By F. Hopkinson Smith. Kennedy Square, a place of "birds and trees and flowers," is both abiding place and symbol of that small and charmingly select coterie of aristocracy in the old South. St. George Wilmon Temple, "a perfect embodiment of all that blood had bequeathed him," is the center of the group portrayed in this story and at his invitation enters also Poe at the beginning of the Poet's prominence. stir up war fever in the countries of Europe which so far have been neutral. These rumors affect every country which is not now engaged in the war. Germany has accused Great Britain of an attempt to stir up a war feeling against her in Scandinavia and Denmark. A few days ago, there were press messages of unrest among a section of the Spaniards who were anxious that Spain should join with anxious that Spain should join with France, and that the meeting of the Spanish Parliament had been spanish parliament been spanis poned in an effort to allay the feeling.
The President of Portugal is reported the Germans was to commence this as stating that the republic is only morning. waiting a call from England to join her in the war. Demonstrations in favor of war against Austria have been frequent in Italy. Turkey has been threatened if she moves in favor of Germany and Austria, she will be not only cleared out of Europe but her Asiatic dominions attacked. To King Constantine of Greece, is attri-buted the statement that, if any of the Balkan States begin war, Greece will fight on the side of Britain and France. In Roumania it is reported France. In Roumania it is reported that there is a serious difference of opinion between King Carol, who is Hohenzollern and a sympathiser with Germany, and his ministry and people, who favor the Triple Entente. It Austrian provinces of Bukowina, which she has overrun and of Trans-

Now comes the story from Austria that Bulgaria and Servia are at war grips and that Bulgaria has invaded the territory of Servia won from Turkey and about which a new Balkan war arose after the Turkish debacle, and that they are attacking that it was a case of hit or miss.

The marriage of S. B. Boyd Campbell M.B., M.R.C.P., Edin., of Belfast, Ireland, and Miss Isabelle Ayre, daughter of Mr. and Mrs. Charles P. Ayre, took place yesterday afternoon a "Burn Brae," Waterford Bridge Road, in the presence of the immediate relatives and friends of the bride. The eremony was performed by the Rev. N. M. Her veil was of old Limerick lace, lent by the groom's mother. Miss Dorothy Ayre acted as bridesmaid, and wore peach-coloured satin and tulle, with boquet of crimson sweet peas. Misses Sheila, Kathleen and Blakie Ayre,, and Miss Elizabeth Knowling, cousins of the bride, were sweet peas. Mr. Eric S. Ayre sup-

Miss Chattie Wornell was bridesmaid and Mr. William Hawkins supported the groom. After the ceremony a reception was held at the residence of the bride's parents, only the immediate friends of the contracting parties being present. The happy couple were the recipient of many valuable and useful presents. After the reception, Mr. and Mrs. Stratten drove to the station where they entrained for Milertown, their future home. Wedding Bells.

St. Francis 'Xavier Church, Bar laven, was the scene of an early autwedding on last Wednesday norning, when Miss Agnes Brown, youngest daughter of Mr. and Mrs. Patrick Brown, of Bar Haven, Pla-

entia Bay, was united in the holy bonds of marriage to Mr. John Mc-Cue, only son of Mr. and Mrs. James

McCue, of the same place. The cere-

mony was performed by the Rev.

Francis A. Cacciola, P.P., who in a

short exhortation showed how con-

jugal love was the highest pledge and security for lasting happiness in the

married state, and illustrated from

St. Paul's description of charity the

mutual love which should unite husband and wife. The Sanctuary was

prettily decorated with palm branches and flowers of late summer. The bride was given away by her father,

