ATTEMPT TO BLOW UP C.P.R. BRIDGE AT VANCEBORO PARTLY SUCCESSFUL; GERMAN OFFICER ARRESTED

Dynamite Used at New Brunswick End in Early Hours This Morning

Werner Vanhorn Said To Have Confessed To The Deed Made Trip From New York Purposely -- Prompt Arrest Follows Outrage and Attorney-General Baxter Begins Proceedings to Lead to Extradition -- City Stirred as War is Brought Near Home--Traffic Continues

The C. P. R. bridge at Vanceboro was dynamited this morning, but the nefarious plot failed of its purpose. An official C. P. R. statement says:—"The eastern section of the bridge was blown up by dynamite about 2.05 a.m. The explosive was placed between bridge ties and a steel beam, and resulted in damaging one steel beam, six bridge ties, and also the inside upright batter post. Putting passenger cars across. Explosion action of German officer, captured at hotel, in charge of U. S. authorities at Vanceboro. Given name Werner Vanhorn, a German who admits he came from New York on Saturday to destroy the bridge."

The war in Europe was brought still more closely home to the people of St. John and Canada today when news reached the city telling of an attempt to destroy the C. P. R. bridge across the St. Croix river at Vanceboro, and the admission of Werner Vanhorn, who claims to be a German officer, that he was responsible.

The damage to the bridge, while it will inconvenience traffic for a time, is not believed to have been excessive, and in an official C. P. R. statement was given as having "resulted from the blowing up of a part of the eastern end of the bridge by dynamite about 2.05 a.m. causing damage to one steel beam, six bridge ties, and also to the inside upright batter post."

The German under arrest is being held at Vanceboro in custody of United States officials. In a statement which he made this morning he is reported to have said that he came from New York on Saturday last with the purpose of "blowing up the bridge." He waited for what he considered an opportune time and decided upon an hour or two after midnight today. His attempt was made from the eastern side of the bridge.

The explosion caused an awakening of the people living within earshot, and in the confusion it is understood that Vanhorn managed to get safely across to the American side. There he was captured this morning, according to an official statement from H. C. Groat, superintendent of the Atlantic division of the C. P. R., who, with George W. Moore, divisional engineer, hurried to the scene on the early Boston train on being informed of the news. He was placed under arrest in a hotel in Vanceboro by the United States authorities, and is being held pending official advice.

The Attorney-General, Hon. J. B. M. Baxter, K. C., today wired the C. P. R. authorities at Vanceboro to lay information as a first step towards extradition.

TRAFFIC CONTINUES.

The damage to the bridge was not so great as to hinder passage of freight and passenger cars today, although no engine was taken across it. A bridge and wreckage crew were immediately sent to the scene to institute repairs, and the cars of the Boston and Montreal trains were pushed across with the aid of engines on either side, being brought to St. John about two hours late.

The bridge is a steel structure, owned by the Canadian Pacific. Up to recently a close watch has been kept upon it by guards, says a despatch from Vanceboro, but they had been taken off.

CAUSED STIR HERE

The news was received in St. John early and quickly spread all over the city. It was received with the most intense interest. As a result of the rumors that were flying around the Times office was bombarded with inquiries for the confirmation of the story. Some inquiries came by long distance telephone and by telegram from outside of the city, showing how widespread was the interest.

Speaking of the matter this morning, Mayor Frink said that he had no doubt that this business would result in a general tightening up of the system, and that the guarding of important places will be looked after more carefully than ever.

ARREST OF VANHORN

Vanceboro, Maine, Feb. 2.—The attack on the bridge caused great excitement on the New Brunswick side, where rumors of a German plot spread rapidly, and resulted in an immediate investigation by the provincial authorities. Inquiry was also begun on this side and this led to the arrest in a local hotel, at a man who gave his name as Vanhorn.

According to the police, the prisoner claimed to be an officer in the service of Germany, but refused to divulge his rank.

The police assert that he admitted that he exploded the dynamite under a section of the bridge, and that a dynamite cap and a plan of the bridge were found in his possession.

Vanhorn, according to the police, described himself as thirty-seven years old, he is five feet eleven inches in height, and weighs about 200 pounds. He is smooth shaven.

The arrest was made by Deputy Sheriff George W. Ross, who was accompanied by a Maine Central railroad detective and two Canadian officers from McAdam Junction, N. B.

When arrested Vanhorn was removed to the United States immigration rooms, where he was closely guarded. Deputy Sheriff Ross notified United States marshals and United States district attorney at Portland asking for instructions. When taken into custody at his room in the hotel, Vanhorn made no resistance but is alleged to have told the officers the circumstances of the dynamiting. He did not appear to be able to speak very good English. There were no papers found to identify him. In a coat he carried was found a German flag. An assertion that he had committed an act of war and that his offence was political.

Asked why he had dynamited the bridge the prisoner, the police say, made the simple explanation that his country was at war with Great Britain and that Canada was a part of the enemy's country. He said, according to the officers, that he came from New York having left that city on Friday night and arrived here Saturday. Immediately after discharging the explosive, he returned to the hotel.

As evidence of his experience, he displayed a frost bitten thumb. His clothing had been encrusted with ice and was soaked through.

As to extradition

The arrest of Vanhorn has aroused special interest because of the fact that he was taken into custody on American soil and was made a prisoner of the

State of Maine. To avoid possible complications the local authorities made no further move pending advice from the federal government. The Canadian authorities indicated that they would make immediate representations at Washington with a view of extradition, on the ground that the dynamiting had been done on the Canadian side of the border. On the other hand, it was said that Vanhorn would be defended against extradition, basing his claim for the protection of the United States on his assertion that he had committed an act of war and that his offence was political.

Montreal Statement

Montreal, Feb. 2.—The C. P. R. issued an official statement this morning regarding the blowing up of the bridge over the St. Croix River at Vanceboro. They state that traffic has not been interrupted, passengers will not have to leave the trains and a delay of only twenty minutes was caused. Damage was done to one span only, and repairs were immediately commenced. A suspicious character arrested by United States officials has admitted the deed and said he was a German officer.

A Span of 1200 feet.

The bridge is on the direct line of the railroad from Halifax, N. S., and St. John, N. B. (Continued on page 2, fifth column)

ENGLAND TO FIGHT TO END EVEN IF FRANCE AND RUSSIA GIVE UP WAR

Striking Interview Given To Paris Newspaper By Winston Churchill

For First Time in History England Can Say That the Sea is Free-Germany Like Man Throttled by Gag and Pressure Will Not be Relieved Until Unconditional Surrender Comes

Paris, Feb. 2.—"For the first time in history, England can say the sea is free," declared Winston Spencer Churchill, Great Britain's First Lord of the Admiralty, in an interview with Hughes Louix, editor of the Matin.

"In the days when you and we fought each other," he continued, "our most important victories never brought us security comparable with that which we enjoyed today. Even after Trafalgar, we knew nothing like it. Supposing Germany has friendships and relationships in South America, how can help reach her from them now? There remains the United States. Public opinion there hesitates. Perhaps it is better owing to its sympathies, but at the present moment it is fully aware that we shall arrange to take precaution fully compatible with the rights of belligerents and the respect due to neutrals."

GERMANY THROTTLED

"Our adversary, perhaps, can obtain a few supplies from Turkey and Asia Minor. Germany will continue to receive a small quantity of that whereof she has considerable need, but while you and we breathe freely, thanks to the sea we have kept and can keep open. Germany is like a man throttled with a heavy gag. You know the effect of such a gag when action is necessary. This pressure shall not be relaxed until she gives in unconditionally for EVEN IF FRANCE AND RUSSIA SHOULD DECIDE TO WITHDRAW FROM THE STRUGGLE WE ENGLISH WOULD CARRY ON THE WAR TO THE BITTER END."

"The action of a navy necessarily is slow, but the pressure it exercises on an adversary is unrelenting. Compare it to the forces of nature, to the inexorable grip of winter, and remember that it is stress that nothing can resist."

MORE POLICE CHANGES; PATROLMAN RANKINE BECOMES SERGEANT

Replaces Ross Because of Seniority--Policeman Geo. Clark Resigns and James Moran is Appointed to Force

Changes in the police force have materialized and today sees the first put into effect. Tonight Patrolman Rankine will leave the city beat and will be raised to the rank of sergeant, upon which he will take charge of the night patrolmen of the North End, replacing Sergeant Ross, who was recently placed in charge by ex-Chief Clark. Policeman Rankine has served on the police force for the last nineteen years, while his predecessor has been in the ranks for ten years. It is owing to this that the change is being made and not because Sergeant Ross was not qualified to fill the position.

Commissioner McLellan confirmed the report of the change and said that when he had been consulted regarding the matter he gave his opinion that the senior in the ranks should be first in line for promotion, unless the junior had certain qualifications which would entitle him for consideration. If the senior and junior were both qualified, then the senior should have the preference.

Last night Policeman George Clark's resignation was accepted by Chief Simpson. Policeman Clark was recently

stayed by a Chinese while doing duty in one of the beats at Sand Point. When Commissioner McLellan was asked regarding the matter he said that at the time of the assault by the Chinese Policeman Clark was doing duty for the steamship officials and not for the police department, and therefore they were in no way responsible. He said that no policeman could hold two positions, which Mr. Clark had done, as he was light keeper for the dominion government and at the same time a policeman. Also that at the time of the assault he was doing patrol duty at night, and was working for the steamship officials in the day time, which he did not consider proper.

