Italian Delegates Remain Firm Over Concessions Question

TERRITORIES MAY BE TAKEN BY FORCE BY THE ITALIANS

DELEGATES FIRM IN THEIR DEMANDS AND ITALY MAY DECIDE TO DISREGARD ANY DECISION OF THE PEACE CONFERENCE—MEETING REACHES AN ACUTE STAGE AND A DECISION EITHER WAY IS DANGEROUS.

Paris, April 21.—The Italian issue over the Adriatic has reached an acute stage, where a decision one way or the other, cannot longer be deferred, and a decision either way is fraught with serious consequences.

Despite the Easter calm, which brought vast crowds to the churches and boulevards, the council of four continued its sessions at the White House beginning at 10 o'clock this morning. The Italian Premier, Vittorio Orlando, and the Italian foreign minister, Baron Sonnino, were present, and made it known that the opening of the Italian parliament on Wednesday has necessitated their leaving Paris on Monday with definite knowledge of what is going to be done.

Baron Sonnino continued to occupy the extreme position, insisting upon the integral fulfillment of the secret treaty of London, giving to Italy the entire Dalmatian coast and islands and also claiming the city of Fiume without internationalization or division with the Jugo-Slavs.

HAWKER NEVER DID ANY WAR TIME FLYING

R. A. F. Officer States Both Airmen Preparing to Fly Atlantic Are Slackers

The following letter which is reproduced, appeared in the Toronto Star Weekly, and is of general interest owing to the proposed trans-Atlantic flight which Canadians are personally interested in, as the start is to be made from this side of the ocean:

Editor of the Star Weekly:
Sir—In view of the publicity which the press is according to the attempted trans-Atlantic flight and the credit being gained by the contesting pilots for their intrepidity in making the attempt, the following facts may be of interest to your readers:

When the war broke out in 1914 the R. F. C. was a very small unit, and there was a great dearth of pilots at the front. Every man who could fly a machine was urgently needed in France and every British airman with a spark of patriotism and self-respect hastened to join the R. F. C. Among British civilian pilots at that time the most prominent were Hucks, Hawker, Raynham, Birchenough, Gordon-Bell, the two brothers, De Havilland, Graham White, Porte, Gooden, Lillywhite, Turner and Rhodes-Moorhouse. Of these all, with the exception of Hawker, Raynham and Birchenough, joined the R. F. C. or R. N. A. S. and flew at the front. Hucks, Gordon-Bell, Gooden, Lillywhite and Moorhouse, the latter a young married man with a family and very considerable private means, are all dead; Rhodes-Moorhouse being the first airman to receive the Victoria Cross for the very great gallantry he displayed carrying out successfully a bomb raid when desperately wounded, as a result of which wounds he died a few hours after landing.

As the war went on the demand for pilots continued to increase out of proportion to the supply, but despite this fact, Hawker and Raynham stuck to highly paid, safe jobs as civilian testers of machines, work which could have been done as well and even better by men worn out with flying at the front, who knew from actual experience the requirements of war machines; and when conscription came in they, in conjunction with Birchenough, obtained exemption on the grounds of indisposition, despite the fact that by then there were hundreds of war pilots due for a home job who

could have done the same work for the country and merely in course of their duty. But \$50 for each machine tested, combined with the safety of such employment, was more than these heroes were prepared to sacrifice.

There are hundreds of pilots who have done a man's war time flying at the front during this war who would have jumped at the chance of piloting a machine in the trans-Atlantic flight, but they have not been given a chance.

The memory of the public is short, and if Hawker and Raynham succeed in their efforts they will be acclaimed as heroes ranking with the most famous of those produced by the war, and the fact that they have consistently shirked taking any risk from the day the war started and confined their energies to making money when real men were risking their lives, will no doubt be entirely lost sight of. As I am not yet demobilized, I am not at liberty to sign my name, but I enclose my card.

AN R. A. F. OFFICER.

LARGE NUMBER OF BLUE BLOODS HAVE LOST OUT

Germany has Fired 278 Royal Persons Since the Commencement of the World War.

Berlin, April 21.—A German professor figures out that the abdications and dethronements in Germany includes 278 persons. Bavaria leads with one King, one Queen, fifteen Princes, sixteen Princesses, five Dukes and one Duchess.

Prussia has sent 33 royalists into exile, including the Emperor, Emperor, twenty Princes and eleven Princesses.

Brunswick is at the bottom of the list, with only the dual couple and their three children. The two tiny principalities of Reuss, whose area is hardly one-third hundredth part of that of Prussia, have exiled 38 royalists.

The principality of Lippe, only about twenty square miles larger than the Reuss, states had a royal family numbering 24 persons. Most extraordinary in the case of Schumburg-Lippe with its area of 130 square miles, where there was nearly one royal personage for every five square miles. These included the reigning Prince, seventeen Princes and seven Princesses.

Vienna Ministers do a "Bunk" When Shooting Started at Parliament Buildings.

Copenhagen, April 21.—Five policemen were killed and forty wounded, and twenty soldiers and workmen were wounded, in a clash before the Parliament building in Vienna Thursday, according to a dispatch from that city Saturday.

Wounded soldiers and unemployed attempted to interview the ministers, who refused to see them. The delegation began firing and stormed the building.

STORMS DELAY START OF THE AIR FLIGHT

Aviators Prevented From Making Their Hop-off on Trans-Atlantic Trip—Crowds Watch Inspection of Machines.

Saint John's N.F., April 21.—Although local weather conditions were favorable, two storms were reported yesterday working westward from mid-Atlantic, and for this reason neither Harry G. Hawker, Australian airman, nor Captain Frederick P. Raynham, Britisher, hopped off yesterday as they expected in competition for the \$50,000 prize offered by the first successful trans-Atlantic flight.

Both Hawker and Raynham spent the day preparing to take the air. Hawker devoted himself to testing wind conditions by setting free pilot balloons from the airframe on Mount Pearl plateau and studying the course as the off-shore winds carried them out to sea. Raynham put in hours in his hangar at Quildivid working on his plane.

Raynham's Martinsyde later was trundled out for inspection of the motor, supplemental water tank and radiator. Satisfactory results were reported at the end of the tests, especially that on the radiator, which Saturday was repaired. Hawker seemed in a jovial mood all day, although he said conditions at sea were the worst since he came here nearly a month ago.

The largest crowds, which yet have watched preparations for the flight, turned out yesterday as the ideal weather locally had led many to expect the start of the trans-Atlantic race before nightfall.

Drift ice loomed up on the horizon yesterday morning, and a great iceberg was reported swinging close inshore off Cuckholds cove.

SEBASTOPOL EVACUATED

Crimian Government Withdraws and City is Now in the Hands of the Revolutionary Committee.

London, April 20.—Sebastopol has been evacuated by the Crimean government, which is proceeding to Constantinople. The government of Sebastopol is now in the hands of the revolutionary committee.

This announcement is made in a Russian wireless dispatch, which adds that after negotiations with the Allied Command, an agreement was reached for an eight days' armistice, expiring on April, 25th.

London, April 20.—The first Bolshevik army operating along the region of Homel, along the Pripiet river, has surrendered to the Ukrainians, according to a statement issued by the Ukrainian press bureau and forwarded from Vienna to the Central News. Up to the time that the report was forwarded, 20,000 rifles, 35 guns and 200 machine guns had been handed over to the Ukrainians.

Three young men of this city came near meeting a watery grave off the 16 mile creek on Saturday. Reports are to the effect that they shot at and wounded a loon in the lake, and in going after him in a canoe they upset, and were compelled to cling to the craft in the cold water for about two hours until rescued.

TWENTY-THREE MEN NOW OWN ALL CANADA

Mr. Mellicia Tells Workers Educational League That He Believes This to be True—Gives Interesting Address on Labor Unrest.

There was a crowded house at the open forum of the Workers Educational League held in the Griffin Family Theatre last evening to hear Mr. F. Mellicia give an address on the subject of "Labor Unrest, its Cause and Cure," and they were well rewarded, for the address was most interesting from start to finish.

Mr. Mellicia who is a forceful speaker traced the history of labor unrest from the early days up to the present time.

At the commencement of his address, the speaker pointed out that the social unrest which exists to-day is the result of the working class the world over—and is only different from the unrest of other days in so far as it is more general.

Steadily Growing
This unrest has been brought about in many ways and is steadily growing and something must be done to ease it. The speaker told of letters from Mr. Lindsay Crawford, editor of the Statesman who had been cautioned by the government that he must bury all stories of strikes away in inconspicuous places in his paper.

This was a sample of the censorship of the press that exists in Canada or did exist a short time ago.

Continuing Mr. Mellicia read an editorial from the Toronto Globe of last June on the subject of political education and stated that the educational institutions teaching this subject do not tell the truth. He then cautioned his audience to be careful what they read and not to accept anything until they had analyzed it from start to finish. For the people (Continued on page 5)

THIRSTY MEN NOW TURN TO JUAREZ CITY

Mexican Metropolis Has Become the Oasis in the Great American Prohibition Desert.

