The Quebec Hockey Club, World's Champions, Stanley and O'Brien Cup holders 1912-13, 1913-14.

Professional hockey history was made by the Quebec club during the 1912-13 season. For the first time since the professional hockey league was organized, the champions repeated and won the championship for the second time consecutively.

The achievement is remarkable from the fact that the club was raided by the British Columbia League and lost three of its players—half of the 1911-12 season team—just as the training season opened, and was left crippled, it was believed, in view of the fact that the desertion of these three players was entirely unexpected and came at a time when mostly all of the available material had already been signed up by other clubs in the N. H. A.

Blessings, however, sometimes come in disguise, and this proved to be the case with Quebec, for despite the fact that the club was forced to recruit with untried players, a careful selection, with good coaching, made the 1912-13 season team much stronger than that of the previous season. The team did not get away to the best of a start, but gradually improved and was on even terms with its chief contenders at midseason. Quebec had rounded out into form by this time, however, and made a runaway race of it for the latter half of the schedule, winning handily weeks before the season wound up.

A feature of the work of the Quebec Club during the 1912-13 season was its

consistency, and a performance more noteworthy, perhaps, than the winning of the championship was that of winning eleven matches consecutively and thereby breaking all senior hockey records. With half its team composed of new and untried players at the opening of the season, matches were lost in developing the team, and when the schedule was almost half finished the Quebec Club stood with five wins and four losses near the end of January, defeat having been suffered at the hands of Wanderers and Tecumseh in Quebec, and Canadiens and Toronto, in Montreal and Toronto, respectively. But the team suffered its last defeat of the season on January 25, and from that date to the end of the schedule Quebec swept everything before it both at home and abroad, defeating Wanderers twice, Ottawa three times, Canadiens twice, Torontos twice and Tecumsehs twice.

The season of 1912-13 saw two new clubs in the League—Tecumseh and Toronto Clubs, both of Toronto, the latter particularly making a creditable showing. Twenty matches were played by each club in the league, and the standing at the finish was as follows :—

	Won.	Lost.	P.C.	For.	Ag't
QUEBEC	16	4	.800	112	75
Wanderers	10	10	.500	93	90
Canadiens	9	11	.450	83	81
Ottawa	9	11	.450	87	81
Toronto	9	11	.450	86	95
Tecumsehs	7	13	.350	59	90

The Quebec Hockey Club is one of the oldest in Canada, having been in existence

since 1880. It was one of the clubs which formed the Amateur Hockey Association of Canada and played under the old challenge system. It has formed part of every big hockey league since and when the senior amateur league gave way to the professional league as the foremost hockey organization in Canada, Quebec moved with the other clubs and joined professional ranks. A few years previous to this, however, viz. 1904, Quebec won the senior championship, with a team composed entirely of Quebec boys.

The club first won the professional championship in the season of 1911-12, and successfully defended it also at the close of the season against Moncton, champions of the Maritime Province League, the challengers being defeated in two matches:

March 11.....	Quebec.. 9	Moncton.. 3
March 13.....	Quebec.. 8	Moncton.. 0
Total—Quebec.....	17	Moncton.. 3

Later in the same season the Quebec club played a series of games in New York and Boston against Wanderers and Ottawas and showed themselves true champions by decisively winning the series, the result being as follows:

Boston :		
March 18.....	Quebec.. 9	Ottawa... 2
New York :		
March 20.....	Quebec.. 3	Ottawa... 5
Total—Quebec.....	12	Ottawa... 7
New York :		
March 21.....	Quebec.. 5	Wanderers.. 4
March 24.....	Quebec.. 8	Wanderers.. 4
Total Quebec.....	13	Wanderers.. 8

BLUE RIBBONS OF HOCKEY WORLD

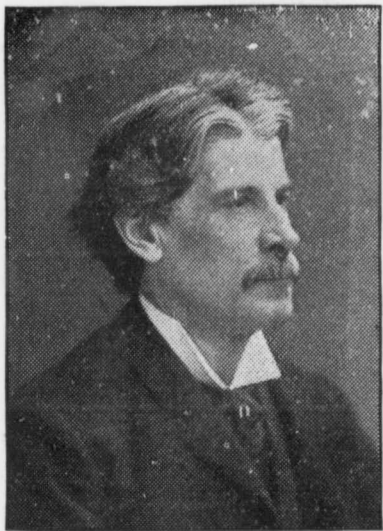

THE STANLEY CUP.