and her gown of light blue satin was

trimmed with diamante tulle, combined with old point lace which formed

a veil that reached nearly to the hem

of a court train. Miss Annie Brown,

the bride's cousin, was her only at-

tendant. Her costume was of peach

bloom and cream satin and she wore

a watteau hat neatly adorned; Mr. Peter Brown supported the groom. The

ceremony was followed by a quiet

reunion of the immediate relatives of

both parties. In the evening a re-

ception took place at the residence of

There are three things which one nay be always sure of getting from the "Milam" Picture Company, a good story, fine acting and realistic staging and all three are combined in "The Blind Man's Sacrifice," the feature now showing at the Crescent Picture Palace. The patrons of the Crescent who saw this picture last night were loud in their praise of the whole show. Mr. Knights singing of 'Angus MacDonald" is a real treat. and as to-night will be the last opportunity to hear Mr. Knights sing this song, all should make a point of visiting the Crescent to-night. On tomorrow and Saturday "The Half Breed Parson" will be shown. This is a great Indian War feature, produced by the Bison Company, famous for producing Indian War pictures. Mr. Knights has a new song in keeping with the picture.

Directors.

By GEORGE FITCH,

Author of "At Good Old Siwash." A director is a man who goes to a meeting to direct the affairs of a stock company during the year which

has just closed. It is very easy to be a director, All one has to do is to own a share of stock, accept a fee for attending each meeting and keep out of the way of the grand jury.

Some directors are so foolish as to

insist on meddling with the affairs of

the company. But this happens usually only in the crude West. If a director of a great New Jersey corporation composed of water and gall in equal parts were to ask the president what he intended to do with the company he would be fired for impertinence too quick.

Directors of this sort are called lummy directors. They are elected by double dummy stockholders and their business is to mind it.

Directors get from \$10 to \$20 per neeting, according to the enormity of the corporation. They also get a good dinner. After a directorate has been heartened up and made reckless by a dinner, interspersed with high-balls. it can approve in ten minutes' transactions which will later take a government receiver ten years to untan-

Some men belong to as many as forty directorates. After a financier has guessed wrong on the market a few times and has gone out of business with nothing but an ornamental bronze front left, he can pick up a good little income, to say nothing of the gout, by serving on the directorate of his friend's companies.

The beauty of the director system, as used by our greatest captains of industry, is that it provides a body of irresponsible men to assume the responsibility. After a great financier has played ping pong with a fine railroad system' for a few years and has reduced it to a shattered or debilitated wreck, it is a great comfort to refer all inquiries to a board of directors, who don't know anything about the case and are perfectly ready

to say so. Some of our most eminent business men have commented very severely upon the United States government and have declared that if it were put in charge of a New York corporation the country could be run for half the present expense. It is affecting to hear a great man who has just run through two or three railroads declaring with tears in his eyes that the government ought to quit meddling with business and let business run the government. We would be perfectly willing to see the latter experient tried if the law would only pro-

Fishery Gear!

WE ARE MANUFACTURERS of the GILL NETS, used by Messrs. Job Brothers & Co. in the Straits this year. They have been successful at a time when traps had partially failed. We make them in all sizes to order.

WE ARE MANUFACTURERS of COTTON DRIFT NETS, such as are used in the North Sea Herring Fishery. As the catch of Herring will be interfered with during the war, a good opportunity occurs for use of these Nets in New-

WE ARE MANUFACTURERS of the celebrated STANDARD brand of Herring Nets, which is universally acknowledged to be the very best Net on the market. We are now making the CRESCENT brand Herring Net, which is the best and strongest LOW PRICED NET MADE. It is mounted just the same as the Standard Net, and it is barked for preservation, not merely dyed like other cheap Nets.

WE ARE MANUFACTURERS of SQUID TRAPS, which are now legal; we make them in any size required, to order.

We manufacture TARRED COTTON LINES, all sizes, for Bankers' use; strong, durable and easily handled.

We make COD TRAPS, COD SEINES, CAP-LIN SEINES, ETC., to order, in all sizes.

All the above fishery gear we can strongly recommend, and we would urge our fishermen to patronize articles of home manufacture, in order to give employment, which is so much needed this year.
