French Statement. Paris, Jan. 11.—Premier Poincaré's formal explanation of the Government's action in the Ruhr, as prepared for presentation in the chamber declares that the specific measures which France, Belgium and Italy have felt called upon to take as a result of Germany's violation of the armistice are without prejudice to further steps to which these powers may have recourse after Jan. 15, in settling collateral for the moratorium decreed by Germany.

The Premier was prepared to make a question of confidence of his request that all interpellations on foreign affairs be postponed.

Only the extremists were left to oppose the Government. The radicals decided last evening to abstain from voting. They supported the motion of their leader, M. Herriot, who said he disapproved of the Premier's policy of penalties, asserting that he feared French action in the Ruhr would prove fruitless and unproductive. He preferred recourse to arbitration and favored participation by the U. S. to some extent, at least in a solution of the reparations problem.

The radicals announce that they improve economic but not military penalties, and that therefore are able to abstain from voting.

Official notification of the withdrawal of the U. S. troops from the Rhine was laid before the ministers in Downing street but the British policy of maintaining troops in the Rhineland is not expected to be changed by the U. S. action. CONSTANTINE, ONCE RULER OF GREECE, DIES SUDDENLY

Passed Away in Palermo, Sicily, of Cerebral Hemorrhage This Morning—Man Who Kept His Country From Aiding Allies in the War.

Palermo, Sicily, Jan. 11.—Former King Constantine of Greece died suddenly here at 11 a.m. His death was due to cerebral hemorrhage.

The death of ex-king Constantine of Greece comes after a series of trying experiences which the former ruler of the Hellenes has undergone, beginning with the outbreak of the world war. Constantine was forced off the throne of Greece by the Allies in 1917 after he had successfully resisted numerous

attempts to bring Greece into the war on the side of the Allies.

In exile until after the close of the war, Constantine was called back to Greece in 1920 and resumed the throne. Under his reversion, Greece plunged into the war with Turkey in Asia Minor, Constantine personally going to the front at one period of the campaign.

Last fall came the disaster to the Greek forces in Asia Minor, speedily followed by the revolution in Greece, which again swept Constantine off the throne. He abdicated and retired to Italy, and has been making his home recently at Palermo.

Constantine has pursued an aggressive course following his second coronation striving to increase the territory of Greece and win popular favor by successful military operations. The strategy of the Turkish Nationalists, however, and the alleged treachery of several high officials of the Greek Government, brought about the Hellespontine one of the most important military routes in their history and Constantine abdicated and fled to Italy with his family when the revolutionary party announced that it would form a new Government.

Constantine's reign dated from March 15, 1919, when his father, George I, was assassinated. He was born on August 3, 1868, was educated by German tutors and received military instruction at German army manoeuvres. After having been once dismissed as commander of the Greek army in 1909, because of popular clamor against him, Constantine, then Crown Prince, became a national hero in the Balkan war of 1912, by leading a Greek army to the capture of Saloniki from the Turks, as a result of which he was accorded the popular title of "The Liberator."

Prince George, the eldest son of Constantine, also pro-German, who was excluded from the throne by the Allies, terms which compelled his father's abdication in 1917, accompanied the royal party to Asia Minor in 1912 and was a member of the staff of the Greek commander, General Papoulas. George was born July 19, 1890 and married Secretary Fred Maspley of the Canadian Amateur Hockey Association. He says he has received word that the Olympic Committee has refused to change the date of the tournament to later in the year when Canada would have a representative team to send. The subject will be discussed by the association during the Allan Cup finals here next spring.

MULCAHY TO QUIT COMMAND OF IRISH ARMY

Dublin Report Says He Will Remain in Cabinet

Irregular General is Under Court Martial—Sir Thos. Esmond's Resolution re Burning of Cathedral in Quebec.

(Canadian Press.) London, Jan. 11.—Richard Mulcahy, minister of defence in the Free State, will soon relinquish the command of the Irish National army, according to a Dublin despatch to the Daily News. The correspondent asserts he will be succeeded by Gen. W. R. Murphy, but that he will retain his place in the cabinet.

Dublin, Jan. 10.—It is learned that Ernest O'Malley, a commandant-general in the irregular forces, who was wounded and captured in a raid November 4, is to be court-martialled for his conduct in the irregular forces. Four Courts on behalf of the Republic garrison last June. He later escaped from Mount Joy prison, returning to the irregular forces in Greece. In a letter to Liam Lynch, the Republican chief of staff, O'Malley declared he had refused legal aid and added: "Another bit of lead won't do me any harm."

Lynch replied by expressing the hope that O'Malley would be made to execute his duty.

Dublin, Jan. 11.—A resolution carrying sympathy to the Canadian people over the destruction of the Basilica in Quebec was adopted yesterday by the Irish Free State Senate. It was proposed by Sir Thomas Grattan Esmond.

Michael Cosgrave, president of the Dail Eireann, addressing that body, said the Free State Government had not received the peace proposals recently made public in the newspapers and that it did not intend to take any steps regarding them.

Inquiries here failed to elicit any confirmation of a report from Boston that the Free State Government had in the United States soon, if not already there. The general belief is that he is neither in the United States nor on the way to that country.

President of the Canadian Manufacturers' Association Speaks in Toronto on Big Questions.

Toronto, Jan. 11.—Touching on the immigration question in an address to the Kiwanis Club here last night, John W. Shaw, president of the Canadian Manufacturers' Association, said: "The bars should be lifted to the extent that this country will get the population it requires."

While expressing admiration for the U. S. and the people of that republic he deprecated what he regarded as a tendency on the part of Canadian threats and newspapers, and even the universities, to become Americanized. "We are British and we want to stay British," he declared. "We want to maintain our individuality."

On the subject of war debts he took the ground that the slate should be wiped clean of war debts, so the world could launch into a new era of prosperity. He said there was not enough gold in the world to pay the war indemnities.

**NEW LAMP BURNS 94% AIR**  
Beats Electric or Gas  
A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 85 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. common kerosene (coal oil).  
The inventor, O. K. Johnson, 246 Craig St., W. Montreal, is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

ASK STRICTER ENFORCEMENT OF PROHIBITION LAW

Delegation Wants Government to Oppoint Salaried Vendors—U. N. B. Senate Matter.  
A delegation appeared before the government yesterday afternoon asking stricter enforcement of the prohibition law and a change in some of the regulations. Some of the things asked for were the appointment of salaried vendors, the abolition of export warehouses, changes in the administration of the act and handing the administration over to a commission which would handle the matter in its entirety. The delegation was headed by George E. Barbour, and Rev. H. E. Thomas was spokesman. Others present were R. T. Hayes, M. P. P., L. W. Simms, Rev. Canon R. A. Armstrong, Percy Steele, Rev. Neil MacLachlan, Rev. F. S. Dowling, W. L. Harding, and others.  
E. Clinton Brown and E. R. W. Ingraham, representing the retail druggists, appeared and asked that authorization should be given for importation of alcohol for pharmaceutical purposes under the special provisions of the inland revenue act. This would mean that druggists would obtain alcohol independent of the Provincial Liquor Commission.  
Sir Douglas Hazen, Chancellor C. C. Jones, Dr. Murray MacLaren, M. P., C. D. Richards, M. P., F. W. J. S. Myles, Dr. W. S. Carter and others, members of the senate of the University of New Brunswick, appeared before the government and presented a report on the proposed university amalgamation scheme. The matter will be taken up at the next meeting of the provincial executive. It is believed that the report is unfavorable to union.

