Scotch knit wool Underwear, 50c. each. An Exhibition Ticket with each
sale of \$3.00 and over.

J. N. HARVEY, Clothing and
Furnishings,
199 to 207 Union St.

EVERYTHING IS READY FOR THE GRAND OPENING TONIGHT

Exhibition Grounds Presented
a Busy Scene This Morn-
ing--Booths are Especially
Attractive--Machinery Hall
an Interesting Corner.

The St. John Exhibition will open
tonight. The many exhibitors have
been actively at work, and the build-
ings and grounds are in excellent
shape. It was claimed by many who
were on the grounds this morning that
the exhibition this year is, judging
from experience, by far the greatest
show that has ever been seen east of
Toronto.

The initial ceremonies will take
place in the large amusement hall this
evening at eight o'clock. Lieut.-Gov.
Snowball will declare the exhibition
formally opened, after addresses have
been delivered by A. G. Skinner, who
will welcome the visitors, His Wor-
ship Mayor Sears, Hon. H. R. Em-
merson, Hon. L. J. Tweedie, Hon. Dr.
Fugatey, Hon. F. Harris, J. B.
Hazen, M. P., and Dr. Daniel, M. P.
Harry McCracken, one of New York's
leading gynecologists, will render several
selections during the entertainment.
This will, no doubt, have the effect of
drawing a large crowd, as Mr. Mc-
Cracken's singing is greatly admired
in this city.

This morning the exhibition build-
ings were the scene of great activity,
as all were at work with one object
in view, to be ready for tonight.

The machinery hall was nearly all
in readiness this morning. In this
building the leading attraction will be
the motor boat show, in which class
there are many entries.

In the main building it is noticed
that many of the exhibitors have en-
larged their booths and are endeavor-
ing to make much finer exhibits than
they have succeeded in doing in pre-
vious years. The effect of a prize
the best decorated booth has had the
desired effect, and nearly every
booth is now a masterpiece of make-
up.

Representatives of the shipping in-
terests of Montreal have been urg-
ing the appointment of Commodore J.
T. Walsh, superintendent of the Cana-
dian Pacific Atlantic service, to the
honorary position of Hon. Commissioner
of the exhibition.

Superintendent Leonard, who has
so successfully carried on the work of
housing the visitors during past years,
is again in charge of the Lodging
Bureau, where a complete list of
boarding houses is being compiled.
Persons to the city can be accommo-
dated without searching around for rooms.
Up to noon today F. G. Spencer had
received no definite word from the
manager of Ferrer's leopards and
panthers, the great Coney Island act
that he intends substituting for the
Barlow elephants which broke loose
in Virginia last week, but the confirma-
tion of the act he wired him to come
at once. If the plan carries the leop-
ards and panthers should be here Mon-
day noon. This act is the greatest
attraction at Coney Island and is
part of the great Bostock's animal
show. A handsome sum has to be
guaranteed to bring it. As to the other
features, the Cockatoo Circus is on
hand, the Wormwood monkey and dog
show will arrive at noon today, and
Dida came by boat from Boston yester-
day.

W. H. Johnston and wife of Halifax
arrived in the city yesterday.

Among the visitors to the city today
is E. J. Payson of Sydney, who is reg-
istered at the Victoria.

Residents of Duke street complain
of a crowd of rough boys who hang
about that locality and ring door bells,
etc. The other evening a window in
a house owned by a Mrs. Secord was
broken by a stone thrown by one of
the boys.

During the week six marriages have
been recorded. There were fifteen
births, eight of the infants being fe-
males.

Many People Forget to Put the Addresses
On or to Pay Postage.

LONDON, Sept. 1.—The annual report
of the Postmaster-General shows that
absent-mindedness is a common fault
of humanity. The report shows that
there were altogether just 4,599 letters
posted last year without any address
whatsoever, and their contents included
nearly \$50,000 in various forms of re-
spondence. Perhaps even more amazing
than sheer forgetfulness of this kind is
the carelessness of people who have
actually taken the trouble to register
their letters and have then posted them
with an insufficient address. There were
220,000 cases of this sort last year, and
the amount of money involved was
\$3,350,000. The number of insufficiently-
addressed letters with valuable con-
tents showed an increase of 4,000 on the
previous year, and the value of the
property thus entrusted to the mercy
of the postoffice by the careless public in-
creased by no less than \$165,000.

The volume report that a stone retain-
ing wall on Prince William street is in
a dangerous condition.

A FURTHER INSPECTION MADE OF MILK FARMS.

Many Deaths From Infectious Diseases
Have Taken Place This Summer.

The number of deaths from infectious
diseases for the past three months has
been especially large. Of the different
diseases diphtheria seems to have been
most prevalent. In June the number of
deaths from infectious diseases was
thirty-two. Of these seventeen were
caused by diphtheria, eleven from ty-
phoid fever, and four from scarlet
fever. During July the death list was
increased to thirty-nine. The number
of deaths from typhoid dropped to
eight, and scarlet fever only had three
deaths to its list. During the month of
August the number of deaths has not
been nearly so large as in the previous
two months. Diphtheria, however, in
this month has sixteen deaths to its
credit, while typhoid fever only has
three, and the measles one.

The board of health have this year
made a most thorough inspection of
the city and in some cases have found
conditions around houses very bad. One
hundred and thirty-one persons have
been reported to the police for not hav-
ing their premises as ordered by the
officers of the board. During the past
week two of the secretaries of the board
has visited a number of the Kings
county milk farms. His report will be
submitted to the directors in a few
days. It is understood, however, that it
contains nothing of an important na-
ture.

WANT CAPT. WALSH FOR MONTREAL HARBOUR BOARD

Shipping Men Send a Delegation to Ottawa
Pointing Out That He Would
Fit the Bill.

Representatives of the shipping in-
terests of Montreal have been urg-
ing the appointment of Commodore J.
T. Walsh, superintendent of the Cana-
dian Pacific Atlantic service, to the
honorary position of Hon. Commissioner
of the exhibition.

Superintendent Leonard, who has
so successfully carried on the work of
housing the visitors during past years,
is again in charge of the Lodging
Bureau, where a complete list of

BRITISH LABOR ABOUT TO CONFER.

Trades' Union Congress to
Meet in Liverpool on
September 3rd.

House of Lords to be Scored—Novel
Subjects to be Considered During
Session.

LIVERPOOL, Aug. 31.—Representa-
tives of the organized labor of Great
Britain will assemble here September
3rd for the 32nd annual trades union
congress, and will continue in session
for five days. The wonderful success
of the candidatures of organized labor at
the national elections, and the number
of problems for which solution must
be sought along political lines, that are
to come before the congress, give spe-
cial importance to the session. The ad-
vance programme contains 27 sections,
and the subjects run from the deeply
serious to the highly novel. A proposal
interesting to Americans favors "the
passage in Great Britain of a home-
stead Act, such as exists in the United
States, exempting a reasonable amount
of household goods from seizure. The
dockers will protest against the pas-
sage of "theological Acts in the place
of educational measures," and the gas
workers will seek the passage of res-
olutions covering the following seven
proposals:

1. "The State maintenance of school
children.
2. "Scientific physical education,
with medical inspection and records
of the physical development of all
children attending the State schools;
and skilled medical attendance for all
children requiring same.
3. "The complete dissolution of
reformatories 1 and 2 from Poor Law ad-
ministration.
4. "A national system of education,
under full popular control, free and
secular from the primary school to the
university.
5. "That secondary and technical
education be an essential part of every
child's education.
6. "That the best intellectual and
technical training be provided for the
teachers of the children of the people.
7. "That the best of education shall
be met by grants from the Imperial
exchequer, and by the restoration of
misappropriated educational endow-
ments.

It is believed that the resolution de-
claring for the secularization of the
schools will be carried by a heavy
majority.

There will be resolutions against
militarism, and welcoming interna-
tional arbitration, and favoring universal
old age pensions to both sexes at
the age of 60 years, and he said
that the rate of at least five shillings per
week.

There will also be action on the
amendment of the Aliens Act in the
House of Lords, and that august body
will probably be roundly scored. It is
also expected that the Russian resolu-
tion will be considered, and that the
congress will put itself on record in
favor of responsible government in the
disturbed empire.

DUCK SHOOTING BEGINS TODAY.

Two Weeks More Before Big
Game May Be Sought.

Moose and Deer Are Very Plentiful but
Partridges are Said to
be Scarce.

Today the season for duck shooting
opens and many of the local sportsmen
are planning trips to the upper waters
of the St. John river and its tribu-
taries. This year the ducks are reported
as being very plentiful, especially on
the meadows along the river and Grand
Lake.

The big game and partridge season
opens on September 15th. This time is
being anxiously awaited by many of
the local sportsmen as well as a large
number of Americans who will come
to the province. Reports received from
the different localities of the province
by the government officers are to the
effect that moose and deer are more
plentiful than ever. The game wardens
nearly all report that never have the
animals been so numerous.

A large number of American sports-
men have written for information,
stating that it is their intention to visit
the province this fall.

The prospects for the partridge sea-
son do not seem to be any too good
this year, as these birds are reported
as being very scarce throughout the
province.

ANOTHER POSITION.
Miss Martina Hartnett, of West End,
has secured the position of stenog-
rapher for the Bradstreet Co., Portland,
Me., through letters of introduction
from the employment bureau of the
Currie Business Agency, Ltd.

THIS EVENING.
Musicals in Opera House.
Opening ceremonies of exhibition at
amusement hall.

Large watermelons only 3c. each at
Barker's, Princess and Brussels street
stores.

TRYING TO BREAK THE RECORD FROM LIVERPOOL TO YOKOHAMA

WANTS SMALL TO TRY ONE
OF THE EASTERN LEAGUES

Joe Page Hears That Kid McEachern is
Doing Well—Can Place Some
More Men.

Joe Page, the veteran Canadian base
ball authority and manager, has re-
ceived papers among that Don Mc-
Eachern, of this city, or as he is known
in the States "Kid" McEachern, is
continuing to pitch great ball. In
game early this week the opposing
team got five hits and four runs off
him in the first inning. He then set-
tled down and for the remaining
eight innings was only found for three
safe hits, and did not allow another
man to score. His team won out. Mr.
Page is desirous of having McEachern
play in a few Eastern league games
before he comes home, and wants to
have Small take a week's vacation
with one of the strong Upper Cana-
dian teams. He is always on the alert
for fast youngsters and has placed a
large number on the road to success
with good teams and high salaries. It
was through Mr. Page's engineering
that McEachern and Alert White are
making a success on the diamond.

AN EARLY MORNING FIRE ON THE NEPTUNE.

Roof of the Deckhouse and a Box of Life
Belts Were Destroyed.

At 4:45 o'clock this morning Herbert
Green, night watchman on the "Do-
minion Coal Company's premises, no-
ticed flames issuing from the roof of
the tug Neptune's deck house at
Tumbull's wharf. He ran quickly and
gave the alarm from box 4 on Market
Square, and also awakened two mem-
bers of the tug's crew who were sleep-
ing on board. The fire department
were soon on the scene and had the
fire out in about half an hour. The
fire caught near the boiler and be-
sides destroying a section of the deck
house it burned a number of cork life
belts which were in a box on top of
the house.

The damage is fully covered by in-
surance and will not prevent the tug
from performing her duties about the
harbor. The tug is owned by Wm.
Thompson & Co. and others.

THE ROBISON OPERA COMPANY NEXT WEEK

Mae Kilcayne, an Old St. John Fairytale
Will Be Seen Here.

According to all reports the Robison
Opera Company who play here next
week are a particularly strong organi-
zation. Harry Durham, the leading
comedian, has been a great favorite in
the largest cities for many years, and
last season his playing of the chief
part in the big Metropolitan success,
"Miss Bob White" was most
favorably commended. Miss Mae Kil-
cayne was a great favorite here four
years ago, and since then her improve-
ment as an artist has been phenom-
enal. Last season she was featured in the
Broadway success, "Simple Simon Sim-
ple" and the "Dramatic Mirror," Amer-
ica's leading and most reliable theatri-
cal journal said that her singing was
the best heard in musical comedy on
Broadway for many years. It is hard-
ly necessary to recommend the splen-
did baritone, Frank D. Nelson, to St.
John theatre goers, but it may be said
that he is now better than ever. Last
season Henry W. Savage featured him
in "Woodland," the biggest musical
production ever staged in America, and
in a company of two hundred and fifty
he was the biggest favorite. Alice Flieg
is another of the Savage forces who is
with the Robison Opera Co. She sang
for three seasons in Mr. Savage's grand
opera company, and her voice, one of
marvellous range and sweetness, is her
fortune and will be a delight to our
theatre goers. Rudolph Koch, the tenor
singer, will only have to be heard to
be appreciated, and the other prin-
cipals, Esme Barton, Harry Ebert, Frank
V. French and Harry Nelson, will give
a good account of themselves. Stage
Director French and Musical Director
Friedrich have been busy rehearsing the
company for the past three weeks, and
are getting great results from their
work. The management is to be con-
gratulated in getting together so many
talented people and the Opera House
will without doubt be one of the best
places to contribute to the pleasure of
Exhibition week.

Mr. Rudolph Koch, the tenor with
Robinson Opera Co., who play here
next week, was, during the past two
seasons a leading artist in Conradi's
Grand Opera Co. He possesses a beau-
tiful voice of marvellous range and his
singing in the different operas to be
presented here by the talented com-
pany of which he is now a member will
be a great treat to theatre goers. He
rejoins Conradi's company in a few
weeks so that this will probably be the
last opportunity of hearing him in St.
John.

Peter Larsen got drunk and was en-
joying a sleep with the dead in the old
burying ground yesterday when he was
arrested. This morning he was remanded
to jail.

Udevilla Campbell arrested a deposit
of \$4, having been offered on a warrant
for abusive language.

Two boys Thompson and Lawler,
were in court reported by a Mr. Smith
of Lombard street for disorderly con-
duct. They were given a severe reprimand by the magistrate and allowed to
go on their parents' arrangement for their
fines.

WANTED.—A capable girl. Apply
Mrs. McLaren, 5 Padlock street.

