was to provide him with a sinecure he was as regular as the clock in reporting for duty; and, to the astonishment of everyone concerned, when a big snowfall occurred and the drifts were piling up alongside the western bluffs, he appeared at the door of his chief's office and demanded a shovel. It was handed to him as a joke, but he was in dead earnest, and resolved to earn his pay, and a few minutes later he was up to his knees in the heavy snow, cutting paths and cleaning gutters as if he had been born to the wage-earner's estate instead of coming from one of the best families in Western Ontario.

Story of the Late Justice Lount.

The late Mr. Justice Lount was always fond of a joke, and his humor was contagious. An anecdote about him is being re-told. In days gone by he was a young lawyer at Barrie, where also Mr. D'Arcy Boulton had a law office. Mr. Lount, in driving home one dark night when the roads were blocked with snow, ran over a calf. The farmer demanded \$10. Not having that amount in his pocket, Mr. Lount told the farmer his name was Boulton, of Barrie, and to call and see him. In due course the farmer called upon Mr. Boulton, then a candidate for Parliament, but he indignantly denied responsibility. The farmer then took legal advice from Mr. Lount, in entire ignorance that he was the real delinquent. Lount undertook to "see" Boulton, to whom he addressed the following weighty arguments: That no doubt the farmer was mistaken, but an election was coming on, etc. Mr. Boulton paid up, and at the next county Bar Mr. Lount told the whole story with great enjoyment.

Preserving Niagara Falls.

The Americans, having gone to the limit in commercializing Niagara Falls by harnessing the power on their own side and decorating the banks with factories, are putting up a tremendous appeal for the preservation of the natural beauties of the great cataract, with a special protest against the commercializing of the Canadian side. It is too bad that the primeval beauty of the surrounding scenery cannot be preserved, but it looks very much as if the falls was too valuable commercially to be maintained as the great show on earth for tourists. An untouched gold mine would also be an interesting exhibit for curious visitors, but to allow it to remain untouched on that account would be an expensive way of gratifying curiosity—Ottawa Citizen.

The Point of View.

A man's sensibilities get somewhat of a jolt when he sees a pretty bird eat a pretty butterfly. Sometimes one thinks it hard that the butterfly is not allowed to live its little life free from molestation. Sometimes one feels sorry that the bird should have so scant a breakfast.

REV. DR. RAINSFORD.

The Experiences of One of New York's Greatest Clerics When He Was a Curate in Toronto, Ont.

It was a new experience for the Torontoian of a quarter century back to go to St. James' and hear the straight, clear-cut addresses of William S. Rainsford, who is now one of the greatest clerics in New York with a great parish and many clergy under him. He talked business, for his business was to bring men and women into the church. He had no mannerism—who could have mannerism at twenty-five, and be sought else but a fool? And a fool Rainsford was not. He had come to Canada from England unacquainted and unknown. He had preached a mission in London, Ont., and had been invited to Toronto. Here Dean Grasset, the rector of the Cathedral, talked with him, says The Toronto News' Day by Day man. Much impressed by his sincerity, originality and irresistible earnestness, the good dean invited the young Englishman to remain for a time. Rainsford became a guest at the rectory, and there were prepared the clear-cut sermons that went like arrows to men's consciences. He was no born orator; in fact, he was no orator. His addresses, he confesses, and people who were intimate with him, knew at the time, were the product of ceaseless labor. There are some to whom every swan is an ordinary goose, and these took umbrage at the young preacher's methods of preparation. One of his customs was to wander out into the churchyard, and, climbing one of the old trees, to ensconce himself on a comfortable branch. There, with the volumes that he had stowed in his pockets, and his notebook, he would make ready the address that was to electrify his congregation that night. Certain good folk thought it was undignified for a clergyman to climb trees, but Rainsford, if he ever heard of the objections, took no pains to reply to them. He might have found a fine argument in the case of Zachens, but he refrained. He was full of animal spirits, and he wanted fresh air. He got it in the tree tops.

