

ARMY WORMS MAKE HEADWAY DAY AND NIGHT THROUGH FIELDS OF GREEN CROPS IN COUNTY

Tremendous Damage Said to Have Been Occasioned--Trenches Are Dug to Head Off the Progress of Voracious Insects Which Have Appeared in Millions.

"Army worms" are not very formidable objects to look at singly, but in the mass they spread destruction with a rapidity which more than justifies their title.

A Courier man yesterday took a trip through the lower end of Burford Township where most of the devastation thus far has been done and a marvellous yet sad sight was presented. Strong evidence of the invaders was first afforded about half a mile from Burford village. The insects were thick on the roadway and attacking the weeds and the grass alongside. They look like caterpillars and range in length from 3/8 of an inch to 1 1/4 inches. There is an erroneous idea that they breed rapidly; they don't. They do not propagate their own species at all, in fact there is apparently no sex. In the first place they are deposited as grubs in marshy places by a little yellow moth. Another insect usually feeds on them to extinction, but this year, owing to high water conditions have been such that they have been able to survive in portions of this country and to hatch out into worms. From that instant they march, or rather crawl forth, regiment upon regiment, battalion upon battalion, and woe betide the farms which lay in their paths.

The first premises visited were those of Warden Milmine, who has been a very heavy loser. He and his men were found hard at work trying to rescue as much as they could from the fields. The worms were in a field of seven acres, the party squashing worms with every step. The field was practically bare, whereas a few hours before it had a splendid crop of second growth corn, the first crop having been flooded out in the spring. It might be remarked that this whole district is known as the Kenny Creek flats. Right next to Mr. Milmine's is the farm of Mr. W. Carter. He had twelve acres of hay estimated to represent over twenty tons. The pests got at it, and it was only by great hurry that it was possible to save about five tons. It is the same story all around with regard to the field and pasture lands. Messrs Ernest Reid, Joseph Chant, John Chant, J. Kinsella, and many more have lost hundreds of dollars. The area affected in this district is about twelve square miles. In all cases there is a fight on to save as much of the crops as possible, but the loss in all will be tremendous. As the scribe was leaving Mr. Milmine's word came; "They're now in the oat field."

It is impossible to convey an adequate idea of the swarming multitude. They are on hand in millions, and so thick that they actually crowd over each other in their operations. The method of work is to start right at the top of the plant or whatever they are attacking and to eat it right down to the ground. Their appetite is voracious and seemingly insatiable, and they eat up everything which they assault with a rapidity which is incredible unless seen. They have only one redeeming feature, if any such insect can have even that, and this is that their life is short, from two to three weeks, and that they do not leave others to continue the destruction.

Methods of Fighting. To combat such a seething, all-devouring mass of busy workers, looks to be a useless attempt. However, under the direction of an expert from the Ontario Agricultural department, and another from Guelph Agricultural College, two gentlemen, secured on representations from Mr. J. H. Fisher, M.P., a determined effort has been made to abate the pest. Trenches have been dug around fields not yet invaded and also post holes. Into these the insects tumble by the hundreds of thousands, and they are then destroyed by pouring oil on them and then igniting it, and in other ways. There is a rumor that sixty years ago there was a similar outbreak at

How to Control The Army Worm. The Ontario Department of Agriculture to-day forwarded the following suggestions to the Courier as to control of the armyworm which is ravaging crops in this county. 1. Plough fields as soon as possible after crop is off, to prevent weeds springing up and attracting moths to lay eggs. 2. Use poisoned bran mash, applied about sunset; a spoonful or a little less dropped beside each plant is sufficient. Make mash as follows:—Place 50 lbs. of bran in a box, moisten with about 1 pint of water sweetened with molasses or cheap sugar. Add 1 pound of Paris Green by dusting a little over it at a time, then mixing well and repeating till the green can be seen everywhere through the bran. Do not add too much water, but just enough to moisten, so that the mash will fall through the fingers like sawdust. It is often desirable to scatter a little of this poisoned material over the ground a day or two before setting out cabbage or tomatoes to attract the Cutworms and kill them. 3. If the caterpillars are very abundant and marching in army-worm fashion, they can usually be stopped by ploughing a furrow with the steep side out ahead of them, though sometimes a regular trench is necessary. The soil on the outside of the trench or furrow must be dry and quite loose to prevent caterpillars crawling up. A fine-tooth garden rake may be used to loosen it after rains. Postholes can be dug at intervals in the furrow or trench to trap and destroy caterpillars. 4. As an extra precaution, spray the plants a yard or two in front of the trench or furrow very thoroughly with Paris Green, 2 lbs. to 40 gals. of water. 5. Where practicable, rolling a field after sunset or early in morning with a heavy roller kills many Cutworms.

ONE DEAD, THREE WOUNDED IN A FIERCE CHICAGO GANG WAR LATE LAST NIGHT

Clash Between Moral Department Detectives and Vice Leaders—Shots Rang Out Thick and Fast.

CHICAGO, July 17.—With one detective dead and three wounded as the result of a revolver battle last night in Chicago's vice district, officially reported closed, police officials tempted to-day to untangle the accounts of the fatal affray between members of the department. The dead detective, Stanley J. Burns, was a member of the regular plain clothes force. John C. Sloop, Burns' partner, was shot through the thigh. Joseph Merrill and Fred Amart, detectives of the morals squad, were wounded less seriously. James C. Carroll, who said he was an investigator and railway fireman, also was wounded.

In the investigation by Chief of Police Mason, two facts appeared to stand out; that the killing and wounding of the policemen were precipitated by a gang of levee characters; and that many of the volleys of shots fired came from weapons in the hands of the gangsters. It was thought that several of the crowd of vice district characters were wounded and had been hidden by their friends. The affray was possible because the moral squad men, Merrill and Amart, and Carroll, who was not a member of the force, did not recognize Burns and Sloop. Merrill and Amart had been policemen, but a short time. They had just raided a disorderly house and sent a wagon load of pris-

oners to the station. A gang of levee hangers-on, followed and hooted Merrill and Amart as they walked away from the place. "Look at the stool pigeons," they shouted. "Look out for the stool pigeons." Stones and bottles were thrown, and the detectives drew their revolvers. Burns and Sloop ran to disperse the mob. "Look out, they have guns," some one cried. Then the shooting began. Merrill declared that the first shot was fired by a man in the crowd who dodged behind a woman. Another woman had just fallen, he said, from having been hit by a brick. Merrill said that he emptied his revolver at the man. Clash of police activities in the vice district was disclosed in the shooting. Merrill and Amart were members of Morals Inspector W. C. Dannenberg's squad, which he had unexpectedly sent into the levee district to make raids. At the same time C. Funkhouser had a detail in the district for the same purpose, thinking that Dannenberg was on the north side of the city. Burns and Sloop were attached to the detective bureau, which is said to regard with jealousy the activities of the special detectives. The situation was finally dominated by the uniformed police, who dispersed the mob and held Merrill and Amart as witnesses.

SMASHED CAR. Mr. L. Brand's Auto and Street Car Collided on Colborne Street—A Mix-up. While attempting to avoid an oncoming street car, Mr. L. Brand, the well-known realty dealer, ran his auto into a farmer's buggy standing by the curb on Colborne street this morning, smashing several spokes and also slightly damaging Winter's grocery wagon, which was just ahead of the buggy. The auto was running very slow at the time, or the result might have been more serious. The body of W. H. Martson, the Hollinger assayer, who disappeared some months ago, was found in the bush with a bullet hole in the skull.

MRS. CARMAN WILL LIKELY GET OUT OF JAIL

Her Husband Willing to Go Bail For as High as \$50,000.

LONDON, July 17.—A militant suffragette to-day slashed with a butcher's cleaver the portrait of Thomas Carlyle, the Scottish historian, painted by Sir John Millais and hanging in the National Portrait Gallery. The woman was arrested after a severe struggle with the attendants and at the police station gave her name as Anne Hunt.

The attendants of the gallery, who since the occurrence of the recent militant suffragette outrages in the national institutions have been keeping close guard on the treasures under their care noticed a young woman walking from picture to picture apparently admiring the work of various artists. Eventually she came to the portrait of Carlyle and then quickly taking a butcher's cleaver from the folds of her dress, viciously attacked the painting. The female vandal had succeeded in striking the picture several blows before the nearest attendant could seriously damaged. The glass covering was smashed and a slit was made in the picture from the top of Carlyle's head right through the face to the chin.

WAS SENTENCED. MONTREAL, July 17.—A London cable says former Inspector of Police Syme, who has been on trial for criminally libelling the London police commissioner, Sir Edward Henry was yesterday found guilty, and sentenced to eight months imprisonment.

PHYSICIAN'S WIFE WHO IS ACCUSED OF FREEPORT CRIME, HER DAUGHTER AND IMPORTANT WITNESS AGAINST HER

Mrs. Florence Carman, wife of Dr. Carman, in whose office Mrs. Louise Bailey was murdered, has been accused of the crime. Arrested and arraigned before the Coroner in the parlor of her own home, Mrs. Carman was hurried away to Mineola and placed in the jail there. Little Elizabeth Carman, the nine-year-old daughter of Dr. and Mrs. Carman, testified that her mother went upstairs before the shooting and that she saw her in bed after the shot was fired. She said that when she was playing the piano her mother called to her from upstairs and asked her to stop playing. Her mother did not come downstairs after supper, she said. Elwood Barde is regarded as the most important witness against Mrs. Carman. He testified that on the night of the murder he left his home to call on Dr. Carman professionally. On reaching the physician's home, he said, he heard the shot and saw a woman on Dr. Carman's lawn about ten feet from the house. He asserts that the woman walked toward the rear of the house and he judged her to be the physician's wife, whom he saw early in June.

GUNBOAT SAYS HE WANTS TO FIGHT AGAIN

Was Dazed by the Cinematograph—That Foul Blow.

LONDON, July 17.—"Gunboat" Smith and his manager, "Jim" Buckley said to-day they intended to make a further effort to arrange a return fight with George Carpentier, the French heavyweight, who yesterday was awarded the decision at Olympia when Smith was disqualified in the sixth round for hitting the Frenchman while he was on the ground. Smith declared he was willing to meet the Frenchman anywhere at any time and should refer that the winner should take the entire purse or gate money. Carpentier would make no reply to Smith's offer to fight again saying the matter was one for the consideration of his manager, who had not had time yet to take the matter up.

SHACKS UP NORTH ARE A DISGRACE

Over 50 Prosecutions for Breach of Public Health Act.

Filth Discovered Borders Upon the Incredible.

TORONTO, July 17.—In connection with the enforcement of Provincial Board of Health regulations for the improvement of boarding houses for foreigners, a report from Dr. Edgerton George, health officer for the North Bay district, contains some disgusting revelations. Thirty-two prosecutions were made at Sudbury in one week and twenty at North Bay. The food in some of these places is kept in crevices on the shaky staircases, and becomes liberally impregnated with dust. Where the foreigners are charged only from five to ten cents per day for their lodging overcrowding and lack of ventilation may be expected, but there is a lack of personal hygiene among the masses which, related in detail, borders on the incredible. "Their bodies are dirty to the point of filthiness," the report says, "while carious teeth, nits in the hair, body lice, enlarged tonsils, adenoids and defective vision are other evidences of their unsanitary life. The floors are black with dirt, and in the spring and fall they are covered with mud. The men go to bed with their clothes and boots on. An explanation of the condition of the mattresses and the gray blankets hardly seems necessary."

BRYAN FAVORS VOTES FOR WOMEN

They Have a Right to Mould Character of Their Offspring.

WASHINGTON, July 17.—Secretary of State William J. Bryan, in a formal statement issued last night, came out for women suffrage. He declared that he would ask no political right for himself that he was not willing to grant his wife, and announced his intention of supporting the proposed state constitutional amendment extending the franchise to women to be voted upon in Nebraska next November. Woman, Mr. Bryan said, had proved herself equal to every responsibility imposed upon her, and would not fail society in this emergency. Above all other arguments in giving her the ballot, is the right of a mother to a voice in the moulding of the environment of her children. "The mother," the secretary said, "can justly claim the right to employ every weapon which can be made effective for the protection of those whose interests she guards, and the ballot will put within her reach all of the instrumentalities of government, including the police power."