MARRIAGES.
WILSON-OWENS.—In this city on
August the 20th, at the residence of
Mrs. Thomas Owens, 71 Hildyard
street, St. John, N. B., William Mc-
Agnes Owens, by the Rev. Mr. Mc-
Laughlin.

DEATHS.
RAYMOND.—Suddenly in this city on
the 31st inst. Annie Elvored wife of
William E. Raymond, in the 33rd
year of her age.

Funeral from the residence of Mr.
William E. Raymond, 31 Dorchester
street, to Trinity church at 2:30 on
Monday, Sept. 3rd.

WEATHER.
Fair and Cool.

C. P. R.'s New Flyer, the
Overseas Mail is Now
Speeding Westward From
Quebec—Hope to Make the
Entire Trip in Twenty
Nine Days.

CHALK RIVER, Ont., Aug. 11.—
When the conductor at nine o'clock
(sharp) this morning at Quebec shouted
"all aboard for Hong Kong and in-
tervening points," he gave the cry of
an historic epic. Twenty years ago
the first transatlantic train of the
C. P. R. made history for Canada. The
train today "Overseas Mail," which
beats the record of two decades ago of
two and one-quarter days, adds another
page to the history of the Dominion.
The prediction of twenty years ago
that the Canadian Pacific would make
for a united Canada as well as for the
greater unity of the empire has been
amply fulfilled; the railway with 12,000
miles of line is now, in more ways than
one, the backbone of the Dominion.
It has ships on both oceans, the other
day one carried the Canadian flag
around the world. Its telegraph lines
span this continent and do business
with Europe, Asia, Africa and Aus-
tralia. It conveys British troops from
England across North America to India
and China. It has done more than any
other single agency to develop the
Canadian Northwest which is supply-
ing Britain with bread and her super-
abundant population with comfortable
homes. Its great financial success has
improved the public credit of Canada,
its energies made her a powerful young
nation, where before she was a mere
collection of provinces without a com-
mon aim or a common patriotism. All
this and more has been accomplished
by the C. P. R. in a quarter of a cen-
tury, which in the life of the com-
munity is but as the twinkling of an
eye. In the great future that lies be-
fore us and in the great consolidation
of the empire upon which the mind of
the English race is set, the Canadian
Pacific is destined to play a still more
conspicuous part. Its latest achieve-
ment in the direction of binding Eng-
land to her overseas possessions more
closely together is the transportation of
the China mail from Liverpool by one
of the new Canadian Pacific steamships
to Quebec, thence by a special train
across Canada to Vancouver and from
there by another C. P. R. steamship to
Hong Kong, the total distance of 12,000
miles to be traversed in thirty days,
ten days less than the time consumed
by the Suez route. No other route in
the world, steam or rail, or both
combined, is capable of undertaking
still less of performing such a feat by
its own unassisted efforts. Nothing like
it has ever been done before simply be-
cause there has never, till now, been an
organization of the resources and all-
embracing capabilities on land and sea
of the C. P. R.

The Empress of Ireland arrived at
Quebec this morning at 2:10 o'clock,
making a record trip across the Atlan-
tic of 6 days 7 hrs. 50 min., and on
schedule time the Overseas Mail left at
nine o'clock reaching this point sharp
on time at 8:15. There was no attempt
at speeding the magnificent train but
merely an effort to make the time
which would connect with the Pacific
steamer Empress of China, which would
land the mails in Yokohama in twenty-
two days and in Hong Kong in twenty-
nine days from London, nearly a
week less than has previously been
done by any route. While there were a
large number of passengers destined
for the Orient the great majority pre-
ferred lingering in Canada and so while
the idea of landing the mails from Euro-
pe on the Orient in record time is being
more than satisfactorily maintained.
The Empress of Ireland brought over
1,427 passengers, a great majority of
whom went to western Canada by the
Empress special, which left Quebec
within an hour of the Empress' arrival.

POLICE COURT.

Peter Larsen got drunk and was en-
joying a sleep with the dead in the old
burying ground yesterday when he was
arrested. This morning he was remanded
to jail.

Udevilla Campbell arrested a deposit
of \$4, having been offered on a warrant
for abusive language.

Two boys Thompson and Lawler,
were in court reported by a Mr. Smith
of Lombard street for disorderly con-
duct. They were given a severe reprimand by the magistrate and allowed to
go on their parents' arrangement for their
fines.

POOR DOCUMENT

NO 2 3 4

ST. JOHN STAR, SATURDAY, SEPTEMBER 1, 1906

JOHN KERRIGAN FINED \$50; HIS BROTHER DISCHARGED

The Defendants Swore that the Christopher Brothers Insulted Them, But Admitted Throwing a Piece of Iron—Trial Developed Some Lively Repartee Between Opposing Counsel—Mr. Mullin's Idea of Professional Etiquette Rudely Shocked.

The case against the Kerrigan brothers was disposed of in the county court yesterday. Capt. John Kerrigan was found guilty of common assault and fined \$50. His brother James was acquitted. The trial was begun yesterday afternoon and was concluded at 11 o'clock last evening. The defendants having satisfactorily explained their previous non-appearance.

On motion by H. A. McKeown the case was taken up and the following jury empanelled and sworn in: Michael J. Nugent, Geo. H. Perry, Samuel J. Walters, R. T. Cole, Michael J. Cullinan, Edward J. Harrison, John Rhea, Thos. Graham, J. MacMurray Reid, Francis Hickey, A. D. Branscombe and C. E. Witter.

Jacob Christopher was the first witness called by the prosecution. He stated that Capt. John Kerrigan threw a heavy belaying pin at him which struck the boat making a hole in it. The pin split one plank and started another out of place.

Cross examined by Mr. Mullin, witness said he was positive neither he nor his brother used any abusive language to the Kerrigans. The Kerrigans had come to witness after the preliminary examination and asked if a settlement could not be effected. A week later witness was standing on Union street and defendants coming along he asked them if they would speak to Mr. Mullin to settle the suit with Mr. Baxter. The idea came partly from himself and partly from Mr. Baxter.

Mr. Mullin thought that it was an unheard of thing for a lawyer to suggest a settlement after a case had been once set down for trial.

"Have you not heard of such things being done?" asked Judge Forbes.

"I have never heard of a reputable lawyer suggesting such a thing," said Mr. Mullin. "I am surprised at Mr. Baxter."

Percy Christopher, the next witness, gave about the same evidence as to the circumstances with the exception of the conversation, which witness stated he heard only in part.

"By asking for it, sir," promptly came the response.

When asked about the talk of settlement witness said John Kerrigan wanted the matter wound up and something about lawyers setting up all the money. Witness referred Mr. Mullin to Mr. Baxter as to the right of settling the case, adding, "I am not here to be made a fool of."

When informed by Mr. Mullin he was not trying to make a fool of him, witness smiled and said, "No, but you are trying to."

Sergeant Ross was the last witness called for the prosecution. Mr. Mullin objected to him giving his evidence, as the witness knew nothing that would

be relevant to the case, and the test is, is it relevant?

"I never heard of such a test," said Mr. McKeown.

"You have much to learn," retorted Mr. Mullin.

Sergeant Ross then told of going with Christopher to the schooner Comrade, where Jacob fitted the belaying pin in several of the holes in the rail.

Jacob Christopher recalled, corroborated the evidence and stated that John Kerrigan was the first witness called for the defense. He said he saw John Kerrigan pick a piece of iron and throw it at the boat. James Kerrigan did not throw anything.

Court then adjourned until 3 o'clock. John Kerrigan was the first witness called at the evening session. He said that on the day in question, Jacob Christopher called him an insulting name. He could not remember any of the conversation, but admitted throwing a piece of iron, but not the one in question. The Christopher brothers were afraid of being run down.

James Kerrigan, the last witness for the defense, told about the same story as his brother.

He stated that his brother John, to Mr. Baxter's office, offered Jacob Christopher \$25 to settle. Christopher offered to take the \$25 if they would pay Mr. Baxter's fee. They refused. Mr. Baxter told witness if they settled and anything further happened the best thing they could do would be to skip out.

J. B. M. Baxter called in rebuttal, saying that the two defendants came to his office without any request from him. John Kerrigan did the most talking. He asked witness if the case could not be settled, as he wanted to keep out of court. Kerrigan told witness that Jacob Christopher was willing to have the case settled. Witness told them it might be fixed up, but it could have to do with money. Also John to learn. Work given out to see at home. L. COHEN, 14 Catherine street, 25-4-4.

N. S. FREE BAPTIST CONFERENCE APPOINTS COMMITTEE ON UNION

YARMOUTH, N. S., Aug. 31.—The Nova Scotia Free Baptist general conference pursued business at 10. An executive was appointed and given full power to act in all matters relating to union after the adjournment of the conference. Rev. G. M. Wilson, corresponding secretary, reported 31 baptisms, 23 otherwise received, 33 dismissed, 40 died, net gain 32. Rev. Wm. Knoll, the oldest minister in the conference, was present throughout, and in moving the adoption of this report referred to the advantages union would be to the younger men. He is in his eightieth year, and has been in Nova Scotia in active work 33 years. Mrs. G. M. Wilson, secretary of the N. S. M. society, reported 13 active societies, \$215.36 was raised during the year. The Banner, the organ of the Nova Scotia Free Baptists, by vote is to be discontinued at the end of the year. The ledger will about balance when the books are closed.

Rev. J. E. Gossline reported on Sunday schools. There are 189 officers, 229 teachers, 2,331 scholars, 134 cradle rolls, 803 in home department, 1,400 in white ribbon army; \$800.39 raised during the year, \$132.72 for missions; 57 were baptized.

The evening service was of a missionary character, when addresses were delivered by speakers from various quarters.

PRISONERS SENT TO DORCHESTER

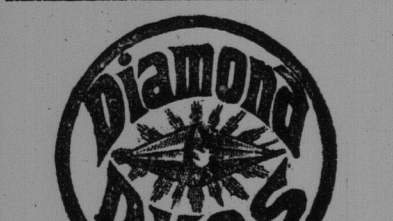

Four Men Got Heavy Sentences From Justice McGillivray of Amherst

AMHERST, N. S., Aug. 31.—The special session of the county court here this week was presided over by Justice McGillivray of Antigonish, N. S. this afternoon. Gordon Finning, charged with stealing from the home of Arthur Lasby, West Amherst, pleaded not guilty to two charges and was sentenced to four years in Dorchester for one offense and two and one years for the other two, the last two terms to run concurrently with the first.

Alex. Barrett, convicted of breaking and entering Calkin's drug store at Springfield, was sentenced to three years in the penitentiary.

W. M. Stevens, convicted of breaking into Nelson's store at Springfield and breaking jail, was sentenced to two for the first offense and one for the second. Thos. Brown of Springfield was sentenced to two years for breaking jail.

MONTREAL, Aug. 31.—In consequence of the appointment of Hon. J. C. McCormick, provincial treasurer, to the bench, Hon. Auguste Tessier becomes provincial treasurer, Hon. Jules Allard, minister of agriculture; Hon. W. A. Veit, minister of public works and labor. The rest of the ministers retain their portfolios.

TO LET—Furnished rooms at Tremont, suitable for light housekeeping, at very moderate rates. 25-4-4.

DRUNK 6,000 TIMES.

In a most interesting article entitled "Can We Keep Sober?" published in The American Magazine for September, the author says:

"While the average man cannot survive more than a thousand intoxications, steady drinkers of a certain powerful, massive type can get drunk as much as two thousand times before giving way. In an alcoholic career of ten or fifteen years they can put away about two thousand gallons of whiskey, or thirty-two barrels of pure spirits. But this is really the human limit. All records to date are held by a man of fifty, who admitted, while under treatment at Bellevue Hospital, New York, that he had been drunk daily for six months in the year since he was seventeen; a total of over six thousand intoxications."

HEALTHY NERVES.

A young man strode into a doctor's office and explained his symptoms after the manner of a millionaire. The doctor wrote two prescriptions, placed them in an envelope and handed them to him, with the injunction to have them filled at once. As he turned to go out the young man asked how much the medicine would cost.

"Oh, about two dollars," replied the doctor.

To his astonishment, the young man asked for a loan of that amount.

"Just let me have the envelope for a moment," said the doctor. Whereupon he took out one of the prescriptions and tore it into bits.

"Why, what did you do that for?" inquired the young man.

"That was for your nerves," the doctor answered, "and I see you need nothing for them."—September 1906.

LETTER SORTER GETS MINIMUM SENTENCE

MONTREAL, Aug. 31.—Pierre Champ, a letter sorter, who was caught in the act of stealing money from letters, changed his plea this afternoon to one of guilty. Judge Fitch immediately sentenced the youth to three years in the penitentiary, which is the minimum sentence.

UTAWA, Ont., Aug. 31.—MacKenzie King is leaving for England under instructions from Hon. Rodolphe Lemieux, minister of labor, to discuss with the British government the enactment of legislation to prevent laborers and artisans being sent to Canada under false representations and to act as strike breakers.

Visiting Philanthropist.—Good morning, madam. I am collecting for the Drunkard's Home.

Hay for Sale

A field of Hay at Crouville. Heavy crop. Apply to W. S. POTTS, Office—North Market Street. Phone 291.

Flooring and Sheathing, Kiln or Air-Dried.

We carry the largest stock and sell at prices that defy competition.

MURRAY & GREGORY LIMITED. ST. JOHN, N. B.

Manufacturers of everything in wood that enters into the construction of a house.

It is possible

for your STAR Want Ads. to be productive of more results by wording your advertisement properly. For instance, in renting rooms the answers will be better and more numerous if you tell the size, price, direction, locality, accessible car lines, etc., than if you merely give the street address. Tell the whole story, and readers will be interested. Think before you write. Word your ad. carefully.

FRESH MILK.

Our milk and cream is cooled as soon as milked, by patent coolers, so that the animal heat is driven out at once, thereby improving the keeping quality. We test all our milk and cream daily. Try some for whipping.

Sussex Milk & Cream Co., Phone 622. 158 Pond St.

Bargain in Kindling Wood.

