ALLIES SIGN PACT TO AID TURK NATION

Great Britain, France and Italy Agree to Support Each Other in All Turkish Disputes.

BAGDAD RAILWAY TO BE INTERNATIONALIZED

Rights of British Empire Uncertain But Impression Grows That They Are Extensive.

Constantinople, Nov. 5.—The French have occupied the Bagdad Railway north of Adam as far as Basmali.

Paris, Nov. 5.—Great Britain, France and Italy have signed a tripartite agreement in which they undertake to support each other in maintaining their "sphere of influence" in Turkey. The limits of this area in which the respective special interests of France and Italy are recognized are defined by the same document.

This agreement, it developed today, was signed at Sevres on August 10, the day the public ceremonial of the signing of the peace treaty with Turkey took place. Under its own terms the document was to come into force and be published at the time the Turkish Peace Treaty should go into effect. This date is still an uncertainty.

What Are Britain's Rights.

In connection with examination of the text of the agreement now available, attention is being called here to the fact that while the treaty defines the spheres of influence of France and Italy—recognizing the special interests of France in Cilicia and the western part of Kurdistan bordering on Syria and of Italy in Southern Anatolia—the British sphere of influence are not only undefined but are not referred to. This has raised the question of agreement inasmuch as the interpretation that the British interests may be held to extend to any or all the remaining parts of the Turkish Empire.

It is noted also that while the agreement does not take the form of an alliance, it nevertheless pledges the contracting powers to render abject support to each other in maintaining their respective positions in the areas in which their special interests are recognized.

Bagdad Railway War.
One section of the document provides for the exploitation of the Bagdad Railway by a company in which British, French and Italian capital is equally interested. It gives the exploitation of the Hama-ene mines between Koniak and Adana to Italy. Article 10 of the agreement provides that nothing contained in it shall prejudice the rights of existing or non-signatory states to free access to the various areas for commercial and economic purposes.

ONLY THIRD OF HALIFAX POLLED VOTE ON LIQUOR

Halifax City Went Wet in Referendum by a Majority of 992 Votes.

COUNTY DISTRICTS DRY BY 549 LEAD

Total Vote in City Was Only 7,913 Out of a Possible of 22,392 on Lists.

Halifax, N. S., Nov. 5.—Only one-third of the total number of men and women eligible on the voters' list in Halifax city and county polled their votes on the referendum for or against the importation of liquors. Official returns of the referendum vote taken on October 25 were announced tonight by Col. John McKinnon, returning officer for Halifax city and county.

The official figures show that the "wet" had a majority in Halifax city of 992, but the majority for the "dry" in both the metropolitan district and county combined was 549. In the combined vote there were 256 spoiled or rejected votes.

One-Third Voted.
The same proportion of voters which exercised the right of their franchise holds for the county as it does for the city, namely, about one-third only. The following shows the figures as issued by the returning officer:

Votes in affirmative—Halifax city, 2,500; Dartmouth, 859; County, 2,248. Votes in negative—Halifax city, 4,382; Dartmouth, 849; County, 1,821. Spoiled or rejected—Halifax city, 161; Dartmouth, 36; County, 59. Total votes polled—Halifax city, 7,913; Dartmouth, 1,748; County, 4,126. Total on list—Halifax city, 22,392; Dartmouth, 5,750; County, 13,878.

Mount Holly, N. J., Nov. 5.—Warry King, warden of the Burlington County Jail here, is dead and Charles Vernon, a trusty, is so seriously injured that he may die following an affray today in which Harry Assay, a prisoner, attacked his keepers with a heavy iron bar.

King was set upon as he entered a pen where some 25 prisoners were confined. His skull was crushed by a single blow.

Leaping over the body of the warden Assay dashed through a door left open on the entrance of the official, bounded up a flight of stairs, through a corridor and into the prison kitchen where Vernon was at work.

WRANGEL ASKS HELP AT ONCE TO MEET REDS

Fear in Paris That Delay is Even Now Too Long and Defeat is at Hand.

FRANCE THINKS OTHERS SHOULD GIVE AID

Only Hope Now is That Anti-Red Leader May Be Able to Hold for Few Days.

Paris, Nov. 5.—Further dispatches confirming the extreme gravity of the position of General Baron Wrangel, head of the anti-Soviet forces in South Russia, have been received by the French Foreign Office, but are being withheld temporarily. With the capture by the Bolsheviks Perok and the surrounding territory, regarded as the key to the isthmus fears are now expressed in French official circles that General Wrangel's very existence in the Crimea may be seriously endangered.

