Petrograd, July 13.—(Per British
Admiralty, via Wireless Press.)—In
the course of the battles in eastern
Galicia on Wednesday, says the official
statement issued today by the
war office, the Russians captured ten
officers and 359 men and five, chiefly
German. They also took five heavy
guns and ten machine guns.

London, July 13.—Baron Rhondda, the food controller, by an
order issued today, has taken over the control of the 1917 crops of
wheat, barley, oats, rye and potatoes.

MESOPOTAMIA CHARGES
WILL GO TO TRIBUNAL

British Government is Virtually Certain to Order In-
vestigation—Commission of Enquiry Found
Whitewashing Report Impossible.

London, July 13.—Although the house
of commons adjourned today without
making a decision it is virtually cer-
tain that the government will intro-
duce into parliament a bill to set up
a statutory tribunal to investigate the
Mesopotamian charges.
At the resumption of the debate to-
day Andrew Bonar Law, chancellor of
the exchequer and government leader
in the house, explained that the gov-
ernment assumed that the sense of
the house favored this course, and
that unless the opinion was altered by
the course of the debate today, the
government would move to adopt the
proposed statutory tribunal.

An Atlantic Port, July 13.—Eleven neutral steamers loaded with

license after President Wilson's embargo proclamation becomes effec-

without British letters of assurance and will attempt to run the allied
blockade.

FOOD BARONS PROTEST
AGAINST PROFIT REPORT

Statement of Cost of Living Commissioner—Draws Indig-
nant Contradictions From Heads of Companies
Mentioned as Taking Undue Gains.

The report of the cost of living
commissioner regarding the returns
of the "bacon barons" and cold-storage
firms of Canada was the leading
topic of conversation in Toronto yes-
terday. Not even the settlement of
the street railway strike and the
absence of cars in the morning com-
pared in public interest with the sen-
sational report of W. F. O'Connor,
K.C.
While for some time past the opin-
ion had been expressed that the high
price of eggs, dairy products and
meat was due to the operation of the
cold-storage houses, which it was
alleged created an artificial scarcity
and did not allow the prices to be fixed
by the old law of supply and de-
mand, the statement of the govern-
ment commissioner gave a margin of
profit that appalled even those who
thought they were aware of existing
conditions.
The fact that the report particu-
larly condemns the William Davies
Co. and Flavells, Limited, two com-
panies which are owned largely by
the Flavell family, which has been
especially honored by the govern-
ment, only added to the indignation
freely expressed on every hand.
The president of the William Dav-
ies Co., Sir Joseph Flavell, was re-
cently made a baronet, and is chair-
man of the imperial munitions board.
His brother, J. D. Flavell, is the
vice-president of Flavells, Limited of
London, and is chairman of the On-
tario license commissioners, while
another brother is the president of
the Flavell Company.

On a front of nearly fifty miles
from Halicz to the foothills of the
Carpathians the Russians have ad-
vanced westward across the Lomnica
and north across the Dniester, captur-
ing several villages and important
strategic positions.
North of the Dniester, in the region
of Halicz, says the war office state-
ment, the Russians captured important
heights, and drove the enemy back
to northwest of Ehlus, occupying two
villages. Southwest of Ka-
kazus the Russians captured the crossings
of the Lomnica at Pershinko, west
of Ekorodovany.

The engagements on the Honties
River (northwest of Halicz) continued
to develop Thursday. Our troops
crossed to the left bank at the river
confluence and captured heights on
the line of the River Dniester-Buka-
zowie-Budnicki. After a stubborn
battle the enemy was driven back
from the heights to the northeast of
Ehlus. We occupied the villages of
Studzianka and Podhoraki.
In the region of Kaluzs a Bohemian
regiment, by means of a daring
cavalry attack captured four heavy
guns. Southwest of Kaluzs, our
troops engaged in a battle with the
enemy who were protecting the
crossings of the River Lomnica on
the road to Roeniatov and Dolina.
The crossings of the river at Per-
shinko were captured by our troops.
On the Rumanian and Caucasoid
fronts the situation is unchanged.

BRITISH AVIATORS WIN
HARDEST BATTLES YET

Germans Have Fourteen Machines Brought Down,
Sixteen Others Driven Down in West in
Massed Formation Attacks.