The North End Fuel Company. Prospect Point will deliver kindling and heavy wood at \$1.00 per load. Send post card or call at MacNAMARA'S, 232 Charlotte St.

Don't be deceived
by Imitations of

Butter-
Nut
Bread.

It may be that
the reason why?

You do not appreciate B. R. like
others do is that his imitation has been
given you in place of the genuine
article. If not, B. R. give it a
good week's trial. Make sure you get
bread with name BUTTER-NUT
BREAD printed on every label and the
name ROBINSON stamped on every
loaf. We believe you then will agree
with the rest of the public that Butter-
Nut is the best bread on the market.

Notices—Those who are selling any
other bread as Butter-Nut should re-
member that they are liable to prosecution.
Butter-Nut Bread is registered
under Canadian Patent. Laws, Trade
Mark Register No. 40, 7000 992.

ST. JOHN, N. B. SEPT. 1, 1902.

DR. HANNAH'S OPINION.

Dr. Ian C. Hannah, ex-president of
Kings College, has during a course of
lectures, at Cambridge, been telling the
students that within a generation
eastern Canada will be French again,
with English communities only in the
towns. He describes as a paradox of
history that the French race, conquered
in Canada, by remaining in the country,
by raising large families and by ex-
tending their frontiers beyond the pre-
sented, will make their influence again predominant.

If the value of this opinion is to be
measured by Dr. Hannah's length of
residence in Canada and by the oppor-
tunities afforded him for studying
conditions here, those of us who do not
happen to be of French descent need
feel but little alarm at the peril which
the future has in store. It is true that
the descendants of the French settlers
are increasing in numbers, but Dr.
Hannah forgets that these are not
French people but French-Canadians,
with the accent on the second word,
and that this makes a very great dif-
ference. He also fails to recognize the
fact that the influence of the British
born inhabitants on those of French
descent is strong, that more French-
speaking people are learning English
than there are English learning French,
and most important of all Dr. Hannah
fails to grasp the idea that the in-
habitants of this land take a pride in
their Canadian citizenship, and not in
the fact that they are English, or French,
or Dutch descent. It is true that Que-
bec's population is rapidly increasing,
true that the other eastern provinces
are almost at a standstill, but this will
make no difference in thirty years
when, instead of being English or
French, the people of this part of the
Dominion will have altogether forgotten
their fast fading racial distinctions and
will be purely Canadians.

INDIGNANT CUSTOMER.

The following letter from a very
much incensed young man who has
probably purchased one of the \$3.95 var-
iety of separators, appeared in the New
York Herald.

Dere Sir,—Yure blasted separator
has gone bung again, it went alright
for a couple of days after yure man
fixt it, then it started wobbling agen.
When we try to get up apede the
kurned bole starts wobbling and gump-
ing like a buck rabbit, nooks the plates
of what are you going to do about it.
I have to kart me mink 2 miles long
these rotten roads to Murphy's for to
separate. Moreover have lost a hell of
milk tryin to separate with yure kurnt
separator. I don't want to be disreputable
but if you won't fix it
we'll dam rattling fawd kook and
it'll be wurs for you. Ted Don-
nan.

TRANSCONTINENTAL TRAINS.

Fifteen years ago, one train a day
from Montreal to Vancouver was a long
proposition. The increase in trans-
continental traffic can be judged by the
extra accommodation which the C. P. R.
has found it necessary to provide. Some
six years ago during the summer
months the daily train had to be
run in two sections, and occasionally
a special was sent out. Later the
Imperial Limited was established, but
business has increased at such a rate
that even with these two trains daily,
in two sections each, the passengers
can scarcely find comfort. It has now
become advisable to put on another
train to run twice a week, and the
first ones started from Quebec yester-
day morning. Thus within a very
few years traffic has so increased that
practically thirty through trains each
week leave Montreal. The C. P. R. has
another object in view in instituting the
"Overseas mail train" and this is to
demonstrate how quickly the British
mails may be carried to the Far East.

Arguments have been put forward in
favor of the Canadian route and an at-
tempt will now be made to show that
the run from Liverpool to Hong Kong
can be accomplished in thirty days.
The British authorities have been asked
to consider the Canadian route for the
main service, and have apparently
concluded to the conclusion that it has no
chance. From Britain to Australia via
Canada, they claim, cannot be covered
in less than thirty-three days and Pacific
oceans would not effect sufficient im-
provement to warrant a change from
the present service. The C. P. R. will,
however, endeavor to prove the con-
trary.

THE BOSTON SERVICE.

Dr. W. S. Ferguson, of the Leland
Stanford University, who is now on a
visit to F. E. Island, has travelled ex-
tensively. In a letter to the Charlotte
town Guardian Dr. Ferguson makes
some remarks about the train service
from Boston to St. John. He says:
"Prince Edward Island will never
appeal to the profitable class of Amer-
ican tourists so long as it is reached
with so much discomfort. The pull-
man leaving Boston is filled to the roof
before it is let go. A second is not put
on it if it can be avoided. Not long since
one was refused although nine berths
and the drawing room were sold in ad-
vance. A pullman car with uppers and
ladders all taken and baggage piled knee
high in the aisles is not tempting to a
nervous, over-worked man who has
been forced by the rascally summer cli-
mate of New England to turn north-
wards for health or recreation. Ten
to one he goes no farther than the Pull-
man ticket office. Other routes, how-
ever, are likewise overcrowded, and he
may persevere. After a smothering
night he is turned out early in the
morning to take a hurried breakfast,
and a meal snafu for a healthy man,
but not much for a fastidious
Bostonian. An hour and a half later
he is routed out again—this time for
good, and has to scurry round the tur-
bulent depot at St. John to find the
Pullman of the I. C. R. train. When to
all this is added the ordeal of a cus-
toms examination, the reason becomes
apparent why a Boston man with
money to spend and a lively curiosity
about the cool, green island away off
in the Gulf, wishes he had never heard
of it, and tells his friends to avoid it
like righteous living."

AFRAID OF EMPEROR WILLIAM

Great Britain Doomed Unless She Adopts
Chamberlainism.

LONDON, Aug. 31.—Col. John Lam-
bert, a Chicago capitalist, who has just
returned to London from a tour of the
continent, in an interview published in
the Daily Mail this morning, expresses
the belief that unless Great Britain
adopts Chamberlainism, she must go
down in business. Col. Lambert said
that both France and Germany are more
prosperous than Great Britain, and
especially Germany, owing to Empe-
ror William's surpassing gift as a ruler.
The emperor, he said, had put Ger-
many in the way of becoming the rich-
est nation in Europe, had perfected the
finest army on the continent, and was
laying the foundation of one of the
greatest fleets afloat. His consular ser-
vice, Col. Lambert said, was an un-
matched triumph, and behind it, sub-
sidized railways and steamships,
methodically fostered trusts, and a
tariff like a Chinese wall. "If we are
not careful," Colonel Lambert added,
"we will lick us out of our boots all
over the world."

JUST FOR A CHANGE.
John Kendrick Bangs in "The Lighter
Vein" in the August Century.

I'm sort of tired of things that is.
There's lackin' something as to us.
There ain't no ginger in life's jar
With things a-going as they are.
The fault may be with me, and then,
I ain't a-trying to fix no blame
Because all tastes about the same.

How'er it is, I wish it might
Have things turned round a bit some
night.

So that instead of as they be,
They'd work towards the contrary.
I'd like to see some mountain hill
Have spunk enough to flow up hill,
So that old Nature might be shown
It had opinions of its own.

I'd like to see the settin' sun
Out in the east when day is done,
Just as a hint when givin' to bed,
To prove it wasn't bioged.

I'd like to hear a bullfrog sing
Like nightingales upon the wing,
Instead of that eternal "clunk"
With which he sneaks his swampy
dunk.

A cat that barks, a dog that meows,
And when he comes to milkin' eyes,
"Twould cheer me up to get a pail
Of lemonade or ginger ale;
And if the bucket in the well
Would give up water for a spell,
And bring me up some fresh root
beer.

There'd be no kick a-comin' here,
'Taint discontent that's vexin' me
With life so everlastin'.

But just a sort of parchin' thirst
To get a peek at things reversed.
They've been the same, so very long
A change would strike me pretty
strong.

And, though I'm makin' no complaint,
For once I'd like 'em as they ain't.

HARD LUCK.

"You've got a little brother," said
the nurse at breakfast. "He was born
last night."

"Huh!" exclaimed Tommy. "And last
night was Sunday! Poor kid! His
birthday won't do him much good.
Sunday's a holiday anyhow."

HOW SHE DRESSED

"Ladies and gentlemen," said the
manager of the amateur entertain-
ment, "I ought to explain that Miss
Curly, of Boston, who has volunteered
to assist in this concert, because of
some delay in the baggage service has
not received the dress she intended to
wear. She has, however, kindly agreed
this evening without her dress. 'No!
not ladies and gentlemen,' he added,
blushing furiously. "When a roar of
laughter showed that his remarks
were wittily misinterpreted, 'I didn't
mean just what I said; I meant that
Miss Curly will appear with what she
has on!'"

LOTS TO DO.

The fashionable girl had accepted
him and the young man was wonder-
ing how far his \$20 a week would go.
"You must remember that life is not
all golf and tennis," murmured he.

"Why, of course it isn't," she re-
sponded brightly. "There's boating
and coaching and bridge and ever so
many things."

A Midsummer
Query.

Do you feel fit and up to the
mark? If not there must be a
reason why. Probably, owing to the
depressing effects of the warm
weather, you are not taking the
usual quantity of nourishing food,
although the system requires quite
as much nourishment in hot
weather as in cold. To overcome
the difficulty you should use a con-
centrated, palatable and easily di-
gested food. This description fits

FERROL

to a nicety.
When the system is run down,
appetite failing, weight decreasing
and nerve tone depressed, there is
nothing like FERROL to restore nor-
mal and healthy conditions. Un-
like other concentrated preparations
as well as at any other season; it
never causes nausea or other gastric
disturbances.

FERROL is not a patent mystery. The formula
is freely published. It is prescribed by the best
Physicians. It is endorsed by the most eminent
Medical Journals. It is used in prominent Hos-
pitals, Sanatoriums, etc.

SYNOPSIS OF CANADIAN NORTH-WEST
HOMESTEAD REGULATIONS.

Any even numbered section of Dom-
inion Lands in Manitoba, Saskatchewan
and Alberta, excepting 3 and 35,
not reserved, may be homesteaded by
any person who is the sole head of a
family, or any male over 18 years of
age, to the extent of one-quarter sec-
tion of 160 acres, more or less.

Entry must be made personally at
the local land office for the district in
which the land is situated.

The homesteader is required to per-
form the conditions connected there-
with under one of the following plans:

(1) At least six months' residence
upon and cultivation of the land in
each year for three years.

(2) If the father is deceased or if the
father is incapable of performing the
conditions, the homesteader may
reside upon a farm in the vicinity of
the land, and the requirements as to
residence may be satisfied by such
person residing with the father or
mother.

(3) If the settler has his permanent
residence upon farming land owned by
himself, the requirements as to residence
may be satisfied by residence upon the said
land.

Six months' notice in writing should
be given to the Commissioner of Dom-
inion Lands as to selecting a section of
this advertisement will not be paid for,
continue to the 27th.

W. W. CORY,
Deputy of the Minister of the Interior,
N. B.—Unauthorized publication of
this advertisement will not be paid for,
continue to the 27th.

and without doubt, the best value in the city.</

ST. JOHN STAR, SATURDAY, SEPTEMBER 1, 1906.

LIBERALS AND LABORITES HAVE SERIOUS DIFFERENCES

Britain's Premier Disappointed
at the Way Things are
Going — Disputes Over
Different Matters.

LONDON, Sept. 1.—The most important political event of the past few months is the split between the Liberals and the Laborites. The Independent Labor party's quarrel with the government has assumed a new phase by the determined efforts which the labor representation committee is now making to capture the members of the Miners' Federation, who have hitherto been characterized by their sturdy independence.

The Miners' leaders are intensely opposed to affiliation to the Labor Representation Committee. They declare that body was founded by Socialists, is controlled by a Socialistic majority on its executive committee, and is working insidiously toward Socialism. The Cockermouth election, a three-cornered fight resulting in the triumph of the Unionist, has greatly accentuated all difficulties.

This great split was practically officially announced by the Under-Secretary for the Colonies, who, although he occupied a minor position in the government, speaks in public with the authority of a Minister of the Crown. He declared in a speech at Wimbome that no great party would put up with such treatment as the Liberals had received from the Labor party, resulting in the defeat of the Liberal candidate at Cockermouth in a three-cornered fight.

"We cannot forget that every member of the Socialist party was returned by thousands of Liberal votes," he said. "If some of these gentlemen go about handing over Liberal fortresses to our Tory opponents, they cannot complain if Liberal electors in their own constituencies look about for representatives of their own political view."

When the Labor Representation Committee was formed it came to an agreement with the Liberal party

PRUSSIAN SOLDIERS SHOW GREAT IGNORANCE.

Experts, Making Examination, Find That
Many Are Mentally Defective.

