Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

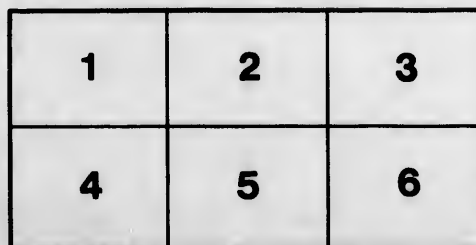

Library of the Public
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

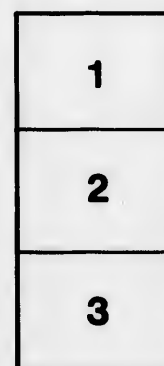

La bibliothèque des Archives
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

The "Wanzer" Sewing Machine.

TO YOU, PERSONALLY.

If you read this advertisement it is self-evident that you want a machine for your own use, or else you intend to engage in the purchase and sale of Sewing Machines for a business. In either case it is essential that you should be convinced that the

Wanzer Sewing Machine

is the only one to be desired above all others; and with this result in view, we beg to call your attention to a few of the many advantages combined with the WANZER, viz :

It is the lightest running Shuttle Machine.

It has more Capacity and Power than any other Family Sewing Machine.

It is not complicated with cog-gears nor large cams.

It is the simplest and best constructed machine.

Its working parts are case hardened iron or steel, and so arranged that any wear can be taken up simply by the turn of a screw.

It has a Steel Feed on both sides of the needle.

Its Shuttle is Self-Threading, made of solid steel, and carries a larger bobbin than almost any other family sewing machine.

Its works are all encased and free from dust, and so arranged that neither the garment being sewed nor the operator will become oiled.

It has a device by which bobbins can be filled as evenly as a spool of cotton, without being guided by hand; thus each bobbin holds twice the quantity of thread, and the shuttle tension is more perfect, without running the entire machine, thereby relieving it from wear for this purpose, as also relieving the operator of the necessity of removing the work or attachments, as is the case with nearly all other machines.

It is elegantly ornamented and finished, and its cabinet work is unsurpassed.

The result of this combination is the "WANZER," the easiest selling, the most durable, best and largest Family Sewing Machine in the world.

WEATHER GUIDE.

The following Table (the result of many years' actual observation) is ascribed to Dr. Herschel. It is constructed upon a due consideration of the attraction of the Sun and Moon in their several positions respecting the Earth, and serves to show what kind of weather will most probably follow the entrance of the Moon into any of her quarters:—

Moon.	Time of Change.	In Summer.	In Winter.
If New Moon, First Quarter, Full Moon, or Last Quarter, happens	Between midnight & 2 A. M.	Fair.	Hard Frost unless wind be S. or W.
	" 2 and 4 A. M.	Cold with showers.	Snow and stormy.
	" 4 " 6 "	Rain.	Stormy and rainy.
	" 6 " 8 "	Wind and rain.	Stormy.
	" 8 " 10 "	Variable.	Rain if wind W.
	" 10 " 12 "	Showery.	Snow if E.
	At 12 Noon, and to 2 P. M.	Very rainy.	Cold and high wind.
	Between 2 and 4 P. M.	Variable.	Snow or rain.
	" 4 " 6 "	Fair.	Fair and mild.
	" 6 " 8 "	Fair if wind be N. W.	Fair.
	" 8 " 10 "	Rainy if S. or S. W.	Frosty if wind N or N
	" 10 " midnight.	Ditto. Ditto.	E. Snow if S or S W.
		Fair.	Ditto. Ditto.
			Fair and frosty.

The nearer midnight any of the Moon's changes occur, the finer will be the weather during the succeeding week; the nearer noon any of those changes happen, the more foul and wet will be the weather that will follow.

Commence the New Year by patronizing SMITH'S Drug Store.

JANUARY.—With the opening of the year, the farmer's winter work really begins. His fall crops have been taken in, grain is waiting to be threshed, cattle to be fed, roots in the cellars and corn in the silos to be cared for, and, when the snow comes, there is work in the woods—chopping of fence-poles, fuel and lumber. The thrifty farmer will do the bulk of his spring fencing work now. He can now plan the laying off of new fields and pastures, and the changes to be made in old ones. He can chop all his fencing material, he can move it to places where it will be required, and, when the spring opens, there will be nothing to be done but to put it up. The real cause of spring "hurry" upon a farm is that too much autumn and winter work are left to be done in spring time. The first severe

frosts of January will try the frost-proof qualities of cellars. Look at the thermometer, and, whenever you see the cellar-temperature at this season get within 10 degrees of freezing, make up your mind that there is danger, and need of care. Later on, the temperature will get lower permanently without causing alarm, but, in the early winter, we can never tell whether there may not be a wind-hole somewhere, and sudden fluctuations of the thermometer are certain indications of something wrong. Give sheep as much roots, cabbage, or other succulent green food as possible, recollecting that the less hay and grain they have the better, so long as they keep in fair condition.

FEBRUARY. - The subject which, above all others, requires the attention of the farmer during the month of February, is the feeding, watering, grooming, and

SMITH'S ANTIBILIOUS PILLS—TRY THEM.

general care-taking of his stock. Feed well at this season, not over-much, but judiciously. Calves and young stock will not thrive on dry hay alone; they require the hay to be cut and mixed with meal, crushed grain or mill stuff of some sort. All animals at this season should have roots, especially young stock. If fed entirely on dry feed their first stomach will be so distended that they will lose all shape, and never afterwards be presentable in the exhibition ring. More serious results than this follow; for, when spring time comes, the animals will be sure to scour, get thin, and possibly die. Ignorant farmers wonder why so many animals die. Intelligent farmers are apt to wonder why so many live. Let us enquire briefly into the *rationale* of feeding. All the food of animals consists of several compounds having distinct properties, and it is to the relative proportions of those that different food materials owe their differences in feeding value. Hay, besides woody matter which is nearly useless, contains starch, sugar, gum, oil; these are *non-nitrogenous*, and maintain the warmth of the body and produce fat. It also contains albuminous bodies, which are *nitrogenous*; these repair waste and

afford material for the growth of flesh. Not only hay, but also grain, straw, roots, vegetables, all contain both of these classes of substances, viz, the fat-formers and flesh-formers: If we wish to produce fat on an animal we feed Indian corn or some other food rich in fat-formers; if the object is to produce flesh, on the other hand, we feed oats or peas or barley, or some other grain rich in flesh-formers. For milk, the best of all food is green grass, or, in winter time, hay, well made from young grass, supplemented by succulent roots such as mangels. Where a silo has been established on the farm, ensilage will, to a large extent, take the place of roots and hay. It must be kept in view, however, that, in feeding ensilage, some dry food, such as straw, hay, mill waste, grain or meal should go with it, as it is a cold, watery, acid food, not well adapted for frosty weather if fed alone.

