Great Fleet of Merchant Ships

United States to Build 150 Fast Ones in Effort to Defeat Aims of German Submarines

Washington, Sept. 8.—(Montreal Gazette)—The United States government will build a great fleet of merchant vessels, from 10,000 to 12,000 tons, capable of attaining a speed of sixteen knots or better, in its efforts to defeat the German submarines, supply its troops in Europe and carry foodstuffs and munitions to its allies.

One vessel was unsuccessfully attacked by a submarine. No fishing vessels met with disaster.

Gallantly Fought The Submarine

Seaman at Halifax Reports Encounter—Captain and Others Taken Aboard U-Boat

Halifax, Sept. 8.—Boatswain Billard of the steamer Shimosa, which was sunk last month by a German submarine, has arrived in Halifax. He says that he saw Captain Irvine, Chief Mate Morgan and the wireless operator taken aboard the submarine. The Shimosa gave up the fight only after fourteen of her men had been killed and her shell fired.

DISLOYALTY TO BE ROOTED OUT

Nation Wide Action by American Government

Wholesale Seizure of Documents of Industrial Workers of the World—Haywood, President of Organization, Arrested

Washington, Sept. 7.—Nation-wide seizure by the government of documents of the Industrial Workers of the World was said yesterday to be but one step in the vigorous campaign which the Department of Justice is prepared to conduct against disloyalty and sedition wherever they may show themselves. While the I. W. W. is perhaps the largest single organization which will engage the department's attention in the campaign, from now on other organizations and individuals whose utterances and activities have given ground for suspicion of disloyalty will be under stricter surveillance than ever and more drastic measures will be pursued in dealing with them. Including the classes of persons with whom the department soon may deal, are the so-called soap box orators of New York and other large cities; writers and publishers in a few instances connected with the German language press in this country, so-called conscientious objectors and a large number of individuals not classified among the foregoing, whose activities have led them to be regarded as active friends of Germany in this country. For months the government has been collecting a tremendous amount of evidence which can be utilized in prosecutions in connection with Wednesday's seizure of I. W. W. papers and other proceedings contemplated in the near future. Telegraphic reports from all sections of the country received by the department telling the results of Wednesday's raid. A great mass of documentary matter was obtained and the alleged mutinous conduct of the organization against whom heretofore there had been no actual proof. To curb the activity of aliens and others suspected of disloyal and seditious utterances and activities, the department has issued orders to the effect that the names and addresses of all persons who are in the possession of the names and addresses of the I. W. W. was arrested.

MUST BE NO LET UP IN WAR

London Papers Back Up Premier's Assertions

"KEEP ON," SAYS TIMES

A Drawn War, Declares Chronicle, Must Not be Thought of—Hope That Russia Will Yet Play Great Part

London, Sept. 8.—The morning papers in their comments on the speech of Premier Lloyd George yesterday, unanimously reiterate that it is idle to talk of peace until German militarism is crushed by force of arms. The Times, under the heading "Keep On," says: "We are fighting for the greatest cause for which men ever fought, for the prize of victory is the freedom of mankind, and the peace which is the result of a permanent submission to the yoke of militarism." The Chronicle declares that the Allies, great and small, "must keep their shoulders to the wheel until the menace is finally eliminated." The paper adds: "There are some people in all countries who talk of a drawn war, but that is really one result that cannot ensue in any event." The Post says: "To neglect to take even the smallest precaution against military resurgence is wickedly to betray both the dead and the living." The Telegraph asserts that the prime minister takes the only view that is fair and reasonable of Russia and "we must look forward with hope to her recovery and the great part which she will play before the war is over." The speech, the paper says, was "a passionate invocation to his countrymen to be true to their own religion, to be true to their own honor, and to be true to their own duty."

RISKED SAFETY OF CARGO WORTH FIFTY MILLIONS

Four of Steamer's Crew Arrested on Charge of Mutinous Conduct

Philadelphia, Sept. 8.—The safety of a large fleet of merchant ships carrying oil to Europe is in jeopardy, it is charged by twenty British destroyers in the submarine zone, was endangered by the alleged mutinous conduct of the four members of an armed American oil steamer taken off the ship on Wednesday night, according to witnesses who testified against them before a federal commissioner here yesterday. The men were removed from the steamer while off the Delaware Capes. They were held for a further hearing on next Wednesday. Witnesses testified that the four men threatened the captain and the chief gunner of the armed guard and that they had broken away from the steamer while in the danger zone, compelling the commander of the convoy to signal the steamer that the whole fleet was endangered. Reasonable utterances against the United States is another charge against the men.

ENGINE BLOCKS LINE

Jumps Rails in Londonderry Yard—Passengers Four Hours Late in Reaching Here

A large locomotive, which jumped the rails in the Londonderry yard on Monday night, caused a complete blockade in the traffic until it could be removed. The night express trains between St. John and Halifax, in both directions, were hung up at the scene of the wreck. The passengers reached their destinations by a transfer around the wreck from one train to the other, each train returning by the way it had arrived. Owing to this delay, the passengers from Halifax were four hours late in arriving in St. John this morning.

NO MONEY FOR SOAP TO WASH CITY'S HANDS

Montreal, Sept. 8.—The city hall officers are without soap, and there is also a scarcity of towels because of the lack of funds. This condition has lasted a month. The lady clerks bring their own soap. Not So, Says Union. Washington, Sept. 8.—Asserting that it is time of being "defamed as 'pro-German' or 'sedition,'" the American Union against Militarism last night issued a statement in which it asserts that it will use any newspaper for libel which ventured to characterize it in such terms.

GERMANS NOT SO KEEN IN PURSUIT OF RUSSIANS

Believed They Must Wait Till They Can Conquer Dvinsk—Russian Army Spirit Better—Kaiser at Riga

Petrograd, Sept. 8.—The German pursuit appears to be slowing up and it is not anticipated that the enemy will risk much further penetration while Dvinsk remains unconquered. A more likely course, it is argued, will be for the Germans to entrench near their present position northeast of Riga and await the result of the Dvinsk operations. According to information the spirit of the troops in the Dvinsk sector is much more favorable than on other fronts. Colonel Podjurski, a member of the Dvinsk army committee, telegraphing to Colonel Kurupskii, chairman of the special council army committee here, said that the army was standing firm, that there was no intention to surrender Dvinsk and that the army committees are in full accord with the commanders. Amsterdam, Sept. 8.—Emperor William has arrived at Riga, a Berlin dispatch reports. He reviewed the troops and distributed decorations on the battle field. Petrograd, Sept. 8.—(British Admiralty via Wireless Press)—The Russian Vols announces that the administration of the National Bank will be transferred to Nijn-Novgorod. The general control of the artillery branch of the army will also be removed there. German Report. Berlin, Sept. 8.—(via London)—The war office says that in the west the artillery activity was strong only near the Verdun region. "In Lovonia German cavalry was said to be in contact with the enemy. Copenhagen, Sept. 8.—The Vossische Zeitung states that two persons were killed and three seriously injured in an airplane attack on the town of Lahr, Germany, on September 4. GERMANS GIVE WAY IN EAST AFRICA. Havre, Sept. 8.—(Delayed)—The following official communication dealing with the campaign in East Africa has been issued by the Belgian war office: "The Germans have retreated to the south bank of the Kellubere river, in East Africa, before a convergent advance of Belgian and British troops."

CHARLOTTETOWN BLOCK IS WIPED OUT BY FIRE

Some Ten Buildings Destroyed With Loss Between \$25,000 and \$30,000

Charlottetown, P. E. I., Sept. 8.—A large portion of the block between Grand and Kent streets was wiped out by fire this morning. About ten buildings, mainly warehouses, stables and sheds, were destroyed also the Union Hotel and adjoining dwelling. The damage will be between \$25,000 and \$30,000 with insurance about \$20,000. The fire started in Robins' livery stable which was recently purchased by a garage company. It spread into the centre of the block of wooden buildings, all close together. This stable went up in smoke, also a large warehouse owned by H. C. Conroy and filled with furniture owned by Beer & Weeks, a warehouse owned by the Doyle estate containing brass, etc., and four delivery wagons owned by Jenkins & Sons, grocers. Two horses were also burned. The fire was out at 7:30 a. m.

