Hon. Charles Murphy Contends That Policy of Contribution to Navy Was Decided on and Mr. Monk Resigned Before Famous Memorandum Arrived.

OTTAWA, Feb. 26 .- , Special.) -- Hon. Chas. Murphy, ex-secretary of state, esumed the discussion on the naval question in the house today. He made a consistent "stand, pat" speech, declaring that the Conservative-Nationalist allinace dated back to 1910. At that time Hon. Mr. Monk had proposed an amendment to the speech from the throne calling for the submission of the naval policy to the people. The prime minister, he declared, had enthusiastically supported | Public Accounts Show an Inthis amendment.

Hon. Mr. Monk's resignation from the cabinet had been caused by the nonauncement made last fall of the "contribution policy," without first submitting that policy to the people,

said Hon, Mr. Murphy amid applause. He declared that the admiralty's memoranda had not been drafted until a week after the government's announcement of its contribution policy. In support of this claim Hon. Mr. Murp hy pointed out that Hon. F. D. Monk's letter tendering his resignation from the cabinet was dated Oct. 18, 1912, and referred to the government's naval policy as having been

Down Oshawa by Eight Goals Orillia in Junior Semi-Finals - The Details.

(By Lew Brown.)
A. I'eb. 26.—(Special.)—Orillised Oshawa by the score of 8 to whitewashed Oshawa by the score of s to 0 in the first game of the home-and-home series in the Junior O.H.A. semi-finals. At no time did Oshawa look dangerous, and if it had not been for Wilson in goal the tale would have been horrible. Superior in all-round play, Orillia piled up the score, ripping in and out of their opponents' defence, until it looked like a sleve. The forward line of, the winners was a collection of stars, who had speed and stick-handling to spare at all times. Lovering Jupp was, as usual, the hero of the strife, and as a bundle of speed and stamina he is a wonder. Altho he received a rough passage all the way, he kept in the play and gradually wore his checks down, and he went after the puck, no matter where it was. He was very successful in passing it back, so that his team-mates secured numerous clear shots. Butterfield ran him a close second, and he made Reardon look sick at times with his cel-like movements.

he made Reardon look sick at times with his eel-like movements.

Reld, on the defence, was a power of strength, and he opened up many timely rushes. For the losers, Wilson in goal was the hardest worker on the team, and his work was so brilliant that in the final minutes even Orillia's strongest supporters were applauding his great work. Vair and Hall were very good on the forward line, but lacked the weight and aggressiveness to get inside the defence. Reardon was watched very closely and rarely got away. He hogged the puck too much and missed several good chances to score. Young performed in his old-time style. The return game will be played in Oshawa Friday night, and Orillia are confident of going into the final. From their showing tonight, Oshawa will have a hard time beating them even at home. Too much close checking and the ripping and smashing style of play spoiled all chances of real hockey, but individual work made up for this.

The game started with Orillia defending the north goal. Both teams opened with alternate rushes on each other's goal. Butterfield put one on Wilson's pads, but he cleared nicely. Thornton intercepted a pass and scored off Wilson's pads in six minutes.

Wilson in goal was having a strenucus time. Butterfield got thru to the goal mouth, but he falled on the shot. Jupp zig-zagged his way up twice and scored on a long, high one in seven minutes.

Oshawa had the puck at their opponents' net, but Cook made a great stop. Vigorous back-checking and short, sharp Vigorous back-checking and short, sharp passing were the features of the play. Butterfield batted one in from a mix-up

Butterfield batted one in from a mix-up in four minutes.

Jupp had been having a rough passage, and his nose had been bleeding profusely. He was knocked out when he and Vair bumped, and he had to retire. Toung went off to even up. Oshawa began to press, and Reardon opened several spurts, but luck seemed to be against them and they failed to score on several likely. they failed to score on several likely chances. Thornton made it four to none on what looked to be an impossible shot. He was practically parallel with the net, and the puck hit the post and bounded

and the puck hit the post and bounded in.

Reid went thru and nearly scored. Jupp came on the ice without reporting to the timekeepers, and the play was stopped to allow Young to get on. Tudhope negotiated the defence a minute later for the fifth tally by a brilliant piece of stick-handling. The half was concluded soon afterwards, when a disagreement over time was fixed up. Half-time score: Orillia 5, Oshawa 0.

