* WAR SUMMARY *

THE DAY'S EVENTS REVIEWED

THE battle of the Somme was continued by the British and the French yesterday and each won important gains in their common progress towards the third German system of defence. The fighting extended over the whole eight or nine mile front between Pozieres and the Somme River and an advance was made everywhere. Sir Douglas Haig reports in his communication from the front that the British troops captured several strong positions of the enemy and gained ground towards Ginchy and Guillemont. They took more than 200 prisoners, or about the same number as the French took. Two German aeroplanes were brought down in the British lines, one after an air combat and the other after being hit by anti-aircraft guns. The Royal Flying Corps gave further proof of its ascendancy over the German flying corps by bombing Teuton billets in several places.

After completing the consolidation of their new positions north and south of Maurepas, a task of 48 hours, the French vesterday attacked a part of Maurepas Village, where the enemy was strongly fortified, and captured a considerable portion of it, together with Cavalry Hill, southeast of this village. The assault also gained the French 200 unwounded prisoners. They also advanced on the front between Maure-Pas and the Somme to the east of the Maurepas-Clery road. The offensive which the French reopened at Verdun, with the driving of the Germans from the remainder of Fleury Village, was continued yes-

Special Cable to The Toronto World. LONDON, Aug. 18 .- The chief fea. ture of the Russian effort has been the further extension of their lines in the direction of Hungary. One column has continued its advance in the Koros Mezo region of the Carpatians, in the Jablonitza Pass, and it is now approaching the mountain summits in a threat towards Hungary.

The Russians are also prosecuting an advance on the front southwest of Stanislau and have occupied Lysiets, seven miles to the southwest of that town, on the western bank of the River Bystritza-Solotvina, over which they have forced a passage.

forward east of the Vaux-Chapitre Wood, in the vicinity of the road

goes is more of the steady than the rapid variety towards the third Ger-

man system of defence. Method has to go into this operation more than

into the others, perhaps, for the third German system in Picardy has been

modeled after the French system of trenches on Cote du Poivre and Le

Mort Homme, which frustrated the Germans at Verdun. The third German

defensive lines, in brief, are drawn on the farther slopes of the Artois ridge.

They are not near the summit of the ridge, but are established well behind

the slopes, so that they can only be reached by high-angle indirect fire. It is true the Germans will be handicapped in defending this line when their observation posts have been destroyed. Weakness of observation, in

fact, is one of the defects of this style of entrenchment. Some of the small

British advances of recent days on fronts of 100 yards or so have probably

The Russians are giving a new twist to Magyar nerves by their renewed advance in the Carpathians south of Jablonitza, in the Koros Meso

region, where they are approaching the summits of the Carpathians. In

this offensive campaign General Brusiloff has admirably played on the

susceptibilities of the Hungarians before each fresh stage of his opera-

tions. This threat can never be disregarded by the enemy and he has to

weaken his lines elsewhere by making a counter-concentration to stop the

Russian move southward. General Brusiloff then takes advantage of this

counter-concentration of the enemy to give him a straight thrust elsewhere. It is announced by the German general staff that the Turks recently moved

into Galicia are now engaged with the Russians, but the chief standby

of the Turkish soldier is behind an impasse like the Dardanelles. When

beset by Cossacks he is liable to break into a panic and to be a source of

operations around Kati, east of the Suez Canal, show that the Turkish

force lost 9000 men, or virtually half of its effectives. The British pursued

the enemy until Aug. 12, taking prisoner 49 officers and 3871 men. The known Turkish killed amounted to 1251 and the wounded are estimated

at 4000. The force was originally 18,000 strong. The British have brought in the following war material: A four-gun Krupp three-inch bat-

tery with 4000 rounds of ammunition: 2300 rifles, with a million cart-

ridges; nine German machine guns, with thirty boxes of ammunition; 500

camels and 100 horses, and large quantities of material and equipment of

all kinds. The Turks also burned a large quantity of stores at Bir-el-Abd

and the abandoned two field hospitals. Thus the Turkish expedition was

which appeared in The Buffalo Express on Aug. 16, based on the probabil-

ity of a great counter-offensive being undertaken by the central powers to

stop the Russian forward march and to regain the lost ground, and he

is that the Germans and Austrians have already attempted a counter-

drive and that it has signally failed. They tried it on the hundred-mile front of the great bulge that the Russians in June had driven in their

lines west and northwest and southwest of Lutsk with all the troops that

they could muster and with a great superiority of heavy guns. The proof

of the failure of that Teutonic offensive was manifested by several de-

velopments. First, after about a month's heavy fighting the Germans

had to abandon the region in front of Czartorysk and to retire behind

the lower Stokhod. Secondly, the Germans were driven back west of

Lutsk and east of Vladimir-Volynski. Thirdly, they were forced across

the upper Styr, the Lipa, the Slovenka and other rivers and driven out

of Brody. In Brody the Russians seized immense stores of heavy shell

that the Germans had collected for a proposed invasion of southeastern Russia after they had arrested the Russian offensive. Before the Russians

entered that town other vast stores of munitions were blown up by the setreating enemy. Further proof of the severe defeat sustained by the

Germans and Austrians is seen in the recent discharge of Von Mackensen

(recalled from Turkey) from command, not mentioned, of course, by the

enemy, and the appointment of Von Hindenburg in his place. That change

was announced after the great battle was lost. An attempt at a counter drive thru the Carpathians has also been frustrated by the Russians, who

are again advancing there and have captured Jablonitza.

stay and bringing back several Germans at the point of the bayonet across No Man's Land as ordinary daily routine. There has also been the never-ceasing artillery fire, the toil of the sniper and indiscriminate but constant rifle fire all night by the enemy. When one remembers these things, and, still more, sees them, in operation, one cannot wonder that the Canadian casualty lists bear many names even when what is called real hard fighting seems to be proceeding on another portion of the front.