**BERLIN HUNTS TREASURE IN OLD CANNON FIELD**  
Suburb of Zosens, Big Gun Target Range, Eagerly Picked Over for Dead Shells.  
Berlin, Jan. 10.—Zosens, a Berlin suburb, at which the imperial artillery range was formerly situated, has become the scene of frenzied pilgrimages, resembling in their methods of procedure the California gold rush.  
The lessee of the land has permitted all interested to dig up and sell such old shell fragments as may be unearthed, imposing the sole condition that he assumed no responsibility for injuries or accidents.  
Explosions are frequent, and scarcely a day passes without casualties. Many of the pick welders have found to their sorrow that they were hacking at a healthy hand grenade, but in spite of their experiences hundreds of poor men and women swarm to the place in search of fragments of brass, lead, copper and iron, which are saleable on the spot. One prospector is said to have made 70,000 marks with his pick in a few hours.

**EDITOR EDITS BY EAR AND AN UNUSUAL MEMORY**  
Missouri Press President Has Been Almost Blind Since Early Boyhood.  
Dwight H. Brown, president of the Missouri Press Association, edits a Popular Bluff, Mo. daily newspaper chiefly with his ears and memory.  
At eight years of age Mr. Brown's eyesight failed and he received his principal education from his step-mother, who read to him.  
His sight never returned sufficiently to permit him to read anything except large newspaper headlines, and he cannot distinguish features more than six feet away. Having an unusual memory and a secretary who reads items from various newspapers to him, calling out the page and column of the article, it is not infrequently for Mr. Brown to ask for items six months later, specifying the papers, page and column.  
Mr. Brown is now thirty-five and also is president of the Southeast Missouri Press Association and the Southeast Missouri Democrat Press Association.  
Brown writes his articles on a typewriter, although he cannot read typewriter type. His printers say he seldom if ever strikes a wrong key.

A GRAVE SITUATION.

France is acting within her rights in occupying the Ruhr region. This is not disputed by her Allies. Indeed Italy and Belgium have given their approval. Great Britain has protested on the ground that Germany really cannot pay at present. The United States, not being a party to the treaty, offers no formal protest, but has made it clear to France that her course is not approved, and to emphasize the fact the American force in Germany is being withdrawn. The United States Government made a proposal to France that the question of Germany's ability to pay be referred to competent financial authorities, but the French Government turned it down. A week ago Senator Robinson introduced a resolution in the American Senate authorizing the President to give the United States representation on the Reparation Commission, but it was not passed. The Relations Committee and will doubtless do there, as the Government is reported to be very pessimistic on the subject of mediation in the existing state of affairs brought about by the action of France. Germany says she cannot pay. France says she must, and has moved troops to the Ruhr region to enforce payment. No doubt the United States would make good the offer to appoint members to an international commission of experts to determine the amount Germany is able to pay, but is not likely to be asked by France to do so. It is now up to Premier Poincaré. He must show that Great Britain and the United States are wrong, or the financial situation in France itself will become more acute and he will have to seek once more the co-operation of these two countries. In the meantime the whole economic problem of Europe, which also concerns the United States, remains in suspense. The British attitude is well stated by the Boston Herald.

The British Government, believing that the policy of France is wrong and that the plan will be futile, stands entirely aloof, pocketing its own plan of bare reparations and permitting a four years' moratorium, and regretting what looks rather like the kicking of an enemy that is down. It is the British idea that Germany should have time to get on her feet and gain a little strength, and that her financial load should be lightened, so that she might escape from a bankruptcy which casts the shadow of economic disruption on Europe.

THE QUEBEC ELECTIONS.

Quebec provincial elections will take place early in February. There will doubtless be a keen contest. It has been asserted that a farmers' party would figure to some extent in this contest, but Hon. J. E. Caron, Minister of Agriculture, declares there is no farmers' party in the province. His views on the question are thus expressed: "The organization which has been going on in the province in the name of the farmers, and ostensibly in their behalf, by certain individuals who operate their campaign machinery from Montreal, cannot be termed a farmers' party at all in the real sense of the word. It is merely a political movement inaugurated by a certain number of the Conservatives with a few dissatisfied Liberals. Scarcely a single one of the promoters whose names have been associated with the movement from the start belongs to the agricultural class. The real farmers who have allied themselves with this movement do not represent the agricultural element, and the proof is that the majority of them have given up agriculture and sold their land to go and live in the cities."

As nomination day is not far distant we shall not have long to wait to learn how many farmers' party candidates there are. Presumably the Quebec liquor law will come in for considerable discussion in the course of the campaign. The Government will be able to show that it has gained an enormous revenue from the liquor traffic to be expended on public services, but there are no doubt many people who will look at the other side of the ledger and ask to what extent the law makes better citizens.

Three years ago today the League of Nations covenant was signed, and today France is again waving the sword. The League, however, has accomplished a great deal, and is destined to accomplish a great deal more for the good of the world.

France is a little disturbed because the American troops are to be withdrawn from the Rhine. The United States is disturbed because France has sent troops toward the Rhine. And France began this disturbance.

NO COMPROMISE.

At intervals a disquieting note is sounded at City Hall. The latest instance came yesterday when one of the members of the City Council appeared to express themselves in favor of giving the New Brunswick Power Company more for its property than the price fixed by the Supreme Court and approved by the people. One would think that the utterances of the bond dealers and investment bankers regarding the honor and the credit of St. John would arouse resentment rather than a desire to put more money into the hands of the New Brunswick Power Company. The Council rightly refuses to consider arbitration, and it should with equal emphasis decline to carry on any negotiations with the Power Company for the purpose of giving it more money. The people have decided that matter. Mayor Fisher's platform was published daily for many weeks, and he was elected by an overwhelming majority. The people knew what they were voting for, and will resist any suggestion that they did not know their own minds. There is a perfectly clear course before the City Council, and that is to obey the people's mandate. The Council has been making good progress thus far, and to talk now of going back on the record and playing into the hands of the Power Company would be not only inexcusable but injurious to the interests of the city. There was no real warrant for giving a hearing to the gentlemen who appeared before the Council yesterday, and who so effectively answered by Mayor Fisher. If the bond dealers had shown some interest when the stock of the New Brunswick Power Company was being watered they could now come before the people with a better face. Those who invested in the securities of the Company knew, or should have known, that it had no money. That offer has been rejected. The chapter is closed.

