SEVEN LIVES LOST IN EXPLOSION AT WINNIPEG

Two Firemen and Five Onlookers—One, Leo Bluet, a Napa-ran, Are Dead, and Other Die, as Result of Incendiary in Sash Factory.

WINNIPEG, Man., March 10.—(Can. Press.)—Seven persons are dead, one or more are possibly fatally injured, and a number suffered more or less serious injuries as the result of an explosion which followed an outbreak of fire in the rear of the Radford Wright Co., Limited, wholesale sash and door factory, 776 Main-street, shortly after 10 o'clock last night.

Captain Dewitt and six of his men of fire hall No. 3 were training hose on the back of the building, where the fire, supposed to be the work of an incendiary, had started in a lean-to annex, when, without warning, the back wall and the great doors opening on a spur track, were blown out, the little party going down in the wreck and ruin, which caught and overwhelmed several spectators and passersby.

Dead and Injured. The dead: E. Molyneux, fireman, No. 3 fire hall, caught by explosion, back broken, and died in St. Boniface Hospital shortly after midnight; Charles McPherson, fireman, No. 3 hall, caught by explosion and instantly killed; Walter Rowley, teamster, caught by explosion; Leo J. Bluet, bartender at Manor Hotel, caught by explosion while passing; Charles Chapman, aged 12, caught by explosion; Clarence Winkler, employe Canadian Pacific Railway dining car department, fell thru glass roof of passenger terminal;—Connolly, Canadian Pacific Railway employe, killed by explosion or a live wire.

The injured: R. G. McDonald, fireman, No. 3 hall, fractured thigh and internally injured; condition serious; Chas. Schram, fireman, No. 3 hall, hand injured; J. McCann, fireman, No. 3 hall, injured, but not seriously; F. Grant, spectator, injured by flying glass; Tony Schlosky, scalp wound, not serious.

REPORT UPHOLDS BISHOP FALLON

Le Pays, Which Formerly Condemned Attack on the Bilinguals, is Converted by Dr. Merchant.

MONTREAL, March 10.—(Special.)—Le Pays say that, after all, the brutal campaign of Mgr. Fallon of London against the bilingual schools of Ontario is justified by the report just presented by Dr. Merchant, and in Mr. Langlois' sarcastic vein he says the "first people in the world," have received another black eye.

Le Pays says the report is made in a very impartial manner, yet the brutal facts are there that the French-Canadian schools of Ontario are much inferior to the English schools.

"How is it that we cannot have better schools? Here in Quebec the inferiority of our schools is most patent. We are always claiming separate schools, yet we are their worst enemies.

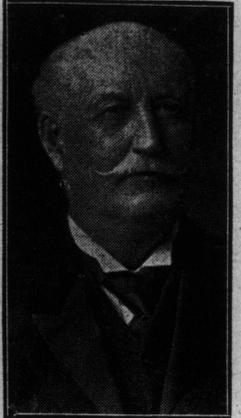

"If, for instance, they were abolished in Manitoba, and are being attacked in Ontario, it is because they are greatly inferior to the others.

"When Mgr. Fallon began his campaign against the bilingual schools, our compatriots of Ontario protested against the assertions of the Bishop of London, yet to-day they are obliged to admit that Mgr. Fallon was right in more than one point," says Le Pays.

The above is all the more significant as Le Pays condemned very severely Mgr. Fallon at the time.

MISS GORDON'S PEARLS.

There will be a notably gaily opening at the Princess Theatre to-night when Miss Kitty Gordon, the beautiful English prima donna, appears in this city for the first time in the brilliant new Victor Herbert comic opera, "The Enchantress." She will wear this evening her famous gown of gold and her huge rope of pearls and her pearl earrings, which are said to be the largest in the world. Miss Gordon has just received these jewels back from Larocox, the eminent pearl expert, who has spent several years in bringing back their old-luster lustre.

W. J. GAGE.

NEW HOSPITAL FOR LITTLE CHILDREN

W. J. Gage Gives \$60,000 to Build and Equip a Building at Weston, Where Children Suffering From Tuberculosis Will be Cared for—Accommodate Fifty at Opening.

Thru the generosity of W. J. Gage and the National Sanitarium Association, a new hospital for tuberculous children is to be erected on the grounds of the Weston Sanitarium. Arrangements have been completed for breaking the sod and commencing building operations without delay. The cost of the new building will be approximately \$60,000, and will provide accommodation for fifty children, with provisions for enlargement from time to time in the future.

The splendid new structure is to be situated near the ruins of the infirmary, which was demolished in the disastrous fire which occurred there a few years ago.

The announcement of the magnificent donation has been received with joy by the people who are especially interested in the splendid work being done at the Weston Sanitarium for suffering humanity.

Scores of little children are already being cared for in the free hospital for consumptives, but the accommodation is entirely inadequate. The new building will be up to date in every particular.

SLEPT TOGETHER WALLET GONE

James West of Montreal Charged With Stealing Money From W. Boulter of Picton.

James West of Montreal and Wellington Boulter of Picton were bed-fellows in the Walker House Saturday night, and now West is in the toils charged with theft, the information laid by Boulter. It is alleged that West made off in the early morn with \$4 in bills and a collection of foreign coins which had been placed in a wallet under Boulter's pillow.

They were strangers when they met, but owing to all the rooms in the hotel being occupied, they agreed to sleep together. The police have not recovered the wallet and West professes innocence in the matter.

MARRIAGE LAW BEFORE SUPREME COURT

OTTAWA, March 10.—(Special.)—Tomorrow there will be presented to the supreme court the stated questions on the subject of the marriage law which have been drawn up by the government. E. L. Newcombe, deputy minister of justice, will present the case before the court.

It is not expected that there will be any argument to-morrow. The judges will simply fix a date when the questions can be heard. Wallace Nesbitt, K.C., and Eugene Lafleur, K.C., will represent the Dominion side of the case, and I. F. Holmuth and P. Mignault, K.C., the provincial side.

BAFFLED HENRI STIRS LEGIONS TO WRATH

'Twas a Large Rally at the Monument National, and Leader's Attacks on Monk, Pelletier and Nantel Found Sympathizers—Resolutions Allege Perfidious Dealing.

MONTREAL, March 10.—(Can. Press.)—The inalienable rights of minorities in all parts of Canada to have separate schools was the message sent forth in the form of a resolution unanimously adopted at a mass meeting of French Canadians held last night at the Monument National.

Altho the opening speakers declared that the gathering was not to be one of protest and that there were to be no diatribes, Henri Bourassa, the chief orator of the evening, took strong exception to the attitude of the Hon. Messrs. Monk, Pelletier and Nantel.

It was not sufficient, he declared, for these gentlemen or their followers to point to Sir Wilfrid Laurier and the Manitoba incident of 1896 to justify themselves. Two wrongs did not make a right, and even granting that Sir Wilfrid had betrayed his compatriots in the Manitoba matter, this could not be urged as an excuse to cover the members of the present government in the betrayal of the rights of a French Canadian minority.

Hooted Cabinet Ministers. There was a huge crowd present and attacks upon the government "which was about to betray the rights of the French Canadian minority" caused constant roars of applause. The mention of the names of Monk, Pelletier or Nantel brought storms of hooting until finally Mr. Bourassa arose and stated that it would perhaps be well to withhold such violent denunciation until the bill had passed its third reading and the final attitude of the ministers in question had been more fully debated and explained.

Mr. Armand Lavergne also spoke. Somewhat of a sensation was caused by C. H. Guite, who declared that, if the rights of the minority were about to be violated, the French-Canadians had only themselves to blame for it, as Laurier, by the Greenway precedent, had inserted the thin edge of the wedge, yet they had ever since continued to give him magnificent support at the polls.

The resolution adopted reads: "The Northwest Territories have been acquired, administered and developed with public funds taken from the federal exchequer and contributed by Canadian ratepayers of all races and creeds."

In 1875 the principle was laid down, by the parliament of Canada, that throughout the length and breadth of those territories, the minorities, either Catholic or Protestant, would be entitled forever and as a matter of right, to separate denominational schools.

"That principle was acknowledged and confirmed either in whole or in part, in the Yukon Act and in the laws creating the Provinces of Alberta and Saskatchewan."

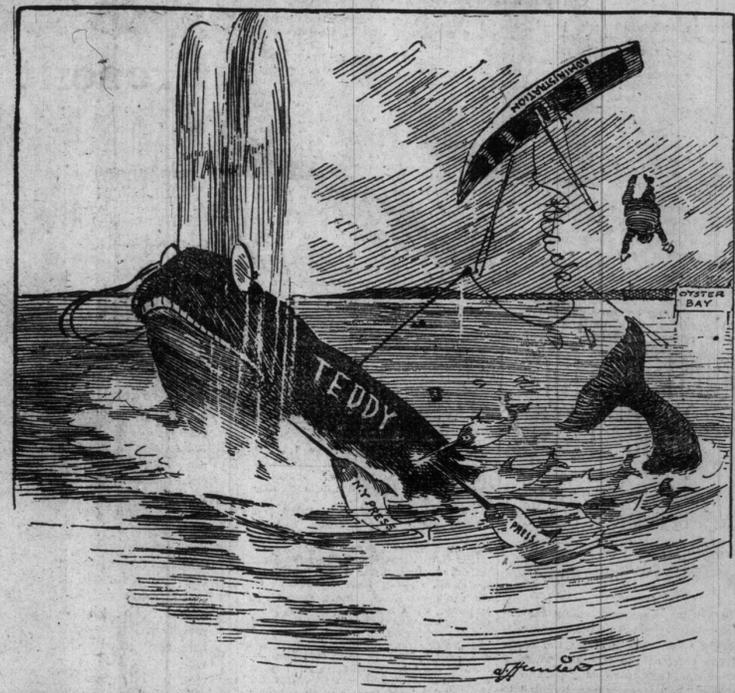

TELEGRAPHER BOAL ACROSS THE BORDER

In Letter Sent to His Mother Before Flying Departure He Admits Fatal Error.

OTTAWA, March 10.—(Can. Press.)—Hervy Boal, the telegraph operator upon whom the Canadian Pacific R.R. placed the blame for the fatal train wreck at Hill, has got away to the States. Tracy has been lost of him at the upper lake, New York. He drew money from the bank immediately after the crash, hired a rig and drove to Russell Station, on the New York and Ottawa line, and took a ticket to Cornwall. There he bought a ticket to Tupper Lake, after which there is just how no trace of him.

The missing man sent a letter to his mother by the man who drove him to Russell from Hill. It was addressed to her at Pakenham, Ont., stating he was responsible for a wreck which had killed three people and he feared punishment for it.

A WHALE OF A TIME.

