Mackay's Clearance Sale Of Surplus Stock

SAVE MONEY by getting your Winter supply of Dry Goods at this Sale. Quantities are limited and at prices now selling, will soon be sold out.

A. H. MACKAY

The Particular Person

It is often the case when people need things, but still cannot make up their minds what to buy, and where to buy them. Sitting at home probably knitting, one's mind traverses endless vistas of stores, sees goods in a vague, confused mass, and cannot get a bit of help from such dim suggestions.

TO-DAY at Farrah's the sight of a beautiful Serge Dress in a dainty shade of navy blue in straight line, embroidery trimmings suggested a young lady who loves to be well dressed, still do not wish to spend too much money and asked the price and found that it was \$19.50.

THEN the obliging saleslady took me to a case and showed me a whole row of bewitching new styles in Suits and Dresses, some in Silks, Georgettes, Serges, Tricotines, and other fashionable fabrics, in fascinating shades of taupe, navy blue, black, rust and others all very reasonably priced from \$24.50 to \$45.00 and the sizes fit from 16 years to 42.

Let me tell you about the new Over-Blouses which "the saleslady said they had just arrived". They are very charming in many new shades, Beige, Taupe, Jade, Navy Blue, Black, Steel, Flesh, Maize, all colors, all made with latest sleeves, glass beads and gold trimmings and embroidered with harmonious colors and some with velvet crepe-de-Chene, many Jap Silks and the price is wonderfully low from \$3.25 to \$19.50. They are marvellous. Seeing is believing.

And the lovely, warm rose shades in the New Sweaters, the 100 p. c. pure wool feel makes a person think of the out of door sport during the nice days of winter, and the Scarfs, just think of them, many shades, many styles, all are priced so reasonable and begin from \$2.50 to \$13.50.

Then alongside the Sweater department one has a chance to pick up an inexpensive skirt for house wear or a much better one in pleated style or button trimmed, Tweed, Silk or Serge Poplin as well and the price suits every one's pocketbook, from \$2.65 to \$24.50

Afterwards I asked the saleslady what about the Men's Department?, and she introduced me to another lady who showed me an amazingly great assortment of Suits for Sunday as well as for work, all under priced, from \$19.50 to \$45.00, qualities and styles talk for themselves. Pants suitable for Lumbermen, others for Sunday wear, then visited the Shirt and Neckwear departments, the Hats and Caps, the Neckties, the Sweaters, Boots and must not forget the Larrigans, the Moose Head brand with Scotch Check label, a double guarantee, all reasonably priced.

Besides the excellent service you get at Farrah's you are properly waited upon. The Salesladies are ready to help you choose what you want.

I was also informed that 15 p. c. of all sales are given to the Miramichi Hospital Nurses' Home and that two more days and this sale will be over and prices will go back to their former level so while a person is saving money for him or herself is helping a worthy cause.

The Milking of Cows

Shall cows be milked twice or three times a day? To the average reader this may seem of small concern. To the farmer and dairyman it is a question of considerable interest. Tests have recently been made in Nova Scotia, Quebec, and Ontario. Professor Barton of Macdonald College says that it has been found from the standpoint of economy and safety that a cow giving 60 lb. of milk a day should be milked three times. Both Professor Trueman of the Nova Scotia Agricultural College and Professor Barton are agreed, however, that unless the udder is over distended there is little or no advantage to be gained by milking three times a day. These authorities are quoted in the September number of the Agricultural Gazette of Canada. Professor Wade Toole also contributed to a resolution of the same problem by giving results of tests made at the Ontario Agricultural College. The tests are to be continued and Professor Toole hopes to be able to give a more definite opinion another year than he does at present. In the meantime he shows that three high-class pure-bred cows gave more by three than by twice milking a day. His present conclusions however are the same as those of Professors Barton and Trueman.

FERTILIZE THE ORCHARD

In the November issue of the American Fruit Grower, we find the following question from a subscriber in Virginia:

"My trees are about thirty years old and have not been bearing very well lately. The foliage doesn't seem to be very strong and the fruit is rather small. I have done some pruning, but they are still rather too thick in the centre of the trees. I think what treatment would you use? The orchard is in sod and is too steep to cultivate."

The answer will probably be interesting to our readers. We quote part of it as follows:

"Judging from the description of your orchard, I would say that your trees are starving for want of plant-food. There are hundreds of orchards over the country where the trees are in this condition, but if proper methods of fertilizing and care of leaves are used, these orchards can be made to produce very profitable crops. Of course your trees should be properly pruned. Thin out the surplus limb growth, particularly in the centre of the tree. Let in some sunshine and air. Your fruit will color better and have less trouble from fungous diseases if the head of the trees is open.

"As your orchard is too steep to cultivate, I would advise leaving it in sod and depending on fertilizing. Of course your trees should be thoroughly sprayed. You will be surprised what a big difference this treatment will make in the first year. It will pay you many times over for the fertilizer and trouble. As it is now, your orchard is not a paying proposition. By giving it the right care and following this method of treatment, your land that has been planted to corn so much that it has become poor, will not raise a good corn crop, particularly if the farmer does not cultivate it. The same thing applies to an orchard. You have got to give the trees some attention, and if you do you will be paid handsomely for everything you do for the orchard."

Green
A rather green-looking chap went into one of our departments during the other day and sauntering up to the counter where dozens of men's caps were on display he looked carefully through the stock, but seemed unable to find what he wanted.

"Just what kind of a chap are you

ST. JAMES' CHURCH MEMORIAL SERVICE

A Memorial Service and the Unrolling of a Tablet to the Memory of St. James' Church Heroic Dead and Valiant Living, who fought in the Great War 1914-1919, was held during the morning service on Sunday Nov. 7th, 1920. The Rev. Clarence MacKinnon, M. A. D., Principal Presbyterian College, Halifax, N. S., was the Special Preacher. The Rev. Dr. MacKinnon took for his scripture the 11th and 12th chapters of the 1st Book of Samuel, and chose his text from the 18th Chap. of Exodus and his following words from the 12th Verse "Stones of Memorial." In a most eloquent, fervent and scholarly address Mr. MacKinnon read his congregation, and so thoroughly mastered his text, that the congregation was moved to tears. The dignity and solemnity of the occasion was much commented on by many who attended the service. A large number of the members of the U. W. V. A. were in attendance to do honor to their Heroic Dead. The congregation was one of the largest that has ever assembled in St. James' Church, and were in deep reverence throughout the service.

The music rendered by the choir was of a high order, and the congregation joined in the singing with enthusiasm. Mrs. L. H. MacLean rendered a solo "O Rest in the Lord," in her usual most acceptable manner, and Mrs. W. A. Park, kindly assisted the choir as Violinist. The Last Post was well rendered by Mr. H. B. Cassidy, which added greatly to the solemnity of the service. The Memorial Tablet is of solid bronze and was erected by Henry B. Ricks & Sons, of the Junior Women's Club of St. James' Presbyterian Church who donated it to the Church, at a cost of \$225.00. During the service the Pastor, Rev. L. H. MacLean read a letter from Rev. S. J. MacArthur a former pastor of the Church and who was stationed at Newcastle in charge of St. James' Church, at the time when many of the boys had enlisted. The Rev. Mr. MacArthur intimated in his letter that owing to his pastoral duties, it was impossible for him to attend, but thanked the Pastor the Rev. Mr. MacLean and the congregation for their kind invitation to him to be present, and sent a word of cheer to his old congregation expressing a wish that the service would be one of spiritual uplift to all.

At the evening service which was also conducted by Dr. MacKinnon, a large number were present, who thoroughly enjoyed the masterful discourse delivered by him. Principal MacKinnon is one of the cleverest, most brilliant and forcible preachers in the Presbyterian Church of Canada and St. James' congregation was fortunate in securing him for this memorable occasion. The congregation of St. James' will long remember Principal MacKinnon as well as the enlightened visions which he imparted to them through his addresses. The Order of the Memorial Service in the morning was as follows:

ORDER OF SERVICE

Organ Prelude.....Selected
"God of Our Fathers".....Warren
Invocation.....
Psalm 21.....
Scripture Lesson.....
Prayer.....
Hymn 254.....
Intimations.....
Anthem—"The Lost Chord".....Sullivan
Unrolling of Tablet.....
Our Heroic Dead.....
Singing—"I Heard a Voice From Heaven".....Gibbert
Last Post.....
Lord's Prayer.....
Sermon.....Principal MacKinnon
Prayer.....
Solo—"O Rest in the Lord".....
Psalm 121.....Mendelssohn
Benediction.....

"GOD SAVE THE KING"

OUR HEROIC DEAD

James Corbett, William Fogar, Alex. Ingram, Willard McDonald, R. Arthur MacMurray, Perley Williamson, Gordon Leslie.

OUR VALIANT LIVING

Bell, Emil Blarstrom, Ernest Brown, Harold Cooney, Stanley Casey, Harry B. Cassidy, Robert W. Cassidy, R. Coery Clark, Andrew Crocker, Robert R. Crocker, Robert Dalgis, Leroy W.

"THE CHEATER" AT THE HAPPY HOUR ON WEDNESDAY

May Allison, the captivating Metro star, in "The Cheater," is announced as the feature attraction at the Happy Hour Theatre for Wednesday. The new photoplay is described as one of the sensations of the year, presenting Miss Allison in an intensely dramatic role.