MATTER OF TECHNICAL EDUCATION HERE IS TO BE INVESTIGATED

Provincial Government Appoints Committee to Take It Up

The provincial government has appointed a committee to investigate the question of technical education. Fred Magee, M. P. of Port Elgin, is chairman. The members include Dr. J. Roy Campbell, M. P. of A. M. Belding, Rev. Fr. Fessler of St. Joseph's College, John J. Jenness, director of manual training, who will be the secretary. The government feels that this is a very important matter, which should be dealt with in a practical way to whatever extent the limited finances of the province will permit. Nova Scotia has made a good start and Ontario is much better organized. The committee will be expected to get as full information as possible and submit recommendations. A small appropriation has been made available by the legislature for its preliminary work.

STEEJ WROTE IT

London, Sept. 8.—(Montreal Gazette cable)—A letter in the Times on Thursday, signed only with initials, is an extremely interesting and concise reply to the German chancellor's statement that "certainly English support strengthened the determination of the leading men in Russia to declare war." Tonight I received the writer's permission to say that the author of the letter is H. Wickham Steed, author of a famous volume, "The Hapsburg Monarchy," and foreign editor of the Times. In the course of the letter Steed says that Dr. Michaelis' statement in this respect is baseless.

AMERICAN ARSENAL BLOWN UP

Three Killed, Many Injured at Works in Philadelphia—Cause Unknown

Philadelphia, Sept. 8.—Three persons are reported dead, one is dying, twenty-three others are in hospitals, more or less seriously injured as the result of an explosion at the Frankford arsenal this morning. The cause of the explosion is unknown and no information from the arsenal is obtainable. The force of the explosion was so great that it broke windows and threw those living in the vicinity from their beds.

Says Borden Government Worst Canada Has Seen

Labor Candidates Take Part in Anti-Conscription Meetings in Montreal

Montreal, Sept. 8.—Labor candidates for the federal elections are beginning to take part in local anti-conscription meetings. Two of them, Gordon Martel, president of the Federation des Clubs Ouvriers de Montreal, and Emile Perrault, secretary of the same body, were among speakers last night in St. Jean Baptiste market hall. Both condemned the military service act as nefarious, and the Borden government the worst the country had ever seen. Both said they were in danger of arrest for making such speeches, but they were willing to take such risk. The anti-conscription campaign to cities, towns and villages in the near neighborhood of Montreal, and several of them have engagements to speak at outside points. Robert Parsons, an anarchist, probably the most rabid of all the anti-conscription orators, has disappeared, and it is a question as to whether he has been spirited away by the authorities, has left the city, or is simply "lying low."

ST. JOHN BOYS, ALL WOUNDED, MEET IN HOSPITAL

Three Who Were Hit at Vimy Now Convalescing Together in Sheffield

Fredericton, N. B. Sept. 8.—Sergt. Geo. H. Sears of the 26th Battalion, reported missing more than a year ago, is now reported as believed dead. His wife, formerly Miss Verner of Fredericton, and one little child, survive living in Devon. Sergt. Sears was stationed for several years with "H" Company R. C. E. in this city. Between terms of enlistment in that permanent unit he was color sergeant of "D" Company, 71st School Corps. Prior to coming to Canada he served in the Kent Regiment, England. He was a fine type of soldier and his many friends in Fredericton will regret to learn that he has been officially given up as dead. Fredericton has a very close connection with the corps to which he belonged, Canada's only regular infantry regiment as the first recruits for that unit, then known as the infantry school corps, were enlisted in this city in the winter of 1888-9.

ST. JOHN MEN ARE HONORED BY KING

King George has granted the imperial service medal to the following retired members of the civil service as a recognition of long and meritorious services: Major McCauley, Charles Pigeon, and John Rogers, customs department, St. John.

NEW FORESTRY UNIT

Major Belford, ex-chaplain of the 17th Regiment, has been authorized to command and recruit a forestry unit in the counties of Bonaventure and Gaspé. The recruiting for the unit is now under way. Captain Mills of New Carlisle, has been appointed second in command and is at present looking after the recruiting interests of the new unit. The officers of the unit are all to be taken from Bonaventure and Gaspé. Major Belford is well known among the Gaspé coast and is the opinion of military men that he will be but a short time in raising his 150 men.

BETTER TODAY

Friends of William Wood, who met with a bad accident last night near his home on the Manswagons road, will be pleased to hear that his condition today is slightly improved.

SENATOR STEPHENSON HERE

Isaac Stephenson, a New Brunswick man who has accumulated a great fortune in the western states, and who served in the United States senate, is in the city today. He is accompanied by J. W. Stephenson, Mrs. Joshua Hodgins, Miss Bertha Baker, F. W. Hutchinson of Marquette, Wis., and Miss Carrie Boyer of Woodstock, N. B. The party will leave today for Woodstock.

MRS. MORRIS WEDS BRITISH STATESMAN

Chicago Packer's Widow Marries Francis Neilson, Ex-member of Parliament and Author

Chicago, Sept. 8.—Mrs. Helen Swift Morris, widow of Edward Morris, Chicago packer, was married last night at her home here to Francis Neilson, former Liberal member of the British House of Commons for the Hyde division of Cheshire. The marriage was precipitated by the departure of Mrs. Neilson's son, Captain Nelson Morris, for a training camp, and was declared to be a surprise even to immediate members of the family.

Francis Neilson has attained prominence for his espousal of the single tax. He is a great grandson of David Hume, historian, and cousin of Gladstone. His home is in Boston.

Mrs. Neilson's first husband, Edward Morris, died in November, 1913. He was president of Morris & Company, packers, and also of the Fairbanks Canning Company. His packing business was estimated to be worth \$400,000.00. She is Miss Helen L. Swift, daughter of President Swift, of Swift & Company, packers, whom she married in 1890, and she was the mother of four of his children when he died.

Mr. Neilson is fifty years of age. His first wife was Catherine O'Connell, whom he married in 1888, and by whom he had two daughters. He visited the United States in 1888, and traveled through Mexico and Canada as well. He is a critic and author. His publications include "Madame Bohemia," "The Bath Road," and "Manaboko"; many books and pamphlets on the land question, socialism and taxation. He is the author of "The Butterfly on the Wheel," "The Crucible," and "Philip Strong." He was also librettist of "Prince Ananias" and "La Vivandiere."

Boy is Drowned Arnprior, Ont., Sept. 8.—Arthur Charbonneau, youngest son of Baptiste Charbonneau, was drowned in the Madawaska river, when a small boat in which were his father and several other persons was swamped.

The Sweater She knitted a sweater for some one to wear. It should comfort a soldier who's gone to the front. She talked of the boy who should face, unafraid, the fire of the guns in the sweater she made. But now it is finished it stays on the shelf. She liked it so well that she kept it herself.

Let us shoe the boy and the cost of keeping him in shoes will be reduced—Wise's Cash Stores, 248-247 Union street.

Mrs. Andrew Blair and Miss Thompson have closed their summer cottage at Duck Cove and returned to Ottawa.

CLOSURE

(Montreal Journal of Commerce.) The Canadian Northern Railway bill is the most important measure of the parliamentary session. Some other questions have caused more debate, but there is not one of more far-reaching influence than the measure to acquire the great system of railways, telegraphs, hotels and other enterprises covering seven of the nine provinces of the Dominion, and to arbitrate Messrs. Mackenzie and Mann's claim for \$80,000,000. It is much to be regretted that the government deferred the introduction of the measure until a late stage of a long session, and then rushed it through the House of Commons by means of the "closure"—a rule only employed once before in the history of Canada. A measure of such magnitude, brought forward at an early stage of the session, and left to take its course through parliament in the ordinary way, would have had a better chance to win general approval.

A woman owning a house in Philadelphia before which a gang of workmen was engaged in making street repairs was much interested in the work.

"And which is the foreman?" she asked of a big, curly Celt.

A proud smile came to the countenance of that individual as he replied:—"Oj, am mumm."

"Oj kin prove it, mumm," rejoined the Irishman. "Then, turning over to a laborer at hand, he added, "Killy, ye're fired!"—Harper's.

DUTCH MISSION IN UNITED STATES

Effort to Adjust Difficulty Over Exports of Food Stuffs—Deadlock at Present

Washington, Sept. 8.—A special Dutch mission, which has arrived in this country, brings information as to the food situation in Holland, and statistics covering Dutch exports and imports of the last three years, as requested by the American government in a recent note handed to Minister Van Rappard.