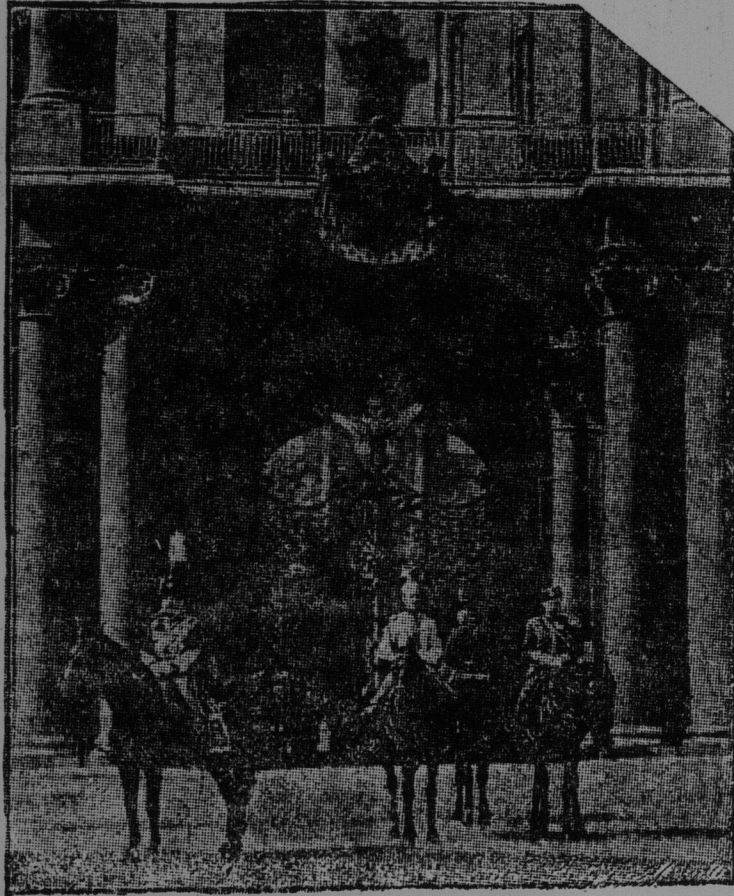

BERLIN, Sept. 1.—The Prussian minister of war has been engaged for some time in considering the question of the inadvisability of obliging young men who are either lacking in average intelligence or weak-minded to serve in the army. A commission of army medical experts are now testing the intelligence of Prussian soldiers in various parts of the kingdom, with the object of gathering data. Some experiments made with recruits from Pomerania show the most extraordinary results. Questions which an ordinary child of twelve could answer were powers for dozens of these young men. Out of 100 men collected at a venture, nineteen did not know the color of a ten-penny stamp, and seventy-five out of 200 said the color of the five-penny stamp was blue, whereas it is green. Out of 200 only 164 could say what was the opposite of courage.

AUSTRALIA DECIDES AGAINST DECIMAL COINAGE

SYDNEY, Sept. 1.—After thirty months' negotiations, the commonwealth's proposal to establish a decimal coinage in Australia has been overruled by the imperial government, which, while willing to allow Australia credit on silver coins used in Australia, objects to the existence of a separate currency of different denominations in the commonwealth as calculated further to break the uniformity of the empire's currency.

The Australian proposal was that the decimal coins should gradually replace the present currency, the two systems

HOW EMPEROR NICHOLAS IS GUARDED FROM ANARCHISTS.

ST. PETERSBURG, Aug. 31.—The activity of the revolutionists all over Russia has made it imperative to take unusual precautions to safeguard the person of the czar, and the photo shows

a typical guard of one of the palace gates. Soldiers, or rather Cossacks, who are the only troops to be relied upon, guard every door inside the palace, and a strong guard is posted around the czar's private apartment.

wire-pullers that its candidates should not be opposed by official Liberals if the local circumstances permitted. The arrangement worked excellently to all appearances, and thirty of the Labor Representation Committee candidates were returned at the general election, as well as twenty other labor members who fought with the help of the official Liberal party.

As soon as Parliament sat the inevitable quarrel broke out. Sir Henry Campbell-Bannerman expected the allegiance of the Socialists. He was sadly disappointed. Mr. Kier Hardie soon showed that the aspirations of the Premier would receive very short shrift at his hands.

The first quarrel arose as early as the first week in March, when the Labor members assailed the Postmaster-General over the appointment of a committee, and carried their protest to the length of voting against the government in a division. The government then capitulated, and gave way to the labor members. Constant blockings and attacks on the government by Mr. Kier Hardie and his followers followed.

Early in May the quarrel broke out again, when over the appointment of another committee. Mr. Kier Hardie and Mr. Will Crooks led another attack on the government, and incidentally repudiated the twenty Liberal Labor members, and declared that they alone were entitled to speak for the working classes. On this occasion the government was again forced to divide against the Socialists.

A GROWING FEELING AGAINST KING PETER

Serbian Government Fears a Military
Revolt—A New Militia System
Contemplated.

BELGRADE, Sept. 1.—There are many indications that the situation in Serbia, temporarily relieved by the dismissal of the regicide officers, is once more being regarded by King Peter's government with considerable anxiety.

The increasing restlessness in the army is the most disquieting circumstance that has to be faced. Since the terrible tragedy of three years ago there has been an incessant ferment in its ranks against the present dynasty, and the agitation is now markedly growing, gaining daily fresh adherents amongst the officers and cadets.

It is, therefore, not surprising that the government fears a military revolt, and is taking steps to counteract the spread of the anti-dynastic propaganda. The introduction of a militia system is in contemplation, and meanwhile it is announced that all non-commissioned officers who have served ten years are to receive their discharges.

PRES. FALLIERES IS NOT AFRAID OF THOSE WHO WOULD ATTEMPT TO ASSASSINATE HIM.

PARIS, Aug. 31.—Latest snapshot of President Fallieres, of France, who though he is well aware that anar-

chists are plotting against his life, absolutely refuse to be followed by secret service men. He is here shown walking with M. Copellin, the famous

French actor, whom he visited at the Maison des Comedians, where he witnessed an open-air performance arranged in his honor.

LUNATICS TRIED TO
HAUL DOWN A BALLOON

Aeronauts Attempting to Alight Got Into
An Asylum Field and Had Their
Own Troubles.

MILAN, Sept. 1.—A couple of aeronauts had a queer adventure while passing over Giandola the other day. At sight of the airship the lunatics sent up a shout and one of them seized the trail rope and slung on. Others joined him and then tried to haul down the aeronauts.

The balloonists, fearing mischief, began to pull them with ballast to make them release their hold, but the lunatics appeared to enjoy the proceedings as a great joke, and continued hauling. The upshot they made finally attracted the keepers, who ran to the assistance of the aeronauts, and knocking over several of the more stubborn patients, released their hold of the rope. The balloon then shot away, carrying from the ground one lunatic who had become entangled. He fell several yards on another inmate, but neither appeared to be much the worse for the encounter.

JOCKEY ATTACKED
BY A RACEHORSE

LONDON, Sept. 1.—Otto Madden, the famous jockey, who a few years ago won the Derby on the 100 to 1 chance Jedah, was violently "savaged" by a horse at Brighton races the other day.

He was riding Centre down to the post for the Worthing Plate when a horse called Marigold IV. overtook him, dragged him out of the saddle by the shoulder, and seizing him by the throat shook him as a terrier shakes a rat. The jockey of Marigold IV, who had himself been unseated, used his whip freely on the brute's head to make him release Madden, and other jockeys coming to his assistance, Marigold IV. was eventually beaten off.

Madden returned to the paddock bleeding from a wound on the throat. This was stitched up, but he will be incapacitated from riding for a few days.

ANTI-FOREIGN FEELING ABOUNDS IN CENTRAL CHINA

DOG BRINGS TO JUSTICE HIS MASTER'S MURDERER

Showed Where the Body Was Hidden and
Then Located the Criminal.

VALENCIA, Sept. 1.—The sagacity of a dog has brought to justice a man now awaiting execution for murder in Valencia gaol. The owner of the dog was killed in a sudden quarrel, and his body was secretly buried by the murderer and his confederates. The dog witnessed the crime and the burial, and succeeded, in escaping from the criminals.

The animal returned to its master's house, and by barking and running to the door induced the dead man's eldest son to follow. The dog made its way straight to the grave, and began scratching up the earth. The police were called and the body was unearthed.

The dog was still unsatisfied, and led the way, following a scent apparently, to a safe in the town, where it sprang at the throat of a man seated at a table. The man was arrested and confessed to the murder of the dog's owner.

WILL PAY A EOUNTY
ON BUTTERFLIES.

BELGRADE, Sept. 1.—Owing to the damage done to crops by butterflies, the Serbian Minister of the Interior offered 24, for every 500 captured. Although the amount appears small, the pursuit of butterflies is profitable, as already 21,000,000 of them have been tendered for reward. The Minister says it is cheap to get rid of these millions at a cost of \$2,000.

MUST WIDEN THE GREAT CANAL TO ACCOMMODATE THE NEW WARSHIPS.

BERLIN, Aug. 31.—Owing to the Kaiser's resolve to build a number of huge battleships, surpassing in size even the famous Dreadnaught of the British navy, it will be necessary to widen the Kaiser Wilhelm Canal from the Baltic to the North Sea, which was

opened by the Kaiser eleven years ago. This will cost many millions as the canal is six-four feet deep in its widest part, and the new ships will be 100 feet deep.

The Japanese newspapers are reviewing the recent articles written by Captain Kinko, the Russian naval officer who is giving a detailed account of the "Battle of the Sea of Japan." Captain Kinko claims that he has written simply and solely in the interest of history and scientific accuracy and the fact that his conclusions are quoted if not approvingly, at least without disapproval is taken to indicate that he is near the truth. Among his conclusions may be mentioned the following:

The weakness of the armored section of Admiral Rojestvensky's fleet in comparison with that of the armored section of that of Admiral Togo, which gave the Japanese preponderance in a purely artillery combat.

The weakness and paucity of number of his cruiser division, which seriously affected completeness of knowledge and accuracy as to the enemy's movements, derived by means of reconnaissance.

The overwhelming superiority of the Japanese in the number of torpedo craft.

The necessity, if such existed, for Admiral Rojestvensky, independently of weather and other circumstances, to pass without delay into the Korean Straits, in spite of all disadvantages for him in the event of a battle in these straits.

The formations and evolutions of the Russian squadron at the time of battle.

THE ONLY SHOP IN THE WORLD WHICH IS MANAGED BY ROYALTY— EX-QUEEN SOPHIE, OF NAPLES, RUNS A STORE IN PARIS.

PARIS, Aug. 31.—In the city of Paris is the only real royal shop in the world.

It is owned and personally managed by Sophie, ex-queen of Naples, and is situated at No. 3 Saint Roch. The queen

sells embroideries made by young girls of Calabria, for the benefit of the earthquake sufferers. The two photos show

respectively the exterior and interior of the unique shop and in the centre is a portrait of the queen.

THE ST. JOHN STAR.

Trim and Conservative Shapes in Hats

Trim shape, fairly small, but not the tiny hats which have been so popular ever since their surprising entrance into fashions, are the first of the fall hats about, most of them kept to conservative lines, with wings and stiff bows of ribbon and an occasional plume.

Most of them are of black, although some wonderfully attractive models have come out in green and brown, some in a sort of leather color.

For these suit hats, for very little in the dressy line is shown as yet, black is, nine times out of ten, shown as the whole trimming, or at the least, a bit of it used to point the color scheme. On brown and the leather-brown hats, particularly, black trimmings give an effect of style that nothing else does.

On that tenth hat (which may be of brown, too) two or three tones of the same shade may be used—there's nothing much more attractive for a brown suit than a hat to match, and all-brown need not be only one shade.

Plenty of sailor shapes—an evolution of the little French sailor we've worn all summer, but radically unlike it, with a wider brim and a higher crown—are among these first hats.

Lovely Mulls and Silk Muslins

Embroidered mulls are lovelier than ever, and the silk muslins, with great shadow designs and with the silk thrown to the surface in the form of dots, looks, when the light strikes it a certain way, as though embroidered with paillettes.

Coral, the softest, prettiest shade of it, gray (a true gray, without that ugly little hint of tan that seemed impossible to overcome before), old rose, violet (a dozen exquisite shades), blue in every tone, from one so pale that it is only a tint, through old blues and French blues to the deep, staple shades which wear and wear and always look well—colors have done their best to make up for the long seasons in which they have had to give not only precedence, but first and last and every place to white.

Covent Garden's Galaxy of Jewels

CERTAINLY Covent Garden is the place to study fashions in jewels. There is, perhaps, no more remarkable sight for an American in all Europe than a "full dress bout" there during the season. It is not the presence of several sombre figures, clad in court mourning, occupying the royal box that astonishes him, any more than it is the enthusiasm of some thousands of apparently stoical English men, and women too, who keep Melba and Claraus industriously howling for five or ten minutes after the curtain has fallen. It is those magnificent jewels—seemingly to weight rather than adorn the women—that surpass the wildest picture of his wildest imagination. Instead of a dozen women who may be picked out in a metropolitan audience for their tiaras or jewel-encrusted corselets, it is here the dozen not so bedecked who are conspicuous.

Diamonds pure and simple are worn by several well-known women, Mrs. George Keppel and Lady Londonderry among others. The former

was the Bodice of her white gown literally covered with them. The Duchess of Marlborough is an exquisite example of good taste. With a cloudy sort of blue gauze worked in garlands of palest pink, she has donned some beautiful turquoise, set in pearls and diamonds, a charming necklace and bracelets and several magnificent brooches.

Another lovely girl, who is claimed as at least partly American, is Miss Kitty Shannon, daughter of Mr. P. F. Shannon, the portrait painter. With a simple white muslin gown she wears a single strand of fine pearl beads and a pair of wonderfully picturesque earrings made of baroque pearls, in the following way: three in a row at the base, two above and one at the centre. These are set in gold filigree wire, so that they form a sort of flat tassel, Italian in effect.

Mrs. Jack Leslie and Lady Knollys wear sapphires and diamonds. This combination is the most newly fashionable; indeed, sapphires might be called the season's jewel. It is the lighter shade that is in vogue, and usually they are set with an almost equal quantity of diamonds. Solid hearts made of small stones, with a single diamond in the centre, are a favorite trinket.

Bracelets are formed of a closely set band of stones, four or five sapphires alternating with diamonds. Bracelets of all sorts are worn in extravagant numbers; several narrow ones on the left arm are usually of "semi" as well as entirely precious stones, set in every sort of fashion known to every age. Old jewels of all sorts are at a premium. Now is the time to resurrect old necklaces of topazes, brilliants or filigree gold work. Jewel-studded combs and bands are another old fashion that is being revived, for young girls and the younger matrons as well. A long comb with an inch wide top of turquoise bordered with pearls and diamonds, which was worn diagonally across the front of a fluffy blonde coiffure, was, to my way of thinking, the most becoming hair ornament of the evening. E. D.

