S. gun boat Annapolis. They said one British and four Americans were reported to have been killed. The United Sugar Co. plants had been looted and other American interests had suffered, they said.

POLLUTION OF RIVERS UNDER EXAMINATION

International Waterways Commission to Study Detroit Stream in January.

By a Staff Reporter. OTTAWA, Nov. 17.—The joint international waterways commission will hold a session at Detroit on Jan. 4, when the members will personally study on the spot the problem of the pollution of the Detroit River. The commission is making an inquiry into the whole question of pollution of the boundary waters and engineers of the board at the present time are making a survey of both the Detroit and Niagara Rivers, now polluted by the cities of Detroit, Windsor, Walkerville, Buffalo and Niagara Falls, with a view of presenting a solution. This meeting will be ready for the January meeting.

SHIP WHICH CONVEYED KING SUNK BY MINE IN CHANNEL

Eighty-Five Men Lost in Destruction of Hospital Ship East Anglia—Three Hundred Officers and Men Rescued by Patrol Boat.

DOVER, Nov. 17, 11:15 p.m.—The hospital ship Anglia, with about 300 wounded men aboard, in addition to the crew, nurses and attendants, found from France for Dover, struck a mine in mid-channel today and sank in a very short time. Nearly 100 men, most of them seriously wounded, and therefore in their coats, lost their lives. The collier LULLAHNA, which was nearby at the time of the accident, immediately went to the assistance of the Anglia, and her boats had just been lowered when she also struck a mine and foundered. All her crew were saved.

FOREIGN BOND BUYERS ESCAPE INCOME TAX

British Loans Will Be Facilitated by Granting of Exemption.

LONDON, Nov. 17, 8:45 p.m.—In the house of commons today, on the motion of Right Hon. Edwin Samuel Montagu, member for Cambridgehire, a new clause was added to the finance bill empowering the treasury to free from the income tax all foreign holders of future loan issues, whether made here or abroad. Mr. Montagu explained that when the Anglo-French loan was issued in New York such a provision was found necessary in order to attract investors. The imposition of the income tax in the past had proved a serious bar to obtaining foreign subscriptions to loans. Mr. Montagu added, and by granting all foreign holders similar exemption the government had been assured that foreign subscriptions to future loans would be greatly increased.

AEROPLANE ATTACK UPON ETERNAK CITY?

Despatch Doesn't Make Matter Clear, But Little Harm Was Done.

ROME, Nov. 17.—The Stefani News Agency has sent out the following despatch: "This morning at 8 o'clock an Austrian aeroplane appeared over the city and dropped five bombs. Only one exploded, slightly wounding five persons. No material damage was done."

FRENCH HURL BULGARS BACK ON CERNA NEAR KRIVOLAK

Enemy Lost Four Thousand Men in Three Days' Conflict With French Whose Casualties Were Slight.

PARIS, Nov. 17.—An official statement tonight says: "On Nov. 15 the Bulgarians abandoned their attack against our front on the left bank of the Cerna, towards Krivolak. They withdrew on the Archangel Heights, to the north of the Village of Cioevo, leaving behind many bodies. After three days' fighting the Bulgarians have lost 4000 men. Our losses were slight. "To the north of Rabrovo we bombarded an enemy convoy which was proceeding in the direction of the Bulgarian town of Strumitza."

GREEK SHIPPING RESTRICTED BY BOTH BRITAIN AND FRANCE

No Fresh Loadings of Merchandise Will Be Permitted by Port Authorities.

LONDON, Nov. 17.—With regard to the reported embargo on Greek ships in British ports, the Greek legation here says Great Britain has consented that all Greek ships loaded, or loading, may proceed to their destinations, but that no fresh loadings will be permitted to their destinations. A Havas despatch from Marseilles says the government has ordered the port authorities to accept no further shipments of merchandise destined for Greece.

SHIP WHICH CONVEYED KING SUNK BY MINE IN CHANNEL

Eighty-Five Men Lost in Destruction of Hospital Ship East Anglia—Three Hundred Officers and Men Rescued by Patrol Boat.

Another official statement says: "King George was shocked to hear that the Anglia, which so recently conveyed him across the channel, had been sunk. His majesty is grieved at the loss incurred, but trusts that the survivors have not unduly suffered from their terrible exposure." The collier LULLAHNA, which was a vessel of 1835 tons, was built in 1902 and was owned by J. J. Hall & Co. of London. The British steamer Tenebris, also reported sunk, was a vessel of 3836 tons and was owned by the Hain Steamship Co. of St. Ives, England. She was built in 1906. The loss of the Anglia is believed to have been due to mines which broke from their moorings in the recent storm. Four British ships are named Anglia. The one sunk is probably the former London and Northwestern Railway Company's steamer of 1862 tons gross. She was built at Dundee in 1900 and was 329 feet long. The 85 men lost were probably wounded soldiers.

