

BUILDING FALLS AT LONDON, ONT.

BURYING 30 PEOPLE—FIVE KILLED—MANY INJURED—LIST OF DEAD

Special to The Leader. LONDON, Ont., July 16.—The building occupied by Reid, Gravel Hall, photographer store, and Brewster's store on Dundas street, collapsed at this afternoon, burying a number of people, estimated at 30 and killing at least five. The buildings are complete ruins.

CHINAMEN ARE STOWED AWAY

SIXTEEN CHINESE FOUND HIDDEN ON BOARD SS. "TARTAR" AT VANCOUVER

Special to The Leader. VANCOUVER, July 16.—Last night after the arrival of the steamer "Tartar" from the Orient, suspiciously, the right of suspicion of Chinamen hanging around in boats. A strict lookout was kept and a thorough search of the ship made, resulting in the discovery of thirteen Chinamen in various parts of the steamer. Three were found in the fore hold and ten in the bunkers. Great excitement prevailed among the Chinese crew while the search proceeded, and developments may reveal a sensational plot, as the stowaways were supplied with bedding and other luggage. Three more stowaways were discovered this morning, the connivance of the crew is obvious.

FLYER FOR WINNIPEG

The Northern Pacific May Operate Fast Train Over New Short Route

By Associated Press. ST. PAUL, Minn., July 16.—It is the gossip in railroad circles that the Great Northern and Northern Pacific are combining forces to wage war on the Soo. The Great Northern is doubling tracking from Grand Forks westward, and it is declared that as soon as this work is done, the Northern Pacific will put in operation a Winnipeg flyer over the new short and low grade line to the Manitoba metropolis.

ENGINEER STRUCK DOWN BY HEAT

WESTBOUND TRAIN RUNS INTO CLEVELAND STATION WITHOUT GUIDANCE

By Associated Press. CLEVELAND, Ohio, July 16.—Hundreds of lives were imperiled today when the engineer on the west-bound lake shore train was stricken at the throttle, as a result of the intense heat, and the train sped almost into Cleveland without a guiding hand.

RABIES IN MOOSMIN

Horse Dying Under Suspicious Circumstances Turns Out to Be Case of Rabies

Special to The Leader. MOOSMIN, Sask., July 16.—About three weeks ago a horse belonging to Dr. McLoughry, V.S., died under circumstances that made the doctor suspect rabies. The head was shipped to Dr. Gordon Bell, of Winnipeg, who reported today that the case was rabies. Previous to this several dogs had been destroyed having shown symptoms of the disease, but this is the first positive proof that we have had an outbreak of rabies. Due precautions have been taken against its spread.

A HUMAN SKY ROCKET

YOUNG AERONAUT CATCHES FIRE AND FALLS TO THE GROUND

By Associated Press. NEW YORK, July 16.—Eugene Raymond, a young aeronaut of this city, involuntarily played the part of a human sky-rocket at Belleville, New Jersey, yesterday when the flashlight powder in the imitation cannon out of which he is shot from a balloon became ignited and set fire to his clothing. He was in the air for a few minutes and was seen falling to pieces. When he reached the ground, his clothing was ablaze, his hair and eyebrows burnt off and his skin blistered. He is in the Passaic Hospital.

Farm Hands Coming West

Special to The Leader. TORONTO, July 16.—One thousand men and women left this afternoon for the Northwest. It required three special trains to accommodate them. They go west to gather in wheat, and many are expected to remain in the Western provinces.

Peel County Scandal

Special to The Leader. TORONTO, July 16.—It is reported that the Peel county scandal in which a farmer named Joseph Mochersell, is accused of abusing a neighbor's wife by the name of Henry will be before the courts in a short time. Henry it is said, will sue for \$28,000 for alienation of his wife's affections. Both the men have large families.

To Build Railway Engines

Special to The Leader. KINGSTON, Ont., July 16.—The Canadian Locomotive Works Co. has been awarded a contract to build 25 electric engines for the Intercolonial railway. The work will be completed by the end of 1908.

IMPROVE TRADE WITH MEXICO

COMMERCIAL AGENT OF GOVERNMENT WILL TRAVEL CANADA

Special to The Leader. HALIFAX, N.S., July 16.—A. W. Donley, commercial agent of the Canadian Government in Mexico, arrived here today on his tour of Canada. Relations between the two countries, Donley said that Mexico afforded a good market for rails and also cement. Donley will travel across the Dominion to learn what articles Canada has to offer Mexico, and to tell of what Mexico can send to Canada and thus improve the trade relations.

ITEMS FROM INDIAN HEAD

COUNCIL REPORTS ON ESTIMATES—SCHOOL BOARD MEETINGS—BASEBALL

From Our Own Correspondent. INDIAN HEAD, July 16.—The high school board held its first meeting tonight. The members present were: Bishop Grisdale, F. L. Mackay, C. Manford and J. H. Francis. Bishop Grisdale was appointed chairman of the board.

BOMB OUTRAGE IN RUSSIA

FORMER GOVERNOR OF TIENSIN WITH LADY AND COACHMAN BLOWN TO PIECES

By Associated Press. ALASKA, Russia, July 16.—General Alkhanoff, former governor of Tientsin, was blown to pieces tonight by a bomb. The explosion occurred at 2:30 this morning. A son of General Alkhanoff and a daughter of General Gileoff sustained serious injuries. The party were returning to the residence of General Alkhanoff from the club. The bombs were hurled in the rear of the carriage. General Alkhanoff was seriously injured by a bomb at Bogan on May 20 of last year. This bomb was thrown just as he was about to take a train for Tientsin. The explosion seriously wounded him and he died a few days later. The remainder of the Cossacks fired into the crowd, killing many persons and then burned to the ground the buildings into which the people had fled.

BASEBALL

Lethbridge Beat Calgary. LETHBRIDGE, Alta., July 16.—Lethbridge took the second of the series from Calgary tonight by a score of 6 to 1. The Calgary players appeared in a trance. This is the third consecutive losses for Calgary. R.H.E. Score: 0 0 0 0 1 0 0 0—6 1 2 Calgary; 0 1 0 0 5 0 0 0—6 1 2 Lethbridge.

CITIZEN'S DAY AT WINNIPEG FAIR

BIGGEST ATTENDANCE ON RECORD—48,000 PAID ADMISSION TO GROUNDS

Special to The Leader. WINNIPEG, Man., July 16.—Today was Citizens' Day at the fair, and the grounds were crowded all day long. The attendance being the largest ever visiting the grounds since the exhibition was inaugurated. The official figures supplied by Manager Bell, late tonight, gave a paid admission as 48,000. The large crowd seemed well pleased. The races were well patronized, the grand stands being packed to capacity during the afternoon.

Monday's Racing

The final heat in 3 1/2 minute pace was practically between Sadie and Wilda. Summary: Wilda, bl. m., L. I. Colkitt, Moose Jaw, 6 4 1 1 1. Sadie Bars, bl. m., James Macdill, Souris, 3 1 2 2 2. Gypsy, br. m., G. H. Macgrath, Winnipeg, 7 2 3 4 4. Muscovar, b. h., D.A. McKinnon, Crookston, 4 4 4 3 3. Time—2:21 1/4, 2:24 1/4, 2:25 1/4, 2:25.

Other Races

The other running race on the card was four and a half furlongs, best two in three, but the race was never in doubt for a minute. Alzora taking the pace in both heats and holding it to the finish.

The summary—King's Guinea, br. h. (1:22) T. F. Morris & Sons, 1.1.2. Zeriba, b. m., J. H. Marland, Carberry, 1.1.4. Time, 57, 57.

Special to The Leader.

WINNIPEG, July 16.—Today was one of the big days at the exhibition race meet, and while only three races were pulled off there was interest enough in them to compensate the spectators who were forced to sit between many tedious and unnecessary waits between the races. The three events, the 2:05 pace, the 2:20 pace and the 1 1/4 mile dash were high class, though the time made by the fast ones was not what might have been expected in consideration of their past class. The favorites were in rather unexpected style, with even second and third choice set back.

The first race was the 2:05 pace, five of the six entries coming out, Tom Keene being the one withdrawn. They went to the starter with Hazel Felt as the hot favorite, Africe C. second choice.

Africe C. h. E. J. Rochoon. Winnipeg, Spencer, 1 1 1 1. Red King, g. J. Carson. Winnipeg, Barnes, 4 2 2 2. Tom Cornell, b. m., C. B. Little, Winnipeg, Holmes, 2 3 3. Hazel Patch, blk. h., C. Y. Gregory, Winnipeg, Fleming, 3 4 4 4. Time—2:13 1/4, 2:15 1/4, 2:16.

The second race, the 2:20 pace, brought out the largest field which has ever faced a starter on the exhibition track. There were 26 entries and 16 started. The starter had a great time getting them away and when he finally gave the word they were scattered all over the shop with about eight in the forward division. It was great racing all the way, the first heat being three-quarters better than first heat in the faster event.