The mission lasted four months, and for those four months the Anglican churches in Toronto—and some other churches—were awakened as they never had been before. Thousands were turned away every night. Even the chancel was invaded by the auditors; often four hundred persons were crowded within the chancel rail. There were men in Toronto to-day who will never forget those sermons. They were burned into the mind, not by rant, or mordant reasoning, but by clear-cut Gospel interpretation. One of the men who heard had been a good fellow, a vivacious. He changed his ways, and he made no parade about it. Before he died, the citizens of Toronto elected him to the highest office in their gift. When the mission was ended Rainsford returned to England, but parishioners of St. James' were determined to have him permanent with them, and he came back to their curate. His four years of work in the parish were full of success. He did much that needed to be done for the town was growing away from the Cathedral; there were no Sunday cars to bring worshippers to church, and the long walk was not popular. But the congregation began to fill up when Rainsford resumed work.

His wife gave him valuable assistance. She was a very good-natured, enthusiastic Englishwoman, whose father, a Mr. Green, was one of the proprietors of the famous Green line of steamships plying between Australia and the Mother Country. Mr. Green was able to give his daughter all the help that money brings, and the poor of the parish felt that help many a time. In the summers Mr. and Mrs. Rainsford lived on the island, and the stalwart curate never missed his morning spin in a lapstreak row-boat. At college in England he had been an oarsman of renown. His taste he brought with him to Canada, and on Sunday mornings he was whistling the curate of the Cathedral, on his way over to morning service, had no objection to giving the ferry boat a good race—and beating her, too. Another of his fancies was for dogs—jet black cocker spaniels, that accompanied him on many a tramp over the heights to the north of the city. Many a farmer coming into town was amazed at the spectacle of a six-foot-two clergyman taking a dog-trail along the country road attended by three or four yelping cockers. The man needed plenty of exercise to blow off his superfluous steam. Sprinting and rowing helped him to achieve his end.

But, although Rainsford saw nothing evil in the exercise, he frowned down upon some things that were dear to his hearers. He told them that it was wrong to dance—not because there was anything inherently wicked in the figures—but because the time that might have been spent on good works was wasted. He told them that they should not go to the theatres; and he gave them some reason for his admonition. They stayed away from the playhouses. The congregation became filled with all sorts of parish organizations for good, and grew and prospered. Many people felt that day the young clergyman would be rector of the parish, but fate decreed otherwise.

Barry, the Colonizer.

An old acquaintance of Rev. J. M. Barry tells The Winnipeg Tribune that Mr. Barry was born at Hornby, in Trafalgar Township, Huron County, Ontario. His father was a Presbyterian minister, who moved from Ireland to Hornby. Rev. J. M. Barry and his brother studied for the Presbyterian ministry, but afterwards joined the Anglican Church. This is not Rev. Mr. Barry's first experience in the West. Over twenty years ago he established a church in the Saskatchewan country. He took a good outfit with him, but returned to Ontario in a year or so.

KIDNEY TROUBLES

Are exceedingly prevalent. As a people we are not careful enough as to what we eat and drink. Weak kidneys lead to chronic blood-poisoning in many cases if not attended to promptly.

Bu=Ju

Is the best medicine for weak or clogged kidneys. Makes them good as ever. Try it.

Box of 50 pills, 50 cents, The *Claflin Chemical Co.* at all druggists.

Do not waste money on substitutes.

NEW YORK, N.Y., AND WINDSOR, ONT.

THE OLD FOXY DOCTOR

FAMILY Doctors are all right as general practitioners, but they are not specialists. The sexual organs comprise the most intricate and important system in the human body and require the most skillful treatment. You might as well expect a blacksmith to repair your watch, as a family physician to cure Sexual complaints. We have made a specialty of these diseases for over 30 years, have treated tens of thousands of dollars and have every facility known to medical science to cure them. Every case is taken with a positive guarantee of No Cure—No Pay.

BLOOD POISON—Whether inherited or acquired, is positively cured forever. The virus is eliminated from the system so no danger of return. Hundreds of cases cured by us 25 years ago and no return; best evidence of a cure.

NERVOUS DEBILITY—and other complications, such as emissions, drains in the urine, varicocele, sexual weakness, etc., are cured by our New Method Treatment under a positive guarantee—No Cure—No Pay.

WE CURE ALL DISEASES OF MEN AND WOMEN. Consultation Free. Books Free. Write for question blank for private Home Treatment. Everything confidential.