GERMAN FLOTILLA ON WAY TO NORTH SEA?

Twenty-Five Torpedo Boats and Large Cruisers Off Swedish Coast.

LONDON, Nov. 18.—A despatch to the Exchange Telegraph Co. from Copenhagen, dated Wednesday, gives a report that a flotilla of 25 German torpedo boats and a big cruiser passed Helsingborg, on the southwest coast of Sweden, at 6 o'clock in the morning, proceeding at high speed northward. Helsingborg is at the northern entrance to the Sound, which separates Sweden and Denmark. Vessels passing Helsingborg and proceeding north would enter the Cattegat, which leads by way of the Skagerrack into the North Sea.

THREE MORE ITALIAN STEAMERS WERE SUNK

Cirene, Scrivia and Gani Were Victims of Hostile Submarines.

GALVESTON, TEXAS, Nov. 17.—Officers of the Italian steamship San Giovanni, which arrived here today from Genoa, report the sinking of three Italian steamers in the Mediterranean Sea, which have not been mentioned in official despatches. The steamers were the Cirene, Scrivia and Gani. All were victims of hostile submarines, the officers report. The Cirene was a vessel of 2228 tons and the Scrivia 2418 tons. Available records do not show the Gani, which is said to have been a coasting ship.

DICK MILITARY LAW BACKED BY LABOR

Citizen Soldier Scheme Favored by American Federation at Frisco.

SAN FRANCISCO, Nov. 17.—Unanimous endorsement of the Dick military law, certain provisions of which provide for the regulation and reorganization of the National Guard, was given by the American Federation of Labor, at its 35th annual convention today. The executive council's report on the law was adopted in full. In part it says: "Our American traditions are wholeheartedly positive against the maintenance of a large standing army. We think it can be safely and emphatically stated that only a small percentage of the American people favor the maintenance of a large standing army. We express our belief in the need of a small standing army, to be supplemented by a citizen soldiery, democratically organized and controlled, so as to prevent either the small standing army or the larger supplements and its units, to be used for or by any special privileged class, either at home or abroad."

TORONTO ELECTRIC ASKS REDUCTION

Appeals Against Paying Tax of Seventy-Five Thousand Yearly.

COMPETITOR ESCAPES

Consequently, Counsel for Light Company Wants Assessment Reduced.

Claiming that it pays \$76,000 per year, or \$3 per horsepower, taxes to the city, whereas its competitors pay no taxes, the Toronto Electric Light Co. yesterday asked the court of revision to reduce its assessment of \$1,500,000. D. L. McCarthy, K.C., representing the company, placed the value of the company's plant on the streets of the city at \$2,250,000, but declared that under the judgment, giving the city the right to remove the poles, the poles, wires and other overhead services were practically valueless. In valuing the underground structures, he thought that the court should consider the fact that the company was competing with the Toronto Hydro Electric system, and that their taxes amounted to about \$3 per horsepower, when amount would increase as their business decreased.

Chairman Drayton remarked that the company might never have to take down its overhead system.

"That is the trouble, that is the question the court has to face," said Mr. McCarthy, in reply.

Would Hurt Sale.

Mr. McCarthy further urged that the selling price of the plant would be considerably lessened by reason of the amount of taxes that had to be paid when the competing company paid none, and Mr. Drayton agreed with him that no one would pay the same price for the equipment with a tax against it as they would if there were no tax.

Last year the assessment of the company's plant on the streets was \$1,249,644.

The company also asked for a 50 per cent. reduction in the \$29,000 assessment of its transformer station at Davenport road and Huron street, claiming that in the event of the overhead service, which it feeds, having to come down, the station would be worthless except as scrap.

Commissioner Ardagh pointed out that if the rights were taken away they would come back next year and ask for an allowance. Mr. McCarthy admitted that the original cost of the plant was \$45,000, and that it was still in operation. The assessment was made on it as a going concern. Judgment was reserved in both instances.

An assessment of \$600 per foot on property owned by the Toronto Harbour Commission on Lake street has been confirmed by the court of revision. J. P. Palmer pays on a valuation of \$15,000 per acre for property on Lawton avenue. A business assessment of \$5229 appealed by G. W. Gowinlock was confirmed.

CITY LAUNCHES SUIT FOR RAILWAY EARNINGS

Toronto Railway Company Refused Payment Because Roadwork Bill is Unpaid.