Second Half.

After the rest period both teams opened up a stiff pace. Jacobi received a poke in the eye, but gamely continued. Jupp and McNab combined on a pretty piece of combination, but Wilson was equal to the occasion and came out and stopped the shot. Orillia began to keep Wilson busy again, and Jupp and Butterfield displayed some nice rushing and shooting. Young was playing a whale of a game, but roamed too much and let Thornton get away several times. Thornton received a heavy bodycheck and went down and out, but resumed in two minutes.

After ten minutes of strenuous play

After ten minutes of strenuous play, Tudhope bulged the net on a pass from

Tudhope bulged the net on a pass from Jupp.

Jupp went up the side and tallied another a minute and a half later. Reardon opened up an end-to-end rush, but Cook saved beautifully.

For goalkeeping, Wilson is certainly keeping up his record, and after stopping several shots he finally was unable to handle Butterfield's shot, when he beat the whole team and bored right in on him. McNab shot from centre, and the rubber hit the top of the goal and bounded out again. For the last ten minutes Orillia had been playing a one-man defence, but Oshawa started to come, and Orillia were hard-pressed in the final minutes of play.

FOR SIMCOE BRUNSWICK DUCKS

SIMCOE, Feb. 25.—In the fastest and cleanest game of hockey ever played here Simcoe defeated Berlin by a score of 4 to 3 tonight before a crowd of one thousand spectators in the first game of the intermediate second round. The score stood 3 all at half time. The visitors showed wonderful speed, but the Simcoe forwards had it on them in shooting. For Simcoe Mayo again starred in the nets-and Mason, Curtis and Andrews were also brilliant, while Hainsworth and Uffleman were the pick of the Berlin crew. Jack Moxon refereed. The line-up:

Berlin (3): Goal, Hainsworth; point, Trushrnski; cover, F. Selbert; rover, Rochman; centre, N. Selbert; right, Solomon; left, Uffleman.

Simcoe (4): Goal, Mayo; point, Romey; cover, Whiteside; rover, Mason; centre, Andrews; right, Curtis; left, Burt.

Senators Put Up Poor Exhibition at All Times-

A mere handful of the regulars turned out to see Tecumsehs and Ottawa do their paid tricks at the Arena last night and they were not given much to look at. Ottawa put up a poor exhibition and the Indians won much easier than the 4 to 3 score would indicate.

Percy Lesueur's wonderful work in the Senators' net was the only thing that saved Ottawa from an overwhelming defeat. Hamby Shore was about the only other capital city hired man to show anything and he livened it up occasionally with some pretty lone rushes.

Steve Vair was easily the best man on the ice with his rushes right into the goal mouth and some good back-checking. Art Throop was also a big help, while Gaul might just as well have stayed on the bench. The McNamara brothers kept Ottawa well outside all night and took some lone trips thru the whole Ottawa works. Ronan and Darragh played in a "don't care" fashlon and left Hamby Shore nearly all the aggressive work to do. Tecumsehs tore thru for two periods and it was only in the last session that Ottawa looked at all dangerous.

Billy Nicholson handed Ottawa two out of their three tallies and only for this it would have been a shame what the Indians would have done. In the second period Shore got thru past the defence and shot one at Nicholson. The Tecumseh manager caught the puck in his hand, but dropped it in the net instead of throwing it to the side. Lowery, who subbed for Broadbent, gave Nick one to clear, but the confident boy passed it behind the net to Lowery, who passed out to Darragh at the front and Ottawa's third tally was scored.

Tecumsehs started right in to show up the Ottawa crew from the first bell and were off in front six minutes after the start, when Steve Vair batted in a rebound. Merrill got one for Ottawa just to make it interesting. It was a life from the side and bounced in off Nicholson's glove. Vair added another for Tecumsehs before the period ended.

Tecumsehs were all the best, in the second session, but Ottawa were handed two tallies by Manager Bill. The Indians got two

It was decided that ten past cent of all the past year's pooks.

