### CASTORIA

For Infants and Children. Mothers Know That Genuine Castoria Always Bears the Signature of *Dr. J. C. Hathorn* In Use For Over Thirty Years

#### In Days to Come.

In days to come, for you and me, may see a way more grand and wide. Where birds sing rare melody, And we in larger joy abide. Then why into the darkness groped Among the things now cast aside? For us a sweeter, grander hope Lies in the days that are ahead. How vain past errors to regret, 'Tis wasting time and nothing get. With face toward the future set, May come to us a happier day.

#### War's Youngest General.

General Freyberg is the youngest general in the British army. If not in the entire world. He is but 27 years old, and is considered a military prodigy. He compares favorably with any of the famous youthful heroes of the French revolution.

#### Aborigines.

THE WORD ITSELF IS WRAPPED IN MYSTERY. The very word 'Aborigines' is wrapped in mystery. Those who know nothing of the discussion which is centered round the subject, will find it true, easily enough with the etymological explanation that the word is clearly derived from two Latin words, namely, ab and origine, in the way of attributing an almost obvious derivation to their name arising from the fact that they were always regarded as 'filiië immigrans', and not as an original Italian people. And, so scholars have proposed 'Aborigines' or 'tribores', and yet other 'Aborigines' or 'nomads'. Another writer has put it, the most that can be said is that, if not a general term, 'Aborigines' may be the name of an Italian stock, about whom the ancient knew no more than about themselves.

#### India's Part in 'The War.'

Despite the subtle machinations of Germany, India as a whole has proved her loyalty in this conflict. It was one of the hopes of Berlin that Britain would be hampered in the great struggle by an insurrection in India. After three years of war India has stood the test. Not only has she been free from serious uprisings, but she has done magnificent service to the empire. At the beginning of the war the army in India was comprised of 78,000 British and 150,000 native troops. From this comparatively small army, India has succeeded in building up successive expeditionary forces that are doing splendid service in various fields of war.

#### Keep Chickens.

'Keep chickens' is a slogan that should appeal to nearly every household in Canada. The scraps from the table of an average household will provide most of the food necessary to keep half a dozen hens in flourishing condition, and these, if properly housed and cared for, will reciprocate with a surprisingly large number of nice fresh eggs for the family table. Fifteen dozen eggs per year is not an impossible production. Nearly every back yard is big enough to accommodate half a dozen hens, and they are most cheerful and agreeable backyard tenants. The average householder will put up his little hen-house as soon as the elements for his stock of hens are purchased.

#### Nerves Are Exhausted.

When you have frequent headaches, find yourself easily irritated and annoyed, feel discouraged and down-hearted, cannot rest and sleep well and find appetite tickle and digestion bad, you may know that the nerves are in bad condition. Don't wait for the symptoms to become chronic, but start in early with the use of Dr. Chase's Nerve Food and head off disaster.

### Tired Nervous Mothers

Should Profit by the Experience of These Two Women

Buffalo, N. Y.—"I am the mother of four children, and for nearly three years I suffered from a female trouble with pains in my back and side, and a general weakness. I had professional attentions most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued to use and am now well."  
Buffalo, N. Y.

Portland, Ind.—"I had a displacement and suffered so badly from it at times I could not be on my feet at all. I was all run down and so weak I could not do my housework, was nervous and could not lie down at night. I took treatments from a physician but they did not help me. My Aunt recommended Lydia E. Pinkham's Vegetable Compound. I tried it and now I am strong and well again and do my own work and I give Lydia E. Pinkham's Compound the credit."

#### Joffre's Way.

Joffre had a genius for working fast. Even in times of stress there was no litter upon his desk, and anybody who had a reasonable errand could see him. Some little time before the Battle of the Marne an officer came with the request that fifty guns be sent to the position which he was holding.

### Get Behind the Wheel of a Ford and Drive

TRY it just once! Ask your friend to let you "pilot" his car on an open stretch. You'll like it, and will be surprised how easily the Ford is handled and driven.

If you have never felt the thrill of driving your own car, there is something good in store for you. It is vastly different from just riding—being a passenger. And especially so if you drive a Ford.

