

Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for scanning. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of scanning are checked below.

- Coloured covers /
Couverture de couleur
- Covers damaged /
Couverture endommagée
- Covers restored and/or laminated /
Couverture restaurée et/ou pelliculée
- Cover title missing /
Le titre de couverture manque
- Coloured maps /
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black) /
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations /
Planches et/ou illustrations en couleur
- Bound with other material /
Relié avec d'autres documents
- Only edition available /
Seule édition disponible
- Tight binding may cause shadows or distortion
along interior margin / La reliure serrée peut
causer de l'ombre ou de la distorsion le long de la
marge intérieure.

- Additional comments /
Commentaires supplémentaires:

L'Institut a numérisé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de numérisation sont indiqués ci-dessous.

- Coloured pages / Pages de couleur
- Pages damaged / Pages endommagées
- Pages restored and/or laminated /
Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed/
Pages décolorées, tachetées ou piquées
- Pages detached / Pages détachées
- Showthrough / Transparence
- Quality of print varies /
Qualité inégale de l'impression

- Includes supplementary materials /
Comprend du matériel supplémentaire

- Blank leaves added during restorations may
appear within the text. Whenever possible, these
have been omitted from scanning / Il se peut que
certaines pages blanches ajoutées lors d'une
restauration apparaissent dans le texte, mais,
lorsque cela était possible, ces pages n'ont pas
été numérisées.

PUBLISHED QUARTERLY BY THE DOMINION TYPE-FOUNDING COMPANY.

Vol. I.

MONTREAL, DECEMBER, 1873.

No. 2.

OUR SECOND NUMBER.

In laying before our readers this second number of the "Printer," we desire to express our thanks for the many tokens of good will and approval we have received from all parts of the country. We have endeavored to keep in view the promises contained in our initial number, and we acknowledge with satisfaction the signs of a steadily increasing trade.

The business of a type-founder, which requires much capital, the largest degree of practical skill, and untiring watchfulness of details, has not been entered upon by the present Company without weighing the prospects of success, but feeling assured of the continued support of the printing community, which we shall always endeavor to merit by a careful attention to their numerous requirements, we have every confidence in the future. It is our ambition to be able to produce—within the Dominion—everything that a printer requires, without troubling our powerful rivals across the line—or the Atlantic—for an ounce of type or material; and to this end we have in preparation some complete series of *Light Face Antiques, Gothics, Light Face Celtics*, etc., which printers have been hitherto only able to obtain through foreign sources, and for which they have had to pay a fancy price. These will be followed by other new and useful styles, which will be shown at an early date.

There are one or two "type-foundries" in Canada, but ours is the only one in which type is really *manufactured*; and although—under the existing tariff—others are able to import foreign type almost free of duty, we are prepared to supply the trade, with our own manufacture, at lower prices than the same class of material can be offered by the importer. A considerable addition has been made to the Electrotyping department, which enables us to execute orders with greater despatch, and at much lower prices than heretofore. Our readers are referred to page 11 for Reduced Tariff.

New Styles of Job Type.

We again show a number of new and handsome styles of Job Letter, which, we need not say, will be valuable additions to the *repertoire* of a tasteful printer. The vignettes, Nos. 1800 to 1805, form very ornamental headings for cards, circulars, etc.

News and Book Letter.

In this number of the "Printer" we exhibit eight sizes of standard Roman faces, from Agate to Pica, all of our own manufacture. They will be followed, in our next number, with further selections of both modern and old style letters, made by ourselves.

Whilst we are continually adding new series of *Matrices* to our stock for *Book and News Letter*, those already in use are being thoroughly *re-justified*, and brought to a uniform standard of accuracy.

This is a work which will take time, and involve much labor and expense; we hope, however, to show in our next number some new and improved standard faces, not to be surpassed by any other founder.

They will commend themselves to the practical printer, not only for their correctness and beauty, but from the fact that they are *bona fide* the manufacture of the Dominion.

This type is put up in fonts of from 100 to 1,000 pounds, to suit purchasers from the largest to the smallest calibre. For complete series of Roman and Italic letters, see our new Specimen book, about to be issued.