El Paso, Tex., April 21.—Juarez, the Mexican metropolis of border towns, has become the oasis in the great American prohibition desert.

On Calle Comercio, the number of saloons has increased since the operation of the Texas ten-mile military zone law until every other door opens into a barroom. Barrels of American made whiskey and wine are offered to persons permitted to cross the border under prevailing passport regulations.

Many of the old-time El Paso saloon-keepers, who were familiar figures at amous and notorious places here, have donned white aprons in Juarez. Bars have been set up in Juarez, slot machines have been installed, and except for the preponderance of Mexican drinkers, a visitor might think he was in an El Paso bar of former years.

Bootlegging, the handmaiden of the border saloon, is becoming an important industry. American authorities have discovered that Mexican servants, wash women and street laborers, who cross to El Paso each morning carrying contraband liquor in quantities and are making far more money, through its disposal than they are from their labors.

The prosperous Mexican saloon-keepers say that a return to normal passport regulations will make Juarez the mecca of sporting men from the United States.

Mr. Robert Ransom, a highly respected employee in the Shirley Saw Works passed away on Sunday after a short illness. A widow and two sons survive him. The remains will be taken to Blenheim, Ont., for interment at 8.15 a.m. on Tuesday.

MANY MURDERS

Serious Crime Wave Sweeping Over City of Chicago.

Chicago, April 21.—Forty-eight hours of extreme violence caused Chief of Police Garry to summon all commanding officers to his office and warn them that unless there were unremitting efforts to check the crime wave, some of them would face the trial board. Up to 1-day records of the Chief's office showed that since January 1, there had been 43 murders in the city, 29 deaths from manslaughter and eight homicides, a total of eighty killings in 108 days. In addition, 202 stores had been robbed, 94 saloons held up and looted, and three ticket sellers in elevated railway stations forced to surrender their cash. Three major causes were given by the Chief for the reign of lawlessness: Discharge of criminals from the army; unemployment; too few policemen.

SUCIDAL TO GIVE IRELAND SAME STATUS

Emerald Isle Lies Too Close to Britain to Have Possession of Independent Naval and Military Forces.

London, April 21.—The Daily Telegraph says regarding what it styles as the "unfortunate declaration in the press by Sir Horace Plunkett that nothing less than the status of the self-governing Dominions must be conferred on Ireland," that there is no comparison between the position of Ireland, with her close geographic proximity to Britain, and the position of the self-governing Dominions.

The latter, the Telegraph points out, are practically independent and united to the Empire by the pure bond of sentiment. The possession of independent military and naval forces is the most distinctive feature in Dominion status.

To contemplate that in the case of Ireland would be to contemplate suicide. The advocates of Dominion status for Ireland have never faced this aspect of their scheme, but it is a vital aspect. What they propose is in effect complete independence, nothing less.

CHICAGO TO NEW YORK WITHOUT A STOP

Mineola, N. Y., April 20.—Flying at an average speed of 106.36 miles an hour for six hours and fifty minutes, Captain E. F. White, an army aviator, completed the first non-stop flight between Chicago and New York at 5.40 o'clock Saturday afternoon landing at Hazelhurst field.

The distance covered was 727 miles. Most of the night Captain White said was made at an altitude of 12,000 feet.

SOLDIERS HAVE TAKEN OVER VIENNA AND QUIET PREVAILS

REPRESENTATIVE OF THE ALLIES ISSUES PROCLAMATION DECLARING THAT IF THERE ARE FURTHER DISTURBANCES THE FOOD SUPPLY WILL BE CUT OFF—NO TROUBLE IS FEARED.

Vienna, April 21.—Control of Vienna has been taken over by the Soldiers' Council. Quiet prevails, but communicating of the property of those unable to resist has been begun. It is possible there will be no change in the name of the Government, but it will be Bolshevik in purpose.

The situation is much the same as it was at Budapest a few hours after the Radicals had taken control. The policing of the city has been taken over by the Volkswehr. The Parliament Building was occupied this morning by two battalions of soldiers, after representatives of the Soldiers' Council had placed 5,000 men at the Government's disposal upon the understanding that the police would be dispersed.

Col. Cunningham, in the name of the allies, has issued a proclamation declaring that if there are further disturbances the food supply will be cut off. For that reason serious trouble is unlikely. While it is possible there will be no change in the name of the Government it will be none the less Bolshevik in purpose.

Dr. Karl Renner, the German-Austrian Chancellor, said to the correspondent to-day: "Vienna is safe from Bolshevism. The situation is well in hand, thanks to the reliable soldiers of the Volkswehr. The whole trouble was caused by an lot of unruly young men who interfered with the consultations of deputations of workmen and invalided soldiers at the Parliament Building. Several policemen were killed and many wounded, but the police controlled the trouble from the beginning. I am sure here is no danger to Vienna."

THOROLD

Mr. Craig Hamilton, of the Technical School, Toronto, formerly of the Exelon Company's Plant, spent the Easter holidays very pleasantly with old friends in town.

Mrs. Collard and sister, Mrs. George Matthew, are both quite ill at their home at Port Robinson. Mrs. Arthur Haines residing at the Town Line has left to attend their bed-sides.

Mr. Frada has opened up his grocery business on Albert Street in the stores vacated by Nicholas Mezzo. Under the new arrangement the place looks much larger, and Mr. Frada will also have the shop next, now used as a shoeshop by Mr. Florentina, removing the wall between. This will make a very commodious shop, though it be of unique shape, the front exceeding the depth.

The funeral of Mrs. M. Barnes, who died at Niagara Falls on Monday last was held at Thorold on Wednesday, the remains being interred in Lakeview Cemetery beside those of her husband, who predeceased her one year ago. She leaves two small children to survive the loss of an affectionate mother. Rev. Canon Piper officiated at the graveside.

Mr. Edward Realume, of Detroit, Michigan, spent the week end very pleasantly at the home of Mr. and Mrs. Whitaker, Front Street.

The services in the Methodist Church were largely attended on Sunday, Rev. R. S. E. Large occupying his pulpit both morning and evening. The music rendered by the choir and the direction of Mr. John Read, was exceptionally good, and very much enjoyed.

Mr. and Mrs. Daniel Sembell, Miss Hanselman and Mr. Charles Tefft, all of Detroit, Michigan, motored to Town and spent the holidays very pleasantly with Mr. and Mrs. Whitaker, Front Street.

A Whist Drive and Dance, also a benefit concert will be held on Wednesday evening, April 23rd, under the auspices of the Daughters of England in the Sons of England Hall, Front Street.

Rev. Canon Garrett, Rector of St. Mark's, Niagara-on-the-Lake, preached at both services in St. John's Church on Sunday. At the evening service he made touching reference to the death of Edward Charles Piper, son of Rev. Canon and Mrs. Piper, who passed away on Friday afternoon at Hamilton, and whose remains are to-day lying in state at the church waiting for the service which will be held this afternoon.

The Daughters of the Empire contemplate holding a card party and dance in the I. O. D. E. rooms, St. Paul Street, St. Catharines, on Tuesday evening, April 29th. Strong's ten piece orchestra will supply the music for dancing and no doubt a large number will attend to help this good cause along.

THE WEATHER

Toronto, April 21.—An important area of high pressure now covers the Great Lakes, while the Barometer is comparatively low near the Atlantic coast and west of the Mississippi. Showers have occurred since Saturday morning in parts of Manitoba and Ontario and generally in Quebec, elsewhere the weather has been fine.

banquet taken on the Engineer's Club steps by Ex-Mayor Brackbank, has now been finished, framed and is hanging on the wall of the newly building.

Miss Muriel Wood, of Toronto, is spending a few days very pleasantly at the home of her parents, Mr. and Mrs. Henry Wood, Pine Street.

A baptism service was held at the morning service in the Methodist Church, when the little daughter of Mr. and Mrs. George Slocum, Windle Village was baptized.

Private Neal, son of Mr. and Mrs. W. H. Neal, who was a prisoner of war in Germany, for a period of four months, and who was released one month after the armistice was signed, has arrived home, and is receiving a hearty welcome by his many friends.

Miss Etchel McMann is spending the day with friends in Toronto.

Mr. Peter Verulen, who has made his home in this country for the past fourteen years with Mr. and Mrs. George Ryckman, leaves in a very few days for his home in Antwerp, Belgium. During Br. Verulen's stay in town he has made a host of friends who will regret to hear of his departure.

Mr. Norval Bye and sister, Miss Laura Bye, are visiting relatives in Toronto.

Mr. Thomas Arnold, W. J. L. Arnold, who has been engaged as cutter for some time past at the Richings butcher shop, Front Street, has resigned, and will start a business of his own in the next few days, occupying the building on Clarendon Street next to the City Hotel. Mr. Arnold has many friends in town who wish him every success in his new undertaking.