"The Cheater" is a screen version of "Judah," the notable stage play by Henry Arthur Jones, also author of "The Silver King," "The Lairs" and "Mrs. Dane's Defence." "Judah" was first played in London with E. S. Willard in the title role. The story of "The Cheater" deals with faith healing and when it was produced in England it created a storm of discussion. The controversy resembled that now raging here over spiritualism and kindred topics. Miss Allison's role is that of Lily Meany, who, under the name of Vashli Dethic, has won a reputation for effecting cures by faith. She knows she is a cheater and when she faces the prospect of trying to cure the crippled sister of Judah, Lord Asgarby, she experiences a change of heart due to Judah's nobility and the simple faith of his little sister.

The drama of her redemption is said to have been developed with tremendous dramatic skill. King Baggot, widely known for his work as a screen star, is cast as Judah. Others in the cast are Frank Currier, Harry Van Meter, Percy Challenger, May Geraci and Lucille Ward. The drama was adapted for the screen by Lotz Zellner and Henry Otto directed the production. W. M. Edmond photographed the picture and E. H. Webster designed and executed the handsome interior settings. The production, one of Metro's "fewer and better" kind, was mounted lavishly.

Rev. W. B. Williston At St. Mary's Church

Rev. W. B. Williston of West China formerly of Bay du Vin began a series of services at St. Mary's Church, St. John yesterday preaching both morning and evening addressing the Sunday School and taking the service at St. Mantholene's Colbrook Meetings have been arranged for all week at which Mr. Williston will speak.

At the morning service Mr. Williston preached upon the text "Rebuild you your altars." He emphasized the need of family and public worship dwelling particularly upon the necessity of worship in the home. In the evening he spoke upon the duty of parents to bring their children to the church, taking as his text "Go and fetch him."

In the afternoon Mr. Williston addressed the three departments of the Sunday School speaking to the Boys, the main school, and the primary. At four o'clock a service was held at St. Bartholomew's Colbrook at which there was a large congregation.—Standard.

"They Heard the Call and Answered"

The above names are those of the Heroes inscribed on the Tablet, of whom seven paid the supreme sacrifice and eighty four who after taking up the torch have returned to their homes to carry on.

PRESENTATION ON TUESDAY EVENING

On Tuesday evening, Nov. 2nd, the members of the Women's Institute (16 of them) met at the home of Mrs. J. D. Lyon and presented Mrs. Miller with a small gift and this address. The address was read by Miss Joseph M. Lyon and the presentation was made by Mrs. E. J. Parker. The ladies present enjoyed a social time together and some music, and readings, and luncheon was served by the hostess. Mrs. Miller was taken completely by surprise and she thanked the members of the W. I. for their kind thoughts for her. She said she would never forget her kind friends and the good times she had had in the Millerton W. I.

Mrs. Miller leaves for Texas very shortly where she will visit her son, Allan.

Millerton, N. B.
November 2, 1920

To Mrs. T. C. Miller,

Dear Mrs. Miller:—

We, the members of the Millerton Women's Institute, gathered here, wish to express on this occasion some of our feelings towards you. We sympathize deeply with you in your recent bereavement which has necessitated a change in your home arrangements, and we have learned of your contemplated departure from our midst with feelings of the deepest regret. We recall the fact that you were our first President and that since the organization of this Branch in 1912 you have been a regular attendant and a consistent source of help and inspiration in all our undertakings. We shall greatly miss your counsel in our plans and your talent in our program.

Your character and personality too have been such as to win our admiration and gratitude and endear you to all of us. Please be assured that you take away with you our respect and love and our very warmest wishes for the future.

We also pray you to accept the accompanying small token of our regard. We offer this not for its own intrinsic value but for what it represents, viz: our highest regard and best wishes.

In the days of the future may you sometimes think with fondness of your old friends of the Millerton Women's Institute and be assured that we shall always cherish you in our memory.

"Friendship, mysterious cement of the soul, sweetener of life, and solder of society. I owe thee much; thou hast deserved from me far, far beyond what I can ever pay."

ANNIE S. PARKER, Pres.
LIZZIE McMAHAN, 1st Vice-Pres.
ALEXANDER McTAVISH, 2nd Vice-Pres.
JAMES W. LYON, 3rd Vice-Pres.

SUNNY CORNER

Sunny Corner, Nov. 5—Mrs. James Hyland is visiting her daughter in Trout Brook.

Mr. Albert McAllister, Blind River Ontario is visiting his old home at the Colker.

Mr. and Mrs. Clarence Burns are rejoicing over a baby boy, which arrived on Nov. 3.

Miss Ella Nolan, who is attending St. Mary's Academy was home for the week-end.

Mr. James McDonald of Gunnison, Colo. is the guest of his uncle Mr. James B. Johnston.

Mrs. Walter T. Matchett has gone to Sibley's for a few weeks.

Miss Kathleen Dunnet Whitneyville was a visitor here last week.

Mrs. Agnes Murphy spent Sunday with relatives in Derby.

Mrs. Perley Mullin has gone to Newcastle to spend the winter with Mrs. J. McAllister.

Address And Purse Were Presented

Chatham Commercial: On All Saint's Day at the evening service in the Cathedral, His Lordship Bishop O'Leary, who has been appointed to succeed his brother at Charlotte-town, delivered his farewell address to an exceptionally large congregation. Bishop O'Leary was later presented with an address and a substantial purse by the members of St. Michael's congregation, the address being given by Geo. M. McPhee and the presentation by J. F. Connor.

TWO INCHES OF SNOW
The ground in a large part of Aroostook county is covered by two inches of snow.

SALADA TEA BUILDING, BOSTON

**A Series of Talks
On Music**

By Prof. C.C. Laughler, Mus. Bac.
Sarnia, Ont.

NO. III.—PERT REMARKS
The cheery concert singer said to his friend, "I am thinking of touring South Africa next year." His friend said, "Take my advice and don't, an ostrich egg weighs two or three pounds you know." What a difference to that most lovable and interesting character Chopin, his delicate touch was full of expression and exquisite grace, his physical condition debared him from every bodily exertion. He was seriously restricted always by a lack of strength, and died at the age of forty. Listen to what Chopin said to himself, "I am well and in good spirits, why, I do not know, but the people here (Vienna) are astonished at me, and I wonder at them for finding anything to wonder at in me. My manner of playing pleases the ladies so much, I move in the highest circles and I do not know how I got there, I am in the world like an E string of the violin on a contrabass."
Living during the same period but in the little country of Belgium was de Beriot, a man of different habits. This talented violinist was appointed solo violinist to William I. King of the Netherlands. "De Beriot" received a New Year's present of a dozen bottles of champagne from a wealthy friend. The violinist consumed the wine and returned the empty case with his card, on which he had written "encore," his patron did not resent this, but sent a second lot with his visiting card, on which

Professor C. C. Laughler Mus. Bac.

he had written the word "finale." Joachim was another great violinist who is known as the most distinguished teacher and greatest violinist of recent times. Joachim insulted the Kaiser, for when the Kaiser asked Joachim to teach two of his sons the violin, Joachim replied, "Your majesty, I fully appreciate the honor of teaching your sons, but I am very sorry to say that all my time is so taken up with talented students that I find it impossible to accept your majesty's offer." Ever after that time Joachim was no longer a favorite with the Kaiser. Joachim was the greatest teacher of his time, he took no pupil at any price who was not already an artist of talent yet we often think of the words of Jacob Abbott who said, never get out of patience with dullness or stupidity, but we are inclined to question when we read of an examiner asking the following questions and receiving these replies: What is a double sharp? When you strike two black keys at the same time, one with each hand.
Define "form" in music? Well it is not good form to applaud by stamping your feet, you should clap your hands.
What does "ad" signify? So far for one day's practice.
What is a Minuetto? A short piece

**NERVES ALL
GONE TO PIECES**

**"Fruit-a-tives" Conquered
Nervous Prostration**

R. R. No. 4, GILBERT PLAINS, MAN.
"In the year 1910, I had Nervous Prostration in its worst form; dropping from 170 to 115 pounds.
The doctors had no hope of my recovery, and every medicine I tried proved useless until a friend induced me to take "Fruit-a-tives".
I began to mend almost at once, and never had such good health as I have enjoyed the past eight years. I am never without "Fruit-a-tives" in the house". JAS. S. DELGATY.
50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

that you can play through in one minute.
We cannot but smile at some answers, for Willie after reading about the Guitar asked, what is a guitar? Why said Johnnie with a sneer, it's a disease in the head. No it ain't said Freddie, giving his chum a nudge, it is a lump growing on the throat.
The violinist was certainly put to a test for an answer when the landlady said to the violinist, who also was a new lodger, Oh good-morning, good-morning answered the new lodger, I hope you had a good night's rest, said the landlady. No I did not said the mild looking man, your cat kept me awake. Ch. said "landlady tossing her head, I suppose you are going to ask me to have the poor thing killed. No, not exactly, said the gentle lodger, but would you very much mind having it tamed.
Speaking of singing we cannot do better than listen to the soap-box orator, yes, said the orator, this is indeed a wonderful country. We have thousands of women who are wonderful singers—thousands of women who hold their audience for hours at a time—after which they lay it in a cradle and rock it to sleep.

PAPER CONTRACTS
Montreal, Nov. 2.—It is understood, says the Montreal Star tonight, that some of the Canadian pulp and paper export interests will meet in New York shortly with a view to talking over a basis of contracts for the first quarter of 1921. In well-informed circles, the paper adds, is asserted that the basis for such contracts is likely to be \$130 per ton or 6 1/2 cents per pound which is the maximum contract rate at present in force for the current year in the United States.
Virginia, a debutante, came in from a month's visit to friends. Dropping into a chair she sighed in satisfaction and involuntarily exclaimed, "Oh, I am so glad to be at home."
Her sister looked up inquiringly, "Didn't you have a good time, Gin?"
"A good time! Yes, she responded. "A glorious time, but I am so tired having to be pleasant."