Nathalia, Brown, ch. m., 2 3 1 1 1. Hawkshaw, Brandon, 3 3 2 2 2. Rungar, Sheldon, Iowa, White, 5 5 5 5 5. Lockhart, s. g., Hankey & Jones, Britton, S. D., 6 5 3 3 4. Mabel Tal, b. m., R. F. Williams, Rosevear, Wis., 1.1.7 1/2, 1.15, 1.18 1/2, 1.18 1/2 and 1.25 1/4.

Also started—Woodford, Chimes, Strange Wave, Little Boy, Matty Weaver, St. Boniface, Debert G. Sorens, Evans, Leon, W. Lucy, H. Governor, Sables and Dan Allerton. The mile and a quarter dash was a sensational race filled with interesting features. Friendless got away with a jump and at first had a lead of four or five lengths with the two favorites away back. The brown horse had the necessary stay with it and made good.

The summary—King's Guinea, br. h. (1:22) T. F. Morris & Sons, 1.1.2. Lady Huron, ch. m., (1:22) Moody & Co., 2. Rosary (1:24) George. McMillan, 3. Time—2:14 1/4. Friendless and Invoice also ran.

Japanese Admiral in Canada

Special to The Leader. MONTREAL, July 16.—Admiral Yamamoto on his way to the Pacific Coast arrived in the city this morning from Boston. The baron and his suite are quartered at the Windsor hotel. Nothing in the way of a formal reception was given this distinguished son of the east. The party leave here tonight for Ottawa and from there will proceed west to Seattle, thence to sail for Japan. The party spent the day in sight-seeing in the most informal manner.

Special to The Leader.

QUEBEC, July 16.—The Thompson liner "Devona" returned here yesterday after being in collision with an iceberg outside Belle Isle. The vessel and cargo was badly damaged.

To Build Railway Engines

Special to The Leader. KINGSTON, Ont., July 16.—The Canadian Locomotive Works Co. has been awarded a contract to build 25 electric engines for the Intercolonial railway. The work will be completed by the end of 1908.

SUNSHINE FURNACE

NO BENDING DOUBLE AND POKING AROUND THE ASH-PIT WITH A SHOVEL TO GET THE ASHES OUT OF THE SUNSHINE.

The Sunshine is furnished with a good, big ash-pan. All you have to do is to grasp two strong, firmly attached, always-cool, bale handles and the large, roomy ash-pan easily comes out.

A minute or two is all it takes to perform the operation. All the ashes are in the pan, too.

Because they are guided into it by means of ash-chutes attached immediately below the fire-pot.

Sunshine is the simplest, easiest-managed, cleanest kind of a furnace. You don't have to wear overalls and a smock when attending to the Sunshine.

If your local dealer does not handle the "Sunshine" write direct to us for FREE BOOKLET.

Motoring

The year 1907 promises sensational developments in the automobile line and it looks now as if before the end of the season the industry would succeed in demonstrating to the skeptics that the modern motor car, strong, staunch, and reliable, has arrived, and no longer it is a matter of doubt when a car starts out on a long journey that it will arrive safely at its destination without engine troubles. As for the speed possibilities of the automobile the marvelous performance of S. F. Edge in England last week shows that the automobile's greatest rival, the locomotive, has nothing on it when it comes to setting a pace for a long journey. On the new five mile track in Great Britain, which was built especially for motoring purposes, Edge accomplished his ambition of smashing the twenty-four hour record. In his younger days Edge was a long distance cyclist of note, 24 hour grinds being his specialty. Turning to the automobile he has made the six cylinder motor his hobby and it was in a car equipped with this engine that he smashed the world's record, averaging better than sixty-six miles an hour and at times running over seventy. That's a pace that makes the eighteen hour train to New York look like a snail's pace. Another proof of the practicability and stanchness of the automobile is the fact that it is found in the recent reliability runs. New York held a sealed bonnet test in which 41 of the 40 seven cars ran six hundred miles in the four days without having a single engine repair or adjustment made. In Chicago on Friday fifty-five cars went through the reliability run with perfect scores and those which were put out lost only to trifling adjustments or mishaps, with the exception of one car that turned turtle near Elgin. The Glidden tour next month should add its share to the common cause. Certain it is the automobile is here, and here to stay.

U.S. PAYS BIG PROFITS GETS ALL THE CREAM

We were only making about 12 pounds of butter a week. The first week the U. S. Separator was in our house, we made 26 pounds, a gain of 14 pounds over the old way. This increase would well repay any farmer to buy a U. S. Separator. January 6, 1907. Auburn, Ill. WALTER S. WOOLSEY.

The picture above shows how clean the U. S. skims. Holds the World's Record—and with its simple bowl, low milk tank, strong frame and proved durability the U. S. is far and away the best separator. That's what users say after trying other kinds.

Send for handsome free catalog telling ALL about its construction and operation. Just write for "U. S. HO" leader.

MILLION DOLLAR CONTRACTS GIVEN

Cabinet Pass Orders for Locomotives and Rolling Stock for Inter-Colonial

OTTAWA, Ont., July 10.—There was another meeting of the cabinet this afternoon, the last for the present week, when nearly one million dollars worth of contracts for locomotives and rolling stock for the Inter-Colonial was passed. The contracts for locomotives, principally heavy freight engines, were divided between the Kingston Locomotive works and the Montreal Locomotive works. A total of 1,133,585. If the present program is kept up the population of Canada will be over seven and a half millions when the next census is recorded. From 1891 to 1901 Canada's population only increased 58,976.

FREIGHT ENGINE EXPLODES

Smashing into a Thousand Pieces and Maiming 3 Men for Life

MONTREAL, July 11.—A freight engine of the Central Vermont, which left Montreal yesterday morning blew up near St. Albans, smashing into a thousand pieces. Three men were maimed for life.

Driver James Scott and fireman Robert Wood were hurled 200 feet and horribly maimed. They may live. Strikeman Geo. Stanton, in a car next to the engine, was hurled into a ditch and both arms broken.

SEA HORNETS

New Vedette Torpedo Promises to Revolutionize Maritime Warfare

PARIS, July 11.—A quiet middle-aged man living in the Avenue de Jena, promises to revolutionize maritime warfare. This is indeed the ultimate result of the experiments of investigations of Count Recope, a naval engineer to whom we refer the development of the automobile car of motor boat.

Count Recope has given to his new instrument of war the name of a small mobile vedette torpedo, which is, in fact, a small torpedo and the title expresses well its function. The torpedo launcher has only one aim, to sink the enemy's ship, and it is as simple as a child's toy.

The ordinary torpedo boats have been hitherto considered adequate for coast defense, for in this work their small size is a positive advantage, and it is possible to build fifty torpedo boats for the price of a cruiser, and the crews are proportionately reduced. But what the torpedo boat is to do is to attack the enemy's fleet, and it is to be used for the purpose of attacking the enemy's fleet.

Hornets at \$10,000 Apiece. Count Recope's vessel costs only \$10,000, and it requires only two men to handle it. For the price of a battleship, therefore, it is possible to construct some 500 of these little vessels, and what battleship or what fleet of ships could hope to maintain a blockade of a port of these little torpedoes.

The great advantage of the petroleum motor over steam is that for the same power it is much lighter. The motor while in action produces neither smoke nor noise, and, in the case of the water, with no wash and with as little as possible to attract the attention of the eyes or ears. If the vedette accomplishes its purpose it destroys a fighting machine of the highest value. At the worst, if it is sunk, it is the loss of two men and \$10,000.

As Portable Destroyers

But Count Recope has hit upon something more ingenious still. These boats are so portable that they have been able to design a vessel protected like a battleship, and having the same size, but which, instead of carrying the artillery of an ordinary battleship, will simply serve as transport for fifteen torpedoes launched. Its weapons, so to speak, will not be guns, but vedettes. It will have the same speed as the squadron which it will accompany to the scene of the battle. Arrived there, it will scatter upon the water its fifteen vedettes and they will then do their work.

One can imagine nothing more terrible than, in an engagement between big battleships, suddenly, to find the microscopic but deadly engines darting in and out in every direction. The idea is perfectly feasible, because, as Count Recope pointed out, and as can be verified by reference to history, there never has been a great sea fight that did not take place close to the shore.

Small Boats for Small Countries

The speed of the vedette is about seventeen knots, which is quite sufficient for its purpose. The French government has faith in the vedette, and the first of its kind is now on its way to Cherbourg, there to co-operate with the submarines and other means of coast defense.

"I am not only an inventor," said Count Recope with the illuminating precision and excellence of construction, the New Scale Williams Piano is unequalled in Canada to-day.

W. G. F. SCYTHES & CO., Regina, Sask.

POPULATION ON THE INCREASE

Last Census Returns Give 6,504,900 Inhabitants in Canada

OTTAWA, Ont., July 10.—The Census and Statistics department has announced that the population of Canada on the first day of April of the present year. At the last decennial census the population of Canada was 5,711,216, so that in the six years there has been an increase of 1,133,585. If the present program is kept up the population of Canada will be over seven and a half millions when the next census is recorded. From 1891 to 1901 Canada's population only increased 58,976.