It is reliably reported that General Wrangel has sent an urgent appeal to France and the other Allied Powers (telling of the critical situation confronting him and requesting more aid. Too Late for Help

From an authoritative source, it was learned today that France feels it is now "too late" to give further assistance to Wrangel. It was explained that France had rendered all the assistance in her power to Wrangel. Any further support will have to come from the other Allied Powers among whom, the French say, there seems to be no disposition to act.

TROTSKY AND LENINE FEAR HARD WINTER

Food and Fuel Are Scarce and Army is Without Clothing or Supplies.

London, Nov. 5.—Nikolai Lenine, the Russian Bolshevik Premier, frankly admits the seriousness of the food situation in Russia. A Central News dispatch from Copenhagen quotes him as writing in the Russian newspaper Proletarskaja Pravda as follows: "Soviet Russia never before has experienced such a food crisis. Moscow and other cities are being starved by famine, and the army is becoming demoralized. It is necessary for us to use all means in our power to enforce delivery of foodstuffs by the peasantry."

Writing in the same paper, Trotsky, the Bolshevik Minister of Marine says: "We want to see rebellions in other countries as to Russia, it is upon our country impossible. The Red Army is in dire need of food and clothing. If these needs are not supplied immediately, all our efforts will be futile."

GERMAN GOVT BEHIND A PLOT TO RESTORE MONARCHY

Charge Made That It is Convinced With Reactionaries to Strike Another Blow.

Berlin, Nov. 5.—The German Republic Government is conniving with reactionary groups to strike another blow for the re-establishment of the old monarchy and is tolerating an alarming increase in enlistments of troops for the various free corps, according to German newspapers.

While the first indictment in connection with the investigation were being returned to Judge Minkewitz in general sessions, the joint legislative committee quizzing witnesses in Clark Hall regarding the "Trust" was being informed that the whole limestone trade of the United States was "in the grip" of the national association of stone cutters.

This testimony was given by Henry Hasbrouck, cut stone contractor, who admitted a code of practice existed, after by-laws of the association were read to him. He admitted also that this code required all members of the national association and allied locals to submit copies of their bids to the recording secretary, "to preclude cut-throat competition."

FINAL COUNT GIVES BAXTER 17 MAJORITY

Declaration Day Announcement Gave Opposition Leader a Lead of Eight Votes.

ONLY SIX VOTES BEHIND DR. CURREN

With Elimination of "X" Marked Ballots Dr. Baxter Would Still Have Majority.

The recount of the ballots cast in St. John County on October 9th was completed by Judge Armstrong yesterday afternoon and, as was generally forecast, Hon. J. B. M. Baxter's lead over J. S. Bentley, in whose behalf the recount was made, is increased by nine, giving him a majority of seventeen, instead of eight, as was announced on declaration day.

All candidates made a slight gain in the recount, but Dr. Baxter's was the greatest. Dr. Curren's lead over Dr. Baxter being considerably reduced. The Government forces were apparently disappointed at the result, as it has been their desire to get rid of Dr. Baxter from the Opposition forces.

The result is gratifying to the supporters of Dr. Baxter, as the recount showed that, even with the elimination of all ballots bearing the "X" which were regarded as showing the intent of the voter, Dr. Baxter would have had a lead of six over Mr. Bentley, assuming him his voter's illegible nature where those who are interested in the welfare of the province are desirous of having him.

THE FINAL RESULTS

The following are the results as checked up:

Dr. Curren	1918
Dr. Baxter	1912
J. S. Bentley	1895
Mr. Carson	1777

About nine o'clock last night an alarm was sounded from Box 32, corner of Regent and Needham streets, for a fire in the barn belonging to Mrs. T. Lynch. On the arrival of the firemen they found that a fire had been set underneath the barn and that it had been smoldering for some time before being discovered.

At 7:30 o'clock this morning smoke was discovered emanating from the barn and an alarm was rung in from Box 32. The firemen found that the fire which they thought they had extinguished last night had broken out again and apparently had been burning for some time as there was a immense smoke an dit had burned several holes in the floor of the barn as well as part of the sills.

After being placed in the jail of which he was the legal keeper, Whitaker escaped, was re-captured and again sentenced for jail breaking. Governor Morrow has three times refused to pardon Whitaker.

London, Nov. 5.—In a speech at Cardiff, Wales, tonight, former Premier Asquith declared that evidence that servants of the Crown were being allowed with virtual impunity to engage in a campaign of outrage was overwhelming and irresistible. An appeal to parliament, he said, was useless. FAIR TRADE TO ANGLO-SAXON IS BRITISH MOTTO

So Declares Sir Auckland Geddes in Address Before Minneapolis Commerce Board.

