## Montreal Stock Market.

2000 SHARES OF C.P.R. SOLD AT LOWER VALUES—SOME OTHER BUSINESS OF NO GREAT AMOUNT—DULL DAY IN NEW YORK.

Montreal, Aug. 16.

Twin City, Hochelaga Bank, Merchant's Bank, Montreal London and Republic sold higher this morning, registering as their highest prices 64½, 152, 170½, 48½, 125½. The advances of Hochelaga and Montreal London may be owing to them having been too low before and being now getting up to their proper place, while those of Twin City, Merchant's Bank and Republic are due to their merits. It is safe to say that but for the inactivity of the market all these would have risen higher on the strength of what is known about them. The feature of to-day's market was again Canadian Pacific which sold to the amount of 1950 shares at prices a little lower than yesterdays. This is traceable to the confiscation for capital and Roadbed purposes of the extra ½ per cent which the now ex-share holders were expecting.

It is true London quotations were down to-day but this is too far distant and too indirect a cause to account for now nearly 5000 shares being dislodged at diminished prices.

Canadian Pacific, very little lower at 95½ to 95½, at which figures 1950 shares were transferred. Sellers willing to hand over shares at 95½, buyers offered 95½.

Rich. & Ont. ¼ or ½ lower. 200 sold. 111½ asked, 110 1-2 bid.

Twin City about ½ higher and 150 sold. Demand 64 1/2, offer 64½.

Toronto Ry. Perhaps slightly lower at 116½ which was the price at which 125 sold.

Hochelaga Bank at 2 advance. A final bid was made of 151 and 155 was wanted.

Merchants Bank at ½ advance on a small sale. Closing the demand was for 172 and the offer 169½.

Montreal-London sold 1 1-2 higher on sales of 2800 shares. Closing 48 was wanted and 47 offered.

Republic advanced 1-2. 1000 sold. 125 1-2 was wanted and 125 offered at the close.

Montreal Cotton about same price and 39 sold. An offer was made at close of 155 which was met with demand for 162.

Molsons Bank at the same price on a 5-share deal, and 8 higher on a 1-share freak sale. However, at the close 206 was offered with no shares for sale.

### STRAWS.

At London the European visible wheat is given as 59,880,000 bushels.

To-day N. Y. Stock list Committee acts on listing American Steel and Wire. The Company's statement it is expected will show 19 per cent earned on common stock.

In Bank Statements the gain in cash is traced to important trust company's transactions at first withdrawing funds which are now finding their way back, and to arrival of \$1,500,000 Australian gold through San Francisco. Money on call at New York 2½ to 3, mostly 3 per cent.

**MINING SHARES SCARCE — MARKET INCLINING UPWARDS — PRICES LOW AND SAFE — BUY STAR AROUND 40 — MONTREAL-LONDON AND VIRTUE FAVORABLY LOOKED UPON.**

The price of shares has advanced and look like selling higher. The market for both low-priced shares and dividend payers is firm with a fair demand. This is due to the requirements of buyers exceeding the supply of shares. Holders, anticipating a further improvement, have withdrawn from the market, which makes the filling of orders difficult.

Golden Star is still the weak spot on the list, but at present prices we are sure it is a purchase. It sold at 42 and 41½, closing with the latter price bid.

Payne was steady at 138. Only 500 shares sold, but more would have been taken at the price.

Montreal-London was strong at 48 to 48½. From indications this stock has seen its worst, and from now on better prices should rule.

King sold at 21½ and 22. This stock is very well thought of in many quarters.

In the other shares little interest was taken. Decca was offered down to 26. Monte Christo sold at 7½, which is an improvement on late business. Rathmullen was firm at 7½ to 8.

# NEW YORK EXCHANGE.

VARIOUS CAUSES FOR THE BREAK  
IN B. R. T. WHICH REACTED  
THIS MORNING.

FOREIGN HOUSE TRANSACTIONS  
VERY FEW.