**How to Cure
Biliousness**
Doctors warn against remedies containing powerful drugs and alcohol. "The Extract of Roots, long known as Mother Seigel's Curative Syrup, has no drugs or strong ingredients; it cures indigestion, biliousness and constipation. Can be had at any drug store." Get the genuine. 50c. and \$1.00 bottles.

**Salmon Fisheries
of the Miramichi**

OTTAWA, ONT., Nov. 3.—That the salmon fisheries of the Miramichi River New Brunswick, is in excellent condition is a statement made by an official of the fisheries department.
What is evidenced by the fact that during the current season a splendid catch has been made there in nets operated for hatchery purposes, from Sept. 13th to 29th, inclusive, or during a period of 17 days, 4,447 parent salmon, and a large number of Grille were taken in ten nets. These parent salmon are for the Miramichi Restraint Pond which supplies the bulk of the salmon eggs that are incubated in the hatcheries of the Maritime Province.

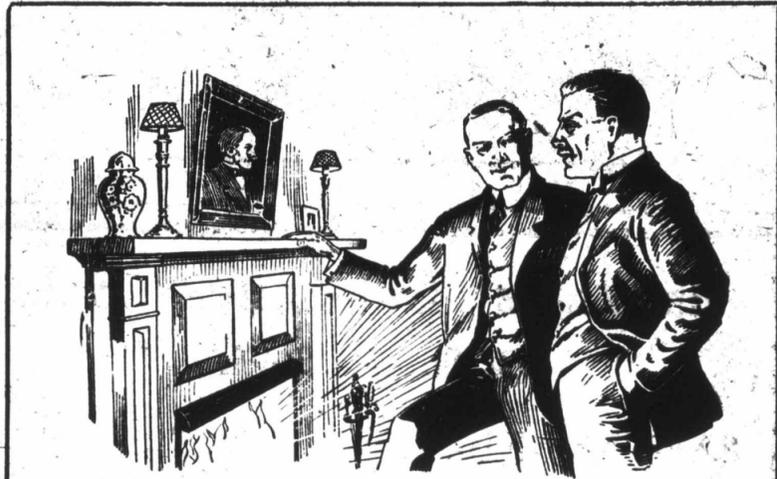

**Shoes Will
Be Cheaper
In the Spring**

Spring footwear should be from 13 to 20 per cent. cheaper, according to the grade of shoe, say the manufacturers. The drop is due to the fall in hide and leather values, in which a great reduction has taken place within the last few months. In some cases a cut of twenty five per cent. in the very high-priced shoes is prophesied, but it is stated that in all such instances the merchant will be sacrificing his profits, if not actually suffering a loss if a reduction of more than one-fifth of last year's price is given to the customer.
Calf shoes, which are selling at from \$16 to \$18, will be sold as soon as the new stock comes in, for \$12 to \$16 a pair, while the leather expensive lines, which formerly retailed at from \$5.00 to \$7.00, will be on sale at from \$4.00 to \$6.00. These prices are quoted in an article about to be published in one of the trade journals, setting forth the true situation in regard to values in footwear. The manufacturers are endeavoring to prove to the retailer that it is futile to expect any further reduction unless the cost of labor is lessened.
The tanners have been forced down to rock-bottom prices by the united weight of the boot manufacturers, say the latter and they themselves are charging the lowest rates possible to permit them to live. This they have done in order to encourage the buying of stocks for spring, and to induce the merchant to make purchases. It is said that labor, the main consideration in any change of rates as an item, which consumes 70 per cent of the outlay expended by the maker, remains as expensive as it was last year. According to the factory operator there is little chance of drop in wages occupying and any reduction in the amount of help employed would mean disaster for the whole output.
"Leather prices alone will affect the price of spring shoes," it is said, "but even that material has not advanced more than 50 cent on the average."

**Lumber Cut In
New Brunswick
Much Reduced**

The quantity of lumber cut in New Brunswick during the coming winter will be less than fifty per cent of this season's output, according to lumbermen.
On the North Shore, it is said, reductions are even greater than elsewhere and the curtailment will result in the cut not amounting to but little more than one-third in some cases of this year's amount. The principal reason ascribed for the curtailment is the labor situation, which, lumbermen say, makes it impossible to operate profitably.
The Stetson-Cutler Company, which includes the Shives Company and the Restigouche and a number of minor subsidiaries, plan on reducing their cut from seventy to not more than twenty-five million feet, and other American controlled companies will do likewise.
The Miramichi Lumber Company will reduce their cut by more than one-half, most of their operation this year being on their freehold land, while the Dalhousie Lumber Company, which is also controlled by the International Paper Company, will not operate any camps this winter and will only handle some six million feet, which they are obligated to take under an existing contract.
The Nashwaak Pulp and Paper Company are said to have been paying as high as \$90 for men to work on their operations this season, and these figures have secured all the labor they required for their operations. Other lumber companies engaging men are said to have made \$70 to \$75 the maximum figures they will pay, and in view of the outlook and with the curtailed cut declare they will not be justified in paying more.

1914-1915 STARS
A proportion of undistributed Stars are in the possession of the Department at Militia Headquarters, Ottawa, and personnel who are entitled thereto are requested to send their names and addresses to the Secretary Militia Council, attention of Director of Records, Militia Department, Ottawa.

"You know my father had a nervous breakdown when he was my age."

"AND what has that to do with you?"
"Well, I have been worried a lot lately, and feel that my nerves are playing out. Besides, I believe that nervous troubles are hereditary, and I guess I am doomed."
"Now, old man, the sooner you get rid of that idea the better. You may inherit a nervous temperament, but not disease of the nerves. It is up to you to take care of yourself, and not allow your nervous system to become exhausted."
"But I am afraid it is too late, so far as I am concerned. My nerves are all shot to pieces. I am restless and fidgety, cannot sleep at night. Everything seems to worry me, and I cannot stand it much longer."
"Why don't you go away for a while and take a good rest?"
"Simply because I cannot. My business requires my constant attention."
"Then I will tell you what to do. Go to your druggist and buy a dozen boxes of Dr. Chase's Nerve Food. I will guarantee that by the time you have used it you will feel like an entirely different man."
"Oh, I have been taking medicine enough from my doctor, and what good

has it done me? Perhaps I have had a night's rest occasionally as a result, but certainly no permanent benefit."
"That is just the point. You have sought relief by deadening the nerves instead of restoring them. Dr. Chase's Nerve Food works on an entirely different principle. It forms new, rich blood, and nourishes the depleted nerve cells back to health and vigor."
"That sounds good to me."
"Because the Nerve Food works in this natural way you cannot expect much change after the first box or two. It takes a little time to build up an exhausted nervous system, but if you have a little patience the results will make it worth your while."
"I will follow your advice, for I have been terribly oppressed, of late by the hopeless outlook. I know you would not recommend Dr. Chase's Nerve Food unless you felt sure it would restore my health, so I shall do my part and give it a thorough trial."
Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmanston, Bates & Co., Ltd., Toronto. Refuse substitutes, and look for portrait and signature of A. W. Chase, M.D., on the box you buy.

**Partridge Flew
Into Hunter's Tent**

Fredericton, N. B., Nov. 2.—J. E. Dickerson and Louis J. Edreit, on hunting trip on the Bartholomew

New York, who returned from a with R. M. Morehouse, of Oromocto, as guide, report deer as very plentiful, but did not see any moose. They also report partridge as being very plentiful and tame. One night the flap of the tent was open while hunting trip on the Bartholomew

few in and allowed the hunters to pick them up in their hands. The next morning when the tent was opened the birds were on hand looking for their breakfast.

Colds & Common Sense

You have a cold, or your child has a cold; a cough; a tight feeling across the chest; a soreness in the breathing tubes.

In the past how have you treated such? You have bought some cough mixture, and swallowed this down into your stomach. Now, why? Your stomach was not at all that said there is no direct connection between your chest (where the trouble is) and your stomach! Then why swallow into your stomach any mixture when the trouble is in your lungs and bronchial tubes?

It's a mistake; and Peps is the remedy provided to correct this un-commonsense treatment. Peps are little tablets, which contain highly beneficial Peps essences, combined with other medicinal extracts. These healing extracts are so prepared that as soon as you put a Peps into your mouth they are liberated in the form of healing vapors. You breathe these vapors down to the throat and lungs, and thus treat the organs that are inflamed, direct. In a way, it is like breathing from a vaporizer or bronchitis kettle, except that there is no apparatus needed, the little Peps providing everything needful for the treatment! The very small portion of Peps which you swallow has a slightly tonic effect upon the stomach and does you good, but the use of Peps is not for stomach troubles, but for lung, throat and bronchial troubles. Peps relieve these as no ordinary treatment can.