Weather Man Promises Change

After the intense heat of yesterday the weather man has at last a cheerful message for to-morrow, the probabilities forecasting cooler weather. Yesterday the mercury registered 90 deg. in the shade, with a minimum temperature in the evening of only 68 deg. These temperatures would not have been felt nearly so oppressive had it not been for the lack of even a light breeze, and sleeping last night was anything but comfortable. To-day the mercury hovered close to 90, the humidity of the atmosphere making things worse.

### Women's Institute

The Terrace Hill and Grand View Women's Institute held their regular meeting on July 15th at the home of Mrs. Hamilton, Sydenham street.

After the opening exercises, the president, Mrs. Bayless, extended a hearty welcome to the Cainsville Institute, who kindly consented to furnish the program. Mrs. Bayless, president of the Cainsville Institute, was then given charge of the programme, which was as follows: Instrumental solo, "Angels of the Night," Mrs. Pappel vocal solo, "Last Night," Miss Norrie, accompanist, Mrs. Wilson; paper, "The Influence of Criticism," Mrs. Rose; instrumental solo, Miss Howell; recitation, "The Shadow on the Blind," Miss Burch; ladettes, "Kentucky Home," Mrs. Wilson, the Misses Norrie, Miss Smith; paper, "Helps Over Hard Places," Mrs. Foulger; vocal solo, "If I Had a Thousand Lives to Live," Miss Muffman. This brought a delightful programme to a close.

Mrs. Hurley and Mrs. Kinney were called on for a few words, to which they responded in well chosen and appropriate remarks.

A whistling solo by Mrs. Pappel was much enjoyed.

In Mrs. Rose's paper on "The Influence of Criticism," she said there were two kinds, one kind and helpful; the other harsh and cruel. In closing an appeal was made to cultivate the best in our natures, and to get more at the heart through kindness.

Mrs. Foulger's paper, "Helps Over Hard Places," dealt with the importance of having up-to-date conveniences in the farm house, mentioning many that make the work much lighter, but above all a good brain was the best labor saving machine. Mention was also made of allowing things to accumulate thinking they would come in handy some day. The farmer's wife was looking forward to the time when they would be able to wash, dry, and iron, sweep, dust, bake, churn and make up the butter with Hydro power.

At the close of the meeting refreshments were served and a social time was enjoyed by all.

### BARE WHITE SLAVE GANG

Two Women, Rescued in New York, Expose Syndicate—Two Hundred in Bondage.

Inside evidence of a gang of white slavers which has organized the traffic to the last degree of systematized commercialism has been revealed to District Attorney Martin, of Bronx county, N. Y., through the accidental rescue of Mrs. Delia H. Hanson and Miss Amelia De Grey. Letters and other papers captured at the time of the raids for the rescue of these women indicate the gang has stations in New York, Brooklyn, Jersey City, Newark, Philadelphia, Boston, Chicago, and towns in Connecticut.

In addition to learning of the system under which the white slave gang worked, the police discovered a clue to the disappearance of Rosie La Monte from Chicago. Letters spoke of "getting rid of Rosie because of her poor physical condition," and it is assumed she was murdered. According to stories related by Mrs. Hanson, who was lured from her home in Bridgeburg, Conn., and Miss Le Gray, who disappeared from Springfield, Mass., the 200 women in bondage to the gang are shifted from "station" to "station" much after the manner of vaudeville actors. They were referred to as "goods" and are always instructed that they need have no fear for the police as they are "fixed," in every city where a "station" is located. It is said the gang pays \$5,000 for police protection annually.

The man who is alleged to be head of the gang is Jim Wilson, though the police do not believe this is his right name. He is known to have lived under the name of John Panico, and has disappeared. The police are hopeful of obtaining further information from the correspondence, the most of which is in Italian. All of the men named in the details furnished by the women are Italians and seven are now held under \$10,000 bail. Wilson is alleged to have shipped leaving no "fall money" funds for expenses when his associates got into trouble. The date obtained by the police will be used in every city in which a "station" was located and all girls will be released after telling what they know of the band.

### Annual Picnic

The annual picnic of St. Jude's church choir was held last Wednesday. To the number of thirty they journeyed to Hamilton by Radial and from thence by ferry to Oaklands. The afternoon was spent in various games, sports and a game of baseball between sides chosen by "The Rector" and the choir. The picnic was very enjoyable and the Rector's aggregation showing by the score, the account of which was not accurately taken, but was somewhere about 11 to 2, that they should be giving Class A ball. An excellent supper was held at the Tudor Inn at Hamilton, after which the members dispersed to take in the sights and shows of the Ambitious City.

### ROBBING WOMEN OF THEIR HEALTH

Anaemia Often Checked Passes Into Hopeless Decline.

Anaemia is like a spectre that steals on you unawares and drives all happiness out of existence. It is a thief that robs you of your life and energy. Thousands of women in this country are the victims of anaemia (that is, bloodlessness), which spares neither rich nor poor, young or old. It robs the woman of her health, her vitality, her beauty—of everything that gives a woman her charm. The chief symptoms of this trouble include a distaste for food, prostrating headaches, extreme languor, loss of weight, nervousness, pale cheeks, lips and gums, heart palpitations, nervousness and a constant feeling of wretchedness.

The only way to effect a cure is to increase the blood supply—to make it pure, rich and red. Dr. Williams' Pink Pills have saved thousands of young girls and women from the early fate that threatened them through anaemia's ravages, for these pills enrich the blood, stimulate the circulation, nourish the nerves, and restore the energy and perfect health that make women attractive. If you are a victim of bloodlessness in any way, do not let it run into a hopeless decline but begin the use of Dr. Williams' Pink Pills to-day. The following bit of evidence proves the worth of this medicine. Mrs. Maurice Smith, Liverpool, N.S., says: "Dr. Williams' Pink Pills have been a blessing to me. About two years ago I was so badly run down that I had to give up all work and go to bed. My husband and daughters were so worried about me they thought I was going into consumption. The doctor who was attending me changed his medicine several times, but it did me no good and I began to feel very much discouraged myself. One day a friend advised me to try Dr. Williams' Pink Pills and I decided to do so. In a few weeks I felt much better and I continued taking the pills for a couple of months until I was again in perfect health. I believe that if I had not taken Dr. Williams' Pink Pills I would not have survived, and I shall always be very grateful for what they have done for me." You can get these pills from any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams Medicine Co., Brockville, Ont.

Duke and Duchess of Westminster Are Involved in a Law Suit.

MONTREAL, July 17.—A London cable to The Daily Mail says secret proceedings about the custody of two daughters, concluded in the chancery court yesterday, revealed the existence of a legal agreement between the Duke and Duchess of Westminster, taking the place of a deed of separation. Thus the Duke and his wife, though outwardly unaltered in their matrimonial relations, are living separately. The difficulty was caused by the question of the custody of the children and for the last three days the court has been in secret session, hearing lengthy arguments. Under the separation deed each parent gets the children six months yearly, but the Duchess claimed that her daughters would not have the benefit of the companionship of members of their own sex at the Duke's palace, Eaton Hall, as was the case when in her custody. The court finally held the original deed valid.

### Old Home Week

Chairman Ald. G. A. Ward, presided over a meeting of the general executive committee of Old Home week, held in the Temple Building last evening. There was no very heavy business on hand as the meeting was called to deal mainly with the question of advertising and to elect a chairman of the reception committee. T. H. Preston was unanimously chosen for the latter position.

Fred Charlton reported the arrangement for the Sunday services were now well in hand. The Sunday schools had all agreed to take part in the big open air service in Victoria Park, while practically every clergyman in the city had consented to deliver "welcome home" sermons on that Sabbath. These services it is considered will be one of the very bright features of Old Home Week.

The reception for Pastor and Mrs. Gregory last Thursday night was well attended and a pleasant time was spent.

Mr. McClellan and children are visiting in Ingersol. Mr. and Mrs. Brown and Mrs. Boughner of Tilsonburg spent Tuesday with Mrs. and Miss Robertson. Miss M. Fowler has returned from a months' visit to Toronto. Miss Mabel Muir of St. Catharines is home for the holiday. A number of little girls have been camping in the Lloyd Jones grove. Mr. Wm. Hamilton of Brantford is visiting friends in the village. Mrs. Vansickle of Lynden who has been visiting Mrs. Henderson returned to her home on Wednesday. Mr. and Mrs. A. W. Robertson of Chicago, are the guests of Mr. and Miss Robertson.

### MUSIC AND DRAMA

At the Brant If ever any turn brought down the house it was the Four Mackies, who perform at the Brant Theatre for the rest of the week. As their name implies, they are Scotch, and Scotch in every characteristic. Each one of the four, including the two ladies, play the bagpipes, and the Highland blood was roused when the four of them got going with tunes that are dear to all canny Scots. The quartette cleverly combined an act of wit, song and dance. Miller and Tempest in their original novelty, were a great success, he of the two performed some wonderful high kicking and acrobatic feats. She keeps up a running fire of laughter, with clever catches and merry chuckle, and loud applause greeted them from the cutters and a more comical stage presence than Alf Nuttle, who combines with this asset a splendid xylophone musical act. He was heartily applauded. The fifth instalment of Kathleen's Adventures were put on the screen and the large audience remained to see the conclusion of this popular series, so well has the serial film caught on.

The Appreciation of Diamonds

More and more diamonds are bought, sold and worn every year. And this in spite of the fact that the tendency of diamond prices is steadily upward.

Which last fact makes the purchase of a good diamond a worth-while investment.

Our diamond display to-day is away above the average. We import our diamonds direct from the cutters and set them in our own workshop.

We are positive we can save you money.

LET THEM SLEEP

Acting Mayor Blumenthal of Montreal is Considerate of Out-of-Works.

[By Special Wire to the Courier] MONTREAL, July 17.—Acting Mayor Blumenthal today sent to the park superintendents a request that they would be lenient in enforcing the by-law forbidding persons to sleep in the parks, during the severe hot spell the city is now experiencing.

The acting mayor is himself transacting civic business in his shirt sleeves.

There have been over sixty deaths in the city since the heat wave began, of children directly traceable to heat.

THIRTEEN TRAGEDIES OF FRANCIS JOSEPH

Believers in omens, and especially in the unlucky number 13, will be interested to learn that the tragedy that has changed the succession to the Austrian throne was the thirteenth calamity that has befallen the Emperor or Francis Joseph. Sixty years ago and more a curse was pronounced upon him. It was predicted that he would live to see thirteen personal sorrows befall him, and that within two years of the thirteenth he would die. The thirteen blows have descended. It remains to be seen whether the rest of the prophecy will be fulfilled. This is likely enough for the emperor is a broken old man, who can have little desire to live, and should he pass away within the next few months nobody would be astonished. In the past 20 years horror at the acts sanctioned by Francis Joseph in the conquest of Hungary has given place to sympathy for him in his troubles. He has been called the "Emperor of Sorrows," and the title is apt. No crown head in recent times has had so much private sorrow.

Thirteen Calamities.

These are the 13 sorrows that have fallen upon the Emperor of Austria: 1—His niece, daughter of Archduke Albert, burns to death at the royal palace, Schoenbrunn, her clothing catching fire from a cigarette—1853. 2—His daughter, Archduchess Stephanie, poisoned by stagnant water and dies—May 29, 1857.

3—Maximilian, his brother, shot to death in Mexico—June 15, 1864. 4—Charlotte, his sister-in-law, goes insane (she is still living in a chateau surrounded by a moat near Laeken)—1868.

5—Ludwig II., of Bavaria, his cousin, insane, kills his physician, Professor van Gudden and commits suicide in Lake of Starnberg—1886.

6—Rudolph, his son, who married Stephanie, daughter of King Leopold II. of Belgium, kills Baroness Vetsera and commits suicide—January 29, 1889.

7—Archduke John resigns title, marries actress named Margaret Stuebel, sails for Buenos Ayres, and is never again heard of—October, 1889.

8—Elizabeth, his favorite granddaughter, forms first mesalliance in the dynasty, the Emperor giving his assent to avert an elopement—1893.

9—Elizabeth, his wife, jumps into the sea during a storm (saved by one of her maids of honor)—1892.

10—Duchess d'Alencour, his sister-in-law, burns to death, in Paris at charity bazaar fire—1897.

11—Elizabeth, his wife, assassinated on Quai du Mnos Blanc, at Geneva, by Anarchist Lucchini—September 10, 1898.

12—Archduke Louis Victor, his brother, exiled from Vienna to Meran following scandal that attracted wide comment—1903.

