COMMON PLEAS.

The following is Mr. Justice Abbot's charge to the Grand Jury, at the opening of the Court of Common Pleas, on Tuesday last:—

Gentlemen of the Grand Jury, Owing to the absence of my seniors, I am unexpectedly called upon to preside at the opening of this Court, and it becomes of course my duty to address you upon the occasion.

The Licence Law which has just been read to you, gives you in charge to make diligent inquiry and to make presentment of all and every person or persons who may have been guilty of any breach or offences against this Law; and the Act of Assembly empowers you to compel by Subpoena from the Court, the appearance before you of such persons, as you may have cause to believe, can aid you in your inquiries by their information upon oath against offenders.

You will no doubt, Gentlemen, feel incumbent upon you to use every vigilance in the performance of this duty, as it is not only due to the Law, that offenders should be punished by the fine it imposes, but it should be looked carefully after, in aid of the funds of the County, as the fines to be collected and the monies to be received for Licences under this Act, constitute a principal part of the resources of the County, and lessen in a proportionate degree the amount required to be raised by taxation the necessary expenditure.

I am happy, Gentlemen, to have it in my power to state to you, that at present there is no criminal matter before the Court to trouble you with, and it is to be hoped that nothing may occur during the Session requiring an indictment. It is however a part of your duty to make presentment of any, and all public nuisance, which may come under your own view, or that you may have information on the complaint of others.—You will no doubt, feel the importance of this duty and give it all due attention.

You will have in pursuance of the Act of Assembly, the Accounts of the County laid before you for your action upon them as the Law directs.

The Accounts of Collector of Rates in the several Parishes will probably require of you as strict and critical examination, as any that will be before you, and great care is requisite to see that there is no fallacy in the account, and that it is correct in respect to outstanding debts, and especially in regard to such as have been reported to a Magistrate, and against whom the Collector as plaintiff has (in conformity to law) obtained Execution.

Error has heretofore crept into Collectors Accounts presented here at the Sessions, by the Collector's crediting himself with the amounts due from this description of delinquents as so much money lodged in the hands of the Magistrates, who issued the Execution, thereby lessening his own liability to the County and charging it upon the Magistrate who in point of fact, has no such money in his hands and perhaps never would have—the proceeds of the Executions being collected by the Constable being always at the command of the Collector, and invariably paid over to him as Plaintiff in the case, the amount should therefore remain at his debit, and not to his credit, in his Account current with the County. To avoid less to the County these particular items should of course be critically looked after.

The Coronor's Constables, and certain other officers have their fees, mileage, &c., regulated by Law, and in passing upon their Accounts whether by the Magistrate, or by the Grand Jury, it is only requisite to ascertain that the charges are in conformity to Law.

Other Miscellaneous Accounts which may come under your inspection, and on which you may make presentment and which may require the exercise of your discretion as to the reasonableness and justice of the charges, your care will be gentlemen, that this discretion shall be a lawful, proper and sound one—and it should be seen of course that all the amounts against the County, are accompanied with proper and satisfactory vouchers.

And here it may not perhaps be improper for me to make some additional remarks on the subject of these Accounts, and of matters connected with them relating to the general affairs of the County, more especially as there has been got up of late a considerable degree of excitement respecting them, and attempts have been made to attach blame to the Magistrates concerning them. You must all be aware that the County has of late years been at great expense in the purchase of grounds, and in erecting a new Court House and Gaol; and although it has had in aid of this outlay large Legislative Grants, yet not in sufficient amount to meet the whole cost, and at same time to de-

fray the ordinary expenses as they occur from Session to Session and year to year; and the County has been obliged to resort to loans to make up the deficiency—the balance still due on these loans form the most important item of the present County debt; and the ordinary expenses of the County are unavoidably great, and are probably much enhanced by reason of not having from time to time, the means to make prompt payment, and thereby securing the advantage which ready money always commands, and which you well know is in this country upon an average equal at least to 25 per cent.

I repeat Gentlemen, that the affairs of a County like this, cannot be managed and carried on without necessarily incurring heavy expenses, and you will have ocular demonstration of this truth in the amounts which will be laid before you. We live under a Government of Laws, and those Laws must be administered and carried into effect, it is for the safety of life and property that they should be. Public justice cannot be stayed—and when complaints are made under the Laws to the Magistrate—he cannot turn round and say to the complainant, or party aggrieved, that Justice cannot be had in the premises, because, farsooth, it may occasion expense to the County.

The Legislature enact Laws and in those enactments assign certain duties to the several officers appointed to execute them;—allowing them certain fees for the performance of those duties; which they having performed, they are entitled to claim and receive from the County the amount of their lawful fees. It is their fees and certain fixed salaries of the several Offices of the County,—the necessary incidental expenses attending the sitting of the several Courts during the year, and the allowance made to the keeper of the Gaol, together with the ordinary daily expenses and maintenance thereof, which make up the great aggregate of County expenditure—and which gives rise to the Annual claims upon it.

Now, Gentlemen, when the accounts of their several claimants, are rendered as they usually are at the Sessions in April and Sept. the Magistrate then in Session are in duty bound to receive, examine, and audit them with the same eye to strict and impartial justice as if it were a matter to be adjudicated upon between one individual and another, and they cannot refuse an order for the payment of them if they are found to be properly vouched, correctly stated, and in conformity to Law.

Accounts thus audited, and passed the County, by the Constitution of the Government under which we live, is bound to pay; and if the County is deficient in funds to meet the payment, and has no other source of revenue at command, it must of necessity, (under leave of the Legislature) resort to taxation for the purpose.