The First Tailored Suits for Fall

SHE must be about the subject of getting her fall and winter clothes early, the girl who is going to college. Only a few short months and she will be in the thick of lectures and classes,

when clothes must necessarily be a thing over which she need trouble her learned head no further. The suit is the first consideration. Fairly plain it must be, and of good, serviceable type.

Many of the jackets of these first suits shown are belted, some of them even hinting at Norfolk lines. Plaid skirts, with jackets of plain cloth, bid fair to be very popular, especially when a bit of the plaid of

the skirt is used for belt and strapings upon the jacket. Skirts, so far, are either pleated or circular, some of them trimmed with circular ruffles which give the cutaway effect so well liked in every sort of thing this year.

Jackets are about the length (or a trifle longer) of pony jackets, but few of them hang loose, as the pony jacket invariably did. Both smooth and rough materials are being used, but, in either case, suppleness is a characteristic very much emphasized; and duller, rather more sombre coloring is almost as inevitable.

With some of them, there is a waist to match the skirt, making a simple three-piece affair, but what is more often worn is a silk or cloth shirtwaist in the dominating color of the suit.

Brown and green—brown even more than green—promise to be the leading colors for fall, both of them plain or combining mysteriously with other colors in the sort of under-plaids which remain hidden except under strong light, or when a curious strapping brings them out.

Notes of the Fashions

GIRLDES of pompadour or plain silk have rounded ends a quarter of a yard wide and one yard long that are simply knotted in the back without a bow. Often these ends are edged with a narrow bias ruffle. It is said that such sashes, which are now worn with Empire as well as long-waisted gowns of thin material, will be a feature of autumn evening gowns.

A beautiful sort of shoe for darker or linen costumes, but one which is difficult to wear, has a ramp of russet leather and high buttoned top of white kid. Of course such an arrangement tends to thicken the ankle. Pale gray and very pale tan suede boots are also pretty with light cloth gowns. Black shoes are not worn at all.

Several narrow bias ruffles (two inches wide), with a hem stitched on the right side, trim new muslin and veiling skirts. They are put in five or six rows around the bottom, or in a graduated scallop pattern beginning six inches above the hem.

Some stunning linen pumps have the vamps embroidered.

The prettiest treatment of checks lies in the introduction of dots of the color (often a deeper shade of it) in the blocks of white. Not that they are evenly dispersed; instead, they are grouped into little set figures, which give the checks a world of character.

Mittens of thread or lace are even more popular here than they are in France. They seem so much better than last year.

FIVE

Better Than Ever!

We are proud of our range of Men's \$3.50 Shoes. We have built up an immense trade on this class of footwear because we have rigidly insisted that whatever make we are selling at that price MUST BE UP TO THE MARK. The instant they begin to show signs of weakness we discard them in style of quality that very instant we were done with the make and procured another that would fill the necessary requirements. This season the majority of the \$3.50 Shoes have been advanced to \$4.00 but we have determined on having a \$3.50 line in all materials and different weights.

Our fall showing of \$3.50 Shoes are now ready, and handsomer style or better quality goods we have never sold.

COUNCIL HAS APPOINTED MR. PETERS CONSULTING ENGINEER

The Vote Stood 8 to 7, After a Spirited Discussion—Duties of City Engineer Will Devolve Upon Mr. Cushing—Moyes Nearly Read U for First Crib—St. John May be Atlantic Port of Call for Proposed Mail Service Between England and Hong Kong.

Hurd Peters, C. E., was yesterday made consulting engineer to the city. The Common Council reached no decision in regard to the allotment of the west side wharves, but an effort will be made to obtain for St. John the Imperial mail service from England to Hong Kong. It was announced that Mr. Moyes would almost immediately be ready for Mr. Clarke's first crib. The matter of the Exhibition building repair bills was referred back to the board. No mention was made at all about an investigation into the conduct of Police Marshal Marshall. The full aldermanic board was present. During the early part of the meeting, Mayor Sears was present, and Deputy Mayor Tilley presided.

THE SAND POINT BERTHS.
The reports of the different berths were first taken up. The second section of the report of the board of public works was as follows: "Your board have under consideration the application of the C. P. R. for berth 1, 2 and 3 at Sand Point for their steamers for the coming season and after carefully considering the matter of the allotment of the several berths there, they would recommend that No. 4 warehouse be allocated to the Donaldson Line, and warehouses 1, 2 and 3 to the C. P. R. subject to the use of the Manchester Line of one of them in the same manner as last season, and upon the C. P. R. giving undertaking in writing that freight will be delivered to the Allan Line steamers at the intercolonial deep water berth free of any extra charges."

Ald. Bullock moved that this be referred back to the board. Ald. Pickett thought that as the C. P. R. had promised that they would send their whole Atlantic fleet here, he would favor the city granting them the request. He spoke of the fact that the C. P. R. had the contract from the Imperial government for the carrying of the Hong Kong mails and thought it would be the best advertisement for the city if St. John should be the Canadian Atlantic port of call. He said that he understood Halifax was moving heaven and earth to get this service, and their connection with the Imperial government has always heretofore resulted in them getting the inside track on things important.

Ald. Baxter also favored sending it back to the board if the chairman would call an early meeting of the board. The allotment should be so arranged that no single berth should be idle while there is a steamer waiting in the harbor. He thought that the Allan line consent to go to Long wharf until the new wharf is finished. Ald. Willet moved that the matter be referred back to the board with power to act. Mr. Hurd Peters was called in and Mr. Tilley mentioned that with about two low tides Mr. Moyes would be ready for the sinking of the first crib.

POSITION OF CITY ENGINEER.

The board of works' recommendation that Hurd Peters, C. E., be appointed consulting engineer caused a lengthy and spirited discussion.

Ald. McGoldrick in moving the adoption of the report said that his board had long considered the matter. After this winter the civic work would be greatly cut down, and he thought one engineer capable of superintending all the work.

Ald. Lantaulum moved as an amendment that the report be laid on the table for three months. He was not opposing, he said, the idea of having Mr. Peters' burdens, but the aldermen all knew from Mr. Cushing's statement that the other night that the position of city engineer was going to cause considerable difficulty. Ald. Baxter said that the matter should be laid over. The board's recommendation was almost unanimously made and simply because Mr. Cushing has asked for an increase and an assistant, the council is in a panic. Mr. Cushing's burden would not be much greater, perhaps the drafting of a few plans, and in this the board of public works should get some assistance from the department of water and sewerage. These boards must work more together in the future, Mr. Cushing should remember in asking for an increase of salary that he lately obtained an increase of \$300 and then only by the small margin of 10 to 15. The council is practically thrown down to the board, and the question arises as to who is to run the city affairs, the council or its officials.

Ald. Bullock said that he had not heard from Engineer Peters that he wished to be relieved from any of his duties. It is true he has given the city a good long service, but it has been at a fairly good salary. He said that he did not want to be harsh, but the step would certainly mean more expense and would be establishing a precedent. Ald. Pickett did not know that the city was prepared to adopt a pension system.

Ald. Tilley thought that it would not be advisable to postpone the question for three months. Ald. Lewis said he would not do anything to oppose Mr. Peters, but the step was a dangerous one. This scheme, he said, was concocted up for a purpose.

Ald. Lockhart thought the board was gradually coming to the opinion of the committee, who recommended the amalgamation of some of the city heads of departments. He would therefore support this step. When officials reach eighty years of age he did not think the step dangerous to give them some somewhat generous treatment.

Ald. Hamlin said the change would not cost the city a cent.

Ald. McGoldrick said that Ald. Bullock had hinted that there was underhand work behind this recommendation. When a man reaches Mr. Peters' age he should not be asked to do the laborious part of the work. A short time ago, his board decided that Mr. Cushing should be responsible for the supervision of the new wharf and a few days after that Engineer Peters received a letter from Director Cushing saying that he would hold him responsible. It was too much to ask such an old man to go climbing over wharves.

Mayor Sears said that Mr. Peters had proved an efficient officer. Seventy-five per cent of the thinking and working people of St. John would like to see Mr. Peters receive some such remuneration. The vote was taken and the recommendation was carried by a vote of eight to seven. Yon-Baxter, Hamlin, McGoldrick, Christie, Sproul, Lockhart, Tilley and Rowan.

THE EXHIBITION REPAIRS.
Ald. Vanwart reported that he thought and the director of public safety agreed with him that the prices for the repairs in the exhibition building were not excessive and that the work had been well done. It was decided to refer the payment back to the board by the following vote: Yon-Christie, Bullock, Sproul, Pickett, Lockhart, Baxter, Tilley and Rowan.

MARTIN AND MOVEY.

McArthur and McVey sent a communication to the council in reply to the statement of Engineer Hunter and the action of the water and sewerage board saying that they were prepared to remove the form but the engineer had told them not to do so.

Ald. McGoldrick thought a meeting of the water and sewerage board should be called at an early date. A communication from the trustees of the water and sewerage and street departments asked for an increase in pay. The matter was referred to the departments.

John Beattie asked to be put upon the permanent staff. A communication stated that the Trades and Labor Congress would meet on Sept. 12 and 13 and was asked from the city. Referred to the treasury board with power to act.

John Willet asked for a fish way on the Miapet to protect his fishing interests. Referred to water and sewerage board.

An invitation from J. K. Scammell to be present while soundings were being made at Sand Point was referred to a committee of the mayor, Ald. McGoldrick and Consulting Engineer Peters. Ald. Baxter asked that a committee be appointed to arrange for the sale of the fisheries on the east and west sides of the harbor.

Mayor Sears reported for the committee who entertained the visitors to the Canadian Municipalities Association at Halifax and for the committee who were present there.

Ald. Bullock said that the city had a strong representative in the mayor. Mayor Sears said that Hon. Mr. Hyman would be present shortly, and he would be present to act with the Board of Trade.

COMMERCIAL.
C. P. R. LANDS.
According to the best information obtained there is little or no probability that the directors of the Canadian Pacific Railway Co. will soon organize a new holding company to take over the valuable lands which are now held under grant from the Canadian Government. It is true that all of the company's land grant bonds have been cancelled and that it holds in the treasury \$18,000,000 of deferred payment contracts, which bear 6 per cent interest. Men who have looked into the matter estimate that the unsold agricultural lands of the Canadian Pacific have an average market value of \$180,000,000 in the aggregate. In addition the company holds under grant a large amount of valuable mineral and timber land, particularly in British Columbia.

It is understood, however, that the directors have had under consideration for some little time a plan for distributing to the stockholders the profits received from the sales of land.

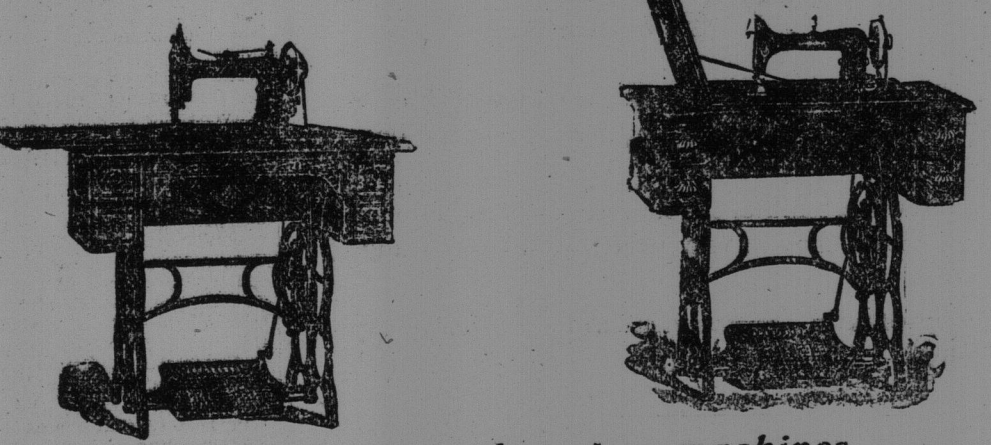

TO DIVERT KLODYNE GOLD.
A despatch from Washington says: Reports have reached the Treasury that the new mint established at Ottawa, by the Canadian Government, is about ready to begin operations. It is said that Canada will try to divert to it the gold from the Klondike, which has hitherto been minted at San Francisco.

STEEL COMPANY TESTING IRON ORE.

If Quality is Satisfactory Areas at Barrabois Will Be Taken Over—Squaws Mined—Road to New

Better Sewing Machines FOR MUCH LESS MONEY

Emarnay Machine on right
La Tour Machine on Left.

Take for instance these two machines. WITHOUT the cajoling of agents, and judging the machines solely on their merits, just consider these few facts. Our machines are made in the largest factory in the world—the home of the best and most improved sewing machines; a factory which has grown enormously since its erection thirty years ago. All over the civilized universe its output can be found, while patent upon patent protects its exclusive rights to make the kind of machines we are selling.

Low-Priced Machines We Guarantee

THE "LA TOUR"	THE "EMARNAY"
In four styles—all good makes. Over 700,000 now in use. Perfect mechanical construction. Sewing abilities unexcelled. Sewa muslin or six folds cloth. Provides smooth, even work. Has a self-netting needle. No bothersome springs in take up. All the wearing parts of hard steel. Nickel-plating and janneping. Bed plate flush with table. Attractive cabinet work.	Good looking and good-acting. Adjustable hardened bearings. Feed operates on both sides of needle. Shuttle holds 100 yards of thread. Machine self-threading, except needle. The presser lifts both high and low lift. Bed plate level with table. Ball-bearing driving shaft. Quarter golden oak cabinet. Automatic drop-head machine. Does all kinds of intricate work. Best of materials in every part.
La Tour, hand machine, \$11.00 La Tour, hand, wood base, 14.50 La Tour, 3-drawer, box top, 17.50 La Tour, 5 " drop head, 19.75	Emarnay, 5 drawer, with automatic drop head, - \$28.50 Emarnay, the cabinet automatic, like a writing-desk, 47.50
PRICES THAT ANY HOME CAN AFFORD	

Between these Prices, we have the "Loyalist" machine at \$21.50 to \$37.50, and, following them, the Davis Vertical Feed at \$45.00, and Davis Rotary at \$50.00.

No Agents or Jobbers to Pay. No Trust or Combine in This. No More Exorbitant Prices.

