CANADIAN HOSPITAL BOMBED HUNDREDS BURIED IN DEBRIS

Nothing More Awful Has Occurred in Annals of Hospital
 Service Since War Began.

WITH the British Army in France, May 31.—Early on Thursday morning German airmen bombed another hospital—this time a Canadian institution—and exacted a considerable toll of casualties. The raid occurred at 12.30 o'clock in the morning. The hospital attacked was a large one. It had been in existence since the early days of the war and was marked by huge red cross signs. The German airmen were working partly by the light of the moon and dropped four bombs near the hospital and, then not apparently seeing exactly where they were hitting, lighted a brilliant flare, which was let fall to illuminate the surroundings.

Wing Demolished.
 As the place was lit up by this flare, they released another bomb or two which dropped squarely on a large wing of the hospital. In this wing there were three floors on the bottom, one of which was the operating room. On the storey above, were the office and patients' room and above them were members of the hospital personnel. Part of a wing was demolished by the terrific explosion and many unfortunate people were killed and wounded when the building collapsed and buried them.

Strange to say, those who were on the top floor had better luck than those below them and several escaped because they fell on top of the debris.

The surgeons were just about to operate on an aviation officer. All those in the room were buried under an avalanche of brick and woodwork. The demolished wing caught fire and burned fiercely, with many victims still pinned in the wreckage.

Nothing more awful has occurred in the annals of the hospital service since the war began. Every available person in the neighborhood was called out to assist in the rescue work, and two fire brigades were called in. With the assistance of ladders and other fire apparatus, the hospital proper was rapidly emptied of patients and personnel. It was a desperate situation. A roaring furnace represented what was left of the big wing.

Scores of people worked frenziedly at the flaming mass of twisted timbers in their attempts to reach those entombed, and many unconscious forms were carried out by heroic men who risked their lives to reach them. Excellent work on the part of the firemen finally resulted in the fire being extinguished, but there were still many people, including more than one sister, buried in the ruins. There was no hope that they were alive.

GERMAN ADVANCE IN JEOPARDY SO LONG AS FRENCH HOLD OUT

Altho a Wedge Has Been Driven Into the Allied Line for Ten Miles on the Marne, French and British Troops Are Holding Flank Positions Gallantly—Occupation of Chateau Thierry Marks Beginning of Turning Movement Towards Paris.

PLUNGING southward, with its momentum still unspent, the German war machine has driven its wedge into the allied lines along the front until its apex has reached the Marne River south of Fere-en-Tardenois. The desperate efforts of the French and British to stem the tide against the invaders have served only to slow down the rate of speed of the German advance; the defenders of the heights north of the Marne seem to have been swept aside in the rush of the enemy toward the road to Paris.

Aside from the movement of the German armies southward, two other significant incidents of the tremendous battle have occurred. One is that the Germans have extended their attack to the northwest, along the Ailette River, from which the French have fallen back for some distance. The other is that the battle has extended to the east of Rheims, which city, during the first few days of the battle, formed the extreme eastern end of the line of battle.

Along the sides of the salient formed by the rapid German advance to the Marne, the French and British have been holding their positions gallantly. South of Soissons, the French have defended their line with such vigor that the Germans have not made much impression upon it. On the other side of the battle area, the British are still holding the forts of Rheims and positions just west of that war-stricken city.

Between the extreme sides of the salient the front sags toward the south, the line from Rheims to the Marne running to the southwest at a gentle angle, while the French are holding a front at right angles to the direction of the German advance.

The spirit of the allied troops is marvelous under the circumstances. The correspondent saw French and British battalions who had just come out of the terrible struggle, singing along the road, in spite of their exhaustion.

A story just to hand tells of the heroic conduct of three French battalions which were surrounded in the forest of Pinon Monday. They entrenched themselves, determined to resist until the end. Success could not be sent them. Their rifles and machine guns were heard for many hours. The last message from them came Tuesday afternoon at 2 o'clock by carrier pigeon. It said they would hold out until the last. It is probable that when their ammunition became exhausted the survivors were captured.

GERMANS GAIN MARNE RIVER UPON FRONT OF TEN MILES

Desperate Fighting for Chateau Thierry---Rheims Apparently Must Fall Soon---Enemy Rapidly Uses Up Reserves---Many Divisions Thrown in by Crown Prince.

London, May 31.—A statement given to the Associated Press tonight by a high military authority, expressive of the opinion of the British general staff of the situation on the western front, says:

"The main German offensive has been directed toward Chateau Thierry and Dormans. The Germans have reached the right bank of the Marne in a front of ten miles from a point west of Chateau Thierry to Dormans. They have not captured Chateau Thierry, but are attacking very heavily here and to the northward."

"They already have captured Soissons and yesterday they extended their attack northwest to Noyon and forced the French back, so that the line now runs almost straight from Noyon to Soissons."

"Around Rheims the position is still somewhat obscure. Probably the Germans already have entered Rheims."

Situation Round Rheims.
 "The French reported yesterday that the allied line had retired to the south of the canal near Rheims, but this morning there was news that the British were resisting north of the city. The new development is that German attempt is to extend the attack east of Rheims, where they were reported attacking last night, but no further details have yet been received."

"The Germans have thrown in every resource in an effort to widen the salient in which they find themselves by attacking its flanks, but on the heights to the west of Soissons the British are making a stand south and southwest of Rheims. These efforts thus far have held the German salient to a narrow width."

"The situation is very anxious, not only because the Germans have made such rapid progress—an advance of 25 miles in four days—but also because they still have such large reserves available to be thrown in at any point."

"The Germans' big attack began May 27 with about thirty divisions on a front of 35 miles from Bernicourt to Leully. This front was held by seven allied divisions, of which three British were on the right and four French on the left."

After Short Bombardment.
 "After a bombardment of two hours, which appears to have been very effective in cutting our wire, the Germans assaulted. They overran the French front lines. The British held in their second line at first, but

eventually were compelled to fall back to conform to the French alignment.

"The Germans advanced very rapidly, crossing the Aisne, altho the French had occupied very strong positions here, with three divisions commanding the river crossings."

"Since this time the crown prince has done the utmost possible with his group of armies to push forward. He has thrown in every reserve division he possesses, with the aim of pushing thru to the Marne and cutting the important railway to Chalons."

"Our transport of reserves has worked very well, and there is every reason to hope that Germany will not make any further progress at this point until the situation must remain as anxious as long as they have plenty of reserves available. The immediate future depends on what course the enemy adopts."

Crown Prince Uses Reserves.
 "The crown prince has used up practically all his own reserves, but could get a few from the army corps to the eastward. But the great bulk of the German reserves are to the north. It remains to be seen whether the enemy will use them to develop a success toward Paris or to pursue his original intention towards Amiens with the aim of cutting the allied armies in two."

"The Germans have the initiative. The crown prince has on his left the army group under Gen. Von Gallwitz, and to the left of Gallwitz is the army group under Duke Albrecht of Wurttemberg. Neither of these army groups has been engaged. Some reinforcements for further efforts by the crown prince could be obtained from these armies, but the bulk of the German reserves are in Prince Rupprecht's group to the right of the crown prince, and they are very formidable in strength. The enemy may put them in to exploit the success already gained and push in the direction of Paris, or he may continue his effort thru Amiens."

"The question has been much discussed during the past few days as to whether this German attack was a surprise to the allies. It cannot be called a complete surprise, for the fact that the concentration in Laon area was well known. But until a day or two before the battle we had no indication that an attack on a big scale was impending. The Germans deserve full credit for maintaining secrecy regarding their plan."

"The main masses of men were brought up to the actual front lines on the night before the attack, which

was preceded by only a two hours' bombardment for the purpose of cutting our wire. The Germans are not making the same use of their artillery as heretofore. They are using trench mortars in large numbers for wire cutting."

"The Germans were very skilful in keeping secrecy and in bringing up their troops at night. They had prepared for an attack on this part of the line for a long time, constructing the necessary gun emplacements and assembly places so that our aircraft did not observe any construction of new trenches or emplacements just before the attack. The German use of artillery before the attack was of a different character than heretofore."

"Their guns did not register on definite targets, but selected merely a wide area and shelled it continuously. It has always been difficult for aircraft to obtain definite strategical information. Thus in 1914 armies found it very hard to detect columns on the road, and much doubt existed as to the actual front covered by the German advance in Belgium."

"Under the conditions which prevailed in the region of the Chemin des Dames, an initial success could hardly be prevented. Nor can it be prevented anywhere where there are not adequate reserves immediately available."

"The allies have these disadvantages: First, they are inferior in numbers; second, they are acting on exterior lines; third, they have many vulnerable points; fourth, north of the Somme, they have little footing in which to manoeuvre."

"It is not fair to blame the high command when the allies have inherited an unfavorable strategic position. If it is said that the high command placed three tired British divisions on an exposed part of the front, it must be remembered that this disposition was made with full agreement of the British headquarters."

"Questions such as the bases of supply and communication have to be taken into account in the employment of troops. Until fresh reserves of the Germans have been engaged somewhere the situation must continue anxious."

ADVANCE IS IN JEOPARDY.

The occupation of Chateau Thierry marks the beginning of the expected turning movement toward Paris which the Germans were believed to have planned. If the town has been taken in its entirety, the Germans may be expected to move down the Marne. Before they can go far in this direction, however, it will be necessary for them to break the French lines south of Soissons, for as long as the French stand along the Soissons-Hartennes road, the German advance is in jeopardy. The Germans, however, claim already to have crossed this line. The attack along the Ailette may be the beginning of a movement that will seek to prevent the French from making a heavy attack somewhere in the neighborhood of Soissons.

General Foch, the commander-in-chief of the allied forces, has not as yet brought his reserves into action. All reports from the field of battle tell of the allied forces being vastly outnumbered.