FOR SALE AT MANUFACTURERS PRICES

Calendars for 1874.

ATTENTION is invited to an excellent collection of Calendars for the new year, shown on pages 7 to 10. We hope to have large orders for them, which we shall be able to fill, and send by Express the same evening. Printers not already our customers, should send cash remittance with orders for Calendars, upon which we shall allow 10 per cent. discount.

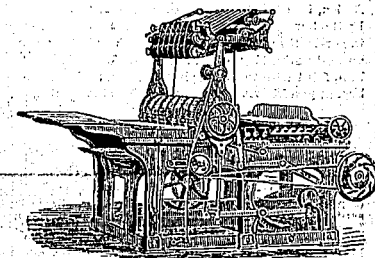

Outfits for Printing Offices.

The best experience in connection with the printing business is at the service of intending purchasers.

Judicious care in the selection for an office will prevent accumulation of surplus material.

Write us what is required and we will mail estimates, &c., of the cost of a well appointed office, as well as give useful information in regard to the purchase of second hand machinery and material when it is desired.

The Wharfedale Cylinder Press.

THE RELIANCE-WHARFEDALE PRESS.—Of all English Cylinder Presses imported into Canada, the Reliance-Wharfedale machine is, in point of build and finish, decidedly the best.

The *Reliance-Wharfedale* now offered to the trade by The Dominion Type-Founding Co., agents in this country for their sale, possesses the following advantages over other *Wharfedales*, and which printers intending to purchase would do well to note:

1st. The arrangement for the tapes is such as to allow of their adjustment immediately; in others there is much time lost in making tapes ready.

2nd. The fly can be instantly detached when the press has to work posters or awkward forms which require to be taken off by hand; in others it is a fixture.

3rd. Its immediate delivery of sheet without waiting for next impression to complete movement.

4th. Its advantage for extra rolling; its distribution is double that of other *Wharfedales*.

5th. It is strongly built, and in every sense of the term a first class English machine.

The following are standard sizes:

Large news size, to print a form	50 x 39
News	48 x 36
Double royal	42 x 29
Double demy	36 x 24
Royal	26 x 20

Complete with fliers, pointing apparatus, moulds and two sets of roller stocks.

Prices on application. Apply to

DOMINION TYPE-FOUNDING CO., MONTREAL.

As an example of the work this press is capable of producing, we may mention that our present number is printed upon a Double-Crown *Wharfedale*, recently imported.

We have just received, *via* Portland, a new Double Royal machine, with self-delivery and steam gear complete, printing a sheet 42 x 29. Price, \$1,250.

IN MEMORIAM—H. LANNING.

Since the appearance of our first number, the hands which arranged its pages have been folded to rest. Those of our friends who knew the late Mr. Lanning will share the regret we feel at his early and untimely demise, and many, we feel sure, will lament him as a personal friend.

Very numerous were the kind enquiries we received from those who knew of his short illness, and more numerous still the expressions of sympathy since his departure, for which we print this as a slight acknowledgment. Mr. Lanning leaves a widow and one young child.

AGATE No. 1.—SCOTCH FACE.

In the history of the Nile there was a void: its sources were a mystery. The Ancients devoted much attention to this problem; but in vain. The Emperor Nero sent an expedition under the command of two centurions, as described by Seneca. Even Roman energy failed to break the spell that guarded these secret fountains. The expedition sent by Mehemet Ali Pasha, the celebrated Viceroy of Egypt, closed a long term of unsuccessful search. The work has now been accomplished. Three British parties, and only three, have at various periods started upon this obscure mission: each has gained its end. Bruce won the source of the Blue Nile; Speke and Grant won the Victoria source of the great White Nile; and I have been permitted to succeed in completing the Nile Sources by the discovery of the great reservoir of the equatorial waters, the ALBERT N'YANZA, from which the river issues as the entire White Nile. Having thus completed the work after nearly five years passed in Africa, there still remains a task before me. I must take the reader of these volumes by the hand, and lead him step by step along my rough path from the beginning to the end; through scorching deserts and thirsty sands; through swamp and jungle, and interminable morass; through difficulties, fatigues, and sickness, until I bring him, faint with the wearying journey, to that high cliff where the great prize shall burst upon his view—from which he shall look down upon the vast ALBERT LAKE,