MARCH.—It is too early to commence field operations beyond the carting out of manure and preparing and placing stuff for fencing, but a good deal of work may now be done in the garden. This is hot-bed month, and how to make a hot-bed is a secret worth knowing. Select a sheltered spot, protected from animals, lying to

the sun, and not far from a well or water butt. Build on this space a neat pile of manure, of such a size that when the frame is put on top, there will be a clear foot of manure outside all around. Cow manure will not heat at this season. Horse dung will not heat at this season, unless the animal has been fed upon oats or some kind of grain. Keeping these facts in view you can select your manure, or make such a mixture as will give the degree of heat required. Spread over the manure, inside the frame, about four or five inches of very fine soil; this should have been prepared in the fall, and kept dry under cover all winter,—otherwise it is now likely to be a hard frozen mass. The glass sashes are then put on and kept close till the hot bed heats; the steam and heat will start the seeds of weeds,

which may be allowed to grow. Air is then given, and when the heat modifies, weed and rake the surface and sow your spring seeds, — cauliflowers, cabbages, celery, tomatoes, &c., for the kitchen garden; and stocks, verbenas, petunias, asters, balsams, and such like annuals, for flower garden ornament. The seeds will bear a good deal of heat before they emerge from the soil, but as soon as the first leaves begin to appear the frame must be aired daily, taking care to avoid cold draughts. If hay should become scarce do not allow your cattle to suffer, but give them some middlings or bran with the cut fodder. Cattle allowed to "go down" at this season will take half the summer to recover. The experience of many of our stock raisers last year showed the necessity of careful attention to cattle during the spring months. This is the time when insect parasites are

developed, and watchfulness is needful to prevent stock being ruined. When lice appear on cattle, wash the spots with a weak solution of carbolic acid, or, what is better, use carbolic soap. Even washing with common soap and water will prove effective if done in time. In bad cases, leave the soap to dry and wash off next day.

APRIL.—Farming in earnest begins in April with most farmers, and yet, if all the sowing has been done in autumn, and the fencing prepared in winter, the April work will not be heavy. It is only in favourable seasons that we can do much field work before the beginning of May. Last year our spring ploughing was not commenced till 26th April, and yet there was plenty of time to put in all the crops. The early yellow Crocus was in bloom three days before, a sign that the frost was out of the ground. We cannot lay down in the Almanack the exact date for the thawing out of every man's farm, but, if he will make a nice trim

Parties wishing to leave or send goods to the SCOTCH DYE WORKS, will be careful to the Sign, and address 385 Barrington Street.

flower garden under his window, the indications of the early spring flowers will serve as a sure guide. Last year we described farm soils with respect to their mechanical and chemical nature, and showed the necessity of chemical fertilizers to maintain their fertility. Ever since 1845 the German farmers have used such to prevent their naturally poor soils from becoming perfectly barren; in England, with richer lands, the farmers have pushed their use to an amazing extent. In Nova Scotia, it is only within the last two or three years that any general use of artificial fertilizers has been attempted. See at once that you have secured your supplies for the season of the several fertilizers required; purchase by analysis so that you will know exactly what you are getting for your money. Order your seeds also for the season from reliable houses, and take pains to secure fresh seed of the best varieties.

poetry. Last May we sowed our sweet peas on the 3rd, and made up a hot bed same day. Dielytra was then pushing up its red shoots through the ground, showing the absence of fruit as far as its long roots go down, so we commenced putting in fence posts. Two days later the equisetum was in flower on railway banks, on the 6th the blue scilla bloomed, and Camberwell Beauty butterflies were abroad in the sunshine. The general hot-bed crops were sown on the 16th, very late, but it was a late season, and everything did well. It will not be safe to defer the sowing so long in ordinary years. Dandelions were in bloom at Bedford on the 17th, and after that we had seven days rain before the end of the month. Black flies came on the 31st. These "events" of last year will indicate what we have to look for in 1883. In May advantage should be taken of every fine day,

and all early crops got in. The latter part of May is the best time for planting potatoes in most parts of the Province, but one essential point in potato culture is to have the land dry and warm, and if it is not in condition planting should be deferred till the first week of June. The same may be said of most crops, although peas, broad beans, horse beans, onions, parsnips, carrots, and even mangels should be put in as early as possible, even although the weather may not be very fine.

JUNE.—All seed crops not yet committed to the soil should be put in without delay. After the first day of June it is not too early to sow any kind of seed suitable for our climate. The drill crops put in during April and May will now require attention, first in the way of hand hoeing, where this has to be done, and secondly by the use of the horse hoe or cultivator. But there are still some crops

to be planted or sown. Put out cabbages and cauliflowers, but only in soil that has been well worked and well enriched. The *Haltia*, or turnip flea, is the great enemy of the cabbage; all efforts at his destruction have failed, and the only effective way of waging war with him is to treat him generously by sowing, between the cabbage rows, common white mustard, the young seedling plants of which are far more palatable to the flea than cabbage. Tomatoes may also be set out later in the month. Ground cherries do best when they come up from seed in the soil, which they will do for years. Finish planting everything now in field and garden, such as Indian corn, bush and pole beans, cucumbers, squashes, turnips. Tender plants may now be put out in flower beds. Do not touch strawberry plants by weeding or hoeing, and do not now hoe around raspberry canes, otherwise the fruit will not form. Look out for gooseberry and currant caterpillars, and dust the bushes

while the morning dew is on them with powdered hellebore. Celery may be planted out at the end of the month. If there are still any "farmers" in the Province who are not members of an Agricultural Society, or if no such Society exists in their district, then the duty devolves upon them this month of joining a Society or organizing a new one. There cannot be much general progress among our farmers without co-operation, for the maintaining of suitable thorough-bred animals of the very highest class is usually beyond the reach of individuals.

JULY.—Notwithstanding what has been said in June, indicating that as the last month of seed-time, yet turnip sowing may still be done. Some even prefer to sow their Swedes this month, and the soft turnips for immediate feeding need not necessarily be sown till the end of July. The ground should have undergone a thorough pulverization. Light sandy soil is the best for turnips. They start best

after the ground is warm, but the bulbs swell most rapidly during the cool dewey nights of autumn. The soil cannot be worked too deep or made too fine for turnips. Town manures are valued for this crop; and crushed bones have been applied with the best effects, either when covered in the drills in the manner of ordinary dung, or when sown by machine along with the seeds, so as to be in immediate contact with the latter. Guano has been largely used of late years. Superphosphate is very efficacious. One point of turnip culture that is often neglected in Nova Scotia, although well understood elsewhere, is that the seed should be put in the moment the soil is prepared. If the earth of the prepared drill gets dried up in the sun before the seed is committed to it, how can the latter

be expected to germinate. Hoeling and weeding of all drill crops should be carried on actively this month and completed before haying time. *Haying* is the operation before which all others may give way. The secret of good hay making is fine weather, and the secret of the weather is to keep in mind that at this season we do not have many hot days in succession. If the day is clear and the temperature high, do not be tempted to mow too much; wait till the rain is clearing away and the air begins to cool. Then do your mowing early in the week, so that your hay will not have to lie over Sunday washing in the rain or bleaching in the sun. White horse-tooth corn may be sown for ensilage in clean ground; sow and cultivate pretty much in the same way as for potatoes, using horse cultivator instead of the hand hoe.

USE SMITH'S FURNITURE POLISH.

