TO

HIS EXCELLENCY
THE RIGHT HONORABLE JAMES BRUCE,
EARL OF ELGON AND KINCARDINE, GOVERNOR-GENERAL

OF
BRITISH NORTHAMERMCA, the

IS MOST RESPECTFULLY DEDICATED,

BY HIS OBEDIENT AND HUMBLE SERVANT,
R. D. WADSWORTH.

## PREFACE.

## Montreal, 15th October, 1846.

 To the Christian Public.The Subscriber begs leave to introduce to the Christian Public of Montreal in particular, and of Canada generally, the Family Christian Almanac, as a candidate for their favor and patronage.

No effort has been spared to render the work useful, interesting, and edifying ; and it is fondly hoped, that the real and marked difference in its character, from that of other almanacs, will render its annual appearance an object of interest to the religious community.

I have the honor to be,
Your Obedient Servant, R. D. WADSWORTH, Compiler and Publisher.

## ECLIPSES IN THE YEAR 1847.

There will be two Eclipses of the Sun, and two of the Moon this year.
I. There will be an Eclipse of the Moon at the time of her full on Wednesday, March 31st, in the afternoon, invisible in America. Visible in the eastern hemisphere. Magnitude, 3.43 digits on the Moon's northern limb.
II. There will be an Eclipse of the Sun on Thursday, April 15th, at the time of New Moon in the Morning, invisible in America. Its chief visibility will be in the Indian Ocean, adjacent regions of the Southern Ocean, extending to $80^{\circ}$ of south latitude. It will be central and total on the meridian in long. 89 deg .58 min . east from Greenwich, and lat. 24 deg. 30 min . south. This point is nearly opposite to the centre of the Gulf of Mexico.
III. There will be an Eclipse of the Moon on Friday, September 24th, at the time of Full Moon in the morning, invisible east of the Rocky Mountains in America. The beginning may be seen at California and in the Oregon Territory; and at Atasha, as likewise in Asia, the whole Eclipse will be visible. Magnitude 5.04 digits on the Moon's southern limb. Duration, 2 hours, 13 minutes.
IV. There will be an Eclipse of the Sun on Saturday, the 9th October, at the time of New Moon in the morning, invisible in America excepting the north eastern coast of Greenland, where the end may be seen shortly ifter the rising of the Sun.

## WEATHER TABLE.

The following Tables, ascribed to Dr. Herschell, and revised by Dr. Adam Clarke, is a rational guide to the foreknowledge of the weather, founded on a scientific estimate of the attraction (and its effects) of the sun and moon for the earth.

| 4 and | Rain | Ditto |
| 6 and 8 | Wind | Stormy weather. |
| 8 and 10 | Changeable | $\left\{\begin{array}{c}\text { Cold } \\ \text { rain, if wind }\end{array}\right.$ |
| 10 and 12 noon ... . | Frequent showers... | Cold, with high wind. |

Explanation.-1st. The nearer the time of the Moon's chango, first quarter, full, and last quarter, is to midnight, the fairer will the weather be during the seven days following; the space for this calculation occupies from ten at night till two next morning.-2ndly. The nearer to mid-day, or noon, these phases of the Moon happen, the more foul or wet the weather may be expected during the next seven days: the space for this calculation occupies from ten in the forennon till two in the afternoon. These observations refer principally to Summer, though they affect spring and Autumn to a considerable extent.-3rdly. The Moon's change, first quarter, full, and last quarter, happening during six of the afternoon hours, $i$. $e$., from four till ten, may be followed by fair weather: but this is mostly dependent on the wind, as it is noted in the Table.

## LORD BACON'S RULES FOR PROGNOSTICATING THE WEATHER.

1. If the new Moon does not appear till the fourth day, it prognosticates a troubled air for the whole month.
2. If the Moon, either at her first appearance or within a few days after, has her lower horn obscured and dusky, it denotes foul weather before the fall; but if she be so discovered about the middle, storms are to be expected about the full; and if her upper horn be affected, about the wane.
3. When on her fourth day the Moon appears pure and spotless, her horns unblunted and neither flat nor quite erect, but between buth, it promises fair weather for the greatest part of the month.
4. An erect Moon is generally threatening and unfavourable, but particularly denotes wind; though, if ehe appears with short and blunted horns, rain is ralher to be expected.

Thy shoes shall be iron and brass; and as thy days, so shall thy strength be, Deut. xxxiii. 25.
To thy saints, while here below,
With new years new mercies come; But the happiest year they know
Is the last, which leads them home.
Let not thy heart envy sinners: but be thou in the fear of the Lord all the day long. Prov, xxiii. 17.