WOMEN SLAVES OF INDIAN MEN

Slow Progress in Vast Empire Due to Four Causes, Says Rev. H. M. Abraham.

"Woman is the slave of man in India," said Rev. H. M. Abraham, at Trinity Church, East King-street. In giving a description of the conditions in the mission field from his personal observation, he gave four reasons for the slow progress of India towards modern civilization and Christianity. They were the diversity of languages, the caste system of dividing the population, the wrong idea of woman's proper station, and the despotism of the Brahmin priesthood, who endeavored to frustrate efforts for the education of the people.

HAMILTON BABY WAS SCALDED

Four-Year-Old Girl Sat in Pail of Water Which Was Left for Her Bath.

HAMILTON, March 10.—(Special.)—In the death of John Quigley, a laborer, aged 27 years, whose bruised body was found in an outhouse at the rear of 251 Wellington-street north, at 9.29 this morning, the police suspect foul play. According to physicians, the man, when found by John Coston, had been dead for many hours. When Coston tried to open the door it was locked on the outside, and when it was smashed in Quigley was found squeezed on the floor, lifeless.

An inquest, which was opened this afternoon, disclosed the fact that there was a large bruise on his arm and the skin was scraped, and the left knee was also badly bruised. Other parts of the body were in normal condition.

It has been learned that Quigley left the Norton Manufacturing Co., where he was employed, early Saturday afternoon. He met two men, Alex. Clark and David Gillinman. They were all indulging in intoxicants. They left Quigley late in the afternoon. No one could be found who saw Quigley on Saturday night.

MCMAMARAS UNWELL

J. B. Who is Serving Life Sentence Dying From Tuberculosis. LOS ANGELES, March 9.—J. B. McNamara, serving a life sentence in San Quentin Penitentiary, is dying from tuberculosis, and J. J. McNamara, his brother, serving a fifteen-year term, is in poor health, according to Malcolm McLaren, a Burns detective, who today returned from a visit to the prison.

JAMES D. McDONNELL DEAD

BROCKVILLE, March 10.—(Special.)—The death occurred here of James D. McDonnell, a well-known customs broker, in his 70th year. Deceased was son of Col. John McDonnell, who commanded a regiment of the Dundas militia in the war of 1812, and was present at the capture of Ogdensburg, N.Y. Mr. McDonnell was a cousin of Sir R. W. Scott, Ottawa, former secretary of state. His wife is the only survivor.

BRUISED BODY LOCKED IN A SHED

John Quigley, a Hamilton Laborer, Was Found Dead, and Police Suspect Foul Play—One Arm and Knee Were Badly Bruised, and He Had Been Dead for Hours.

HAMILTON, March 10.—(Special.)—In the death of John Quigley, a laborer, aged 27 years, whose bruised body was found in an outhouse at the rear of 251 Wellington-street north, at 9.29 this morning, the police suspect foul play. According to physicians, the man, when found by John Coston, had been dead for many hours. When Coston tried to open the door it was locked on the outside, and when it was smashed in Quigley was found squeezed on the floor, lifeless.

An inquest, which was opened this afternoon, disclosed the fact that there was a large bruise on his arm and the skin was scraped, and the left knee was also badly bruised. Other parts of the body were in normal condition.

It has been learned that Quigley left the Norton Manufacturing Co., where he was employed, early Saturday afternoon. He met two men, Alex. Clark and David Gillinman. They were all indulging in intoxicants. They left Quigley late in the afternoon. No one could be found who saw Quigley on Saturday night.

The enquiry into the peculiar circumstances in connection with the man's death will be resumed some time during this week. Quigley was unmarried and roomed at 333 Emerald-street north.

TORONTO DEFEATED HAMILTON

HAMILTON, March 10.—(Special.)—Toronto Central defeated Hamilton Central in a basketball game last night by 39 to 28, and thus put the local team out of the running for the Canadian championship.

CARPET WORKS LOSE BY FIRE

Six Thousand Dollars' Damage Caused by Blaze in Canadian Carpet Co.'s Dufferin St. Plant.

Damage amounting to about \$6000 was caused by a fire which broke out in the basement of the building occupied by the Canadian Carpet and Comforter Company, 340-376 Dufferin-st., on Saturday afternoon. A telephone alarm was sent to the fire department at 4.40, and when the west end sections arrived the blaze had gained a good start. The fire originated from a defective wire and ignited bundles of material used for carpets and pillows. Owing to a difficult task in smothering the blaze, the damage to the building is figured in the neighborhood of \$500, and the contents were destroyed to the extent of \$5000 or more.

NORTH TORONTO REGRETS ACTION

Feels Aggrieved at Private Bills Committee for Refusing to Remedy Assessment Inequalities.

At a special meeting of the North Toronto Council, held on Saturday night, the following resolution, introduced by Councillor Ball, was submitted and unanimously adopted. The significance of the action is found not alone in the unanimity manifested, but the added fact that out of the seven members composing the council six are affiliated with the Conservative party: "Resolved that this council on behalf of those whom it represents feels aggrieved at the action of the private bills committee of the Ontario Legislature in refusing to remedy the assessment inequalities which exist in this as in other municipalities of Ontario, and also in not recognizing the iniquity of allowing Yonge-street, the main King's highway in the province, to be used for all the purposes of a steam railway. That the council also regret the non-support of the government. That a copy of this resolution be sent to Premier Whitney and the other members of the government."

NIAGARA FALLS BUILDING RECORDS

NIAGARA FALLS, Ont., March 9.—Niagara Falls this year easily expects to break its record for building operations. Permits issued last year amounted to \$248,000, and already there is enough work in sight to guarantee that figure being exceeded this year.

AMUNDSEN HOPES SCOTT REACHED SOUTH POLE

Briton May Possibly Have Reached Goal Before Him, But There Was No Indication—Lots of Hard Work, But Lack of Adventure on Trip.

(Copyright, 1912, by The New York Times Co. All rights reserved. From a Special Correspondent.)

HOBART, Tasmania, Sunday, March 10.—Capt. Roald Amundsen received me to-day, and not only materially added to the information already cabled by him respecting his journey to and from the south pole, but also discussed the question of whether it is likely that he was preceded by his English rival, Capt. Scott. He said: "I saw no traces whatever showing that Capt. Scott had been at the pole, but it is possible that he had been there and had left some unsubstantial memorial which had afterwards been destroyed by the storms.

"The chances, however, are heavily against this theory, for during the three days that I was there the weather was calm and still and I think that is the prevalent condition. There was nothing but the vast level plains of snow, and hence there was no possibility of erecting a permanent cairn of stones.

Hopes Scott Succeeded. "The season was very favorable, and therefore it is exceedingly likely that Capt. Scott did reach the pole later, if not sooner than myself. I most sincerely hope he did arrive there, for he well deserves success.

"In my sledge journey to the pole, a new plan was tried. At first the expedition daily traveled fifteen miles in five hours, then spent two hours eating and in feeding the dogs, and then we attempted to spend the other seven hours in sleep. This period of rest was found to be too long both for the men and the dogs, and a new plan was tried. This was to march fifteen miles in about six hours, spend two hours eating and attending to the dogs, sleep six hours and then breakfast and march again. This accounts for the remarkable speed of over twenty miles a day attained on the return journey.

Pole at High Elevation. "The greatest difficulties of the expedition were caused by the heights encountered. During the latter part of the journey to the pole, we spent nearly six weeks at great elevations, which sometimes reached 16,000 feet. The pole itself is at an elevation of 10,500 feet. When we were working hard, great difficulty was experienced in breathing at these heights, and we panting and struggled for breath.

"With regard to food, we had full rations all the way, but full rations are a very different thing to having as much as a man can eat. There seems little limit to one's eating powers when doing a hard sledge journey. However, on the return journey we had not merely full rations, but as much as we could eat from the depots after passing 86 degrees.

Delicious Dog Meat. "The first dogs were eaten on the journey to the pole in 85 1-2 degrees, when 24 were killed. In spite of the fact that they had not always been able to obtain full meals, the dogs were fat and proved most delicious eating. It is anything but a real hardship to eat dog flesh.

"Two skuja gulls were seen at 84 1-3 degrees. A small cairn had previously been erected as a mark to guide us on our return, and just when we had left this the gulls came flying past and alighted on the cairn.

"Three of the best dogs deserted the party at 83 degrees. We had killed a female dog at 82 1-2 degrees, and the dogs went back, searching for her. This caused us great anxiety, for it was feared that the dogs would pillage the depots, on which the party depended. When we returned to 83 degrees, after being at the pole, we saw fresh tracks around the large snow cairn used as a depot there. Curiously enough, the pemmican in the depot was untouched.

Attacked Food Supply. "Traces of the dogs were followed to 82 degrees, where the female dog had been killed. They found the body, which was placed on the top of a heap of snow as a food reserve for the party, and, having eaten it, the dogs had gone to the depot at 82 degrees, where a large number of cases were piled up. They had got at one of the cases of pemmican and had not only eaten that, but had also eaten the leather straps and other indigestible articles. They had also eaten two dogs, which we had killed and left for food at this depot.

"Eleven dogs survived the whole journey and safely reached the Fram 1 and my four companions on the pole party kept the Christmas festival in the high mountains, not a great distance from the pole. The feast consisted of an extra allowance of biscuits cooked in a porridge, a pool of melted snow.

Continued on Page 2, Column 1.

OVERCOME BY GAS
MAN DIES IN
SEWER

Fellow Workmen Recover
John Weller's Body as it
Floats Past Trap— Was
Working on Roncevalles
Avenue.

While working in a trunk sewer on
Roncevalles-avenue about 1.15 Satur-
day afternoon John Weller, aged 27,
residing at 31 West King-street, was
overcome by gas and fell into the sewer
in an unconscious condition.

George Biggar, 31 King-street, who
was working with him, managed to
crawl out of the excavation and inform
comrades of the accident, but when
the men rushed into the sewer Weller
has disappeared.

A sewer trap, about 50 yards farther
down the street, was opened, and the
body of the man was caught as he
floated thru the trap. He was carried
into the Roncevalles car barn, and
Dr. Duncan, Hart and Poynter were
soon on the scene, but all efforts to
resuscitate Weller were in vain. The
gas in the sewer had been strong
enough to asphyxiate him.

It appears that the two men were
laying a branch sewer and had cut
a hole in the trunk to make a connection.
The gas which immediately issued over-
powered Weller and he fell thru the
hole before his comrades could get as-
sistance.

The body was taken to the morgue,
and an inquest will likely be held.

AMUNDSEN HOPES
SCOTT REACHED POLE

Continued From Page 1.

substitute for the abundance of the
Norwegian Christmas, but we enjoyed
it heartily.

Little Adventure.