London, July 13.—British airmen
have been victorious in the most se-
vere aerial fighting since the begin-
ning of the war. On the front in
France, on Thursday, fourteen Ger-
man airplanes were brought down and
sixteen driven down out of control,
says the official statement from Brit-
ish headquarters in France tonight.
Nine British machines are reported to
have been lost in the fighting. The
statement reads:
"Enemy detachments which endeav-
ored to approach our lines early this
morning west of Queant, were dis-
persed and driven off by our fire.
"Wednesday night bombing opera-
tions against railway stations,
shelters and airdromes were carried
out with success. All our machines
returned.
"Yesterday there was increasing
aerial activity on both sides from

SAND TRENCHES FAIL

By R. T. Small, Staff Correspondent

British Headquarters in France, July
13.—The German attack along the sand
dunes of the Belgian coast on Tues-
day evening was in nearly all respects
a miniature of the British attack on
the Messines Ridge on June 7. It
seemed as if the Germans had studied
that battle in detail and planned their
thrust wholly upon the lessons learned.
There was a vast difference in the
size of the two operations, however,
for while the German attack of Tues-
day evening was limited to 1,400 yards,
the British charge at Messines was along
a ten-mile front.
The depth of the two attacks was
also in the ratio of ten to one, the
Germans having advanced only about
600 yards, or to the British support
line, where they are now endeavoring
to entrench themselves, while the
British have fallen back to the west
bank of the Yeer.

ONTARIO LIBERALS
CALL CONFERENCE

Government Resolution to
Extend Parliamentary Term
Causes Consternation.

By a Staff Reporter.
Ottawa, July 13.—The announce-
ment by Sir Robert Borden of his in-
tention to move the extension resolu-
tion on Monday, carried some sur-
prise and consternation to the camp
of the opposition Liberal members
of parliament. They had arranged
for a conference and organization
meeting on Monday in the morning,
which they believed might be followed by nego-
tiations for a union government. The
premier's announcement rather forces
their hand, especially as they are
divided among themselves on the ex-
tension issue.
The Liberal members from Ontario
had a meeting today which was at-
tended by all of their number except
Hon. Charles Murphy. They also de-
cided to organize as a separate unit
and E. F. Pardoe was named as chair-
man. It is understood that Mr. Par-
doe did not definitely accept, and it
is stated tonight on good authority
that a call has been issued for a con-
ference at Toronto on July 15. This
conference will be attended by all the
Liberal members from Ontario and all
the Ontario Liberals in parliament.
The organization will be perfected and
it is rumored that N. W. Rowell will
be selected as the leader of the On-
tario Liberals in the Dominion as well
as in the provincial field.

CONSCRIPTION BILL
NEARS FINAL STAGE

Measure Will Go Into Force Immediately on
Adoption By Senate—Proposal to Exempt
Divinity Students Hotly Opposed.

By a Staff Reporter.
Ottawa, July 13.—The conscription
bill is still in committee, but all of its
clauses together with the preamble
have been adopted, and it will no
doubt be reported to the house to-
morrow. Several important amend-
ments were made today. One of these brings
the bill into force immediately instead
of holding it in abeyance until pro-
claimed by the governor-in-council;
another prevents any summary inter-
vention by a newspaper which inter-
feres with the execution of the law
without the consent of the central ap-
peal judge.
The chief interest of the day, how-
ever, centred about an amendment
proposed by Sir Robert Borden ex-
empting divinity students. This was
vigorously attacked from both sides
of the house, and practically no one came
to the defence of the prime minister
except Dr. Clark (Red Deer), Hon.
Charles Maclellan and Mr. Froulx, of
Prescott. The amendment was adopt-
ed, but there is every reason to believe

REICHSTAG ON STRIKE
WAR BILL IS HELD UP

Kaiser Summons Von Hindenburg and Ludendorff
for Conference as Result of Poli-
tical Upheaval.

Copenhagen, July 13.—Serious news came from Berlin late today. The
reichstag has gone on strike and the members have decided to suspend the
labors, both of the full house and the main committee, until the political
situation is cleared up. This leaves the war credit bill in abeyance.
Emperor William has summoned Field Marshal Von Hindenburg, chief
of the general staff, and General Ludendorff, the chief quartermaster-
general, for a conference.
This news should be interpreted in connection with intimations that
the German Government has decided to refuse to parliamentarize the
cabinet and difficulties reported in connection with the adoption of a
peace resolution.

NAVAL AIRPLANES
MAKE RAIDS AGAIN

British Airmen Bomb Ger-
man Military Works in
Belgium.

London, July 13.—British airmen
in the naval service last night made
bombing raids on German airdromes
and other military objectives in west-
ern Belgium and returned safely to
their base, according to an official an-
nouncement of the British admiralty
today. The text follows:
"The naval air service carried out
bombing raids last night on the fol-
lowing military objectives: Aertrycks
airdrome, Houtlave, Nieuw Munster
airdrome, Ghislennes airdrome, the
railway junction north of Thourout
station, the Bruges dock and the canal
bank, and the dumps at the railway
junction south of Ostend harbor. The
visibility was generally very poor,
consequently observation of the re-
sults was difficult.
"Bombing attacks also were made
on the Solway works at Zebrugge
and at the base of the Zebrugge mole.
"Although several tons of bombs
were dropped and all our machines re-
turned safely.