This morning a new policeman was sworn in, James Moran, Wellington row. He is twenty-five years of age, stands six feet and one-half inch, and weighs slightly more than 200 pounds. He has had experience in police duty, having served for one year in Sydney, C. B. He has a high school education. He is a carpenter by trade. After taking the oath of allegiance the new policeman received preliminary instructions from Chief Simpson. It is to report for duty this evening.

No Bids For Fisheries VILLA'S TROOPS BEATEN AND GUADALAJARA TAKEN

The city commissioners with the city chamberlain and his clerk and R. F. Politz as auctioneer were present in the old council chamber of the court house this morning for the adjourned sale of harbor fishery lots. There was a fair attendance of fishermen but they were not prepared to bid and when the lots were offered there were no takers at even the upset price. The sale was again adjourned until Tuesday of next week, when it will be continued in the committee room at City Hall.

Mexico City, Feb. 2.—Official reports of the capture of the city of Guadalupe were received at General Obregon's headquarters yesterday. The battle occurred on January 20, and Villa's troops suffered heavy casualties. Five hundred men were killed, including the three generals, and large quantities of material were captured.

Allies Breaking Grip of German Forces on Belgian Coast Line

Warships Do Their Part and Soldiers on Land Pursue Active Aggression--Gallant Work of French Marines

London, Feb. 2.—A correspondent telegraph to the Daily Telegraph from a point on the Dutch frontier:

"Information from Western Flanders indicates that the German hold on the Belgian coast line is becoming more and more precarious. Not only are their positions always subject to a bombardment from the warships off the shore but in the last few days the allies on land have pursued an active aggression, particularly in the neighborhood of Nieuport."

"From this district, which is the extreme point in Belgium held by the Germans, good progress by the allies is reported as a result of the severe fighting toward the end of last week."

"According to these accounts, the principal attacks were concentrated between Nieuport and Lombardsyde, where the fighting, of which three separate bayonet charges were the main feature, resulted in the allies capturing a strongly held position on the dunes."

"There was desperate fighting on both sides, but the most critical part of the storming movement developed upon the body of French marines. Twice they charged up the height and twice were hurled back, but again they dashed forward. This time, though their ranks had been thinned, they gained the top of the ridge and held it after fierce work with cold steel."

"The German casualties in this engagement included 400 dead and 300 prisoners. One important result of this success is that the allies' guns now are able to command Slype and other points on the line almost due south from Casteau."

BOMBARDING FURNESS

London, Feb. 2.—The Daily Mail's correspondent telegraph from Northern France:

"The Germans are continuing to bombard Furness. The allies' aviators discovered two carefully hidden German guns which had damaged the town. The allies' artillery at once destroyed them. So far, no monuments have been destroyed."

GERMANS DRIVE RUSSIANS BACK

Petrograd, Feb. 2.—Renewal of a fierce offensive by the Germans in the region of Soderzow and Bolnovo on the road to Warsaw is admitted in an official statement. The violence of the German attack compelled some Russian units to retire to the second line of trenches.

Petrograd, Feb. 2.—The government has decided in future to take the bombardment of unfortified towns as an act of piracy.

Petrograd, Feb. 2.—An official communication issued by the general staff of the army of the Caucasus says that "There were no engagements of importance at any point on the front on January 31."

MAKE SHELLS IN ST. JOHN GENERAL BENSON BACK TO MONTREAL

Preparation Under Way at The Phoenix Foundry Here on Remount Business--Three Men From Partridge Island to Fredericton

An interesting announcement is made today by Messrs. Fleming, of the Phoenix Foundry vigorously proceeding with the changes and additions to their plant required to enable them to handle their share of work on a contract for steel-sheathed shells that they have received from the war office.

As soon as these necessary changes and additions are completed and the new equipment, in the way of special tools installed and put in smooth running operation a considerable number of hands in addition to their regular staff will be required. The work will be carried a day and night in order to produce the shells with all possible speed.

This employment for a considerable number of able hands and other mechanics will be very acceptable and the extra work and additional money paid out for wages will be an excellent thing for the community.

To Fredericton

Three members of the 8th Regiment C. B., who have been doing garrison duty on Partridge Island—Corporal W. L. Blanchard, Gunner William Stokes, and Gunner J. W. Pilley—will be given evening for Fredericton to become members of the Divisional Ammunition Column for overseas service. Vacancies were open in this unit for some specialists and Colonel Armstrong was asked to send three men. The result of the selection of the three named. Corporal Blanchard is a civil engineer.

TO TRY GRANDSON OF KRUGER ON A TREASON CHARGE

Some Seventy Burglars in South Africa Are to Be Court-Martialed

Pretoria, via London, Feb. 2.—Pieter Grobler a member of the parliament of the Union of South Africa, and a grandson of Paul Kruger, has been committed for trial on a charge of treason.

An official announcement issued here sets forth that seventy-one burglars who declined to serve against the Germans in the southwest have been ordered court-martialed. Five hundred others who professed willingness to join their commands but urged various reasons for exemption will be sent back to their home district, where local boards will inquire into the facts.

Quebec, Feb. 1.—Bank clearings for the month were \$11,291,993. For January 1914, they were \$13,479,997.

SAYS DYNAMITE WAS SECURED IN NEW BRUNSWICK

Vanhorn So Quoted By Passengers Here Who Talked to Him at Vanceboro

Vanhorn, the German under arrest at Vanceboro, was described by passengers reaching the city this afternoon on the C. P. R. two hours late, as a military looking man, about middle age, respectably dressed, and very talkative. While they were in the station waiting for their cars to be pushed across the bridge which he says he damaged, Vanhorn conversed quite freely with those who sought speech with him. Among the statements which he made was one to the effect that he had secured the explosives which he used on the Canadian side of the border according to a pre-arranged plan. He arrived in Vanceboro only on Saturday last, and had them in his possession at the hotel. He also had blueprints showing the location of the bridge, its approaches and other features.

Regarding the damage done to the bridge, passengers said that while it had been considerably damaged, the dynamite had not been placed so as to do what was planned. There had also been some damage done to private property nearby from the concussion. A number of glass being broken in houses and a sawmill.

The town was aroused from slumber by the explosion, and while the citizens at once hurried out to find what the cause was Vanhorn quietly sought his comfortable bed at the hotel, and was soon in slumber. A short time later, however, he was aroused and placed under arrest. Just before the train pulled out he was taken from the depot apparently to a police station.

British Troops Driven Back; Recover and Whip Germans

Paris, Feb. 2.—The French War Office this afternoon reported on the progress of the war which reads as follows: "The day of February 1 was marked by redoubled intensity in the artillery fighting on our part, as well as that of the enemy, and by a series of German attacks, of relatively secondary importance, all of which were repulsed with serious losses for our adversaries, when compared to the numbers of men they had engaged. "In Belgium the German artillery gave evidence of its greatest activity on the front of the Belgian troops, and particularly against the various points of support which these troops have been occupying for some time past in the region of Yser. "Around Ypres the cannonading was at some places, exceedingly violent. THE GALLANT BRITISH "Between the Lys and the Somme, a German regiment attacked a British position near Guinchy and at first drove the English soldiers back. After a series of counter attacks, the British troops re-occupied the ground they had lost and then advanced into new territory, taking possession of trenches of the enemy. "The engagement reported in the announcement given out the night of February 1, which took place along the roadway between Bethune and LaBassee, was particularly brilliant for our infantry. It seems that the Germans had at least one battalion in this engagement. The two first attacks were broken by our fire. The third was successful in that the Germans entered the British trenches, but an immediate counter attack at the point of the bayonet resulted in our overcoming the enemy. Only a few Germans succeeded in regaining their trenches, all the others were killed or taken prisoners. "Between the Somme and the Oise, and along the front of the Aisne, there is no important development to report with the exception of a German attack on Beaumont Hamel, which was not successful. "Our heavy artillery bombarded the railroad station at Noyon, where the Germans were repositioning their forces. Our shells caused two explosions, the smoke from which could be seen for more than two hours and a half. "Our methodical progress in the region of Perthes continues. We have occupied another small forest to the northwest of this village. "In the Woerwe district the enemy delivered an attack on the western side of the Bouchet forest (northwest of Troyon), which was at once driven back. "There is nothing to announce on the front in Lorraine and in the Vosges."

ZEPPELIN DEvised TO RISE FROM SEA

German Airship Caught Near Libau Was of Special Construction—Third Attack on City

Petrograd, Feb. 2.—The unsuccessful attack yesterday of a German airship on Libau is the third time this port has been attacked by the Germans since the beginning of the war. The other two bombardments were from the sea and occurred in September and November. On both occasions the Germans were driven away. The German airship appeared over Libau yesterday morning at ten o'clock. As soon as she had dropped nine bombs, some of which did damage, she sailed away to the southwest. Traveling in this direction she was fired upon by Russian artillery and struck, for she could be seen changing her course in the direction of the sea. She must have been injured, for she alighted on the waters seven miles from the German town of Ygeln. It was apparent to observers that this Zeppelin had been especially constructed to rise from the sea, and it is believed that she would have been able to make repairs and get away again were it not for the fact that she was struck by a Russian armored tug which put out from Libau. After the crew had been taken off the Zeppelin was sent to the bottom. The seven men rescued consisted of four officers and three sailors. The Germans are said to have treated a base on the Baltic for the operations of these Zeppelin airships against the Russians. The Russian general staff is said to have received information recently to the effect that the Germans intended landing forces near Libau.