Forced Out by the Rink

WOODSTOCK. Feb. 26.—Woodstock hockey fans will not have a chance to see their Jünior O.H.A. team play off at home with either Orilita or Oshawa in the final game for the championship, owing to a disagreement between the O.H.A. and the management of the local rink, and arrangements have already been made to play Woodstock's home game in Stratford. The rink management demanded forty per cent. of the receipts at the final game in this city and refused to take any less. The O.H.A. desired to rent the rink for the evening, paying a flat rate, and offered anything within reason. The rink management refused to come down, and there was nothing left to do but to arrange the game elsewhere. The manager of the rink is now taking revenge on the local club, and he has issued orders for the youngsters to remove their belongings from the building. As a result, Woodstock's young hopes in the championship race have been turned out in the cold, having no place to practice but on an open-air sheet of ice.

Jockey Club Makes Announcement as Result of Recent Court De-

Club, those spring meetings will not be conflicted with."

The view taken by those interested, after this official notice was read, was that, at the conclusion of racing in Virginia and Maryland, about May 20, some of the New York racing associations and clubs would decide to reopen their race courses and hold meetings under licenses from the state racing commission and the approval of the Jockey Club.

In a statement issued by the stewards of the Jockey Club today, after they had had the matter under consideration, they declared that the Jockey Club is only a supervisory body and does not control the business policy of any of the racing associations. It is not in its province to say whether there shall or shall not be racing, if was pointed out, but should any of the associations decide to open their race courses the Jockey Club controls the manner in which such racing shall be conducted.

Chairman August Belmont presided at the meeting of the Jockey Club stewards, during which F. K. Sturgis was elected yice-chairman in the place of the late James R. Keene, and H. K. Knapp was elected secretary and treasurer, the offices formerly held by F. K. Sturgis. The only steward absent was F. R. Hitchcock, who is now in Aiken, S.C. The vacancy caused by the death of James R. Keene remains unfilled.

Prior to 1900 Australia was a pasagainst-Falstaff reformation, he will do more for Liberalism than anyone in a generation. For there is a feeling that The Globe may be round the corner all the time with a bottle and other accessories.

Mr. Rowell, however, has cut loose for The Globe and got the idea that the people vote for the man who is nesistent, who does not go back on people after pretending to consider not and who does not go back on people after pretending to consider not and who does not go back on people after pretending to consider the national processories, et, into power and week their yotes et al. A COUNCIL OF REASON.

The Globe thinks "Toronto needs a council more susceptible to reason than that which now holds the fort at the city hall." So do we, but for different reasons. The Globe is annoyed because the council did not listen to the "words of warning" which Mr. Lawson Purdy left "ringing in the ears" of the aldermen. The aldermen are used to ringing in the ears and a peal from New York would not be likely to make much difference. But except for the delay and the slow pace generally, the present council is no worse, and, per-

haps, even a little better, than its pre-

vinced that it affords the best possible LIMIT ON APPEALS that it would not be possible to devise a better form of government, or even to elect better aldermen than we have Globe and some other complainants think that the present form and sysem could not be improved upon. The Globe in matters of municipal governnent always argues that water cannot rise above its source. The Globe has never been able to see the fallacy in that argument. Yet The Globe is an earnest advocate of improving the water supply of the city. Out of the lake,

From an editorial in The Municipal Journal of London, England, it apears that the Union of Canadian Municipalities has proposed to estabwas discussed recently by the committee of the Scottish Convention of Royal Burgs, "which decided to express its sympathy with the suggestion," and also took the opportunity to point out that as it is the oldest organization of the kind, the headquarters of the new league might be in

AUSTRALIAN IMMIGRATION.

Canada cannot complain of the reported drain of her farmers, attracted Canadians have welcomed the influx of immigrants from the United States, and the same tendency to seek the new will operate just as readily in the case of the antipodes. The Journal, while agreeing with the point of view of the convention, does not think the suggestion is likely to be adopted, as the promoters of the scheme have anticipated matters by the scheme have anticipated matters by the scheme have anticipated matters a long course of expensive litigation. He knew of a judge who had awarded damages less than he felt should have been awarded because the defendant was a strong corporation and the plaintiff a poor man who could not fight the appeal, which would have been taken had the award been larger. This was but one instance to illustrate

The general question of limiting appeals presented difficulties. It had been suggested that in cases brought peals presented difficulties. It had been suggested that in cases brought under provincial statutes there should be no appeal beyond the provincial courts, the judges of which were most familiar with them. It had also been suggested that in such cases the supreme court of Canada should be the court of last resort. Australia had given an example of denying the right of appeal to the privy council except where the supreme court of Australia gave consent to appeal. If appointed the committee should take these views into consideration. into consideration.