You were Inquiring?

Jack--To be informal but not frivolous, comfortable but not solemn--this is about your idea for the room. Is it not? Well, to begin with, one would suggest a plain, putty color walls--grascloth or an enamel or fabric paper would be good--and for window curtains, casement cloth in that shade of deep blue which appears in the rug and the cover of the big sofa. Cushion covers and lamp shades might be of old rose silk. But leave it to Her to give the finishing touches. Tell her to write to me about brass candlesticks, Japanese bowls for ferns, and various other trifles that make a house different from a hotel.

"Beulah"--You will rejoice to hear that the "rich coral shade" which you feel you could wear "so splendidly" has been found--in a fine silky material resembling that known to fame and fashion as "sportoplin." It would make you a charming little frock. The price is 80 cents a yard, and the width 40 inches.

"A. B. C."--"Bird Neighbors," by Nellie Blanchon--one of the best text books on the subject that you can get. Miss Alphabet's is published by Grosset & Dunlap, at the price you saw catalogued, \$1.15. The contents are the same, colored illustrations and all, as the more expensive edition of Doubleday, Page. The difference is in the binding and the quality of the paper. "Bird Life," by Chapman, at \$2.25, contains 75 full-page colored plates. "Handbook of Birds of Eastern North America," with 200 illustrations, is \$2.75.

"Sunflower"--Would a white voile frock meet with your approval? It would be cool and dainty, and can be had at a price to suit your purse, a nice little dress of this material, being available at \$8.95--greatly reduced. The bodice is inset with braided net, and has a sailor collar of net inserted and edged with lace; the skirt, which is tucked, shows bands of the braided net. Another smart model has a hemstitched sailor collar, with the same fashionable braiding on both bodice and skirt. This is also reduced at its price of \$7.50. How did you manage to keep the vegetables from crowding you out of the flower-bed?

The Scribe

PROFITS REPORT DRAWS PROTESTS

(Continued from Page 1).
President of the company, C. S. Blackwell, vice-president, T. E. Matthews, secretary-treasurer, Andrew Park, assistant secretary, and Albert Matthews, George Matthews, W. J. Nisley, E. Debler, W. A. Matthews and Geo. Silcox are on the directors.
Disclaims Connection.
William Flavell, president of Flavell's Limited, stated in Lindsay yesterday, according to The Evening Telegram, that there was "positively no connection whatever between Flavell's Limited, of Lindsay, and the William Davies Company, of Toronto, and that Sir Joseph Flavell has nothing to do with the Lindsay firm, and Messrs. William and J. D. Flavell, nothing to do with the Toronto firm."
E. C. Fox, general manager of the William Davies Company, said that Sir Joseph Flavell, president of the company, had wired Sir Robert Borden asking him for an investigation of the charges made by the cost of living commissioner. Mr. Fox was sure that such an investigation would exonerate his company, which was willing to abide by the finding of such an investigation.
In reference to the statements of Mr. O'Connor, in the report made public by the minister of labor, Mr. Fox said:
"The profits are not nearly what Mr. O'Connor states. Whether intentional or not, the effect of his statement is to create an untruth and further excitement of public opinion."
"Wm. Davies Company will produce a statement in a couple of days for the press. Mr. O'Connor has taken the value of raw

product without any operating charges, and sales values of product laid down in Great Britain without having consideration to any of the intervening charges, namely, operating charges, raw materials other than meats, inland and ocean freight rates, landing charges, war and marine insurance and commissions for selling in Great Britain.
Says Figures are Wrong.
"Mr. O'Connor's statement is very unjust, and is derived from a set of figures compiled by the Wm. Davies Co., from which a profit and loss could not be deducted. His attempt to do so shows a dangerous ignorance and inability to deal with figures. These charges, if deducted from the amount of profits as stated by Mr. O'Connor, will leave a margin to which the most critical man would take no exception."
Mr. Fox said that the statement of Mr. O'Connor, to the effect that the Wm. Davies Company last year exported \$5,000,000 of the 100,000,000 pounds of bacon exported was correct, but that these figures were not large in comparison with the big business done by the company, which has been building up an export trade for the past fifty years.
"We have appealed to Caesar," concluded Mr. Fox.
Aide Investigation.
Sir Joseph Flavell was out of town yesterday, being at Sturgeon Point, but sent the following telegram to Sir Robert Borden in which he called upon the premier to take such steps as he might consider necessary to establish the truthfulness or otherwise of the report issued by the department of labor.
Sir Robert Borden, P.C., K.C.M.G., Prime Minister, Ottawa.
The statement given to the press by the department of labor, and which appear in the morning papers, covering the business of the William Davies Company, are