A Kenora Wedding

OTTAWA, July 11.—John Andrew married yesterday at St. Matthews the Miss Edith Edna Dunlop, niece of Hon. Frank Oliver, by Rev. Wm. Loucks. There was a full choral service and organ music tendered to the bride and groom by the choir. The bride couple left for Montreal, Toronto, and the Pacific coast, after which they will reside in Kenora.

Striking Operators

OAKLAND, Calif., July 11.—Following the refusal of Assistant General Superintendent Miller of the Western Union Telegraph Company to meet a committee of the striking telegraph operators, President Small, of the Telegraphers union, will leave tomorrow for the east, and it is thought will call at Chicago and other eastern cities.

SCHOOLS FORBID KISSING GAMES

Philadelphia Education and Health Bureaus Seek to Stop Spread of Disease

PHILADELPHIA, July 11.—Kissing games are to be tabooed in public school playgrounds. Stringent regulations against the practice, which is being suppressed by the Board of Education and the medical inspectors.

Not that these stern authorities fear the incursion of the little god, or wish to discourage amicable games, but that the youngsters, they are simply shooing away the dread disease and discouraging the visitation of infectious germs.

Besides, the authorities argue that the modern child is made of sterner stuff than the youngster of a generation ago, and that boys and girls would rather engage in more athletic sports than those of their grandfathers.

WILL REPRESENT CANADA AT HAGUE

Commissioner Leaves to Attend International Dairy Conference at the Hague in August

OTTAWA, July 11.—J. A. Ruddick, dairy commissioner of Canada, leaves next week for Europe. He is a delegate to the international dairy congress which will meet at The Hague in August. This is the third congress, and it is the first that Canada has been represented. Before The Hague conference Mr. Ruddick will attend a pure milk supply congress in Brussels. The object of the organization is the consolidation of the means of securing a pure milk supply in cities.

LUNATIC AT THE ELYSEE

Woman Who Says She is Queen of France Wants to Oust President

PARIS, July 11.—A well-dressed woman called at the Elysee last night and, addressing herself to the gate porter on duty, asked to see M. Falher. She was asked her business. "Why, certainly," said the lady sharply, "I am the queen of France. There is no longer a president. Please tell M. Falher, with my compliments, that he is to vacate the Elysee as soon as possible, as I wish to enter into possession." Then the porter, realizing that he had a lunatic to deal with, gave her in charge. Today she was sent to an asylum.

Surpasses Everything.

For artistic elegance, scientific precision and excellence of construction, the New Scale Williams Piano is unequalled in Canada to-day.

W. G. F. SCYTHES & CO., Regina, Sask.

FORGING FIVE DOLLAR BILLS

Two Men Arrested for Circulating Spurious Bills on Traders' Bank of Canada

SOO, Ont., July 10.—Regard Wynn and Arthur Boyceau were taken into custody on the American side of the river yesterday on a charge of circulating counterfeit money in the form of \$5 bills of the Traders' Bank of Canada. When arrested, Boyceau had 900 of the spurious currency in his possession and Wynn had \$75. The men were taken to the Canadian side of the river and lodged in cells, upon appearing before a magistrate they acknowledged the charge and stated that they had procured the money from a man named Burke of Lindsay who has since been arrested, having a complete course of instruction in the art of printing the counterfeit money. The men who are over 60 years of age were remanded for 8 days pending investigation by the police as to the strength of their statement.

TELEGRAPHIC BRIEFS

INDIAN HEAD, July 11.—O'Malley, the man charged with horse theft was yesterday committed to stand his trial at the next sitting of the supreme court at Regina. He was taken to Regina this evening in charge of Constable Somers of the R. N. W. M. P.

DETROIT, Mich., July 11.—The long and stubborn battle against heavy odds to place order in Michigan on a stable footing, the Grand Lodge of Michigan of the Ancient Order of United Workmen yesterday voted to surrender its charter.

MOOSE JAW, July 10.—The voting on the bylaw to raise one hundred and twenty-five thousand dollars, by fifty years five per cent, debentures took place today, and resulted in the bylaw being carried, by one hundred and eighty-seven to seventeen. The voting was very quiet throughout the day.

WINNIPEG, July 11.—Harry R. McCormack, a Canadian Pacific Railway station agent, at Letellier, was drowned last night in the artificial lake on the farm of Mrs. Calder, near the town with a companion, and being unable to swim got beyond his depth, and immediately sank and was drowned.

OTTAWA, July 11.—The Grand Trunk Railway locomotive engineers have appointed John Cardwell, a Canadian Pacific Railway engineer of Calgary, as their representative on the Conciliation Board in the labor dispute with the Company. It is likely that Professor Short of Kingston will be appointed chairman.

PORT ARTHUR, Ont., July 11.—Shipments of grain from Port Arthur and Fort William elevators since 29th April, in opening of navigation has been: Wheat, 16,950,998 bushels; oats, 5,341,062; barley, 406,858.18 bushels.

SAN FRANCISCO, July 11.—Judge Dunne yesterday refused to admit Mayor Schmitz to bail and denied him the privilege of visiting his attorneys. Schmitz appeared in court in person to proffer release.

BALTIMORE, July 11.—Sentence to two years in the city jail and a fine of \$10,000 were imposed upon John S. Seward, fraudulent collector of the city, for defrauding the Government.

EDMONTON, July 11.—The body of a Galician was found last night in the river, and at first thought to be a victim of foul play. It turned out to be Andrew Willsa, who met his death by suicide. He had been undergoing treatment in the hospital for weeks, but was discharged, partly owing to inability to get work, and ill health.

WASHINGTON, July 11.—Gaston P. Phillip, a Washington and New York society man, who has been in jail here since May 18, on a charge of murdering Frank MacAbay was today admitted to bail in sum of twenty five thousand.

NEW YORK, July 11.—That a plea of insanity may be the defense of Chester B. Ryan, payor of the Paris Trust Company, who is charged with defaulting with \$96,000 of Trust Company's funds was indicated by his counsel at the preliminary hearing today.

NEW YORK, July 8.—Armed with a hatchet and crazed by the heat, a workman on a Wall street building ran-amuck among his fellows today, fatally injuring one and dangerously wounding two others; he was then attacked by the crowd and narrowly escaped death himself.

ST. PAUL, Minn., July 8.—Timothy Flood, the veteran second baseman, whose suspension for assaulting the umpire during an Eastern League game at Toronto, has been purchased by the St. Paul club. Flood is a fielder who has an excellent big league record and was looked upon as the premier second baseman in the Eastern League. Flood will be a valuable acquisition to the local club and will probably be used in the Saints' short guard, while Geir will be shifted to the outfield.

ST. CATHARINES, July 10.—Andrew Farley, 71, of age committed suicide at Toronto, about 3 o'clock, this morning. The old man had been ill for some time. His wife had just offered him a glass of water which he refused to take. He then went to the room and had gone out and get milk, when she heard a shot and ran back into the room and found her husband on the floor in an unconscious condition. The old man had left his bed and taken a run from a drawer and shot himself in the temple.

GALICIAN WEDDING FEAST MURDER

Eleven Men on Trial at Winnipeg Assizes Charged with Murdering Soroby

WINNIPEG, July 11.—Eleven men were put on trial at the assizes here today, charged with the murder of Lutz Soroby at a Galician wedding feast at a house on Burrows avenue on the night of June 10. All pleaded not guilty and were represented by counsel. Sergeant Robertson and Detective Steel gave evidence relating to the murder of the Canadian, after the fatal fight and the progress of elimination through which ten of these had been subsequently released. Evidence was given strongly to all now on trial as having been responsible for the death of Soroby. Medical evidence was given by the coroner, who stated that the victim had died from bleeding of the lungs while lying unconscious from wounds inflicted on his head and face. Evidence was also continued when the court adjourned for the day.

CARS SMASH BRIDGE

Pile on Top of One Another—46 Laborers Have Close Call

MITCHELL, S. D., July 11.—A bad wreck occurred on the Chicago, Milwaukee and St. Paul road, when a wrecking car, block car and combination coaches fell through the river bridge, three miles east of this city. The boom of the wrecking car which stands about 35 feet high, struck one of the spans at the top of the bridge with such force as to make the east end of the bridge collapse. The three cars are piled on top of one another, the combination car touching the top of the river. In this car were forty laborers, none of whom were hurt.

IMPRESSIONS OF A CANADIAN IN EUROPE

BRUSSELS, Belgium.—When I first saw the Rhine, some years ago, I confess to a feeling of disappointment at the famous falls, which to Canadian eyes seemed but a minor cascade, inferior in some respects to the Chaudiere of the Ottawa. The river above, it is true, presented many beautiful scenes, as at Basle, the "Unter See" of Lake Ontario, and the scene of the river and the scene of many American waterways, notably the Hudson. All depends upon the point of view, what one comes to see.

