**Exquisite Fabrics for Hangings & Home Decorating  
Spring Showing of New  
Colonial Fabrics**

These inexpensive, attractive, rich fabrics, shown in variety of new weaves and creations, for economical home furnishings. The many uses and treatments give a pleasing and homelike appearance to a room. Exquisite range of patterns and soft tones, enabling one to obtain beautiful results and perfect harmony without giving evidence of the exceedingly low cost. Colonial drapery fabrics include beautiful "Art Ticking," "Empire Linen Taffetas," "Dimities," "Bamline curtain materials, in floral and "Craft" designs, and exclusive block printed effects, in chintzes and crotchetes.

The prices range from 25c to 65c yard, 36 inches in width.

Easter visitors will find tasteful and inviting suggestions awaiting their careful inspection, which may have not been previously thought of.

**Rich Portiere and Curtain materials, imported from best "American" and "English" manufacturers, on display in our drapery department. The exclusive designs, the assortment of soft, harmonious shades, and the variety of new weaves afford exceptional opportunities for beautifying the home. We mention a few of these below:**

**PURITAN BROCADE.** New mercerized fabrics in soft self tones, excellent period reproductions, with jaspé weave effect, being reversible portieres or curtains in this fabric, are low in price at yard ..... **2.00**

**ARMURES.** One of the most inexpensive curtain materials shown in large range of small diaper patterns, good shades of crimson, green, blue and brown, at 75c, \$1.00, \$1.25 and \$1.50 yd.

**"CREPE" OR "SHAKRI" CLOTH.** A mercerized, close woven fabric, reversible, with a raw silk effect, in shades green, brown, blue and crimson, 50 inches wide, at per yard ..... **1.50**

**"CRAFTSMAN'S" AND "CAWOOD" CLOTHS.** Wool fabrics in baskets and repp weaves, very durable and exceedingly effective when made into curtain or portiere, usual drapery shades, at 75c and \$1.00 yard.

### "Humanized Clothing"

—a phrase that aptly describes our Spring and Summer Suits. They are meant to be worn by men—not manikins; they will distinguish you—not advertise you.

Natural, graceful lines are in evidence instead of the artificial contour, produced by pads and flares.

You will feel at home in one of these suits because it will give you the assurance that tasteful dress inspires.

English and American model suits, \$12.50, \$15.00, \$18.00, \$20.00 and \$25.00.

It is time for you to throw off that heavy overcoat; the new light weights are here, at \$15.00, \$18.00, \$20.00 and \$25.00.

A Glove Special for Saturday, French Cheverette, in all shades, priced \$1.00 for quick selling.

New Neckwear, in all the popular shades, 50c.

Shirts in abundance, soft and stiff cuffs, \$1.00, \$1.50 and \$2.00.

### Western Hockey Stars Win 2nd Game, 8 to 2

VICTORIA, B.C., April 5.—The western stars again proved too strong for the N.H.A. hockey players last night, defeating them by a score of 8 to 2. The western boys had the score 5 to 0 at the end of the second period, but then let up on the defensive and the N.H.A. players got two goals. The British Columbia players took three in the last period, however.

### FOR NATIONAL LACROSSE BODY VIEWS OF ANNUAL MEETINGS

#### O.L.A. Not Opposed to the Idea — The List of Amendments Adopted — Old Officers Are Re-elected by Acclamation.

The annual convention of the Ontario Lacrosse Association was held on Good Friday morning at the Y.M.C.A. parlors, Yonge street, and was a very enthusiastic gathering. All last year's clubs, with the exception of Hanover, were represented, and declared themselves in favor of remaining with the association. Representatives were also present from St. Simons, Shamrock of West Toronto, Weston, St. Helena, Waterloo, Elms of Toronto, Shelburne, Capitals of Toronto, Warton and Preston.

#### C.L.A. Goes Strongly on Record For Same — Several Amendments Are Carried — Frank Doyle is Elected Secretary.

The 1912 convention of the C.L.A. was held at the Labor Temple yesterday afternoon, having only 27 clubs represented. The delegates were all very enthusiastic as they voted on several amendments to the residence rule, they hope to stimulate interest in the national game. The officers elected are all young and enthusiastic and are satisfied that they will wipe out the small deficit shown by the secretary-treasurer's report and have a good balance on hand at the end of the year. The following amendments to the rules were adopted:

Article II, section 1, is amended: "In deciding final and final games, it shall be left to the two clubs interested and the president of the association to decide whether they shall be sudden-death or home-and-home games, but must continue during the season in the higher class."

Article II, section 1, is amended: "In deciding final and final games, it shall be left to the two clubs interested and the president of the association to decide whether they shall be sudden-death or home-and-home games, but must continue during the season in the higher class."

### Thirty Minutes in Havana

to-night — just pull up your solid-comfort chair—enjoy those feet of yours in "scufflers"—reach out for a New Ten—apply the match, draw in the smoke just as you breathe, exhale it slowly and you're off to a happy half hour.

You'll pay tribute to a

Delicacy of Aroma which is the distinctive property of the New Ten—made possible by the use of choice Havana tobacco and fifty years' experience in knowing how—and doing it.

**HOFBRAU**  
LIQUID EXTRACT OF MALT.  
The most invigorating preparation of its kind ever introduced to help and sustain the invalid or the athlete. W. H. LEE, Chemist, Toronto, Canadian Agent.

**MANUFACTURED BY 248 The Reinhardt Salvator Brewer, Limited, Toronto.**

**Stanley Gun Club.**  
On Good Friday afternoon at the Stanley Gun Club the shoot was a grand success. Twenty-eight members shot in the sealed handicap event of 20 targets. The handicap committee deserves great credit for their good work, as there was only a difference of seven birds between the first 21 men. There was a large turnout of the members and their friends, who shot at over 150 targets in the practice event. Jennings and Ely featured with a 25 straight each. Following are the scores in the handicap event:

## The Spring Season

Has been one of phenomenal activity in our Ladies' Tailoring and Gown-making Departments and to some we have had to deny Easter deliveries owing to late arrivals of material. Now, however, that the end of the Easter rush is in sight, we would say we are prepared to give unusually good delivery, for a time at least, for

LADIES' TAILORED SUITS, GOWNS, DRESSES, ETC.

## MILLINERY

The success of this season's millinery is a compliment to the "good judgment and taste of our designers and makers," and while the most elaborate of Parisian confections are on display in our showcases, yet in many instances the quietest and most useful of our own artists appeal more strongly to the Canadian lady.

Every requirement of Taste, Suitability, Material or Price can be met in our choice millinery stock.