Presented by Lord Stanley, Governor-General of Canada, in 1893. A challenge trophy emblematic of the Canadian hockey championship. This is the most coveted trophy in the hockey world and has been competed for by clubs from all parts of Canada. It may be challenged for by any club winning the championship of any recognized senior hockey league in Canada, and has been the cause of some of the most famous matches in hockey history.

THE O'BRIEN CUP.

Presented by M. J. O'Brien, of Renfrew, Ont., in 1909. A trophy emblematic of the championship of the N.H.A. This trophy is held by the championship club of the N.H.A., and is not a challenge trophy, and therefore cannot be held by any club other than the N.H.A. champions.

Treasurer.

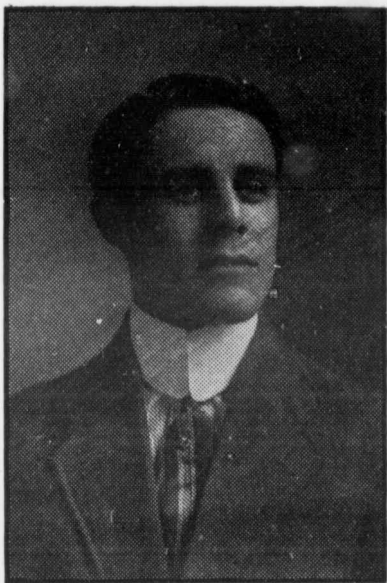

Paddy Moran, net guardian of the Quebec hockey team, is the oldest and one of the most popular members of the team, being the mainstay of the Ancient Capital team for a good ten years, breaking into the big league when the Quebec Club was run on the amateur lines. Paddy, who is about thirty-four years of age, has been always recognized as the best goaler the game has ever produced, and this season he not only lived up to his reputation but surpassed himself. He played with the Quebec team in 1904 when they won the senior hockey championship and since then has played with Haileybury and All-Montreal. He is a graduate of the old Quebec Crescents, intermediate champions.

Harry Mummery, point of the Quebec team, is one of the season's recruits on the champions, and has been a tower of strength of the Quebec defence. He was born in Brandon, Man., in 1891. Last season he played with Moose Jaw and the season previous which marked his first appearance in senior hockey out West, he figured as point on the Brandon team in the Manitoba Amateur Hockey League. Harry is about the heaviest man playing in the N. H. A. and is more active than a great many of the lighter puck-chasers. By next season he should develop into one of the best men in the business.

Joe Hall, for the third consecutive season has figured at cover-point on the Quebec team and each year his work is so steady and effective that he continues to be exceptionally popular with the fans. The last two seasons have been particularly strenuous for Joe, especially during the early games, for in Harry Mummery and Goldie Prodger he had to steady two players new in the N.H.A. The Quebec cover-point is 33 years of age and has played with Brandon, Man., his home town, Winnipeg and other senior Western teams, also with Shamrocks, of Montreal, and All-Montreal.

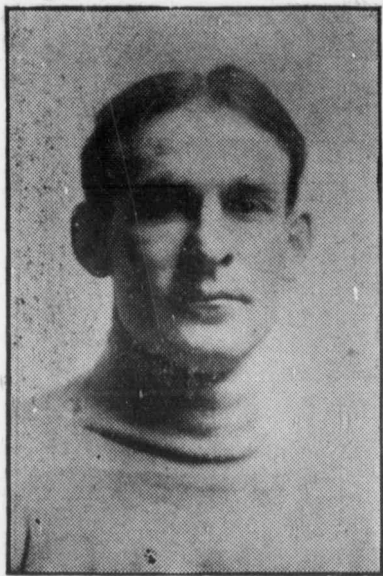

Joe Malone, captain and centre ice player of the champions, although but 22 years of age, has been the hero of many bitter hockey contests for the past four years and is recognized as being easily the best centre ice man in the game to-day, not only by the fans from his home town, Quebec, but also by critics throughout Canada. Joe played a prominent part in bringing the Stanley Cup to Quebec last season and no player has ever worked harder than he has in bringing the Ancient Capital team out on top again this year. In addition to being a hockey player of rare class, Joe has shown to be equally clever at lacrosse when he played with the Quebec team which won the intermediate championship in 1910 and was on the Quebec National team which won the same title. He is also a stellar all round athlete.

