

FEAR THEY ARE DROWNED

Former Hamilton Boy and Companion Are Missing.

Last Seen In Sail Boat on Saturday.

Squall Came Up and They Were Lost Sight of.

(Special Despatch to the Times.) Toronto, Ont., July 15.—Francis O. Boulbee and John C. Kennedy, two Toronto young men; Kennedy formerly of Hamilton, were last seen on Saturday cruising in a 26-foot sail boat along the south shore of Lake Ontario. They have not been heard of since. Yesterday a search party in a launch cruised along the shore and made every effort to get information of the missing sailors and their craft. There are grave fears that the boat was overturned in squally weather on Sunday night and the occupants drowned.

Boulbee is 26 years of age, was employed at the Ontario Securities Company's office, and lived with his uncle, Frank Turner. Kennedy is 17, roomed with his brother at 273 Sherborne street and is with G. A. Stinson & Co., stock brokers. With Vernon W. Kennedy, the missing man had been cruising in the neighborhood of Olcott Beach, Niagara, and other points on the south shore, for two weeks or more. They reached the mouth of the Niagara River on Sunday and there Vernon Kennedy and his party returned to the city on Monday morning. It was understood that Jack Kennedy and Frank Boulbee intended to cruise along the south shore to Winona, where they had an appointment. From all accounts they never arrived at Winona. When nothing was heard of them in Toronto yesterday, their party went over to Winona to make inquiries. Nothing had been seen of them or their boat there. Mr. Kennedy took out a launch and travelled from Winona to the mouth of the Niagara and beyond. All that was ascertained was that a craft, answering the description of theirs, was seen going westward between Niagara and Port Dalhousie on Saturday afternoon. Just after that the weather became squally. There was a change in the wind and the sailboat and its occupants were lost sight of.

Several appeal cases came up before Judge Monck this morning. There was the appeal of Charles Warnsley and his associates who were convicted by Magistrate Jelfs for gambling on Sunday; also appeals by F. A. Green, John Seaman and H. Smerens, who were fined for selling ice cream on Sunday. When the court was ready to begin the proceedings Crown Attorney Washington rose and informed the court that he would have to object to the appeals on the grounds that security had not been put up at the time they were entered.

THEY WANT BERT DIXON.

Young Men Who Sold Soap Get Summonses Against Him.

A deputation of ten young men waited on Magistrate Jelfs this morning with an anxious request that the person of one Bert Dixon, agent for the Atlantic Soap Company, be summarily apprehended and forced to disgorge certain moneys which, they said, he owed them for wages. These men say that Dixon came to this city some time ago and proceeded to employ a number of young men to sell soap. They were to receive \$1.23 per day for their services whether they sold any soap or not. They started out over a week ago and sold a large quantity of goods. The money which they received for the same was turned over to Dixon, they say.

"Won't he pay you?" enquired a Times reporter of one of the complainants. "We never got a cent out of him," was the reply. "Where is he now?" "That is what we want to know. We suspect that he has got out of town." They all secured summonses and the police will attempt to find Dixon.

THE LASH FOR THIS FELLOW.

Enticed a Little Girl Up the Mountain Steps.

A dastardly attempt was made by an elderly man yesterday morning to assault Elva Pryke, the little daughter of Mr. John Pryke, Forest avenue. Elva and her little sister were playing on the grass near their home, when a man came along and enticed them with promises of candy and ice cream to the foot of the Ferguson avenue steps, where he grabbed Elva. The other little girl, becoming scared, ran home and told her mother that a bad man was trying to kill her sister. Mrs. Pryke found out where she was and hurried there to ascertain what the trouble was. When she arrived in sight of the steps the man was still there with her daughter. Mrs. Pryke yelled and began to run towards him. He did not wait till she arrived at the steps, but ran all the way to the top of the mountain. Elva was in a pitiable state of terror, and could hardly tell her mother what had happened. As soon as she got home Mrs. Pryke telephoned to the police, who are making diligent efforts to discover the despicable coward who made this attempt. P. C. Cameron has charge of the case.

Dr. Pryse Park, surgeon of eye, ear, nose and throat, is now in new quarters at 164 James street south, where he may be consulted.

Torpedo Boat Sunk

London, July 15.—A wireless message received at Portsmouth states that submarine torpedo boat C 11 was in collision late last night with an unknown steamship near Lowestoft, and was sunk with its crew of sixteen men.

Another submarine boat, C 17, also was damaged in the collision, but the crew was saved. It is understood that the crew of C 11 had no chance to escape, being inside the submarine, and went to the bottom with it. No complete report of the accident has yet been received, but the latest advices from Sheerness, whence assistance was sent, indicate that some members of the crew of C 11 were saved.

APPEAL ACT AMENDED

And May Throw Numerous Cases Out of Court.

Several appeal cases came up before Judge Monck this morning. There was the appeal of Charles Warnsley and his associates who were convicted by Magistrate Jelfs for gambling on Sunday; also appeals by F. A. Green, John Seaman and H. Smerens, who were fined for selling ice cream on Sunday. When the court was ready to begin the proceedings Crown Attorney Washington rose and informed the court that he would have to object to the appeals on the grounds that security had not been put up at the time they were entered.

He then read an amendment to the Appeal Act, which came into force on May 20 last. He was the only one present who had possession of this fact and it was a startling surprise, both to the judge and lawyers. Mr. T. H. Carrar, who appeared for the negroes, requested that in view of the fact that they were not aware of the change that the evidence be taken but the judge could not see his way clear to do so.

A STORY.

Former Hamilton Young Lady Writes a Good One.

Miss M. E. Campbell, formerly of this city, daughter of Mrs. Harry Campbell, 114 Catharine street north, who is now in Calgary, Alberta, has a very pretty story in a recent issue of the Daily Herald of that city. It is a summer story, entitled "A Picnic," and is novel in idea, well thought out and nicely written. Miss Campbell shows marked ability in the short story line.

MONOPOLY OR NOTHING DECLARES HON. ADAM BECK.

Hamilton Will Not be Allowed the Advantages Which Were Promised by Solicitor Lobb.

The scheme to permit Hamilton to take power from independent companies as well as the commission will not have the support of Hon. Adam Beck. The power minister was here yesterday with a deputation from London inspecting the Mountain Sanatorium, and when asked about the letter sent by Solicitor Lobb, waiving the thirty-year monopoly clause in Hamilton's favor, he said it was true the commission had authorized the letter, but he would not back it up.

The London aldermen who appear to have been asleep at the switch when the Hydro-Electric legislation was being hustled through, have at last awakened to the fact that the city is in danger of being "gold-bricked" through the power scheme. They had a meeting the other night, and decided that the only way for London to find out where it is at is to have a conference with the whole Hydro Commission. An effort will be made to arrange this, although the commission apparently is not very anxious to have much explaining done as Mayor Stevely informed the aldermen that a suggestion from him that Solicitor Lobb should appear and explain the whole

situation was not received very kindly. The commission was criticized for making amendments to the contract and striking out clauses to suit itself without consulting the municipalities.

"If Hamilton and Brantford had not been in the schedule would we have signed the contract?" asked Ald. Stewart. "That is the question." "We certainly would not have done so," said Ald. Beattie. "We were told that if any municipality dropped out, the whole question would come back to the people. That has not been done. We were told to trust the Government, and they go to work and eliminate the clauses of the contract that protect us. We are tired of oral promises. Nothing but definite statements in black and white go after this."

Reference was made at the meeting to the first by-law voted on, which drilled up such enthusiasm. It talked of power being delivered below \$23.30 a horse power. Manufacturers in London are willing to sign contracts at \$30 a horse power, but they can get no guarantee of price.

To a deputation from Preston yesterday Hon. Adam Beck, chairman of the Hydro-Electric Power Commission, made the important statement that all power

sold direct by the commission to electric roads and corporations from transformer stations would be credited pro rata to the municipalities.

It was the policy of the commission, said Mr. Beck, to credit all the power the commission sold direct to any corporation to the municipalities contributing to the erection and maintenance of the particular station from which the power is sold. This credit will be applied in proportion to the amount of power that each municipality has contracted for. Mr. Beck pointed out that the commission did not intend to make any revenue from the supply of power sold other than 4 per cent, upon the investment.

PLANT FOR STRATFORD.

Stratford, July 15.—Next Monday night an offer will be prepared by No. 1 committee for the Stratford Electric Light Company.

So far the company has made no mention of what their plans for the future are and the committee have kept on negotiating, but have not been successful in securing any offer from the company. On Monday night next the committee hope to have a proposition in shape to present to the council, which will in turn present it to the company.

FRED HUBERT, Grand Vice-Chancellor, Ontario Grand Lodge, Knights of Pythias.

Shah's Troops Beaten

Teheran, July 15.—The situation in Teheran this morning shows some improvement. The artillery fire has practically ceased and it is understood that Col. Liskhoff, the military commander at Teheran, has given his troops orders to cease firing.

Rifle fire is still going on between the Bakhtiaris in the service of the Shah and the Nationalists, but the Persian Cosacks have taken no part in these exchanges for the past two hours. The forces of the Shah last night attacked the northeastern gate of the city, but they were repulsed by the Nationalists with heavy losses.

WHITNEY REPLIES,

But His Reply Lacks Essential Element of Truth.

"I did not object to criticism, I objected and still object to falsehood."

"I do not intend to pursue the subject further for the present, but I wish to draw the attention of our people to what is afoot. The people of Ontario are practically unanimous in supporting and desiring to carry out the power policy of the Provincial Government. The Legislature has formulated it. The press of the Province is practically a unit in favor of it. That is the situation. And now we have a declaration of war from the outside. The Montreal Star and Montreal Gazette have served notice upon us that they are to lead a crusade against the desires of the people of Ontario and the expressed will of her Legislature. We thank them for the notice given and we say, 'Gentlemen, let the combat begin.'"

This is Premier Whitney's statement, made yesterday with regard to the disallowance campaign, and is very clearly not true in its essential features. The Montreal papers simply reported the fact that a large number of petitions praying for disallowance had been sent to the Governor-General of Canada and the Premier of the Dominion, on the ground that the Whitney Government had violated individual rights by closing the courts against those who considered themselves wronged.

Building permits were issued to-day as follows: Munro & Mead, alterations to Grafton's stores, 16-18 James street north, \$1,500. Springer & Co., four frame houses, corner of Ferris street and Clarke avenue, \$3,400. Stewart & Wilton, brick house, Barton street, between Emerald and Oak avenue, for Dr. A. E. Hiker, \$3,200. J. H. Williams, brick house, Dundurn street, between Ardvoich and Hunt street, for Sarah Hess, \$1,750.

