Wall Paper Season

is drawing near. Our new papers have been placed in stock, and we take pleasure in announcing to the public that we never had a larger, more select or more comprehensive range of wall decorations, than at present. A new feature of the trade this year is the fact that borders will be sold at the same price as the wall papers, for example, if you buy a paper at 25c. per roll, the border, be it 9 or 18 inches will cost just the same price 25c. This as you can readily see will make a large saving in paper hangings. Our papers are all marked, price per double roll. St John's houses and others quote price for single roll which is often misleading. It will pay you to buy from your own home merchants rather than from samples of outside houses who carry no stock here pay no taxes and get more price for their goods.

Paper from 9 cents per double roll. Borders the same price. Some beautiful selections in heavy gift at 40 to 50 cts., 18 inch border same price.

Now Look Out for WATCH TROUBLES.

The cold weather is apt to harden the oil that trains the main spring and effects the motion.

It's the wisest thing you can do to have your watch-mexa ined at this time of the year. If it is in good order we'll let it alone; if it needs repairing we'll do it thoroughly at a moderate price. If fact, however, your watch is cleaned as they ought to be, once a year. People usually wait until something breaks. The other way is the cheapest in the end, and saves money.

Governor Snowball Falls Dead in Street.

Veteran Business Man and Prominent Political Leader Goes to his Long Rest.

Sketch of Deceased's Enterprising and Useful Career.

Permit me to convey to you and the members of your family the sympathy of the Mayor and Town Council of the town of Newcastle in your bereavement in the demise of your esteemed and much beloved husband Governor Snowball.

(Signed)
P. HENNESSY,
Mayor.

The body was taken home by special train on Monday.

On the 5th instant, Hon. J. B. Snowball had completed his five years as governor. He was born in Lunenburg, N. S., on Sept. 24th, 1837, his father being the Rev. John Snowball, Methodist Minister. When quite young his family moved to Newfoundland, where they remained for eleven years. He was educated at Mt. Allison, where he graduated, and in the meantime his father was transferred to Chatham. He commenced his career in business in the fifties, entering into partnership with John McDougall, of Chatham, in a general store business which the firm continued, adding a lumber business, which assumed most important proportions. This grew so that J. B. Snowball was known as one of the largest lumber operators in New Brunswick, second only to Alex. Gibson. Some four years ago this business was formed into a joint stock company composed of J. B. Snowball and his sons. In addition to the lumber Mr. Snowball was engaged largely in railway enterprises and built the Chatham branch of the I. C. R. In 1874 he entered politics when he was defeated by Hon. Peter Mitchell. In 1878 he turned the tables, defeating Mr. Mitchell, and sat in the Commons from that date to 1882 when he retired. In May 1891, Mr. Snowball was called to the Senate and remained in that chamber until appointed Governor in 1902.

The deceased was twice married his first wife being the daughter of John McDougall, of Chatham, and his second, who survives, Maggie Ellen, daughter of Rev. Robert Archibald, of Scotland. By his first wife deceased had two sons, William B. of Chatham, and McDougall, of Pasadena. By the second wife one son, Archibald of Chatham, and four daughters, Frances, Laura, Lillian and Annie, the youngest daughter dying last year.

Mrs. J. L. Black of Sackville is a sister of deceased. Mrs. F. P. Thompson of Fredericton, another sister, died a few months ago, while his brother, Judge Snowball died a little over a year ago. The funeral will be held from his late residence in Chatham this afternoon, at 3.30.

NEW TRIAL GRANTED.

Thomas F. Collins under sentence of death at Hopewell Cape was granted a new trial by the supreme court on Friday afternoon. The judges were unanimous in condemning Trial Judge Gregory's charge to the jury, considering that he overstepped the mark and charged too strongly against the prisoner. The new trial will probably be before Chief Justice Tuck at the next Assizes Circuit Court in June.

Hon. Jabez Bunting Snowball, Lieutenant-governor of New Brunswick, dropped dead in Fredericton at 6.55 Sunday evening, while on his way to church. He had not been in very good health for some time past, but up to the last he was able to attend to his official and social duties. During the week he attended the forestry convention and at each and every session was a prominent participant. At the reception on Thursday evening Gov. Snowball, with the members of the government, received the guests at the parliament building and had a happy greeting for every one. Saturday evening his honor gave the usual weekly state dinner at the Queen's Hotel, and those who were present speak of the governor as being in the best of spirits and a most genial host. He seemed apparently in excellent health. Sunday morning he rose at the usual hour and after breakfast walked to the morning service at the Methodist church. That afternoon he rested quietly in his room in the Queen's Hotel. About

a quarter to seven in the evening, accompanied by his faithful attendant, Fred McKenzie, he started from the hotel for the cathedral, walking down Queen street, as was his custom, at a brisk walk. When he had reached the corner just above the cathedral, he turned and said that he thought he had walked too rapidly and was not feeling well and that he had better return home. Mr. McKenzie took his honor's arm and the two turned and proceeded back towards the Queen. Soon the governor collapsed and fell over into Mr. McKenzie's arms. Mr. McKenzie supported him against the snow-bank of the road and sent word to the Queen by a boy who happened to be passing for them to send for a doctor. The boy delivered his message to Mr. McCallerty, the latter telephoned Drs. Atheron and McGrath, and Mr. Osman, M. P. P., and John Sullivan of the hotel staff started down at once to assist Mr. McKenzie. With him they carried the governor up to his room in the Queen.

