Memorandum. In accordance with General Orders, approved by council, I gave orders in the customary manner in the month of February last to organize the 13th Scottish Light Dragoons, as a cavalry regiment, with headquarters in the Eastern Townships of Quebec. Lieut .-Col. G. A. Smart was gazetted as commanding officer on the 19th of February, and other officers were also appointed to the same regiment. Shortly after the promulgation of the order ing to the 13th Scottish Light Draauthorizing the organization of the goons, which the minister desired held regiment I received an order from Sir over for further consideration, it was Frederick Borden through Colonel Pinault, the deputy minister of mili- to leave the city this morning for a tia, desiring him to stop the organiza-No explanation or reason for this step was vouchsafed, but indirectly I learned that the minister of agriculture was responsible for the delay which thus occurred. I greatly desired to have the organization proceeded with, as the time for holding the annual camps was approaching. I accordingly twice communicated with Mr. Fisher by telephone on two dates, some distance apart, and made appointments with him in order that the reason for the obstruction might be explained. Mr. Fisher did not keep either of the appointments. On the second of the occasions above referred to, when speaking to Mr. Fisher on the telephone, I explained the urgency of completing the organization of the regiment without delay, otherwise it would be impossible for it to go into Fisher had to do with the organization of the militia, to this Mr. Fisher rethought he had no right as a cabinet minister, to interfere. My answer was that in my opinion Mr. Fisher had no right to interfere with Colonel Smart's selection of officers, as I understood he had been doing. It is, perhaps unnecessary to say here that Colonel Smart's duty was to select officers for commissions and submit their names to the general officer commanding, through the proper channel in order that he might make recommendations to the minister of militia. I became convinced of Sidney Fisher's continued interference with the duty of Colonel Smart in the selection of officers. Subsequently I sent in a list

After my last visit to Ottawa I consulted with Colonel Whitley, and we came to the conclu sion that unless we induced Dr. Pickel voluntarily to withdraw, the organization would be hung up indefinitely. therefore communicated with Dr. Pickel, and explained to him that owing to a new regulation objections were taken to the appointment of unquali fled officers to field officers rank, and asked him if he would be good enough to allow me to withdraw his name temporarily, to which he consented. I then communicated with Mr. Fisher, saying that I would agree to the withdrawal of Dr. Pickel's name in meantime, and on the strength of this believe the appointments passed through council. Your lordship will observe that I have not withdrawn Dr. Pickel's name absolutely, and have kept the position of major in squadron vacant, in the hope that I may yet have Dr. Pickel appointed. Hon. My. Fisher also took exception to the name of T. R. Pickel, who is also very enthusiastic, and would make a capital cavalry officer. ventlemen now seated on the governside of the house maintained the government could do nothing all to contribute to the prosperity of the country; that the government was a fly upon the wheel, that the el turned indifferently to their urings or prayers or desires. But not so now. Why, my hon. friend, Fielding, has only to stand up and recite figures of the greatness anada's trade, of the greatness of receipts, of the greatness of her nues, and his followers even at the of eight years still cheer him to I think I detected a little ng off in the spontaneity and force the applause today. It is possible the conclusion beginning to come to their minds it is not always very good finanthat would go on year after year aking enormous surpluses from the eople of this country simply to enable the government to boast, when it

Is not our prosperity due to the fact through a long continued course wise and cautious administration by the conservative government, of a ely constructed banking system, of wisely constructed system of protecon to our industries, the foundations prosperity in this country were laid, that when this world-wide era of perity did arise Canada was in a ion to derive the advantage of it. as it not owing to a wise government that Canada passed almost undisturbthrough the great depression which ortly prior to 1896 struck the United tates with cyclonic force? Was it not ause this country had been so well wisely governed that an eminent ed States authority at the time, rasting the condition of things in Inited States, where thousands of ncial institutions were going down ruin, with the prosperous condition Canada, where no financial distress as felt, wrote as follows: 'In the Doion of Canada, separated from us on north by an imaginary line there been no panic, no increased ded for money, no droppage of inries, no restriction of trade, no insed rate of interest, in short nothbeyond the ordinary course of ts, except so far as these events have been influenced by contigto what may be termed a financyclone whose pathway of des-

truction was contiguous to, but not within Canadian territory." The debate yesterday was full of oice and ring. Sir Richard Cartright may be groggy in the legs but Rufus Pope of Compton, who foled him. Both are hard hitters. On his occasion Pope had one advantage over the minister of trade and comerce. His heart was in his work, hile Sir Richard had to defend the otrine of practical protection, a docthat for long, long years he has denouncing as damnable. Yours very sincerely, RICHARD J. CARTWRIGHT. To Sir John Macdonald, K. C. B.