ATTEMPT TO BLOW UP C. P. R. BRIDGE AT VANCEBORO

(Continued from page 1) John, N. B., to Montreal. It is 1,200 feet long, consisting of three steel spans, on granite piers. The portion destroyed was on the New Brunswick side of the river. The bridge connects the Canadian Pacific tracks with those of the Maine Central Railroad, over which the Canadian road has traffic rights between Vanceboro and Mattawamkeig. It was built about five years ago. Although the river is not wide at this point, it runs through a broad and deep ravine. The hope of the explosion aroused the inhabitants of the Maine and New Brunswick villages, many of whom rushed to the scene. This forenoon the authorities had been unable to find any clue to the persons responsible.

The funeral of Mrs. Mary Wright took place this afternoon from her late residence, 144 Watson street, West End. Burial services were conducted by Rev. W. R. Robinson, and interment took place in Cedar Hill.

You Ought to Have Your Eyes Examined

Eye defects are subtle. Because accommodation can often be forced, frequently a defect which glasses would correct is neglected, or is not noticed at all until permanent injury results. The great danger to eyes is that defect in vision, unless corrected, continues to grow; also that as the eye grows older, the inner lens becomes less elastic, and near vision is secured only by straining the eye. The sensible way to insure your sight is to have a competent optometrist examine your eyes at least every two years. We are prepared to make such expert examinations and if glasses are needed provide you with the exact lenses your eyes require. The examination will not inconvenience you and will take but a little time.

BOARD OF TRADE HEARS
ADDRESS BY F. W. HOLT
"Still under consideration," was the report of the council of the board of trade last night regarding the rebuilding of the I. C. R. elevator. The council also reported that the increased subsidy for the Westport service would not be provided for by the Dominion government unless in the supplementary estimates. Appointment of a Dominion inspector for meats locally killed, the board was informed, would not be made until there was a slaughter house here large enough to warrant it.
In addition to these matters the council reported regarding the complaints of the Moncton board about freight delays on the I. C. R., that a clearance officer has been stationed in West St. John and dealing with their action on recommendations for the Valley Railway bridge routes.
F. W. Holt read a paper on Water Powers of New Brunswick, dealing with the various sources of power available from the streams and rivers.
At a meeting of St. Monica's Catholic Ladies' Benefit Society yesterday reports were submitted showing that some 290 garments had been made for Red Cross and other charitable purposes.

You Should Worry If
it were difficult to find a safe and reliable remedy for the ailments due to irregular or defective action of the stomach, liver or bowels. These ailments are likely to attack anyone; likely, too, to lead to worse sickness if not relieved.
Beecham's Pills
are famous the world over, for their power to correct these troubles certainly and safely. They cleanse the system, purify the blood and act as a general tonic upon body, brain and nerves. Indigestion, biliousness, constipation might, indeed, cause you prolonged suffering and expose you to danger if Beecham's Pills were not on hand.
Purified only by Thomas Beecham, St. Helena, Lancashire, England. Sold everywhere in Canada and U. S. America. In boxes, 25 cents.

REVOLUTION SIMMERS AT CONSTANTINOPLE
Enver Pasha Blamed For Coming Ruin of Country — Executions Become Frequent
London, Feb. 2.—H. F. Baldwin, a correspondent at Saloniki writes that if reports received there are to be credited all Constantinople is "one simmering revolution."
"The Turkish officers realize," he writes, "that unless Enver Pasha, former minister of war and leader of young Turk party, is deposed from his control of affairs Turkey's ruin is inevitable and certain."
"Executions are frequent. Turkey's declaration of war was the signal for an outbreak of mob violence. The mob looted and wrecked Totakal's Cafe, a Russian establishment which was much frequented by war correspondents during the Balkan campaign. All the bakeries and European stores were served similarly."
"The mob, inflamed with Totakal's wines, and amazingly glib in their stolen from the stores totally wrecked a large establishment at Galata bridge where English clothing was advertised for sale."
"The Turkish authorities of Constantinople are greatly perturbed, owing to the fact that a wireless plant is known to be in operation at some place in the vicinity of Constantinople or Adrianople and they are unable to find it."

THE GOLDEN WHEEL
Club at Bond's yesterday after which a procession of the members was formed and headed by four soldiers escorted the unique wheel to the store of Waterbury & Rising, Ltd., in King street where it was on exhibition in their window in the afternoon.
A member of the Los Angeles Rotary Club conceived the idea of this unique invitation to the Rotarians of the world and friends to attend the California Exposition in 1915. The Los Angeles Rotary Club invited the six other clubs of California—Oakland, Sacramento, San Diego, San Francisco, San Jose, Stockton—to join them in extending the Rotary invitation which resulted in this beautiful golden wheel with its smaller wheels for each Rotary club.
This golden wheel was designed and made at great expense and presented to the International Association of Rotary Clubs. It was originally intended to have a California man take the wheel, personally visit every Rotary Club and exhibit it in the various Rotary cities, but failing in their efforts to just the right man to do this, the International Association has undertaken, with the help of 125 milling clubs, to send this golden wheel to every city where there is a Rotary Club conveying a cordial invitation to all Rotarians and their friends to visit San Francisco, San Diego and all other cities of California during the Panama-Pacific Exposition at San Francisco and the Panama-California Exposition at San Diego.
The large wheel represents the International Rotary emblem, while the seven small wheels inside represent the Rotary Clubs of California. These wheels are made of California gold. The small wheels below the large wheel represent the various Rotary Clubs affiliating with the International Association, though several additional clubs have been affiliated since the wheel was made.
Because San Francisco and San Diego are to have exhibitions in 1915, the exhibition seals are engraved on those two wheels.
The Los Angeles wheel has the bell tower of the San Gabriel Mission; Sacramento has the state buildings; Oakland, the new city hall; San Jose, the Lick observatory; and Stockton, the horn of plenty.
The golden wheel was first exhibited at the seven California cities, represented by Rotary Clubs. It was then placed in charge of the Los Angeles delegation to the International Convention at Houston, Texas. The delegation left Los Angeles with the golden wheel, June 19, 1914, stopping enroute at Phoenix, Ariz., and El Paso, Texas, where it was placed on exhibition. They arrived at Houston, Sunday afternoon, June 21. The wheel was duly presented to the International Association and placed in charge of secretary Chesley R. Perry.
The wheel was shipped to Halifax last night under guard and will be displayed by that club today.

CITY LOSES PROMINENT CITIZEN; GEORGE MCKEAN
Lumber Dealer Passes Away After Illness of Two Weeks
George McKean, the well known lumber dealer, died at his residence last night at the age of seventy-four. He had only been ill a fortnight and up to that time had been actively engaged in business.
The late George McKean was born in Armagh, Ireland, in 1841 and in 1867 he was sent out to St. John as the representative of the firm of Francis Carvell & Son. He continued in that capacity until 1872 when he was admitted into partnership and the name of the firm was altered to Carvell, McKean & Co. This firm soon became one of the principal lumber firms in the province and transacted a large business, but was dissolved in 1888. The late Mr. McKean

An Easy Way To Increase Weight
Good Advice For Thin Folks
The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of the thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.
Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through its re-generative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to every starved, broken-down cell and tissue of your body. You can readily picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. Leading druggists of St. John and vicinity have it and will refund your money if you are not satisfied, as per the guarantee found in every package.
Caution—While Sargol has given excellent results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken by those who do not wish to gain ten pounds or more.

MORNING NEWS OVER THE WIRES
J. M. Teller, M. P. P., Conservative leader in Quebec house, is retiring from public life.
Canada has agreed to pay \$15,000 for the shooting of two American poachers at Niagara.
James Anderson, of Knightville, Kings county, was found in a barn three years ago with a bullet in his brain and a revolver by his side. No hope for his recovery is held.
The Masonic Hall in Hampton, now occupied by A. J. Sallows as a neckwear factory, was destroyed by fire last night. He had insurance of \$2,000 and estimates the loss at about \$6,000.
Nine Democrats yesterday bolted their party on the ship-purchase bill in Washington and voted with the Republicans in an effort to have the measure sent back to the commerce committee. Pandemonium reigned and it was only by clever management that the Democrats secured adjournment with the understanding that the bill be taken up today.
Washington, Feb. 1—Under an agreement reached tonight the Canadian government will settle claims growing out of the recent shooting of two American duck hunters by Canadian military men, by paying \$10,000 to the parents of Walter Smith, who was killed, and \$5,000 to Charles Dorsch, who was wounded, in addition to all legal expenses.
The college professor, greatly beloved because of his kind heart, but very absent-minded, visited his married niece and listened to her praise of her first-born. When she paused for breath, the professor said: "I must say something."
"Can the little fellow walk?" he asked with every appearance of relief.
"Walk?" cried the mother indignantly. "Why, he's been walking now for five months."
"Dear me!" exclaimed the professor. "What a long way he must have gone."

BRONCHITIS
If Neglected Will Surely Turn Into PNEUMONIA.
Bronchitis comes from a neglected cold. It starts with a short, painful, dry cough, accompanied with rapid wheezing and a feeling of oppression or tightness through the chest. At first the expectoration is of a light color, but soon becomes copious and of purulent character.
You have, no doubt, wakened up in the morning and have had to cough half a dozen times before you could raise the plugs from your bronchial tubes, and you do succeed in doing so you find that it is of yellowish or greenish color, and you get some relief right away. When this happens to you, you may rest assured that you have a touch of bronchitis, and if not cured immediately it will sooner or later develop into pneumonia or some other serious trouble.
Cure the cold, and thereby prevent bronchitis and pneumonia taking a hold on your system.
This can be quickly done by the use of DR. WOOD'S NORWAY PINE SYRUP.
Mrs. Rebecca Haven, Mahone Bay, N.S., writes: "My little boy, aged six, was always troubled with bronchitis, and when he had whooping cough he was worse. Doctors advised me to use Dr. Wood's Norway Pine Syrup. It gave him instant relief, and positively cured him."
Price, 25c and 50c.