When the doctors arrived they found life extinct. Death must have followed within five minutes from the time of collapse, a case of heart failure. The governor had been suffering from grippe for the past two weeks, and the physicians said that grippe often resulted in sudden heart failure as in his case.

Premier Tweedie, who was in Chatham, was notified at once, as were the deceased's family and Sir Wilfrid Laurier. Mrs. Snowball and daughter, Miss Lillian, were waiting in Toronto, where his honor proposed joining them in a few days.

The following message of condolence has been wired to Mrs. J. B. Snowball, Chatham, N. B.

100 YEARS OLD.
Mr. Francis Harvey of 71 Lombard street, St. John's, was yesterday on the 21st. Up to last year he was quite able to do his own shopping, but lately his sight and hearing have somewhat failed and he has kept indoors. Mr. Harvey lived in English Settlement till six years ago, when he came to live with his daughter, Mrs. Jenner. He was born in Rappand, and came to this country in 1813. He remembers when the site of the Union depot was a millpond, and has shot wildfowl along a stream that ran near the old cemetery now in the heart of the city.

INDEMNITY DUE.

Now that the responsibility for the Beaver Brook tragedy has been definitely placed, we trust that the Dominion government will give a prompt and hearty response to the demands for indemnity preferred by the widow of the man killed in the wreck and by the injured survivors. The case is a clear one against the government, no matter up which man or men the responsibility is ultimately shouldered.

The workmen hurt in the accident are all entitled to damages. The ones least injured have suffered considerable loss, and many will not be able to work for a long time to come. Several will never again be the strong vigorous workers they were before; and one has passed away leaving a widow with two helpless children to be provided for. Such men as those, whom danger found at their posts returning from work in one place and ready to resume their labor on a moment's notice, are the bone and sinew of the nation. They are the men whom the world needs and without whom progress cannot be made nor civilization exist. They above all others are entitled to receive bountifully at the country's hands, especially as their remuneration has never been of such a nature as to enable them to lay sufficient by to insure comfort in a rainy day.

A LEADER GONE.

One of New Brunswick's most prominent and successful business men and political factors has passed away in the person of the late Honorable J. B. Snowball, lieutenant-governor. Like the Hon. Andrew G. Blair, he was taken away in comparative health and without any warning. In the midst of his duties he was called away to a higher life with a wider sphere of action. Ever a busy man, he built up industries on the Miramichi, that will long endure. The Canada Eastern Railway will be one of his monuments. And there are many others. To the bereaved family we extend our heartfelt sympathy. They will be partly consoled by the knowledge that many besides themselves will miss his kindly smile and assisting hand.

TIMELY RESOLUTION.

The resolution of the Board of Trade executive, found in another column, is untimely and important. Too strict scrutiny cannot, as the resolution puts it, be given to the Bill now before the House to change the charter and enlarge the sphere of the N. B. Telephone Company. All such companies need a stricter watch than has hitherto been kept upon them. While the people slept, the corporations have forged chains upon them that can only be broken with great difficulty. We have monopolies enough; let us see that another is not added to the number we already have to bear.

NEW ZEALAND.

The Colony of New Zealand, which has government ownership of all railways, telegraphs and telephones; woman suffrage; compulsory non-sectarian education; compulsory arbitration of all industrial disputes; an 8 hour working-day in all occupations; and the limitation by law of all landed estates, appears to prosper more than any other English-speaking country in spite of her Socialist legislation. There is neither pauper nor millionaire, it is said, now in New Zealand.

The High Commissioner of the colony in London has received in a

cablegram the following statistics for 1906:

Population, 909,000; value of imports \$74,214,000; value of exports, \$78,350,000. Principal exports: Wool, \$32,484,000; frozen meat, \$14,000,000; butter, \$7,604,000; phosphorus, \$3,775,000; kauri gum, \$2,686,000; cheese, \$1,664,000; output of sawmills, \$5,144,000; output of grain mills, \$5,144,000; output of breweries, \$2,786,500; and output of bacon factories, \$1,236,000. The total commerce of New Zealand is \$166 for each inhabitant. That of the United States is about \$34 for each inhabitant, that of Great Britain itself \$122 for each inhabitant.

