Leases in Future Will Stipulate That No Building May Contain More Than Ten Rooms -Special Meeting of Council to Prepare Bylaws to Be Voted On.

The joint report of Assessment Commissioner Forman and Parks Commissioner Chambers, received a deal of attention from the board of control yesterday. The former had been requested to report new restrictions and conditions to be inserted in future island leases. In response to the request, they state that leaseholders have not compled with the requirements as stated in the agreement. Some have erected large buildings, which have proved detrimental to the surrounding property. Under these circumstances, it would be necessary to restrict the buildings, so that they will not be less than \$3000 in value, and to contain no more than it robus. tain no more than 10 rooms.

MONTREAL, Nov. 8.—(Can. Press.)

The death occurred suddenly today of Robert Ward Sheppard, for the last thirty-five years manager of the Ottawa, standing in the ranks of the army. It is not fitting that our Ulemas should neglect the accomplishment of a similar duty.

"In order that the victory and glory promised by the Almighty may be granted without delay to the Ottoman army, it is necessary that the venerable Ulemas organize a Jihad. Save 75 Miles.

Timiskamin gand Northern Ontario's cially received by the commission and therefore he could not say that the commission had under consideration the matter of railway service on the T.C.R. out of Cochrane. The World report quoted Mr. McGee as saying that the T. & N. O. Commission had no intention of operating any part of the Transcontinental either east or west of Cochrane. Putting it in this the rumor that the Grand Trunk has a charter from the State of Maine authorizing it ito build a cut-off at a point in Quebec directly west of Edmunston, which would save 75 miles in the distance between these two towns. But this is only one of many curious facts which makes it hard to decide whether the Grand Trunk really intends to throw up its contract with the government. Of course, it can stand off the government for a long time because it cannot be compelled to come up to the captain's office and settle and sign papers until the Quebec bridge is finished two, three or four years hence.

Meanwhile the government and others are curious to know why it is the future policy of the province in regard to operating the National Transcontinental, which was not justified by any statement made by Mr. McGee.

Chairman J. L. Englehart, when his attention was drawn to our despatches from Ottawa and Cochrane, preferred not to discuss the plans of the T. & N. O. Commission respecting the National Transcontinental. Referring to the article in The Northland, however, he expressed the opinion that the settlers along the line of the T.C.R. were four years hence.

GREAT POWERS SHARPLY DIVIDED

send those selected to the army."

War Spirit Revived.

There have been rumors for a day or two that the ministry was unstable, or two that the ministry was unstable, owing to its frequent request for mediation by the European powers, but the newspapers say this situation has given way before the demand of the army and of public opinion that the war be continued. The common danger seems to have united all parties. This is shown by the perfervid outburst of the newspapers of all political shades urging a fight to a finish. Criticized the Railway for Not Transferring Them When Train Was Delayed at

Fifty passengers on the C. P. R. train, No. 17, bound for Toronto, which was held all night at Myrtle by a wreck on Thursday at 6.45 p.m., have nothing but criticism to offer the C. P. R. for the treatment they received. Those passengers, who rode in a day coach missed a meal and spent a sleepless night because of a damaged bridge. After waiting from damaged bridge. After waiting from 6.45 to 11 p.m., they passed the following resolution: "That the C. P. R. Company should be censured for not transferring passengers around the wreck, as the Grand Trunk has done, which occurred at 4.45 p.m., near Myrtle on Thursday afternoon, and that all railroads in Canada should be compelled to furnish meals, free of charge, to all passengers on trains delayed two hours past the hours of 8 a.m., 12 noon and 6 p.m."