Children like Peps and they are best for the little ones, because Peps contain no morphine, laudanum or other poison found in so many of the old cough mixtures. Druggists and stores everywhere sell Peps 50¢ box, of from Peps Co., Toronto, for price. Remember the name—four letters only:—

Peps

C.N.R. Employees' Back Pay Matter

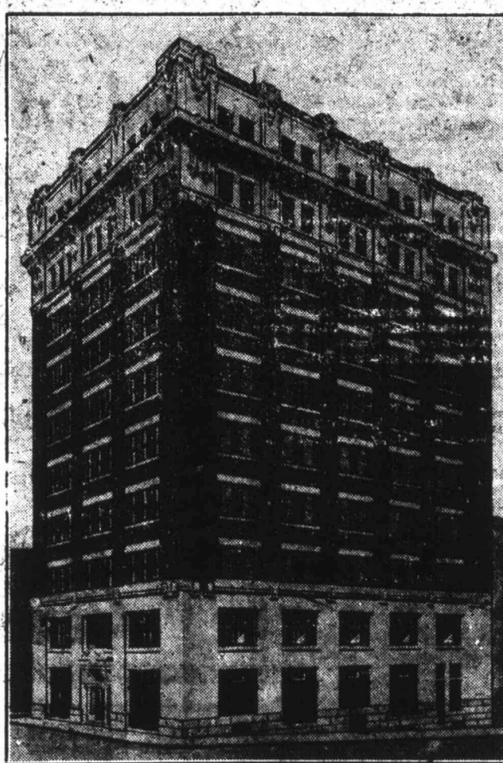

Ottawa, Nov. 7.—While railwaymen in Ottawa expected that in the October end pay they would obtain their back pay which the recent award gave them from May 1 the money did, except in a few cases, come to hand. The preparing of excess back pay for some months involves an enormous amount of work covering as the records do all Canada and for many thousands of men.

A. R. Mosher, head of the Canadian Brotherhood of Railway Employees, stated that the increased pay would probably start at once, and that possibly the back pay would come on the 15 of November. The G. T. Railwaymen having obtained their award somewhat sooner than the C. N. R. men may get their pay matters adjusted a bit sooner, was Mr. Mosher's opinion.

The Monthly Bank Bulletin

As a means of keeping the farmers and others interested in the live stock industry informed of the activities of the Live Stock Branch, a monthly bulletin designated the Monthly Bank Bulletin is distributed. Bulletin number eleven, of this series of examples announced the sale of pure bred stock fixed to be held at Saskatoon, by the Saskatchewan Cattle Breeders' Association. This bulletin is distributed throughout the province, in much the same fashion as other bulletins, except that postage is paid on it, whereas purely educative bulletins do not require to be sent to banks, secretary-treasurers of municipalities, secretaries of agricultural societies, postmasters, members of the various live stock associations and others who desire to receive it.

There is always room to suspect the man who fears that somebody is going to keep him from violating the law.

WONDERFUL NEW TEA WAREHOUSE

The magnificent building shown above, and situated at the corner of St. Lawrence Boulevard and La Rayer Streets, Montreal, will be occupied by the SALADA TEA COMPANY about February 1st, next. The building at present occupied by SALADA, at the corner of St. Paul and St. Sulpice Streets, Montreal, was erected by them eleven years ago, but for some time has proved inadequate for their business.

GUARD AGAINST CHILLS

Simple Protection Against Dangers of Cold and Damp.

Cultivate the habit of taking a cup of hot Oxo—a cube to a cup—before going out in the cold or damp. Each cube is a feast upon the system, and the strengthening and warming powers of the concentrated best goodness fortify you against the evil consequences upon exposure.

If the cubes of Oxo are new to you, try a tin of four cubes. Oxo greatly improves gravy, stew, or soup, and is a delightful, sustaining and appetizing beverage. It is especially for children.

Regular users of Oxo prefer the larger tin of 10 and 20 cubes, using them in many different ways in place of meat.

Bathurst Paper Owners Incorporated

Fredericton, Nov. 3.—Erlbert McLean, Claude Messerieu and Clovis T. Richard, Bathurst, have been granted letters patent incorporating them as The Northern Light Limited with a capitalization of \$24,000, and the head office at Bathurst. The objects of the company are to print, publish, circulate and sell newspapers, journals, periodicals, etc.

Young Magoon Says St. Pierre Offered Money

According to advices from Edmondston, the evidence against St. Pierre, a returned soldier, suspected and being tried for the murder of Miss Minnie Stevens, telegraph operator at Edmondston, has been furnished by the statement of Charles Magoon, a boy about thirteen years of age who declared he met the accused on Emerson Avenue the night of the murder, near the spot where the heinous act was committed.

St. Pierre produced a roll of bills and offered some money to the lad, telling him to say nothing of having seen him there. Magoon promptly refused and thereupon the accused offered him liquor which was like wise not taken.

St. Pierre a few minutes later disappeared over the river bank and young Magoon went home and until the next day forgot about the occurrence.

However, when St. Pierre was arrested the boy told his parents who, fearing kidnapping of the child by friends of St. Pierre kept their knowledge to themselves.

The evidence has now been disclosed and seems to have shattered the plans that the counsel for the defence have built up for St. Pierre.

Eats Heartily Every Meal Now

Nova Scotia Man Says Taking Tanlac was the Wisest Thing He Ever Did

"Since I began taking Tanlac I have found relief from troubles that made life a burden to me for three years," said John R. Gray, of Richmond, N. S.

"I suffered from indigestion so bad that even the lightest food soured on my stomach. Gas bloated me up and I had pains in the pit of my stomach that nearly drew me double. Sometimes after these attacks I was so weak it was all I could do to stand up and I had to be nearly carried to bed. I was so nervous and restless I hardly ever got to sleep. Hours after I went to bed and I would wake up in the morning feeling as if I had just finished a hard day's work. I lost weight rapidly and was so weak and short of energy it was an effort for me to get any work done.

"After taking a few bottles of Tanlac I am today as well as I ever was in my life. I can now eat three square meals a day and never have a particle of trouble afterwards. My nerves are steady and I sleep soundly every night and get up in the morning feeling good. I have gained ten pounds in weight and am in the pink of condition and feel like I can do as big a day's work as anybody."

Tanlac is sold in Newcastle by E. J. Morris, in Redbank by Wm M. Sullivan and in Doaktown by O. Hildebrand.

Robbery At Devon

Devon, N. B. Nov. 1.—A stout man of medium build, hailing, he said, from Chatham, obtained a room at the boarding house of Mrs. Jas. Love South Devon on Thursday night and left after breakfast Friday morning taking with him, it is believed, a scarf pin and twenty-two dollars in cash, the property of some other boarders. The apparent theft was not discovered until that evening.

No action was taken the police not being notified so the affair did not come to light until yesterday and it is now believed useless to undertake the apprehension of the light-fingered traveller.

Rod and Gun

Readers of Canada's national sportsman's monthly ROD AND GUN IN CANADA will look forward with interest to the November issue which contains among other interesting stories and articles, "Where the Amber River Flows," a story of the North country written by that premier sportsman, Robert G. Hodgson. "Lobstering in Nova Scotia" is the title of Bonbrastie Dale's instructive contribution to this issue. The annual tournament of the Nova Scotia Guides' Association is fully reported and illustrated in two articles. The sportsman's department, fishing guns, conservation and kennel are up to their usual high standard. In addition to these interesting stories and departments, A. Bryan Williams, the noted big game hunter of British Columbia gives an interesting account of a big game hunt in the mountains of the Pacific province. ROD AND GUN IN CANADA is published monthly by W. J. Taylor, Limited, Woodstock, Ont.

Man's Friend the Noble Horse

BECAUSE of the progress of motor vehicles and agricultural machinery there seems to be developing a belief that the horse, man's noble friend, is in danger of becoming extinct.

Those who are financially interested in horse breeding say that this is not true. The demand of the horse for service as a draught animal may decrease, but for equestrian purposes he is still wanted.

War has brought horses, like men, more fame than anything. Next to that comes racing. Bucephalus, war horse of Alexander the Great, still is classed as one of the most famous steeds of all time.

As a knowing, sympathetic and faithful quadruped, the horse is second only to man's greatest animal friend, the dog. On the bloody battlefields of France and Flanders, where cavalry charged, in the Teutons' war to subject the world, the famous paintings by great masters depicting bereaved charges standing in starving fidelity beside the corpses of their human friends, were frequently enacted. The recent reality often far exceeded the pathos of the pictured events of the past.

The saddle horse, it is said on good authority, is becoming more and more popular in America. Not alone the racer, but the roadster. Horse and rider present the closest relationship of any between this noble animal and man.

Throughout the ages the horse has faithfully served man and sometimes enriched him. For sport, healthful recreation and the "sport of kings"...

Sugar Market

Breaks: Price 14 Cents Now

Montreal, Nov. 5.—Demoralization reigned supreme in the sugar market here today and no one, refiner or wholesaler, seemed to know what was going on. Leading wholesalers stated that, following repeated drops in the raw sugar market at New York, with the persistent course of the Dominion Sugar Refinery of Toronto, which deals in best sugar, in underselling the cane sugar refineries, that the four big cane sugar refineries here had broken away from all agreements as to stabilization of prices and were selling where and how they could.

Accordingly, the big wholesale firms here who in the past have stood fairly well together, abandoned their cohesive policy and started an orgy of price cutting today. Down to 14 Cents For a time the price ran around fifteen cents per pound, and then was reduced to 14 cents net laid down to retailers here. A further decrease is looked for tomorrow.

Hogs and Bacon Will be Scarce

Some farmers have been quick to grasp the lesson for 1921 in the sharp decline lately in the number of breeding sows. A canvass of log breeders in Ontario in the last two weeks show that the trade in young stock to replenish the supplies on farms has not for many years been more active than this fall. One well-known breeder in Ontario states he is almost sold out. With twenty-five years' knowledge of the Canadian bacon trade, he attributes this to the fact that farmers have come to understand that there is "sure money" for the man who can breed for litters next spring.

Yet the awakening has to go further. In some sections of the Prairie Provinces the drop was as much as 60 to 75 per cent. compared with two years ago. In the Eastern and Maritime Provinces also marked reductions have been recorded. No until every farmer understands that it is best to keep or secure and to breed at once his normal number of sows will conditions begin to be steadied.