45,000 PRISONERS CLAIMED.

The German official report claims that over 45,000 prisoners and more than 400 guns have been taken by the Teutons since the beginning of the battle on Monday, not counting large numbers of machine guns. This may be compared with the Germans' claim of more than 90,000 prisoners and over 1300 guns captured from March 21 to April 5 in the Picardy battle.

German airmen have been adding horrors to the fighting by their deliberate attacks on hospitals back of the allied lines. One large receiving station behind the American positions in Picardy has been bombed. A Canadian hospital was also attacked and partially burned by another German raiding party.

Disorders in Ukraine are reported. It is stated that several villages near Kiev were drenched with poisonous gas by the Germans and that whole communities were asphyxiated.

The United States transport, President Lincoln, a former German liner, has been torpedoed and sunk while on a trip to the United States from Europe. The vessel sank within an hour after being struck by the torpedo, but the number of lives lost is not yet known.

CHECKED BY COUNTER-ATTACK.

South of Soissons the enemy attempted a renewal of his push, but came in contact with French troops, which thrust him back, notwithstanding his employment of numerous tanks. The French here executed a vigorous counter-attack which caused great confusion and losses to German battalions and made the enemy hesitate. No progress was made.

In the centre the Germans are placing great faith in their immense superiority of numbers. An added advantage is that they carry a number of light and heavy machine guns. They evidently are abundantly supplied with ammunition as they kept their guns going at all times. Ville-en-Tardenois was a target for the few cannon they were able to carry forward with them during their rapid advance. Their incendiary shells started a fire in that town, or its immediate vicinity, as the correspondent witnessed large clouds of smoke there, while frequent shrapnel burst overhead.

HELD UP WEST OF RHEIMS.

Farther eastward, in the vicinity of Rheims, where the united French and British columns are resisting, the enemy appears unable to make any advance, except when the allies are ready to recede to readjust their line when neighboring troops fall back.

In the allied staff headquarters visited, the officers are full of confidence that the battle soon will turn in the favor of the allies, notwithstanding the present great superiority of the German of-

Fighting Starts on New Section of Line

With the French Armies in France, May 31.—Fighting has been begun on a new section of the battle line in the region of the Ailette River, between the Aisne front and the front of the German attack in March. Owing to the ability of the enemy to bring to bear a large concentration of artillery and the use of poisoned gas shells, the allies were obliged to withdraw slightly.

The fan-like formation of the enemy movement was pushed out on the sides and in the centre yesterday, covering more territory. The allies are falling back slowly before enormously greater numbers.

Aviators report great activity on the roads all along the rear of the German advanced forces, as fresh enemy divisions are hurried forward to take the place of exhausted units. The allied airmen are doing splendid work, harassing the German reinforcements and supply columns by making attacks from low altitudes with machine guns. The German aviators are very numerous in this region, and aerial combats are occurring constantly.

In the central part of the battlefield the enemy, finding that before him were only tired troops which had fought day and night since Monday, was able to make another leap forward toward the Marne by penetrating the thin allied line with small bodies of selected men armed with light machine guns.

The battle has now developed almost purely into an infantry fight. The artillery in action appears to be only of about the same amount as is usual on a quiet sector.

VIOLENT DIVERSION.

While continuing their strong pressure on the centre of their line, the Germans today began a violent diversion on the western wing along the Ailette River, where they advanced nearly five miles. The reason for this new push is probably because the Germans feared a counter-attack in that region that might endanger his forces now contained within the bulging salient where the enemy progressed during the first day.

The allies chose to recede, leaving in the possession of the Germans a patch of territory approximately stretching from the extreme limit of Varesnes, on the Oise, passing by Blancourt to Epagny.

COMBATS FAVOR ALLIES.

In the vicinity of Soissons further combats of extreme violence today ended in favor of the allies. In this region the resistance of the French division was the absolute acme of heroism, fighting as they were, against odds immensely superior.

All the men seemed to know that where they retire it is simply for strategic purposes. They say: "We may be told soon to hold firm and we will do it." The same is true thruout the forces which are retiring.

The eastward flank of the allies is showing wonderful tenacity, not only preventing the Germans from advancing, but even counter-attacking and retaking important points. Officers and men at these critical periods participate in all the dangers of personal combat in which the enemy has lost fearfully.

Paris, May 31.—German attacks on French positions on the right bank of the Ailette River have been repulsed. The Germans have reached the Marne, light detachments having penetrated as far as the river between Charleville and Joulgonne. On the right flank of the battle area the situation is unchanged, which is also the condition west and north of Rheims, according to the official statement issued by the war office tonight.

The statement reads:

"On our left wing, in the region of the lower Ailette, the Germans have continued their pressure during the course of the day. Our troops have broken all enemy attacks in the region of Blancourt and west of this locality. The enemy, who had succeeded in crossing the Oise east of Semepigny, was repulsed on the right bank of the river. The principal effort of the enemy has been in the sector of Soissons and further to the south, in the direction of Neuilly St. Front. To the west of Soissons our troops have delivered vigorous counter-attacks and have arrested all the enemy's efforts, inflicting severe losses. The enemy was unable to make any progress in this direction. On the other hand, the enemy has been able to win some ground to the west of the road from Soissons to Chateau Thierry, and in the direction of this town he has passed Oulchy-La-Ville and Oulchy-Le-Chateau.

"In the centre weak German forces have reached the north bank of

"In the region of Dorian and near Dobropolje, the British and Serbian troops have carried out with success a number of raids, bringing back prisoners."

NO ENEMY RELAXATION.
London, May 31.—Reuter's correspondent at French headquarters, telegraphing Friday morning, says:
"There is no sign of relaxation in the German pressure. On his right, in spite of gallant resistance, the enemy has been able to push out his line north and south of Soissons on both sides of the Aisne. In the centre his advanced parties are still progressing."
"Along the whole of the front detachments of German infantry are filtering steadily thru the woods and along the valleys, wherever they can find a weak spot in the thinly held French line."

GREEKS CAPTURE SRKA DI LEGEN IN BIG ENGAGEMENT IN BALKANS

Over Fifteen Hundred Germans and Bulgarians Taken Prisoner North of Salonica

London, May 31.—More than 1500 German and Bulgarian prisoners, among them 33 officers, and a large quantity of war materials have been captured by Greek troops on the Macedonian front, according to an official communication received from Salonica tonight. The statement says:
"Greek troops, supported by French artillery, have captured the strong enemy positions of Srka di Legen, on the Struma front, on a width of twelve kilometres and to a depth of two kilometres. More than 1500 Bulgarian and German prisoners were taken, including 33 officers. A large quantity of material also was captured."

SUCCESSION DUTIES REACH HALF MILLION

By the death of John McMartin, M.P. for Glengarry, who left an estate valued at about \$4,000,000, the Province of Ontario will benefit to the extent of over \$500,000. The estate will be required to pay duty in an amount around that figure.
The executors, the Trusts and Guarantee Company, Ltd., Duncan L. McDougall, manager of the Bankers' Bond Co. of Toronto, Alexander L. Smith, barrister, Cornwall, and the widow and daughter of the deceased, have given a bond to the provincial treasurer for \$500,000 as security for this amount.
This is a very large estate for this country, and the bond is believed to be the largest in amount ever accepted by the provincial authorities for this purpose.

RAILS FOR VIADUCT HAVE NOW ARRIVED

At last the rails, or rather part of them, for the Bloor-Danforth viaduct, have arrived in the city and are now on the Toronto Street Railway siding on the Esplanade. Labor conditions and the great demand for steel in the States were the causes of delay. "I am glad to know they are here," said City Engineer Powell last night. "There will be no delay on our part in laying them."
Fred Hubbard, assistant to the manager of the Toronto Railway, said the company would deliver the rails to whatever point the city desired. "I don't imagine," he added, "they want them all at once. That would necessitate extra handling. However, the city's wishes are agreeable to us."

BOHEMIA IN THROES OF GENERAL RIOTING

Internal Disorders of All Kinds Increase—Police Officers Burned to Death.

AUSTRIAN STATE IN CRISIS

Italo-Slav Entente Daily Becomes Stronger in Bosnia—Appeal to Conservatives.

London, May 31.—Riots and internal disorders of all kinds are increasing in Bohemia. A Vienna newspaper says that what is happening today in Bohemia resembles the Lombardy and Venetian uprisings in 1840, except that today the empire is hampered by her engagements in a war from which she does not see a way to escape.
At Chosenow, exasperated by police brutality, set fire to the barracks and to the city hall, where the mounted police were lodged. Eight of the officers were burned to death. At Kolin the people pulled down the Austrian flag and raised the Bohemian flag. Public buildings have been burned at Tabor and other towns in Bohemia, and in Olmutz, Moravia. At Prague the offices of the German newspapers, the Zeitung and Neueste Nachrichten were sacked.
The Prague correspondent of the Stuttgart Neueste Nachrichten telegraphed to his paper that the events of last Sunday at Prague exceeded in gravity all the previous demonstrations.
The Neue Freie Presse of Vienna appeals to all conservative elements for the preservation of the Austrian state, asserting that "only the tenacity and union of those who desire the preservation of the state can make the monarchy survive this great crisis."
The Croatian press reports that martial law has been proclaimed in Bosnia, and that the Italo-Slav entente is daily becoming stronger.

BOASTED OF "VICTORIES."

Montreal, May 31.—The largest party of alien enemies, twenty-one in number, yet sent to the internment camp at Kapuskasing, have been rounded up in this city this week for boasting of German "victories."

John Ross Robertson.