grossely untruthful, both in the mass and in detail. They evidence a curious admixture of ignorance and malice. I deeply regret it naturally on personal grounds, but even more on public grounds. Bitterness and anger and suspicion are being stirred up against public men, against labor and capital and corporations, which in many instances have no better support than flippant impudence and ignorance. The pity in this case is that an authoritative statement was available and was not consulted. The department of finance is furnished with a balance sheet and the profit and loss sheet annually of each firm in Canada given under the provision of the business tax measure. The statement of the William Davies Company is and must continue to be furnished to the department of finance. These statements are not only audited on behalf of the company, but are verified by the accountant of the department of finance and are final in authority. The department of labor could have consulted these statements and could have procured such further information as they might have desired by application to the general manager of the company, and could have thus avoided the grave injustice of an attack based upon absurdly untruthful statements.
During its entire history the William Davies Company has sought for no trade advantage or profit other than could be secured through diligence and attention to the business. If such volume of business has been secured in contrast to others, it has been secured in open competition, free from combination or arrangement or understanding with other packers or merchants. The company offered the highest prices for its goods during the period since the outbreak

of war to operate to its capacity in bacon products, canned meat products, and pork and bean products on a cost and percentage basis, but each time the offer was declined, first for bacon and later for canned meats and pork and beans. The imperial authorities expressed the desire to purchase in the open market. All army purchases of bacon are made in London. All army purchases of canned meats and pork and beans are made in Canada. Both are made in open and untrammelled competition with the world. The world during the period of the war is confined to the United States, the Argentine, Canada, Australia and New Zealand. If it is wrong to secure a share of this and other business under these competitive conditions, the company has been guilty of such wrong and of no other.
As this statement was issued by the department of labor, I ask you to take such steps as you may think necessary whereby the truthfulness or untruthfulness of these statements can be established.
(Signed) J. W. Flavell.
President the Wm. Davies Co., Limited.

Deduction Incorrect.
C. S. Blackwell, vice-president of the Matthews-Blackwell Company, said that either Mr. O'Connor had made up his report, or the figures had been made up with deductions from the correct figures.
Mr. O'Connor asked for the figures showing the private details of our business and we frankly furnished them, but he seems to have got them mixed up," said Mr. Blackwell. "He may have got the decimal point wrong, that is, if he has worked out the margin of profit correctly. When he said the profit in bacon was \$5.00 a pound he possibly should have put the decimal point in front of and not behind the figure five. Similarly he should probably have obtained 187 cents a pound instead of 17 cents a pound for the profits in 1915 for each of the packing houses, but I am sure that is the only way I can understand his figures."

As they now appear they are absolutely incorrect."
Profits in the packing business were most irregular and very speculative, said Mr. Blackwell. A period of two months elapsed before the bacon is sold in England from the time the hogs are purchased.
While there was sometimes a good profit there were also times when a smart loss had to be pocketed. The gross average profit of the packing houses both in Canada and the United States was between 2 and 2 1/2 per cent on the total turnover. On bacon the turnover would be from six to eight times a year, so that the profit on capital in a good year might go as high as 16 per cent, but that was only possible by turning over capital eight times a year. Mr. Blackwell said he did not know of any line of business where the net profit percentage was so small for such a large turnover.
Deny Huge Profits.
"While packers had made money since the war, such profits were not what Mr. O'Connor said they were, and Mr. Blackwell emphatically denied that his company had made a million and a half last year and said he had not made that amount since the war. Mr. Blackwell also thought that Mr. O'Connor had overlooked the cost of curing and had made his calculations on first costs only. He has made a protest to the government about the statements in the report regarding his company.
William Flavell of Flavell's Limited, according to The Telegram, said that he was as against profiteering in any form. "Any man," he said, "who makes himself rich by reason of the war ought to be ashamed of himself. Referring to the report issued by the cost of living commissioner, he said that he was glad to see that some one was working."