N. B. MAN FOR WINNIPEG.

Not only in British Columbia, where three of them were recently elected to the Provincial Parliament, but also in Manitoba the men of New Brunswick blood are to the front in political life. Kempton McKim, son of Andrew McKim of Moncton, went west some four or five years ago, became president of the Typographical Union and also of the Trades and Labor Congress in Winnipeg, and is now the Canadian Labor Party's candidate in the provincial election for Winnipeg West.

WEDDING BELLS.

On Thursday, Mr. E. A. McCurdy, manager of the Royal Bank of Canada, accompanied by his sister Miss Nellie, and cousin Miss Hutchinson, bank stenographer, left by the Maritime Express for a trip to Clifton, N. S. The occasion for which was the marriage of Mr. McCurdy's sister Miss Annie to Mr. W. A. Henly of Nova Scotia. The marriage ceremony was performed Friday 22nd at 5.30, p. m. by the Rev. Mr. Cunningham of Clifton assisted by Rev. D. McCurdy of Halifax.

The bride looked very charming in a gown of white silk with lace trimmings. She wore a bridal veil and carried a bouquet of white roses. The room was very beautifully decorated with evergreens and potted and cut flowers. Mr. and Mrs. Henly took the train for Halifax where they will remain for several days before returning to their future home. Mrs. Henly's Newcastle friends wish her much happiness and prosperity in her married life.

Chapel Island Road, Feb. 18.—A pleasant evening was spent at the home of Mrs. M. O'Shaughnessy Tuesday. A lively interest was taken in the supper, which consisted of pancakes mixed with rings, buttons and a few other ingredients. Games and music was indulged in by all.

Mr. Wm. Ryan, whose house was burned last Friday, has the sympathy of the community in his loss.

We are glad to hear that Miss B. McKay is recovering from a very severe cold.

Mr. Fred Lumsden is enjoying a few days rest at his home at Trout Brook.

Mrs. Wm. Campbell visited friends in Newcastle last week. The fast horse owned by John R. Allison made the route from his camp to Newcastle a distance of 24 miles in one hour and 50 minutes. Clifford was the driver.

Miss Kate Kingston visited friends in Seville last week.

Mrs. T. W. Butler, "Millstream," who was confined to her bed for some time, is, we are delighted to say, able to be up.

We regret to say that Mr. Wm. Hoolehan has laid up for the past two or three weeks but glad to know that he is able to be round again.

Mrs. Carl Bersing visited friends in Trout Brook Thursday last.

STRONG RESOLUTION ADOPTED.

Board of Trade endorse Union of Municipalities and ask the Legislature to Watch the N. B. Telephone Co.

At a meeting of the Newcastle Board of Trade, held Saturday, Feb. 23rd, the following resolution was unanimously adopted:

Resolved, That, in the opinion of this Board of Trade, too close a scrutiny cannot be given to the bill about to be brought before the Local Legislature empowering the issuing of a new charter and an increased capitalization to the N. B. Telephone Co.

Further resolved, That this Board of Trade request the members of the Government and our Local Representatives to use every endeavor to guard the interests of the Towns and Municipalities in so far as this said Bill relates to them.

And further, Resolved, That this Board of Trade is in full accord with the work being done by the Union of Municipalities to safeguard the public interests and their efforts to prevent a monopoly in the case of the company above referred to.

Further resolved, That a copy of this resolution be forwarded to the members of the Government and our Local Representatives.

The annual celebration of the New Brunswick Veterans of the South African war will this year take the form of a sleigh drive and dinner at "Clairmont House," Torribon, on the evening of Wednesday the 27th inst. Coombs (chairman of Committee), Box 431, St. John, B.

SEALED TENDERS

Sealed Tenders addressed to the undersigned, and endorsed "Tender for North Head Wharf, N. B.," will be received at this office until Friday, March 15, 1907, inclusive, for the construction of a combined Breakwater and wharf at North Head, Grand Manan, Charlotte County, N. B., according to a plan and specification to be seen at the offices of E. T. P. Shewen, Esq., Resident Engineer, St. John, N. B., Geoffrey Stead, Esq., Resident Engineer, Chatham, N. B., on application to Postmaster at North Head, N. B. and at the Department of Public Works, Ottawa. Tenders will not be considered unless made on the printed form supplied and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, for two thousand five hundred dollars (\$2,500.00), must accompany each tender. The cheque will be forfeited if the party tendering declines the contract or fails to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED GELINAS,
Secretary,
Department of Public Works,
Ottawa, February 16, 1907.
Newspapers inserting advertisement without authority from the Department will not be paid for it.

HIS CONSTITUENTS.

Mr. Loggie Reminds the Government of their Duty to those Hurt at Beaver Brook.