In many ways John Ross Robertson was a landmark of Toronto more than any described in his book about them. A singularly unique character, whether judged by himself or his newspaper, vigorous as he was, devoted to the Telegram to Toronto, they did not always reflect the spirit of this place. It is broader, more tolerant, of clearer vision, not given to seeing thru glasses specially ground. Nor can any sufficient excuse ever be offered for manhandling those that crossed the path of his paper or his views. And yet Mr. Robertson was an outstanding figure: charitable in a private and in a public way; sincerely devoted to the welfare of his native town and province. He thought most of his independence as a journalist and as a citizen. And the independent citizen, still more the independent journalist, is to be counted among a country's most precious possessions. This was his supreme merit.
The Hospital for Sick Children will be his best memorial; devotion to Masonry will keep his name green in the hearts of the craft. His historical and art collection of Toronto and Canada is a storehouse that only indefatigable effort could achieve. Indefatigable in everything he attempted, even in his criticism of those in public life that he deemed to be against the policy of his paper. Yet, withal, a most worthy citizen.

CYCLIST IS FATALLY INJURED BY MOTOR CAR

H. D. St. George Dies in Western Hospital as Result of Fractured Skull.

Another motor fatality was added to Toronto's large list when H. D. St. George, 114 Westmount avenue, died about 10 o'clock last night in the Western Hospital from a fractured skull and internal injuries as the result of being knocked from his bicycle by a motor car driven by Peter Simon, 1060 East Gerrard street. Simon was arrested following the accident on a charge of manslaughter.

MURDERED MAN'S FATHER INJURED IN RUNAWAY

Henry Tucker, Orangeville, in Precarious Condition as Result of Brave Act on Street.

Henry Tucker, Orangeville, father of Geo. H. Tucker, whose lifeless body was found on May 19 in a box car at Weston, after being stabbed to death, lies in Dufferin Hospital in a precarious condition as the result of his efforts to stop a runaway team on the streets of Orangeville last Wednesday. Mr. Tucker is a teamster, and was driving up Mill street from the station when he saw the other team coming at a breakneck speed towards him. Pumping off his wagon Mr. Tucker made a brave attempt to stop the frightened animals. He stood his ground while the horses charged straight into him.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

Two events marked the battle in northern France yesterday, the reaching of the Marne by the Germans, and the driving of the French back to the southern banks of the Oise and the Aisette Rivers. The attack on the Chemin des Dames to Noyon, is a sequel to the advance from the French lines to the west in an awkward salient, and the enemy attempted to flatten it, but the French retired in time to escape disaster. On the Marne, or in the centre, the Germans hold the left bank on a front of ten miles, and they are trying to widen their front there by attacking Chateau Thierry. They gained some ground near Chateau Thierry in furious assaults. West and south of Soissons the Germans made their principal efforts, and failed. They also failed to reach Rheims on the allied extreme right, but the allied position is there so awkward that they may have to surrender Rheims.

FALLS OFF SMOKE STACK.

Thomas Thompson Dies in General Hospital as Result.

As the result of falling off a smoke stack at the British Forgings Company's plant, foot of Cherry street, yesterday, Thomas Thompson, 475 East Queen street, died at midnight in the General Hospital. Thompson, it is understood, was repairing the stack when he missed his footing.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

The enemy, however, has still large masses of men collected in the north, ready for throwing into the battle at any point. This is one of the factors that are making the situation an anxious one for the allies. The other factor of anxiety is the rapidity of the German advances. To these may be added the fact that the enemy has not really disclosed his strategic designs, and until he does the allies must act with caution. In this campaign he has three geographical objectives. These are, first, the channel ports; secondly, Amiens, and thirdly, Paris. The attainment of one of these alone would be a big advantage to the Germans.

Srka di Legen, which was a strong Bulgarian position on the Struma front in Macedonia, has fallen before a Greek attack. The net advance made was a mile and a quarter on a seven and a half mile front. The Greeks took 1500 Bulgarian and German prisoners and a large quantity of war material. The official communication issued from London does not indicate whether this is merely a large isolated local action, or the beginning of a general offensive. It will shake up the enemy, however, and make his staff anxious about the back door of Austria-Hungary.

According to the German count, they have taken more than 45,000 prisoners and more than 400 guns, besides large quantities of war material. The chief loss to the allies is prisoners. The Germans, however, often count their prisoners and spoils two and three times over. The country in which the fighting has run has

SATURDAY MORNING, JUNE 1.

On the Old Battle Ground.

Once more the Germans have touch-
 ed the Marne valley. It is an ancient
 battle ground, and as a French writer
 said the other day the Germans are
 good. It is impossible to say what
 General Foch has in mind, but the
 holding of the Tanks at Soissons and
 Rheims look like part of a plan. The
 Germans report progress from Noyon
 to the Marne, but they have created a
 narrow salient for themselves, and
 are not as secure as they may think.
 Much depends on the relative
 strength of the opposing forces. We
 must not forget that loss of territory
 is nothing compared with the in-
 tegrity of armies. If the Germans
 make a false move, we may be as-
 sured that General Foch will have a
 lightning stroke to take advantage of
 it. On the other hand, he is going
 to take no risks in a premature ac-
 tion in a war of manoeuvre such as
 the campaign has become, when, by
 delay and side-stepping, he can await
 the arrival of the forces from America
 which will give him equality or an
 advantage in numbers. Meanwhile
 the Germans pay high for all they get.

Chief Grasett and Howard Street.

Chief Constable Grasett gave an
 offhand opinion to the board of con-
 trol on Thursday that he thought that
 the concentration of all the wheel
 traffic to and from the new Bloor
 street viaduct on Howard street would
 be quite safe.
 This is utterly at variance with the
 views of Commissioner Harris and
 Chief Smith. Perhaps the chief con-
 stable has reference to the traffic as
 it is at present, and not as it might
 be in the future when the tremendous
 east and west traffic over the viaduct
 is in full swing.
 It might also be advisable for the
 chief constable to take a look at the
 wheel traffic on the Lake Shore road,
 and on upper Yonge street on fine
 evenings and on Sundays, and at the
 same time to bear in mind the sharp
 turns involved in getting to and from
 Howard street, and the fact that the
 pavement is only twenty-four feet
 wide.

Have You Got Your Coal In?

We are at the close of the month of
 May. It was a month when it
 was anticipated, after the experience
 of last year, that the transportation
 and delivery of coal would be rushed
 to the greatest possible extent. From
 the reports and complaints that have
 been made it appears that the rail-
 ways are very far from fulfilling
 their possibilities in this respect, and
 the month has gone past with a mini-
 mum rather than a maximum of coal
 traffic.

Last week there was a series of
 complaints made about delays in un-
 loading coal cars, and the unfruitful
 process of "passing the buck" was
 resorted to when explanations were
 sought. The railways blamed the
 dealers and the dealers blamed the
 railways, but the cars sat for weeks
 unloaded. This is not business. No
 matter who is responsible or who is to
 blame, when a car has sat for a week
 without being unloaded there should
 be a paramount authority which could
 order it unloaded in a yard some-
 where, and the car sent on its jour-
 ney. The onus of the cost could be
 determined afterwards.

It is said that the dealers do not
 order coal because the public do not
 send in their orders. There is an
 excuse for people expecting to move,
 but for those of settled residence
 there should be no failure to get in
 coal supplies at the earliest possible
 moment. Midsummer will be here in
 three weeks, and in four months
 many people begin to think of fires
 again. There must be co-operation
 in this matter. The coal dealers
 should canvass their regular custom-
 ers and get all the usual trade out
 of the way at as early a date as possible.
 The casual trade will give plenty of
 worry when the cold weather returns.

Mr. Robertson's Avocations.

Inseparably associated with the
 civic and social history of Toronto,
 the late John Ross Robertson is prob-
 ably the most outstanding native the
 city has produced. Born in 1841, seven
 years after the municipality was
 chartered, he made it his task to col-
 lect every scrap of information, and
 every graphic memorial of the early
 days of Toronto that could be found.
 His collection will in itself perpetuate
 his memory with more security than
 possibly any other memorial could
 while the city lasts.
 Six volumes of "Landmarks of To-
 ronto" form a rough record of the
 pioneer times and the development of
 the city in later times. Mr. Robert-
 son often expressed a wish to see this

mass of material organized and
 thrown into orderly form, but it will
 always constitute a mine of value in
 which future chroniclers may dig.
 The pictures associated with these
 volumes are a most interesting and
 valuable collection in the public re-
 ference library. The paintings in the
 corridors of the city hall which Mr.
 Robertson had done, showing the city
 and its location at different stages of
 its development, are also of historical
 value.

In philanthropic work Mr. Robert-
 son's memory is also secure as found-
 er of the Hospital for Sick Children.
 His benefactions to this institution,
 and to the Nurses' Home associated
 with it, were continued up till the last.
 He was also very widely known as
 an authority on Free Masonry, and his
 reputation in this respect was practi-
 cally world-wide.

Some years ago he did excellent
 service by editing and publishing the
 diary of Lady Simcoe, the wife of the
 first governor of Upper Canada. He
 had in contemplation another volume
 dealing with Governor Simcoe himself,
 but the war delayed this work. Mr.
 Robertson visited Devon in connec-
 tion with this work, and he traveled
 extensively in Great Britain, having
 a warm interest in the Hebrides, and
 his mother's native place, Skornoway.
 Thus, with a fervid attachment to his
 own native city he became a great
 imperialist in his interest in the old
 land.

Freedom of Sea and Land.