The asylum last year used 35,556,500 gallons of water for which it paid 7 1/2 cents a thousand gallons. The city is waiting to hear from the Provincial Secretary's department as to what it will agree to pay for the water hereafter, the Government having passed legislation which says municipalities must supply Government institutions with water at cost.

TO CAMP.

Seven Batterymen Left For Petawawa Last Night.

Seven members of the Fourth Field Battery, C. F. A., left last night for Petawawa camp to take a special course of instruction for gun-layers in preparation for the competitive firing of the battery next week. They were Br. F. Hamburg, Br. A. Tuck, Gr. F. McCue, Gr. W. Boles, Gr. J. Boles, Gr. E. Cook, and Gr. Pearson. Br. J. J. Campbell will leave the end of the week, and the remainder of the team on the 20th. Members of the battery wishing places on the team should apply to the sergeant-major as soon as possible.

Construction Suspended to Boom Bonus By-laws.

Beamsville, July 15.—(Special.)—Work on construction has been temporarily suspended by the Dunville, Wellandport & Beamsville Electric Railway authorities, so says Mr. H. Lloyd, who has charge of that portion of the work, and who was in town during the past few days. The company has up to date spent \$20,000 on the five miles of grading.

Voting on the bonus by-laws in Gainsboro and Moulton townships takes place on the 26th, and a vigorous effort will be made to carry them in both municipalities. The same by-laws were defeated last winter.

DENIES IT.

Miss Stewart Says She Knows Nothing About Sutton's Death.

A despatch from Stoney Brook, Muskoka, says: Miss Mary Stewart, of Pittsburg, who is sojourning here and in whose company Lieut. James N. Sutton, of the United States Marine Corps, passed hours of the day on which he met his tragic death at Amapolis, in an interview to-day denied that Sutton met his death in a quarrel over her, or that she knows of the facts about the tragedy. She said that during the time she spent with Sutton he did not show any signs of melancholy, nor did he tell her of any trouble. She admitted she had met Lieut. Adams, who is involved in the case, and talked freely of the time she and Sutton spent together.

NOT IN FIELD.

R. V. Mathews Surprised That He Should be Nominated.

Although R. W. Bro. R. V. Mathews, of this city, is being nominated by Masonic Grand Lodge representatives in several Ontario cities for a place on the Board of General Purposes of the Grand Lodge, he will not be a candidate. Mr. Mathews' nomination by outside Masons was a surprise to him, as it was an unexpected thing among the members of the Hamilton Past Masters' Association that there should be no candidates for office from this city this year. It is his intention to abide by that arrangement.

PERSONAL.

Bishop DuMoulin, who has been visiting his son at Moosejaw, Sask., leaves for the coast to-morrow.

Miss Proctor and Miss A. I. Proctor are visiting Mrs. Clifford Sifton at her summer home on the St. Lawrence River.

Mr. and Mrs. Edwin Mills and family left this morning for their island home, at Port Carling, Muskoka, where they will reside for the rest of the summer.

Rev. D. V. Lucas, who has been visiting relatives in Burlington and vicinity for the past four weeks, will return to England on Friday, sailing by the Empress of Britain from Montreal.

Judge Charles R. Mitchell, of Calgary, was married yesterday to Miss Clara Fraser, of Detroit, by Rev. D. R. Drummond, of this city, at the residence of E. M. Griffin. The judge and his bride sail for Europe Saturday.

Rev. J. A. Wilson, of St. Andrew's Presbyterian Church, left this morning for Stoney Lake, Peterboro' County, where he and Mrs. Wilson will spend the first part of their vacation. The pulpit of St. Andrew's will be supplied by Mr. David Mitchell, of Knox College, during Mr. Wilson's absence.

MANY WHEELS ON SIDEWALK.

Police Have Instructions to Watch Sherman Avenue.

It is evident, judging by the few cases which needed adjustment in the Police Court this morning, that the heat of the past few days has stopped the thieves from putting forth any very energetic efforts to acquire easy riches, and consequently the few cases which do reach the court are generally small offences, such as drunkenness and vagrancy. This morning it took Magistrate Jelfs about ten minutes to dispose of the three cases on the roster. The only one which promised interest was that of Vincent Atkinson, 208 Bay street north, who was charged by Rebecca Atkinson with assault. The case was not tried, however, as the complainant grew repentant and begged the Magistrate to allow it to drop.

"It was only a family quarrel, and if they can settle it themselves that certainly is the most satisfactory way," commented His Worship.

John Lawlor, mountain top, was a man of remarkable appearance. He was charged with being drunk yesterday.

"Guilty or not guilty?" asked the desk sergeant.

"Guilty, sorr," pleaded Lawlor in tearful tones, "but it's me first time."

Unfortunately his appearance belied this virtuous statement. When told that he was fined \$2 he began a frantic search through his pockets, which finally resulted in bringing the requisite sum, with 25 cents to spare, to light.

Upon delivering he was allowed to go. Charles Miller, 27 Euclid avenue, admitted that he had ridden his bicycle on the sidewalk last night, and was fined \$5. In extension of his offence he said it was 11 o'clock at night and he did not expect that there would be any people on the walk at that time.

"That is the most dangerous time," said the Magistrate, "as you can't see the pedestrians."

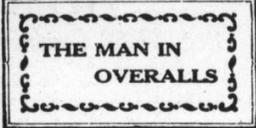

Of late the police have received many complaints about people riding on the sidewalks on Sherman avenue, and as the result of the carelessness of some of the bicyclists two or three accidents have occurred. A few days ago J. Burks was walking down this street when an cyclist ran into him and injured his hand painfully. He was unable to find out who was riding the wheel, but the police have been instructed to keep a particular watch on Sherman avenue, and summon all persons who ride on the sidewalk.

What the country needs is a compulsory marriage law. Not a compulsory military service law. Is your Johnnie going to attend the technical school?

If the Art School is dead, why delay the funeral? The young man who is hanging around in the expectation of getting some kind of a Government job some day is making a mistake. With good health, fair ability and push he can make a competency easier and quicker in many other ways.

Under the present arrangement I think it must be almost an impossibility for hotel men to keep track of all the Indians. In fairness to the hotelkeepers some proper plan of identification will have to be established.

If this should meet the eye of Allan Studholme he will lose no time, it is hoped, in telling the public why he does not ask Whitney if he is to investigate as to the safety of our lodge doors.

The man who lives in the next block says his wife can saw wood just like a man. It's all in the knack of knowing how. He started his wife early in the game, and he says it's the best of exercise for her, and better than medicine.

If the trees are to be trimmed the park superintendent should see that none but experts are employed to do the trimming. The butchers have been on the job too long.

As usual it will be seen when the Glace Bay strike is ended that both sides have lost. It costs money to carry on one of these industrial wars.

The heat seems to be affecting the Spec. and Herald. They are both quarrelsome and querulous. Tough on their readers. But does anybody read the stuff?

Yes, Maude, it might be as well if you stayed in these evenings. It wouldn't be pleasant to be accosted on the street by strange men.

This latest appearance of Harry Thaw is not even a third rate attraction.

Now we are told that it was a white man who killed Elsie Sigel. We may next be told that it was a Black Hand affair. But why did Leon Ling skip?

Washington, July 15.—"As soon as the tariff is out of the way," said James J. Hill, the railroad magnate, who yesterday was one of President Taft's callers, "this country will enjoy a prosperity which will at least equal, if it does not surpass, that which it knew under the McKinley administration. "Last month I travelled extensively through the west and I never saw such activity among the farmers. Everywhere I made enquiry and learned and saw that the crops were abundant and that the farmers were satisfied. Signs of the financial depression of 1907 are fast fading. "Freight cars will be at a premium within a few weeks. We of the railroad world judge the prosperity of the nation as much by the number of idle cars as anything else. Throughout the past year there have been thousands idle, but they will soon be rolling about the country filled with freight. "Mr. Hill says he expects to return to the St. Lawrence later in the summer and resume his fishing. TWO CENT STAMPS. (Special Despatch to the Times.) Ottawa, July 15.—The Postoffice De-partment placed on sale to-day a new issue of two-cent stamps in unperforated strips. SIDES WITH MURDERER. Golda Saylor Says Mother's Visitor Was Justified In Killing Her Father as He Shot in Self Defence. Job Was Anxious to Lynch Dr. Miller and the Woman. Wateeka, Ill., July 15.—Golda Saylor, 17-year-old daughter of Banker John Byron Saylor, of Crescent City, has come to the defence of Dr. William R. Miller, who is charged with the murder of her father. Her action and the day's developments have so aroused the citi-zens of that village that it is feared a mob may be formed there to come to Wateeka and attempt to lynch Dr. Mil-ler. There has been talk of lynching ever since the killing, and the girl's statement has strengthened this to a great extent. "Dr. Miller was a good friend of mother's and mine and I'm sure he killed my father in self-defence," the girl said, and this statement added fuel to the flames of conjecture already raging, making it seem more likely to the Saylor's neigh-bors that the husband was slain as the result of a plot between his wife and her supposed admirer. That the daughter should have been drawn into the plot, as some of the neighbors infer from her defence of her father's slayer, is what most has aroused the men and women of Crescent City. What makes the girl's championship of Dr. Miller unusually tragic is the fact that during his life her father was a most devoted and indulgent parent and generally was believed to be ignoring his wife's alleged intimacy with the physi-cian because he preferred suffering in silence to humiliating the girl by involv-ing her in the notoriety which would have followed any action on his part. W. P. Nightingale, cashier of the bank of which Saylor was vice-president, said to-day he had long believed it was only his love for his daughter that had held Saylor back from interference with his wife's association with Dr. Miller. "It seemed to me to be a most tragic solu-tion of the situation," said Mr. Nightingale. "Whenever he left the city dur-ing the last year or so it was his habit to seek the privacy of his office, after which he would reappear with a bulky envelope containing papers, should any-thing happen to him, the papers would have followed any action on his part. EVELYN READY. On Hand to Testify Against Her Husband's Release From Asylum. Thaw Wanted Twenty Tons of Ice to Cool His Rooms. White Plains, N. Y., July 15.—Evelyn Nesbit Thaw was at hand and ready to testify for the state which is opposing her husband's release from the Matteau-Asylum for the Criminal Insane, when the fifth day of the hearing on Harry K. Thaw's mental condition was begun before Justice Mills in the Supreme Court here to-day, with Dr. O. M. Meyer, of New York, on the wit-ness stand. The usual curious crowd filled all available space in the court room. Dr. Meyer testified that he saw Thaw in the White Plains jail on Oct. 8, 1908, and discussed with him at that time the episodes included in a hypo-thetical question which the witness had prepared on which to base an opinion of the prisoner's sanity. On subsequent visits to the White Plains Jail, and in Matteau Asylum, the physician talked freely with Thaw, he said, and got him to tell the story of his boyhood days. Deputy Attorney General Clark con-tinually objected to Dr. Meyer's sum-marizing his conversations with Thaw and insisted on the witness giving Thaw's exact words. He was sustained in his objections by the court and the witness had to go over his testimony several times before answers were elicited, which were allowed to remain on the record. Dr. Meyer related a conversation upon one occasion when Thaw told him he feared he was going to have typhoid fever and suggested that his rooms in the jail should be cooled off with twenty tons of ice. PROSECUTOR OF SUGAR TRUST. U. S. DISTRICT ATTORNEY CRIM. U. S. District Attorney Crim will have the job of convicting the sugar trust and its directors on charges of conspiracy in the federal courts of New York. Crim is one of the youngest district attorneys in the United States. He will be pitted against some great corporation lawyers when the trust magnates are brought to trial. Sugar Trust Director. JOHN E. PARSONS. JOHN E. PARSONS, "uncle of the sugar trust," who is under indictment for conspiracy in the famous Segal case, is one of the oldest or-poration lawyers in the States. He is father of Congressman Herbert L. Parsons, Republican leader in New York. Parsons is accused of loaning Adolph Segal money as a means of wrecking Segal's business later by the trust. Segal was the trust's individual rival. THOROLD MAN DEAD. (Special Despatch to the Times.) St. Catharines, Ont., July 15.—Charles Johnson, a retired contractor and one of Thorold's wealthiest and most public spirited citizens, passed away yesterday afternoon after an acute attack of peritonitis. He leaves a widow and two sons, Samuel J. of the Quebec Bank, Toronto, and Frederick C., of Thorold. The funeral will be under Masonic auspices.