13—Franz Ferdinand, his nephew and heir to the throne, assassinated in Sarajevo, Bosnia—June 29, 1914.

Conspiracy Against Hungary. To understand the circumstances in which the curse was pronounced upon him by Mme. Madersbach it would be necessary to recapitulate much history prior to the time that Francis Joseph ascended the throne, but there is space only for the mention of a few facts. His predecessor, Ferdinand as well as Emperor of Austria, but the bond uniting the two countries was a nominal one, and the Austrian policy was to make Hungary, in effect, a conquered province. To this end Ferdinand and his ministers conspired to provoke Hungary to war in order that she might be crushed. They fomented a rebellion in Hungary, bribing Servians to rise against the authority of the Hungarian Parliament at Louis Batthyany. In the midst of the ferment Ferdinand resigned and the present Emperor ascended the throne. He assumed the authority of the Hungarian Parliament, which alone has authority to elect a king.

Batthyany Assassinated. There was a revolt against this usurpation of authority, but after some fighting a truce was declared, and a deputation of Hungarians was sent to the king. The leader was

Batthyany. He was thrown into prison, tried by court martial, convicted of treason and executed. This was on October 6, 1849, and, commenting upon the execution, the London Times said: "Louis Batthyany has been the Ney of Hungary and his death throws a darker shade over the last page of his country's history than all the calamities of the war. To find him over from the drumhead to the provost marshal is an act more worthy of the assassins of the Duc d'Enghien in the fosse of Vincennes than of the officers of the Imperial Crown. The bulletin of a court martial is the sole evidence submitted to the world to explain his fate, and we are at a loss to recall a single instance in the worst of times in which Governments the most bloody and the most absolute dared to perform an act of horror such as a man unless it be the murder of Count Egmont by the Duke of Alva. This blood will be a curse on those who shed it."

With Batthyany were executed 13 Hungarian patriots, and the reprisals of the victorious Austrians extended even to the women. One of them was Mme. Madersbach, a distinguished woman, who was the lady of the Austrian army, without trial or examination, she was torn from her husband and children, dragged into a square formed by the troops, and there flogged with rods by the soldiers. Whether the famous curse was pronounced before or after the punishment is not known, but there can be no doubt that Mme. Madersbach declared that the Emperor, who was responsible for her sufferings and for the death of the 13 patriots would live to see each of them avenged by a misfortune, and that within two years of the last tragedy he would die. This curse is known to everyone in Austria, and in Hungary is thought to be responsible for the escape of the Emperor from the hands of the assassin on more than one occasion. The Emperor, indeed, the chain of calamities would have been broken. Now the tale is complete, and nothing remains but for the aged Emperor to pass away within two years. By kindly doing so he would oblige all those who are believers in curses, superstitions and what not.

STRICKEN AT WORK

KINGSTON, Ont., July 17.—Stricken with heart failure while working in a hay field yesterday, William Thompson Fraser, aged 22, whose home is in Scotland, and who has been in this country but a short time, fell over unconscious and died a short time afterwards. The excessive heat is believed to have been the direct cause of death. He was employed by William McNeil.

IN NEW YORK STATE.

ALBANY, N. Y., July 17.—Upon learning today that army worms had appeared in Buffalo and Elmira, Commissioner Huson of the Department of Agriculture, communicated with local authorities in both cities requesting full information regarding the invasion of the pests. A few of them recently were reported to be in the vicinity of Brooklyn, but they are believed to have been killed off.

The worms are killed by spraying them with a solution of arsenate of lead and water.

Ring Was Recovered
Miss Waterton, an actress, who appeared at a local theatre during the early part of the week, missed a diamond ring which she valued at \$200, from a dresser in her room, and search for the article failed to reveal it. Detective Chapman was put on the scent and suspected a boy of the theft. He was questioned and admitted taking the ring which he handed over and the jewellery will now be forwarded to the actress who is playing in Buffalo.

A Galt despatch says: Although the Town Council has objected to the plan of the Lake Erie and Northern Railway for its extension to the north end of the town, which provides for cutting through Jackson Park on the ground that too much land is to be taken, a petition is now being circulated by Mrs. Thomas Patterson object to the railway being allowed to go through the park, and it is being liberally signed by residents of the east side, who are opposed to their park being destroyed. The Town Council intends to register its objection before the railway board.

Another outbreak is reported near Burgessville, on the farm of James Beattie, a prominent Holstein breeder.

The third report was telephoned in from Mr. Simms of Norwich, who sent a hurry-up call to the agricultural men for assistance. Last evening it was reported that the worms had also been discovered near Princeton and Bright villages, and valuable pasture, corn and grain are being seriously damaged. Mr. Costen, at Princeton, had a field of corn so completely destroyed, that it is impossible to tell that the field was ever under crop.

J. P. Thompson of Burford has been forced to cut a green crop of oats, which had been attacked by the worms. Damage already done in this county amounts to thousands of dollars, and there appears to be not the slightest let-up to the plague.

FRESH OUTBREAK IS DISCOVERED

Oxford County Has Three Cases of Army Worm Trouble To-day.

[By Special Wire to the Courier] WOODSTOCK, Ont., July 17.—

The local district agricultural representatives for Oxford county were notified this morning of three fresh outbreaks of army worms in this district, and the plague has now become so serious that the department representatives have appealed to all farmers to keep a sharp lookout for the pests and to notify the authorities at once if any are discovered. The first case reported this morning was from W. W. Gould's farm on the 15th line of Blandford.

of quick simultaneous working of the brains of Carpentier and his seconds. Eugene Corri, the referee, it is admitted by all did the only thing possible after Deschamps had claimed a foul.

"If Gunboat Smith wants a return match right away, he is not going to encounter the slightest difficulty," said Carpentier's manager later in the day. "It is Carpentier's wish, as it is my wish, that the white champion of the world should retain the championship, not by a mere fluke or disqualification, but by right of superiority in boxing."

Deschamps, commenting on what he termed the disappointing end of yesterday's fight, said both he and Carpentier were dissatisfied with the result. He added: "Carpentier personally wanted the fight to proceed, but I thought the blow he received from Smith while he was down would have proved detrimental had the fight gone on. He regrets he was not allowed to win the championship on a clean straightforward knockout, for he had 'Gunboat' Smith beaten almost from the outset. Carpentier is very sorry his opponent gave him a foul blow that put an end to the match. Had the referee allowed the fight to go on the French boy was absolutely certain of victory."

"When he was pinned down as to what he meant by a return match right away," Carpentier's manager explained that the French boxer would be able to fight Smith again only after he had fulfilled his music hall engagements. "These will keep Carpentier busy until September, but he is more than willing to arrange a date in December or January," he said.

Coroner Graham's jury returned a strong verdict in connection with the death of May Metcalf, the little girl who was killed in the motor truck accident in Toronto.

ROTTEN ROW BEGINS TO MERIT ITS NAME

No Longer is Health, Wealth and Luxury Seen There—Straw Succeeds Topper

LONDON.—Time was when Rotten Row in the season was a sight for the gods. Then, as Henry James put it in his "Lady Barbara," the Row was "the great exhibition of English wealth, health luxury and leisure."

Now it is a picture of a great composition. Gone now are the triple row of stately carriages, the bright cavalry of fashion, those promenading belles, too, of the line.

"The women" (it is Henry James again) had tight little bonnets and still tighter little knots of hair. Their round chins, rested on a close swathing of lace or in some cases of silver chains and small waists. They walked slowly with their elbows out, carrying vast parasols and turning their heads very little to the right or the left. There was a general look of successful development.

The men had an air more elaborately decorative. Row Man of the Old Days. Here is our ancient Row man, an Olympian, indeed. He "sat" beside his nectar and the thunder clouds were farled. Or, at least, as he sat apparently careless, he made cunning arrangements for "nectar" to come, and was booked for many a fashionable feast. There was diplomacy and intrigue and security and supremacy in the Row of those days. It was the apothosis of aristocratic man.

Where now is that Row man and where the Gibbon to chronicle his fall? Even his successor survives only as an exception to the motley rule. The real Row man signed his abdication when he discarded his coronation robes. Where now are his glossy "top hat," his high white collar—emblem of eminence—his slim frock coat (now "middle class"), his large, fragrant "buttonhole," that sceptre of a stick, that prevalent air of stiff loftiness which used to proclaim in what tailors' terms he even decides upon brown brogues. He might almost be on the river—though I suppose he would scarcely condescend to the neighboring serpentine. These sacred precincts inspire no awe. For him town has no sanctity. He does not recognize his right (or even his own) to any allegiance—there is nothing venerable about his youth.

What a medley now! His patrician pretensions of the years before golf was almighty would never believe it. It belongs to a democratic age which plays at being equal and advertises "equality" as quality—to a fascinating age, none after and another outbreak in Brant and G. R. Green and R. G. Sutton of the department of agriculture, accompanied by Prof. A. W. Baker of the biology staff of the O. A. C., Guelph, were busy all day assisting the farmers in stamping out the pest.

One outbreak occurred at Bright, on the farm of F. Hewitt. The worms appeared on a pasture that covers about six acres. Mr. Hewitt is keeping about six hogs and well in check, and the worms are eating them in thousands.

The other outbreak is on a ten-acre pasture field belonging to F. Costen, near Princeton. At this place besides destroying the pasture, three acres of corn have also been destroyed. At Costen's place a large trench is being made around the field where the worms are, and at intervals deep holes are dug and fall into the holes, where they are easily despatched.

Fresh Case in Burford. The fresh case in Brant county is at Fallisland in Burford Township. B. Schuyler, the Brant representative of agriculture, is assisting the farmers at this point.

Mr. Sutton, who fears that outbreaks are liable to occur all over the county, has requested that all farmers in the county that have low pasture lands should keep a close watch, and, if the worms appear, notify the department in order that they can be attended to at once. These fresh outbreaks make things look extremely serious, as the farmers have lost thousands of dollars already and are liable to lose a great deal more before the worms are completely stamped out. Mr. Green, Mr. Sutton and Mr. Baer are still out at Princeton doing everything possible to assist the farmers.

Mr. Thompson's farm in Burford, the worms have come into the oats, and Mr. Thompson is cutting the grain and feeding it to his cattle.

BADLY BURNED. KINGSTON, Ont., July 17.—In an endeavor to start a quick fire in the kitchen stove at his home this morning, Walter Johnson, aged 12, poured some gasoline into the stove and immediately the flames shot up and his left arm was terribly burned. The flames set fire to the wall, but the youngster, although suffering agony from a bucket of water, and succeeded in putting out the fire. His prompt action saved the house. He is now a patient at the Hotel Dieu.

THE GROCER

The grocer sells the things we eat—all sorts of things in reason; the pickle sour and honey sweet, and garden sass in season. He sends things where his patron dwells, and strange it seems to many he doesn't eat the goods he sells, to gain an honest penny. He has his window filled with fruits that came from distant regions, from countries where the warthog roots and jaguars roam in the wilds. The treasures of some far-off clime—a royal feast could beat them! And still I wonder, all the time, just why he doesn't eat them. With dates from Araby the blest, and figs from Asia Minor, the smiling grocer does his best to please the western diner. Imported things upon his shelf spaghetti, cheese and noodle; if I were he I would myself, consume the whole 'caboodle! The grocer reaches south and north and east and west he reaches, for all the eatables of worth, the cantaloupes and peaches, the new potatoes and the peas, the condiments and saucers, the Chinese eggs and switzer cheese, which oft are total losses. I'd hate to sell such tempting things; if patrons came I'd greet them, and say, "They're not for sale, by jings, for I intend to eat them."

this end of the county, but it lacks confirmation. As before related a vast amount of loss has already been created, and much more will inevitably result before nature herself exterminates the pests.

Two More Outbreaks in Oxford. WOODSTOCK, July 17.—Two more outbreaks of army worms were reported in Oxford county yesterday afternoon and another outbreak in Brant and G. R. Green and R. G. Table with 3 columns: Companies, Capital, and other financial data for the next five years.

For the twelve months preceding April of the present year, there were registered 453 picture theatre companies, with a gross capital of \$3,298,285—nine companies less than in 1912, but with an increase of no less than \$1,374,210 in capital. The capital even exceeds by \$262,334 the figures for 1910, though it was fully expected that that would prove a record year.