The Governor of New Hampshire gets a salary of \$250 per month. The present Governor, Fred Brown by name, used to get \$300 per month as a baseball player at a time when the salaries of players were much smaller than at present. Governor Brown proposed to give an object lesson to the people of New Hampshire. He has established the executive mansion in one room of a hotel, and will live on a scale in proportion to his salary. We are told that the custom has been to choose rich men as State Governors, and expect them to spend their private means to keep up the dignity and meet the social requirements of the office. Governor Brown is not rich. The hope is very properly expressed by one journal that "the school children of the Granite State will not be taught that it pays better to play baseball than to be chief executive of New Hampshire, commander-in-chief of its army and admiral of its navy."

Hon. Mr. Crerar put himself on record as against government wheat loans. He says co-operation among those who have grain to market will achieve quite a few good results. This is a case where the doctors disagree, as the farmer audience did not applaud Mr. Crerar's views when he gave them expression.

Canada exported over 40,000,000 bushels of wheat in December. Only a small portion of that quantity passed through the port of St. John. Of 34,433,457 bushels shipped to Great Britain only 6,180,078 passed through Canadian ports. St. John is not recognized as a national port, and is not equipped to handle the business.

The Montreal Light, Heat and Power Co. announce a reduction of its rate for electric light, which is now 4.8 cents per kilowatt hour to 4.25 cents. A few years ago the rate was 12.75 cents, or nearly as high as St. John users were paying before the recent slight reduction. When St. John gets hydro it will no longer envy Montreal.

French troops have arrived in Essen. The first danger to remove will be that of possible outbreaks by the people as a result of the invasion. Germany is in readiness for the peaceful home rule that will be theirs as soon as they have demonstrated their fitness they would be doing more for Asia's "oppressed nationalities" than they are by following their present retrograde policy.

SHE GATHERED BEAUTY.

(Gladys Bryant in New York Herald.) She gathered beauty as a connoisseur. Of precious paintings searches far-off lands— Who knows the master from the amateur? And woe it found her heart with greedy hands— Because her eyes saw beauty in each place Where others saw but ugliness unclean. The fingers of the years touched not her face And beauty shined her with sweet repose.

LIGHTER VEIN.

A Sad Case. "Give you a quarter?" said the pedestrian to the colored tramp. "Why don't you go to work and earn some quarters?" "Well, boss," was the shame-faced reply, "by de time I gits so hungry dat I'm willin' to work I'm so weak dat I can't work till I gits some grub."—Boston Transcript.

Prepared For Pinching.

An Italian who kept a fruit-stand was much annoyed by possible customers who made a practice of handling the fruit and pinching it, thereby leaving it softened and often spoiled. Exasperated beyond endurance, he finally put up a sign which read: "If you must pincha da fruit—pincha da cocconut!"—The Crow's Nest.

Inconsiderate.

As long as the grass in a Chicago public park is healthy and green the citizens seem to look upon it as some sort of garden and keep off of it, as the signs command them. When it begins to die out, however, their respect for it instantly vanishes. A man in a hurry started one day to cut across a yellow patch in the upper park, but was stopped by a policeman. "What difference does it make?" demanded the citizen. "The grass is half dead already."

Relief Expedition Faces Great and Pressing Task—Thousands are Without Food or Shelter.

New York, Jan. 11.—Greece, with a population of 5,000,000 people of her own, with little or no money in the public treasury, and with more than a million helpless, foodless, and shelterless refugees from Asia Minor on her hands, presents the problem of the relief of the Greek people. The relief work is being carried on by the American Red Cross, which is being aided by the American Relief Administration and the Red Cross.

Mr. Burns, who returned yesterday from Washington after making his report to Herbert Hoover and the members of the Red Cross and conferring with Col. Haskell, spent five months in Russia and Greece and brings back in the case of Greece the first expert written information which has been officially reported to the American Relief organizations.

"The million refugees in Greece," said Mr. Burns, "driven from their homes in Asia Minor and Thrace by the Turks are most of them without even hand baggage. They are quartered throughout the country in warehouses, theatres, churches, schools, and in the open air. They are crowded and unsanitary as to facilitate seriously against both their health and that of the residents of Greece. They comprise people of all classes of society."

"These from Asia Minor present the most pitiable aspect because the entire 10,000,000 of them are women and children and old men. All the men of military age in Asia Minor are held by the Turks as hostages until the Near East troubles are definitely settled and peace restored."

"So far," Mr. Burns went on, "all the efforts of the Greek Government have been used up in feeding the refugees, and the efforts of the Red Cross have been captured on medical attention and temporary relief of suffering. The main problem, that of finding homes and work for the overnight increase of twenty per cent. in population, has hardly been touched."

"In discussing the situation with officials of the Greek Government, we concluded that it would be less expensive in the long run to take over the work of feeding the refugees from the government and to combine it with our efforts along medical lines and temporary relief of suffering, and thus leave the entire energy and funds of the government free to attack the problem of housing them and setting them to work. The sooner this result is accomplished, the sooner organized relief may withdraw entirely."

Scottish Maid To Be England's Queen - Or Just A Plain Duchess?

London, Jan. 11.—The next Queen of England will be a twenty-two-year-old Scottish maid—and that's all there is about it, so London now asserts. Despite "diplomatic denials" given out at York House, the residence of the Prince of Wales, heirs to the throne of Great Britain, London knows its royalty and stubbornly clings to the belief that the next Queen will be called Queen Elizabeth.

TWO WIVES COST MORE THAN INCOME

Yonkers Man Wants to Pay First Less for the Benefit of His Second. New York, Jan. 8.—When George Y. Reed of Nepperhan Avenue, Yonkers, went before City Judge Charles W. Boote this week in an effort to have the alimony he is paying his first wife reduced so he could be more liberal financially to his second wife, Mrs. Reed No. 2, had a kind word for Mrs. Reed No. 1.

Reed, since his appearance in court several months ago on a bigamy charge, has been paying his first wife \$12 a week and \$25 a month for rent. The Grand Jury refused to indict him and he was liberated on the bigamy charge on a technicality. Reed voluntarily with Mrs. Reed No. 2 that he was not making money enough now to pay the full allowance to his first wife and then adequately support his second wife.

He offered to continue paying the \$12 weekly to the first Mrs. Reed, but asked to be relieved of paying her rent. Mrs. Reed No. 2 interposed: "I think the other Mrs. Reed should have property, Judge, but I'm also entitled to support."

Mrs. Elizabeth Reed, the first wife of 40 Muddery Street, Yonkers, will be subpoenaed to appear in court next Sunday. She will be asked if she will assent to a new appointment of Reed's pay so that she will receive less money and her successor in Reed's affections more. Reed tried to tell Judge Boote that Mrs. Reed was not his legal wife, but Detective John Dahill spoke up and told the Judge that he was called to the Reed home three months ago to get a quarrel and that Reed acknowledged her as his wife. Dahill told the Judge that when Reed was confronted with a bigamy charge he admitted she was his wife. "You may claim she is not your legal wife now, Reed," said the Judge, "but morally she is your wife, and every body has recognized her as your wife."