DRS. KENNEDY & KERGAN.
333 CHERRY STREET, DETROIT, MICH.

Brain Twisters.

A man started on a journey with a fox, a goose and a peck of corn. Coming to a river he was puzzled how he was to get across, as he could take but one of his possessions at a time, and he could not leave the fox and goose together, for the fox would eat the goose. He could not leave the goose and corn together, for the goose would eat the corn. How did he arrange it so he got them all across safely?

A man had eight gallons of wine in a keg. He wanted to divide it so as to get one-half. He had only a three gallon keg, a five gallon keg and a seven gallon keg. How did he divide it to get one-half?

Heals Inflamed Itching Skin

Cures Eczema, Salt Rheum and Tetter, Leaving the Skin Smooth, Soft and Natural.

Dr. Chase's Ointment

As a means of allaying inflammation, relieving the dreadful itching and healing and curing itching skin diseases, ulcers and eruptions, we believe that we can prove that Dr. Chase's Ointment is the most potent preparation that it is possible to obtain.

So many extreme cases have been cured, so much intense and continued agony has been relieved, and such a host of people have volunteered their evidence in this regard that we challenge anyone to produce like endorsement for any ointment or any preparation which is recommended for such diseases.

Dr. Chase's Ointment certainly stands alone, unapproached and unrivalled as a healer of the skin and positive cure for itching skin diseases. From pimples to eczema, from chilblains to ulcers, each and every form of itching skin diseases has been cured by this great ointment.

Mr. G. H. McConnell, engineer in Fleury's Foundry, Aurora, Ont., states: "I believe that Dr. Chase's Ointment is worth its weight in gold. For about thirty years I was troubled with eczema, and could not obtain any cure. I was so unfortunate as to have blood poison, and this developed into eczema, the most dreadful of skin diseases.

"I was so bad that I would get up at night and scratch myself until the flesh was raw and flaming. The torture I endured is almost beyond description, and now I cannot say anything too good for Dr. Chase's Ointment. It has cured me and I recommend it because I know there is nothing so good for itching skin."

Dr. Chase's Ointment is known in almost every community. Ask your neighbors about it. There is probably a marked cure at your door which you can investigate. The cures made by this preparation will stand investigation. 60 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.

To protect yourself against imitations the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

An old man who had been to London was describing to his friends the splendor of the hotel he stayed at.

QUEEN'S CHAMBERLAIN DEAD

Lord Colville of Culross, died in London, Aged Seventy-five.
 London, July 2.—Lord Colville of Culross, Lord Chamberlain to Queen Alexandra, and President of the Honorable Artillery Company, died in London yesterday. He was partly paralyzed some weeks ago. He was born in 1818.

Think of the Babies During the Hot Weather

The work of helping and saving the babies in the hot days of July and August is best done when we feed the precious ones in a sensible way. The babies depend upon proper and nourishing food for good health. Every sensible mother and experienced physician will tell you that Lactated Food secures a perfect condition of health for the little ones in the hot summer days.
 The plump, healthy babies with firm flesh, hard muscles, rosy complexion and good digestion, are the babies who have been fed on Lactated Food.
 Mothers, you cannot afford to trifle in the hot weather with infantile life. Use Lactated Food at once if your dear ones are not thriving. Dysentery and other summer sicknesses are ward off when Lactated Food is used from day to day. Your Druggist can supply you.

The Governor-General has signed the order in Council appointing Mr. H. J. Cloran to the Senate.
 Dr. Henry S. Lunn, organizer of the British Parliamentary tour of Canada, has arrived at Montreal.

The exports from Berlin to the United States for the fiscal year totalled \$9,431,417, an increase of \$1,196,900 over the previous year.
 At Brampton Mr. W. J. Gage of Toronto presented to the Mayor the deed of the new park which he has given to the town.

Remember Tuesday, July 7th, is the date of Victoria, avenue Methodist Sunday school excursion to Belle Isle.

...THE WORLD OF SPORT...

Continued From Page Four.
LACROSSE

A DISGRACEFUL GAME.
 It ended in a fight and the Chief of Police stopped the game. This is a brief history of the lacrosse game in Thamesville yesterday morning.