Negotiations looking to the shipment of foodstuffs to Holland will be taken up by the mission which were broken off a week ago, when the Exports Administration declined to permit the sailing of nearly 100 Dutch ships loaded with food and cattle feed. The American and Dutch governments reached a virtual impasse when the Exports Board refused to recognize an agreement made by Mr. Van Rappard.

The special Dutch mission, calling for a division of the cargoes between Holland and Belgium. The minister has declined to ally the United States in exchange for the release of foodstuffs. These vessels were to have been put in the American and coastwise service to release American ships for trans-Atlantic trade.

The exports board has informed the state department that its information shows Holland is no immediate danger of a food shortage, and that no food shipments should be permitted to go through for at least two months, during which time the United States can ascertain just what its export surplus will be.

The situation in Holland has presented one of the hardest problems that has faced the Exports Board in its attempt to put into effect a rationing system for the northern European neutrals. The Dutch buy most of their grain from other countries, and export large quantities of dairy and meat products to Germany. The American government desires to stop this food exportation to the enemy, and at the same time does not want to go so far as to impose any actual hardship on Holland.

It is entirely likely, it is said, that the Exports Board will permit the shipment of any cattle feed to Holland for many months, at least, although this may force the Dutch to kill off some of their cattle for food to make up the deficiency in the bread ration.

MORE TROUBLE IN CHINA

Peking, Sept. 8.—Dr. Sun Yat Sen has been designated commander-in-chief of the army and navy of a new military government of China, proclaimed by seventy members of the disbanded Chinese parliament meeting in Canton. The military governor of Canton is supporting the Peking government. Fighting between his troops and the forces of Sun Yat Sen is feared. Civilians in Canton are fleeing to Hong Kong.

DIED IN STOUGHTON

The death of Joseph Harris, of Stoughton, Mass., formerly of St. John, occurred on September 3, in Stoughton. He was sixty-four years old. Mr. Harris left St. John about forty years ago. His funeral took place on Wednesday at the Immaculate Conception church of Stoughton. The pallbearers were four sons and two nephews—John B. Louis, E. Vincent and Frank K. Harris, and Frederick and Carl Burns, of Newton.

McLaughlin-Bunker At the home of the bride's parents, Frank E. McLaughlin of Fredericton Junction and Blanch Ethlyn Bunker, daughter of Mr. and Mrs. Chandler Bunker, of Fredericton, were united in marriage by Rev. J. A. Corey. Mr. and Mrs. McLaughlin left on a trip to Montreal and will visit St. John on return.

ADLER NOT TO DIE FOR ASSASSINATION OF PREMIER Amsterdam, Sept. 8.—According to a Vienna press despatch, Emperor Charles has commuted to eighteen years penal servitude the death sentence of Dr. Friedrich Adler for the assassination of Premier Stuerghk at Vienna last October.

DEMobilIZATION OF LOCAL DEFENSE UNITS Calgary, Sept. 8.—An order has been issued at Ottawa ordering the demobilization of all units of the Canadian defense force. All members of the Canadian defence units were to be allowed to transfer into the Canadian expeditionary force for service overseas. Those who failed to take this opportunity would be liable under the conscription act.

The Vatican and Peace. London, Sept. 8.—(Montreal Gazette cable)—The Daily News prints an article by a diplomatic correspondent, dated some time in August, in which an interview with Pope Benedict is given regarding peace. The account of the interview shows that while the Pope is Austrophile, Austria did not dictate the recent peace proposal. Distrust of Russia and fear of offending powerful German Catholics are alleged as some of the motives behind the appeal.

Alone YOU don't know this girl perhaps. But suppose you did and she came to you for advice! What would you say? Till yesterday her husband, young and vigorous, had lovingly encouraged her small extravagances and boasted laughingly that his income was ample and growing. He worked with might and main to "gather the fruits of success for his fair trinity at home"—and was succeeding. But death, swift and relentless, had without warning cut down his guard, and the three he loved more than his own life were now at bay to the world—alone. If she had come to you for advice—that, briefly, would have been her story. Her faith was strong. Her husband, she knew, would not leave her with the children to face a financial situation for which there was no solution. Yet when she attempted to calculate the income she would receive from the savings he had left, a panic of fear overcame her. "The greatest and hardest of her duties now was the one she knew the least about." Perhaps someone dependent and depending upon you, is destined some day to be left alone—at bay to the world. This is so serious, so appalling a situation that its very contemplation makes thinking men turn cold with apprehension. That is why we have written "Her Way Out"—to make you realize how serious is the situation which may overtake those for whom you believe no sacrifice or effort is too great. If, in addition—without the use of technical language or confusing terms—it provides a solution for the dilemma, surely that is another point in its favor, is it not? We will be pleased to send you a copy of "Her Way Out," free. The coupon below is provided for your convenience. Fill it in and mail it to-day, or a note or postcard will do as well.

Straight Talk

(By Edward S. Pileworth of The Vigilantes.) Whenever I come out flatfooted and say that this war must go on until Germany is licked some pro-German, like Bleeding Heart Bill, mayor of the Sixth German ward, always claims on his hind legs and says "Britisher."

Let us put this to rest off hand. I am a pure blood Irish from four grandparents. Hatred of the British was sucked in with my mother's milk, my father took part in a rebellion in Ireland and just escaped capture, my uncle did not escape, lived for years in an English prison, and was finally exiled; my cousin just got to this country by a miracle.

But I am living in America, in these United States, the British are our allies, and the United States is at war with the Hun, and our business is to hold out the hand of fellowship to every man and nation who will help in this work, to all the allies who are joined with us in doing it, and to help aid and comfort them in every way that lies in our power.

War is not a gentle sport, it is a grim business, whose object is to kill the other man, and you cannot go about it in a spirit of love and kindness, or the other man will kill you, or, in this case, our women and children.

It is a matter of suffering on both sides, we will have wounds and troubles and misery, before this war is ended, and our streets will see maimed and

CONCERNING JAPAN

The very hearty welcome given by the United States to the deputation from Japan appears to indicate that the fears of some Americans that the two countries will clash in the not distant future are not generally entertained. Not many months ago a distinguished citizen of Massachusetts, addressing a St. John audience, pictured Japan as the coming menace to world-peace, and it is not long since a Japanese professor was quoted in the New York Tribune as saying that the complete defeat of Germany would be of benefit to Japan while British victory would give Britain the dominant power in the Far East, and thus seriously affect Japan's political and commercial position.

they will not be revealed at present. Meanwhile Germany will get no comfort from the development of more cordial relations between the United States and Japan.

THE TRUTH FOR ONCE

The Standard says:— "The desire of Sir Robert Borden and the members of his government has been to avoid the stress and turmoil of a war election."

This is quite true. The desire of the Borden government was and is to stay in power. That is also the desire of its friends the profiteers. They are entirely satisfied with a government which has practised the grossest partisanship ever since the war began, while at the same time it called upon all other people to be patriotic and self-sacrificing and non-partisan.

But the Borden government could not go on forever. It got one extension from the Liberal party, and went on in the old corrupt and partisan way, and so mismanaged the country's affairs that a crisis was reached and a last-minute appeal made to the Liberals to give Sir Robert one more chance. There was nothing unselfish or patriotic about it. The government finally thought itself of a union government only when it saw defeat staring it in the face. And now, that having failed, it is doing its best to devise measures to prevent the will of the people from finding full expression.

The first thing to do is to defeat the Borden government, which does not possess or deserve the confidence of the people. When that has been done a really national government will be made possible. There is no anti-war party in Canada except the little group of Nationalist agitators in Quebec who helped to put the Borden government in power.

If Canada encourages and aids immigrants to come to this country, naturalizes them and welcomes them as citizens—and then disfranchises them—is that democracy? Which is more deserving of the franchise—one of the disloyal Quebec Nationalists who helped to place the Borden government in power, or a loyal naturalized citizen who came here on the invitation of Canada to make a home for his children, and who is on the side of Britain in this war?

The week ends without material change in the war situation on any front. There have been rumors of another Allied drive on the western front, but it has not developed. Undoubtedly the enemy is being worn down by the constant pressure, but his man power and gun power and air fighting capacity still enable him to hold tenaciously to his position. The Russian situation does not improve.

A series of practical demonstrations by experts on the preparation and use of foods would be of value at any time, and doubly so at this time when food-control is a national necessity.