While I cannot agree with the small boy from Chicago, accustomed to spending the holidays with his grandmother in St. Thomas, Ontario, who was overheard to remark to a travelling companion on the Rhine: "I can still sympathize with him from his point of view." To one who has paddled the Canadian creek on the end of a plank, bare-legged and happy, ancient castles and miles of vineyard clad mountains meant little. The Germania monument at Ruedesheim, the equestrian statue of Wilhelm I. at Coblenz, to a boy dressed in the habiliments of eastern civilization, and confined to a "dam" for or after deck of a "dam" note," might well be positive eyecores. But to the "grown-up" with an eye to the beautiful, a respect for the historical, and a dash of romantic imagination I cannot conceive how disappointment could come for a moment on the trip, say, from Mainz or Bielefeld to Coblenz.

I must needs let guide books, pictures and travel volumes fill in the lovely details. Below the latter cut the romantic gives place to some extent to the utilitarian as tall chimneys and smoky towers are passed, but enough remains to make the river still a delight especially when Bonn and Cologne, with its bridge of boats and famous cathedral are situated. As well as the river, with its noble structure with its towering height, flying buttresses and grand interior, as with Father Rhine at his best.

Across the Netherlands border into Belgium, at Antwerp and on to Brussels via Aachen, Liege and Louvain, the country presents the same smiling panorama of fenceless well-cultivated fields and fields as elsewhere, save that Flemish windmills loom up on every side. Brussels is often termed the "Paris of the North" but yet been able to trace the similarity, save in the fine boulevard residential avenues and, to some extent, in the language. Brussels is, however beautiful in its own way, which, after all, is best. Its wonderful town hall and Halle, and its Pain face one another across the market place, flanked by the old guild house, presenting a medieval picture in contrast with the modern city, which is ever spreading.

The spirits of Count Egmont and Hooro and their fellow victims may be easily imagined hovering about the spot where their bodies and heads were severed. The Justice Palace or Court House was the largest architectural work of the 19th century, and is a noble building. The Royal Palace on the hill above is changing its outward appearance, the scaffolding still covering its new facade. The same absence of overhead trolley wires, the trolley poles being taken down and out of use, as in some other places, is noticeable.

A few impressions arise I leave the content for the moment may be briefly set down. Railway travel on the whole is comfortable and especially in Germany and Belgium. The second-class is practically as good as the first, unless perhaps in crowded seasons. The railway companies of Germany and Belgium are by the state except two, in Germany and Belgium only. Italy has been spoken of in former letters. In Germany the first class has been recently reduced, the earnings justifying this step.

In all these countries the roads appear to be carefully and capably managed and run well. The limited allowance for baggage and the system of the tips to porters and others are some offset to the cheap fares. But, on the whole, Government ownership seems to be a success on the railway. A South African traveller tells me that the railways of the Transvaal (where coal is plentiful) yield a 12 per cent dividend to the Government. Whether it would be so in Canada, with its difficult conditions, I shall not attempt to discuss.

One thing which might be discussed by farmers' institutions in Canada, perhaps with advantage, is the practicability of abolishing farm fences in the older provinces, saving the expense and labor which their maintenance involves and improving immensely the appearance of the country. The difficulty in protecting the crops from the livestock is, I suppose, the chief objection. That seems to be got over in Hungary, where immense herds of cattle and sheep are pastured, presumably by herdsmen herding them. Labor is, however, cheaper here than in Canada, where some mechanical device for confining animals within the pasture limits (as I believe the Northwest) would seem to be essential.

Labor work is doneer where women work as they do not seem to be seen working everywhere in the fields and gardens, but in the towns of Hungary they act as assistants to bricklayers and masons, carrying mortar up the ladders to the scaffolding of new buildings. I saw with him women as constantly met pulling good-sized wagons containing the implements of their calling. Occasionally they have the assistance of a dog as a companion in harness, but the dogs are apparently used more freely to assist the men who draw the milk cans to the door.

Occasionally the milkmen stop to exchange a friendly word with one another, when the dogs immediately have a set on their own account—illustrating the fact that man even here is the wiser animal. In Munich women sweep and clear the refuse from the streets—and make a good job of it, too—while others open and close the switches of the electric street car tracks with an iron rod, sitting sometimes for brief intervals on a chair by the curb. All this outdoor work tends to give the laboring women a weather-beaten, manly appearance, but I found myself regarding them with quite as much, if not more, respect than many of the idle sisters with "made up" complexions, pencilled eyebrows and reddened lips.

Though I have now spent two months in countries where little water is drunk, I have seen no drunkenness. Where light wines and beer are the beverages, intemperance is rarely encountered. I recall the figure of a man I saw lying prone on the sidewalk in Rome, compelling passers by to step over him or into the road. Yet it did not occur to me that he was intoxicated. Rather, that he was following the refuse of the many idlers of the country, in taking advantage of the only bit of sunlight on the street to have a warm sun bath, the weather being somewhat chilly.

Where—as for instance, in Vienna—half the population seem to be perpetually eating and drinking, in the open air and in public places, the general sobriety is remarkable. The absence of bars and ardent spirits, and the commingling of both sexes in the cafes, no doubt conduce to this. There may be evils possibly resulting from these customs, but drunkenness is assuredly not one of them.

C. O. ERMATINGER.

DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality these all only symptoms caused by some one disease. The physician, ignorant of the cause of suffering, gives his treatment until large bills are made. The sufferer patient gets no better, and the physician, with wrong treatment, but probably more skill, have entirely removed the disease, symptoms, and instituting comforting, but of pronounced misery. It has been well said, that a disease known to the doctor, but not until large bills are made. The sufferer patient gets no better, and the physician, with wrong treatment, but probably more skill, have entirely removed the disease, symptoms, and instituting comforting, but of pronounced misery. VOL. XXIV. NO. 23.

Regina, Wednesday, July 17, 1907.

THE TWO LLOYDMINSTERS.

The Lloydminster dispatch published elsewhere in today's issue, though somewhat indefinite with regard to the exact position of affairs now prevailing in the northern town, appears to point on the whole to an agreement to differ. Lloydminster, Saskatchewan, apparently was desirous of voting on the question of amalgamation with Lloydminster, Alberta, but Lloydminster, Alberta, does not seem to have evinced a similar inclination to vote on the same question. Lloydminster, Saskatchewan, however, if the dispatch is correct, insisted on voting. Exactly what he position will be if the Saskatchewan town votes in favor of linking its fortunes with those of the Alberta town it is not easy just at present to foresee. Lloydminster, Saskatchewan appears to be much in the same position as a repulsed lover who nevertheless insists upon his amorous advances being accepted by the lady of his choice. But if the lady (in this case Lloydminster, Alberta) insists upon rejecting those advances, what course is open to the rejected one to pursue? He cannot very well take her to the altar by force and there against her will endow her with his worldly goods.

Meanwhile the definite statement that the towns will always be divided seems to leave little room to doubt that the present comic opera condition of affairs is to be continued. A citizen with half of his house in one Lloydminster and the other half in the other Lloydminster may sleep with his head in one province and his feet in the other. If he happens to have offended against the laws of the province in which his feet are located, it would seem that that portion of his anatomy will be liable to arrest while the other looks on in safety from the neighboring province.

Especially are complications likely to arise in connection with the municipal taxation of the two towns. There are, for instance, stores which stand partly in Lloydminster, Alberta, and partly in Lloydminster, Saskatchewan. Should these be altogether exempt from taxation, be doubly taxed, or pay half to one town and half to the other? The question of income tax as presented by the town Lloydminster is likely to be the cause of problems more knotty than have ever yet disturbed the peace of our civic circles. Suppose, for example, that a man, living in a house partly in Lloydminster, Saskatchewan, and partly in Lloydminster, Alberta, has cows which are stabled in Lloydminster, Alberta, but which graze in Lloydminster, Saskatchewan. He milks them in Lloydminster, Alberta, but sells most of their milk in Lloydminster, Saskatchewan. From which Lloydminster does he draw his income in respect of these cows and to which Lloydminster shall he therefore pay his income tax? We confess that the problem is quite beyond us and is well calculated to puzzle even the legal learning of the Privy Council.

On the whole it would appear that union were the wiser course and it may well be hoped that the coy disinclination of Lloydminster, Alberta, may yet be overcome, or that taking advantage of the special opportunities offered next year by leap year, the now unwilling one will herself suggest union to the wooer she now repulses.

The order-in-council changing the homestead regulations so as to allow homestead entries being made by proxy, by a father, mother, brother, sister, son or daughter of an intending homesteader is an eminently sensible one and likely to be much appreciated. It is right that every precaution should be taken to prevent

the blanketing of homesteads, which was at one time little short of a scandal, but no harm can possibly result from the change now made, while it will undoubtedly be a great convenience to a great number of intending homesteaders.