Limestone Areas at George's River Now Under Survey.

NORTH SYDNEY, Aug. 30.—Surveying for the new railway from the limestone areas at George's River recently purchased by the Dominion Iron & Steel Co. from Rev. Father McPherson was begun yesterday by Mr. D. H. McDougall, the company's engineer, and a staff of assistants. The new lines will extend from the quarries at present operated by the company to the quarries on the McPherson property, a distance of three-quarters of a mile. It has not yet been decided whether the road will be a tramway or a railway, but this matter will be settled as soon as the survey is completed, when the work of reconstruction will be begun with vigor.

PRINCE EDWARD ISLAND RAILWAY. TENDER.

Sealed Tenders, addressed to the undersigned, and marked on the outside "Tender for Car Shop at Charlottetown, P. E. I.," will be received up to and including TUESDAY, SEPTEMBER 4th, 1906, for the construction of a Car Shop at Charlottetown, P. E. I.

Plans and specifications may be seen at the Resident Engineer's Office, Charlottetown, P. E. I., at the Office of the Secretary of the department of Railways and Canals, Ottawa, Ont., and at the Chief Engineer's Office, Moncton, N. B., where forms of tender may be obtained.

All the conditions of the specification must be complied with.

D. POTTINGER, General Manager.
Railway Office, Moncton, N. B., 17th Aug., 1906.

SPECIAL FARES

TO—

TORONTO EXHIBITION

August 27 to September 10, 1906.

Return tickets from all Stations between St. John and Campbellton, including Fredericton Section, from August 23rd to September 6th, at FIRST CLASS ONE WAY FARE. On August 24th and 31st, \$16.50, except on Fredericton Section, where first class one way fare is added to \$16.50, but not to exceed \$17.25, the fare in effect from Fredericton.

All tickets good to return up to September 12th, 1906.

NO MORE FAME FOR CASSIE.

COLUMBUS, O., Aug. 31.—On account of strong objections to such notoriety, Attorney Thomas E. Powell, who represents Mrs. Cassie L. Chadwick, very probably will prevent the picture of the witch of Hamor from being placed in the "History of the Penitentiary," a book published by Marvin E. Parnish, superintendent of printing in the penitentiary.

In order to make the books more interesting and as a stimulation to their

sale, it was decided that the picture of Mrs. Chadwick would make a very valuable addition to the already interesting chapters and illustrations. Attorney Powell made a personal request of the warden that he endeavor to suppress anything concerning her, and she would be (the warden was as willing as the attorney that nothing be said unless it could not be helped, and he decided not to permit the photograph of Cassie to be published in the history.

POOR DOCUMENT

M C 2034

SIX

ST. JOHN STAR, SATURDAY, SEPTEMBER 1, 1906.

Full Stocks for Exhibition Week.

Every department has been undergoing careful preparation and re-stocking for the coming busy week.

Shelves are full of the newest goods to be found—assortments show a very wide, up-to-date range for fall.

Out-of-town customers will receive every attention.

Ladies' Fall Coats, Misses' Coats And Jackets.

The long three-quarter and seven-eighth seem to be the popular in all styles.

A great many are loose backs but besides these are very pretty fitted coats for slight figures. Pretty soft tweed coats in striking plain effects very stylish.

Prices \$7.50 to \$17.50.

Black coats extra value, Fine cloth.

Prices \$8.75 to \$18.00.

Pretty Misses' Coats in 3/4 or 5/8 lengths— attractive light tweed or covert cloths.

Prices \$7.50 to \$14.00.

Children's long coats—in large variety of cheviots, tweeds or smooth cloths.

Prices \$2.00 to \$7.50

The Variety of New Dress Materials Growing Larger Every Season--An Exhibit.

Finest French costume cloths and the most attractive moderate priced fancy tweed mixtures yet shown.

These are entirely new colorings, dark bronze and greenish mixtures that have a decidedly new fallish character about them.

Prices on these new tweeds are very reasonable.

75c, 85c, 95c Yd.

Girls' school tweed suitings in light greys or dark effects.....50c, 60c Yd.

New fine French Venetians and broadcloths in all colorings.....85c to \$1.65

Special all wool Venetians, all colorings. 60c Yd

New Paillette Silks for Waists ---Pretty Fall Shades.

A silk of beautiful finish that won't cut—just what the people have been looking for—suitable for waists or whole dresses—comes in new greens, navy, plum, rose, sky, &c.....75c Yd.

Tartan silks for fall waists in the prettiest plaids. Chiffon; taffeta, tartan silks.....65c Yd.

Tartan peau-de-soie.....55c Yd.

Lovely Velours for Ladies' Dressing Gowns, Bath Robes, &c.

For really dainty designs and colorings we honestly think this display of new fall velours the best ever made in St. John.

Colorings in new dainty blues, pretty fawns, pinks or pearl greys.....20c to 25c Yd.

F.W. DANIEL & Co.,
London House, Charlotte St.

THE BIRTH AND SECOND COMING OF CHRIST IN THE LIGHT OF ASTRONOMY.

(By the Rev. F. P. Duffy, M. D., Rector of St. Mary's, Fredericton.)

Any new light from sources outside of Holy Scripture, that can be thrown upon the birth and second coming of our Lord, cannot fail to be of an intensely absorbing nature to the reflective or religious mind. It is because I believe that astronomy reveals such a light that I present this aspect of the wondrous events for devout consideration.

The ancient astronomers called the apparent path of the sun through the heavens the ecliptic. They marked off belts on either side of this ecliptic to the extent of eight degrees and named it the Zodiac. They then divided the zodiac into twelve equal parts of thirty degrees each, and associated these twelve parts with twelve constellations which they called signs of the zodiac. The names are: Aries, the ram; Taurus, the bull; Gemini, the twins; Cancer, the crab; Leo, the lion; Virgo, the virgin; Libra, the balance; Scorpio, the scorpion; Sagittarius, the archer; Capricornus, the goat; Aquarius, the water bearer; Pisces, the fish. It will thus be seen that Pisces is the twelfth sign and agrees with the month of December. This it is important to remember.

The old astronomers further divided the nations of the earth among the twelve signs. To the sign of Pisces, they assigned Palestine, or Judea, or as it was anciently called, Kinakhkh. To mention the sign was equivalent to mentioning the country, and vice versa. For instance, to refer any event or happening to the sign Pisces was the same as saying it occurred in Judea, or Kinakhkh.

Now the zodiac and signs of the zodiac can be traced back to remote Chaldean times, ages before Judah, or Israel, or even Abraham was born. It is important to remember this: The land now called Judea was anciently known by the name of Kinakhkh, and this land of Kinakhkh was placed under the sign now called Pisces, long ages before the progenitor of the Jews had an existence. So that here it is impossible to say that the land known as Judea was placed under the sign of Pisces, or Pisces made to correspond with the month of December, as the result of an afterthought. There was absolutely no knowledge of the zodiac of the Hebrew race, and hence there could be no collusion—what the assignment was first made for the signs of the zodiac can be traced much farther back than the ancient Babylonians or Chaldeans. The Babylonians themselves stated they received their civilization, letters and culture from the more ancient people known to us as Accadians. These Accadians knew about the zodiac, and that the part of the earth bordering upon the Levant, now called Palestine, was apportioned to the sign Pisces.

Philology, Archaeology and History would lead us to conclude that when these Accadians received their civilization, learning and primitive form of religion from the Drude, or that they were a branch of the great Celtic or Gaelic family, who in remote antiquity dwelt in countries adjacent to Chaldeans. The ancient Drude were acquainted with the zodiac and its signs and the different countries allotted to the several signs.

Whether our Lord Jesus Christ was born in the year popularly called A. D. 1, or by what is generally held by the learned as B. C. 4, we are bound to associate His birth with the sign Pisces. Many astronomical events occurred about that time which make this a fact beyond question. For our purpose it is only needful to refer to one remarkable event, occurring at that time, on or about the meridian of Bethlehem. The heliacal rising of Sirius was coincident with the birth of the sun in the fifth, fourth, third and second years B. C., or before the accepted A. D. chronology.

So far as the actual fact is concerned the astronomical phenomena do not affect the validity of the argument one way or the other. It is beyond dispute that Jesus was born when the sun was in Pisces, and therefore in the month of December. When we come to deal with what St. Paul calls the "fulness of time" as the epoch marking the birth of Christ and with the second advent of our Lord, the astronomical phenomena count for everything. It is therefore important for this purpose that we fix certain phenomena in connection with Sirius the brightest star in the heavens and as such played an important role in the Magian religion. It is known from the Zend Avesta that the spiritual ruler of Sirius was next in order to the spiritual governor of Mithra, the sun or God. Now when we come to trace the etymology of the name Sirius we are assured by certain scholars that it comes from the Keltic root. We next find in Irish tradition what is regarded as a mythological or legendary character, a personality called Gobham Saer. Saer and Sir or Sirius belong to the same root (the vowels are of small account in primitive languages). Irish scholars tell us that Saer has the meaning of "Son of God." We thus arrive at the remarkable fact that Sirius is associated with the Son of God by Persian Magians and ancient Keltic Drude.

This offers a vital clue in both a philological and theological sense. Scholars have been long puzzled over the etymology of the name God. The popular belief that the name is but a contraction of the English word good is not to be entertained seriously. The late Dr.

PILES

Are brought on by Constipation and Constipation is caused by a weak stomach.

HERNER'S DYSPEPSIA CURE

restores the stomach to its normal condition and cures Constipation and piles. Price 35c. and \$1.00 per bottle at all druggists.

Fiske maintained in a learned disquisition that the name is derived from the Woden the old Teutonic God. But his argument does not carry complete conviction or command thorough assent. If philologists would delve more into the rich mines of ancient lore or Gaelic they would be rewarded with an abundant harvest of scholarly lore. Thanks to the efforts of Dr. Douglas Hyde and his associates of the Gaelic League this may be looked for in the near future. Meanwhile a humble effort may be added in this direction.

The name before us, Gobham Saer, to my mind solves the mystery. It will appear most evident if divided thus: Gob-ham-Saer. The change from b into d in Gob is readily accounted for by the simple mutation of letters through tribal cleavage in the formation of dialects. I need only instance the change of d into t by the Germans and of p into b by the Welsh. It is within my own recollection that among the Irish Gob is frequently pronounced instead of God, especially when the sacred name is lightly invoked—a survival of the old pronunciation. In the first syllable therefore of Gob-ham we have the Divine name of the Deity. The second syllable ham is the same as the third syllable in Ab-ra-ham. It is interesting also to note that the title of the ruler now most on men's lips, Caesar or Cæsar, is derived from this same Gobham Saer, or Taser as it was originally pronounced. At first sight it may appear strange that a Gaelic name should be the proud title of the ruler of all the Christians. But when it is learned that the ancient Irish were known as Scots, and that Scot is a modification of Scut, which in Greek is rendered Scythian, and moreover when Greek writers tell us that the true Scythians were known as Sco (io) is, and when we can locate the ancient Scythians in the steps of what is now called Russia, the difficulty vanishes. Thus we have the name of the ruler of the Christians, the Son of God, translated from Gobham Saer and inseparably connected with Sirius which, in the Sign of Pisces, was on the meridian of Bethlehem on Dec. 25th, the Natal Day of Christ!

If we now turn our attention to primitive Christian symbolism, the outcroppings of Rome and other archaeological evidences, we find that Christ was known in the first, second and third centuries especially, as the Ichthus, or Fish, because He was born in that sign. To quote an Anglican theologian: "To Biblical subjects must be added a large cycle of symbolical designs, such as the anchor, the lamb, the dove, the ship and the cross, and characteristic of all, the fish." (Headland Fellow of all Souls, Oxford.) Confirmatory of the cataphors in which Jesus Christ is called the "Heavenly Ichthus."

The titles of our Lord most frequently met with in the Bible and early Christian writings are: Jesus Christ, Son of God, Son of David, These titles in the Greek language give a unique combination with an important bearing on the subject. They are, written in the Greek characters, Iesous Christos, Theos Uios Soteros. If we place the initial letters of these five words together, we get the word Ichthus, Fish. This was well known to the Christians in primitive times. In days of persecution they expressed their belief in Jesus Christ, the Son of God, the Saviour, by this word Ichthus, or by the Ichthys, or the Fish. Is it a mere coincidence that these initial letters of our Lord's titles spell Ichthus, the sign of the zodiac in which He was born? We cannot for moment consider it a matter of chance. Rather it was the accomplishment of God's design, as we shall see presently.

We have now found the birth of Christ, the star Sirius, the sign Pisces connected, so we shall pass on to the Biblical passages bearing especially upon this particular question.

St. Paul states that "when the fulness of time was come God sent forth His Son made of a woman." (Gal. IV, 4.) The Greek words for "fulness of time" are pleroma tou chronou. This is an astronomical term and means the completion of a cycle, orbit, or revolution of some heavenly sphere. So that at the birth of Christ some mighty cycle was completed, and another begun. Of what absorbing interest it would be, not only to the theologian but to the astronomer, if we could discover what that cycle is? And we can, I think.

If we turn to Acts III, 21, we find St. Peter uttering these momentous words: "Whom the heaven must receive until the times of the restitution of all things." The Greek expression is most remarkable: Chronon apokatastaseos panton. Let us take these words as they stand. And first chronon. There are two words for time used in the New Testament—kairos and chronos. Kairos means a fixed time, a definite period of comparatively short duration; chronos means time in general, an indefinite period, an epoch or marking of phenomena. In a sense it corresponds with aion, an indefinite age, generally translated "world." It is chronos that St. Paul uses when he tells us that in the "fulness of time" Christ was born. And it is chronos St. Peter uses to express the duration of time the heaven must "receive" Christ before He can return. From this fact we conclude both apostles mean the same period, the same cycle. To show St. Paul's discrimination between the two words we may refer to Romans VIII, 18, where he speaks of the "sufferings of this present time." Here he uses Kairos. St. Peter is equally discriminative. The word he uses is chronos. The selection of this word is most significant. It is only used this once in the New Testament, but it was a term well understood. In fact it is an astronomical expression. It means the return of the stars to the same point in the heavens from which they, in their initial movements in the beginning of the world, started; that is to say, it is the completion of the astronomical cycle. It is the equivalent of the Chaldean word Saros applied to a great cycle. And, as will at once be perceived, Saros is connected with the star Sirius and the Keltic Saer already referred to. The Saros therefore meant the cycle of the Son of God. How wonderful is this! St. Paul's term "pleroma," referring to Christ's birth, is also an astronomical expres-

sion, only it is confined to the completion, whilst St. Peter's refers to the whole cycle. The third word, panton, has reference to the completion of the work to accomplish which Christ became incarnate.

