There was a small English colony at Nicolet dur-ing the stormy times of 1837, and their position was naturally uncomfortable, but it was due to the good advice given by Mr. Chillas to the governor general that the rebellion in that part of the province was not more serious. His advice, for which he was afterwards warmly thanked by his excellency, was that 'instead of forming militia company the governor should leave the people to be handled by their clergy. CALGARY!

The Commercial and Industrial Centre of the Last Great West, 840 miles distant from Winnipeg and 641 miles distant from Vancouver. Without a rival, without a competitor, without a peer. The centre of a vast country, rich in grain and cattle. The distributing basis of immense coal timber and mineral districts.

Calgary has 12 banks, 85 wholesale houses and 25 manufacturing industries. With an educational system which is unequalled. It has 3 fire halls and 3 branch post offices. A street railway is about to be constructed which will serve East, West and South Calgary. This will mean a belt line of about 12 miles in length.

The G. T. P. have declared their intention of reaching Calgary at an early date. The C. N. R. is determined to become established here in the near future. Both companies are fully warranted in putting forth every effort in order to keep pace with the unparalleled development which is taking place in this part of Greater Canada.

Calgary is favorably situated at the foot of the Rockies, with a climate unsurpassed. Watch her grow! Her population in 1890 was 4,000, her population in 1900 was 7500, her population in 1910 will, at a conservative estimate, reach 50,000. Buy Calgary porperty while you may. It will double and treble itself in price in a short time. It has been the rule in the past and will be the rule in the future. The tremendous influx of immigration compels it. Get in on the ground floor.

The magnificent suburb known as South Calgary, which until recently was under the control of parties in England and which is part of an estate which must be closed up, will now be placed on the market and thrown open to the public. Three thousand lots are now being offered for sale.

Said lots will be sold at prices varying from \$35.00 to \$60.00 per lot, according to location and value. Terms half cash, balance in three and six months, with interest at 8 per cent. Some of these lots are worth \$200.00 each, none less than \$50.00 each. This is the greatest snap ever offered the public. You cannot lose money, you are bound to make money. You cannot help it. It is merely a question of whether you make a profit of 100 per cent. or 800

Adjoining this property is the contemplated terminus of Jim Hill's road, which will reach Calgary from Fernie, passing through a splendid coal, timber

SAFE AND SANE is a term that is very applicable to investments in Main street... Always considering, however, that discretion is used in the making of the investment. I you buy at the market value, your profit is sure. We can deliver a double corner 130x100 at the intersection of Main street and Sixth street. The property has a first class spur line at the rear, and is a first class warehouse sit.

In comparison with the price at which other Main street corners are offered, this is below the market. Good terms can be given. We can deliver, as we have the exclusive sale. The price is to be advanced shortly if not sold. We can safely say there will be big money in this.