Secretary Isn't Going Far

GALT, Feb. 26 .- (Special.) -- Referring to the provincial secretary's promised bill to the provincial secretary's promised bill for the creating of public utilities commissions. The Galt Reporter (Conservative), says: "It is to be regreted that the Hon. Mr. Hanna has not included the public works of a municipality in his act, so that all constructive work on roadways, sewers, sidewalks, drains and school buildings, could be done by one body elected for that purpose. Municipalities which, like Galt, have their own machinery, their superintendent and their gangs of men and are independent of contractors, would be much better served by a works commission than by a commistee of a council, subject to many changes in the annual round-up at the polls."

The state railroads of Switzerland will be operated by electricity at no distant date, at a cost of \$14,000,000, and the de-tails of the proposed change are practi-cally completed.

Planning Big Things.

"We are planning big things for the 1913 fair," said President Kent, "and important improvements will be evident in the buildings and grounds. The year 1913 will be a year of expansion."

Mayor Hocken said that changing the western approach to the grounds was a great improvement, and promised that the assistance of the city council would be given in improving the eastern entrance. The council should erect in the grounds a statue of the late J. J. Withrow, the founder of the exhibition. The mayor said he was very strongly in favor of this.

Three Ontario ministers, Hon. Dr. Pyne, Hon. W. H. Hearst and Hon. James Duff warmly congratulated the association and referred to the educational and recreation value of the fair to the people of Ontario.

Case for Provinces.

Hon. Wallace Nesbitt commenced the case for the provinces in the afternoon. Under the head of civil rights or matters of a local and private nature, Mr. Nesbitt considered the provinces had a right to say extra-provincial companies must conform, for instance of the eight hour law which will probably extend to the large stores, certainly in the mines and also in the factories, I think," and could prohibit trade until the regulations were compiled with.

"Isn't it in the power of the Dominion to veto any act of the provinces which interferes with its jurisdict on?" asked Justice Idington.

"They do not exercise it," said Mr. Nesbitt.

"It's in the constitution. Why don't they exercise it instead of asking us to read something into the act?" said the justice.

Mr. Nesbitt said he had been told by a high authority that the there might be things inimical in provincial legislation, the Dominion would not interfere, this being presumably because of the fact that the cry of provincial rights would be raised.

Power of Veto,

Sir Louis Davies said that the exercise of the power of veto was confined to legislation which, the intra vires, was objectionable on other grounds and the matter of ultra or intra vire was generally left to the courts to decide.

Mr. Nesbitt, resuming his argument, stated that he read the matter, stated that he read the matter, stated that he read the matter of ultra or intra vire was generally left to the courts to decide.

Below are reprinted two opinions on the important subject we are discussing this week. The first is that of the Bishop of London; the second, plotting and conspiring to commit outof Henry Van Dyke:

"I am now convinced that the uplifting of the morality of our people lies, above all and everything else, in educating the children, rationally and morally. I believe that more evil has minent men intolerable and thereby coercing the government."

Mrs. Pankhurst did not offer any defence today, declaring that she rebeen done by the squeamishness of parents who are afraid to instruct their by all the other agencies of vice put together. I am determined to overcome this obstacle to our national morality. I have not the slightest hesitation in saying that the right way has been found at last. SELLING WATER!

66 C ELL city folks water, they will buy it and pay you a fancy price for the privilege," said a speaker at a Farmers' Institute a few days

"I don't mean for you to water your milk, that is already eighty per cent. water, but sell radishes, lettuce and greens. City people are like the man who said, 'shoe strings I can do without, but a buzzum-pin I must have.' Any run-down piece of land, fit for nothing else, will grow this truck is kept well watered. "Water melons and musk melons are ninety per cent. water, strawber

ries ninety-seven per cent., celery ninety-five parts water, and for these kick-shaws that cost you nothing, you can get almost what you are a mind We are glad the farmer is awakening to the demands for fresh melons and succulent vegetables. We do want them-their dietetic value is

great. Mothers used to tell their children that uncooked vegetables induced fits, and that tomatoes made cancers, and melons brought on low fevers. Evidently the shadow of that belief is still abroad in the land.