Each Mrs. Reed, to establish a claim upon Reed as husband, recently produced a marriage certificate produced a marriage certificate naming Reed as the bridegroom.

FARMHAND MATCHES \$10 NOTES; LOSES \$350. THEN CALLS POLICE. New York, Jan. 11.—Asserting that he had lost \$800 in a bill matching game, a man who he was Jack Smith, a farmhand, from Canada, caused the arrest of Joseph Richards, a clerk of Washington, D. C., on a charge of grand larceny. Smith said he was about to purchase a ticket for Montreal when he met Richards and another man and matched them for a dollar. He won and matched several times, winning almost every time. Then the men began matching ten dollar bills, and soon \$350, a greater portion of Smith's money, was gone. The men said they would give him a chance to win back a dollar if he got a cigar, but at Forty-second Street and Lexington Avenue they tried to get away from him. One succeeded, but Smith and Patrolman Joseph Rodgers gave chase in a taxicab and arrested Richards.

### VETERAN ACCUSED OF DEATH THREATS

Dr. William Boyce of Yonkers Haled to Court by Physician—Arsenal at His Home Seized.

New York, Jan. 11.—Dr. William Boyce of 92 Radford Street, Yonkers, who is a World War veteran and retired major of the United States Army was arraigned before City Judge Charles W. Boote in Yonkers charged with annoying and threatening to kill another physician. An arsenal of loaded firearms, including a rifle with a silencer attached, was ordered seized by the Court and a permit Dr. Boyce had to carry a loaded revolver was cancelled.

Dr. William Hotzaphel of 891 West End Avenue, Manhattan, the complainant, alleged that Dr. Boyce had greatly annoyed him by sending him abusive letters and telegrams and repeated telephone calls. Some of the telephone messages were made late at night and there were seven in succession last Friday night. All these messages upbraided Dr. Hotzaphel because he would not tell Dr. Boyce where Mrs. Boyce, who lives apart from her husband, is staying. Judge Boote suggested that Dr. Boyce be taken to a sanitarium in the Bronx, where he was to remain in his own home for the rest of the night under guard. Policeman Frank Murphy stayed with Dr. Boyce and Dr. Hotzaphel.

Judge Boote ordered the police to contact a loaded .45-caliber army service revolver, another .38-caliber revolver, the rifle and any other weapon found in Dr. Boyce's apartment. Dr. Boyce was then paroled in the custody of his attorney until Thursday. Dr. Hotzaphel and Mrs. Hotzaphel told Judge Boote that they did not know Mrs. Boyce's whereabouts and that all of Dr. Boyce's grievances against them were imaginary.

The Clark estate is one of the oldest in Orange County and adjoins a 600-acre tract known as the New York City Farms, acquired for treatment of drug addicts under Mayor Gaynor's regime. It was the scene of many noted gatherings in the days of Foss Clark when Boss Tweed and his friends used to come here for week-end outings from New York.

W. A. Loudon, comptroller-general for the province, was before the provincial government in session here yesterday and considered with the members the financial statement for the fiscal year ending Oct. 31, 1922, for the province. No definite announcement was made as to surplus or deficit but in well-informed circles it is said that there will be a surplus shown on current account.

The personnel of the two committees, one on finance and the other on recreation and supervision, has been announced by R. T. Hayes, E. F. A. Simons, chairman of the general committee. IS STRONGEST MIDSHIPMAN.

Vodilla Outpoints Previous Champion in Strength Test.

Annapolis, Md., Jan. 11.—Louis J. Vodilla of McKeesport, Pa., appointed to the Naval Academy from the Marine Corps, is the strongest midshipman at the academy, according to official tests just completed. His total score is 7,345 points against the 7,185 of Wendell S. Taylor, football end, who up to this time has stood at the top.

Arthur W. Lewis, football guard, who came from Rutgers, also topped Taylor's record, with 7,235 points. Vodilla has taken no part in athletics, chiefly because he did not enter the academy until late in September and escaped the cutting out which is an important part of the summer's routine. Now, however, the different coaches are looking him up, rowing and wrestling being regarded as sports for which he is particularly fitted. He weighs 181 pounds and is an inch over six feet.

The annual meeting of the Tabernacle Baptist church was held last night and the reports submitted showed the year just completed to have been a most successful one in the history of the church.

## Something to think about

WHEN lying awake at night, stop "counting sheep" and think what is probably the cause of your sleeplessness.

Both tea and coffee contain a drug element that irritates the sensitive nervous system, often causing restless nights, followed by drowsy, irritable days.

A delicious, hot cup of Instant Postum contains nothing that can deprive you of restful sleep at night, or hamper your days. But it does supply all the warmth, comfort and satisfaction that can be desired in the mealtime beverage.

Instant Postum is made "quick as a wink," in the cup, at the table—no boiling, no waiting, no waste. A level teaspoonful in a cup, with boiling water added, makes a fragrant, seal-brown beverage, which turns to a rich, golden-brown when cream is added. Sweeten to taste, and the fine, full-bodied flavor will be pleasing, satisfying and delightful.

### FIND HARD COAL VEIN ON NEW JERSEY FARM

Newton, N. J., Jan. 11.—While driving a well at Millville, six miles from Bloomsburg, Warren County, on the farm of George Rhodes, W. A. Gillen struck an anthracite coal vein. The drill went into the vein for fifteen feet. The coal was tested and proved to be a high quality anthracite.

So far as is known no coal ever had been discovered on this side of the Neoscopack Mountains. Coal is mined in the mountains, seven miles across.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis Formerly Technical Electrical Expert For U. S. Government

In multi-stage amplifiers employing the vacuum tube and its associated apparatus, as a means of magnifying the incoming radio signal, there are several methods of coupling in general use.

The accompanying diagram shows the connections of a receiving circuit employing a detector and two stages of impedance coupled audio-frequency amplification.

The impedance coils (L1) and (L2) each consist of a great number of turns of wire wound upon an iron core.

SEES HALT IN U. S. PROGRESS

London, Jan. 10.—Sir Mackay Edgar, British industrialist and financier, has just returned here after a visit to the States.

"It is an amazing spectacle," he says. "There you have 115,000,000 people feverishly tearing from the earth its irreplaceable wealth and using it to maintain a rate of growth utterly without precedent in all human history."

"They have long been the champion spenders of the world, but now they are making all previous records look silly."

Sir Mackay says that the biggest economic fact in the world today is America's gigantic consuming power.

Then the financier goes on to prophesy that before long, while the demand will be at an enormous level, the supply will have run short, and so he predicts a sharp halt in American progress, which may be something like a collapse.

JOBLESS BRITONS TAKE WIVES TO GET LARGER 'PENSIONS'

London, Jan. 11.—Some of England's unemployed are getting married because two can live more expensively than one.

The unemployment dole is increased when the workless workman takes a bride, and there is, of course, the further income that some brides can add to the family income by their own industry.

Persons seeking such help are writing to the newspapers that their servant girls are leaving good jobs to marry men with no employment, no prospects and no homes to which to take their new wives.