Boche Vicious as Ever.

"The Boche is just as vicious here as ever." declared a brigadier in his dugout over breakfast, not many heurs after we had experienced one form of this viciousness. It was not unexpocted, for when an artillery bombardment has been unduly prolonged our fellows feel pretty certain that blue-coated infantrymen will soon follow. They came cross during the broiling forenoon to the part of our line held by battallions which had received a gruelling a couple of months ago. Probably the Germans knew very well what battallions were against them.

The deadly Lewis run met the enemy more than half way across, met him in fact as soon as he started his trip of a few hundred yards, but there were some of them who got right into the trenches of the Canadians.

The fight lasted a couple of hours or more in the blazing sun amidst

This morning all the officers taking part in yesterday's sham fight, attended a conference held in the Strand Officers Confer on Sham Fight.

regarded the starting of the British offensive. Such questioners were glad to hear that folk at home were entirely optimistic, but were also anxious that such folk should not look upon the present state of affairs as heralding an early close of the business. I heard many opinions concerning when the war will end, but not one in any way predicting a very early termination.

Fritz Poor Bomber. The German soldier may be as ready as ever to attack in a set enterprise units in camp, without leave, is now on orthodox lines, but during this vi sit to the Canadian front I have repared with three days ago.

Lieut. Wm. D. Sharpe has received is impossible for him to compete with the appointment of medical officer of our chaps in such matters as hombthe 234th Peel County Battalion, with ing excursions. I was assured never once has Fritz made such excursions upon Canadian lines, while on the other hand, they are a matter of a most nightly occurrence with the Canadians. General opinion regards them as the most efficacious method of

keeping the Germans in a healthy

Control No Man's Land. Such an enterprise was carried out under my own eyes the other night, our boys creeping stealthily out of the trench onto No Man's Land, bearing amongst them a goodly num-ber of bombs, each with a meber of bombs, each with a mechanism as intricate as an alarm clock. For Canadians it is a comparatively trifling matter to go out on No Man's Land, for it is com-manded by us as completely as the seas are commanded by the British navy. The German, somehow, has no heart going out there on his own or in twos or threes, so our chaps worm themselves out of the shelter of the trenches into dark neutral territory. It does not look a bit heroic. To see the start the boys might be going into a stopped drain, except they carry their rifles. If the German does not send up a flare for a minute or two so much the better. If he does and sees something going off, look out for the menacing rattle of the machine gun and keep to the ground as if you loved wallowing in dust and barved

Spring Into Trenches. However, our chaps get thru this part. Then comes a quick jump into the German trench to the utter consternation of what we must call its rightful owners. Our chaps, cool as cucumbers, but fierce as tigers Fritz brave enough but utterly nonpulssed in a minute of life when lively wit and steady nerve were never more essential. Up and down the trench our chaps do hop around hombtrench our chaps do hop around, bomb-ing right and left may be also giving a vigorous bayonet thrust into a pro-mising quarter. It is a perlious but heartening brief heartening brief experience, which I say only comes to our chaps, for hte German with all his natural bravery has no stomach for such operations.

The other night our chaps were especially pleased with results as they managed to bring back a prisoner. They discovered him shamming dead in the trench and brought him along at the edge of a bayonet. He came

ualties to attackers. I learn that an officer who took part in this raid will lose his leg; three men were killed, their bodies being brought back, which is in itself a great feat considering that they had to be brought across No Man's Land under the machine gun

One night I passed thru Maple Copse and Sanctuary Wood, where really heavy fighting took place two months ago. Many of our poor chaps are lying there simply buried by the crashing down upon them of our trenches wrecked by artillery fire. Stumps and roots and great mounds with timber and iron sticking with timber and iron sticking out now stand for substantial line fortifications, which once ran thru Sanctuary Wood.

I heard the story of General Mercer. He was passing along these trenches just before a great attack and on turning a corner he met a man who instantly sprang to attention. An ever watchful sniper made him pay the full penalty for his respect for he fell with a bullet thru his brain at the feet of General Mercer. Eyewitnesses who told me this added that Mercer was so affected that he wept. Everyhody out here speaks of him. Everybody out here speaks of him with tender regret, which will certainly surprise nobody who ever

Keeping Tab on Fritz. While on the subject of enemy dispositions, I had the pleasure of meet-Germany will never win the war with ing a Toronto corps intelligence officer, such enterprises and the enemy knows it as well as anyone, but such an ensystem of tracking Frit's every discounter does show tho, that the Ger-man soldier, individually, is still full every turn of German trench man soldier, individually, is still full of fight. Further, every Canadian to whom I have spoken here gives the enemy credit for being so.

"I have never yet seen the slightest weakening in the German morale." declared a general to me. The continual content of the man trench position, and every furn of German trench position, and every furn of the Maurenas-Clery road.

"On the right bank of the Meuse we continued our offensive action, weakening in the German morale." declared a general to me. The continual content in the man collines are Canadian and enemy including five officers, and also three

trenches. In Honor of Dead. The colonel with whom I was conversing made an interesting suggestion regarding the maple copse sanctuary. Woodland about this part may be purchased for a couple of nundred dollars an acre. "Would it not be appropriate," said the colonel "for Canada to purchase this quarter where so many of her soldiers lie in "Noulding lies"." where so many of her soldiers lie in unknown graves?" The idea is worth bearing in mind.