Wait on the Lord: be of good courage, and he shall strengthen thine heart. Psalm xxvii. 14.

0 for a closer walk with God, A calm and heavenly frame; A light to shine upon the road That leads me to the Lamb!
When thou saidst, Seek ye my face; my heart said unto thee, Thy face, Lord, will I seek. Psalm xxvii. 8.

## farm houses.

There are few points of husbandry in which the effect of bad manage. ment and want of calculation, is so generally apparent among farmers, as in the position, arrangement, and construction of their dwelling houses. Comfort and utility is too often sacrificed to show, and beauty of design and neatness of exccution overlooked, where they ought to be most apparent. There can be as much good taste shown in the selection of a position, and in the construction of a farm house, as in that of a palace, and there can be no good reason why it should not here be exercised.

In all thy ways acknowledge him, and he shall direct thy paths. Prov. iii. 6.

Each future scene to thee I leave, Sufficient 'tis to know,
Thou canst from ev'ry evil save, And ev'ry good bestow.
Trust in the Lord with all thiae heart; and lean not unto thine own understanding. Prov, iii. 5.

He that shall endure unto the end, the same shall be saved. Matt. xxiv. 13.

Saints by the pow'r of God are kept Till his salvation come : We walk by faith, as strangers here, Till Christ shall call us home.
Watch therefore: for ye know not what hour your Lord doth come. Matt. xxiv. 42.

## FRUIT TREES,

Surrounded by snow, especially if deep or in drifts, are very liable to be destroyed or injured or girdled by mice, and the danger is increased if they stand in or near grass land. The must efficient measure to prevent injury, which can be taken at this season, is to tread or beat the snow firmly about them, which prevents the access of these animals to the trunk of the tree dis they do not approach them when they cannot do it under cover of the snow, and near the surface of the ground. Attention to the above simple direction may have the effect of preserving many valuable young trees

I give unto them (" my sheep") eternal life; and they shall never perish, neither shall any man pluck them out of my hand. John x. 28.

His honour is engag'd to save The meanest of his sheep :
All that his heavenly Father gave His hands securely keep.
My sheep hear my voice, and I know them, and they follow me. John x. 27

## GRAFTING.

During the present month procure and collect scions for grafting. In some instances, as when the trees from which they are to be taken are ready at hand, cutting them may be deferred till spring ; but in most cases, the business shouid not be put off till then, as the multiplicity of other avocations prevent the attention to it which is requisite; for the greatest care should be taken to procure the best varieties, and the present season of leisure admits of this being done properly. After the scions are once procured, it is as éasy to graft and raise good as bad varieties.

I will heal their backsliding, I will love them freely : for mine anger is turned away. Hosea xiv. 4.

How lost was my condition,
Till Jesus made me whole!
There is but one Physician

O Israel, return unto the Lord thy
God; for thou hast fallen by thine iniquity. Hosea xiv. 1.

Sin shall not have dominion over you: for ye are not under the law, but under grace. Rom. vi. 14.
When the load of $\sin$ is felt, And much forgaveness known ;
Then the heart, of course, will melt, Though hard before as stone.
Let not $\sin$ therefore reign in your mortal body, that ye should obey it in the lusts thereof. Rom. vi. 12.

## A STITCH IN TIME.

Before spring opens, the farmer should attend to the performance of whatever can be done now, and which may prevent interruption in the busy season of the year. Wood should be drawn, cut and corded, rails split and drawn where needed, corn selected and shelled, and tools repaired. Where there will probably be a deficiency of tools, it may be now conveniently supplied; and in procuring new tools care should be always taken to get the best, even though they may cost a little more. Where a man can do one third more work by using a good tool, he will soon pay for the additional expense.

The Lord's portion is his people ; Jacob is the lot of his inheritance. Deut, xxxii. 9 .

The Lord my portion is, I shall be well supplied;
since he is mine, and I am his, What can I want beside.
Save thy people, and bless thine inheritance: feed them also, and lift them up for ever. Psalm xxviii, 9.

Acquaint now thyself with him, and be at peace: thereby good shall come unto thee. Job xxii. 21.

Blind unbelief is sure to err, And scan his work in vain ;
God is his own interpreter, And he will make it plain.
That which I see not teach thou me: if I have done iniquity, I will do no more. Job xxxiv, 32.

## QUERIES ANSWERED.

" Is it not better to keep stock at the barn late in the spring, rather than permit them to feed down meadow land?"

Certainly. Farmers err much in allowing their cattle to run over their meadow lands or pastures before the ground is settled or the grass started. Animals should be fed at the barn till there is a pretty fair bite of grass
"Upon what soil do potatoes do best ?"
Upon those that are moist, rather than dry, and abounding in vegetable matter or mold.