A suit has been launched against the Toronto Railway Company for non-payment of the city's percentage of the company's earnings for May, the latter having refused to pay because the city would not pay a bill of \$74,000 for roadwork and the removal of rails. The city offered to pay \$52,000, the amount of the accounts passed by the city council, but the Toronto Railway Company refused to accept same, insisting on payment of the whole amount.

As a result the board of control authorized the treasurer to sue for the percentage, which is payable under an agreement, in addition to payment for the work, the company also claims payment for some work done in connection with the Queen street high level bridge at the Don.

BOSTON WOULD LEARN FROM TORONTO NURSE

Dr. Hastings, Medical Officer of Health, Receives Request for One.

Dr. Hastings, medical officer of health, has received a request from Boston for the loan of one of the health department nurses to instruct the health department of that city as to the system of generalized public health nurses that is in vogue in this city, the only place on the continent where there are not special nurses for each disease.

In his report to the doctor points out that by having generalized nurses there is considerable economy, as many visits are saved and the possibility of overlapping entirely eliminated. The local board of health has approved the sending of Miss Forsythe, who will be paid by the Bostonians.

CITY HALL NOTES

The Lansdowne avenue car line matter comes up today.

A room in the city hall will be allowed the Red Cross Society for a meeting.

A building permit has been issued to the Toronto Hosiery Company, 1106 West Queen street, for the erection of an \$1800 addition to its factory.

Men of the fire department, up to a reasonable number, will be allowed to enlist. The acting chief will be conferred with first, however.

Ald. McBride's statements in council on Monday were leveled against the report of the Social Survey Commission and not the Social Service, as stated.

Laying of the corner-stone of the new administration building, of the board of education will take place some day this week. The site is on College street, near McCaul.

Reports of the vice commission will soon be as scarce as a unanimous opinion regarding a fire chief. Mayor Church has ordered that no more copies be given out.

Instructions to voters in connection with the coming municipal election will shortly be sent out by the assessment department. Thirty extra clerks will be required to do the work.

Toronto will pay an extra rate of insurance on the old General Hospital. This will amount to \$250. The insurance company demanded it owing to the fact that it is being occupied. The hospital board refused to pay it.

Residents of Toronto now overseas on active service will in all probability be given a Christmas dinner at the expense of the city. The question came before the board of control yesterday and was referred to the committee.

A building permit was yesterday issued by the city architect to the trustees of St. Michael's and All Angels' Church for the erection of a \$28,000 church building on the southeast corner of St. Clair and Brimley avenues.

Controller Thompson would honor the memory of Edith Cavell by having a bronze bust of the late nurse placed in the city hall. The suggestion was favorably received at the meeting of the board of control yesterday and will be acted upon.

ANOTHER ITALIAN SHIP SUNK.

ROME, Nov. 17.—The Italian passenger ship *Bormida* has been sunk by a submarine. All on board are reported to have been saved. She was returning to Italian ports from Tripoli and was attacked off the Sicilian coast, supposedly by an Austrian submarine. The *Bormida*, 2522 tons, was owned by the Societa Italia di Servizi Marittimi. Its home port was Venice.

REVENUE RAISED BY SAVING LIFE

Medical Officer of Health Gives Some Interesting Figures.

CITY VITAL STATISTICS

A Person Thirty-One Years Old is at Prime of Life.

In his monthly report to the local board of health, Dr. C. J. Hastings, medical officer of health, gives the average net money value of a person from childhood to old age. The figures are based on a fixed minimum value for human life, and the probable future earning power, less the cost of maintenance in the unproductive periods of childhood and old age.

A baby is valued at \$90.00, the remainder of the table being as follows:

5 years of age \$ 850
10 years of age 2000
20 years of age 4000
30 years of age 4100
40 years of age 3900
50 years of age 2900
60 years of age 700

According to these figures a person is at the prime of life when 30 years of age, which would upset the generally accepted theory that a man is at his best at about 45. A person who has reached 50 years is decidedly on the down path, and from that time on the falling away is apparently rapid.

Taking these figures as a basis the report goes on to show that the difference in the death rate per thousand in 1915, as compared with 1910, represents the saving of human life effected by expenditures on public health. Prevention of typhoid ever meant a saving of \$840,000; scarlet fever, \$10,500; diphtheria, \$145,300; tuberculosis, \$642,700; infant conditions, \$49,100; the total saving of lives in 1915, as compared with 1910, being \$1,782,600.