Minneapolis, Minn., Nov. 5.—Great Britain and the United States must avoid national trade competition "organized by government and supported by political action," Sir Auckland Geddes, British Ambassador to the United States, declared today in an address at a Chamber of Commerce luncheon here.
If the United States or Great Britain, he said, were to begin to organize areas of exclusive economic advantage there "would inevitably come a clash of interests that would at least strain the friendly relations between the two countries."

No Ship Disadvantage.
Sir Auckland denied a statement appearing in United States newspapers that United States ships had been placed at a disadvantage with British ships by British Government action. He declared, however, not "in any sense as a threat, however veiled, but as a matter of interest," that if the British Empire should adopt a law precisely similar to the United States law limiting coastwise traffic to ships flying only its own flag there would be some far-reaching derangements in the business of non-British shipping.
"We are not thinking at present of adopting any such law," he added, "for our trade policy is based on the policy of fair trade and equal opportunities."
Must Live in Peace.
Speaking not only as the Ambassador of Great Britain, but as the representative of all the British Dominions and colonies, "of one-quarter of the human race," Sir Auckland said he had no hesitation in asserting that he misrepresented no opinion of importance when he declared it was the wish of all the British people to live in peace and amity with the United States and "with all the nations of the earth."
"I sometimes read in your newspapers," he said, "of these subtle, devilish schemes which the British Government is preparing with the object of preventing your trade expansion. I have been a member of the British Cabinet, I have been the Minister of the Crown responsible for the trade policy and activities of the Government, and I assure you formally and without reservation that the principle which underlies trade policy is expressed in the five words: 'Fair trade and equal opportunities.'
"If we imagine to trust one another, if we know this, that as states we can trust one another not to attempt to steal markets such upon the other, then I believe that the competition of our respective traders will add to and not subtract from the understanding of the two nations by the other."

23,000 FAMILIES ARE HOMELESS IN VIENNA

Vienna, Nov. 5.—A survey of housing just completed shows that 23,000 families, comprising about 70,000 persons, are virtually homeless in Vienna, so great is the shortage of living premises in spite of the requisitioning process that has been going on for a year.
These people are herded into passageways, where often 15 to 20 persons sleep in places used for other purposes in the daytime, or in the pleasant weather they sleep in parks. It is now proposed to permit them to erect shacks on available land throughout the city.

Wallace Stevens was arrested on a warrant for assault last evening. Thomas Holden was held at the request of the Moncton police. Robert Jesso was arrested by liquor inspector Henderson for having liquor in his possession unlawfully. One drunk was also arrested.

Fifty Members Were Present

First Regular Meeting of High School Alumnae for Season Held Last Evening.

The first regular meeting of the High School Alumnae for the season took place last evening at the residence of Mrs. V. E. Prince, Princess street. There was no formal programme, but a delightful social evening of games and music was enjoyed and delicious refreshments served. Fifty members were present.
Arrangements were made for a party sale to be held November 25th in the Imperial lobby. Tickets money collected during the summer was handed in, amounting to \$35.50. There still remains \$50 to be made up for the Memorial Scholarship Fund, and it will be the club's objective to obtain this sum. It was announced that the next meeting will be held at the Manor House, at which the club will be addressed by an old member, who will speak on India.

Employer of the Public.
(Hastings Herald.)
Mr. Hanna is convinced that the service given to the people by employees of the National Railways would be impaired if they were to take an active part in public life or to hold public office. He is, however, convinced, would not fail in his duty as an agent and trustee for the people if he were to allow the value of the service of O. N. R. employees to be diminished by their active participation in politics? His order is no indictment on personal liberty. Any O. N. R. employee who is ambitious to run for public office is free to do so but he should quit the public service before doing so.
If O. N. R. employees were to be allowed to hold public office while retaining their positions as public servants, they could the same privilege be denied to any member of the civil service? A great host of citizens would be sure to deplore if persons like Hanna were to remain in the public service and to have and deny the representative of the people.

The Trying Days

IT has been well said, a school teacher has more influence in shaping the lives of her scholars than their parents.

How necessary, then, is it that she should have a bright, clear brain, and be strong and vigorous in order that she may give them of her best.

The worry and the work, the strain and anxiety of a teacher's life are such as tell severely on the nervous system. Time and again teachers have had to give up good positions on account of a weak heart, run down health and shattered nerves.

To such Milburn's Heart and Nerve Pills come as a boon and a blessing.