"On the return journey we had not
a single day's rest. We did not even
rest on Christmas day, but passed on
day after day, thru all weathers. There
was little that was adventurous about
the trip, but it was very, very hard
work.

"I attribute my success to my splen-
did comrades and to the magnificent
work of the dogs, and next to them to
our sleds. The splendid condition of the
dogs on landing in the Antarctic was
due mainly to the precautions taken on
the Fram. In order to keep the dogs
in good health while crossing the tropics
a special double deck plank had been
fixed above the deck of the Fram with
a space several inches deep, left for
the circulation of fresh air. This de-
vice was constructed before leaving
Norway, and in the hot weather sleds
stretched above kept the dogs always
in the shade. As a result little trouble
was experienced with the dogs, which
landed fit for work.

Fat After Trip.

"Of real hardships in the way of food
on the pole journey there were none.
Rather the reverse, for when my com-
panions reached the ship they were al-
most fat, and could not eat as much
as when they started. The dogs, too,
were fat, and they had lived well dur-
ing the last part of the journey, as
shown by the fact that they worked
hardly touch the seal meat which was
lying in large quantities about the
base of the camp.

"Washing was a luxury never in-
cluded in on the journey, nor was
there any shaving, but as the beard
has to be kept short to prevent ice-
forming from one's breath, a beard
cutting machine which we had taken
along proved invaluable.

"Another article taken was a tooth
extractor, and this also proved valu-
able, for one man had a tooth which
became so bad that it was absolutely
essential that it should be pulled out,
and this could hardly have been done
without a proper instrument.

New Bird Species.

The party which explored King Ed-
ward VII. Land reported seeing a bird
of a new species. They are certain of
that, as they got close to it and saw it
distinctly.

"I have been most gratified to-day
to receive hearty congratulations from
King George.

"Before sailing to Buenos Ayres, I
have arranged to go on a month's lec-
turing tour in Australia. From
Buenos Ayres I intend to make my
way to the Arctic via Behring Strait,
thus carrying out my original pro-
gram."

More than 100 telegrams of congrat-
ulations were received at Hobart yester-
day by Capt. Amundsen, fifty being
delivered to him in one bundle.

FIRE RECORD.

SASKATCHEWAN SOON TO HAVE
RAILWAY LINES TO HUDSON BAY

And One or More May Be State Owned, Says Acting
Premier Calder—Wants Boundary
Question Reopened.

REGINA, Sask., March 10.—(Can.
Press).—Communications between the
provincial government and the Ottawa
government continue to pass relative
to Saskatchewan's claims to access to
Hudson Bay, and on Saturday Acting
Premier Calder despatched the follow-
ing telegram to Premier Borden in re-
sponse to Premier Borden's wire of last
Thursday, setting forth the position
taken by his cabinet towards the
claims put forth by the Scott govern-
ment.

"To Hon. R. L. Borden, prime minister,
Ottawa:

"Your telegram of 5th inst. received.
The Government of Saskatchewan does
not now and never did consider the
resolution of 1905 and Sir Wilfrid Laurier's
statement referred to in your
telegram as a final disposition of
Saskatchewan's claims to Hudson Bay
territory. In point of fact, notwithstanding
said resolution, conferences
have been going on since your govern-
ment assumed office with other gov-

ernments concerned, thus showing the pro-
posed settlement of 1905 was not con-
sidered final by you.

Demands Right of Way.
"I again urge justice of Saskatchewan's
claims upon your consideration
as set out in our memorial and my
telegrams. As to access given Ontario
to Fort Nelson, I note that press de-
clarations state that your government
has declared its intention to transfer
to western provinces the public domain
within their respective limits. In that
case if your government has finally
decided not to give effect to our claims,
set out in our memorial, at the very
least the question of right of way
should be settled now. Owing to in-
crease in our population and in our
grain production our people have a di-
rect interest in Hudson Bay ports. Be-
fore long it is likely that several rail-
ways will be built to the bay, one or
more of which may be state owned."
(Signed) J. A. Calder,
"Acting Premier."

BOOST PAY OR
LOSE POLICE

Commissioners Confronted
With Departure of High Up
Men, and Prospects of
More Withdrawals.

Salary increases will occupy the at-
tention of the board of police commis-
sioners when they meet in the office
of the chief at the city hall Tuesday
afternoon. Inspector Cuddy goes to be
chief of the Calgary force, tempted to
leave this city after long years of use-
fulness, but still at his highest effi-
ciency by the greater salary held out
by the smaller western city. Alex
Yeats, secretary to Inspector of Detec-
tives Duncan, goes with him as his
secretary, and leaves for the same rea-
son as his superior. There have been
many desertions from the ranks for
the reason that the salaries paid in
the Toronto force are considered as
competitive against either the emolu-
ments offered in other trades or occu-
pations or for the police job in other
places.

The inspectors have banded them-
selves together to urge upon the board
the urgent need of a "raise" in view
of the increased cost of living and
higher qualities of service required now
that the city has grown to be a sure
enough metropolis and in view of the
salaries paid for similar work in other
cities. It would appear as tho it were
the clear duty of the board to do some-
thing by way of boosting the annual
pay envelope of Deputy Chief Stark,
who turned down the glittering offer
of Calgary to stick to the old ship, and
Inspector of Detectives Duncan, who
acknowledged claim upon the ground of
service well done and being done. In
fact there is no branch of the service
which is not seeking and does not need
a "raise in pay."

Had marvellous escape.
"I was standing on a plank directing
operations," said Capt. Dewitt, "and
a miraculous escape, McPherson and
Molyneux being killed at my feet,
while not a man else of our squad es-
caped unharmed. Tons of bricks and
boards fell around us. The men were
caught without a chance to escape."

Big Crowd Gathered.

A big crowd gathered when the alarm
went in, but were for the most part
massed about the entrance to the sub-
way in front of the building, which
situated between the International Har-
vest Co.'s big warehouse on the south-
west corner of Main and Sutherland,
and the Stuart Machinery Co.

Smoke was issuing from the lean-to
at the back, but until the explosion
came the firemen appeared to have the
situation under control.

For a time it was a question whether
the adjoining buildings could be saved,
but the stout fire walls proved sufficient,
and with the help of the high pressure
plant the brigade had the situation
under control shortly after midnight,
the neighboring buildings remaining un-
harmed, except for a considerable loss
from water and smoke.

Work of Firebrigade.

A firebug undoubtedly was the cause,
those terrible chest troubles and diffi-
cult breathing can be thoroughly cured
with Catarrhose. You simply breathe
the healing vapor of Catarrhose, and
instantly its rich balsamic fumes are
carried by your breath, into the thickest
part of your lungs, into the bronchi,
bronchial tubes and lungs.

Just think of it—a direct breathable
medicine, full of soothing anesthetic
pine essences, that reaches every sore,
inflamed, congested, and raw part.
No drugs to take—nothing to harm or
sicken the stomach, because Catarrhose
is the purest, most delicate cough, cat-
arrh and cold remedy ever devised.

"For many years," writes Richard Mc-
Callum, Stirling, Ont., "I have suffered
from Catarrh, and continually coughed
and coughed, so that my throat was al-
ways in an inflamed, irritable condi-
tion."

"Doctors' medicine did not help me
in the least, and all the other remedies I
used were quite useless. In the case
it was time wasted in snuffing powder
up the nose, the other using a great
amount, and so on. Not one of them
did me the least bit of good."

"I heard Catarrhose favorably
spoken of, and tried it. Really it bene-
fited me more in a few hours than
years of treatment with doctors, and
other so-called remedies."

Get Catarrhose to-day. Large
size costs \$1.00, and last 50 cents.
Smaller size 25c and 50c. All dealers,
or Catarrhose Company, Buffalo,
N.Y., and Kingston, Ont.

Doc Amole Dead.
WILMINGTON, Del., March 9.—George
Amole, better known as "Doc" Amole,
formerly pitcher for the Baltimore, Buff-
alo and Providence Clubs, and well
known through the east, was found dead
at his boarding house, Monday.
His home was at Coatesville, Pa., but
he came to Wilmington recently. Con-
gestion of the lungs was given as the
cause.

SEVEN LIVES OST AT
EXPLOSION AT WINNIPEG

Continued From Page 1.

serious; Antonio Naranuo, spectator,
fracture of skull, internal injuries, may
die.

Napaneese Man Among Dead.

McPherson, whose father lives in
Edinburgh, Scotland, was aged 29, and
had been three years in the depart-
ment. Molyneux, who had but recently
joined, was aged 24, and a native of
Listowel, County Kerry, Ireland. Of
the other fatalities, Bluet, aged 23, of
Napane, Ont., and engaged to a Win-
nipeg girl, was passing when caught
by the explosion. Rowley was assist-
ing the firemen. Winker, aged 21, is a
son of Mr. and Mrs. F. Winker, 577
Strathcona-street, this city, having
been born in North Dakota, and for
three years past had been in the em-
ploy of the Canadian Pacific Railway
dining car department, recently being
promoted to the secretaryship of the
head of the department.

Standing on the glass platform on top
of the steel and glass roof covering
train shed watching the blaze, which
lay just below him just north of the
subway on Main-street, he stepped for-
ward thru the glass to his death on
the pavement below.

Connelly, a Canadian Pacific Rail-
way employe, appears to have been
struck by a falling wire on top of the
roofs, parents live at 125 Patrick-
street, was found this afternoon ac-
cidentally dead.

Had marvellous escape.

"I was standing on a plank directing
operations," said Capt. Dewitt, "and
a miraculous escape, McPherson and
Molyneux being killed at my feet,
while not a man else of our squad es-
caped unharmed. Tons of bricks and
boards fell around us. The men were
caught without a chance to escape."

Big Crowd Gathered.

A big crowd gathered when the alarm
went in, but were for the most part
massed about the entrance to the sub-
way in front of the building, which
situated between the International Har-
vest Co.'s big warehouse on the south-
west corner of Main and Sutherland,
and the Stuart Machinery Co.

Smoke was issuing from the lean-to
at the back, but until the explosion
came the firemen appeared to have the
situation under control.

For a time it was a question whether
the adjoining buildings could be saved,
but the stout fire walls proved sufficient,
and with the help of the high pressure
plant the brigade had the situation
under control shortly after midnight,
the neighboring buildings remaining un-
harmed, except for a considerable loss
from water and smoke.

Work of Firebrigade.

A firebug undoubtedly was the cause,
those terrible chest troubles and diffi-
cult breathing can be thoroughly cured
with Catarrhose. You simply breathe
the healing vapor of Catarrhose, and
instantly its rich balsamic fumes are
carried by your breath, into the thickest
part of your lungs, into the bronchi,
bronchial tubes and lungs.

