BAD STORM IN WEST WIND LIKE A CYCLONE

Buildings Blown Over, Trains
Stalled in Snow and Telegraph
Wires Down in All Directions.

CHICAGO, Jan. 29.—Rain, snow, hail and sleet and a high wind, which preceded a maximum of 74 miles at Kansas City, created climatic chaos in the middle west to-day.

Trains were delayed and telegraph wires were prostrated in every direction, particularly west of St. Louis and north of Chicago. The barometer in the office of the local weather bureau stood at 29.05, 25 higher than the lowest ever recorded here.

The demoralized condition of telegraph wires was attributable generally to sleet.

At St. Joseph, Mo., the Tremont Hotel was unroofed, and a dwelling blown over.

Trains Lost in Blizzard.

LACROSSE, Wis., Jan. 29.—Passenger train No. 23 of the Chicago, Milwaukee and St. Paul, running between Lacrosse and Westington Springs, N.D., has been stuck in a snow drift west of Jackson, Wis., since 10 o'clock.

48 MILES AN HOUR

'Twas a Very Stormy Day in These Parts.

A storm of unusual severity is the description given by the weatherman of the destruction of the elements yesterday, and the estimate is one with which few will disagree.

PREMIERS SAY DRAFT 'BE' WOULD REFUSE GRAIN MEN'S REQUEST THAT GOVERNMENTS TAKE OVER THE ELEVATORS.

WINNIPEG, Jan. 29.—(Special)—Hon. A. C. Bennett, premier of Alberta; Hon. Walter Scott, premier of Saskatchewan, and Hon. R. P. Roblin, premier of Manitoba, have issued a joint letter to the subject of the three western provinces acquiring control of the grain elevators, shipment and inspection.

They point out that it is not within the jurisdiction of the province to deal with the matters in question. It would be necessary to raise funds to finance the enterprise, concluding that a general amelioration of conditions can be expected from improvements now in process of completion and to be undertaken.

The letter, in part, reads as follows: "It would necessarily involve a new constitutional principle not hitherto exercised, the interference of many financial responsibilities on the part of the several provinces, and the putting in practice by constructive, restrictive and restrictive legislation the right of absolute provincial government control of the matters in question."

"To accomplish this it would be necessary, first, for the respective provinces to have delegated to them the requisite legislative powers by amendments to the B.N.A. Act, and second, to have adequate provision made for self-protection and consequent liability undertaken, and expressly stipulating that all grain should pass thru our channels, and that, in regard to effect, a complete and absolute monopoly. Any other method would prove futile, and might possibly be followed with disastrous results.

"The separate states of the United States, in dealing with interstate transportation companies, found themselves in a similar position, and federal action was invoked. The founders of confederation in this country, however, held the residue of power and define the lines which should separate federal and provincial jurisdiction. It was, therefore, manifest that when certain powers are given solely to the federal government it implied a prohibition on the part of the province to act. One of the provisions of the British North America Act is as follows:

"It is specifically declared that any matter coming within the classes of subjects as to which the Parliament of Canada is empowered to legislate is deemed to come within the class of matters of a local or private nature and is reserved to the provinces or the classes of subjects assigned."

"The subject upon which the provinces are acting, without precedent, is monopolistic establishment and operation of grain elevators, and it follows that any legislation along the line indicated would be ultra vires of the powers of the province."

LAW GOING THRU BOOKS

Assisting in Straightening Out Companies' Affairs.

Frank Law, sentenced to five years in the penitentiary, will not go to Kingston this morning with other prisoners. He is being held in order that he may aid the crown in going over the books of the Highways, Mary, Luckey, Boys, Silver Hill and Blue Hill mining companies, of which he is a director. This may take a week or more.

THE WORK OF GOING OVER THE BOOKS is being done at the instigation of large shareholders, who believe that the assets of the companies are greater than at present supposed. The work will be done at County Crown Attorney Drayton's office, in the building under his supervision, while all parties will be represented by counsel.

THE REPORT THAT LAW IS TO MAKE RESTITUTION to the extent of \$50,000, positively denied by officials, as is the further rumor that Law's pardon has been discussed.

NEED POLICE IN THE NORTH

Prospectors Complain of Petty
Thievery—Recorder's Office
Is Wanted at
Gowganda.

SMYTH, Jan. 29.—(The Man on the Trail)—Picture the results. Imagine the scene. This is a country of big men, despite the fact that statistics may only one man in every 200 is over six feet in height and the human skin contains 500 perspiration pores to every square inch, and according to a German investigator, a smoker sends into the air about four billion particles of dust at every puff.

Last night the boxstove in the hotel office was glaring red hot and about seven dozen men, all over six feet, sat around it, muffled in sweaters, and they smoked. Upstairs somebody was playing air on a mouth-organ and another big-booted chap clogged.

There was noise, but there must be noise when hunky red-blooded fellows, who live on fresh air and eat three squares a day, get together.

These boxstove gatherings give one an idea of what's going on around here. It's the country where men grow up resourceful and where they think out an existence that they are not always fortunate enough to find. They play big games for big stakes, and there's no comfortable medium. It's win or lose. And these self-made chaps had a kick against the attorney-general's department.

I listened attentively to two mining men who had come in from Gowganda, and they had some interesting things to say about "smatching."

From what I heard it appears to be impossible to leave an article alone without a "smatch" from the shack all day. It's a safe bet it will be stolen—not by the men who go in perfectly equipped. They usually have a "smatch" in their pocket, but under the exodus into the new silver district there are many men who have not enough clothing and supplies to last.

Thus the outcome is hard—just so hard that one has to be up here to appreciate it—on those who have learned getting away from the shack all day, and have a comfortable shack to store their goods and protect themselves from the weather. One of the men who had come in from Gowganda, and who had been in nearly every mining camp in America and nowhere has he come in contact with so much thieving.

Carrying a gun is not enough, they say, shooting without effect is doubly serious, but it's a certainty," said this man, "that somebody is going to win an offense soon or later."

There is a remedy. The remedy is this: Let the attorney-general's department send an inspector with two men, or better still, enroll a couple of experienced bushmen. It's a wide range they would have to cover, but their presence in the district would bring it home to some of the "smatchers" that there is a law in this land.

The matter needs attention. Complaints come in every day, from this camp and that camp. Coats, snowshoes, grub and everything else is being disappeared in the most mysterious way and the thief is rarely or never brought to justice.

A prospector who has hiked it up and down for some years told a story about another prospector from Nevada. This Nevada prospector's coat was gone one day, and he was looking for another prospector from Nevada. This Nevada prospector's coat was gone one day, and he was looking for another prospector from Nevada.

25 YEARS IN THE "PEN" FOR SHOOTING HIS WIFE

Stiff Sentence Imposed on Wm. Seay, Colored, Who Attempted to Kill—Pleaded for Chance.

Chief Justice Falconbridge yesterday sentenced William Seay, colored, to 25 years in Kingston Penitentiary for attempting to kill his white wife by shooting. His wife had refused to testify against him.

"I have hesitated a long time in thinking what would be a condign sentence for your case. I have hesitated long whether I would make it a life punishment. As to your condition, which you claim was such that you did not know what you were doing at the time, I cannot pronounce upon that feature of the case.

or anything; a splendid living home
can be made of it in perfect order; stands
well back from main road; row of beau-
tiful trees; a good bank barn, holding
thirty cows and horse; great spot for
milk; this is where they put up the con-
crete sidewalks, and send two railway cars
you could keep cows and chickens and
make plenty of money; two railways and
electric railway; live to town; close to
churches and school; I have never had a
piece of property like this before; possi-
bly less than I have; I have plan, where this
is laid out in streets and building lots,
but it runs to one end; owner of this
piece has been back to sell them, and
not to rent; could have rented for
\$2000 per year, but he took \$2000 cash and
mortgage of \$1500 for quick sale. Photo
and plan at my home. Offered near
the figure.

THIS ATHLETE OF FIFTY-TWO YEARS Says He Owes His Wonderful Energy to Dodd's Kidney Pills.

Was Tortured With Rheumatism and a Cripple Till the Great Kidney Remedy Cured Him.

SIX NATIONS, Ont., Jan. 29.—(Special)—Fifty-two years of age, but still young enough to captain the lacrosse team, John Silverthorn of this place can't be looked upon as a wonderful athlete. One would naturally think he was all his life a healthy man. But it was far otherwise, and he unhesitatingly states that his wonderful energy and vitality are due to Dodd's Kidney Pills.

"I suffered from Rheumatism for over seven years," Mr. Silverthorn says in telling his story. "And it finally made a cripple of me. My back was bent nearly double and when I tried to walk I had to use crutches. Lately I could not get around at all and I suffered excruciating pain. "Two boxes of Dodd's Kidney Pills gave me relief; sixteen boxes cured me completely. "Dodd's Kidney Pills always cure Rheumatism because Rheumatism is caused by disordered Kidneys and Dodd's Kidney Pills always cure disordered Kidneys."

McGill defence was a bit wobbly in the first half, but in the second half it was steady and held the Laval forces at bay. The score at half time was 5 to 3 for Laval. The condition of both teams was as follows: Laval in particular showed great improvement over their game with Queens. Coach Dostaler is confident that his team will turn the tables on Toronto next Saturday. The teams: McGill (25)—Johnson, Roberts, Raphael, Blair, Sargent, Ramsay. Laval (10)—Coutts, S. Jones, Lajoie, R. Joron, Dostaler, Brown, Champagne. Referee, Walter Small.