## READY WEAR SUITS

Every season appears to produce earlier models in Ladies' Ready-wear Suits. All the novelty materials, trimming effects and suit models are shown in this splendid assortment from \$10.00, \$15.00, \$20.00 to \$45.00 each.

## CAMBRIC AND LAWN DRESSES

Ready to wear, in a full range of sizes and a charming array of dainty and serviceable models and materials from \$2.75, \$3.50, \$4.25, \$5.00 up.

## LADIES' COATS

In full range of fashionable materials, including Tweeds, Serges, Housings, Worsters, Face Cloths, etc., in all the spring shades from \$4.50 each; also a large stock of Single Pattern Garments for special wear in Fine Cloths, Silks, Satins, Lace Effects, etc., from \$25.00 to \$150.00 each.

## WASH FABRICS

Our display embraces all the season's favorites along the regular wash line, such as Ginghams, Chambrays, Zephoras, Calicoes, Linens, Crepes, etc.; also the present strong novelty fabric known as "Rattail," the popular crash toweling finished, wash dress fabric for 1912.

## LADIES' GLOVES

In a full range of sizes and qualities for spring wear.

## HANDKERCHIEFS

Of every description and for every use of lady or gentleman, from the plainest of ordinary utility makes up to the finest in the world. Real Lace Handkerchiefs always a strong feature of our stock.

## MAIL ORDERS CAREFULLY FILLED.

## JOHN CATTO &amp; SON

65 TO 61 KING STREET EAST, TORONTO.

## SPECIAL SERVICES AT ST. ALBANS.

Special services will be held at St. Alban's Cathedral to-morrow, with appropriate music and a special offertory. Holy communion will be celebrated at 7, 8 and 11 o'clock. Bishop Sweeney will preach at 11. Rev. F. W. H. Hornibrook at 7, and Rev. Canon McNab at 11 o'clock. The choir will render "Hallelujah Chorus" and other special Easter music.

## Greatest Invention of Age for Hoarseness, Weak Throat

Nothing So Far Discovered Is So Beneficial to Public Speakers, Ministers, Singers and Teachers as CATARRHOLINE.

Because of its strengthening influence upon the vocal cords, Catarrholine cannot be too highly recommended as a wonderful voice improver. It almost instantly removes hoarseness or hoarseness, thus insuring clearness and brilliancy of tone. Catarrholine keeps the mucous surfaces in perfect condition, and its regular use absolutely prevents colds and throat irritation, thereby removing the singer's greatest source of anxiety—irritation of the voice. The most eminent speakers and prima donnas are seldom without Catarrholine, and credit is no small desire their uniform strength and brilliancy to its influence.

## SINGER RECOMMENDS CATARRHOLINE.

"For many years I have been a sufferer from that terrible disease known as CATARRHOLINE. A professional singer, you can readily understand that Catarrholine would be a serious hindrance to my professional skill."

"One year ago I read in The Progress a convincing testimonial from one who had been cured of this disease through using your God-sent invention, Catarrholine."

"Believing in the merit of Catarrholine, I tried it."

"Catarrholine cured me, and has been the means of my success."

"You are at liberty to use my name and my testimony in any way you wish, and I will always remain, 'Bob Bixley, New Glasgow, N.S.'"

Mr. Bixley is one of the best known singers and entertainers in the Maritime provinces. Everyone knows him, and his testimony is the best sort of evidence of what great benefit Catarrholine is to those suffering with throat trouble. Complete outfit, consisting of a beautiful polished brass rubber inhaler and sufficient liquid for recharging, is sent by mail for one dollar. Sold by all druggists, sent safely in any address by mail if price is forwarded to the Catarrholine Co., Buffalo, N.Y., at Kingston, Ont.

## THE WEATHER

OBSERVATORY, TORONTO, April 5 (3 p.m.)—The weather has been fine and much warmer today in Ontario and western Quebec; while in the Maritime provinces it has been cool and showery. Light showers have also occurred in the western provinces, accompanied by a change to much cooler conditions.

Minimum and maximum temperatures: Dawson, zero—84; Victoria, 30—40; Kamloops, 14—42; Edmonton, 14—46; Prince Albert, 24—46; Moose Jaw, 24—46; Winnipeg, 42—50; Port Arthur, 28—46; Parry Sound, 34—54; London, 38—48; Toronto, 38—51; Kingston, 32—54; Ottawa, 30—40; Montreal, 32—50; Quebec, 20—38; St. John, 24—36; Halifax, 20—42.

—Probabilities—Lakes and Georgian Bay—Southwesterly winds and warm to-day; showers tonight. Sunday northerly winds and much colder.

Ottawa and Upper St. Lawrence—Southwesterly winds fair and comparatively warm; showers to-night. Lower St. Lawrence, Gulf and Maritime—Southwesterly winds fair with little higher temperature.

Superior—Showers, followed by northerly winds and much colder. Manitoba and all west—Northwesterly winds and cool, with falls of snow or rain.

## STEAMSHIP ARRIVALS

## BITTER FIGHT TO CONTAIN STRIKE

Conference of British Miners' Delegates Likely to Develop Warm Struggle—Rioting in Scotland.

## LONDON, April 5.—(Can. Press.)

Good Friday was generally disregarded as a holiday in the coal mining districts, and there were further resumption of work, notably in the Bristol district, where all the collieries were put in operation. In Scotland the men who returned to work were mostly non-unionists, the members of the union having received instructions to await the decision of the national conference before resuming operations.

Rioting occurred today in a colliery near Dunfermline, Scotland, when unionists attacked non-union miners who desired to return to work. The police were called out and quelled the disturbance, but not before considerable property damage had resulted.

A Lively Conference. Judging from interviews with the delegates who, already having reached London for the national conference and from speeches at meetings held in the coal districts to instruct delegates, the conference will be lively and prolonged. The element in favor of continuing the strike is strong and intends to make a great effort to control the conference. The general belief is, however, that the extremists will be defeated. Their action, it is said, is the result of discontent with the federation leaders, and what is the result of the conference it is not likely to bring about a revival of the strike.

## Sunday World Pictures

The pictures in this week's issue of The Sunday World cover a wide range of topics. Included are an excellent view of Toronto, taken from the roof of the Bank Building, and overlooking the structure from work of the new C. P. R. skyscraper; the ice jam in the Huron River; King Edward Memorial, which is to be erected in Green Park, London; Launching of Britain's largest warship, H.M.S. Queen Mary; President McCallery's arrival at Macon, Ga., on his visit of inspection of the team.