Miss Eleanor Hodges, Welland Street, spent the Easter holidays very pleasantly with relatives in Buffalo, N. Y.

Miss Hattie Koepell left this morning to spend a few days in Buffalo, N. Y.

Mr. J. Smith, of Hamilton, who has recently returned from active service overseas, has arrived in town and accepted a position as cutter at the Hodge Butcher Shop, filling the position made vacant by Mr. Thomas Arnold. Mrs. Smith and family will arrive in town as soon as a house can be located by Mr. Smith.

Mr. Frank Moore, of Buffalo, N. Y., spent the Easter holidays the guest of his father, Mr. E. Moore, Vine Street.

THE SCHOOL QUESTION.

In view of the information which members of the Finance Committee of the City Council gave to the delegation from the Public School Board a couple of weeks ago, when the latter body waited on the former and asked for money with which to buy two new sites and build two new schools, the statement accredited Saturday by our contemporary to Mr. Byrne, chairman of the Board, is surely premature. According to The Standard, Mr. Byrne said:

"The Public School Board will build two schools this year. This was decided upon some time ago, and there is no reason why the program should not be carried out."

"The Western Hill citizens may rest contented. They will get a fine new eight-room school. The other will be built on Welland Avenue, at the foot of Queen street."

There is a distinct note of confidence and of positiveness in these words which may be reassuring to the citizens, and we regret we cannot share it with the chairman of the Public School Board, but the facts just now do not warrant us in doing so. Neither sites nor schools can be secured without money, some \$168,000 of it, and where it is coming from this year is not yet as clear as we might hope it would be, not only on behalf of the Board which is of course anxious to carry out much needed improvements, but on behalf of the ratepayers at large who have a right to know if such a sum can be safely voted. The School Board was told by the Finance Committee that if it were at all possible, consistent with good municipal finance, the whole of the money would be granted, but if the issuance of such an amount, as above, for debentures meant too close contact with the limit of our borrowing power, the Council might feel constrained to vote only enough for one new school and two sites. In the meantime the other charges that would come against the borrowing margin of the city would have to be determined, and until they are known, and they are not yet completely calculated, it is not easy to state what can be done. It is untimely, we think, for the School Board to say in print what positively it will do.

We are quite aware of the fact that if the Council does not vote the money asked for and the School Board decides to get it anyway, if possible, it may appeal to the people over the heads of the Mayor and aldermen through a by-law to the electorate. It is rare that such an expedient is adopted, or suggestion, unless an arbitrary and unreasonable course is taken by the Council, but even if this step were resorted to it does not follow that the by-law would be carried or the money secured. We question very much whether the people who elected the Council to administer their finances for the year would not continue to repose some confidence in that body so long as its arguments were for moderate and safe management.

Mr. Byrne may have in his conversation qualified in some way what appears bald in print, but taking his words as they are published, they are neither courteous to the Council nor judicious in their bearing. We look for a further explanation from the chairman of the School Board.

If the premises are taken that the Council does not want to meet the request of the Board, even though it were easy to do so, those premises are wrongly taken. There is little doubt that members of the Council are as desirous as those of the School Board to see new and adequate accommodation furnished for the boys and girls of this city whose education is vitally important, but no matter how pressing the need may be, we give the members of the Board credit for being sufficiently business-like to wait till they are given the absolute facts as to what can and cannot be done. It is the duty and the responsibility of the Council to consider all public matters in relation to the general good of the municipality, and to seek to retain some fair balance of expenditure between several needs, pressed with equal insistence and sincerity. This, we think, is what the Council is trying to do.

WHAT CONCERNS THE MASSES.

During the session of the Commons which is now adjourned for Easter, no little time was spent on the discussion of the question of titles. Like everything else, it is a matter on which much can be said, for and against, but in Canada, generally speaking, there is a strong sentiment amongst the masses in favor of plain men and plain names. Some of the greatest of men have never worn a title and would not accept one while some of the vainest and socially ambitious and at anything that puts them in the spot light more than their simple neighbors.

What we think is that most people are infinitely more concerned in how they are going to pay the grocer's bill, the rent and the tax account than they are who gets a "Sir" or a "Lady." If the time taken by our legislators had been given over to discussing how and why the cost of life's necessities should be lowered, doubtless the great mass of work-a-day men and women, who make the wheels of industry go around in this country, would have said "Hang the titles," we don't bother about them.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grand mother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out of date. Nowadays by asking at any drug store for a bottle of Wyeth's Sage and Sulphur Compound you will get this famous old preparation improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply damp on a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

MRS. DOOLEY'S ADVICE TO WORKING GIRLS

Milwaukee, Wis.—"I wish all girls who work and suffer from functional disorders would profit by my advice and take Lydia E. Pinkham's Vegetable Compound. Before I was married, when I came home from work at night, I would be just worn out with pains which dragged me down. I took Lydia E. Pinkham's Vegetable Compound and it made me feel like a new woman. I can work from morning until night and it does not bother me, and I wish all girls who suffer as I did would try Lydia E. Pinkham's Vegetable Compound."—Mrs. H. Dooley, 1135 26th Street, Milwaukee, Wis.

Working girls everywhere should profit by Mrs. Dooley's experience, and instead of dragging along from day to day with life a burden, give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. It has overcome just such conditions for thousands of others, and why not for you? For special advice, write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.

A CHANGE SINCE CHARLES' IPS DAYS.

A certain gentleman made the remark not long since that the only time he remembers of shedding tears was at the public funeral of a prominent statesman, when some twenty massed bands played certain of the old familiar hymns. The thrill and solemnity and pathos and grandeur of those strains were too much for him and tears streamed down his cheeks in this matter-of-fact business man. True it is that music has its place in the very presence of death. The funeral hymn has just as big a place in the heart of humanity, though in a different way, as the wedding song or the music incident to any other special occasion.

But this, it seems, was not always so. The Chaplain to King Charles the second of England, Jeremy Taylor, wrote in his day "God never rejoices in the death of him that dies; and we also esteem it indecent to have music at a funeral." It may be that the class of music that King Charles II. delighted in would have been indecent for funerals but times have changed. Today the funeral hymns are very often the favorites of and requested by the deceased. They are rendered in a manner becoming the carrying out of one of the last wishes of a departed friend. They comfort the mourners. They inspire right thoughts of the change we call death. They let in a little ray of sunshine through the gloom. This is only another instance of the peculiar and affective power of music in life.

HOW HE GOT IT.

A colored veteran just back from the other side, when questioned about an iron cross he was wearing, explained:

"Boss, it was a extra decoration. De Kaiser hisself sent it to me by a special messenger what dropt daid jus' befo' he give it to me."—New York Globe.

THE DRUG HABIT

The New York police have opened war on the illicit drug vendors and gathered in hundreds of drug addicts to writing evidence from them. The prevalence of the drug habit in the city is said to be a appalling. Similar stories come from London and other European centres of population. Says an exchange:

"Despit' free access of both sexes to the bars in the Motherland women have recently resorted to the use of methylated spirits. Many cases have arisen where women have gone to oil and paint shops with the plank that the spirit was intended for mixing paint. Seven times stronger than ordinary whiskey, and containing a number of ingredients considered sufficient to stop any desire to drink it the Liverpool licensing Justices assert that it's use as a beverage is increasing. It's effect has been shown as terrible, a frantic state while under it's

WHAT EXCHANGES SAY

NOT BOLD ENOUGH!

Brantford, Expositor.—The new Minister of Education for the Province has certainly disappointed public opinion in the provisions of his adolescent school age bill. We are to have part-time education for adolescents between the ages of 14 and 18, rather than the raising of the age of compulsory school attendance to 15 or 16 years. Half way measures are seldom satisfactory, and it is a pity Dr. Cody has not seen it in this matter to be "honest enough to be bold."

WHY NOT, INDEED?

Woodstock Sentinel-Review.—If we are to have protection as a national policy why not have protection all round? Why not have protection for the consumer as well as for the producer? The consumers constitute the great body of the people—they are in fact all the people. In a real democracy their interests would come first. What kind of a democracy is it where the interests of the consumers receive scarcely any consideration? If we are to have "Canada for the Canadians," why not Canadian butter for the Canadian people?

A FEW STRONG WORDS

Winnipeg Telegram.—The glaring incompetency of the Dominion Government's multiplicity of boards was never more glaring and never more incompetent than when it prohibited the shipment of Canadian grain that American grain might have the unrestricted use of Canadian shipping routes in the fall of 1918.

SPRING CLEANING.