Just think of it—a direct breathable
medicine, full of soothing anesthetic
pine essences, that reaches every sore,
inflamed, congested, and raw part.
No drugs to take—nothing to harm or
sicken the stomach, because Catarrhose
is the purest, most delicate cough, cat-
arrh and cold remedy ever devised.

"For many years," writes Richard Mc-
Callum, Stirling, Ont., "I have suffered
from Catarrh, and continually coughed
and coughed, so that my throat was al-
ways in an inflamed, irritable condi-
tion."

"Doctors' medicine did not help me
in the least, and all the other remedies I
used were quite useless. In the case
it was time wasted in snuffing powder
up the nose, the other using a great
amount, and so on. Not one of them
did me the least bit of good."

"I heard Catarrhose favorably
spoken of, and tried it. Really it bene-
fited me more in a few hours than
years of treatment with doctors, and
other so-called remedies."

Get Catarrhose to-day. Large
size costs \$1.00, and last 50 cents.
Smaller size 25c and 50c. All dealers,
or Catarrhose Company, Buffalo,
N.Y., and Kingston, Ont.

March 7, 1912. Mr. Frank Farley, manager of King Edward Hotel Cigar Department, announces the arrival of a new shipment of Cuban cigars...

Victorias Wins Cup

Winnipeg, Man., March 10.—(Special.)—Winnipeg Victorias, holders of the Allan Cup, successfully defended the cup against the Eaton's in the first of a series of two games Saturday evening.

The score was eight to four. The game was not unexciting and the Victorias showed a very slight edge. The difference was very slight at that. In the west the player must stay behind the puck or lose it.

Victorias doubled the score all right the first game and from that distance it looks that they should repeat again to-night and hand all the money. It sure looks like a forlorn hope for Eaton's to lift the cup.

Here's a little suggestion to the International League that comes by way of Rochester, N.Y., the Montreal franchise to Pittsburgh, arranging the schedule so that the International League team would play at home all the time.

The setting of the recent Carpenter-Sullivan fight, which gave the middleweight championship of Europe to a Scotchman, was a beautiful one ever held under Marquis of Queensberry rules.

That the challengers were worried by the outside rule, as defined in western hockey, was brought to the surface right in the first half of the game.

Another for the Cup Holders. Baker made a rush, but was worried by Foyton, with the result that his shot was weak.

Keep Play in Eaton Ice. The goal was scored by the Victorias a lead of three and the way the teams were traveling, victory for Victorias was a foregone conclusion.

Hyland and Richardson rushed from the face-off but as an official's whistle blew the puck was passed to Foyton, and he shot true.

Victorias pressed hard, and Eaton's could not get the puck out of the danger zone. H. Baker received from the side of the Eaton net, and going around the goal, he poked the rubber in for the first score.

Rankin Scores for Eaton's. Rankin scored for Eaton's in the first half of the game by rushing with Dion, who was forced into one of the corners.

Victorias had better of play. Besides having a one goal lead, Victorias were a little better of the game and another goal seemed imminent when a line, Caldwell and Bawlf went down in a line.

Victorias had better of play. Besides having a one goal lead, Victorias were a little better of the game and another goal seemed imminent when a line, Caldwell and Bawlf went down in a line.

At a Win for Davidson & Hay. At a Varsity Rink on Saturday, Davidson & Hay beat Robertson Bros. by 10 to 5.

Attell Lost to T. Murphy

DAILY CITY, Calif., March 9.—Abe Attell, erstwhile featherweight champion, lost the decision to Harlem Tom Murphy in the twentieth round this afternoon at a boxing club open-air arena.

Attell tried to increase their advantage, Hyland taking the puck from the face-off and rushing. He shot wide, however, and was checked by Laffamme, under which the latter received four minutes.

Attell landed frequently on the body and forced Murphy to seek protection behind the ropes, but did no damage.

Murphy rubbed Abe to the ropes in the sixth round, but was held by Attell, who landed several times in the second round, and a well-directed volley of snappy jabs caused the New York boy to quit.

Murphy rubbed Abe to the ropes in the sixth round, but was held by Attell, who landed several times in the second round, and a well-directed volley of snappy jabs caused the New York boy to quit.

Amateur Athletes To Discuss Prizes

West End Harriers Elect Officers and Suggest Subject for Consideration.

The West End Y.M.C.A. harriers held their annual meeting last night for the election of officers, which resulted as follows:

Honorary officers: Hon. president, N. J. Revenson; hon. vice-presidents, W. H. Scott, A. Boulton, L. Anthony, C. Bauckham, A. Sellars.

Active officers: President, Charles Smith; vice-president, Charles Whyte; financial secretary, Paul Croft; recording secretary, Oscar Pearson; captain, Horton Murray; vice-captain, Roy Hamner; Roy Holdon, Bert Ham, Felix Bow; executive committee, A. Kitchen, M. Wilson, C. Nielson, J. Stewart, W. Richardson.

The harriers have probably the best bunch of officers that they have ever had. The Wednesday night team will commence on March 13. All new men are advised to get in these runs. The annual Good Friday run will take place as usual. Refreshments will be supplied by the social committee. On April 30 all harriers in the city are invited to West End for a social run. After the run a subject will be discussed by delegates from each of the clubs. The subject is of interest to every athlete, viz., prizes given at athletic meets. All amateur athletes with a grievance on this subject are asked to attend.

Indoor Baseball To-night

To-night a battle royal in the indoor baseball line is on at the armories, when the Queen's Own Rifles sergeants meet the Grenadier sergeants in a final game for an oyster supper. Both teams have a game to their credit and are evenly matched, so that to-night's game will prove exciting, as both teams have made up their minds to win.

The final games of the Queen's Own Rifles' League will also be played, E. Co. meeting K. Co. at 8 o'clock to decide who is winner of B section, after which G. Co. will play the winners of the first game to decide the championship of the regiment. Below is the standing of the teams in the league:

A SECTION	
G. Co.	Won. Lost.
C. Co.	5 2
A. Co.	3 3
B. Co.	0 5

B SECTION	
E. Co.	Won. Lost.
K. Co.	5 1
I. Co.	2 4
L. Co.	0 6

Cleveland Beat Stratford. CLEVELAND, O., March 9.—The Cleveland Athletic Club ice hockey team to-night defeated the Stratford (Ont.) Club by a score of 4 to 0.

LONG SHOTS LAND MONEY AT CHARLESTON TRACK

R. Davies' Father old, at 9 to 1, Wins Selling Race—Results at Mexico.

CHARLESTON, March 9.—Those on the inside made a big killing to-day when Duval, a 20-1 shot, came across the wire a winner in the third race at a mile and an eighth for three-year-olds and up. Not much money was bet on the track, and in this way price was held up, so that poolrooms all over the country would be obliged to pay off on the closing odds at Fairmount Park. The bookies themselves set away a bunch of money to bet on Duval. Royal Report, another long shot, won the seventh, and Paterson, owned by R. Davies of Toronto, with 18 pounds on his back, brought home the bacon in the selling purse for three-year-olds over a distance of five and a half furlongs.

FIRST RACE—Maidens, purse \$300, for three and four-year-olds, six furlongs: 1. Hemstead, 10 (Koerner), 2 to 1 to 3 and 1 to 5.

2. Col. Brown, 26 (Turner), 3 to 5, 2 to 2 and 1 to 1.

3. Letour, 104 (Goose), 20 to 1, 3 to 1 and 1 to 1.

Time 1:19 1/2. Loathly Lady, Rapacious, Grace Mc, Dr. R. Swearingin, Jim Milton, Choptank, Burs, Avernus and Acnet also ran.

SECOND RACE—Selling, purse \$300, for three-year-olds, six furlongs: 1. Morrislow, 11 (Hopkins), 3 to 5, 3 to 5 and 1 to 4.

2. Rey, 103 (Ambrose), 11 to 5, 4 to 5 and 2 to 3.

3. Steelkite, 107 (Skirvin), 23 to 1, 3 to 1 and 4 to 1.

Time 1:24 3/4. Yanke, Charley Brown, Be. Amossawm, X and Elias Grump also ran.

THIRD RACE—Handicap, purse \$300, for 3-year-olds and upward, six miles: 1. Duval, 90 (Skirvin), 20 to 1, 3 to 1 and 1 to 1.

2. Manager Mack, 92 (Ambrose), 9 to 1, 3 to 1 and 3 to 5.

3. J. J. 109 (Butwell), 9 to 5, 3 to 5 and 1 to 4.

Time 2:09 1/4. Lady Lightning, Jawbone, Fisher, Roebuck and Lochiel also ran.

FOURTH RACE—South Carolina Selling Stakes, \$1000 guarantee, three-year-olds and upward, six furlongs: 1. Donal, 116 (Butwell), 3 to 1, even and 1 to 4.

2. Helen Barbee, 108 (Wilson), 7 to 1 and 3 to 5.

3. Montcalm, 107 (Bell), 3 to 1, 3 to 1 and 3 to 5.

Time 1:15 1/2. Tiltles' Nightmarer, Capsize, Rose Queen, Caugh Hill and Richardson also ran.

BOODY GUARDS SPRING SURPRISE ON KILTIES

Highlanders Beaten Out of Chance For Championship—Greens Defeat Cavalry.

At the armory's Saturday night, Boody Guards sprung a surprise on the Highlanders by beating them, 19 to 11, and thus destroying the Kilties' chances of winning the championship. Boody Guards played a steady game in the field and hit For more frequently than he has been accustomed to this season. Rawlins was leading with a clean state-five hits out of five times up. Cameron's hits were timely, driving in runs each time. Luck was with the Guards, favoring them with all the close decisions. They have been coming strong lately, winning their last three games. The Highlanders were decidedly out of color in their fielding. They outbit the Guards, but their baserunning was very poor, they having eleven men left on bases. The loss of C. W. Darling has been a severe handicap to them.

In the second game, Greasers earned for themselves the title of champions for the second time, altho they had a hard time winning from Cavalry, who were in a crippled condition. They deserve the title, for they have been consistent in their work, excelling particularly in baserunning and fielding, and have lost but one game in two seasons. Duncanson as a pitcher has improved a whole lot, while Morrison has been a brilliant backstop. Each man on the team has done fine work all season. The Greens have the best-balanced team in the league. A good deal of credit must be given the Cavalry team for their showing Saturday night. Most of the game they played but seven men, who performed in first-class style, making the champions extend themselves to the limit to win. The scores:

MONDAY AT CHARLESTON. CHARLESTON, March 9.—Entries for Monday are as follows:

FIRST RACE—Two-year-olds, purse \$20, maidens, 4 furlongs: 1. El Dello, 110 (Rossburg IV), 11 to 1.