On the 20th Mr. F. A. Lawrence M. P. for Colchester, moved in the Commons for information re all accidents on the I. C. R. A vigorous debate ensued; the speakers on both sides of the house agreeing that it should be made easier to collect damages from the government for accidents sustained on the I. C. R.

In speaking to Mr. Lawrence's motion, Mr. W. S. Loggie said:— It is not necessary for me to go over what has been already said. I take this opportunity of bringing to the attention of the House how serious a matter it is. During the first week of this month twenty-six of my constituents were injured on the Intercolonial Railway and one was killed in an accident on a working train. These men were loading wood for the pulp mill of my town and while the train was being moved it collided with another train, so that twenty-six of my constituents were injured, some of them very seriously, and one was killed. This is only another instance of the importance of dealing with these matters in the most liberal manner possible. Of course, it would be unfair to say at the present moment that this special case will not be dealt with in a liberal manner. It is already before the minister. I have laid the matter before him and I am advised that there are two lawyers on their way from my county to press it upon the minister. I am not apprehensive that in this case justice will not be done because the evidence seems to be that the officials of the Intercolonial Railway were to blame, and if that is proven I presume that a reasonable compensation will be made to the families of the man deceased and also to them who were injured. I take pleasure in endorsing what has been already said and in urging upon the Minister of Railways and Canals—

Mr. TAYLOR. Who is not here. Mr. LOGGIE. Well the Minister of Railways and Canals will go doubt hear of it. He is not here but the right hon. Prime Minister (Sir Wilfrid Laurier) is here and that will meet the case. I would urge upon them that they consider the propriety of amending the Government Railways Act to make damages as easily obtainable by those who have just claims as the damages obtainable by those who have claims against a corporation railway.

OBITUARY

Mrs. John Potter of Kouchibouguac died on the 20th, aged 73 years. She was the daughter of the late James Sutherland of Richibucto. She left seven children—Jos. B., Greenville, Me.; Wm. Vancouver; David C., Sunny Brae, N. B.; and Mrs. Wm. Tweedie, Mrs. John Tweedie, Mrs. Jas. Grogan and Mrs. Wm. Beattie of Kouchibouguac.

Francis, Joseph, son of Mr. and Mrs. Colin McKinnon of Douglas town, died at Fredericton, Friday last. He was attending Normal school, being a very promising young man in his nineteenth year. He had had a very severe attack of la grippe, and hurt his spine while playing basket ball. The funeral took place in St. Mary's R. C. Cemetery here, on Monday afternoon.

Mr. James Shaw died in St. John on the 18th instant, in the seventy-fifth year of his age. Deceased was in poor health for over a year. Wm. Shaw, Esq. M. P., is his only surviving brother. He leaves a family of eight children. They are by his first marriage: Wm., Fred., George, barrister, and Mary of St. John, and Albert E., druggist of Newcastle; by his second marriage: Ethel, Harry and Irwin, all in St. John. Mr. Shaw was the founder and proprietor of a large business in St. John. Funeral took place on Wednesday, from his late residence on Hazen street. Deceased was a Presbyterian. For one term he was one of the St. John Co. Councillors.

The death of Mrs. Ginton took place at Bathurst on Sunday. The deceased lady left three sons and a daughter. Her brothers are Jas. of Newcastle, and James of North York; and the sisters: Mrs. Ramsay of New York, Mrs. E. P. Williston, Newcastle.

LETTERS TO

THE EDITOR.

Mr. Robichaud Replies to the Leader—Other Correspondence.

The Editor Union Advocate:

Dear Sir,—

In reply to my letter, the Leader says that nobody said anything about my independence. The editor of that paper had not, perhaps, directly criticized my attitude, but his editorial, if it were written consciously, implied as much. He now thinks that the side of the question concerning my independence must not be taken into consideration. In short, he endeavors to dictate to the public what it must infer from this controversy. Our readers, as arbitrators know what to think of this. They understand that it is most advantageous to the "Leader" to eliminate from the question any legitimate arguments. They are able to discriminate sound principles from the confused and stagnant in the sanctum of the Pleasant Street Editor. They also are aware whether or not, the principles propounded by that editor are elastic and thoroughly adapted to his inconsistency and his pusillanimity.

My brother-editor still persists in believing that it is contrary to "sound journalistic principles" to issue from the same office two papers advocating different causes. I do not agree with him on this point. He brought out the charges, but proved nothing, whilst according to the spirit of the English code whoever formulates the charges must prove them.

However, I will say to the editor of the Leader that this question should be discussed from a religious and national as well as from a political point of view. Now, every one will admit that it is not contrary to good principles for a firm to publish an English and a French paper. In such cases, would the two papers be required to work for the same nationality? and, if the two respective editors be of different creeds, would it be possible to have them support the interests of the same religion? And would the publishers, who, for the sake of pecuniary speculation, would maintain two such papers, be violating the supposed-to-be principles of journalism?