Spring cleaning is more important to health than usual this year because of the mild winter, which permitted myriads of disease bearing insects and germs to survive. It was specially favorable to flies, which soon will make their appearance and will be followed shortly by little flies on a larger scale than ever. There is always an abundance of disease germs for the flies to carry from place to place, but this year the returning soldiers may bring in their clothing and baggage not only the old familiar germs, but many strangers from foreign lands with which we are not accustomed to deal. Now is the time to begin cleaning houses, buildings, streets, and lanes in order to destroy as many of the old flies as possible before they have a chance to breed, and also remove from the survivors temptation in the way of accumulated filth and rubbish.

MOTHER! DON'T TAKE CHANGES IF CHILD'S TONGUE IS COATED

If Cross, Feverish, Sick, Bilious, Clean Little Liver and Bowels.

A laxative to-day saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste. Liver gets sluggish, stomach sour.

Look at the tongue, Mother! If coated, or your child is restless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailments, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," which Ask your druggist for a bottle of ren of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

CANADA LEADS EMPIRE

London, April 20.—In an article on Imperial Preference and the solidarity of the Empire, F. Grattan Doyle, M. P., declares that Canada has led the way in this movement, with the mission which was recently sent to London, Canada, he says, is out to help.

HOW TO GET RID OF RHEUMATISM

"Fruit-a-lives" Point the Way to Quick Relief

"I suffered for a number of years with Rheumatism and severe Pains in my Side and Back, caused by strains and heavy lifting. When I had given up hope of ever being well again, a friend recommended 'Fruit-a-lives' to me and after using the first box I felt so much better that I continued to take them; and now I am enjoying the best of health, thanks to your wonderful fruit medicine."

W. M. LAMPSON,
 "Fruit-a-lives" are sold by all dealers at 50c. a box, 6 for \$2.50, trial size 25c.—or sent postpaid by Fruit-a-lives Limited, Ottawa.

BUTTER AND EGG OUTLOOK

After the Lenten season there will be less consumption of eggs in Canada, but the export demands are likely to hold prices fairly firm. Dealers say that order, for large quantities of eggs are available and that when the Lenten requirements are over the export trade will develop to such an extent that prices will "not be any lower for some time."

The exportation of eggs since March 12 amounted to approximately 9,000 cases up to the end of last week. These figures are expected to increase during the next month.

There is now practically no butter in Ontario storage, the dealers claim. Since the first of the year about 50,000 cases, 2,800,000 pounds of butter have been taken out of storage, leaving the reserve in an exhausted condition. According to the commission houses Ontario is

\$200,000 FOR HAMILTON.

Hamilton, April 20.—Through the efforts of Hon. S. C. Mewburn, Minister of Militia, the Government will spend \$200,000 on Hamilton harbor this year. This is the first expenditure in connection with the \$11,000,000 harbor program.

The Buffalo News says excursions to Niagara Falls will be resumed this year with 20 per cent. added to the old rates.

WANTS THE "Y" AT HOME

The future of the "Y" in the estimation of many of the soldiers is proven by many incidents. An officer declared that he had been to the Y.M.C.A. only once before the war; from now on he was a strong supporter. His first real touch of it came at Vimy Ridge.

In a Belgian town the other day a Canadian came to the "Y" officer and put into words the thing that is troubling many a soldier about to return to Canada.

"My country home," he said, "is as dead as this place. Why can't you come out and build a hut like this, with a Y. M. C. A. program and make life worth living for us? I don't believe I can stick it in that quiet place in old Canada again."

It is precisely such a program in the quiet places that is the ambition the hope of the Y.M.C.A. in its coming campaign for funds. If a million dollars will make these places "worth living in" it is the best investment Canada ever made.

Unexaggerated Fishing

YOU should read this story. I really am fishing tale is deep waters for most people to wade through; but this one deals with dry land, mountains and ripples. So you see it is different from the ordinary tale where the young hero goes forth with a tencent outfit and catches the giant trout of the deep still pool for whom anglers from all parts of the world had cast in profane vain. It is all right to tell about lying on one's stomach with the face against the water, watching the flies to learn what kind the trout were eating. It is all right to chop walk to the fishery, sit down and bring forth an inexhaustible supply of flies from which one selects the very duplicate of the insect the trout like at that particular instant. And it is fine to tell how the angler cast his delicate lure on the end of his stiffer thread, dropping it lightly as a skimming insect on the very swirl of water where the big trout lay hungrily waiting. Then Zant! The fish was so astonished that he did not wiggle an inch of his twelve-pound body until he felt himself on the grass above the gravel bar. But those days were over and one did not catch any more big fish. Eventually I reached Banff, and was told to fish either up the Spray or up the Bow. They added that the waters were rising and fish would not be hungry, but again I might succeed. With weapons rigged I went up the Bow to a promising place I was told about. It had deep water with big eddies and a nice back-drift, a few big rocks, and a submerged ledge just below the feeding rapids above the pool. Fine. Feverishly and eagerly I cast. Then steadily and doggedly. Then slowly and sulkily. Then, glory! The line went out. I had a fine inch fish. Much cheered I went on casting. The sun went down, the sky began to darken, the mountains stood black against the dimming azure. I flagged in my efforts. I sat on a log and let the line drag. B-z-z-z-z the reel. A fish flashed in the rapids.

Having a new landing net I was very anxious to try it. It was the kind that fastens to a hook on a belt and comes off with the flick of a hand whenever necessary. I had no hook and had buttoned it on my suspender button. Having passed through much brush on my way to the pool I knew the net was going to require care in getting ready for use. Having hooked a fish I very calmly brought myself self first of how to land him; so I plucked the net, and the button came, to the consternation of my suspenders.

Now my fish gave the one-pound pull and the net went bite all right. He also was there with the scheduled weight of mush. Things looked good for him to keep up the first scale, too.

But my informant, being more canny and wise than other fishermen of his day, befuddled the giant trout by not using gut. He took up hunk of the steel wire, jointed it with awls and hooked the monster. Then Zant! The fish was so astonished that he did not wiggle an inch of his twelve-pound body until he felt himself on the grass above the gravel bar. But those days were over and one did not catch any more big fish. Eventually I reached Banff, and was told to fish either up the Spray or up the Bow. But when it came to the five-pound band—the gut broke and I went home to the hotel.

Next morning with the bright sun of light just tipping the eastern slopes of the train, and like an express train I went alone up river. Here and there and everywhere I dropped the seductive fly in the rising glacial flood with no results.

"Damn," I remarked. My line fell slack and uncarved for into swift water and I looked up the river for some better seeming point. "Gosh! Something hit my rod like an express train, and like an express train the silk ran out and out. Agh! I should and merely checked. Something was on. Out went the line, straight across the swift water; then I saw a large black streak break far out in the edge of white water. THE WEEK IN THE LEGISLATURE

(Special To The Journal.)
The House commenced the past week with a firm determination to get through by Thursday evening and astonishing progress was made when once that determination was arrived at. A night session was held in addition to the usual afternoon session every day of the week, and to further ensure the conclusion of business before Easter, a morning session was arranged for Wednesday.

Early in the week several important bills were introduced. One matter upon which great interest turns is the proposal of the Attorney General to alter the present election law so as to abolish nomination day and election day. The Liberal Opposition have opposed the long interim from the outset, and have been agitating for a change back to the old system; not only in connection with the time between nomination day and polling day but also so far as the method of making up the voters' lists is concerned. Liberals desire to do away with the unsatisfactory system of enumerators. It transpires that the sum of \$5,560,000 was paid to enumerators in the N. E. Toronto by-election and \$3,383.11 in connection with the E. York by-election.

Another interesting bill which elicited somewhat ironic congratulations from the Liberal side of the House was one introduced by the Prime Minister to provide for a Ministry of Labor. This has been a Liberal policy for some years and has been fought out upon the floor of the House on several occasions, the Government always declining to put it into effect. A couple of years ago the Government compromised by appointing a Superintendent of Labor in charge of a Trades and Labor Branch of the Department of Public Works. Early in the present session they brought in a bill to make the Superintendent a Deputy Minister. The Liberals criticized this and urged upon the Government the necessity of appointing a real Minister who would have power to look into the Labor unrest which exists at the present time and to create a Department which would deal exclusively with labor problems. Under the bill first mentioned in this paragraph the Government has once more seen fit to adopt a plank of the Liberal party, as in the case of Workmen's Compensation, the Enfranchisement of women, the Temperance Legislation, the higher taxation of Nickel companies, etc.

A debate, initiated by Mr. McDonald, Liberal member for N. Bruce, took place upon the question of paying county crown attorneys, registrars and sheriffs a salary for their services in lieu of the present system of payment by fee. The Attorney General advised the House that the Government had under consideration the question of adopting Mr. McDonald's suggestion so far as paying a salary to county crown attorneys was concerned, but not as regards registrars and sheriffs.

Estimates totalling nearly \$14,000,000 were passed by the House in one evening. Several items were held up by the Opposition for further consideration, but both sides of the House co-operated in an endeavor to transact business thoroughly and expeditiously.