Harrison II, Wingham 2. HARRISTON, Jan. 29.—Wingham played here to-night in the Northern League series and lost to Harrison by the score of 11 to 2. Half-time score, 5 to 2 in favor of the home team. Line-up as follows: Wingham (2)—Goal, D. McGillicuddy; point, J. McGillicuddy; cover-point, C. Gibbons; right wing, Sinclair; left wing, Sinclair.

Newmarket (11)—Goal, Davidson; centre, Gibbons; right wing, Sinclair; left wing, Sinclair. Referee—F. C. Waghorne of Toronto.

MEAFORD, Jan. 29.—The Junior O. H. A. game was played here to-night. The score being 11 to 6 in Newmarket's favor. The line-up: Meaford (9)—Goal, Moore; point, Britton; cover, Moore; McGillicuddy; centre, Gibbons; right wing, Sinclair; left wing, Sinclair.

THE CITY LIBRARIES

Spring Will See Three New Buildings Open for Use.

"By the spring of 1909 the people of this city will have many new advantages in that there will be not only the new reference library, which, in point of beauty and utility, will have few superiors on the continent, but three first-class branch libraries in full operation—Yorkville, College-street and the Western, all as handsome architectural structures, well planned and economically and efficiently serving the people as those of any other city," says the report of Chairman Sir Glenholme Falbridge of the public library board, read at the annual meeting of the board yesterday.

Pursuant to unanimous resolutions of the board, E. Wylie Grier, R.C.A., has been commissioned to paint a portrait of Dr. Bain, which will be hung in the new building. The unveiling of the picture will be a feature at the formal opening.

Speaking of the appointment of Geo. H. Locke, M.A., as chief librarian, the report says: "What we have seen of the new library fully warrants our confidence in assuring the board and the public that we have made a most wise selection."

The new reference library will probably be ready for use in May, and the new western branch before the end of March.

The increase in the number of books loaned in 1908 over those issued in 1907 has been reading is 15,759 volumes, the number for 1908 being 37,476.

One hundred and eight thousand and seven hundred dollars has been granted by Andrew Carnegie for new libraries has been expended.

THE ELECTRIC LIGHT COMPANY'S FRANCHISE

In a letter appearing in this issue a correspondent asks that the Toronto Electric Light Company be treated fairly, if not generously, by the city authorities. The World is quite certain that there is no desire either on the part of the city or of the advocates of public ownership and operation of public monopolies to treat any franchise-holding corporation unfairly.

Our correspondent adduces in illustration of his point, the circumstances under which the British Government acquired the electric telegraph lines, built and operated, by the railway companies. But the instance is not parallel, since the companies did not have a terminable franchise and as the World has pointed out on several occasions, this is the conditioning factor of the electric light and power situation.

Various British cities have resumed their electric light franchises by arrangement, and all conditions of purchase show considerable diversity. So far as the Toronto Electric Light Company is concerned, its franchise expires within eleven years, when the city can take its undertaking over at the arbitrated value of its tangible property.

NORTH AMERICAN LIFE

ANNUAL MEETING

REPORT FOR THE YEAR 1908

The Twenty-eighth Annual Meeting of the North American Life Assurance Company, was held at its Home Office in Toronto, on Thursday, Jan. 28th, 1909, when the following report of the business of the Company for the year ended Dec. 31st, 1908, was presented:

Cash Income.

The cash income for the year from premiums, interest, etc., was \$1,897,078.53 showing the satisfactory increase of \$1,980.69.

Reduction in Expense Ratio.

The business has been conducted on a conservative basis, as is shown by a further reduction in the ratio of expenses to premium income, thereby placing the North American Life in the front rank of economically managed Canadian companies.

Payments to Policy-holders.

The amount paid on policy-holders' accounts was \$684,991.06, and of this sum \$388,821.78 represents payments for Dividends, Matured Endowments and Investment Policies.

Assets.

The Assets increased during the year by the sum of \$854,782.01, and now amount to \$9,590,638.09. The Assets continue to be, as heretofore, invested in the best class of securities available; a detailed list of these will be published with the Annual Report for distribution.

Net Surplus.

After making ample provision for all liabilities and paying the sum of \$124,771.28 for dividends to policyholders, the net surplus was increased to \$576,214.15.

Insurance.

The policies issued during the year, together with those revived, amounted to the sum of \$4,465,224.00, making the total insurance in force, \$40,341,091.00.

Audit.

A monthly examination of the books of the Company was made by the Auditors, and at the close of the year they made a thorough scrutiny of all the securities held by the Company. A committee of the Board, consisting of two Directors, made an independent audit of the securities each quarter.

L. GOLDMAN, J. L. BLAQUIE, Managing Director, President.

A NINE HOUR DAY FOR RAILROAD TELEGRAPHERS.

Canada should not forever be lagging behind in matters that give efficiency and safety to public service and satisfaction to the citizens. A reasonable and impressive complaint is made by the telegraph operators on the Canadian railways of the long hours they are compelled to spend in their onerous and exhausting duties. Twelve hours' daily work is taxing in the lightest of occupations, but under the strain of the responsibility devolving on an operator it is entirely too much.

THE CITY AND THE T.E.L. CO.

Editor World: In view of the proposed action of the Toronto City Council in dealing with the Toronto Electric Light Co., it may be interesting and useful to understand the policy adopted by the English Government after they had decided to acquire the business of the different telegraph companies then in existence, and to carry out under government ownership and management. They report that after making ample provision for all liabilities and paying over \$124,771.28 in dividends to policyholders, the net surplus was increased to \$576,214.15.

Such a settlement of the question here should be satisfactory to all concerned. It is hardly credible that the Toronto City Council or any other Canadian municipality should desire to take any course in dealing with this question which would leave them open to any just complaint that they were directly or indirectly dealing unfairly with vested and lawful rights. We do not complain that the city should propose to go into the business, but we certainly have the right to ask that we shall be treated fairly, if not generously, by the city authorities. The Toronto Electric Light Company, which is largely owned by the citizens of Toronto, many of whom are not only connected with the Toronto Electric Light Company, but with other leading Toronto enterprises, and are amongst the largest taxpayers and employers of labor, whose rights and interests are surely worthy of respectful consideration at the hands of the city authorities.

FOR A NAVAL RESERVE.

Editor World: An account of the North Division of the British fleet in this morning's paper brought home rather pointedly the equivocal position we Canadians are taking on the question of "Our Duty to the Mother Country." Now that the admiralty have decided

imposed upon railway telegraphers are a mistake and must be rectified.

A CLEVER MAN OF LETTERS.

Less prolific than usual in famous visitors, the present season will at least be notable to literary Toronto for the visit of Richard Burton of the University of Minnesota. Possessor of a name already celebrated in other kindred fields, Dr. Burton bids fair to give his own patrimonial reputation and distinction. Among the younger men of letters in America none has given evidence of more solid endowments, and as a brilliant speaker the charm of style follows him upon the platform. The Margaret Eaton School of Literature and Expression has justified its mission in securing such a visitor for Toronto, and should be encouraged to afford further similar opportunities.

THE NEW SILVER CAMP AND PUBLIC SERVICES.

The World directs the attention of the Ontario Government to our Government's letter in today's issue. There are so many people at Elk City, Smyth and Gowganda and on the trail that some kind of police oversight is necessary. A recorder's office and a claim inspector are also needed at Gowganda.

The postal service between the railway and Elk City is poor. Our correspondent's letter was four days in getting here from Elk City. But the postmaster-general at Ottawa has ordered his officers to improve the service.

The Imperial Bank is opening up at Smyth, the postoffice name of Elk City. Why not call both town plots Elk City and put a bridge across the Montreal River at the earliest moment?

Our governments are none too active in providing public services and the necessities of civilization in this new country. And yet the local government is drawing thousands and thousands of dollars out of the prospectors and miners, and its railway is loaded with traffic of all kinds. The federal government is also drawing a big income from the dutiable goods consumed in the silver camps.

THE NORTH AMERICAN LIFE.

In another column will be found the report of the business of the North American Life Assurance Co., presented to the twenty-eighth annual meeting of the shareholders, held at its home office in this city on Thursday last. Its satisfactory character is apparent from the addition of \$1,980.69 to the cash income, which has increased to \$1,897,078.53. This is due in part to the further reduction obtained in the ratio of expenses to premium income, enabling the company to claim place in the front rank of economically managed life insurance concerns. The managed life insurance concerns. The assets rose during the year ending Dec. 31, 1908, by \$854,782.01 and now stand at \$9,590,638.09, invested in the best class of securities available. The directors further report that after making ample provision for all liabilities and paying over \$124,771.28 in dividends to policyholders, the net surplus was increased to \$576,214.15. The company now carries a total insurance in force of \$40,341,091.00, whereof \$4,465,224.00 represents policies issued and revived during last year. The directors testify to careful and conservative management and reflect high credit on the directors and officials.

FINANCE THEIR OWN CAMPAIGN

Fifth Ward Conservatives Would Relieve the Candidate.

At a meeting of the Fifth Ward Conservatives in Brown's Hall, Bloor-street, last night, a motion was passed recommending that the central executive enlarge the representation at the party convention from each sub-division from three to ten. A recommendation that the Fifth Ward Conservatives raise a permanent fund of \$1000 a year by subscription with which to finance their own elections was submitted by the executive and will be acted upon at a larger meeting.