The Maple Leaf's doings in Georgia are portrayed. There is a series of interior views of the new wing of St. Michael's Hospital, as well as a photo of the house surgical staff.

Hamilton's Anglican and Catholic cathedrals and pretensions of some group pictures of London's high and public school girls.

Rural scenes of picturesque English boys of the London Collegiate Institute; group photos of the boys and girls of the Central Schools, Brantford; and of the recent civil and criminal sessions.

Berlin's mayor, Mr. W. H. Schulz; chairman of the park management committee, D. H. Brantford; and George M. DeLois, secretary of the park management committee; the recent convening of the Canadian Order of Woodmen of the World, and the recent banquet of Tecumseh's 1-a-crosse Club at McConkey's.

There has been some speculation as to the grain being transferred to vessels prior to April 15. As a matter of fact, arrangements have been made for the movement of one vessel with capacity of 300,000 bushels to an elevator within the next three days, which will mark the first step in the movement of boats to the elevator. The railroads move grain in Duluth at a much faster rate than they have heretofore done, there will be no likelihood of the storage space being filled.

High Peak Load Now On. The movement, it is believed, is now at its maximum. At the rate the grain is being received, it will require about three weeks to exhaust the capacity, and before that time, a large amount will have been discharged into vessels.

## Diamond Ring Talk No. 3

It's quality that counts.

Quality? Size? Price?

These are the essential points of investigation when buying a Diamond.

During April month we are showing Diamond Ring values at unprecedentedly low prices. A rightly bought Diamond is the very best kind of investment.

Buying direct from the cutters in large quantities, we are enabled to offer much better values than dealers taking credit from indirect sources.

See our \$25, \$50, \$75 and \$100 offerings.

As a matter of fact, arrangements have been made for the movement of one vessel with capacity of 300,000 bushels to an elevator within the next three days, which will mark the first step in the movement of boats to the elevator. The railroads move grain in Duluth at a much faster rate than they have heretofore done, there will be no likelihood of the storage space being filled.

High Peak Load Now On. The movement, it is believed, is now at its maximum. At the rate the grain is being received, it will require about three weeks to exhaust the capacity, and before that time, a large amount will have been discharged into vessels.

There has been some speculation as to the grain being transferred to vessels prior to April 15. As a matter of fact, arrangements have been made for the movement of one vessel with capacity of 300,000 bushels to an elevator within the next three days, which will mark the first step in the movement of boats to the elevator. The railroads move grain in Duluth at a much faster rate than they have heretofore done, there will be no likelihood of the storage space being filled.

## LABOR FAMINE IN MONTREAL

City Can't Get Men for Road Making at 21 Cents an Hour.

MONTREAL, April 5.—(Can. Press.)—Mourning at the present moment is in the throes of an unrelenting labor famine, according to statements made by road department officials to-day. Fears are expressed that there will be difficulties met with in securing the men to carry on the extensive road-making program mapped out for the coming summer in this district. In spite of the fact that the wages paid by the city for unskilled labor are 21 cents an hour, the men to earn this wage do not seem to be forthcoming, and City Surveyor Darlow announces that advertisements repeatedly inserted in the press have been almost fruitless.

Mr. Darlow says that the peculiar winter accounts to a certain extent for the situation. The absence of snow till late in January drove many men, who usually are employed by the city in clearing the streets, to seek work elsewhere, and many left for the lumber and railway camps of Northern Ontario and Quebec.

## BORDEN STREET FIRE.

Fire from some unknown cause did four hundred dollars' damage to the home of J. Willis, 105 Borden-street, yesterday afternoon. The building was damaged to the extent of three hundred and fifty dollars, and the contents to one hundred dollars. The property was owned by A. C. Jackson, 35 Chestnut-street.

## A Good Time to Install That Gas Water Heater Is When You Clean House

This is a question worth looking into. Hot water is absolutely essential in every household. People cannot keep their homes clean without it. Homes are bound to be healthier when hot water can be obtained from the faucet by the gallon, than when the water is heated in a kettle by the cupful. Any home using gas can have a gas water heater. It means an unlimited supply of hot water any time day or night. The cost of the gas used never prevented anyone from having a water heater.

Let our Commercial Department tell you how cheaply this modern device may be installed. Terms easy.

## FIRST SPRING DAY ENJOYED

Thousands of People Spent Good Friday in the Country, While Some Had Canoes Out.

Flocking to every vantage point on the outskirts of the city for the purpose of more freely imbibing of the pure air afforded by the first ideal day of spring of this year, thousands of Toronto residents spent Good Friday in a way healthy, both physically and mentally. The Lake Shore-road seemed to me the chief place of retreat from the noisy city for the people. An incessant stream of humanity poured out and from along the sea wall and on the road as far as the Humber River. Taking advantage of the warm weather and a chance to play to an audience on shore, several young men set off in canoes and paddled to Sunnyside irrespective of the danger attached to the trip. The ice lay jammed in the Humber River ready to break at any moment. Had this occurred, there would undoubtedly have been several fatalities, as excepting the Sunnyside end and the Humber boat houses, there was no place to land along the beach.

Many people walked to the bay front, but the stretch rising from piles of refuse on the Esplanade was so great that most of the sightseers had to leave within a very few minutes. The refuse was in the piles of snow taken from the city streets, and when the snow melted the dirt remained. The other parks and walks of the city were much frequented also, and in many of the former baseball games were played.

Cobourg Athletic Association. COBOURG, April 5.—(Special.)—Cobourg consolidated public school has formed an athletic association with the following officers: Hon. president, Principal J. G. Orr; president, G. J. Anderson; vice-president, C. D. Loft; secretary, W. M. Howie; treasurer, G. T. Busby; captain of football team, J. E. Lindsay; captain of baseball team, Harry Skitch.

## CANADIANS INVADE NEW YORK TO ENJOY EASTER HOLIDAY

More Than 6000 Poured Into Gotham Yesterday, and Society Parade on Fifth Avenue To-morrow Will Be Special Attraction—Traffic More Than Double Last Year's.

NEW YORK, April 5.—(Special.)—Any one who was not ready to announce that Canada was the greatest place in the world and that New York, while something of a city, was not so great after all, felt out of place in the Grand Central Station to-day when the special trains from Montreal began to arrive. More than three thousand men, women and children from the eastern part of Canada had arrived in this city over the New York Central lines by daylight, and before night enough more detained to double that number.