Don't Let That Cold Turn Into 'Flu'

Rub on Good Old Musterole. That cold may turn into 'Flu,' Grippe or, even worse, Pneumonia, unless you take care of it at once.

Rub good old Musterole on the congested parts and see how quickly it brings relief.

Colds are merely congestion. Musterole, made from pure oil of mustard, camphor, menthol and other simple ingredients, is a counter-irritant which stimulates circulation and helps break up the cold.

As effective as the messy old mustard plaster, it does the work without the blister.

Just rub it on with your finger-tips. You will feel a warm tingle as it enters the pores, then a cooling sensation that brings welcome relief.

DAMAGES ARE ENLARGED

Loss of Musical Career Judged to Be Worth \$6,000.

Toronto, Jan. 10.—As a result of the unprotected character of a bridge on the Belleville-Madoc road an automobile driven by Dr. George M. Clinton, aged sixty-nine, went over into the ravine, one September evening in 1921.

Dr. Clinton, his wife and daughter were injured. Action was entered against the county of Hastings, and at the trial before Mr. Justice Mowat, Dr. Clinton was allowed \$1,000, Mrs. Clinton was allowed \$2,000, and the daughter, Miss Jeanne Clinton, was allowed \$4,000.

The county appealed from the award, and the result in a judgment pronounced by the appellate division is that the damages awarded Miss Clinton are increased by \$5,000, making the award in her case \$10,000.

Miss Clinton, who is twenty-two years of age, had completed her training as a pianist, her musical education having cost \$12,000. She had given recitals at Toronto and Ottawa.

The trial judge held that he could not allow for partial loss of the career which lay before her, though there was no prospect of her ever being able to follow her chosen profession. The appellate division takes a different view and allows her \$6,000 for this loss.

JAZZ CROWDS GRAND OPERA FROM COVENT GARDEN STAGE

London, Jan. 10.—Covent Garden Opera House, which for more than a century had been England's premier home for grand opera, has fallen under the influence of the modern trend toward comedy and jazz and shortly will open as a musical comedy emporium.

As a grand opera house the theatre has not been a success since before the war. The waning popularity of grand opera in England was dealt its final blow by the war-time intermission. Although there have been a few attempts since the war to reintroduce opera on a grand scale, they all have been failures.

PARISIANS, NEWLY RICH, ADOPT GOLD-TOOTH FAD

Paris, Jan. 10.—While most people prefer to conceal the fact that they have artificial teeth almost as much as a man desires to wear a wig, the display of gold teeth has become a fad among the nouveaux riches in Paris, or at least a front tooth inlaid with a little gold plate.

At first to indulge this fad it was necessary to have a tooth extracted and an artificial one of gold fitted in its place.

But now, thanks to the invention of an "imitation false gold tooth," the painful extraction is avoided. The invention consists of a kind of adjusted gold covering which immediately adapts itself to any healthy tooth and entirely covers it. A few judiciously placed imitation gold teeth impart to the smile a gorgeous effect not otherwise attainable.

Had Bad Pains in Her Heart

Nerves Were Very Bad

Mrs. John Case, R. R. No. 4, St. Catharines, Ont., writes:—"I wish to say that I have been bothered very much with my heart and nerves. I doctored with two different doctors but did not find much relief. I would have such bad pains in my heart, at times, I would be almost afraid to move or breathe, and at night I could not sleep. If the pains in my heart were gone, my nerves would be so bad I could not lie still and would only get a little sleep by being tired out. My stomach was also very bad and I could eat but very little, and then only certain things or I would have so much distress which always made my heart worse."

She had been suffering for nearly two years until one day I was talking to our druggist about the way I felt. He advised me to give Milburn's Heart and Nerve Pills a fair trial. I have now taken five boxes and am feeling so much better. I am able to do my own work, and can eat anything I wish. I cannot recommend the

BRITONS ADMIT STEALINGS WILL TOTAL \$160,000

Of This, Elderly Brooklyn Lawyer Got \$60,000 from Estate Funds, While Son's Share Was \$100,000.

New York, Jan. 10.—Alfred F. Britton, a Brooklyn septuagenarian lawyer, who with his son, A. Dudley Britton, was arrested charged with the larceny of moneys belonging to clients whose estates were entrusted to the Brittons for management, confessed that the thefts would total approximately \$160,000. The father's confession was supported by a similar admission from the son. The Brittons are in Raymond Street jail, held without bail for the grand jury.

Brooklyn authorities indicated yesterday that they will move with all the speed possible against the accused lawyers. Thomas C. Hughes, assistant district attorney, who has charge of the case, said he would move for an indictment tomorrow morning and, if successful, would arraign them in the County Court in the afternoon for pleaded.

The Brittons, the available evidence shows, specialized in trusteeship practice and handled many large estates during the period covered by their confession of defalcations. It was said yesterday that the entire estate of Mrs. Besse Carroll, widow of the late Joseph Carroll, who was a deputy clerk in the Brooklyn Surrogate's Court, would be lost. Mrs. Carroll inherited about \$37,000 from her husband, and it is now said that the Brittons have converted all this money to their own use, leaving Mrs. Carroll penniless.

The heaviest loser will be the estate of the late Anthony F. Campbell, who when he died seven years ago, left approximately \$90,000, almost all of which has been lost, it was said yesterday.

John M. Minton, former Assistant District Attorney, who is acting as counsel for the Brittons, said yesterday that the story of their confession was entirely true. "The thing in their favor," Mr. Minton said, "is that they came through as clean as it is possible for men accused of stealing to do. They have turned over all their property, including some securities held by the elder Britton's wife. The total amount is nearly \$30,000."

THREE WINDSOR TRACKS THREATEN TO STAY CLOSED

Windsor, Jan. 10.—Unless the Ontario Government allows a substantial reduction in tax paid by race-tracks of the province, Windsor's three tracks will keep their gates closed for one summer, at least.

The information was given out by an official of one of the local racing associations, who said it would be impossible to continue operation of the tracks under the tax imposed last year by the Drury Government.

The threat to close the tracks was coupled with the statement that all the \$4,000,000 was paid into the provincial treasury last summer by the various racing associations.

Manchester, N. H., Jan. 10.—Chief Justice John Kevil in the Hillsboro county superior court warned lawyers and liquor offenders that hereafter he will give all first offenders appearing in his court fine and suspended sentence in jail, the latter to become effective on a second offence. The judge said he was impelled to take this action by the number of such cases on this term's docket.

SYSTEM RUN DOWN BLOOD OUT OF ORDER

Many people become run down, but don't know just exactly what their trouble is, when, as a rule, it is improper circulation of the blood.

All they need is a tonic to build up the system and put the blood into proper shape.