It is related of a German prisoner
 recently when asked what he was
 fighting for that he replied, "The
 freedom of the seas." He was told
 that the seas were always free to
 his nation, and till the war began
 there never was any restriction put
 upon his naval or mercantile fleet.
 "But we want freedom of the seas
 now," he replied. This is the whole
 war in a nutshell, and the answer to
 the statement is that the rest of the
 world wants freedom of the land. Not
 freedom of their own land, or their
 homesteads, their pleasant villages,
 their little towns, their ancient cities
 and historic shrines. And all that the
 Germans want freedom of the seas
 for is to deprive other people of that
 freedom, not to freedom of the seas
 only, but freedom of the land, free-
 dom of speech, freedom of law, free-
 dom of life, freedom of everything.
 Freedom of the seas at this time
 for Germany would mean the Ger-
 manization of the world, and how-
 ever low humanity may have sunk it
 does not deserve that doom. The
 freedom of the seas must therefore
 be maintained in the hands of those
 who acknowledge and value freedom,
 and who mean by it something more
 than the right to promote their own
 aggrandizement.

History has shown that it is indi-
 viduals who pursue this selfish policy
 —kings, emperors, tyrants of one kind
 or another. The people of any land
 left to themselves, and not led into
 it by some autocratic and ambitious
 person, have no wish to curtail the
 freedom of any others. A universal
 democracy or federation of democra-
 cies would speedily follow the elimi-
 nation of the autocratic element in
 governments.

Germany can have freedom of the
 seas, such as she has always had, and
 freedom of the land as well, just as
 soon as she makes her mind up to get
 rid of the Hohenzollerns and all other
 kaiser clan that has been responsible
 for the desolation wrought upon Eu-
 rope, Belgium has the right to free-
 dom of her own land, and so has
 France, and Serbia, and Poland, and
 Russia, and Armenia, and all the
 other lands that Germany seeks to
 dominate and secure to her tyrant
 rule. The key to the security of this
 freedom of the land is a freedom of
 the seas which will be freedom for
 honest purposes and not freedom for
 piracy and the depredations with
 which the German Empire has be-
 come associated.

NEW ZEALAND SENDS BIG STATIONERY ORDER

Another example of the business
 the war has diverted to Canada is
 shown in the order the Dominion
 Envelope Company received from the
 New Zealand Government for six mil-
 lion envelopes. Previously all station-
 ery for the Antipodes was bought
 in England, but the mother country
 at present is not in a position to
 handle the orders. Last year over 25
 million envelopes were shipped by
 this firm to South Africa and India.
 All this stationery has to be packed
 in special metal boxes to protect them
 from moisture in going overseas. Mr.
 Hunt, an Australian government in-
 spector, is in town looking over the
 shipment to see that it is up to
 specifications before being sent.

WILLS ARE PROBATED.

Several Estates Include That of
 Soldiers Killed in Action.
 An estate of \$2128 left by Mrs.
 Orpha Ann Moffatt of Weston, will
 be shared equally by her son Fred
 and her daughter, Mrs. Ecclestone.
 Allan Moore Sierra, who died in
 Orangeville, left property to the value
 of \$17.50 to his brother, who resides
 in Camilla.
 Mrs. Margaret Wilson died in To-
 ronto, leaving real estate and other
 property worth \$1432. Her husband
 will get one half of it, the rest going
 to her father, brother and sister.
 Fie. W. T. Dunn of Newmarket,
 who was killed in action, left a lot in
 Sudbury to his wife, valued at \$275.
 F. J. Barter, a bricklayer, died in
 Grace Hospital, as the result of an
 accident, leaving \$302 for his wife and
 four children.

The Silent Newspapers and Public Ownership of Railways

The Ottawa Journal-Press, which in
 the past has wobbled more or less on
 public ownership, finds no argument
 against railway nationalization in the
 sharp increase in railway rates an-
 nounced in Washington. It says that
 the government did not take over the
 roads in order to lower the rates, but in
 order to make the transportation system of
 the country efficient. The increased cost
 of operation furnishes a reasonable ground
 for increasing the rates, and the more so
 because the government is using public
 money for replacement work and equip-
 ment. Everything in the way of a cap-
 ital charge is being paid out of the treas-
 ury, but it is only fair that the in-
 creased cost should be borne by the
 shippers and passengers who use the
 roads.

The Journal-Press also points out that
 if the higher rates produce a surplus, that
 surplus will go into the treasury. If, on
 the other hand, there is a deficit, the
 government will be made good by the gov-
 ernment. Under private operation the
 surplus produced by excessive rates would
 go into the pockets of the shareholders,
 and yet, in the case of a deficit, the gov-
 ernment would be appealed to to make
 up the deficiency.

The question is all the more important
 because the readjustment of wages in the
 United States will lead to a demand for
 an upward revision of the wage schedule
 for railwaymen in Canada. Any effort
 to further raise rates in Canada will be
 bitterly resisted, because such increase
 will ensure unduly to the profit of the
 Canadian Pacific Railway Company. Not
 until all the roads are brought under gov-
 ernment ownership and control will the
 shippers of western Canada submit to
 an increase in passenger and freight
 rates.

The Toronto Globe arouses itself from
 slumber long enough to observe that we
 are passing into a new era, so far as the
 railways of Canada are concerned. It
 glimpses the fact that all the railways of
 the country, with the exception of the
 Canadian Pacific Railway Company, are
 being brought together into one system under national
 control, and gives to the government
 some vague and platitudinous counsel, as follows:

Serious responsibility confronts the
 government. The choice of the man to
 direct the management and determine
 the administrative policy of the new
 national railway system will be the best
 choice for the best thought and
 endeavor. He should be a man in the
 prime of life, endowed with wide
 political and administrative ability—a
 man altogether divorced from party
 politics and thoroughly imbued with
 the principle of public ownership. The
 government should make it its business
 to find such a man for only by
 doing so can the Dominion properly in-
 augurate and successfully carry out the
 great policy of the Canadian Northern
 to usher in a new railway era in Can-
 ada.

Not long ago our good neighbor gave
 advice to the government more definite
 and concrete. Instead of vaguely recom-
 mending a man "in the prime of life,"
 the Globe pointed out as a proper per-
 son an estimable gentleman, partially
 blind from a passing affliction who had
 reached the ripe age of 56. It did not
 then think it necessary that the direc-
 tor-general of railways should be a man
 "thoroughly in sympathy with the principle
 of public ownership"; indeed, it preferred
 a man who had spent all his life in the
 service of private corporations. It then
 resulted an idealist, a blue-eyed hero
 from Milwaukee, in the person of Baron
 Shaughnessy, president of the Canadian
 Pacific Railway Company. Lord Shaugh-
 nessy, it thought, was the one man to
 run the national railway system, into
 which the C.P.R. was to be absorbed with
 highly-favorable terms to its sharehold-
 ers. The Globe in a fine frenzy of poetic
 enthusiasm described the way in which
 the late Sir William Van Horne and the
 then plain Mister Thomas Shaughnessy

west around the country in the eighties
 getting concessions from municipalities
 for the C.P.R. Sir William was fond of
 ceramics and the drawing of caricatures,
 but the future Baron Shaughnessy at-
 tended to the practical end of the busi-
 ness. He had a cold, blue eye, before
 which the rural routes and village coun-
 tils quailed, and he always brought
 home the bacon. Referring to this touch-
 stone tour, The Globe in its issue of Jan.
 28 became moletly reminiscent, and we
 were told:

Those who remember the two in the
 late eighties, as they travel about to-
 gether shaking by negotiation the
 C.P.R. system as we know it today,
 can still recall how the intractable
 Van Horne balked in some favorite
 plan by what he regarded as the silly
 objections of a humorist, and how
 would turn in disgust to the drawing
 of random sketches and caricatures of
 his critics, while the more self-con-
 sidered Shaughnessy, with the cold
 blue eyes and air of finality, took up
 in incisive speech the uncompre-
 hensible details of the details and
 local situations far more thoroughly than
 many of the local people, and upon
 his way to accurate knowledge where
 sometimes Van Horne failed because
 he could not make others see with his
 eyes or project themselves into the
 kingdom of his dreams.

However, we must give The Globe
 credit at present for glimpsing the fact
 that we are passing thru a great econ-
 omic revolution. It may not be doing much
 to help it along or to hold up the hand-
 of the government, but it is certainly
 doing more than most of the newspapers
 in Ontario, and for that matter in To-
 ronto. They are sunk in a lethargy from
 which apparently they cannot be aroused.
 The Mail and The News, which
 pose as organs of the government, ig-
 nore completely the greatest undertaking
 and achievement of the government, out-
 side of the war. The Ottawa corres-
 pondent of The Mail, however, has
 heard in some way that the government
 is going to take over the Canadian
 Northern by reorganizing the board of
 directors, and wires his paper as fol-
 lows:

Ottawa, May 30.—"I should be very
 much amazed to hear anything of the
 kind from the Canadian Northern. It
 is" was the comment of Sir Henry
 Drayton on a report published in the
 Ottawa Journal-Press that the govern-
 ment had selected as chairman of the new
 board of directors of the Canadian
 Northern.

Hon. Frank Cochrane is the prob-
 able choice for the position.
 There appears to be something like a
 conspiracy of silence on the part of the
 press. The World on the other hand
 believes that no more important task
 ever confronted a government than the
 reorganization of the Canadian Northern
 directors. The new directors about to
 be appointed will not only have to man-
 age the Canadian Northern, but they
 will have to take over the management
 of the Intercolonial, the National Trans-
 continental and the road running from
 the National Transcontinental to Port
 Williams. They will also have under their
 supervision a fleet of vessels, many grain
 elevators and a large number of man-
 ufacturing and express services. Before long
 they will have added to this gigantic system
 the Old Grand Trunk and the Grand
 Trunk Pacific. They will have two com-
 plete transcontinental railways to op-
 erate with all the subsidiary services that
 go with them. They will probably ac-
 cept the Canadian Northern, the C.P.R.
 with its great fleets on lake and
 ocean and its mammoth railway, express,
 telegraph and hotel services. They will
 have thousands of employees in their
 service.