The cause of the tie-up of the eastern division was a crane, which had been raised too high, striking an overhead bridge two miles west of Myrtie. The steam shoyel and car attached left the rails. Wrecking orews were hurried from West Toronto to the bridge. Train No. 17 from Montreal was stalled on the west side of the bridge, while the Tweed local from Toronto was held on the east ide, that they should have been transferred to the local train and sent to Toronto, instead of being forced to sleep in an uncomfortable day coach all night. They also declare they went hungry, a sandwich and a cup of tea being all they received for an evening meal. Employers of large numbers of human machines are realizing the surprising fact that, as a cold business proposition, it pays, not in sentiment but in dollars, to take good care of their employes. Business men are learning that well-fed, well-clothed men and women, working in well-lighted, well-ventilated quarters and on schedules arranged in accordance with our modern knowledge of psychology and physiology, actually turn out more work and better work than underpaid, discontented help, working under uncomfortable and insanitary conditions. For these reasons large corporations are spending money liberally in play grounds, rest-rooms, librarles, gymnasiums, sanitary lunch-rooms, moving-picture shows, safety devices, ventilating systems and similar devices for the well-being and enjoyment of their employes. If one asks these men why they are doing these things, they will disclaim any charitable or philanthropic motives. "This isn't charity," says one firm "we want that clearly understood. This is simply good business management and common sense. Scientific Rat-Killing in Boston Harbor.

In the rat-killing campaign that is now being carried on in Boston harbor, an apparatus invented by an Australian chemist is used, the steamship Bratton being equipped with the device, and which exterminates the rodents by wholesale.

The Bratton, states Popular Mechanics, ties up along side the sugar and banana boats from South America and the West Indies, and pours into them the gases which kill ali the rats in their holes.

The method invented by the Australian, and originally invented for fighting fires in the holds of vessels, consists of drawing out the gases which ascend thru the funnels of a steamship from the fires, modify them slightly and then pour them into the hold of the vessel under treatment.

These gases contain no exygen and gradually drive all the air out of the vessel's hold. The rats die for lack of only 600,000 can read and write.

The Sunday World

Trafalgar Day in London, the Balkan war, and foreign demon-trations, the signing of the Turco-Italian Peace Treaty, as well as many incidents and happenings of absorbing interest, are pictured in this week's Pictorial Section of The Sunday World.

There are pictures of Field Marshal Von Der Gotz, who reorganized the already defeated Turkish army; Sir Robert Arbuthnot, addressing the Boys' Naval Brigade in Trafalgar Square, London, Eng., German socialistic demonstration against the Balkan war; Lord and Lady Strathcona laying the foundation stone of the Queen Alexandra ome for Incurables, London, Eng.

Other series include: The funeral of the Streetsville wreck victims; Grenadier Semi-Centennial parade; the Rugby games; the funeral of Vice-President James Sherman of the United States, and various groups and photographs of local people.

"Woman's duty to coquet, but never to flirt," says Madame Sarah Bernhardt, the world's foremost actress, in this week's article. She is contributing a series to The Sunday World under her own name. A Delayed Proposal," by Jennie A. Stuart, is the title of the first of a series of weekly short stories, which are commenced this week. The last remaining chapters of Arnold Bennett's all-absorbing story, "Burled Alive," are now being published.

A page of the best humor of the week still continues to interest the young readers, and a unique selection of up-to-date illustrated lokes and anecdotes are to be found in the Magazine Section.

Kit, in her own incomparable way, has devoted her column this week to comments on the Balkan war and its relationship to her sex.

Nature Story, by Archie P. McKishnie; Torchy—"Shunting Brother Bill," by Sewell Ford, an illustrated article devoted to live stock, help to crowd the pages of this all-important weekly paper.

Heat Winners.

It is expected that the postponed matinee of the Dufferin Driving Club, which is to be held today, will be one of the most exciting of the season. There are three good classes.

In Class A Nettie Ethon (2.104) has one heat to her credit. Nettle Watson (2.134) halso has a heat, and it will be a great guessing race. Harry Hill (2.114) must also be reckoned with, as also Sidney Mack (2.154).

In Class B, Iron Duke, a green pacer, has one heat to his credit, but it was a close fit between him and Bernalso, the good little frotter owned by A. C. Hutson. Laura Pointer is another green mare in this race and driven by the reliable John Mead, who will give them all some trouble. Ralph McKerrow, driven by Nat Ray, will also be knocking before the race is finished.