The importance of a quick recovery cannot be over emphasized. The great harvest of feed grains now available will largely be disposed of at a loss if not fed to livestock. Prices for hogs to-day compare more favorably with the price of grains than for some time and the demand exceeds the marketings. Canadian overseas markets demand steady support if they are not to be lost.

In no line of livestock is the supply so cut down. It is already certain that hog prices and consequently bacon prices will remain comparatively high next year. Whatever is done to restore supplies must be done quickly. The breeding season for pigs begins in the first week in November and continues only until about the middle of December. If the opportunity is allowed to slip the recovery in numbers will be so retarded that our present cheap feed will be still more cheapened, leading to loss.

he is still here. He is true to us. Let us reciprocate and reward his fidelity.

Why Anemia Prevails

The Strenuous Conditions of Life To-day are Responsible

Mothers who remark that girls to-day are more prone to anaemia than the girls of a generation ago, should look back at the surroundings in which they and their companions lived. They would easily see the reason in life's altered circumstances today.

Now the school-girl's life is more strenuous; her more numerous studies are a severe tax upon her strength. Also, girls enter business soon after leaving school—at an age when they most need rest and outdoor life. Their womanly development is hampered by the stress of working hours, hurried and often scanty meals. Girls are more liable to bloodlessness to-day, but there is this consolation that, whereas doctors formerly regarded anaemia as often incurable, the cures are now counted in tens of thousands. Such medicines as Dr. Williams' Pink Pills have restored to good health thousands of weak anaemia girls and women, simply because they contain the elements necessary to make new, rich, red blood which means good health and vitality.

When your daughter's strength falls and pallor, breathlessness and backache disclose her anaemic condition, remember that you can make her well and assure her healthy development by giving her Dr. Williams' Pink Pills to make good red blood. Remember, too, that for women of all ages Dr. Williams' Pink Pills are especially helpful in the many ailments that result from watery blood. They make women and girls well and keep them well. This is amply proved by the case of Miss Eva MacKinnon, Glamis, Ont., who says: "As a school girl I grew very pale and would take dizzy spells and sometimes vomiting. My condition was such that I was not able to attend school regularly, and my mother was very much worried about my condition. Finally she decided to give me Dr. Williams' Pink Pills and I took these for a considerable time, gradually gaining strength until I was perfectly well. It is some years since I took the pills and I have enjoyed the best of health, and I am certain pale, sickly girls will find new health if they give Dr. Williams' Pink Pills a fair trial."

CROP FEEDING INSTEAD OF SOIL FEEDING

The results of a chemical analysis of a soil do not, as a rule, afford a satisfactory basis for determining manurial requirements. The chemist, it is true, can determine what he soil contains, but no ordinary analysis determines with exactness what proportion of the several elements present is in available form for the crop. Indeed, there is no such thing as a constant ratio of availability. While one crop finds in a given soil all the plantfood it requires, another may find a shortage of one or more elements. Further on the very same field one crop may find an insufficient amount of potash; another may find enough potash for normal growth, but insufficient phosphoric acid while a third may suffer only from the insufficient supply of nitrogen.

The manurial and fertilizer requirements are determined more largely in most soils, by the crop than by regularities in the chemical conditions of the soil.

Spilled Her Pleasure "Everything went off splendidly at Mabel's wedding, didn't it?" "Yes, except for one thing which rather upset the bride." "What was it?" "Well, she felt that her father looked altogether too cheerful when she gave her away."

NEW RAIL SERVICE TO PACIFIC COAST

Canadian National Railways Inaugurate New Fast Daily Service Between Montreal and Vancouver—Luxurious Trains in Operation.

From all points in the Maritime Provinces there is the finest of through rail service to the Pacific Coast, via Canadian National Railways. All that travel comfort can suggest, convey, or devise, is here for the traveller. The most modern of steel equipment—first class coaches, standard sleepers, tourist cars and luxurious compartment cars, are on the through trains between Montreal and Vancouver. The excellence of the connecting train from Eastern points, the "Ocean Limited," is known to all travellers. The new service from coast to coast is the best that any railway offers anywhere.

The Ocean Limited leaving Newcastle at 4.45 p. m. daily, arrives in Montreal at 9.20 a. m. the day following. Connection is made with the splendid train operating under Canadian National and Grand Trunk management, leaving Bonaventure station at 5.00 p. m. This train, with its equipment of compartment cars, standard sleepers, standard diner, tourist and colonist cars, arrives at Ottawa at 8.00 p. m. and leaving at 8.20 p. m., is at North Bay early the following morning. Port Arthur and Fort William are reached the morning of the day following and Winnipeg that evening. Leaving Winnipeg at 9.40 p. m., the journey to the coast is continued via Saskatoon, Edmonton, Jasper, Mount Robson and New Westminister and the train arrives at Vancouver at 9.00 a. m. the third day after leaving. Leaving Halifax on Monday morning for instance the traveller arrives in Vancouver on Sunday morning, just six days and a night of travelling under the finest of travelling conditions.

Particulars of this new through service can be now supplied by all Canadian National Railway ticket agents. Rates can be quoted and reservations made. It is a new era in Transcontinental travel that is but the beginning of a greater railway development under the Canadian National system.

PLUMPER GRAIN FROM USE OF FERTILIZER

Bulletin No. 243 of the Ontario Experiment Station discusses the "Effect of Fertilizers on the Physical and Chemical Properties of Wheat." The publication states that where wheat was grown on soil that was not fertilized, the samples showed 49 per cent shriveled wheat and 51 per cent plump wheat. When the wheat crop received a judicious amount of the correct plantfood, the samples of grain analyzed 94 per cent plump wheat and only 6 per cent shriveled wheat. Such a difference of two to three grades on the commercial market; that is, wheat of the kind obtained from the unfertilized plot would grade about No. 3 and No. 4, while that obtained from the fertilized plot would grade No. 1 and No. 2.

Not only is the size of the kernel of well-fed wheat better than that from weak plants, but the quality of flour coming from plump kernels is superior to that from shriveled. Prof. Harcourt, Chemist of the Ontario Experiment Station, Ontario, states that the difference of flour resulting from No. 1 Northern Wheat as compared with No. 4 Northern Wheat. When these

flour were made into bread there was a considerable difference in yield of bread per barrel, and in the quality of the product of the flour from the two grades of wheat. Careful attention to the early food of the wheat plant makes a vast difference in the quality of flour produced. The quality of flour it will make determines to a large extent the price paid for the wheat.

Another Royal Suggestion COOKIES and SMALL CAKES

From the NEW ROYAL COOK BOOK

WHEN the children romp in hungry as young bears, here are some wholesome, economical delights that will not only be received with glee, but will satisfy the most ravenous appetite in a most wholesome manner.

Cookies
1/2 cup shortening
1/2 cup sugar
1/2 cup milk
1 egg
1 teaspoon grated nutmeg
1/2 teaspoon vanilla extract or
grated rind of 1 lemon
4 cups flour
3 teaspoons Royal Baking
Powder
Cream shortening and sugar
together; add milk to beaten
eggs and beat again; add
slowly to creamed shorten-
ing and sugar; add nutmeg
and flavoring; add 2 cups
flour sifted with baking pow-
der; add enough more flour
to make stiff dough. Roll out
very thin on floured board;
cut with cookie cutter, sprin-
kle with sugar, or put a raisin
or a piece of English walnut
in the center of each. Bake
about 12 minutes in hot oven.

Cocoa Drop Cakes
4 tablespoons shortening
1 cup sugar
1 egg
1/2 cup milk
1/4 cup flour
1/2 teaspoon Royal Baking
Powder
1/2 cup cocoa
1/2 teaspoon salt
1/2 teaspoon vanilla extract

ROYAL BAKING POWDER

Absolutely Pure

MADE IN
CANADA

"Bake with Royal and be Sure"

Cream shortening; add sugar
and well-beaten egg; beat
well and add milk slowly; sift
flour, baking powder, salt and
cocoa into mixture; stir until
smooth, add vanilla. Put one
tablespoon of batter into
each greased muffin tin and
bake in moderate oven about
20 minutes. Cover with boiled
icing.

Orange Cakes
4 tablespoons shortening
1 cup sugar
1/2 cup milk
1 egg
2 cups flour
3 teaspoons Royal Baking
Powder
1/2 teaspoon salt
1/2 teaspoon orange extract
grated rind of 1 orange
Cream shortening; add sugar
slowly, beating well; add milk
a little at a time; then add
well-beaten egg; sift flour,
baking powder and salt to-
gether and add to mixture;
add flavoring and grated
orange rind; mix well. Bake
in greased shallow tin, or in-
dividual cake tins, in hot
oven 15 to 20 minutes. When
cool cover with orange icing.

WEDDINGS PERSONALS.

KENT—YOUNG
At Bathurst, on Wednesday, Miss
Marjorie Young, Carquet, daughter
of F. T. B. Young, was married to
Harold Kent, son of W. J. Kent, by
Rev. A. D. Archibald.

The bride wore a tailored costume
of African brown velour. With this
was worn a fur beaver hat of
lute flowers draped with brown. The
bouquet carried was bride's roses.
Miss Helen Young attended her sis-
ter and was gowned in blue georget-
te crepe with trimmings of jet beads.
She carried pale pink roses, wore
furs of ermine and close fitting hat
of rust-colored satin.

