The copy filmed here has been reproduced thanks to the generosity of:

Canadiana department
North York Central Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contains the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Canadiana department
North York Central Library

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaît sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

The BIRTH of CANADA'S NAVY

AMID the hustle and hurry of twentieth century life, there are events to-day which were only the dream of yesterday. In the life of the individual, in commercial, social, and industrial life, this fact is in evidence, and in the task of nation-building its truth is also strongly impressed upon us. National ideals soon take the form of national attainments, and the world moves rapidly forward to greater and richer achievements. History is ever repeating itself.

CANADA

The land we love is fast pressing forward in the grand march of nations. As the little winged creature, under the care and protection of the mother bird, daily grows in strength, confidence, and the power of self control, so is our Dominion rapidly developing and advancing. The old colonial clothes have now become ill-fitting, and in the councils of the nations, Canada occupies

Dear Sir,

Your enquiry of 9th duly to hand. I have filled out your blank and am herewith returning same.

You are fully justified in all you claim for your preparation "PSYCHINE." I have used the same myself as well as my family and with the most beneficial results, especially in the case of incipient colds. I have given it a **prominent place in my medicine chest and that place will never be vacant hereafter**; it should be in every home in the land. It is the grandest tonic I ever tried.

As you will note I have up-to-date purchased three large bottles and have induced several of my neighbours to try your 50c. bottle and they too are unanimous in their praise.

Yours very truly,

An event with the details of which each of us should become familiar.

CANADA'S NAVY

WARSHIPS OF THE 18TH CENTURY

The phrase is indeed original, for but a short time ago it was unknown. Pick up any newspaper of to-day, and many are the references to the world's newest navy. Its formation has added another link to the chain of Canadian advancement. But to enjoy the story in its entirety, let our recital begin at the very source of the naval movement and

recall as well some scenes from the background of Canadian life, which must indeed add interest and colour to the picture.

THE CHANGING SCENES

To the student of national affairs, the scenes thrown on the canvas are at once suggestive of unity, strength, protection and permanence, and now that the initial steps have been taken, which cement into one the varied opinions, let us hope that it is the sincerest wish of every true Canadian, irrespective of party affiliations, that these four qualities may shine forth as brightly as the sun at midday.

CANADA'S SMOOTH SAILING

The fairest child of the Imperial household is Canada—the very flower of the family. Progress, general conduct and true devotion to the Mother Country have amply justified this conclusion. Nevertheless, the day at length has arrived when the child should do something in return for parental guidance, advice and protection. Ever since the Confederation of the Provinces in 1867, and even earlier than that time, a feeling of security and safety has been enjoyed because of the fact that the world's greatest navy continued to be our right arm, our shield and buckler, and thus like the offspring of a wealthy parent, the young Dominion passed

CUROL is the Reliable Remedy for this most Tormenting and Irritating Skin Disease

In CUROL we have the embodiment of the best healing properties known to the medical world. IT IS ANTISEPTIC. The air is full of microbes all too ready to enter the body through the broken and lacerated tissues. They commence their deadly work immediately upon entry and develop ugly sores and even blood poison, which often proves fatal. A timely use of CUROL prevents all this—being an antiseptic it kills off the microbes and starts on its great work of healing and building up of the tissues.

In long standing cases, CUROL goes to the root of the difficulty with a determination which is simply marvellous. It first of all eradicates every particle of disease and foreign matter. Having accomplished this, the actual healing is only a matter of days.

The healing done by CUROL is well done, for it positively will not heal until the wound is clean and free from impurities.

Not so with salves containing Zinc, Mercury, Lead, etc. These poisonous salves may heal quickly, but do a great deal of damage by driving the impurities into the body, often causing very serious consequences. You should shun such and use only a salve free from those harmful minerals. Such a salve is CUROL. There is a total absence in CUROL of rancid, fatty substances so often found in cheap ointments, it does not cake, clog, or become hard. It is immediately absorbed by the skin, and thus penetrates to the seat of the disease. This fact alone makes CUROL popular. It is pure, and we have no hesitation in saying the best 25 cent salve on the market. We ask you to prove this statement by sending coupon for a free sample.