In Class C, Yankee Bingen was expected to win, as he has shown considerable speed, having stepped the last quarter of a work-out mile in 35 seconds, but R. Scott spilled the beans. He was riding easy in second place with his new purchase, Victoria Polm. A nice going pacer, the Yankee, made a mistake and Victoria Polm won eased up. Axle Audubon. Brack Bill and Krell are three trotters in with a bunch of pacers, and they will have their work cut out for them. Little Jim is a new matinee prospect, owned by Charles Gildner. If the weather is good there should be a splendid attendance and as the track is in first-class shape, there will be a grand afternoon's sport. All those holding rain checks will be admitted. Everybody come and have a good time.

STONE IN THE WORLD

Referring to the statement made by Dr. Griffith Thomas, before the Men's Ciub of the Church of the Epiphany, on Thursday night, in which e stated tat it was te custom in foreign Catholic countries to sell for fifteen cents, certificates known as purgatory bulls Dr. Roach, of The Catholic Register, says:

Sitting beside him at the head table were Edward Smedley, a sergeant of 1863, now stone blind, and John C. Leaman, who did service from 1863 to 1870. These three were but few of the number who wore Fenian Raid medals

applause, to some extent interrupting the action.

The chorus were capital and acquitted themselves well in the classical passages, "The Harvest Now Is Over," "Hear Us, Baal," "The Fire Descends," "Thanks Be To God" and "He Watching Over Israel," There was vigor and intelligence in the dramatic scenes, "Behold, God the Lord Passed By," and "Then Did Elijah." Those who have never heard "The Elijah" have an extraordinary opportunity to appreciate the dramatic qualities of Mendelssohn's work, as well as to enjoy the exquisite music. Those already familiar with the time-honored oratorio will find a new interest in noting the ease with which the score lends itself to stage treatment. The orchestra adds its part in first-class style to the general success, and a few adaptations are in excellent taste. The second act, the Temple of Baal, is precided by an arrangement from one of the Lieder ohne Worte in E major, and the third act by a prelude embodying Hebrew melodies 2000 years old. The hall should be filled at the performances to day. The same cast will sing in the evening as last night. At the matinees Bernard Fergus will take the part of Elijah; Mme, Hortense D'Arplay, the widow: Pilade Sinagra, Obadiah, and Thomas Cole, King Ahab.

Drew said: "I told you not to do that."
At this juncture the coroner told Mr. Drew that he was there as a matter of privilege and must withdraw or allow the witness to speak. He chose to withdraw, after again advising Veroni not to speak.

A conference was held with Veroni, but to no purpose, and by this time he was in such a state physically that the coroner ordered him taken back to the hospital, but as soon as he was able to leave to piace him under arrest for contampt of court. A number of other witnesses were sworn, giving the same evidence as before the police magistrate on Wednesday.

The inquest was adjourned for another week to allow Veroni to get better.

Veroni, an important witness, refuse to give his evidence. The occasion was the resumption of the inquest into the death of Michele Fazzara by shooting on Sunday morning, Oct. 27, for which Guisseppe Potatelli, alias Rocco, has already been committed to jail on the charge of murder.

Joe Veroni was one of the Italians shot in the melee and has been in the hospital ever since. He was thought to be in condition to some down to give his evidence tonight and did come down, but he was advised by Mr. Drew ,acting as his counsel, not to say a word.