My opponent agreed to assent to my views if I would give instances in support of my cause. Very well! A few years ago Mr. Langlois, editor of "Le Canada" of Montreal, was a candidate in a bye-election in an electoral division of Montreal. His opponent was the then proprietor of "Le Canada," but this paper supported the cause of Mr. Langlois and the latter was elected. And does my brother-editor know that the Butcher's Journal, an independent paper of Fredericton, is issued by the publishers of the Daily Gleaner, a conservative organ?

Let the editor of the "Leader" shun my reply as "a piece of impertinence." I will prove the charges I have brought against him in the first paragraph of this letter. He said that it was according to sound principles that the publisher of any paper should sanction what the editor deems proper to insert into the paper. Next in trying to refute my "insinuations" he referred me to the top of a column of the Leader where is printed: G. F. McWilliam, publisher; J. S. McDonald, editor. Finally he declared that he flatters himself to have both the ability and independence to form and express his own opinions.

Where are his "sound principles" in that? Or doesn't that prove that he does not practise what he preaches? I will not be too obstinate in my argumentation. I will admit that in cases, such as the one just referred to, it is necessary to the welfare of the paper that the publisher assume the responsibility of its editorial department. I will go further; and let suppose, for a moment, that it be not in accordance with journalistic principles to publish two papers professing different policies and let us apply it to our case. Then Anslo Bros. would be charged with violating the right principles but could not be held responsible for the deleterious effects it might produce, for by granting me the liberty I now enjoy, and which they cannot revoke unless by suspending the publication of La Justice, they were not aware of the consequences ensuing from such an agreement. They would be accused of imprudence but not of betraying our political principles.

However unworthy I may be to do so, I will venture to give an ad-

NORTHUMBERLAND HAPPENINGS.
What is Occurring on and Near the Miramichi.

WHITNEYVILLE.

Whitneyville, Feb. 20.—The North York House, cook house, occupied by Mr. and Mrs. Melvin Sutherland, was destroyed by fire on the morning of the 11th. A defective flue was supposed to be the cause. By hard labor they managed to save the store in connection with the house.

So far the month of February has favored us with pleasant weather and good roads.

Mr. and Mrs. L. Newton Thorne spent two days, recently visiting Mrs. Wilbur and Mrs. Elsie Somers who are spending the winter with their husbands in the lumber camps. They report a pleasant trip.

Some of the faithful fishermen vice to the editor of "The Leader." I advise him to study a little more about logics so that he may acquire the ability, if his intelligence is not too superficial and if there be any possibility of improvement, to write an editorial, half a column long, without repudiating in the last paragraph, what he has enunciated in the first.

Like the man who struggles to rescue himself from the waters into which he has fallen, and who clings convulsively to little twigs that float by, the editor of "The Leader" resorts to all subterfuges to justify himself in the perilous position into which his "sound journalistic principles" and his exuberant self-conceit have led him.

Thanking you, Mr. Editor, I remain
Yours truly,
D. T. ROBICHAUD.
Newcastle, N. B., Feb. 25, 1907.

To the Editor Advocate:—

Dear Sir,—

I see that in the Local Legislature, Mr. Sweeney, Surveyor General, is trying to make some changes in the game law. He would like an increase on the price of Local license, which is very unfair. I think the license fee is all right the way it is and puts big money in the chest, by the figures brought forward in the last sitting of the present house at Fredericton. Be careful, gentlemen, don't press us too hard. If there is an increase in the local license, there will not be so many bought. But the game will be killed, just the same, by poor men that are not able to buy licenses, if there comes an increase in the price. There are too many changes in the game laws now. They had better leave good enough alone and give us a fair deal.

There will soon be an election and you will want our votes. So give us fair play.

TROUT Mezzwork

The undersigned have received from Mr. Nash of Maine the agency for New Brunswick for his famous trout mezzwork. A trout mezzwork is one half the fish as mounted upon a silver-plated stand as to mount the fish out in cold water, giving the effect of an oil painting, as whole fish, with the real thing in show of your prowess. The process of preserving fish in this artistic way was discovered by Mr. Nash in 1900, and patented by him.

same principle as the dairy school instructors. D. Buckley seconded the resolution which carried.

On motion of J. F. Gregory and Hon. Allan Ritchie, the following resolution passed unanimously:—

"Inasmuch as the survey and exportation of lumber act as now on the statute books, is antiquated and not applicable to the present conditions and methods of carrying on the lumber business.

"Therefore resolved that in the opinion of this convention a new act should be prepared without delay, and we suggest it would be best to appoint a commission for the purpose."

On motion of A. H. F. Randolph and E. Hutchison, the following also passed unanimously:—

"Inasmuch as in the opinion of your committee there is at the present time no adequate system of fire protection for crown lands in the province of New Brunswick.