These figures do not take into account funeral expenses, which are estimated to average \$200; the total amount saved on account of deaths prevented being \$23,700. Nursing and other attendance is estimated to cost \$60 per day, and the prevention of disease according to the foregoing table represents a saving in this direction of \$128,800. The saving in loss of earnings thru sickness was \$116,130, and the total money savings in 1915, as compared with 1910, are given as \$2,199,720.

Money Values.

From these figures the value of the department of public health is given. The increase in expenditure in 1915, as compared with 1910, was \$206,318, and this amount being subtracted from the money value of human lives saved, and the saving in nursing and attendance, and loss of earnings, leaves a credit balance of \$1,992,800; a profit on the extra money invested in public health of \$206,318.

It will be noted that in preparing the figures only five conditions were taken into consideration, this being done so that the departments might not be accused of taking credit that could not be taken as its due. If the whole improvement, however, had been taken into consideration the total saving in 1915 would be \$2,470,000.

The death rate per 1000 of population for October is given as 9.5, as compared with 11.9 a year ago, and 12.6 in 1905; the highest being in 1909, when it was 13.7. During the last ten months of this year there were 4502 deaths, as compared with 4824 in the same period of last year. Of these the cause was the cause of 44 pneumonia and broncho-pneumonia 38, and tuberculosis 37. Diseases of the stomach were responsible for only 6.

During the month the death occurred of 94 children under one year old, not including 87 still-births.

FIRE CHIEF FARCE STILL ON BOARDS

Scene Abruptly Ended by a Member of the Cast.

FOSTER ON THE JOB

Only Member of Board of Control Left When Discussion Ended.

Another scene from the popular travesty drama entitled "How Toronto Did It" was enacted yesterday with committee room No. 2, Toronto City Hall, as the stage, and three members of the board of control as principals. The plot was deep laid, so deep, in fact, that its solution did not take form, and also the audience was permitted to see "as thru a glass, darkly," the ghost at the end of the play, the same was obliterated when one of the principals rang down the curtain unexpectedly. Controller Thompson "kissed the quorum."

Minor matters having been disposed of, the mayor opened with "the next order of business concerns the appointment of a fire chief." From this line Controller Thompson takes his cue. He says: "In all fairness to your absent colleagues, this should not go on. We should not take advantage of the absence of Controllers O'Neill and Spence."

Enter one Foster, a controller: "This is more important than the business either is on."

Controller Thompson: "According to reports, Judge Denton's report will be ready very shortly."

Nominates Smith.

Mayor (vainly struggling to further the file): "I nominate Smith at a salary of \$4500."

Controller Thompson: "If you want to be discourteous, I can't do anything—rises slowly from his chair as if to leave it—while—"

Mayor: "The business of this city has to go on whether members of the board are here or not."

Controller Thompson finishes getting out of his chair, heads for the door—the quorum is broken.

Mayor Church (grieved at the unexpected): "There'll be no more meetings of this kind, I can't go the impossible. It's more than any man can do to attend so many meetings of typhoid fever, diphtheria, business, he rises, takes his hat, follows Thompson.)

Controller Foster: "Well, I'm alone now."

Curtain.

Reaching The Mark
Established 1847

The field guns of seventy years ago were sadly lacking in power as compared with the ordnance of to-day, and artillery marksmanship which was then largely guess-work has been reduced to a science of deadly accuracy. Modern Life Insurance is no less scientifically calculated to go straight to its object. One of its most modern and effective forms is the Canada Life Monthly Pension Policy. That policy, while protecting your life in the meantime in favor of your dependents, ensures that your own declining days will be spent in the ease and comfort of your own home. It shares in the surplus earnings of the Company and is thus a splendid dividend-earning investment. Let us send you an explanatory booklet. SEND SMALL PARCELS TO CANADIANS DIRECT

War Contingent Association Gives Instructions to Friends of Soldiers.

LONDON, Nov. 17.—The Canadian War Contingent Association asks that Canadians who are sending small parcels for individual Canadian soldiers at the front, see that they are properly addressed to the persons for whom they are intended, and forwarded by parcels post direct.

An increasing number of separate parcels has lately been forwarded thru the association, but such parcels if sent by post direct would reach their destinations much quicker than if forwarded thru the association by freight mixed with general comforts.

The association is prepared to receive and distribute cases containing parcels for soldiers in any particular unit. Parcels for different units must be packed in separate cases, and each should show on the outside the unit it is intended for, so that it need not be unpacked. The cases must not exceed 56 lbs. gross weight, and when received they will be despatched to the officer commanding the unit for distribution.

Dominion Postoffice Department Makes Official Announcement of Change.

By a Staff Reporter.