For this purpose there is nothing on the market today to equal Burdock Blood Bitters

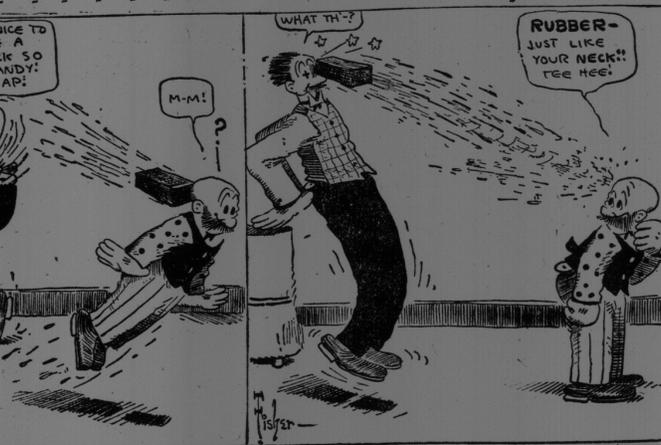

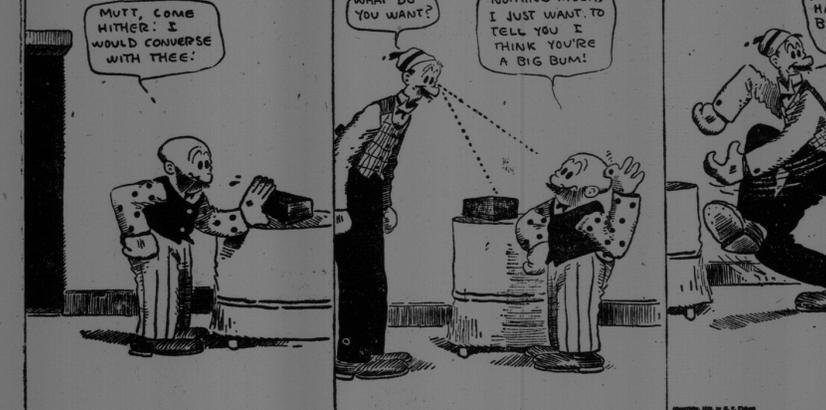

It regulates the stomach, liver and bowels, purifies the blood and tones up the entire system.

Mrs. H. Poole, Port Dover, Ont., writes:—"My system was run down and my blood out of order, and I suffered a great deal from pains in my head which made me feel very miserable. A friend told me to try Burdock Blood Bitters, so I got a bottle and before it was used I found it was doing me good. I kept on until I had taken three, and now I feel like a different woman.

My husband also took it and it has built him up."

### WHAT THEY WEAR DOWN IN MIAMI

Fashion and Apparel for Winter in Southern Florida

Endless Variety of Sports Clothing—February Likely to Call for Wraps when the Cold Spell Comes.

(New York Evening Post Correspondence)

Miami, Fla., Jan. 11—What to wear at Miami is of interest to every woman who goes South, and already as shops are beginning to display their wares, and many charming one-piece frocks or jackets of these fabrics are being fashioned for the season along the American Riviera.

Sports wear, of which there seems to be an endless variety, is always appropriate for those enjoying golf and tennis, and knitted dresses promise to be strong features of the season, particularly the new imports with their lovely colorings and unique features of sleeves, girdles, and designs, some very smart two-tone combinations appearing in the new models. Silk and splicing are both good and, of course, speaking of knitted wear, sweaters of all sorts will still be worn, with the exception of the lead, except for sport figures, which seem to demand the long, straight lines of the Tuxedo style. The little blouses worn with these still have the round collar known as Peter Pan, and any number of lovely models are shown in the shops, while the fashionable shirt makers are featuring new models in tailored silk or in the French style with real lace and embroidery.

White broadcloth or doreskin capes are still featured worn with one-piece dresses or the matching skirt and jacket, the capes having collars and white caracul, white fox, or whatever fur is fancied. Much camel's hair is being shown for this season in the wrap-around skirts and sweaters and in the large loose sports coats which are so essential to the wardrobe.

Along in February the mercury frequently drops for about a week or so, and heavier and warmer clothes are quickly shaken free of their moth balls and hustled out. When this spell arrives it seems very cold in contrast to the usually fine weather for which Miami is so justly noted. A heavy wrap is quite essential for evening wear, as there is often a chill in the air, especially when one goes out on Biscayne Bay to a house boat dinner or to the Miami Country Club by the river, or a spin over the Causeway to the Casino. For such occasions the handsome fur-trimmed evening wrap has a definite place, and heavy velvet dresses are also used, together with lighter ones done in satins or chiffon velvets, metal brocades.

During the past two seasons it has come to be quite the thing to make a toilette in the morning for the entire day, as after meeting at the beach, people rush off for luncheon, then play bridge, and as a matter of course meet later at the Oriental Tea Gardens at the Flamingo, so one sees lingerie and laces and chiffons and frocks called by our French cousins "tres habiles" from seven until six in the afternoon.

On the other hand, there is always a background for the handsome formal toilette, and one may feel quite free here to take whatever attitude best pleases her being certain that she will have at least some company in whatever she elects to wear.

Bathing suits during the past two or three seasons are more and more subject to change. Smart gingham and Russian blouses, often gathered neckers to match vic with the popular one piece bathing, facetiously referred to by Kenneth Roberts as "two-fits."

### CHANGES PROPOSED IN PRIZE LISTS FOR EXHIBITIONS

H. A. Porter Returns from Conference of Fair People at Ottawa—Report to Agriculture Minister.

H. A. Porter, secretary of the St. John's Exhibition Association, returned yesterday from Ottawa where he attended a conference on fair matters. After the meeting a committee was appointed to prepare a report and present it to the Minister of Agriculture.

The question of judging and standardization of types of animals was discussed. It was decided to throw on the different breeding societies the onus of nominating judges, and plans were suggested for making the judges nominated more proficient and for standardizing their judgments.

### MRS. WARD PAINTS WITH SKILL AT 90

From Age of Eighteen Up to Last Year She Exhibited at Royal Academy.

London, Dec. 15.—(By Mail)—Among the older generation of women artists still at work there are few more remarkable than Mrs. Henrietta Mary Ada Ward, mother of the late Leslie Ward, the famous "Spy," said "The Westminster Gazette."

Mrs. Ward is ninety years old. From the age of eighteen to when she has exhibited at the Academy (for thirty consecutive years she was represented there), and she is even now painting with that charming Victorian atmosphere in her pictures that breathes less hushing days than the present.

She is an unobtrusive, old-fashioned, in her dress and her bearing, the days of a Chelsea now passed, and of famous friends—Dickens, Thackeray, Gounod—now dead; and lingers in art, in her own quiet life, as a reminder of that golden age when to be an R. A. was recognized as the pinnacle not only of artistic but also of social genius.

Excusable, perhaps, for, apart from her age, Mrs. Ward has other links with that past. Her husband was E. M. Ward, R. A. (whom she married when she was sixteen), her grandfather was James Ward, R. A., animal painter to the King; her uncle was John Jackson, R. A., portrait painter; her great uncle was William Ward, R. A., while another great-uncle was the famous George Morland. And the name of her son "Spy," (who figures in one of her pictures), is a brilliant star in a bright constellation.

Mrs. Ward is justly proud of the longevity of her family. She (as already stated) is ninety; her father lived to eighty-four; her grandfather to ninety-two, and her grandmother to ninety-seven.