August.—After the hay is got in, the farmer will be able to devote much of his attention to feeding and grooming his cattle for the fall Exhibitions. Systematic careful feeding will make a wonderful improvement upon animals at this season, especially if they are in good pasture. Our farmers are now working into a mixed husbandry, so that cattle may not feed on hay all winter and pasture in the summer, but feed in winter on straw and roots and coarse grain, and in summer partially or wholly on green fodder indoors. This is the only way to enrich a farm, or to attain to anything like high farming. We therefore recommend our readers to note at this season how convenient it is to have a field of tares or green oats or

Use SMITH'S MEXICAN TOOTH WASH.

barley or indian corn or rape, or any other green eatable thing for the cattle to grow or fatten upon when the pastures are all burnt up. After haying there will be work in the garden, and especially in the orchard. Look after the ripening of fruit, destroy caterpillars, if any still remain; pick the early August apples, and send them into market. When the rains come, beds of strawberries may be made up. See that the ground is well drained and enriched with old manure. Mushrooms now appear in the horse pastures. The calving of cows for the season will now be over. All thorough-bred calves should be at once registered in the official Stock Register of the Board of Agriculture. For grade stock the farmer should keep a book for after reference.

Goods of every description are Cleaned and Dyed by a new process at the SCOTCH DYE WORKS, 285 Barrington Street.

P. WALSH sells no goods on misrepresentation.

PICKFORD & BLACK have for sale all kinds of FISHING HARVEST.

SEPTEMBER. Agricultural exhibitions are now of annual occurrence throughout our Province, and one of the most important "operations" for the progressive agriculturist is to go to the Fair. He can there compare his produce and stock with those of his neighbors, and see how far he is ahead of or behind the times; he can examine all the new implements, and order what he finds will be useful. He can start most points, and get such information as he requires. He can sell, buy or exchange thorough-bred stock under the great advantage of being able to get everybody's opinion as to their qualities and value. He can get samples of

new grains and vegetables, see the best ways of making butter and cheese, hear what other people are saying, and generally enable himself to rise to the surface as a live agriculturist. It is hardly needful to remind our readers that the ingathering of the fruits of the fields and gardens and orchards will now engross the farmer. The waving corn and brightly tinted ripening fruits will speak more eloquently to him than anything that could be written here. The cutting and packing of onions will be done about the end of the month, before frost touches the corn.

SMITH'S DRUG STORE, 147 Hollis Street.

OCTOBER.—The harvesting of root crops is one that requires great attention, and, as the culture of them is extending throughout the Province, we would impress upon all who have not had long experience the necessity of attending to the points noted below:—To take up and store roots successfully is a simple art when properly understood, but the frequent destruction of roots in the cellar shows that it is not always understood or carried out. Potatoes should be dug in dry weather, and allowed to dry completely on the surface before being put together in heaps or in the cellar; the best way is to put them on a barn floor and exclude the light, otherwise they will become green and acquire a bitter taste and

poisonous qualities. Mangels, turnips and carrots should be topped and the fine root fibres cut off. Before storing they should, in like manner, be exposed to dry air that the wounds may heal over; if put at once into the cellar, the wounded tissues will begin to ferment, and a large portion of the roots will be rotted by contact. If facts such as these are kept clearly in view, no farmer need lose his roots. Of course the cellar must be kept well aired, cool and dry, and frost carefully excluded.

NOVEMBER.—The previous month will have been occupied pretty well in securing the root crops. Now the whole strength of the farm should be thrown into fall ploughing. This is a most important operation, whether we view it as a means of preparing the soil for the future crop, or as a convenience to enable the farmer to

have spring time for proper spring work. The addition of manure to a soil is not enough. the pulverization, mixture, freezing, thawing and rain-washing of the soil are the processes by which its fertility is to be secured. Let us illustrate this:—Bone, an insoluble tribasic phosphate, receives the rain-water which contains carbonic acid gas: this changes a portion of the bone into carbonate of lime, and the rest into bi-basic phosphate, which gradually dissolves and becomes available to the plant. If the rain-water drains away over the hard surface, or if the soil lies soaked in stagnant water, and there is no passage of rain through it, this change cannot take place. When lime is added to the soil it quickly acts on the organic matter, but the lime must be diffused completely throughout the soil otherwise it becomes inert before it has had an opportunity of doing its work by being brought into actual contact with soil-particles. The clay of the soil is a silicate of alumina:

with lime, if the particles be brought together in presence of water, a double silicate of lime and alumina is formed. If salt be brought into contact with this, the lime gives way and a double silicate of soda and alumina is formed. If potash be added, the soda gives way, and we have now a double silicate of potash and alumina; and lastly, potash will yield to ammonia, and thus ammonia will be collected from the air and rain, and become fixed in the soil so as to be available for plant growth. We speak of fall ploughing as the special work of this month; we do so rather because the custom of the country makes it such, than that we think it desirable that it should be deferred till the days have shortened. Sod ploughing cannot well be done till the land is moistened by fall rains, but as soon as the hay is off the fields it is not too early to begin, wherever the land is in condition. Last year haying was finished on the 4th of August on the farm where

J. GODFREY SMITH, Dispensing Chemist, 147 Hollis St.

these notes are written, heavy rains came a few days later, and sod ploughing began on the 10th of August.

DECEMBER. — Under each month we have endeavored to indicate matters that most urgently require the attention of the farmer. Last, but not least, we call his attention to his position as the member of an Agricultural Society, in which, by example and precept, he may make his personal influence widely felt, and thereby conduce to the prosperity and advancement of by far the most important industrial interest of the Province. There are now about ninety Agricultural Societies in this Province, with a membership of more than five thousand farmers. These Societies are organized under the Central Board of Agriculture, and each Society is entitled to draw from the Provincial Treasury (through the Board), an

annual grant in aid to promote its operations. The special purpose of a Society is to improve the live stock of its district, which is accomplished by obtaining and keeping for the use of members, superior male animals, such as bulls, rams and boars. Societies may also introduce seeds of new varieties of grain, roots, and also improved implements, and sell them to members at cost and charges. Exhibitions are held by the Societies of a District, embracing two or more Counties, combining. The whole of the Societies of the Province meet on the second Monday of December, each in its respective district, when the members receive the Directors' Report, and select officers for the ensuing year. Full information as to the method of organizing Societies may be obtained on application to the Member of the Board for the District (see Board of Agriculture in another part of the ALMANACK), or to the Secretary, Professor Lawson, Dalhousie College, Halifax.

The following extracts from the Weights and Measures Act of 1879 will give valuable information:

In contracts for the sale and delivery of any of the undermentioned articles, the bushel shall be determined by weighing, unless a bushel by measure be specially agreed upon—the weight equivalent to a bushel being as follows:—

Wheat, sixty pounds,
Indian Corn, fifty-six pounds,
Rye, fifty-six pounds,
Peas, sixty pounds,
Barley, forty-eight pounds,
Malt, thirty-six pounds,
Oats, thirty-four pounds,
Beans, sixty pounds,
Clover seed, sixty pounds.

Timothy seed, forty-eight pounds,
Buckwheat, forty-eight pounds,
Flax seed, fifty pounds.
Hemp seed, forty-four pounds,
Blue grass seed, fourteen pounds,
Castor beans, forty pounds,
Potatoes, turnips, carrots, parsnips,
beets and onions, sixty pounds.

In using a Dominion Measure of capacity the same shall not be heaped, but either shall be stricken with a round stick or roller straight and of the same diameter from end to end, or if the articles sold cannot from its size or shape be conveniently stricken, shall be filled in all parts as nearly to the level of the brim as the size and shape of the article will admit.