Young boys, girls, women and even grandfathers—thousands of them—are driving Ford cars and enjoying it. A Ford stops and starts in traffic with exceptional ease and smoothness, while on country roads and hills its strength and power show to advantage.

Buy a Ford and you will want to be behind "the wheel" constantly.

#### Could Not Lift Stick of Wood

Would Almost Faint From Severe Pain in Back - Doctors Could Not Get the Kidneys Set Right.

A great many people suffer from pain in the back, but few understand the cause of trouble or the way to obtain cure. The writer of this letter suffered excruciating pains in the back and in vain his physicians tried to cure him. For some time or other his medicines did not have the desired effect.

Mr. Otis best was a merchant selling, among other medicines, Dr. Chase's Kidney-Liver Pills, and he had his customers telling about how they were cured of kidney derangements by their use. This led to Mr. Otis putting them to the test, with the splendid results reported in this story.

Mr. E. C. Otis, Benton, Carleton County, N. B., writes: "I am glad to let you know how much your medicine has done for me. I suffered from my kidneys, which at one time were so bad I could not lift a stick of wood without getting on my knees, and the pain in my back. I consulted a doctor about it, and he gave me some medicine, but it did not help me. My brother, who is a merchant, and carries all your medicines, advised me to try Dr. Chase's Kidney-Liver Pills. I got one box, and they helped me. I got another one, and he set on until I had taken five boxes, which cured me. I have had no more trouble with my kidneys, and am never without Dr. Chase's Kidney-Liver Pills in my house. Last summer I also suffered from piles. I used three boxes of your Ointment, and it cured them. I can certainly recommend Dr. Chase's Pills and Ointment."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, \$ for \$1.00, at all dealers, or Remanson, Bates & Co., Limited, Toronto. Do not be misled into accepting a substitute or you will certainly be disappointed.

#### Do Not Eat Hot Bread.

THE consumption of 'hot' bread, baked from the bakery, wasteful as well as injurious. Of course it is brutal if it is wasteful, since the object of eating should be energy and health. But it is wasteful, since the purpose of bread is to sustain energy and health, and it is wasteful, since the object of eating should be energy and health. But it is wasteful, since the purpose of bread is to sustain energy and health, and it is wasteful, since the object of eating should be energy and health.

### Editorial Brevities.

A speed limit on Ontario roads, outside of towns, of thirty miles an hour is suggested for automobiles. The only effective way to enforce a speed limit of this kind is to make it compulsory for manufacturers to place on all cars a device that will automatically prevent the cars being run at any greater speed, and to make it an offence to tamper with these devices or to allow them to get out of order.

It is good news that comes from Ottawa of a probable agreement between the Canadian and American governments for daylight saving over the whole continent. Daylight-saving means coal-saving and increased activity in food production, particularly by the home gardeners. These advantages make the general adoption most desirable at this time. An agreement for joint action would do away with objections that arose because of the complications consequent upon daily having daylight-saving and another running on standard time.

### The Food Controller Says.

Hoarding is one of the new words of the war. It means storing in excess of requirements, especially of foods and fuel just at present. Now storing and laying up a prudent supply for real needs is not a crime in peace times but the man or woman who willfully and coolly decides today to store more food than he or she would buy in ordinary times is committing something that has the moral effect of a crime. He is also helping to raise the price to himself of future supplies.

There is no cause for panic among the people of Canada. We must expect to make some food sacrifices and be willing to modify our eating habits and even to eat less in order that the soldiers and our Allies may be fed. There is a world shortage of foods because, so far as we in Canada are concerned, other people have had to withdraw from farms to fight what is our joint fight. Our obvious duty is to aid them, by at least sending them as much food as they need to get before they took up our common task.

'Hoarding' is the crime of selfishly taking care of one's own skin to the detriment of others, either in the war-torn lands or at home. Buying too much for immediate cellar-packing in Canada also imposes a burden on the poorer classes in the Dominion. The railway difficulties are especially great this winter, obstacles in distribution of foodstuffs are adding to the people who lack proper facilities for storing may easily result in heavy waste. For this reason, especially, public opinion should be aroused against the practice.