The Canadians are here to see just how much fun they can get out of life for three days. Watching the Easter parade on Fifth-avenue on Sunday will be the chief feature of their visit. Six special trains brought the first contingent during the early hours,

## Specialist Did Skin Trouble No Good

Very Itchy and Disfiguring, Got a Little Cuticura Soap and Ointment and Was Cured.

"For two summers I suffered with skin trouble on my arms, and on my legs from my knees down. My arms were badly disfigured, and I kept them covered. It came like the bites, and was very itchy. I consulted a specialist, who gave me medicine, as well as an ointment, but seemed to do no good. It was beginning to appear on my face. I got a little Cuticura Soap, and some Cuticura Ointment. The first touch of Ointment seemed to relieve, and before the Cuticura Ointment was finished I was cured. I have not the least sign of trouble. I think it would have spread over my whole body if Cuticura Soap and Ointment had not cured me. I am delighted with them, and do feel pleased to think I have something I have confidence in. I tell my friends about them, and I think Cuticura Ointment is the best I ever saw." (Signed) M. J. Bodin, 72 McCaul St., Toronto, Dec. 22, 1910.

## Cold-Sore Began to Heal With First Use of Cuticura Ointment.

"Cuticura Ointment cured a very bad cold-sore that gave me hours of severe pain and loss of sleep. I tried lots of other remedies but nothing did me any good till I tried Cuticura Ointment, and from the very first application it began to heal and now there is not even a scar left." (Signed) Mrs. W. Boyce, Merrimack, N.H., Jan. 8, 11.

For more than a generation Cuticura Soap and Cuticura Ointment have afforded the speediest, safest and most economical treatment for skin and scalp troubles, of young and old. Although they are sold by druggists and dealers everywhere, a liberal sample of each may be obtained free, from the Potter Drug & Chem. Corp., sole props., 57 Columbus ave., Boston, U. S. A.

## GEN. LI QUITE WELL, THANK YOU

SHANGHAI, April 5.—(Can. Press.)—Dr. Sun Yat Sen, ex-provisional president of the Chinese republic, will leave here for Wuhan, in the Province of Hupeh, to-morrow on a visit to Gen. Li Yuen Heng, the vice-president of the republic.

The despatch from Shanghai disposes of the report cable from Tientsin yesterday to the Exchange Telegraph Co., stating that Gen. Li Yuen Heng had been assassinated.

## Pere Marquette Railway In Hands of Receivers

Refusal of Michigan to Allow \$4,000,000 Bond Issue Precipitates Crisis—Covers 2,320 Miles, Including Branches in Canada—Liabilities Nearly \$70,000,000.

DETROIT, April 5.—(Can. Press.)—Federal Judge Angell today signed an order appointing receivers for the Pere Marquette Railroad Co. as follows: Frank W. Blair of Detroit, Dudley E. Walters of Grand Rapids, and Newman Erb of New York. The state yesterday denied the application of the railroad for \$4,000,000 bond issue.

The action was taken upon a petition filed by the American Brake Shoe and Foundry Co. of New Jersey. The railroad operates in all about 2,320 miles of railroad. Of this, 1,840 miles are in Michigan, the rest in Ohio, Illinois and Ontario, Canada.

The bonds, mortgages and other liabilities of the company aggregate \$69,689,000. It was stated in the application of the road for the \$4,000,000 bond issue that the funds were absolutely necessary to take care of outstanding indebtedness, as no resources for that purpose were on hand.

The receivers are authorized to take immediate charge of the road's affairs and carry on the management of the system with as little change as possible.

The complaint asking for a receiver blames the recent document calling attention to the road's financial condition, drawn up by the Saginaw Board of Trade as partially responsible for the present trouble of the railroad corporation.

Called on J. P. Morgan. The passing of the Pere Marquette Railroad Co. into receivers' hands to-day was not unexpected, after the action of the state railroad commission yesterday in refusing to authorize a \$4,000,000 bond issue required by the company to meet maturities due April 1, and other requirements. Governor Osborn personally appeared before the commission and opposed the issue. He urged that J. P. Morgan or other heavy stockholders, come to the relief of the company.

Newman Erb of New York, chairman of the executive committee, and one of the receivers, issued a statement to-night in part as follows:

A Political Football. "There is practically no flowing debt. The present bonded obligations of the Pere Marquette Railroad are below the average of similar roads. The stock capitalization is considerably below such average. It is the belief of the management, the board of directors and the banking interests of the road that the request made to the state railroad commission, if granted, would have enabled the road to meet its difficulties. The commission apparently took a different view. Many friends of the management believe the Pere Marquette Railroad was made a football in the game of politics."

Mr. Erb stated that there would be no change in the management of the road, but that the receivers must acquaint themselves with the existing conditions before a definite policy can be decided upon.

## POLITICAL INFLUENCE CURSE OF INSTITUTIONS

Continued From Page 1.

by reason of merit," he said, "rather than because they have been faithful to a political party."

## Psychiatric Clinic

Dr. Clarke, in conclusion, urged the establishment of psychiatric clinics in university centres.

"The government would find it money well spent," he said.

One of these clinics has already been established in Boston and another in Baltimore. He hoped the next one would be in Toronto and in connection both with the hospital and the university.

"We must have proper equipment and proper men to carry out the work," he continued. "We must not be hampered in institutions as we are. The time has come when we must have psychiatric clinics. It is a public right."

He thought the establishment of one or two of these clinics in connection with the new general hospital should be effected without delay.

## Not Made Public

Dr. E. H. Young of the Rockwood Hospital for the Insane, Kingston, said that the work of these institutions was not made public sufficiently. He started the audience by telling that in the Rockwood asylum four nurses and two orderlies attend to forty crazy men, and there hasn't been an accident. Dr. Young maintained that the public didn't know what good work was being done in these institutions.

"Why, oftentimes," said he, "a man with incipient insanity is sent around the world to look at cathedrals, and if you would treat a case of incipient typhoid that way, you'd be laughed at, or charged with malpractice. The patient should be put on his back in bed." (Laughter.)

Dr. Young also paid a tribute to Hon. Mr. Hanna.

"We have in the present provincial secretary," said he, "a minister who is not slow to take suggestions, and we want public sentiment awakened."

## "Hospital World"

Thru the kindness of Dr. W. A. Young, College-st., a new magazine, "Hospital World," was made the official journal of the Canadian Hospital Association, and the proceedings of this association will be published in it. This is the only "hospital" magazine in Canada, and there is only one publication of its kind in the United States.

## Registry of Nurses.

Miss Charlotte Aikens of Detroit favored the bill just passed by the legislature requiring the registering of nurses, because she felt it protects the pupils nurse and compels her to attend classes that she would usually be tempted to shirk, in order to get the required attendance.