Brave the men and women who first crossed the path of these tradi-While most of the foods that we eat without cooking are eighty per water, the remaining twenty per cent. of matter is invaluable It contains sugar and starch and a great amount of mineral salts. nerves and never the germs of disease. Strawberries may not build muscle, but for true goodness in the eating line, they lead the van. The great Linneaus first discovered they were a remedy for gout and sciatica, and the rest of us want nothing better than a pint of cream, a half a pint of berries and a slice of fresh brown bread. City folks do want these knick-knacks because they are tempting, appetizing and palatable.

Because they are thirst quenching and refreshing. Because they are nutritive and stimulating. On account of their salts, acids and flavor.

If there were not all these good reasons for a more general use of the different varieties of garden stuff and fresh fruits and ripe melons, the fact that they so greatly reduce the labor of cooking during the hot weather, should recommend them.

There has been such profusion of food products that we have neglected cleanse easily, vigorthese fresh growing things that are nature's choicest gifts. A demand for them decreases the amount of meat used and brings a reward of increased health and mental activity.

The sunshine is a good enough cook for the cliff-dweller of the city: and presevering and will succeed if it warms the natural juices and ripens the acids in the fruits and breaks to their needs. They should learn who are we to call ready to get foods, prepared by our common method. Who are we to call ready-to-eat foods, prepared by our common mother

ABOUT THIS BOOK

A few years ago Mr. Seymour Eaton wrote the most successful business books that were ever published in America. They sold into hundreds of thousands and were bought not only by the young men of that time but by the leaders and managers in every avenue of big business. Mr. Eaton has in his possession autograph commendatory letters regarding these earlier business books from JOHN D. ROCKE-FELLER, ANDREW CARNEGIE, THEODORE ROOSEVELT, JOHN WANA-MAKER and scores of others almost equally well known. A few months ago Mr. Eaton's publishers prevailed upon him to write A'NEW BUSINESS HAND-BOOK adapted to the needs of the young business men and young business women of today. That new book is now ready, and The World has secured exclusive rights of distribution in Toronto and vicinity.

WHAT THE BOOK CONTAINS This new book contains one hundred separate lessons each arranged for self-study: Lessons in business arithmetic, in banking, in business paper; a complete course in double-entry bookkeeping; lessons in correspondence and how to conduct business meetings; partnerships, stock companies, bonds and mortgages; lessons in everything required by the beginner in business, and hundreds of hints and suggestions for

EGLINTON SECTION

Car Line Proposal Helps -Deputation to Ask For Franchise.

A THREE-CENT FARE

Frontage on Old Belt Line Is Selling at Good Figures.

Property owners in the northwest outskirts of the city are more than ments that should mean the speedy upbuilding of the section are confidently anticipated. Prices are rising steadily under a very strong demand. Some of the largest land owners, tiring of waiting for the city to extend car service out to them, have raised sufficient money to build eight or ten miles of street car lines to serve and colonize the whole Eglinton avenue and Forest Hill district and to connect up with the Toronto Railway's Avenue road cars. The men behind the project are all landowners, who declare that if they get the right to build, the city can have the line any time at close to the cost of construction. They are willing to let the Ontario Railway Board arbitrate the payment. While running it they would use hydro nower. The reach of the confidence is the contained to the contained ment. While running it they would use hydro power. The people of the district affected appear in favor of the

on Tuesday morning the promoters On Tuesday morning the promoters will take a big deputation up to the Ontario Legislature when the right to construct the road will be asked for. The promotors declare that they are prepared to start the line as soon as they get the permission, and they would probably charge a three cent fare. They propose to run a line up Forest Hill road from Dunvegan road to Eglinton avenue, a line on Eglinton avenue west from Bathurst street to a point one mile west of Dufferin street, a two mile line up Bathurst street from Eglinton avenue, and a two mile line up Dufferin street from Eglinton avenue.

The proposal to build this system has occasioned quite a movement in real estate along the streets mapped out for tracks, and has been a further incentive to old belt line buying. It is realized that the giving of street car services to the district would result in the immediate erection of hun. sult in the immediate erection of hundreds of homes, settling at once the housing problem for the factories that have bought up sites or intend to locate along the old belt line. Frontage along the G.T.R.'s belt line tracks during the last few weeks has met with an unusual demand, and prices have naturally gone up. Some frontage west of Dufferin street has been age west of Dufferin street has been does go up at King and Bay street sold at \$40 a foot during the week, it will be for the bank.