DR. SPOHN. Former Ancestor Man Died In Texas Recently. Dr. Henry Spohn, a former Ancestor man, died last week in the Mercy Hos-pital at Laredo, Texas. He was born in that township on June 28, 1827, and was the third son of Philip and Eliza-beth Spohn. His grandfather, Peter Bowman, had settled in Canada about 1777, being granted, on account of his loyalty to the Crown, a large and valu-able tract of land. At the time of its settlement it was wild and desolate, while at the present time there are lo-cated on it some of the finest farms in Canada. Dr. Spohn received his early educa-tion in the schools built up and main-tained by his grandfather and father, and graduated in medicine from the To-ronto Medical College and Bellevue Hos-pital Medical College of New York. While a young M. D. in New York the civil war broke out and for the practice and experience to be gained there, he offered his professional services to the army and was mustered in at Battle-boro, Vt., in the 17th Vermont Volun-teers. He was appointed on the staff of Gen. Winfield Scott, the hero of the Mexican war, and acted as his personal physician up to the time of the general's death. During the past five or six years Dr. Spohn had made his home with his sister, Mrs. Kathrine Spohn Hamilton, and his nephew, A. C. Hamilton, with whom he had planned to take a trip shortly to California, Seattle and Colorado. He had been sick only about three or four weeks. He was a brother of the distinguished surgeon and physician of Corpus Christi, Dr. A. E. Spohn, and of Dr. H. P. Spohn, of Canada. Besides those already mentioned, he leaves to mourn his loss another sister in Canada, Mrs. Lena Huntly, and a large number of nephews and nieces, including Dr. H. J. Hamil-ton, of Laredo City, and Judge A. P. Spohn, County Judge of Zapata, Texas. 14,000 STRIKE. Miners Strike Without the Sanction of the U. M. W. Pittsburgh, July 15.—About 14,000 min-ers employed by the Pittsburgh Coal Com-pany went on strike to-day. The strike order was issued several days ago by the local union officials, and does not have the sanction of the national offi-cers of the United Mine Workers of America. A meeting of the executive board will be held this afternoon. BOER MONUMENT. Toronto, Ont., July 15.—The monu-ment to be erected in Toronto in mem-ory of the Canadian soldiers who lost their lives in the Boer war in South Africa will bear their names, inscribed in bronze. PAN AMERICAN BANK. Washington, July 15.—With great en-thusiasm and favorable responses on the part of governments of Latin America and the large business interests of those countries has the proposition to estab-lish a Pan-American bank in New York, with branches throughout Central and South America, been received.

SCHOOL REGULATIONS.

The Department of Education has adopted a set of regulations regarding text-books. Under the old text-books authorized last year are not to be used after midsummer vacation next year.

BE PROVIDENT!

In spite of the glowing reports sent out in crop bulletins, there are not lacking opinions of careful observers that the result of the year's work may be a much lighter crop than is generally expected.

This feeling is reflected in the markets, and the stiffening of wheat prices shows that the big dealers are treading with caution.

The fact that the Toronto papers appear to have combined to keep silence as to the demand for the disallowance of the vicarious legislation by which Whitney attacked property and civil rights in the Province, and denies the citizen access to the courts of justice, is an additional argument in favor of prompt disallowance of the acts in question.

Australia, whose prompt offer of "one or more Dreadnoughts" to the British navy was so frequently quoted by jingoes as "shaming" Canadians, is now trying to find a loophole of escape or to explain that the "offer" was really not made at all, and that the cablegram evoking so much British gratitude was not authorized at all.

Chicago wheat brokers caught short in July wheat, yesterday sent the price from \$1.20 to \$1.27. Probably half a million bushels were bought on the advance.

EDITORIAL NOTES.

The by-law against posting advertising notices on the electric poles is a city ordinance. Its enforcement is a matter for the police.

The trimming of shade trees so as to lessen obstruction to street lights should be done with discretion. Here is a job George Wild should be able to boss to advantage.

The fire losses of Canada and the United States for the month of June aggregated \$14,435,050. That is a decrease of over \$5,000,000 from the figures of June, 1908.

small expense. If London profits by Hamilton's experience, it may be able to furnish another fighting unit for the great battle against tuberculosis.

A Chicago preacher offers to bet \$50 that Prof. Foster cannot give an acceptable definition of God. Acceptable to whom? Has it ever been attempted, save in negations?

You may not be able to afford a month in Muskoka or a sea voyage, but the same sun shines here. Loll in the back yard and accumulate tan and freckles and imbibe ozone.

The surplus for the year on Consolidated Fund account which covers all ordinary expenditure is \$1,022,162, within half a million of Mr. Fielding's estimate in his budget speech.

Von Buelow says he did not dissolve the German Reichstag because "the new house would not have passed the finance bill." That is a shameful admission of lack of courage and disregard of the will of the people.

The Panama Canal Commission, which last year had an appropriation of \$33,635,000, wants \$48,000,000 for the current year. The prospects now are that the canal will cost more than double the original estimate.

Metairie, Wash., is a fireproof town, the construction of which was begun in March. It has now 48 buildings, including a school house, post office and two churches, all built of cement concrete.

Hon. Adam Beck did not seem inclined yesterday to pledge himself to the exceptional treatment which Mr. Lobb was ready to promise us if we entered the Hydro-Electric scheme. It looks as if Hamilton must shoulder the heavy 30-years' burden, and throw away its present advantages if it takes the plunge.

We do not know A. Kelly Evans, the man who has been given the job of reporting on the fish and game situation in the Province, but we presume he can earn his fee. But we hope he will not recommend any more reservations in favor of professional sportsmen and wealthy dudes who appear to imagine the fish and game were meant only for them.

The Glace Bay Town Council, by a vote of 9 to 2, has asked that the troops sent to prevent riots at the scene of the coal strike be not withdrawn until all apprehension of disorder is at an end. This is a severe rebuke to Mayor Douglas, whose conduct in the difficulty has caused much astonishment. The output of coal at the mines is said to be increasing.

The fact that the Toronto papers appear to have combined to keep silence as to the demand for the disallowance of the vicarious legislation by which Whitney attacked property and civil rights in the Province, and denies the citizen access to the courts of justice, is an additional argument in favor of prompt disallowance of the acts in question.

Australia, whose prompt offer of "one or more Dreadnoughts" to the British navy was so frequently quoted by jingoes as "shaming" Canadians, is now trying to find a loophole of escape or to explain that the "offer" was really not made at all, and that the cablegram evoking so much British gratitude was not authorized at all.

Those people who in their war on vivisection shed tears over the inoculation of mice and guinea pigs with the germs of disease, in seeking to find antitoxins to save human life, are in poor business. By one discovery, diphtheria antitoxin, thousands of children's lives have been saved, each child life being worth all the mice and guinea pigs that ever breathed.

Victoria, B. C., is to have increased municipal taxation. The tendency of municipal government everywhere in Canada is to outrun its revenue. Between the exactions of government, municipal, provincial and federal, and the demands for increased prices of the necessities of life made by the rings, the gentleman who profits by the illness of the people would seem to be in danger of going into bankruptcy.

The United States tariff bill has been finally passed by the Senate and now goes to the Conference Committee. Those who at one time expected that three days would see its final adoption are now willing to admit that probably three weeks, or more, will be taken up in the conference. Ten Republican Senators have broken away from the party and are giving Aldrich's bill much hostility.

Premier Whitney continues to give to his chattel organs interviews expressive of his bitterness toward the petitioners for disallowance of his vicious and Russian-like legislation. He continues to parrot that the people of Ontario are almost a unit in supporting his power policy. What he does not attempt to explain or excuse is why any good cause should be served by legislation confiscating private rights and denying access to the courts of justice to citizens who suffer wrong at the hands of a body created by the Provincial Government.

Crop reports from the United States indicate a great gain in condition. In wheat, corn and oats alone the improve-

ment within a few weeks is estimated at \$300,000,000. The United States Department of Agriculture estimates the wheat crop at 650,000,000 bushels; corn 3,000,000,000; oats, 1,100,000,000. The wheat estimate is slightly lower than last year, those of corn and oats are vastly larger. The total money value of the three crops is estimated at \$2,890,000,000.

Statistics of 1907 place the world's railway mileage at 594,867, of which 420,669 is in the new world. Of this mileage, 268,068, enough to girdle the globe ten times, belongs to the United States and Canada. In the last ten years 150,000 miles, or nearly 25 per cent., has been added to the world's railway mileage. Canada furnished a larger percentage of that gain than any other country, and the years 1908 and 1909 will maintain her prestige.

Once more we sincerely advise the Mayor to quit his undignified and too palpable efforts to manoeuvre and wiggle himself from under the obligation of a plain public duty.—Hamilton Herald.

Does the Herald think that to earn its thirty pieces of Hydrar silver it is necessary to resort to daily blackguardism and abuse of the Mayor? There is not one sane man in the city who doubts for a moment that Mayor McLaren is trying to do the best for the ratepayers. And most of them have a very shrewd suspicion of the motives which prompt the Herald to abuse him.