"Therefore resolved that the government be requested to take prompt action towards the establishment of organized fire protection so that the same may be in operation by May 1st next."

On motion of F. M. Anderson, the following passed, 28 to 1:—

"Inasmuch as this convention is called to devise methods of conserving our forests for posterity, so as to be a source of income for all time to come, and whereas at the present time large quantities of logs and pulpwood are being exported to foreign countries for manufacture there instead of within the province, which practice is destructive to the forest, and without due compensation to the population.

"Therefore resolved that in the opinion of this convention the export of saw logs and pulp wood cut on crown lands, should be prohibited."

This closed the business of the convention and Premier Tweedie, after thanking the delegates for their attendance, adjourned the meeting sine die.

At a meeting of seventeen persons, mostly lumbermen, Thursday afternoon, it was decided to form a forestry association for New Brunswick. Hon. J. P. Burchill presided. A committee composed of J. Fraser Gregory, J. D. Hazen, A. F. Randolph, Recorder Skinner and J. P. Burchill, was appointed to draw up a constitution and by-laws and submit the same to another meeting to be held in the near future.

Don't Condemn Yourself to Bright's Disease

TAKE GIN PILLS NOW

Bright's Disease claims its thousands yearly mainly because people won't heed nature's warnings.

Pain in the back and constant head-aches mean: Kidney Trouble. Swollen limbs and ankles, and pain in the joints mean: Kidney Trouble. Frequent urination, urine dark and smelly mean: Kidney Trouble. Night-urination, urine dark and smelly mean: Kidney Trouble. Head-aches, dizziness, and ringing in the ears mean: Kidney Trouble. If you suspect they are affected, give them the help they need—GIN PILLS. Taking GIN PILLS regularly restores the kidneys to normal, and restores strength—corrects every kidney and bladder trouble.

Myerson, May 1st, 1907. I suffered from Bright's Disease for some time. I was greatly troubled by it. My back and joints were in such bad condition I could not lift or stand without great pain. In fact, the medical men said I would never get better. I was in such a bad way, working all the time at heavy work, on the railroad, and did not have a day's rest.

And they are sold on a positive guarantee that they will cure you or money refunded. Put them to the test with the understanding that you must be honest and not waste money. I have used GIN PILLS and I can say that they have cured me. I am now as well as I ever was. So, wherever you are, GIN PILLS are just what you need in your own case, that you will send you a free sample to try. Write, mentioning this paper, to the Role Drug Co., Winnipeg.

PETITION THE GOVERNMENT.

Teachers' Association Ask For Living Wages and Consolidated Schools.

PENSION SYSTEM WANTED.

Government Asked to Fix Minimum Salaries to be Paid by Districts.

The following petition was presented to the provincial government last week:—

To His Honor, Jabez Bunting Snowball, D. C. L., LL.D., Lieutenant-Governor of the province of New Brunswick, and the Members of the Executive Council.

The petition of the New Brunswick Teachers' Association hereby humbly sheweth,

That, it is now generally admitted that the salaries paid to teachers in the public schools of the Province are entirely too low as compared with those of other professions. The time and expense now required to qualify for the teaching profession, and the inadequate remuneration coupled with the greatly increased cost of living during the last few years; prevent many suitable persons from entering the profession and are continually forcing those engaged in teaching to leave and take up more lucrative employment. By far the greater number of those who are now teaching have been so employed less than three years. While it is highly desirable that Teaching should be a permanent profession, conditions are all against young people taking it up as a life work.

The rewards of Teaching remaining in most cases stationary, the young men and women who enter the profession as a mere stepping-stone to better paid employment, soon leaving their schools to the charge of others as inexperienced as themselves in the art of training the coming manhood and womanhood in rural districts are being supplanted by second, and second class by third and, in many cases, by untrained teachers holding local licenses only. More than this, the Chief Superintendent's report for 1903-1904 shows that during the term ending June 30th, 1904, there were 407 districts in the province without teachers of any kind; the children of those districts being totally deprived of educational advantages. Conditions in 1904-1905 were very little if any better than in the previous year.

Wherefore, your petitioners, in order to have such a serious state of affairs remedied as soon as possible, pray that your honorable body will introduce into, and recommend to the favorable notice of, the Legislative Assembly at its coming session, amendments to the School Law along the following lines:

First—No further issuance of local licenses; and cessation, as soon as possible, of the further issuance of third class licenses, all of the latter at present in force, to remain so during the pleasure of the Board of Education or Inspectors.