Miss Aikens particularly emphasized the assertion that there should be grades of registered nurses. To keep out the possibility of the so-called "correspondence school" nurses, grading was necessary, and there should be supervision of these bodies who they are in training and afterwards.

When the discussion on "correspondence" of the nurses and nurses without proper training was ended, Miss Brent caused something of a surprise by moving the following resolution:

"Whereas the members of the so-called schools for nurses are multiplying in Toronto, and whereas it has been credibly learned that members of the Academy of Medicine are paid lecturers in these so-called schools, this association begs to call the attention of the president of the academy to this fact."

Dr. W. A. Young of College-st. was on his feet in a moment.

"A member of the Academy of Medicine," said he, "I have come here for the very purpose of finding out something about this statement," references to which he had seen in the press.

"I would like to get some particulars," he continued, "but such a thing would not want to give out publicly."

## Had the Names.

Miss Brent said she had the names of one or two of the doctors, but she was not certain whether they were members of the Academy of Medicine. She did not want to give out publicly the names of the doctors in question, but she would tell Dr. Young who they were. This was agreed to.

Dr. Bruce Smith caused some laughter when he got up to explain that the two "so-called" doctors at present in Toronto Jail, were not now members of the Academy of Medicine and never were.

"The administration of the smaller hospitals was subject of an interesting paper read by Miss M. M. Carson, superintendent of the General Hospital, Brantford. The varied duties imposed upon the superintendent of such an institution require her to have a wide experience in hospital administration and management."

Dr. Ross of Barrie feared the operation of the hospital act just passed by the legislature would apply harshly to small hospitals. He explained that in order to get the government grant these small hospitals will now be obliged to take in patients suffering from tuberculosis and other diseases which properly should be assigned to separate wards and yet many of these institutions couldn't afford separate wards.

Dr. Bruce Smith very forcibly declared that that was the very reason why the bill had been passed. Some cases, Dr. Smith explained, had been brought to the attention of the government, where poor people without home or friends and suffering from diseases of one kind or another had been turned away from hospitals to die.

"If the hospitals are to get public grants," said Dr. Smith, "they will have to care for the poor who are in need of treatment."

Dr. Robertson of Ottawa spoke in favor of the hospital act just passed by the legislature.

"It is the most advanced legislation of its kind," said he, "that I have ever known of."

The time will come when mental diseases will call for as much attention as physical diseases do at present," said Dr. E. H. Young, assistant superintendent of the Rockwood Hospital for the Insane, Kingston. The subject of Dr. Young's remarks was "The Hospitalization of Mental Diseases," and he urged "the non-restraining methods" in the treatment of the insane.

## Throw Away Shackles.

Dr. Henry Hurd, Johns Hopkins Hos-

pital, Baltimore, also advocated the non-restraining methods. "Throw away the shackles," was in short the way he described the methods he approved of, which, however, included supervision and a well-guided and direct restraint which conveyed to the patients the idea of not being under restraint at all.

Dr. Forester of the Toronto Hospital for the Insane reiterated some of the statements of other speakers favoring the disuse of the word "asylum." The name, such an institution would likely have in future, he said, would be either "hospital," "sanatorium," or "village."

An interesting talk on hospital house-keeping and the best methods of cooking, sterilizing instruments, etc., was given by Miss Amy Armour, R.N., superintendent of the Western Sanatorium for Consumptives. He regretted that only three hospitals in Ontario had such supervision and a well-guided and direct restraint which conveyed to the patients the idea of not being under restraint at all.

A special exhibit of hospital devices and apparatus was described and explained by Dr. W. J. Lusk, physician-in-chief of the Western Sanatorium for Consumptives. He regretted that only three hospitals in Ontario had such supervision and a well-guided and direct restraint which conveyed to the patients the idea of not being under restraint at all.

These were the Western Sanatorium, the Kingston General Hospital and the Hospital for Sick Children, Toronto.

## Influence of Light Upon Color of Flowers

That flowers need light to develop their color was proven beyond a doubt recently, when an experiment was made with the Japanese quince, on March 5 some twigs of this plant were cut and placed with the ends in a quart fruit jar nearly filled with water. This was set in a perfectly dark closet that was kept at a living temperature, varying from about 70 degrees during the day to about 40 during the night.

On March 20, says Youth's Companion, the twigs were found to be in bloom. They bore clusters of flowers so strange that it was not easy to recognize them as being from the Japanese quince, which normally has large flowers of flaming scarlet, with five broad petals an inch or so in length.

The blossoms on the branches kept in total darkness were only an inch across, white, and of a waxy appearance—much like artificial flowers. The parts were all present, as might have been expected, since they were there in miniature before the branches were brought to the house. They unfolded as best they could.

It is probable that the abnormal flowers would have been larger had the

"What is it?"

"Sap of Mexican 'Sapodilla' trees boiled until pure."

"Then it's mixed with juice of fresh mint leaves, the leaves we used to chew in garden or country."

"The flavor lasts because that's characteristic of mint. Teeth are brightened by the friction and mint leaf juice."

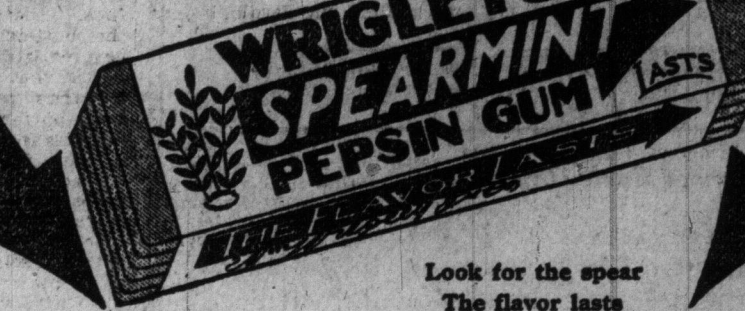

"The appetite you develop—your helped digestion and purified breath—are from these mint leaves."

"Chew all you want. It's refreshing and good for you."

Buy it by the Box

of any dealer. It costs less.

Made in Canada

2A

whole plant been placed in a warm, dark place.

As the flowers of the Japanese quince come out before the leaves, this ornamental hedge plant is a good one for the experiment. Its waxy blossoms, borne upon the bare, dark, thorny branches, afford a striking illustration of the influence of light upon the color of flowers.