Mr. Pope naturally expected a display of high principles from the writer of this letter, but in this he was mistaken. At a banquet given to Sir and commerce, the minister of Wilfrid not many years ago, the first minister of today stated that Cartwright, while a protectionist at heart, had smothered his feelings and sat in the Mackenzie cabinet for 18 long years bearing the brunt of obliquy ightful and moralizing spirit, cast and never whispering a word. To quote Laurier's words: "It is not every day you can find such abnegation and such loyalty to the party, and I have every reason to believe and repeat it to you -I not only repeat it to you my colleagues, but I wish my words to be heard all over Canada - that Canada little knows the debt of gratitude it owes to Sir Richard Cartwright." Here, said Mr. Pope, is a statement by the prime minister that while Sir a valuable contribution to the budget the party now in power.

Taking up Cartwright's wail that the conservative party had been true ferring to the depreciation of Canada's to it friends and had neglected constituencies which returned opponents, Mr. Pope hit back with solar plexus blows. or of a scientific exploration of the He said: As I was looking through the pages of history I could almost fancy that all the Canadian public were named Cartwright. I found F. L. Cartwright with \$1,000; Col. R. Cartwrigt with \$2,800; Secretary Cartwright | the country's assets, but to take steps of the railway commission with \$4,-000; Rev. Cartwright of Kingston penitentiary, with \$1,200; Henry George Cartwright with \$550; the secretary of lightened administration could be Sir Richard Cartwright, a nephew, with \$2,200, and last but not least, the salary of the gallant knight himself, making a total of \$20,250 a year that exploited for the benefit of private corthe people of this country pay for the porations. Mr. Osler deplorthis side of the house by having them ed the depletion of the country's timprinted and circulated for the benefit of the liberal party, in order that the people of Canada may know the great need of reforestry, a work to which the financial sacrifices the Cartwright family have made for the country. Alexander Mackenzie once remarked that Canada did not care for a rigid adherence to principles of government. I wonder, remarked Mr. Pope, what the hon, gentleman would say could he be here now, to witness the giving away not only of principles, but what more sacred, the very life of the gallant member for South Oxford, a man of such wonderful abilities that he selected himself to be minister of finance before he gained power?

So are those ada is what he makes it. If the man who styled the maritime provinces the shreds and patches of the dominion found himself driven from the Iberal party in 1896; if the party to which he now belongs and with which he has been affliated all those years could not afford to tolerate him as one of their associates on the political platform-if he had achieved such a failure as that, "I want to ask," said Mr. Pope, "what was the result of his labors in those years when he was deriding Canada and applying to it all the bad names and adjectives that he could find in the English language. We on this side of the house had to fight for our great western country, and no man knows it better than the hon. gentleman (Cartwright), whose articles defaming this country were published in magazines and sent broadcast by American railroad companies throughout the known world. Under these circumstances it is not to be wondered at that the western states of the American union were settled before western Canada. There was a true patriotic people and no Richard John Cartwright in the United States. At that time we had to fight for the building of a railway into the western country against the opposition of Cartwright both in this house and in the country, and against his threats to the farmers that it would mortgage their farms for the rest of their lives. Owing to the hon, gentleman's speeches we had to begin to convert our own people to a realization of the wealth and possiblities of our great western country, as well as to remove the prejudice that had been created

Senator Ferguson of P. E. I. came pretty close to the kernel of the rouble when he stated that in his opinion the position of the policy holders of the Mutual Reserve was due more to the fallacious principle of doing business than to any other cause. He thought this system of insurance should never have been legalized and feared that more troubles were coming. The finance minister and the superintendent of insurance should more fully exercise the powers of controlling fallacious insurance given them under the insurance act. He crificized Col. Domville for having devoted his energies more to the exposure of the company than to relieving the shareholders. In his judgment the senate should act promptly. And the senate did by starting an investigation yesterday.

The system was a very complicated one and he ventured the opinion that by next session the tariff will have to be changed. Reassets under liberal administration, Mr. Osler made a strong argument in favcountry with a view to discovering the wealth of our national heritage. For this work it would be wise to make a large expenditure, as it was not only the duty of the government to preserve to reveal new sources of wealth. Mr. Osler emphasized the value of Canada's water power, which under an enmade, he said, to pay the debt incurred in opening up the country. these water powers were now being ing conditions foreign capital seeking the only information they could get ber resources, which was going on at an alarming rate and pointed out the government was not giving sufficient

I am going the hands of the Standard Oil Company, but the government in making these concessions were not ignorant of to operate on the present and future the fact that the Standard Co. could contribute a larger amount for campaign purposes than any other industry in the country. He declared that within a few months after the next general election the company would advance prices and the people would suffer.