POWELL-KELLY COMPANY HOLDING SALE OF SHOES
Have Taken Over J. H. Porter Shoe Stores and Are Selling Stock at Sacrifice.
Having taken over the two stores at 1694 Dundas street and 225 Yonge street formerly known as the J. H. Porter Shoe Stores, the Powell-Kelly Shoe Co., Ltd., are holding a big sale of women's shoes. On account of the backward season the company's large stocks of summer shoes remain practically intact, and it has been decided to sell at a sacrifice every pair of pumps, colonials and oxfords in the two establishments, including white canvas, white kid and colored leather, also gunmetal and patent colt. It is expected that with the remarkable reduction in prices the stock will be greatly decreased in a very short time.
GIFTS GREATLY APPRECIATED.
The soldiers of the military hospital, North Toronto, are very much pleased with the furniture sent them by the women's section of the War (Conservative) Association. Lieut. (Dr.) McCowan and Sergeant-Major Ross, in their speeches, thanked the ladies who visited them, saying they were very grateful for such useful and handsome gifts. The furniture included study tables and chairs, magazine stands, leather easy chairs, pedestal and beautiful fern. The ladies were graciously received by Miss Graham and conducted thru the hospital.

GENERAL REJOICING AS CARS APPEARED

First One Arrived at King and Yonge About Noon Yesterday.

ARBITRATOR APPOINTED

D. A. Carey Will Act for the Men on Conciliation Board.

Normal conditions, as far as the street railway service is concerned, prevail again in Toronto. Shortly before noon yesterday, after fifty-five hours inactivity, street railwaymen reported for duty at the various terminals and within a few minutes cars were in operation on all routes. It was with mingled feelings of relief and pride that citizens in different sections of the city witnessed the spectacle presented by the first car rumbling along. Relief in view of the fact that physical exercise during the morning and evening was no longer a necessity, and pride because they could boast of a strike not marred by any accidents or disturbances.

THE BEST THING FOR DYSPEPSIA

WHY PEP-SIN, PANCREATIN, ETC., SO FREQUENTLY FAIL.

An international specialist whose articles on stomach troubles have been printed in nearly every language, recently stated that to treat the average case of stomach trouble, indigestion, and spasm, etc., by doctoring the stomach, killing the pain with opiates, or by the use of artificial aids to digestion such as pepsin and pancreatin, was just as foolish and useless as to attempt to put out a fire by throwing water on the smoke. Instead of this, he claims, and facts seem to justify his claim, that nine-tenths of all stomach trouble is due to acidity and food fermentation, and that the only way in which permanent relief is to get rid of the cause, i.e., to neutralize the acid and stop the fermentation. For this purpose he strongly recommends the plan now generally adopted throughout Europe of taking a teaspoonful of ordinary bicarbonate of soda in a little water immediately after eating, or whenever pain is felt. This immediately neutralizes the acid, stops the fermentation and permits the stomach to do its work in a normal manner and thus by removing the cause, enables nature to quickly restore the inflamed stomach lining to a perfectly healthy natural condition. For the convenience of travellers, it may be noted that most druggists are now able to supply bicarbonate of soda in 5 grain tablets, 2 or 3 of which will almost instantly relieve the most violent attacks of indigestion.

to motormen and conductors, while others climbed on the cars all in a hurry to slip the first ticket into the fare box.

Cars Running at Noon. It was shortly before noon when the first King car sped on its way to King and Yonge streets. The car was packed and passengers were hanging on the steps at the rear. Mr. William Mackenzie stood at the window of the office on King street and smiled. He thought it would have taken Manager Fleming some time longer to get the cars on the road.

The general manager early yesterday morning stated emphatically that the decision would abide by the decision to be made by the conciliation board. "Whatever its decision may be, we will acknowledge it," he said. "We have been and still are willing to accept the decision of an independent board."

Referring to the settlement made, he said: "We feel that we have done all we can. We have always wanted the matter settled by arbitration. It wasn't the men's demand for more money that caused all the difficulty. Their old demands were far worse."

The conciliation board which will investigate the further demands of the street railwaymen will be under the Federal Industrial Disputes Investigation Act. This measure is better known as the Lemieux Act. The decision of such a board is not binding on either of the parties concerned, as is the case when arbitration is carried out.

D. A. Carey, president of the Toronto Labor Temple Company, and a member of the editorial staff of the Evening Telegram, has been appointed as the men's representative. The company will appoint a representative who will act as chairman. In the event of the parties failing to agree, to the third appointed the minister of labor will be called upon to make the decision.

Withdraw Application. In view of the decision made by the men, Works Commissioner Harris and Assistant City Solicitor I. S. Fairly appeared before the Ontario Railway Board yesterday morning in order to withdraw the application requesting the board to take over the Toronto Street Railway. In asking the board for permission to withdraw, both officials thanked the members on behalf of the citizens for their efforts to give relief during the strike.