RYAN—RYAN

In New York city on Saturday, Wil-
liam Ryan, of Kouchibouguac, Kent
county, was united in marriage with
Lucretia Ryan, daughter of Miss Mary Ryan,
a former teacher of Chatham, N. B. Mr.
Ryan, who is a contractor and build-
er in New York, has many friends in
Moncton and vicinity.

OBITUARY

MR. THOMAS ROSS
The death of Mr. Thomas Ross
occurred at his home in Blackville
on Monday evening Oct. 25th after
an illness of a week of pneumonia.
The deceased was in his 61st year
and well known and highly respected
by all who knew him.

He is survived by his wife, six sons
and two daughters. The sons are
Charles, Robert, Marshall, Thomas
and Joseph of Blackville and Mel-
bourne of Three Rivers, Que. The
daughters are Mrs. David McPhail
and Mrs. Earl Donahue of Blackville.
The funeral was held Wednesday
morning services being conducted by
Rev. S. J. Crumley, interment in
St. Raphael's cemetery.

PROFESSOR JOSEPH ADAMS
Many friends throughout the province
will learn with regret of the
death of Professor Joseph Adams, at
8.30 o'clock Thursday morning, at the
residence of his daughter, Mrs. D.
Smith Reid, Mecklenburg St. The
deceased has been suffering from heart
trouble for some months and death
was not unexpected. He was in his
70th year of age and was born in Bir-
mingham, England. Professor Adams
was a musician by profession. He
graduated from Royal College, Bir-
mingham, Eng., served twelve years
in the Imperial Army and on three oc-
casions played concert solos before the
late Queen Victoria, and was person-
ally congratulated by Her Majesty.

The deceased was well known in
the Maritime Provinces and filled the
position of organist in several towns.
Professor Adams was a Presbyterian
in religion and beloved by all who
knew him. The funeral took place
Friday afternoon, Nov. 5 at 3 o'clock
from his late residence, 77 Mecklen-
burg street.

The late professor Adams was Band
master of the 132nd Battalion, and
during the summer conducted a class
of musical students in Newcastle. At
the time of his becoming indisposed
to reside in Newcastle and returned
to St. John with his daughter.

Mr. D. W. Stohart left on Sunday
for Montreal, Que.

Alderman W. L. Durisk left on Wed-
nesday for Montreal.

Mr. James Robinson of Millerton
was in town yesterday.

Mr. Harvey Way of Wayerton has
returned from the West.

Mr. and Mrs. Robt. Melrose, left
yesterday for St. John, N. B.

Mr. John T. Sutherland of Bliss-
field was a visitor to town yesterday.

Mr. and Mrs. John Elder of Mill-
bank spent Sunday in town with
friends.

Miss Isabelle Long of St. Clair,
Madawaska Co. is visiting Newcastle
friends.

Misses Clair and Josephine Wheeler
have returned from a pleasant visit
to St. John.

Mr. Harry Cassidy left last
night for Hamilton, Ont. to study elec-
trical engineering.

Miss Dora Harper of Bushville left
last week for St. John, where she
will spend the winter months.

Mr. Edward Menzie and Mrs. L. M.
White spent a few days last week on
a bird shooting trip at Tracadie.

Mrs. Archie Taylor and little son
Hilton of Fredericton spent last
week with Mr. Wm. B. McCullam,
Jane St.

Mr. J. Ander, formerly manager of
the Canadian Gear Works passed
through Newcastle, Sunday, en-route
to Montreal.

Mr. and Mrs. W. W. Cormier and
Miss George Dunn and Michael
Coughlan, who motored through to
Boston a few weeks ago, have return-
ed home.

The friends of Mr. and Mrs. Chas.
Delano will be glad to hear that their
little son, Gordon, who was kicked in
the face by a horse some weeks ago
has fully recovered.

Miss Gertrude Buckley, who gradu-
ated from St. Vincent's hospital,
New York, in May, arrived home on
Sunday's Limited to visit her parents,
Mr. and Mrs. J. D. Buckley.

The Rev. Clarence MacKinnon, M.
A. D. D. Principal Presbyterian Col-
lege, Halifax, N. S. left for Halifax,
on Monday morning's Maritime Ex-
press to resume his duties there, after
conducting The Memorial Service in
St. James' Presbyterian Church on
Sunday.

MISSING RADIUM FOUND
UTICA, N. Y., Nov. 4.—The thirteen
thousand dollars worth of radium,
belonging to a Utica physician, which
was lost in a hospital sewer last Sun-
day, was found yesterday in the
sewer pipe not far from the hospital.

The radium was thrown into a toilet
bowl by a patient who felt annoyed
by its heat. Twenty men have
been uprooting and examining the
sewer since its loss was discovered.
The radium was in a vial especially
made for it and it is in three partic-
les, each about the size of a small
bird shot.

PILES
Do not suffer another day with
itching, bleeding, or protruding
Piles. No surgical operation
required.

Yields of Bush Fruits in Canada

At the Central Experimental Farm,
the average yield of the Herbert rasp-
berry for two years on one row ninety
feet in length was at the rate of more
than 205 bushels per acre. Under
field conditions, cultivated raspber-
ries produce from 50 to 100 bushels
of crop per acre, according to the sea-
son. Gooseberries at 40 pounds per
bushel yielded at the rate of 909 bus-
hels to the acre. Red currants gave
202 bushels to the acre in one instance
and 49 bushels in another. These
figures are taken from a new bulletin
issued by the Experimental Farms at
Ottawa on the subject of "Bush
Fruits." In this pamphlet the cur-
rant, gooseberry, raspberry, blackber-
ry, dewberry, and loganberry are
treated in such a way as to make
their cultivation and to understand
the merits of the different worthy
varieties. It is pointed out that the
currant, gooseberry, and raspberry
grow wild almost if not quite to the
Arctic Circle. The greatest is the
result of experiments carried on at
the Central Experimental Farm and
the widely separated branch farms
and stations. This publication, which

Royal Bank Loses \$13,000 By Theft

TORONTO, Nov. 4.—About \$13,000
was stolen from the Royal Bank at
the village of Woodbridge, Ont., last
Tuesday, and yesterday James Flem-
ing, who is said by the police to have
been the accountant of the Wood-
bridge branch of the Royal Bank, was
arrested in this city on a charge of
theft.

CHANGING THE "BUSHEL
PER ACRE" FIGURES

Hard work plus experience plus
plenty of fertilizer in Maine produced
290 bushels of potatoes to the acre.
Hard work plus experience plus lit-
tle or no fertilizer in Michigan, Min-
nesota and Wisconsin produced 100
bushels to the acre.

is designated in Bulletin No. 94, and is
available at the Publications Branch
of the Department of Agriculture at
Ottawa, contains also a treatise on
the common diseases of bush fruits
and the insects affecting them with
methods of control.

The Mystery of Hairless Litters

To the swine grower the pheno-
mena of hairless litters is a mystery
in so far as origin is concerned. He
simply knows that sows normal in
every way farrow litters that are
quite abnormal in one, all, or a com-
bination of the following:—comple-
tely or partially hairless, with unde-
veloped hoofs; blind; very large, flabby
and with abnormal development of
the head and neck; very small weak
and undeveloped generally. Such
pigs usually die in from a few hours
to a few days after birth. Not all
pigs in the litter are so affected some
being quite normal. The sow remains
normal.

While the scientist has arrived at
what is possibly the direct constitu-
tional cause, the preliminary causes
are also more or less in mystery.

Some Inconsistent Facts

A breeder may one year lose 90%
of his pigs and the next year with
the same breeding stock, feeds, quar-
ters, water and management, obtain
a normal increase. In certain years
and localities that trouble seems to
be almost of an epidemic, only to
disappear entirely. Is it due to
seasonal influence? Is it transmissi-
ble? Is it due to some poisonous
element in the sows ration which
leaves her unharmed but which ar-
rests or renders abnormal the later
development of the pigs in utero?

The Apparent Cause of the Hairless
Pig.

It cannot be stated definitely that
the cause is seasonal. Certainly
there is no consistency in such a
claim. The possibility of contagion
is also most difficult to assume. It
would, further, seem illogical that
any actual poison, to the foetus
would leave the sow quite unharmed.
Apparently the difficulty lies in some
deficiency of the sow's ration,—which
is essential to the normal growth of
the little pig. Apparently too, this
malady or abnormality is similar to
the thyroid affections of calves and
pigs.

Sows are more predisposed to give
hairless litters than are adults. Pos-
sibly due to certain deficiencies in
the ration being entirely absorbed by
the dam. Further, the trouble is in
practically every case confined to
the winter-carried litter and is very
rarely seen in the summer or fall
litter. Apparently certain deficien-
cies in the ration may be corrected
by the sow in the summer from other
sources, whereas she has no recourse
during the winter unless supplied
artificially.

Here is what is known at present:—
1. That a ration for the pregnant
sow highly proteid or nitrogenous
predisposes to hairless litters, but
that in many cases the correction of
the balance had constituents of the
ration apparently corrects the trouble.
While there are plenty of cases to the
contrary in Eastern Canada, the trou-
ble is usually scattered widely and
in all likelihood due to malnutrition.
Sows are frequently given insufficient
and little or no mineral matter, such
as charcoal, kiesel, earth, etc. They
have depended largely on a more or
less highly proteid ration,—shorts,
bran, clover, screenings, etc.

It has been proven conclusively that
the activity of the Thyroid gland
has a marked effect on the develop-

CAPITAL AND RESERVES \$33,000,000 TOTAL RESOURCES - \$470,000,000

German Guns At Hillsboro

Hillsboro, Nov. 2.—New machine guns and one trench mortar have been received here from the War Trophies Department at Ottawa.