Provincial Highway.
No complete details are available as to the route or cost per mile of the provincial highway. The Liberals interrogated the Government upon these subjects, and as to what class of road it to be built. The Government intimated that work is now under way between Hamilton and Queenston, York County and Belleville, Napanee and Kingston, Ottawa and Prescott, and will be begun on other portions of the highway as rapidly as conditions will permit.

Referendum.
A bill to provide for the holding of a referendum upon the Ontario Temperance Act was passed. Mr. W. Proudfoot, the Leader of the Opposition, criticized the Government for not consulting the Liberals when drafting the referendum bill. He pointed out that it was only through the co-operation of the Opposition that it had been possible to place the legislation upon the Statute Book. Mr. Proudfoot called the attention of the House to the fact that at the time the Ontario Temperance Act was passed there was only one question to be submitted to the people, namely: "Are you in favor of the repeal of the Ontario Temperance Act?" Now the Government was placing three other questions before the people, and there was the probability that multiplicity of questions would cause confusion. The Liberal Leader did not approve the provision for rejecting a ballot if all the questions were not answered. Mr. Proudfoot was joined by Mr. Sam Carter of S. Wellington in his protest against the rejection of ballots. He thought the question

having the largest number of votes should carry. However, it was not desired by the Opposition to place obstacles in the way of the Government and after some minor discussion the responsibility was left with the Government for its own legislation.

Provincial Convention.
A Provincial Liberal Convention will be held in Toronto on June 25th and 26th for the purpose of deciding upon a permanent Leader and adopting a definite policy. Further announcement of details will be made in the near future.

Notes.
An Act was passed disqualifying defaulters under the Military Service Act from exercising the provincial franchise for a period of ten years.

The speed limit for motor vehicles has been increased from 15 to 20 miles an hour in urban centres and from 20 to 25 miles an hour in the country, but motorists must slow down at intersections.

Mr. McDonald of North Bruce withdrew a bill calling for the abolition of the position of Superintendent of Education, after receiving an assurance from the Minister of Education that the position was to lapse.

In reply to a question the Government stated that \$1,196,213.15 was received last year by the Department of Public Highways in respect of automobile licenses.

The sum of \$5,000,000 was set aside to aid in the improvement of public highways and for the payments of grants, etc., under the Highway Improvement Act, the Ontario Highways Act and the Provincial Highways Act. The Minister stated that over \$4,000,000 had been expended since 1901 for these purposes.

HIGHEST WAGE SCHEDULE EVER PAID.
Detroit, April 19.—The Executive Committee of the Lake Carriers' Association has adopted the highest wage schedule ever paid. Chief engineers are to get more than \$3,000 and mates over \$2,000 for the season.

The Ontario Legislature has settled the new rates of speed at which autos may travel. They are 25 miles an hour in the country and 20 in cities, with a slowing down at road or street crossings.

THIS Announcement is made by the Dominion Government—made now because it feels that every Canadian wants to know, and is entitled to know, just what plans it has made to meet the problems that face the country. Only now has it been possible to finish the many plans and policies necessitated.

From day to day the Government will use this space to explain what it is doing to bring back our soldiers, to ensure the comfort of their dependents, to keep the whole nation busy and prosperous.

The problem is to take back our soldiers and war-workers into our social and business life under proper working and living conditions. It has four phases:—

1. To bring the soldiers home.
2. To fit those who have suffered overseas for useful employment.
3. To have ready for every soldier and war worker an opportunity for employment.
4. To assure for them proper living and working conditions.

The plans of the Government are such as will help solve these problems. What those plans are will be reported to you in this series of announcements.

(Signed)

**EMPLOYEES MUST
KEEP CORNS OFF**
Cincinnati Man Tells How to Shrive
up Corns so They Lift out.

Many large retail establishments
now insist that every employee have
cornless feet, because one can not
appear pleasant before a patron or
be fully efficient when the brain is
constantly reminded of these pain-
ful pits.

The simplest method known to get
relief is to apply a few drops of free-
zone directly upon the tender, aching
corn, which promptly relieves the
soreness and soon the entire corn,
root and all, lifts out without pain.
A quarter ounce of freezone will
cost very little at any drug store but
is sufficient to remove every hard
or soft corn or callous from one's feet.
This drug is gummy but dries in a
moment and seems to just shrivel up
the corn without inflaming or even
irritating the surrounding tissue or
skin.

This should interest many men
and women here.

Many social events are scheduled
for the next few weeks, and the
young people of the city will have
plenty of opportunity to trip the
light fantastic now that Lent
is over.

The Junior Ladies' Auxiliary of
the G.W.V.A., will not hold their
regular weekly dance this evening
owing to the Queen's Hall being in
use for the Cunningham Dancing Ac-
ademy Easter ball.

The Sons of England Lodge of the
city will celebrate St. George's
Day on Wednesday by holding a
social and musical evening in the
lodge rooms.

Residents from Port Dalhousie re-

cold north west half gale and abun-
dant whitecaps outside the piers.

The familiar whistle of the newly ar-
riving steamers was heard in Port Dal-
housie yesterday and the harbor began
to present its usual lively appearance.

A large number of people were pres-
ent at the special services in the B.

day, where a most pleasing Easter Ser-
vice was held. This evening a sacred
concert will be held in that Church at
which several new features will be pre-
sented.

To get an idea of the scarcity of
average rental in this city it may be
stated that on one of our residential
streets a house became vacant on Fri-
day last and during the afternoon there
were twenty applicants after it.

As an instance of the persistency with
which robins return to their old breed-
ing places, a citizen informed The

turn to a tree on his lot, of one of
these birds which has nested there reg-
ularly for six seasons. He identified
the bird by a white feather on one of
its wings.

The demand for a chance to hear

Quite a number of citizens took ad-
vantage of the fine afternoon yester-
day and went to inspect the progress
of The Rose Garden in the park. Their
opinions did not imply that a great
amount of progress had been made.

night.

Mr. Augustus Bridle will be the speak-
er at the meeting of the Womens Can-
adian Club meeting to-morrow after-
noon at the Welland. His subject will
be "Jazz and Jill."

WILSON ROGERS
A quiet but very pretty wedding took
place at the home of Mr. and Mrs.
Lithias Wilson, Stamford, on Wed-
nesday last, when Mary Bell, their
eldest daughter was joined in the holy
bonds of matrimony. Precisely at the
appoinment time the bride leaning on
her father's arm entered the drawing
room to the strains of the wedding
music from "Lohengrin" played on the
violin. She was assisted by her sis-
ter, Myrtle, while Mr. A. Lowell very
ably filled the capacity of best man.
The bride looked very becoming in
a pretty wedding gown of blue silk,
veil of silk tulle and wore orange
blossoms in her hair. Her maid looked
very prettily in a black and white silk
dress and carried a shower bouquet of
pink and white carnations. After the
service was over a sumptuous dinner
was served to the immediate relatives
and friends of the bridal party. The
grooms gift to the bride was a handsome
case of silver, to the bridesmaid, gold
salt and pepper cups, the best man re-
ceiving gold cuff links.

Mr. and Mrs. Rogers who are both
widely known in Thorold, where the
bride has always made her home up
until a few weeks ago, are receiving
the heartiest congratulations from
their many friends. They will reside
in Thorold when they return from their
honeymoon which is being spent at
points west.

Monday last. The paper calls on the

from the stomach, liver, kidneys
and bowels, thus cleansing, sweeten-
ing and purifying the entire alimen-
tary tract, before putting more food
into the stomach.
Men and women with sallow skins,
liver spots, pimples or pallid com-
plexion, also those who wake up with
a coated tongue, bad taste, nasty
breath, headaches, ciliary spells, acid stom-
ach or constipation should begin this
phosphated hot water drinking and
are assured of very pronounced re-
sults in one or two weeks.
A quarter pound of limestone phos-
phate costs very little at the drug
store but is sufficient to demonstrate
that just as soap and hot water
cleanses purifies and freshens the
skin on the outside, so hot water and
limestone phosphate act on the in-
terior. The more important than outside clean-
ness, because the skin pores do not
absorb impurities in to the blood,
while the bowel pores do.

must use their own brains if they wish to get anywhere.

Statement Denied

Continuing Mr. Mellicca said that it had been stated in the press that the labor unrest to-day was caused by German gold or Bolshevik gold. He wished to deny this statement which is absolutely false. Labor unrest is the same to-day as it was a hundred years ago when the labor class were the slaves to the employer.

In olden days the mighty went a warring and the conquered were made slaves and in this way the system of chattel slavery was instituted which was based on personal ownership. Years and years ago they put the slave on the block and he was sold to the highest bidder. Today they put the job on the block and instead of bidding up they bid down for it. (Applause.)