THE RELIABLE REMEDY For Eczema is CUROL. It also heals bad legs, Ringworm, Uleers, Cuts, Burns and Scalds, Sore and Aching Feet, Poisoned Wounds, Festering Wounds, Running and Cold Sores, Pimples and Black-heads, Children's Scalp Sores, Chapped Hands and Chilblains, Itch and all Skin irritations and troubles. CUROL is a splendid EMBROCATION for Rheumatism, Sciatica and Neuralgia, and is a positive cure for Blind and Bleeding Piles. All Druggists and Stores sell it at 25 cents a box, or post paid from **CUROL SALVE CO., Spadina Ave., Toronto.** 6 boxes, \$1.25.

through childhood quite undisturbed respecting real national danger. True, there have been some disruptions in the colonial household. True, also, that our neighbours, when at loggerheads with John Bull, sent invading armies across our frontier a hundred years ago. But these clouds have each had a silver lining. The darkness becomes light—not, however, before there had been written indelibly on the pages of Canadian history, events which shall ever do honour to Canadian and British valor.

THE LIGHT OF DUTY

Time sped on, however,—the Dominion was sprightly and ambitious, aglow with promise. Yet as to the need of a Canadian Navy the distant horizon portrayed not even the faintest glimmer. Finally, a change of heart was experienced and the young nation began to look fairly and squarely at the question of national defence. Phenomenal growth and expansion were rife—apples of gold in pictures of silver.

“CELERY KING”

The grandest of all remedies for blood and nerves. Comes to you just as Nature grows it in herbs, seeds and medicinal plants. Nothing drastic or severe about Celery King. Just gentle, safe, and positively curative.

Just the sort of blood and system regulator that our wise old grandparents used to gather from the woods and fields, then steep and make a medicine that benefited everyone.

Celery King comes in tea form, the large package makes enough for a whole family, “a month’s treatment for 25 cents.” The liquor is pleasant and easy to take — children will not reject it as they will sickening salts and oil.

Celery King gently but thoroughly cleanses the whole digestive tract, animates the liver to healthy action and freshens up the blood. Its results are marvellous because nearly every disease is traceable to impaired digestion and feeble bowel action, both of which Celery King tones and stimulates.

IMPERIALISM

But while imperial sentiment is a most fitting theme for Canadian Club artists and after-dinner speakers in general, it has but little significance unless backed up by a spirit of devotion, patriotism, and self-sacrifice, which rises heroically to meet every new situation and condition in the life of the Empire. Thus while Canada prided herself in Britain's prowess and in her own prosperity, year after year sped on without any definite effort being recorded in the matter of a permanent naval bodyguard.

JOHN BULL AND HIS SONS

While dreams and visions of military needs and armaments at times dawned, the first seed was sown in connection with the Imperial Conferences of 1902, 1907, and 1909. At each

there was a frank discussion of Imperial and Colonial responsibilities when "John Bull and his sons" gathered around the table for a mutual exchange of ideas. While each of these Conferences was important imperially, yet the latter, that of 1909, seemed to press home more closely the question of Naval Defence.

CANADIAN LOYALTY

In Canada, while a general willingness prevailed to do the best thing, there was indeed much diversity of opinion. The project of building a Canadian Navy had its supporters and opponents. The suggestion of giving to the Mother Country

A DESTROYER

one or more Dreadnoughts had its zealous and loyal advocates, who claimed, in support of their plea, that the assistance to Great Bri-

tain would thus be earlier and more effective. Throughout the country from Pacific to Atlantic the discussion ensued. But it was on the floor of the Canadian House of Commons that the subject was ably debated and Hansard contains no message with a flavour more Imperial than the utterances by honourable members of both the Government and Opposition. These men, stirred by the fact that it was the duty of the Dominion to make a beginning in the matter of naval assistance, gave colour to their protestations of loyalty by publicly taking a stand on this important question. A strong resolution was accordingly passed by the Commons on March 29th, 1909. This may be said to be the corner stone of our new navy. The full text of the resolution is here recited.

PARLIAMENT SPEAKS

This House fully recognizes the duty of the people of Canada, as they increase in numbers and wealth, to assume in larger measure the responsibilities of

national defence. The House is of the opinion that under the present constitutional regulations between the Mother Country and self-governing dominions, the payment of regular and periodical contributions to the Imperial Treasury for Naval and Military purposes, would not, so far as Canada is concerned, be the most satisfactory solution of the question of defence.