Their purpose is to make the weak heart strong and the shaky nerves firm, and thus build up the entire system to full strength and vitality.

Miss L. E. Hopkins, Kirtland, Ont., writes:—"I have used Milburn's Heart and Nerve Pills for weak heart. I was so nervous I had to leave school for two years. After I had taken five boxes of the pills I was able to go back to my school again, feeling in good health."

Milburn's Heart and Nerve Pills are 50c. a box at all dealers, or mailed direct on receipt of price by

BOSTON PAPER LAUDS SOLDIER LAND PLAN HERE

Christian Science Monitor Says Gain to Canada Likely to be Remarkable.

The Christian Science Monitor of Boston comments editorially on the operations of the Soldier Settlement Board of Canada, stating that its success is "most gratifying from both a national and international point of view."

After an examination of the Settlement Board's operation figures, the Monitor concludes:

"From an economic point of view, the gain to the country from the development of this scheme is likely to be remarkable. Already the new acreage marked out for the cultivation of wheat is considerably more than half of the entire wheat area of the Dominion twenty years ago, and, expressed in terms of cash, it is expected to increase by something like \$50,000,000 annually the national wealth. More important even than this, however, is the addition it will make to the world's food supply at a time when such addition is urgently needed. The bulk of the new land taken up lies west of the Great Lakes, in the wheat-growing regions, and it is confidently expected, in view of the high prices at present obtaining, that every acre of it will be cultivated. Then, of course, the scheme is still in process of development. Nearly twice as many men have been approved as have up to the present time, been provided for. When, therefore, the Soldier Settlement scheme finally fulfills its mission it is likely to be responsible for an effort in colonization difficult to parallel."

PALESTINE HAS A LIVESTOCK SHORTAGE

London, Nov. 5.—The scarcity of livestock, cereals and vegetables in Palestine is resolving itself into a serious problem, says a Jaffa despatch. To meet the situation an agreement was arrived at with the Egyptian and Syrian governments for a monthly importation of 500 head of cattle, but by the time this was ready for consumption the price was found to be prohibitive. Efforts are now being made to purchase livestock from the natives in the Eastern Jordan, and the importation of Australian frozen meat is reported to.

"I have exchanged my phonograph!"

A lot of people said that the other day. They had accepted our invitation to investigate the BRUNSWICK — they came to see whether they approved our judgment. Of course, we expected people to "discover" the BRUNSWICK, just as we have done; but we did not promise ourselves so many OWNERS of other phonographs would hit the BRUNSWICK Trail so readily. Frankly, we were astonished. We have a suspicion that some of them came to tell us that "a rolling stone gathers no moss." But exchange that machine that had meant so much to wife and kiddies? Relinquish that which had taken so much time and pains to select—the machine they thought to be the best phonograph on the market? No, we weren't ready for that. But it happened the first day and every day after. They caught the idea right away. They saw that while they had spent weeks picking their phonographs, they were letting someone else pick their music. They wanted to be able to play ANY record, just the same as those who have never owned a talking machine. We played some of their own favorite records for them, and they had to admit that the BRUNSWICK played them better. Many residents of this locality have found a better Phonograph—a wonderful, versatile, all-embracing new musical instrument in the BRUNSWICK. And they found a cabinet that was easy to look at, as well. We are beginning to think our judgment is pretty good, after all. Come in yourself and hear the BRUNSWICK. Liberal allowance on your old machine. You CAN change horses in midstream.

Two Champions Sign Contracts

Carpentier - Dempsey Agreement Has 27 Clauses—Division of \$500,000.

New York, Nov. 5.—Jack Dempsey, world's heavyweight boxing champion, and Georges Carpentier, European title holder, signed a contract here today binding them to meet next March or between May 29 and July 4 to decide the championship of the world.

The agreement, which has twenty-seven clauses, calls for a fight from 10 to 15 rounds, to be fought in the United States, Canada, Mexico or Cuba, "where contests of the character are permitted by law."

With the signing of the formal contract, Jack's Kearns, as manager for Dempsey, and Francois Desamps, acting for Carpentier, deposited \$50,000 as earnest of their intention to make good by producing their principals at the time and place which shall later be definitely fixed.

Under the terms of today's compact, the half million dollars prize money will be divided twenty-four hours before the contest, Dempsey receiving \$300,000 and Carpentier \$200,000.

Each fighter in addition is to hold 25 per cent of the moving picture corporation stock while the other fifty per cent goes to the three joint promoters, Tex Rickard, Chas. Cochran and William Brady.