The speaker then told of conditions under the feudal system when capitalism started to grow. But in those days there was a common bond of sympathy between master and man and it was often the case where an apprentice married the daughter of the master. But those conditions do not exist to-day. Not much, for to-day we have the corporations, trusts, and bonded interests and there is no chance of breaking them up.

A Few Own Canada

The speaker then went on to say that it had been stated that the Dominion of Canada is owned by twenty-three men and he believed it. The president of the Canadian Manufacturers Association had said that they were like a lion cub whose strength was unknown.

In 1820 the first Trades Union was formed but they found that they were up against it owing to adverse legislation enacted by the bosses. But they were finally allowed to organize and the organization has been growing by leaps and bounds ever since. But in those days there was a system of individual production which created harmony among the workers. To-day there is in almost every factory and workshop a division of labor, each man being selected for some particular branch of the work so that all classes of labor are employed in the production of wealth for the trusts and corporations. It is not an individual production but a social production and the existing conditions will not be remedied until such time as a social system of freedom is established. (Applause.) The trusts cannot be stopped for they have come and have come to stay.

A Small Percentage

Continuing Mr. Mellicca said that the Toronto World printed an article to the effect that in 1912 the workmen of Canada had received an average of \$400 in wages. But each man produced \$2,200 worth of work in the same year and the odd \$1800 went to some one who did no work at all.

During this time the manufacturers were stocking up and now that they are without a market for their goods the wheels of industry are stopped owing to over production, but still with the warehouses full of boots, clothing and the elevators full of wheat, many are facing starvation in the midst of plenty. Thousands have been thrown out of employment and no strong effort is being made to find work for them.

In conclusion the speaker told his audience to put their trust in themselves and to look after their own interests first, last and always.

Mr. Mellicca was loudly applauded as he sat down.

Mr. Peter Grant acted as chairman of the evening.

After the meeting had been thrown open for questions a resolution was unanimously passed protesting against the treatment accorded returned men employed on the new Welland Canal who are compelled to work ten or more hours per day in mud up to their knees.

Another resolution adopted protested against the action of the Patrons Committee in appointing another man to the Employment Bureau position after Mr. Peter Grant had been the choice of the Board of Trade and the Trades Council.

Toronto, April 21.—Liberals in Ontario will meet in convention in June on the 25th and 26th for the purpose of selecting a permanent leader of the Ontario party and agreeing upon a Provincial platform. The announcement of the date was made on Thursday night by Chief Whip C. M. Bowman.

"At a caucus of Liberal members of the Legislature, held in Mr. Proudfoot's office, it was decided to hold a Provincial Liberal convention in Toronto on June 25th and 26th," the statement read. "The basis of representation from each constituency is to be male and two female delegates in addition to the sitting Liberal members, or the last nominated Liberal candidate when there is no sitting member. Further announcement will be made giving fuller particulars."

While it is a matter for the convention to decide it is reported that the Provincial organization may be entirely distinct from the Federal party to enable all Liberals to get together on Provincial matters despite any difference that may exist regarding the Dominion questions.

4,000,000 SHELLS FIRED IN SINGLE ENGAGEMENT

Washington, April 19.—During the battle of the Somme, in 1916, the British army used 4,000,000 rounds of artillery ammunition, according to a statistical announcement published today by the War Department. This is the largest number of shells used in a single engagement so far as records show.

Second in amount of artillery ammunition used was the battle of Messines Ridge, in 1917, when 2,750,000 rounds were used by the British.

WILL RE-OPEN CLIFTON HOTEL

Niagara Falls, Ont. April 19.—The Clifton Hotel here, which has been closed since the war started, is to be reopened shortly. It has been taken over by the United Hotels Company, which owns a string of large hotels on this continent. The City Council has granted a fixed assessment of \$100,000 on the fixed assets. Large tourist travel is expected by the two cities of Niagara Falls this summer, and they are getting ready for it.

Speed of Meters Not Changed By Pressure

Fair today, cooler, northeast portion, Tuesday: Fair.

An investigation of the natural gas business was recently made with reference to the charge that the gas meter registers faster when pressure is low. In a bulletin to the public the investigators have this to say:

"The popular belief is that meters run faster when the pressure is low than when the pressure is high. This is contrary to the facts. Variation in pressure makes no appreciable difference in the registration of the meter, the meter merely registering, within a reasonable limit of tolerance, the amount of gas that passes, and this is neither increased nor decreased by changes in pressure.

OF PUREBRED

Holstein-Friesian Cattle

ON THE FARM OF A. J. EMMETT STAMFORD TOWNSHIP

County of Welland, one mile west Niagara Falls, Portage Road, on THURSDAY, APRIL 24th, 1919. Owing to the fact that I am unable to secure competent help to keep and continue to develop my much-valued herd of pure-bred cattle, I will sell without reserve the entire herd of THIRTY-ONE HEAD, on the above date.

In announcing this sale to the public I feel confident that all the animals are of such individual breeding merits as to commend them to anyone wishing to secure foundation stock for pure-bred Holstein Cattle, or to add new blood to their herd. My aim has been to breed heavy producers as I was building up a herd to pay its way in the fall.

HERD SIRE—SIR LYONS OF CLOVER HILL, No. 25578, stands at the head of the herd. His sire is Sir Lyons Fafarit, and his Dam Niagara Maid. At five years he has a 7 day record of 502.7 lbs milk and 26 lbs. butter, and yearly record of 20816 lbs. milk and 943.75 lbs. butter. His Grand Sire, Sir Lyons Hengerveld Segis, is a son of the Great King Segis, with six daughters all with records of over 31 lbs. butter in 7 days. And the well-known Cow Blanche Lyons Dekol with a 7 day record of 608.80 lbs. milk and 33.31 lbs. butter; average fat 4.38; and a 30 day record of 2723.70 lbs. milk, 134.78 lbs. butter; average fat 3.96.

TERMS—Six months' credit will be given upon furnished approved joint notes with interest at six per cent. Sale at one o'clock sharp. Conveyance will meet N. S. & T. cars at Stamford between 12 and 1 o'clock, fast time.

JOURNAL CRIPPLES CHALLENGE STANDARD BALL TOSSERS

The employees of The Journal take this opportunity to issue a challenge to the ball tossers of The Standard to a series of games to settle the newspaper baseball championship of St. Catharines for 1919.

In issuing a challenge at this early date we do so in a spirit of sportsmanship, as The Journal nine feels that our Queen street friends should be given a good chance to prepare for such a series, as after a long lay-off they must be badly in need of practice, and therefore should be given every chance to get in shape to put up a good game against the cripples from the Market Square, who for the most part are battle-scarred but are again ready to do or die in an effort to settle once and for all the question of supremacy.

And now that the cruel war is over, it has been suggested that an old-time picnic be held again by the newspaper employees, and toward this end the Journalites are prepared to play a series of baseball games, the losing team to defray the expenses of a feast gathering on the green.

If such a sporting proposition is acceptable to the men who help to keep Queen street on the map, they are asked to say so and at once, or for all time keep the peace.

THE WILLARD DEMSEY BOUT MAY BE IN OHIO

Toledo Called as the Scene of the Championship go on July 4th. by Matt Hinkel.

Cleveland, Ohio, April 21.—The championship battle July 4 between Jess Willard, heavyweight title holder, and Jack Demsey, challenger, may be held in Ohio. This was the tip handed out Saturday by Matt Hinkel, famous referee, who no doubt will be the third man in the ring when the big fellows meet.

"There is a move on among Ohio sportsmen to hold the fight in this State," said Hinkel. "And those talking it up want the battle fought in Toledo. This is not idle talk, my source of information is reliable."

Fighting in Ohio is not legalized, but State authorities have generally left the matter up to local authorities. Cleveland for years was without fight, while Canton, Akron, Youngstown and other nearby cities held twelve-round bouts regularly and drew great crowds from this city. Now Cleveland has fighting again under control of a commission appointed by the Mayor.

In Dayton twenty-round fights have been held for years. They have never had much newspaper publication, being staged on the club plan. The fights, if staged in Ohio, would probably attract one of the largest crowds in the history of the ring. This State alone would probably buy all the seats that could be erected. The central location would draw fans from many States.

Tex Rickard would promote the battle himself. No doubt Hinkel, who is the big fight man of the State, would be willing to help out.

Wellesley, Mass., April 21.—Passing through Wellesley Square, about 12-12 miles from the starting point, Frank Gillespie, of Chicago, was still leading. Fifty yards behind, Shuster and Ohman were running together. Behind these was a bunch that included Willie Kyronen, of New York.