### FUTURE WARSHIP CONTEST OF WITS

Vision and Skill of Designers Rather Than Dollars Will Determine Effectiveness, is U. S. Belief.

Washington, Jan. 11.—Treaty limitation by the Washington conference compact on the size of war craft has changed the conditions of competitive building among sea powers, but in the judgment of naval experts competition will continue.

Already it is pointed out, competition in capital craft is designed to underwrite the British, as permitted under the treaty, are preparing to build two post-turret battleships, the first post-turret capital craft to be designed and built since the treaty.

There has been no official disclosure of the plans for the two new British ships. Frequent rumors recently in the British press, however, have given what appears to be a clear, general picture of the ships, which presents vessels so strikingly superior to anything now afloat that they will be queens of the sea until 1924, when new American replacement battleships can be commissioned.

FRENCH WINE SURPLUS NEARLY 800,000 GALLONS

Vineyards Produced 70,000,000 Hectoliters and France Consumes 40,000,000

Paris, Jan. 10 - French vineyards produced forty-six gallons of wine for each man, woman and child in the republic in 1922. The total amount was 70,000,000 hectoliters, or about 1,800,000,000 gallons.

The average consumption in France is 40,000,000 hectoliters, or about 1,000,000,000 gallons. In spite of the surplus prices remain high.

The life of a file, experts say, is twenty-five thousand strokes.

Dr. Carrel, one of his colleagues said, had successfully transplanted kidneys from one animal to another, but never from an animal to a human being. Dr. Carrel won the Nobel Prize in 1912 for success in suturing blood vessels and transplanting human organs.

Dr. Neuhof was reluctant to discuss the operation for ethical reasons, but he intended to write an article about it for the Journal of the American Medical Association. Asked if the operation had been suggested by any of the studies of the transplanting of kidneys in human beings have been made in Europe, but have never been successful, according to Dr. Daniel Nathan Eisenrath, a Chicago surgeon, who gave an interview on the subject last June, when he returned on the France from a two months' trip to Europe. Dr. Eisenrath said that he specialized in the study of kidney and cancer diseases while abroad and had learned that kidneys had been successfully transplanted in animals, but that as yet no degree of perfection had been reached in regard to human beings.

### JOE MOORE IN METROPOLITAN

"Proved as Invincible as Ever," Says New York Paper—The Ladies' Races.

(New York Tribune). In the metropolitan outdoor speed skating championships, which were decided on Peckham's Pond, Yonkers, yesterday, Joe Moore, of the 181st Street Ice Palace, proved to be as invincible as ever. He won the outdoor title by scoring 100 points to 60 for

Paul Forsman of Iceland, the defending champion. Joe clinched the title by taking first place in the half-mile as well as the one-mile contest. Forsman, who is exceptionally fast in the sprints, was victorious in the 220 and 440-yard dashes, but Joe finished second to Forsman in each of these events, while the Iceland lad failed to place at all in the longer races. William Murphy, of the 181st Street Ice Palace, West Becker of Iceland, the present indoor metropolitan champion, Leslie Boyd, unattached, and Henry Niebuhr, of the Tremont Skating Club all tied for third place with twenty points each. Miss Hattie Dose, of Iceland, captured the ladies' title from her sister, Miss Marjorie, who competed for the Tremont Skating Club, by a winning margin of ten points. Miss Peggy Conaty, of the 181st Street Ice Palace, was third. Miss Marjorie won the 440-yard dash from her sister with ease, but inches separated Miss Hattie from

Miss Conaty at the finish of the half mile which the former won. Miss Elsie Muller, of the 181st Street Ice Palace, who was the former outdoor metropolitan champion, failed to participate in the ladies' championships, which were decided in the morning, because she was unaware of the fact that no races were to be held. It had been previously announced that the tournament had been postponed, but the sudden drop in the temperature made it possible for the officials to change their plans over-night and the skaters who prepared relied on their judgment rather than an official notification. Miss Muller, who arrived in time for the afternoon events, distinguished herself, however, by winning a special 440-yard dash from Miss Gladys Robinson of Toronto, the international champion, in 0:51 2-5. Miss Muller took the lead at the start and surprised the spectators by finishing a good ten yards in the van of the little Canadian lass, who holds the world's record for this distance. Another special event at the three-quarters of a mile enabled Miss Robinson to show her prowess. Miss Peggy Partridge, who set the pace during the early stage of this event, relinquished her lead to Miss Peggy Conaty three laps from the finish. Miss Conaty then opened up a ten-yard gap between herself and her pursuers and was doing very well until she stumbled at the beginning of the last lap. Miss Muller then assumed the lead, only to be nipped by Miss Robinson at the tape. The one mile race for men, which enabled Joe Moore to clinch his title, as the most exciting of the afternoon, Henry Niebuhr, of the Tremont Skating Club, was well out in front two laps from the finish and going like a whirlwind, but Moore was not to be

defeated so easily and started to do a little sprinting himself. In one lap and a half he overtook Niebuhr and won as he pleased, crossing the line with a broad smile on his face. Becker lost second place to Niebuhr by a substantial margin. Joe's winning time was 2:26 1-5. A forty-inch reflector mirror weighing half a ton has been completed by a Buffalo man.

### 1000 EGGS In EVERY HEN

If You Keep Chickens CUT THIS OUT

"The great trouble with the poultry business has always been that the laying life of a hen was too short," says Henry Trafford, International Poultry Experts and Breeder, for nearly eighteen years Editor of Poultry Success. The average pullet lays 180 eggs. If kept the second year, she may lay 100 more. Then she goes to market. Yet, it has been scientifically established that every pullet is born or hatched with over one thousand minute egg germs in her system—and will lay them on a highly profitable basis over a period of four to six years' time if given proper care. How to work to get 1,000 eggs from every hen; how to get pullets laying early; how to make the old hens lay like pullets; how to keep up heavy egg production all through cold winter months when eggs are highest; triple egg production; make slacker hens bustle; \$5.00 profit from every hen in six winter months. These and many other money making poultry secrets are contained in Mr. Trafford's "1,000 EGG HEN" system of poultry raising, one copy of which will be sent absolutely free to any reader of this paper who keeps six hens or more. Eggs should go to a dollar or more a dozen this winter. This means big profit to the poultry keeper who gets the eggs. Mr. Trafford tells how. If you keep chickens and want them to make money for you, cut out this ad. and send it with your name and address to Henry Trafford, Suite 621 W. Herald Bldg., Binghamton, N. Y., and a free copy of "The 1,000 EGG HEN" will be sent by return mail.

Massee is conducting at Tremont Temple. Dr. Massee's noon-day sermons are broadcasted daily from the Shepard Stores broadcasting station, as are also the Sunday forenoon services. Speaking of the conversions by radio Mr. Massee said: "I was informed that one of the 'listeners-in,' a prominent and well-to-do business man whose name I am not at liberty to divulge, gave himself to Christ after listening to the Tremont Temple service over his radiophone. I learned of another man who gave himself to Christ after taking in one of the services by radiophone. "I have had numerous letters from persons who stay at home and listen to our Sunday morning services, some of them containing contributions. A number have had as much as \$3 inclosed, others smaller amounts." California's dried peach yield is 93 per cent of that of the entire United States.