Second—Each parish (as far as may be found practicable) to constitute a single school district with a school board elected or appointed as the legislature may determine. Among the important duties of the parish school board would be the grouping of the present districts and the establishing of central graded schools wherever the conditions would permit, the employment of competent teachers and the local supervision of all the schools of the parish by the agency of a paid secretary. The minimum rate of assessment should not be less than one-half of one per cent. of the assessable valuation of the parish. The sum thus raised, supplemented by the county fund grant and a special provincial grant for poor parishes equal to the amount now paid to poor districts, would, on an equitable basis, be sufficient to provide much better school privileges for all of the children than many of them now enjoy. It would assure a more intelligent and effective administration of the law. It would enable the trustees to increase the local salaries of the teachers by at least fifty per cent. without increasing too heavily the burden upon the locality.

(Instead of \$30, as at present) to be paid directly to teachers out of the county fund, on 1 that, in order to meet this additional claim upon the fund, the amount levied upon each county to be equal to thirty cents for every inhabitant of the county instead of thirty cents as at present.

Fourth—The provincial grants to teachers of the first and second classes, after two years of service in the public schools, to be increased by ten per cent. for the third year, and by a further ten per cent. for each additional year thereafter until a maximum of \$200 per year for first class male teachers; \$180 for first class female teachers; \$120 for second class male teachers; and \$100 for second class female teachers. As the provincial grant to principals of superior schools, after two years' service in the superior schools, to be increased by ten per cent. each additional year thereafter until a maximum per year of \$150 be reached.

Fifth—The Legislature to set for all districts (as at present is done for Grammar and Superior schools) the minimum salaries to be paid teachers by the local school boards.

Sixth—The inauguration of a liberal Pension System for Teachers who have served considerable time in the profession, no reduction in regular salaries to be made therefore. Such a provision would encourage more men and women of talent to remain Teachers.

And as in duty bound your petitioners will ever pray.

are sold in every season. No one can deny that the colds, coughs, and bronchitis, which are so common in winter, are the result of a weak and diseased system. The body is not able to resist the cold and the disease is the result. McGale's Butternut Pills are the only remedy that will cure the cold, cough, and bronchitis, and restore the system to its normal state.

LIFE GROWING SHORTER.

Are We Really Dying Earlier Than Our Grandparents Did?

In part one of the third volume of the United States census for 1900 will be found a fabulous statement which shows in a very striking way the rise in the death rate during the decade from 1890 to 1900 for all ages from sixty up. The figures given are now six years old, and so I have brought them up to date with the help of fresh information from Washington, a matter of no little importance, inasmuch as the increase has been marked ever since 1900. Thus corrected for accuracy the reckoning shows that since 1890 there has been this increase in the death rate for the entire United States:

For people of ages from 60 to 64, 7 per cent.
For people of ages from 65 to 69, 6 1/2 per cent.
For people of ages from 70 to 74, 10 1/2 per cent.
For people of ages from 75 to 79, 7 per cent.
For people of ages from 80 to 84, 15 per cent.
For people of ages from 85 to 89, 12 per cent.
For people of ages from 90 to 94, 30 1/2 per cent.
For people of ages from 95 and up, 30 1/2 per cent.

These figures tell the story more clearly than the most eloquent discourse on the subject. They show that, notwithstanding improved medical knowledge and the benefits of modern sanitation, we are dying earlier than our grandparents did. The reason why offers a topic for a considerable discussion and is not to be summed up in a word. But one may discover it without much difficulty in the more complex and luxurious life that we lead. The lives of our forebears were comparatively simple, and their constitutions, unweakened by the luxury and intense nervous strain of an existence like that of today, were stronger than ours and better able to withstand the approaches of disease.—Reader Magazine.

Defying the Teeth of Time.

The Hungarian chemist Brun claims to have discovered a liquid chemical compound which renders certain kinds of matter proof against the effects of time. He asserts that it doubles the density of nearly every kind of stone and renders it waterproof. It imparts to all metals qualities which defy oxygen and rust. The professor says that while traveling in Greece some twenty-five years ago he noticed that the mortar in stones of ruins which were known to be 2000 years old was as hard, fresh and tenacious as if it had been made only a year. He secured a piece of the mortar and has been working on it ever since, until now, when, he says, he has discovered the secret. His discovery, he claims, will at the least double the life of metal exposed to the air, such as in bridges, railroads, vessels and tanks.—Consular and Trade Reports.

A Jewish University.

By the will of Moses A. Dropsie a sum of money has been set aside for the purpose of founding a Jewish university. At a meeting held at the home of Judge Mayer Sulzberger in Philadelphia, at which Judge Sulzberger, William B. Hackenberger, Dr. Cyrus Adler and Oscar S. Straus were present, it was decided to apply to the commonwealth of Pennsylvania for a charter for an institution to be known as "The Jewish university, founded by Moses A. Dropsie." The university will be established in Philadelphia, and it is expected that it will co-operate with other institutions which have been established for the promotion of Jewish learning.

The Truth, the Whole Truth.

A worthy squire had a cow that always kicked and reared when milked. He decided to get rid of it and calling the squire hand, told him to take the animal to market.