It was one of the most disgraceful scenes ever witnessed on a lacrosse field. The same state of affairs existed a year ago, when the players were mobbed by the crowd. The game started at 10 o'clock in the morning and started off well. Every player on the field worked hard and the exhibition was a good one. Thamesville scored one goal in the first quarter, and shortly before the whistle blew Chatham scored, making the game even. In the second quarter Thamesville scored another, making them one ahead. The excitement at this point was very intense. The Thamesville crowd and it was a big one—made themselves heard, while the Chatham bunch were feeling uneasy, as Thamesville was earning their first place and playing a faster game than the Chatham team. Their home players seemed to play all ground the Chatham defense and their defense players cleared well every time.

In the third quarter the tide changed, and the Chatham rooters—and they were not so many—began to speak up a little. Chatham tied the score in this quarter and had the best of the game, the Thamesville team going to pieces.

The third quarter, and this was the one in which something was doing, started briskly. The Chatham home never played better. From the face-off the ball travelled by a succession of lightning passes to the Thamesville goal and three scores were made before the Thamesville team realized that the ball was again in play. This made the score 5 to 2 for Chatham.

Then the fun commenced. Grant and Hardy came together. Both men were equal to the occasion and two loud cracks were heard, one on Hardy's head, the other on Grant's, and then—well, then cracks became numerous. Grant and Hardy rolled on the ground and Sherman struck Grant on the head with his stick, while the latter was pinned to the ground. This was too much for Phil Fetterly. He waded knee deep into Sherman, who was soon stretched out on the ground. Then the crowd came like a pack of hungry wolves and a free fight ensued.

Referee Knight ruled Grant, Fetterly, Sherman and Hardy to the fence and gave the Thamesville field captain three minutes to clear the field. This was done and the game was resumed.

In the fourth quarter, which was an eventful one, the ball had been in play for about five minutes, when Higley in some way hit Hardy, who resented it, and returned the blow. Hardy came back again and a general fight again ensued. This time it was a complete free-for-all and players from both sides mingled in it, some innocently, others intentionally. The crowd, however, did most of the fighting. Some of the Chatham rooters, who took no part in the squabble, were attacked by the Thamesville players. Courtney, who stood near the Chatham goal, was mobbed by himself and receiving self-imposed congratulations that he was strictly out of it, was very much surprised when he felt some man's knuckles playing fiercely around his eye. Pete Gowan was seen decorating the fence and when some one of his own side asked him to come down, he replied that a Thamesville rooter had requested him to sit there. Several other rooters were also perched on the fence out of fighting distance, with no intention of coming down until things had cooled off. Dave and Duff Stringer gave a hair-raising exhibition of a lightning exit through the hole in the fence known as the gate, assisted by the shoes of a couple of burly Thamesvilleites. John Smith was there to cheer the Chatham players to the top of their voices, but he was first at the station to wait for the train home.

Alf. McKenna at one stage of the game thought he would distribute a few words of encouragement to the Chatham players. In a slight, timid voice he yelled, but stopped when a lacrosse stick was yanked roughly over his mouth. At one stage of the game one Chatham rooter thought he was in a Chatham crowd, so he yelled "Soak him again, Grant!" He soon found out that his Chatham colleagues had all fled and were replaced by Thamesvilleites. He left the field considerably "soaked." W. H. Brockin, the Chatham goal keeper, is wearing a swollen eye, but says that goal is the only place to play when the fighting is going on in the centre of the field. Point Feed said afterwards, "Yes, it was a little rough, but you ought to see them play down east." "No east for mine," was afterwards the popular sentiment. Field Captain Babcock also mixed up in the crowd and was carried senseless into a neighboring house. Phil Fetterly said afterwards, "No more lacrosse for me." Mr. Syer, one of the Thamesville players, broke his stick and announced that hereafter he will decorate the fence.

The Chief of Police stepped in and stopped the game, which was given to Chatham. There is an old saying that it takes two to make a quarrel—and there certainly was a quarrel. Both sides are blamed, but if the crowd had not interfered there is no doubt that the game would have been finished. Referee Frank Knight was very impartial in his decisions. He was also firm and ruled off every man who attempted to play roughly. The Thamesville team need have no fear of coming to Chatham. They have a lot of gentlemen in their team and in Chatham they will be treated as such. They have a good team and a good fast game is anticipated here.