The Limerick, Ind., postmaster has resigned after 35 years' service. There is nothing remarkable about that, for office-holders are proverbially healthy. But the odd thing about the matter is that there is not a Republican in the town of Limerick to appoint as his successor. Of course, under the civil service law some folk think that party pull does not count; but that is far from true in practice, however pretty it may be in theory. Now an effort is being made to get a Republican to move into Limerick, so as to make it easy for the powers that be to get the right kind of a man as postmaster!

Police Commissioner Bingham, of New York, who has just been removed by the Mayor for refusing to obey his instructions, has frequently confessed that partnerships between the police and wholesale vice existed, but he found it impossible to break them up. At one time he stated that he had been offered \$500,000 a year to permit certain forms of lawlessness to continue! It should be said, however, that when the statement was made the subject of investigation he so modified it as to deprive it of its sensationalism. Evidently the people of New York need protection against police abuses.

Germany is raising \$125,000,000 to cover naval deficits and give the Kaiser more money to build warships. Great Britain is raising \$80,000,000, mostly for increased naval expenditure. Since 1897 the United States army cost has increased from \$48,000,000 to \$164,000,000 and the cost of the navy from \$34,000,000 to \$115,000,000. Pensions have increased \$20,000,000. In 1899 the Spanish war increased the cost of United States Government to \$605,000,000, and the expenses of the fiscal year just closed, after deducting the amount spent on the Panama Canal, was \$659,000,000. And yet with all this foolish and criminal waste, some people wonder why we ever have hard times.

Our Exchanges

A FRUGAL MAN. (Chicago Tribune.) A man in New York ate ten pounds of beefsteak at a sitting. He omitted potatoes, as the price was too high.

A BIG FEE. (London Free Press.) Brandford proposes to get some revenue from the five-cent theatres. A fee of \$300 is to be charged. Or will the net seen to be any definite reason why Satan should supersede the janitor during the month of August.

WHITNEY'S DENIAL OF CIVIL RIGHTS. (Goldwin Smith.) Are we Englishmen or are we not? Have we the privileges of Englishmen or have we not? Does an Englishman lose them when he sets foot in Canada? There may possibly be a question as to the applicability in any particular case of those constitutional principles which are the keystone of English liberty, and held to be the distinction of freedom from a despotic monarchy. But of the vital importance of those principles there never has been and it is presumed there never can be any question; there is at all events when they are concerned no excuse for insouciance.

HAMILTON CIRCLE. Hamilton Circle, A. O. F., held an informal ice cream social, which was greatly enjoyed by the members present. Mrs. Midgley, Chief Companion, presented the following programme: Piano solo, Miss Ruby Wynn; recitation, Juvenile May Stoker; dance, Miss Reta Hickey; recitation, Companion Minnie Rowell; song, May Stoker; recitation, Comp. Olive Hayward. Mrs. Midgley contributed a song. The juvenile committee were Companions Beatrice Stoker, Irene Wade, Olive Hayward, Sarah Foote and Lily Donnelly.

WHAT THE DEVIL DOES. (Dominion Presbyterian.) But the devil by no means restricts his activities to those who are away from home in the enjoyment of a few weeks' outing. He looks out for the old church, and sometimes takes care of the husband when his wife is absent. He reminds the elders that it is not necessary to have preaching while the pastor is away, and tells the superintendent of the Sabbath school that it will be a good thing to intermit the school during the month of August, so many families away. He is always careful to suggest to the young people that it will be better to postpone the meetings until the first of September, when the pastor gets back, and the outing

Smithville The Public School Board has re-engaged Mr. C. J. McKinnon as principal and Miss Blanche Gove as assistant at the Public School here, to the satisfaction of all.

Wednesday of last week was marrying day at the residence of Mr. Frank Smith, here, when his sister Alla became the wife of Mr. G. G. Smith, of Hamilton; his niece, Miss Viola Pelkey, became the wife of Mrs. Thomas Bettell, of Port Nelson, and his son, William, married Miss Edith Griseh, of Hamilton. Rev. W. S. Wright, of St. Ann's, was the officiating clergyman. The boys, accompanied by their elders, gave the three couples a big send-off by an old-fashioned charivari.

Mr. G. B. Smith, who was before Justices Martin and Wardell for threatening to shoot his wife, escaped with a fine and being bound over to keep the peace.

Mr. W. B. Shrum has pulled down and entirely remodelled his barn and stables, which is a great improvement on the street.

Mr. M. B. Zimmerman, lumberman, has added a fine gasoline engine and planer to his outfit in the lumber yard, which will be a great convenience to his numerous patrons in this vicinity.

Twelve Toed. Descendants of One Man for Several Generations Have Them. On the line between Lincoln and Saratoga counties is a settlement of peevish farming folks who have a peculiarity which is but little known outside, according to Bangor correspondence of the Boston Post.

It is not visible and a stranger might go there year in and year out without ever discovering that they were any different from ordinary people in a farming community. They are peculiar for the number of people in the settlement who have six toes on each foot.

The six toes belt lies partly in the town of Dresden, in Lincoln county, and partly in Woolwich, in Sagadahoc county. Just how many people there are there who have more than their share of toes would be hard to say, but there is quite a number, and the way in which they came to them is a mystery in the first place, although there are a number of traditions as to how it happened. One man is said to have been born with

AT REST. Funeral of a Popular Young Y. M. C. A. Lad. The funeral of Harrison Forbes Mummery, eldest son of Samuel T. and Mrs. Mummery, took place from the City Hospital yesterday afternoon to Hamilton Cemetery, and was private. Deceased was one of the boys of the Junior department of the Y. M. C. A. who wrote so successfully in the international Bible study competition. He made over 90 per cent, thus helping to secure the pennant for this city. The floral tributes included pillow, parents; anchor, brothers; wreath, threader and shaver rooms, Canada Sewing Co.; and pieces from William and Mrs. Forbes and family, Mr. and Mrs. A. E. Mummery, Mr. and Mrs. E. A. Dempster, Mr. and Mrs. H. Mummery, Mr. and Mrs. John Forbes, Mr. and Mrs. Alf. Bailey and family, Mr. and Mrs. Scoville and Mr. and Mrs. Myers, Mr. and Mrs. Mummery wish to thank their friends for their kind expressions of sympathy in their deep bereavement.

EVELYN TOLD ONE BIG FIB.

That Was When She Said Harry Was Giving Her No Money.

Is Again Kept From Testifying to Alleged Threats.

Witnesses Sworn All Declare Their Belief in Thaw's Sanity.

White Plains, July 14.—Evelyn Nesbit Thaw's lips were still closed by legal technicalities to-day and she did not resume the stand, as expected, to testify for the State in opposing Harry K. Thaw's attempt to prove himself sane.

The State's attorneys had announced at adjournment yesterday that they would show to-day that the disputed conversation between Thaw and his wife at the asylum, in which Thaw is supposed to have threatened to kill her when he got out, was not privileged, and, therefore Evelyn Thaw would be called and her testimony on this point admitted.

Just what is Evelyn Thaw's attitude toward her husband is puzzling. It is not generally known whether she would rather see him a free man or confined as a lunatic. While she has been quoted often as repeating, in effect, her famous declaration, "I'll stand by you, Harry," it is reported, on the other hand, that in the event of her testimony ultimately going against Thaw, his attorney will call witnesses to show that she had remarked that she was glad to see him in Matteawan.

During her testimony yesterday Mrs. Thaw said that her husband was not supporting her properly, but it was brought out on the stand to-day that he is paying her more than \$500 a month.

As usual, Thaw was calm and hopeful to-day. He aided his counsel so much in framing up the questions to be put to the witnesses and preparing the papers that Lawyer Morse's career ceased referring to him as a client and called him "my associate."

Dr. Thomas Ehleider, a Poughkeepsie dentist, testified that he visited Thaw professionally in Matteawan Asylum and had several conversations with him. They talked about the insane patients in the asylum and discussed the subject of insanity upon one occasion.

"I expressed the opinion that it was very hard to distinguish between sanity and insanity in a man," the witness said, "but he disagreed with me and said he thought the mental line demarcation was clearly distinguished with a patient whether or not he was insane."

A number of other attendants at the Poughkeepsie jail and citizens of Poughkeepsie testified in Thaw's behalf.

Dr. Sillo testified that for the last three months Harry Thaw had been sending him \$70 a month and \$200 at the end of each month, and that he had been turning the money over to Thaw's wife, as he had been instructed to do.

BURLINGTON HIGH SCHOOL.

At a meeting of the Burlington School Board Mr. D. E. Smith, younger brother of School Inspector Smith, was appointed principal of the Central School, duties to commence in September. Mr. Smith is a graduate of Toronto University, and holds a high school principal's certificate; has taught six years in high schools in Ontario, and is capable of teaching all branches covered by departmental and matriculation examinations.

Miss Nellie Flock has been engaged to fill the position of assistant teacher in the high school, recently held by Miss Garnet Freeman, who has resigned. Miss Flock holds a first class professional certificate.

Dr. Albert Ham, of Toronto, was among the guests invited by the Lord Mayor, of London, to banquet last night of the Royal Society of Musicians.

IN A MELTING MOOD.

A SURPRISE IN LONDON.

Retirement of C. W. Bennett Causes Much Regret.

Concerning the resignation of Mr. C. W. Bennett, general manager of the Bennett's Theatrical Enterprises, the London Advertiser says:

The news of Mr. Bennett's resignation will come as a surprise to the theatregoing public of the various Canadian cities and towns where his name has become almost a household byword, and also to the theatrical profession the world over, among whom he is well known, and to Londoners in particular on account of his popularity here.

Mr. Bennett was seen by the Advertiser in his office in the Bank of Toronto chambers, and upon being asked regarding the cause of his move, stated that it was a personal matter involving a business move, and that he had plans of his own in which the public would not be interested, and that, being private, he did not wish to discuss them.

He was going to take a well-earned vacation as soon as he could put his own personal business and the company's business in order. As soon as this is completed he will spend a few weeks at his summer home on the Hudson, just out of New York, with his family. Later he will visit his aged mother in the west, and attend a family reunion there, and then continue on to the Seattle Exposition, returning via California.

Mr. Bennett may then take a European trip before going ahead with his other plans.

Nearly everybody is familiar with Mr. Bennett's rapid and deserving rise in his business, and knows that he started a complete stranger here with the old London Opera House, in a small way, a few years ago, and how he developed his business into one of the largest and best-paying theatrical propositions in America, with theatres running into the aggregate cost of hundreds of thousands of dollars, extending all over Canada.

How he became a power among the big theatrical men in the United States, even to such an extent that he participates in all the big meetings of the theatrical magnates held in the United States. No doubt he did his share toward making vaudeville what it is to-day. On the strength of his personality and strict attention to business he was able to enlist the financial support and assistance of some of the cleverest and most prominent financial men in the Dominion, making the Bennett Company the powerful financial organization it is.