STREET NUMBERING AND POSTAL DELIVERY.

It is now over a year ago that the stupendous task of numbering the houses of Regina and putting up street name plates was commenced and the work is still incomplete. From time to time the subject crops up in the council, but there is nothing to show that the work will be finished for several years to come. Meanwhile Calgary, Edmonton and other Western cities are being granted the boon of a house-to-house mail delivery, while in Regina we still enjoy the same system which is to be found in backwoods villages and squalid communities of two or three hundred population.

That it is useless to ask the postal department for a postal delivery in keeping with the importance of our city until the street numbering has been properly completed is self-evident. Under existing conditions a staff of twenty postmen would hardly be sufficient for the task of delivering the mail, and that the department could hardly be expected to stand for.

With a revenue of \$37,000, Regina post office heads the list of post offices in the two provinces, and if Edmonton, with a revenue of \$25,000, is able to get a street delivery, Regina should have no difficulty in obtaining a similar privilege and that it will do so as soon as the council have fulfilled what must be a necessary condition, can hardly be doubted.

REGINA'S BIG FAIR

CIVIL SERVANTS AND THE INCOME TAX

The City Council sitting as a court of revision yesterday disposed of all the assessment appeals so far as the council is concerned. On the whole the first assessment under the new charter in which the floor space method of taxation was used, must be looked upon as an unqualified success, only one appeal being prosecuted on the charge of excessive rate, that of the law firm of Wood & McCausland.

The appeals of the Canada Permanent Mortgage Corporation, the Trust and Loan Co. and four of the city banks, which claimed exemption from municipal taxation under the recently enacted Corporation Tax Act were not argued, the appellants preferring to carry their case before a judge of the Supreme Court. The fact, however, that the clause under which the corporations claim exemption is similar to the clauses contained in the Manitoba and Ontario Acts goes to show that whatever the construction which the law courts had no intention in passing the act that could reasonably be taken as showing unfriendliness to Regina or any other municipality.

It is to be regretted that not a little warmth was injected into the consideration of the appeals brought in behalf of the provincial civil servants against the income tax. We cannot but consider that it was ill advised on the part of the government employees to single out His Worship in connection with their anti-income tax campaign, giving force as it does to the complaint of Mayor Smith that personal animus is not altogether absent from the affair. There were scores of other citizens who would have served equally well as His Worship for the making of a test case, and to force the chief magistrate of the city to vacate his chair and take the witness box, was lacking both in courtesy and good judgment. The civil servants may be right or they may be wrong in the attitude they have taken up with regard to the income tax, but they will certainly not gain adherents to their cause, either in the Legislature or in the country at large, by reducing it to the level of a more or less personal question and showing an obvious desire to "make it hot for the Council." Canada is a democratic country and of no part of the Dominion is this truer than the West, and the apparent desire of the government employees to consider themselves as a class apart from the rest of our citizens is not calculated to popularize any principle which they may have at heart.

The whole question of taxation is after all one which should be considered dispassionately and imper-

sonally. No one likes being taxed, but unfortunately as society is at present constituted it is still possible to say with Benjamin Franklin that "nothing is certain but death and taxes." The day may perhaps come—we fear that it is yet some distance off—when assessors and courts of revision will be looked upon as archaic relics of a barbarous past, but meanwhile roads must be built, sewers laid and waterworks constructed, for all of which contractors insist upon being paid, rendering it necessary to resort to the tax collector to obtain the where-withal to carry on such necessary works.

A COOL PROPOSAL

Brandon is at the present time in the throes of a controversy similar in many respects to that which agitated Regina in the fall of last year. The C. P. R. wants the city to enter into a five years' contract to supply the company with water at a special rate of 6 1/2 c. per 1,000 gallons, the city laying the necessary mains. The committee of the City Council in charge of the waterworks system of the city appear to have been willing to accord the railway company the preferential treatment asked for, but when the matter came up in full council a strong opposition to the proposition developed.

The arguments put forward by the C. P. R. in support of the contract for which they are asking are very similar to those put forward here last year by Supt. Brownlee. They contend that the revenue which would be obtained from them would be what Mr. Brownlee described as "found money" and that if the city does not accept the company's terms, the company will put in its own system.

The opponents to the proposed contract point out that the rate asked for by the C. P. R. is 3 1/2 c. less than the water now costs and that so far from pledging the present unused capacity of the waterworks pump at an actual loss for a period of five years the council should look to the growth of the city to use what water is not at present used. Aid. Doran pointed out, as was pointed out here last year, that it would establish a dangerous precedent to the ratepayers who had borne the cost of installing the waterworks system.

To the average ratepayer either of Brandon or Regina it must be extremely difficult to discover any reasonable ground upon which to base a claim for preferential treatment in the matter of water rates for the C. P. R. The company, though it benefits more than any other firm or corporation from the growth and civic improvements of such cities as Brandon and Regina, contributes not one cent towards the construction or maintenance of such improvements. The average ratepayer may be a most obtuse, thick-headed and ungrateful individual, but the fact remains that it will take more cogent arguments than have yet been advanced in this city or in Brandon to justify giving to the C. P. R. benefits not accorded to the ratepayers themselves.

While the licensing question is so much to the fore, the City Council might well consider the advisability of putting a good stiff licence fee on the bill boards which are becoming so numerous about the city which present so unsightly an appearance. The boards serve no useful purpose and apart from disfigurement which they constitute to our thoroughfares contribute not a little to the littering up of the streets with their pieces of torn bills. Winnipeg is now considering the question of dealing with what is undoubtedly a real nuisance and Regina might profitably give some attention to the same question.

SENSATIONS AT HAYWOOD TRIAL

WITNESS CONFESSES TO TAKING PART IN LABOR RIOT RESULTING IN DEATH OF TWO MEN

BOISE, Idaho, July 14.—There were startling developments in the trial of Wm. D. Haywood for the murder of Frank Steuenerg, when the state began its rebuttal yesterday. One witness confessed to participating in a labor riot resulting in the death of two men. The record of a witness for the defence, showing his conviction for murder in the second degree, was introduced and proof of another having been sent to the insane asylum on information of his neighbor was offered. The admissibility of this testimony was argued and the court will hand down a decision on Monday morning. Finally, shortly after the court adjourned for the day, information was sworn to and a warrant for perjury was issued in a magistrate's court against Dr. L. L. McGee, a physician at Wallace, Idaho, who was one of the witnesses for the defence. Sheriff J. W. Bailey of Shoshone county, who swore to the information against McGee, left for Wallace tonight to arrest McGee. A crowded courtroom gave close attention to the conclusion of the trial today, when Wm.

Dewey, a witness for the state, confessed to active, armed participation in the decision of the Hunter, Hill and Sullivan concentrators at Warden on April 29, 1899, when two men were killed in a riot of a thousand men. Harry Orchard began his series of crimes at Warden, where, he said, he lighted one of the fuses which started the explosion and he swore that Wm. F. Davis, known among his fellows as "Big Bill" Davis, led the mob. Witnesses for the defence, however, say that Orchard was not at Warden on April 29, 1899. Davis himself has sworn that he was elsewhere and has positively denied any connection with the crime for complicity in which Paul Corcoran was tried and convicted and some dozen men, including Davis himself, were indicted. Dewey swore that not only did Davis accompany the mob to Warden, but that he served out guns and ammunition to the union men gathered in the hall at Burke before they went to Warden, and he was one of the leaders of the column that advanced on the Concentrator before the work of destruction began. Eight years have elapsed since that day of rioting, the consequence of which were the United States troops being called out at the request of Governor Steuenerg, the establishment of the first military "bullpen" and beginning, according to the prosecution, of animus by the Western Federation of Miners against Steuenerg, resulting in his assassination by Orchard in 1905. Since that time no witness except Orchard has been found to tell the story or incriminate himself until now Dewey, a resident of Colorado, made his confession today.

THE LEADER'S PATTERN SERVICE

LADIES' ELEVEN-GORED SKIRT
With an Inverted Box-Plait at Centre Back, Seam and Pan-Plaits at Lower Part of the Other Seams. Paris pattern No. 1958. All seams Allowed.

1895
MISSER'S TUCKED DRESS-SACK
With Yoke and Flowing Sleeves. Paris Pattern No. 1935. All Seams Allowed.

A charming dress-making that the veteran amateur could make is here portrayed made of pink organdie covered with wild roses and their foliage; it is trimmed with tulle. Paris lace and beading through which a narrow pink ribbon has been run. It is an excellent model for chalis or dress, especially in the former for summer.