In Years gone by, when the expenses of the County were comparatively small, the Revenue arising from the operation of the Licence Law was of considerable amount, and then went far towards meeting the expenses;—but as the County has increased in population its Courts have been multiplied—its business and expenses have of course immensely increased—and the source of revenue here adverted to, has within a few years greatly abated, and but a very trifling sum is now realized from it. The falling off of the income from this particular source, although it leaves a very perceptible deficit in the ways and means of the County—ought not to be a subject matter of too much regret—but rather perhaps of gratulation—inasmuch as it is indicative of the progress of that great moral reform which under the influence of our "Temperance Societies" is now so happily prevailing in this community. And it will probably prove in the end much more for the real benefit and interest of the people at large, that they are subjected to an increase of direct taxation in order to meet the present exigencies of the County, than that the excessive use of spirituous liquors should with all the attendant evils become again, as formerly, prevalent in the County.

The Parochial rates for the support of the Poor are separate and distinct from the charge against the County, but these together with the High Way taxes in the "money districts" (so called) and prescribed by Law in some of the Parishes, swell up the amount of money taxation, and of course add to the burdens of the people and consequently more or less to their discontent, naturally producing in hard times, like these a state of things highly favorable to the designs of the Demagogue and Agitator, furnishing him with an opportunity which he rarely fails to avail himself of, in order to effect his inflammatory purposes. But the Poor we have with us always, and they must be taken care of and it cannot possibly be the fault of the Magistrate that this tax upon the people is necessary.

The substitution of a money tax for labour, under the limits prescribed by Law, although it may operate rather severely on some individuals who are very poor, and who can not easily pay in labor than in money, yet on the whole I believe it is generally thought to be highly beneficial to the public; and I know that under the excellent management of the road Commissioners in the Parish of Saint Stephen, where I reside, it has produced at a much cheaper rate a greater improvement in the roads, streets, and bridges, than ever before in the same length of time has been effected under the day labour system. The High Way Law taken as a whole, we all, I believe, think and feel to be very unequal in its apportionment of labour, and in its general operation; but Gentlemen—this is no fault of the Magistrate. We have not the making of the Laws, neither do we or the Grand Jury, come here to find fault with the Laws—but each in our own proper sphere to administer, fulfil, and to obey them.

I do not know how you, and others, may view the matter, but I have myself ever considered it a great misfortune to the County that some three years since when the Magistrates applied to the House of Assembly for an Act to authorize the levy of an assessment in order to pay off the then County debt—that our immediate Representatives in that House should have felt it to be their duty to oppose the passage of the Bill;—and which opposition alone the Bill was defeated, and no assessment allowed to be levied on the County that year. The consequence was that when the Bill of the next year was passed that when the debt had greatly accumulated, and the County was obliged to be taxed nearly double what it would have been the year before, and this was but a small part of the evil—for the year when the business of the County was good, and in a flourishing condition, and the people well able to bear taxation; but the year following that in which a Bill was finally obtained—was one of great depression in business, and was a greater hardship for most of us to pay a shilling that year, than it would have been to pay five shillings the year before.

This made a wonderful difference and occasioned a great deficit in the Collection of the Assessment, whereby much loss resulted to the County, and severe hardship to the people. And I sincerely believe, we may fairly attribute to this circumstance and its consequences, an aggravated accumulation of our difficulties and our present embarrassment.

I am sorry Gentlemen to have detained you so long, and I should not have thus extended my remarks upon this one subject had it not been for the excitement abroad before alluded to, and which seems to have left an unfavorable impression on the minds of many worthy persons in regard to the management of our County affairs; and I have gone more into detail than what perhaps might seem necessary on this occasion, and more than I should have done, had I not been desirous to invite your particular attention to it, and induce you to a thorough investigation of the matter—not only for your own satisfaction, but for the better information of the people. Every thing is open to you and to the Public.

I know of no impediment or hindrance to the most strict scrutiny into all the matters connected with our County affairs, the Books of the Treasurer and the Files of the Clerk, are equally open to inspection; and through the well known courtesy of both these Gentlemen, applicants may at all proper and convenient seasons be sure to obtain every necessary information, and every requisite explanation.

It is certainly very important and highly desirable, that every effort should be made, and every practicable means adopted, not only by the Magistrates but by all concerned, to lessen the expenditure, and to promote a sound, frugal, and rigid economy in the management of our County affairs.—And gentlemen any suggestions from your lending to this effect, I feel confident will be well received by the Magistrates, and all due attention paid thereto; and I feel myself warranted in assuring you, that the Bench will cheerfully co-operate with the Grand Jury in all lawful and proper measures, tending to so desirable an end.

I hope and trust, Gentlemen that we may soon have it in our power to congratulate each other on the return of better times, and a more prosperous state of the business of the County, and that there will be less discontentment amongst us, and less cause for it.

Oregon Emigration.—Preparations are making on the whole frontier, says the Western Journal, by the Oregon Emigrants to leave at Savannah, another from some point between that and this, and the Company from this county will leave at Fort Leavenworth in its neighbourhood. One of the emigrants who goes with the Savannah company informs us that not less than one hundred families will leave at Elizabethtown, and thirty families from the other point. The number from this county, we presume, will be considerable. They expected to leave about the first of April, if the grass is sufficient, or as soon thereafter as it is.

St. John Agricultural and Horticultural Society.—A meeting of the officers of this Society took place at the office of M. H. Parley, Esq. the Corresponding Secretary, on Thursday last, when it was reported to the Board, that the funds in the Treasurer's hands amounted to one hundred and sixty-five pounds, the whole of which was at the disposal of the Board. It was thereupon resolved that a Mill for the grinding of bones, should be established as soon as practicable, in the vicinity of this City, and the sum of one hundred pounds was set apart for that purpose. Mr. Robert Kelie, Mr. Robert Jardine, and Mr. Thomas Triston were appointed a Committee to make all necessary arrangements for erecting the Bone-Mill, and getting it into operation.