HAMILTON LINKS GOOD

Ralph H. Reville Writes his Impressions of new Ambitious City Golf Course

In an article in the Toronto Star Weekly, Ralph H. Reville, editor of the Canadian Golfer, has the following to say regarding the new links at Hamilton:

"I recently visited the new links at Hamilton and found them worthy of every commendation. Situated only two and a half miles from the eastern limits of the city, an ideal spot has been picked for an 18-hole course. The land, sandy loam, is rolling, with the mountain in the background, and from many vantage points in the foreground can be seen the bay and lake, with Hamilton lying between. Many of the fair greens are well turfed, and play will be started this season, which is 'some going' considering that the project was only got under way a few weeks ago. Over 200 members have been secured for the new club, which has been christened Glendale, and it has been decided already to advance the price of a share from \$100 to \$150. This course has been laid out by Mr. George R. Harvey. The length will be 6,200 yards and there will be several feature holes. It looks to me as though Hamilton in a few years will not have one, but two of the finest inland courses on the continent. The terrain in and about the Ambitious City just seems to have been chosen by nature for golf courses.

of trouble to the Welland defence, Murdock in particular clearing his lines time after time. Martin made several efforts to get through for Welland and from one of his centres Dye tested Donaldson with a scorching end to end play followed and it wanted only three minutes to go when Gibson, who was playing a hard game, made an individual effort, Jones saving at the expense of a corner. A Hill placed finely and M. MacSporran, getting his head to the leather put the ball out of the reach of Jones, scoring the city's first goal. The locals were passing when the whistle sounded for half time. Bull turned out for Welland in place of Sinclair who had met with a slight accident. The game continued fast, both teams trying hard to score, Dye getting through but shot over. Colquhoun led drive from 30 yards, but skimmed the upright. A miss kick by Bull let in McFarlane, who passed out to MacSporran and after beating Murdock centred to McFarlane, who running in, made it two up. Welland had not yet given up and Martin, who was always dangerous, got away on the right sent in a great centre and Donaldson allowing the ball to get away from him, Dye rushing in scored Welland's first goal. The excitement was intense and Welland continued to press and a few minutes later were again rewarded for their efforts, Martin again scored and the centre forward led drive hitting the post beating Donaldson all the way. This ended the scoring and when the final whistle sounded the local were pressing hard.

The Great American Disease. There are numberless people who do not call themselves sick, and yet they feel nervous, weak, languid and tired most of the time. They have no ambition or endurance to work—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable; they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion, belching of gas, pains in the stomach present. Sleepless, wakeful and restless nights follow. They become drowsy after meals and the brain tires easily.

Smith filed to turn up against Windle and this gave the juniors another chance to show what they could do. Taylor seems to have a bright soccer future, barring accidents.

Bob Barry was unable to get away from work Saturday but will be all there this week end against Welland.

Merrittton will probably play the Port Dalhousie factory team on 9th lum's fair grounds when alterations and repairs are completed.

The movie show in the Town Hall Merrittton, under the auspices of the Merrittton F. C. promises to be a big affair. The players have promised to attend and with a few extra turns on the funds of the Soldier's Memorial should get a big lift.

A general meeting will be held in the Town Hall, Merrittton, on Tuesday at 8 p.m. All soccer fans invited.

LOUTH TOWNSHIP COUNCIL

Louth Township Council met at Frank's Hall, Jordan, on Monday April 14th, 1919, at 10 a.m. with all the members present.

The minutes of last meeting were read and adopted.

The following communications were received.

A petition from the Trustees of School Section number three, requesting the Council to issue debentures for the building of a new School House in said School Section, to the amount of twenty thousand dollars to be paid in twenty equal yearly payments bearing interest at 5 1/2 per cent.

A Deputation.

A large deputation representing 85 per cent. of the population and 75 per cent. of the taxes collected, of the northern part of the Township requested the Council to bring before the County Council at its next meeting in May next the request of the deputation that the Middle Road be made a part of the County Provincial road system.

A request from the Vineland Grower's Co-operative, Limited, that the Council purchase the cement required by the Township at \$2.70 per barrel plus an extra charge of ten cents per sack, which will be refunded when the sacks are returned in good condition.

A petition was received from a large number of ratepayers requesting the Council to urge on the Commissioners the necessity of an early completion of the electric line between concessions two and three, it being the direct line to Jordan Station and Vineland and leading to the Ontario Experimental farm.

On motion of Wm. Honsberger and A. C. Gregory the clerk was requested to write Mr. J. J. Jeffrey of the Ontario Hydro Electric Commission asking him to attend the next meeting of this Council to be held on the 16th day of May, 1919, in connection with the early extension of the Hydro Electric system of the Township of Louth.

On motion of A. C. Gregory and P. F. Bowslaugh the tender of George W. Purdy for the office of road overseer of the Township of Louth at a salary of \$720 for a year from the first of May, 1919, be accepted.

Motions.

On motion of Wm. Honsberger and S. M. Honsberger Mr. Abram Heckdon was appointed Trust Officer for this Township for the year 1919, in place of Mr. Wm. Scull, who resigned.

On motion of A. C. Gregory and P. F. Bowslaugh, this Council cordially supports the application of the ratepayers of the northern portion of the Township asking that the Middle Road be made a Council Provincial Road.

On motion of A. C. Gregory and P. F. Bowslaugh a committee consisting of the Reeve and Council was appointed to inspect the Eller road, respecting claim of damages to horse owned by Irvin Ballantyne on 22nd of April 1919.

On motion of Wm. Honsberger and P. F. Bowslaugh a by-law was introduced to authorize the selling of the timber on certain road allowances in the Township of Louth.

On motion of S. M. Honsberger and

GREEN GRASS WANTED

Price of Butter Will Not Come Down Until New Pasture is Ready States Minister

The Daughters of England eastern edges waited upon Hon. Geo. S. Henry, Minister of Agriculture, at the Parliament Buildings, Queen's Park, with regard to the high price of butter. The result of the interview with the Minister was a wasted effort, according to the statement of a member of the deputation, as the Minister of Agriculture, after a hearing of about half an hour, stated nothing could be done regarding the high price of butter until the new pasture for cattle was available. Great Britain, he stated, had commandeered the butter reserves of Canada, and there were no stocks available for home consumption. He was not aware that oleomargarine was 42 cents a pound, and, in fact, could do nothing to relieve the situation.

Sydney Route Quickest.

London, April 21.—The postal authorities in London have informed a correspondent of the Liverpool Post that tests made in 1905 and 1906 proved that mails transferred at Sydney and forwarded thence by rail reached their Canadian destination a day earlier than by the St. Lawrence route.

WEAK, NERVOUS CHILDREN QUICKLY GAIN STRENGTH UNDER FOLLOWING PLAN

Nervousness, just like weakness, is a family predisposition. We inherit tendencies to disease just as we inherit physical resemblances. The strain of study, social duties, work at home—these all tend to make nervous troubles among children. No wonder that St. Vitus Dance, Epilepsy, and constant headaches have become alarmingly common. Pale, nervous, listless young people are met everywhere.

It is nothing short of criminal for parents to neglect signs of weakness in their children. By ignoring the slightest symptom of nervous or mental strain, you may condemn your child to life-long individualism. If any member of your family complains of headaches, fear of going into dark places, give them that wonderful tonic, "Ferrozine." Strength of body and mind, hardy nerves, ability to study with comfort, all the attributes of health quickly follow the use of Ferrozine. It establishes strength, color, endurance, vim—does this by filling the whole system with nourishment and tissue-forming materials.

It's because we know the enormous good that Ferrozine will do, because we are sure every child and even grown folks, will be permanently benefited, that we urge you to give it a trial. All dealers sell Ferrozine in 50c boxes, six for \$2.50, or direct by mail from The Cattarhazone Co., Kingston, Ont.

IS YOUR NOSE PLUGGED? HAVE YOU CATARRH?

If Subject to Colds, Here is Real Good Advice

Don't load your stomach with cough syrups. Send healing medication through the nostrils—send it into the passages that are subject to colds and catarrh. Easy to do this with Cattarhazone, which cures a cold in ten minutes. Even to the lungs goes the healing vapor of Cattarhazone—all through the bronchial tubes, nostrils and air passages—everywhere a trace of disease remains will Cattarhazone follow. You'll not have colds, nor will you suffer from sniffles, bronchitis, or throat trouble if Cattarhazone is used. Get it today, but beware of dangerous substitutes meant to deceive you for genuine Cattarhazone. Large size, two months' treatment, costs \$1.00; small size, 25c. sample size, 25c.; all dealers or The Cattarhazone Co., Kingston, Ont.

A. C. Gregory the said by-law was read a second and third time.

On motion of A. C. Gregory and W. Honsberger a by-law was introduced to repeal by-law No. 646 of the Township of Louth.

On motion of S. M. Honsberger and P. F. Bowslaugh the said by-law was read a second and third time.

On motion of P. F. Bowslaugh and A. C. Gregory a by-law was introduced to borrow \$1,950.

On motion of P. F. Bowslaugh the said by-law was read a second time.

On motion of S. M. Honsberger and Wm. Honsberger a number of accounts were paid.

On motion of Wm. Honsberger and P. F. Bowslaugh the Council adjourned to meet again at Frank's Hall, Jordan, on Monday, May 12th, 1919 at 10 a.m.