## Important Notice

To Telephone Subscribers

ON Saturday night, 6th April, many lines will be transferred from other Offices to "Hillcrest" and "Junction" with consequent change of telephone numbers. A new Directory will be distributed immediately and it is—

## Important

that numbers otherwise advertised be disregarded and reference made to the NEW DIRECTORY ONLY for all calls on and after 7th April. All private lists should be destroyed and old Directories given in exchange for the new issue.

KENNETH J. DUNSTAN,  
Manager.

## OTILO AT 12 TO 1 WINS LAST AT CHARLESTON

Jockeys Turner and Wilson Win  
Two Each—Caught Hill Again  
in Front.

CHARLESTON, April 5.—They won at all sorts of odds in the holiday winding-up, with Otilo, the 12-to-1 shot, landing the mile purse. Following is the summary:

**FIRST RACE**—4½ furlongs: 1. Jessie Porter, 15 (Hopkins), 15 to 5. 2. Billy Holder, 12 (Wilson), 1 to 1. 3. Yorkville, 12 (Butwell), 8 to 5. Time 1:24.5. Amor, Filkins, Cedar Brook also ran.

**SECOND RACE**—Seven furlongs: 1. Sheeh, 16 (Turner), 14 to 5. 2. Pardon, 16 (Foran), 15 to 5. 3. Bay of Pleasant, 16 (Koerner), 12 to 1. Time 1:28.5. Duper, Mad River and Surflet also ran.

**THIRD RACE**—Six furlongs: 1. Caught Hill, 16 (Turner), 1 to 2. 2. Martin W. Littleton, 12 (Pay), 8 to 1. 3. Donah, 14 (Butwell), 10 to 1. Time 1:21.5. Dalmain, Ival, Fox, Mary, Cereonius and Joe Stein also ran.

**FOURTH RACE**—One mile: 1. Forehead, 16 (Koerner), 2 to 5. 2. Eftendi, 10 (Turner), 4 to 1. 3. Sir Clages, 16 (Hopkins), 11 to 5. Time 1:41.5. Bertie, Wander and Belle Mawr also ran.

**FIFTH RACE**—4½ furlongs: 1. Gold Cap, 16 (Wilson), 8 to 1. 2. Premier, 18 (Koerner), 5 to 2.

**SIXTH RACE**—One mile: 1. Black Friar, 16 (Koerner), 1 to 2. 2. Pierre Dumas, 16 (Turner), 8 to 1. 3. Fredend, 11 (Moore), 9 to 2. Time 1:42.5. Loathly Lady, Jay P. King Dixon, Grace Patterson, Choptank, Single File also ran.

**SEVENTH RACE**—Selling, purse \$350, for three-year-olds and up, one mile and a furlong: 1. ## TO RESCUE OF STEEL TRUST

Republican Congressmen De-  
clare Proposed Tariff Cut  
Would Be Ruinous to  
Basic Industry.

WASHINGTON, April 5.—(Can. Press.)—An adverse report on the house steel revision bill, signed by all the Republican members of the finance committee except Senator LaFollette, was submitted to the senate to-day. The bill is denounced as ill-advised and unfortunate.

It is declared the enactment of the bill would reduce protection below the margin of safety and tend to destroy one of the most important industries of this country. The committee contends that hearings of 246 different industrial concerns of eighteen states showed a widespread opposition to the revision of the present rates, and that representatives of 225 manufacturers of machine tools testified that putting machine tools on the free list would compel the closing of their factories.

Want Tariff Board Report.

Among numerous other reasons given by the committee for its opposition to the Democratic bill is cited the absence of a report from the tariff board on metals.

The report says that the house ways and means committee's estimate that there would be \$25,000,000 of increased importations annually, if correct, would mean that foreign iron and steel products were to displace American manufactures in the domestic market. It added that even with the increased importations relied upon by the ways and means committee there would be a deficit in revenues of more than \$1,400,000.

The minority of the finance committee has not yet reported.

ROOSEVELT'S ILLINOIS CAM-  
PAIGN.

PITTSBURGH, April 5.—(Can. Press.)—On his way to Chicago, to throw himself into the fight for the Illinois nomination to the Republican National Convention, Col. Roosevelt passed through Pittsburgh to-night on his train one hour and a half late. He is scheduled to arrive in Chicago to-morrow morning at 8:15.

The Colonel spent most of the day in preparing the speech which he is to deliver at Springfield, Ill., to-morrow night. This is to be the principal speech of his campaign in Illinois, the result of which, it is expected will have a material bearing upon the outcome of the campaign.

Picturesque Lehigh Valley Route to New York and Philadelphia.

The Grand Trunk is the only through line in connection. Trains leave Toronto at 4:30 p.m. daily, carrying electric-lighted Pullman sleepers, Toronto to New York and Buffalo to Philadelphia, train leaving Toronto 6:10 p.m. daily, carries electric-lighted Pullman sleepers, Buffalo to New York and Philadelphia. Only double track route. Secure tickets, berth reservations at Grand Trunk City Ticket Office, northwest corner King and Yonge-streets. Phone Main 4209.

CENTRE AND SOUTH TORIES

The annual general meeting of the Centre and South Toronto Conservative Club and the ladies' branch of the club, will be held on Thursday evening, April 11, at 8:15 o'clock, at the club house, when the reports of both organizations will be received and the election of officers for both take place.

Syracuse Piano Factory Burned

SYRACUSE, N.Y., April 5.—The plant of the J. E. Davis Piano Co. at Cortland was destroyed this morning with a loss of \$250,000. The plant consisted of two brick buildings, which were erected eight years ago. Considerable lumber was stored in one of the buildings, but the origin of the blaze is unknown. The firemen could do little with the fire, and both buildings were rapidly consumed. About 150 men are thrown out of work.

RELIGIOUS SERVICES

Church of the Holy Trinity

Trinity Square.

### Comparative Statement of Building Permits Last 12 Years

An analysis of these figures, which were compiled by The Monetary Times, show how Toronto has gone ahead in the building race since 1900. Toronto overtook Montreal in 1911, and has held the lead over the biggest city ever since.

In two years Montreal's permit figures were doubled in Toronto. For three years Winnipeg held the all-Canada championship, this being wrested away by our own city in 1906, and since then we have been easily supreme.

Vancouver's record is the most remarkable on the list. Ten years ago their total for the year was less than a million dollars. From 1902 to 1911 inclusive the permits issued have amounted to over sixty million dollars. In

the same time Toronto has exceeded the one hundred and thirty million mark. Montreal has rolled up permits to the tune of eighty millions, and Winnipeg ninety-five millions. To carry this further we find Vic-

torias, in the last ten years, has built fifteen million dollars' worth of buildings. Ottawa twenty-one millions, and Hamilton nineteen millions. Records being unavailable for other cities, ten-year comparisons will have to stop with these.