COMPANY MADE MONEY.

It is said that this company is one of the few in America which has made money during the last two years, which, from a theatrical standpoint, have been the worst, so old theatrical men say, in twenty years, for the reason that while "hard times" hit the business as much, if not more, than any other line, the salaries of actors have been going up to unheard of figures, being even worse on the managers than the so-called "hard times."

It is admitted among the profession that the big theatrical men in the United States never woke up to the theatrical possibilities in Canada in their true light until Mr. Bennett and his company established their circuit of theatres in the various Canadian cities. Since then it is understood that overtures have been made the Bennett Theatrical Company by theatrical magnates in the United States to buy the circuit, but they were told so the rumor goes, "that it was not for sale."

TRAIN DERAILED.

Nine Cars Off Track Near Bala, Due to Broken Flange.

Bala, Muskoka, July 14.—Nine cars of a Canadian Pacific freight train are off the track near Lovering as the result of something going wrong on the train at 5.30 to-night. It is thought the flange on one of the cars near the front of the train broke off, derailing the car and the ones that followed. Brakeman J. Paul was slightly injured in the leg. The blockade will be raised before morning.

Tenders for the re-advertised parcels in the Gillies limit were opened yesterday by the Minister of Lands, Forests and Mines. In all 83 tenders were received for about 40 parcels, and 12 were accepted. The average bid is about 200, which leaves a balance of 400 acres undisposed of. The average price obtained was \$235 per acre, or \$47,504 in all.

The Art of Canning Fruit

Material—Currants, one quart; sugar, four cups; vinegar, three-fourths pint; ground cloves, one teaspoonful; ground cinnamon, one teaspoonful.

Utensils—Porcelain-lined kettle, measuring cup, tablespoon, teaspoon, wooden spoon.

Directions—Wash and stem the currants, then measure and arrange proportions as given. Put the vinegar into the kettle with the sugar, stirring until dissolved. Add the fruit and spices and boil slowly two hours, or until it jellies. Watch carefully that it does not burn. Turn when done into sterilized glasses and finish same as jelly.

Ripe gooseberries and cherries are delicious spiced in this manner, and all are nice served with meats.

RASPBERRY ROLYPOLY.

Mix together one pint of sifted flour, one-half teaspoonful of salt, one teaspoonful sugar and one teaspoonful baking powder, and rub in two tablespoonfuls of butter. Mix with sufficient sweet milk to make a soft dough, turn out on a floured board, work with the hands for a moment, then roll out in a sheet one-half of an inch thick. Spread thickly with black or red raspberries, sprinkle with a spoonful or two of sugar, and roll up like a jelly roll, pinching the ends to keep in the juice. Lay on a greased pie plate and steam for half an hour, then place in a hot oven for 10 minutes to dry off the crust. Serve with sweetened cream or hard sauce.

COCAINE FIENDS

Toronto Girl Tells How She Became One of the Victims.

Two Hamilton Guests Anxious She Should Try It.

In a Chinese restaurant in the downtown section of Toronto two reporters of the Toronto News found a young girl, who is addicted to the cocaine habit.

In stature but a child, and still in her teens, her face bore the expression of one grown suddenly old. In figure she was slight, even emaciated. "A year ago, before I had ever used the stuff, I was strong and healthy," she said, with sadness.

Walking the deserted streets in the small hours of the morning, she told the story which illustrates only too well the manner in which many young girls in Toronto have been led into the awful torments of cocaine. So deep have been the effects of the deadly drug upon her life that she remembers not only the circumstances attendant on her first use of the drug, but the very date it was forced upon her.

"It was a year ago the 27th of April that I first saw it in that restaurant over there," she said, as she pointed to a little restaurant on the west side of York street, not far from Queen. "My cousin and I had just come from the Majestic Theatre, and in the restaurant two girls from Hamilton wanted us to try the cocaine. I didn't know what it was then, but when I saw them putting it to their noses I knew it was dope. I would not touch it, but my cousin wanted me to. I told her not to take the stuff, but she did, and that night asked a pedlar to buy some for her. She slipped him a dollar, and he went out and got her fifty cents' worth. I found out that he bought it, and told him that if he bought any more for her I would have him arrested. By this time the cocaine had got her, and she couldn't leave it alone.

"Cousin was at me all the time to try the stuff, but I never touched it, and then one night she put some in a drink I was taking, and did this till I got the habit. I got to be a regular dope fiend, too. I still take it. It's done for me, and I know it for I used to be strong and healthy. I'm cutting it out, and I had less to-day than I've had for a year. If I stopped it all at once it would kill me."

Then followed a story told in the girl's quiet way, which could not fail to impress the listeners with the horror which she had of the dread drug. Unhappiness came into her life with her marriage at the age of fifteen. Of her husband she said nothing except that he beat her, and she still but a mere child. Soon she obtained a divorce for the sake of her parents and relatives, whom she wishes to keep in ignorance of many phases of her present condition. The girl induced the reporters to withhold many pitiful circumstances, which were the direct results of the use of cocaine by herself and some closely associated with her. Her husband was "Do you know of many girls who use cocaine?" asked one of the reporters.

Without hesitating the girl mentioned the names of nearly a dozen, who were given to the habit. The effect of the stuff on the girls she described as different. In most cases the final result of the cocaine was to throw the girls into fits.

SHOT HIS WIFE.

Husband Kills Himself When He Sees His Bride Wounded.

WOMAN MURDERED.

Found at Her Lonely Home With Throat Cut and \$300 Gone.

Poughkeepsie, July 14.—Miss Emma Brooks, 72 years old, was found in her lonely home near Highland, Ulster county, late this afternoon with her throat cut from ear to ear. Three hundred dollars, which she had in a pocket of her wrapper, had been taken.

The authorities believe the old woman was murdered by a tramp berry picker, who had been driven off her little fruit farm earlier in the afternoon. Her dead body was found by Rey Bragg, the farmhand employed to look after the place.

The sheriff of Ulster county has started a search for the murderer, and Deputy Sheriff Manning (Cleveland, of this city, will send his bloodhounds to the scene to try to track the man.

GRAIN FEVER.

Relative to Hay Fever That Attacks Longshoremen on the Lakes.

When the freighters on the Great Lakes tie up at Chicago to unload their cargoes of merchandise from the East and load with grain there is hard work ahead for the longshoremen and also good pay. The men who stow the grain form a class by themselves. Most of them do no other work and remain idle if there is no boat lying at the elevator docks.

These periods of idleness are followed by labor of the hardest kind. Stripped to the waist the grain stowers stand in the hold with the flood of yellow grain pouring down through the elevator chute and shovel for dear life.

It is not an infrequent occurrence to hear a cry for help followed by a shout of order to cut off the grain. This means, says the New York Sun, that a stower has been caught and half buried in the grain, and that his fellows have dropped everything to dig him out. The stower's plight would be serious were it not for quick action of his fellows, and not infrequently he is carried out of the hold unconscious.

To be caught in the grain, although a serious matter at the time, becomes the subject of many a joke afterward. According to the code of his fellows he should have been able to take care of himself.

The stowers are fine specimens physically. Most of them are over six feet tall, and the heavy work with the grain has given them the backs and shoulders of Hercules. Their pay is very high for men whose labor cannot be classed as skilled.

Most of them are inveterate gamblers, and at dinner time when they climb out of the hold to eat their lunch in the "ween decks, the cards are pretty sure to follow the meal and a quarrel often follows the cards. No one interferes so long as the men make fists their weapons, but men, as sometimes happens, one of them grabs up a shovel or pulls a knife his companions are quick to disarm him and bundle him ashore.

Hardy as the men are, there is one enemy they fear. This is grain fever, a kind of aggravated hay fever, that attacks those who work in the dust-filled atmosphere of a grain boat's hold. To protect themselves from the fever, the men wear large bunches of oakum over their mouths and noses. To a person looking down into the dust-filled hold it seems as if a whole family of Father Neptune were at work with shovels in place of tridents.

The grain fever frequently attacks members of the boat's crew who go about their work unprotected. Light attacks result in nothing worse than dizziness and a slight headache, but severe cases end in entire unconsciousness which may last for 12 hours. There is apparently no bad after effect from the grain fever, for the sufferer awakes after his long sleep with a clear head and no feeling of lassitude.

When the grain carrier reaches her home port, sometimes on the lower lakes and sometimes as far away as Ogdensburg on the St. Lawrence River, the grain is cleared from the hold by great pneumatic shovels tanded by gangs of hand shovelers who keep the grain in the path of the great scoop.

After the hold is empty the deck hands are sent down to sweep out and prepare for a new cargo. This is another dusty job and usually most of the men

SCRAP BOOK POETRY. OPEN THE DOOR. To the angel of love and truth, When the world is full of unnumbered joys...

IN SCHOOL DAYS. Still sits the school house by the road, A ragged beggar sunning! Around it still the sumachs grow, And blackberry vines are running...

The charcoal freecoes on its wall; Its feet worn still betraying Of one who still her steps to school, Went storming out to play!

Long years ago, a winter sun Shows o'er it at a setting; Lit up its western window panes, And low eaves' icy fretting.

It touched the tangled golden curls And brown eyes full of grieving Of one who still her steps to school, Went storming out to play!

For near her stood the little boy Her childish favor singled; His cap pulled low upon a face Where pride and shame were mingled.

Pushing with restless feet the snow To right and left he lingered, As restlessly her tiny hand The blue-checked apron fingered.

He saw her lift her eyes; he felt That soft hand's light caressing And heard the tremble of her voice As if a fault confessed.

"I'm sorry that I spent the word; I hate to go above you. Because"—the brown eyes lower fell—"Because, you see, I love you."

Still memory to a gray haired man That sweet child is showing, Dear girl! The grasses on her grave Have forty years been growing!

He lives to learn, in life's hard school, How few who pass above him Lament their triumph at his loss, Like her—because they love him.

Hardy as the men are, there is one enemy they fear. This is grain fever, a kind of aggravated hay fever, that attacks those who work in the dust-filled atmosphere of a grain boat's hold. To protect themselves from the fever, the men wear large bunches of oakum over their mouths and noses. To a person looking down into the dust-filled hold it seems as if a whole family of Father Neptune were at work with shovels in place of tridents.

The grain fever frequently attacks members of the boat's crew who go about their work unprotected. Light attacks result in nothing worse than dizziness and a slight headache, but severe cases end in entire unconsciousness which may last for 12 hours. There is apparently no bad after effect from the grain fever, for the sufferer awakes after his long sleep with a clear head and no feeling of lassitude.