Activity Continues Without Check—Corners Are Being Snapped Up.

North Yonge street goes on its merry way, making money for the people who got in before the present movement materialized, and making business for the real estate men, as well as paving the way for the early improvement of most of the vacant frontage on Yonge street in the northern suburb. Ald. Wanless has withdrawn his southwest corner of Egiindrawn his southwest corner of Eglinton avenue and Yonge streets. He has 120 feet, for which he was asking \$400

At an average of \$175 a foot, 120 feet south from Chaplin avenue and Yonge street have been sold. A local syndicate has bought one thousand feet of frontage on Duplex and Colin avenues, all of it north of Trammer avenue. This is part of the Chaplin property, and \$60 a foot was paid. On Chaplin avenue 300 feet was sold to an operator at \$125 a foot; he immediately sold out at \$135, and is now trying to buy it back from an Oakville man, the buyer.

The corner of Yenge and Snowdon was bought by F. W. Ackerman of Belleville for \$10,200, 75 feet by 110.

The corner of Golfdale and Yonge street was sold by R. B. Degurre for \$11,200 to a North Toronto man, 100 feet by 150.

The corner of Yonge and Brookdale was bought by R. B. Brown at \$12,-000, being 110 feet by 143.

MOVE DOESN'T MEAN **NEW BUILDING AT ONCE**

Baillie, Wood & Croft are moving from their one-storey office on Bay steet, at the rear of the Sterling Bank, over to the ground floor of the Imperial Life building on Victoria street, near King. The move, tho, does not intimate that there will be any great change in the corner of Bay and King streets. Baillie, Wood & Croft, who were cramped for space, have a two years lease on the property they are moving from, and the Sterling Bank have a like term to run. Well-informed men, who are usually on the informed men, who are usually on the very inside of what is going on in downtown circles, still cling to the idea that the Canada Life and the Bank of Commerce will "swap" coners, and that when a new buildi

DUPLICATE LINE

Mackenzie & Mann Are Preparing to Meet Hydro Competition.

Mackenzie and Mann, have filed plans at Ottawa for a duplicate two-power line from Niagara Falls, which,

in Pinero's latest comedy, "The 'Mind the Paint' Girl," the play she brings to the Princess Theatre March 10. In the big scene of this play Miss Burke proves conclusively that she is an actress of real power as well as of potent charm. Miss Burke impersonstes a London musical comedy star. She has two lovers—one of them a former army officer, who has given up what might have been a brilliant career to dance attendance upon her; the other is a decent young "sprig of the nobility." H. E. Herbert plays the exarmy man, and Shelley Hull the young lord. They all three come to-gether late one night, or rather, early one morning, in the actress' sitting-room, and have it out. It's a thrilling scene, and Miss Burke and the two men play it for all there is in it.
There is plenty of good comedy in the
carlier scenes of the play for those
who like that sort of thing, but that one scene is enough to make the play distinctly worth while to any one who likes real red-blood in their plays.

A new line will branch off the right of way down Jane street to the Lake Shore road, along to Sunnyside avenue and up to near the Roncesvalles avenue car barns, where a sub-station will be established. Two other storage sub-stations have been planned, one in the north and the other in the cast end of the city, and it is expected that enough power could be stored in these three stations to run the street railway cars for an hour and a half in case of accident to the transmission lines.

CATTLE MARKET **AGAIN EASIER**

Hog Prices Higher-Sheep, Lambs and Calves Very Firm.

Receipts of live stock at the Union Yards were 53 cars, 765 cattle, 1211 hogs, 198 sheep and 179 calves.

There were 765 fresh cattle that arrived on the market, which, with the 400 left over from Tuesday, made 1165 on sale.

Trade in fat cattle was dull and draggy with all classes easier and, aitho the number on sale was light, still there were quite a few left unsold at the close.

The top price for butcher cattle was \$6.66, and there were few lots reached \$5.50.

\$5.50.

Butchers.

Choice picked butchers sold at \$6.25 to \$6.50; loads of good, \$5.90 to \$6.25; medium, \$5.40 to \$5.75; common, \$5 to \$5.25 inferior, \$4.25 to \$4.75; cows, \$3 to \$5.25 for the bulk, but a very few extra choice, heavy cows sold at \$5.50 to \$5.60; bulls, common to choice, sold at \$3.75 to \$5.40; canner cows, \$2.50 to \$2.75.