Gen. Turner was anxious to give Canada his opinion of the French-Canadian battalions. He said no finer natural soldiers ever fought for the empire. "There are some people who speculate as to what might happen if trouble arose between the French and other Canadians," he said. "Well, it would be a terrible thing for other parts of Canadians." would be a terrible thing for other parts of Canada to imagine that they would have an easy job in dealing in their own way with such men as aro now serving with me."

I will leave it at this and merely add that Gen. Turner was very emphatic on this.

VOTES FOR WOMEN COMING IN BRITAIN

Equal Franchise Will Be in Effect at Next General Election.

LONDON, Aug. 18 .- The present week brought within range of practical week brought within range of practical politics a reform which many of its advocates feared the war would postpone perhaps for a generation—the right of women to vote. The strongest force against the realization of woman suffrage in the years immediately preceding the war was the determined opposition of Premier Asquith, hence his virtual conversion, when he said in the house of commons on Monday, that the undertaking of new franchise and registration reforms new franchise and registration reforms in the midst of a great war was too complex and controversial a problem, and implying that any new bill for franchise reforms in the future must, of necessity, include women, was a great surprise. great surprise.

The premier's announcement is talked of on all sides as meaning that women will have the vote before another general election is fought, except in the unlikely event of an election being forced upon the country before the war is ended. According to The Nation htere have

been other similar conversions among men of great influence and, altho Earl Ourson still remains a strong op-ponent of the women's cause, together with some others, men of all parties realize that the capacity and willingness to help in the national cause as displayed by the women during the war have removed the last obstacle to their receiving political recognition.

Liberal papers are urging the government to grapple with the problem of adult suffrage without delay on the ground that the coalition government is able to smooth the path of reform and calm the fears of the house of lords as no Liberal government could.

SATURDAY MORNING, AUGUST 19.

Getting Busy When the Old Man Comes Round

What headway the Ontario Government has been making since the Southwest Toronto by-election fairly got under way! The knots that tied up the acter and experts will deal with imhydro radials are being untied at a great rate, and if they seem at all stubborn out comes the sharp knife of tributions will be a paper on Tuesday an order in council, and cuts them in by the Toronto Commissioner of Fintedious waiting, no more vexatious delays, no more red tape.

But even more astonishing has been the progressive activity in respect to nickel. From August, 1914, to August, WINE MANUFACTURERS' 1916, not a tangible step was taken toward refining Ontario nickel ore in the Province of Ontario. Indeed, up to date not a spoonful of earth has been excavated nor a stone laid. There was some correspondence months ago between Premier Borden and Presiden Monell of the International Nickel Co., but it had arrived nowhere in particuis on the job!

commuted, for an annual payment of posal of the product. \$40,000, no one in authority thought of disturbing the arrangement until that little gale in North Perth followed by storm signals in Southwest Toronto. Now within a few days' time, the government decides not only to jack up the taxes to where they ought to be but to go back and collect money upon profits made by the nickel trust in years gone by.

In short, within ten days the Hearst government has done more real business, made more real progress and done more to commend itself to the people than in the preceding twelve months. If the people were satisfied that all the pledges made in this campaign were to be faithfully carried out and that the government would con- want any registration or anything like tinue to be as active hereafter, there would be great rejoicings thruout the province, for Ontario would soon be the banner country of the world.

We need not for a moment arguthat the ministers are not sincere. The man who makes a solemn promise when he is scared to death means to keep it at the time, but experience shows that when the scare wears off he is apt to forget his promise unless every now and then the scare is repeated. Would it not be a good thing for this province if we had a by-election about every three months? Would it not be a good thing to have a general election and thresh out our differences in a manly way and get the mandate of the people upon those problems that are interlaced with and directly concern our effective participation in the successful prosecution of

It is rather a misfortune for a government to have too large a majority. Sir James Whitney, when he lived, was the whole government, and the people of the province, irrespective of party, trusted him implicitly as today they trust Sir Adam Beck. But when Sir James died and it became necessary to put the government as it were, into commission and revert to the old cabinet system, it would have been better if the legislature had appointed.

Special to The Toronto World.

KINGSTON, Ont., Aug 18.—As a result of the decision of Mr. Justice Masten in Toronto, Patrick Burns and William Teeple were given their liberty at the county jail this afternoon. They were convicted on July 21 of selling liquor without a license, and a fine of \$300 and costs or three months was imposed. T. J. Rigney entered an appeal, which was allowed. better if the legislature had appointed its own committee or cabinet to govern' the province, and it would have been better, we can see now, if the new government had not started off with so overwhelming a majority. The "never-ending audacity of elected persons," is the saddest commentary upon democratic institutions. Small men suddenly thrust into large places get and delusion of grandeur and affect airs of superiority which kings born to the purple never dream of assuming. Even the most intelligent and virtuous man is liable to get the swelled head MIGHIE & CO. LIMITED if he is constantly surrounded by Yeb-

The Toronto World ple who owe him something or expect to get something from him. Ministers of the crown live in a hot-house atmos phere at Queen's Park. They shrink, not unnaturally, from the rough outside world. But it does them good to realize every now and then that they are merely hired men who can be sacked by their master, the people. It is well for them now and then to hear their master's voice. Evidently some of them think that the master, just now, is in the humor to flog any boy caught scamping his work, and Messrs. Ferguson and Lucas are taking no chances. They may have a hard row to hoe, but just now they are boeing away for dear life. Old Man Ontario will be glad to see how hard they are working since he dropped into Southwest Toronto, even the he may suspect they were loafing on the job when they thought he could not get

Yes, a by-election seems to be good thing.