The pattern is in three sizes—13 to 17 years. For a miss of 15 years the sack requires 1 3/4 yards of goods 26 inches wide, or 1 1/2 yard 36 inches wide, or 1 1/4 yard 42 inches wide, or 1 1/2 yard 48 inches wide, or 1 1/4 yard 54 inches wide, or 1 1/2 yard 60 inches wide, or 1 1/4 yard 66 inches wide, or 1 1/2 yard 72 inches wide, or 1 1/4 yard 78 inches wide, or 1 1/2 yard 84 inches wide, or 1 1/4 yard 90 inches wide, or 1 1/2 yard 96 inches wide, or 1 1/4 yard 102 inches wide, or 1 1/2 yard 108 inches wide, or 1 1/4 yard 114 inches wide, or 1 1/2 yard 120 inches wide, or 1 1/4 yard 126 inches wide, or 1 1/2 yard 132 inches wide, or 1 1/4 yard 138 inches wide, or 1 1/2 yard 144 inches wide, or 1 1/4 yard 150 inches wide, or 1 1/2 yard 156 inches wide, or 1 1/4 yard 162 inches wide, or 1 1/2 yard 168 inches wide, or 1 1/4 yard 174 inches wide, or 1 1/2 yard 180 inches wide, or 1 1/4 yard 186 inches wide, or 1 1/2 yard 192 inches wide, or 1 1/4 yard 198 inches wide, or 1 1/2 yard 204 inches wide, or 1 1/4 yard 210 inches wide, or 1 1/2 yard 216 inches wide, or 1 1/4 yard 222 inches wide, or 1 1/2 yard 228 inches wide, or 1 1/4 yard 234 inches wide, or 1 1/2 yard 240 inches wide, or 1 1/4 yard 246 inches wide, or 1 1/2 yard PROVINCIAL GOVERNMENT GETS COAL SEAM RESERVED FOR NORTHERN SETTLERS

From Thursday Morning's Leader. Seen yesterday by The Leader with regard to the Saskatchewan despatch in which it was stated that the Government had decided to develop the coal seam in question...

Wheat Twenty-Seven Inches High - Big Price For Town Lots

CRAIK, Sask., July 12.—Wheat on the farm of Mr. Kiel, four miles east of Craik, measures twenty-seven inches and will soon be heading out. He has 40 acres in the piece. Prospects of growth is marvellous. Prospects of bumper harvest grow brighter every day.

CRAIK CROPS CAPITAL

Three lots on the main street were sold last week at \$3,000, a record price for town property. They were purchased by A. H. Birch, agent for Massey Harris implements, from W. F. Mathews.

Craik Heading Out

CRAIK, Sask., July 12.—A field of wheat on the farm of John Longmiller, sec. 34-25-29, twelve miles southwest of town, is heading out, and other wheat in the district is in shot blades.

INSPECT FAMOUS STABLE

Indian Head and Regina Men View Bryce's Splendid Stables. KISBEY, Sask., July 11.—Dr. Hart, of Indian Head, and Mr. Percy of Regina, dropped off at our station on Thursday's train from the west on a short tour of inspection. They spent the afternoon driving through the famous Percy Valley, stopping at the "Ballantyne" property, which they recently purchased.

They took the opportunity to pay a visit to the farm of W. H. Bryce and though they had heard briefly of what could be seen, especially in his horse show, at Mr. Bryce's, still their wonder grew as they passed from one department of the Clydesdale family to another. One of the 1907 colts at two weeks was placed in the hands of a prospective purchaser, but he could not change hands under double that figure.

NEWSY NOTES FROM QU'APPELLE

Town to be Lighted—Thoroughbred for Winnipeg Exhibition—Football Protests Galore

QU'APPELLE, July 10.—At a special meeting of the town council held on Tuesday morning it was decided to light the streets of the town with incandescent lamps, and Mayor Harvey was authorized to sign a contract on behalf of the town with the Moore Milling Company to that effect.

CRAIK CROPS CAPITAL

DESTRUCTION OF CROPS IN RUSSIA

OVER A QUARTER OF MILLION ACRES OF CEREALS DESTROYED BY STORMS

LONDON, July 14.—A despatch from a news agency says that following a spell of tropical heat, violent storms have been experienced throughout the southern provinces of Russia. Reports from a large number of districts show that over a quarter of a million acres of cereals were destroyed in various parts of the country, and heavy losses of stock were sustained. It is estimated that the southern Russian wheat will be below that generally described as a "low to middling yield."

SNOW IN GERMANY

BERLIN, July 14.—Unusually able cold weather prevailed throughout middle Europe, and temperatures as low as 40 degrees below zero have been recorded in Southern Bavaria, and it was reported from Strassburg today that snow was falling in the Vosges mountains. The railway administration reported several wrecks, and longed heavy rains which have been falling.

SWEEPING ACTION OF SOO DIRECTORS

HAVE DECIDED TO INCREASE CAPITAL WORKING STOCK TWENTY-ONE MILLIONS

MINNEAPOLIS, Minn., July 14th.—The directors of the Minneapolis, St. Paul and Sault Ste. Marie have decided to increase the capital stock of the company to \$42,000,000, an increase of \$21,000,000 over the original amount. One-third common, its date of issue has not yet been determined, although it is estimated that \$4,000,000 of it will be issued in the near future. This sweeping action by the Soo directors at this time was taken in view of the fact that the expansion of the company and its increased property, although a radical improvement, are not present contemplated. The money will be on hand for the general operation and increased equipment.

CRICKET.

Champions Beat Hants

The match at Tonbridge was somewhat of the sensational order, Kent winning by an innings and 120 runs. Fielder getting twelve Hampshire wickets for 156. Scores:—Hampshire 292 and 114. Kent 596.

Yorkshire V. Essex

Yorkshire beat Essex by five wickets after a good game, the result was in doubt until Myers' and Kayes' careful batting fairly forced runs in spite of fine bowling and clever fielding.

Lancashire V. Sussex

Playing at Liverpool the home county won an easy victory by 307 runs. Sussex had been set to get 337 runs in the last innings, but so badly did they shape against Lancashire that they were bowled out in less than an hour for only 29 runs.

Somerset V. Worcester

Played at Worcester, resulting in an even draw for the visitors. Somerset's first innings was a County cricket good, a new man in County cricket made his debut, scoring 82 and 116.

South African's Triumphant

The South African's are still winning—Derby County being numbered amongst their victims. The Derbyshire men made a fair start in the first innings, but in the second they required 154 runs to avert the possibility of a draw.

Pennsylvania V. Cheltenham

Playing against Cheltenham School the Pennsylvania eleven scored 163 runs to the English club's 150.

The Gliddens' Long Tour

Mr. and Mrs. Charles J. Glidden, of Boston, who have toured by automobile 39,768 miles in thirty-six countries, twice encircling the globe, are leaving London about August 9, for a two thousand mile drive in England and Scotland.

ROWING

Early Days at Henley

In view of the world-wide attention always given to Henley week it is interesting to recall how insignificant was the beginning of the great Thames festival.

side is on terms of perfect equality and friendship with the others; there are no "district" rivalries, no personal antagonisms; the welfare of the team as a whole overrides all other considerations.

A HOT ROSTER

Peterborough Cuts Loose—Is Making a Manly Game

Lancashire V. Sussex

Under the heading "Manly Game," the Peterborough Examiner says: "Cricket is a game of sport, to be played as such, and not as a means of earning money."

Somerset V. Worcester

Played at Worcester, resulting in an even draw for the visitors. Somerset's first innings was a County cricket good, a new man in County cricket made his debut, scoring 82 and 116.

South African's Triumphant

The South African's are still winning—Derby County being numbered amongst their victims. The Derbyshire men made a fair start in the first innings, but in the second they required 154 runs to avert the possibility of a draw.

Pennsylvania V. Cheltenham

Playing against Cheltenham School the Pennsylvania eleven scored 163 runs to the English club's 150.

Safest Medicine for Women's Complaints

Women certainly do neglect themselves. They work too hard—over-tax their strength—and then wonder why they suffer with diseases peculiar to their sex.

Most cases of female trouble start when the bowels become inactive—the kidneys strained—and the skin not cared for. Poisons, which should leave the system by these organs, are taken up by the blood and inflame the delicate female organs.

Fruit-atives

Remove the CAUSE of these diseases. "Fruit-atives" sweeten the stomach—make the bowels move regularly every day—strengthen the kidneys—improve the action of the skin—and thus purify the blood.

EXPLOSION BLOWS "JAPAN" TO ATOMS

Barge Laden With Dynamite Blows up—Four Men Blown to Pieces

KETCHIKAN, Alaska, July 12.—Four men were last night blown to atoms by the blowing up of the barge "Japan" loaded with dynamite. The barge belonged to the Brown Alaska Co. of Haldy. It was in the tow of the tug "Marion" at the time of the accident.

The explosive was being taken to the property of the Brown Alaska Co. About eight o'clock, as the convoy was off Bold Island twelve miles south of here, the explosion occurred. Three members of the "Japan's" crew were torn to fragments and parts of the shattered bodies were hurled into the sea. One of the "Marion's" men was killed by a piece of the wrecked barge which struck him. Little remains of the dynamite barge.