It was felt that the association could be more independent and would enable them to put up for election a capable man, whether or not he was able to bear the expense of a campaign. The association would have \$4000 or \$5000 on hand to finance an election.

George H. Cowan, M.P. for Vancouver, B.C., was to speak at the meeting, but missed his train at Ottawa.

Fire Engine Upset.

Turning from Ossington-avenue into Bloor-street on the way to a small fire and striking the tracks the left rear wheel collapsed. The engine overturned, and the crew was thrown off, but none were hurt. The work of moving the damaged engine, which weighs five tons, occupied considerable time, during which street car traffic was held up.

CIVIL SERVICE INCREASES "OUTSIDERS" LEFT THERE

Powers That Be Say Its Only a Matter of Time—Was Ottawa Statement a Bribe?

OTTAWA, Jan. 29.—(Special.)—In the house this afternoon R. L. Borden asked when the house might expect the waterways treaty, and if the matter of the fisheries dispute had been submitted to The Hague tribunal.

Sir Wilfrid replied that the government had on Thursday communicated with the foreign office in England for permission to release the treaty; as to the second matter, it had been agreed between Newfoundland and Great Britain that fisheries and other matters in dispute should be referred to The Hague.

Hon. Sydney Fisher introduced a resolution for a general increase of \$150 in the salaries of officials of the inside civil service under the deputy heads, based on recommendations of the civil service commission. Mr. Fisher at great length explained who would be benefited. Under the new collection of last session 59 received increases of 11 per cent. Under this resolution 2695 receive increases of \$150 a year, the average increase being 13 per cent. Thirty-five are not benefited in any way. Under the new classification the increases total \$39,900. The resolution provides for increases totaling \$47,000; a grand total of \$83,000. The civil service commission recommended a general increase of 12.2 to 15.2 per cent.

Mr. Borden pointed out that every argument in favor of increases for the inside service was equally an argument for increases for the outside service. The statute made a clear distinction between the two branches of the service, but the cost of living did not. The government ought to bring down the circular distributed among the civil servants of Ottawa bearing the signature of the junior member for Ottawa and endorsed by the prime minister, so that the house might know whether the promises made to the electors were being implemented.

"You wouldn't really expect that?" laughingly queried Mr. Fisher.

"Perhaps not," replied Mr. Borden, "for I would think that the hon. gentleman would be thoroughly ashamed of it."

Mr. Cowan (Vancouver) was prepared to show that in four years the cost of living in British Columbia had increased 47 per cent.

Sir Wilfrid again stated that it was the intention to reform the outside service also.

Was It a Bribe?

As to Mr. Borden's suggestion that the promise to the electors of Ottawa in the campaign was a bribe, Sir Wilfrid said that the intention to introduce the resolution last year and to date the increases from Sept. 15. But now Mr. Borden said it was a bribe. It was not safe to make that charge in the election campaign. The outside service must come under the reform, but one thing at a time. Mr. Foster scoffed at the suggestion that the government had no time last year to bring down the salary increases. If the increases had gone through last session, the civil service would have been placed on the level of independent men with their rights determined by statute. Sir Wilfrid had by that time to electors established the right to enter at every political and public virtue.

Hal. B. McGivern, junior member for Ottawa, failed to see that the statement he made to the electors of Ottawa was a bribe. The Conservative candidates had promised to use their endeavors to see that the recommendations of the civil service commissioners were carried out at once, and said they had "the assurance of our leader that their rights would be maintained."

"That may not have been a bribe because it was too much of a bluff," said McGivern.

Dr. Barr also argued for better pay for outsiders, and Dr. Sproule continued the discussion, the house going into committee shortly after 8 o'clock.

Mr. Borden's Denial.

R. L. Borden, rising to a question of privilege, James an editorial in The Globe, which complained that he had allowed three months to pass without repudiating the faked telegram in The Victoria, B.C. Colonist, representing him to be in favor of the "absolute exclusion of Asiatics." It was not till his return from the south, with his attention had been called to the matter. He had written to The Colonist, which had replied that no one connected with the management was responsible, and he was awaiting the result of further enquiries.

Two Men Have a Rigorous Experience During the Storm.

"We can hear men shouting for help out on the bay. Send a boat, quick."

This message received at the city hall by Property Commissioner Harris at 2 o'clock yesterday afternoon sent men hurrying to the bay. But it was too late—the men were saved!

George Gibbons and William Wads-worth, employed at the Gooderham & Worts distillery, had been sent out by the chief engineer to clean away the debris from the mouth of the company's intake pipe. William Johnson was left to patrol the bank.

In the violent storm they had to row hard to make any headway, one of the oars was lost, and then, in an effort to use the other as a pole in the shallow water, it was broken and the boat capsized.

Malt Akroyd was summoned by Johnson, who heard the cries of the men, but meanwhile John Festner and George Street secured a small boat and started out in the direction of the shouting, which came faintly thru the driving snow. They found the men submerged to the waist in the icy water.

LICENSE DEPT. SCOOP IN 35 IN SUDBURY DISTRICT

75 Charges of Illegal Selling Proved on First Day of Hearing of Numerous Cases.

SUDBURY, Ont., Jan. 29.—(Special.)—Suburban police filed 75 charges of illegal liquor-selling last night. The long arm of the liquor license department fell upon the district of Sudbury and gathered in 35 keepers of "blind pigs," dives, boarding-houses and hotels.

The drag net has been drawn thru the entire district by half a dozen provincial detectives, directed by Chief Inspector Morrison of Toronto, during the last 15 days. Illegal liquor-selling has been rampant throughout the district, but evidence appears to be hard to secure.

The hearing of the cases opened this morning before Magistrate Brodie, John Bidgood, proprietor of the Palace Cigar Store and Bowling Alleys, Sudbury, is held on six separate counts, four of illegal sale of liquor, one of keeping a gambling resort and one for the sale of obscene photos and postcards. For selling liquor he was convicted and remanded for sentence, the other charges coming up next week. To-night bail was arranged in \$200.

Causey, a boarding-house keeper of Sudbury, was convicted on two charges and faces a third charge.

Deplie Thibault, proprietor of the Algona Hotel at Chelmsford, pleaded guilty to selling liquor during prohibited hours and paid a fine of \$50.

At the end of the first day's proceedings 75 convictions had been recorded, with only one acquittal.

Straight Talk on Danger of Colds

Let your cold gain headway and you can't keep it from running into Catarrh.

Catarrh never stays in the same place—it travels down into the lungs, then it's too late!

Drive colds and catarrh right out of your system while you have the chance.

Easily done by inhaling Catarrhazone, which instantly reaches the true source of the trouble, gets right where the living germs of Catarrh are working.

Catarrhazone

A Convenient Inhaler Remedy Is the Proper Remedy to Cure.

You see Catarrhazone is simply healing balsams and rich pure essences and is able to patch up the sore spots and remove that tender sensitive feeling from the nose and throat.

Hawking and spitting cease, because the discharge is cured. The nostrils are cleared, headache is relieved, breath is purified. Every trace of Catarrh, bronchial and throat weakness is permanently cured.

Shun medicines that contain harmful drugs—use a safe remedy that is prescribed by doctors, that is used in hospitals, that is endorsed by thousands of Catarrhazone users. For winter ills, there's nothing half so good.

A CORRECTION RE MRS. WELLS.

Editor World: In your announcement yesterday that Mrs. Borrowman Wells, the noted suffragist lecturer, will speak at J. M. Wilkinson's meeting in the Grand Opera House on next Sunday night, you state that she "will speak in aid of the suffragist movement." No, she will not. She will speak on the cause of her arrest and her experience in Holloway Jail. When Dr. Margaret Gordon and Mrs. Flora McD. Denison strongly requested that Mrs. Wells speak at our meeting, it was on the understanding that Mrs. Wells would give her personal experience, to which they readily consented. Please make the correction, which to me is a very important one.

We will have our usual People's Sunday Service from 7 to 8.15. Then Mr. Jas. L. Hughes, president of the Toronto Equal Suffrage Association, will take the chair, and introduce Mrs. Wells.

Insist on always being served with Rudnor.

RALPH SMITH RENEGES.

OTTAWA, Jan. 29.—(Special.)—Ralph Smith, M.P. for Nanaimo, having been reminded of the promise made at a public meeting here last spring that he would introduce a bill in parliament this session to give the franchise to women, has written the Equal Suffrage Association, in that city, for keeping him in touch with the progress of the bill.

MUST CLOSE ON SUNDAY.

MONTRÉAL, Jan. 29.—(Special.)—The attorney-general has issued instructions that actions be taken against twenty-two moving picture shows in Montreal, and also the Nitonopsis, in that city, for keeping open on Sunday.

Free Receipt For Weak Men
Gentleman Will Send It Confidentially, Free and Sealed, to Every Weak and Unable Man Who Writes for It.
I have in my possession a prescription for nervous debility, lack of vigor, weak back, brought on by excesses, unnatural diet, or the follies of youth, that has cured so many worn and nervous men additional help or medicine—that I think by power and vitality, quickly and quietly, to send a copy of the prescription, free of charge, in a plain, ordinary sealed envelope, to any man who will write me for it.
This prescription comes from a physician, who has made a special study of men, and I am convinced it is the surest acting combination of ingredients ever put together. I think I owe it to my fellow men to send them a copy in confidence, so that discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what he believes is the quickest acting, restorative, unobtrusive, and so cure himself at home quietly and quickly. Just drop me a line like Detroit, Mich., and I will send you a copy of this splendid receipt, in a plain, ordinary sealed envelope, free of charge.