2. George Karne, 110 (Murry Boy), 11 to 1.

3. Fort Sumter, 110 (Dr. Chalk), 11 to 1.

4. Forge, 110 (Richard), 11 to 1.

5. Hilda Maid, 107 (Argreen), 11 to 1.

6. Bunard, 107 (Cordie F.), 11 to 1.

Also eligible: Insurance Man, 107.

SIXTH RACE—Three-year-olds and up, purse \$300, selling, 5 1/2 furlongs: 1. Eye Stray, 98 (Royal Captive), 10 to 1.

2. Cocomo, 105 (Pretend), 10 to 1.

3. Penny Royal, 108 (Sam Rank), 10 to 1.

4. W. H. 108 (Lady Oriana), 10 to 1.

5. Charley Strauss, 111 (Landigan), 10 to 1.

6. Sandy Hill, 111 (Fiddle), 10 to 1.

7. Gilbert Rose, 108 (Light House), 10 to 1.

8. Carleton, 108 (Barney Loe), 10 to 1.

Rowing, Bowling, Tennis

Election of Officers for Big Summer Club at London, Ont.

LONDON, March 9.—The 22nd annual meeting of the London Bowling, Rowing and Tennis Club was held last evening in the Knights of Pythias Hall.

It was found that it would be necessary to make extensive improvements and additions to the clubhouse to give them suitable accommodations.

The officers for the club year were elected and are: Hon. president, Mr. John Loehard; president, Dr. J. N. Wood; first vice-president, A. Tillman; second vice-president, Mr. Peterson; treasurer, Dr. J. A. Wright; secretary, Jarvin; house committee, Messrs. A. W. Fraser, John Marx, Ed. Wald, John Loehard and Jared Vining.

Bowling committee, Messrs. John A. Connor, W. Casselman, John McPherson, W. C. Allen and William Turnbull.

Rowing committee, Messrs. F. N. Phelps, Chas. Ivey, John Collison, Fred Marshall and L. C. McKnight.

Tennis committee, Messrs. W. E. Saunders, E. Wright, John Paddock, Lem Skinner and F. H. Belz.

W. O. B. A. representative, J. S. McDonald; Ontario Bowling Association representative, A. W. Fraser; Dominion Association representative, E. Wedd.

Preston for Mount Forest. MOUNT FOREST, March 9.—Preston's champions go to Mount Forest on Wednesday, March 13, for a game with the champions of the Northern League. Preston is sending up its strongest line-up, and Mount Foresters are vain enough to think they need them. Their Northern League team is 25 per cent. stronger than their O.H.A. team, which went into the semi-finals this year.

HOW MANY CORNS HURT YOUR FEET? If you haven't tried Putnam's Corn Extractor you haven't used the article that will remove corns, callouses and sore foot bumps in the shortest time. Don't waste another cent in plasters, pads or salves—get the guaranteed corn remover, Putnam's Painless Corn and Wart Extractor. It acts quickly; never pains, removes the corn forever. Price 25c.

Why Deny Yourself

the full enjoyment of your smoke by accepting a cigar whose odor is at best a smell? Gratify your finer senses with the superb

Delicacy of Aroma

MONDAY MORNING, MARCH 11, 1912

BE ON GUARD.

York Township Council will bear watching. It is to be regretted that Reeve Watson is a reactionary and that he tried to coerce one of the other members of the council into voting away a street railway franchise whose starting point would be close to the city boundaries in the Avenue-road district. Councillor Miller did well to stand out against the pressure which would make for further entanglement with corporations. The other members of the council should join in renegeing Reeve Watson's attempt to tie the township up in futurity with subsidiaries of the Toronto Street Railway.

Mount Dennis residents appealed to York Township Council against the oppression of the Toronto Railway Suburban Company, but got no consideration. Again Reeve Watson stands in the way of the completion of the agreement to open up the street railway thru the Mount Pleasant Cemetery. The World has a strong suspicion that the railroads have a stronger influence with Reeve Watson than his constituents.

If the reeve would get clear of this suspicion the way is open to him by showing at once that he is untrammeled.

In the meantime The World will follow the doings of the council and those of the reeve to see how far the people are being considered in their relations with the various corporations that are seeking to exploit public rights for their own advantage and to prevent the citizens from obtaining the fullest possible benefit from the public services.

NATIVE AND EXOTIC MUSIC.

Some time ago Montreal sent in an opera company for our education and joy, and about the same time a Montreal paper saw fit to tell us that we did not know how to take life agreeably, and that we found our only satisfaction in palm trees and the like at the mouths of the Mendelssohn Choir.

It was an article written half in joke and wholly in earnest, and not to be applied to in hot blood. After hearing the Montreal Opera Company and parting with the Montreal Opera Company, and after having the opinion of Boston and New York on the Mendelssohn Choir, it is, perhaps, possible to say, without feeling, that Toronto has nothing to apologize for in musical taste as compared with Montreal. One thing to be noted specially is the fact that Toronto's music is all her own, trained in Toronto by a Toronto man with Toronto singers. The Montreal Opera Company, however good it may be, is an exotic and owes its existence to the generosity and public spirit of Colonel Meighan. Montreal people are not musically enthusiastic enough to do more than appreciate his bounty. To listen to operatic music, and to possess the musical gifts equal to the organization of such a body as the Mendelssohn Choir, are totally different things. Montreal has no such choir as the Mendelssohn Choir, of course, but neither has she any such choir as the Schubert Choir.

With regard to the quality of the music furnished and the appreciation of the audience, in this respect Toronto has nothing to be ashamed of. Opera performances are frequently regarded as mere opportunities for conversation. An Italian libretto was furnished for the French performances, so that there was no need to the too deeply engrossed in it. It is no approach to Toronto that people here take their music seriously. Dr. Vogt said recently, discussing a Mendelssohn Choir program: "After all, there is nothing like Bach." The love for serious and earnest things is not incompatible with a true appreciation of the lighter and more superficial aspects of life. But we believe that the city gets more solid benefit from the development of its own native talent than from the performance of mercenaries.

WHAT NEEDS REORGANIZING.

As a result of the procrastination policy pursued for years by the city council, there has arrived such a congestion of business involving heavy outlays, that the present council is practically in a panic, and liable to be stamped into almost any absurd reactionary measure. The artificial tax rate of several years past, attained by striking out all the recommendations made by city officials, will no longer meet the absolute necessities, and in lieu of economy the city is offered a still stronger dose of privation. The board of control has decided to begin by treating the education of the city's

children as a luxury and has announced its intention to apply for legislation to limit the amount to be spent by the board of education.

The most expensive luxury the city maintains is the present system of government at the city hall. A business-like administration would do what is needed, when it is needed, and at a saving of anywhere from ten to twenty per cent. on present methods. Generally we are five years behindhand, and five years' increase in the cost of material, labor and real estate when it is required, is a serious item. The board of control is about to go into the annual question of what it won't do this year, in spite of the reiterated demands of officials to have things done. After this the clamor of some aldermen and outsiders to reorganize the departments is almost amusing, if it had not such a serious side.

What needs reorganizing is the city council.

DISCRIMINATION AGAINST PUBLIC BODIES.

Ontario cities are placed at a great disadvantage in the matter of acquiring land and property for civic purposes as compared with franchise-holding and other corporations. These latter are untrammelled save by the terms of their charters, usually wide enough to do everything that a private individual may do and often a great deal more. They may go out and secure options with perfect confidence that their plans will not be disturbed by premature publication of the nature of their project, and that the prices will not be affected by reason of that knowledge. Cities are compelled to make their proposed policy public and are immediately confronted by a general hold-up on the part of real estate owners and speculators.

Why should there be this discrimination against representative bodies anxious to advance the public interest? Why again should there be the evident antagonism on the part of legislatures to confer upon such bodies the powers and privileges freely conferred on private corporations whose main object it is to extract often an undue measure of profit out of the public? Germany with all its autocratic and bureaucratic is far ahead of democratic communities in its willingness to encourage the working out of policies designed to secure public benefits. Take, for example, the new form of government for Greater Berlin. The city government will have control over matters of transportation, building plans and the acquisition of suburban lands for the purpose of forming a permanent forest and meadow lands around the city. Its new mayor, Dr. Karl Steingör, formerly city chamberlain, has recently been elected from a roster of thirty candidates comprising state and city officials, educators, merchants and leading industrial men.

No argument of any weight can be stated why a very ample measure of local government should not be conferred on municipalities. As matters stand at present they are cribbed, cabled and confined on every side by perfectly preposterous restrictions imposed by members of legislative assemblies not only absolutely ignorant of local conditions, but whose immediate instinct is to regard with unreasoning prejudice and jealousy any and every application for greater freedom of action. This is an important question which might well be taken to serious advisement by the provincial government. Municipalities should not be compelled to have recourse to the legislature continually for special powers that are necessary for the proper conduct of public affairs. They should possess them under a large and ample enabling act that will at least place them on a parity with public service and other corporations.

LIBEL ON CITY HENS.

Editor World: I wish to take exception to the statement published by Mr. Bate of Whitevale in The World. I claim it is impossible to purchase absolutely new-laid eggs either in the city stores or on the market. The only reliable eggs sold in the city are sold by owners of city hens.

Before I kept hens I bought so-called new-laid eggs, and found a good many unfit for use. Mr. Bate makes the charge that city hens are kept in a penitentiary and unsanitary conditions. I claim that city hens are kept in a more sanitary condition and are fed cleaner and better food than hens on the farm.

It appears to me Mr. Bate would like to see hens prohibited in Toronto in order that outsiders might obtain a few cents more per dozen for so-called new-laid eggs. He says that poultry-owners in the city have not time to look after hens, and hen houses. It is a positive fact that owners of poultry in the city take the time, disinfect and look after their hens better than people in the village and country.

Mr. Bate says in one sentence that all eggs are perfectly fresh, if not over ten days old, and in another sentence he says city-laid eggs are stale before sold, as they are not gathered for several days. Owners of hens in the city do not hold their eggs for several days. They can dispose of them every day if they wish. The city medical health officer should encourage people in the suburbs to keep more hens, instead of complaining about them. A. E. Knight, 47 Brook avenue.

ROUND TRIP

\$10.00 New York City. From Suspension Bridge via Lehigh Valley R. R., Thursday, March 7. Tickets good 10 days returning. Par-ticulars 3 King Street East, Toronto.

Niagara Falls' Civic Fight. NIAGARA FALLS, Ont., March 10.—(Special.) To organize a board of trade to fight the city's plan to extend its boundary into Stamford township, Stamford ratepayers will meet to-morrow. The city wishes more land within its borders for factory sites.

BETTER FARMING SPECIAL IN TORONTO

Several Hundred People Visited Train Which is Equipped With Exhibits, and in Which Lectures Are Given on Agricultural Subjects—Bulletins Contain Good Information.