New York, August 16.

Fears of tight money and the unsettled political condition in France continue to have a depressing effect upon speculation abroad. Americans are from  $\frac{1}{2}$  to  $\frac{3}{4}$  lower than our closing prices, but business is very light, in fact, so light that arbitrage transactions in our market must necessarily be limited.

There is considerable discussion this a.m. in regard to the reason for yesterday's decline in B. R. T. One story is that the company lost \$150,000 by the strike, that some of the directors are very much dissatisfied with Mr. Rossiter's management, and that consequently his early removal may be expected. There is also a story that one very large holder has been liquidating and that an outside speculator who recently came out with a bearish interview has gone rather deep on the short side. In fact, the operator referred to is believed by some to be heavily short of the whole market, but if this is the cause his borrowings are being arranged in offices as there are no indications in the loan crowd of the creation of any large short interest during the last week or two.

The return of Mr. Harriman puts an end to the ridiculous story that the Chicago & Alton contemplated the purchase of the K. & G. Several rather large bucket shops in New York are apparently trying to induce the public to believe that K. G. has some value. Except in the matter of control the stock has no value whatever; the physical condition of the road is deplorable. It has already issued \$300,000 of receiver's certificates and a further issue will be necessary, consequently an assessment of the stock will of course be made.

On the whole, the Street is inclined to be bearish on the market. In spite of the rather clever manipulation of the industrials during the last three or four days the public has not been attracted. There is absolutely nothing doing in the standard stocks, and the market is waiting for a new stimulant. There are, however, two stocks on the list that show considerable strength in face of heaviness in the balance of the market, they are Cont. and American Tobacco. The former company is said to have absorbed the Buchanan & Loyal Tobacco Company.

New York, noon, Aug. 16.

Con. Tobacco and A.M.T. were the features at the opening. They both showed considerable strength and the character of the buying was thought to be good. In B. R.T. there was a renewal of the liquidation which caused the break yesterday, but around 108 $\frac{1}{2}$  considerable support developed and after the first half-hour the pressure

to sell diminished and the stock acted better than for some time.

Good buying of Southern Pacific continues and is said to be based on information to the effect that the company is earning fully four per cent on common stock.

There was little or nothing doing in the Standard stocks, and transactions by foreign houses were decidedly limited.

There was some little selling of the railroads by the traders, on Chicago despatches indicating the probability of another disturbance in the matter of rates.

After the first hour the market generally became more active and stronger.

Atchison pfd became a feature on news from the territory through which it passes being extremely good and predictions being made that the July Statement will show an increase of \$1,000,000 and a decrease in operating expenses of 62 p.c.

The declaration of the regular dividend by B. Q. brought in some outside buying, which brought out the fact that there was very little stock for sale.

When the rest of the market improved, there seemed to be a concerted attack on A.M.T., which resulted in a decline of some 2 $\frac{1}{2}$  p.c. from highest.

The trading element and some of the larger operators on the floor were disposed to sell the stocks short, claiming that the advance has gone as far as conditions and facts warrant.

## BOARD OF TRADE PRESIDENT ON MINES AND THE WEST.

Within the limits of one month Mr. Charles F. Smith, president of the Board of Trade, Montreal, has managed to ascertain by actual observation the prominent facts of the great West. The Copper mines of the Greenwood district and the Granby smelter at Grand Forks were described by Mr. Smith as of great value, even now and as being capable of enormous development. As a mineral district Canada west needs keen business men like the Smelter people who wish first and foremost to develop the mines and who apply investments towards this end not to their own improper advantage. The harvest of mineral wealth is superabundant and beyond what Mr. Smith without ocular inspection could have realized. He gave in an interview an interesting resume of the somewhat wild manners of mining camps, of the keen rivalry between mining cities, of the merits of the C.P.R. as a pioneer agency and also of this year's crop just ripening to the harvest when Mr. Smith left for Montreal. The returned president gave the interviewer the impression that Canada, as seen now, is in agriculture, in mining, in other industries, advancing with rapid strides to great prosperity.