The government will have to go some
 way to make big enough use of physical
 vigor for this job, and they will have
 to place the men on it as soon as pos-
 sible. The people of Canada are vitally
 interested. But the silent press will not
 advise them!

NINETEEN-YEAR-OLD MEN'S TIME EXPIRES

Attention is drawn by the Ontario
 registrar to the fact that the time
 when men of the 19-year-old class
 must report to him expires today.
 Six thousand of the men of that age
 have already sent their reports to
 the office of the registrar in Toronto,
 but a substantial number of names
 are expected still, as if post-marked
 June 1, they will be considered valid.
 Married men who were formerly in
 Class Two, but who have become
 widowers without children after April
 20, must report to the registrar with-
 in ten days of becoming widowers
 without children.

It is stated by the registrar that
 category B men who were formerly
 allowed exemption until the services of
 men in that category were required,
 will now get a special form of
 exemption certificate, with the
 wording "until your services are re-
 quired." This means that any por-
 tion of men in B who were disallowed,
 may be called up if required, but
 these certificates will be issued
 shortly for their protection, until they
 are called to the colors.

The Ottawa order-in-council, No.
 918, of April 17, amended the regula-
 tions under the Military Service Act
 in regard to medical re-examinations,
 the effect being that the men con-
 cerned have no longer the right to
 demand a re-examination from the
 registrar. Re-examination may only
 be granted by the registrar when the
 registrar is dissatisfied with the de-
 cision of any medical board or of the
 tribunal. The result is that the only
 time when the men concerned may
 properly apply for medical re-exami-
 nation is at their hearing by a local
 or appeal tribunal. If the tribunal
 considers that any of its members
 re-examination sufficient, the tribunal
 may request the registrar to order
 such a re-examination. Orders so re-
 quested would always be issued by
 the registrar.

The decisions of the medical board
 of review are final, it is pointed out,
 and are subject to appeal only to the
 central appeal judge, and a certifi-
 cate of direct such further medical exami-
 nation as may seem expedient.

WARD TWO APPEALS ARE BEFORE COURT

The court of revision has been in-
 undated with appeals against assess-
 ments in Ward Two. Dr. W. S. Ver-
 rill, 12 East Bloor street, is appealing
 against the increase made on his prop-
 erty from \$275 to \$400 per foot, while
 Mrs. Richardson, who owns the ad-
 joining property, previously assessed
 at \$275, objects to having it raised to
 \$375. Dr. J. M. Cotton of No. 20,
 had been asked the cause, but
 did not tell him in so many words,
 but he shrewdly guessed, and taxed
 me with it.
 "You do care for me, don't you,
 Helen?" he went on.
 "Of course I like you," I said care-
 lessly.

The board of education, which owns
 the vacant property opposite St.
 Paul's Church, assessed at \$111,253,
 is asking for exemption. It is now
 used partly for a playground and
 partly for a school.
 Florence A. Seagram, 51 Aquilath
 avenue, thinks her assessment of
 \$800 too high, as the property was
 bought three years ago for \$350.
 Protests have also been received
 from property owners on Huntly street,
 Meredith avenue, Dale avenue, Mac-
 kenzie avenue, Elm avenue, Castle
 Frank road, Glen road, Dunbar road,
 North Sherbourne and other streets.
 On Summerhill avenue one owner
 says land is selling at less than the
 assessment of \$45 per foot.

RECEIPTS FROM SERVICES.

The total receipts of the services
 held in St. Paul's Church, East Bloor
 street, last Sunday by the Sons of
 England Benefit Society, amounted to
 \$224.40. Expenses were \$32.25,
 leaving a balance of \$192.15. This
 will be donated to the S.O.E. war levy
 fund in payment of funeral claims of
 members killed in action. A resolu-
 tion of condolence was passed at a
 meeting of the committee last night
 with the family of the late John Ross
 Robertson. E. J. Arthur was in the
 chair.

BABY DIES SUDDENLY.

The body of Baby Wynne, of Leslie
 street, was removed to the city
 morgue last night. The child, it is
 stated, took sick and died before a
 doctor could be secured. The body
 was taken to an undertaker, but a cer-
 tificate of death could not be given,
 so the little body was removed to the
 morgue, where an inquest may be
 held.

BUT HOW IS HE GOING TO GET AWAY WITH IT?

THE WOMAN WHO CHANGED

BY JANE PHELPS

Merton Gray's Plea.

CHAPTER XXVI.

I continued to see Merton. Why
 should I deny myself the pleasure his
 society gave me if George didn't
 care? It was the old story of a girl
 marrying a man who gave her less of
 himself than she thought she had a
 right to expect. It seemed to me that
 had given all of myself, my love,
 and had received very little in re-
 turn.
 I suppose many girls would have
 been satisfied with the material things
 George gave me—that they would
 have considered the lovely home, the
 beautiful clothes, the outings, etc.,
 enough. Unfortunately, I was not
 like this. There had been so much
 of tenderness in my own home. Dad
 and the boys were so devoted to
 Mother—so considerate—that I was
 ill fitted to make excuses for the lack
 of this in my own life. So, when
 Merton seemed to enter into my feel-
 ings, to give me the understanding
 which George denied me, I simply ac-
 cepted it as my right, never think-
 ing.

"Where would you go?" I asked,
 evading the question.
 "To Bar Harbor for a few days. I
 think you will enjoy it there. I shall
 be able to be with you more. I am
 not as well acquainted with the crowd
 up there as I am here; they don't
 leave a fellow alone a minute."
 I could have laughed aloud. As if
 anything on earth could make George
 go anywhere he didn't want to! But
 I only said:
 "If it will be as you say, let us go
 at once. I am tired of depending on
 others when I want an escort. It will
 be delightful to have my own hus-
 band."
 He looked at me in a peculiar man-
 ner, but made no remark. When we
 arose from the table, however, he said:
 "You'd better let Celeste commence
 packing. I think we will go Satur-
 day."
 As it was Thursday, it would give
 us little time.
 After he left, I wondered if Mer-
 ton Gray's attentions had had any-
 thing to do with his decision to
 leave Newport. I had enjoyed my-
 self in a way—the novelty, the gay-
 ety; but I had tired of it very quick-
 ly, and then my loneliness had re-
 asserted itself. I had not been at
 all envious, and I realized that I had
 played into Julia Collins' hands, in-
 stead of using the weapons Mrs.
 Sexton had taught me to use. Would
 I ever learn?
 Friday we went bathing in the
 early morning, for the last time. I
 swam away out, then suddenly be-
 came cramped. I tried to attract
 George's attention, but failed. I was
 sinking. Drowning.

A MILD STIMULANT

WHEN you're tired, hot, thirsty and on the verge of an attack of the blues—that's the time your system calls for, and needs, a mild stimulant.

A cool, refreshing drink of something to buck one up, re-liven the jaded nerves and restore the old pep.

Make one feel good all over and reach the "dry" spot.

O'Keefe's Imperial brews are delicious and invigorating. Any member of the family can drink them with relish and benefit. Made under the most cleanly conditions, and by absolutely sanitary processes, Imperial beers are superior to any other similar brews on the market and are as close to the old famous O'Keefe's beers as experienced brewers and exceptional facilities can make them under the Government's regulations.

Ask for Imperial beers at hotels, restaurants, or order by the case from your grocer.

O'Keefe's "O.K." Brand and York Springs Ginger Ales on sale at all hotels, restaurants and refreshment stands.

HOUSING PROBLEM IS ACUTE IN EAST

Real Estate Men Unable to Cope With Demand for Residences.

Real estate is quite brisk in the east end of the city, according to the real estate men interviewed, and concrete evidence is shown in the numerous stores and apartments going up in the Beaches district.

Starting at the city limits and going west, one finds two stores and apartments at Queen and Neville Park avenue, one of which has been sold by A. L. Sanganon to the Reid Drpg Co. At the next corner four stores, with apartments and five brick houses on Innes and Cumplings, who are also erecting ten large brick houses in Glen Stewart Manor, and five brick houses on Innes and Cumplings, who are also erecting ten large brick houses in Glen Stewart Manor, and five brick houses on Innes and Cumplings, who are also erecting ten large brick houses in Glen Stewart Manor.

NEW SOUTHPAWS ROUGHLY HANDLED

Syracuse Stars Have a Big Time With Thormahlen's Offerings—Leafs Lose.

Syracuse, N.Y., May 31.—A brilliant throw to second base by Left Fielder Eckstein, after bluffing a throw to the plate in the ninth inning, which nipped Gilbert Whitehouse, a recruit from the Red Sox Club, who joined the Leafs an hour before the game today, ended a rally by Toronto after one run was over the plate. It was a fine piece of head-work on the part of Whitehouse, for, if he had not nipped Howley's out-fielder, there is no telling what the Leafs would have done, as Wagner was about to get over the plate, and Whitehouse would have been on second and Wagner on first, and two down.

hit by a pitched ball, filling the bases. Thormahlen hit to Weaver, who juggled the ball. Warhop scoring, and still the bases were full, but Bowman put up a fly for Raymond.

Whitehouse in Left. Manager Howley was obliged to shift his line-up again today, starting Bowman at second base and putting Whitehouse in the left garden. Whitehouse made a good impression on the Toronto boys, with a base on balls and a single in five trips to the plate. He also made one nice throw home from left field in the seventh inning, but it was just a bit too late to nip the runner.

THE RICHEST RACE OF YEAR ON TODAY

Kentucky Handicap With Cudgel Favorite and Twelve Carded to Start.

Louisville, Ky., May 31.—Twelve stars of the racing turf are carded to go to the post at Belmont Park tomorrow for the richest race of the year on today, the Kentucky Handicap, the running of all American races for thoroughbred three-year-olds and over. The distance is at a mile and seventy yards; a purse of \$10,000 added money, and will be worth approximately \$15,000 to the winner.