Several hundred people interested in agriculture visited the "Better Farming Special" at the North Toronto Station on Saturday night.

The special came in at 8:30 and was open to the public until 9 o'clock. It is a development of the work of the Farmers' Institutes section of the Ontario department of agriculture. It was organized last year under the direction of Supt. G. A. Putnam, who supervised the running of an M. C. R. farmer's special last year on the Michigan Central's Ontario division. That was in the nature of an experiment, but was a most successful one in receiving the immediate attention of the most intelligent portion of the farming community, and awakening a genuine interest in scientific methods in the localities visited.

This year the C. P. R. placed a farmers' special at the disposal of the Ontario Government. It includes four baggage cars fitted up for exhibits, and three day coaches for lectures. Last week it came east from Windsor, and Supt. Putnam told The World that he estimated that over 1000 people had visited the exhibition cars and attended the lectures.

The train will start west this morning, making the first stop at Agincourt at 9 o'clock. The exhibits will be in view and lectures given for an hour and a quarter. A similar stop will be made at Clarendon from 10 until 11. The lecture staff includes Prof. C. M. Zantz, J. Spring, W. R. Peck, V. T. Goggin, J. Reid, H. Palmer, H. Grose, L. Roy, Frank Hearsh, A. Gracey, W. R. Graham and J. W. Clark.

Bulletins on fruit tree spraying, poultry raising, beekeeping, dairying and concrete work are distributed.

Hydrants Frozen And Homes Burn

Kew Beach Houses Totally Destroyed Saturday Afternoon—Firemen Badly Hampered.

Fire, which destroyed two houses and part of their contents, broke out at Kew Beach at 9 o'clock Saturday afternoon. The homes of R. Cumberland and H. Simpson, at 40 and 42 Kippendavie avenue, were burned to the ground, despite the work of the firemen.

Mr. Cumberland succeeded in saving a few pieces of furniture, but he had no insurance on his home. All the household goods were destroyed in the Simpson home. The total damage is estimated at \$3000.

It is said that the hydrants in the vicinity were all frozen and the firemen were greatly hampered in their work.

Unsightly Skin Diseases

Disfiguring skin diseases always seem to appear on the face and hands, when they cause a feeling of shame, as well as pain and suffering. Internal treatments have never proven very satisfactory in the treatment of eczema and similar skin troubles, but when Dr. Chase's Ointment is applied you can see for yourself and feel for yourself the benefits which are being obtained.

It soothes the inflamed, irritated skin so that itching ceases, and by its extraordinary healing power causes a new, smooth skin to form where the sores have been.

In every home there are many uses for Dr. Chase's Ointment, as for pimples and blackheads, barber's itch, chafing, chrysiads, chubbins, itches, sores or ulcers that refuse to heal. This ointment is pure, clean and pleasant to use and may be applied to the most delicate skin.

ASK PRINTERS TO STAND BY COMRADES

Members of Toronto Typographical Union Advised Not to Make a New Agreement Which Would Mean Severing the Ties Which Bind All Union Men Together.

Nearly 500 members of Toronto Typographical Union gathered in the Labor Temple yesterday afternoon to hear several prominent labor leaders and organizers tell why they should not break away from the rest of the Toronto union with the employers. The old agreement, under which the printers get from \$17 to \$19 per week, expires in June, and about a month ago the printers decided to look out for their own interests.

This action would be without precedent since the time when all unions, connected with the publishing business, started the Allied Printing Trades movement. In the past these unions have been bound together and not one body, whether it be bookbinders or the printers' would sign a contract until the other united branches of the business, which were employed by the same company, were also satisfied.

Mr. Geo. L. Berry, president of the International Printers' Union, told of the good results which had been obtained in the San Francisco strike. All branches of the trade had stayed out until the unions were satisfied. Better wages and an eight-hour day were given to the men after this strike. The fact that there were many non-union men who were getting the benefits of the union's fight, but these refused to become members of the association.

The international president depended on the Typographical Union to stand by its weaker brothers. He would not agree if he were getting the benefits of the union's fight, but these refused to become members of the association.

Robert Glocking, president of the Bookbinders' Union, stated that the Typographical Union had gone along with the employers and relations existing between the employers and the men. The printers were at perfect liberty, said he, to make an individual agreement, but this step would have a bad effect on the printing trades and would damage the confidence which would be growing up all over the country. He hated to hear people say that "old 99" was running away from its brother associations. Several other union leaders also spoke, and President Thompson was in the chair.

Let Quebec Look to Its Own Education

Godfrey Langlois, M. L. A., Offers Bourgeois Some Helpful Hints.

MONTREAL, March 10.—(Special.)—Mr. G. Langlois, M.L.A., is still endeavoring to show his compatriots that they need not bother themselves about Kewawin before greatly improving their own schools.

"For our part," says Mr. Langlois, "we have always repudiated the campaign against the school situation, because of the Laurier-Greenway arrangement, and we do not regret the present situation."

"If our people are really desirous of improving the school situation let them begin at home."

IN CAMP AND BARRACKS

The officers' mess, both in camp and barracks, with the scores of scarlet mess uniforms, presents an interesting spectacle, even to the initiated. Everything is spotlessly clean, the food well cooked and the number of delectable dishes served is an evidence of profound liking for the good things of life. Here, as elsewhere, Radnor Water is the prime favorite, for it is unquestionably far better mixer than any other mineral water.

Why You Should Travel West Via Canadian Pacific Railway. It is the logical route, offering the finest possible equipment and fastest train service. It is the only all-Canadian route—no change of depots—all equipment is owned and operated by C. P. R., affording the highest form of efficiency. Dining car service will satisfy the most fastidious persons. Only line operating through standard and tourist sleeping cars to Winnipeg and Vancouver.

Are you going west this spring? If so, take advantage of the remarkably low one-way second class excursion rates to Vancouver, Victoria, Nelson, Spokane, Seattle, Portland, San Francisco, Los Angeles, San Diego, etc., in effect daily until April 15, or if Western Canada is your destination, the one-way second class settlers' rates should appeal to you. Settlers' trains to Western Canada will leave Toronto 10:20 p.m. each Tuesday during March and April. If you contemplate a trip of this nature, apply to any C. P. R. agent for full particulars.

At Osgoode Hall

CHURCH FACES A SERIOUS CRISIS

Leaders Fear Task of Evangelizing the World is Too Great—Alarming Decrease in Church Attendance—St. James' Square Presbyterians and Church Union.

In the course of his sermon at St. James' Square Presbyterian Church last night, Rev. Dr. Robertson, working from the text, "A Root Out of Dry Ground," compared the state of the Christian church of to-day to conditions which prevailed just before the coming of Christ.

Conditions were now so serious that it was found necessary to use special advertising efforts such as the huge electric sign recently erected in New York telling people that a welcome awaited them in the churches. From that city and from all sides came reports telling of the alarming decrease in church attendance. Such leaders as Dr. Tenney of Edinburgh and John Mott expressed fears of the church of to-day being strong enough to cope with work to be done in the foreign field for the evangelization of the world.

The preacher believed, however, that the time was at hand when Jesus Christ would go down into the martha and call men from the pursuits of materialism where the wilderness of business and personal gain was closing the call of Christianity. He looked for an awakening and a desire on the part of men to climb to greater heights in the development of humanity toward the ultimate realization of the Christian ideal of human accomplishment.

It was announced that of the 233 ballots cast on the question of church union, 21 were in favor.

St. Anne's Men's Association.
At the regular meeting of St. Anne's Men's Association, K.C., will speak on "The Crisis at 8 o'clock this evening. A. Moore Grier, K.C., will speak on "Toronto's Position in the British Empire."

BOREAL WATER CAUSED HEAVY DAMAGE

Million Gallons of Water Poured Down Bathurst St. When Pipe Burst at Corner of London, Flooding Cellars, Extinguishing Furnace Fires and Ruining Store Stocks.

As a result of the broken water main at the corner of Bathurst and London streets at 11:40 Saturday morning torrents of water flooded the cellars of the houses in that neighborhood and ran down Bathurst street, stopping all traffic for several blocks to the south until about 5:00 o'clock in the afternoon when the tide was stemmed. When the main burst the pressure of water tore up the pavement above and gushed out with a tremendous roar which started the people in the neighborhood. It poured down the slight incline of Bathurst street, running into cellar windows and doing damage to the extent of which has not yet been ascertained.

Waterworks Engineer Fellows stated last night that it was unable to explain the occurrence, unless it were due to the frost. As far as the repair work was concerned he thought the damage would be minor. He expected that everything would be remedied by noon today.

The main, which is connected directly with the reservoir, caused a drop in the water there of 17 inches, and that this meant a loss of considerable water to each of the houses in the area of the reservoir is seven and a quarter acres. It is estimated that one million gallons of water were lost as a result of the break. Within half an hour after the break occurred the water was shut off by means of the cock at College Street and the back flow was stopped by the cock at Dupont street. There was also a cock at the corner of Bathurst and Bloor streets, but it was impossible to operate this by reason of the flood.

After the flow had ceased it was seen that the gush of the water had torn up the ground in the form of a circle 30 feet in diameter. A squad of policemen were hurriedly sent to the scene. When repairs had been made large crowds gathered to examine the break. It was seen that a section of the pipe about four feet long had been dislocated. As a result of the flood some of the cellars in the vicinity of the break were completely filled with water and the fires in the furnaces were extinguished. At the corner of Bloor and Bathurst streets the cellars of the Home Bank and the Ferrah drug store were flooded, rising to the ground floor. The gas meter in the cellar of the bank was dislocated from the gas main with the result that a great deal of gas escaped. In the cellar of the drug store about \$2,000 worth of stock was stored which will likely be completely ruined. The householder is very indignant at the occurrence and the opinion is that the city will have to pay handsomely for the damage. Business, of course, at the corner of Bathurst and Bloor was at a standstill while the flood was on. Plans were made by many citizens to have the reservoir, but the officials of the Waterworks Department said that the reservoir was not to be touched. They claimed that the other water mains would be able to meet the emergency. The men worked upon the break on Saturday morning in such a way that there could be no repetition of the occurrence.

BOUNDARY FIGHT ISN'T OVER YET

Third Reading-To-morrow Will Give Nationalists Fresh Chance—May Finish in Three Weeks.

OTTAWA, March 10.—(Special.)—The Manitoba Boundaries Bill will be up for a third reading on Tuesday. The debate has been a very dramatic and exciting, and the third reading promises to be no exception. With ordinary measures the third reading is purely formal, but the Liberals have shown such hostility to this measure that it is understood they will put up a late kick on Tuesday. It is possible also that the Nationalist bolters may stir up some excitement.