NEXT WEEK AT THE THEATRES

The engagement of the Henry Miller Associate Players in "The Servant in the House," at the Princess Theatre the coming week, will centre the attention of lovers of modern drama and great acting upon that playhouse. No attraction has ever come to the city with a high standing more definitely fixed than this masterpiece of Charles Ranck Kennedy's. It has been pronounced by critics in every city where presented, to mark a new era in the development of the stage.
The company to be seen here is the splendid one which recently visited New York, including Edith Wynne Matthison, Tyrone Power, Walter Hampden, Arthur Lewis, Mabel Moore, Ben Fields and Frank Mills.
Because of the presence in "The Servant in the House," of Manson, the man of character and dramatic talent, who has a subtle and irresistible influence for good over all with whom he comes in contact, the drama sometimes is called a modern miracle play. This appellation is really erroneous for the story it tells is intensely human and realistic, and its personages are living and breathing to-day.
In brief, the play concerns three brothers who drift apart in youth. One becomes a vicar in England, one goes to India where he rises to the episcopate as the Bishop of Benares, while the third gave way to his passion until he became a vagabond, but he had a daughter and she in her childhood her mother having died, was taken in charge by the vicar and his wife, her drunken father being in the guardian for her. The play begins on a morning when Mary is seventeen years old. Her father has not been heard of in 12 years. This day brings the three brothers together at the vicarage. Robert comes with hate in his heart for the vicar and his wife. The vicar feels that he did not treat Robert in his brotherly spirit and this fact has long gnawed at his conscience and made him feel that he had not done his duty. His wife, however, the sister of the vicar, Bishop of Lancashire, believes that Robert got all he deserved and fiercely opposes her husband's determination to receive Robert and restore his daughter.
The third brother, the Bishop of Benares, arrives disguised as Manson, a Hindoo butler. He knows the souls of all in the troubled household, and the play shows his influence, example and good will, quietly but powerfully brooding, takes away the bitterness from the hearts of each, restores brother to brother, reunites father and child, and brings husband and wife into accord as they never previously had known.
This is accomplished through some of the most heart-gripping dramatic and uplifting scenes ever presented upon a stage.

Law Fields on the Way.
Law Fields and his exceptionally large and brilliant company will enter upon an engagement at the Princess on February 5. In the musical play, "The Girl Behind the Counter," which is the same sumptuous production that for an entire year filled the Herald Square Theatre in New York, with enthusiastic audiences.
Surrounding Mr. Fields is a splendid cast, including Miss Connie Ediss, a famous vaudeville comedienne, who is wonderfully clever as Mrs. Henry Schnitz, the socially ambitious wife of the newly-made millionaire, chic Lola Faust, Lillic Felt, Charles Dumont, Topsy Sigrist, Little Tremont and the original English pony ballet, the best group of dancers who ever graced the stage.
The men include Denman Maley, Joseph Raffill, Charles Judels, Vernon Castle, Hubert Neville, Charles Mitchell and a dozen others.
May Robson at the Alexandra.
At the Royal Alexandra Theatre, beginning next Monday, L. S. Stie will present for the week, May Robson in Anne Wynne's delightful comedy which has been a laughing success from coast to coast. "The Rejuvenation of Aunt Mary." Miss Robson has played the part of Aunt Mary for continuous weeks and has visited every large city in the United States and Canada. The same cast and production will be presented at the Grand Opera House, New York, over a year ago. The production is most elaborately staged.
Aunt Mary is so funny that she causes people to bubble with laughter. Miss Robson loses her own identity completely in the part. Her quaint, old-fashioned wit and humor, her character and acts it with such fidelity that we might imagine her the Aunt Mary of our own home.
The play is divided into three acts, the first and last of which take place in the old country home of Aunt Mary, while the second act is laid at the home of a wealthy young New Yorker, Jack Wadsworth, who is a young man who while something over six feet in height never grew up mentally until he met the girl. Aunt Mary has the ready wit and she has the wit to get him up but has furnished the amounts necessary at different times to bring him out of trouble. At the opening of the play, Jack has somebody's cook in the arm, for which she is asked; pounded a cabman soundly, for which himself says up with her; and got the girl from Kalamazoo, who with \$15,000 about right for her lacinated feelings.
Aunt Mary stands for everything from Kalamazoo comes on the scene. She believes that Jack has gone just a little too far this time and tearfully destroys her will.
Three weeks later she is lured to the home of Jack's friend, Burnett, New York, where at the hands of her nephew and his three friends the rejuvenation begins.

Cracker Comings.
James K. Hackett and the romantic one may judge from what the New York critics have had to say about the revival of the famous Anthony Hope romance, "The Prisoner of Zenda." Mr. Hackett is coming to the Princess stage presence, and this, together with his great ability as a swordsman, makes him easily the leading romantic actor of this country. Mr. Hackett supported by a splendid company will open at the Royal Alexandra week of February 8.
At the Majestic.
A new western melodrama is "The Rocky Mountain Express" which will be presented for the first time in this city at the Majestic Theatre next week. The play is a masterpiece of the large company interpreters the characters of the play, which is in four interesting, exciting acts and is an elaborately staged production. The feature effect shows a monstrous snowslide—one of the most astonishing

stage contrivances ever thought out. The climax is intensely thrilling, and the approval of the patronizing and popular-price theatres. "The Rocky Mountain Express" is not an old-style railroad play, but a play absolutely new in theme and story. It is said to be decidedly refreshing, exciting in action, and thrilling throughout. During the week a matinee will be given every day.
"The Girl Question."
"The Girl Question" is a mighty big one in the lives of all men, and it plays a more or less important part in the lives of most women, and, as a consequence, the musical play of this title, which comes to the Grand next week, is the subject of much discussion. In the play the question is answered with a big crowd of pretty, vivacious, enthusiastic girls, who, set the feet to keeping time, the lips to whistling, dances which excite your admiration at the physical ability which enables the chorus to go thru with them. Under these conditions it is small wonder that "The Girl Question" is rapidly approaching its one thousandth performance, and that, judging from the success of the play, which has greeted it this year, even in the most conservative circles, it has been seen four or five times, it bids fair to be as perennial a favorite as "Ben Hur" or "Way Down East."

At Shea's.
The musical comedy favorite, Clara Belle Jerome, has been booked by Manager Shea to head the bill at Shea's this week in the musical comedy and dancing novelty, "Joyland." Jerome has not been seen in vaudeville for many seasons, but is well known here as a musical comedienne. She is assisted by William Seymour and his eight dancing toddlers, as the animated musical comedy troupe of Chicago. This is one of the biggest acts of vaudeville has had in many seasons, and is sure to please shoe-goers.
The special attraction will be the four Lukens, greatest of all acrobats. Gordon Eldred and Company are appearing at Shea's for the first time in Lincoln J. Carter's comedy, "The Log." The playlet is a laugh from beginning to end, and is in two scenes. Mr. Eldred, as the rich young Bert Dasher, is capably assisted by Irma Eldred, Berna Reinhardt and Marie Del Vecchio.
Reids, Cassill is also making her first Toronto appearance with her mid-dle-aged troupe of Chicago vaudeville dogs from Mexico. These little wonders have been marvelously trained, and are put through a series of stunts. This is the most costly of the animal acts on the vaudeville stage.
The Reynards are doing their sensational aerial novelty, and are sure of a warm welcome.
Van will be seen after a long absence at Shea's, and is in two scenes for his monolog, and his songs and parodies are better and funnier than ever. Van is an immense favorite with Shea-goers, and his stories are always sure to please.
Josephine Davis, one of the daintiest little comedienne of vaudeville, is coming to Toronto after an immense success in New York. She has a charming personality, and is a number one song-writer. "Marion and Cunningham" are doing a stunt they call an acrobatic talkfest, in their talk and their tumbling are clever.
The cinematograph closes the bill with new pictures.

RHEUMATISM

Back Pains, Sciatica, Lumbago, Kidney Pains, Nervousness, General Weakness.
My Electric Belt cures these troubles. It has cured thousands of cases in the past few years. It is curing scores every day. My mail is full of letters of gratitude from cured patients. Have you Rheumatism or any pain or weakness? If so, lay aside those drugs and plasters which long experience tells you will never cure, and enjoy the warm, glowing vitality from my

DR. McLAUGHLIN'S ELECTRIC BELT

It will not fall; it cannot fall; for it pours life into the blood, loosens up the stiff joints, limbers the muscles, and gives snap and vim to all organs. Pain cannot exist where my Belt is worn. If you are in pain it will relieve you in three hours.
HAS THROWN HIS CRUTCHES AWAY.
Dear Sir:—I am pleased to tell you that I am able to follow the team all day. The money I paid you for your Belt was the best investment that I ever made. When I got your Belt I had to use crutches to get around, and now I am able to do all kinds of farm work. I remain, yours truly, GEO. WEAVER.
MR. JAMES ANDERSON, Lot 9, Con. 3, London, Ont., says: "I am glad to say that the Belt I bought from you on the last day of July, 1905, cured me of Sciatica. I wore it about four months, and have not been troubled since."
Chapleau, Ont., Sept. 8, 1908.
Dear Sir:—Your Belt has entirely cured me of my troubles. The Rheumatism left my knee and back after only a month's use, and I believe your Belt, with proper care, will do all you claim for it. You can publish my testimony to any who are in need of treatment. Wishing you every success, I am, yours truly, JOHN W. HALLIDAY.