Two Important Conventions Two important conventions appeal just now to those who are interested in civics. The Tax Reform Convention, which opens at Niagara Falls today, promises to be the most important gathering of taxation students ever held in Canada, and the United States experts of the same group will meet across the river at the same time. An interesting program has been prepared and should attract a large at-

Children Often Seem to Pine Away and Ordinary Medicine Does Not Help Them.

The health of children between the ages of 12 and 18 years, particularly in the case of girls, is a source of serious worry to nearly every mother. The growth and aevelopment takes so much of their strength that in many cases they actually seem to be going into a decline. The appetite is fickle, brightness gives way to depression, there are headaches, fits of dizziness, palpitation of the heart at the least exertion, and sometimes fainting. The blood has become thin and watery and the sufferer must have something that demic. will bring the blood back to its normal condition. At this stage no other medicine can equal Dr. Williams' Pink Pills. Their whole mission is to make new rich blood, which reaches every part of the body, bringing back health, part of the body, bringing back health, strength and energy. Miss Helena Taylor, West Toronto, says: "Two years ago I was so badly run down with anaemia that some of my friends did not believe I would get better. I could not go upstairs without stopping to rest, suffered from headsches, loss of appetite, and for two months of oss of appetite, and for two months of the time I was confined to the house. I was under the care of a doctor, but the medicine I took did not help me in the medicine I took did not help me in the least. A friend advised my mo-ther to give me Dr. Williams' Pink Pills, and although I did not expect they would help me after the doctor's medicine had failed, I thought they might be worth trying. After taking two boxes there was such a marked change for the better that neonle askchange for the better that people ask ed me if I had changed doctors, and I readily told them the medicine that was helping me. I continued taking the pills until I had used eight boxes, when my health was fully restored and I have since enjoyed the best of health. I hope my experience may be the means of convincing some sincle was the continued to the since enjoyed the best of health. means of convincing some sickly person that Dr. Williams' Pink Pills can restore them to health."

CENSORSHIP OF CABLES FORCED UPON BRITAIN

ord Cecil Points Out That Ger many's Attitude is Responsible.

LONDON, Aug. 18.—The British reply to the American enquiry as to the operation of the censorship in transit of American news cabled from Germany by way of London, will be sent to Washington in the course of a few days. Discussing this subject, Lord Behert Cacil was trade minister and Robert Cecil, war trade minister, said today:

"Considerable misapprehension eviquestion that such a censorship on our wires and cables is necessary as long forship we would not interfere with lespatches from unbiased American orrespondents.

matter is the fact that Germany circulates in other countries despa-sent to American newspapers."

Several weeks ago a group of American correspondents in Berlin asked Ambassador Gerard to inquire if the Ambassador Gerard to inquire it the American Government could obtain for the American press, facilities for the forwarding of press despatches from Germany, unhampered by the British censorship. The state department, on receiving this inquiry, forwarded it to London without comment.

TURKEY AND BULGARIA REALLY SEEKING PEACE

Reports From Many Quarters All Point in Same Direction.

ROME, Aug. 18.—Reports are coming from the east, west, north and south concerning efforts by Turkey and Bulgaria to make a separate peace with the allies. However, the papers warn the public not to put too much faith in such rumors, as while there is a grain of truth in them the governments of those countries have taken

ments of those countries have taken no steps to that end.

The fact seems to be that certain influential persons of both Turkey and Bulgaria have sounded England and France and even Russia for the purpose of ascertaining on what terms separate peace would be granted, but that the allies replied evasively, intimating that they could only treat mating that they could only treat with the responsible governments and on the understanding that the countries desiring peace would fully acknowledge the victory of the allies. Real negotiations are still a long way off, but interested Bulgarians and Turks are working for this result.

PLAYS, PICTURES

Next week at the Alexandra Theatre will see the last of the Robins Players. For their final week Mr. Robins has not depreciated his well-known policy, but on the contrary promises a more elaborate setting than any of the previous productions. When in New York a short time ago, he secured the first Canadian rights for the presentation of Margaret Anglin's comedy success, "Beverly's Balance," which enjoyed a long run of popular success at the Lyceum Thepopular success at the Lyceum Theatre, New York. "Beverly's Balance" will be presented next week and in view of the fact that it has never before visited Toronto, commanded an enormous royalty.

fore visited Toronto, commanded an enormous royalty.

The play will be produced under the watchful eye of Miss Frances Neilson, the popular leading woman of the Robins Players, and as she is thoroly familiar with it, it can be safely said that there is another treat in store for all who witness a "good-bye" performance of the Robins Players.

LOEW'S THEATRE.

charming mixture of musical and vo-cal selections.

An extra attraction on this bill will be the well-known funmakers, Will H. Cohan and Harry Young, who have proved such a big hit in vaudeville this season that they have decided to refuse flattering offers to return to burlesque. Cohan will be remember-ed as the comedian with the "Merry Widows" several years ago, and is con-Widows" several years ago, and is con-sidered one of the funniest Hebrew

comedians on the stage.

Chas. Ledands and Company will offer a clever, merry farce, entitled "The Fire Escape," which this master of farce comedy played three years ago with such success that he farce comedy played three years ago with such success that he is reviving it for the summer. Cunningham and Bennett are called the "talkative acrobats" and keep up a running fire of conversation and remarks while they perform some thrilling and difficult acrobatic feats. Bobby Norton and Ruth Noble, a clean-cut, classy pair, will offer songs and dances. Other acts will be added with another chapter of the "Secret of the Submarine."