One more point remains: to show the exact time of Christ's second Advent. Can we find any data on which to base a conclusion as to the time of His coming? I think we can. If we turn to Daniel xii, 11, we are there told: "From the time the continual burnt offering shall be taken away and the abomination that maketh desolate set up, there shall be a thousand, two hundred and ninety days." (R. V.) Our Lord gives us the key to this passage in St. Matt. xxiv: 15: "When ye therefore shall see the abomination of desolation, spoken of by Daniel, the prophet, stand in the holy place, whom readeth let him understand." From this we see that Daniel's prophecy was to be fulfilled in the disciples' days. This "abomination" marked the end of the Jewish age.

The days of Daniel are not of course ordinary days of twenty-four hours, nor are they ordinary years of 365 days. Clearly they are days of the Lord, scriptural or prophetic days. If we would express these days in terms of astronomical years we could solve the mystery. And we can do it. Evidently we must define these days in scriptural terms.

Turn we then to Psalm XC, verses four, where we read: "A thousand years in Thy sight are but as yesterday when it is past." That is one complete day. Now we go to II Peter iii: 8. There the Apostle states, "That one day is with the Lord as a thousand years, and a thousand years as one day." Thus both the Psalmist and apostle, the Old and the New Testaments, use the same phraseology and tell us the length of a day in the Lord's count of time—one thousand years.

If we multiply Daniel's 1,290 days by one of the Lord's days expressed in astronomical years, we have 1,290 multiplied by 1,000 equals 1,290,000 years. We now find an astronomical cycle, marked off by Sirius at the meridian of Bethlehem in the sign of Pisces. A Mathematician has calculated the cycle and found it to take 25,868 years in completion. It is not hard to arrive at a very close approximation of the date of the setting up of the "abomination of desolation" in the "Holy Place." Jerusalem was destroyed by the Romans A. D. 70 or 74, according to the corrected chronology. In A. D. 66 or 70, corrected chronology, the Christians fled to Pella on the eastern side of the stage by Cæsar's Gallus. But the "abomination" must have been set up before this date, else the Christians could not have seen it. If we suppose two years previously, then we get A. D. 68, according to corrected Chronology. If we deduct this 68 from 25,868, the cycle of precession, we have the beginning of Daniel's 1,290 days (or in astronomical terms 1,290,000 years) leaving a balance of 25,800 years of the cycle of precession. Now divide 25,800 years into 1,290,000 years and we have exactly 50 years. But 50 years is a jubilee! And in the jubilee slaves were freed and lost inheritances restored. This completion of the cycle of precession of the equinoxes will be the grand jubilee of the universe, when slaves of sin will be liberated and the lost inheritance of eternal life regained, and "the Sign of the Son of Man" will appear in the heavens. And a wondrous Sign it will be, for Sirius will be on the same meridian as on the night of the Nativity—a fact (Halley's, according to Forbes of England and Service of America) will blaze over Jerusalem and flash out from space as harbingers of joy as they fall to earth—the planets Mars, Jupiter and Saturn will wheel into position and burn with a united radiance as at the Nativity (Kepler)—and every member of the solar system, unaffected by "eccentricities" will act in harmony and as a perfect whole, as the Archangel stands on the seraphic battlements of heaven, and with his trumpet blows the pean of universal victory! "And then cometh the end!"

NEWSPAPER MAN DEAD

OMAHA, Neb., Aug. 31.—Edward Rosewater, the well-known politician and newspaper man, was found dead in a room of the Omaha Bee building early this morning, where he had gone last night for a short rest. His body was found by the janitor of the building.

Stanley B. Elkin left at noon yesterday for Toronto.

TORONTO MAN TRIES

SOMETHING NEW AND IS DELIGHTED. FEELS LIKE A BOY.

Mr. M. N. Darce, Manager The Dustless Brush Co., 29 Colborne St., Toronto, is telling his friends how he found health after years of illness and pain. He says: "I have been a great sufferer from Dyspepsia for many years. I have been treated by local doctors and have taken nearly all the advertised remedies with only temporary relief, if any at all, but since taking Anti-Pill I can eat anything the same as when a boy. I have taken one Anti-Pill at bedtime for the past three months, and find they regulate both stomach and bowels. My old time vigor has returned, so that my spirits are buoyant and temper normal. As a result of this unexpected experience I am in duty bound to give all credit to this wonderful remedy, Anti-Pill."

Every drugist sells Dr. Leonhardt's Anti-Pill, or a sample will be sent free by The Wilson-Pyle Co., Limited, Niagara Falls, Ont.

Reiterates Statement That He Left Miss McAuley Alive and Well—First Night in County Jail.

HOPWELL CAPE, N. B., Aug. 31.—The murder suspect, who put in his first night at the county jail and appears to have no complaint with his surroundings, was interviewed by the jailer. He had slept well and today he had a good appetite, making hearty meals. Last evening he read a magazine in a magazine rack, which he has pretty well read through. In reply to questions of the jailer as to his plans, he said: "I would do as I preferred, he said anything I would do. That of a religious character he read on Sunday." He said he had read the Bible, and would be well placed in his cell.

Collins when before the magistrate, said he was unable to have a lawyer, counsel, but he was unable to procure such himself. He made the remark to the magistrate that he was not a lawyer, for him but reiterated the statement that when he lost Father McAlvey's home at eight o'clock of Sunday morning, Miss McAlvey and her son, John McAlvey, were

Handful of Men From British Columbia Have Done Wonderful Work---Quebec did Little in Yesterday's Matches and Maritime Provinces Less---Wind Continued to Bother the Inexperienced.

OTTAWA, Aug. 31.—The next to the last day of the Dominion Rifle Association election, disclosed the names of the first Bislew team and winners of the first stage of the Governor General's match, University match, Landonville aggregate, and the Ontario team, now up to the top of the Dundonald cup, and British challenge shield. The boistering wind still held and the veterans, who have gone through many campaigns, come to the front as they always do.

The greater portion of the glory, the prize money, cups, shields and trophies have been gathered in by men and teams from Ontario and the West. Only a few and little, the Maritime Provinces less.

Debate of the Bankers, waiver, audience, Dominion and first stage of the government, 1890, 1891, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908, 1909, 1910, 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, 1934, 1935, 1936, 1937, 1938, 1939, 1940, 1941, 1942, 1943, 1944, 1945, 1946, 1947, 1948, 1949, 1950, 1951, 1952, 1953, 1954, 1955, 1956, 1957, 1958, 1959, 1960, 1961, 1962, 1963, 1964, 1965, 1966, 1967, 1968, 1969, 1970, 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978, 1979, 1980, 1981, 1982, 1983, 1984, 1985, 1986, 1987, 1988, 1989, 1990, 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026, 2027, 2028, 2029, 2030, 2031, 2032, 2033, 2034, 2035, 2036, 2037, 2038, 2039, 2040, 2041, 2042, 2043, 2044, 2045, 2046, 2047, 2048, 2049, 2050, 2051, 2052, 2053, 2054, 2055, 2056, 2057, 2058, 2059, 2060, 2061, 2062, 2063, 2064, 2065, 2066, 2067, 2068, 2069, 2070, 2071, 2072, 2073, 2074, 2075, 2076, 2077, 2078, 2079, 2080, 2081, 2082, 2083, 2084, 2085, 2086, 2087, 2088, 2089, 2090, 2091, 2092, 2093, 2094, 2095, 2096, 2097, 2098, 2099, 2100, 2101, 2102, 2103, 2104, 2105, 2106, 2107, 2108, 2109, 2110, 2111, 2112, 2113, 2114, 2115, 2116, 2117, 2118, 2119, 2120, 2121, 2122, 2123, 2124, 2125, 2126, 2127, 2128, 2129, 2130, 2131, 2132, 2133, 2134, 2135, 2136, 2137, 2138, 2139, 2140, 2141, 2142, 2143, 2144, 2145, 2146, 2147, 2148, 2149, 2150, 2151, 2152, 2153, 2154, 2155, 2156, 2157, 2158, 2159, 2160, 2161, 2162, 2163, 2164, 2165, 2166, 2167, 2168, 2169, 2170, 2171, 2172, 2173, 2174, 2175, 2176, 2177, 2178, 2179, 2180, 2181, 2182, 2183, 2184, 2185, 2186, 2187, 2188, 2189, 2190, 2191, 2192, 2193, 2194, 2195, 2196, 2197, 2198, 2199, 2200, 2201, 2202, 2203, 2204, 2205, 2206, 2207, 2208, 2209, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2219, 2220, 2221, 2222, 2223, 2224, 2225, 2226, 2227, 2228, 2229, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2240, 2241, 2242, 2243, 2244, 2245, 2246, 2247, 2248, 2249, 2250, 2251, 2252, 2253, 2254, 2255, 2256, 2257, 2258, 2259, 2260, 2261, 2262, 2263, 2264, 2265, 2266, 2267, 2268, 2269, 2270, 2271, 2272, 2273, 2274, 2275, 2276, 2277, 2278, 2279, 2280, 2281, 2282, 2283, 2284, 2285, 2286, 2287, 2288, 2289, 2290, 2291, 2292, 2293, 2294, 2295, 2296, 2297, 2298, 2299, 2300, 2301, 2302, 2303, 2304, 2305, 2306, 2307, 2308, 2309, 2310, 2311, 2312, 2313, 2314, 2315, 2316, 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2325, 2326, 2327, 2328, 2329, 2330, 2331, 2332, 2333, 2334, 2335, 2336, 2337, 2338, 2339, 2340, 2341, 2342, 2343, 2344, 2345, 2346, 2347, 2348, 2349, 2350, 2351, 2352, 2353, 2354, 2355, 2356, 2357, 2358, 2359, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2369, 2370, 2371, 2372, 2373, 2374, 2375, 2376, 2377, 2378, 2379, 2380, 2381, 2382, 2383, 2384, 2385, 2386, 2387, 2388, 2389, 2390, 2391, 2392, 2393, 2394, 2395, 2396, 2397, 2398, 2399, 2400, 2401, 2402, 2403, 2404, 2405, 2406, 2407, 2408, 2409, 2410, 2411, 2412, 2413, 2414, 2415, 2416, 2417, 2418, 2419, 2420, 2421, 2422, 2423, 2424, 2425, 2426, 2427, 2428, 2429, 2430, 2431, 2432, 2433, 2434, 2435, 2436, 2437, 2438, 2439, 2440, 2441, 2442, 2443, 2444, 2445, 2446, 2447, 2448, 2449, 2450, 2451, 2452, 2453, 2454, 2455, 2456, 2457, 2458, 2459, 2460, 2461, 2462, 2463, 2464, 2465, 2466, 2467, 2468, 2469, 2470, 2471, 2472, 2473, 2474, 2475, 2476, 2477, 2478, 2479, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2514, 2515, 2516, 2517, 2518, 2519, 2520, 2521, 2522, 2523, 2524, 2525, 2526, 2527, 2528, 2529, 2530, 2531, 2532, 2533, 2534, 2535, 2536, 2537, 2538, 2539, 2540, 2541, 2542, 2543, 2544, 2545, 2546, 2547, 2548, 2549, 2550, 2551, 2552, 2553, 2554, 2555, 2556, 2557, 2558, 2559, 2560, 2561, 2562, 2563, 2564, 2565, 2566, 2567, 2568,

Was Owned by Walter J. Dalton, and
Insured for \$600—House Nearby
Somewhat Damaged

and serious conflagration in the north end was only prevented by the prompt work of the fire department yesterday afternoon.

A house owned by Walter J. Dalton, 105 1/2 Main street, caught fire about five o'clock. Before the blaze was extinguished the house was damaged to the extent of \$10,000. The fire is not definitely known, but it is believed to have been caused by a defective fuse. The flames broke out between Dalton's house and the one owned by Mrs. J. J. Dalton. The fire was first noticed by some boys, who promptly notified No. 5 station, which arrived in about five minutes. A chemical engine was the first to arrive, but its stream was not strong enough to reach the burning building. A fire engine arrived soon after and a good stream of water was soon playing on the burning building. In about ten minutes the fire was extinguished.

The roof was destroyed and the rear end of the building was badly damaged. The roof was probably more by the water than the fire, however. The building was insured for \$10,000 and the insurance company will probably cover the loss.

The lower flat was occupied by Walter Burke, who conducted a beer shop. The upper flat was occupied by Myrtle McCarry. Neither of the occupants carried any insurance on their furniture.

The building next door, which was owned and occupied by Mrs. S. A. McNeil, was also somewhat damaged. The side of the building was burned away from the roof torn up. The loss was estimated at one hundred dollars, and this was covered by insurance. There is not a hundred dollars on the house in the Phoenix company.

The burned house is surrounded by wooden buildings, and if the fire had not got headway, with the buildings as they are now, it would have been difficult to extinguish it.

The progress of the fire was watched by an unusually large crowd of spectators.