A resolution was next passed for expending the sum of Forty Pounds in Agricultural premiums, to be distributed at the Annual Fair, in this City, next October, and the President named Messrs. Kelie, Jardine, N. Creighton, H. Binkley, W. Jack, and M. H. Parley, a Committee to settle the scale of Premiums, and manage all the business of the Fair.

It was then Resolved, That the sum of Five Pounds, should be given this season as Premiums on Horticultural productions, of which a show should take place at a proper period during the Summer. For this purpose, Mr. Thomas Allen, of Portland, Mr. John Harris, Nurseymen, and Mr. Longmaid, of the Customs, were added to the list of Directors, and appointed a Committee for the management of the Horticultural Show, and the distribution of Premiums. It was proposed that this Show should take place at the long room over the Free Market House, in Portland.

The tenth article of the Constitution of this Society is as follows:

"That to encourage the exertions of the humble Emigrant Settler, and others in remote or wilderness districts, Committees formed of two members, resident in the different Parishes of the County, visit their locations, at such time as their judgment may suggest—inspect their location and condition, with any other matter which may offer itself to the discretionary consideration of the Visitors, and report the same to this Board, who will take such means as may come under its power to reward their past industry, and stimulate their future exertions."

In order to carry into effect this article, Mr. Peter Dewar, of Black River, Mr. Nugent Creighton, of the Marsh, and Mr. Parley, Emigrant Agent, were appointed to visit the new Settlements in this County, and recommend such of the humbler class of Settlers to the consideration of the Board, as they might find deserving of encouragement, either for superior skill, energy or industry.

The Committee for managing the Annual Fair, were directed to make arrangements for the members of the Society dining together on the Fair-day, as a means of promoting a better acquaintance among the members of the Society, and creating a warmer feeling towards the encouragement of Agriculture in this County.

We understand that the Society expect a considerable supply of seed grain and other seeds, of kinds not usually imported, by the Canmore, which vessel would sail from the Clyde, about the 15th March; and we congratulate the farmers of this County on the spirit with which the Society is now conducted, and the success which has so far attended its efforts.—*Courier.*

Combined Evils of Intemperance.—Its march of ruin is ever onward! It reaches abroad to others—involves the family and social circles—and spreads woe and sorrow all around. It cuts down youth in its vigor manhood in its strength, and age in its weakness. It breaks the father's heart—bereaves the doting mother—extinguishes natural affection—erases conjugal love—blots out filial attachment—bright parental hope, and brings down mourning age "in sorrow to the grave." It produces weakness, loss of strength—sickness, not health—death, not life. It makes widows, children, orphans, and beggars. It hails fever—feeds rheumatism—nurses gut—welcomes epidemics, invites cholera—imparts pestilence, and breeds consumption. It covers the land with idleness, poverty, disease and crime. It fills your jails, supplies your almshouses, and demands your exchequer. It engenders contumacious—fosters quarrels—and cherishes rife. It condemns laws, spurs, order and governs mobs. It crowds your penitentiaries, and furnishes the victims for your scaffolds. It is the life blood of the gambler—the prop of the highwayman, and the support of the midnight decedent. It countenances the liar, respects the thief, and esteems the blasphemer. It violates obligation, reverence, fraud, and honors infamy.

A Good Reason.—A yankee the other day conversing upon the relative power pos-

sessed by England and America, observed that America would have walked an army into England and taken it during the last war, only she did not want to assume its national debt.

Whaling Business in the Pacific, 1844.—The Honolulu (Sandwich Islands) Friend of Sept. 24, contains the following paragraph, relative to the whaling business in the Pacific during the past season:

In looking over the lists it is gratifying to observe that so many ships are full and home-ward bound. Although the number of ships have been uncommonly large upon the N. W. ground, yet scarcely any whales were reported by these masters! From various inquiries we learn that they average about 100 barrels each. We have heard of one ship that took a whale yielding 225 barrels. It is no matter of surprise that such huge Leviathans often strike terror in the minds of their pursuers, or that the water should not be rare when there would really be a failure in prosecuting this species of hardy enterprise.

FIRST PIG, THEN PUPPY.

When I first commenced preaching, an old minister told me the following story, which has been of use to me. It may be of use to others. In years past and gone, lived a minister by the name of Place. He had more than a common "gift of gab," and was very desirous of pleasing his hearers. An old brother by the name of Windsor, was fond of the company of Elder Place, and used to fetch and carry him on his preaching tours. On one occasion, as Elder Place came near the place of his appointment, he asked brother Windsor what the people generally believed where he was going to preach. The brother told him it was none of his business, but it was his duty to preach what he believed himself. But Elder Place made inquiries and found the people were mostly Unitarians; so he preached that which would not hurt any Unitarian. On their way home, brother Windsor said to Elder Place, he would tell him a short story, as follows:

On a certain holiday a man of good property wished to give the minister a pig. He caught a pig, tied his legs, and put him in a basket, covered him up, and directed his negro boy to carry him to the minister, and tell the minister that he might kill it, and eat it, or he might raise it. The black boy on his way stopped to see the military parade, and some young men, wishing to have a joke, slipped out the pig and put in a puppy. The boy went to the minister's house with the puppy, and did his errand to the minister, saying that his master had sent him a present, that he might kill it, and eat it, or he might raise it.

On the minister opening the basket and seeing the puppy, he says to the boy, "Does your master mean to insult me? I do not wish to raise a dog, neither do I wish to eat a puppy." The black boy looked at the puppy, stated, and told the minister, "He is a pig when I started with him."