HILL SECURES CROW'S NEST PASS COAL CO

GRAND FORKS, July 11.—Grand Forks residents are jubilant today over the big deal that has just been closed by J. P. Graves, of Spokane, whereby J. J. Hill has secured control of the Crow's Nest Pass Coal Co., valued at fifty million dollars.

INTERPRETING MURDER

Syrian Charged With Murdering Wife Admits He Did It

FREDERICKTON, N. B., July 12.—Before Col. Marsh, a magistrate, today Tom Davis, a Syrian, was arraigned on a charge of murdering his wife at McAdam on Monday last. When the charge was read over an interpreter repeated it to Davis, who said: "What are they bring me here for?" "Tell him it is for murdering his wife," replied the magistrate. Davis mumbled something to the interpreter, which the latter explained was, "Yes, I did it." Marsh then remanded the prisoner until Monday next.

Fired His Whiskers

ROCHESTER, July 12.—While pouring oil on the fire to quicken the blaze the clothing and whiskers of Frank Ford caught fire, and before the blaze could be extinguished the man was badly burned that he died in the hospital a short time afterwards.

MAYOR SMITH CHARGES PERSONAL ANIMUS IN INCOME TAX APPEALS

Court of Revision Spends Whole Day Considering Appeals Against Assessment—Court Decides Government Employees Must Pay Income Tax as Well as His Worship—Assessor's Name to be Placed on Assessment Roll.

(From Saturday's Morning Leader.) The whole of yesterday morning and afternoon were occupied by the City Council sitting as a court of revision, in dealing with the appeals made against this year's assessment. With the exception of the appeals by the city banks and financial corporations which claimed exemption from municipal taxation under the Corporation Tax Act passed at the last session of the legislature, and the big batch of appeals made in behalf of civil servants against the income tax, the appeals were of little interest.

The question of the liability of banks and loan institutions to be taxed under the Corporation Tax Act was argued yesterday offering no evidence, inasmuch as the clause upon which the appellants were proceeding was contained in the Manitoba and Ontario acts, the result of their appeal will have something more than a provincial interest attaching to it.

The whole of the afternoon's session was taken up with the consideration of appeals made on behalf of the Government employees by G. Blakley. The most interesting feature of the afternoon's proceedings was undoubtedly the appeal made against His Worship, the Mayor, who for the time being vacated the chair and occupied the witness box.

Morning Session

The first appeal taken at the morning session was that of D. McCusker, who appealed against the assessment of lots 1 and 2 in block 291. J. E. Wheelan who was interested in the appeal with Mr. McCusker, stated to the court that the property had been taken in March of last year, and that the owners were prepared to take \$2,000 for the property. The assessment was \$1,800.

H. A. Lott next appeared to appeal against the assessment of lots 21-23 in block 205. Mr. Lott stated that the property which was assessed at \$9,500 had since been sold by him for \$8,000. Compared with the assessment on lots 3 and 37 in the assessment block owned by J. M. Young he held the assessment was not equitable. The assessment was confirmed.

Peter D. Stewart's appeal against the assessment of lots 17, 18 in block 281 at \$2,000 was next proceeded with. No evidence having been adduced by appellants in support of their claim the assessment was confirmed.

The next appeal was that of C. A. McMechan, who objected to lots 22-23 in block 237 being assessed at \$500 a lot. Mr. McMechan stated that he had received offers of \$1,000 for the lots, and the assessment was confirmed.

J. A. Reid gave evidence to the effect that the property which he was assessing was located outside of the city limits. Mr. Allan urged that if Mr. Bell was taxable under the assessment roll, he should be equally so who did not appear upon the assessment roll and that one of the grounds upon which the assessment roll for this year was discriminatory and improper. The assessment of J. C. Forster was also considered.

Deputy Minister's Appeal

The next cases taken were those of H. Auld, Forster and Ketchen, all employed in the government offices, in whose behalf it was claimed that they had either not been assessed, or that until last December, been in receipt of a salary which made them assessable.

On the motion of Ald. McDonald, the appeal was allowed.

The case of J. Black, governor of the jail, based on the fact that he was not assessed with his name having been already struck off the assessment roll.

City Assessor Spicer, having been sworn, stated in answer to Mr. Allan's question that the rate that \$5 per acre was the rate that had been assessed in the city. The stores of Hindson, Eros, and the stores of which he was a member, were assessed at the same rate. As assessor he acted in conjunction with the assessment committee of which he was a member.

Mr. Allan urged that the assessment committee and had not used his own discretion as called upon by the city charter to do so.

Mr. Haultain, for the assessor, said that apparently Mr. Allan failed to grasp the nature of the method of assessment. It was not an assessment on the building but upon the business.

Church Courier Appeals

Rev. W. H. Coard appealed against the assessment of the office occupied by the Canadian Church Courier. The assessor was not a money-making scheme but an ecclesiastical adjunct, that personally he derived no money from the office, and that if the office were taxed it would simply mean moving the office to his private house. The offer to a question by

MEMBER OF THAT COMMITTEE, HE WAS NOT AWARE OF ANY SUCH INSTRUCTION.

The appeal was disallowed, as were also the appeals of Messrs. Ford and Ketchen, which were made upon the same ground.

Are Government Employees Exempt?

The five appeals of Messrs. F. Forbes, J. Hink, Haultain, R. H. Knox and Ebbells, employed in the Provincial Lands Titles office, were next taken. Mr. Allan stated that the assessor had stated that the appellants were that as provincial employees they were exempt from municipal taxation. No evidence being called in support of the appeals, the assessments in each case were confirmed.

Proceeding to deal with the balance of the cases, Mr. Allan, again called Assessor Spicer. Counsel proceeded to question witness with a view to revealing the "real state of affairs," but Mr. Haultain objected that the court was not the proper place to get at the "real state of affairs." It appeared that counsel was endeavoring to get information for use in another place.

The assessor stated that about 120 persons were assessed for income, of which number 42 were government employees. Several questions of government officials here, who are qualified to speak, were asked and answered.

City Assessor's Case

Mr. Allan next took up the reverse side of his case, dealing with a number of appeals in respect of alleged omissions from the assessment roll.

The first case taken was that of the city assessor himself, who in receiving a salary of \$13,500, and that, although his name was not on the assessment roll, it would be in the supplementary list.

On the motion of Ald. Cowan, the appeal was admitted.

His Worship Must Pay

The next case taken by Mr. Allan was that of J. W. Smith. His Worship said that he was prepared to have his case taken, adding that he understood that as he was assessed, there appeared to be a certain amount of animus in the matter. It had been stated by persons interested in the appeal that he (His Worship) had gone up and down the country preaching in favor of the income tax, a statement which was entirely untrue.

The assessor, in reply to Mr. Allan, said that he was not aware that Mr. Smith was in receipt of any income from the Smith & Ferguson company.

Mr. Smith called, stating that he was president of the Smith & Ferguson company, and that he drew a salary of \$12,000 a year. He practically owned the whole stock in the company, and drew a salary of \$12,000 a year to draw. He was not prepared to state the amount he drew from the Smith & Ferguson Co. His salary was \$12,000 a year, if he did not draw a salary he would draw a larger dividend.

Some difference of opinion developed between witness and counsel as to the questions asked and the answers given. His Worship claiming that the assessor was not qualified to ask the questions put, while counsel claimed that he must merely answer the questions put in regard to the facts of the case.

His Worship stated that his dividends from the company might be placed at \$2,000 a year, but his business was not like last year's it would be the other way. He quite understood that so far as he was concerned it was largely a matter of fact, but he had heard that Mr. John A. Reid had said that he would make it hot for the council.

For the sake of the assessor, his opinion said that without having given the matter very careful attention he was of opinion that the assessor was not qualified to ask the questions put, and that the assessor should be removed from the office.

Will Take Test Case

On the motion of Ald. Ball, seconded by Ald. Wilkinson, in order that a stated case with regard to the assessment of the assessor, the assessor, the appeal to place the name of J. P. Boie on the assessment roll in respect of his salary as assessor, was discussed.

Mr. Allan intimating that it would be made a test case.

In evidence being offered in the remaining cases, the appeals were all disallowed, the court completing its labors shortly after 5 o'clock.

MINING EXPERTS ON COBALT EXODUS

Government Officials Think present Strike Has Hastened Weeding Out Process

OTTAWA, July 12.—It would not surprise mining experts and geologists here if the present exodus of miners from the Cobalt district is followed by no return movement. It has happened before this when mining booms have been followed by a natural slump the "wild cat" and non-producing mines after being profitably or permanently closed down through labor troubles.

The real trouble is practically the discovery that the ore supply has vanished. The, of course, applies only to the progress of the strike and not to the weeding out process.

Longshoremen's Convention

DETROIT, July 11.—At the Biennial convention of the International Longshoremen's Association in session here yesterday, the council adopted resolutions of sympathy for miners Haywood, Moyer and Pettibone, and passed a vote of \$200 toward their defense.