It is a thing that comes down to the sense of right in the buyer. If he or she knows what patriotism means, knows what others have to undergo only because they did not happen to live in Canada, and in whose place Canadians might have been but for the accident of geography, there will be no hoarding. Public opinion and public disapprobation of hoarding may do much to discourage the practice but nothing can really be effective unless the moral sense of buyers of foods tells them plainly when they are laying in a legitimate store or grabbing at an opportunity of plenty for the chief reason that under the stress of war tension the British people found for the man who attempted hoarding the expressive title of 'Food Hog'.

There has been some 'hoarding' in Canada of sugar, flour and perhaps other commodities. The practice fortunately is of small proportions and the effect of measures now under consideration may result in the exposure of the Canadian 'Food Hogs'. Hoarding is unnecessary and unpatriotic. The better elements in the community will refrain from it so far as their own households are concerned and will use their influence against it elsewhere.

Often people will buy large quantities of these foods without thinking of the way in which they may be depriving others. Every patriotic Canadian will do well to resolve that he will 'play the game' fairly with his neighbor, and with the poorer classes, by purchasing food only in normal quantities while the present emergency lasts, and by discouraging hoarding wherever he finds evidence of it.

### Guard The Baby Against Colds.

To guard the baby against colds nothing can equal Baby's Own Tablets. The Tablets are a mild laxative that will keep the little one's stomach and bowels working regularly. It is a recognized fact that when the stomach and bowels are in good order that colds will not exist; that the health of the little one will be good and that he will thrive and be happy and good-natured. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

It is announced that the Legislature of Nova Scotia will meet on Feb. 21st. It will meet with several vacant seats.

Friday last was the anniversary of 'Cold-Friday,' which was Friday, February 8, 1861, fifty-seven years ago.

### The Town Water.

We regret that our space this week will not admit of the publication of a letter from the Health Officer with the statement of the findings of the expert to whom a sample of the town water was sent for examination some time ago. Following, however, is the opinion of Prof. Nicholls, without giving report in full. It will be of interest to citizens generally:

My opinion is that the water in question is free from any sewerage contamination, and that there is no dangerous mixture with decaying animal or vegetable matter. The unpleasant taste complained of is, doubtless, due to the relatively large amount of vegetable matter present in fact that the supply of fresh water to the aqueduct was obstructed, and that the water contained in the aqueduct consequently became stagnant and was reduced to a somewhat low level, would satisfactorily account for the high proportion of vegetable matter present in the water. I find no reason to think, however, that the water is dangerous for drinking purposes.

## The Music of Kings Is At Your Command!

When a great singer, a great instrumentalist, a great band is developed the proof of perfection is for an investigation from Royalty to be sent out. And kings, in that way, manage to hear the best that the world has to offer in the way of music.

You can enjoy exactly the same privilege in your own home and this is not exaggeration. Altes Varlet, for instance, has sung before the President of France and King Albert of Belgium to mention only two. Marguerite Mitanonnet has sung before the President of the United States and many other notables. You can hear these two world renowned singers in your own home, exactly as if they were actually present.

For the New Edison Re-Creates their voices, does it so faithfully that you could tell no difference even if the living singer made a direct comparison--as has been done two thousand times before audiences numbering into the millions.

### ACCEPT THIS FREE OFFER.

Ask to hear the New Edison in your home, with absolutely no obligation. Gather your family, your friends, around to share the treat. Listen to Fred Van Rips playing the Dixie Medley on the Banjo; to Walter Van Brunt singing 'I Will Take You Back to Kathleen'; to Marie Rappold and Albert Spalding giving the Ave Maria. Nothing quite so wonderful will have entered your life before.

Today is the time to discover if all the marvelous things they say about the New Edison are true. Come in and hear it--Records are given hourly at the store--or ask to have one sent to your own home.

Today is also a good time to see and hear the Heintzman Piano, the Martin Orme Piano, and the latest Columbia Grafonola success.