Ottawa Took Little Interest In U. S. Election

Ottawa, Nov. 2.—News of the result of the elections in the United States was received quietly in the capital. The fact that the Prime Minister and a large proportion of the members of the cabinet are out of the city, probably accounted for lack of public comment.

Warren G. Harding Elected President of United States

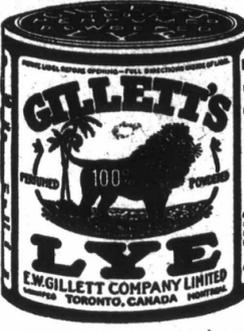

New York, Nov. 3.—At 12.30 o'clock this morning with actual returns far from complete, Harding was certain of 346 votes in the electoral college from the following states:

Alabama; Arkansas; Florida; Georgia; Louisiana; Mississippi; North Carolina; Oklahoma; South Carolina; Tennessee; Texas and Virginia a total of 136 votes in the electoral college.

On the face of returns showing the growing landslide for Harding, Governor Cox's own newspaper, the Dayton News and Chairman White, of the Democratic National Committee, soon after 11 o'clock tonight conceded the election of Senator Harding.

Without waiting for returns from the West, which four years ago elected Wilson in the face of pluralities for Hughes throughout the east, the Democratic candidate and his chief manager conceded that in the "voluntary referendum" which President Wilson declared would decide the League of Nations question, United States voters had preferred Harding, who favored "going in."

New York, Nov. 2.—Warren G. Harding, Republican, was elected President of the United States today

by a tremendous plurality. His vote over Governor Cox of Ohio, the Democratic candidate, was very large. There is every indication, also, that the next Congress, both the Senate and the House of Representatives, will be Republican.

New York, Nov. 4.—At 11.15, o'clock eastern time, with the west and middle west still scarcely heard from, the Harding landslide in the east was continuing with gathering momentum.

At the rate the Harding column was growing at that hour, the Republican plurality in the state of New York would be around the unprecedented figure of more than a million.

At that hour showed Harding leading Cox three to one and Senator Penrose elected. Massachusetts was promising Harding the greatest plurality ever given a presidential candidate in that state.

The Value of Trap Nests

Out of the many styles of trap nests, the Trigger type, now being used at the Experimental Farm, Nappan, has proven to be very satisfactory.

If any of our readers are not familiar with the construction of this nest, we would be very pleased to have them write us for a sketch of its construction.

Wherein lies the value of trap nests? Their value is four fold. First it is a means of securing the individual records. Secondly, it enables one to keep a pedigreed stock established. Thirdly, they have an economic value.

It is very apparent that by using the trap nest, one gets the individual records of each bird and that, from these, the breeders are easily detected and only the profitable fowls kept.

It may not seem so apparent that the trap nest has an economic value, for at a first glance it would appear that more labour and expense had been added to the poultry work.

Out of the 53 Rocks, 22.6 per cent laid less than 100 eggs in the ten months, their average being 7.74 dozen, which, at the average market value of 50 cents per dozen, would realise \$3.57. It cost \$2.81 for feed alone, thus leaving a balance of 76 cents.

Out of the 53 White Leghorns 37.7 per cent laid less than 100 eggs in the ten months, their average being 6.3 dozen per bird. These valued at 50 cents per dozen, give \$3.15, and deduct cost of feed \$2.81 leaves a balance of 34 cents per bird. The 62.3 per cent over the 100 egg mark laid an average of 10.9 doz. per bird at 50 cents realised \$5.45 less \$2.81 for feed, leaving balance of \$2.64 per bird.

Now it cost practically as much to keep the poor hen as it did the good one, and from the foregoing, anyone can readily see the value of trap nests as a means of increasing the profits of our poultry plants and that one will be well paid for the extra labour and expense.

Child Met Instant Death

Little Harry Ball, aged five years was instantly killed in Lutz Street this morning about 10.40 o'clock when he came in contact with a live wire which had been blown down by the heavy rain.

It is said the little lad in company with two others, namely Eddie Kaye and Charles Doherty, were playing in a house near the residence of Mr. L. J. Coughlan's, 392 Lutz street, when the three observed the wire fall and while it was burning and emitting sparks, the two little lads state the Ball boy picked the wire up from the ground. He was instantly electrocuted as the wire carried eleven hundred volts.

Only 200 People Left to Spend Winter in Nome

Seattle, Nov. 2.—Nome, Alaska, which during the gold rush of 1900 had a population estimated at 15,000, was left with but 200 inhabitants when the steamer Victoria, the last boat of the season, sailed from there, according to passengers who were here today.

The Victoria brought 523 passengers from Alaska, 350 of whom were from Nome. Many of these declared they would not return.

LETTER FROM MRS. WAKELIN

Tells Remarkable Story of Sickness and Recovery.

Toronto, Ont.—"I suffered greatly from weakness, seemed to be tired all the time, and had no ambition to do anything or go any place. My nerves were in bad shape, I could not sleep at night, and then came a breakdown. I read of Lydia E. Pinkham's Vegetable Compound in the newspapers and several of my friends advised me to use it, and it surely put new life into me. Now I am quite able to do all my own work, and I would strongly advise every suffering woman to give Lydia E. Pinkham's Vegetable Compound a trial."

Mrs. CHARLES WAKELIN, 272 Christie St., Toronto, Ont.
The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for more than forty years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

Germany Must Make Good

Paris, Oct. 28—Germany must deliver 275,000 tons of shipping to the Allies as compensation for the fleet destroyed in Scapa Flow, the reparations commission decided today.

Paris, Oct. 28—Germany, according to despatches submitted to the council of ambassadors, will strictly observe the Allies interpretation of the clause in the peace treaty providing that the Kiel Canal shall be free to international traffic. This is a reversal of the German Government's previous attitude under which vessels carrying arms to Poland were stopped.

Early this month the council of ambassadors sent a note to Germany demanding the immediate release of three ships loaded with munitions for Poland which were being held in the Kiel Canal by the German authorities. The note pointed out that Germany's attitude constituted a direct violation of the treaty of Versailles inasmuch as that treaty specifies that the Kiel Canal is a free waterway for all nations of the world. Germany had taken the position that he was neutral in the Russo-Polish war and that therefore she could not permit the passage of the ships.

WILL NOT SEIZE GERMAN PROPERTY

London, Oct. 28—In the House of Commons today Austen Chamberlain, Chancellor of the Exchequer, confirmed the announcement of the Versailles treaty to seize the property of German nationals in the United Kingdom, in the event of the voluntary default of Germany of her reparation obligations.

Any Expulsions Yet
"We girls have formed a Never-Kiss Club."
"Working alright, is it?"
"I'll say it is. We've got all the young men interested."—N. Y. Central Lines.

Kiel Canal to be Free To Nations

Paris Oct. 28—Germany, according to despatches submitted to the Council of Ambassadors, will strictly observe the Allies' interpretation of the clause in the peace treaty providing that the Kiel Canal shall be free to international traffic. This is a reversal of the German Government's previous attitude under which vessels carrying arms to Poland were stopped.

Early this month the Council of Ambassadors sent a note to Germany demanding the immediate release of three ships loaded with munitions for Poland which were being held in the Kiel Canal by the German authorities. The note pointed out that Germany's attitude constituted a direct violation of the Treaty of Versailles, inasmuch as that treaty specified that the Kiel Canal is a free waterway for all nations of the world. Germany had taken the position that she was neutral in the Russo-Polish war and that therefore she could not permit the passage of the ships.

Released From Prison After Years Of Silence

Boston, Oct. 27—Patrick J. (Corkey) Hanley ended a twenty-five year sentence at the state prison today against his will and maintained to the last a silence begun ten years ago. He had asked, in writing, that he be allowed to stay on for a few more days to finish some work on which he was engaged but, his sentence having expired, the warden put him out.

He took a vow of silence ten years ago after a fellow convict had retold something he said, although parole was offered him several times if he would voice a request for it, he refused.

Hanley was committed to the prison as an habitual criminal from Lawrence in 1895 after he was found guilty of stealing \$34 worth of shoes.

St. James Wine Co. of Montreal Closes Down

Montreal, Oct. 28—R. Murphy, K. C., general administrator of the Province of Quebec prohibition law, had an interview with the licensed vendors of this city today and informed them that they should sell liquor not more than 43 cunes at a time, on medical certificate, according to the law, and that they must strictly observe that law.

Stals Fur Coat While Audience Bows in Prayer

London, Ont. Nov. 2—While an audience of between seventy and eighty people bowed their heads for the closing at a B. Y. P. U. meeting at Adelaide street Baptist church here a sneak thief entered by a swinging door in the lobby and walked to the light switch and pulled it and made away with a valuable fur coat, the property of the pastor, Rev. G. O. Lechlitter.

Rev. Mr. Lechlitter struck his head against a sharp object and received a bad cut over his right eye.

Found Dead In Pasture

Lunenburg, N. S., Nov. 2—The body of Dr. J. A. Johnson, a dentist, who has been missing since last Friday, was found late today in a pasture at Garden Lots, some distance from the town. There was a revolver in the dead man's hand and it is not definitely known how his death occurred as the body has not yet been brought to town.

He was in business at Parrsboro for several years and came here recently from Halifax to take up the practice of Dr. G. A. Polly. He was forty-five years of age and the son of Rev. John Johnson, a Methodist clergyman, who located here thirty-years ago.

He leaves a widow and two children. The widow is at present visiting her sister in Backville (N. B.).

Twenty persons were injured, one probably fatally, when a Broadway surface car and a Fifth Avenue bus collided Wednesday night at 197th Street, New York.