For some time back many of the responsibilities formerly falling on city engineer have been undertaken by the director on the ground that he is the head of the department, as for instance the supervision of the new water structure. It is said that Director Cushing has been willing to perform these duties out of consideration for Engineer Peters, but now that the city engineer has retired, the placing of such duties, hereafter, on the director will be regarded by him as virtually making him city engineer, and he

**Problem Now is to Find Room for More
Seats, and Allow of Sufficient
Air for Pupils**

Judging from the crowded conditions in the schools that may be seen crowded into small spaces in some of the north end schools, the situation of the city is sadly in need of new school accommodations. The Dufferin district schools are overcrowded, and the rooms are filled to overflowing, and in many of the rooms there are not sufficient desks for the pupils attending. This is the case in one or two of the rooms of the Newmarket street school, and it is difficult to find space for the placing of new seats and desks. According to the school board, there is a large allowance of 200 cubic feet of air, and each pupil 200 cubic feet of air, and it is strongly recommended that the school board should have 500 cubic feet. In some rooms of the school above mentioned there is only 150 feet, and the teachers find it very difficult to keep the rooms in a proper state of ventilation. It is estimated that the number of pupils who have been spending the summer in the country and coming back to school in the fall will be still more numerous. In the past year the attendance has been considerably above the normal figures, and after the first few weeks of the school year had passed, the school board had to close the schools for a few days, as the school was so overcrowded. It is to be enforced, this year, that the school has the desired effect, the school will not have the same overcrowding, and the school will be able to keep the schools at a normal level, and hence it seems that these schools are likely to remain overcrowded through the year.

Many Passengers Missed Connections for Halifax, and Vigorously But Ineffectually Protested

The Boston express was one and a half hours late last night. The cause of the delay was an accident on the main line at Lewiston. A freight train derailed, blocking the main line, owing to the engine breaking down.

There were between twenty-five and thirty persons on the Boston express for Hallowell, but the delay expressed no inconvenience to them. The related passengers had some trouble in getting hotel accommodations and were outspoken in denouncing the railroad for poor connections. The related passengers had some trouble in getting hotel accommodations and were outspoken in denouncing the railroad for poor connections. The related passengers had some trouble in getting hotel accommodations and were outspoken in denouncing the railroad for poor connections.

Divisional Supt. Downie, of the C. P. R., says that the proposed improvements between Beatty's rocks and Sand Point wharves may not be made on account of the excessive price which is being asked for the property. The improvements at Sand Point will be made. Capt. Walsh is expected here today to report on the possibility of having another story put on No. 10. Mr. Downie says that an arrangement has been made with the Boston and Maine and C. P. R. to run four new trains on the line next spring. The new cars will replace those now running on the line. These cars are being procured by the C. P. R.

for the exhibition.

The death of Mrs. W. E. Raymond, wife of W. E. Raymond of the Roy Hotel, occurred yesterday afternoon five o'clock. Mrs. Raymond had been

ill only about a week, and he had been in bed for nearly a month before the end came. She was thought to be recovering, when a sudden change for the worse took place. Mrs. Raymond was called to her bedside by Dr. Wm. M. Smith, inspector of steamboats, who died about ten years ago. Besides her husband, she is survived by three brothers, Wm. R., John, and George, all of Boston, and one sister, Mrs. Little Smith of Providence, R. I., and three sons and one daughter. The services will be held at 10 o'clock at St. Kenneth and Tillie, Mrs. Raymond's death will occasion general sorrow, as to Mr. Raymond and the other members of the bereaved family. The funeral will be held on Monday.

QUEBEC, Aug. 21.—The Dominion is coaling today and leaves tomorrow for Halifax and Bermuda. There was a remarkable scene on board of the ship when the French cruisers left for St. John's yesterday. As the latter passed the

German gunboat Panther no dem
stration on either side occurred, h
passing the Dominion they dippe
their colors, the band playing the
tional anthem and the Maple L
Forever. The crew of the Domin
crowded the sides of the ship a
lustily cheered the French ships a
sailors, the men on the cruisers
sponding with equal heartiness.

LOCAL NEWS.

A quantity of cents can be had at the
Star Counting Room.

DIDA at the St. John Exhibition,
Sept. 1st to 8. See her.

Something unusual in prices will be
found in the Union Clothing Co.'s ad.
on page seven. They are bound to be
in the lead. Call today or tonight up
till 11 o'clock and be convinced.

If you do not relish the filthy lake
water you can be supplied with High-
land Spring Water, the world's purest
beverage. Large bottles 10 cents,
3 for 25 cents. 37 Church Street;
phone 1818.

Every department has been under-
going careful preparation and re-stock-
ing for the coming busy week. Shelves
are full of the newest goods to be
found, and assortments show a very
wide up-to-date range for fall. See P.
W. Daniel & Co.'s advertisement on
page 6.

The main points to be regarded in
the purchase of spectacles are skillful
fitting, fine quality of material and
fair prices, all these are procurable at
D. Boyan's, Optician, 38 Deck St.

The case of the King on the informa-
tion of the House of Commons, was tried
behind closed doors in county court last
evening. George R. Vincent, for the
prosecution and Dr. A. W. Macrae for
the defence. After being out for about
ten minutes the jury brought in a ver-
dict of not guilty.

Quite a number of men have already
gone into the woods to prepare for the
winter operations. A wagon heavily
loaded with sleds and other supplies
with three men and six horses came
down from up river arriving here on
Monday evening and leaving the next
morning. The tinkling of whose bells
gave us a gentle reminder of the cold
weather coming in the near future, and
the rapid passing of the season—Vic-
toria County News.

There seems to be a belief that lambs
are scarce this season but shipments
are being made right along. William
Armstrong had shipped twelve carloads
up to the 18th, six of which were ship-
ped during the previous week, one from
Grand Falls, three from Killbuck, and
three from Florenceville, the six cars
contained 1,278 lambs collected and
shipped in six days; besides these the
other shippers have been sending out a
number of carloads. The cattle ship-
ments are now commencing. Dewis &
Hoffman sent off their first car last
week from Killbuck containing thirty
head for the St. John market, sixteen
of them were purchased in the colony,
the balance secured in this vicinity.—
Victoria County News.

LABOR DAY EXCURSION.
Do not forget the Labor Day Excur-
sion to Extonville. The Excursion
Steamer makes all intermediate stops.
Leaves her wharf at 8.30, due in St.
John 7.30.

EXHIBITION VISITORS.
Strangers to the exhibition should
make their headquarters for shop-
ping at the Messrs. Anland Bros.,
Ltd., Waterloo street, where all kinds
of fashionable Furniture, Carpets,
English Oilcloths, Linoleums, etc., can
be had. This reliable firm makes a
specialty of furnishing new homes,
and those who are contemplating go-
ing into housekeeping or brightening
up their homes will do well to pur-
chase at the above store.

"ANOTHER POSITION."
The most straightforward and con-
vincing advertising seen in our daily
papers today is probably that in the
Currie Business University under the
well-known heading "Another Posi-
tion" which appears almost daily.
If one is prejudiced enough to doubt
each statement under this heading he
can readily verify same by phone or
letter, as the names of the students
and firms are invariably mentioned.
This class of advertising speaks vol-
umes for the school and proves that
the methods used for the advancement
of the business men are absolutely up-
to-date, otherwise this school would
not have such an immense share of
the patronage and confidence of the
public.

TOO LATE FOR CLASSIFICATION.

WANTED—Moulder. Apply to UN-
ION FOUNDRY AND MACHINE
WORKS, Ltd., W. E.

WANTED—A waiter. Apply to BOB-
BON RESTAURANT, 20 Charlotte St.

driving teams, concrete dams, etc., also
sawmill men. High wages. Steady em-
ployment for three months. Apply at
works, Tinker's Siding on Canadian
Pacific.

IS ATTENDING TO BUSINESS.

B. B. Bennett, of Calgary, Has Abandoned
Excursions into Dominion Politics

(Montreal Herald.)
Mr. B. B. Bennett, the lawyer from
Calgary, who made a somewhat sen-
sational plunge into Ontario politics,
when the Autonomy bill was a burn-
ing topic, is at the Windsor today.

"I've done with politics, I know
when I have had enough. I'm looking
after business now," he told The Her-
ald.

Speaking of the new Provincial
Government of Alberta, Mr. Bennett
said it seemed to be fully possessed of
a sense of responsibility, and it is ap-
parently using its best efforts to pro-
mote the prosperity and welfare of the
people.

"It has a large country under its
jurisdiction, and settlers going into
distant parts expect roads to be made
and public works to be carried out. No
government can do everything, but I
believe the ministers are making a
fairly judicious appointment of the
public expenditure."

"True, but the largest carriers in the
world are Mr. Hill's leviathans—the
Dakota and Minneapolis, which are en-
gaged in the trade with the Far East.
He wants to divert as much of Cana-
da's produce from Vancouver and
Prince Rupert as he can. I don't think
we should help him to do that."

"Do you think Mr. Hill wants Cana-
dian trade for the Orient?"

"That is what I mean."

"But why?—he has the Western
American States."

"True, but the largest carriers in the
world are Mr. Hill's leviathans—the
Dakota and Minneapolis, which are en-
gaged in the trade with the Far East.
He wants to divert as much of Cana-
da's produce from Vancouver and
Prince Rupert as he can. I don't think
we should help him to do that."

"The way to make Canada great is
to preserve Canada's products for
Canada's ports."

SASKATOON HAPPENINGS.

Items of Interest Concerning One of the
Liveliest Towns in the North-
West Today.

Farmers around Saskatoon are busy
harvesting the wheat and see a very
bright outlook ahead. Estimates place
the yield on new land as high as forty
bushels to the acre.

The Spur line to be built by the G.
P. Railway from their main line in the
city has been started and will be
rushed to completion.

The recent railway developments in
and around Saskatoon have been the
means of doubling the prices in most
cases on property near the yards and
terminal of the C. P. R. and Grand
Trunk Pacific and Canadian Northern.
The long real estate locations will be
unobtainable excepting at fabulous
prices.

Northwestern Land and Invest-
ment Co., Canada Life building, have
been busy all week making reser-
vations for local investors and feel
sanguine that in a very few months big
profits will be realized on property
purchased from them.

PERSONALS.

Miss Ethel of Andover is visiting
Miss Kate Hazen, Hazen Castle.
Mrs. W. Morrison left on the I. C. R.
Saturday on a visit to Montreal.
Miss Hazel Bridges leaves next week
on an extended trip through Upper
Canada.

is visiting Miss Ethel Estey.
Mrs. F. W. G. Brock and the Misses
Brook, who have been visiting in Eng-
land and Scotland since early in the
winter, were passengers on the C. P.
R. Empress of Ireland, which
reached Quebec yesterday on a record
breaking trip.

Mr. R. C. Weldon, Jr., of Halifax,
passed through the city on Thursday
evening en route to Montreal, where
he joins the staff of the Montreal Gen-
eral Hospital.

John Montgomery of the post office
staff, who has been ill for some time,
will return to work next week.
Hon. A. G. Blair and Mrs. Blair left
Fredericton for Ottawa on Thursday
evening.

Miss Coffee, Rotherham, is the guest
of Mrs. W. H. Robinson at Smithtown.
W. R. Smith, of Fredericton, came to
the city on the Boston express last
night and registered at the Royal.

Oscar Watson, M. D., of the Asso-
ciated Press, New York, arrived in the
city yesterday and is visiting his rela-
tives here.

Miss Sadie Wolf leaves for Boston
this evening on a vacation trip.

street, has returned home after visit-
ing the Misses Ruland, Norton, K. C.
Miss Ethel Jones, of the West Side,
left this morning for Chance Harbor,
to spend a few days visiting friends.

Warning to Exhibition Visitors.

We are obliged each exhibition year
to turn away hundreds who come to
St. John for the sole purpose of hav-
ing their teeth attended to, but who
neglect the main object of their visit
until a few days before returning
home.

We would therefore advise all to call
early and avoid the usual rush so
they may not be compelled to re-
turn home disappointed at being un-
able to avail themselves of our
SUPERIOR WORKMANSHIP AND
ATTRACTIVE FEES.

Parents should remember that the
vacations are drawing rapidly to a
close and that as they value the
health and welfare of their own
children and those of others they
should see to it that their children's
teeth are in proper condition. We can
put their teeth in the condition they
should be without affording them any
pain and we can do it reasonably.
Call at once.

Boston Dental Parlors, 527 Main St.
Dr. J. D. Maher, Proprietor
Tel. 685.

For You!

Clothes don't make the man,
but we all despise the slouchy
man. And good clothes are
like charity; they cover a mul-
titude of sins. If all men
were as good as they look in

20th Century Brand

Clothes there would not be
enough medals to go around.
Remember that good clothes
are a good investment.

Men's Medium Weight UNDERWEAR.

SPECIAL VALUES NOW.

THERE'S Enough Snap and Chill in the
air these days—particularly the even-
ings—to cause men to discard their gauzy sum-
mer undergarments, and put on more season-
able weights. Every good kind of fall shirts
and drawers we sell.

FINE LIGHT GREY MERINO, 90c Garment up,
exceedingly soft finish, shirts are double
breasted, saten facings, pearl buttons, and
the drawers have saten bands.

EXTRA FINE NATURAL WOOL, \$1.00 Garment up,
The famous "95 A" brand. Shirts single
and double-breasted, wool faced and
French neck. Drawers have wool finished
bands. We have these in all sizes.

Oriental Rugs

JUST ARRIVED.

LAST Spring we sold an
enormous quantity of Ori-
ental floor coverings. The
demand was great and it con-
tinues. As a rug for the lib-
rary, dining room, boudoir,
hallway or den they add rich-
ness and cosiness to the sur-
roundings. In Oriental pat-
terns and colorings. Immense
range of sizes.

Long Silk Gloves

IN PURE WHITE.

THE Demand for White
Silk Gloves is unabated. Short-sleeved waists are
the vogue for fall and winter,
which means, of course, that
elbow lengths will be the pop-
ular style in gloves. Our new
supply is of a superior quality
and in 6, 6½ and 7 sizes.

Only 90c. Pair.

FRONT STORE

Rich, Tasty Mantel Drapes, Embroidered and Plain.

A MONG our Fall Importations comes a
perfectly lovely assortment of mantel
drapes, or piano scarfs, to whichever use you
choose to put them. They are not the common
tinsel-covered ones, imitating Oriental em-
broidery, but genuinely Japanese in manufac-
ture and adornment.

Plain Colors and Heavily Fringed.
Rich Embroidering. New Designs.
Wealth of New Coloring Ideas.
Made of Best Japanese Silks.
Measure from 2½ to 2½ Yards Long.
The Average Width is 27 inches.

These Drapes were personally selected by
our own representative.