When the grain carrier reaches her home port, sometimes on the lower lakes and sometimes as far away as Ogdensburg on the St. Lawrence River, the grain is cleared from the hold by great pneumatic shovels tanded by gangs of hand shovelers who keep the grain in the path of the great scoop.

After the hold is empty the deck hands are sent down to sweep out and prepare for a new cargo. This is another dusty job and usually most of the men

who escaped the fever during the loading fall victims now. It is a strange thing about the fever that a man who has had it during the loading and during some time and seldom has trouble when sweeping out the hold.

FIRST OCEAN GREYHOUND. Ocean speeds have steadily increased as the weight of machinery and the consumption of fuel per horsepower have been reduced. The impracticability of maintaining high speed with simple engines was demonstrated in the pioneer of the ocean greyhounds 44 years ago, in the steam trial of the Wampanoag. She was originally designed to run down commerce destroyers like the Alabama, writes Ira N. Hollis, in the Engineering Magazine, and for that purpose she had great speed under steam and in addition full sail power for keeping the sea without reefing. Her hull was entirely of wood. The main engines were geared to the propeller and construction of such a ship was a great achievement, and the use of gearing was the only correct solution of high speed with a wooden hull and a screw propeller. She was taken to the Navy Yard at New York as unsuitable for cruising, and there rotted away.

WANT TROOPS AT GLACE BAY.

The Town Council Changes Its Mind on the Question.

Labor Leaders Express Different Opinions.

Members of International Organizations Favor the U.M.W.

Glace Bay, N. S., July 14. — Mayor Douglas was not upheld in his stand in connection with the calling out of the troops to uphold the civil authority in Cape Breton by the Glace Bay Town Council to-night. By a vote of nine to two they passed a resolution asking that the troops be kept here until all apprehension of riots is at an end. The resolution, which provoked a hot discussion, emphatically declared that the presence of the troops was necessary in Glace Bay, and it rescinds the resolution carried by the casting vote of the Mayor at the last meeting, deploring the calling out of the military and refusing to pay for them. The amendment was offered that the Council stand by this resolution, and that a meeting of the ratepayers be called to discuss the question, but only the mover and seconder voted for it. All the others, with the exception of Councillor MacDugall, President of the U. M. W., who is now in Halifax, voted against it, and the motion was carried by the same vote reversed. The question of the special police also came up, and the statement was made that there would be little difference in the cost of the "specials" and the force of troops that is quartered on the town, as there are only about 250 here. There was a large audience and the acrimonious debate was followed with the keenest interest.

THE COMPANY'S OPERATIONS.

The figures the company claimed at 4 o'clock to-day were: Raised from colliers, 3,940 tons; from No. 2 bank, 900 tons; from No. 8 bank, 350 tons. For the same period yesterday the figures claimed were: Raised from the colliers, 3,715 tons; from No. 2 bank, 870 tons; from No. 8 bank, 280 tons. This increase, the company stated, was due to more men at work in the pits and the men on the steam shovels at the banks, becoming more familiar with their work. They anticipate a similar increase each day as the strike proceeds.

The U. M. W. officials were just as confident to-night as at any time since the trouble began that they would win their fight at a not very far distant date. They stated that yesterday looking very well from their standpoint, and they professed to be satisfied with the day's developments.

MR. ROSS'S DEPARTURE.

After sending a telegram off to some upper Canadian papers, emphatically denying the statement that he was endeavoring to treat with the men, owing to the officials of the company having deceived him as to the number of men who were likely to strike, Mr. James Ross left for parts unknown this afternoon. His steam yacht, the Sheelah, steamed out of Sydney Harbor this afternoon, and the coal President is now beyond the reach of newspapers. No one connected with the company appears to have the slightest idea where Mr. Ross has gone, and his sudden departure has knocked all "settlement rumors" on the head.

Mr. S. B. MacNeil, Grand Master of the P. W. A., stated to-day that he believed there would be a big Canadian coal miners' union arise as a result of the strike. He thought it was pretty well demonstrated now that the U. M. W. could not exist in the Dominion, and he expected before the year was out to see an all-Canadian union in existence.

ENGLISH MINERS ARRESTED.

There are now about fifty cases before the Magistrates arising from the strike. Another batch was added to-day, when a number of Englishmen who had come out to Cape Breton with their passports paid by the Coal Company were captured in Sydney as they were about to leave for the west. The men had not paid back all the money that had been advanced to them, and they were being sent from the country by the U. M. W.

CONDITIONS AT INVERNESS.

Inverness, July 14.—The strike situation here remains unchanged. A number of U. M. W. men are asking for their old places in the mine, and it is expected a number of them will join the working force to-morrow. The company are running special trains, carrying men from points along their line and from work. In this way they are obtaining many men as they are needed for surface work. The output to-day was 557 tons, and 300 tons loaded from the stock pile. Manager Beaton expressed himself as well pleased over the situation, and said it was even better than he had anticipated.

A Belgian was committed for trial for assaulting a miner with a bag of rocks. Warrants are expected to issue for others for carrying weapons. It is felt the presence of troops prevents an outbreak.

WAGES AND COST OF LIVING.

An official of the Coal Company, discussing the question of wages and conditions of employment, says: "The schedule of wages in the western coal fields of Canada shows day wages materially higher than those paid in Cape Breton, but this is counterbalanced by the much higher cost of living in the west, and the much higher rentals and coal charges, which appear to be the custom out west. For instance, at Fernie a five-room house costs \$10 per month, to which must be added \$1 a month for sanitation, \$1 for water, and \$0.50 for electric light per month, where electric light is used. Domestic house coal costs the workmen \$2.75 per ton. The Dominion Coal Company's five-room houses let for \$8 per month, to which is added 25 cents per month for water in hydrants, or 75 cents for water in the sink. The sanitation charge in the Dominion Coal Company's houses does not exceed 25 cents per month, and is usually \$1 per ton for slack and \$1.50 for run of mine, and until very recently was only 90 cents per ton for run of mine."

REFERRED TO GENERAL DRURY.

Ottawa, July 14.—In respect to the demand from Mayor Douglas, of Glace Bay, and from the United Mine Workers' Union that the militia be withdrawn from the scene of the strike, Colonel Fiset, Deputy Minister of Militia, stated to-day that he had sent a reply to Mayor Douglas, stating that the question of withdrawing the troops is one for Gen-

eral Drury, district officer commanding, who is now on the scene, to deal with, as being most conversant with the needs of the situation. "The troops," said Colonel Fiset, "were called out in accordance with the provisions of the law, and the department will leave matters in the hands of General Drury."

VIEWES OF LABOR ORGANIZATIONS.

The opposing views of representatives of the two chief labor organizations of Canada on the issue in the coal miners' strike in Cape Breton are set forth in statements handed out to-day by Mr. J. W. Patterson, President of the Canadian Federation of Labor, and Mr. P. M. Draper, Secretary of the Trades and Labor Congress. The former takes a strong stand in favor of the Nova Scotia Provincial Workmen's Association against internationalism in labor organizations of Canada, and the latter emphatically endorses the position taken by the United Mine Workers.

"I believe when the Government investigates this strike, as it surely will do, it will find the source from which the pay of these American agitators is coming is American capitalists rather than from the United Mine Workers. I have every confidence that there is a great conspiracy on foot, else what is bringing in all these men, some of whom do not even belong to the United Mine Workers, who are willing to take their lives in their hands, and to do violence on the slightest urging."

THINK TROOPS SHOULD BE WITHDRAWN.

"The demand for the withdrawal of the troops contains no subterfuge on our part for the use of violence when they have been withdrawn," said P. M. Draper. "Violence in any form is against every principle of international trades unionism. The Mayor of Glace Bay was overridden by the County Judge after the Council had decided against asking for troops. One has only to read the militia act to see that the mayor of a city is in the supreme authority in a case of this kind. We have had Mr. J. Simpson, Toronto, our second vice-president, on the ground, and he has assured us that there is no necessity for the soldiers, as there was absolutely no sign of violence. There was no disturbance, the local police there could not cope with. An endeavor is being made to have the public believe that we are trying to win the strike by violence. Such is not the case, however. The United Mine Workers have a membership of nearly 400,000, and funds of over a million for strike purposes. They stand ready to support the men on strike in Cape Breton for an indefinite period. I have authority for making this statement. You can add further," said Mr. Draper, "that we will call on every international union in Canada to condemn the use of the militia in this strike. We are all in sympathy with the United Mine Workers' Union, and the congress is the mouthpiece of the United Mine Workers in Canada, of which there are 8,000. These resolutions, when it is remembered that there are 150,000 or 200,000 international union men in Canada, will be effective."

TENDERS REJECTED.

Montreal Council Turn Down Chairman Giroux.

Montreal, July 14.—After a three days' session the City Council decided to-day to reject the report of Chairman Giroux of the Roads Committee. Mr. Giroux has been trying to force upon the city certain paving contracts, amounting to \$400,000, despite the fact that other tenders were much lower. In some cases there was a difference in cost of a dollar a yard. The Hassam Paving Company's tender for \$361,000 was the real storm centre. Experts testified that other paving material was much better, and the cost was less.

MURDER OF TORTIC.

The Guilty Man Unknown to the Coroner's Jury.

St. Thomas, July 14.—The Coroner's jury investigating the death of Djuro Tortic, the Austrian, killed in a drunken brawl in a boarding-car at Iona station on Monday night, at noon to-day returned a verdict that the deceased came to his death by means of a blunt instrument in the hands of an unknown person.

The inquest threw no light on the man's murderer. A witness named Burpolets told of seeing Tortic lying on the side of the track at midnight, and asked his brother to help him lift the body, but the latter was too drunk, while Peter Silencie said the only thing wrong with Tortic was that he was drunk.

A cousin of the dead man knocked out the robbery theory by producing \$15 of Tortic's money he had taken possession of.

The London Daily Mail severely censured Montreal for short-sightedness in connection with her municipal loan floated in England.

TIMES PATTERNS.

CHILD'S OVERALLS.

No. 8530.—These little overalls or rompers are equally suitable for boys or girls, and allow of perfect freedom of motion while at play. The garment fastens on the shoulders and is supplied with pockets enough to suit even the smallest boy. The pattern is cut in 4 sizes, 4, 6, 8, 10 years, and is usually made of denim, gingham and khaki. The 6-year size requires 2 1/2 yards of 36-inch material.

Pattern here illustrated will be mailed to any address upon receipt of 10 cents in stamps or silver.

A GEOMETRICAL ROMANCE.

(By Allan P. Ames.)

Gertrude Allen was an extremely pretty girl, with dreamy eyes and a head full of captivating foolishness. Jim Eteher was a clean-cut, square-shouldered lad with a much romance in him as a Belgian block, but a business head that had gained him a junior partnership in a large hardware house before he was 30.