The House will cordially approve of any necessary expenditure designed to promote speedy organization of a Canadian Naval Service in co-operation with and in close relation to the Imperial Navy, along the lines suggested by the Admiralty at the last Imperial Conference, and in full sympathy with the view that the Naval supremacy of Britain is essential to the security of Commerce, the safety of the Empire, and the Peace of the World. The House expresses its firm conviction that whenever the need arises the Canadian people will be found ready and willing to make any sacrifice that is required to give to the Imperial

THE NAVAL SERVICE BILL

For the events to follow, the Resolution had surely paved the way. The Colonial Conference a few months later, shed new light on the problem. Definite action was necessary in order that the next session of Parliament might make proper provisions to meet the need, and as a result there was framed the Naval Service Bill. The new Bill, which drew forth much discussion, received its first reading on March 12th, 1910, and May 4th, of the same year, the Naval Service Act was passed. As a fitting sequel to the passing of the Bill came the organization of the Naval Service Department—a new and active member in the household of Federal Departments.

PSYCHINE (Pronounced SI-KEEN)

What is Psychine ?

As the name indicates, it is one of nature's own remedies. It follows nature's rule that for any part of the body to be healthy, all the body must be healthy. Psychine is a builder and a tonic.

But Psychine is no cure-all. It has a special mission—and that mission is the cure of all those ills that lead to consumption. The cures given in this book prove that; and remember, every cure given will stand the closest investigation.

A Specialist's Prescription

Of course people will tell you Psychine is a "patent medicine." It is a "patent medicine" in the sense that it has been put within the reach of all classes of the people. But it is none the less the prescription of a specialist. It is a "Patent" medicine because it is too valuable a discovery to be kept within the confines of one physician's practice. That it is something more than a "patent" medicine is proved by its grand work in Canada for the past quarter of a century; its record is the guarantee of its worth.

From its success in treating wasting diseases an impression has gone abroad that Psychine is simply a medicine for consumptives. This is far short of the truth. Any weak, run-down person can find renewed hope, health and strength in a short treatment of Psychine.

Take Precautions

It is thus easy to see that there are two things to do to guard against consumption. One is to make the body strong and healthy so it can resist the attacks of the consumptive germ. The other is to provide a tonic so that those germs that have already found lodging in the lungs may be removed.

Psychine furnishes both these preventives at one and the same time. It kills the disease germs, and by its splendid tonic qualities builds up the body and makes it strong and healthy all over.

HMCS RAINBOW

THE MAKEUP OF OUR NAVY

The warships "Niobe" and "Rainbow" constitute the initial units of Canada's Navy. These were purchased from the British Admiralty; have been fully manned and properly equipped and are now in Canadian ports. But in addition to these two, what is our Naval Squadron? A complete answer to this is found in the plans outlined by the British Admiralty which call for the construction of four second-class Cruisers of the Bristol Class and six Destroyers of the improved River Class.

To keep guard on the Pacific, there will be assigned two Bristols, with a united complement of 742 officers and men, and the "Rainbow" with 273 officers and men. On the Atlantic there will be also two Bristols with 742 officers and men in all, six Destroyers with a total of 576 officers and men. The "Niobe" and "Rainbow" are now being used entirely for training ships, but eventually they will be used as parent ships for the destroyers' fleets, and such combinations will be fighting units in the new navy.

**If You Do The Wise Thing and Keep
Shiloh's Cure, the 40-Year Old,
Guaranteed Remedy for Coughs
and Colds, in the House.**

It is very poor economy to let your Cough or
Cold develop to the point where it be-
comes dangerous and you have
to call in a doctor.

USE SHILOH'S CURE—It Checks Coughs.

It is pitiful to see the thousands of cases where
consumption is cutting off a useful life that
might have been saved—all resulting
from a neglected cold.

USE SHILOH'S CURE—It Cures Colds.

For Whooping Cough, Coughs and Bronchitis, in
children or infants nothing equals this grand
old remedy that has been a household
friend for forty years.

USE SHILOH'S CURE—It Saves Babies.

Stop the foolish waste of time and money by
having to stay home and "get rid of" a
cold. A few doses of Shiloh's Cure
would prevent the cold ever
getting a foothold.

**USE SHILOH'S CURE—
It Saves Doctor's Bills.**

Hoarse, husky voices, and feeble vocal chords
are benefitted and strengthened by the
soothing and tonic effects of Shiloh's
Cure. Invaluable for speakers
and singers.

**USE SHILOH'S CURE—
It Strengthens the Throat.**

For severe colds and eataarrh caused by colds no
remedy has been as successful as the old reliable
Shiloh's Cure. Its action on the mem-
branes is to allay inflammation, build
up broken tissue and bring
healing in every dose.