"THE BIRD OF PARADISE."

In "The Bird of Paradise," which will be seen here at the Alexandra Theatre for one week, commencing Monday evening, Aug. 28, Richard Walton Tully, the author, presents an alluring picture of a vanished regime in a beautiful land. The scene is Hawaii, and the tale of romance, intrigue and superstition is carefully woven. The period is in the early nineties. Luana, a native princess, falls in love with Dr. Wilson, an American, who comes to Hawaii to search for the bacillus of leprosy. Instead, he marries the little girl and gradually sinks lower and lower. Mr. Morosco, under those direction the piece is produced, has coltion the piece is produced, has collected an exceptional cast, headed by Miss June Janin. Seats for this atday, Aug. 24. HIPPODROME.

Douglas Fairbanks, the famous 'Triangle' star, will be featured at the "Triangle" star, will be featured at the Hippodrome next week in the latest five-part release, "Flirting With Fate." The picture is one of the most laughable comedies that this famous company has ever released. The special feature of the bill will be Zelaya, the best of vaudeville's best known piano virtuoso. Zelaya is a thoro master of his instrument and has a particularly appropriate repertoire. "Fired From Yale," the special extra attraction of the bill, is an amusing comedy playthe bill, is an amusing comedy play-let that contains a host of amusing situations, bright lines, and clean, wholesome comedy. The Lelands present a unique cil-painting novelty that is new to vaudeville. Johnston and Crane have a vaudeville specialty that includes bright songs and dances, while Black and McCone in a black-faced act have a lot of new, refreshing, laugh-provoking material. Cross and Double in the amusing comedy sketch, "Fun in a Ring," and "Keystone" film comedies conclude a well balanced bill.

GAYETY THEATRE

When the curtain rises at the Gayety Theatre Monday, Fred Irwin's Majestics will reveal to the theatre-going public one of the most elaborate pro ductions in burlesque. Keith and De-mont, the chief funmakers with the rwin's Majestics, are well known and have been supplied with a new and original book and startling situations. Mr. Irwin has secured Miss Florence Bennet, who without question is the most beautiful woman in burlesque, and it is also a fact that Miss Bennett is a Toronto gifl. Mr. Irwin also engaged May Penman; that soubrette, Miss Alexander, the "Melba" of burlesque, and a radiant chorus that can sing and dance. The costuming is one

of originality, displaying the latest in gowns which will present a veritable fashion parade of advanced modes. MADISON THEATRE

It is a very true statement that 'two stars are better than one," this is especially true when the two work together so harmoniousl that they do not detract from each other's parts. There have been several screen partnerships since the movies began to be, but none has been more successful from every standpoint than that of Wallace Reid and Cleo Ridgley, who make their appearance again at the Madison Theatre on Monday in "The Selfish Woman."

Hagen Wins Western Golf Championship

MILWAUKEE, Wis., Aug. 18.—Walter Hagen, American professional of Rochester, N.Y., today added the western open golf championship to his list of honors by completing the 72-hole medal contest on the Blue Mound Country Caub Minks in 286 strokes. This score equals that made by Chick Evans of Chicago, in winning the national open title at Minneapolis recently, establishing a record for 72-holes in national competition. Hagen recently won the Metropointan championship and three years ago won the national title.

George Sargent of Minneapolis and Jack Hutchinson of Pittsburg tied for second place with 287, George O. Simpson of Oakpark Club, Chicago, and Jas. Barnes of Philadelphia followed with 288 each. These five men won all the pries, as Simpson with a wonderful 66 in the third round took the special prize for best score during the tournament and established a record for the bill6-yard course.

 MOSS PARK WEEKLY ATHLETICS.

Four teams were entered for the relay race at Moss Park last evening and the race proved one of the closest, fastest contests held this season. Nugent's team crowded the winners until the last lap; when the Ryan boys pulled away and won by a narrow margin. Thirty-five entries were received in the mile event, the junior race again proving the plum of the evening bringing together W. Shaw and G. Hurst, the latter winning from his rival after a gruelling finish. The summary:

The surprise of the day was the defeat of John Rernic's Walker Trophy winners by Ecclestone of St. Catharines, winner of the Association at the O.B.A.
Rennie started strong and had a tally of 9 to 0 on the fifth end, when Ecclestone evened by scoring three on the succeeding three ends and tying the score. From then on he retained the big end of the score, finishing 17 to 14.
Dr. Creelman of Guelph met Page of Lawrence Park, the runner-up of the Walker Trophy. The Guelph quartet were the same rink which won the O.B.A. At the end of the 12th end the score was seven all, but the three final rounds were all for Guelph. The Eastern Ontario champions, Ottawa, R. R. Farrow, were not able to cope with the Bickerstaff rink from Parkdale with P. L. Brown skip, losing by a score of 17 to 8. The scores:

In the third end Guelph shot two and even the score, getting a one-point lead in the fourth. Hamilton, by getting two in the fifth, obtained the lead, but Dr. Dr. Creelman by some wonderful drawing drew shot with his first bowl and again drew with his second; Gayfer ran one out with his last and Guelph tallied one, making the score four to one.

The seventh end was a pretty exhibition of high-class bowling. Fairbairn sent down a bowl that trailed the jack and lay shot, Chapman again trailed the kitty and lay along with the kitty against his first bowl, scoring two. The eighth end was Guelph's for four, while Hamilton obtained singles on the minth antenth.