Therefore the total amount invested in picture theatre companies to-day reaches the great sum of approximately \$11,129,407; but in addition to this we have to take into consideration the money invested in the privately owned houses. Supposing this to be a fourth of the other, and deducting say, \$600,000 for unaccounted capital, we arrive at a grand total of \$13,311,758, as representing the aggregate capital invested to-day in Great Britain in picture-drome finance.

In statistics of such magnitude as this strict accuracy is, of course, impossible, but it may be taken that the above figures do not overstate the case.

There are about 6,900 kinematograph theatres in the United Kingdom, and the average amount of rates and taxes per year paid by each is probably about £80, reckoning the rental values at £200. The total expenditure under this head is therefore approximately £552,000. The electric lighting probably runs away with £7 per week, which amounts to another £2,511,600. The average wage list per hall will come to at least £12 per week, or £4,305,600 on the year, and the cost of film hire will not be less than this again.

Repairs, advertisements and other sundry expenses should be covered by the sale of programmes and the profit on refreshments.

Adding these expenses together we arrive at the following results: Rates and taxes £ 552,000 Electric and other lighting 2,511,000 Wages 4,305,600 Film cost 4,305,600

£11,694,200 Subtracting this from the £13,311,758, estimated to be the total amount of money invested in picture-drome finance, and the difference is £1,637,558 on the right side, or 12 1/3 per cent.

To make this profit the 6,900 theatres must take from their patrons a gross yearly sum equal to the amount of the total capital invested. This works out at £1,927 per theatre, or £37 per week, a very small sum for the modern up-to-date picture palace to take even per day, but requiring several weeks effort on the part of the small picture hall of early days, with a seating capacity of 100-200, of which there is still a good many such houses in existence. So that the picture-theatre business to-day is, generally, drawing the comfortable profit of over 12 per cent. on its invested capital, although many earn much more than that, and others, because again have failed, or are failing, because the thing has been overdone.

NOTES AND COMMENTS. It is said that Huerta will make Canada his future home. If so, it is believed that he will rent a house rather than a villa.

Mrs. Pankhurst has been again arrested, but her incarceration is not likely to deplete the jail grab.

The gentleman who is doing the stoking for this hot wave will kindly understand that most of us don't like humans subjected to so many heats.

Large new soap works are to be established in Hamilton, and the people seem to think that they have secured a clean deal.

The Stratford Beacon, in speaking of the place, boasts of its "swim of social advancement." Does this mean that the folks there are leaving off more than those hereabouts?

If the destructive army worm could only be persuaded to make his meals off some such building as Brantford's City Hall, much would be forgiven. Meanwhile there will be much genuine sympathy for those farmers who have suffered so severely. It might even seem to be a case for compensation, as in other directions of exceptional visitations.

Harry Thaw has bobbed into the limelight again. The trustees denied him his income from the father's estate after he had been adjudged insane, but the courts have declared otherwise, and he gets \$160,773. Here

ONE OF BENNETT BURLEIGH'S SCOOPS

The above named gentleman, one of the best known of famous war correspondents, was noted for the astute manner in which he worked "scoops" upon his fellow journalists.

The Daily Telegraph, the paper for which he was representative during the Boer war, tells this story: of how he beat all other competitors in first telling of the outcome of the conference between the Boer leaders and Lord Kitchener as follows:

"The 'scoop' was one which enabled 'The Daily Telegraph' to make an early announcement of the conclusion of peace, for which everybody was extremely strict, and every precaution had been taken to make it impossible for news to leak out until it had been sent to London through the official channels; but Burleigh, having assured himself that the conference at Pretoria had achieved its object, hit upon the plan of despatching two telegrams so innocent that no censor could find it in his heart to stop them. The story was told, subsequently, by 'The Daily Telegraph' in these words:

"On Whit Monday Mr. Burleigh telegraphed to us from Pretoria the following message: 'Whitsuntide greetings!' When his despatch reached us, without official delay, our first idea was that its transmission at full rate from the seat of war was somewhat superfluous demonstration of politeness. A little reflection, however, ever served to indicate the significance of the particular season at which the so-called sentiment was expressed; and we fortunately remembered that in the Eastern Churches the symbol of Whitsuntide was the dove of peace. But on this surmise we did not feel justified in making any comment.

We turned, however to the Prayer-book—knowing Mr. Burleigh to be well acquainted with Holy Writ—and reading over the Gospel for Whit Sunday, the date of the despatch, we came upon the following sentence:

"Peace I leave with you; my peace I give unto you; not as the world giveth, give I unto you. Let not your heart be troubled, neither let it be afraid."

"Even then we did not feel justified in coming to a fixed conclusion. But when we received Mr. Burleigh's message to his brother in Glasgow—'Returning to the Gospels'—we felt that the moment had arrived when we might fairly take the public into our confidence."

The incident brings the mind of the writer to another much smaller illustration of newspaper wit, but still indicative in its way of keen work. There was a murder trial in Woodstock many years ago. Birchall, a man of good connections, had started the plan of luring pupils to Canada to learn agriculture on a farm which didn't exist. He got a lump sum down and was to receive so much a week afterwards.

The first two pupils secured in the Old Land by him were Benwell and Pelly, two young men of high connections. Benwell he murdered in a swamp near Princeton and the case excited such world-wide interest that at his trial newspaper men were present from leading papers in the States and also from England. One of the outsiders was a famous New York newspaper man, sent out on special cases. The last day after the Judge's charge late in the evening the scribes—about thirty of them—made a dash for supper. Not so the New Yorker. He made the remark to the Courier representative at the trial, "After that address of Oslers the jury won't be out long; better wait."

"He was right, word was sent to the judge in a few minutes that a verdict of 'guilty' had been decided upon. His Lordship (the late Justice McMahon) stepped into the hall and glanced around the walls. "Looking for a calendar, that means a date for a hanging," remarked the Gotham man, and right away he wired his paper that the verdict was "guilty." It was nearly an hour before the other newspaper men who had returned from supper, knew the outcome as the jail was some way off and Birchall was allowed to finish his meal there before being driven back handcuffed to guard Entwistle to hear the finding.

THE MARVELLOUS STORY OF THE MOVIES. A writer in the Old Land in an interesting article with reference to the moving picture business there, points out that some people are literally coining money at the game, while others have lost fortunes.

The commencement of picture-theatre speculation properly dates from the year 1908. Previous to that period, although several theatres were built by private effort, not a single picture theatre company had been registered.

The resolution reads: "Whereas, a growing public sentiment is unalterably opposed to the sale of habit-forming drugs, and whereas the high ethical character of the Rexall stores makes it incumbent upon the stockholders of the United Drug Company (the Rexall Stores) to take at all times an advance position in the interest of public health and morality. "Now, therefore, be it resolved, that we, the stockholders of the United Drug Company, in convention here assembled, are unalterably opposed to the sale of any and all drugs the use of which may result in injury to health, the weakening of will power and the loss of that sense of individual responsibility which is the safeguard of society, do hereby announce our purpose to maintain that integrity on which Rexall success is founded, by refusing to sell in any of our Rexall Stores any habit-forming or otherwise deleterious drugs save on the bona fide prescription of reputable physicians." In Canada we are legally allowed to sell many habit-forming drugs, so long as we label them "poison," and in some cases register the sale. For instance we may sell over the counter laudanum and many similar drugs. We have in the past sold these drugs, simply because every other druggist sold them. Hereafter we refuse absolutely to sell any habit-forming drug, save on a reputable physician's prescription. We are not legally required to do this, but we think it is not in the interest of the public to sell articles which we believe to be morally wrong, even if the sale is legal and profitable. We want you to know that it is not necessary to legislate against a Rexall Store, and although it will cost us many dollars in doubtful business, we unhesitatingly go on record in favor of clean business and against the sale of habit-forming drugs. Our liquor policy, simply stated, is: We do not stock one drop of liquor, we will not sell it, and we will not procure it.

Ben Turner was not banished to Toronto this morning as ordered by the bench at the police court. The patrol took him to the station to catch the 1.42 for the Queen City, but when an hour elapsed and still no train appeared, Ben was taken back to the cells and will be transported to-morrow.

Streets to be Decorated.

That Brantford will not be behind other Ontario cities and towns in the matter of Old Home Week decorations is daily becoming more apparent. On the whole length of Colborne street but one merchant refused to decorate his place of business for the celebrations, and families all over the city are already securing decoration material for their residences.

Ring Was Recovered

Miss Waterton, an actress, who appeared at a local theatre during the early part of the week, missed a diamond ring which she valued at \$200, from a dresser in her room, and search for the article failed to reveal it. Detective Chapman was put on the scent and suspected a boy of the theft. He was questioned and admitted taking the ring which he handed over and the jewellery will now be forwarded to the actress who is playing in Buffalo.

L. E. and N. Troubles

A Galt despatch says: Although the Town Council has objected to the plan of the Lake Erie and Northern Railway for its extension to the north end of the town, which provides for cutting through Jaskson Park on the ground that too much land is to be taken, a petition is now being circulated by Messrs. Thomas Patterson object to the railway being allowed to go through the park, and it is being liberally signed by residents of the east side, who are opposed to their park being destroyed. The Town Council intends to register its objection before the railway board.

Golf Notes.

On Saturday first the qualifying rounds for the Cocksbutt cup will be played off at the golf course. A splendid sporting tourney is anticipated.

For Old Home Week Funds.

The order for the City Council's grant of \$500 to the Old Home Week funds was made out to-day, and was deposited to the credit of the executive.

Opened Safe.

Success was the reward of the perseverance of John Hill who yesterday, after vigorously tapping and working the combination, opened the safe which has caused him some heart-burnings during the past week. He had tried persistently and an expert from Buffalo gave up the job and advised nitro glycerine on Sunday. The papers were tumbled about somewhat and the Brantford and Paris-Football Cup money has been banked.

Abuse of City Water

There are many complaints at the city hall of citizens who are abusing the use of the city water. It has become so serious that the running of hose and taps during prohibited hours by selfish parties, has not only lowered the pressure on Terrace completely shut the water supply off. Official notices regarding this fracture of the law, published in the local papers to-day, and if these are not taken notice of immediately, by the offenders, several police court cases will follow.

Lacrosse Game

Manager Slattery is getting a great team together to meet the St. Marys aggregation at Agricultural Park to-morrow afternoon. The team will be greatly strengthened by five Indian boys from Ohsweken. These are the Bumberry brothers, who will likely be seen on the home field, Joe Thomas at centre, Dave Thomas, who may play home, and Andrew Skey, who will in all probability go on the defence. A team from the Reserve save the regulars a good workout last night at Agricultural park, and the management have great hopes of turning the tables on St. Marys to-morrow.

Programme for Concert.

By kind permission of Lt.-Col. Howard and officers the 38th Dufferin Rifles band under the leadership of Frank C. Johnson, Jr., will render the following programme in Victoria Park to-night: March, "Semper Fidelis," (Sousa); intermezzo, "Indian Summer," (Moret); grand selection, "Reminiscences of Verdi" (arr. by Godfrey); song for children, "Good-bye Summer" (Wenrich); Reminiscences of Scotland (Godfrey); valse "September" (Godin); medley two-step, "He'd Have to Get Out and Get Under" (Abraham); overture "Poet and Peasant" (Suppe); march, "Invercargill" (Lithgow); God Save the King.

JOE GILLIES IS ARRESTED AGAIN

Has Spent Over 20 Years in Prison on Various Charges.

Joseph Gillies, an old time mendicant who has during his fifty odd years of existence, spent over twenty years in prison, was again before the police authorities and the police court this morning. He has not been very long out of prison. He was charged with theft, at the instance of John Apps, from whose house in the county upon the Paris-road he had stolen a watch on March 15th. He pleaded not guilty, although the watch was found upon him when arrested.

For some time past a series of small thefts have occurred in the outlying districts of the county, Burford, Cainsville and other centres being visited. The police kept a careful watch and as Gillies was at liberty he was suspected. For months he evaded capture, and the police could not lay hands upon him. Last night he ventured to show up in the city and two constables, Cobden and Stewart were despatched to look over his old haunts. They found him upon Brock Hill, but also on the station Lane and took him to the station where a number of small articles and trinkets were found upon him, including the watch, afterwards identified by Mr. Apps.

The crown prosecutor was not ready to go on with the case this morning and it was held over until Tuesday, the 21st.

Gillies when at liberty never interferes with city property but wanders around the county, in an aimless manner, and when thefts are reported to the police, they know, so they state, that Joe is around. He has a bad record.

Three drunks were dealt with and completed the docket laid before Magistrate Livingstone.