Reference Names Submitted

The parties to the contract submitted a list of five names from which it is proposed to select the referee and judges with a proviso that in case the best is to be held in a place where boxing is controlled by a state commission, the selection must be satisfactory to such commission. The names offered for the position are Edgren, William Brown and James J. Corbett, of New York; James J. Jeffries, of Los Angeles; Otto Fiodo, of Kansas City; and James F. Dougherty, of Philadelphia.

Edgren made the sole arbiter of any disputes which may arise between any of the contracting parties with final authority to do so and award any distribution of the forfeit money as provided in the contract. It is further stipulated that the ring shall be from eight to twenty feet square.

A provision also is inserted giving the promoters a thirty day extension from the finally selected day for the bout, in case the contest cannot take place at the site and time so selected due to causes beyond the control of the promoters.

Place of Battle

While there is an apparent air of mystery and mystery in surrounding the time and place of the battle, it is generally accepted that unless there is stern opposition from the New York State Boxing Commission the bout will be held in a special open-air arena to be erected within or very close to the city limits of New York.

The date for such a contest will be between the middle of June and the fourth of July, in case the bout can not be held in New York State for any reason, it probably will be shifted to New Jersey, Canada, Cuba, and Mexico are now being considered at present and will not, unless it is found impossible to stage the fight in the United States.

The amount of the purse is so large that it is impossible to hold the bout during the winter or spring months, in a permanent building or enclosure, except at prohibitive prices. The moving picture operators also prefer daylight to artificial light for their work. In addition both Dempsey and Carpentier are tentatively scheduled to box during the month of March. Carpentier, who sails for France tomorrow, is expected to engage in a contest in Mexico Carlo, while Dempsey has personally announced that he will box Jess Willard again on March 11. The accounts for the provision in the contract that in case either principal shall be defeated prior to their meeting losing his title by knock out or referee's decision that the promoters shall have the right to terminate the contract within two days after such defeat, without, however, the loss of forfeit by any of the parties concerned.

Comiskey Makes Public Statement

New York, Nov. 5.—Jacob Ruppert and T. L. Huston, owners of the New York club of the American League, last night made public a statement from Charles A. Comiskey, owner of the Chicago Americans, dealing with the 1919 world series scandal.

The statement, a reply to the request from the New York owners, seeks to counteract the impression that prevails that Mr. Comiskey had been delinquent in exposing the scandal and that credit should go to President Johnson, of the American League for doing so.

Mr. Comiskey declared that the first intimation he received of crookedness in the series was regarding H. C. Redmond, of St. Louis, who claimed he had \$5,500 on the White Sox by being double-crossed.

Redmond was interviewed, said Comiskey, by Manager Gleason and "The O'Neil," but the story he told was so vague and uncertain in character that no one would be justified in taking affirmative action such as would destroy the character and reputation of men, even though they were ball players.

Philadelphia, Nov. 5.—Jimmy Brown, of Trenton, gave Jack Brasos, Hazleton, Pa., a severe beating here tonight in an eight-round bout. Brasos, knocked freely in the last two rounds, and at the end of the fight he was completely exhausted.

Intense Interest In Today's Game

St. John High Eleven Will Battle With Fredericton on Latter's Gridiron.

The St. John High School leave this morning with large delegation of fans for Fredericton, where this afternoon the local boys play a game of football with the team in the Capital. The line-up of St. John will be about the same as that of last Saturday, and all the request of Fredericton the principal of St. John High vouched that each member of the local team was a scholar attending the local school. The request is perhaps all right, but it goes without saying that St. John High had no intention of placing some "lineup" on their team. This game will decide who becomes the winners of the cup for this season. There is a great deal of interest in the match, and there will be a large following of the older football fans at the game, as it will certainly be a real scrap from start to finish, and the St. John boys will do their level best to bring home the bacon.

President Johnson yesterday issued a call for a special meeting of all the club owners of the American League, to discuss league matters. This session was set for Monday morning in Chicago.

Change is Necessary.

Johnson's forces, consisting of the Cleveland, St. Louis, Detroit, Washington and Philadelphia clubs, while agreed that a change is baseball is necessary, in the light of the recent scandal exposed, object to the feature of the Lasker plan of baseball re-organization which calls for a governing body of disinterested parties to succeed the present National Commission.

A special meeting of the National League club owners has been called for Monday by President Heydler. The joint meeting Monday afternoon of National and American League club owners has been expected for some time. Many minor league club owners and managers will spend Monday in Chicago and Tuesday the storm centre will move to Kansas City, where the National Association meets.