## APPLES FOR STJCK.

A practical farmer says, "Last year I butchered a hog sixteen months old, which weighed 500 lbs . For some weeks before bringing him to the tub, he ate nothing but boiled apples. Corn meal was offered him, but re. fused; the pork is of the best quality, and though the moon was not consulted in killing him, the meat "ne'er shrunk a bit i' the pot."
"If teetotalism prevails, we must cut down our orchards," is a common objection. Not so fast friends. Your apples are worth infinitely more as food for both man and beast, than for the purposes to which you now put them.

Blessed are those servants, whom the Lord when he cometh s'all find watching. Luke xii. 37.

Watch-'tis your Lord's command, And while wespeak he's near ; Mark the first signsl of his hand, And ready all eppear.
Be ye therefore ready also: for the Son of man cometh at an hour when ye think not. Luke xii 40 .

All things, whatsoever ye shall ask in prayer believing, ye shall receive. Mat. xxi. 22.

## Lord, I cannot let thee go,

 Till a blessing thou bestow ; Do not turn away thy face, Mine 's an urgent, pressing case.In every thing give thanks: for this is the will of God in Christ Jesus concerning you. 1 Thess. v. 17, 18.

## FODDER.

nths , the tre. con.
mon e as put

Sow corn broadcast for fodder. Some experiments that have been made, seem to show that this would be one of the easiest methods of making winter fodder known ; and it would certainly be a kind of food highly relished, and very nutritious to all animals. The tral made, indicated that from eight to ten tons of food could be grown on an acre. From two and a half to three bushels of corn may be sown per acre; but there can be little hope of success, unless the soil is clean and rieh.

A certain refuge Christ will prove For all the poor opprest;
To save the people of his love, And give the weary rest.
This poor man cried, and the Lord heard him, and saved him out of all his troubles. Psalm xxxiv. 6.

## Draining.

Underdraining should be performed during the dry season, and those farmers who have wet spots of ground in cultivated fields should no longer delay the simple mode of rendering such land productive. Open drains should never be made but to carry off surface water. No drain for any other purpose should be much less than three feet deep, but an open one this depth must be nine feet wide to prevent the banks sliding, and this is an enormous waste of land. But a covered drain occupies no ground. The expense of digging, from this cause is also much greater in case of open drains.

## GARDEN.

Early cabbages and caulif owers for the next season, may be sown, to be protected by a frame and sash in the winter,-strawberries may be trans. planted,-top onions set out,-hardy lettuces sown for spring use, to be covered during winter,-celery earthed up as its growth advances;-and the seeds of the pie plant put in the ground; but as these do not always vegetate freely, they should be planted in rich moist ground, which should be closely packed about them, and watered if necessary. This plant greatly improves the flavor of pies made from dried apples in spring.

SECURE YOUR CROPS.
Root crops especially, should be placed beyond the danger of injury ; it is better to take some additional pains than to lose one half the amount by carelessness.

Potatoes should be packed away in such a manner that they may keep well, even if the winter should be much severer than common. Their pre servation depends on securing them from frost and from moisture. Hence these requisites should be particularly observed, both in placing them in cel lars, and in heaps in the open field.

## PREGERVE YOUR STRAW*

Previous to thrashing, tgo to a hay stack and twist a quantity of bands, from 6 to 10 feet long, which are placed at the barn door, and when the straw is raked to the door, two men take a band and stretch it over the bundle of straw, then run each a hand under it, and turn it over endwise, when one of them fastens the band, and the other prepares another band. In that manner two men will bind as fast as the swiftest machine will thrash, and the straw is stacked as'securely as wheat, and in one-fourth of the time required, when not bound. When wanted, it may be afterwards removed with far less labor than when stacked without binding.

## TRUE ECONOMY.

Do not undertake to winter more cattle than you have abundant means of providing for.-Let every farmer aim to have, next spring, instead of thin, bony, slab-sided, shaggy cattle, fine, smooth, round, and healthy ones; and to this end let them spare no pains ; and, first, let the cattle be well fed; secondly, let them be fed regularly: thirdly, let them be properly sheltered from the pelting storm. - Proper food and regularity of feeding will save the flexh on the animal's back, and shelter will save the fodder.

Government surveys are performed astronomically, and without reference to the magnetic meridian;-the variation of the needle being at the same time ascertained.
By the ancient ordinance of 1676, it is regulated that the lateral lines of all the Seigniories on the St . Lawrence shall run astronomically due North.West and South.East. And by another ordinance of 1722 , all concessions on the Lake of Two Mountain, and on the Grand or Ottawa River, shall run, "Sud quart de Sud Ouest," and "Nord quart de Nord Est," or S. 11 $\ddagger$ deg. W. and $\mathrm{N}, 11 \nmid \mathrm{deg}$. E.