Every contract, bargain, sale or dealing made or had in the Dominion of Canada for any work, goods, wares or merchandise, or other thing which has been or is to be done, sold, delivered, carried or agreed for by weight or measure, shall be deemed to be made and had according to one of the Dominion weights or measures ascertained by this Act, or to some Multiple or part thereof, and if not so made or had shall be void, except only when made according to the metric system: and all tolls and duties charged or collected according to weight and measure, shall be charged and collected according to one of the Dominion Weights or Measures ascertained by this Act, or to some multiple or part thereof.

No local or customary measures in the use of the heaped measure shall be lawful.

Combs,

Any person who sells by any denomination of weight or measure other than one of the Dominion weights and measures or some multiple or part thereof, shall be liable to a fine, not exceeding twenty dollars for every such sale.

Every weight, except when the small size of the weight renders it impracticable, shall have the denomination of such weight stamped or engraved on the top or side thereof in legible figures and letters. Every measure of capacity shall have the denomination thereof stamped or engraved on the outside of such measure in legible figures and letters. Every beam, steelyard or weighing machine shall have marked upon some essential part of it the maximum weight which it is constructed to weigh, and also on the weights or poises used with it their actual weight when truly adjusted, in pairs or multiples of the avoirdupois pound. A weight or measure not in conformity with this section shall not be stamped with such stamp of verification under this Act, as is herein mentioned.

Every trader, manufacturer, carrier, public weigher, ganger, measurer, surveyor or other person, who uses, for any purpose of buying, selling or charging for the carriage of any goods, wares, merchandise or thing, or of measuring any land, goods, materials or other thing, for the purpose of charging for or ascertaining the price to be paid, or the charge to be made therefor, any weight or measure, or weighing-machine which has not been duly inspected and stamped according to this Act, shall be guilty of an offence against this Act; and shall, on conviction, incur a penalty of not more than fifty nor less than five dollars for each such offence; and every such unstamped weight, weighing-machine or measure so used, found in his possession, shall, on being discovered by the Inspector, or his assistant, be forfeited and forthwith seized and broken by him, without suit or other authority than this Act:

Except that the manufacturer or dealer in weights, measures or weighing machines who has in his possession for sale any weight, measure or weighing machine, shall not be bound to have the same inspected and stamped according to this Act, so long as the same remain in his manufactory or warehouse; but no such weight, measure or weighing machine shall be removed from his premises, sold or taken into use for trade without having been inspected and stamped:

Any trader not being a manufacturer or dealer in weights, measures or weighing machines, having in his possession any unstamped weights, measures or weighing-machines, shall be liable to a penalty of twenty-five dollars for the first offence, and for each subsequent offence to a penalty of fifty dollars; and the Inspector or his assistant shall forthwith seize such weights, measures or weighing-machines which shall be forfeited.

If any person forges or counterfeits any stamp used for the stamping, under this Act, of any measure, weight, balance or weighing-machine, or used before the commencement of this Act for the stamping of any measure, weight, balance or weighing-machine under any enactment repealed by this Act, or wilfully increases or diminishes any weight or measure so stamped, or in any way alters or tampers with any balance or weighing-machine which has been so stamped, so as to cause it to weigh unjustly, he shall be liable to a penalty of forty dollars for the first offence, and for each subsequent offence he shall incur a penalty of one hundred dollars and two months imprisonment:

Any person who knowingly uses, sells, utters, disposes of, or exposes for sale, any measure, weight, balance or weighing-machine, with such forged or counterfeit stamp thereon, or any weight, measure, balance or weighing-machine so increased, diminished, falsified or tampered with, shall be liable to a penalty for the first offence not exceeding fifty dollars, and for each subsequent offence one hundred dollars.

Any person, not being a manufacturer or dealer in weights, measures

or weighing-machines, who refuses to produce for inspection, when required to do so by any inspector or inspector's assistant appointed under this Act, all weights, measures and weighing-machines in his possession, and used for any purpose of trade, or—

Any manufacturer of or dealer in weights, measures or weighing-machines, who refuses to permit the inspection, when required in the manner herein provided, of any weights, measures or weighing-machines about to be removed from his premises to be used for purposes of trade, or who permits any such weights, measures or weighing-machines to be so removed without having been first inspected and stamped as herein required,—shall, on conviction, forfeit and pay a sum not exceeding twenty dollars for the first and forty dollars for the second or any subsequent offence.

All forfeitures and penalties imposed by this Act, or by any regulation made under its authority, shall be recoverable, with costs, before any civil court of competent jurisdiction, or before any Justice of the Peace for the district, county or place in which the offence was committed, if such forfeiture or penalty does not exceed fifty dollars, and before any two such justices, or any magistrate having, by law, the power of two such justices, if it exceeds fifty dollars, upon proof by confession, or by the oath of one credible witness,—and may, if not forthwith paid, be levied by execution of distress and sale of the goods and chattels of the offender, by warrant, under the hand and seal of such justice, justices or magistrate—by whom also any imprisonment to which the offender is liable may be awarded: and to all such cases the Act passed in the session held in the thirty-second and thirty-third years of her Majesty's reign, and entitled, "*An Act respecting the duties of Justices of the Peace out of Sessions in relation to summary convictions and orders*," shall apply, subject to the provisions of this Act.

One half of any penalty so recovered shall belong to the party suing for the same, not being an inspector, or an inspector's assistant, and the other half, or (if the party suing is an officer acting in pursuance of this Act) the whole penalty shall belong to Her Majesty for the uses of the Dominion:

Every such suit shall be instituted in the name of the inspector acting in pursuance of this Act, who shall account for the penalty to the Department of Inland Revenue.

Any person aggrieved by the use of any weight or measure, or weighing-machine, which has not been duly inspected and stamped according to this Act, or which may be found light, deficient or otherwise unjust, may recover treble damages and costs.

No action or prosecution shall be brought against any person for any forfeiture or penalty imposed by this Act, unless the same is commenced within three months after the offence is committed.

GAS INSPECTION.

Under Act 36° Victoria, Cap. 48, 1873, provision is made for the Inspection of Gas, which in Nova Scotia is to be of the illuminating power of sixteen candles. Apparatus for testing and analysing the Gas supplied to Halifax, has been fitted up in Hessel's Building, Hollis Street. *Inspectors*—Halifax, Archibald Miller; Pictou, James Hopburn.

2 oz.; on Commercial Papers addressed to Postal Union Countries where the *single letter rate* is required, the minimum prepayment of 5c. upon a packet will cover a weight of 10 oz.; and 2c. for every additional weight of 2 oz. or fraction thereof.

On Samples and Patterns the postage is 2c. for the first 4 oz. and 1c. for every additional weight of 2 oz. or fraction thereon.

List 3.

The limit of weight of Books, Printed Matter, Commercial Papers, Documents &c., AS WELL AS FOR NEWSPAPERS, is 4 lbs. 6 oz. avoirdupois, and the limit of size 24 inches in length by 12 inches in breadth or depth. The limit of weight for Samples and Patterns is 8½ oz., and the limit of size 8 inches in length, 4 inches in breadth, and 2 inches in depth. These apply to all Postal Union destinations. The limit of weight, however, for Book Packages, &c., to the United Kingdom is 5 lbs. Matter exceeding the limit of weight cannot be forwarded.