WOMAN WOULD NOT GIVE UP
Though Sick and Suffering; At Last Found Help in Lydia E. Pinkham's Vegetable Compound.
Richmond, Pa.—"When I started taking Lydia E. Pinkham's Vegetable Compound I was in a dreadfully run-down state of health, had internal troubles, and was so extremely nervous and prostrated that if I had given in to my feelings I would have been in bed. As it was I had hardly strength at times to be on my feet and what I did do was by a great effort. I could not sleep at night and of course felt very bad in the morning, and had a steady headache.
After taking the second bottle I noticed that the headache was not so bad, I rested better, and my nerves were stronger. I continued its use until I made a new woman of me, and now I can hardly realize that I am able to do so much as I do. Whenever I know any woman in need of a good medicine I highly praise Lydia E. Pinkham's Vegetable Compound."—Mrs. FRANK CLARK, 3146 N. Tulip St., Richmond, Pa.
Women Have Been Telling Women for forty years how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It will pay you to do so. Lydia E. Pinkham Medicine Co., Lynn, Mass.

The Evening Times and Star

ST. JOHN, N. B., FEBRUARY 2, 1915. The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

THE WAR NEWS

Mr. Winston Churchill told a French interviewer yesterday that even if France and Russia should make peace with Germany, Britain would pursue this war to the bitter end. There is no danger, however, that either France or Russia will withdraw from the conflict.

Today's news indicates that the Germans are making another drive in the direction of Warsaw. No important change along either the western or the eastern battle front is indicated by today's news.

BRITAIN'S CAUSE

Much has been said and written concerning the causes of the present war and the radical difference between German and British ideals. It is safe to say, however, that the members of the St. John Canadian Club, who listened yesterday to the brilliant address of Mr. N. W. Rowell, have a clearer grasp than before of the whole subject and a keener sense of the responsibility that rests upon every British subject to contribute in some way to the prosecution of the colossal task which Britain has undertaken in defence of her own honor and of the rights and liberties of the smaller nations of the world.

It has been made clear that the German deliberalists sank the steamer Tokomaru, which was laden with food and clothing for the Belgian people. Germany was pledged not to destroy relief ships. Her pledge in this case was merely another "scrap of paper."

The Canadian government is inaugurating a campaign to encourage and stimulate the farmers of the whole country to increase their crop production this year. By so doing the farmers will be helping in a very substantial way to fight against the enemies of the British Empire.

Mr. A. B. Copp is to be congratulated upon his election as the representative of Westmorland county in the parliament of Canada. His election by acclamation is a result of the political success by which in a number of constituencies the parties agreed to have no contest. Mr. Copp has had a good deal of political experience, which with his ability fits him to fill worthily the office of Westmorland's representative in parliament.

The minister of militia says he will deal properly with those who provided worthless boots for Canadian soldiers. In this he will have the hearty approval of the people, for whoever attempts to make profit by providing undependable equipment for the soldiers is an ally of Germany.

MR. GEORGE MCKEAN

A very quiet and unassuming gentleman, the late Mr. George McKean has been for nearly half a century a worthy citizen of St. John and an important factor in the great lumber trade of these provinces. He had been for years one of the largest shippers from provincial ports, sending forward cargoes of lumber cut not only in New Brunswick but in Nova Scotia and the province of Quebec.

GERMANY'S POSITION

A review of the general situation in the war zone must be anything but encouraging to Germany and Austria. If the French estimate that the German losses thus far have been nearly 2,000,000 men is at all near the mark, the striking power of Germany must have been immensely weakened, because the very flower of her armies was engaged from the beginning of the war, and the losses from among their ranks are such as cannot be replaced.

KIDNEY TROUBLE AFFECTED HIS SPINE

Suffered For Forty Years Until He Used "Fruit-a-lives"

Bronte, Ont., Oct. 31st, 1913. "For about forty years I was troubled with Lame Back, brought on by Kidney and Bladder Trouble. I was never confined to my bed with the trouble, but it affected my spine and I had to rest for a time. I took advertised remedies which never did me any good. Then I saw "Fruit-a-lives" advertised and decided to try them. They did me more good than any other remedy. My son suffered from the same trouble and frequently had to leave off working, but "Fruit-a-lives" remedied it for him. I would strongly advise anyone suffering from Kidney and Bladder Trouble to use "Fruit-a-lives."

LIGHTER VEIN.

From Frying Pan into the Fire. She—I bought a cookbook for my new cook. He—Goodness, don't she cook badly enough as it is!

A Reasonable Theory? Boss—No; we have all the men we need. Laborer—Seems like you could take one more, the little bit of work I'd do.

This Hurt Him. "Oh, doctor, I have sent for you, certainly, still, I must confess that I have not the slightest faith in modern medical science."

"Well," said the doctor, "that doesn't matter in the least. You see, a man has no faith in the veterinary surgeon, and yet he cures him all the same."

His "Name." A young spark, notorious for his conceit, was boasting in the presence of several gentlemen about the conquests which he had gained over the female heart.

"Look!" said he, "here's a handsome present I had from my last innamorata," at the same time handing round a beautiful cigar case.

"Very nice gift," remarked one of the company. "I perceive your lady-love even had your name put on the case."

"Well, that's queer," answered the boaster. "I never noticed it."

"Look again," rejoined the candid one. "The case is distinctly marked 'Real'!"

Stimulating Interest.—The Rector—Don't you think you could interest your woman's club in the Bible? Mrs. Wayrup (absently)—I've tried, Rector, but it's no use. It would help wonderfully, though, if you could get the author to come here and give a few readings.—Puck.

A Comparative Value of Diamonds

WE are often asked how Diamonds are valued. The average price in the best stores for good stones is around \$350.00 per carat. This is just about right, as it leaves us with preference of the duty.

Diamonds enter Canada duty free. Diamonds pay 20 per cent entering the States. We sell good stones from \$225.00 to \$300.00 a carat.

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder Bothers

The American men and women must guard constantly against Kidney Trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment or your are obliged to seek relief two or three times during the night, if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

MR. COPP NOW M. P.

Moncton, Feb. 1.—A. B. Copp, of Sackville, was elected by acclamation at Dorchester this afternoon to a seat in the house of commons, vacated by the death of Hon. H. R. Emmerson. The proceedings at 12 o'clock with C. Lionel Hanington, clerk. Mr. Copp's nomination papers were filed by his agent, James Friel. At 2 o'clock the returning officer declared the nomination proceedings closed and Mr. Copp elected. Mr. Copp made a brief speech, thanking the electors for the honor conferred upon him. At Ottawa he would endeavor to follow in the footsteps of his predecessor and would do his best to represent his constituency in a creditable manner. This closed the proceedings, which were unusually quiet.

Other Nominations. Montreal, Feb. 1.—Joseph Adelaar Descares, K. C., ex-M. P. P. of Lac-Beauport, was this afternoon elected by acclamation for the vacant federal seat in Jacques Cartier constituency, succeeding Jacques Cartier constituency, succeeding

Prince Albert, Sask., Feb. 1.—Samuel J. Donaldson, was elected by acclamation to fill the Federal seat of the constituency of Prince Albert, rendered vacant by the elevation of James McKay to the Supreme Court bench. Mr. Donaldson was lately Opposition member for the local seat in the Saskatchewan legislature. Berlin, Ont., Feb. 1.—F. Stewart Scott, Conservative and ex-member of Galt, was today elected by acclamation as member for South Waterloo, in the house of commons, to fill the vacancy created by the death of the late member, George A. Clarke.

A Great Blessing to be Freed of Indigestion

For Years He Suffered After Almost Every Meal—Attributes Complete Cure to Use of Dr. Chase's Kidney-Liver Pills.

The experience of many people who suffer from indigestion is like that of the writer of this letter. Stomach medicine may bring some relief, but chronic indigestion is almost invariably the result of derangements of the liver, kidneys and bowels, and cannot be cured until these organs are set right.

With the liver sluggish there is constipation, and the food ferments in the bowels instead of being digested. This is the source of pain and suffering, and the cause of such dread diseases as appendicitis, peritonitis and kidney disease. It is much better to be on the safe side and prevent such ailments by the timely use of Dr. Chase's Kidney-Liver Pills.

Mr. J. D. S. Barrett, Nelson, B.C., and formerly of Twillingate, Nfld., writes:—"For several years I was a great sufferer from indigestion. The least bit of food caused me considerable trouble, and often I could scarcely eat a meal a day. The timely remedy I tried proved futile until I began the use of Dr. Chase's Kidney-Liver Pills, and after using about eight boxes I was completely cured. Since that time I have not been troubled with indigestion, which I consider a great blessing. I feel grateful for this cure, and shall gladly answer any inquiries from persons suffering as I did." ROUMANIA'S ARMY IS READY FOR THE PLUNGE INTO WAR

German Gold Vainly Spent in Spreading Gospel That "Right is Right"

Bucharest, Feb. 2.—Roumania, having set her hand to the plough, is not going to turn back, but is steadily and quietly preparing for an effective entrance into the already somewhat overcrowded stage of the world's greatest war.