Raymond Botcazon Wonderful Golfer

(London Daily Mail & Cross-Atlantic)

London, Nov. 4.—A wonderful French boy golfer was seen in the Kent professional championship won by Abe Mitchell on the North Foreland links at Broadstairs. He was Raymond Botcazon, who has competed in the British open championship.

Broadly built, with the physique, indeed, of one several years his senior, but the pink-and-white complexion of boyhood, young Botcazon astonished everybody by his feats.

He was coupled, with the famous Abe Mitchell, and a large crowd followed. Very soon the onlookers found themselves equally interested in the boy—the youngest competitor in a professional competition seen in this country for a long time.

At the start he hit his shots almost before he had had time to think about them. His impulsive energy—evident in a youth who was making his debut in big golf and before a crowd—settled into the calm, calculating methods of a veteran when a friend gave him the hint to "take things more easily."

A critical gallery had no embarrassment for him. The farther he went the better he became, and in the end he gained eighth place in a field of 32 competitors.

His scores were 81 and 77. His 77 in the afternoon was only three higher than the best round of the day—74 by Mitchell and H. C. Jolly, who tied for first place. "He plays as coolly and easily as a champion" was the remark heard on every side.

At two holes in the morning—the sixth and the ninth—Botcazon drove to within 20 yards of the mighty-hitting Mitchell, and the latter said afterwards that at each of these holes he obtained his best distance.

Botcazon did not do this every time, but his surprising energy and experience by what he did do. Especially good was his touch near the hole. He kept on saving strokes by means of delicately played and fantastically bigged running pitches, which left him sufficiently near to hole the putts.

He was discovered three years ago on the course at La Boule, Versailles, by Lord Northcliffe, for whom he acted as caddy there. He is going to spend the next six months at Broadstairs to learn club-making and develop his game.

He has been playing golf since he was 6 years old. He begins his back swing like Arnold Massy, the great English golfer, on whose methods he has evidently moulded his style. Impulsively keen—he practices early every morning, and, indeed, whenever he is not studying club-making—it will be a surprise if he fails to make a big name for himself in golf.

STOPPED THE BOUT.

Toronto, Nov. 5.—After warning Reary Vaeger of New York in his third round for not trying in his bout here tonight, with a boxer said to be "Frisco" Franklin Burma, the boxing commission ordered the bout stopped in the fourth round and held up the money coming to them.

New York, Nov. 5.—Elmer E. Shaner of Pittsburg, who for more than a quarter of a century was identified with the management of all the big trapshooting contests held in the United States and Canada, yesterday was elected president of the American Trapshooting Association.

MANAGER BURKE RELEASED.

St. Louis, Nov. 5.—Jimmy Burke yesterday was released as manager of the St. Louis American baseball club. No successor was announced.

Burke became manager in the middle of the 1918 season, succeeding Fielder Jones.

New York, Nov. 5.—Joe Lynch, New York bantamweight, knocked out Abe Goldstein, also of this city, in the eleventh round of a fifteen round match at Madison Square Garden tonight.

American League President Talks

Ban Johnson Intimates There Will Be No Joint Session in Chicago Monday.

Chicago, Nov. 5.—President Johnson of the American League, today intimated that there will be no joint session of the major league club owners in Chicago Monday afternoon.

Johnson's stand was taken by fans to be his reply to the reports from New York that President Heydler, of the National League had issued a second invitation to the American League executive and to the loyal "five" club owners supporting Johnson to join with the National League and the Chicago, New York and Boston American League club in session here Monday afternoon.

President Johnson yesterday issued a call for a special meeting of all the club owners of the American League, to discuss league matters. This session was set for Monday morning in Chicago.

Change is Necessary.

Johnson's forces, consisting of the Cleveland, St. Louis, Detroit, Washington and Philadelphia clubs, while agreed that a change is baseball is necessary, in the light of the recent scandal exposed, object to the feature of the Lasker plan of baseball re-organization which calls for a governing body of disinterested parties to succeed the present National Commission.

Harvard Faces Princeton Today

Game Will Be Played in Harvard Stadium—First Since 1916.

Cambridge, Mass., Nov. 5.—The big football season will open here tomorrow when Princeton faces Harvard in their annual game, played in Harvard Stadium this year for the first time since 1916. The contest is the first of the triangular series of the so-called "Big Three," and apparently bringing together two well-matched eleven although the strength of combat teams does not lie along the same lines.

Harvard is expected to present a well-drilled and developed football machine, reasonably strong on both offensive and defensive, while Princeton is reported to have a looser but more brilliant individual attack and a defence which is far from being invulnerable.