It will be observed that all classes of matter can be registered to the United States and all Countries named in Lists I. and II.

Letters containing gold or silver money, (excepting such addressed to the United States) jewels, or precious articles, or anything liable to Customs duties, will not be forwarded, *registered or unregistered*, to any place beyond the limits of the Dominion of Canada.

Newspapers and periodicals printed and published in Canada may be sent by post from the office of publication or news agency, at the rate of 1 cent per lb. to regular subscribers or news agents in Newfoundland, the United Kingdom, or the United States.

Further information in regard to the rates of postage to British Colonies and foreign countries, via England, or the United States, inland and foreign mail connections, the rules governing letters, newspapers, books, periodicals, samples and parcel post, and the transmission of post cards, ships letters, dead letters, franking and free matter, &c., may be obtained at any Post Office.

Rates of Postage within the Dominion.

LETTERS.

To places within the Dominion of Canada, 3 cents per half oz. each. Letters paid less than one rate will not be forwarded. Other short paid letters will be taxed with double the amount of the deficient postage.

On letters posted at an Office to be delivered from it, commonly known as Local or "*drop letters*," the rate will be 1 cent per ½ oz.; to be in all cases prepaid by Postage Stamps affixed to such letter when posted.

Re-directed Letters will be forwarded without any additional charge if not taken from the office or if handed back at the moment of their delivery, but if taken from the office and subsequently re-posted they become subject to a new rate of postage, in default of which they will be sent to the Dead Letter Office, Ottawa.

NEWSPAPERS AND PERIODICALS.

Newspapers and periodicals printed and published in Canada may be sent by Post from the Office of publication to regular subscribers in Canada free.

Transient Newspapers and Periodicals addressed to places in Canada, will be sent at the rate of one cent per 4 ounces, which must be prepaid

SHELBURNE HARBOR.—A red Iron Can Buoy has been placed in 4½ fathoms, on west side of Middle Rock Shoal; a red Can Buoy off extreme of Spit, in four fathoms, and a black Spar Buoy on east end of Adamant Shoal.

BULL ROCK, a Spar Buoy painted black has been placed in 10 fathoms water S. S. W. ½ W., about 150 yards from the Bull Rock, off Western Head, Shelburne County.

CAPE ROSEWAY, near south-east point of MacNutt's Island, Shelburne harbor, lat 43° 37' 15" N., lon 65° 15' 45" W., two white catoptric lights, vertical, 21 yards apart, upper light visible 18 miles, and 120 feet high, lower 65 feet and visible 10 miles; octagonal building, vertical black and white stripes, height 77 feet. A black Can Buoy S. S. E. from the Jig Rocks, in 9 fathoms water.

NEGRO ISLAND, on north side, lat 43° 30' 54" N., lon 65° 20' 58" W., red and white catoptric light, revolving every minute, visible 12 miles, 48 feet high, white square wooden building, height 29 feet. For guiding vessels in and out of Clyde River or Negro Harbor.

BACCARO, on west side of entrance to Barrington Harbor, lat 43° 26' 54" N., lon 65° 28' 12" W., fixed red catoptric light, visible 10 miles, 49 feet high, white square building, with black ball seaward, height 35 feet. A Spar Buoy to the south of Bantam.

BARRINGTON E. BAY LIGHTSHIP, lat 43° 31' 5" N., lon 65° 34' 25" W., fixed white light, hull and spars painted red, with word "Barrington" in white letters on both sides. Height 30 feet above deck. Moored in 6 fathoms at low water. Wessess' Ledge bearing S. W. by W. ½ W., distant ¾ mile, Baccaro Light bearing S. S. E. ½ E., distant 6 and 3-16 miles, and Bantam Rocks, bearing S. E. bearing S. E. by E. ½ E., distant 6½ miles. To guide vessels into Barrington East Bay, and through Barrington Passage. A red Can Buoy on Angle Rock.

CAPE SABLE, on Cape, lat 43° 23' 19" N., lon. 65° 37' 11" W., white catoptric revolving light, bright 15 seconds, dark 25 seconds, visible 12 miles, 53 feet high, white octagonal building, 50 feet high. A steam fog whistle on Cape, elevated about 40 feet above high water, sounds in thick weather, fogs and snow storms, a blast of ten seconds' duration each minute, with an interval of 50 seconds between each blast.

BRAZIL ROCK.—A Bell Buoy has been placed here to mark this danger instead of the Can Buoy painted red and black horizontal stripes, moored in 15 fathoms water, S. S. E., a half mile from Rocks.

STODDART ISLAND, on N. W. point of island, lat 43° 28' 30" N., lon 65° 43' 10" W., fixed red catoptric light, visible 9 miles, 22 feet high, white small square tower. To guide vessels into the anchorage of Stoddart Harbor and Shag Harbor Sound.

BON PORTAGE ISLAND, on south point, lat 43° 27' 16" N., lon 65° 44' 10" W., red catoptric light, revolving every minute, visible 12 miles, 46 feet high, white square wooden building, height 28 feet. For guiding vessels into Barrington West Bay and Shag Harbor.

PICKFORD & CO. — Compasses, Binnacle, Side Lights.

PUBNICO HARBOR, Beach Point, east side of entrance, 120 yards from low water mark, lat $43^{\circ} 35' 45''$ N., lon $65^{\circ} 46' 54''$ W., fixed white catoptric light, visible 8 miles, 28 feet high, square white building, height 20 feet. Open westward of St. John's Island, bearing N. E. by N., clears the ledge; in making harbor from any other direction, the light must be brought to the northward of E. N. E. before it can be steered for to avoid shoal spot off St. Ann's Point. Spar buoys mark the channel. Black left on port hand, red on starboard in approaching the harbor. A bell buoy has been placed near John's Ledge.

PEASE'S ISLAND, on the south point of Pease's Island, one of the Tusket Islands, Yarmouth County, Nova Scotia, lat $44^{\circ} 27' 35''$ N., lon $66^{\circ} 1' 40''$ W. The main or sea light will be revolving catoptric, showing alternately red and white, each color visible for 15 seconds, with intervals of 45 seconds between the flashes. It is elevated 56 feet above high water mark, and in clear weather should be seen 12 miles from all points of approach from the southward, and also through the Schooner and Ellenwood Passages. A fixed red catoptric light will also be shown from a window in the tower, 16 feet below the main light. It is intended to mark the channel between the two dangers known as the Old Man and Old Woman Rocks, and is, therefore, visible between the bearings W. by N. $\frac{1}{2}$ N., and N. W. by N., and in no other directions. It should be visible 4 miles. The tower is a wooden building, painted white, and consists of a square tower 42 feet high from base to vane on lantern, with a keeper's dwelling attached.

ARGYLE, on south point of Whitehead Island, Yarmouth County, lat $43^{\circ} 39' 30''$ N., lon $65^{\circ} 52' 4''$ W., fixed red catoptric light, visible 12 miles, 115 feet high, building white, square, wood, with dwelling attached, height 28 feet. For guiding vessels into Argyle Harbor.

TUSKET RIVER, Big Fish Island, south-west point, lat $43^{\circ} 42' 10''$ N., lon $65^{\circ} 57' 15''$ W., two fixed white catoptric lights, horizontal, 8 yards apart, visible 12 miles, 50 feet high, white square wooden building, height 23 feet. Visible seaward; in windows each end of a dwelling house.