One peculiar incident about the game was that each of the Chatham home players scored one goal. The Chatham team was:
 Goal—Brackin.
 Point—Feed.
 C. Point—Compland.
 1st Def.—Elliott.
 2nd Def.—Fetterly.
 3rd Def.—Grant.
 Centre—Higley.
 3rd Home—Angus.
 2nd Home—Wilson.
 1st Home—B. Ross.
 Outside Home—McLeod.
 Inside Home—F. Ross.

WALLACEBURG 3, CHATHAM 1.
 The Intermediates were defeated at Wallaceburg yesterday by a score of 3 to 1. The combination of the Chatham boys was very much superior to the home team. The latter, however, were more lucky in the shooting, and their playing more effective.

More games will be arranged with the "Burg" team, as they are well matched with Chatham.
 The Chatham line-up was:
 Goal—Chrysler.
 Point—Wrightley.
 C. Point—Williston.
 1st defense—Morley.
 2nd defense—Taylor.
 3rd defense—Oldershaw.
 Centre—Lawson.
 3rd home—Tackaberry.
 2nd home—Ridley.
 1st home—Tobey.
 Outside—Brunnage.
 Inside—Miiner.
 Field captain—Lex Heath.

BRANTFORD TIPTOED THEM.

Montreal, July 1.—(Special.)—The first match of the Minto Cup Lacrosse series between the Shamrocks and the Brantfords, holders of the Globe Shield, was won here to-day by a score of 6 games to 5 in favor of the home team. It was one of the finest exhibitions of this sport ever played in eastern Canada, and was witnessed by about 5,000 persons. Both teams played excellently and they were well matched. At times there were some exceptionally clean passing, and indeed the whole play at times was remarkable for its few weak spots. It was undoubtedly an eye-opener for the Shamrocks, for they had come to look upon themselves as invincible, and scarcely expected to be put to so severe a test by the C. L. A. champions.

BOWLING.

THE TOURNAMENT.

The weather man was kind to the Maple City yesterday and doled out a most beautiful day for the fifth annual tourney of the Chatham Bowling Club. The tournament was the only event of importance going on and the spectators of this great Scottish game were many.

As had been anticipated, there were about a hundred visiting bowlers from different parts of the Peninsula, London, Aylmer, Ridgetown, Blenheim, Dresden, Walkerville, Windsor and Leamington being represented.

The double rink competition for the S. J. Sutherland trophy was well contested, Ridgetown defeating the holders of the cup, Dresden, in close competition. Dresden secured the second prize, a pair of military brushes for each of the best rinks, donated by John Lee, M. P. P.

The Banner-News trophy competition is not yet settled, as the thunder shower intervened before London and Aylmer could settle the dispute. It was agreed, however, by a flip of the coin at the Garner afterwards that Aylmer hold the trophy, and that the deciding game be played at Aylmer within sixty days. London, in the meantime holds the second prize, the

Complaints...

Haven't been frequent enough of late. We've sold a great many more clothes than ever before, and being human, must have made more mistakes.

Help us out—bring in that suit that hasn't given the wear you think it should, that coat that has faded, tell us of anything that is wrong anywhere in our business. We'll thank you. We'll remedy the defect if we can, if we can't we'll hand you back what you paid for the garment less your own estimate of the service it has given.

One could safely buy here with his eyes shut.

 Aylmer, bye.

Final.
 London and Aylmer yet to play.

NATIONAL EDUCATIONAL ASSOCIATION CONVENTION.

Boston, noted for being the centre of learning, no more appropriate place could have been selected in which to hold the annual convention, and teachers of every grade, and from all parts of America will assemble there to take part in the deliberations.

This is perhaps not a matter of news, but is intended as a reminder that the New York Convention, the exceptional facilities in regard to the convention city, being the most perfect and having the largest number of fast trains which run through from Niagara Falls and Buffalo without change.

Full information, time tables, etc., may be obtained from H. Parry, General Agent, 377 Main street, Buffalo, N. Y., or Louis Drago, Canadian Passenger Agent, 69 1-2 Yonge street, Toronto, Ont.