"Nonsense," cried out Mr. Heyd, liberal, of South Brant, Ontario. "Watch the trend of events," replied Mr. Osler, "and the same thing will happen in regard to oil that happened in the case of barbed wire and binder twine.'

While Mr. Osler spoke from the broad general business standpoint, Mr. Smith, conservative M. P. for Wentworth South, effectively criticized the tical farmer. He held that both the tariff from the point of view of a pracfruit growers and the market gardeners had just cause for complaint. son, he asserted, why the Ontario fruit growers should not be able to capture the Manitoba market. There had been several complaints of butter arriving in England in a mouldy conditon, due to imperfect cold storage, but the blame had generally been unjustly placed on the packer and the butter maker. The producer is always blamed, said Mr. Smith, because he is not in a position to defend himself. In his (Smith's) judgment the present administration of the department of agriculture was far inferior to the administration of OTTAWA, June 10 .- The senators the department in the days of conservative rule.

That went to swell the trade returns that the govcrnment and its supporters were fond of boasting about, but it was at the cost of closing the factories and turning many hundreds of Canadians out employment. The fact was, tended Mr. Smith, that it was only the industries with which the liberals had not interfered that had continued to flourish. He had mentioned two collapsed industries. He could mention others. Take for example the woollen industry, in respect of which the liberals practically carried out their promise of free trade, revenue tariff and same confidence as heretofore in the ad- say, complied with at least the letter so on which they have been pomulgat-

ng for 18 years. What was the result? Last year we imported \$13,516,-915 worth of woollen goods, whereas in 1879 we only imported \$7,125,148 worth. There was an increase of over \$6,000,-000 in our imports, which of course made the trade and navigation returns dustries will thrive. They found that policy, they found that whenever they attempted to carry out the promises and fulfil the pledges they had had heen making for 18 years, they injured and destroyed our industries. And so, continued Mr. Smith, it has come to pass that whereas eight years ago proctically no liberal M. P. would dare to avow himself a protectionist on the public platform we now find them one by one and two by two coming forward frankly as believers in the protectionist doctrine. This session we find Mr. Heyd, M. P. for South Brant, openly avowing himself an out and out protectionist. Last year he made a speech which abundantly showed that he was a protectionist, but he took care not to avow it. The year before he made a mild protectionist speech. Thus step by step he has grown in grace.

And so, year by year, commented Mr. Smith, the liberals are showing themselves more and more convinced that the policy of the conservative party is the only true policy for this the debate was promptly embraced by country. Even Hon, Mr. Fielding, who his political supporter, Mr. Bourassa; an increase in these duties, the object department before stating anything to Press today: being not to get more revenue but to the country, Instead of this being the advice of conservative members he say. OTTAWA, June 11 .- The Dundonald incident has for the time being displaced the tariff debate from the centre of the stage and has brought Hon. Sydney Fisher in a very unfavorable light before the footlights. Without discussing the point whether the government officer commanding took the most judicious course in which to place the story of his shabby treatment before the house and the country the bald fact remains that the minister of agriculture in his zeal to prevent a conservative from obtaining a commission almost wrecked the formation of a cavalry regiment in the Eastern Townships and grossly insult-Where, asked the member for South ed Lord Dundonald. Hon. Mr. Fisher made a sad mess of things yesterday and laid himself open to the charge of a deliberate attempt to deceive the house. The minister flatly denied the charge that he had been influenced in his action by party politics. But Colonel Hughes read the memo he had received, a copy of which had been sent by the same delivery to the minister, and This memo showed that the colonel of the regiment had to induce Mr. Pickel to withdraw his name temporarily at least, as Hon. Mr. Fisher was determined to block the whole organization rather than allow Mr. Pickel to be gazetted because that gentleman was a strong political opponent.

The explosion of this bombshell forced Mr. Fisher to admit that he had look bigger, but the government at interfered for political reasons, whereand navigation returns was not the agriculture assured the house his only best policy. > As Haughton Lennox pointed out in the course of a broad treatment of the question, it is to be regretted that the prime minister and the minister of agriculture should plunge the country into the national disgrace by their definite announcement that in the future the question of politics will enter into the selection of officers for the militia of Canada. Mr. Lennox felt that 'Sir Wilfrid's substitution of word "stranger" for "foreigner" did not greatly help his case, At all events the conservatives did not regard this gallant soldier, who had seen service for the empire all over the world, as a stranger. They received him as a valiant defender of that great empire to which we all belong. "Let politics stop outside our volunteer force," continued Mr. Lennox, "and for God's sake don't import party politics when it comes to selecting men to defend the country."