SEAL ISLAND, south point, $\frac{1}{2}$ mile inland, lat $43^{\circ} 23' 34''$ N., lon $66^{\circ} 0' 52''$ W., fixed white light, dioptric, 2nd order, visible 18 miles, 98 feet high, white octagonal building, height 60 feet. The Blonde Rock lies S. by W. $3\frac{1}{2}$ mile from light house. Between this Rock and the Island there are some dangers, the ground is rocky throughout, and large vessels ought not to attempt passing between them. A fog whistle near light house, during fogs and snow storms, sounds in each minute a blast of 5 seconds duration, and after an interval of 5 seconds gives another blast of 5 seconds, with an interval of 45 seconds.

BLONDE ROCK.—An Automatic Signal Buoy now marks this danger, painted black with letter B. in white, same position as the Spar buoy. The Rock lies $3\frac{1}{2}$ miles S. by W. from the Seal Island lighthouse.

YARMOUTH OR CAPE FORCHU, east cape, south point, lat $43^{\circ} 47' 28''$ N., lon $66^{\circ} 9' 21''$ W., white catoptric light, revolving every minute and 45 seconds—light $1\frac{1}{2}$ minute, dark $\frac{1}{2}$ minute, visible 18 miles, 117 feet high, octagonal tower, vertical stripes, red and white, height 59 feet. Fog whistle on west side, sounds in fogs and snow storms, 10 seconds in every minute.

BUNKER'S ISLAND, on end of reef, off S. W. point of Island, east side of entrance to Yarmouth Harbor, lat $43^{\circ} 48' 30''$ N., lon $66^{\circ} 8' 45''$ W., fixed red catoptric light, visible 10 miles, 27 feet high, the lantern on a dwelling house, built on a wooden pier. purpose of guiding vessels into the harbor. Visible from the southward between the bearings of N. E. by N. $\frac{1}{2}$ E. It can also be seen on Stainwood's Beech, when bearing from S. $\frac{1}{2}$ E. to S. E. $\frac{1}{2}$ E., but cannot be run for on these bearings, the only entrance to the harbor being through Yarmouth Sound and round East Cape.

TRINITY LEDGE, an Iron Bell Buoy, painted red, has been moored to the westward of Trinity Ledge, off Cape St. Mary.

CAPE ST. MARY, east side of Bay, lat 44° 5' 20" N., lon 66° 12' 40" W., red and white catoptric light, revolving alternately every 30 seconds, visible 17 miles, 103 feet high, octagonal white building, height 43 feet.

METEGHAN RIVER, at entrance end of Breakwater, lat 44° 13' 43" N., lon 66° 8' 12" W., fixed green catoptric light, visible 6 miles, 23 feet high, building vertical, red stripes on seaward side, 21 feet high, lantern painted black. Beacon for guiding vessels into river. Must be left on starboard hand and passed close aboard. Tide leaves breakwater one hour before low water.

CHURCH POINT, east side of St. Mary's Bay, Digby County, lat 44° 19' 55" N., lon 66° 7' 35" W., fixed red catoptric light, visible ten miles, 36 feet high, square white wooden building, height 20 feet. For guiding against dangers in vicinity of Church Point.

SISSIBOO, south side of entrance to river, lat 44° 26' 30" N., lon 65° 1' 15" W., fixed white dioptric light, visible 8 miles, 36 feet high, white wooden building, pyramidal, height 33 feet.

WESTPORT, Peter's Island, entrance to Grand Passage, lat 44° 15' 30" N., lon 66° 20' 20" W., 2 fixed white catoptric lights, horizontal, 24 feet apart visible 10 miles, each 40 feet high, square white building, height 15 feet. Visible from the northward between the bearings of S. by W. and S. S. W., and from the southward between the bearings of N. E., by E., and N. N. W. $\frac{1}{4}$ W. Bell Buoy painted red north side of N. W. Ledge.

BRIER ISLAND, north-west Point, lat 44° 14' 57" N., lon 66° 23' 30" W., fixed white catoptric light, visible 13 miles, 92 feet high, white octagonal building, height 55 feet. A steam fog whistle on N. W. of Brier Island, south side of light house, sounds during thick and foggy weather and snow storms as follows:—Blast of four seconds, interval four seconds, blast of four seconds, interval of four seconds, blast of four seconds, interval of forty seconds—making sixty seconds. The Bell Buoy has not been replaced on the North-West Ledge.

BOAR'S HEAD, 17 yards from edge of cliff, lat 44° 24' 16" N., lon 66° 13' W., red and white catoptric light, revolving alternately every minute, visible 14 miles, 70 feet high, white square building. On south entrance to Petit Passage.

POINT PRIM, south point of entrance to Annapolis Basin, lat 44° 41' 34" N., lon 65° 47' 20" W., fixed white catoptric light, visible 13 miles, 76 feet high, square tower, vertical red and white stripes, height 22 feet. Fog whistle on Prim Point sounds in snow storms and in thick or foggy weather 8 seconds in each minute, making an interval of 52 seconds between each blast.

MARSHALL COVE OF PORT WILLIAMS, south shore, lat 44° 56' 52" N., lon 65° 16' W., 2 fixed white catoptric lights, vertical, 20 feet apart, upper 60 feet high, visible 10 miles, white square building, height 22 feet. The following clauses of the Medical Act (Chap. 23, Revised Statutes, 4th Series,) are here published for the information of the profession and the public:

8. Subject to the exceptions hereinafter made, no person shall practice physic, surgery or midwifery in Nova Scotia, unless his name shall be registered in the Book of Registry of the Provincial Medical Board, and unless he shall have received from such Board a license to practice.

16. Any person entitled to be registered under this chapter, but who shall neglect or omit to be so registered, shall not be entitled to any of the rights or privileges conferred by the provisions of this chapter, as long as such neglect or omission shall continue.

17. No person, otherwise fully qualified under this chapter, shall be refused registration or a license to practise on account of his adopting or refusing to adopt the practice of any particular theory of medicine or surgery. In case of such refusal by the Board, the party aggrieved shall have the right to appeal to the Governor in Council, who, upon due cause shown, shall issue an order to the Board to register the name of such person and to grant him a license to practice.

21. Every person who shall be registered under the provisions of this chapter, shall be entitled according to his qualification or qualifications to practise Medicine, Surgery, and Midwifery, or either or any of them; as the case may be, in Nova Scotia, and to demand and recover in any court of law reasonable charges for professional aid, advice and visits, and the cost of any medicine or other medical or surgical appliances rendered or supplied by him to his patients.

22. No person shall be entitled to recover any charge in any court of law for any medical or surgical advice or for attendance, or for the performance of any operation, or for any medicine which he shall have both prescribed and supplied, unless he shall prove upon the trial that he is registered under this chapter.

24. No person shall be appointed as medical officer, physician or surgeon in any branch of the public service, or in any hospital or other charitable institution, unless he shall be registered under the provisions of this chapter.

25. No certificate required by any Act now in force, or that may hereafter be passed, from any physician or surgeon, or medical practitioner shall be valid, unless the person signing the same shall be registered under this chapter.