"Sell the brute," he said, "but mind you, tell no lies. I've been unlucky in my purchase, but that's no reason why I should deceive others."

Two hours later the man returned from market with a larger sum than the squire had expected. "I'm sure you lied about that cow," he said.

"Not a bit of it," replied the man. "Every time I was asked if she was a good milker I simply said, 'You'll get dead tired of milking before you've got all her milk.' They asked no other questions, so that I didn't volunteer any more answers."—Bon Vivant.

The Next Step.

The schoolmaster of a small village asked his pupils the following question:—

"In a family there are five children, and the mother has only four potatoes between them. How does she manage to give every child an equal share? What is she going to do?"

Silence reigned while everybody thought hard till a little boy stood up and gave to the great surprise of the master the following answer:—

"I wash the potatoes and give each child one."

The regular meeting of the Newcastle Board of Trade will be held next, Monday evening, March 4th, in the Town Building. A full attendance is requested, as matters of great moment will come up for discussion.

When the new shops at Moncton, and more will be taken on at once in a short time the foundation of the locomotive shops will be commenced. By spring, when the buildings are ready, 600 men will be needed.

At Woodstock, Saturday, J. K. Fleming, M. P. P. B. F. Smith, M. P. E., and Mayor Donald Munro were nominated as the opposition candidates at next provincial election. Messrs. Morrison and Morley of Newcastle were among the speakers at the convention.

Mrs. Ward, an old lady who lives alone in part of Mr. T. M. Stewart's home on Castle street, was found on Monday morning unconscious and paralyzed, and is in a very critical condition. She had evidently been trying to light or fix the fire when the stroke came upon her. She was lying upon the floor when found.

Mrs. John M. Case of Waterloo Street, St. John, while in the house alone Saturday night, fell in a faint, breaking a lamp and setting fire to the house. She was burned to death. She had been troubled for years with a weak heart, and had complained that day, but had refused to have medical assistance. She was found lying partly over the bedroom doorway, evidently having been seeking to reach the bed to lie down, when she succumbed, the lamp shattering with her fall.

On the 15th inst., Mrs. Wm. Mann, sister of Mr. Jas. Falconer of Newcastle died in Ottawa Hospital, after a long illness. Her husband and son Wm. were absent on the G. T. survey in the west. Though ill so long, her death was very sudden and unexpected. The deceased lady was nearly 65 years old. Besides her husband, five children survive. They are: Robert and James of Cincinnati; Harry of New York; George, of Montreal; Wm., Mrs. Leach of Salem, Mass.

CANADIANS TO THE FRONT.

Former Residents of Miramichi Doing Well in New York.

The following is a clipping from a recent issue of the N. Y. Evening World, concerning a former resident of the Miramichi:

"Mr. John Flanagan, the well known dry-goods merchant, Vice-President of the O'Neill-Adams Co. will sail to-morrow on the White Star liner 'Cedric' on an extended European tour. Mr. Flanagan will be accompanied by his wife, his daughter, Miss Elsie Flanagan, and Herbert Adams, son of Samuel Adams, President of the O'Neill-Adams Co."

"Mr. Flanagan has been closely and potentially identified for the past quarter of a century with the development of Sixth avenue as a retail trading centre, having established there the house of Adams & Co., later incorporated as the Adams Dry Goods Co., and now merged in the O'Neill-Adams Co., which grew under his energetic management from a small shop to be one of the great landmarks of retailing, of which the city of New York has reason to be proud."

"Mr. Flanagan has been at all times most assiduously attentive to the exacting demands of his business, and this trip is the first time in twenty years that he has taken anything like an extended relaxation from business cares."

The many friends in Newcastle of Mr. Larkin J. Buckley will be pleased to hear of his advancement to position of Dept. Manager for Millinery Dept. of B. Altman & Co. one of the leading retail shops of New York City.

Mr. S. Clay Adams has been appointed to position of Buyer and Manager of Silk Dept. for O'Neill Adams Co.—Adams store—being one of the youngest and most successful buyers of this line in Greater New York.

The arrival in New York of Mr. Geo. Dalton, lately with D. Morrison, who has obtained a position with O'Neill Adams Co. ever ready to receive bright young Canadians.

ANOTHER SHIP GOES DOWN.

The mail steamer Berlin, from England, with 91 passengers and a crew (mostly English) of 50, was wrecked off the Hook of Holland, at the entrance of the River Maas, leading to Rotterdam, shortly before six o'clock Thursday morning. A terrific southwesterly gale was blowing right ashore and drove the steamer on a sand bank close to the northern jetty as she was trying to enter the new waterway. The ship was quickly pounded to pieces. She broke in two, and sank immediately. One man came ashore alive that day. Next day eleven more were rescued, largely through the efforts of the Prince Consort of Holland, and on Saturday three more were saved, making 15 in all.