It is said that the amendment which was defeated in committee Friday in regard to the protection of minority rights may be brought up again. The Nationalists feel that Sir Wilfrid Laurier has been playing a two-faced game all thru the debate. Outside of the boundary question it promises to be a lively week. To-morrow there was no man ever comparable with Jesus. All that was necessary in fulfilling his gospel was what appeared in the individual life, remembering that no person was saved who did not in spirit become a Savior too.

Owen Sound Carries Bylaw For Shipbuilding Plant

Big Dry-Dock and Equipment Will Cost About \$1,500,000—Vote Was 1784 for to 85 Against—Concessions to Company Include \$10,000 Bonus for Twenty-Five Years.

OWEN SOUND, March 9.—(Special.)—Despite considerable opposition from one of the leading factory-owners of the town, the dry-dock and shipbuilding bylaw carried by a large majority here to-day. The bylaw is to be carried by the three-fifths majority. The Rubber Company bylaw which there was a very safe margin in the majority. The Rubber Company bylaw carried by 1883 to 23, while the present Company exemption bylaw carried by 1830 to 23.

GREAT REFORM CHURCH UNION IS FAVORED BY MANY

Rev. Dr. Eakin, in University Sermon, Says Too Much Emphasis Had Been Placed on Salvation From Sin to Detriment of Bigger Things, Salvation for Service.

Convocation Hall was thronged for the university sermon yesterday morning by Rev. Dr. Eakin. The new religion formed the theme. Based on the public forgiveness of Mary of Magdalen, the sermon vigorously sledge-hammered the traditional conception of Christianity.

Dr. Eakin declared a greater reform than that of the reformation was rapidly coming in the viewpoint of Christianity. President Eliot of Harvard University was severely criticized for his declarations on the subject of religion, and the religion of the future. He pointed out that the religion of the future would comprehend persons of good-will.

MERCHANTS' MOVIES TO KING

Is Well-Founded Rumor—Current—Were the Purchasers of Dominion Permanent Building.

It is learned that the purchaser of Nos. 12, 14 and 16 West King-street, which changed hands about a month ago, was the Merchants' Bank. The property is in the heart of the financial district and adjoins the Home Bank. It has a frontage of 84 feet on King-street.

The property was formerly owned by the Lester estate, the solicitors for which are Foy and Kelly, to whom the tenants paid their rents. These have now been notified to make their payments to the firm of Smith, Rae & Greer, who are stated to be the solicitors for the Merchants' Bank.

The lease of the property is owned by the Dominion Permanent Loan Co., which occupies the eastern portion of the ground floor, and sub-leased the other part to the firm of Erickson Perkins & Co., New York stock brokers. The lease is for ten years, but three years have now been used. The Dominion Permanent has been offered a substantial sum to assign the lease, the offer having been increased by \$6000 last week, but the offer is not yet sufficiently tempting. The Merchants' Bank is now located at 12 West Wellington-street.

Cawthras Sell Land On King St. West For \$415,000

Numbers 9, 11 and 13, Running Thru to Melinda, Said to Have Been Bought for New Financial Institution.

Involving \$415,000, of which a third is cash, a deal was closed Saturday for the purchase of the Cawthras property at Nos. 9, 11, 13 West King-street. The purchaser is thought to be A. G. C. Dinick.

The property will in all probability be used as the chief office of a new financial institution which has been in process of formation for some months.

The property purchased is in the centre of the city's financial life, and has for long been considered by all offers of purchase have been consistently refused. It has been on the market for the last two weeks at \$415,000.

The property runs right back to Melinda-street, there being a frontage of 80 feet on both streets.

Victor Cawthras, who is agent for the many Cawthras estate holdings told The World Saturday morning that negotiations were on for the purchase of this property.

Duncan-Adelaide Cor. Sold for \$27,500

Goddard Farm in North Toronto Changes Hands at Over \$20000 an Acre.

One more piece of property in the big commercial area has been purchased at \$500 a foot. The property is on the northeast corner of Adelaide and Duncan-streets, and has a frontage of 55 feet. Fred Bridgen of Ross-avenue was the owner, but he declines to give the name of the purchaser. The total price paid for the lot was \$27,500.

North Toronto Farm Sold.

The Goddard farm, at the northeast corner of Bayview and Boudan-avenue, has been sold to Kenneth McWhinney at a price said to be \$2200 an acre. The farm contains 16 acres. It will probably be subdivided.

Adelaide West Leasehold Sold

Chas. Henderson & Co. sold on Saturday at their rooms, the leasehold property, Nos. 16, 24 West Adelaide-street, to J. J. Follett for \$23,000.

C. N. R. EARNINGS.

The Canadian Northern Railway's gross earnings for the week ending March 7, are \$212,800 as compared to \$233,400 for the corresponding week of last year.

These figures show a substantial increase of \$21,000 in the company's receipts. The earnings of this railroad have been increasing since July 1 at the rate of \$2,173,300 over the same period of the year previous.

381 HUNGRY MEN FED.

It was a big crowd that stood outside Yonge-street Mission yesterday morning, waiting in the sharp, frosty air to get into the Sunday morning free breakfast. When they thronged into the mission 381 of them, hungry and cold, they were quite ready to do justice to the 3800 beef sandwiches and 120 gallons of hot coffee. The workers were on deck as usual, looking fresh and ready for work in their clean white coats, the kind donated by Mr. E. Fairbairn of Buffalo, N. Y. Breakfast over, the singing by the men was hearty and enjoyed by all. An earnest address by Rev. John McNeil of the Toronto Bible College was listened to with great attention. There will be another breakfast next Sunday.

IN THE MATTER OF AN ACT RESPECTING THE CONFIRMATION OF SALES OF LAND FOR TAXES, AND IN THE MATTER OF THE SALE OF LOT TWENTY-NINE (29) IN BLOCK FIFTY-ONE (51), IN THE CITY OF WINSTON, IN THE DISTRICT OF WINSTON AND PORT ARTHUR, ONTARIO.

Record in the Land Titles Office for the Assiniboia Land Registration District as Number 25, and in the Record of the Transfer of the Said Lot to Rember Paul.

Before the Honorable Mr. Justice Brown on the 29th day of April, A.D. 1912.

SUMMONS.

Upon application of Rember Paul and upon reading transfer of above described property by William W. Phillips to Rember Paul, defendant, of said land and advices of William W. Phillips and of A. McLarty, filed.

Let all persons claiming to have an interest in the said land, or to be affected by the said transfer, appear before the presiding Judge in Chambers at the Court House, Regina, Saskatchewan, on the 29th day of April, A.D. 1912, at the hour of 10 o'clock in the forenoon, or as soon thereafter as counsel can be heard.

Upon the hearing of an application to show cause why an order should not be made confirming the sale of the above described lots for arrears of taxes.

Service of this summons on all parties concerned is to be made by publishing a copy of same in four issues of a daily newspaper, one of which is to appear at least one month before the return date of this summons.

(Seal) A. HAYWORTH, Chamber Clerk.

This summons was taken out by Messrs. Balfour, Martin, Casey & Blair, Regina, Sask., Solicitors for the Applicant.

John McMillan and to all parties concerned. 1113

Tuesday afternoon at 4 o'clock. Short Interest is Stampeded And All Grains Go Soaring

Bullish Interpretation Placed on Govt. Report Gives Big Lift to Chicago Market.

CHICAGO, March 9.—Short sellers of wheat trapped themselves to-day and were in a stampede at the last. Rumors of big export sales made bull sentiment rampant. Latest figures were 1 1/2 to 1 3/4 higher than last night. Corn scored a net gain of 1 1/2 to 1 3/4; oats finished 1/2 to 3/4 to 1/2, and hog products at 7/8 to 2 1/2 advance.

Wheat closed strong at the highest point of the day and the week. Buyers demonstrated their superiority in courage and resources by taking all that was for sale and then lifting prices in a hurry. Notwithstanding the government report showing farm reserves of wheat to be nearly 4,000,000 bushels less than a year ago has brought about firmness in foreign markets, the gains there were too small to excite enthusiasm here. The result was overconfident and fairly general short selling. In consequence an initial advance disappeared, the bulls were called to work until export talk began and Kansas City sent word of millers buying.

Corn reached the highest price of the season just as the going struck at the close. This result was immediately due to persistent buying for leading speculators in the face of even more aggressive selling than was witnessed in wheat. A forecast of unsettled weather helped the bulls and so too did the government report. May fluctuated between 70 1/2 and 72 1/2, closing strong at 72 1/2, a rise of 1/2 as compared with 24 hours before. Cash grades were firm. In oats, likewise, the feature of new top figures for the crop went on reported. Texas reported considerable winter killing in fall-sown fields. Farmers further north were said to be getting uneasy over late seeding. Upper and lower levels touched for heavy winter wheat, with the close 1/2 up at 63 1/2.

Strength of grain and hogs put up the price of provisions. Quite a good speculative business was done. When the day ended, corn was higher by 20 to 25; wheat, 10 to 15; and hogs, 15 to 20.

Northwest Receipts. Receipts of wheat in cars at primary centres were as follows: To-day, week ago. Chicago, 48, 15; Duluth, 14, 10; Minneapolis, 26, 23; St. Paul, 11, 10; Winnipeg, 515, 504, 171.

European Markets. The Liverpool market closed to-day on wheat 1/2 to 3/4 higher. Berlin wheat closed 1/2 higher. Budapest 1/2 higher. Antwerp unchanged to 1/4 higher.

Winnipeg Inspection. Receipts of wheat to-day graded as follows: No. 1 northern, 82; No. 2 northern, 70; No. 3 northern, 65; No. 4 northern, 70; No. 5 northern, 12; No. 6 northern, 18; winter, 12; Oats, 146 cars, as follows: No. 1 C.W., 1; No. 2 C.W., 2; No. 3 C.W., 1; No. 4 C.W., 1; No. 1 feed, 40; No. 2 feed, 7; rejected, 20; no grade, 4; barley, 15; flax, 22.

ST. LAWRENCE MARKET. Receipts of farm produce were 200 bushels of grain, one load of hay, about 100 bushels of potatoes, and a moderate supply of general farm produce on the basket market.

Wheat—One hundred bushels sold at 97c. Barley—One hundred bushels sold at 90c. Hay—One load sold at \$24 per ton. Butter—Market firm, at 25c to 30c per lb. Eggs—Receipts large; prices easier, one farmer's lot 20c for dozen, and one farmer's lot 20c for dozen laid in the last three days. At the close of the market some lots of eggs were sold as low as 20c to 22c. The average run of eggs at 20c to 22c at basket market tables.

Poultry—Receipts of poultry were light, with quality none too good. Prices were very firm, as follows: Old turkeys, 20c to 25c; choice quality hen turkeys, 20c to 25c; broilers, 15c to 20c; chickens, 10c to 15c; ducks, 10c to 15c; geese, 10c to 15c; and extra choice turkeys, 20c to 25c. The average run of poultry bought alive on the north market by the Jews at 10c each.