On his way home he set down his basket, and the young men drew off the attention of the boy, while they slipped out the puppy and put in the pig again. When the boy got home, his master asked him how the minister liked his present. The boy says, "He no like it; when I get there he turn into puppy." The man opened the basket, and lo! the pig was there. The boy looked at the pig, stared again, and said, "Well, if you be pig when you mind to, and puppy when you mind, I fetch and carry you no more."

This story is a good rebuke to many ministers. There is much preaching that is sometimes pig and sometimes puppy—just to suit the times.

According to the Cincinnati Mirror, a man who was lately hanged in a neighbouring State, for burglary and murder, confessed under the gallows, that his career of crime began by stopping a newspaper without paying for it.

Fish Spoke.—A Dr. Gardner, who has written an interesting account of the Oregon gives the following relation respecting the immense number of fish in Columbia River. It is considerable of a "Fish Story," but the Doctor, it is said, may be relied on. He says: "I have ascertained already the existence of six different species of salmon in the Columbia river; the period of spawning of each is different; they are found to run up to the very sources of this river, rapids and cataracts to the very mouth, as without digressing—It is common to find them in the months of November and December, as the heads of these streams, in such quantities as to choke up the current, and die by thousands." Further, he adds, "such are their efforts to ascend, that not only become entangled, but actually wear off their scales in the severity of their struggles."

SUMMARY OF NEWS

The London Times speaking of the elevation of Lord Metcalfe to the Peerage says—

His elevation to the peerage is, no doubt, a reward, and a grateful reward to the successful statesman, as embodying the highest possible testimony of his countrymen, to the reality of his services, and to the truth and importance of the principles which he has maintained and carried out; but, in point of actual fact, Lord Metcalfe is now enjoying a testimony to the soundness of his policy more decisive and convincing than even the united voice of the British Empire, receiving, in two words, the testimony of success. Honour is something, and the honour of the British Peerage is much; but to win it more—

The ennobling of Sir Charles Metcalfe is an act which confers as much honour upon the nation which pays, as upon the man that receives the tribute. It identifies the country at large with the policy and principles which the Governor-General has so well and ably maintained. The Constitutional position of the Canada in the Empire at large, and their participation at home in the blessings and benefits of legitimate freedom, are for the present established. Whatever becomes of the future, Lord Metcalfe's Peerage will, at all events, be a monument to posterity of this amount and it is great amount of praise.

Military Discipline in the Tower.—The extent to which the regulations of the service are carried in this ancient fortress is but imperfectly known to the public. One of the customs is most singular, and calculated rather to excite the laughter of the spectator than to strike him with feelings of approbation at the regulations observed. The ceremony alluded to is that of securing the gates at night, on which occasion a sergeant, corporal, and twelve men, accompany the warder whose duty it may be to perform the office.—As the guard passes each sentry, the usual challenge of "Who comes there?" is given, to which the warder replies "Keys." "What keys?" continues the sentry—"Queen Victoria's keys," says the sentry, and onward the escort passes. On arriving at the Spur-gate the officer on duty and the main guard turn out, and immediately salute the "keys," by presenting arms. The warder then takes off his bonnet and reverently exclaims, "God bless Queen Victoria's keys," to which the whole guard responds "Amen!" A few weeks only have passed since a schismatic Scotch grenadier was consigned to the black-hole for three days, for refusing to join in this extraordinary benediction. In justification, the man said he would bless the Queen with all his heart, but that his conscience would not allow him to bless the Tower keys.

ENCOURAGING.—The Provincial Parliament has made a grant of £250 for each district in Upper Canada, for the encouragement of Agriculture and Agricultural Societies.—St. Thomas Standard.

BARBADOS.—By the arrival of a vessel at Georgetown, S. C. on the 31st ult., advices have been received to the 28th of March inclusive, from Bridgetown. We notice in them that the Governor, Hon. Edward Grey, offers a reward, in connection with the local authorities of Bridgetown, of nearly \$1000 for the apprehension of the incendiaries who have on several occasions endeavoured to set fire to the town of Bridgetown, since the late destructive fire of the 3d and 4th February. These incendiary efforts have been made to such an extent as to cause general alarm.

Speaking of the Sugar crop of that island, the editor of the Standard states that a highly gratifying proof of the progress of the present year's Sugar crop, the activity of the planter in getting it to town, and the despatch which has been given to the home merchant vessels, may be gathered from the fact, that over 5000 hhd's besides several hundred tierces and barrels, have been shipped, down to yesterday.

Stationery for the Congress men.—The Clerk of the House of Representatives has advertised for proposals, for supplying the annual quantity of stationery for the members at the next session of Congress. There are wanted 690 reams of fool paper, 130 of note paper, 1000 reams of foolscap, 400 of carriage paper, 500 4-bladed and 150 2-bladed English penknives, and every so many steel pens, wavy folders, lead pencils, letter stamps, morocco portfolios, memorandum books, pen-holders, &c., &c., all to be of the very, very best—the paper extra superfine, satin finish, gilt edged, &c., and the knives of the best Pearl handles and highest finish.—How such luxuries would excite an editor, who nibs his pen with a single bladed American knife, and writes his lucubrations upon the back of old letters or upon outside quires of six and nine-penny pot paper.—Boston Traveller.

St. Croix.—The consul at this Port writes under date of March 12th, that a large quantity of staves and shingles has been found drifting about St. Bart's, St. Gustavia, and St. Martin's, also about St. Croix, which is supposed to have come from a vessel, named Elizabeth Foster, as one of the head boards was found, having that name upon it. It is supposed that she was lost on the island of Barbadoes, near Antigua. The lumber appears to be the growth of North Carolina.