26. If any person not registered or licensed under the provisions of this chapter, or not being actually employed as a physician or surgeon in H. r Majesty's naval or military service, practises Physic, Surgery or Midwifery for hire, gain, or hope of reward, he shall thereby forfeit a sum of twenty dollars for each day on which he so practises.

27. Any sum forfeited under the next preceding section shall be recoverable with costs, and may be sued for and recovered in the same manner as a private debt, by the Provincial Medical Board or any member thereof; and being recovered, shall belong to the Board for the use thereof under

this chapter. Provided that, where the information leading to such recovery shall have been given by any person unconnected with the medical profession, such person shall be entitled to receive one-half of the sum so recovered.

28. Upon the trial of such cause, the burden of proof as to the license or right of the defendant to practise Physic, Surgery or Midwifery in Nova Scotia shall lie upon the defendant.

PORT OF HALIFAX.—SIGNAL SERVICE.

EXPLANATION OF SIGNALS

Made on Main Signal Staff at Citadel Hill, when Vessels are seen from the Citadel or reported from an Outpost.

When Sailing Vessels are reported from an outpost, the following signals are made on the lower yard:

BY DAY.

For 1 Square Rigged vessel, 2 balls close up, one on the outer halliard and one on the inner halliard.

" 2 Do, 1 ball hoisted on the outer halliard and one close up on the inner halliard; outer ball dropped.

" 3 Do, 2 balls close up, one on the outer and one on the inner halliard.

" 4 Do, 2 balls separated, and one close up on the inner halliard.

" 5 Do, a pennant of any colour on the outer halliard, and one ball close up inside

" 6 Do, a pennant under a ball close up on the outer halliard, and a ball at the inner halliard close up.

" 7 Do, a pennant over a ball close up on the outer halliard, and a ball close up on the inner halliard.

" 8 Do, a pennant under two balls close up on the outer halliards with a ball close up on the inner halliard.

" 9 Do, a pennant between two balls close up on the outer halliard with a ball close up on the inner halliard.

For 10 Do, a flag of any colour close up on the outer halliard, with a ball close up on the inner halliard.

The above balls, &c., are hoisted on the east or west yard arm according to the quarter the vessel first appears in.

A Ship, a large ball at the end of the yard, with a small one at inner halliard.

A Barque, a large do at the end, with a small one dropped at inner halliard.

A Brig, a small one at the end of the yard, and a large one at the inner halliard.

A Brigantine, a cross close up at the outer halliard. Two or more do, a cross half hoisted.

A Topsail Schooner, or Schooner wearing a Merchant's Private Signal, a cross close up at the inner halliard.

Two or more schooners, a cross inner, half hoisted.

The upper yard of the Ship Staff is used solely to designate Steamers thus:

Two large balls close up, one at the outer and the other at the inner halliard, E or W, a steamer reported in that quarter.

A small ball at the outer, and a large one at the inner halliard, very small or regular coasting Steamer.

A large ball at the outer, and a small one at the inner halliard, large or ocean going Steamer.

Steamers or Sailing Vessels showing owners' or agents' private signal flags, are denoted on the private Signal Staff with a descriptive pennant underneath the private signal.

DIRECTIONS TO MARINERS WITH REFERENCE TO CANADIAN STORM WARNINGS, ISSUED FOR QUEBEC AND THE MARITIME PROVINCES.

Explanation of Signals made off on the Storm Signal Staff at the Citadel.

I.—Cone, hoisted with the apex downwards, indicates "moderate gale is expected," probably at first from an easterly direction.

II.—Cone, with apex pointing upwards, indicates "moderate gale is expected," probably at first from a westerly direction.

III.—Drum, with Cone underneath, the apex pointing downwards, indicates fresh to heavy gale is expected, probably at first from a easterly direction.

IV.—Drum, with Cone above, the apex pointing upwards, indicates fresh to heavy gale is expected, probably at first from a westerly direction.

The Cone, when hoisted by itself, indicates that it is expected that the wind will obtain a velocity of 30 miles an hour, but will not exceed 40 miles; and it is not intended that an ordinary well found vessel should stay in port, but simply as a warning to mariners that strong winds are expected from the quarter indicated.

The Drum will always be hoisted when the velocity of the wind is expected to exceed 40 miles an hour.

The night signal, corresponding to Nos. 1 and 3, is two white lanterns hanging perpendicular.

The night signal, corresponding to Nos. 2 and 4, is two white lanterns hanging horizontally.

NOTES.—Mariners will be able to obtain further information from Drum Agents, or by consulting the daily probabilities. Mariners must always bear in mind that the storm signals are merely cautionary, and do not necessarily mean that a storm will occur at the place where the signal is displayed, but that one is expected either there or within such a distance that vessels leaving port would be liable to be caught in it.

The storm warnings issued for Nova Scotia, are received from the Central Office, Toronto, Ont.

Opposite South side Post Office, Halifax.

ASYLUM FOR THE BLIND—William Murdoch, Esq., who died in London in 1867, left by Will £5000 N. S. Currency towards endowing an Asylum for the Blind. This led to other gifts and the erection of a building at a cost of £3000,—capable of accommodating forty pupils. The Institution is really a school. *John S. Maclean, Prest.; E. D. Meynell, Secretary and Treasurer; M. H. Richey, Corresponding Secretary; M. Bowman, Recording Secretary; C. T. Fraser, Superintendent; Miss McKenzie, Teacher; T. Blair, Steward; Mrs. T. Blair, Matron.*

DEAF AND DUMB INSTITUTION—(Gottingen Street.) This Institution has been in operation for twenty-one years. It is supported partly by grants from the Governments of the Maritime Provinces, and partly by voluntary contributions—most of the pupils being too poor to pay for their board and education. The pupils range in age from five years up to twenty-five. Those who have the full benefit of an education here are able to express themselves with fluency. *Patron, His Honor the Lieut.-Governor of Nova Scotia. Chairman, Hon D. McN Parker, M.D. Sec'y, Rev Jno Forrest. Principal, J. Scott Hutton, M.A. Matron, Mrs Vincove. Physicians, Hon D. McN. Parker, M.D., Dr. Moren. Dentist, Dr Alfred Cogswell.*

HOME FOR THE AGED—This place is intended to afford a comfortable retreat to respectable women of advanced years whose means of livelihood are very limited. Fifty dollars a year paid by the inmate or by a friend secures all the comforts of a home. The Institution owes its existence to the thoughtful liberality of the late William Murdoch, Esq. *President, Mrs W. S. Stirling. Secretary, Miss Forrest. Treas, Miss A. Nordbeck.*

PROTESTANT ORPHANS' HOME—Protestant orphans, two years old, and upwards, are admitted to this Institution. It enjoys considerable endowments. Comfortable homes in the country are sought out and secured for boys and girls as they grow up. *Secretary, Mrs R. Pickford. Treasurer, Mrs J. H. Liddell. Physician, Dr Lawson.*

PROTESTANT INDUSTRIAL SCHOOL.—Intended to teach and train for some useful occupation boys who might otherwise be left to grow up as "roughs" and criminals.—It is under the management of a committee of gentlemen and ladies. *Treasurer, Secretary, E. D. Meynell. Surgeon, Dr. Slayter. Superintendent, Abner Hart.*

HALIFAX VISITING DISPENSARY.—Medical aid is afforded by this Institution to hundreds of poor patients. Those who need such attention are visited by Physicians at their homes. Those who can come to the Dispensary at the proper hour are duly attended to there. *Treas, J. F. Kenny. Sec'y, W. H. Wiswell.*

HALIFAX ASSOCIATION FOR IMPROVING THE CONDITION OF THE POOR—The aim of the Association is to aid the poor by giving them employment whenever it is possible to do so, and securing that only the deserving poor shall be aided. Every case is investigated before aid is given. *Prest., Jno Doull. Vice Prest., W. H. Neal. Treas.,*

NOVA SCOTIA HEALTH SOCIETY.—*President, His Honor Lieut. Governor Archibald. Vice-Presidents, Sir W. Young, Sir E. Kenny, Hon. A. G. Jones. General Sec'y, J. W. Macdonald, M.D. Treas.,*

James Farquhar. This Society is formed to promote voluntary efforts for preventing the outbreak and spread of infectious diseases. It aims also at the diffusion of sanitary knowledge bearing on the physical and moral welfare of the people.