Town of Waterloo v. City of Berlin—A. B. McBr.de (Waterloo) for plaintiffs. A. Millar, K.C., for defendants. An action by the Town of Waterloo against the City of Berlin to enforce proper accounting under clause 20 of an agreement between the parties dated January 18, 1910. Judgment—The agreement as a whole makes provisions for the operation of the street railway between the municipalities, the railway itself being owned and operated by defendants. Clause 20 provides that Berlin hall pay to Waterloo one-quarter of the annual net profits earn quarter of the annual net profits earned by the railway on January 1 of each year. The complaint is that Berlin has wrongly assumed to make deductions from the total profits "under the guise of taxes" and has a reduced the of taxes" and has so reduced the amount properly payable to the p'aintiff; and also with like effect the detiff: and also with like effect the defendant has charged to ma'ntenance account several sums which should have been properly charged to the capital account, and otherwise has failed fully to account for other profits. A general account is asked, with special dec'arretions of liab'lity. The defendant pleads as a matter of law that the court has no jurisd'ction. The objection is well taken and the action should stand dismissed with judice to any further application being made to the railway board.

Ptes. Harold Williams and Hugh MacKechnie, who rode in the cab of the engine of the ill-fated first troop

train special, repeated their stories, as told exclusively in The World a week ago. They said that while running

between Milton, where they boarded the train, and Streetsville Junction, the fireman had told them they were

running at 40 miles per hour. They thought they were running about 10

miles per hour when the collision came. Mackechnie said that they had just climbed into the engine at Mil-

Removal of Restrictions Under Canon Law Advocated by Thirty Prominent Clergymen.

MONTREAL, Nov. 8.—(Can. Press.)—A removal of restrictions which have always existed under canon law in the Anglican Church is proposed by thirty Canadian ciergy who have issued a circular addressed to their colleagues on the subject of Christian unity. This circular is signed by the Revs. Dr. Simonds. A. P. Shatford, O. W. Howard, J. A. Elliott and Osborne Troop of this city. Rev. R. W. Norwood and the archdeacon of Peterboro, Principal C. C. Waller of Huron Theological College, Prof. Wrong of Toronto University, and rectors in Vancouver, Halifax, Saskatoon, Winnipeg, Toronto, Hamilton and other cities. It is not signed by any bishop or dean.

The circular is headed, "Appeal on Behalf of Christian Unity." The practical stress advocated for the moment are: The administration of ministers of other churches, under certain restrictions and by rightful authority to the pulpits of Anglican churches; extension of permission to members of other churches in good standing, on certain occasions to communicate. Turks Have No Confidence Apparently in Ability to Withstand Attack on Tchatalja Lines--Disagreement Among Great Powers Grows More.

LONDON, Nov. 8.—(Can. Press.)—Judging from ton.gat's despatches, Constantinopie virtually has abandoned hope of the ability of the Turks to offer serious defence at the Tchatalja line and is viewing the necessity of calling the city's manhood to the defence of the city is manhood to the defence of the cay itself. If this be the case the end of the war cannot be far distant.

The Greeks today achieved the crowning feat of their campaign by occupying Saloniki. It is not known yet whether the Turkish garrison of 15,000 evacuated the city prior to the coming of the Greeks or whether they surrendered. It is known, however, that they evacuated. The Greeks still have to capture Janina. Adrianople and Scutari still hold out, but it is reported that the two ordicipal forts outside of Adrianople have been captured. A despatch to the Vienna Reichspost says pourpariers for the surrender of Adrianople have begun.

Conflict of Powers.

With the approach of the end of the war the diplomatic difficulties are becoming more formidable. They are taking the form of a conflect by ween the strain on European diplomacy. The situation is so grave that a special meeting of the British cabinet was summoned toda; to hear the views of Sir. Edward Gray, the foreign minister as a result of his recent conferences with all the interested European represents v s in London and also to prepare for a statement on the subject which Premi'r Asquith is to make at the mayor's banquet at the Guid Hall tomorrow night.

set the recent annual elections, about fifty embryo lawyers, comprising the Osgoode Hall Literary and Legal Society, last night decided that the new executive had been legally elected, and to ettle the question for all time, unanimously passed a motion expressing confidence in the officers.

President G. E. McCann was in the crair. The motion to invalidate the election was based on a number of protests against irregularities, chief amongst which was the claim that Arthur Ellis cast a vote without first paying his membership fee. C. D. Scott, the defeated presidential candidate, was particularly energetic in promoting this protest, but submitted to the opinion of the society. He said he was satisfied that something had been accomplished, if only the improper state of the constitution had been expresed.