Fruits.—We do not recollect, for many years, to have experienced so many cold days, at this season of the year. In warm situations, peach trees were in full bloom, and the fruit all killed. Very few live buds were left on the apricot, but a large majority of the

peach and nectarine trees, had not more than one-third of the buds killed, though there is danger that the fruit may suffer in quality and size. But few of the plum and cherry trees were so far advanced as to be injured. A few miles back from the river, vegetation is some days later than on the Ohio, and fruit, back from the river, it is presumed, has not been injured, in situations where the weather has been dry.—Cincinnati Gaz.

Later from Bermuda.—We have received dates from Bermuda to the 25th March, but find no news of importance. A piratical looking brig was seen off Turk's Island on the 15th ult., in chase of a topsail schooner.

The Legislature of Antigua has granted £10,000 toward the restoration of the cathedral, injured by the earthquake of February, 1843.

The Colonial Council of Martinique has granted 20,000 francs, and the Legislature of Barbadoes 10,000 dollars, towards the relief of sufferers by the late fire at Bridgetown. Renewed attempts have been made to destroy that city by fire.

A joint stock company has been formed at Demerara, to construct a railroad from Georgetown to the River Mahaica. Capital £100,000.

On the 6th February, a slave was brought in at Demerara, captured on the coast of Africa. A short time before she left Sierra Leone three slaves were brought in there, one of which had some 350 negroes on board.

A severe shock of earthquake was felt at St. Thomas on the 24th February. Sir Charles Fitzroy and Sir Henry MeLeod had returned from Jamaica to their Governments, without effecting the object for which the island governors assembled—the selection of a penal settlement for the West Indies.

Four Children Burnt to Death.—We regret to learn that on the night of the 19th or 20th instant, the house of Mr. McCarty of Beauharnois, took fire, and before the inmates were aware of the danger which they were in, four children were burnt to death; and the father and mother, had a narrow escape from the same dreadful fate; they were however considerably injured. They lost every thing the house contained.—Montreal Transcript, March 29.

WRECK OF THE BARQUE HIBERNIA.—A letter received by Messrs. Chubb & Co., from Brier Island, we regret to state, announces that the barque Hibernia, Capt. Lyon, from Liverpool, bound to this port, with a valuable cargo of merchandise, went ashore on the North West side of Long Island, near Brier Island, Nova Scotia, on Tuesday night last, 1st inst. in a thick fog and storm, and is a total wreck, only a small portion of her cargo being saved. Crew saved.—The Hibernia was a fine new vessel, being only on her first voyage, and was owned by Christopher Boultonhouse, Esq., of Sackville, Westmorland County, in this Province.

Since the above was in type we have been favored with the letter, from which we extract the following additional particulars.

The ship went ashore on the N West side of Long Island, on the night of the 1st inst. in a dense fog, and I regret to say, she has since broken up, and yesterday, when I visited the wreck, scarcely a vestige of her remained together. The sails, a small part of the running rigging, and a very small portion of her valuable cargo has been saved, none of which was landed until after the vessel commenced breaking up, and in consequence of a number of barrels of coal tar bursting. The little that is saved is completely saturated with it and of little value. The crew are all saved.

Despatches from Lord Stanley, relative to the interruption of the Post Office Packet Service between Nova Scotia and Canada, have been laid before the Assembly, in which it is stated that arrangements have been made with the Postmaster General of the United States, for the conveyance, throughout that country, of the British Mails to and from Canada. The letters will be forwarded through the iron-boxes, and placed under the charge of an officer appointed by the Postmaster General.—The first homeward Mail by the new route, will be despatched by the steamer to leave Boston on the 1st of May. The Contractors for the North American Mail Steamers make a considerable deduction in the sum they receive from Her Majesty's Government, in consequence of the discontinuance of the Usucors between Pictou and Quebec. Lord Stanley states that if the Legislators of Canada should be desirous of keeping up the Post Communication between Pictou and Quebec, by steam, there is now no other mode for accomplishing that object except by arrangements between the Province and the owners of the Usucors. We presume the steamers will still continue to land the Mails for Nova Scotia and New Brunswick at Halifax, as nothing to the contrary is stated in the despatches.

We observe by an official letter from the Post Office department at Montreal, that in future newspapers to and from England will be charged with a postage of one half-penny each, to be collected on delivery.

Trial for Murder.—Patty Wilson, for whose apprehension, Hue and Cry issued by the Sheriff of the County of Queen's in October last, on the finding by a Coroner's Jury for the murder of her child, having voluntarily surrendered herself for Trial, was, at the last Court of Oyer and Terminer for Queen's last Court of Oyer and Terminer for Queen's tried for such murder. After a painful investigation, occupying the whole day, the Jury

remaining but a short time from their box, returned a verdict of Not Guilty.—Loyalist.

The Boston Robber.—William Baird, who was arrested in this City, and delivered up under the Asaburton Treaty, was brought up for trial in the Municipal Court at Boston on the 29th ult., on an indictment charging him with burglary and robbery, in the House of Mrs. Blake on the 9th of February last. He pleaded guilty to the indictment, and was thereupon sentenced to four years imprisonment, with hard labour, in the State Prison of Massachusetts.—Courier.

PROVINCIAL SECRETARY'S SALARY.