THE "UNIVERSAL" JOB PRESS.—These machines are manufactured with improved machinery, under the best facilities. The manufacturers claim that they are the strongest press made; compact and very simple in construction. THE FRISKET FIXERS are of an improved construction, which allows both to be used on a narrow margin. THE BED remains stationary, and inclines backward, so that the form rests upon it, and can never bag or the type work out of place; at the same time it is always in view and in reach of the pressman. The chase is secured to the bed by a strong and simple device, which can be adjusted from the front of the press. THE CHANGEABLE INK FOUNTAIN allows a change from one colour or kind of ink to another in a few moments of time, without waste. The gauge can be speedily set to feed any required degree of ink, or to entirely cut off the supply at any number of points, allowing a feed of ink from any part without binding the fountain roller.

PRICES:

HALF-MEDIUM, 13 x 19, inside of chase, \$585.00
 QUARTO, 10 x 15, " " \$457.00
 EIGHTH, 7 x 11, " " \$270.00

With each Press are included three Chases, one Roller Mould, two sets Roller Stocks, Wrenches and Treadle.

Steam fixtures, \$25 extra.

AGENTS FOR CANADA:

DOMINION TYPE FOUNDING CO., MONTREAL.

BARGAINS.

The following second-hand and new machinery are offered at greatly reduced prices, and are warranted in A 1 condition:

BARGAIN IN LONG PRIMER.

We have on hand a complete font of Long Primer, Bourgeois Face, weighing 470 pounds. Perfectly new, and offered to the Trade at 27 cents per pound, cash. This advertisement is a specimen of the letter.

DOMINION TYPE FOUNDING COMPANY.

CROPPER'S MINERVA JOB PRESS.

THE MINERVA PRINTING MACHINE.—This celebrated Press, with patented improvements upon the "Gordon," is offered to Canadian Printers as an invaluable addition to a first class Job Office. There is nothing so suitable for type as the platen impression; this is secured in the "Minerva" most perfectly, without the possibility of a slur. The inking apparatus is very simple,—yields a perfect distribution of color and can be regulated at pleasure. The making ready is easy, and any lad of ordinary capacity, who can work at press, can work the "Minerva." An adept will accomplish marvels with it. The delivery is rapid; speed 1800 an hour for general work, and 2000 is attainable. First class workmanship only employed, and the price is fully 20 per cent lower than that the American "Gordon."

Price, laid down in Montreal:—
 Eighth Medium, 7 x 11 in, inside of chase, \$300
 Quarto " 10 x 15 " " " 400
 Half " 13 x 19 " " " 500
 Ink Fountain, STEAM GEAR and Packing included in the above prices.

Two chases, 2 sets Roller Stocks, Roller Mould, Wrench, Oil Can, &c., with each machine.

—SOLE AGENTS—

THE DOMINION TYPE-FOUNDING CO.

We keep constantly on hand a supply of

CALLAHAN'S UNIVERSAL ROLLER COMPOSITION

This Celebrated Composition is extensively used for every variety of work, by first-class Printing Houses throughout the Dominion.

SOME OF ITS MERITS ARE:—

- 1st.—It does not become hard in cold or severely frosty weather; nor SOFT in heated rooms. IT DOES NOT SHRINK; so that Rollers set at the beginning of the day's work do not require re-setting.
- 2nd.—IT RETAINS ITS SUCTION. It does not skin over or crack on the face. ROLLERS need not be WASHED more than once a week.
- 3rd.—The Composition can be re-cast from time to time by adding one pint of good syrup to five pounds of Composition. It thereby becomes equal to new.

Price 50 Cts. per lb.

DOMINION TYPE FOUNDING CO., MONTREAL.

WOOD TYPE.—The Company are Agents for the sale of W. H. Page & Co's Wood Type. The truth and beauty of their letter is well and widely known. Specimen Books with prices sent on application.

OVER ONE HUNDRED IN USE.