In the eleventh end Guelph were there

At this juncture there was a demand from the audience that he discuss nickel. Commencing with the suggestion of an embargo, he asked what would the United States munitions factories which supplied Britain with shells, have done had an embargo been placed on this commodity. Not ten per cent, of the orders could have been filled and the Huns would have overrun Carada long ago. "Our nickel," he said, "has stood between us and the Hun every since the war commenced."

Own sons and sent them to the front to have them murdered by Canadian nickel. Shame on the man who has no higher opinion of the people of Southwest Toronto than to believe they are going to endorse that sentiment by voting for a man who espouses that opinion. It is your duty to denounce those assertions at the polls."

Answering a question concerning the \$40,000 tax on the nickel companies, the minister said the government realized

immediately was directed to the pro-hibition issue. Somebody asked why, after the decision on prohibition given at the last provincial election, the government had enacted prohibition. The speaker explained that prohibition at present was an economic way made at present was an economic war measure. The policy of the Conservative party never was and is not now that of prohibition. The same man asked why in its legislation the government had worked discrimination against the working man while the rich man reserved. working man, while the rich man was utill allowed to import liquor. Mr Ferguson explained again that this state of affairs worked out as a result of constitutional law. No province had the power to forbid imports from

The minister then took occa-on to defend himself sion to defend himself on charges of attempting to stir up strife and racial hatred by raising the bilingual question. "I will resign from the cabinet," he said, "If any man who heard my address the other night heard me say a word against the Roman Catholic Church." It was the French teaching orders, he said, whom he had referred to as the trouble makers. Why Bishop Fallon, he declared, a noted Roman Catholic churchman, was one of the strongest supporters of the government in its bilingual policy.

Somebody asked why the government, if it felt so strongly it was right and the French people wrong, did not enforce the law in Ottawa. Mr. Ferguson declared that alitho the Truancy Act gave grounds for legal action, it was the belief of the government that there could be no good come of making wholesale arrests amongst the parents of the children. The mothers and fathers of these children, he declared, if left to themselves were willing and anxious to have their children learn French, but the French teaching orders, where they got the control, forbade them to allow their children to learn the English.

Billingualist interrupts.

The audience and Mr. Ferguson were visibly surprised when interrupted by a pro-bilingualist. Speaking with a very slight French accent a man near the front got up and demanded to know who had reised the bilingual issue in the present time of strife. And were not the French, the original colonizers of the Dominion of Canada, entitled to more consideration in the matter of language than the Germans and the Italians and other immigrants?

the buoyanor of youth,

As I have said a hundred times over, iron is the greatest of all strength builders. If people would only throw away patent medicines and nauseous concoctions and take simple nuxated iron, I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause which started their diseases was nothing more nor less than a weakened condition brought on by lack of iron in the blood. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following tast: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary numated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run-down people who were stiing all the while double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days time simply by taking iron in the proper form. And this after they had in some cases been dozening for months without obtaining any benefit. renewed life after he was weakened and all run down. where the allied forces advanced a three-mile front yesterday, the kaiser's forces made no attempt to counter-attack today. They elected to assail the British line along the northern edge of the wedge, on the theory that if it were blunted there a push eastward would be seriously

London sees extremely hopeful signs in the allied victory yesterday. The advance proved that offensive ability still rests in large degree with the allied forces in Picardy, and while the advance may move slowly, nevertheless, a thrust always pushes back

the German lines.

The British and the French continue the steady pressure on the Teuton line, always returning to the attack with increased power after they have been stopped momentarily. It is a good criterion of their resources in men and munitions that, after seven weeks of almost incessant battle, they were able to execute the brilliant dash which helped to straighten their line in the Combles-Peronne sector.

Heavy German Losses. This advance is measured only in yards, and it is only a minor incident in a wide movement, but it was costly to the Germans, who defended their

positions stubbornly.

Some observers here believe that if the estimates of German numbers in the west are correct, the kaiser's troops will not rest content with defending the Somme sector, but will knunch a heavy counter-attack at another point on the line in the west. other point on the line in the west. One of these critics says that Germany is still well supplied with troops, and that the 1917 class is far from being exhausted.

So far the greatest value of the western offensive has been to compel Germany to concentrate large forces there, enabling the allies to strike suc-cessful blows at other points. How

"I am glad," he continued, "to have the opportunit yto speak to the news-papers, in view of the messages of correspondents visiting the German headquarters in Picardy.

"If contradiction were needed, is proof better than any argument? Since July 30 we in three days gained ground over two miles in depth on a four-mile front north of the Somme, and that at a cost absolutely trifling compared with what the Germans paid for their guns at Verdun.

"Just examine the battle front and you will see that we have steadily widened it since the beginning. That doesn't look as if the offensive had broken down, but, on the contrary, that it is ever growing toward full development. Hardest Work Over.

"Already, between Maurepas and Clery, we are tackling fortifications hastily constructed to link up strong points d'appui of the German third line. It is evident that we are piercing the first and second. Such trenches are far less defensible than the armored labyrinths forming the previous lines. Moreover, penetrating the weaker points enables us to work around the strong ones like Guillearound the strong ones like Guillemont or Maurepas until we can batter them to pieces before assaulting with infantry. "Thus yesterday the advance was preceded by two days of the most tremendous bombardment I ever heard. Verdun did not compare with it. And you must remember that mastery of the air lets us know the exact targets while the German gunners are practically blindfolded."

When the German Quits.