I'LL CURE YOU OR YOU NEED NOT PAY

Let me treat your case in my own way. Let me apply a steady current of Galvanic Electricity to your weakened system with my Dr. McLaughlin's Electric Belt. Wear this appliance, night after night, for a few weeks, and it will drive out all those pains and aches; it will restore energy and equilibrium to your nervous system; it will fill your body with fresh strength and energy; it will give you back the powers of Manhood, and make you a Man among Men.
The Dr. McLaughlin Electric Belt is a cure for all signs of Breakdown in Men and Women. The Vitality of the body is Electricity—the force in the Nerve Cells. My Electric Belt will give you back this power and enable you to fight on in the Battle of Life!

Sensational Divorce Suit

EDINBURGH, Jan. 29.—Mrs. Atherton testified to-day in the cross suit for divorce against John Stirling against his wife, who was Clara Elizabeth Taylor, an American show girl, before marriage, and caused a sensation in the court by the statement that Mrs. Stirling had once purchased a revolver and declared she would shoot Lord Northampton, a newspaper correspondent by Mr. Stirling, unless he married her.

"I am not going to be treated in the same way any more," Mrs. Stirling said to her husband. Mrs. Stirling said to her husband that she would shoot Lord Northampton, a newspaper correspondent by Mr. Stirling, unless he married her.

This was a reference to Captain Yardie-Buller, who refused to marry Mrs. Atherton after her divorce, in which he was co-respondent.

Nursing-at-Home Mission

The annual meeting of the Toronto Nursing at Home Mission was held yesterday afternoon at the Mission Union Hall, Lapanite-street, owing to the inclemency of the weather. Hon. S. H. Blake, who was to have presided, was unable to attend. Consisting of the general attendance of friends of the organization was excellent. Controller H. C. Hocken was chairman.

Rev. Dr. McTavish moved the adoption of the annual report, which showed that 127 patients had been cared for, 934 visits made, and 692 persons treated in the dispensary. The receipts were \$754.68 and disbursements \$641.67, leaving a balance of \$113.00. The special relief fund of \$228.36 raised last winter was expended for the purpose designated.

J. J. Gartschke seconded the adoption of the report, and joined in commending the great work of the mission. The following officers were elected: President, Mrs. C. S. Gzowski; first vice-president, Mrs. A. J. Gibson; second vice-president, Mrs. J. H. O'Brien; secretary, Mrs. John Turnbull; assistant secretary, Miss Roberts; treasurer, Mrs. W. E. Ledger; committee, Mrs. S. J. Boddy, Mrs. Duncan Clark, Mrs. A. G. Heneage, Mrs. Elmore Harris, Mrs. M. Kilgour, Mrs. W. B. McMurrich, Mrs. H. O'Brien, Mrs. E. Roberts, Miss Robb, Mrs. Blackburn, Mrs. Peacock.

Rev. F. G. Plummer and Rev. Dr. Grant participated in the proceedings.

In Society.

Edith Wynne Mathison, whose artistic performance is one of the features of the Metropolitan Opera, is originally intended being a singer in grand opera. Her husband, Mr. Mathison, is a famous pianist. She is a beautiful soprano voice. She planned that she should follow in the footsteps of her mother, who was a stage debut was actually made in light opera. One day she learned more towards acting than singing, she soon gave up the latter.

The monthly meeting of the Toronto General Hospital Alumnae Association will be held on Monday, Feb. 1, at 8:30 p.m. at the Hotel Windsor.

WEAK, SICKLY PEOPLE

Will Find New Strength Through the Use of Dr. Williams' Pink Pills

A great many young men and women are suddenly seized with weakness. They lose their appetite; they tire on the least exertion, and become pale and thin. They do not gain any specific pain—just weakness. But that weakness is dangerous. It is a sign that the blood is thin, and that the body is being built up. Dr. Williams' Pink Pills will restore lost strength, because they actually make new, rich blood—they will help you. Concerning them, Mr. Alfred LePage of St. Jerome, Que., says: "For several years I have been employed in a grocery, and up to the age of 17 I had always enjoyed the best of health. But suddenly my strength began to leave me; I grew pale, thin, and extremely weak. Our family doctor ordered a complete rest, and advised me to remain out of doors as much as possible, so I went to spend several weeks with an uncle who lived in the Laurentides. I was in the hope that the bracing mountain air would help me, but it didn't, and I returned home in a deplorable state. I was subject to dizziness, indigestion and general weakness. One day I read of a case very similar to my own, which was cured through the use of Dr. Williams' Pink Pills, and I decided to give them a trial. After taking four boxes of the pills I felt greatly improved, so continued their use for some time longer, and they fully cured me. I am now able to go about my work as well as ever I did, and have nothing but the greatest praise for Dr. Williams' Pink Pills.

The blood—good blood—is the secret of health. If the blood is not pure the body becomes diseased or the nerves shattered. Keep the blood pure and disease cannot exist. Dr. Williams' Pink Pills make rich red blood—the cause of many ailments, such as rheumatism, indigestion, headache, backache, kidney trouble, and the secret elements of girlhood and womanhood. Sold at 50 cents a box or six boxes for \$2.50 by all medicine dealers or by mail from The Dr. Williams' Medicine Company, Brockville, Ont.

Renew Your Youth.

Never before has the struggle for social and commercial success been so keen as in our own day, and to the victor and the vanquished alike comes a time when nerves and body cry for rest. Nature has a remedy for the tired men and women may renew their youth. On the main line of the Grand Trunk Railway System, at St. Catharines, Ontario, is situated "The Welland," where the ills of life are alleviated by bathing in the Saline Springs of the "St. Catharines Wells." Under proper medical supervision and attendance. Apply to city office, northwest corner King and Yonge streets, Phone Main 4209, for booklet and further information.

ELECTING AN ARCHBISHOP

Seniority does not in itself determine the succession to the archbishopric, as has been sometimes stated, although heretofore the election has resulted in the choice of the senior bishop.

It is not generally understood that in Canada there are two ecclesiastical provinces. The Province of Canada, so-called, includes Ontario, Quebec, and First Prince Edward Island, all of Ontario, except British Columbia, which is independent, and not yet constituted into an ecclesiastical province, is included in the Province of Rupert's Land.

Each province is presided over by a Metropolitan. The Metropolitan is elected by the bishops of the province from among themselves. On his election he becomes archbishop of his diocese. There is a primate of all Canada, who is elected by the house of bishops of the general synod. He must be one of the two archbishops or one of the bishops in British Columbia.

Hitherto one of the two archbishops has always been elected primate. Should Bishop Hamilton of Ottawa be elected Metropolitan of Canada (as is generally supposed), he will become Archbishop of Ottawa.

Archbishop Mathison is archbishop of the diocese of Rupert's Land and Metropolitan of the province (ecclesiastical) of the same name. He may be chosen primate of all Canada, but the election of Bishop Hamilton as Metropolitan of all Canada is more likely to be elected primate, as he is a senior by consecration as a bishop to the archbishop of Rupert's Land.

Richard Burton, who will speak on "Modern Romance" to-night in the Margaret Eaton School of Literature and Expression, is one of the best known of the present generation. He is an Englishman, though he has not unfortunately heretofore made an appearance in Toronto.

His finished works are growing to notable dimensions, and include among volumes of poetry, "Dumb in June," 1896; "Memorial Day," 1897; "Lyrics of Brotherhood," 1900; "Song of the Unsuccessful," 1900; "Message and Melody," 1902, and "Rahab," a drama, 1908. In prose he has published a volume of essays, "Literary Likings," "Fables in Fiction," and "Literary Leaders in America." His newspaper experience includes editorship of The New York Churchman, and literary editor Hartford Courant. He was an assistant editor of The Bulletin of the World's best literature, and editor of The Lothrop Publishing Co.

Dr. Burton was born in 1859, and was married in England in 1889. He travelled in Europe for two years at that time. Graduating at Trinity College, Connecticut, he took the Ph.D. at Johns Hopkins in 1887. Since then he has been and is now professor of English literature in the University of Minnesota.

Do You Look on the Dark Side of Things?

Have you sought in vain for a cure for indigestion and neglected the liver and bowels? Are you discouraged? You need not be if you let reason be your guide and use Dr. A. W. Chase's Kidney-Liver Pills, because they set the liver and bowels right and by so doing remove the cause of trouble.

The real serious forms of indigestion arise from fermentation of food in the intestines, where the most difficult part of digestion takes place. Stomach medicines and aids to digestion cannot possibly cure this form of indigestion.

Mr. C. D. BENNETT, Maple Grove, Meaganic Co., Que., writes: "I had dyspepsia very bad. The food would sour, my stomach would swell up. I suffered a great deal and could not sleep. As the result of using Dr. Chase's Kidney-Liver Pills I am now entirely cured and can eat any kind of food without feeling any bad effects. They have made a new man and a younger man of me and I cannot say too much in their praise."