Formen pronounce the field the most uniform in quality in the history of the event. It includes such horses as the Kentucky Cudgel, the crack son of Broomstick, which will carry top weight and go to the post the favorite under the colors of K. L. Ross, the Canadian (trainer); R. L. Baker's King Gorin, which was the race last year and probably will make another bid for it; Mr. Baker's Pif, Jr., which established a new American record here Wednesday for a mile and seventy yards on a circular track; G. M. Handley's Rancher; A. K. Macomber's Mulliner and J. W. Farrier's Midway; King Gorin, Pif, Jr., Hollister and Rancher are believed to be Cudgel's most formidable rivals, but the quality of the field is such that the others will not be without backing.

The entries, the jockeys under engagement, the odds, and the weights are: Names, Jockeys, Weight. Cudgel, L. L. Lusk, 132. King Gorin, M. G. Garner, 132. Pif, Jr., M. G. Garner, 117. Hollister, M. Duxon, 120. Rancher, L. Mink, 113. Midway, J. Kederis, 118. Artie, E. Sande, 108. Guy Fortune, D. Connolly, 108. Beaverkill, O. Willis, 108. Green Jones, N. Barrett, 105. Rodgers, H. H. Thurder, 97. Captain Bee, A. H. Thurder, 97. R. L. Baker entry.

AMATEUR BASEBALL

A high-class double bill is scheduled in No. 1 Section of the Toronto Military League for the half holiday Saturday. Cadet Wing, Long Branch, and Repair Park, both of whom have yet to earn brackets, meet in the opening game. The two undefeated teams, No. 2 special Service Co. and Veterans, will line up for the 4 o'clock attraction.

Manager Gallagher will have his strongest Riverside line up in action next Saturday when his team meets the fast-going Central squad in the first game at Broadview Athletic Field. "Chuck" will play his trump card, Joe Cooney, a Central no-hit fame heavy. Manager O'Neil Stephens will use the latter in an endeavor to defeat the leaders. Stephens stated each night's concert will tie the leaders, is hard at work practicing and will in all probability get into the game himself.

The Broadview team, the weakened considerably by the loss of five of its players to the 49th Battery, including Captain "Hal" Perival, their good second sacker, is expected to give the tough loss, but Manager Hanker, not one to be disheartened, and will make every endeavor to defeat the last year's champions, when they look up at 4 o'clock on Saturday afternoon. Frank Newman has his Athletics in fine fettle and will pitch Lefty Rutledge should the T.A.B.A. give their sanction.

His Majesty King George V. has issued a proclamation to his troops that his birthday, Monday, June 5, be a half-holiday, and that there be no parades or celebrations on that occasion, but that suitable sports be provided for the boys. The Athletics, when they look up at 4 o'clock on Saturday afternoon, will see six of the ten teams of the Toronto Military League. The two teams from No. 1 Section, Stores Depot (R. A. F.) and No. 2 Special Service Co. will meet in the opening fixture, which is billed for 5 o'clock, will be between Recruits' Depot and East Riverdale. This game is called for 1.30. The second game, at 2.30, will be between Recruits' Depot and East Riverdale. The third game, at 3.30, will be between Recruits' Depot and East Riverdale. The fourth game, at 4.30, will be between Recruits' Depot and East Riverdale. The fifth game, at 5.30, will be between Recruits' Depot and East Riverdale. The sixth game, at 6.30, will be between Recruits' Depot and East Riverdale. The seventh game, at 7.30, will be between Recruits' Depot and East Riverdale. The eighth game, at 8.30, will be between Recruits' Depot and East Riverdale. The ninth game, at 9.30, will be between Recruits' Depot and East Riverdale. The tenth game, at 10.30, will be between Recruits' Depot and East Riverdale. The eleventh game, at 11.30, will be between Recruits' Depot and East Riverdale. The twelfth game, at 12.30, will be between Recruits' Depot and East Riverdale.

The fourth week of the Willowdale Park League season will be inaugurated this afternoon when two good teams, the 49th Battery and the 1st Battalion, are drawing record crowds this season. The 49th Battery, who are expected to attend in the opener at 2.30 Wychwood Park, are running second in the league. The 1st Battalion, who are expected to win with one victory and one loss to their credit, while Wychwood have one victory and one loss to their credit. The 49th Battery will be the favorite to win this week and are in the best of condition for this game, and are both expected to win. The St. Francis battery will be Eddie McKee on the mound and Frankie Britton will do the receiving. Wychwood will use their old reliable Joe Lindsay in the box, with Garner behind the plate. Moore and Hillerests are the attraction in the second game and nothing would delight Manager Maxwell more than to see the "Nippers Nine" and if the west-enders play the same brand of ball as they did against the 1st Battalion, the Hillerests are the league leaders and have yet to be defeated in their win column and lost. This is the second time two teams have met this season. Hillerests won 5 to 1. Art Myres or "Cannon Ball" Ed. Scott will be on the firing line for the leaders, and "Buck" Hemmeser on the other end. Earnie Braah will do the flinging for Moore, with Joe Kennedy behind the bat. Joe Brown will handle the pitching.

The amateur baseball fans of Toronto will have an opportunity of witnessing one of the best amateur games of the season when Hillerests and St. Francis clash at Willowdale Park, Bloor and Christie streets, at 8 p.m. on Tuesday night. This is the second twilight game of the season to be played in the "Pit." Over 3000 witnessed last week's mid-week game. This game was originally scheduled to be played on May 25, but was postponed on account of rain.

Cannon Ball" Ed. Scott, of no-hit fame, will do the hurling for Hillerests, and as a number of the fans have not been able to watch this wonder in the Saturday afternoon contests they should not fail to see this game. Eddie McKee, the spittball artist, will be on the firing line for the Saints. Hillerests will practice at Ramsden Park on Monday night at 8.30. All players are requested to attend.

Athletics have been flourishing at Whitby Military Hospital during the spring, and Captain Lou Scholtes, the military athletic director, has received a challenge from Gunner J. H. Dutton, manager of the recreation committee, to bring down one of the teams of the Toronto Military League, promising that the patients will give them a trouncing. A first-class team has been organized, and when the Toronto team arrives it will find a real battle on its hands. The recreation of the patients is carried on by a committee composed of several of the patients, and the boys have a splendid theatre and there is some entertainment staged each night—concerts, movies or boxing tournaments. The four new bowling alleys are proving very popular, and when the Toronto team arrives it will find a real battle on its hands. WOMEN PROMINENT IN NEW PROGRAM

Will Take Large Part in This Year's Canadian National Exhibition.

"It has been a revelation to me the number of activities in which women are engaged," said John C. Kent, general manager of the Canadian National Exhibition.

"That woman is surely coming into her own in evidenced in many aspects of the exhibition this year. The large display posters this year picture a woman in the primitive act of sowing seed by hand. Over her are the words 'Produce and Save.' Through the program, woman in war service, both production by helping the farmer, and conservation, saving for the soldier, has taken a very large place.

In the actual carrying out of the program, woman will again be to the fore. For the time there is to be a day set apart as Woman's Day. Into every phase of the exhibition has the woman spirit permeated. Tickets, selling, ticket taking and gatekeeping will, in all probability, be done by women. The authorities of the exhibition are not sure yet whether or not all these women officials will be uniformed, but the matter is under consideration.

In the day's program almost all the fields will have women doing the work usually done by men. Demonstrations with the cattle and horses by the farm help girls, the "farmerettes," are being planned.

"The women are over-running the exhibition this year," said Joe Hay. "We are learning daily what they can, what they will, and what they want to do in connection with it."

QUEEN TO DISTRIBUTE GIFTS TO SOLDIERS

Prayers for peace, for the sailors and soldiers and nursing sisters marked the final day of the shower to Queen Mary, arranged by the Queen Mary's Needlework Guild, at the parliament buildings yesterday. Mrs. Arthur Van Hornet presided, and reports of the various committees were presented. A resume of the work of the Guild since its inception in 1914, was given by the president, who said that all the gifts donated would go to Queen Mary, under whose direction they would be forwarded to the men at the front.

Mrs. Edmund Macdonald read the secretary's report, in the absence of the secretary, Mrs. Ellis, and the treasurer's report was given by Lady Willison. In receiving the donations, Lady Hendrie congratulated the officers on their success and referred to the work of the school children.

The total contributions in gifts totalled 287,260, and in money \$2,096.63.

CANADIANS SAVED THE HEAVY GUNS

Engineers Repaired Tracks and Blew Up Bridges Under Heavy Fire.

OFFICERS' REPORTS

Destroyed Everything Which Could Possibly Be of Any Use to the Germans.

Ottawa, May 31.—The following article has been received here from Roland Hill:

"Keep the lines clear, save the big guns, then destroy everything." These were the orders that a Canadian overseas railway construction unit got when the Hun's great attack on Belgium was well launched, and the front trench line had in places been driven in, and how we they carried them out is confirmed in a message of congratulatory from their army commander and the awards of one D.C.M., two Military Crosses, one D.C.M., and nineteen Military Medals. The corps headquarters were at Boisjeux when the storm broke. From Boisjeux to Achiet, Fremicourt to Veuil and St. Leger these railway experts, the first to come over from Canada, kept the lines open under a storm of shell fire. Sometimes those heavy naval guns and howitzers, which were from railways, were ahead of the little mobile eighteen pounders, firing their huge shells into the massed Hun ten and fifteen miles away, while their smaller brethren were pounding at the German storm troops only a thousand yards off. The big guns stayed confidently until the last minute, knowing the shell broken line between them would be mended by the Canadian Engineers in time to get away. In every case there was the engine with its Canadian crew ready to draw the monster gun to safety and not a single one was lost, although there were many narrow escapes.