Stockers and Feeders.

Stockers sold at \$4.50 to \$5.25, and feeders, \$5.30 to \$5.60.

Milkers and Springers.

The demand for milkers and springers was fairly good and prices ranged from \$45 to \$80 each.

Calves.

Rough, common eastern calves, 300 to 350 lbs., sold at \$4 to \$5; veal calves, medium to good, at \$7.50 to \$9; choice quality, calves, \$9.50 to \$10.

Sheep and lambs were again scarce and the demand was greater than the supply. Sheep, ewes, sold at \$5.75 to \$7.15 per cwt.; rams, \$5 to \$5.50; lambs, at \$9 to \$5.60 per cwt.

\$9.60 per cwt.

Hogs.

Receipts of hogs were light and not by any means equal to the demand. Selects, fed and watered, sold at \$9.35 to \$9.50, and \$9, f.o.b., cars, at country points. The bulk sold at \$9.40 per cwt.

Prices Hold on Steady Keel Thruout-Hogs Firm Under Good Demand.

MONTREAL. Feb. 26.—At the Canadian Pacific Live Stock Market the receipts of live stock for the week ended Feb. 22, were 1000 cattle, 900 calves, 1060 hogs and 125 sheep and lambs. The offerings this morning were 800 cattle, 220 sheep and lambs, 950 hogs and 600 calves.

The trade in cattle was slow and the supply in excess of the demand, consequently a weaker feeling prevailed. No disposition to operate was shown by buyers, they having sufficient beef on hand for the balance of the week. A few choice steers sold at \$6.75, but the bulk of the trading was done in cattle, ranging in price from \$6 to \$6.50, the lower grades selling from that down to \$4.50 per cwt.

The top price paid for the best cows was \$5.75, and the poorer ones brought from \$3.25 to \$5.50, while bulls sold from \$3 MONTREAL, Feb. 26.—At the Canadian

ORDINARY NON-SKID TO-DAY

Get To-morrow's Use

Features that apply not only the day you buy the tires—but six months after—are the only features you ought to pay for.

From To-day's Tires

With ordinary non-skids the tread is bound to wear smooth sooner or later—usually sooner—because there is no size to the non-skidding surface.

It is different with Dunlop Traction Tread. When you buy this tire you get the biggest anti-skidding surface in the world. The wear on Dunlop Traction Tread corrugations is but the slightest, and it's no greater in the centre of the tread than on the sides.

> Thus with Dunlop Traction Tread you get the benefit of the traction grip all the way down with the wear.

Therefore, you are still getting what you can get from no other tire what you paid for in the first place. It isn't sufficient that you look ahead when driving your car. Look ahead when buying your

"East is East and West is West," wrote Kipling, "and never the twain shall meet."

This briefly is the theme of "The Bird of Paradise," a romantic drama of Old Hawaii, which will have its first local presentation at the Alexandra Theatre on Monday.

It has been said that "The Bird of Paradise" is more beautiful and more unusual than the far-famed "Garden of Allah" for it has for its background a locale heretofore unexploited.

If you are a lover of a rip-roaring comedy-fun from beginning to end-don't miss seeing William A. Brady's laugh-play which comes to the Grand next week, with Walter Jones and the New York Company, It was a fore-

gone conclusion that clean comedy of the legitimate type, after lying dormant for several seasons, would come to life again and fasten liself upon the good opinion of theatregoers even more forcefully than it ever did before. In proof of which may be cited "Baby Mine," said to be the runniest play ever written, with a record of a year in New York, eight months in Chicago, and nearly two years in London. Cure Your Sore Throat Nerviline Will Do It

Blessed Relief Comes Quick, Pain Disappears.

"Experience has taught me that the quickest way to cure a sore throat is with Nerviline," writes Mrs. Enoch P. Maclean. "My children always seem to get wet feet and stay out in the cold, and in consequence I have to keep a good household remedy handy. I rub in Nerviline almost every hour, give the children say twenty drops in hot sweetened water, and make them relief for it, and is also an instant relief for it, and is also an instant relief for it, and is also an instant relief for internal pains of any kind."