"Dr. Chase's Ointment cured a friend of mine of piles when he was so bad he could not work nor even stand up."

Dr. A. W. Chase's Kidney-Liver Pills

By their direct and combined action on the bowels, the liver and the kidneys positively cure chronic indigestion, constipation, biliousness, liver complaint and kidney disease. One pill a dose, 25 cents a box, at all dealers, or Edmanston, Bates & Co., Toronto. Dr. A. W. Chase's Ointment positively cures itching, bleeding and protruding piles.

Mining Stocks Irregular

Shorts the Chief Sellers

Price Changes Show No Definite Trend—La Rose Strong in New York Market.

World Office, Friday Evening, Jan. 23.

Some irregularity developed at the two local mining exchanges to-day, and the market was therefore lacking in a definite trend.

Quotations for Cobalts listed at New York were firmer, especially La Rose, and this was one of the influences favorable to domestic operations.

Dealings here were not large and many sales were made for short account, owing to the fact that delivery will not be made until Monday, the sellers being of the opinion that they could cover with advantage within this time.

The market is governed temporarily by the speculation of those in close connection with the exchanges, and this is acting as a break on the advances. There were no special outside influences to-day to encourage buyers, and few new purchases were made for the public on this account. The markets closed on an average with a firmness which was accepted as evidence that there was very little actual stock in the market for sale. The weakness on the big exchange at New York had somewhat of an influence and may have accounted for some of to-day's short transactions.

Bailly Starts to Ship

Messrs. Smiley, Stanley & McCausland received a special wire to-day from Cobalt, reporting that the Bailly mine had shipped a car of rich ore.

TEMISKAMING AFTER GIFFORD

Rumor to Account for Present Purchases of Stock.

Gifford Cobalt sold as high as thirty in to-day's market, under what was considered to be exceptionally good buying. Brokers and those interested in the shares are still looking around for the reason for the sharp advance in the price, and yesterday it was learned from what is considered a pretty good authority that the Temiskaming Company, which joined the Gifford, is anxious of incorporating the Gifford with the two properties now owned by that company, and that an offer considerably above the present selling price of Gifford stock has been made for a controlling interest in that company.

CONFIDENCE STRENGTHENING

This and a Wider Demand Favors the Cobalt Market.

Heron & Co. in their weekly letter say: While prices have moved uncertainly and trading has been without definite trend during the week, it is plain even to the most casual observer that the Cobalt market is making very substantial headway. Looking ahead, the most encouraging indication of a broad and buoyant market for Cobalt shares in due time is the widening inquiry for advice and information and the actual investment demand for the leading issues from New York and all the large American financial centers as well as steady and conservative English.

COBALT MAJESTIC

New Vein of Cobalt Struck at Gilles Depot Property.

Messrs. Gormally, Tilt & Co. received word yesterday that a splendid vein of cobalt had been uncovered on the Gilles Depot property, one of the claims of the Cobalt Majestic. Work is being pushed at this mine, but some delay has been occasioned owing to the men having run out of dynamite. Further news of this find is expected within a few days, when some blasting has been done.

In order to comply with the Ontario Companies Act, we append the following information:

No special qualifications for directors. Minimum subscriptions for allotment, 20 shares. Agreement between Charles Gifford and the Company, dated 15th December, 1908, and which may be inspected at the offices of R. C. Levesque, 20 King Street East, Toronto, Solicitor for the Company, provides for sale by Charles Gifford to the Company the properties, in consideration of \$99,980 shares of the said Capital Stock to be issued to him as fully paid, and out of which he has set apart 200,000 shares to be sold and the entire proceeds thereof to be used for development purposes. No payment in stock of cash for good-will. Usual brokerage of 5c per share may be paid. Preliminary expenses estimated at \$600. Gifford has sold at 15c per share, 2000 each to the said Curran and Hatley, 1000 to the said Ritchie, and 5000 to the said Davies. Prospectus dated and filed with Provincial Secretary, 16th December, 1908.

The Best Speculative Purchase in the Market To-day

If Gowganda is to make good, our claims there are as good as the best, and will either develop into shippers, or they can be sold for profit.

Present indications lead us to believe that one of them is the real thing. We know as much about Gowganda as you do, and while splendid showings have been found, we make no statement other than that we can do as well as others on development.

Of our claims in Coleman we are proud.

That this end of the Maple Leaf will develop into a shipper we are certain.

Adjoining the Maple Leaf, the Ontario Development Company have just installed a plant, and from present indications will be shippers this summer.

The Temiskaming end of the camp for Bonanzas—Maple Leaf may prove the wonder of that section, and at 25c a share is more than an even break for your money. With 83 acres more than Gifford Cobalt, with the same capitalization, and with a guarantee of thorough development in the shareholders' interest, there should be no hesitancy on your part in subscribing to this most excellent proposition.

SOME GOWGANDA ORES
ARE LIKE THE COMSTOCK

Chloride of Silver Not Easily Recognized by the Prospectors From Cobalt

"Who heavily interested in Cobalt, I very quickly realized that it had a serious rival in Gowganda," said a mining man to "The World" yesterday.

"The earlier discoveries in the Montreal River district failed to rouse enthusiasm. After Cobalt everybody waited for the phenomena and at the end of three years' careful search it has at last been found up Gowganda. The Cobalt ores astonished the world by their silver contents, but even Cobalt did not boom for three years after it was discovered.

"What can be said of Gowganda which in a few short months has displaced Cobalt in the public mind and has awakened the eager interest of mining and financial men all over the country? Unlike the other portions of the Montreal River district Gowganda has native silver in massive form, and unlike Cobalt, this silver is largely free from the base metals. The ore is apparently richer than at Cobalt, and the metallurgical problem is simpler owing to the predominance of the white metal.

"It is now reported that chloride of silver or cerargyrite has been found in a vein seven feet wide on the O'Kelly properties. This is an ore of silver with which prospectors searching for a new Cobalt were not familiar. As a rule it is the outcrop of surface indication of metallic silver which, when pure, contains 75 per cent. It is found on the surface in many Mexican mines, and was the surface ore of the great Comstock lode, having a production value at \$400,000,000, of which 82 per cent. was silver.

"Personally I know nothing as to the nature or value of the discoveries on the O'Kelly, but if they are as published are correct it is the most important development in the mining progress of the north.

"The recent drastic action of the authorities has helped check the 'wild cuts.' Still in making investments the public should exercise careful discrimination for it is not probable that the very rich ores of Gowganda are widely extended in the north country, but it is certain that only a small portion of it carries silver in economic quantities.

"It is, however, not unlikely if present appearances can be relied on that New Ontario will bare an annual production of \$20,000,000 in silver within five years from the present time."

ELK LAKE DISCOVERY

Owing to a typographical error it was stated in yesterday's "World" in a dispatch from Elk Lake that the Elk Lake mine had installed a five-pound compressor. This should have read a 50-horsepower compressor.

WANTED IN THE UNITED STATES

Chambers-Ferland is holding exceptionally strong in the market at the present time. It is understood that no more of the company's stock is to be offered in Canada for several months at least and probably not at all. A large interest in the States have made a substantial offering for a block of the shares, and the English financial houses are desirous of getting more stock for their market. With the supply of shares taken out of Canada in this way there is no question in the minds of those who are large shareholders of the company's shares that the price of stock will ultimately witness a very material advance.

G. T. R. TO RUN STEAMERS

NEW HAVEN, Conn., Jan. 29.—The Grand Trunk's contract with the New Haven Co. for the operation of the New Haven's boats between New York and New London will expire July next, and after that date it is probable that the Grand Trunk will operate its own boats on that line.

Didn't Regard Sheriff's Presence

TILBURY, Jan. 28.—George Chambers, late proprietor of the Balmoral Hotel, his bartender, Alvin Morrison, and stepson, Alvin Morrison, were today committed for trial at the spring assizes for fraudulently removing horses, liquors and cigars from the hotel premises after the sheriff had placed the goods under seizure.

HARGRAVE CAN SHIP ORE
IN A VERY FEW WEEKS

If the Proposition Made to the Kerr Lake Company is Accepted.

It was learned by "The World" yesterday that the Hargrave Company had made an offer to the Kerr Lake Company to pay the latter a tonnage royalty on Hargrave ore mined and taken out through Kerr Lake workings. This probably explains the heavy demand for Hargrave stock in the last two or three days. A definite proposal, it is understood, will be forwarded to New York where the head office of the Kerr Lake Company is located. The Hargrave, it is understood, is willing to pay the tonnage royalty if it is permitted to carry the Kerr Lake Company's sixth level across the Hargrave line, and so break into Hargrave ore. As this level is now very close to the Hargrave line, it could be extended across the Hargrave line in three or four days. A similar arrangement is now working well in the case of the Trethewey and Temiskaming & Hudson Bay. Trethewey takes its ore out through the Temiskaming & Hudson Bay workings, paying the latter for the service. This has been of great advantage to it. Trethewey, and accounts largely for the Trethewey's great earning power.

Hargrave's interests are confident that their mine could ship very rich ore in three or four weeks if the present negotiations are brought to a successful issue. In the meantime the permanent workings are being developed, and work is going on 24 hours a day.

In the recent weak market, Kerr Lake Company stock was one of the few which refused to decline. In fact, it has been gradually advancing, and is now 8.50. This steady enhancement in price is taken to be a reflection of increased investment value.