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Coughing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

IT PAYS TO TOP-DRESS HAY LAND
"Four years ago it paid big. Or, in other words, one dollar spent in fertilizer turned to five dollars in hay. The cost of the fertilizer and the cost of the hay were about the same then. The cost of fertilizer and hay have both risen proportionately since then. It would seem that there was still money in top-dressing hay ground."
—Orange Co., N. Y. Farmer Bureau News.

THIS SOUNDS GOOD
October's mild weather had us all fooled, even old Mother Nature being amongst those taken in. The Natural History Society of St. John has recently received a number of large ripe strawberries picked by John Howe, of Nerepis. Two fully ripened strawberries picked Sunday afternoon, Oct. 31st, on the farm of Dr. A. R. Myres, at Irishtown, were handed the Moncton Times Monday evening. The berries were as fully grown as if picked in July. The Advocate has received a mayflower which was picked in full bloom on Nov. 2nd, by Mr. Daniel Cain of Sunny Corner.

WHAT FERTILIZERS ARE—WHAT THEY DO
Fertilizers are plantfood carriers, pure and simple. They carry just the same plantfood constituents as are supplied by barn manure, but in larger quantities and in more concentrated form; Ammonia, which causes the growth of the straw of grain, the vine of potatoes, and the stalk of corn; phosphoric acid, which increases the yield of grain, hastens its ripening and fills the kernel; and potash, which gives the plant power to resist disease and materially assists in the formation of starch in the grain or tuber, and strengthens straw. Fertilizers carry their guaranteed percentage of plantfood in an available form—that is, in a form in which ammonia, phosphoric acid and potash will dissolve in the moisture of the soil and in the juices of the plant root. Farm crops cannot feed upon solid particles of soil. In order for food to enter the plant, it must dissolve in water or plant, or root juices, so that it can be taken into the plant in solution. Fertilizers supply this readily nutritive food to the young plant the same as the cow supplies readily-digestible food to her calf.

MILK SUBSTITUTES FOR CALF RAISING
Whole milk and skim-milk are becoming so expensive to be used as a feed for raising calves. Farmers and dairymen are therefore confronted with the problems of finding a satisfactory substitute for milk as a calf feed.
The Purdue University Agricultural Experiment Station has been studying the problem of how to find a calf feed that would furnish in easily digestible form the food elements necessary for the young calf. A number of feeding trials have been made with a feed devised by the Dairy Department, and careful records have been kept. The results are as follows:
Beef blood when combined with corn and oil meal in proportion of 8 parts corn meal, 1 part oil meal, and 12 parts beef blood furnishes a reasonably successful milk substitute for feeding young calves. The development of the calves when on pasture indicates that the feeding of this mixture seems not to have impaired or stunted the growth impetus, as the gain in weight of calves fed the above meal was equal to the gain in weight of the milk-fed calves while on pasture.

CEMENT
Our last car for the season of Canada Cement is now on rail, expected this week.

STQTHART MERCANTILE CO. Ltd
45-1

MIRAMICHI HOTEL

CHANGES HANDS
Mr. Edward Dalton has purchased the Miramichi Hotel from Mrs. Thos. Foley. Mr. Dalton will take charge on Friday, November 12th. It is rumored that the price paid is in the vicinity of \$30,000.

ARE NEGOTIATING
Negotiations are now in progress between the shipping interests and the various local organizations of labor for conferences on the question of winter wages. It is hoped that these will lead to working agreements mutually satisfactory, so that the winter business can go forward without delay.

ANGUS McLEAN ON PULP SITUATION

New York, Nov. 4—Angus McLean, vice-president and general manager of the Bathurst Lumber Company, Limited, Bathurst (N. B.), pulp and lumber producer, declared on his arrival here from abroad that Canada will take care of the United States in supply of paper, because of easy transportation and on account of her proximity to Canada's logical market.

England will get her paper and pulp from the Scandinavian countries in greater quantities than heretofore, he said.

"While abroad I discussed the paper situation with Lord Beaverbrook, and it is his opinion that pulp will ease up," said Mr. McLean.

Lord Beaverbrook did not carry out his intention of buying a paper mill in Canada because of "extreme prices asked for property," according to McLean.

Lines to "Clifford Drummond" who died in River Glade Sanitarium, on Oct. 28th, 1920.

Dear Old Pal you volunteered
With the boys of the 104th
The boys whose motto was "car 3 on 4"
Who were British to the core
You drilled in L. ghty day in, lay out
Till the Army marked you fit.
Then you crossed the channel to
Sunny France
Bloody France to do your Bit
You carried on like a Soldier Brave
Facing death both night and day,
But God only knows how oft you knelt
In the cold wet trench to pray
You—"Clifford Drummond" gave your heart
To God long years ago.
But you gave your life tho' you do
not sleep
In that Land where the Poppies
grow
You sleep tonight in Canada,
The land which gave you birth.
And up in Heaven you're with
your Pals
Missing Lads from the "One Hundred and fourth."

N. B. Agricultural Summer School

At the New Brunswick School, the students lived under canvas, military bell tents being chiefly employed. The school was put under a camp committee elected from among themselves. The members of the school took turns in camp duties, such as the serving of meals. Five, one-hour, lecture periods were given each day to both the first and second year classes. The work was made as practical as possible. Plants were seen and studied in their natural environments. The purposes underlying farm practices were demonstrated and explained. A feature of the school was the school gardening work. Occasion was taken to give the teacher pupils practical instruction in gardening. To this end each student was required to put in one or more plots in the school garden. They did the marking out, cultivating, staking, and sowing the seed. The garden itself is a laboratory practice garden where the teacher must do the things she would demonstrate to her pupils.

The school is carried out under the direction of Mr. A. C. Gorham, M. Sc., Director of Elementary Agriculture. The instructors were, for Nature Study, William McIntosh; Physics of Farm and Home, Dr. F. E. Toheolock; Cereal Husbandry, O. C. Hicks; Gardening, A. C. Gorham.

ON WAY TO MIRAMICHI

William S. Kinney, Luther Harrington and F. W. MacDonald of Boston are at the Barker House today. They are on their way to the McDonald Camp on the Miramichi which is maintained by Dr. MacDonald a well known sportsman—Telegraph.

The Fall Weather Hard on Little Ones

Canadian fall weather is extremely hard on little ones. One day is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic, and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THE FARM BUSINESS

A farm, to be successful, should maintain its productivity and should return a reasonable wage for the labor of the farmer and his family, after paying farm expenses and deducting a fair rate of interest on the investment.

Four important factors in the success of the farm business are size of business, yield of crops, returns from live stock and efficiency in the use of labor.

What is the size of your farm business?

What part of your investment is in land, buildings, live stock, machinery and other capital?

Is your area properly proportioned to the various crops with regard to profits? With regard to labor distribution?

How do your crop yields compare with the average yields of the locality? What classes of live stock return you the most money?

How do the returns from your live stock compare with the average of your locality?

How many acres of crops do you raise per man? Per horse?

Is your farm so organized that each part of the business is yielding satisfactory returns?

How much have you left for your own labor, after deducting from your total receipts your year's expenses, value of labor performed by members of your family and interest on your investment?

How much does the farm contribute toward your family living? —Farmers' Bulletin 1139, U. S. Dept. of Agriculture.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System, thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Culling Poultry Flocks

The poultry culling work carried on this year by the Poultry Division of the Ontario Agricultural College is to cull the breeding station flocks, and incidentally give culling demonstrations where agricultural representatives are able to make satisfactory arrangements. In addition to this we have had two men culling flocks in Lanark County for two weeks. They handled during that time about 4,500 hens, of which more than 1,100 were culled out as inferior birds. We also assisted in some culling work in Oxford County arranged for by Mr. G. R. Green, the agricultural representative. All the farmers in one township who desired it could have their flocks culled. Work was done by local men. A charge of three cents per bird was made which was sufficient to pay the wages of the cullers who receive fifty cents an hour for their time. I made it my duty to train the men and to supervise the work, more especially to see that no really good birds were shipped out.

The work which was entirely organized by Mr. Green included the culling of 118 flocks made up of 7,182 hens. Of this number about fifty per cent, or 3,588, were considered good enough to keep. Seven hundred and sixty-eight were regarded as of medium quality to be retained to the end of the present laying period, and then disposed of. Two thousand five hundred and thirty-one were shipped out as culled. Practically all of the culled hens were shipped out in a live stock car.

Aluminum Kitchen Utensils

We can supply Kitchen Utensils in Tin, Enamelled and Aluminium Ware but the Aluminum is the most desirable in every way.

- In Appearance
- In Economy
- In Durability

Aluminum Utensils are light in weight, bright as silver, will not chip or crack, there are no seams to leak, and will wear a generation if you get the good kind known as "Wear-Ever" of which we have a good assortment.

D. W. STOTHART

HORSE RUGS

My stock of HORSE RUGS was never as large or better assorted. I buy the quantity to get the lowest possible price, and pass the good value along to my customers.

Have a Look Over our Stock, for our Prices considering quality cannot be equalled

G. M. LAKE

THE HARNESS AND SHOE PACK MAN NEWCASTLE, N. B.

A Wonderful Antiseptic for Combating Germs

KLENZO

LIQUID ANTISEPTIC
A SCIENTIFIC PREPARATION

FOR
PYORRHEA, BLEEDING GUMS, CANKER, SORE and TENDER MOUTH, SORE THROAT, TONSILLITIS, NASAL CATARRH, COLD in HEAD and SKIN CUTS

Your Money Back if not Satisfactory 35c. and 60c.