You Couldn't Find a More Perfect Smoke Anywhere Than a Marlborough Cigar

The ever-increasing popularity of MARLBOROUGH is not the result of a fancy band or florid claims. It's the pure Havana tobacco, real Havana, grown in Cuba, and seasoned naturally to a rich mellow mildness that satisfies all smokers. You take our word, MARLBOROUGH Cigar has all the popular ten-cent brands seventeen up and one to play, so far as sweet, rich, full flavor and taste are concerned, and for smooth, even burning qualities you'll say all others are back of the flag. When you become restless around the house, with nothing to do except your wife, you had better gallop forth to one of Wilson's stores and get a MARLBOROUGH Cigar, and carry sunshine back into your home. You will agree with us MARLBOROUGH is the best cigar that has ever been sold at a nickel each since the days of underhand pitching. You try one to-day. Know for yourself that what we say is true.

The basis of all clothing is, of course, the underwear. The only material that will protect you against the sudden changes from heat to cold or from cold to heat, without harm, is pure, clean wool. All medical men advise woollen material to be worn next the skin. It absorbs the perspiration rapidly and evenly and does not get clammy and damp as does any material which is made from vegetable products.

"CEETEE" PURE UNDERWEAR

is manufactured from only the finest of the finest Australian Merino Wool. This wool is combed and scoured and combed until every particle of foreign matter is taken out and every strand of wool is as clean as it is possible to be made. It is put through process after process on expensive and exclusive machinery, and when finished each garment is in such a state of perfection that it has carned the BY THE reputation of being unequalled the world over.

Rach garment is full fashioned and made to fit the human form. Every join is carefully KNITTED together, not sewn, as with ordinary underwear. BY THE BEST

Influence of Daylight on Accident

"Statistics show that the greatest number of accidents occur during the months of diminishing light." The accompanying chart shows the number of fatal accidents reported for one year. The darkest months show the greatest increase, which is only another reason why the illumination question of factories, warehouses, stores and public buildings should be enquired into and the remedy ap-

August Nov. Feb'y March April

Manufacturers are daily coming to a fuller understanding as to just what good illumination means. They find it means efficiency, safety, economy and profit. They find that the workman who can see what he is about will do more work and better work, will make fewer mistakes, and spoil less material; will not tire so quickly, and be more content; less liable to subject himself to injury than the man who is obliged to work under poor light.

That is why up-to-date manufacturers are installing the Humphrey system of factory illumination; facts have convinced them that it is the ideal system, and that it pays. We will gladly take up the matter of lighting your factory, store or office. Send for our

Send Kame and Address To-day -You Can have it free and Be Strong and Vigorous,

I have in my possession a prescription for nervous deblity, lack of v.gor, weakened manhood, falling memory and lame back, brought on by excesses, unnatural drains, or the foilles of youth, that has cured so many worn and nervous men light in their own home—without any additional help or medicine—that I think every man who wishes to regain his manly power and verility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinally sealed envelope, to any man who will write me for it.

This prescription comes from a physician who has made a special study of men, and I am convinced it is the surestacting combination for the cure of deficent mannoid and v.gog fallure ever put together.

I think I dwe it to my fellow men to send them a copy in confidence, so that any man, anywhere, who is weak and discouraged with repeated fallures may stop drugging himself with larmful patent medicines, secure what I believe is the quickest acting restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and so cure himself at home quickly Just drop me a lima like this: Dr. A. E. Robinson, 2023 Luck Building, Detroit, Mich., and I will send you a copy of this splindd recipe in a plain, ordinary envelope free of charge. Biggest Stone Ever Quarried.