Mr. Simonds gave his explanation of this affair on Tuesday last, and although there was a strong disposition manifested to doubt his sincerity, yet he could not be gainsayed. The explanation amounted to this;—that it was the Governor's intention to have drawn for Mr. Reade £150, and for Mr. W. H. Odell the sum of £50; but that those gentlemen did not wish to receive any part of their salaries until the decision of Her Majesty's Government was received, and the amount fixed; that it was necessary to draw the sum to pay the Clerks, and upon the suggestion of the Officers (Messrs. Reade and Odell) the money was drawn, and the balance placed in the Central Bank, to the credit of Mr. Reade, with the understanding, however, that it should not be touched until the decision of the Home Government is known. Now on listening to this explanation the following questions immediately presented themselves to our mind:—First, as the Clerks' salaries do not exceed £400 per annum, or £100 per quarter, why was not the draft confined to that sum, and the residue left in the Treasury until Her Majesty's pleasure is known? Second, why was the balance placed in the bank to the credit of Mr. Reade? Third, is not the sum thus placed to his credit in fact paid to him, or placed under his control as effectually as though it was at this moment in his own pocket? Fourth, what guarantee has His Excellency that Mr. Reade will ever pay back into the Treasury any part of the sum thus placed in his hands? Fifth, was not the whole explanation an after thought?—We should be sorry to charge His Excellency with intending anything unfair or dishonourable in this matter, but to do the least of it, it is an irregular transaction, and must give rise to speculation.—Loyalist.

LEGISLATIVE SUMMARY.

On Wednesday the House was engaged in passing several Bills. Mr. Hill offered a Resolution to the effect that the services of the Province Agent should be discontinued; this was opposed by Messrs. Partelow, Boyd and Connell; and it was lost on a division. Mr. Hill then moved another Resolution which went to reduce the salary to £100 after the present year, this was supported by Messrs. Brown, Boyd and J. A. Street; and opposed by Messrs. Simonds and Wilnot, and was finely negatived.

Yesterday we were engaged during the greater part of the day, in Reporting two Debates, which took place in the Legislative Council. The first was on the subject of a sum of £150 granted by the Lower House to the Hon. Thomas Baillie, as a reward for his services in connection with the exploration of the Canadian Boundary, and a Map and a Report which he published thereon. The other was on the subject of the Incorporation of the Roman Catholic Bishop of New Brunswick, and which was deemed of sufficient importance to warrant a call of the House; the Hon. Messrs. Chandler, Johnston and Hatch having returned from their homes in obedience thereto. The object of the call was to discuss the above Bill and it was after a long Debate which we intend publishing hereafter, postponed till the next Session of the General Assembly.

Mr. Partelow presented a Petition to incorporate a Gas Company in St. John, and an accompanying Bill on the subject. Both of the above Bills passed with little opposition. The Capital of the Gas Company is £30,000. Mr. Partelow stated, that the Common Council had assented to the principles of this Bill, and that the whole of the Stock would be disposed of without any difficulty; as a great part of it would be taken by English Capitalists. Mr. Wilnot reported the Address to the Queen on the subject of the Post Office Establishment, and at 5 o'clock the House adjourned.—Fredericton Reporter, of Friday.

Provincial Appointments.—The following Persons to be Superintenders of the several Great Roads undermentioned for the ensuing year:—George Anderson, St. John to St. Andrews; and Curry's Inn, Nerepis Road, to Yorkshire Tavern.

L. B. Rainsford, Fredericton to St. Andrews.—Waweig to St. Stephen. Oak Bay to Eel River.

QUEBEC, April 2.

Yesterday we were enabled to furnish our readers with His Excellency's Speech on the prorogation, and a list of the Acts passed and sanctioned during the session, together with those reserved for the signature of the Royal pleasure. The number of Bills passed and sanctioned amount to 107; the number reserved, 7; making in all 114 Bills. It will thus be seen that if we have not quantity, we have quality, in all conscience. The Courier alludes to a new feature in the prorogation, to the following effect:—

The Speaker of the Assembly in presenting the Money Bill for the Governor's sanction pressed the act by an address praying His Excellency's assent to these Bills. The Hon. Speaker at the same time took occasion to say that he had the gratification to announce to His Excellency that the House had voted a sum to indemnify certain of Her Majesty's subjects in Upper Canada who had incurred losses during the late Rebellion and that the appropriation had been carried by the votes of members differing in origin as well as politics. He also stated that in voting the supplies, the House fully adhered to "Responsible Government," which had been so graciously conceded by Her Majesty's Government, and that it was upon that principle that the Civil List had been granted.

Important to Bankrupts.—We are informed that by the Bill to amend the Laws relating to Bankruptcy, which has now passed the two branches of the Legislature, and will shortly become part of the Law of this Province, it is provided that all Certificates of conformity, to be allowed by any Commissioner, shall be considered as refused, unless the same be presented to the Court of Chancery for confirmation, within six months after the order of such allowance; and in case the six months shall have expired before the enactment of the contemplated amendment, within three months after the passing of the Act. So that, should the six months expire the day after the passing of the Act, the Bankrupt will be left remediless.—Head Quarters.

Our thanks are due to the Hon. Col. Bayly, for Legislative documents during the Session.

The Executive Council of Newfoundland, have withheld the grant of £1000 voted by the Assembly to the steamship North America, on the plea that the Steamer does not proceed direct to Newfoundland. They also express opinions of her unfitness for a packet in which opinion the Governor Sir John Harvey coincides. The North America has been examined by competent persons, and pronounced safe, and good enough for a Newfoundland Packet.

On the night of the 19th ult. the driver of a stage in Tennessee, was knocked from his seat on the box, stunned by the effects of lightning, which had struck near him, the horses were frightened and ran down an embankment, upsetting the stage and severely wounding several of the passengers.

The 23d of the present month has now been fixed upon by the Milleries for "this world to be caught up in the air to meet the Lord"—we quote their own words. Many deluded votaries of this belief in the Eastern States still continue idle, anxiously awaiting "the coming" and disposing of their property recklessly for the means of subsistence.

Holloways Pills and Ointment.—Professor Holloway, the discoverer and sole proprietor of these wonderful and extraordinary medicines, has, in consequence of their infallible efficacy, in healing, in the space of a very short time (when they are used together) the most dangerous wounds, ulcers, and likewise, King's evil, or scrofula, instructed all his Agents to return in future to persons whatever they may pay for these remedies, whenever they may fall in any of the cases, however desperate they may be, when properly tested, and found to fail.