CRADLE ROLL IS POPULAR DEPT.

Mrs. Chrysler gives Some Figures from Big Chicago S. S. Convention.

At the Fourteenth International Sunday School Convention in Chicago, at which Mrs. Chrysler of this city is in attendance, one department was especially noticed, the "Cradle Roll." It was pointed out that in 1899 the first recorded mention of the Cradle Roll was in Atlanta. Miss Harlow spoke of the Cradle Roll as one strand of a threefold cord to bind the home and school together; the other two strands were birthday recognitions and mothers' meetings. In 1912 a goal was suggested to secure 50,000 Cradle Rolls, with 1,000,000 members, before the Chicago convention. To-day 44,000 Cradle Rolls, with a membership of 1,100,000 are reported. Earlscourt Sunday School, Toronto, has a Cradle Roll membership of 933, and St. Paul's, Halifax, N.S., has 865. These two are the largest of any roll in the United States or Canada. The success of the Cradle Roll is not measured by its size, but by a vital interest and spiritual nurture for early childhood which it inspires in the homes. A wonderful opportunity to secure the membership of every little child in the Sunday school is presented. Childhood will always be the hope of the world.

A few ideas to provide an aim for the Cradle Roll Department: 1. Cradle Roll Superintendent. 2. Systematic effort to secure members. 3. Baby's name, parents' name. 4. Prompt recognition of birthdays. 5. Remembrance in sickness or death. 6. All removals registered. 7. Babies welcomed as visitors. 8. Cradle Roll day annually. 9. An occasional affair for mothers and babies. 10. Visit in homes by teachers. 11. Mothers' meetings. 12. Cradle Roll members publicly promoted at age of 4 years to the beginners' department.

HAS NINE LIVES

West Brantford Man Tried in Vain to Destroy Useless Canine.

A dog with nine lives is reported from West Brantford, and it is the joke of the district. The animal belongs to Ernie Clarkson, and for some reason he decided that it should live no longer. He bought some poison and took the dog to a field, here he administered the drug. It did not work so he gave a larger dose and still it did not operate, the animal just looking at him and licking its lips. This method having failed he decided to string the dog up and hang him. Throwing a noose over an adjacent tree branch he secured the dog and endeavored to give no sign of giving up the ghost, so Clarkson brought to his aid a rifle and standing off fired at the animal. The bullet cut the rope which suspended the dog fell to the ground and before Clarkson could recover himself it had run away and he has not seen it since.

CAMPERS GET READY FOR ERIE

Y. M. C. A. Contingent Look Forward to a Good Time.

A lively meeting of campers was held at the Y. M. C. A. last night when it was decided that the annual camp to be held near Dunnville, should be named Erie camp, it being on the shores of Lake Erie. Full arrangements were made for the camp which starts off for two weeks on Monday first.

The advance guard was appointed and it will leave for the headquarters of the camp to-morrow morning under the command of Scout Master McFarlane, whose knowledge of camp life will be of great service to this year campers. The advanced guard will be composed of R. Palmer, T. Hitchon, N. Schultz, R. Cook, B. Moyer of the Y. M. C. A. and fifteen others appointed by the Scouts, the Brant Ave. and Zion church troops. Every preparation is to be made for the welfare of those who join the camp, a victrola and other musical instruments being taken by the boys. The feeding will be excellent. It is expected that nearly 100 boys will be under canvas when all enrol.

Laid at Rest

Frederick Brown Mr. and Mrs. Richard Brown mourn the loss of their infant son, Frederick Cecil Everett Brown, who passed away this morning at the family residence, 167 Murray street, at the age of nine months. The funeral will take place at Mount Hope cemetery to-morrow.

Infant Black Thomas Stewart Black, the infant son of Mr. and Mrs. Wm. Black, of Onondaga Township died yesterday at the home of his parents. Many friends sympathize with the bereaved. The funeral takes place to Salt Springs cemetery to-day.

FACTORY SCRAP THIS MORNING

One Man Used Heavy Iron Bar on Employee at Malleable Works.

Benjamin Schumacker, a reputable man living at Branchton and employed at Pratt and Letchworth factory, is incarcerated at the Police Station as the result of a scrap at the iron works. He struck a Russian named Joseph Schramic, with a bar of iron inflicting a rather nasty wound on the forehead, which had to be treated by Dr. Barber.

At the police station Schumacker said that a number of foreigners had been jeering at him all the morning by jeering at him and making menaces to him. At last this became intolerable and lifting the bar he struck the complainant. He made a straight breast of the affair and states he would never have lifted the bar had he not been provoked.

ECLIPSE STAKES

LONDON, July 17—The Eclipse Stakes of \$50,000 at Sandown Park races was won to-day by H. Cholmondeley's three-year-old Hapsburg. Sol Joel's Honeywood was second and Sir John Thurstly's Kenmore third. Thirteen ran. The distance was a mile and a quarter.

UNCOMFORTABLE POSITION

An Irish tenant farmer, returning from a somewhat distant market late one afternoon, missed his way, and got into a bog-hole, where he stuck fast. His landlord, who knew the locality, chancing to pass shortly afterwards on horseback, noticed his tenant's dilemma, and smilingly shouted out: "Halloo, Pat, you've got fixity of tenure now."

# BRANTFORD DAILY COURIER

BRANTFORD, CANADA, FRIDAY, JULY 17, 1914

## British Press Agrees That Smith Is Not A Foul Fighter

### Blow He Struck Was Entirely Unintentional—Times Says Carpenter Would Have Won in Ten Rounds.

[By Special Wire to The Courier]  
LONDON, July 17—A majority of the papers commenting on the Carpenter-Smith fight last night agree that Smith's foul was wholly unintentional. Several of them say that Referee Corri for sometime was of a mind to continue the fight.  
The Daily Telegraph's expert says: "Descamps, by breaking into the ring, violated the rules, and the verdict must have gone to Smith if Corri had not decided that the American had already forfeited the fight."  
The Daily Mail says that the unintentional blow has left not the slightest stain on Smith's honor as a boxer.  
The Daily Chronicle says: "Never was a foul blow less intentional or more surprising to the man who dealt it."  
Observations to the same effect are made in virtually all the morning papers and although it is generally argued that the fight appeared to be Carpenter's, much sympathy is expressed for Smith and regret at the unfortunate ending.  
The Morning Post considers that the combat lasted scarcely long enough to measure the men's merits adequately.  
Lord Lansdale seen after the fight expressed the opinion that the blow which resulted in Smith's disqualification was due to the fact that Carpenter fights low.  
Carpenter was greeted with an ovation on returning to his hotel. He was smiling and apparently not much the worse for the fight. He had to bow his thanks from an upper win-

now before the admiring crowd was willing to disperse.  
The Times says: "Carpenter owed nothing to luck and would probably have won decisively within ten rounds. But it is absurd to accuse Smith of being a foul fighter. He merely made an unfortunate mistake, for which a sufficiently high penalty has been paid."  
The Times expert in describing Carpenter's acquisition of a punch and his all-round improvement says: "He will never become a Fitzsimmons, but is perhaps the equal of Corbett, and is now, we should say, the best white boxer in the world. He has the pace, intelligence and liston compactness that all American big men lack and is, perhaps, destined to expose the inadequacy of current American idea as to the best type of glove fighter in the heavier divisions—the idea that a Jeffries can be improvised out of every gigantic person able to take a punch and give one if the other man will only stay still to receive it."

#### A Barren Victory.

PARIS, July 17—Georges Carpentier's barren victory over Gunboat Smith in their fight in London last evening caused considerable disappointment here. The referee's decision is generally approved by the newspapers however.

#### BRAKEMAN INJURED.

TORONTO, July 17—While walking along a freight car at Georgetown yesterday, Robert Porter, 41 Brookfield avenue, a G. T. R. brakeman, lost his balance and was thrown to the ground, sustaining a fractured leg and internal injuries. He is at Grace Hospital.

## SAINTS LOSE TO SENATORS, 3-1

### Toronto Beavers Beat Erie 4-1 While Hamilton Outscored London, 3-1

OTTAWA, July 17—Shocker only allowed the Saints three hits in the opening game of the series here yesterday, Ottawa winning by the score of 3 to 1. The Saints' only run came in the ninth on a walk, an error by Shaughnessy and Hadley's single. The score—

ERIE, July 17—Bobby Auld seemed to be too much for Erie yesterday and Toronto won with a score of 4 to 1. Dorbeck, for Erie, twirled first-class ball until the eighth, when the visitors got to him for five hits, scoring two runs. The score—

#### London Downed.

HAMILTON, July 17—London was beaten in a ball game yesterday, when Hamilton outscored the Tecumsehs by three runs to one just by way of a change, thereby making it possible for the visitors to stay out of the cellar as the tail-end Brants also romped off with a close tussle from the Petes. The Athletics were on the big end of the score because their pitchers were

PETERBORO, July 17—The Red Sox beat the Petes yesterday, 2 to 1, in a pitchers' battle, which was decided in the first inning, when Kelly, the local catcher failed to touch Long when he had him by five yards. The local man thought it was a forced out. The next man up drove a long fly to Blount, for what should have been the last out, and Nelson scored. After the first neither team looked dangerous. In a fast and well contested game of ball played on Tutela Park last evening the A. O. F. team easily defeated the East Ward Beavers by the score 6-2. The game was played in record time, the last man being out long before darkness fell. "Bobby" Leonard who pitched for the A. O. F. was never in trouble, keeping his hits well scattered, while Weller who started for the Beavers was hit hard and was relieved by Walters in the 6th. It was a decided improvement and only allowed one hit in the rest of the game. The particular star of the game was Johnnie Walters who played shortstop, until he was sent in to pitch. Batteries: Beavers, Weller, Walters, and Sidsworth; A. O. F., Leonard and Ratcliffe. Umpire, Martha.

These games are causing considerable interest and are witnessed by not a few spectators.

# "Count Discount" Is Surely In Reduced Circumstances Here Now

"The Count" is a creature of quality.

He comes from fine stock though in reduced circumstances now

We told you that the "Count" was a "creature of quality." We told you that he comes of "fine stock" and we told you he was in reduced circumstances now. It's all true. You won't find a better stock of clothing merchandise in the country than is here right now. You won't find another Discount Sale where the reductions mean as much quality for as little money as "Count Discount" typifies here. Our claim is that our clothes were worth in real value more than our original prices earlier in the season. Therefore, when we offer them to you at 25 per cent reduction we know that we are giving you greater values on high class merchandise than you will find elsewhere at the same discount rate.

Read over the reduced prices quoted below and take into consideration that the goodness in quality, make and style of these items make them more than 25 per cent better than present prices. They were abundant values before reduction; they're overflow bargains now. Do yourself the justice of comparing them with your previous experience in clothing values and what is offered elsewhere.

CARPENTIER BEAT "GUNBOAT" SMITH

Outpointed Foe, Who Fought Him in Sixth—Wild Excitement at End

LONDON, July 17.—Georges Carpentier, the young French champion, and the only pugilist of premier rank France has ever contributed to the game, was awarded the decision last night over Gunboat Smith, the American fighter, on a foul in the sixth round of the fastest heavyweight fight Londoners have seen in many years.

The ending of this fight adds another to the unfortunate chapters of international sport, because it has kindled bad feeling, and is likely to be followed by long drawn out arguments.

Carpentier the Better Man

The popular judgment awarded Carpentier the better of the fight on its merits. Pitted against such a powerful antagonist as Smith, it was evident that the Frenchman's mar-

vellous quickness had not been exaggerated. He showed a left lead like a flash of lightning and a powerfully and equally swift right. His footwork was wonderful, and, although Smith was remarkably quick for a big man, he was noticeably slower than his younger opponent.

When the French contingent carried Carpentier to his corner in the sixth round, confusion reigned. The ring was crowded with excited officials and seconds, and thousands of spectators were on their feet shouting and groaning. In this round Carpentier, after playing for an opening, while keenly watching the American's right, had feinted cleverly with his left and then brought a powerful right across Smith's jaw.

How It Happened

The punch did not land squarely, but glanced off, and carried by the force of the blow, Carpentier swung around and slipped to his knees. Quickly Smith's right shot forth. He drew back and plainly would have withstood the blow on second thought. Then he stepped back and waited for the Frenchman to rise.