Replying for the board, Chairman McIntyre expressed his pleasure at the settlement arrived at. "I can only say," he said, "that the board endeavored to its fullest extent to exercise the powers vested in it by the statute. It would, of course, however, there was but one opinion, that being that the people of our brave ally—France—were worthy of the best, and that all had to do their part in showing that our gratitude and praise, our honoring of the French flag and chanting of the Marseillaise had something substantial behind it—the proof being shown in a general outpouring from pockets.

INSURANCE MEN HAVE OUTING.

In creating this clever newspaper feature Lou Skuce, The Toronto World artist, has instituted a novelty in that he brings out an all-Canadian comic page that will be more closely allied with Canadian news events and ideas than any other comic can be.

MONEY IN HEAPS RESULT OF TAG DAY

Generous Response to Appeal in Aid of War-Worn France.

WOMEN WORKED HARD

Mrs. Beardmore's Box Contained Twelve Hundred and Ninety Dollars.

As a result of the tag day held for the French flag day yesterday the sum of \$17,600 was collected, and it is expected this amount will be increased by contributions to come in today.

Perhaps the most interesting moment of the French flag day was when the workers began to bring in their boxes about 4 o'clock in the afternoon, to the headquarters in the Dominion Bank, corner Yonge and King streets. The women and girls, assisted by men, came into the great counting house, fairly groaning under their loads of piled up banks, the fact of the workers bearing in anticipation of the expected results.

"I think we have had a grand day," said Mrs. W. A. Johnston, one of the first who prepared to open the boxes, and the verdict was met at almost every other point along the line.

"People were perfectly lovely to me," was the report of Mrs. W. W. Beardmore, who with Mrs. Stearns-Hicks, were the principal organizers of the day. "Of course we couldn't expect to make as much as we did last year, but on the whole it has been fine."

Mrs. Beardmore had \$1290 in her box, so there was indeed very good ground for her optimistic summary.

Four tables in line, with coin piled up and covering them in most promising style, were presided over by Mrs. Fred Armstrong, whose good work on tag days is now generally known to be something exceptional. Several tellers were busy counting, giving the lady a little breathing space and opportunity to talk.

"Yes, I had two districts," she informed The World. "one, two blocks up Yonge from Queen, and the other out in the west end of the city. I like the factories where everybody gives something. The munition workers are perfectly wonderful. Down-town people are too much in a hurry. Still—and the lady nodded to the piles before her, and her smiling eyes meant that she was perfectly satisfied.

Among others whose boxes had filled up rapidly was Mrs. Reynolds, whose table was pointed to as among the millionaire nabobs of the occasion.

Early at Work. The workers were out as early as six o'clock, but the absence of the usual morning car service was felt to be a detriment as it prevented many from coming out at all, and those who travelled in jitneys were not so accessible as the crowd who usually travel in the cars. A number of St. John Ambulance nurses in their attractive grey uniforms were among the busiest collectors.

Sermon varied as is usual on tag days and the taggers had no few lessons and revelations into the thoughts of the traveling public. Generally, however, there was but one opinion, that being that the people of our brave ally—France—were worthy of the best, and that all had to do their part in showing that our gratitude and praise, our honoring of the French flag and chanting of the Marseillaise had something substantial behind it—the proof being shown in a general outpouring from pockets.

The city was divided into about forty districts, each governed by a captain who had under her five chapters, and they in turn had each a company of pretty girls and fair women workers. The tri-color was everywhere in evidence, the red, white and blue of the boxes, together with the vivid colorings of the coats and frocks of the girls making a brilliant picture. The day started with a stock in hand of 200,000 tags previously distributed, but early in the forenoon requests for more were heard, the taggers fearing the first supply might become exhausted.

Many Generous Givers. It was not the women and girls alone who did their "bit" on French flag day. Many men, among them the most generous of the givers, and the Boy Scouts did valiant service. About three o'clock in the afternoon a party of the boys were seen at 51 West King street, headquarters of the Scouts National, counting out the French flags, which were the tag of the day, and putting them up into envelopes. They were counted off busily as their hands could lift, and they never raised their eyes, so intent were they at their work.

Other towns and cities are also holding French flag day, as the call comes in response to an appeal from the British Red Cross for a Dominion wide collection. Today, July 14th, is really the anniversary celebrated by the French as a festival in memory of the fall of the Bastille, but as the 14th fell on Saturday, the collection was held on the 13th.

Toronto has once more put itself on the map as a place where no patriotic call remains unheeded and as the city of using women who think neither of service nor sacrifice when the interests of the boys overseas or of our brave allies are at stake.