Harvard is favorite in the betting. Last year the eleven played to a 10-10 tie. The Stadium, with a capacity of 40,000 was sold out two weeks ago.

Other important games scheduled for tomorrow are: Dartmouth vs Cornell, at New York; Nebraska at Pennsylvania State; Brown at Yale; Pittsburgh at Pennsylvania; Georgetown vs Navy at Annapolis; Boston College at Boston University; Maine at Bowdoin; Colgate at Rochester.

There was only one case before the court, but this was of considerable local interest, as both plaintiff and defendant are well-known and have a large number of friends. This was the case of the King versus George McKay, which was sent up for trial by Police Magistrate Peters, about three weeks ago. The grand jury, through their foreman, Wm. A. MacInch, found a true bill on account of charging the accused with assaulting Wm. C. Belyea, thereby occasioning actual bodily harm. On being arraigned, the accused pleaded "not guilty."

After several witnesses had been called for the prosecution, the counsel for the defence stated that the defence would call no witnesses. G. B. V. Belyea, K. C., then summed up for the prosecution, followed by A. R. Slipp, K. C., of Fredericton, for the defence. On being arraigned, the accused pleaded "not guilty."

The judge then charged the jury, who on returning into court, announced through their foreman, David Moore, that they found the accused guilty of common assault. Tuesday was occupied in expediting the jury, and taking the evidence of the plaintiff. On Wednesday, seven witnesses were examined, and on Thursday morning Judge Wilson passed the following sentence: "That the accused enter into recognition himself in the sum of \$400, with two sureties of \$200 each, to keep the peace for two years, and to come up for sentence if called upon. G. B. V. Belyea, K. C., of St. John and F. M. O'Neill, L.L.B., of Gagetown, were counsel for the prosecution. A. R. Slipp of Fredericton, for the defence. Reader, the whole world is today alive to the importance of a better general understanding of sex hygiene. The much-discussed science of eugenics is teaching the great mass of people that strong, healthy, rugged parents beget equally sturdy children.

Mathood, no matter where or in what condition of life we find it, is the single power that most fascinates both men and women. The one who radiates this manly influence, this result of a vigorous, sturdy nerve force, is the one who forges to the front, while weaker people stand aside.

It is my opinion that any man may hope for a complete restoration of his manhood and vigor if he but

By Maud E. Sargent. 'Oh! What are you doing, you small brown leaves, That float and whirl on the Autumn breeze, That bid you fall from your Summer home On the swaying boughs of the forest trees?'

The little leaves passed in their merry dance, And drifted down to the ground below; We are spreading a carpet for Winter's feet, When she comes this way from the Land of Snow.

We are hiding the spots where the violets grow In the fair Spring-time 'neath our parent trees, That they may slumber all safe and warm, By the side of the pale anemones.

The frail wood-sorrel may shelter here; We shall lie so thick o'er her sleeping face, Though the wild winds blow o'er the shuddering land, And the clouds hang low in the skies overhead.

What the queen came into the banquet hall, and spoke to her husband. 'O king live forever,' she said. 'Let thy face grow pale, there is a man in thy kingdom in whom is the spirit of the Holy God; him King Nebuchadnezzar, thy father, trusted. Now let Daniel be called; he will show us the meaning.'

So Daniel was brought before the king, who told him that the wisest man in the kingdom had been sent for. 'I have heard of thee,' he said. 'The spirit of God is in thee. Now if thou canst read the writing, and tell me what it means, thou shalt be clothed with scarlet, and shall have a chain of gold about thy neck, and shall be the third ruler in the kingdom.'

So Daniel was clothed in scarlet as the king had promised, and a chain of gold was put about his neck, and he was made the third ruler in the kingdom. But all the time the feast was going on, while Daniel was writing, while Daniel was explaining the four words, an army of shepherds, strong brown men, were stealing up the hillside, and they flowed through the city. Under the wall they crept without a sound; they hurried through the dark streets and surrounded the palace where the proud, had king had feasted, using the cups and bowls from God's house.

When morning dawned the whole rich city belonged to the shepherds who had marched silently up from their own country, and in the palace lay King Belshazzar, dead. Howler. Teacher: 'Who were the Pharisees?' Pupil: 'The Pharisees were people who liked to show off their goodness by praying in synagogues.'

Tom: 'Quick, call a doctor, Jack drank some ink by mistake.' Jim: 'Oh, that's nothing, let him eat some blotting paper.' Arthur: 'I am buying a bicycle on the installment plan.' Tom: 'Are you?' Arthur: 'Yes, I got the bill last night.'