Apples—Receipts greater than the demand. No. 2 apples, 10c; No. 1 apples, 10c to 11c; No. 3 apples, 10c; No. 4 apples, 10c; No. 5 apples, 10c; No. 6 apples, 10c; No. 7 apples, 10c; No. 8 apples, 10c; No. 9 apples, 10c; No. 10 apples, 10c.

Dressed hogs—Prices steady, at 22 1/2 to 23 1/2, with a few going at 23 1/2 per cwt.

Grain—Wheat, fall, bushel, \$0.96 to \$0.97; winter, 10c; No. 1, 10c; No. 2, 10c; No. 3, 10c; No. 4, 10c; No. 5, 10c; No. 6, 10c; No. 7, 10c; No. 8, 10c; No. 9, 10c; No. 10, 10c.

Hay and Straw—Hay, per ton, \$12.00 to \$13.00; straw, 8.00 to 9.00; timothy, 10.00 to 11.00; alfalfa, 12.00 to 13.00; clover, 10.00 to 11.00; vetch, 10.00 to 11.00.

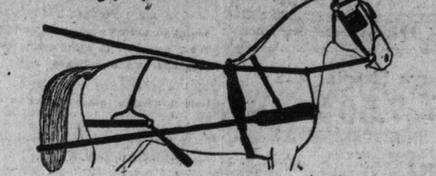

Fruits and Vegetables—Potatoes, bag, \$1.00 to \$1.50; cabbage, per 100, 2.00 to 2.50; apples, per bushel, 2.00 to 2.50.

Dairy Produce—Butter, farmers' dairy, 20c to 25c; cream, 15c to 20c; milk, 10c to 15c; cheese, 10c to 15c.

FARM PRODUCE WHOLESALE. Hay, car lots, per ton, \$12.00 to \$13.00; straw, car lots, 8.00 to 9.00; timothy, car lots, 10.00 to 11.00; alfalfa, car lots, 12.00 to 13.00; clover, car lots, 10.00 to 11.00; vetch, car lots, 10.00 to 11.00.

EATONS

T. EATON CO. LIMITED

HANSEN WILL HAVE MILL READY TO WORK MARCH 20

POPCUPINE, March 8.—(From Our Man Up North.)—All records for stamp mill building have been broken, and Supt. Hansen and his assistant, Holt, to-day announce that the Big Dome mill will be ready to run on Wednesday, March 20, several days ahead of the time figured.

So sure are the contractors that the wheels and stamps may be set in motion on time that a telegram was sent this afternoon to A. G. Merrill at San Francisco, asking him to start for the east to be in attendance at the opening of the mill.

Mr. Merrill is the designer of the mill, and the metallurgist who planned each detail of the big machinery to the last spout in the cyanide plant. He desires to look over the work before the stamps are started.

We have everything in connection with the mill completed except the wiring for electrical power and the setting of the stamps. There are also some few details in connection with the tables to be attended to, and then we are ready, said Supt. Hansen.

There is no reason why I can see now why the mill should not start for good on March 20, he continued. Thus one of the biggest stamp mill structures on the continent is about to begin work.

A Proper Milling Plant. The ore to be put thru the mill from the actual assay is a mixture of quartz and schist with the low and high grades unseparated. Not all suitable for stamping, but the heavy and light grades will be sent into the heavy rock crushers at the same time, but rather a mixture of the two.

With the completion of the tramway the ore bins were filled ready to feed into the stamps. As one bin is emptied another will be filled, and in this way a surplus will always be kept on hand. Twenty-four drills are cutting into the rock in the underground, preparing for the stamp mill that, it is estimated, will take years to stamp out.

From the start gold bricks will come from the refinery, as cyanide solution is prepared wherein all the concentrates from the tables will be treated on the spot. Fully 88 per cent. of the values will be saved in the cyanide process. The refinery is located near the mill, and from the cyanide tanks to the stamp mill, and thence to the refining rooms is but a step.

The gold will come out in bars at the refinery just a few feet from where the ore goes into the mill thru the aerial tramway.

In the parlance of the man who built the mill, it is a single convenience case, a new kind of mill, a mixture of the plans. With its heavy steel frame and iron covering, 10-ton jaw crushers to conquer the rock, powerful motors to drive the wheels, classifiers to make up coarse ore, and cyanide tables to catch the gold, with a refinery to prepare bricks for market, the Big Dome stamp mill is certainly all there. And the date of opening is Wednesday, March 20.

Chas. Fox.

Golden Circle in Big Dome Section

Martin Property Completes Ring of Promising Properties in Porcupine.

POPCUPINE, March 8.—(From Our Man Up North.)—New camp buildings in preparation for the deeper mining on the Martin Gold Mines property to the south of the Big Dome, are to be constructed, the work of laying the walls to begin Monday. Diamond drilling has been stopped, as three ore zones have been located. Shfts may now be intelligently located.

Desultory Trading in Effect But Market Holds Up Firmly

Hollinger Makes Good Recovery, But General Porcupine List Does Nothing at All—Week-End Gossip.

World Office, Saturday Evening, March 8. Nothing but desultory trading characterized the mining exchanges at the week-end, and to such an extent was this carried that the list succeeded in accomplishing nothing whatever but the maintenance of its former position in the porcupine stocks price level.

The market throat was fairly free of strings, and at the time there was material selling under way. On the other hand, the demand showed a falling off from its recent active nature, and consequently there was no incentive for floor traders to work prices either way.

Generally speaking stocks were left pretty much to their own devices. The big issues, Hollinger and Rea, maintained quietly around their previous records. Hollinger in the early dealing showed a tendency to recover, and the price mounted steadily to \$11 with only a couple of sales attracted by the advance. At the top for the day the stock quoted at a 10 point advance from the closing sale yesterday, but was up 30 points from the bottom price of the decline. Rea was not dealt in at all.

The bulge in Porcupine Central, Southern and Northern was carried further, the action in these issues being about the only interesting point in the trading. The former stock sold up to \$2.85, Southern was up to \$1.84 and Northern to \$1.05. The public interest in these three securities is practically nil as far as Toronto is concerned, so the movement attracted nothing like the attention which might seem warranted to the lay mind.

There was comparatively little doing in the cheaper porcupine stocks. Extension held between 4 1/2 and 4; Vi-pond around 4 1/2, and Crown Char. at \$1.00. The market on the whole showed a firm undertone, and considering the apathetic nature of the trading, this was accepted as a favorable augury. Any improvement in the public demand would easily lift the list out of the rut, and should lead to higher prices.

Standard Stock Exchange. Porcupines—Open High Low Cl. Sales. Crown Char. 15 15 15 15 1500. Dome Ext. 4 1/2 4 1/2 4 1/2 4 1/2 2000.

THREE NATIONS LAKE IN TIMELIGHT AGAIN

Remarkable Discovery Reported at The Property—Spectacular Ore Taken Out.

POPCUPINE, March 8.—(From Our Man Up North.)—At the 80-foot depth of the No. 1 shaft at Three Nations Lake, the big discovery was made.

The shaft was sunk on the lead, at the 60-foot depth, passing from the 70-foot depth. Ten feet deeper the ore was found to be of a high grade.

The shaft was sunk on the lead, at the 60-foot depth, passing from the 70-foot depth. Ten feet deeper the ore was found to be of a high grade.

Among World's Greatest. In the past two years, development has gone on on a large scale. Vast quantities of ore have been opened up.

Not until tests have been made can one logically condemn the Porcupine, as illustrated in the Three Nations find.

POPCUPINE, March 8.—(From Our Man Up North.)—New camp buildings in preparation for the deeper mining on the Martin Gold Mines property to the south of the Big Dome, are to be constructed, the work of laying the walls to begin Monday.

Following the completion of the camp buildings, shaft work will proceed. Manager John Wilson is detained in Toronto on account of illness, but will be here by the time the buildings are completed.

With the Martin operating under a full head of steam, the circle of gold prospects, the Big Dome property, the centre of the crescent, will be completely closed the gap on the west.

This section, in anticipation of an early start on the Martin, may apply be termed "the golden circle."

Dome Buys Power Plant. POPUPINE, March 8.—(From Our Man Up North.)—Heavy machinery is yet to be taken to the Standard Mines in Deloro, while all the crushing mill machinery is yet to be landed at the Vipond.

There are those who predict an early spring and with only about one foot of snow on the ground, the roads would soon follow a few days' hot sun. There will be no sparing of efforts from now on in getting the heavy machinery in before mud takes the place of snow.

NIPISSING

At present market price and rate of dividend yields about 20 per cent. based on dividend giving the same results as taken from last annual report.

J. L. MITCHELL & CO. McKinnon Building TORONTO

Porcupine and Cobalt Stocks. That only a good man—not carried on a non-sensational—could have based on figures for Feb. 1911, the active going up, and the continued cheerful signs of increasing activity, it is evident less than a year ago, and the signs of increasing activity, it is evident less than a year ago, and the signs of increasing activity, it is evident less than a year ago.

BURGE GOVERNMENT PARTNER WORLD-

London, March 11.—(C) The National Miners' Federation has decided to-night to prime minister's invitation to the government and the rep of the government at a round table, at which Premier Asquith will preside. The acceptance of the invitation was discussed with the reservation that the minimum wage will be discussed. It is this means that the government wage will be assumed, conceded, but it does not mean that the schedule of mining drawn up by the Miners' Federation will not be discussed. The coal owners have not accepted the premier's invitation to meet to-morrow morning to question. Even if the Welsh owners stand aloof it is granted that the English accept. The conference will meet to-morrow afternoon, but the representatives are not expected to agree to any reduction of the miners' schedule of rates, because determining the rate is a matter of the miners' ballot of the miners' settlement of the strike can only if the owners agree to the miners' schedule, which is probable.

Miners to Vote The most hoped for from the fact that some basis of agreement has been reached for the minimum rate, which will be a ballot of the miners' settlement of the strike can only if the owners agree to the miners' schedule, which is probable.

National Notice to Quit At present, almost the entire notice to quit work of the miners there are probably 1,000,000 persons idle, and the strike is prolonged throughout the half of Great Britain. The courts are spread now, and the courts are already showing signs of being overwhelmed with judgments and summary

A GLOOMY OUTLOOK A world-wide strike of miners is threatening possibility that the coal supply of the U.K. will be cut off. The notice of the U.K. of Great Britain, 1,000,000 more while 2,000,000 more miners have had, performed by the unemployed. The coal mine owners have 175,000 strikers and have quit in France on a 50 cent. Thus the prospects of Europe are more gloomy at any time since the war went out.