One of the most interesting proofs of the wonderful civilization of the ancients is afforded by the great slab of stone at Baaloec, in Syria. The of stone at Baalbec, in Syria. The huge monolith is sixty-nine feet long fourteen leet broad and seventeen feet in depth. It is said to be the largest piece of stone ever quarried, and its estimated weight is one thousand five hundred tons. It is thought by archaeological scholars that this huge stone was intended by the ancient builders to adorn the Temple of the Sun near by—now, of course, in truins. Here, in one of the walls which still stand, are to be seen huge slaos of stone, which careful measurements show to be sixty-three feet long and thirteen feet high

HOW TO GURYJEH RAEUMATISM AT YOUR JWN H.ME

If you or any of your friends suffer huge stone was intended by the ancient builders to adorn the Temple of the Sun near by—now, of course, in ruins. Here, in one of the walis which still stand, are to be seen huge slaps of stone, which careful measurements show to be sixty-three feet long and thirteen feet high. And, more remarkable still, they are placed in position nineteen feet above the level of the ground. Moreover, altho no sign of any cementing mixture is to be stones have been squared and polished so evenly that only after the most minute search can the joints be found, and when traced it is impossible to thrust the blade of a pocket knife between them! How these things were done is a standing mystery to the scientist.

A Genuine Rupture Cure Sent On Trial To Prove It Don't Wear a Truss Any Longer.

After Thirty Years' Experience I Have Produced An Appliance for Men, Women and Children That Actually Cures Rupture.

Ten Reasons Why You Should Send For Brooks

Rupture Appliance

1. It is absolutely the only appli-ance of the kind on the market today and in it are embodied the principles that inventors have sought after for tion.

3. Being an air cushion of soft robber it clings closely to the body, renever blisters or causes irritation.

4. Unlike the ordinary so-called pads, used in other trusses, it is not cumbersome or ungainly.

5. It is small, soft and pliable, and positively cannot be detected through the clothing.

6. The soft, pliable bands holding the Appliance do not give one the unpleasant sensation of wearing a harmess.

RESTORE YOUR VITALI AND YOU WILL REGAIN YOUR STRENGTH

No matter what may be your work; whether you are teamster, a blacksmith, a salesman or a college professor, it's the man with the greatest vitality in any walk in life that wine. It's the man who imposed of bed in the morning after eight hours' refreching sleep, the man with a clear head, a strong heart and warm, red blood dancing through his vetns, who makes his mark in the world! makes his mark in the world!

Give me a man who crawls around, "Packing" a load of Dyspepsia, dulness of eye, a drowsy brain, a lame back, tired legs and a woeful look in his face, and I can transform him into a man of brawn and brain with my Electric Belt—a man full of life and action, able to face the world, to fight its battles and conquer.

It's a grand thing to meet a healthy, hearty, cheery man. He gives your hand a grip that's an inspiration—the very tones of his voice proclaim his power; he radiates cordinality like a depot stove radiates heat. What is the secret of his success? Energy Magnetism, a body full of animal vitality.

This magnet force is within reach of all of us. Thousands and thousands of men-forceful men, successful men to day-came to me wrecked in mind and body, and I have restored them to health and happiness with my Electric Belt. These men are shouting the praises of my Belt, and they'll gladly tell you what my great appliance has done for them.

Electricity is life! It's the greatest curative force in the world to-day. I have developed a method of applying this force to the body by means of my Belt that has resulted in more actual cures than any system.

DR. MCLAUGHLIN'S ELECTRIC BELT

Restores the Vital Powers to men and women. It makes strong and healthy men and women out of mental and physical wrecks. It is a positive and lasting cure for Indig ration (Dyspepsia), Constipation, Headache, Drowsiness, Rheumatism, Neuralgia, Lumbago, Sciatica, Weakness of the Back, Weakness of the Neurous System, Sleeplessness (Insomnia). It overcomes the tearible results of early indiscretions. It restores the vitality that is lost. It corrects every sign of mental and physical breakdown. Here I give you a few samples of the kind of letters I receive every day by the score from people who have found Health, Strength and Happiness through the use of my Belt.