SEVEN YEARS TORTURE

Nothing Helped Him Until He Took 'FRUIT-A-TIVES'

ALBERT VARNER. Buckingham, Que., May 28d, 1916. For seven years, I suffered terribly from Severe Headaches and Indigestion. I had belching gas from the stomach. After stuff would come up into my mouth after eating, while at times I had nausea and vomiting and had chronic Constipation. I went to several doctors and wrote to a specialist in Boston, but without benefit. I tried many remedies but nothing did me good. Finally, a friend advised 'Fruit-a-tives'. I took this great fruit medicine and it made me well. I am grateful to 'Fruit-a-tives' and to everyone who has miserable health with Constipation and Indigestion and Bad Stomach, I say take 'Fruit-a-tives' and you will get well.

ALBERT VARNER. 50c a box, 6 boxes for \$2.50, trial size, 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

LIGHTER VEIN

Punch once had a scene in which a district visitor is shown entering the cottage of a poor woman. The visitor is evidently new to the business and somewhat embarrassed. The cottager says to her: "I'm quite well, thank you, miss, but I ain't seed you afore. 'Tis fresh at it, ain't yer miss?"

"I have never visited you before, Mrs. Johnson."

The woman dusts a chair. "Well," she says, "yer sits down here, and yer reads the short Psalm, yer gives me a shillin', and then yer goes!"

"Children," said the Sunday-school superintendent, "this picture illustrates today's lesson—Lot was warned to take his wife and daughters and flee out of Sodom. Here are Lot and his daughters, with his wife just behind them; and there is Sodom in the background. Now, has any girl or boy a question before we take up the study of the lesson?" Well, Susie?

"Please, this," lisped the latest graduate from the infant class, "where 'th the flea?"—Ladies' Home Journal.

Found New HEALTH. Gin Pills FOR THE KIDNEYS. O' greater value than gold and silver in health restored. Up Lake, Ont. Mr. Sid Castleman discovered a sore throat that the high price of pills given to him were not. Here is his story, in part. "I had heard of you."

"That such a policing coalition, bent upon keeping the peace of the seas which unite its members, might be helpful to us in time of need the redoubtable performance early in the war of the young Australian navy suggests. Nearer to the Philippines than ourselves and banking our lines of communication the Austrians ever will be in position to render us great service, while in the protection of Alaska, British Columbia might well be able to furnish us invaluable service in the hour of trial."

This writer points out that if Japan would strike a vital armed blow against Germany, "there would be little left of the suggestions, now frequently heard, that democracy's every threat to destroy autocracy falls as unpleasantly upon Tokio as upon Berlin, and that the military life of Japan, having been based upon German tradition and theory and organized by German military instructors, makes for a bond of sympathy between the two empires, the fact that both are virile autocracies, fact growing in a world bent upon breaking down monarchic forms, erects into a menace for the Anglo-Saxon people of the Pacific basin."

Yes, The Boy Needs New School Shoes

But when you buy Shoes for him, think of the rough wear these Shoes will have to stand. Every healthy boy runs and jumps and kicks and scuffs—he plays havoc with ordinary shoes.

Just let him try to wear out a pair of our "School Shoes"—rock-like in strength. He'll meet with the surprise of his life, because they will not wear out as quickly as ordinary Shoes, and you won't have to worry about buying another pair so soon.

Not Holding Back Many Fit Troops

London, Sept. 7, via Reuter's Ottawa agency—Reuter's has received the following authoritative statement regarding the respective parts played by the dominions and Great Britain in the war: "In America and elsewhere, the fabric of current that large numbers of trained soldiers, fit for service overseas, are retained in idleness in the United Kingdom. The authors of this fable would like to spread the report that Britain's resources of men are exhausted. That is entirely fictitious. The millions stated to be in reserve in this country include all men trained and training to be in the five theatres of the war; also the sick and wounded, those unfit for general service, the training staffs and the labor and administrative units necessary at the main base of the empire."

CHILDREN require little teaching to use Calox regularly. It's a habit that will save them pain and annoyance in future years. The Oxygen in Calox keeps the teeth sound and white and kills the germs that are harmful to health.

the Motherland and the dominions in the actual war areas, excluding the troops garrisoning India and the defended ports throughout the world, the proportion of troops of the Motherland to troops of the dominions is between five and six to one. It must be born in mind that this preponderance of troops of the Motherland is natural since the proportion of the white male population of the United Kingdom to that of the dominions is over three to one.

Will Fight The Franchise Bill

Ottawa, Sept. 7.—At a Liberal caucus this morning the effect and meaning of the government's proposals for a new dominion franchise were considered. The cursory examination of the details of the bill which Liberals have thus far been able to make, have convinced them that both in principle and detail a strenuous fight must be put up against it. It is practically certain that the bill can only go through the commons under closure. It was decided that one of the first amendments to be proposed by Liberal members should be to wipe out the distinction in regard to women's votes by extending the franchise to all women on the same basis on which it has already been extended by the provincial legislatures. Liberals can see no sound reason for limiting the vote only to the female relatives of soldiers, who have gone overseas, while at the same time all other women no matter what may be their intelligence or war effort and sacrifice are barred.

Canadians Busy

Canadian Army Headquarters, Sept. 7.—After a day of hard fighting following the attack by our troops in the Green Crassier area near Arras, the enemy counter-attacked this morning all along the front to the west of Lens. He succeeded, after several efforts, in driving us out of part of the positions, the combing of which was told of in yesterday's despatch, but in the region of Green Crassier the gains made by our men were not only held, but extended, and our new front constitutes a serious menace to the enemy positions along the northern side of the Souchez river. In the northern part of Avion also, where

RECENT DEATHS

Moncton, Sept. 7.—The death of Gladys Dobson, daughter of T. C. Dobson, Moncton, occurred Tuesday morning at Summer Cottage, Wallace. Miss Dobson was about twenty years of age and leaves besides her parents, two sisters and one brother. Miss Sarah Dobson, elocutionist, is a sister. The other sister is Kathleen, at home. The brother, Thomas, is in Boston.

William Clarke Smythe passed away on Wednesday at his home in St. Stephen at the age of eighty years. He was a native of Rosebank, N. B., and for many years followed the sea, retiring after his marriage to enter the employ of the Chatham Gas Light Company, of which he later became superintendent, a position he held for twenty-five years when the franchise of the company was sold to the Chatham Electric Light Company, which closed the gas works. He moved to St. Stephen about ten years ago. He was for fifty years a member of the Masonic fraternity. He is survived by his wife and ten children—Mrs. George Jardine of Chatham, W. K. Smythe of New York, Mrs. F. A. Stults of Haverhill, Mass., A. C. Smythe of Calais, Mrs. Charles E. Gorman and Mrs. J. O. Lovely of Haverhill, Havelock C., Ethelred W., Harold H. Smythe and Mrs. Zora Churchill of St. Stephen.

FREQUENT HEADACHES

People with thin blood are much more subject to headaches than full-blooded persons, and the form of anaemia that afflicts growing girls is almost always accompanied by headaches, together with disturbance of the digestive organs. Whenever you have constant or recurring headaches and palpitation of the face, they show that the blood is thin and your efforts should be directed toward building up your blood. A fair treatment with Dr. Williams' Pink Pills will do this effectively, and the rich, red blood made by these pills will remove the headache.

More disturbances to the health are caused by their blood than most people have any idea of. When your blood is impoverished, the nerves suffer from lack of nourishment and you may be troubled with insomnia, neuritis, neuralgia or sciatica. Muscles subject to strain are under-nourished and you may have muscular rheumatism or lumbago. If your blood is thin and you begin to show symptoms of any of these disorders, try building up the blood with Dr. Williams' Pink Pills, and as the blood is restored to its normal condition every symptom of the trouble will disappear. There are more people who owe their present state of good health to Dr. Williams' Pink Pills than to any other medicine, and most of them do not hesitate to say so. You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box, six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

RECENT WEDDINGS

Nickerson-Harmon. Dr. George Q. Nickerson and Maude Farnham Harmon were united in St. Stephen on Wednesday afternoon. Dr. Nickerson was born in Houlton and has been one of the prominent dentists of the town for many years. The bride is also well known there, having made her home with her sister, Mrs. B. M. Cates, for several years. After a honeymoon, Dr. and Mrs. Nickerson will return to Houlton where they will make their home.