An Officer's Report.

Take the report of a young officer who was responsible for the section near Veuil, northeast of Bapaume; some heavy howitzer batteries there were working feverishly to retard the German advance over the Nord Canal. "Brought up three trucks of ammunition and kept track open from Veuil to Veuil. Monday night had been between eight and ten-thirty (this was March 21) then shifted the howitzers back to Fremicourt."

"That meant three trips over the heavily mended line, thru heavy shell fire with fifty ton trucks, which once ditched could hardly have been got on the track again in time to be saved. From another report, dated Fremicourt, "Repaired two breaks in line in order to get twelve-inch gun in action at Veuil. Repaired track from Fremicourt to Quant. After two hours brought gun back over four broken sections to Vaulx Junction, where it again went into action. Went into forward area and repaired breaks in sixteen places between Veuil and Havincourt in order to get ammunition trains out. Shell fire was very heavy, but luckily we had few casualties. Material very heavy, but managed to get points and rails from old gun spurs." The officer who wrote this is missing.

Too Hot For Engineers.

On the second day of the attack Boisjeux became too hot for the Canadian Engineers and it was decided to abandon camp. Everything was loaded on the construction trains, but the concrete tennis courts.

"We couldn't take them, unfortunately," explained the colonel, "and besides, they were being used. Four sixty-pounders had found them useful and were playing a hot set with the Hun."

Back to Miramont went the whole establishment, and for the rest of the day they worked their steam shovel getting out ballast to use on the broken lines. In spite of intense shelling they managed to load up over a thousand tons, which they found of priceless value later in their adventures.

Working amongst the retreating troops and with the railway lines crowded with traffic up to the last minute, the work of destroying the yards and systems that might be of use to the

Huns was a delicate task. Sometimes the engineers had to wait as a bridge with explosive charges laid, until the last of the light guns or fighting soldiers came across, then blow up the structure while Boche machine guns played on them.

But the work was well done, as the report of another officer from Boisjeux shows: "Blew up the siding. Loaded up and moved back five big howitzers. Blew up pumping station on order of army engineer. Worked for ten hours getting twelve-inch howitzer over broken line. Germans in sight, but held back by British machine guns. Lines badly smashed behind us and all wires down, but sapper on speeder managed to get thru with instructions and rations."

Work of Destruction.

Every known heavy gun in that district was got out on night of March 22, and the real work of destruction began. The old French main line from Arras to Albert was blown up in ten places. Two railways and three bridges were destroyed. The big yard at Achiet Le Grand, one of the largest railway centres near the front, was laid waste.

"I don't think the Huns could have found twenty yards of whole track," said the officer who was responsible. "Wires were well launched, they went down, but sapper on speeder managed to get thru with instructions and rations."

A Brave Feat.

Another young officer with another company of explosives had a similar experience. He tally on March 25 was five bridges on the Albert to Arras railway, the burning up of a large timber dump in Miramont and the overhead bridge at Aveluy. The same afternoon another party of the overseas construction men heard that a section of the standard gauge track from Beaulencourt, south of Bapaume, Bapaume to Miracourt, had been missed, and carrying annular tubes on their shoulders they went into the thick of the battle, knowing full well that the Huns were behind them in some places. They never returned, but their colonel is proudly certain that the section was destroyed. So their battle of destruction went on until, gradually, the Hun advance was checked. Their last fight with their peculiar weapons was on the side of Albert. The German cavalry had managed to gain the Albert-Amlens road, but British soldiers were solidly holding on to the railway embankment south of the city. Up came the lorries with the annular tubes and in spite of heavy gun fire the Canadian engineers managed to lay up the road bridge that spanned the railway and the steel trestle that carried the line thru that part of Albert. Now the corps is "resting" so necessary in modern war—close up to the new front.

FERRY BOAT RAMS PIER AT SARNIA

Aged Vessel Sinks and Passengers Escape Thru Warehouse Windows.

Special to The Toronto World. Sarnia, May 31.—When the non-licensed ferry boat James Baird, or more commonly known here as Jimmy Whiskers, this possibly on account of her age, over half a century, rammed the Northern Navigation pier here at 7 o'clock this morning a part of the wreckage of her bow piled on the dock revealed the fact that she is without a shadow of doubt unfit for service. She carried on board some 65 passengers, male and female residents of Port Huron, on the way to work in this city.

She was running at full speed, and owing to the dense fog her skipper, Captain Powers, was unable to see his course. When the boat struck the pier a terrific explosion followed, the main pipe in the engine-room burst and the engineer was forced to make a hurried exit.

The little vessel skidded along the dock at full speed until the men could again get to the throttle. She was brought to a standstill at the McKenzie, Milne and Co. dock; and the cargo of passengers escaped thru the windows of the warehouse, while the James Baird rapidly sank. Fortunately no one was seriously injured, although several women collapsed immediately after leaving the ship.

The boat still rests at this point tonight, with the water rolling over her upper decks. Her stern is completely submerged.

BOLSHEVIK UPRISING IN PROVINCE OF KIEV

Moscow, May 30.—Strong revolutionary detachments of demobilized Russian soldiers and peasants, equipped with machine guns and artillery, have risen in the district of Tschigarine, in the Province of Kiev, in an attempt to seize governmental power. The Bolshevik Government has been asked to send troops to subdue the revolutionaries.

German forces, while disarming Ukrainian troops today at Odessa, were fired upon. The Germans then arrested a number of the important personages in the Black Sea port and took them to the German army headquarters. Peasant disorders are spreading thruout the Province of Podolia.

AMERICANS PENETRATE ENEMY LINES AT TOUL

With the American Army in France, May 31.—American forces northwest of Toul carried out a successful raid against the German lines late last night. The Americans penetrated the German positions to a depth of 400 meters. They found numbers of dead Germans who had been killed by the American artillery fire. Information was secured and the Americans blew defensive works and dugouts. The casualties on the American side were insignificant.

BRITISH MISSION ARRIVES.

Buenos Aires, May 31.—The British mission, headed by Sir Maurice de Bunsen, arrived here today and was given an enthusiastic reception by the people at the dock.

KINGSTON DIVINE CHOSEN PRESIDENT

Eight Thousand Dollars Fixed as Objective of Sustentation Fund.

WEAK LINK IN CHAIN

Many Resolutions With Regard to Increasing Salaries of Pastors.

Ottawa, May 31.—The presidency of the Montreal Conference of the Methodist Church remains for another year in Kingston, Rev. George S. Clendinning, pastor of Brook Street Methodist Church in that city, having been elected to the office on the second ballot at the opening of the general conference this morning.

There was plenty of discussion at the general session this afternoon when the report of the sustentation fund committee was presented by Dr. C. L. Richardson, the secretary. The principal recommendation was that the conference fix \$8000 as the objective to be raised for the fund and that each circuit be assessed twice as much as its apportionment for the general conference fund. Dr. Richardson pointed out that this conference raised only \$1449 for the fund last year, although there were in the conference 41,202 persons, and \$187,747 had been raised for conational funds. He said the Manitoba conference, with only half as many members, raised \$10,000 for the fund.

In the discussion on this phase of the report which ensued, Rev. W. K. Stacey of Ottawa, characterized the weaker circuits which pay less salary to their ministers than even an inadequate minimum as the weak link in the chain of Methodism. He said for this reason it had to be realized that year by year it was becoming increasingly difficult to recruit men for the Christian ministry. "They haven't respect for the ministers even in those weak districts," said Rev. E. R. Kelly of Kingston, amid laughter. The conference carried the recommendation to make the objective \$8000.

Address by New President.

The afternoon session opened with an address by the new president, who acknowledged the honor paid him in a few grateful words. He reviewed some of his work in the church and appealed for the co-operation of all members at the conference in the coming year, which he characterized as one of crisis in both church and national life.

It was moved by Rev. Dr. Malvern Taylor, seconded by J. McW. Austin, that a vote of thanks be tendered Rev. John D. Ellis, the retiring president, the latter appropriately acknowledging the vote.

At the resumption of the election of conference officers, Rev. Daniel Mick, pastor of the Shaw Memorial Church, Montreal, was chosen secretary, and he named the following as assistants: Rev. G. A. McIntosh, Ottawa, assistant secretary; W. D. Lambly, lay secretary; Rev. Jos. Plimpton, lay secretary; Rev. J. H. Newton, journal secretary; conference then appointing Rev. F. J. Hayden as official reporter for The Christianian, Montreal, and the following as members of the business committees: Rev. T. A. Halpeney, Rev. W. H. Stevens, J. S. Eagleson.

Rev. J. D. Ellis of Kingston was appointed to the general board of missions, with W. H. Goodwin of Montreal as lay member, each receiving \$9 votes.

Salaries of Ministers.

There were numerous resolutions from the various districts urging the appointment of one lay delegate from each district to the stationing committee and these were referred to the memorial committee.

Opinions of Galt People

Who Have Been Trying Out This Great Regulator of the Digestive System—A Real Cure for Headaches.

Galt, Ont., May 31.—There has been so much talk here recently about the cure of indigestion and headache by the use of Dr. Chase's Kidney-Liver Pills as a household remedy that the statements of some of these people.

Mrs. John Dillon, 23 Pollock street, Galt, Ont., writes: "I had been troubled with sick headache for some time, and also gas on my stomach. This was so bad at times that I felt I would suffocate before I could get relief. I got some of Dr. Chase's Kidney-Liver Pills, and after using these found I was completely cured of both the gas on my stomach and the headaches, and am now enjoying the best of health."

Mrs. E. J. Ward, 20 Lowell street, Galt, Ont., writes: "My husband and I have made use of Dr. Chase's Kidney-Liver Pills as a household remedy for about ten years. We find them extra good for constipation, headache and pains in the back."