The Frenchman's manager, Deschamps, climbed through the ropes, with seconds following, and picked up the fighter, who was holding his head in a dramatic manner with both hands. Deschamps carried Carpentier to the corner, where he made a great business of rubbing and restoring him and then, turning to the American fighter, poured a stream of excited French invective. Smith stood in his corner in a green robe, reluctant to leave the ring, while hundreds hoisted him. Finally he climbed out. Carpentier was brought to the ropes and the thousands raised a great cheer for the Frenchman.

Aristocrats and Costers

The enthusiasm of the house from the white-shirted aristocrats on the floor to the Whitechapel costers in the highest galleries, was with the

Frenchman from the moment that he stepped into the ring. His youth, his cheerful smile, his perfect body combined to make him the very picture of an athlete. Gunboat Smith, tall, awkward and grim, towered over the French youth and appeared relatively bigger than he is because of Carpentier's crouching style of fighting.

In the first round it seemed as if the American's superior strength would tell, but through the next three the Frenchman let himself out and showed power behind his blows apparently equal to the American's and with greater swiftness. He landed a number of telling blows on the face and body with both hands, and sent Smith down in a heap with a right to the kidneys in the fourth. The big American was willing to gain time, getting to his feet only after six seconds, just as the bell ended the round. Between 12,000 and 13,000 persons witnessed the fight, among them 500 women.

Connie Fears Detroit Tigers

What follows is part of an interview with Connie Mack: "Watch out for Detroit! I look for them to be in the running. Jennings has some clever young pitchers and it wouldn't surprise me to see him stick around with my club all season. I've tried to get far ahead of him, but it's impossible. When we win he wins. When he loses we lose, and you cannot gain very much on that basis."

GALLERY COLLAPSES

Carnival Spectators at Winnipeg Are Injured, Falling Twelve Feet. WINNIPEG, July 17.—At a carnival which was an attraction of the Winnipeg Exhibition, a portion of the spectators gallery collapsed, and fourteen persons were thrown twelve feet to the floor. Several were injured, and two were taken to the hospital.

STRATFORD DIVIDES GAME WITH LEAFS

Each Team Wins One of a Double-Header Played at Guelph Yesterday

GUELPH, July 17.—Guelph and Stratford Woolly teams broke even in a double-header yesterday before a big crowd of spectators. Stratford won the first game by the score of 9 to 4 in easy fashion, batting Hoover and Schneck hard and often, while Muir was steady throughout and received good support. The Maple Leafs came back and won the second game by only a one-run margin 10 to 9. Wiggins, a Goderich amateur, started the second game for Guelph but he was an easy mark and Hoover was substituted and finished the game. Muir essayed to pitch the second game for Stratford, but he was hammered for eight runs in the second inning and Sharpe finished the game. Umpire Conkle was nearly mobbed by the crowd in the first game on account of his rank decisions. The scores:—

First Game  
Stratford . . . . . 001103014—9 11 3  
Guelph . . . . . 30001000—4 6 2  
Muir and Agnew, Hoover Schneck and Burns.

Second Game  
Stratford . . . . . 2120202—9 13 1  
Guelph . . . . . 30001000—10 11 1  
Muir Sharp and Agnew; Wiggins Hoover and Burns.

Tyson Allows Four H. GALT, July 17.—Woodstock yesterday defeated Galt in a grand exhibition 4 to 3, a couple of errors in the fourth giving the visitors three runs. Galt, with the score 4 to 1 against them, tallied two more, and for awhile

it looked as if defeat would be reversed. Bill Hawkins pitched grand ball allowing but four hits. Ty Tyson of the Carter-Crumes, of Niagara Falls, was on the mound for the visitors and pitched well. Harry Meyers did not arrive and Jack O'Toole of the St. Mary's Toronto, played short and had three of the locals errors. A record crowd attended. The score:—  
Woodstock . . . . . 000300001—4 4 1  
Galt . . . . . 000000012—3 7 4  
Tyson and Chapdelaine; Hawkins and Danford.

BASEBALL NOTES

The Boston American League Club yesterday purchased First-baseman Hottelzel from the Cincinnati Nationals. Pitcher Jack Frill, signed by Toronto after being released by Jersey City, will be in Toronto to-day to confer with President McCaffery. Manager Dunn of Baltimore last night asked the permission of the International League by wire to transfer three games from Jersey City to York, Pa. The Toronto club telegraphed its refusal to agree to the change.

Buffalo meet the Leafs at the Island to-day and finish up with a double matinee on Saturday. Yesterday's battle were fiercely fought contests. Rogge will likely be used to-day with George McConnell doing the heaving for Buffalo.

FEARS SON IS KILLED

ST. THOMAS, July 17.—John H. Campbell of this city fears his son Duncan was killed in a quarrel on the Isle of Pines, on the Florida coast, on July 11th. A newspaper clipping has been received from some of his son's friends in Detroit, bearing news of the stabbing of a man by that name. Campbell left Detroit four months ago for Chicago and later went to St. Louis but of late has not been heard from. His wife is at present visiting here.

FOREIGNERS FORM LARGE PERCENTAGE

Of Canada Criminal Classes, According to Latest Records—70 Guilt of Murder.

OTTAWA, July 11.—That the growth of the foreign population in Canada has also added to our criminal statistics is shown by the fact that there are at the present time no less than seven murder cases under review by the department of justice and in every case it is a foreigner involved. The last Canadian criminal statistics available, those for 1912-13, show that in that year there were 52 charges and 25 convictions for murder. Of the 25 convictions for murder no less than 17 were foreign born—foreign born meaning elsewhere than in Canada, the United States or Great Britain. One was born in Scotland, one in England and the remaining six in Canada.

Attempted Murder.

During the same period there were 31 convictions for attempt to murder, and of these only three were Canadian born. The nationality of three were not given and the remaining twenty-four were born outside of Canada. Of these six were Americans, and four English, leaving fifteen that are known as "foreigners."

According to the last census figures, those born in foreign countries, excluding the United States and Great Britain, formed 6.2 per cent. population, yet in 1912 the foreign born offenders of all classes were 17.2 per cent.

Many Americans.

The Canadian born offenders represented 36.1 per cent, although Canadian born form 77.9 per cent. of the population. British born outside of

# Unbeaten Teams To Clash On Saturday

## Scots United and Tutela Club Will Battle Tomorrow - Match Should be Rattling Good One.

Interest centres upon one match in the Brantford and Paris Football League tourney to-morrow. This is the meeting of the Scots and Tutela at the home of the United on Agricultural Park. Ground advantage is always said to count for something but there are doubts if it will amount to anything against the Park brigade. No team could be more confident than the Scots and they are not slow to say so. On the other hand Tutela have said nothing but intend to hand out the goods. To-morrow will tell the tale and Tutela may be looked upon to come through with an odd goal. It is probably that the cork scheme will not operate against Frank Clarke's boys successfully.

The Holmedale and Cockshutt match should create a good crowd on the Tigers' enclosure. With the improvement manifest in the Cockshutt boys a victory for them may be expected.

The Wanderers are opposed to the Duffs and on form there is only one team in it. With a reversal such as they last week experienced, however, there is no telling what might happen.

The Sons of England journey to Paris where they will replay their drawn Courier Cup tie with the Parisians. After a draw in this city it would seem that Parisians hold the advantage. It will be a hard close game for the Sons will give no quarters.

The line-ups for Saturday are as follows:

Tutela's line up, kick off at 6 p. m. Goal, C. Gore; backs, T. Mason and F. Burns; halves N. McLeod, E. Roberts, C. MacLeod; forwards E. Hamilton, J. Dingley, G. Bailey, H. Collett and E. Fisher; reserves W. Bowden, F. Clark.

All players are requested to be on the ground by 5.30, dressing room on the ground.

### Scots Team.

Scots team to play Tutela, at Agricultural Park on Saturday: Magill, goal; backs, Cook, Taylor; half backs, Harrington, Morrow (capt.), Forgie; forwards, Vipond, Linn, Jones, Hutchinson, Richardson. Reserves Malloy, Maich, Ramsay, Referee, Mr. Mearn. All players are requested to be on hand on the field at 5.45.

Football enthusiasts should on no account miss this game as it is expected to be the best game ever seen in this city. Both teams are pretty well balanced and a good game

should result as both are striving hard to win the Expositor trophy.

### S. O. E. Team.

Two double headers will be staged next week, one on Monday and one on Wednesday. Both are against Toronto.

Manager Deneau is expecting three new men here any hour, any day, as a result of his trip last Sunday. Apparently Outfielder Wilson is only filling in on the team. In London this player failed to score from second on a safe hit to the outfield, and he failed to score from third on a sacrifice fly to left. He may have speed, but he didn't show any in the game; on Wednesday when Brantford was beaten by terribly poor work on the bases.

The Toronto team undoubtedly is playing great ball. From George Ort down the batting order there is a dangerous combination of hard hitters. Brantford has won two out of the three next week will decide the respective merits of the teams.

It is all right for Manager Deneau to get new players, but they have got to be players of class and experience. The company in the Canadian league right now is as good as will be found anywhere. Why not buy some of those Baltimore players which Jack Dunn is so anxious to dispose of?

No doubt a large percentage of those fans who stole in Wednesday's game at London on fake tickets were the first to yell "Robber, Thief," at the umpire.

Trust James J. McCaffery to jump to the Federal league if the jumping looks good.

A London despatch this morning says: Detective Egelton learned today why some four or five hundred persons witnessed yesterday's game between Brantford and London without contributing to the coffers of the club, and as a consequence an employe of a printing office may be prosecuted. It is alleged that the man made up a batch of five hundred or more tickets to duplicate the legitimate admission cards, and on the one day he

### SHIPS' CAT'S PRESENTIMENT.

Curious Occurrence on Empress of Ireland Narrated by Occultist.

MONTREAL, July 17—A London cable to the Daily Mail says: After a lecture at the Occult Club on "Psychic Experiences," a woman speaker referred to a reported strange behaviour of the ship's cat of the Empress of Ireland. When the vessel was about to leave Quebec, she said, the cat came hurrying down the gangway, bearing two of her kittens in her mouth. Efforts were made to get her to return, but nothing could persuade her to go back. Consequently she escaped destruction on the foundering of the vessel.

### WHAT BELL THINKS.

A despatch from Washington says: "That it is possible to fly across the Atlantic in 13 hours is the statement of Dr. Alexander Graham Bell, inventor of the telephone and former head of the National Geographical Society. 'It is less than 2,000 miles from Newfoundland to Ireland. By ascending two miles, present machines should be able to permit their drivers to breakfast on this side and dine abroad,' he says."

### MUCH ADLER-I-KA USED IN BRANTFORD.

It is reported by M. H. Robertson Limited that much Adler-I-ka is sold in Brantford. People have found out that ONE SPOONFUL of this simple buckthorn bark and glycerine mixture relieves almost ANY CASE of constipation, sour or gassy stomach. It is so powerful that it is used successfully in appendicitis. ONE MINUTE after you take it the gases rumble and pass out. It is perfectly safe to use and cannot gripe.

PARIS, July 16.—The following pupils of the Paris High School have passed the lower school examinations for admission to the Normal Schools and Faculty of Education: A. P. Anderson, Eva Broughton, Alice E. Elmes, Hazel J. Folseter, Edith Parsons, Elaine Patterson, Ruth Qua, and Robert Waterland.

Mr. H. Jaffray Tisdale, son of Mr. H. Tisdale, late of Paris, who has been acting as district representative of the Agricultural Department in Peel county for the past year, has resigned his position, and it is stated that Mr. Tisdale will become professor of animal husbandry in the Agricultural College at Saskatoon. During his term of office in the county, he was always found to be a practical man, and performed his duties in a most satisfactory manner. His many friends here and in the county, while regretting the fact he is leaving their midst, wish him every success in his new undertaking.

George Thompson, formerly of Paris, will build the Kinny bridge in Brantford Township, the cost of the same being \$950.

The marriage took place recently in Hamilton of Miss Frances E. Goss, fourth oldest daughter of Mr. and Mrs. Thos. Goss, Burwell street, Paris, to Mr. Francis J. Walker, of Brantford, Rev. R. G. Burns of Hamilton officiated. The bride's many friends extends best wishes and congratulations.

In a recent league match in Recreation Park, Brantford, between Paris football club and the Telephone City P.S.A., the latter team was defeated by 9 goals to 1.

Parisians were glad to hear the report that the L. E. & N. Railway may be in operation through this vicinity about October 1st.