Stubs-Jordan. An interesting event took place at the residence of August Richardson, Cody's, on Wednesday, September 6, at 11.30 a. m., when his niece, Miss Muriel Jordan, of St. John, and Albert Stubbs, of Hamilton (Ont.), were united in marriage. Rev. C. A. S. Wameford performed the ceremony. The bride was charmingly attired in a grey and black travelling suit. Luncheon was served to the immediate relatives after which the young couple left for their home in Hamilton. Many beautiful presents testified to the popularity of the bride, among them was a gift of silver from the staff of the N. B. Telephone Company of which the bride was a valued member.

THE RESTORATION OF CAPITAL PUNISHMENT IN RUSSIA

Petrograd, Sept. 7.—The special communication of the ministry of war has published the draft of the law restoring capital punishment in the area of the fighting front. The law is applicable to both soldiers and civilians, for the same offenses, for which capital punishment already has been restored at the front.

The line has been stationary for some time, new and important outposts have been established.

DREAMS, FALLS, BREAKS NOSE, SHOOTS UP SALOON

The Sand Man, who comes along and sprinkles sand in the eyes of little children at sleepy time, broke Matthew Stizza's nose and Matthew, because he does not know about the Sand Man, went on the warpath and tried to shoot up William Frick's saloon in Newark, N. J. Stizza is a barber in Newark. He went to sleep on the porch of his house. While he slept the Sand Man came along and bade him turn over. He obeyed and fell to the pavement, breaking his nose.

The barber never stopped to think of the Sand Man. He imagined somebody had come over from Frick's saloon and bit him on the nose. So he got a pistol and attacked the saloon before his eyes were open well. The bartender felt that all was not right and ducked under the counter.

James Hackins of East Orange was just going in the side door to get some tan polish for the rusty taste that possessed him when the barber entered the place. Stizza fired one shot at the East Orange man, striking his left arm. The police took Hackins to the city hospital and sent Stizza to jail, where he will have time to study the science of dreams.

Clever Canadian Jockey, Toronto, Sept. 7.—Jockey J. Bell, one of the best lightweight riders developed in Canada in recent years, has joined the stable of W. S. Kilmer trained by Henry McDaniel. He commenced riding on rather galloping horses, for Harry Giddings, jr., three years ago, his first experience with horses. He showed ability from the outset, but did not ride his first winner, Jack, until the June meeting at Connaught Park last year. The lad's riding has been mostly confined to the Giddings horses, but he piloted seven winners last year, and fourteen during the short Canadian season recently closed. Bell's relatives reside at Newcastle, England. He is sixteen years of age, and can ride at ninety-four pounds. He went to the Kilmer stable on trial during the meeting of Saratoga, but the sale of his contract by Mr. Giddings to the Kilmer stable was only completed yesterday.

JOHNNY EVERS' CAREER AS BALL PLAYER ENDING

Philadelphia, Sept. 5.—Aside from his great ability as a player (when in his prime) no little of the financial success that came to Johnny Evers came through the publicity he was able to obtain for himself. This publicity was largely due to the line of talk he handed to the National League umpires.

When Johnny was at his best as a player his tongue was also at its best. Reports from Philadelphia indicate that the tongue which helped to bring him fame and fortune has now proved to be his undoing. Johnny has been hoisted by his own petard, as it were.

"When Empire Bill Byron sent Johnny Evers from the game in the series against the Cubs last week he conferred a great favor on the Phillies," writes Tiny Maxwell in the Evening Ledger.

Evers was brought here from Boston for the purpose of bolstering the Philadelphia Phillies. He had all his old-time ginger, but the punch was not in his war club. His fielding was brilliant, but not so brilliant as he was. Then along came Bill Byron, out went Johnny and in came Bert Niehoff.

Bert had been decimating the side lines ever since Johnny's arrival and seemed destined to be a decorator for the remainder of the season. Since his return to the game Niehoff has played such a high-class brand of ball that it now looks as though Evers will have to content with a job as coach and bench decorator.

Evers' John D. Rockefeller contract, which the Phils took from the Braves, expires with the close of the present season. He will never get another like it. He may never play another game in the big league. Wouldn't it be odd if these remarks he addressed to Empire Byron sounded his death knell as a ball player.

CUTICURA HEALS BAD CASE ECZEMA

Relief Instantaneous. Healed With 3 Cakes of Soap and 2 Boxes of Ointment.

"I was very much annoyed by an irritation on my back. I found out I had a bad case of eczema. My back was in a very bad shape, and my clothing irritated so that the skin became very sore. I used Cuticura Soap and Ointment. Relief was instantaneous and with the use of three cakes of Cuticura Soap and two boxes of Ointment I was healed." (Signed) B. F. Grosch, Y. M. C. A., St. Catherine's, Ont., July 4, 1917.

For hair and skin health Cuticura Soap and Ointment are supreme.

World's Series MAY START OCT. 6

Chicago, Sept. 7.—Details for the world's series are to be worked out at a special meeting of the National Baseball Commission to be held in Cincinnati on September 20, said President Johnson of the American League, who will have been definitely enough settled by that time, President Johnson said, to assure going ahead with the plans.

Although Charles A. Comiskey, president of the Chicago club, declines to make any statement claiming the American League championship, orders for world's series seats are beginning to pour in from middle western cities. These orders are being held up, however until Chicago is certain of beating Boston.

There is a strong possibility that the series, if Chicago is the American League contender, will start in Chicago on Saturday, October 6. Seats for the first game is decided by the toss of a coin. President Johnson said the National League might waive this formality and agree to start the games in the west so that a Sunday game could be played.

New York, Sept. 6.—Seats for the world's series baseball games this year will not be reserved by mail, but every ticket possible will be placed on public sale at the grounds, the New York National League club has announced last night. Numerous letters asking for reservations have been received by the club.

"Absolutely no reservations will be made and nothing will be done in regard to the world series until the time has arrived when it will be possible to issue

Stomach Cramps COLIC

These are very painful, and their attacks often sudden, and sometimes fatal. The principal seat is in the stomach and bowels, producing severe twisting, cramping pain, and often accompanied by vomiting. If you are troubled in this way, there is only one remedy to cure you, and that one is Dr. Fowler's Extract of Wild Strawberry. It has a record of cures extending over seventy-two years, and we have yet to hear of a case where it has failed to either relieve or cure.

Beware of imitations and substitutes sold by unscrupulous dealers for the sake of greater profits, as these no-name, no-reputation, worthless preparations may prove dangerous to your health.

Mrs. H. Miller, 786 Mark street, Port William, Ont., writes: "Last summer my husband came home from work, and could hardly straighten up for cramps. The first thing I gave him was a dose of Dr. Fowler's Extract of Wild Strawberry, and I hadn't repeated it very long until he was all right again. It is the only remedy I give my children in the summer for cholera or cramps in the stomach. I have never been without it in the house for the last two or three years."

Price 25c. Put up only by The T. Millar Co., Limited, Toronto, Ont.

Sent All of Her 10 Sons To War

The Record of Patriotic English Woman's Family a Proud One

Nineteen years ago the London Daily Mail told the story of Mrs. Smith of the village of Attleborough, fourteen miles from Norwich, who, like the mother of the Gracchi, dedicated her sons to her country. There were ten of them alive then; six were in the army and four more were joining. One of the patriotic ten, A. C. Smith, now writes from Norwich giving the military record of himself and his family. Mr. and Mrs. Smith senior are still alive and well, and live at Bunwell.

Charles William Smith (eldest son), lieutenant and quartermaster, served twenty-eight years—now at home injured.

Sidney George, color sergeant in Norfolk—died after serving nineteen years.

Perival, with twelve years' service and two medals—now with East African forces.

Ernest (fourteen years' service), a lieutenant and quartermaster—fighting in France.

Reginald Arnold (twelve years' service)—killed in Egypt last year.

Albert Cyril (seventeen and one-half years' service)—invalided home and doing recruiting work.

Child Labor Plan Now Is In Operation

Chicago Woman, Experienced in Industrial Matters, Will Assist in Enforcement

The new federal child labor law took effect in the United States on Sept. 1. Hereafter no child under fourteen may be employed in any factory, mill, workshop, or cannery in the United States, whose products are to be shipped in interstate commerce, and no child under sixteen in any mine or quarry. The working day of children fourteen and fifteen years of age in factories may not be longer than eight hours and they may not be employed between 7 p. m. and 6 a. m.