Mrs. Fred Schoenfeld, 16 Brook street, Galt, Ont., writes: "For about thirty years we have made use of Dr. Chase's Kidney-Liver Pills in our home. For constipation, kidney and liver derangements they cannot be equalled. We always keep them in the house and consider them excellent."

If you do not know the merits of Dr. Chase's Kidney-Liver Pills from experience this evidence should convince you that they are no ordinary medicine. But there are imitations and substitutes, so it is necessary to look for the portrait and signature of A. W. Chase, M.D., on the box you buy.

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, 6 for \$1.00, at all dealers, or Edmonson, Bates & Co., Limited, Toronto.

LOST LEG UNDER TRAIN.

Belleville, May 31.—J. McAlpine, a brakeman on the L.O.B. Railway, in the northern part of Hastings County, met with a distressing accident. The unfortunate man was walking along a car when he slipped and fell under the moving train. Some wheels passed over his right leg, severing it.

HAD TOO MUCH FLOUR.

Moose Jaw, Sask., May 31.—Mike Rawluk, an employe of a local milling company, today was found guilty of having more flour in his possession than would supply the wants of his household for fifteen days, and was sentenced to 10 days' hard labor in default of a fine.

Telephone Economy Talk No. 15

Selling Service

A TELEPHONE company sells a service.

- Its business is not to sell telephones, nor to rent them.
- The instrument in your home or office is of use to you only by reason of the service rendered. The quantity of service you pay is distinctly a service charge.
- And telephone service is different from other services.
- It makes no difference to you if your neighbor's gas supply is defective, his lighting poor, or his water supply inadequate. These things concern only him and his household. But if his telephone is out of order and you cannot reach him when you call, or if he makes you wait long before he answers, your telephone service is unsatisfactory.
- Thus the service of any telephone user may be rendered unsatisfactory by the habit or act of another.
- Why not cultivate along with other wartime economies—

The habit of prompt response when the bell rings. Of making sure before calling that you have the right number—directory first. Of speaking distinctly, directly into the mouthpiece. Of answering at once with your name—cutting out "Hello."

DUKE PAYS VISIT TO NIAGARA CAMP

His Excellency Addressed the Men, But Held No Inspection or Review.

POLES GOOD SOLDIERS

First Court-Martial of the Season Held on Nine Conscientious Objectors.

Niagara Camp, Ont., May 31.—The Duke of Devonshire, governor-general, motored over from Niagara Falls at 11 o'clock. He was accompanied by Colonel Henderson, military aide. The troops were drawn up on the headquarters camp parade ground, where his excellency was given the royal salute and the bands played six bars of "God Save the King." The duke addressed the men and afterwards met the officers. There was no inspection, and no review of the troops most of whom are raw soldiers. The troops were without arms.

The organization of the camp here for the training of the Canadian expeditionary force this summer is now complete, the last of the units, the railway construction depot having reached camp from Hamilton today, and there is general animation where, a few days ago, there was simply the movement of a few advance parties. Niagara camp is better set than ever before, better equipped in a sanitary way, and altogether a better camp than in 1915, when the last C.E.F. trained here. It is worthy of note that the improvements which have been made, chiefly as to sanitation, are for the benefit of the men. The camp headquarters are practically unchanged. Colonel McLaren, camp commandant, believes that in the process of making soldiers out of men taken from civilian life, the conditions should be as pleasant as possible. After the period of training, the men are in shape to stand war conditions, he says, but not at the start-off.

Weekly Band Concert. One of the enjoyable features of the camp will be the weekly band concert, participated in by the three battalion brass bands. These concerts will be held Wednesday evenings, from 7 o'clock to 9, and are for the benefit of the men of all ranks.

Interest here is divided between the Canadian camp and the Polish camp. Lieut.-Col. Le Pan is commandant of the latter. The Polish camp has been here since last September, and its numbers have gone over the 12,000 mark. At present there are about 12,000 Poles training at Niagara, all the rest having gone to France. Recruits are arriving almost daily from various points in the United States. The Poles make good soldiers. They are bright and intelligent, and take to soldiering with an intelligent interest that must be very gratifying to their officers. The majority of the officers of the Polish Camp are Canadians and French, but there are some natives of Poland among them.

The Polish soldiers are remarkably well-behaved. Out of the 12,000 men who have been handled at Niagara camp since last September, not one case of trouble or annoyance has been reported.

Units Warned for Duty. The present camp strength is about 6000, but this number will be considerably reduced in the near future, as drafts will be sent east to continue their training. Units warned for duty elsewhere are: The machine gun depot, three officers and 200 men; the depot for the C.E.F. seven officers and 700 men, and the railway construction depot, 800 all ranks. This will leave the camp strength at about 4500, but daily additions will be made for some time as there are many men on farm furlough whose leave of absence expires day by day, and these are dribbling in now.

A feature of the arrival in camp of the 2nd depot battalion, 2nd C.O.R., was the transportation on the one train of the troops, horses, transport wagons, baggage, etc., instead of the troops and their outfit having come in on two trains, as has been the custom. By this arrangement much time was saved in the depot getting settled, and by night everything was in order for the depot to begin the season's work.

Mail Services Complete. The mail services in camp are complete, and mail boxes are in convenient places for the use of the officers and men. The camp telephone service is good also, except that there is no long-distance telephone which the men can use when they wish to speak to their relatives and friends. However, it is probable this convenience will soon be added to the camp. The orders of the day contain the information that there will be a half-holiday on the King's birthday.

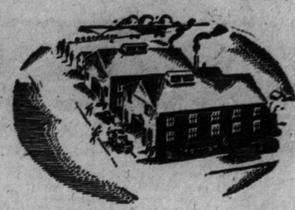

The Bank of Montreal has opened a branch in camp. The Canadian military police force maintains order in the town limits, including the trains and boat landings. Order is maintained in camp by a detachment of 30 police, under command of Major James Widgery.

CORNMEAL AND FLOUR ARE NOW AVAILABLE

Ottawa, May 31.—Cornmeal and corn flour are now available in most parts of Canada, states the Canada Food Board, and in order to save the increased use should be made of these substitutes in private households as well as by hotels, restaurants and other public eating places. Arrangements have recently been completed with the milling companies that corn is moving freely into this country, which provide for the milling of at least 20,000 bushels of corn daily by June 15. At the present time Canadian mills are milling corn to the extent of 10,000 bushels per day. As a result of the arrangements by the board, the supply of cornmeal and corn flour is now kept pace with the demand by the public for substitutes for wheat.

WHAT more can be said of a motor car than that it is sincerely built—that honest material and honorable workmanship are joined with wise engineering in its construction? Such a car is the Gray-Dort.

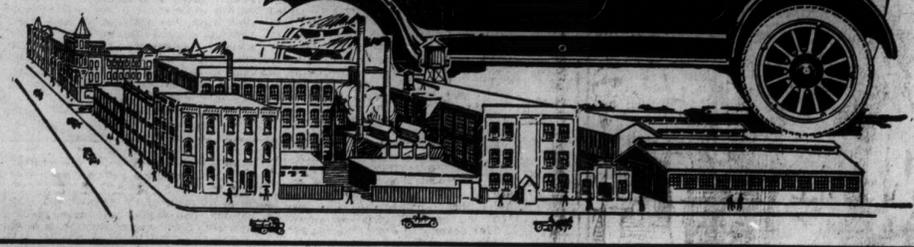

Over a half-century ago the Gray institution was founded on just such a basis. We believed that growth, stability, ultimate profit were all dependent on giving value to our customers. The size and reputation of the Gray business to-day bears out. The almost instant success of the Gray-Dort car is the result of a continuation of that policy.

It is a car sincerely designed to give great value. It is a car of character. The new Gray-Dort embodies all the good features that won instant success for former models. The 4-cylinder motor is a triumph of smooth, economical speed and power. The chassis is sturdy and quiet. The springs are long. The upholstery is deep. The equipment is absolutely complete from electric starting and lighting to the tools. New lines of beauty have been given this model. The five-passenger touring car is \$1,195; the three-passenger fleur-de-lis roadster is \$1,050; the Gray-Dort special, beautifully finished and with extra details of equipment, is \$125 above the list. All prices are f.a.b. Chatham.

LAND REGULATIONS FOR RETURNED MEN

In Addition to Ordinary Homestead Right, They Receive Extra Land Grant.

Ottawa, May 31.—Land regulations under the soldier settlement act for the granting of free entries on Dominion lands, are now being placed in the hands of the various agents of Dominion lands in Manitoba, Saskatchewan, Alberta, and the Peace River block in British Columbia. The regulations will come into force on July 2 next. Men returned from overseas who come under the soldier settlement act, will be able, under these regulations, to secure, in addition to their ordinary homestead right, a soldier grant of 160 acres. The settlement duties for a soldier grant are substantially the same as in the case of an ordinary homestead. The administration of these regulations affecting Dominion lands is thru the department of the interior.

Land reserved for soldier settlement is open for entry as a soldier grant, but such an entry can also be secured on any vacant and available Dominion land. Provision is made for entry by proxy under practically the same conditions as applied to homesteads. No entry fee is charged in connection with a soldier grant.

Weather Conditions Continue to Be Ideal for the Growing Crop.

Chicago, May 31.—Lowest prices yet this season resulted in the corn market today from weather conditions ideal for the growing crop.

High temperatures following the recent period weather made the outlook decidedly bullish in regard to corn. The consequence was a stream of selling orders to committed houses and there seemed no doubt that much of the pressure was in the direction of liquidating long contracts.

Provisions sympathized with the weakness of grain and with the decline in values as compared with Wednesday.

Winnipeg, May 31.—In the cash grain department there was absolutely no demand for any of the export milling grades.