All the speakers on the opposition side expressed regret that this disagrecable incident had been forced on the house and the country by the partizan interference of Hon. Mr. Fisher with the management of a department about which he knew little or nothing, but their regret was tempered with the conviction that so long as such conduct was indulged in by members of the cabinet it was well that the people of Canada should know it, even if the manner in which this government of business men conducted militia affairs were cast before the eyes of the rest of the empire.

HOYT STATION, June 18.

To the Editor of the Sun: Sir-In your issue of May 11th I noticed a letter illustrating the condition man who learns his business and goes of our railway station, nor was the descripton misrepresented; also a reply from the C. P. R. officials in St. John a day, and if you multiply that by 12, stating that Hoyt was a station of minor importance. Adjoining Hoyt there are several districts with growhimself and the horse belonging to the | ing importance, which ship and receive all freight, etc., through this station. As to accommodations for passengers, hend, and especially in cold weather, The officials state that if the people of this community want conditions mproved they should ask for them. If they trace back a year or so ago they will find a petition was sent to the superintendent (Mr. Oborne, who was then in office). If it was not consigned to the waste basket perhaps it can be found. Hoping that the company will space in your valued paper. Yours very truly

THAT FOREIGNER. Sir Wilfrid Laurier's friends plead that when he called Lord Dundonald a "foreigner" he only meant to call him stranger, as etranger is the ordinary French word for an alien or foreigner. If the premier were so unfamiliar with English he might accidentally call a foreigner a stranger, but he would not be likely to speak of a stranger as a foreigner. But as a matter of fact there is no member of the house who knows the force of an Engword better than Sir Wilfrid Laurier. He speaks English with a fereign accent, but few Canadians have so good an English vocabulary. His reading of literature and history is almost wholly in English. Sir Wilfeld simply spoke of Lord Dundonaid just as his supporters in Quebec are now speaking of him, and he seems the ministers for his presence in this dominion. WEDNESDAY'S DISASTER.

Every day brings to the press a list of disasters and fatalities, but it is not often that the papers are compelled to describe such an occurrence as that which took place yesterday in New York harbor. The loss of six hundred lives within a few yards of the streets of New York city, while the victims, nearly all of whom were wonen and children, were surrounded by sailing and power craft, is an event as sad as it is unexpected. One would have said in advance that the conditions were unusually safe. The ship only a third of the passengers she was allowed to carry. #### THE TERCENTENARY.

The tercentenary celebration to be held in this city next week has not been advertised in the country by the transportation companies so extensively as they usually advertise even a In 1899 Russia took power to legislate local exhibition. This is said to be due to the fact that at this season the railways and steamships are after tourist travel at full rates. City newspapers have published all that they could learn about the events. They have done so both to help along the movement, and because the information had news value. Publicity has been given to some extent by the tourperiors. And for that fault there is ist association. endeavor to "dragoon" the minister and to dictate wrongfully to the people of Canada. As a matter of fact Lord Dundonald had nothing to do with the dispute about officers. Colonel Smart, who is the colonel, is not a conservative. It was he who presented the names of officers whom he had asked to serve. This corps was to be one of four to form Colonel Whitley's brigade. Colonel Whitley, who is a strong liberal, gave Colonel Smart his assistance, assigning to him two squadrons of a former corps. One of these was commanded by a liberal and one by a conservative. It appears that of the other three squadron leaders selected by these two officers two were liberals and one conservative. The conservative was Dr. Pickel and Mr. Fisher struck out his name. The correspondent of the Toronto News, independent, says that there is no warrant for the charge that the regiment was being made a conservative preserve. The commanding officer is in dependent in politics and is said to have usually voted liberal. The second to have done it deliberately. Yet Lord in command was a liberal. The third Dundonald has no need to apologise to was a conservative. Three of the five squadron leaders were liberals. The

> Let it be remembered that Lord Dundonald had nothing to do with these arrangements. He did not choose one of the officers. They were selected by the men on the ground. Mr. White said he regretted to report that the committee in charge of the vessel had overruin the funds appropriated to them. The net cost of rebuilding the vessel will be \$570, which than at first estimated, but the costumes were costing more than had been anticipated.

Some discussion followed as to the propriety of having men on board the ship to represent soldiers, and it was pointed out that there were soldiers on ! Champlain's vessel.