Dear S.r.—You will think I have forgotten you, but such is not the case, for I know my case was a severe one and it took some time to get fixed up. I am very thankful to you for what your Belt has done for me, and it will do the same for others if they would but give it a trial. I have been all right for some time, but have not written to you until I could give you a satisfactory report. Kindly accept this, with my best wishes for your every success, for I am cured of what I thought was impossible and my back does not trouble me in the least. You are at liberty to use this if it will help others to get within reach of your wonderful Belt. Believe me to remain, yours thankfully.

FREE BOOK

Write me to-day for my beautifully illustrated book, with cuts showing how my Belt is applied, and lots of good reading for men who want to be "The Noblest Work of God"—A MAN. Enclose this coupen and I will send this book, sealed, free.

HORSE NOTES

Burns & Sheppard's Horse Repository. The horse market is still dull, demand being very slight except for city horses. S. Brown's shipment of registered Clydesdale colts and fillies, which are an exceptionally well-bred lot, will be sold on Tuesday next at the regular sale. This shipment of Clydesdales should prove a credit to the fortunate purchasers and do much to improve the breed in the districts into which they go. Among this consignment was the grandly bred stallion Yorick by Ryecroft and grandson of the world's champion, Everlasting, He was sold to John J. Fitzgerald of Shannonville, Ont., for \$1500 and ought to give a great impetus to Clydesdale breeding in Hastings County. Mr. Brown also has for sale the imported Hackney stallion, De Wilton, a chest-nut six-year-old, by Drumlanraig. At all future auctions Messrs. Burns & Sheppard have announced that all city horses will be sold first.

Buyers were: W. Collins, a very fine gray mare and gelding, \$200; John J. Lee, brown gelding, \$200; J. J. McCarthy, bay gelding, \$2100; J. J. McCarthy, bay gelding, \$2100; J. J. Erickson Perkins & Co. (J. G. Beaty) wired:
Wheat—We are disinclined to lay any Wheat—We are disinclined to lay any stress whatever upon the probability of European complications being a factor in wheat prices. Certainly Europe shows no desire to buy American wheats in quantity, if at all, on a decline such as has taken place during the past three weeks, In fact, it is our belief that buyers have supplied themselves, to a very large extent, for all immediate needs, and possibly have overbought.

Corn—Continued good weather, with the probability of an enormous yield being confirmed by the coming government report, due after the close, undoubtedly brought about more or less liquidation. We continue to feel that there is no basis whatever for higher prices, and, while natural reactions are in order, we believe the same will be of a most temporary character.

diately to the Tommy Burns Gold mines in southeastern Shaw township. Mr. Pope's visit will be followed by the immediate increasing of the present force of eight men to 20, and the installing of a diamond drill which will thoroby prospect underground on the large group of claims controlled by this cumpany. A shaft is now being sunk on the main vein running northeast thru the claims and has now reached a depth of 60 feet. The sinking of this shaft will be rushed and a little later a plant will be put in to carry it to greater depth.

The Tommy Burns, which gets its name from the staker, had one of the most spectacular showings on the surface that could be found in Shaw in the earlier days of the camp and in addition to the native gold in one outcrep, had several strong sulphide dykes, all of which carried high values. The development was gradual before the big fire and following that has been slow but with the looking up of the campa in camp at present, the increased force will rush the work along as fast as possible. creased force will rush the work also as fast as possible.

DEPRESSED OVER

Among the prominent features of the bueyancy which offset this were advances of a point or better in Pacific Burt, F. N. Burt preferred, Steel Company, preferred, Bell Telephone and Winnipeg Electric, and lesser sains in Steel Company common, Mackey and Canada Bread, the latter reaching 31 1-4. General Electric, Toeke and Shredded Wheat were very firm at their recent advance. Duluth Superior, Consumers' Gas and Burt common were lower.

Investment buying was again noted in the banks, with advances of a point to floth Commerce and Standard. Dominion duplicated its recent high level. Locometive bonds were up a full point to 101, a gain of two points from last week's prices.