The captain, who took part in the assault beyond Mauropas-Clery road, said: "It is difficult at many places even to distinguish where the German trenches have been, and good a fighter as the 'Boche' has shown himself to be, you don't find him making desperate resistance in these shell holes, like our men at Verdun. Once the shellers and quick-firers have been a distinct weakening in the German morale as the offensive progressed, the officer said: "It is hard to say, for two recosons. When asked whether there had been a distinct weakening in the German morale as the offensive progressed, the officer said: "It is hard to say, for two reosons. First, the troops acposite any one point of our line are constantly being renewed, so that what one takes for lowered morale is often the inferior quality of the new comers, while the next lot may be better. Second, our present system of limiting the advance after a gigantic bombardment has reduced the defenders to such a condition that it is impossible to judge what the morale would be in more equal fighting."

IN STRONG POSITION

White Metal Expected to Be in Decided Demand Before Long.

SILVER MARKET IS

TRETHEWEY MEETING DEFERRED.

In conversation with a gentleman who is in closest touch with the sliver situation on both sides of the Atlantic, he said:

"Fundamentally the sliver market has improved very materially since the decline from 71%c at the beginning of May to 60c on July 10th. The quick rise to the highest price in 23 years was caused by the fact that the various nations needed sliver for currency and found themselves bidding against each other in a market which was somewhat bare. These nations quickly discovered it would be very much to their interests to camb he in buying sliver along the same lines as Great Britain and her allies have done in war munition contracts. Operators of sliver mines, however, feel certain their preduct will sell at very much higher prices near the end or after the war and therefore have disposed of the white metal sparingly only to cover working costs and dividend requirements. "The tendency during the last two weeks has been noticeable better, because the allied nations have been unable to acquire anything like sufficient to meet their requirements. India requires silver very badly at present, but China is no longer in the position to dispose of a large stock as she did a few months ago, and in fact will likely be compelled to replace that sold portion very soon. India will also probably soon be in the market for very large quantities, as it the now assured exceedingly heavy crop. England and her allies, as well as South ers, too.

DULUTH-SUPERIOR EARNINGS. Duluth-Superior Traction earnings for second week of August were \$30,504.29, showing remarkable increase of \$9,056.70, or 42.1 per cent. For year to date earnings are \$830.694.45, an increase of \$140,-645.61, or 20.4 per cent.

CELEBRATE BIRTHDAY OF **EMPEROR FRANZ JOSEF**

Ambassador Gerard Attended Service Held at Berlin Yesterday.

BERLIN, Aug. 18., via London, 8.40 p.m.—The birthday of Emperor Vranz Josef of Austria-Hungary was celebrated here today on a large scale in military and diplomatic circles. The military and diplomatic circles. celebration began with a service in St. Hedwig's church at noon, which was attended by the Austro-Hungarian diplomatic corps and many Austro-Hungarian officers stationed here. The Germans who attended the service were headed by Dr. Von Bethmann-Hollweg, the imperial chancellor and Dr. Karl Heifferich, the minister of the interior. Others present were the Turkish Ambassador, Haaki Pasha, and Bulgarian Minister Rizow. The neutrals attending were Ambassador Gerard and American military attaches and the Swedish and Chinese diplo-

TORONTO PASTOR ACCEPTS CALL

PORT HOPE, Aug. 18.—St. Paul's Presbyterian Church, Port Hope, has extended a call to Rev. E. A. Earchman, B.D., B.A., of Toronto, and at a meeting of the presbytery of Peterboro held at Port Hope this week, Mr. Earchman accepted the call. Arrangements were made for his induction to take place at Port Hope on Sept. 5.

POOR APPLE CROP THRUOUT ONTARIO

Development of Scab in Insufficiently Sprayed Orchards the Cause.

INJURY BY HAIL

In Some Counties This Has Added to the Low Percentage,

The outlook on the apple situation in Ontario this year is very discouraging as present conditions indicate that the rop will be lighter than in 1915, wh

as present conditions indicate that the crop will be lighter than in 1915, which was a year of low production, and the apples generally will be of much inferior quality, those coming from poorly or unsprayed orchards being practically worthless, while even in orchards that have been well sprayed a large portion of the crop will be low-grade.

Those who keep in touch with conditions predict that only ten per cent. of the crop will grade No. 1; that there will not be any No. 2's, and the balance will grade No. 3 and culls.

We may, therefore, expect extremely high prices, especially for any good quality fruit.

Apple Scab the Cause.

Thruout the whole of this banner applaraising province, with the one exception of the Georgian Bay district, conditions are very unfavorable. There has been a heavy dropping of the fruit owing to the continued development of apple scab, which has become quite serious in all orchards which have been neglected or insufficiently sprayed, and in some districts hail has added its destructive influence and added to the low percentage.

Dividing the province into four districts, the following is a forecast of the prospects for this season, as issued by the fruit branch of the department of agriculture, on July 31, 1916.

Light Crop in Lambton.

District No. 1—In Lambton County, all varieties promise a light crop, with some excellent fruit from persistently-sprayed orchards. In Wentworth, the crop is variable, but will average light. Esset County reports a fair crop, but not more than 160 per cent. of last year, and of inferior quality. Near Winona, he crop is between 40 and 50 per cent. no-mal. Scab is not serious, except in unsprayed orchards. In Norfolk County, there has been some injury by hall, and considerable scab has developed. The does not promise to be more than 10 precent. of No. 1 fruit. Baldwins will be the cleanest variety, tho Spies will bear more heavily.

Western Ontarlo Poor.

BUFFALO LIVE STOCK.

EAST BUFFALO, Aug. 18.—Cattle—Receipts, 500; slow and easy.