USE SHILOH'S CURE—You Can Trust It.

cases, four bath towels, two pairs of braces, one soiled linen bag, one pair of shoes (Oxford), patent leather, with strong soles and no toe-caps, one hair brush, comb, clothes brush, tooth brush, nail brush, sponge, bathing drawers, Bible and Prayer book, one trunk, one valise. Parents or guardians will be required to replenish this stock as required. For the regular rounds of drill and recreations, the clothing is supplied at the college, but charged against the "necessary expense" account of the Cadet. This

clothing includes one round jacket, waist-coat and trousers (cloth), two monkey jackets and trousers, two caps, four pairs white flannel trousers, two white sweaters, two pairs uniform

boots, one recreation coat (blue flannel), two neckties (black silk), one pair woollen gloves, one pair brown gloves, one pair engine-room gloves, one winter cap, overshoes, one ruffler, one greatcoat, one straw hat, one sea chest and necessary gymnastic clothing.

THE COLLEGE TERM AND AFTER

During their two years at College all Cadets have the same training and are not allowed at their early age to specialize in any subject. This is the English plan. Much time is devoted to mathematics and physics and their application.

Murine Eye Remedy, Liquid, with Book and Dropper, 25c. and 50c.

Try **MURINE** EYE REMEDY

For Red, Weak, Weary, Watery Eyes
And Granulated Eyelids

MURINE Affords
Reliable Relief

THE Physicians of the MURINE EYE REMEDY COMPANY, Oculists of years' standing, carefully prepare the MURINE EYE REMEDIES in the Company's Laboratories.

These Remedies are the result of their Clinical, Hospital, and Private Medical Practice, which facts should speak for their merits, and insure confidence in their application as Domestic or Household Remedies, safe and pleasant in their application to the most sensitive Eye.

We do not believe there is a mother who has used MURINE in her own Eyes and in the Eyes of the members of her family who would be without it.

The child in the schoolroom needs MURINE. MURINE contains no harmful or prohibited drugs. Does not Smart but Soothes Eye Pain.

A Few Words from Grateful People:—

TORONTO, May 10th, 1909.

I want to tell you how much benefit I have derived from the use of Murine in my Eyes. I wore glasses for over five years, and was troubled with weak Eyes and a double Astigmatism—was at times confined to house and darkened rooms until, through the suggestions of a friend, I began applying Murine Eye Remedy to my Eyes. I was relieved of all Eye pain after the first day's treatment, and within a month I could do without my glasses.

I have now used Murine whenever my Eyes felt bad for over four years. During this time I have not worn glasses at all. All this I owe to the use of Murine. Accept my thanks for the very handsome and convenient Toilet Bottle. It is very fine. Very truly yours,

ROSS BREMNER,

Ast. Mgr. King Edward Hotel, Toronto.

We want every home to be supplied with one of our Books on Home Eye Care. They are sent free by mail.

Your Druggist or Store will give you MURINE at 50c. per package. There is nothing else as good for your Eyes.

Write us for any information about your Eye Troubles.

Mr. C. A. TERVO, Glenora, B.C., writes:—"I beg to tell you what Murine Eye Remedy has done for our two children. I went down to the Drug Company at Wrangell, Alaska, a distance of 150 miles, to get this medicine.

"I bought two bottles of Murine, and after using one and one-half bottles the child's Eye was well, but the pupil was smaller than that of the other Eye, but we continued to use Murine until the Eyes were alike, and are now as bright as any children's.

"A few months ago our baby was born, and, as we did not have a physician or nurse to give it proper care, his Eyes were affected in the same way, but this time we knew just how to take care of them with Murine. We are as thankful for this valuable Murine Eye Remedy as father or mother can be for restoring the sight of so precious a member as the Eye of their children."

Cadets rise at 6.30 a.m. winter and summer, study hours 9 a.m. to 4.30 p.m. with the exceptions of Wednesdays and Saturdays which are half holidays. The Cadets are encouraged to spend all their spare time in out-door sports, hockey, cricket and football, while yachting is encouraged under teachers' supervision.

After completing their College course the Cadets go to sea for a year as midshipmen on a training cruiser. Then specialization in the desired branch of Man-of-War duties is taken up. After about five years from the date of entry to the College comes promotion to the rank of sub-lieutenant, followed by that of lieutenant.

The Canadian Government intend to keep the expenses low and to assist the travelling of Cadets living west of Montreal. It is expected that for this two years at College a boy will cost his parents not more than \$800.00.

SEAMANSHIP ROOM AT ROYAL
NAVAL COLLEGE, HALIFAX

THE CALL FOR MEN

The creation of Canada's Navy opens up many new avenues of labour, for every class of men is required for a man-of-war. In truth, the fully manned ship is like a self-contained little town—seamen, engine-room ratings, artisans, cooks, stewards, etc. Already it is a drawing card. There is plenty of work.