In the public mind the cause of the entente nations is indissolubly linked with that of a greater Roumania, and German gold is spent vainly here in an attempt to spread the gospel of Count Von Bernhardt that "Right is Right."

Even if there had never been a Transylvania, or no Austrian enemy of Roumanian national aspirations, it is questionable if Roumania, in the present titanic struggle, would have been anything but a confirmed Germanophile.

The Roumanians, who in culture, love of liberty and perverted patriotism are the French of the Near East, have to a singular degree appreciated the distinctness of Britain in drawing her sword when she felt her national honor impugned.

Roumanian officers drink to "The Day"—the Roumanian day when their army will set about freeing their country from the galling Austrian yoke. "For God and our native land!" is the battle-cry which resounds from the shores of the Black Sea to the snow-capped Carpathians. In such a holy cause as that of greater Roumania, local political animosities have been blotted out. It is a united nation that calls its sons to rally under the tri-color of the motherland. They have responded nobly to the appeals and that well-organized and superb fighting machine, the Roumanian army, is ready when the trumpet sounds the call to arms.

STEPS IN THE NEWEST DANCES

The "Breakstep" In The New Waltz Canter

Helen Wohlford and J. Hervey Hume
(Mr. Hume and Miss Wohlford are being featured at the Midway Winter Gardens, Chicago, in this series of new dances.)

The waltz canter is little more than the "jame duck" figure in the one-step or ballroom tango, done to waltz time. With the exception of the pivots, the lady's step is backwards practically all of the time while the gentleman goes forward. However, canter variations are many, including what is known as the "draw" or "break step," the "box turn," the "reverse," and the "half cortez." Making proper allowance for the difference in music, most any one-step variation may be adapted to the canter.

CORRESPONDENT

HAD FRENCH FORM OF THIRD DEGREE

Says Experience Was Worse Than Any Tales of United States Police—Kept in Jail For Week

London, Feb. 2.—Lucien Arthur Jones son of Henry Arthur Jones, the playwright, who is now in New York, arrived in London tonight after very unpleasant experiences as a "war correspondent."

Young Jones had for some time been making his headquarters at a town on the continent, which it is unnecessary to mention. He one day requested a traveler on his way to England to carry for him an envelope containing a despatch for publication in the London Daily Chronicle, the New York Times and the Montreal Gazette.

There was nothing in the despatch to which the censorship could object, but the traveller who appears to have been imbued with excessive zeal, lodged information with the police, which resulted in the arrest of Mr. Jones.

He was thrown into jail and kept there for six days in very unpleasant company, and under conditions which to say the least, he remarked, were highly insanitary.

The British consul did all that he could, but Mr. Jones' release was finally obtained only by direct representations from London.

"I lived for some years in Chicago," said Mr. Jones tonight to a correspondent, "and heard a good deal there about the 'third degree.' I was put through a worse experience of that kind than any story of the methods of the American police in making a man incriminate himself which I ever heard or could suggest as being possible. War correspondence is not all beer and skittles, and I am thinking of going back to Chicago."

When the fire bells struck in Salem one morning last week a sleepy chauffeur in the Central Five Station slid down the pole and at once started to look from stall to stall for his horse. It was a matter of a minute or two before he realized that he now drove an auto chemical.

RULES OF HEALTH FOR DYSPEPTICS

DIETING UNNECESSARY

There are two ways by which people who suffer from indigestion, dyspepsia, sour stomach, flatulency, etc., can overcome the trouble. First, as practically all cases of the above are directly or indirectly traceable to acidity and fermentation, they can eliminate from their diet all foods which ferment and form acid, such as all starches and sugar and foods containing them, thus prohibiting bread, potatoes, fruits and most meats. About the only safe foods are gluten breads, spinach and small quantities of white meat of chicken or turkey. This diet is almost a starvation one, but it is sometimes quite effective. The second way, which appeals especially to those who like to eat hearty meals of good foods, is to eat whatever is reasonably digestible, neutralize the acid and stop fermentation by the use of a good anti-acid such as bismuthated magnesia, a teaspoonful of which in a little water immediately after eating or whenever pain is felt, instantly neutralizes the acid, stops the fermentation and permits the stomach to do its work without pain or hindrance. Owing to its simplicity, convenience and effectiveness, this latter plan is now being adopted, instead of the old fashioned, expensive, weakening starvation process. In this connection it is interesting to note that since the widespread use of bismuthated magnesia was established, many druggists have agreed to supply it in 5 gr. tablets, 2 or 3 of which are equivalent to a teaspoonful of the powder form and are much more convenient to carry.

Health Advice

COLDS

In winter months the question of temperature is of greater importance in the dwelling than in the spring or autumn.

During cold weather the importance of the amount of moisture in the air is interestingly noted, for the more moisture as warm air. Therefore, when air becomes cold, it loses part of its moisture.

The result is that during the winter we breathe air which has but a small amount of moisture.

This dryness of the air causes irritation of the mucous membrane of the nose and throat and makes those breathing it more susceptible to colds. It will be found also that the dry air, heated to 72, 74 or even 80 degrees Fahrenheit, will be less comfortable and will appear more chilly than a temperature of 68 or 69 degrees when there is a greater degree of moisture in the air of the room.

Moderate temperatures, slightly inclined to coolness, promote mental and bodily activity and increase resistance to bodily diseases. High temperatures influence bodily lassitude and mental dullness.

Many diseases are falsely supposed to result from temperature conditions, which are not in the least influenced in that way.

Cold, even excessive cold, rarely causes diseases which begin with a chill. The chill is not the result of lowering the body temperature. On the contrary, the

Nifty last spring, but— The "pill box" with veil is chic now

The Coming Out and The Coming In

temperature of the body rises during the visitation of a chill. In fact, the body's temperature on vital organs, attributed to other causes, are often due to an uncomfortable position while sleeping.

Apogee

"The German advance on Paris, its arrival almost at the gates of Paris, then its swift swerve to the east and even swifter retreat—well, it all reminds me of the hunter!" The speaker was Paul Rainey, big game hunter and cinematographer of New York. He went on:

"A hunter, taking a chew of tobacco, said in a general store:

"Yesterday morning I struck a grisly trail. I followed it up hill and down. Then I hiked back to camp."

"Why did you hike back to camp?" asked the general storekeeper.

"Well, to tell you the truth," said the hunter, "het that trail was a-gettin' altogether too fresh!"—New York Tribune.

"It's all very well, Jargo for you to say: Why don't Kitchener an' French do this an' that? But what I say is: It don't do for you an' me to say anything what might embarrass either of 'em."—Punch.

"CATARRHOZONE" PREVENTS BAD COLDS STRENGTHENS WEAK IRRITABLE THROATS

Employs Nature's Own Methods and is Invariably Successful

Few will escape a cold this winter, but also many colds run into Catarrh. Neglected Catarrh is the straight gateway to consumption.

Catarrh is a germ-killer—destroys microbes that cause Catarrh. It heals and soothes, relieves the cough, gives throat and lungs a chance, cleanses the nostrils, clears out the phlegm.

You feel better in an hour.

In a day you're greatly relieved, and on goes the Catarrh.

No treatment so direct. Catarrh-zone goes right to the spot—acts quickly, cures thoroughly catarrh, bronchitis and all throat affections.

"Nothing could kill a cold so fast as Catarrh-zone," writes Amey E. Snelling, from St. Johns. "Last month I had a frightful cold in my head, suffered from itching nose, running eyes and torturing headache. Ten minutes with 'Catarrh-zone' Inhaler gave relief and in one hour I was well of my cold. Catarrh-zone I consider a marvel."

Carry "Catarrh-zone" Inhaler in your pocket or purse—take it to church—the theatre—to work—use it in bed. It prevents and cures all manner of nose and throat troubles. Complete outfit, guaranteed \$1.00; small size 50c; sample size 25c.; at dealers everywhere.

REAR ADMIRAL AT THIRTY-NINE Hero of Recent Naval Battle In The North Sea NOW ONLY 44 YEARS OLD Twice Declined Baronetcy at The Solicitation of American Wife, Who Was Daughter of Marshall Field—His Record

Sterling Realty Limited Cash Paid For Buildings J. W. Morrison 85 1-2 Prince Wm. St. Phone 1813-31.

REAR ADMIRAL David Beatty was noted at the time of his promotion five years ago, because he was so conspicuously the youngest admiral in the service. He is now just turned forty-four and his promotion to rear admiral at thirty-nine was without precedent since the days of Rodney and Keppel. Admiral Beatty's wife is an American. In May, 1901, he married in London, Mrs. Ethel Mee, daughter and heir of Marshall Field, of Chicago, and divorced wife of Arthur Tree, who had lived in England nearly all the ten years of her married life. David Beatty was born Jan. 17, 1871, the son of Capt. D. L. Beatty of Boreale, County Wexford, Ire. He entered the Royal Navy Jan. 15, 1884, at the age of thirteen, and became a lieutenant in the ordinary course August 25, 1892. In 1896,

A War Correspondent Grateful to Zam-Buk

Tells how a scratch led to Blood-poisoning and what followed that!

MR. FRANK SCUDAMORE, the famous war correspondent, who has passed through twenty-nine battles, has recently given his personal experience of the great value of Zam-Buk.

He writes:—"Having experienced the extraordinary benefits which come from the use of Zam-Buk, I am desirous of making this known to others who may be suffering as I suffered.