Have Crop Greatest in Years

CALGARY, Alta., July 10.—Superintendent R. R. Jamieson, of the C. P. R. has completed a crop report from every section of the province. The conditions are reported excellent and the yield is very remarkable. Follow the report from the Strathcona agent, and is only a fair sample of the other sections.

Edmonton R.L.V. Making Progress

1,200 Men and 900 Teams of Horses Working on G.T.P. Railway

EDMONTON, Alta., July 11.—The progress made during the past two months on the Grand Trunk Pacific road between Saskatoon and Edmonton, gives more promising prospects than any earlier completion than the work has hitherto indicated.

Strike Declared Off

CLEVELAND, July 12.—The strike at the local yards of the American Shipbuilding Co. was declared off today and the men returned to work. The plant is again running at its full capacity.

BRIDE, FORBIDDEN A PEEK-A-BOO, SKIPS

Deeply Religious Husband Ordered Her Not to Wear "Scandalous" Garment

WATERBURY, Conn., July 11.—Because her deeply religious husband forbade her to wear a peek-a-boo shirtwaist, Mrs. Chas. E. Washburn, twenty-three years old, the bride of a month, one of the prettiest young women in Willamantic, has left her home, vowing she will never return to her spouse.

"He has his religion to comfort him for twelve months in the year. I insist upon being cool and comfortable for three months," said the departing Mrs. Washburn to her friends. "I defy him to say that my shirtwaists are immodest."

The Washburns were about to go to church, as usual, on Sunday. When she was ready, the wife, demure as always, looking her prettiest, appeared to her austere husband who awaited her. With gloomiest disfavor he regarded the pink istlets that dotted her shoulders; he glared at the baby-blue ribbons nestling on billowy lace.

"I think that King Ahazuerus might have welcomed Esther in such a garment. I acknowledge that it might have pleased King David in his old age," said Mr. Washburn, sternly. "But in these days it is scandalous. Go change it, you shall not wear it to church."

Thereupon Mrs. Washburn packed her trunk and left for parts unknown.

DROWNED IN A MONTREAL SEWER

Corporation Employee Swept off by Current and Drowned in the Main Sewer

MONTREAL, July 12.—While making an inspection of the main sewer today Henry Baker, a corporation employee, was swept off by the current and drowned. He had some down a manhole to make an examination and some slight repairs and had been warned not to attempt to cross the manhole to make the current was strong. He disregarded this advice. His cries warned the crowd in the street what had happened. They tried to save him by lowering a rope at the next manhole but the strain broke the rope and he was swept down and drowned.

Longshoremen's Convention

DETROIT, July 11.—At the Biennial convention of the International Longshoremen's Association in session here yesterday, the council adopted resolutions of sympathy for miners Haywood, Moyer and Pettibone, and passed a vote of \$200 toward their defense.

R.L.V. COMMISSION-- EVIDENCE TO-DAY

Board of Trade Representatives from Brandon, Regina and Prince Albert Present

WINNIPEG, July 11.—The Railway commission has fixed half past two tomorrow afternoon for the hearing to be given the Winnipeg Jobbers and Shippers Association, for submission of evidence in regard to insufficiency of transportation facilities and equipment. Representatives of the boards of trade of Brandon, Regina and Prince Albert will be in attendance at the hearing to give evidence in regard to the actual delays of shipments and inadequacy of service rendered by the railways. Evidence will also be given by a number of representatives of Winnipeg business men.

Two Year Old Girl Falls into Tub and Drowns in Four Inches of Water

PILOT MOUND, July 12.—A sad accident occurred five miles north of here this afternoon when Ellen, the two-year-old daughter of S. A. Johnson, was drowned. The child alone another little girl was playing on an ordinary wash tub which contained not more than four inches of water. The child in some manner fell into the tub face downwards, and the other little girl quickly gave warning but before assistance arrived the child was drowned.

A FALSE INDUCEMENT

Sad Case Case of English Family Sent Out Under False Agreement of Work

WINNIPEG, July 12.—A sad case of distress which Charles Williams, an English immigrant, and his wife and family are the sufferers of, has come to the notice of the Civic Relief Committee through the management of the Margaret Scott Nursing Mission. According to the story told by the members of the Williams family, documents presented by them, and the evidence supplied by the present destitute condition of the family, they have been induced to emigrate to Canada by misrepresentation or false promises.

THAW DENIES WIFE IS NEGLECTING HIM

Says Out of Possible 110 Days, She Has Only Missed Once at His Request

NEW YORK, July 12.—Harry Thaw, in Tombs, is indignant over the reports that Mrs. Evelyn Nesbit, Thaw's wife, has been sent out of the city since the end of the trial. He declared that since the first of the year there have been 110 days on which a prisoner in Tombs could receive a visitor, and Mrs. Thaw has missed just one of these days. On that occasion she went, at his request, to the Long Beach to spend the day with Mrs. Daniel O'Reilly, the wife of his counsel.

UNIVERSITY FOR N.W. PROVINCES

Effort to be Made to Establish University in the Three Provinces

CALGARY, Alta., July 12.—An effort is being made by certain leading educationists in the three Western provinces to establish in some spot in Western Canada a great university. At the present moment there is no provincial university in the provinces of British Columbia, Saskatchewan or Alberta. It is recognized by educationists that a provincial university in any of these three provinces would be a very primitive institution for some time to come. They believe that if the three provinces unite that they can secure almost at once a great Western university, which in a short time will be on a level in point of efficiency with Toronto or McGill. The question will be brought before the Alberta authorities as soon as Premier Rutherford returns.

WEDDING CAKES

What is a Backache?

IT IS NATURE'S WARNING TO WOMEN Diseases of Woman's Organism Cured and Consequent Pain Stopped by Lydia E. Pinkham's Vegetable Compound.

"It seems as though my back would break." Women utter these words over and over again, but continue to drag along and suffer with aches in the small of the back, pain low down in the side, "bearing-down" pains, nervousness and no action for any back.

They do not realize that the back is the mainstay of woman's organism, and quickly indicates by aching a diseased condition of the female organs, kidneys, and that the aches and pains will continue until the cause is removed.

Lydia E. Pinkham's Vegetable Compound has been for many years the most reliable and only effective remedy in such cases. It speedily cures female organs and kidney disorders and restores the female organs to a healthy condition.

"I suffered a long time with back trouble, having intense pains in the back and abdomen and very sore head almost every month. I was tired and nervous all the time and my work was nearly impossible. I had no desire to live until I began to take Lydia E. Pinkham's Vegetable Compound and to get some relief. My recovery was slow but it was sure, and I never paid the money spent for the Compound as it brought me back to good health."

"It seems to be a good medicine especially adapted to the needs of our sex and I am glad to say a good word for it." Mrs. Albert Mann, 154 North Main Street, Portland, Me. No other person can give such helpful advice to women who are sick as can Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, her address is Lynn, Mass., and her advice free.

Nat Reiss's Big Carnival Show Will Be Prominent Feature

REGINA'S NEW \$187,000 HOTEL TO OPEN IN A FEW DAYS

LICENSE GRANTED TO THE NEW WASCONA HOTEL OF ARNOLD BROS. AND ACASTER—ONE OF THE MOST SUMPTUOUSLY FURNISHED HOUSES IN THE WHOLE OF WESTERN CANADA—SPECIAL PROVISIONS AGAINST FIRE—BEAUTIFUL SCHEME OF DECORATION.

From Thursday Morning's Leader. The license commissioners for this district met in the city yesterday morning to consider the application for a license for the new Wascona Hotel on Hamilton street. A careful inspection of the house had shown that the stringent new regulations regarding the safeguards to be provided against fire had been complied with and the license was accordingly granted.

A Credit to Regina
Rightly or wrongly, Regina has in the past won for itself a bad name in regard to the hotel accommodation that the city afforded to the travelling public.

No Expense Spared
The building itself is a fine four-story, solid brick structure and since the disastrous fire which almost totally destroyed it on the eve of completion early last winter, it has been remodelled in such way as to furnish a risk from fire to a minimum.

Second Floor
The chief feature of the second floor is the large ladies' parlor, the furnishing of which has been carried out most artistically. The color scheme of the room is a soft green, with a wall effect of a most restful and pleasing.

The Basement
Situated in the front part of the basement is the large room to be used as a high class baker's shop, connected with which are two bath rooms and a large shower bath.

12 Sample Rooms
In planning the Wascona Hotel, special attention has been paid to the requirements of commercial travellers and it is safe to say that the house will within a very short time be the favorite stopping place between Winnipeg and the coast of the travelling fraternity.

CONCERT BY 15TH LIGHT HORSE BAND

Calgary's Crack Band More Than Justify Their High Reputation

(From Thursday's Morning Leader.) Calgary may well be proud of the 15th Light Horse Band. It is a great musical aggregation and will be a credit to Western Canada when it takes its place alongside the crack bands of Great Britain at the Dublin exhibition.