Hamlin's Wizard Oil Drives Out All Pain

Vitalized Emulsion of pure Cod Liver Oil, Guaiacol, Glycerine and Rum.

PREVENTS DISEASE. PRESERVES HEALTH. PROLONGS LIFE.

THIS IS NOT A SECRET REMEDY. DOCTORS RECOMMEND IT.

Cod Liver Oil was used in England as early as 1766 and has come to be one of the most generally used remedies for all wasting diseases, of which the most fatal is consumption. Some consider it merely as a nutritive agent, while others contend that, owing to some principle it contains, it exercises a stimulating and alterative influence on the process of assimilation and nutrition, thereby causing the production of healthy tissue, instead of the impoverished material deposited by the blood in scrofula, consumption, and other wasting diseases. Cod Liver Oil is a favourite food tonic the world over, but until Oxomulsion was devised many people could not use Oil so its benefits were lost.

What a well-known Toronto Doctor says:

"I have had ample opportunity of judging the value of OXOMULSION. It accomplishes more than can possibly be obtained from plain cod liver oil; it is pleasant to the taste, and agreeable to the weak stomach, and rapid in assimilation. In recommending it there is no danger of the patient possessing himself of an imperfect emulsion. Under all conditions it remains sweet and without separation or rancidity."

DR. A. MCPHERSON, M.D., Toronto, Ont.

All Druggists and Dealers sell OXOMULSION at 35c. and \$1.00 per bottle.

OXOMULSION—The Food That Builds.

Mothers with weakly children will find OXOMULSION easy and pleasant for the little folk to take, and it is so beneficial that they need take far less of it than of ordinary oil preparations. People with weak lungs and in a run down condition of any age will find OXOMULSION a wonderful weight and health giver. 35c. and \$1.00. All Druggists.

Hamlin's Wizard Oil Drives Out All Pain.

The loafer need not apply. But yet it is the open air life which all physical well-being demands. Then there is something fascinating about life on a man-of-war, something which strongly appeals to the ambition and zeal of the young Canadian, who realize that they are thus doing, at least, a minor portion for the defence of their country. The wages paid are a fair return for the labour, and after a service of twenty-one years, a substantial life-pension is granted.

HOW TO JOIN THE CANADIAN NAVY

In order to join, one should write to the Recruiting Officers at one of the three stations—Ottawa, Halifax, Victoria and Esquimalt, stating age, height, and chest measurements. Evidences of age and the fact that you are a British subject by birth or by naturalization will be required. If in the particular branch you wish to join there are vacancies, the Recruiting Officer will look to educational fitness and will have you examined by a doctor as to your physical condition. If the ordeal does not put you out of the running, you are instructed to join the Naval training establishment at Halifax or Esquimalt.

specifications for the new ships have been prepared, and early in last year (1911) tenders were called for the building of ten vessels including four Bristols and six Destroyers of latest improved type. Our wise stipulation is that the vessels must be built in Canada. This has already had the result of causing several large British shipbuilding concerns to seriously consider establishing branch building yards in Canada and a notable stimulation to Canada's shipbuilding industry may be looked for.

RETROSPECT AND PROSPECT

Such is, in outline, the story of Canada's Navy. Just how rapidly a youngster will grow is difficult to foretell, but one thing certain is that its creation means a further development in our status as a self-governing nation within the world's greatest Empire. Pulsating with opportunities, the young Dominion is marching forward in the very limelight of progress. All eyes are on Canada. With over-extensive natural resources, and our industrious type of citizens, there seems scarcely any limit to the height to be attained. Let "Progress" be our motto. But while our country progresses in the development of our resources and in the accumulation of national wealth, may there be that higher type of progress, viz., the building up of a true and noble Canadian citizenship, which shall for all times do honour to the land, which we each love and cherish.

On examining the contents of a bottle of Psychine, which I selected, I find it to contain no amount of the or drug mentioned in the list of prohibited drugs of "Bill no 146" assented 20 th. July 1908, "An Act respecting Proprietary or Patent Medicines", or any other drug sufficient in quantity in dose as prescribed to be deleterious on internal administration.

The amount of alcohol present I do not consider more than sufficient as a solvent or preservative, and in the dose prescribed, namely, two teaspoonfuls or 120 minims, there is only about 1/3 of a drachm or 20 minims of Proof Spirit.

In addition I may state that among the drugs named in the prohibited list I wish particularly to draw attention to strychnine as being one that is not an ingredient of Psychine.