Ronald Vernoy wore his hair on his collar and endorsed a cheque, when he was fortunate enough to possess one. He usually on the wrong end. He earned \$30 a week as a newspaper critic, and wrote verse for the minor magazines at 25 cents a line.

There you have the three corners of the triangle.

"I might marry a hard-headed business man," Gertrude told Eteher one evening, when he was unusually persistent; "but not a man whose business is his only interest. Jim, if you only showed a spark of sentiment—well, things might be different."

This explanation, which was the first really satisfactory one Gertrude had vouchsafed, made Jim Eteher think hard all the way home. The result of his cogitation is the second side of the triangle.

Sheboygan, Wis., July 14.—After a long journey from Toronto, Ontario, Miss Maggie Bloomer has arrived in Sheboygan only to find her intended husband, Harry Cleveland, dead. The wedding was to have taken place on Wednesday. Mr. Cleveland had made all necessary arrangements for his wedding, had secured a house, and was selecting furniture. He was about 33 years of age, had been previously married, and had come from Toronto about a year and a half ago. He was employed to do special work at the Bridger State Tanning Company plant, but had not been working since Memorial Day.

Before that time he had begun to make arrangements for his wedding, and had sent Miss Bloomer \$35 to come to Sheboygan. Miss Bloomer is in the city without funds or friends, and is preparing to return to Toronto. Cleveland had several hundred dollars in a bank here, but nothing can be done in settling his affairs until the relatives are heard from.

AN UPHEAVAL.

Face of Nature Altered by Volcanic Activity.

Washington, July 14.—Juggling two imposing mountain peaks off the map, transferring a bay into a lake and bringing into existence two brand new islands are the feats of nature just discovered in Behring Sea by a Government party and reported to the Treasury Department.

GOES TO BRANTFORD.

To be Physical Instructor for the Y. M. C. A. There.

Brantford, July 14.—George H. Roper, physical instructor at All Saints' Church Club, Toronto, has been appointed instructor at the Y. M. C. A. here.

Roland Williamson, aged 12, made a daring rescue of Gordon Rowley from the Brantford canal.

Discussing a resolution to change the management of the John H. Stratford Hospital from a municipal one to a trust, Ald. Montgomery, chairman of the board, and Joseph Stratford indulged in personalities. Doors in the hospital had to be closed to prevent patients being disturbed. The resolution carried.

handed means to forward his suit. When Miss Allen entered the room Vernoy lost no time in explaining how some designing villain had imposed upon her innocent love of poetry and romance.

"But how do you know that the person who sent me those lines did not write them?" she asked, with a peculiar look.

"Know!" snorted Vernoy—it was a refined, poetic kind of a snort—"because I wrote them myself."

"Jim," said Gertrude, when Eteher called that evening, "Mr. Vernoy says he wrote that verse you sent me and sold it to you. Is that true?"

Jim Eteher turned fiery red. "Gertrude," he said, "I thought I'd be willing to do anything to get you, even tell a lie; but when you look at me like that it's no use trying. I can't. Yes, Vernoy wrote that poetry. Is it really so beautiful?"

Gertrude moved a step closer before she replied:

"Jim, it's the sickliest mock-sentiment I ever read. If you had written it I'd never marry you if you were the last man on earth."

You can guess the Q. E. D.

FOUND LOVER DEAD.

A Toronto Girl Goes to Wisconsin to Wed.

Sheboygan, Wis., July 14.—After a long journey from Toronto, Ontario, Miss Maggie Bloomer has arrived in Sheboygan only to find her intended husband, Harry Cleveland, dead. The wedding was to have taken place on Wednesday. Mr. Cleveland had made all necessary arrangements for his wedding, had secured a house, and was selecting furniture. He was about 33 years of age, had been previously married, and had come from Toronto about a year and a half ago. He was employed to do special work at the Bridger State Tanning Company plant, but had not been working since Memorial Day.

MORE TERRI ORY.

Britain Is Given 15,000 Square Miles by Siam.

Washington, July 14.—The State Department to-day made public the substance of the Anglo-Siam treaty, which was recently signed by representatives of the two Governments at Bangkok and has been ratified by both countries. By the terms of the convention Great Britain agreed to give to Siam partial release from extra territoriality on condition that Siam give certain guarantees for British subjects and right of property and travel. As a business transaction Siam has given over to Great Britain some 15,000 square miles of territory.

WANTED TO TALK.

Edmonton, July 14.—Declaring that he had killed Deputy Warden Stedman, of Alberta Penitentiary, formerly of Toronto, in self-defence, Gary R. Barrett was hanged this morning. Death was due to strangulation and not a broken neck. His son, who was not permitted to be present at the execution, was given the body which will be taken to Butte, Montana. The condemned man showed the utmost unconcern, save that he objected to the oration he wished to deliver being cut short.

WARM TEASPOONFUL.

Put in a heaping teaspoonful of "Salada" Tea for every two cups. Pour on freshly boiled water and allow to infuse for 6 to 8 minutes. Pour the liquor off the leaves and let cool. "Salada" Tea is a most delicious and refreshing beverage. A small piece of lemon will add to its flavor.

CALGARY'S CHIEF OF POLICE.

Calgary's Chief of Police has been ordered to resign, and an investigation to the conduct of the force is probable.

RISE IN WHEAT.

Sensational Advance of Seven Cents in Price of July Cereal.

Cause of Excitement Abundance of Rains and Delay in Harvest.

Chicago, July 14.—A sensational rise of seven cents in the price of July wheat was recorded to-day on the Board of Trade, jumping from \$1.20, the closing price yesterday, to \$1.27 on late trades. Much excitement prevailed while the boost was going on, in spite of desperate efforts of some bull leaders to check the remarkable buying. Brokers thought the shorts bought only about 500,000 bushels on the late advance. Traders could not recall that there had been so big a price movement in the cereal on any single day since the famous Letter deal. The cause of the excitement, which eclipsed anything during the recent deal in May wheat engineered by James A. Patten, was a continuation of rains in the southwest, in consequence of which harvesting in many sections is delayed and the movement of new wheat held back. Leaving exporters and shippers who had sold wheat for delivery this month are unable to fill their contracts, it is said, and consequently were forced to go into the pit to-day and cover short sales at prices which spell heavy losses.

FARM LABOR.

Serious Shortage Confronts Yeomen in Ontario.

Toronto, July 15.—A serious shortage in farm labor confronts the agriculturists of Ontario, according to Mr. Donald Sutherland, Provincial Director of Colonization. The scarcity is felt particularly in the western portions of the Province.

While the crops already sown can be well taken care of the scarcity of labor has had the effect of materially reducing the acreage under cultivation. In some counties, the reports show, this reduction is as much as fifty per cent. The statistics received show further that there are 188,000 acres less under wheat than there were last year, while as a result of shorter crops over 300,000 less hogs are being raised.

Since 1885 to 1905—the last year figures are obtainable—there has been a decrease in the rural population of Ontario, not including northern Ontario, or villages and towns, of 114,991, while the increase in towns and villages for the same period has been 587,008.

OLD FOLKS' COUGHS.

Tells of a Sure Cure and a Never Failing Comfort For Colds, Coughs, Catarrh.

Mrs. W. E. Walford, wife of a well-known grocer in East Sheffield, writes: "For three years I suffered with a hard, racking cough and bronchial irritation, which annoyed me so much at night that I couldn't sleep. I tried many remedies, catarrh tablets, sprays, syrups, etc., but they only helped for a short time. Catarrhoxone brought me a wonderful comfort from the first. I inhaled its balsamic fumes every hour or two, and an new fire from any trace of cold, bronchitis or Catarrh. I can go out in all kinds of weather and don't take cold."

There is no remedy so certain and safe as Catarrhoxone, but being a good substitute, Large Catarrhoxone lasts two months, price \$1.00. Smaller size 50c. At reliable dealers or The Catarrhoxone Company, Kingston, Ontario.

Joseph McClung Tells of the Semi-Ready "Lonely" Sale

I have decided to clear out every Summer Suit in a week's time --and every suit is genuine "Semi-Ready," bearing the label which you all know. It is my purpose to effect the clearing by the concise argument of making the price so tempting that you will buy now for future needs.

To-morrow I Will Offer:

\$8 for 50 Semi-Ready Suits that were \$15--but which if kept until next month, will have been a year in the store. This is an unpardonable fault in any Semi-Ready store, as all our clothes must be sold while they are seasonable and stylish in pattern and fabric.

\$10 for 60 suits in "A" type, for men of smaller stature, and for boys budding into manhood. Sizes 34 up. Some of these are fine blues and black Serges. Others in imported British Tweeds, worth from \$15 to \$18 and \$20 regularly.

\$10 for a choice of 150 Semi-Ready Summer Suits, including all the two-piece suits I have left. All single-breasted styles in Worsted and Tweeds, and sizes and types to fit every man. Not one of these ever sold for less than \$15. You can see the label; even though it must come out before the suit leaves the store at a cut price.

\$10 for 36 suits in "F" and "G" types, the physique types for large and stout men. These are a fine lot of blue and black Serges, and some cultured tweed patterns and pure Worsted.

Again let me emphasize the welcome to this store to those who come "Just to look." You can always take away some knowledge of style and good dress even though you may not want to buy at the time. Come, anyway, and feel right at home.

E. P. WESTON IS A WONDER. Walks Across Continent at the Age of 71. New York, July 15.—Although taking 105 days and some hours for his walk from the Atlantic to the Pacific coast, five days more than he had allotted for the transcontinental trip, Edward Weston's long walk from this city to San Francisco, which he finished last night, ranks as one of the most notable pedestrian feats ever accomplished. It is the first time that a bona fide walk has been made across the American continent from the post office at St. Louis on March 15th. Weston laid so much stress on this fact that he walked over railroad bridges in the far west, instead of resorting to the ferries, and declared that after arriving at Oakland he would walk an additional five miles to equal the distance across the bay into San Francisco, as he found it necessary there to resort to the boat to reach his desired haven. It had always been Weston's ambition to make a walk across the American continent, and the fact that he has succeeded in his 71st year is a fitting culmination to the long career of the post office triangler, which the name of Weston is indelibly associated.

A MATTER OF SCORING. Sporting Editor Times, City: Sir,—To decide a bet please give answer to the following: With two men out and nobody on the bases the batter makes a clean hit between first and second bases, to the outfield. The fielder lets the grounder get away from him, but recovers in time to throw the runner out at third. Is this an error or an assist for the fielder? Right Fielder.

Gossip and Comment

Some suspicious persons in an... paper asks if Jeffries is stalling. Can you run a close second to that?

The Buffalo Times complains that the price of pork chops has gone up and intimates that it is the demand caused by the Fort Erie bookmakers.

Open confession is good for the soul: It is only when the point is thick and we'd make it thicker still!