The enforcement of the law has been delegated by the secretary of labor to the Children's Bureau of the Department of Labor and the head of the new child-labor division of that bureau is Miss Grace Abbott of Chicago. Miss Abbott has been at work for several weeks on the details of administration with a staff of temporary assistants in order that there might be no delay in enforcing the law.

The issuing of federal certificates of age in states where the state requirements for proofs of age are below the federal standards, has already begun and the methods of co-operation with state officials have been worked out. Although the Children's Bureau will have its own permanent staff of inspectors and will, when necessary, initiate its own proceedings for prosecution in case of violation, it will so far as possible, avoid duplication of the work of state labor officials.

Miss Abbott has had broad experience in industrial matters in this country and abroad. She has lived for many years in an industrial neighborhood and has visited Europe repeatedly to observe industrial committees, especially in countries from which immigration has been large in recent years. Since 1908 she has been actively engaged in work on industrial problems as they have affected immigrants, part of the time as executive secretary of the Massachusetts State Immigration Commission and more recently as director of the Immigrants' Protective League of Chicago. The permanent staff of assistants will be selected from candidates approved by the U. S. Civil Service commission, as a result of special examinations to be held on the 15th and 19th of September.

As an aid to the Children's Bureau in the enforcement of the child-labor law, the Women's committee of the Council of National Defense of Washington, has just issued an appeal to all women who wish to help American youth in war time, urging them to see that all children under fourteen are enrolled in school and asking them to forward to the Women's committee information about their own communities, answering the following questions, which the committee has prepared:

1.—Are all children between six and fourteen in your town, county, or school district in school?
 2.—How do you know?
 3.—Are any children in need of scholarships in order to attend school?

into the water from above, is very deceptive, owing to the refracted light. When the fish seems to be a foot under the surface it is often in reality three or four feet beneath. But the osprey, hovering over on poised wing, drops like a plummet, often completely disappearing below the surface, and in spite of the rapidity with which a fish can move this bird is generally successful in capturing it.

BIRDS OF PREY HAVE KEEN SIGHT

Their Eye the Most Perfect Organ of Sight That is Known

It is contended that the eye of the bird of prey is the most perfect organ of sight that exists. Most marvelous of all is the sight that enables the owl to strike the mouse in the darkness or to pursue and capture the bat, which we can scarcely see even in the early twilight, writes Edwin Tarrisse.

The talons of certain of the larger birds of prey are extremely strong. The feet of the osprey make an excellent fish trap one from which no fish can escape when once caught.

The great curved talons of the eagle are most effective, and are certainly stronger than those of all other birds. When they once close on an object the clutch is so tight that it can scarcely be loosened unless the bird's leg be severed. The strong claws are not only used in catching food, but are used also in carrying nesting material.

If, instead of catching its prey, a species of bird is accustomed to feed on carrion, this change is clearly reflected in the weaker muscles of the feet and in the shorter and duller claws.

Many persons have thought that buzzards have an unusual sense of smell that guides them over miles of territory in search of food but many years ago it was proved that sight is the principal factor in guiding the bird of prey.

Audubon made careful experiments with a black vulture. The dry, stuffed skin of a deer which he placed out the field soon attracted a vulture. Although there was no smell of flesh and nothing eatable about it, the bird lit and began tugging at the dry skin. Later, when the same bird circled over the field it espied a small snake not thicker than a man's finger and pounced upon it.

In another case the decayed carcass of a hog was covered with brush so that it was invisible. It remained undis-

Members Named By Government

Appointees for Central Boards of Selection Under Military Service Act—M. G. Teed for New Brunswick

Ottawa, Sept. 7.—The central board of selection under the military service act, is appointed. Sir George Foster submitted the government nominees, coupled with those of Sir Wilfrid Laurier, and they passed the house with but little discussion. Sir Wilfrid Laurier "deeply regretted" that the government had thought fit to put conscription into force without consulting the people. "I must say frankly," he told the house, "that if I had followed my first inclination, I would not have given any countenance to participation in the administration." But he thought the evil effects of a "bad law" could be minimized by the wisest possible administration of it.

Sir Sam Hughes queried the opposition

leader as to how he could explain delay in enforcing the act. Sir Sam doubted if, owing to delays, there would be a soldier at the front before the war was over.

"Then," retorted Sir Wilfrid, "it would be better to consult the people at once."

Sir George Foster submitted a motion naming the following as members of board of selection to appoint members of local tribunals under the military service act:

Ottawa—A. E. Fripp, M. P., for Ottawa; W. A. Boys, M. P., Barrie (Ont.); Sir John Gibson, Hamilton (Ont.); A. B. Lowe, Ottawa.

Quebec—Joseph Rainville, M. P., St. Lambert; Romeo Langlois, K. C., Quebec; Hon. S. N. Parent, Montreal; Hon. Sydney Fisher, Knowlton (Que.)

MOTION PICTURE MEN IN CONVENTION HERE

The second annual convention of the Motion Picture Exhibitors League is to be held at the Fythian Hall, German street, this afternoon and will be continued on Sunday and Monday. President W. H. Golding will be in the chair and the welcoming remarks will be delivered by Dr. H. S. Bridges, chairman of the N. B. board of censors. The morning session will be taken up with routine business, including the appointment of a nominating committee and the retiring president's address. The annual reports of Secretary Hurley, of St. John, and Treasurer Metzler, of Halifax, will be presented. This will be followed by the election of officers.

On Saturday evening addresses will be delivered by W. Stephen Bush, editor of the Exhibitors' Trade Review, New York; Ross E. Tapley, Merrick R. Nutting, editor of the Canadian Film Digest, and Sam Spedding, of the Moving Picture World, New York. Additional addresses will be delivered by C. C. Pettijohn, of New York, general manager of the American Exhibitors Association, and F. H. Richardson, the projection expert of the Moving Picture World. If the time permits, otherwise they will be heard at the Sunday gatherings. During the evening recess the convention will break up in little dinner parties.

On Sunday morning an excursion will be had up river by steamer Champlain. W. Stephen Bush and Sam Spedding, accompanied by William Donaldson, of the Bill Board, arrived in the city last evening and are registered at the Royal Rose. E. Tapley, Vitagraph player and lecturer, and Belle Bruce are expected to arrive today to attend the convention.

PROMISE AMENDMENT TO THE C. N. R. BILL

Ottawa, Sept. 7.—The announcement made in the senate this afternoon by the government leader, Sir James Lougheed, that an amendment to the Canadian Northern legislation had been decided upon by the government, limiting the amount which the arbitrators could fix for the value of the \$60,000,000 of outstanding stock and fixing a date for the filing of all "undisclosed liabilities," is one result of criticism of the present provision of the bill both within and without parliament. It is stated that a number of Conservative senators made it plain to the government that unless these two amendments were agreed to their support of the bill in the upper chamber could not be counted upon, thus jeopardizing its passage entirely. The amendments are in line with the contentions of the opposition in the commons.

WIN THE WAR THE FIRST CONSIDERATION

Winnipeg, Sept. 7.—The "Get-Together" meeting of South Winnipeg Liberals and Conservatives held last night, adopted the following resolution:

"Realizing as we do the critical position of Canada today and recognizing that the paramount issue for the Canadian people at the present time is the bringing of the war to a successful issue as early a date as possible, and that in order to accomplish this end there should be conscription of men, money and other resources, and realizing the importance of all electors in each constituency who hold similar views uniting for the purpose of electing a man pledged to such views, we therefore recommend that the electors in South Winnipeg endeavor to agree upon the union and pledge to support, above everything else, the views above set forth."

Lesson in Scientific Complexion Renewing

Everyone has a beautiful skin underneath the one exposed to view. Bear this in mind and it will be easier to understand the correct principle in acquiring a lovely complexion. Nature is constantly shedding the top skin in tiny particles like dandruff, only much smaller in size. In abnormal conditions, or in advancing age, these particles are not shed as rapidly as in robust youth. The longer they remain the more soiled or faded they become—that's the immediate cause of a "bad complexion."