The captains who had charge of the Toronto districts were: Mrs. H. D. Warren, Mrs. Willoughby Cummings, Mrs. Stearns-Hicks, the nursing section of St. John Ambulance Corps, Mrs. W. H. Beatty, Mrs. W. W. Beardmore, Mrs. Kenneth Dunstan, Mrs. W. A. Johnston, Mrs. Fred Armstrong, Mrs. Elliot, Mrs. Wilkinson, Mrs. C. Merry, Mrs. Reynolds, Mrs. Bishop, Mrs. W. K. George, Miss Brodigan, Mrs. Stabrowski, Mrs. Babayan, Mrs. Keys, Miss Laing, Mrs. George Dixon, Madame Rochereau, Mrs. Phil, Mrs. McClung, Mrs. Dalton, Miss Stevenson, Miss Oiler, Mrs. Ewart Wilson, Mrs. Kelly, Mrs. Cameron, Mrs. P. G. Kieley, Mrs. Ryckman.

**UNITE VETERANS
 BY NEW SCHEME**

Association Plans Remobilization Thruout City on Battalion Plan.

RESPONSIBILITY CHAIN

To Weld All Returned Soldiers in Toronto Into One Brotherhood.

With the assistance of some enthusiastic returned officers who are loaning their services to the Toronto branch of the Great War Veterans' Association is re-mobilizing its forces. For by a new plan of organization it is expected that its aims will be more quickly attained.

In order to reach every eligible veteran in this city the Great War Veterans' Association is reorganizing itself along battalion lines, as it is felt that most of the men will understand this form of division of authority. The city is to be divided up into four parts, each of which will support one company of platoons. The company boundaries are as follows: "A" Company—On the west, Don River, Donview and Bayview avenues on the east; north and south city limits. "B" Company—on the west, Simcoe street; University avenue and Avenue road; on the north, city limits; on the east, the Don, Eglanade, Donview and Bayview avenues. "C" Company—on the south, Bloor street; on the west, city limits; on the north, city limits; on the east, Avenue road. "D" Company—on the south, city limits; on the west, city limits; on the north, Bloor street; on the east, University avenue and Simcoe street. The members of platoons will appoint their own non-commissioned officers in the same proportion as to a battalion.

Great Brotherhood

Thru this chain of responsibility, the Great War Veterans' Association hopes to reach and interest all returned soldiers in Toronto and band them together into one great brotherhood.

There are yet some men eligible for membership who have not joined the association. In a large measure it is felt that this is due to misunderstanding of its aims and purposes. Hence something of an educational campaign is proposed by the present executive to enlighten both veterans and the public in this direction.

The objects of the association are: (1) To win the war; (2) to stimulate recruiting; (3) to assist men already returned and those returning, to find suitable vocations in civil life. On this point it may be said that the veterans are just as anxious to prevent employers being imposed upon by unworthy soldiers as they are to advance the interests of worthy veterans.

Association's Aims

The big aim of the Great War Veterans' Association is to organize itself so that it may hold its own with other organizations, political bodies, or powerful interests that might not see their way clear to justice to individual returned soldiers. Matters of pension pay and civil appointments are already receiving attention. Now public opinion is to be focused upon due recognition of its duty to returned soldiers.

The headquarters of the association and clubhouse is at 77 Carlton street—corner of Church. All returned officers, n.c.o.'s and soldiers in Toronto and vicinity are now being urged to place themselves into touch with headquarters with a view to becoming at least interested, if not to take an active part in furthering this work.

VACATION SCHOOL MEETINGS

Instructors Hold Weekly Conferences To Exchange Views.

Average daily attendance at the daily vacation Bible schools for the week was somewhat lowered in three districts by the large number of Sunday school outings and picnics. Four hundred and thirty children, Fred Victor Mission averaged 172 for the week. College Street and Spadina Avenue centre, 62.

In order to strengthen bands and provide more co-operative ideas, all instructors from these schools are now meeting together once a week.

In addition they are giving up time on Saturday afternoon to the study of clay-modelling, which is being taught to the children in each centre, under the leadership of Miss Gladys Roman.

"A JUSTLY FAMOUS REPORT."

It would be hard to match in all America a district like that found in Algonquin Park, the wonderfully interesting Government reservation of nearly 2,000,000 acres that the Ontario Government has set aside for a playground for the people. Splendid hotels and log cabin camps have been erected and are operated by the Grand Trunk Railway, which offer first-class accommodation at reasonable rates. Tennis, boating, bathing, fishing, canoeing, camping and birding are some of the attractions. A handsome booklet telling you all about it sent free. Write or call on about it sent free. SEVEN YEARS' TORTURE

Nothing Helped Him Until He Took "Fruit-a-tives."