His worship stated that a stand would probably be erected near the head of the slip for the benefit of the distinguished guests and members of the Common Council. #### PARLIAMENT.

OTTAWA, June 15 .- In the house this afternoon Laurier, replying to Border of Halifax, said the government would announce its further programme on Friday, when he would move that for the balance of the session the govbusiness, thereby shutting out all private bills. This motion means the early closing of the house, possibly by July first. The government is thus following the lead of the opposition, which voted in caucus this week to expedite business in all possible ways. But the Dundonald incident, which may call out quite a debate, will delay proroga-

Haszard of P. E. Island closed the debate at 2.10, when a division was called on Borden's amendment, which was defeated; yeas 52, nays 110; government majority, 58.

The tariff resolutions were adopted' by the same vote reversed. Before adjournment, Laurier laid on the table further correspondence with Lord Dundonald.

Borden forced Laurier into a corner by asking if the Dundonald corresponlence will be brought down in full. Laurier replied that all documents on would only be seventy dollars more file would be submitted. Borden reiterated that if Laurier would not produce the Fisher papers he would do his best to get them before the house. Brodeur resumed the budget debate at 8.20, and Kemp (conservative) of

Passing on Mr. Borden dealt with the increase of taxation under liberal rule, explained the position of the conservative party with regard to British preference, and generally reviewed the speeches of the finance minister and minister of tade and commerce. He defended the tariff changes, and saw no reason why if Providence was with the government the people of Canada should be against it. Canadian people, he felt, would stand by the Canadian tariff as against the 'American tariff demanded by the chief tory organ, the Montreal Star. Everything was booming in Canada. In the United States there was great business trouble, and railways were discharging employes by thousands. The New York Herald says 75,000 Germans who had adopted the United States tariff were also suffering, for a day of retribution was sure to come. Hughes, liberal, of P. E. Island, con-

#### EUREKA FLY KILLER

THE BUREKA FLY KILLER protects Cattle and Horses from the Fly Pest and Vermin.

EUREKA FLY KILLER is a sure preventive that kills and drives away the worst of all pests, the TEXAS-BUFFALO and HORN FLIES. It is a money saver—Cows invariably lose flesh and shrink in milk. Horses become restless and dangerous when no protection is given them fro files. Twenty-five cows may be treated in fifteen minutes at a cost of less than 1-2 cent each. Use the "Electric" Sprayer-it is the best, Ask your dealers for "Eureka" and do not buy worthless imitations, Send for circulars.

KUMFORT Headache Powders

Mother Nature says, "I have given you a mouth and a stomach to receive food and send its strengthening parts through your system. I have given you bowels to discard the useless parts of that food and keep your system clean. I will do the best I can out of whatever food you give me. But unless the bowels are kept regular, I cannot prevent the poisoning of your whole system. Laxa-Cara Tablets will do for you just what Nature asks. They will correct your clogged bowels; will put them on the road to regularity and health; will not strain or abuse them; will in a short time work a permanent cure and insure you permanently against constipation. If you are taking nothing now, you ought to. If you are taking something already and feel pretty well suited with it, you won't feel that way if you try Laxa-Cara Tablets once. box at your druggists', or by mail postpaid on receipt of price. . C. R. Checkers Held Meeting Last Evening.

Will Send a Petition to the Management and Ask Support of Merchants in the Project.

Those checkers in the I. C. R. employ who are paid monthly held a meeting ast night for the purpose of petitioning the management of the road and also Hon, H. R. Emmerson, minister of railways, for two weeks' holidays. All the checkers were present and Peter C. Sharkey was chosen chairman. These men who put in ten hours a day, are compelled to remain on duty every day in the year excepting Sundays. Owing to the amount of freight handled be tween eleven and one o'clock on Sat urdays the checkers are kept busy during the whole afternoons getting things straightened out. This rush of freigh is due to the Saturday half holiday being observed by merchants generally, who desire to have their stuff delivered before closing hour. The work of the checkers is done in open sheds in all seasons, and in winter the men are subject to much discomfort. As a general rule rheumatism is prevalent among men employed at this class of

Considering everything the checkers think that two weeks' vacation might be granted them during the year. Many other government employes receive regular holidays, and in the I. C. R. all monthly men with the exception of the heckers come under the same rule. When any are laid off through sickness their pay is deducted. · At the meeting last evening the men

decided to ask support from the business community of the city. Merchants will be asked to sign a petition which will be forwarded by the checkers, praying that holidays may be granted subscribers in arrears will pay them. This petition will be put in circulation at once.