It is now definitely known that the Hargrave owns quite as much of the famous Jacobs, or No. 3 vein, as the Kerr Lake Company does, and it is confidently believed that the Hargrave mine will be developed into as choice an investment property as the Kerr Lake Company. The Kerr Lake Company, it is stated on good authority, is now making a profit of at least \$2500 a day.

SWASTIKA ANNUAL

Satisfactory Statement Submitted to Meeting of Shareholders.

The annual meeting of the Swastika Mining Company was held at the Walker House on Wednesday afternoon. This company is operating three claims in the Township of Otto, close to Swastika Station, on the T. & N. O. Railway. It is a gold proposition, and has several of the largest veins of quartz yet located in that country. An up-to-date plant, consisting of a 20-horsepower boiler and a steam hoist, has just been installed. Over thirty shareholders were present at the meeting, and much satisfaction was felt at the prospects of the company.

London Wool Market

LONDON, Jan. 29.—The auction wool sales were resumed today. A good section, amounting to 3,664 bales, was offered. Merino greases was in good demand and firm. American greases were 1s 7d for fine greases, and 1s 1d to 1s 2d for crossbreds. Medium and faulty wools were slow and often 5 per cent. below opening. The sales will be closed Feb. 6. To-day's sales follow: New South Wales, 300 bales; scoured, 1s 2 1/2 to 1s 3d; greasy, 5d to 1s 0 1/2. Queensland, 1500 bales; scoured, 1s to 2s 0 1/2; greasy, 7d to 1s 10d. Victoria, 1500 bales; scoured, 1s 7d to 1s 8 1/2; greasy, 7d to 1s 5d. South Australia, 1200 bales; scoured, 1s 6 1/2 to 1s 7d; greasy, 6d to 1s 1d. West Australia, 200 bales; greasy, 4s 10 to 1s 10. Tasmania, 100 bales; scoured, 8s 10 to 1s 10; greasy, 2s 10 to 1s 10. Zealand, 2000 bales; greasy, 5s 10 to 1s 10. Cape of Good Hope and Natal, 700 bales; scoured, 1s 0 1/2 to 1s 1 1/2; greasy, 5s 10 to 1s 10.

NEED POLICE IN THE NORTH

Continued From Page 1.

is clear, the government should pay his expenses agreed upon, and if the claim is not clear, the prospector should pay the expenses. This would eradicate a lot of jumping and other troubles that now prevail in Gowganda.

On the Trail. Travelers coming in from Gowganda tell some queer stories about men they have met and especially the un-equipped. For instance, a man landed at Wigwam Road House the other day with a stiff hat on and a loaf of bread under his arm.

This picture is amusing, but pathetic and it is fortunate for that class of silver-seeker that the winter is comparatively mild. As Smyth there are plenty of buildings operations to demand the supply of lumber on hand. Things are booming. And the unexpected happens. Last week the people who are in light-colored shirts were washing for a laundry, and I don't suppose those who prefer blue and black shirts really objected to the wish.

To-day a Chinaman came in, rented a shack, bought supplies and put up a sign. His prestige is established and to-morrow he washes and the next day he irons. Smyth citizens have realized one of many wishes.

I was in F. A. Seymour's shack today, and Seymour says he is going to put up a concrete building just as soon as he can get the blocks, and while in there two prospectors were signing an agreement to go west of Gowganda for twenty-five miles and stake out a claim.

A blot of ink fell on the paper, and the third party wanted to have the agreement rewritten. Another prospect standing by, said no! That blot of ink signifies luck and luck in this case is silver.

If several others who are going west of Gowganda for some distance to prospect, and who say the silver field is practically unlimited.

The rush is commencing and travelers are bargaining with drivers to take them thru to Gowganda in one day, leaving here about 7 o'clock in the morning and getting into Gowganda by 6 or 7 at night.

GOOD MEN IN IT

Something About the Saville Prospecting and Exploring Company.

The presence of a number of the most substantial and reputable of business men of Canada on the board of directors of a company is sufficient indication of the solidity of that company. The Saville Prospecting & Exploration Co., Limited, is most fortunate in its officers. Its president is Robert Shillington, M.L.A., who is also president of the City of Cobalt Mining Company; vice-president of the Temiskaming Mining Company, and vice-president of the Otisse Mining Company. Its vice-president, Lieutenant-Col. Davidson, is president of the Cobalt Silver Queen Mining Company, and president of the Cobalt Consolidated Mining Company. The directors of the Saville Prospecting & Exploration Co., Limited, are Mr. Shillington, Lieut.-Col. Davidson, Lionel Davis, John E. Hammell and Thos. Saville, all well known for their unimpeachable reputations. A contract has been entered into whereby Mr. Saville will acquire 200,000 shares Mr. Saville allots ruling claim M.R. 844 in the Silver Lake district; mining claim M.R. 1075 in Miller Lake district; mining claim M.R. 1076 in Miller Lake district, as well as his entire time and services for one year. The directors have been paid, or will not be paid, special remuneration as directors. The estimated preliminary expense is \$1000, and no amount has been or is intended to be, paid to any promoter in cash, shares or debentures. No sum in cash or shares has been paid to any director by any person either to qualify or otherwise for services rendered by him in the formation of the company. The reports on the company's properties are most satisfactory. There is only a limited quantity of this stock for sale at thirty cents per share. The authorized capital of the company is \$500,000, divided into shares of \$1 each. The money obtained for the shares will be spent in the development of the properties and for prospecting for others. Any further information may be obtained from Lorsch & Gamey, Limited, 36 Toronto-street, Toronto.

Richard Tew, assignee, has been instructed to place the stock of Cliff & Co. of Webwood for sale at auction. Suckling & Co. will act as auctioneers, and the sale will take place on Feb. 3. The goods are worth about \$6000.

CIVIL ENGINEERS' ANNUAL BANQUET

Two Hundred of the "Men Who Do Things" Celebrate Twenty-Third Anniversary.

Over two hundred representative members attended the twenty-third annual banquet last night of the Canadian Society of Civil Engineers. The banquet was held at the King Edward. Dr. Galbraith, retiring president, was chairman. The guests sat down to dine at 9 o'clock. President Galbraith humorously referred to the delights and attractions of Fort Coborne as the cause of the delay in their return from the day's outing. The train, however, was actually over an hour late owing to the snowstorm.

The guests included: J. Leitch, K.C., chairman Ontario Railway Board; Gustav Lindenthal, president of the Ontario Land Surveyors; E. W. Stern, consulting engineer, New York; Walter J. Franca, C.E., Montreal; C. H. Frost, editor of the Canadian Society of Civil Engineers; J. J. C. Kerry; A. J. VanNosttrand, president of the Ontario Land Surveyors; J. E. Schwitzer, assistant engineer, C.P.R.; Winnipeg; A. W. Campbell, deputy commissioner public works, Ontario; C. H. Rust, Toronto city engineer; W. McNab, principal assistant engineer, G.T.E.R.; J. Butler, deputy minister of public works; E. Marceau, T. H. McGulgan, Geo. A. Miller; J. P. Watson, president Toronto Board of Trade; G. H. Frost, editor of Engineering, New York, and J. J. Salum.

After "The Kings" the following toasts were presented: "Canada an the Empire," by R. W. Leonard, responded to by Rev. J. A. Macdonald; "Our Guests," by A. W. Campbell, responded to by J. P. Watson, W. McNab and G. H. Frost; "The Profession," by James Leitch, responded to by W. Lindenthal and C. B. Smith; "The Society," by W. J. Butler, deputy minister of railways and canals, responded to by Prof. Miller, president of the Canadian Mining Institute, and Mr. Gouinlock, president of the Ontario Society of Architects.

The menu card was designed by C. H. Macdonald, chairman of the Toronto branch of the Canadian Society of Civil Engineers. It was a unique blue-print, the engineers' method of reproduction.

TECHNICAL SCHOOL SITE

Property Committee Will Fight Again for Borden Street.

A revival of the timeworn technical school site problem was the outcome of yesterday's meeting of the property committee of the board of education, and as a result the board will be asked to petition a proposal to ask the board of control to close Herrick-street in order that the Borden-street site may be purchased.

Altho Trustee Simpson thought Mr. A. Brown wouldn't sink his personal antagonism to the site, a committee comprising Messrs. Rawlinson, Brown, Bryans, Simpson, Levee and Dineen was named.

Trustee Smith objected to the destruction of Borden-street school, which is located on the prospective site. On a motion of Trustee Conboy, A. Wadlow, said to be a brother-in-law of Trustee Smith, was appointed caretaker of Deer Park school, succeeding Geo. Martin, in view of whose 20 years' service two weeks pay will be given as a bonus.

As the city engineer and property commissioner are anxious to secure the school, the following committee was appointed to make a re-arrangement: Houston, Bishop, Dineen and Simpson.

Four rooms and an unfinished assembly hall to be used as a "gym" will likely be added to Riverview High School.

SHOULD BEGIN EARLY

Study the Bible When Young, is Advice to Teachers.

Speaking to a crowded audience Rev. J. A. Macdonald and W. C. Pearce, international superintendent of the Adult Bible Class Movement, brought the two-day conference of the Ontario Bible Class Association to a close in Broadway Tabernacle last night.

Mr. Macdonald's subject was "The Man Call of 1909," and he said that the year's effort on the part of Sunday School workers at the present time would be worth fifty years in another generation.