"Some time ago, after escaping the dangers to which one is exposed in the hazardous trade of war, I fell a victim to an evil—the evil of blood-poisoning—just as deadly in peace as at home. The blood-poisoning started owing to the poisonous dye in some underclothing penetrating a small scratch or sore. I was treated by doctors in the usual way, and told to hope for the best, but the inflammation, pain, and swelling did not appear to be relieved by their treatment. Ulcers broke out on my foot and limb and for some time it was quite impossible for me to put my foot to the ground or get about.

"On my left leg, below the knee, I had seventeen deep holes, into any one of which I could have put my thumb, while I had no fewer than fourteen similar ulcers on the right leg.

"Worn out with pain and lack of sleep, I yielded in despair at last to the advice of a friend that I should try Zam-Buk, of which my friend gave the highest account. I applied this herbal balm to the sores and ulcers, changing the dressings frequently.

"For a week I persevered with the Zam-Buk treatment, leaving off all else. At the end of that time the pain and inflammation had gone, and the skin which had before so obstinately refused to heal, was growing beautifully. I persevered with the treatment and the benefit increased, until in the end the blood-poisoning was cured, the ulcers cleansed and healed and new healthy skin covered the previously diseased places. Zam-Buk had worked a complete cure!

"What impressed me most about Zam-Buk was the wonderfully quick relief it gave from the burning pain. It seemed to bring ease immediately it was put on and then the cleansing and healing process went on painlessly."

Faithfully yours (Sgd.), FRANK SCUDAMORE.

A WORD OF ADVICE TO CANADIAN MOTHERS.

All mothers should remember that every scratch, every cut, every sore, every open wound, every skin disease is liable to turn to blood-poisoning. The air is full of poison germs, which, falling onto sores and wounds, may set up festering and blood-poisoning. How important, then, that Zam-Buk, science's latest and best protection against blood-poisoning, should be kept handy in every home. Zam-Buk operates in an absolutely

unique manner. When first applied to a sore or wound its antiseptic power comes into operation. Painlessly, yet effectively, it attacks all disease germs and bacilli that are in the wound. Then its healing essences penetrate the injured cells and stimulate the tissues to build up new cell substance. At the same moment, therefore, there is a defensive (against disease germs) and a constructive process going on all over the region to which Zam-Buk has been applied. This is the way Zam-Buk heals and cures all skin diseases and injuries.

WHAT YOU SHOULD USE ZAM-BUK FOR

Zam-Buk contains healing herbal essences. Don't you believe that roots and herbs are the healers intended for man? If you do, you get this in Zam-Buk. Use Zam-Buk for cuts, burns, bruises, piles, eczema, cold sores, chapped hands, ulcers and all skin diseases and injuries.

United States Plans to Solve Coast Defence Problem! Tandem Aeroplanes, Deadlier Than The Zeppelins, To Smash Invaders

Last Night's War Cables

London, Feb. 1, 10.30 p. m.—Special orders issued by the police shortly before 8 o'clock tonight caused blinds to be whisked down all over London, and reports spread that five Zeppelin dirigible balloons sighted over Dover and presumably making inland, had been fired on by the forts.

Parts of the city of London waited for more than two hours with blinds down, but nothing happened. Inquiries elicited from the police that orders to prepare for an air raid had been issued by the war office, but whether because aircraft had really been sighted, it was impossible to ascertain.

One message from Dover reported that the raiders had been driven off by the gun fire, but no details were forthcoming.

This flurry served to break the monotony of the news from battlefronts, where none of the armies, either in the east or the west, has been able to deliver a blow sufficient to cause any shift in their alignment.

The German submarine attacks on British merchant ships continue to be the paramount topic of discussion, and predictions are made that food prices, which are already soaring, will go still higher if many more raids are accomplished. The shipping of the west coast is still somewhat upset, the Dublin Steam Packet Company announcing tonight the temporary abandonment of all sailings with Belfast, Liverpool and Glasgow.

One other Dublin company has also suspended its sailings, but the other schedules are being maintained as usual.

The chief solace Great Britain finds in the regular naval operations, that the craft thus used cannot take part in the regular naval operations.

Washington, Feb. 1.—In reply to Germany's recent protest against the building of hydro aeroplanes by American manufacturers for England and Russia, Secretary Bryan has informed Count Von Bernstorff, the German ambassador, that the state department does not concur in the contention that such craft must be regarded as vessels of war "whose delivery to belligerent states by neutrals should be stopped."

London, Feb. 2.—(Gazette Cable)—The French ministry of marine reports that the explosion which sunk the merchant steamer Tokomaru, laden with relief supplies for Belgium, from New Zealand, off Havre, was caused by a German submarine. The ship had a cargo of 97,000 carcasses of mutton, also large quantities of clothing and other gifts from the people of New Zealand for the Belgian refugees, and was sunk, although the Germans are pledged to respect such gifts of mercy. The French press asserts that no warning was given, and that the crew were left to perish, although they were subsequently rescued by French torpedo boats.

London, Ont., Feb. 1.—The local military authorities today turned over to London factories for remending and other repairs, 2,500 pairs of military shoes made for Canadian troops by out-of-town concerns. The shoes were found to be unserviceable through poor workmanship.

ROUNDING UP ALL CANADIANS IN BERLIN

Berlin, via London, Feb. 2.—A despatch reaching here from Hamburg says that all British colonials in that city, with the exception for the time being of the Australians, have been arrested and transported to Ruhleben, where they are to be interned in the concentration camp along with other British civilians. Something like sixty Canadians are in this new draft of prisoners. The arrest of British colonials in Germany probably will be continued. Colonials were originally left at liberty when Englishmen were interned, but now they are to be gathered up and sent to concentration camps.

TO 10,000 LBS OF HIGH EXPLOSIVE CAN BE CARRIED

500 LBS. WILL DESTROY A DREADNAUGHT

The biggest foreign powers, rendering aid virtually useless.

To change the big gun equipment of our forts would require years. In the meantime, unless other protective means are devised, we will remain open to attack.

Monster aeroplanes, however, of a new type designed especially for coast defence work, can be built in six months' time. With three or four of such aircraft stationed at each fort, it is contended that the handicap of short-range guns would be largely overcome.

The aircraft proposed for this work is of a type not yet used either in this country or Europe. They would rank in power and carrying capacity with the great Zeppelin balloons, but would have greater speed and present a smaller target for the enemy.

These big aeroplanes would be virtually a series of two or three or four biplanes arranged tandem. They would carry from six to ten men and from 6,000 to 10,000 pounds of high explosives to be dropped from an armored car swung far below the aeroplane proper.

One lit with 500 pounds of gun cotton would put out of commission the biggest battle ship afloat, so backers of the project declare.

The big planes would be equipped with several motors and propellers, and would be able to do from sixty to seventy miles an hour. If lit, unless riddled, its auxiliary propellers and motors would enable it to get back to safety. In action, it is proposed that the flyer at from 8,000 to 10,000 feet high.

One hundred such aircraft, its designers estimate, could be built at an average cost of \$120,000 each, or just the cost of one modern \$12,000,000 dreadnaught.

(By H. B. Hunt)

Washington, D. C., Feb. 2.—A fleet of the largest highest-powered aircraft ever built may be constructed to supplement Uncle Sam's coast defenses if plans of aviation engineers, recently laid before Secretary of War Garrison and Secretary of the Navy Daniels, are approved.

Both Messrs. Garrison and Daniels are declared to have been favorably impressed with the plans outlined, and further inquiry into the feasibility of the proposition is to be made.

The proposition, as submitted to the secretaries of war and navy, is this: Our coast defenses are, admittedly, inadequate and poorly armed. The guns of practically all our coast forts have a carrying range from four to six miles less than the range of the naval guns of

RHEUMATISM

A Home Cure Given by One Who Had It

In the spring of 1898 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with rheumatism, and it effected a cure in every case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to you. After you have used it and it has proven itself to be that long-looked-for means of curing your Rheumatism, you may send the price of it, one dollar, but, understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today.

UNITED STATES ATTITUDE ON JAP INTERVENTION

Paris, Feb. 2.—George Clemenceau deposes the leading editorial of L'Espresso Enchaîne to a message to America, under the heading "Cousin Jonathan." After saying that to accept Japan's aid here would be difficult, owing to the ambitions of the Japanese, he continues: "America also cherishes dreams of greatness. Were not America still partly uncivilized, I should ask whether our American cousins were not asking us questions judged by some to be indiscreet; for instance, the president's gentle impertinent note demanding explanations from England regarding the exercise of the right of search, of which the justice is incontestable.

"Without the brutal violation of Belgium, American opinion might have taken long to decide in our favor. It is America's sympathies with France, but German influence—economic, not political—has considerable influence, while England is highly respected, like sometimes threescore and ten, still sufficiently alert and living to be often an obstacle in one's path."

Despite this complexity, Clemenceau recognizes gladly the fact that American opinion is generally favorable to the Allies, "which I consider moral support of the highest value."

Regarding President Wilson, he says: "I have never ceased to look my eye in the direction of the president, since I have always had respect, tempered with fear, for legal luminaries. One never knows of what these devils of fellows are capable. In deference to President Wilson's personal value, many regarded him as a future mediator. I would have preferred that such an honorable manifestation of international esteem should have occurred later, for it renders his present position more difficult, and might turn away from him, rightly or wrongly, certain support."

Peace Is Impossible.