The dreaded army worm has made its appearance in several districts in Western Ontario, doing severe damage. They have now appeared on some of the farms near Paris, and are a severe menace. Mr. Schuyler, our local Agricultural agent, is busy now visiting the farms and looking after same. The army worms are so-called because they march in order. Besides damaging the crops, these destructive pests have got into the trees, where great havoc has been wrought in the beautiful maples, etc.

## DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Grandma's Recipe of Sage Tea and Sulphur Darkens so Naturally That Nobody Can Tell.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair taking one small strand at a time; by morning the gray is disappeared, and after another application or two, your hair becomes beautifully dark, thick and glossy. (From Our Own Correspondent)

Owing to the heat the congregations at the Methodist church services on Sunday were small, but notwithstanding this fact the pastors gave us excellent sermons. In the morning, Rev. A. Bowers preached from the text found in Psalm 84; 11. The music consisted of a chorus by the choir and a solo "Just for To-day," by Mrs. C. Wilson. In the evening Rev. Mr. Plyley chose as his subject "Some essentials of effective discipleship," based on the words found in John viii, 41. At the close of the service a quartette "Abide With Me," was rendered by the Misses Norrie Mrs. Wilson and Miss Smith.

Those from the Public school who were successful in passing the entrance examinations are Ruth Sumner and Pearl Day (honors), Winnie Turvey, Duncan Pettit, Helen Smith, James Reid, May Keil and Eddie Moyer. Both teacher and pupils deserve a great deal of credit. It is not often we see so large a class pass without a miss.

On Monday evening the regular monthly missionary meeting was held at the League in charge of Miss Ruth Sander. Two papers on Missionary League work were read by Miss A. Smith and Miss G. Woltz followed.

by a brief discussion. Miss Addie Norrie sang "Something for Thee" very sweetly. Next Monday night the League will be in charge of Miss Annie Graham who will give a report of the Summer School held at Burlington last week. This promises to be an evening of very great interest and the leaguers are looking forward to a treat.

Mr. and Mrs. Henry Baker of Kansas, who have been visiting at Mr. J. D. Norrie's for the past week have gone to Butch for a short time.

Mrs. Lorne Cole of Lansing, Mich., is visiting relatives in the village.

Mr. Lew Smith spent the week end with his brother at Aylmer.

Mrs. Wagoner and daughter of Chicago were guests at J. D. Norrie's over Sunday.

### Dad's Money Gone.

I WISH you wouldn't whistle when you're angry," said Mary. "It makes me furious."

"When I whistle like that," I said, "it's an extreme self-restraint. Don't forget that for a minute. Just a minute. I could shoot off a pair of six-shooters, and rear a little, but I won't."

Go on—tell me what else you did with the money I gave you to save for the first payment of Dad's note."

"I told you of the holly and—and the little things like that," faltered Mary.

"Tell me some more," I added. "There's no account for it. It was in an envelope, you remember, and I told you to keep it very carefully."

Mary's Tree. "Then," said Mary, "I had to buy a Christmas tree—and all the things that go on it. Last year we spent Christmas at home, and this is the first year we've been by ourselves. And—and I've always had a Christmas tree. It wouldn't be Christmas without it."

"What a waste of good things the children's Christmas tree is!" I said so.

"I don't like the idea anyway," I said morosely. "Why should we have a tree when there isn't a youngster to dance around it? It's a profanation of the Christmas tree to buy it just for whim."

"Why, Peter," said Mary, "mother's even has a Christmas tree for Colonel's Colonel. If you please, it's a big, jolly tree of a dog who's always making you get up and open doors for him, or howling when his name's mentioned. I despise him. He's built like a bulldog."

"That's disgusting," I retorted. "Your mother makes me tired about that dog anyway. She's an absolute bore with her anecdotes of his smartness, and her spoiled. She's always talking sentimental devotion to his needs."

Which was quite true. And Mrs. Penfield was the only woman who wastes a lot of exuberant sentimentality on a dog. Women talk baby talk to dogs—the humor them—they relate interesting tales of their exploits, just as the new father with the very new baby, and without his excuse, buys a dog Christmas tree—it was too much! I thought to annoy Mary with my biting criticism, but she merely smiled very sweetly.

Sweetness vs. Temper. "Peter," she said, "I'm not going to quarrel with you. It's Christmas eve, and I shan't let you harbor any ill feeling. If I did spend the money you were going to pay on your father's note, it was merely because I thought he could wait just this once, and, besides, it was in a good cause. I couldn't do without a tree—and the house wouldn't be Christmas without holly and wreaths. You're tired and cranky—that's all the matter with you. Peter. Go down for a while and you'll feel better."

That cloying sweetness in a woman's voice is harder to endure than her fiercest spasms of temper. There's no touch behind it—a delicate sense of superiority—a sense of martyrdom, a sweet determination to bear with this brute of a man at any cost, forgive his coarseness, and coax him into the semblance of a human being.

I did retire to a couch and lie down, but not because I was tired. I was utterly disgusted. And while I lay there, Mary, humming, proceeded to dress up the house in Christmas wreaths and holly. And presently she began to trim the tree.

Try as I might I could not banish the thought that all of these gew-gaws had been bought with money that really belonged to Dad.

"Before I'll fall down on that note," I said to myself, "I'll borrow money from my chief."

## Advice to Girls

By ANNIE LAURIE

Dear Annie Laurie: A boy friend of mine took me to a party the other night. I danced the first dance with him, but then a boy came up to me and took me in to supper and kept me by his side all evening.

The boy I came up with was very angry that I did not go in to supper with him, and will hardly speak to me, and then only very coldly. What should I do? I am 16 years of age. Should I invite a boy into the house when he takes me home from any sort of affair? GEORGINA D.

WELL, Georgina, I don't blame the boy who took you to the party at all. If I were he I would never take you or any girl like you to a party again.

Why should he ask you to go with him, and then have you insult him openly before every one at the party? That's what you did, you know—you were very rude and very ill-bred and very unkind and very thoughtless. If you want to be friends with that boy you'll have to apologize to him—that's all—and then maybe, he won't care to make up with you.

No, I wouldn't invite a boy into the house when you've come home from evening affairs. Nice girls do not spend much time alone with a boy when every one else in the house is asleep.

Now be a nice, sweet girl, and the next time you go to a party with a boy remember that you owe him at least ordinary courtesy. And don't let any other boy take you away from him, no matter how fascinating or how determined the other boy may be.

## ASKING THE MIRROR

By Michelson

FACE to face, with nothing between them—just herself and the mirror to have it out. Really a solemn moment, maybe, for the question may be very important. What is she asking? Ah! that's a secret. Only she knows—and the mirror. It wouldn't be surprising if she really SAID it, though perhaps in a whisper. Perhaps she's asking whether he loves her, as if the mirror could answer THAT. Perhaps she's asking whether she loves HIM, which is another poser

for the mirror. Even a hardened mirror might shy at that. Perhaps—and this would be tremendously important—she's asking whether she shall say YES. Really, you see, she is asking herself. But, looking straight into those other eyes in the mirror, which are a PERFECT likeness of the eyes HE looks into when he gets a chance, she somehow feels that the question is brought squarely home. Which is ABSOLUTELY true.

## What Marrying for Money Means

By Winifred Black

Copyright, 1914, by Newspaper Feature Service, Inc.

Dear Madam: If a man is a cad who is ashamed of a girl who is not his equal socially, and a man is a cad who talks about a woman, what is a woman who does the same thing? Don't the rule work both ways?

If a man who marries for money is a cad, what is a woman who marries for money and position? JUSTICE.

THE woman who marries for money and position—what is she? This is a family newspaper, my good correspondent, and I'm afraid I would not do to say just exactly what I think a woman is who does such a thing as that.

For one thing—she's a fool. She may get her money, and her position—but she pays a price for them that it stops the heart to think of. A price no woman of honor, no woman of decent self-respect, will ever pay for anything in this world, so long as true women are true women.

Many women of good reputation do marry for money? Quite so—more's the shame and the pity of it. So do many men of good reputation lie and steal—and some day they go to the penitentiary for it, too.

There is no public penitentiary for the woman who marries for money, but, oh, her soul sits ever behind the bars—and if you look closely at her you can see the shadow of the very gallows tree itself in her miserable eyes.

"It Isn't Done."

The man who marries for money is worse than the woman who marries for money, for the same reason that the man who lets a woman carry his suitcase is, somehow, on a lower scale than the woman who loads down her too willing escort with bundles, and makes no effort to help him up the station steps.

There are some things which can't be explained in so many words. The English have a fine way of getting out of such affairs as that. "Why don't you wear a bowler hat to a funeral?" said I to an Englishman upon occasion. "There's nothing really ferocious about the hat itself, is there?" And the Englishman stared at me, after the fashion of his kind, with round eyes full of cool amazement.

"It isn't done," he said—and that settled the affair. And, strangely enough, it really did settle it, for when a thing "isn't done" by people who know the rules of the great game we call for want of a better name, the game of life.

In this country men do not marry for money—"It isn't done." Women do—at present—but every one who knows the woman who do marry for money despises them. And some day we will say of the woman who thinks of such a thing "It isn't done"—and it won't be.

In Europe it is done—the man marries for money—and so does the woman—and they are both perfectly happy and not in the least ashamed of it. Why should they be? It is done, over there, and that's all there is to it. There's no pretence, no hypocrisy, no cruel deceit, no shallow wearing of a foolish mask; it is all a perfectly good matter of perfectly legitimate business.

A young Frenchman arrives at a certain age—he comes into a certain amount of money and a certain position. It is time for him to marry. His parents and friends look about them for a "suitable" wife for him.

To be suitable the girl the young Frenchman marries must belong to a family of a certain position, and must bring to her husband a certain amount of money. When the girl is found the marriage is arranged, the two little fortunes are made into one and the new home is started on quite a sensible, practical and perfectly honest foundation.

The Frenchman and the French girl are not marrying each other just for their own sakes—they are founding a family—and their own particular preferences and wishes, in a merely personal way, are not supposed to have much to do with the case.

### The European Dowry.

I wish I could believe that the French, and the Germans, and the Italians, and all the rest of them, who marry to keep the family together, were entirely in the wrong—and that we are entirely in the right. I used to think so—like most Americans.

But somehow I do not see that the American marriage turns out much better, for the individual, than does the French marriage—and it certainly does turn out very, very often much worse for the family.

The most profligate Frenchman in the world will save money for his daughter's dowry. The most careless Frenchwoman who ever wore rice powder and made up her eyes before breakfast every morning will deny herself even of rouge to set her son up in business. She will half starve to find for him the right sort of girl, with the right sort of dowry, who will, when the time comes, sacrifice herself in turn for the grandson of the woman who gave up her rouge for the sake of the family.

Now with us—it is all different. John marries Mary because she's crazy about her. Mary marries John because she can't live without him.

They may have money, they may have none. John may be a swell, and Mary may be a girl who works for her living. "Love will make it all right," we think, we Americans, and we all look sentimentally on, shed a sympathetic tear, and are pleased with ourselves for being so pleased with what we like to think is "romance."

John loses his job, and Mary has to go back to work. John finds out that Mary is a better business man than he is, and he doesn't like her for it. Or else John gets rich and goes to the Senate, and Mary can't get over wanting to wash her own dishes and sweep her own front steps. And John hates to do it, but he gets rid of Mary—how can he help it, and ever be Governor of his state?

### Is Our System Best?

The children? Oh, grandmother takes care of them—or Aunt Susan, or old Uncle Joshua, or anybody who has nothing else to do. Or else John gets rich and goes to the Senate, and Mary can't get over wanting to wash her own dishes and sweep her own front steps. And John hates to do it, but he gets rid of Mary—how can he help it, and ever be Governor of his state?

And the children go home to grandma—or to boarding school, or somewhere. Anywhere where they won't bother John—and the family. Oh, those isn't any family—there never was. There was just John and Mary, and John was crazy about Mary, and Mary "couldn't live without John"—and so they married.

And so— Sometimes I'm not so sure that our American system is just exactly the very finest system that has ever been evolved after all. What do you think about it, "Justice"?

## Secrets of Health and Happiness

### How Wounds Are Healed Without Leaving Scars

By Dr. LEONARD KEENE HIRSHBERG

THE secret wound long lives within the breast, but the open wound in these days of disinfection, sterilized bandages, harmless antiseptics and lockjaw antitoxin is not worth shucks. It—and here is the crux of the matter—you do not treat it with home remedies.