W. C. Pearce advised, "Get men and women to study the Bible." A celebratory slum worker of Chicago was authorized for the statement that scarcely was a man or woman won who had not had early training in the Bible. If men and women were to be led to Christ, the teachers must lead clean and exemplary lives.

SAVILLE PROSPECTING & EXPLORATION CO. LIMITED

(NO PERSONAL LIABILITY) Authorized Capital \$500,000. Divided into Shares of \$1.00 Each

PRESIDENT: ROBERT T. SHILLINGTON, M.P.P., Pres. City of Cobalt Mining Company; Vice - Pres. Temiskaming Mining Company; Vice-Pres. Otisse Mining Co.

SECRETARY-TREASURER: FRANK BURR MOSURE, Toronto, Ontario. DIRECTORS: ROBERT T. SHILLINGTON, Haileybury, Ont.; LIEUTENANT-COLONEL JOHN I. DAVIDSON, Pres. Cobalt Silver Queen Mining Company; Pres. Cobalt Consolidated Mining Company.

A contract has been entered into with Thomas Saville whereby the Company, for the consideration of 200,000 shares of fully paid-up stock, purchases from him three mining claims described as follows:

- 1. Mining Claim M. R. 844 in Silver Lake District
- 2. Mining Claim M. R. 1075 in Miller Lake District
- 3. Mining Claim M. R. 1076 in Miller Lake District

Mr. Saville also agrees to give his entire time and services to the Company for the period of one year from the date of signing this contract. Mr. Saville will have active charge of the field work of the Company, which will equip and maintain in the field prospecting expeditions, stake and do the preliminary development work on mining claims in the new silver fields of Ontario. Mr. Thos. Saville is well known and highly respected by mining men generally, and is one of the best prospectors in the north country. He is now on his way to what is believed to be a new rich field. Any further discoveries that he makes within the next year will be in the interests of this Company. This contract is on file and may be examined during business hours at the Head Office of the Company.

No amount has been paid or is payable as commission for subscribing or agreeing to subscribe for shares in the Company. No remuneration to Directors. The usual commission may be paid to Brokers. The estimated amount of preliminary expense is \$1000.00 and no amount has been or is intended to be paid to any Promoter in cash or shares or debentures. No sum in cash or shares has been paid to any Director by any person either to qualify him as a Director or otherwise for services rendered by him in the formation of this Company.

We offer a limited amount of stock of this Company at

30 CENTS PER SHARE

The funds realized from the sale of this stock will be absolutely spent in developing these properties and in prospecting for others.

In offering the first allotment of shares of this Company for subscription we feel that we are favored to an unusual degree in being enabled to present to our clients and the public generally a mining proposition that possesses every feature of desirability—the important questions of capitalization, provision for operating funds—merit of properties owned, and integrity of management, have been dealt with in a manner which—in so far as clean business methods and careful thought can accomplish—should guarantee the Company's success and insure to those who become purchasers of its Stock

A Square Deal and a Fair Profit

Without qualification we recommend the purchase of Saville Prospecting and Exploration Company, Limited Prospectus, Engineer's Report, Maps and such other information as may be desired will be gladly furnished.

Investors !!!

We cannot impress upon the investing public in strong enough terms the advisability of purchasing the leading Cobalt stocks at their present level.

In November we advertised that Temiskaming would increase its dividend to 6 per cent. quarterly. This was done in December. We now hear that Temiskaming will increase its dividend to 8 per cent. quarterly—at the present price Temiskaming will pay you over 15 per cent. on your money. They have some \$11,000,000 of ore which will be taken out at a rapid rate, now that they have their enlarged plant in operation. They have also acquired the ownership of the mine adjoining theirs, formerly owned by the Pennsylvania Cobalt Mining Company. The Temiskaming vein runs through this property, and this has been demonstrated by a drift along the vein, extending some thirty feet into the new property.

This stock is worth \$5 per share, and will sell at that price within the next twelve months. Trethewey is moving up. It paid a cash dividend of 10 per cent. in December, and will pay an extra dividend in the shape of a distribution of profits.

Nova Scotia, Silver Bar, McKinley-Darragh and Chambers-Ferland will all make substantial advances, and will pay the investor handsome profits. Hargreaves is another one. The Kerr Lake veins extend up to the boundary line, and the Kerr Lake people have taken out hundreds of thousands of dollars of silver; the Hargreaves Mining Company will do the same. Why leave your money in the bank when you can be secured and obtain five times the amount of interest by purchasing stocks of standard value?

We are very near the Cobalt region, and the majority do not realize the immense treasure vaults which lie in Northern Ontario. Do you realize that Ontario holds enough silver to supply the world? That the great northern country is destined to be the biggest mining region ever developed? Investors are putting their money in

who live in foreign countries, but whose experts have reported favorably of the Northern Ontario, but whose experts have reported favorably of the Northern Ontario, but whose experts have reported favorably of the Northern Ontario.

Do you know that it is estimated that if silver were selling at 40c per ounce the mines all over the world would have to shut down, as they could not produce it at this price? The Northern Ontario region could not only produce it at this price, but enormous profits would be made. It is the most wonderful mining region ever discovered.

Canadian people should invest their money in home development and not allow this wonderful heritage to supply wealth to other nations.

FREE TO MEN UNTIL CURED Not One Penny in Advance or on Deposit

Are you nervous and run-down? Are you gloomy and despondent? Do you feel the need of new strength? Are there weaknesses which exhaust your vital forces? Does your back trouble you? Have you Rheumatism, Constipation, Kidney, Liver or Stomach troubles?

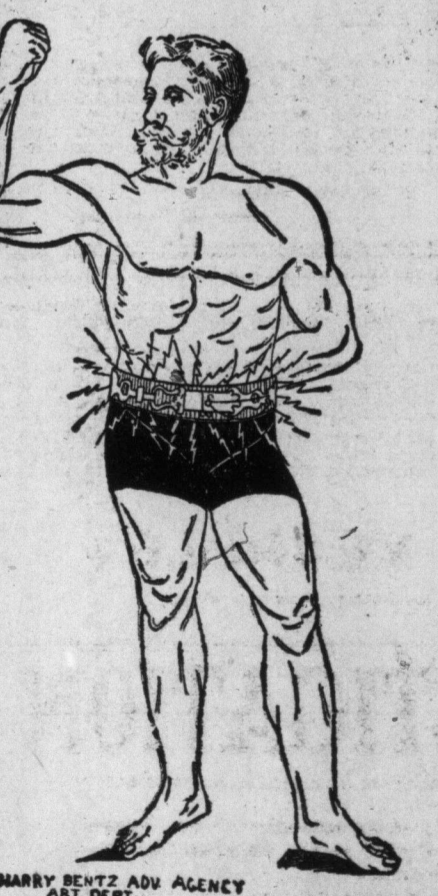

FREE UNTIL CURED. Not a cent need be paid in advance or on deposit. All I want is some assurance from you that you will pay me when cured, and I will take all the risk.

It is my great knowledge of electricity and its effect on the human system, gained through years of experience and study; also my success in restoring to health thousands of men and women in all parts of the world, that makes me so confident I can do the same for you.

If you have time and money to waste you'll probably try some of the many drug remedies, but you'll come to me in the end. Nearly every person I cure has used drugs without success.

FREE BOOK. Write or call for free book on medical electricity, beautifully illustrated. It will give you prices and full particulars and contains much useful information for both men and women.

The Furniture Event of the Year

The February Sale Opens on Monday With Thousands of Dollars' Worth of New Furniture Specially Gathered for This Economical Occasion

WE have been particularly successful this time in securing the desirable kinds of Furniture such as the majority of folks are buying every day. All over Canada we have picked and chosen.

Wednesday Next Fixed for Stock-taking Day

ON WEDNESDAY NEXT the present business year of this store comes to an end and we take down the inventory. Wednesday next is the day of days.

For these first three days of the week—Monday, Tuesday and Wednesday—we will be applying every effort to finishing the year with a **CLEAN SWEEP**. All the chips and shavings of a busy winter's work must be cleared out.

Will you help us? We make it to your practical advantage to do so.

After Stock-taking we will launch into the working out of ambitious plans for February. As you see elsewhere on this page the February Furniture Sale starts in promptly February 1st.

After Stock-taking we will make an announcement about our Semi-Annual Sale of Underbought Hosiery and the Initial Sale of Silverware in that magnificent Department of the New Store. In the meantime, however, we bespeak your assistance in a mutually profitable activity—reducing stocks to their absolutely lowest terms.

There is not a factory which has not offered to meet the issue of this February Furniture of 1909. The demand for Furniture has not been so overwhelming during the past year as to prevent occasional accumulations of stock. We, as one of the great retail outlets, have fallen heir to thousands of dollars' worth on which big discounts have been made. As you know, these discounts go to our February customers.

For example—Two carloads of standard bedroom furniture from one of Ontario's most progressive manufacturers, gives a discount of 25 per cent. to our customers.

Again, a shipment of dining-room chairs—over 100 sets—gives you a discount of equal percentage.

Another example—One purchase of twenty parlor suites saves our customers 33 1-3 per cent.

We might multiply instances, for we have gone into the market with energy and determination with the idea of making this February sale a big success.

In addition to the furniture especially bought for this sale, we are sternly reducing the old figures. Measures in this connection will be radical, and the more radical they are meant will show you Monday morning.