It has been discovered that ordinary macerated wax, to be had at any drug store, will absorb these worn-out particles. The absorption, while hastening Nature's work, goes on gradually enough to cause no inconvenience. In a week or two the transformation is complete. The fresh, healthy, youthful undertone is then wholly in evidence. You who are so satisfied with your complexion should get a course of macerated wax and try this treatment. Use the wax nightly, like cold cream, washing it off morning.

PAPER FROM RICE STRAW

Other Waste Products Are Utilized at Louisiana Plant

New Iberia, La., Sept. 7.—The first unit of a factory to make news print paper from rice straw and from bagasse—the waste of sugar mills—has been installed and is in successful operation here. To all appearances, and according to statements made by the management of the mill, the paper produced from these two products, hitherto regarded practically as waste, is as good as that made from wood pulp in northern paper mills.

The corporation that is making the paper first purchased an old single mill and eighteen acres of land extending from the Bayou Teche, across the heart of New Iberia, to the Southern Pacific

Railroad. This gives excellent manufacturing and distributing conditions, for power boats and barges bring the rice straw and the bagasse from fields within a radius of 200 miles along the Bayou Teche and tributary streams, while the finished product of paper goes out at the other side of the plant directly to the cars of the Southern Pacific for distribution to northern and eastern markets.

A wharf, spur tracks, "digesting building" and warehouses have been built, and the first ton of paper has been made. The Bayou Teche is the central waterway of the picturesque Louisiana section immortalized by Longfellow, and known even to its own inhabitants as "Evangeline's Land." It comprises the largest rice belt in the world, and produces hundreds of thousands of tons of sugar as well. From the immediate neighborhood of New Iberia the output of rice straw is 20,000 tons yearly, while beyond Iberia

Parish, but tributary to it by navigable waterways, lie the rice-growing parishes of Vermilion, Lafayette, Acadia, Allen, Beauregard, Jefferson Davis and Calcasieu, which produce hundreds of thousands of tons of rice straw annually, all of it being wasted.

AMERICAN AIMS IN WAR CLEARLY STATED

Minneapolis, Sept. 7.—The American Alliance for Labor and Democracy late yesterday unanimously adopted a resolution denouncing as unwarranted the declaration of the People's Council of America for Democracy and Terms of Peace and other similar organizations that America has not clearly stated her war aims. The resolution stated that no government has ever stated its war aims so clearly, war aims entirely consistent with ideals of democracy and internationalism.

Shot Husband After Quarrel Over Religion

Rutherford, N. J., Sept. 7.—Residents in the section that centres about Orient Way and East Passaic avenue were startled in the early morning by the sound of three shots in quick succession. William Taylor had heard angry voices across the way, and in the dining room of Christian Hartwig he found Hartwig lying dead on the floor, while his wife Katherine was sitting calmly watching Chester, their two-year-old son, at play. Dr. C. Reynolds found Hartwig had been shot in the head and in the back. When Chief of Police James Burnham reached the house Mrs. Hartwig was still sitting in her chair. She got up, saying:—"Do you want me to go with you?" The chief said he did and at the mother's request neighbors were asked to look after her six children. Mrs. Hartwig was locked up after she said the tragedy was the culmination of an argument. Her husband, she declared, had advanced religious views and had charged her with not being sufficiently good.

She told the police her husband had picked up Chester, the two-year-old boy, who was playing on the floor, and had thrown the boy at her. Mrs. Hartwig got a revolver and fired three shots at her husband. She added that, knowing her husband's temperament, she knew that if she had not shot him he would have killed her and perhaps some of the children. Hartwig was forty-eight years old and his wife ten years younger. He was a mechanical engineer and for several years had been head draftsman for the Robins Conveying Belt Company of Passaic and New York City.

BODY OF AMERICAN WAR AVIATOR FOUND

Julian Biddle Had Given His Life in Cause of the Allies

The Hague, Sept. 7.—According to a message from the village of Edmond-san-Zee, North Holland, a body has been

washed ashore there on which was found a letter case containing a certificate of enrollment in the French Foreign Legion under date June 1, 1917, in the name of Julian Biddle, born Philadelphia on April 10, 1890, profession, banker.

There were also found an airman's flying certificate from the Aero Club of America, dated Oct. 11, 1916, and a service order of instructions to fly from St. Pol to Dunkirk on Aug. 17, 1917, together with 365 francs in French bank notes.

Because of the condition of the body,

it was buried immediately in the vicinity of the village.

A Paris despatch on Aug. 22 announced that Julian Biddle, youngest son of Mrs. Arthur Biddle, of Ambler, a Yale graduate, who joined the Lafayette Flying Squadron early in August, had been killed in service on Aug. 20.

VANDERBILT'S ENGINEERS FIRST OF 27TH TO LEAVE

Spartanburg, S. C., Sept. 7.—Colonel Cornelius Vanderbilt's Twenty-second Engineers are likely to be the first men of the Twenty-seventh Division to leave for active service. So short is to be the stay of the regiment here that no tent flooring, such as was originally planned, will be installed. Similar orders have been issued in connection with the construction of other camp sites.

"Yes," replied Miss Cayenne. "I have been interested in it. It is one of those trees which get shadier as they grow older."

Mother Why Don't You Take Nuxated Iron

And Be Strong and Well and Have Nice Rosy Cheeks Instead of Being Nervous and Irritable All The Time and Looking So Haggard and Old?—The Doctor Gave Some to Susie Smith's Mother and She Was Worn Off Than You are and Now She Looks Just Fine.

NUXATED IRON WILL INCREASE THE STRENGTH AND ENDURANCE OF WEAK, NERVOUS, CAREWORN, HAGGARD LOOKING WOMEN 100 PER CENT IN TWO WEEKS TIME IN MANY INSTANCES.

THE CHILD'S APPEAL

started their disease was nothing more nor less than a weakened condition brought on by lack of iron in the blood. On account of the peculiar nature of woman, and the great drain placed upon her system at certain periods, she requires iron much more than man to help make up for the loss.

Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while double their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles, in from ten to fourteen days' time simply by taking iron in the proper form. And this, after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate, or tincture of iron simply to save a few cents. The iron demanded by Mother Nature for

secret of great strength and endurance and a life blood with iron before he went into the fray; while many another has gone down in ignominious defeat simply for the lack of iron."

Dr. Schuyler C. Jaques, Visiting Surgeon of St. Elizabeth's Hospital, New York City said: "I have never before given out any medical information or advice for publication as I ordinarily do not believe in it. But so many American women suffer from iron deficiency with its attendant ills—physical weakness, nervous irritability, melancholy, indigestion, flabby, sagging muscles, etc., etc., and in consequence of their weakened run-down condition they are so liable to contract serious and even fatal diseases that I deem it my duty to advise such to take Nuxated Iron. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish quickly to increase their strength, power and endurance will find it a most remarkable and wonderfully effective remedy."

You can tell the women with plenty of iron in their blood—beautiful healthy rosy cheeks women full of life, vim and vitality

"There can be no Beautiful Healthy Rosy Cheeked women without Iron."

"There can be no healthy, beautiful, rosy cheeked women without iron," says Dr. Ferdinand King, a New York Physician and Medical Author. "In my recent talks to physicians on the grave and serious consequences of iron deficiency in the blood of American women, I have strongly emphasized the fact that doctors should prescribe more organic iron—nuxated iron—for their nervous, run-down, weak, haggard looking women patients. Pallor means anemia. The skin of the anemic woman is pale, the flesh flabby. The muscles lack tone, the brain fags and the memory fails and often they become weak, nervous, irritable, dependent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks."

"In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, degenerated cornmeal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods, and silly methods of home cooking, by throwing down the waste pipe the water in which our vegetables are cooked are responsible for another grave iron loss."

"Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

"As I have said a hundred times over, organic iron is the greatest of all strength builders. If people would only take Nuxated Iron when they feel weak or run-down, instead of dosing themselves with habit-forming stimulants and alcoholic beverages I am convinced that in this time of most severe aggravated conditions many other physicians to give it a trial with unfailing results. I have induced cases and thereby the lives of thousands might be saved who now die every year from pneumonia, grippe, kidney, liver, heart trouble and other dangerous maladies. The real and true cause which won the day simply because he knew the

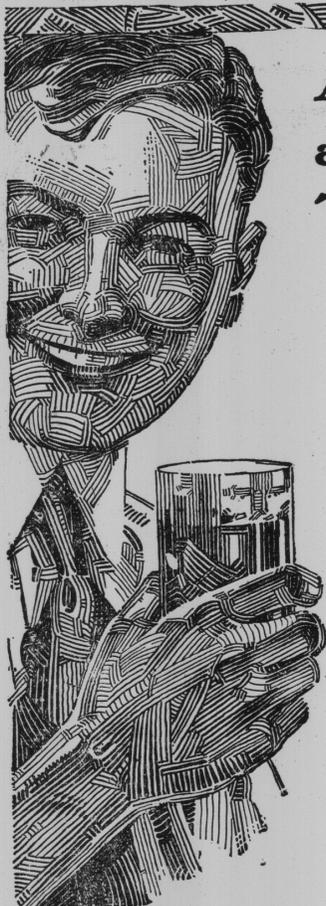

ing against use of metallic iron which may injure the teeth, corrode the stomach and do far more harm than good; advises use of only nuxated iron.

the red coloring matter in the blood of her children, is also not that kind of iron. You must take iron in a form that can be easily absorbed and assimilated to do you any good, otherwise it may prove worse than useless. I have used Nuxated Iron widely in my own practice in most severe aggravated conditions with unfailing results. I have induced many other physicians to give it a trial with reports in regard to its great power as a health and strength builder. Many an athlete and prize fighter has won the day simply because he knew the

secret of great strength and endurance and a life blood with iron before he went into the fray; while many another has gone down in ignominious defeat simply for the lack of iron."

Dr. Schuyler C. Jaques, Visiting Surgeon of St. Elizabeth's Hospital, New York City said: "I have never before given out any medical information or advice for publication as I ordinarily do not believe in it. But so many American women suffer from iron deficiency with its attendant ills—physical weakness, nervous irritability, melancholy, indigestion, flabby, sagging muscles, etc., etc., and in consequence of their weakened run-down condition they are so liable to contract serious and even fatal diseases that I deem it my duty to advise such to take Nuxated Iron. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish quickly to increase their strength, power and endurance will find it a most remarkable and wonderfully effective remedy."

NOTE—Nuxated Iron, which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine or secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the older inorganic iron products it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run down conditions. The manufacturers have such great confidence in nuxated iron, that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron, and increase their strength 100 per cent or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Wasson's Drug Store and all good druggists.

HORSE DASHES AGAINST PLATE GLASS WINDOW

Hiatt Bakery Animal Cut and Damage Done at Miss Campbell's Millinery Store

A great deal of excitement was caused in Germain street this morning, when a runaway team tore out of South Market street and dashed across Germain into the millinery shop kept by Miss Campbell. A large plate glass window was smashed and two small panes in the cellar broken, while the horse suffered very severe cuts on the neck and legs.

It was one of Hiatt's bakery teams, and driven by Harry Hiatt. Mr. Hiatt had just got down from the driver's seat to put on the leg-strap, when the horse made a sudden breakaway and dashed out to Germain street. Several people barely escaped being injured. Instead of making the turn, the horse went straight across Germain and crashed through the shop window. Policeman Winters was near and he rushed to the scene. He found the horse on its knees and about to make another surge forward. He took a firm grip on it in order to prevent this, but the horse fell over on top of him, painfully bruising his wrist and both knees.

A large crowd had by this time assembled, and finally the horse was got on its feet and taken to Dr. Johnson's in Peel street, where it received treatment and several stitches were put in the cut on its neck. A wagon wheel was damaged.

The Man in The Street

This September morn felt almost as cool as the figure in the famous picture of that name looking on from the top of the drawbacks to a summer in St. John is that it is over before it really begins.

St. John welcomes, today, the man who helped to put the move in the movies.

While the visitors are here they might give some of the civic officials a tip on how to make the city move fast enough to qualify as a subject for a motion picture.

"The submarine has failed," says Lloyd George; an opinion which is shared by everybody except the Germans and the folk on the boats which have been torpedoed.

Huns probably will excuse latest attacks on hospitals in middle of France on the ground that they mistook them for fortified seaports.

Is there any significance in the fact that statements were made on the same day that the city might engage in the milk business and that the civic water supply has been increased?

With whiskey production banned in the United States after today, John Barleycorn is beginning to look forward to the day when he will be giving a realistic interpretation of the role of the man without a country.

A casual reading of the new franchise bill might give one the impression that Premier Borden is willing to save the country the strain of a change of government.

With a medium sized roast costing a day's wages, the government instructions to economize on the use of beef strikes the average man as something closely akin to sarcasm.

And the injunction to save money, in these days of the superlative cost of living, looks like a brilliant piece of humor.

Publishers of easy lessons in French for the overseas soldiers seem to have a wrong impression of the soldier's mission. They are supposed to be going overseas to kill Germans, not to murder the French language.

The Wrong Shop. There is a tool with saw-teeth jaws which is known to the trade as an alligator wrench. A purchaser entered a King street store the other day in search of such an instrument and approached a rather young looking clerk. "I want a small alligator," he remarked.

The new clerk looked at him with distrust as he replied: "Say, mister, this is a hardware shop, not a menagerie."

There Was A Difference. A returned soldier tells this one regarding his experience in a French hospital.

A spirit of insubordination had crept into the ward and a lot of the patients were making trouble about taking their medicine. To solve the problem a pretty young nurse promised to kiss each man who took his dose without protesting.

There was no trouble that day. The elderly matron had witnessed the scene and, on the next round, she announced that each man who took his medicine might kiss her. The response was not encouraging. With quick wit she sized up the situation. "Take your medicine or I will order you to kiss me," she announced. They took it.

CLOSE FOR THE SEASON

A FINE BABY BOY. Congratulations are being extended to Mr. and Mrs. Edwin Hamilton, 225 Brussels street, on the arrival of a fine eight-pound baby boy in their home on Thursday.

NOVELTY SHOWER. A novelty shower was tendered Miss Maud Shanks last night at the home of her parents, Mr. and Mrs. S. A. Shanks, 480 Douglas Avenue, by about fifty of her friends in honor of a happy event to take place at the latter part of this month.

PATRIOTIC DRAWING. At the regular meeting of the Gleaner Society, Lakeside, on Wednesday, a drawing for a centrepiece was held to raise funds for the upkeep of the Gleaner Bed at Cliveden Hospital, No. 80, the lucky ticket, was held by Mrs. Alexander McManus of Lakeside.

MILK PRICE. The milk supply which reached the city this morning is said to have been only about half the normal but tonight it is expected the quantity received will be up to the usual. It was said by a dealer today that the consensus was that the people would have to pay twelve cents a quart.

TRIBUTE TO MR. McCAFFREY. Frederick Mall—J. J. McCaffrey, of this city, has been recommended by Sir Wilfrid Laurier as one of the board of selection to be appointed to joint resolution of the Commons and Senate to select members of the local appeal tribunals under the Military Service Bill. Mr. McCaffrey has for some time been chief recruiting officer for York, has been rendered valuable service in connection with the war. He is a fair-minded man, of great energy and capacity for work, and his appointment is a guarantee that so far as New Brunswick is concerned, the act will be administered in a fair and impartial manner.

CANADIAN BACON STILL TO BE SENT TO THE MOTHERLAND

Ottawa, Sept. 8.—A statement from the food controller's office says: "There is no foundation whatever for the report that exports of Canadian bacon to Great Britain are to be suspended. What has happened is merely that the British food controller will permit no importations without specially granted licenses.

"The British food ministry established on September 8 a single government buying agency in the United States for the purchase of Canadian and American bacon, butter, lard and tallow. From that date no purchase will be made except through this official channel. Shipments of bacon, therefore, will continue, but it will now be possible for the British authorities to keep promptly and continuously informed as to quantities received, quantities in transit, and quantities consumed. Great Britain and our allies still require at least twenty-five per cent. of our output.

"A glance at the following figures will show what Canada has already done:—Canadian exports of bacon to the United Kingdom, France and Italy, in pounds (fiscal years ended March 31)—1913, 22,000,000; 1914, 25,000,000; 1915, 24,000,000; 1916, 144,250,000; 1917, 207,284,678."

SIX DEATHS FROM CHOLERA INFANTUM

Seventeen deaths were reported to the board of health this week, as follows:—Cholera infantum, six; apoplexy, two; senility, inanition, meningitis, carcinoma, gastro-enteritis, heart disease, premature birth and gunshot wound, one each.