"None know what the future will bring, but this is sure: our national existence is at stake. For half a century Germany without excuse continually provoked us. Never a day has passed when we have not felt her heavy menace. Now we have made up our minds that we have stood enough. It would, therefore, be perfectly hopeless to try to persuade us to a temporary peace which could only produce a renewal of the war. The only genuine peace must include conditions such that a renewal of hostilities will be impossible. Our common interest makes the whole world realize this. England and Russia agree; Belgium shrieks it too loudly to be heard.

"But there is another side of America's attitude which future generations may consider nobler and more important than mediation projects. I refer to her defensive position should the impossible occur and the Triple Entente be defeated. Then America, standing for western liberty, will face German tyranny in Europe. America will defend on the American continent the ideals which have contributed to American greatness. Roosevelt has understood this. I

Salisbury, Feb. 2.—Charles G. D. Roberts, Canadian author, etc., a commission in the Royal Field Artillery. He came to England with the Legion of Frontiersmen. All the members of that corps paid their own passage. Now they cannot obtain places with the Canadians. They have been doing remount duty at Southampton and Bristol. Many are planning to join the Territorials.

praise him for himself and for his country. Acting as president, he had not the right to speak or even to think too loudly, nor do I consider his view likely to be shared by the American democracy. Yet if the latter could see suspended in the sky, above the smoking ruins of Europe, a great sword dripping with blood it would realize the dangerous consequences of the present blindness.

"That is what I have to say before considering whether America, Canada and Australia are seriously opposed to our employment of Japanese in the European conflict."

Makes Stubborn Coughs Vanish in a Hurry

Surprisingly Good Cough Syrup Easily and Cheaply Made at Home

If some one in your family has an obstinate cough or a bad throat or chest cold that has been hanging on and refuses to yield to treatment, get from any drug store 2 1/2 ounces of Pinex and make it into 16 ounces of cough syrup, and watch that cough vanish.

Pour the 2 1/2 ounces Pinex (50 cents worth) into a 16-ounce bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 54 cents, and gives you 16 ounces—a family supply—of a most effective remedy, at a saving of \$2. A day's use will usually overcome a severe cough. Easily prepared in 5 minutes—full directions with Pinex. Keeps perfectly and has a pleasant taste. Children like it.

It's really remarkable how promptly and easily it loosens the dry, hoarse or tight cough and heals the inflamed membranes in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough. A splendid remedy for bronchitis, winter coughs, bronchial asthma and whooping cough.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, rich in gualic acid, which is so healing to the membranes.

Avoid disappointment by asking your druggist for "2 1/2 ounces of Pinex," and do not accept anything else. A guarantee of absolute satisfaction goes with this preparation or money promptly refunded. The Pinex Co., Toronto, Ont.

To Quickly Remove Ungly Hairs From Face

(Beauty Notes.)

Beauty-destroying hairs are soon banished from the skin with the aid of a delicate paste, made by mixing some water with a little plain powdered delycose. This is spread upon the hairy surface for 2 or 3 minutes, then rubbed off and the skin washed to remove the remaining delycose. This simple treatment banishes every trace of hair and leaves the skin without a blemish. Caution should be used to be certain that it is delycose you buy.

BASEBALL. Newcastle Beat Chatham. Chatham, Feb. 1.—(Special)—In the annual match for the curling honor of the Maranich, as represented by the Highland Society's cup, Chatham went down to defeat before the Newcastle knights of the broom today in an eight-rink match, four at Newcastle and four on home ice. Singularly enough Chatham won at Newcastle by 15 points but was beaten at home by a still greater margin giving the winners a lead of four on the day's play. The scores by rinks were:

Table with columns for Newcastle and Chatham scores by rink. Newcastle scores range from 10 to 12, Chatham scores range from 4 to 6.

Fredericton, 75; Carleton, 57. Carleton curlers from West St. John suffered defeat tonight at the hands of the local club. Four rinks on each side contested and in three of them Fredericton won out, having a total majority of 57.

SKATING. Montreal Skater Wins Championships. Russell Wheeler, of Montreal, was the star of the first night's International Skating Championships.

HOCKEY. St. Stephen vs. St. John. The Thistic Athletic Association of St. Stephen and Calais are sending their crack team to try to throw the St. John team Friday night. This game promises to be a corker—don't miss it.

Mount Allison Wins. In Sackville on last Saturday, Mount Allison defeated Chatham, 4 to 3. Eaton and Brundage starred for M. A. Sussex Victorious. The Sussex Millionaires defeated the St. John Bankers on last Saturday, 7 to 2. St. John played well until the last period, when their opponents sent the puck flying into their net five times.

FINE BOWLING ON VICTORIA ALLEYS

Highest Scoring Made in Years Daily Being Rolled There

RILEY LEADING BOWLER

His Work Sensational—Five-Man Team League Standing—Results in Intermediate League—Emerson & Fisher's Team Win

The three string competition among the prize pin fall artists at the Victoria alleys during the last week resulted as follows:

Table showing bowling scores for Saturday, Jan. 23rd. Total Avg. Riley 109, 100, 117, 85, 114. McIlveen 115, 104, 108, 87, 109.

Monday: Riley 114, 109, 144, 87, 123. Kelly 108, 113, 112, 83, 111. Sage 112, 109, 106, 87, 109.

Tuesday: Kelly 108, 121, 109, 88, 112. Riley 112, 117, 119, 84, 116.

Wednesday: Riley 115, 115, 115, 84, 115. Kelly 108, 110, 101, 81, 105. Riley 105, 112, 101, 81, 106.

Thursday: Riley 109, 118, 131, 85, 119. Riley was bowling in a sensational manner during the last two weeks, capturing nine daily prizes and also hanging up a new ten string record.

League Standing. Team No. 1. 118 7 450. Team No. 2. 110 10 450. Team No. 3. 110 11 450. Team No. 4. 110 11 450. Team No. 5. 110 11 450. Team No. 6. 110 11 450.

Emerson & Fisher. Total Avg. Godner 94, 82, 83, 255, 86. Ferris 84, 78, 87, 240, 83. C. Moore 81, 86, 79, 248, 82. Watson 81, 76, 229, 86. Murphy 81, 87, 68, 230, 79.

George Morgan won the daily roll-off with 114. Tonight in the City League the Sweeps and Braves will play.

FULLERTON'S DOPELETS. We noted that Ben Johnson seemed annoyed because the people in the courtroom remained seated when he entered and arose when Judge Landis ascended the bench.

Hughie Jennings says eighteen men are plenty for a ball club, and last year he had eighteen pitchers and was yelling for more.

Bill Rodgers is carded to "more than fill" the major's shoes for Cleveland. Having glimpsed Larry's pedals we think the expression inept—unless Bill wears hams for feet.

The New York Yanks have hired Harry Sparrow—probably to put the top on the fast ones.

Hank O'Day may be reappointed a National League umpire. Poor Hank—they will not leave him alone.

We noted that when the Fed League attorney charged Ben Johnson with starting the American League that Ben looked furtively toward Charles Comiskey to see whether to claim credit or not.

The legal knowledge accumulated by ball players since the war started is amazing. One wanted to bet on that Judge Landis would break his \$25,000 record when he fined O. B. B. Intermediary League.

In the Intermediate League last evening the Victoria took four points from the Red Sox. The game was well contested and the result was not until the final string had been completed.

Results: Victoria: Flowers 77, 75, 76, 228, 76. Kelly 69, 80, 79, 228, 76. Belyea 79, 89, 96, 264, 88. Thurston 88, 70, 79, 237, 79. Cromwell 85, 90, 80, 238, 85.

Red Sox: Burke 69, 71, 80, 220, 74. Kelly 76, 85, 88, 244, 81. Ballie 73, 77, 77, 225, 75. Morgan 73, 88, 85, 241, 80. Weston 83, 90, 71, 244, 81.

On Black's alleys last evening Emerson & Fisher's bowlers defeated Ames-Holden-McCready's team by a total pinfall of 1282 to 1228. They have now a majority of 237 pin-falls. The game

BANGOR A GOOD BASEBALL TOWN

Bill Carrigan Says it is Finest Sporting Town of Its Size in the Country—May Have Team in New England League

Bill Carrigan, manager of the Boston Red Sox, says that Bangor is an all-right sporting town, and that there is a good opportunity there for a baseball team in the New England league.

"The finest sporting town of its size in the country. It is only 104 miles from Lewiston, and contains a large number of baseball fans, who love to support the game. Besides there are many prominent citizens who feel that baseball advances their city as nothing else can. Lewiston realized this to be a fact, and is now firmly fixed in the New England League."

"Portland, Lewiston, Haverhill, Lowell, Lawrence—all have passed up their ball teams, but Bangor never. Once in that same 1901 a team which was located there was removed, but it was because every other Maine city except Portland had quit out and Walter Burnham took the club to Brockton, so as to reduce travelling expenses.

"It will cost more to go to Bangor than to Augusta, but you are sure you have got something after you have arrived."

"This it seems that the baseball men are looking to Bangor to go into the New England league this season, and it is not unlikely that something may come of the agitation.

Now Charlie White can't get sparring partners; he punishes them too much. Sometimes a good press agent has to resort to the old stuff.

EVIDENCE IS GIVEN AGAINST CHARLES KEARNS

Supplying Liquor to Soldier on Duty is Serious Charge—Given \$1 and Bought Gin, is Testimony

A case against Charles Kearns who is charged with supplying liquor to soldiers, while on duty in the army, was taken up in the police court this morning. The first witness called was Lieutenant Gordon Johnson. He testified that while on duty in the army yesterday afternoon, he looked out one of the windows and saw a soldier, who had not received permission to leave the barracks, passing something to the defendant Kearns. The latter, he said, then walked up to Dunham's liquor store and later came out and started back to where Private Campbell had been standing. In the meantime, he said, he had left the barracks and ordered Private Campbell back on duty. He then met Sergeant Daley and was informed by him that he had witnessed Private Campbell pass money to Kearns. He then gave orders to Sergeant Daley to arrest Kearns which was done.