Tommy Smith, left wing of the Quebec team, is about 25 years of age and has the distinction of having figured on three senior championship teams. Tommy started playing hockey in Ottawa, where he was born, and played with Ottawa Victorias in 1905 ; he has since been with Ottawa, in the E.C.H.L. ; Pittsburg in the International League ; Brantford, Haileybury, Galt, champions of O.H.A. in 1911, and Moncton Victorias, Maritime League champions, last season. Tommy is one of the Smith brothers, famous as hockey players for many years. Tommy is one of the best scorers in the N.H.A. to-day, Joe Malone and he leading in that department.

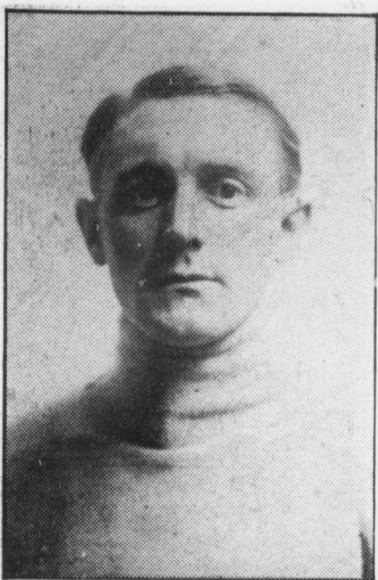

Jack Marks, right wing of the Quebec team, has figured regularly at the position this season and his work has been most effective ; he is particularly strong in coming back to assist his defence. Jack is 28 years of age and was born in Toronto. He has played with Belleville, in the Ontario Hockey Association; Brockville, in the Federal League, also in the Canadian Soo League and with Brantford A.A. and All-Montreal. Jack has taken a lot of punishment in many of the games this season, but continued on gamely.

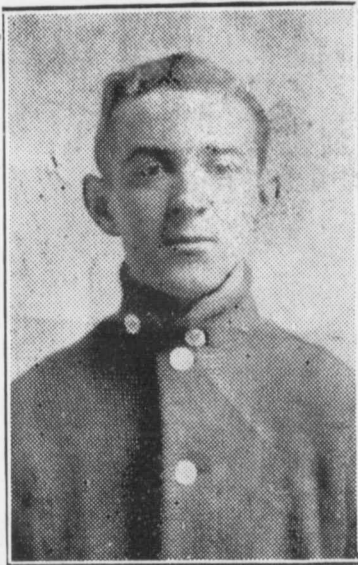

Russell Crawford, the speed merchant and clever stick artist of the champions, is undoubtedly the season's find and has played in almost every game since joining the team in Montreal when Quebec beat Wanderers on Dec. 31st last. Russell is 27 years of age and has played with Prince Albert which won the championship of the Saskatchewan Senior Hockey League in 1909-10. He played with Moose Jaw last season. In speed there is hardly anything in the league that can touch "Rusty," by which sobriquet he is known among his team mates. A great future is predicted for him.

William Creighton, first spare forward of the Quebec team, was born in Brandon, Man., and is 21 years of age. "Billy" played regularly with the Brandon team in the Manitoba Amateur League in 1910. Last season he figured on the Moose Jaw seven. He has made a very favorable impression in the games he has played to date for the Quebec Club, being fast and a clever stick-handler.

Jeff Malone, spare defence player of the Quebec team, is a brother of Joe, captain of the Stanley Cup holders, and besides being one of the best defence men in the city, is a lacrosse player of great merit and has figured on the Quebecs and Nationals, two local lacrosse teams which won the intermediate championship a few years back. Jeff has carried off several valuable trophies in long distance road racing.

Joe Savard is again filling the role as utility goaler of the champions, and although he has not been called into service this year in any of the regular league games, his past performances in the Quebec City League with Crescents, St. Patrick's and St. George, and also in one senior N.H.A. match in Montreal last winter, stamp him as one of the coming big league goal tends. Joe is 22 years of age and is a native born Quebecer.

Walter Rooney, spare forward of the Quebec team, is about 23 years of age and his work with the St. Patrick's team in the Interprovincial Amateur League in the games he has played this year has been of the gilt edge variety. Walter is a strictly amateur player and has turned down tempting offers to play in the Lower Provinces hockey league this season. Walter has been a playing member of the local St. Patrick's team in every league they competed in.

Dave Beland, widely known as one of the best sprinters in Canada up to the last few years, is again trainer of the Quebec team. Dave represented the Ancient Capital on the Canadian Olympic team at the Olympic games held in London a few years ago and has acted for several years as trainer of the local senior hockey team. He also handled the St. Patrick's lacrosse team which won the City League championship a few years ago. Besides being an energetic worker, Dave keeps the players in the best of humor with his ready wit both in and out of the dressing room.