United Kingdom.-The Mails for England are forwarded by steam-packets, which lcave Boston on the 1st and 16 th of every month, except January, February, March, and April, when only one mail, that of the 1st, is despatched.-The packets leave Liverpool on the 4th and 19th of each month except December, January, February, and March. In these months, on the 4th only.The mails in Montreal are usually made up three days before the time of the packets leaving Boston; but the variable state of the roads and of the facilities for conveyance often render it necessary to leave Montreal earlier. Public notice of the precise time of departure is given in some of the Newspapere, and may always be seen at the Post Office,*

## CURRENCY OF CANADA.

The values assigned to the several coins by the Currency Act are not arbitrary, but are proportioned (except in the case of British silver) to the quantity of pure gold or silver in each. The $\boldsymbol{f}$ currency was and is equal to 4 dollars of account; and a note for $\$ 100$ either in Upper or Lower Canada, is now, as it has al. ways been, payable by $\$ 25 \mathrm{cy}$., in any coins equivalent by law to that sum. By the Currency Act the Provincial dollar of account is made equal in value to that of the United States,

The coins current by the Act are :-
British gold coins at the rate of $\boldsymbol{£ 1 4 s} 4 \mathrm{~d}$ cy. to $\boldsymbol{£ 1}$ stg. American Eagles coined before 1st July 1834, at $\boldsymbol{\text { 2 }}$ 13s 4 d cy -Do, coined between 1st July, 1834, and 1st January, 1841, at £2 10s, —and at the same rates for half Eagles, \&c.

The above are a legal tender by tale if within 2 grains of full weight, deducting $\frac{1}{2} \mathrm{~d}$ cy. for each $\frac{1}{2}$ of a grain wanting.

British gold and American gold coined before 1834, at 94s 10d cy, per oz, troy,-

American gold coined between 1834 and 1841 , at 93 s cy. per oz. troy,-
Coined Gold coin of France, at 98 s 1 d cy . per oz.. troy.
before Do. of Laplata \& Columbia, at 89s 5d
Apr 26 Do. of Portugal \& Brazil, at 94s 6d
1841. Sp. Mex. \& Chilion Doubloons at 89 s 7 d " -if offered respectively in sums of not less than $£ 50 \mathrm{cy}$., at one time.

British silver as above stated.
The dollars of Spain, United States, Peru, Chili, Central Ame. rica, States of South America and of Mexico, coined before 1841, at 5 s 1 d currency, and half dollars at $2 \mathrm{~s} 6 \frac{1}{2} \mathrm{~d} \mathrm{cy}$. Quarters at 1s 3 d . Eights at $7 \frac{1}{2} \mathrm{~d}$ and sixteenths at $3 \frac{1}{2} \mathrm{~d}$, if legal weight. The parts less than halves being a tender at the said rates by tale to the amount of $£ 210$ s in one payment, until they have lost one twenty-fifth of their weight, and not afterwards.

French 5 franc silver pieces, coined before 26th April 1842, at 4s 8d each.

Gold and silver coins of the same nations of later dates, may be made current by proclamation to be issued as aforesaid.

Copper coins of the United Kingdom, (or any to be coined by Her Majesty of not less than five-sixths the weight of such coin) at their nominal rates.

The least legal weight of a Sovereign is, 5 dwts, $2 \frac{1}{2}$ grs.-of an Eagle coined before $1834,11 \mathrm{dwts}, 6 \mathrm{grs},-\mathrm{after} 1834,10 \mathrm{dwts}$. 18 grs .- of a Dollar, 17 dwts .4 grs .-of a 5 franc piece 16 dwts .

The $\boldsymbol{x}$ sterling, in any act or contract made after the passing of the Currency Act, [proclaimed 26th April, 1842] is to be understood as equivalent to $\boldsymbol{£ 1} 4 \mathrm{~s} 4 \mathrm{~d}$ cy., but in any act or contract made before that time, the word sterling is to be construcd ac. cording to the intention of the Legislature or of the parties.

## CURRENCY TABLE.

£1 Sterling equal to £14s td Currency.
equivalent sums: in sterling, currency,-and dollars \& cents.
Rule.-To convert Sterling into Currency : To the given sum add 1.5 th of itself and 1.12 of that 1.5 th.
To convert Currency into Sterling : Multiply by 60 (or by 12 and 5) and divide by 73.

## average mortality of all mankind.

The population of the whole earth has been variously estimated between eight hundred and a thousand millions of souls.