NOVA SCOTIA SOCIETY FOR THE PREVENTION OF CRUELTY TO ANIMALS.—*President*, M. H. Richey, M.P. *Chairman Executive Committee*, P. C. Hill, Esq. *Secretary*, John Naylor, 134 Hollis Street. Annual subscription \$1, life members \$20, children 25 cents. The object of the Society is to prevent cruelty to animals, to educate public opinion on the subject, to punish the perpetrators of wanton cruelty, and diffuse a knowledge of the best methods of treating animals. Conductors on the railways are authorized to act as agents of the Society.

LADIES AUXILIARY SOCIETY.—*President*, Mrs P. C. Hill. *Vice-President*, Mrs Judge Ritchie. *Treasurer*, Mrs J. F. Kenay. *Secretary*, Mrs Dashwood.

NOVA SCOTIA HISTORICAL SOCIETY.—*President*, Rev. Dr. Hill. *Vice-President*, Dr. Allison. *Recording Secretary*, Sydenham Howe. *Corresponding Secretary*, J. T. Bulmer. *Treasurer*, Jas. S. Macdonald. The object of this Society is the collection and publication of manuscripts, pamphlets, books, &c., that are of historical interest, relating to Nova Scotia or the neighbouring Provinces.

ST. PAUL'S ALMS HOUSE OF INDUSTRY FOR GIRLS.—(No. 100 Tower Road—Established 1867). *Committee: Chairman*, Rev. Dr. Hill. *Secretary*, W. N. Shaffer. Girls who are destitute, or nearly so, and in dangerous proximity to vice, are provided with a home, and trained to become domestic servants.

CHRISTIAN MISSION TO SEAMEN.—This Mission is over a year old. Mr. John Grierson is Missionary. Vessels on entering the port are visited. Meetings are held with seamen at the Sailors' Home. Good books and papers are circulated among them.

TEMPERANCE DIRECTORY.

SONS OF TEMPERANCE.—The first Division was organized at Yarmouth, Nov. 17, 1847. The Grand Division was organized April 22,

Sell General Hardware Cheapest.

1848. There are now one hundred and fifty nine Subordinate Divisions (159) with eight thousand four hundred (8400) members,—eighteen Bands of Hope with 1500 members; and six Sections of Cadets with 260 members; *Grand Worthy Patriarch*, Joseph Barrill, Yarmouth; *Grand Scribe*, Rev R. A. Temple, Halifax. *Agent and Lecturer of Grand Division*, Thomas Hutchings. Quarterly sessions of G. D. are held in different parts of the Province, in January in Windsor, April at Granville Ferry, and July at Cow Bay, C. B. The annual session is held each Autumn in Halifax.

UNITED TEMPERANCE ORDER (formerly British Templars).—Grand Lodge of Nova Scotia organized in 1863. Has now about 56 Lodges containing about 2000 members; Juvenile Lodges 4 with 200 members; *President*, John H. Taylor, Gays River Road, Halifax Co.; *Secretary*, Adam Carson, Pictou. The next Annual Session is to be held at Gay's River Road, Halifax Co., on the first Wednesday of July, 1882, commencing at 7 p.m.

I. O. OF GOOD TEMPLARS OF THE WORLD.—The first Lodge organized at Economy, Colchester County, July 4, 1864. Grand Lodge of Nova Scotia formed February 5th, 1867; there are now 70 Subordinate Lodges with 3200 members; 7 Juvenile Temples with 200 members; *G. W. C. T.*; Shippey Spurr, Melvern Square, Annapolis Co.; *G. W. S.*, (honorary), R. R. Duncan, Grand Pre, Kings Co. The next Annual Meeting will be held at Halifax, to meet sometime in June or July, 1883, at the call of the Executive in connection with the Right Worthy Grand Lodge of the World.

I. O. OF GOOD TEMPLARS, LOYAL.—Grand Lodge of Nova Scotia re-organized Nov. 21, 1876, about 60 Subordinate Lodges, and about three thousand members; 10 Juvenile Temples with 500 members; *G. W. C. T.*; P. J. Chisholm, Truro; *G. W. S.*, I. J. Hingley, Oxford, Cumberland; *Genl. Sup. of Juvenile Templars*, M. C. Smith, Conquer Bank, Lunenburg Co. Next Annual Session will be held at Amherst first Tuesday July, 1883.

THE BLUE RIBBON CLUBS within the past five years have been organized in nearly every County of the Province. The enrolled membership increased with remarkable rapidity, especially in the Counties of Yarmouth, Digby, Annapolis, Colchester, Cumberland, Pictou, Cape Breton and Halifax. The aggregate membership in the Autumn of 1878 was estimated at 20,000. After that date some of the Clubs ceased in active work; some died; others were changed into Societies of other names; and the membership now in the Province is not nearly so large as in 1878. At this date (Autumn of 1882) the enrolled membership of the various Temperance organizations in Nova Scotia is (approximately) as follows:—

Sons of Temperance, Cadets and Bands Hope.....	10,000
United Temperance Order, (British Templars).....	2,200
I. O. G. Templars, (of the World)	4,000
I. O. G. Templars, (Loyal)	3,000
Roman Catholic T. A. Societies	3,500
Protestant Church Temperance Societies	4,000
Sabbath School Societies	estimated 6,000
Reform, or Blue Ribbon Clubs	5,000
Women's Temperance Unions.....	3,000

Total.....40,700

A GREAT WANT SUPPLIED!

The Brokenshire Patent Mineral FIRE-PROOF ROOFING,

AND

Composition for Paths, Sidewalks, &c., &c.

This Roofing is pronounced by competent judges to be "far superior to anything yet discovered for SAFETY and DURABILITY, being perfectly safe from sparks or blazing shingles, and quite impervious to winter frosts or summer heat."

PATHS, SIDE-WALKS, CELLARS and BARN FLOORS made of this Composition becomes hard almost as iron, and proof against atmospheric influences, and vermin.

The Prepared Roofing Material and Composition may be had in barrels, and sent to any part of the country, with full directions for use. Samples may be seen and full information obtained at the office of the BROKENSHIRE ROOFING COMPANY, Campbell's Wharf, (foot of Sackville Street,) Halifax, N. S.