Toronto World: Jeff would up his Toronto engagement last night before another big crowd, and before leaving on the late train the party had a little celebration, which may have been exuberant, but hardly in keeping with the beginning of a careful training for a world's championship battle.

Pittsburg Gazette: The writer has, on five or six occasions, hit the keys of his trusty typewriter to make it plain that he did not think James J. Jeffries was sincere in his statements that just as soon as he had finished his theatrical engagements he would sign articles to meet Jack Johnson for championship honors.

With all consideration for Jeffries' most recent vicarious declaration about his real attitude towards Johnson our remarks remain in full force and effect. He was not misquoted at Montreal, in a moment of abstraction he allowed a bit of the real truth to escape him.

A soloing quizzist who had not been very successful at Fort Erie yesterday was wading through the programme last night, and said, as he turned over the mania leaves: "You see, I was introduced after the first race to a CANNIE MAID, but she got OUT OF STEP right away, probably on account of the close proximity of the SAUCE, so I offered the second race I went to see SIR EDWARD about it and then had a bottle of PAUL RICINART, along with TOM HOLLAND and the CLOISTERESS, who told me she was afraid she might be caught POSING, but she was assured that there was nothing to APOLOGIZE for. After a period of brief conversation in came ALICE, a bit late, and she told her that in order to make a CENTRE SHOT she should be dressed in ALL RED on a DARK NIGHT, an observation to which ALICE took violent exception, giving her GOLD TROUSER a saucy toss and uttering a MALDICITION which was not "GREAT HEAVENS!"

"It was about this time that the SPANISH PRINCE came in, saying that it was better to be third than to be THANKFUL, or to be ALTIMAN KING, so there was a GREAT JUBILEE, in which FLORA RILEY sang and showed some of her real POINT LACE to LAWYER MILLER, BILLY PULLMAN and a few others who had joined the group, and all expressed their ADORATION of Flora's performance and declared that she was a BONNIE BARD."—Buffalo News.

Yesterday's Scores in the Big Leagues.

Niagara-on-the-Lake, July 15.—Two Toronto rinks were defeated in the semi-finals in the trophy competition in the Ontario Bowling Association's tournament at the Queen's Royal here yesterday. F. Tremblay's rink of the Caer-Howell went down before W. D. Euler, of Berlin, losing the game in the last end. At the beginning of the last end the Caer-Howell quartet were four up. Mr. Euler and his colleagues played five close to the jack, and although Mr. Tremblay had the last bowl he did not succeed in getting his bowl in close enough. A running shot might have trailed the kittle and changed the appearance of the end, but Mr. Tremblay tried to try a draw. J. R. Cole's rink from the Granite Club was defeated by W. R. Turnbull's rink from Brantford. This latter rink has been playing exceptionally good games, and is a strong favorite for the finals, which will be played to-day. The rinks of Dr. Edgar and C. S. Walker, of Hamilton, are still in the running. A large number have entered, and the games will without doubt be contests well worth seeing.

BASEBALL PARSON TELLS PROFESSIONAL SECRETS.

Boston, July 13.—Baseball ethics and the way to fill a church were strangely mixed in a little conversation that I had with the Rev. William Bustard, but the very interesting personality of Boston's athletic pastor, as he has frequently been called, made the mixture a pleasant one.

When I asked in regard to his first game, the gray eyes lit up with college boy enthusiasm, and he began to reel off a lot of baseball terms while I reached frantically for a pencil and tried to take them down.

Seeing my ignorance he descended to the use of plain English, and, slowly translating himself, told me how he was put on in a big game against the Boston National League team, and how, when he went on the score was 6-1, and how they had two strikes on him (I think that's right, maybe it was more), how some very great man whose name I didn't get was pitching; how he hit the ball so that it went away over the field and hit a church and bounded back into the field, but before the man who was supposed to catch it had gotten it, the three men who were on bases at the beginning of the play had gotten in, and he was on third base, and the score had suddenly become 6-4 instead of 6-1, all of which I don't understand, but he said he must get it since I took it down for word, and I know it must be nice since he looked so pleased when he was telling it.

Naturally I at once asked him about what he was going to do in Cleveland and he told me something of what his work there would be. He is to do a huge social work as well as ministerial. He is to have one assistant pastor, a stenographer, a parish helper and two missionaries. Connected with the Rockefeller Church there are two small missions in the slums of Cleveland, so that the ministry of the Euclid Avenue Church almost means the ministry of three churches.

"It is by no means such a rich church as it used to be," said Dr.

BASEBALL PARSON TELLS PROFESSIONAL SECRETS.

Bustard when I asked about the financial side of the arrangements. He used to be about fourteen millionaires in it. Now I don't think there are more than two or three. The people are very generous in their allowance for current expenses, however, as I am told that they raise year each between \$30,000 and \$40,000 for that alone.

When I asked him just why they chose him for the pulpit, Dr. Bustard did not assume any false modesty, but explained that he thought it was because they wanted a man to do somewhat the same sort of work there that he was doing in the Dudley Street Baptist Church here; that is, bringing in a congregation that was not merely local. He told a little incident to illustrate the reason why he thought he was doing that here.

"A friend of mine," he said, "came to me after the service and told me that he himself had come twenty-two miles to hear me, that he heard two women in back of him arise and ask the usher to let them out as they lived fifteen miles away and must go to get a train, and that he got talking with the man in front of him and found that he had come twelve miles."

When I asked Dr. Bustard what his rule was for getting people to come in this way, he said he had no rule, but a dozen.

Here are some of them as he subsequently related them:

Preach a series of sermons—for instance, a series on the home entitled "That Boy of Yours," "That Wife of Yours," "That Husband of Yours," etc.

Preach short sermons. "Mine average twenty-eight minutes. Considering the little time that people give to anything nowadays, I think minor, the latters will do well to give just as much truth, but condense it."

"Light up your sermons with humor. "Choose topics that will catch people's eyes. "Make the service different every week so that people shall have no chance to be bored."

WEEKLY MEETS START.

Good Card at Britannia Park Last Night.

Handicap Beat Kerr at Edinborough.

Lady Baxter Second at Port Huron.

The first of the series of weekly athletic games under the auspices of the Y.M.C.A. was held at Britannia Park last night. The attendance was fair and considering that it was the opening meet the committee was perfectly satisfied with the attendance. Seven events, including foot races, bicycle races, and high jumping were run off in good time. The events were all handicaps and the time made was good, especially the time of 10.4-5, from scratch, for the men's 100 yards dash, which is distinctly creditable for a green sprinter. The winner, Harry Fraser, finished first in all his previous heats, and won the final handsly.

In the men's two mile race R. Richards, the only scratch man, ran a good race, passing some of the handicap men who were given nearly a lap start on him. When the stretch was reached he ran into third place, but was unable to overhaul the two men ahead of him. The bicyclists gave a fine exhibition of speed and furnished more excitement than any other event on the card. The one mile race was won by N. Garrod, who was given a handicap of a sixteenth of a mile and held it throughout the race.

In the two mile event T. Sherier rode an exciting race. He struck a fast clip from the beginning and kept it up until he crossed the tape a winner. The running high jump was captured by J. Bainbridge, who cleared the horizontal bar at 5 feet 2 inches.

The summary of the games was: 100 yards dash, boys—L. McKinnon, 1; E. B. Hyslop, 2. Time—11 flat. 100 yards dash, men—H. Fraser, 1; E. P. Farrell, 2. Time—10.4-5.

Running high jump—J. E. Bainbridge, 1; H. Fraser, 2. Height—5 feet 2 inches. One mile run, boys—A. Argent, 1; H. McCulloch, 2. Time—4.44. Winner had 30 seconds handicap.

HANDICAP BEAT KERR. On July 15.—Bobby Kerr, the Canadian sprinter, was in fair form at the Edinborough games, but the handicaps were too much for him. Conceding four yards he was third in the hundred in 10.1-5, and conceding 20 yards, he ran unplaced in the 220 yards. Time 22.4-5.

LADY BAXTER SECOND. Port Huron, Mich., July 15. Sensational racing by Matt Allie and Lady Baxter in the first event featured yesterday's races. Matt Allie was the favorite at 5 to 10, but Lady Baxter, from Hamilton, copped the first two heats of the 2.15 pace. In the next three heats, however, the Potomac mare managed to take first, winning two of them by a nose. Ira Gay took three straight heats, a Stratford mare, took second money. Miss Felix, a Potomac mare, took both heats of the 5.8 mile running race. Summary:

WEEKLY MEETS START.

Good Card at Britannia Park Last Night.

Handicap Beat Kerr at Edinborough.

Lady Baxter Second at Port Huron.

The first of the series of weekly athletic games under the auspices of the Y.M.C.A. was held at Britannia Park last night. The attendance was fair and considering that it was the opening meet the committee was perfectly satisfied with the attendance. Seven events, including foot races, bicycle races, and high jumping were run off in good time. The events were all handicaps and the time made was good, especially the time of 10.4-5, from scratch, for the men's 100 yards dash, which is distinctly creditable for a green sprinter. The winner, Harry Fraser, finished first in all his previous heats, and won the final handsly.

In the men's two mile race R. Richards, the only scratch man, ran a good race, passing some of the handicap men who were given nearly a lap start on him. When the stretch was reached he ran into third place, but was unable to overhaul the two men ahead of him. The bicyclists gave a fine exhibition of speed and furnished more excitement than any other event on the card. The one mile race was won by N. Garrod, who was given a handicap of a sixteenth of a mile and held it throughout the race.

In the two mile event T. Sherier rode an exciting race. He struck a fast clip from the beginning and kept it up until he crossed the tape a winner. The running high jump was captured by J. Bainbridge, who cleared the horizontal bar at 5 feet 2 inches.

The summary of the games was: 100 yards dash, boys—L. McKinnon, 1; E. B. Hyslop, 2. Time—11 flat. 100 yards dash, men—H. Fraser, 1; E. P. Farrell, 2. Time—10.4-5.

SCRAPS OF SPORT

Calgary, July 15.—New Westminster has refused the local club dates for games for the Minto Cup, pending a decision from Ottawa as to the appointment of a western trustee, upon which they are insisting. Premier McBride is their choice for this official.

Lowell, Mass., July 15.—Joe Thomas, the Californian, who until recently was considered a championship ring calibre, is to doff the gloves for good. It's the old story. The girl is Miss Jennie Gardner, sister of Jimmy Gardner. Thomas is here today, and freely admits that his chances of appearing again in the ring are small. "Miss Gardner wishes it," he says, "and what she says goes."

Chicago, July 15.—It is announced that Zbyco, the Galician wrestler, has been secured to appear in this city and will start for America soon Zbyco was first mentioned as the opponent to be