Whenever you have a friend in whom blood poisoning developed from a wound, inquiry is apt to disclose the fact that his grandmother, aunt or kind friend advised the application of "a certain sure cure."

Mr. Willie Preston ran a nail in his foot. His mother did not know what to do. A neighbor, who had "raised eleven children," said: "Put some bacon fat on it." Ten days later Willie Preston died of lockjaw. Yet that same neighbor still advises bacon fat for wounds, and has, to my knowledge, caused half a dozen other infections.

A scar nobly got was considered, until lately, a livery of honor. But no more. Wounds heal so beautifully nowadays that like Katahwa's white shoulder, some persons go miles and miles to see them.

Indeed, it is an established rule among the student guilds and fraternities of Germany, in their duels with swords, to keep the wounds from healing by pulling the edges apart every day.

Wounds of the heart, when not of the amatory sort, are now stitched together by most surgeons with triumphant results. Surgeons, since Dr. Alexis Carrel's discoveries, think nothing at all of cutting into the chest cavity and bringing the wound into a strong, normal condition.

The battling days when men were gashed with honorable scars are past. Today, Mameluke and the Hessian emerge from the emergency hospital in the pink of condition. The wounds show either a bare hairline, or, by means of skin grafts, nothing.

Even sunburn wounds and rusty nail punctures, which formerly yielded a large return to the grim tyrant of lockjaw, have no terrors for us now. Domestic panaceas are not brought into the field.

"Blood poisoning" is merely the extension and spread of bacterial matter in an infected wound, throughout the arm, leg and body from the point invaded.

Blood-Poison a Germ. In other words, blood poisoning is an infection just the same as typhoid or pneumonia. Wounds treated by amateurs or carelessly left alone, "because the blood is in good condition," are the ones which lead to the invasion into the tissues of what is known as "blood poisoning."

A fallacy, widely prevalent among weavers and workers, and long-handled sorts of labor, is the effect that "the blood is fine," and "meats all scratches and sores." While it is correct to extend the healthy flesh to prevent germs developing at times in wounds, it is frequently the false sense of security which many persons foolishly have that starts a pin into a malicious, human conflagration.

A pin prick, a splinter, a tiny tear in the skin should each receive as vigorous an antiseptic as a large, jagged wound. Peroxide of hydrogen—clean and strong, not the dirty and weak mixture usually found—boracic acid, chlorate of potash, hot carbolic vasoline and other disinfectants should be used at once. Even upon the merest skin abrasion.

### Answers to Health Questions

EDNA—What will turn gray hair dark?

Get your druggist to make you henna tea and rub it on.

F. S.—What will remove freckles from the face?

Freckles are a sign of health and vigor. Any lotion may peel the skin off and not remove the freckles. Calcium sulphide, 1 grain; zinc oxide, 5 grains; to 2½ ounces each of cocoa butter and castor oil, with a few drops of rose oil, applied at night, may peel them.

THOMAS R.—1—What is a formula for blackheads? 2—What will remove superfluous hair? 3—What can I do for a tired feeling?

1—Try this for the blackheads: Rub in well at night sulphur and glycerine, each a drachm, benzoated lard, 1 ounce, with rose oil.

2—A shaving powder, made in the South, will remove superfluous hair. It is rubbed on the skin for one minute only once a week.

3—Change all your present habits and try to go away for a couple of weeks. Eat plenty of plain, solid food. Drink milk and eggs. Go to bed at an early hour and rise early in the morning.

## Useful Hints for the Housewife

By Ann Marie Lloyd

If you want the best piecrust it should be made the day before you wish to use it and put into a cold pantry. Then use it and let it warm up. If you wish to retain the crispness after baking, let the pie cool thoroughly before putting away.

A very convenient article to have in a house is a smooth, strong stick, about 40 inches long, with a deep notch in one end. With this, pictures may be lifted from the wires from their hooks, cleaned and replaced, thus saving the climbing up and down on a stepladder.

Here is a delicious novelty to serve with afternoon tea: Take a small crisp and slightly salted cracker and heap on it in a little mound a mixture of the stiffly beaten froth of eggs, whites only, to which has been added pulverized sugar and minced orange peel and finely chopped peanute. Then place in a hot oven and brown as you would meringue.

## Three Minute Journeys

Where Birds Are Hunted on Horseback

By TEMPLE MANNING

ON the ice-bound plains of Roumania but, at last, I killed my bird. I had collected along the route, and, tied by the legs, suspended before the peasants on their ponies' shoulders, and we worked back to my host's mansion, tired but happy.

beak that drove me off for an instant; but, at last, I killed my bird. I had collected along the route, and, tied by the legs, suspended before the peasants on their ponies' shoulders, and we worked back to my host's mansion, tired but happy.

I was very lucky to be in the interior nestled the snows and a biting frost the next morning had set the ice again. For it is only at that time that the bustards, lying out in the open, get their wings wet with melting ice, and when it freezes again, their feathers are stuck together and they cannot fly. We started in the early morning before the sun could thaw those swift wings again.

Stretched in a long line, with my hat and myself in the middle, we went thundering over the frozen snow, driving a flock of nearly 50 wild turkeys before us. The men were armed with whips or with long sticks, and as one would come within striking distance of a bird he would strike out. Sometimes he would hit his bird and jump to the ground to secure it before it could get up and away. But often both the bird and pony would fall with the bird, and the bird would be off again before the rider could get to his feet.

It reminded me of nothing so much as polo. Imagine that great game played with living balls. Crack! Crack! The whips rang out like pistol shots on the frosty air. The birds dodged in and out, until I realized the skill demanded. Every one had a couple of birds each before I got one. At last I stumped a bird. Scrambling down from my pony I set upon it before it could rise. I was met by claws and a memorable day.

Running the Bustard Down. More than one of the men showed evidences of fights with the birds, but they treated these scratches, that were often long and deep, as mere nothing. They were looking forward to the feast and celebration that would round out a memorable day.

THOUSANDS ARE NOW

Army Worms Territory in County — Au That the Wor

Practically thousands of acres pasture land, corn and other crop already devastated in this county in Oxford County by the army worm. While it is felt that the vast of the worms over new has been checked, it is not admitted by all the farmers who have suffered and whose farms are still threatened, Warden Milbaine is of these, and he stated yesterday the Courier, that the worms seem to be more numerous than ever were spreading around the coast at an alarming rate. Per there is no place in Brant or Oxford county where the activities of worm could be more clearly seen the roadside in front of Warden Milbaine's farm a trench about two deep had been constructed and a tervals holes were dug in the bottom of the trench. As the worms advanced out of Warden Milbaine's place, hit the trench. In a brief space holes at the bottom of the trench were filled with these living creatures and it was exaggerated to say if instead of being buried, all shovelled into a wagon, inside few hours the wagon could be Earth is thrown over the holes ever, and new holes dug. The trench is thought to be most effective means of fighting pest, but in some parts trenching difficult and the worms are bound advance. In many places the ground is black with them. Mr. John H. Fisher was a through the township yesterday, was hopeful that the worst was over.

BLANCHE YORKE SAID TO HAVE BEEN KIDNAPED

Search Parties Fail to Trace of Pretty Tamworth Girl.

By Special Wire to The Courier TAMWORTH, Ont., July 18—The failure of the search parties reveal anything that would lead to the locating of Miss Blanche York and because of the general tremendous evidence shifted the theory that the missing woman is alive and held against will has gained considerable headway. Indications point strongly the girl having been kidnapped on the late evening of Wednesday week, and taken to some near of population. The story of the auto running the main street late on the evening of the disappearance, and heading in the direction of the road leading to the grill's home, now becomes a possibility, but a probability. A bold kidnaping did occur, it was doubtfully prearranged and all with a view to keep the public officials without a title of evidence that it was carried out. Aside circumstantial evidence, the attack if it was made, was most successful. The opinion expressed that the girl is alive is not only supported by circumstances, but County Chief Koughnet expressed his belief that she was alive. When interviewed, he said: "I do not expect to see her immediately, but I feel that the matter will be cleared. The Chief admitted that he is a tely at sea. There is not a clock work on, he said. He spent the noon investigating and talking members of the York family. The family is more strongly opinion than ever that Blanche alive, and the friends are optimistic in the hope that she will appear few days be located. So many search parties are being circulated that be something untold of before the end one of them does not a clue. Searching for the body stopped today, partly because the terrain covered, and partly because people believe that Miss York is alive. It is understood that a has also been made in Kingsburg surrounding towns have been to keep a lookout. Possible Clue at Brighton The first real action in the mystery took place yesterday

**THE GOVERNMENT WILL PAY MONEY**  
Labor Trouble Will Not Prevent Execution of Grand Trunk Agreement.  
[By Special Wire to The Courier] MONTREAL, July 17 — Grand Trunk officials deny the statement that the government will make the execution of the arrangement entered into last session with the Grand Trunk Pacific conditional upon the company carrying out the recent award in the case of the western mechanics. That matter has nothing to do with the de-

lay in arranging provisions in respect to the mortgages to be given and accepted by the government. Mr. W. H. Biggar, K. C., chief counsel, has been up at Ottawa about the question, and it is expected that the matter will be finished almost immediately. When the provisions are all agreed upon the Grand Trunk authorities in London will gauge their time for going to borrow the \$16,000,000, which they are authorized to apply for under the government arrangement. The matter of the mechanics, the Grand Trunk Pacific officials insist

THE WOODS Manufacturing Co., Lowell, Mass., U.S.A.

is one which is confined to the men actually concerned on the spot and the officials with whom they are ordinarily brought into contact. The Grand Trunk Pacific has no intention of doing anything which would ignore or discredit the award. The system is, it is understood, at Grand Trunk headquarters not paying the standard wages to the mechanics in accordance with the terms of the award and there is nothing to quarrel about except it be certain shop rules, susceptible, doubtless, of modification.

**CHARGE OF FRAUD**  
BERLIN, Ont. July 17—A warrant was issued yesterday for the arrest of J. E. McKelvie of this city on charges of passing worthless cheques and fraud. He left a few days ago for Owen Sound in an automobile which he had recently purchased. The accused started a new ash-sifter industry in the city a few weeks ago.

**WEALTHY DETROITER TAKES HIS OWN LIFE**  
J. C. Patrick, Aged 35 Years Drowns Himself at Kent County Beach.  
RIDGETOWN, July 15—Temporarily deranged from the effects of a two years' illness, J. C. Patrick, a wealthy Detroit, aged about thirty-five years, committed suicide by drowning at Terrace Beach, four miles south of here, at an early hour yesterday. Together with his wife and niece he had been occupying a cottage at the lake, and it is supposed he got up and left the house about 1 o'clock. On being missed an alarm was given, and a

search was made by the inmates of the other cottages. The body was found in shallow water near the shore, at 5 o'clock in the morning. Coroner Marr and Constable Blake of this town were summoned, and after inquiring into the circumstances, deemed an inquest unnecessary. The body will be taken to Detroit for interment.

**TWO DIVERS AT WORK**  
RIMOUSKI, Que., July 16.—Owing to the treacherous current here, the policy has been adopted to send two divers down to the wreck of the Empress of Ireland together. Each is now supplied as well with an electric light torch, while each is expected to guard the other. Jack Devine and Edward Luck, divers of the Weatherspoon crew, recovered the body of a woman, wearing a necklace and a ring. It is impossible to identify the jewelry.

**TO BE FINEST PARK IN CANADA, IS CLAIM**  
Banquet and Formal Opening of Lyon Boulevard at Port Arthur.  
PORT ARTHUR, Ont., July 16—A large crowd of citizens were the guests of the City Council at a banquet at the Prince Arthur Hotel in honor of J. W. Lyon of Guelph, who yesterday donated 99 acres to the city on a location to be known as Lyon boulevard and Lyon Park. The driveway of four miles, surrounding Currier River reservoir, was formerly open yesterday afternoon by J. W. Lyon. A feature was a procession of 61 private automobiles, nearly one

mile in length, containing city and Board of Trade officials. After the opening of the boulevard, the cars proceeded to Current River Park where, before thousands of citizens, addresses were made by Mayor Oliver of Port Arthur, Mayor Young of Fort William, J. W. Lyon, Colonel S. W. Ray, ex-Mayor of Port Arthur, and J. B. Allen of the Parks Board. The Lyon boulevard and park will become the finest park in Canada.

Three Toronto people were placed under arrest at Toronto, in California.