While Kearns was being taken to the guard room he heard Campbell tell the prisoner to say that he gave him only ten cents. This he did and both stuck to that statement until later when Private Campbell was taken before his superior officers. He acknowledged that he had given Kearns \$1 to purchase a bottle of gin.

Sergeant Daley was then called and testified about seeing money passed between the men and watching the defendant walk up the street and enter Dunham's bar. He later arrested him having received an order to do so from Lieutenant Johnson. He also took the bottle of gin from the prisoner while searching him in the guard room.

Private Peck corroborated the statements of Sergeant Daley.

FAIRVILLE NEWS

Some Ears and Nozes Frozen This Morning—Firemen Plan Good Time

Several frozen ears and one or two cases of slipped nose testified this morning to the cold on the Suspension bridge. It was reported that the thermometer registered ten and twelve below in various sections. Two teams were on the bridge together hauling loads exactly opposite in nature, one sled filled with coal and the other with ice.

The monthly meeting of the firemen was held last evening. Foreman Wellington Lester was in the chair, and Wm. G. McAuley acting secretary. After routine business had been discussed, it was decided to hold an open night, and plans were talked over soon for making the event worth while. The fire ladders have acted as hosts before in a very capable manner, and when they present to eclipse previous efforts, something worth while may be expected.

In the boys' League yesterday afternoon in the Baptist gymnasium, the Beavers' Basketball team won over the Eagles, 19 to 6. Captain John Linton Private Campbell had been standing in the charge of the feathered men, while the meantime, he said, he had left the barracks and ordered Private Campbell back on duty. He then met Sergeant Daley and was informed by him that he had witnessed Private Campbell pass money to Kearns. He then gave orders to Sergeant Daley to arrest Kearns which was done.

LABORER WILL NOT DEFEND DESCALUX

Paris, Feb. 2.—M. Labori, a well-known advocate, has notified Francois Descalux, general paymaster of the army, that it will be impossible for him to take charge of the defence of Descalux before the court martial which is to try him on a charge of stealing military stores.

FOR THE BELGIANS

Mayor Prink has received contributions for the Belgian relief fund as follows: Mrs. A. Moore, Moore's Mills, \$1; Ladies' Church Society, Old Ridge, \$1; Dunham's bar, letter arrested him having received an order to do so from Lieutenant Johnson. He also took the bottle of gin from the prisoner while searching him in the guard room.

K. OF C. ASSEMBLY AND BRIDGE MUCH ENJOYED

One of the most enjoyable assemblies conducted by the Knights of Columbus, St. John Council, in their handsome home in Coburg street, was that held last evening. Many were there and the evening gave pleasure to all. An orchestra provided an entertaining programme of dance numbers, and there were several tables of bridge. Mrs. A. J. Mulahy and Mrs. P. J. Fitzpatrick were chaperons, and J. L. McManus, floor director. A dainty buffet lunch was enjoyed about midnight in the dining hall upstairs, which was prettily decorated and arranged with two long tables.

The spacious ball room never looked more attractive. Streams of red, white and blue were arranged in a neatly planned decorative scheme connecting with the electric fixtures, from which colored balls were suspended, and about the walls were the flags of the Allies. The corners were taken up with K. of C. emblems, white ferns and potted plants added to the attractiveness of the parlors. The attendance numbered about 300. The Knights have granted the use of their rooms to St. Monica's Catholic Ladies' Benefit Society for a bridge and dance in aid of charity.

ANDREW GIBSON WRITES FROM SALISBURY PLAIN

Corporal T. D. Owens, of 10 Brindley street, has received a letter from Driver Andrew Gibson, a member of the first Canadian contingent at Salisbury Plain. He wrote that they had made a move nearer to the front to a village called Potterne and were living high and enjoying themselves. He said that he liked England very much, but it had been very wet there. He could not say when they would move farther on, but hoped it would be soon.

Mr. Gibson wished to be remembered to his friends in St. John, particularly to the Leader's Class of the Tabernacle U. B. church, of which he was a member. He mentioned Corporal E. C. Clark, of West St. John, as being in the same section as himself.

Y. M. C. A. SPORT

On Monday afternoon the Junior "B" Basketball League and the High School League of the Y. M. C. A. played two very interesting match games. The first took place between Willett and Trentowky of the Junior League. Many boys turned out to see this game as it meant a fight for the lead in the league. Unexpectedly Willett's team seemed to have played at their very best as they held their opponents down to but one foul goal throughout the game, winning by the score of 12 to 1. Barbour and Cochran did excellent work at forward, while Taylor and Hatfield became stone walls to their opponents.

The second game was between Dunmer's team and Nixon's of the High School League. Both teams played well and fine combination work was a feature. Nixon took the first half 9 to 5. The second half also started off with much life in this half. Dunmer's team broke even in foul goals with their opponents, but Nixon led by one foul goal made by Porter. The final score was 14 to 7 in favor of Nixon's team.

Following are the details:

Willett 12	Trentowky 1
Barbour	McClavon
Willett	Clark
Cochran	Nase
Taylor	Guard
Hatfield	Christie
Nixon 14	Dummer 1

Hundred Babies Born During the Flight of Refugees to Holland—People of Belgium Offer Many Prayers for Canadians in Gratitude For Help Sent Them

The steamer Sagamore, which arrived in port on Sunday, had on board an interesting passenger, in the person of Mervin Poirier, of Glace Bay, N. S., who was sent by Premier Murray, of Nova Scotia, to superintend the division of the cargo sent from that province to the suffering Belgians. Mr. Poirier, in conversation with a Times reporter, gave the following interesting narrative of his trip after leaving Halifax on the steamer Doris:

"We left Halifax on Nov. 26, and after a fine passage, arrived at Plymouth on Dec. 7. After remaining there for a short time, during which we received instructions from the Admiralty, we braved the dangers of the North Sea and started for Rotterdam. After an uneventful trip, although many of our crew were apprehensive, we arrived safely at our destination. There we were met by a delegation composed of Canadians and the Americans who are actively engaged in relief work, under Captain Lucy. The latter treated me very courteously, and after making me welcome, assisted me in every way possible to dispose of the relief cargo to the needs.

Among the Refugees

"I visited several cities where thousands of Belgian refugees were living. At one place there were 15,000 soldiers who had been interned after the retreat from Antwerp, and at another 7,600 women and children. The latter were sheltered under canvas and in wooden shacks. They seemed to be quite happy, although signs of misery were in evidence. Another place where many refugees housed in an old sugar refinery. I had occasion to go to one of these, and while going to meet all classes of people, from the laborer and professional man to the mother and her infant child. I saw many infants reposing on bundles of straw, apparently as happy as if they were at home in their native land.

"In justice to Holland, I must say that the government and people alike have done everything in their power to make their unfortunate guests comfortable, and are daily endeavoring to do more.

"While in London, I also visited several places where Belgian refugees were staying, and I found them living comfortably and as contented as could be expected under the circumstances. One of the most remarkable things that I saw was the wonderful spirit of the unfortunate refugees. Never once in all my conversations with them, and during the time that I stayed in their midst, did I ever hear a word of revenge against their lips. They seemed to bear their losses and affliction with a loyal spirit, and to be grateful for the help they were only suffering the reverse of war."

Words cannot express how highly they appreciate the gifts of Canada. The name of Canada is ever upon their lips, and many a prayer is sent to the Almighty for their benefactors. The inhabitants of Holland and England also speak in glowing terms of the kindness of the Canadians, and Englishmen speak with pride of the loyalty that Canadians are displaying to the British crown at a time when it is so sorely in need of support. I consider it a splendid move on the part of Canada, for she is not only succoring the distressed and needy, but is also advertising herself broadcast throughout the country.

"With reference to the large cargoes being sent to the Belgians I might say that I consider it advisable to have a representative on every boat. The reason for this is because the vast amount of relief work is being done by representatives of the United States and while I acknowledge that the work they are performing is highly commendable, I think it of importance to Nixon Canada that her representatives should be there also. Many thousands of Belgians with whom I came in contact daily knew of Canada but referred to the "Great America." In those cases I took particular care to emphasize that America combined both Canada and the United States. Other representatives on the relief steamers could continue along these lines and it would mean a great boost and advertisement to Canada.

German Tried to Charge Duty

"The last week I was there the Germans in one of the Belgian cities imposed a heavy duty on all relief goods. A violent protest was immediately entered by Captain Lucy, of the United States commission, and as a result of his efforts it was taken off."

Regarding his treatment Mr. Poirier said that everywhere he met with a most cordial welcome, not because of his own personality but because he was a representative of Nova Scotia in particular, and Canada in general. With regard to the treatment he received on the passage home from Captain Penton of the Sagamore, he said words could not express his appreciation and gratitude.

Babies Born on Fearful March

When asked if he saw many cases of destitution in Belgium, he said that he had not personally seen any instance of them as he had not had an opportunity of crossing into Belgian territory. Mr. Poirier will return to Halifax on the Sagamore.

Captain Alexander Penton said that on the passage across the Atlantic he had encountered strong westerly gales, and mountainous seas and after passing Cape Sable ran into a thick fog. He made the passage in thirteen days and fourteen hours.