Rich, Red Blood Necessary To Health

When the Blood Becomes Weak and Watery a Tonic is Needed to Build it Anew.

Why are we being continually told that good health-giving blood must be bright red? What has color to do with the quality? Just this—the oxygen in the air is the great supporter of all organic life. One function of the blood is to take the oxygen from the air—which it meets in the lungs and deliver it to the tissues of the body. When the blood, filled with life-sustaining oxygen, is sent out by the heart, it is bright red. When it returns, impure and deprived of oxygen it is dark.

You will see, therefore, that there are two prime requisites of health, pure air and bright red blood—the pure air to furnish the oxygen, the rich red blood to carry it where it is needed. Dr. Williams' Pink Pills make your blood rich and red because they increase its power to carry oxygen, actually making it so much more able to carry increased life and strength to every organ in the body. Pale anemic people whose nerves are on edge, whose cheeks are pale, and who tire too easily, should try Dr. Williams' Pink Pills and note the steady improvement that follows their use. A case in point is that of Mrs. J. P. Rolston, South River, Ont., who says:—About two years ago my system was in a badly run-down condition; and I kept growing worse all the time until I could hardly do my household work. I had severe headaches, and pains across my back and under my left shoulder. I did not sleep well and would feel just as tired when I got up in the morning as when I went to bed. Life seemed a burden. I had taken doctor's medicine for a long time, but it did not meet my case, at least it did me no good. Then as a result of reading about Dr. Williams' Pink Pills I decided to try them. When I had taken a couple of boxes I felt much better, and when I had taken five boxes more I felt that I was again a well woman. I have not since felt any return of the troubles and I advise all women who are broken in health to give Dr. Williams' Pink Pills a trial.

These pills are sold by all medicine dealers or will be sent by mail, post paid, at 50 cents a box of six boxes for \$2.50, by The Dr. Williams' Medicine Co., Brockville, Ont.

Of Course, the Women Liked It

On special occasions, such as an afternoon tea, the new Red Rose Orange Pekoe Tea had its first introduction to many of the women of Canada.

And at such times its extra qualities could be discussed and enjoyed at leisure.

The women found that its aroma is delicate and delightful, that it has a bright sparkling amber color in the cup, and that the flavor is of rare charm and distinction, while its strength is rich and satisfying.

The more-cultivated your taste, the more you will appreciate Red Rose Orange Pekoe Tea.

AS A WOMAN THINKETH

"And Never The Two Shall Meet." By HELEN ROWLAND

(Copyright, 1920, by The Wheeler Syndicate, Inc.)

Why she regards her sex so lightly—and takes herself so seriously. Why she will lead him patiently and skillfully to the brink of love—and then she deliberately around and walk back. How she can eat a man's-size beat, and yet appear to be merely toying idly with her fork.

How she can swathe her neck in furs and cover her ears with pads in August and yet look like a cucumber; how she can wade through a January snow-storm in satin slippers and open-work stockings and yet look like a rose.

Why she tells him everything before he has a chance to be curious about it, and then expects him to think her a fascinating "mystery."

Why she will denounce with rouged lips another woman who dyes her hair.

How she can face death, child-birth, disaster or war serenely, bravely and courageously—and then go all to pieces because she has to go to a party with a cold in her head or in frock that doesn't fit.

Why she considers herself an "honest woman," no matter how she cheats at other games, so long as she plays fair in the game of love.

Why she always overlooking an ideal opportunity for a sentimental tete-a-tete, and then later, when he happens to be in the mood, bungles around trying to set the stage for one.

How he can fall asleep right in the middle of an exciting quarrel. Why she gets angry at him just for diversion—and then forgives him just for the sake of his profile, his eyelashes, or the cleft in his chin.

Why she will tell him the honest truth about her faults, her failings and all her past loves (which he doesn't want to hear), and then lie to him about a little thing like the number of her shoe, the date of her birth, or the price of Paradise feathers!

WHAT WOMEN DON'T UNDERSTAND ABOUT A MAN. Why he regards his sex so seriously—and takes himself so lightly. Why he always overlooking an ideal opportunity for a sentimental tete-a-tete, and then later, when he happens to be in the mood, bungles around trying to set the stage for one.

How he can fall asleep right in the middle of an exciting quarrel. Why he always wants to plunge into a love-affair as though it were a swimming-pool—and dash out of it again as though it were a revolving door.

Why he lets his hair grow long on top—and then steaks it back as though he were ashamed of it.

Why he tries in every way under the sun to find out whether or not she loves him—except by the simple method of ASKING her.