If we fix upon an intermediate number, say $946,080,000$, and assign 30 years for the continuance of each generation, we shall find that the "children of men" come into the world and go out of it at the following average :-

Every Moment............................. 1

- Minute.............................. 60
- Hour................................ 3,600
- Day,24 hours..................... 86,400
- Wrek, 7 days.................... 604,800

## CONCERT OF PRAYER.

Prayer is offered by Christians, in various places, in behalf of particular objects, in the closet, the family or the social meeting, at the same season. The time and subjects of Prayer are here specified, in the hope that many may be induced to join the concert. "If two of you shall agree on earth as touchmg anything that they shall ask, it shall be done for them of my Father which is in Heaven."-Matt xviii, 19.

That Prayer may become effectual, it must be presented in the name of Jesus, in faith and with importunity; and the requisite means must be used for the attainment of the object desired.

# SCRIPTURE CHARACTERS, OR THE CHILD'S 

 PRAYER.Daniel's wisdom may I know, Stephen's faith and spirit too ; John's divine communion feel,
Moses' meekness, Martha's zeal ; \}
May I, with unwearied Paul, \}
Win the day and conquer all ; $\}$ Mary's love may I possess, Lydia's tender-heartedness, Peter's ardent spirit feel, And, like him, to Christ appeal ; $\}$ Like young Timothy, may I \} Every sinful passion fly. Job's lung patience may I know, David'd true devotion too; Samuel's early habits wear, Lazarus' happy portion share ; May lsaiah's hallowed fire All my fervent heart inspire; $\}$ Mine be Jacob's wrestling prayer, Jabez's honour, Joshua's care ; $\}$ Joseph's purity impart, Isaac's meditative heart ;
Abraham's friendship, how sublime ! Might I call that blessing mine.
But more than all, may I pursue
The lovely pattern Jesus drew :
And in my life and conduct show
How he conversed and lived below ; And imitate my suffering Lord, Till all his image is restored.

## TEMPERANCE.

Anecoote--"My dear husband," said an amiable and witty wife to her truant lord, the morning after he returned home at a late hour, sonrewhat the worse for an evening's dissipation, "do you think, really, that man and wife are both one, as is sometines said?" "Certainly, my dear, how shal! it be otherwise? But why utsk that question ?" "Because," she replied, "if that be the fact, I am bound to express my regret, and ask your forgive. ness for being imprudent last night. Pardon me this offence, and I promise you I will never get drunk again." The rebuke was effectual.

Father Mathew says that " teetotalism signifies the renunciation of alcoholic drinks for life, or, as it is in the Irish pledge, go fragh-for ever;-an excellent definition.

- Relative Dearees of Drunkenness.- The London Panch, in This isual caustic and sarcastic style observes, that if Prince Albert were drunk, he would be culled elated; if Lord Tristam were, he would be called elevated; if Mr. Ylum, the rich merchant, were drunk, he would be called inebrated; if a respecta. ble tradesman were drunk, he would be called intoxicated; but it a workman be in hquor, it would be said that the nasty beast was as drumk as a hog.
On Friday, the 3rd of February, died A nne Parker, aged 109, the oldest inhabitant of Kent, England. During her whole life, she abstained from spirituuns liquors, indulging only in tex.-P $u b-$ lic Papers.
Deaeased, on the 26th of June, 1838, at Bybrook, Jamaiea, Mre Letitis Cox. She outlived the ofidest inhabitants in this pa. rish for many generations. By her account she was a grown up young woman at the time of the destruction of Port Royal by an carthquake. She declared that she never drank anything but water durng the whole of her life. She must have been upw rds of ane hundred and sixty years old.
An old black woman, at Holland estate, died eighteen months ago, at one hundred and forty years old. She also declared she never drank anything but water.-Jamaiea Royal Gazette.

A young gentleman at a temperance meeting, on being asked to sign the pledge, excused himself by saying, "1 am not quite ready." At the close of the meeting, he proposed to one of the young ladies present to see her home. " 1 am not quite ready,' was the lacunic reply.
Crewisa Tonacho.-An American editor says:-"Suppose a. whacen, chewer is addieted to that practice fifty years of his life, cadr day of that tithe he consumes two inchas of the solfd plug. which amounts to six thousaud four hundred and seventy-five Pet, making vearly a mile and a quarter in ite th of solid tobacco, half ah . inch thick and two inches sroad." He wants to know what a young beginner would think if he eav the whole amount stretched out before him, and was told that to chew it -up would be one of the exercises of his life, and also that it would tax his income to the amount of two thousand and ninety-four dollars.-.