## THE MONTREAL BOUNDARY CREEK MINING CO., LTD.

This Company has made another issue of shares at a price higher than the previous one, because the Sunset group is about to become one of British Columbia's regular ore shippers. Increased tunnelling and shafting have shown greater visibles of ore, and the new machinery purchased is capable of hoisting 1530 tons of this ore daily from the five different foot levels. Besides this the grading of the C.P.R. line from Greenwood City to Deadwood Camp, which passes through the Sunset is now completed, and will be followed immediately by such work as will make the road ready for traffic. Mr. J. H. MacFarlane, former superintendent, has by promotion become business manager at Greenwood City and has been succeeded by Mr. Henry Jones, formerly superintendent of the "Mother Lode." These new developments, new appliances and, not least, these new men guarantee to the investing public that the Sunset group will soon be a large ore producer and a large dividend payer.

## ROSSLAND ORE SHIPMENTS.

## SULTANA CHANGES HANDS.

Winnipeg, Man., Aug. 15—The Sultana mine at Rat Portage has changed hands, and is now the property of an English company. The new company will have a working capital of \$2,500,000, and will increase the number of stamps to 190. New shafts will be sunk and the main shaft put down to over 100 feet. It has been estimated that the projected developments will put in sight a body of ore exceeding one million pounds sterling.

## HIGH ASSAY VALUES OF THE SILVER BELL MINE ORE.

The Silver Bell mines, near Trout Lake, B. C., are controlled by St. Thomas and Toronto investors. Superintendent Johnstone has forwarded to the owners samples of the ore now being sacked for shipment to the Trail smelter, with the assay certificate showing the combined values in gold, silver, lead and copper, to be \$522.26 per ton. The consulting engineers' report calculates the yield to be over three fourths of a ton for each foot sunk in the shaft. The production, transportation, smelting and U. S. duty on lead will amount to less than \$60 per ton and will be less when the railways, now being built, enter the district. Large samples have been obtained by the gold commissioner for the B. C. Government's Paris exhibit next year.

# CHICAGO MARKET.

# CHICAGO MARKET—August 16, 1899.

FROM OUR SPECIAL CORRESPONDENT.

## BOTH GRAIN AND PROVISIONS

OPEN A LITTLE HIGHER—NO EXTENSIVE SPECULATION YET—PORK AND HOG PRICES DIVERGE.

Chicago, August 16.

Receipts and shipments go on as usual, and sales by which these receipts become shipments are still of the ordinary description. Selling to-day opened with prices in grain from  $\frac{1}{8}$  to  $\frac{1}{2}$  higher, but as purchases were evidently for immediate supplies the opening firmness was not continuously sustained. A large shipment just arrived at Lisbon as well as other shipments to United Kingdom, clearly indicate Europe's need of American grain, and dealers continue buying only for immediate needs, but are prepared for more speculative trading. Till such preparation becomes actual performance, action and reaction will be within narrow limits and seldom pass, otherwise than fractionally, beyond the present low average. Wheat was unchanged and corn  $\frac{1}{2}$  lower at Liverpool.

At Chicago received to-day: Hogs, 23,000; Cattle, 22,500; Sheep, 25,000.

At Kansas hogs, 11,000; cattle 13,000.

At Omaha, hogs 7,000, cattle 3,000.

Primary receipts last week 533,000, shipments 223,500; last year, 498,444, shipments 566,646.

Four ports, 307,135, shipments, 502,505.

Grain received:

Wheat, Car lots 81 shipments 40,000

Corn " 206 " 200,301

Oats " 328 " 158,284

Curb wheat, 70 $\frac{1}{2}$ -70 $\frac{3}{4}$ ; corn 30 $\frac{1}{2}$ .