## Copy of Declaration In Bessie Parker Case Admitted by Judge

### Important Ruling by Mr. Justice Barry—But One More Crown Witness Was to Be Heard This Afternoon.

With the exception of the examination of one witness, Dr. Anna Creighton, the Crown this morning closed its case against Mrs. Bessie Parker, charged with the murder of Mary Frontin. Much of the evidence this morning was given by doctors and dealt with the medical aspects of the case. Dr. C. M. Kelly and Dr. Victor Davidson told of the condition of the girl at the operation and Dr. H. Leabramson described his findings at the post-mortem. Other witnesses examined were William Ferris who the dead girl named as responsible for her trying to die, and Detective Biddiscombe who told of the arrest and of finding a knitting needle at the home of the accused.

**Declaration Copy Received**  
A feature of this morning's session was the decision of His Honor Judge Barry to allow to be placed in evidence a copy of the lost dying declaration in spite of strenuous efforts on the part of the counsel for the defense to have it kept out. His Honor read the following opinion:

**KING VS PARKER.**  
Just before adjournment yesterday, Dr. Wallace, for the Crown, offered in evidence, what purports to be a copy of a dying declaration made by the deceased girl, Mary Emily Frontin, Senator Fowler, K. C., for the prisoner, objects to the reception of this paper in evidence, on two grounds: First, that it has not been shown that the original declaration, of which the paper tendered is said to be a copy, is lost; and second, that it has not been established in evidence, that the state of mind of the deceased, at the time of the making of the declaration was such as to make it admissible in evidence.

These are both substantial objections and most important to the Crown, in that it is considered by it that if either one of them is considered to be well founded, the evidence tendered by the Crown must be excluded.

The declaration of the deceased girl was taken by Police Magistrate Ritchie on the day of her death; it followed the language the deceased employed in a declaration made to the magistrate, the superintendent of the Public Hospital at day or two previously, with a sentence added by Mr. Henderson, the police clerk at the instance of the magistrate. The evidence is that the declaration was read over slowly and carefully to the deceased girl and that she signed it. Nobody suggests that she misunderstood or was mentally incapable of understanding its contents.

The declaration was read by the police magistrate at the inquest held on the 9th of October, and was taken down verbatim, in shorthand by Miss Whitehead a sworn court stenographer. The police magistrate says he read it correctly. Miss Whitehead says that when he said she took down correctly, and that afterwards she made a typewritten transcript of her shorthand notes. It is the transcript which is now offered in evidence.

I have no doubt that the evidence that the original document is lost and cannot be found. The police magistrate says that after the inquest, he put the two declarations, pinned to an information in an inside pocket of his overcoat, and that he has not seen them since. He does not know where they are; and although he has made diligent search in every place where the papers might be likely to be found, he has not found them. Mr. Henderson's evidence is to the same effect; he, too has made diligent and careful search around and about the police office, and has not been successful in discovering the lost documents. It has not been suggested by counsel for the prisoner that there is anything which might have been done towards discovering the papers that has been left undone. It seems to be therefore upon this state of facts that the declaration may be treated as a lost document and that secondary evidence of its contents is admissible.

Immediately approaching death and without hope of recovery, that she recognized the awful seriousness of her condition. In view of this evidence of the girl's condition of mind, and of her expectation of death, I am of the opinion that the evidence tendered, is admissible and I accordingly admit it, subject to the objection of counsel for the prisoner, and saving to her all just claims.

The dying declaration as admitted was read by the clerk. In it Miss Frontin declared that about September 9 she had gone to Mrs. Bessie Parker in Main street, and described what had taken place there. It also contained reference to a second visit.

Detective Patrick Biddiscombe in the witness stand, told of the detectives' connection with the case, the visit to the hospital, the signing of the declaration by the girl. He said that Miss Frontin identified the accused as "the woman." The accused started to speak but the magistrate stopped her.

Later the witness said, he and Donohue went to the home of the accused and met Mrs. Gosling, her mother at the door. They searched the premises. He found a needle, a knitting needle, stuck over a sink in the kitchen, down behind a board. The needle was put in evidence. He described the plan of the house.

To Mr. Fowler the witness said he was a married man. He had heard about the Great War and of the knitting of socks. Some were similar to the one produced in evidence.

William Ferris was next called. He said he had known Mary Frontin between three and four years. He had met her at a dance. He had seen her about a month before her death. This was in Union street. He knew of her condition but did not know who was the father of her child. When he had been at a dance, he had seen her with her \$40. Dr. Wallace attempted to ask the witness why he had given her the money and the judge ruled the question out.

Dr. Wallace quoted from Cox's Criminal Cases in support of his question and considerable argument ensued. Finally the witness said he gave her the money because she demanded it. He did not see her after.

To Mr. Ritchie the witness said he had never been at the girl's house, but knew where she was employed.

Dr. H. L. Abramson, provincial pathologist told of the post-mortem. He gave a technical explanation of what he found.

Dr. C. M. Kelly, member of the visiting surgical staff of the hospital, gave the evidence of the post-mortem examination. Dr. Victor Davidson rehearsed his knowledge of the case. His evidence was very similar to previous evidence. He said he was present when he saw her. He was present when Magistrate Ritchie read a statement to the girl and he saw her sign it.

**NEW TEXT BOOKS, AND CHEAPER, FOR PROVINCE SCHOOLS**  
Declared to be in Prospect After Education Board Session—Gov't Meeting Continued.  
Improved school text-books at cheaper rates are in prospect in the Province of New Brunswick as a result of consideration of the matter, which was given at a meeting of the Board of Education here today in connection with the meeting of the Provincial Government. The series now in the schools has been in use for about twenty years and is in need of revision. Three new series are under consideration, two of which are the Canadian and Atlantic series. The adoption of either of the series is expected to mean a considerable reduction in the cost of the books. Other routine matters were also taken up.

**FALES-CLARKE**  
A wedding of local interest was solemnized in Lawrence, Mass., on January 10, when Rev. G. F. Beecher, pastor of Lawrence, united in marriage Miss Frances Baker, daughter of George Clarke, Murray street, and Frank Smith Fales, also of St. John. Beautiful presents were received among which was a diamond studded string of pearls from the bride's sister, Mrs. Arthur Ross, of Montreal, and a substantial check from her father, Mr. and Mrs. Fales, who reside in New Hampshire for the present, where the groom is the representative of the Gulf Refining Company. Many friends of both bride and groom in St. John will extend best wishes.

**COUNTY ESTIMATES.**  
At an adjourned meeting of the Municipal Council finance committee this morning estimates of interest and sinking fund charges were considered and were still under consideration when the meeting adjourned for lunch. Amongst the matters to come up this afternoon will be contingencies and unforeseen expenses.