From the La Have Islands, N.S., Mrs. John Walfield writes: "We have been using Nerviline for about nine years, and find it excellent. When we find any of us getting a cold we take Nerviline in hot water. It is a sure relief for it, and it also an instant relief for internal pains of any kind."

out of the rut, and make a break for much higher levels.

Outside of the upturn in Brazilian and a three point advance in C. P. R., our market in reality accomplished very little. It was, perhaps, significant that bids on some of the specialities were raised a trifle, but it was noticeable thruout that the buying power was limited, and the paucity of transactions did not occasion any surprise on that account. The dealings in Brazilian involved over 2000 shares, the largest volume of sales in a long time, and represented about three-quarters of the total trading.

Some Weakness Shown.

Early cables reported higher prices for Brazilian in London, and at the opening here the shares brought 95, a full 3-4 up above the previous close. The top level of the day, reached in the final sale at 95 7-8, was the highest figure in exactly a week. It was reported that there was considerable short covering on the raily. C. P. R. reached 232 7-8 in New York. Other firm spots here were Steel of Canada, which sold at 24½, and Canners, which recovered to 73. Spanish River dropped 1 1-4 points to 66, and Maple Leaf

Some of the Specialties Show Weakness—Brokers Deplore the Money Stringency.

Sentiment was much more cheerful in financial circles in Toronto yesterday, a turn for the better in London and a smart rally in the New York Stock Exchange inspiring a more hopeful view of conditions. In the market the favorite securities scored a good recovery under the lead of Brazilian, which moved up nearly two points for the day. Brokers again deplored the scarchty of ready money for speculative purposes, for, had it been possible to finance operations, the list would undoubtedly have gotten out of the rut, and make a break for much higher levels.

Outside of the upturn in Brazilian and a three point advance in C. P. R. our market in reality accomplished very little. It was, perhaps, significant that bids on some of the special-lies were related to the promaton of the Southern New England. If this guarantee can be secured I am assured and assure you there would be no difficulty in securing the necessary funds to complete the Southern New England Rallway. I believe the state in granting this guarantee will take no risk whatever. It has been estimatgranting this guarantee will take no risk whatever. Mexican Light and Power sold at 74, a full 5½ points under the previous sale. Winnipeg Electric lost another fraction at 211 1-4.

The strength of Huron and Erie Loan, which sold up to 218½, a full 8½ above the last previous sale, attracted considerable attention. An increased dividend is being talked of on "the street."

Wheat Prices Given Upturn in Consequence—Corn Strongly Supported.

CHICAGO, Feb. 26.—Wheat today howed considerable strength, an out-ome largely of rumors that export ales had been made from Omaha and

come largely of rumors that export sales had been made from Omaha and Duluth. The close, tho easy, was 1-8 to 1-2c up. Corn finishes at a net advance of 3-4c to 1c; oats with a gain of 1-2c to 5-8c, and provisions unchanged to 2 1-2c higher.

Firm cables gave wheat an upward tendency from the start. Argentina crop estimates were reduced 15,000,000 bushels because of disappointing returns from threshers; the yield for India was declared to be under the average, and there were despatches telling of scarcity of milling grades in both Russia and England. Additional snow and rain putting the U.S. winter wheat belt in almost perfect condition, failed to stop the upturn, as belief that a natural export level was not much under present prices appeared sufficiently general to check selling pressure. A slight reaction at the close, however, came about thru assertions in some quarters that rumored Duluth export sales could not be confirmed.

Aggressive support by leading buils forced the corn market to bulke They

mail.

In provisions a break due to larger receipts of hogs disappeared under the influence of grain strength and good commission demand.

European Markets.

The Liverpool market closed ¼d to ¾d lower of corn. Paris closed ¼c lower.

LIVERPOOL GRAIN EXCHANGE.

LIVERPOOL, Feb. 26.—The firmer feeling at the close in New York yesterday caused the market to open steady, unchanged to %d higher. Following the opening there was some covering by shorts and prices further advanced on reduced estimates regarding Argentine crop and a better demand for Plate steamers, which are more firmly held. There is an improved demand from millers. Reports from India are favorable while advices from Russia are unfavorable as to freezing and thawing and their scarcity there of millable wheat.

Corn opened steady, unchanged, but later the American grade was advanced on the firmness in the American southwest markets and a better demand for spot.