DEPUTY MINISTER OF LABOR FOR QUEBEC

Louis Guyon is Appointed—Minister to be Named Shortly.

Quebec, April 19.—The appointment of a Deputy Minister of Labor for the Province of Quebec is officially announced this evening. Mr. Louis Guyon, Chief Inspector of Industrial Plants of the Province, has been appointed to that post today by the Lieutenant Governor in Council. A Minister of Labor will shortly be appointed, and Mr. N. Seguin is the most probable nominee.

London, Ont., April 21.—Justice Logie, in the weekly High Court, quashed the by-law which put daylight saving into effect in London. A citizen, Dennis Flanagan, brought the action on the ground that the City Council had no power to pass such a law.

Transforming The Prairies.

SELDOME does a settler in a new country find things exactly as he would like to find them. Take trees, as an illustration. It is true there are large stretches of country in different parts of the world where trees seem to be ideally interspersed. Large areas in the central parts of the Prairie Provinces of Canada are like this. Open spaces of forty to a hundred acres or more are almost surrounded by trees, affording excellent shelter for stock, and making a varied landscape. But such conditions are exceptional, though they serve to emphasize the rule. Mostly the new settler finds too many trees, or practically none at all. In the former case considerable labor is required in clearing before the settler can hope for any crop. In the latter case, the settler has the advantage of being able to break his land immediately and, if he proceeds in the right manner, soon has it in a condition for producing a remunerative crop. But if he has come from a home which was surrounded by trees, he certainly misses them for a time.

A large part of the Canadian prairies comes under the second category. Nearly all of the southern to the central parts of these prairies are open prairie, ready for the plow. Except near the rivers and creeks one could motor miles and miles without seeing a tree. But a wonderful transformation is slowly taking place. If nature has left these fertile prairies practically treeless, she has not left them devoid of the elements necessary to tree growth. Trees will grow there if properly planted and cared for, just as wheat and other grains, just as alfalfa and other fodders, just as potatoes and all manner of roots and vegetables, grow—wonderfully well. And they are being grown more and more extensively every year, beautifying many a farm home, and transforming the prairie landscape.

In this beautifying process, farmers are greatly encouraged by the Canadian Government and the Canadian Pacific Railway. Both are taking a keen interest in the planting of trees on the prairie farms, and encourage farmers to improve their home surroundings by distributing trees free of cost to farmers. Each maintains large nurseries where saplings are grown for this purpose under prairie conditions, the government at Indian Head, Saskatchewan, and the Canadian Pacific Railway at Weybrey, Saskatchewan. Up to a few years ago both nurseries were typically open prairie. Now trees are being raised from seed on the Government's farm at Indian Head, Saskatchewan, which comprises 460 acres, in sufficient quantities as to permit a distribution of between 25,000 and 50,000 young plants annually. MUSIC AND DRAMA

HAZEL EDEN, THE NEW NORDICA.
Famous Prima Donna of the Boston English Opera Company is the Musical Surprise of the Day.

The career of Hazel Eden reads like one of the Grimm Fairy Tales: It is the story of a gifted artist who refused to be spoiled by flattery of friends and to whom success only served as an inspiration for harder work and greater achievement.

Hazel Eden first came into public prominence with The Chicago Opera Company where, although handicapped by the fact of being an American, she, by dint of sheer merit, forced recognition from Camanini and was freely accorded the credit of being one of his most valued artists. But being "one of," however, was not part of the "Eden Creed," so she left the Chicago Company to accept the post of leading Soprano with The Boston English Opera Company, and it was here her real opportunity came. On the famous 40 weeks tour with that organization she time and again demonstrated, by her brilliant voice, by her beauty and by her unusual dramatic sense, that here was an artist such as looms but once in a decade.

Critic after critic pronounced her the reincarnation of Lillian Nordica in her prime. Offer after offer came to her from big companies but Hazel Eden remembered that Opera in English gave her the first chance that it was this field the World first acknowledged her and to the Boston English Opera Company she remained faithful.

In this organization, the finest ever heard in the English language, she has found her big opportunity and Hazel Eden will bring back pleasant of the few truly great Lyric Sopranos of a decade.

To those who had the opportunity of hearing the great Nordica in her prime Hazel Eden will bring back pleasant memories. The present day opera lovers already have proclaimed her their idol. Miss Eden will sing the title role of MARTHA, in the Opera of that name, on Wednesday, April 30th, at the Grand.

STORY DENIED
Ottawa, April 18.—With regard to recent expressions of opinion credited to Col. J. T. C. Thompson, of the Board of Pensions Commissioners, to the effect that increases in pensions were probable, the Board of Pensions Commissioners has issued an official statement in denial thereof.
Col. Thompson, when interviewed regarding pension matters, replied to all enquiries that he had no information to give and that any question of increases, etc., was a matter for Parliamentary consideration alone.

KING GEORGE.
Winsome Viola Dana, the girl Peter Pan of the screen, is the special Easter Monday attraction at the King George Theatre, when this favorite star will be seen in a role rich with love and laughter. The fascinating story of a dear little daredevil. The story gives this captivating artist unbounded opportunity for the whimsical humor for which she is loved all over the world, and she ably portrays the life of a girl, a true daughter of Eve, who makes the man she loves the object of her many deviltries, as well as her alluring charm "Satan Junior," the title of her new production, is a photo version of one of the most popular novels of the last decade, "Diana Ardway," and was penned by a writer of international fame Van Lo Post.

DR. ARTHUR B. COBB
Dentistry.

When the agonies of tooth-ache grip you—when the pain seems to increase with each passing moment—Then is the time you want relief and want it quick.

This Dental Office provides an emergency department for just such cases and it does away with tedious waiting and the necessity of treatments by appointment.

We fully understand the need of quick attention to the sufferer and there are no delays after you enter our Offices.

To stop the pain is our first effort and after that, if there are other attentions needed, we advise the patient of their exact nature and what the cost of such attention will be.

But—it is a great mistake to put off the tiny aches until they become unbearable pains.

You impose upon yourself unnecessary torture and needless expense when you indulge in delays of this kind.

When a Dentist is needed you'll find one here who will serve you skillfully, painlessly and at extremely moderate charges.

GREAT ATHLETE IS SEEN IN NEW SERIAL

William Duncan in "Man of Might" Exceeds Own Record for Feats of Strength and Endurance—Stunts Exemplify Real Daring.

"The Man of Might" is the fitting name of a serial in which William Duncan, Vitagraph's famous star and director, is the leading figure, since he is in many respects a man of might. He is one of the most powerful men, physically, the screen ever has seen, is absolutely fearless and of indomitable energy and ingenuity in the planning and carrying out of stunts, or screen thrills.

Mr. Duncan won early fame as a strong man as a wrestling partner of Sandow. He then conducted a physical culture school of his own until the speaking stage, and then the silent drama got him.

Since then a clean life, passed for the most part in the open, together with his strenuous work in Vitagraph serials, has kept him the perfect specimen of physical manhood he was six years ago. The truth of which is emphasized in the first episode of "The Man of Might," Vitagraph's latest adventure serial, which will be seen in the Hippodrome Theatre to-day and Tuesday.

MERRITTON

The anniversary services held at the Mountain Mission on Sunday afternoon conducted by Rev. R. E. Rallton was largely attended. During Mr. Rallton's address he made touching references to the late Mrs. Malpath and Herbert Wilson, the former for a lengthy period having charge of the mission, and the Easter service last year was the last time Mrs. Malpath was present previous to taking ill.

A quiet but extremely pretty wedding took place at the parsonage on Saturday night when Rev. R. E. Rallton joined in the holy bonds of matrimony, Miss Lea Boucock and Mr. Percival Winfield. The young couple were attended by Mr. and Mrs. Leslie Freeman, the latter being a sister of the bride. Both bride and groom who are widely known are receiving heartiest congratulations and best wishes for a happy married life.

Mr. and Mrs. William Webb, of Hamilton, spent the Easter holidays with the latter's parents, Mr. and Mrs. Richard Thompson, Oak street.

Mr. Stanley Switzer rendered a very pleasing solo at St. James Church on Sunday, which was very much enjoyed by the large congregation. The vestments for the members of the choir were worn for the first time on Sunday.

Mr. and Mrs. T. J. Stevenson, of Montreal, spent the Easter holidays the guests of the latter's sister, Mrs. George Upper, Oak Street.

Mrs. William Read and son James, Pine Street, are visiting friends in Toronto.

The many friends of Mr. George Pillings, Conductor on the main line of the N. S. and T. Railway, will regret to hear he had a severe operation performed on Saturday last at the Welland Hospital, and a speedy recovery is hoped for.

Mrs. Theodore Niles and Mrs. W. Sloan, are leaving tonight to spend a few days with relatives in Toronto.