OTTAWA, Nov. 17.—It is officially announced today that the postoffice money order business between Canada and Switzerland has been resumed. The business was shut down shortly after the opening of the war, for fear of money going thru to Germany. It is presumed that Great Britain made arrangements with Switzerland which insures against any such eventuality.

MEASLES UNDER CONTROL IN NORWAY DISTRICT

There Has Been Unusual Number of Cases, Says Dr. Alex. MacKay.

When asked yesterday regarding the report that there had been an epidemic of measles in the Norway district about two weeks ago, Dr. Alex. MacKay, chief medical examiner for the public schools, stated that while there was an unusual number of cases in the district, the situation was now well under control. He denied the report that a number of rooms in the Norway School had been closed on account of the disease.

Dr. Hastings, M.O.H., says that there are many cases of measles all over the city and that he was not aware that there were more cases in the Norway district than in any other portion of the city.

RETURNING SOLDIERS AS MUNITION INSPECTORS

Controller Thompson Thinks Employers Should Favor Such Applicants.

Controller Thompson stated at the board of control meeting yesterday that the position of inspector at munition plants in Toronto would be very good work for returned soldiers and that they were not being given the jobs. He believed the board should intimate to employers that these men should be favored.

Mayor Church promised to take the matter up at once.

Mayor Church and the Strike

We trust that Mayor Church has no intention of playing politics in connection with the hydro-electric strike.

Their only complaint was about conditions which, in their case, are better than those of most employees in the city.

These facts can be established at the conference which has been called for tomorrow.

There never was a time when discussion was more needed, and if Mayor Church can evince discretion now it will strengthen him quite as much as if he turns and renounces the principle upon which public ownership rests in Toronto.

Bracing Up on the War

If the allies are beaten in the war, or compelled to accept a premature peace, which would amount to being beaten, then the nations will have to endure another generation of preparation for such a war as will make the present one look like a sham fight.

MUST DOFF HATS IN POLICE COURT

"Take it Off or Get Out," Magistrate's Order to Soldier.

ORDER NOT EFFECTIVE. Officer's Control Ceases When He Enters Court, Says Cadi.

Magistrate Ellis in the police court yesterday settled one and for all time the question of whether or not a soldier has the right to wear his hat in the police court.

The trouble arose when the magistrate noticed six soldiers seated at the back of the court with their hats on.

Inspector Gregory told the men their hats could not be worn, but they refused to remove them, and then the magistrate said that the court was no place for an argument, and for them to either take off their hats or get out.

"I said either take off your hat or get out," hurled Magistrate Ellis a second time at the captain.

"Get out or get put out," came back the magistrate, and the captain executed a left turn and submitted to the ruling of the court.

Later another soldier entered with his hat on and was met with "take that hat off," from the magistrate.

"I can't sir, I'm on duty," replied the soldier.

"You'll remove that hat or else you'll take a trip downstairs," continued his worship.

Again the soldier said he could not remove the hat as he was on duty for the King.

"Take that hat off," roared the magistrate, losing patience.

Still the man in khaki was unshaken, and said that it was against orders as his officer outside had told him not to remove it.

"I want to tell you that his orders are not effective in this court, and they cease to bind you when once you enter that door," was the magistrate's reply as the soldier complied with the order.

NEW YORK, Nov. 17.—The Herald reports the arrival on the Saxonia of Lieut.-Col. R. H. Ryan of the Canadian contingent in Flanders. In an interview he said:

"It was only a couple of days before I left that I was thrown out of a trench by a 'Jack Johnson' or a 'cool box,' and for 11 hours was unconscious. I had 30 days' leave of absence, and decided to come to New York, where I passed a great deal of my time before the war, and which I left to go to Canada when I decided to go to fight. It has been in the Boer war the Russo-Japanese war and other fights."

The 60th Montreal Battalion, 40 officers, 1024 men; balance of the First Fortress Company (Engineers), 23 men; Second Fortress Company three officers, 189 men; civilian practitioners for Royal Army Medical Corps, six details, four officers and 19 men.

WILLS PROBATED. Probate of the will of his brother, Ferroux J. Clemens, a traveler, who died in this city November 8, 1915, has been applied for by R. E. Clemens of Providence, R.I.

The estate is valued at \$11,195, and R. E. Clemens is named as executor of the estate. He is to receive \$500 and the income of the estate is to go to deceased's wife, Edith Clemens for life, or until she is married again.

On the death or remarriage of the widow the estate will be equally divided by deceased's brother and sister, Mrs. F. M. Medcalf.