Veals—Receipts, 600; active, \$4.50 to \$10.25; mixed, \$11; pigs, \$10 to \$10.25; roughs, \$9.35 to \$9.50; stags, \$6.50 to \$9.50; stags, \$6.50 to \$1.25; roughs, \$9.35 to \$1.55; stags, \$6.50; without a stage of the season. There will be a city pigs, \$10 to \$10.25; roughs, \$9.35 to \$9.50; stags, \$6.50 to \$8.

Chicago Live Stock.

CHICAGO Live Stock.

Superballo, \$1.75; fed and watered, beaving the early and easy.

Western Ontario Poor.

District No. 2—Prospects have filen off greatly in western Ontario since the beginning of the season. There will be a very light crop, of poor quality.

District No. 3—The crop in South Bay district is about 25 per cent. of last year, well-sprayed orchards. Picton district reports indicate a crop much below average, and badly spotted. In the section surrounding Waupoos the "drop" has been heavy, and the remaining fruit is generally spotted, especially Spies. Haldwins will be the heavily.

CHICAGO LIVE STOCK.

CHICAGO LIVE STOCK. generally spotted, especially Spies. Baldwins are fairly clean. The foregoing reports cover Prince Edward County thoroly. Very few high-class apples will be picked in the Oshawa district. Prospects are even less favorable than a month ago. A combination of scab, russeting and haif injury has reduced the total crop to about 60 per cent. of last vesting and haif injury has reduced the total crop to about 60 per cent. of last vesting and per cent, of clean fruit is light to fair. Some well-cared-for orchards have 50 per cent, of clean fruit, but there is plenty of scab generally. In Hastings County, the crop is small and the fruit scabby. The crop in the Trenton district is 60 per cent, normal. Nearly all orchards in the Cobourg district have been badly hall-marked. West Northumberland reports a light crop.

Fruit Has Fallen.

District No. 4—In the Georgian Bay district, much fruit has fallen during the past month. However, the growers still look for a larger crop than 1915. Snows, Ben Davis and Greenings are spotting badly.

In eastern Ontario (St. Lawrence Value

badly.

In eastern Ontario (St. Lawrence Valley), very little No. 1 fruit will be produced, especially of Fameuse and McIntosh Red. The total crop will not be more than about 60 per cent. of normal, and 10 per cent. clean.

THE PARIS BOURSE.

PARIS, Aug. 18.—Trading was quiet on the bourse today. Three per cent, ren-tes 63 francs 70 centimes for cash. Ex-change on London 28 francs 14½ cen-times.

WINNIPEG GRAIN MARKET.

WINNIPEG Aug. 18.—Wheat closed here 5½c higher for October, 5%c higher for October, 5%c higher for December and 4%c better for May. Oats were ½c higher for October and %c better for December. Bariey was 2½c higher. Flax gained 3c in October, 3c in November and December.

Tho the trade was professional today and only of medium volume, wheat made a sensational advance. The price worked steadily higher during the day, and even tho the offerings by the profit-takers were sometimes heavy they were well absorbed.

Most of the trade was scalping and spreading. Barley and flax were dull.

REV. DR. BAYLIS INDICTED

NEW YORK, Aug. 18.—The Rev. Chas. T. Baylis, head of the Allies' Hospital Relief Commission, was indicted by the grand jury today, charged with grand larency. The indictment grew out of an investigation into the disposition of a fund of about \$7,000, collected by Dr. Baylis from wealthy persons and which, it was alwealthy persons and which, it was alleged by the district attorney, was not used for the purpose for which it was intended.

BELGIANS OCCUPY KAREMA. HAVRE, Aug. 18.—A brigade of Bel-gian troops has captured and occupred the port of Karema on the eastern bank of Lake Tanganyika, German East Africa, says an official Belgian announce-ment. Karema is about 125 miles south of Ujiji.

WINNIPEG ADVANCE LIFTS UP CHICAGO

Wheat Market Strides Upward on Adverse Manitoba Crop Reports.

EUROPE'S YIELD CUT

Unfavorable Weather There and in Argentina Stimulates Buying.

CHICAGO, Aug. 18.—The wheat market went booming upward again today, following the lead of Winnipeg, crop reports as made by experts of private houses. A rumor gained currency that the Canadian Government would commandeer the crop, but this was denied at Winnipeg. At the top today prices were up 5c and the close was 3 1-2c to 4 1-4c over yesterday. Corn advanced 1 1-4c to 2 3-4c with wheat and reports of further hot weather in the corn belt. Bullish crop advices helped oats, which jumped it to 1 1-4c. Provisions closed 15c to 30c over vesterday.

vices helped oats, which jumped ic to 1 1-4c. Provisions closed 15c to 30c over yesterday.

There was nothing startlingly new in the reports of damage to the Canadian crop, but the confirmation of the gloomy outlook apparently added influential converts to the buil position, and the result was a big broad market which absorbed heavy profit-taking sales almost without quiver until near the close, when a cent was conceded from the top. Cash premiums advanced to the highest of the season, with a good export demand and light offerings. France added to the buil enthusiasm, advices on the crop of that country placing it at 100,000,000 bushels under normal. European weather generally was reported unfavorable, as was that of the Argentine.

The corn crop, which blistered for several weeks under a scorching sun, was said to be suffering further from another hot wave. Kansas reports as to the corn crop outlook for that state were pessimistic. Cash prices advanced 1-2c and No. 2 yellow sold at \$9 1-2c, the highest price on record. Oats livened up in sympathy with other grains and on a private estimate lowering the crop by 69,000,000 bushels since Aug. 1. Spot prices were higher, with export bids close to the market. In provisions a large business was said to have been done in lard for export.