Our thanks are due to the Hon. Col. Bayly, for Legislative documents during the Session.

The Executive Council of Newfoundland, have withheld the grant of £1000 voted by the Assembly to the steamship North America, on the plea that the Steamer does not proceed direct to Newfoundland. They also express opinions of her unfitness for a packet in which opinion the Governor Sir John Harvey coincides. The North America has been examined by competent persons, and pronounced safe, and good enough for a Newfoundland Packet.

On the night of the 19th ult. the driver of a stage in Tennessee, was knocked from his seat on the box, stunned by the effects of lightning, which had struck near him, the horses were frightened and ran down an embankment, upsetting the stage and severely wounding several of the passengers.

The 23d of the present month has now been fixed upon by the Milleries for "this world to be caught up in the air to meet the Lord"—we quote their own words. Many deluded votaries of this belief in the Eastern States still continue idle, anxiously awaiting "the coming" and disposing of their property recklessly for the means of subsistence.

Holloways Pills and Ointment.—Professor Holloway, the discoverer and sole proprietor of these wonderful and extraordinary medicines, has, in consequence of their infallible efficacy, in healing, in the space of a very short time (when they are used together) the most dangerous wounds, ulcers, and likewise, King's evil, or scrofula, instructed all his Agents to return in future to persons whatever they may pay for these remedies, whenever they may fall in any of the cases, however desperate they may be, when properly tested, and found to fail.

C. BERLOW, Junr.
Agent for the Sale of T. Gilbert & Co's
PIANO FORTES.

MESSERS. T. GILBERT & CO. are
surpassed by none, for the excel-
lence of their Instruments, both as regards
durability and richness of tone.
They have purchased the Patent right
for manufacturing and applying **COLE-
MAN'S EOLIAN ATTACHMENT**, by
means of which the capabilities of the In-
strument are greatly enlarged. By means of a
Bellows and sympathetic reeds the Instru-
ment is made to combine the additional
powers of the Organ.

This attachment can be applied to any
common Piano, at an expense of One Hun-
dred Dollars.

This compound Instrument has a great
variety of powers. By the use of a Stop it
becomes an Eolian Harp, by another a
Seraphine, and by another a full toned
ORGAN.
This valuable improvement has been
greatly admired and has received the full
approbation of the most eminent Professors
in the United States. It is now attracting
the attention of the "Musical World" of
Europe and is pronounced by them the
greatest improvement of the age.

All who wish to purchase a first rate In-

be supplied on application to the Subscri-
ber. All Instruments warranted to give
entire satisfaction.

A CURE FOR ALL!!

HOLLOWAY'S OINTMENT!

Extraordinary Cure of a Case
ADROBOD BY
**GUY'S THE METROPOLITAN KING'S
COLLEGE AND CHARING-CROSS
HOSPITALS, LONDON.**

This fact was sworn to this 8th day of March
1845, before the Lord Mayor at the
Mansion House.

SUMMARY OF AFFIDAVIT.

WM. BROOKE, Messenger of No. 2,
Union Street, Southwark, London, maketh
oath and saith, that he (this deponent) was
afflicted with **FIFTEEN RUNNING UL-
CERS** on his left arm, and ulcerated sores
and wounds on both legs, for which depon-
ent was admitted an out-door patient at
the Metropolitan Hospital, in April 1841,
where he continued for nearly four weeks.
Unable to receive a cure there, the depon-
ent sought relief at the three following
hospitals—King's College Hospital in May
for six weeks;—at Guy's Hospital in July,
for six weeks; and at Charing Cross Hos-
pital, at the end of August for some weeks
more; which deponent left, being in a far
worse condition than when he had quitted
Guy's where Sir **BRANSBY COOPER**,
and other medical officers of the establish-
ment had told him that the only chance of
saving his life was to lose his arm! The
deponent thereupon called upon Dr. Bright
chiefly known at Guy's who, on viewing
deponent's condition, kindly and liberally
said, "I am utterly at a loss what to do for
you, but here is half a sovereign to go for
Mr. **HOLLOWAY**, and try what effect the
Pills and Ointment will have, as I have
frequently witnessed the wonderful effects
they have in desperate cases. You can
not see me again." This unprejudiced
advice was followed by the deponent, and
a perfect cure effected in three weeks, by
the use alone of **HOLLOWAY'S PILLS &
OINTMENT**, after four Hospitals had fail-
ed!! When Dr. Bright was shown by the
deponent, the result of his advice and chari-
ty, he said, "I am both astounded and
delighted for I thought that if ever I saw
you alive again, it would be without your
arm. I can only compare this cure to a
charm."

Sworn at the Mansion House, of the city of
London, this 8th day of March, 1842.

IN ALL DISEASES OF THE SKIN.

Bad Legs, Old Wounds, and Ulcers, Bad
Breasts, Sore Nipples, Stoney and Ulcerated
Cancers, Tumours, Swellings Gout Rheuma-
tism and Lumbago, likewise in cases of Piles,
the Pills in all the above cases, ought to be
used with the Ointment; as by this means
cures will be effected with a much greater cer-
tainty and in half the time that it would re-
quire by using the Ointment alone. The Oin-
ment is proved to be a certain remedy for the
bite of Mosquitoes, Sand-flies, Chieftoot
Taws, and Cocco-bay

Horns, Scabs, Chilblains, Chapped Hands,
and Lips, ite Bunions and soft Corns, will be
immediately cured by the use of the Ointment.