Mrs. Frances Hutcheon, a widow who resided at 69 Vermont avenue, left an estate worth \$4725. In addition to household goods valued at \$500, the testatrix left \$2000 in mortgages, promissory notes \$100, cash \$36, clothes \$25, and an equity of \$940 in 69 Vermont avenue. Her ten children will share in the estate.

Voluntary Training. Vocational training was discussed, and Commissioner Henderson feared there might be some opposition from the unions.

Commissioner Nickle of Kingston declared that this was not probable, as it would be only occasional instances where a man was totally disabled from following his old work.

In any case, somebody pointed out, the men who stayed at home should be the last to have a kick coming on a matter of that kind.

"Public opinion should be educated to the point of giving returned soldiers first consideration in employment."

CHURCH UNION

Now will ye have church union, ye who hold Or used to hold our confidence and hope?

Just look about you; every little village is beset—at least—by five cock robin churches—

I dearly used to love to hear you singing A slightly volume of fine melody.

We're not divided, all one body we. I fancy that there's bats up in your steeple.

We're not subdivided—in a thousand squads. The truth is out, once on a time 'twas hidden.

None listen to the "Separated Brethren." The Injun tribes would rather slug each other.

Than fight as one the common enemy, The fierce Iroquois tomahawked his brother.

The splendid Huron—a mad fool was he! The painted Blackfoot rarely got the right man.

We're on a level with the late lamented Sitting Bull and—what's his name?— Crazy Horse.

Upon my soul I think that we're demoralized. We're plainly bughouse and we're getting worse.

Our faith it tells about a lake that sizzles. Poor Sitting Bull—he had no hell in his.

You're always rushing to the legislature. Instead of to the Blessed Nazarene; It plays is the politician's nature.

Now will ye have church union, ye who hold Or used to hold our confidence and hope?

Now will ye have church union, ye who hold Or used to hold our confidence and hope?

CANADA WILL NEVER REQUIRE CONSCRIPTION

Hon. Robert Rogers So Declared in Address at Vancouver.

VANCOUVER, B.C., Nov. 17.—Conscription will never be put into effect in Canada, according to a statement made by Hon. Robert Rogers, in an address before the Canadian Club here yesterday.

"If there is one thing of which we in Canada are more proud than anything else," said the minister, "it is the right and complete lack of necessity for conscription within the borders of this Dominion. Our men have shown, and are showing, that they are ready and willing at all times, and we are proud that the day will never come in Canada when it will be necessary to have conscription."

HOLDS LEASE WAS BROKEN. The action of Frank Greenwood against Walter Ray for damages for alleged eviction from a farm he had leased from the defendant in Georgia, has been dismissed by Judge Coatesworth.

The plaintiff had a seven-year lease, but in 1913 bought another farm and moved to it. He stated that he intended to work both places, and left property valued at \$400 on the Ray farm. The defendant claimed that moving off his farm and putting a chattel mortgage on his property were good grounds for breaking the lease.

UNIFORM BUILDING LAW FOR WHOLE DOMINION. Object is to Reduce Great Annual Fire Loss in Canada.

OTTAWA, Nov. 17.—The Dominion of Canada may soon have a general building bylaw to cover all the provinces and to maintain uniformity in construction.

The Dominion Conservation Commission is taking up the matter in an effort to reduce the great annual fire loss in Canada. It has asked the chief architects of a number of the chief cities of Canada to give their opinions of what such a national building bylaw should contain.

disarmed and interned, and unquestionably this point is being discussed in Paris by the British and French ministers.

Athens Acclaims Cochins. The British Government has taken further action by the issuance of an order that no Greek vessel except those loaded or loading, may proceed to their destinations, while Denys Cochins, member of the French cabinet, who was given an enthusiastic reception at Athens by the municipal authorities and the people, is expected to express very firmly the French view of what is considered the unsatisfactory reply of Greece to the entente powers' request for the safe conduct of both Serbian and allied forces should they be compelled to retire into Greece.

Kitchener in Gallipoli? Lord Kitchener, the British war secretary, who it has been stated, was to back M. Cochins, is now reported in Gallipoli, also, according to rumor, King Constantine expressed a wish to see him.

Like Italy and France, England now demands that Greece shall either join the allies or translate her benevolent neutrality towards the entente into a clear declaration that she stands on the ground of neutrality towards the allies should they be forced back over her frontier, and that she will afford further facilities for the landing and transport of allied troops.

ROUMANIA APPARENTLY PREPARING FOR WAR

All Materials Necessary for Defence Are to Be Requisitioned.