#### WAS POLICY VOIDED?

Interesting Issue Raised by Delay in Paying Insurance Premium.

MONTREAL, April 5.—(Can. Press.)—A point of interest to every holder of a life insurance policy in a fraternal organization is raised in a suit entered by J. H. Hodges et al. against the Commercial Travelers' Mutual Benefit Society, the action being for the recovery of the amount of a policy taken out in the defendant society by the late John Henry Hodges.

The society claims that at the time of the death of the latter a fixed premium was three days overdue and consequently the deceased lost all rights in the society. The plaintiff claims on the other hand that the assured, his father, had paid the premium for several years prior to his death and that the society had accepted without protest and unconditionally amounts overdue by him.

#### Eight Killed by Avalanche

CHAMBERLAIN, N.Y., April 5.—(Can. Press.)—A party of eight professors and students from Lathrop University, while making a tour in the

mountains near here were overwhelmed by an avalanche on the Hochstuhl and all were killed.

#### DARING BURGLARY AT DUNDAS

DUNDAS, April 5.—(Special.)—A daring attempt to burglarize Grafton and made about 1.40 this morning by three men, who were interrupted by Night Officer J. F. Lumsden. The officer hearing a noise, went to the rear of the big building to investigate. One of the men gave the alarm, Lumsden chased one man for five blocks and fired three shots, wounding the man slightly, but he made his escape towards the city. Iron bars to assist in the work were stolen by the gang from R. J. Johnson's shop.

#### Japan's New War Minister

TOKIO, Japan, April 5.—Lieut.-Gen. Baron Tachibana, commander of the fourteenth division at Utsunomiya, was today appointed war minister in succession to Gen. Shiraoka Ishimoto, who died on April 2.

#### WINTER NAVIGATION IN ST. LAWRENCE.

QUEBEC, April 5.—(Can. Press.)—At a meeting of the council of the Quebec Board of Trade it was decided to memorialize the government afresh in regard to winter navigation of the lower St. Lawrence. The memorial will set forth the new records made by the government steamship Montcalm and the steamer Mahone during the season just passed. The memorial will set forth the possibilities of winter navigation, especially when carried on by larger and more powerful boats. Another memorial is to be submitted to the government in regard to the deepening of the St. Lawrence below Quebec.

#### Sugar Millionaire Dead.

NEW YORK, April 5.—William Dick, who started as a small grocer here many years ago, and later became a factor in the American Sugar Refining Co., died today at his nineteenth year. His grandfather, David Dick, is the wife of Henry O. Liveney, Jr. He leaves a fortune running into many millions.

#### Imported Potatoes Cheaper.

MONTREAL, April 5.—Potatoes from England, Ireland and Scotland are now being served on Montreal tables. Three thousand bags have recently been received, and are being sold at \$2 a bag. The potatoes, imported from across the Atlantic, cost from \$1.35 to \$1.40 a bag, against \$1.75 for the Canadian article. A few baskets of new potatoes have been received from Florida, but they are a luxury, and cost about \$3 a bushel.

#### LIQUOR & TOBACCO HABITS

A. McTAGGART, M.D., C.M., 75 Yonge St., Toronto, Canada. References as to Dr. McTaggart's professional standing and personal integrity furnished by: Sir Geo. W. Ross, M.P., Chief Justice; Sir W. E. Meredith, B.A., D.D., Secretary of the Board of Mental Hygiene; Rev. J. G. Shearer, B.A., D.D., Secretary of the Board of Mental Hygiene; Rev. J. G. Shearer, B.A., D.D., Secretary of the Board of Mental Hygiene; Rev. J. G. Shearer, B.A., D.D., Secretary of the Board of Mental Hygiene.

#### I. W. W. CAUSES MORE RE.

SEATTLE, Wn., April 5.—(Can. Press.)—Interest in the activity of the Industrial Workers of the World shifted today from British Columbia, where six thousand railroad laborers are on strike, to Southwestern Washington, where 1000 sawmill workers are out. The mayor, Harry Ferguson, is siding with the Industrial Workers, in their demand that they be permitted to remain in town unmolested while conducting the strike. The other two commissioners are backing the mill owners, and the citizens' committee in their efforts to drive the men from the district.

#### W. R. SHIER TO SPEAK.

Mr. W. R. Shier is to lecture under the auspices of the Canadian Socialist Federation in the Labor Temple, 167 Church-st., on Sunday afternoon, at 2 o'clock. Mr. Shier, who is a frequent contributor on radical subjects to magazines and newspapers, in the United States, will speak on "The Right to Enjoy Life."

## WELLAND IS TO-DAY

Laying the foundation that will make it the  
LARGEST MANUFACTURING CITY IN CANADA  
THE WELLAND TELEGRAPH

Has the following item, which is additional proof:

### INCREASE OF HALF MILLION ON ASSESSMENT THIS YEAR AID. CROW BELIEVES THAT REVENUE WILL BE INCREASED BY \$12,500 BOOST FOR MAIN STREET PROPERTY

Will Welland's assessment be increased by half a million this year? In the opinion of Ald. J. H. Crow, who has secured his information from a reliable source, it will. Mr. Crow told several members of the Council in the clerk's office a few minutes before the Council meeting on Thursday night, that he believed there would be at least the increase above mentioned.

"On what do you base your statement?" asked a Telegraph reporter later. "On the information which I have," he stated. "Land in all parts of the town is being raised in valuation by the assessors. Then, too, there are many new houses and new buildings. I am told that on East Main Street, in the business section, the valuation is being raised from \$70 to \$100 a foot."

Mr. Crow said that this would mean an increase in revenue of \$12,500 this year. WELLAND CENTRE IS THE MOST ATTRACTIVE SUBDIVISION ON THE MARKET. BUY NOW AND MAKE BIG PROFITS. FROM \$3 PER FOOT UP. EASY TERMS. SEND FOR FREE MAP AND VIEWS OF WELLAND.

## Many Spent Holiday In Buying Lots

Sellers of Subdivisions That Could  
Be Reached Report Great  
Days' Sales.

Just as there is always a spring opening for millinery and haberdashery and so forth there is always a spring opening for vacant land. Good Friday holiday is generally a busy time for real estate men. It is generally just about this time when the small investor, or speculator in lots, turns to thoughts of owning a nice little lot or two somewhere where it will soon be built up. With the first sunny warm days people begin to study the ads and compare the various offerings one with another.