THE PILLS are not only the finest reme-
dy known when used with the Ointment, but
as a General Medicine there is nothing equal
to them. In nervous affections, as well as in
all cases of general debility, or where there is

ODE.
The man whose mind, on virtue bent,
Pursues some greatly good intent,
With undiverted aim,
Serene beholds the angry crowd;
Nor can their clamorous fierce and loud
His stubborn honour tame.

Nor the proud tyrant's fiercest threat,
Nor storms, that from their dark retreat
The lawless surges wake;
Nor Jove's dread bolt, that shakes the pole
The firmer purpose of his soul,
With all its power can shake.

Should Nature's frame in ruins fall,
And Chaos o'er the sinking ball
Resume primal sway,
His courage Chance and Fate defies,
Nor feels the wreck of earth and skies,
Obstruct its destined way.

ANGER.
What if thy brother comes to thee
With rage upon his cheek,
'Tis better, thou shouldst pleasant be,
And not in anger speak.

If for a harsh word you return
Harsh language in reply,
You light a fire, perhaps to burn
Through years of misery.

PARACHINO.—Mr. Rowland Hill was a great observer of the different modes of preaching, and once drew up, in his peculiar style, a string of characteristics of the various kinds of pulpit orators. He thus describes them.—*Bold manner.* The man who preaches what he feels without fear or diffidence.—*Self-confident.* A man who goes by nobody's judgement but his own.—*Rash.* A preacher who says what comes uppermost without any consideration.—*Rambling.* A man that says all that pops in his mind without any connexion.—*Stiff.* One who pins himself down to think and speak by rule, without any deviation.—*Powerful.* The man who preaches from the bottom of his heart the truths of the Gospel with energy to the consciences of his hearers.—*Final.* Mince out fine words with nothing in them.—*Sober.* The man who lulls you fast asleep.—*Elegant.* The man who employs all his brains upon dressing words, without ever aiming at his heart.—*Concited.* Vainly aims at every thing, and says nothing.—*Welsh manner.* A man that bawls out very good things till he can bawl out no longer.—*Affectionate.* The happy man who feels for souls tenderly, preaches Christ affectionately, and yearns over souls in the bowels of Jesus Christ.—*Dogmatic.* A man who goes by his own brains, right or wrong.—*Peculiar.* One who picks into every body's thoughts, and thinks no one right but himself.—*Fanciful.* One who, instead of being led by wisdom, runs after a thousand visionary whimsies and conceits.—*Self-important.* Thinks nobody like himself.—*Noisy.* A loud roar, and nothing in it.—*Genital.* The vain fool that is fond of dressing up words without meaning.

HEALTH FOR ALL
Rattonised by the greatest Nobles
in the Land.
HOLLOWAY'S PILLS.

Justifying Cure of a Confirmed Liver Complaint
MRS MARY SANDFORD, residing in Leath-
er Lane Holborn London, had been in-
flicting for five years under the effects of disor-
dered Liver, which produced Indigestion, Sick Head
Aches, Dimness of Sight, Loss of Spirit, Irrita-
bility of Temper, Drowsiness, Occasional Swelling
of the Body and Legs, with general Weakness
and Debility. She attended the Hospitals, at dif-
ferent periods for about three years, but she only
got worse instead of better, and her recovery at last
appeared quite hopeless; yet notwithstanding her
very bad state, she was, in about two months,
restored to perfect health by the means of the
powerful and efficacious Medicine—HOLLO-
WAY'S PILLS.

Cure of Case of great Debility of the System,
occasioned by the baneful influence of Mercury,
and the injurious effects of a long residence in Tropi-
cal Climates, by HOLLOWAY'S PILLS.
A Gentleman in the East India Company's Service, and who had re-
sided for the last 17 years in different parts of India,
where his constitution had become much impaired
from the influence of the climate, and the injurious
effects of powerful and frequent doses of that dan-
gerous mineral, Calomel, which, together made
each towards his constitution, so to oblige him
to return home to England, and on his arrival he
sued himself for some time under the care of a
Medical Practitioner, but received no benefit from
that Gentleman's treatment. He was then advised
by a Friend (who had tried this Medicine) to
take a proper course of HOLLOWAY'S
PILLS, which he did, and in about Four Months,
his formerly shattered frame was so completely re-
stored as to enable him to prepare himself again
for his immediate return to India, whether he en-
terbed on the spring of the year 1844—
This Gentleman was last residing in Regent's
Park, where he was well known, in consequence
of his opulence and liberality.

This Inestimable Specific being composed of
the most medicinal herbs, is free from any mercuri-
al mineral or other deleterious substance. In-
noxious to the tenderest infant or to the weakest
constitution, prompt and sure in eradicating dis-
eases from the most robust frame, it is perfectly
safe and removes complaints of every character, and
in every stage, how ever long standing or deeply
rooted.
Of the Thousands cured by its agency, many
who were on the verge of the grave by prostrating
illness, are cured by its use, and their health and
strength after every other means failed.
All diseases (and whatever may be their symp-
toms and development, one cause is common to
them all, viz a want of purity in the blood and
Bile) are cured by this wonderful Medicine,
which cleanses the stomach and bowels, while its
Balsamic qualities clear the blood give tone and
energy to the nerves and muscles and invigorate
the system, and give strength to bone and sinew.
The most Afflicted need not resign themselves to
despair, but let him make a fair trial of the Right
Power of this astonishing Medicine, and he will
soon be restored to the blessings of Health.
TIME should not be lost in asking this remedy
for any of the following diseases—
Asthma Erysipelas Rheumatism
Gout Female Irregularities Retention
of Urine Bilious Complaints Fever of all kinds of the urine
Blotches on the Face Scite throat
Skin Gout Scrofula or
Hospital complaints Head aches Kings evil
Colic Indigestion Stone & Gravel