MILAN, Italy, Nov. 17, via Paris.—A despatch from Bucharest to The Corriere della Sera says that the official journal, the Roma, has issued a decree authorizing the minister of war to requisition immediately all things and materials necessary to the national defence, the articles enumerated comprising metals, wearing apparel, medicines, dials, machines for military supply factories, craft of all kinds for river traffic, railway material and combustibles. Tradersmen are required to declare what they possess of these things and also of other prime necessities.

This is taken, says the newspaper, as an indication that Roumania sees the impossibility of maintaining her neutrality much longer.

SOCIETY

Conducted by Mrs. Edmund Phillips.

Lady Hendrie will receive this afternoon from four to six o'clock at Government House, College street.

The Australian Cadets gave a very popular variety entertainment last night in Massey Hall, when, thru the courtesy of the T. Eaton Company, the scenery and certain which will be used on Saturday for the Christmas play was put in place for the Australians.

Admiral C. E. Kingsmill, who represents the British admiralty at Ottawa, met the flying students of the naval air service in Toronto yesterday afternoon, and announced that the British authorities had definitely decided to complete the training of the 150 men in England. The students will be taken to England to complete their aviation work in drafts of 15 and 45 of them will be taken before the new year.

It is thought that all who have signed on for the naval air service will be taken overseas by sometime in March. After that, no more men will be listed in Canada for the naval branch of the flying service.

The batches of twelve to be sent to England will be picked out in the order in which they have joined the aviation school.

As many of the men will have to stay in Canada until sometime after the new year, Admiral Kingsmill made the offer that those who wished may board the steamer at Halifax and take a part of their training there, such as signal work. The pay, he admitted, would be small, but he pointed out that this work would have to be taken up somewhere, anyway.

Regarding Back Pay. Regarding the question of back pay, the admiral explained that \$125 a day will be paid to aviators for every day over seven weeks since starting the course, the amount to be reckoned from the present date backward.

This pay will be stopped when the current school closes, but the students were informed that if they so wish they can complete their qualification in any United States school, and it will be recognized by the overseas authorities.

Staff Appointments. Appointments for the staff of Lt.-Col. Kingsmill's overseas battalion, the 123rd, announced yesterday, were: Major C. A. Boone, to be second in command; Lt. R. S. Northcote, to be adjutant; Sgt.-Major Donald McHugh of the Grenadiers, to sergeant-major.

Seventy-two enlistments totaled 17 yesterday, being the same number as the previous day last week. During the first three days of this week 382 have joined the colors.

Col. W. A. Logie stated yesterday that he may not buy drinks at the clubs outside of the "between 5 and 8 o'clock" rule. The order, he said, applied to the sergeant, whether officer or in the ranks.

The Australian Cadets paid a visit to Exhibition Camp yesterday afternoon. They marched into the grounds headed by their five brass bands. Major Church went with them and escorted them to the camp.

The American Battalion. Headquarters for the 37th "American" Battalion, have been located in the military offices at 215 Simcoe street, until the regiment is completed and transferred to the barracks at the camp.

Major Clark aims at making the 97th a crack regiment. It will be disciplined on high standards and will be sent to the States regular forces, which is said to be just as high as in the British forces.

The members of the Sunshine Circle made \$697 at their two days' bazaar in the Pavyona, and wish to take this opportunity of thanking the ten girls who did so much for its success in their faithful services.

Mr. W. J. Bell, C.E., and Mr. J. W. Menary, A.E., are leaving for France on January 4th.

FINISH TRAINING IN THE OLD LAND

Admiral Kingsmill Makes Definite Announcement to Aviators.

Canadian Jews, since the outbreak of the war, have done many things to prove their loyalty to the British Empire and an additional proof of this fact was evidenced at the first Canadian Jewish conference held on Sunday, Monday and Tuesday of this week in the Gayety Theatre, Montreal.

At the session on Monday the chief speaker was Dr. Levine, and he asked that the Jews of Canada raise \$20,000 for the alleviation of the sufferings of the Jews in Palestine. This was about to be introduced as a motion when H. Marcus of the University Avenue Synagogue, Toronto, moved that the money should be collected but kept in Canada until the conclusion of the war.

The latter pointed out that it would not be in keeping with the patriotic resolutions passed at the opening session of the conference. Palestine formed a part of a country that is an enemy of Britain, and they would be guilty of high treason in sending the contribution which, although it would have to alleviate the sufferings of their compatriots, might possibly be appropriated by the Turks and used for war purposes.

The mistake was soon realized, and the resolution carried unanimously.

These facts were given out very regrettably by Rabbi Price when interviewed by The World yesterday afternoon on his arrival from Montreal.

"Where there any resolutions adopted which would indicate the feeling of the delegates at the congress as to the present war?" he was asked.