MINERVA
PAPER CUTTER

THE CHEAPEST AND BEST MACHINE
IN THE MARKET.

Cuts 30 inches.

Price, \$275. - Boxing, \$5.

THE superiority of this Machine is in its great power and the rapidity of its operation. The cut is clean, smooth, and true. The knife having descended to a given point rises immediately without reversing the motion of the machine. There are both back and side gauges, the former is moved by a hand wheel placed in front of the table.

DOMINION TYPE FOUNDRY CO., MONTREAL.

NEWS AND BOOK INK.—We are agents for the supply of Wilson's News and Job Ink. We have now first class grades, suitable for cylinder and hand presses.

- No. 1 News..... 10 cents.
- No. 2 News Strong..... 20
- No. 1 Book..... 30
- No. 2 Fine Book..... 35

Contract prices will be made for constant supply. If the ink which we supply is not what we represent, return it at our expense.

DOMINION TYPE FOUNDRY CO., MONTREAL.

- White Size..... 1.50
- Bronzes, Rich Gold, Carmine, Orange Brown.

DOMINION TYPE FOUNDRY CO., MONTREAL.

THE BEST PLOW CUTTER IN THE MARKET.

FRANKLIN PATENT
PAPER CUTTER.

Price, 30 inch, Iron Frame, \$60.

THIS Machine is far superior to any other low-priced Paper Cutter in the Market, from the facility with which paper is cut to any size, after being placed upon the cutting table, without moving it. As soon as the paper is properly squared, and one cut is made, the head (A) is raised by the wheel, as in the ordinary cutter, and may be moved backwards or forwards, parallel with the cutting board, by turning the small crank handle (B) without disturbing the paper. Another great improvement is the use of a lever (C) and a spring to hold the head (A) in position when raised, instead of the treadle.

DOMINION TYPE FOUNDRY CO., MONTREAL.

LABOR SAVING LEADS AND SLUGS.—To meet a growing demand, we manufacture FOUR and SIX TO PICA LEADS from 4 to 25 ems Pica long, put up in 25 lb. fonts for \$7.50, or in any useful quantity at 30 cts. per lb.

NONPAREIL and PICA SLUGS, cut to same lengths, in 25 lb. fonts at \$6.25, or 25 cts. per lb.

DOMINION TYPE FOUNDRY CO., MONTREAL.

METAL FURNITURE.—This useful article will be found to be indispensable when once used. It is light and strong, and is cut with great care to pica ems. Fonts of any size can be locked up without any extra justification. The fonts are assorted with pieces from four to fifty ems in length and from one to ten in width. Smallest font 50 lbs.

PRICE..... 20 c. per lb.

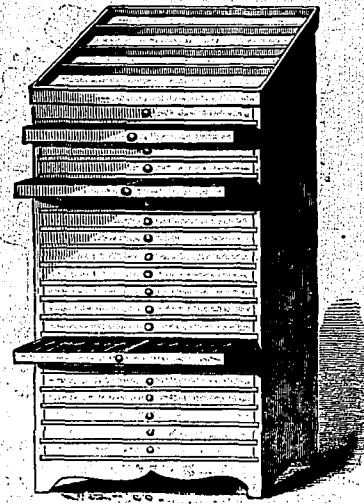

DOMINION TYPE FOUNDRY CO., MONTREAL.

LABOR SAVING RULE.—With judicious care, an Office having an assortment of Single, Parallel, Double and Dotted Labour-Saving Rules, need cut up few strip rules, which frequently are wasted. Our fonts are accurately made and justify with precision. Each font contains a proportion of right and left mitres, and every piece has its length punched on it.

We now manufacture a special Brass Rule Case for Job Fonts, having a sliding cover, and about two-thirds the size of the ordinary Case.

It will be found neat and portable.

DOMINION TYPE FOUNDRY CO., MONTREAL.

CABINETS.—The above cut represents our Cabinets. They are not only substantial but very ornamental. No well organized office should be without one.

- CABINETS with 10 2/3 Cases..... \$20.00
- “ “ 16 2/3 “..... 24.00
- “ “ 20 2/3 “..... 28.00