With the first holiday there is always quite a crowd of enthusiasts who want to be shown. The real estate men are willing to oblige them. Yesterday at the end of every street, car line almost, and strung at close intervals along East Queen-street, were autos waiting to take the new-comers to the park or heights or boulevards where there was a golden opportunity for investment and profit.

The owners or selling agents of properties not in or adjoining the city limits were not very busy yesterday. Many of the houses that are being sold so far this year, some of them had sold so much that they talked seriously of boosting their prices.

The Status of Radium in Therapeutics.

Among the diseases that have yielded to radium, Sir J. M. Davidson mentions a troublesome affection of the eyelids known as "spring catarrh." This occurs in young people, the upper eyelids especially being covered with rough granulations, and until recently it was incurable, but since radium was applied every case treated has been completely and painlessly cured.

Rodent ulcer, X-ray burns, small cancers of the tongue and lip and certain large tumours also give good results under radium treatment. Lupus is more resistant, and radium, like X-rays, has failed as a cure for large cancers, although it may have some effect in checking their growth.

Of cheaper substitutes for radium that have been tried, uranium, thorium and actinium have been found too feeble to have any real efficacy. The meso-thorium discovered by Otto Hahn, a disintegration product of thorium, has aroused considerable expectation and is being experimented with medically in Germany. Weight for weight, it is even more powerful than radium, its rays being the same. The supply should be much larger than that of radium, but its lower cost is partially offset by its short life—only seven years.

Of cheaper substitutes for radium that have been tried, uranium, thorium and actinium have been found too feeble to have any real efficacy. The meso-thorium discovered by Otto Hahn, a disintegration product of thorium, has aroused considerable expectation and is being experimented with medically in Germany. Weight for weight, it is even more powerful than radium, its rays being the same. The supply should be much larger than that of radium, but its lower cost is partially offset by its short life—only seven years.

## Colds Most Fatal At This Season

This is the time of the year when colds seem to turn into pneumonia or quick consumption and to prove more generally fatal than at any other season.

With many people one cold follows another during the winter months until finally the human body becomes so run down that it can no longer resist the attack of the germs which cause lung trouble.

The best rule is to never allow a cold to get farther than the throat, and this you can do by the prompt use of Dr. Chase's Syrup of Linseed and Turpentine. Do not wait for chest colds and bronchitis to develop. Keep this well-known medicine at hand for use in case of emergency.

Dr. Chase's Syrup of Linseed and Turpentine loosens a cough, aids expectoration, and soothes and heals the irritated and inflamed membranes.

## Watch Welland Grow

Do you want a better job this coming summer? Would you like to get a good position, where wages are high and living is cheap? If so, drop us a card to-day for our FREE illustrated circular about the fastest growing town in Eastern Canada, where 2000 men will be needed this summer in the new factories being built. We are not an employment bureau, but we may be able to help you get a better job.

Write us to-day, giving name, address and occupation.

## A Swiss Scientist's Theory About Mirages

The kind of mirage known as fata morgana is seen across straits or lakes in southern Europe, and shows in calm weather such images in the air as those of towns, castles and palaces. On the Lake of Geneva it is sometimes seen on fine afternoons of spring and summer.

F. A. Forel, the well-known Swiss investigator, has been giving serious attention to the curious apparitions, and concludes that they are due to a peculiar distribution of temperature in the air over the water.

In the morning, the air being cooler than the lake, the opposite bank seems to be depressed, exaggerating the earth's roundness, and late in the afternoon the air, having become hotter than the water's surface, the opposite bank apparently rises above the true horizon, and the earth's circumference is enlarged.

For a few moments only, at the change from one condition to the other, the fata morgana may be seen.

## Lawrence Park

The man who can see ahead, and who has been looking at values around Toronto, will tell you that in a short time present prices for lots in Lawrence Park, North Toronto, will look ridiculously small. Choose a lot now before the advance. The best site for a home.

## BY ETTRENE COOLIDGE

**Crop Bulletin Shows That Peaches Were Injured by Low Temperature - Farm Animals are on Lean Side, But Healthy - Fall Wheat and Clover Look Good.**

The following information regarding agricultural conditions in the province is contained in a bulletin prepared by the Ontario Department of Agriculture, based upon information furnished by a large staff of experienced correspondents, under date of April 1:

**Fall Wheat and Clover.**  
These crops were protected against the intense cold of winter by a heavy covering of snow, which still lies on the land at the end of March. This has made it difficult for correspondents to report definitely regarding their present state, but the opinion most frequently expressed was that both fall wheat and clover would come under the snow in practically the same condition in which they entered. It was pointed out, however, that the clover was in better condition than the wheat, and that the wheat was in better condition than the clover. The wheat was in better condition than the clover, and the clover was in better condition than the wheat.

**Fruit Trees.**  
Until the buds begin to swell it will be too early to speak definitely regarding the effect of the severe winter upon very low temperature trees, which are in the hands of the growers. The fruit trees are in better condition than the fruit trees, and the fruit trees are in better condition than the fruit trees.

**Live Stock.**  
The unusual length and severity of the winter, the shortage of bedding supplies, and the great lack of bedding supplies, have been most trying to live stock. Notwithstanding these drawbacks, the general condition of the various classes of farm animals has been fairly summarized as being rather on the lean side, but healthy.

**Stones for Grinding Food Found in Stomachs of Animals.**  
"Stomach stones" found with pleurosis and other fossil animals have been sometimes explained as swallowed grinding food. Such stones are not unknown in vertebrates of to-day, however, and Dr. R. L. Moodle, of the University of Kansas, calls attention to a large fossil stone found in the stomach of a Kansas twenty large abraded limestone pebbles, together with about 200 large red ants.

**Ontario Liquor License Act.**  
Notice is hereby given that the Board of License Commissioners for the Province of Ontario, in the County of York, will meet on the 10th day of April, 1912, at the hour of 2 p.m., for the purpose of considering applications for licenses for the year 1912-13.

**Applications to Parliament.**  
Notice is hereby given that Ida Alberta Durnan, of the County of York, in the Province of Ontario, will apply to the Parliament of Canada, at the next session thereof, for a Bill to amend the Liquor License Act, 1907, in relation to the sale of liquor to the public.

**Methods.**  
The Bulletin will give in detail directions from practical farmers as to how to meet the difficult situation of a long and steady winter. The Bulletin will give in detail directions from practical farmers as to how to meet the difficult situation of a long and steady winter.

**Prison Newspapers and Their Mission.**  
In a number of the prisons in the States, these being entirely edited, set up and printed by the inmates. This work is not only educational, but it is also a means of earning money for the inmates.