Replete With Patriotism. Mr. Price replied that the conference was replete with patriotic speeches and resolutions and at the opening meeting a motion by which the whole company swore allegiance to the King was enthusiastically endorsed. He said that the delegates who numbered about three hundred represented every province in Canada.

The Toronto members appointed to the executive committee were L. Gurtofsky, A. Gurtzman, L. Levinsky, Edmond Scheur, Leo Frankel, B. Cooper, M. Gelber, B. Stone, Rabbi S. Jacobs, and Rabbi J. J. Price.

L. Levinsky, Charles Alderman, Singer, J. Ramm and Mrs. J. Selig were elected members of the Zionist council.

Levy and Price, of Toronto, were added to the list of standing rabbis as members of the council.

A resolution by which the members of the conference on behalf of Jews in the country will request the federal government to urge that equal citizenship and equal rights be granted to the Jews in all the countries of Europe was carried.

Among the other prominent people present were, Hon. A. Meighan, solicitor general, who represented the government and delivered a patriotic address; Alderman Boyd and Rubenstein of Montreal; Louis D. Brandels, the prominent Massachusetts lawyer; Jacob De Haas, a Goldberg, and Rabbi Ashkinazy of Pittsburgh.

CHRISTMAS FESTIVAL of the ALLIES

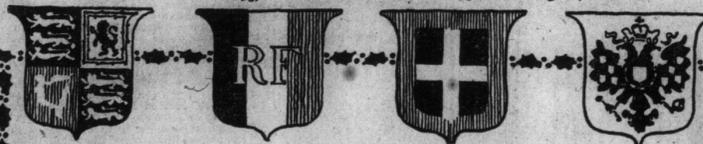

Opens today on our Fourth Floor. Great preparations have been made to make this floor GIFT HEADQUARTERS FOR TORONTO. The selection of new Christmas merchandise here displayed will be a most unusual revelation in value-giving so early in the Christmas season.

FOURTH FLOOR

During the past year or so, more Canadians than ever before have been brought into touch with Europe, and this is a very good reason why Simpson's Christmas Festival should have such interesting European features as magnificent stage settings of the four capital cities of the Allies—London, Paris, Petrograd, Rome.

London

How many Toronto people have visited all four capitals of the Quadruple Entente? At the Christmas Festival of the Allies on the Fourth Floor, you can make a flying visit to these four cities in a very few minutes.

A great many people will rejoice to see Old London, with such familiar landmarks as St. Paul's and the Tower. Others will be fascinated with the night view of Paris and the magnificent cathedral of Notre Dame. Rome, "mother of dead empires," is there, too, with the huge Colosseum in the middle distance, and St. Peter's dome, far away. Last of all, Petrograd, an unknown city to most of us, with its battlements and bulb-like towers.

Make it your business to take this grand tour of the Entente capitals early Thursday morning. It's a very impressive spectacle!

Paris

On the Tables in the Avenues

The wide aisles in this Allied Festival will be named after London, Paris and Petrograd streets, corresponding to the city represented at the southern end of each. These three avenues will be crossed by the Via Roma, running east and west, with a grand panorama of Rome at its western end.

On the tables in the avenues will be found the following merchandise:

STERLING SILVER MOUNTED ARTICLES, 15c EACH.

One thousand seven hundred and eighty-eight pieces in this assortment, including Candlesticks, 4 1/2 inches high; Hat Pin Holders and Ring Stands and Vases in pretty decorated china, with rosebud and violet decorations. Every piece sterling silver mounted. Special, each 15 (Fourth Floor)

HANDKERCHIEFS.

We are prepared to "Handkerchief" every man, woman, boy and girl in Toronto, and the kiddies also.

For Women — Four Swiss Corner Embroidered Handkerchiefs, 1/4-inch hemstitch border; each kerchief has embroidered in the corner a pretty floral spray or a wreath (different patterns). These handkerchiefs are mounted on card, folded, and with small bow or narrow colored silk ribbon in pink, sky, and mauve; four handkerchiefs on card, for 29

For Men — Belfast linen, full size, 1/4-inch hemstitch border; every thread linen; even threads; good wearing qualities; five in Xmas Greeting Box, for 50

BOYS' HANDKERCHIEFS — Mercerized, white with colored borders; blue, tan, mauve, pink, navy and green; splendid wearing handkerchiefs; soft finish; all ready for use. Special Thursday, four for 25

MEN'S HANDKERCHIEFS — White Irish lawn, 1/4-inch hemstitch border; satin stripe border inside of hem; full size; fine, even thread. Special Thursday, four for 25 (Fourth Floor)