ALBERT VARNER
 Buckingham, Que., May 3rd, 1915.
 "For seven years, I suffered terribly from Severe Headaches and Indigestion. I had belching gas from the stomach, bitter stuff would come up into my mouth after eating, while at times I had nausea and vomiting, and had chronic Constipation. I went to several doctors and wrote to a specialist in Boston, but without benefit. I tried many remedies, but nothing did me good. Finally, a friend advised 'Fruit-a-tives' and I took this grand fruit medicine and it made me well. I am grateful to 'Fruit-a-tives', and to everyone who has miserable health with Constipation and Indigestion and Bad Stomach. I say take 'Fruit-a-tives', and you will get well."

NEW JITNEY LICENSE FEE ONLY NOMINAL

Police to Check Speeding at Night and See That Public is Not Exploited.

Following a conference with Chief of Police Grassett yesterday, Mayor Church stated that owners of jitneys will have to obtain a regular license, for which the fee will be nominal. But they will be placed under strict regulation, and those found guilty of speeding or endangering the safety of the public will be severely dealt with under the code.

"The traffic must be conducted under regulations that will conduce to the public safety," declared the mayor. "It would be impossible for the street cars to operate successfully if jitneys could run at any speed and at the will of the chauffeurs. There have been a number of complaints about speeding, especially at night, and constables will henceforth take the numbers of the offending cars so that the owners and drivers may be prosecuted."

"The police will see that the public is not exploited," promised Chief Grassett.

NEIGHBORHOOD HOUSE GARDENS

Italian Families Taking Active Part in War Production.

Citizens in the region of Central Neighborhood House are making a splendid show of gardens this year. Italian families are to the fore in greatest numbers, most of them having every available inch of space under cultivation. Although the city distributes seeds in this neighborhood, many have provided their own, and the gardens reflect much credit upon their industry and care. The street car strike held up one or two of the children's outings planned from this centre, as in many other parts of the city, but picnics, games, and for the boys country "bikes" are the order of the day now in place of indoor clubs. All boys' clubs meet every Thursday night with a supervisor to form groups and make plans for these hikes, which take place every Sunday morning.

WORK AT FOREST SCHOOLS

With the coming of the summer holidays attendance at the forest schools dropped slightly, the numbers at Victoria and High Park on Monday last being 91 and 90. The first day of the strike High Park had only 14 children, and 9 yesterday. Afternoons are now given up entirely to play, supervised games, and care of the gardens. As there was a waiting list of some 50 or 100 children, the vacant places are being rapidly filled on the advice of the city nurses who pick out those most needing the change.

LEAFS NEW TWIRLER, LEAKE, MADE GOOD

Birds Staged Late Rally That Fell Short by Two Runs.

Leake, the Leafs' new pitcher, made good with a vengeance yesterday afternoon at the island before a fine crowd when Baltimore dropped the third straight, score 3 to 1. The Birds collected only four hits, and Leake, in the ninth by Williams and Shannon, the latter collecting the other two, one in the first and one in the sixth.

The Leafs started right off with two that looked big the way Leake was working. Altenberg hit a single thru the pitcher, Jacobson beat out a bunt towards third. Whiteman fanned. Leake was hit by pitched ball, filling the bases. Altenberg scored on Schultz's sacrifice fly to right. Jacobson scored on a double delayed steal with Leake. Graham grounded to pitcher.

We added the third and last in the third with two out by the headiest and fastest running by Whiteman. After two were out Whitey Schultze and Leake with two strikes and no balls, slapped a single at first, who bobbed it and didn't have a chance to head off the manager, but Arthur pegged wide and Bentley only stopped the throw, whereat Whiteman sprinted for the plate and he made home standing up.

Young Mr. Hill, from the stable of Connie Mack, was working gamely, but getting constantly in trouble. However, after the third the hard hitting Leafs could do nothing with his cross fire delivery and Toronto's seven men left in bases tells how the lanky left-hander pulled himself out of the hole.

Johnny Dunn waited till the ninth to spring his mine, and then he would have missed fire, only he was aided and abetted by Messrs. Whiteman and Schultz. Leake, our new twirler, stood the grilling with fortitude or the story might have had a different finale.

In the final round Williams baited for Hill and singled, and the runner singled to left, Whiteman dropping the ball after a long run and a commendable try. Acosta hit to Leake, who threw Shannon out at second. Williams scored on Barber's sacrifice fly to Jacobson, Lamer hit in Schultz's arms, who threw to Graham. Acosta going to third on the error. Bentley ran one out to centre for an out that would have been a homer directed straight to right, but it went, and the runner is out.

ASSOCIATION FOR STOCKDALE'S FOUR

Had No Trouble in Defeating Husband of Brantford in Final.

Niagara-on-the-Lake, July 13.—Toronto captured one trophy, E. B. Stockdale, Granites, who draw a bye in the semi-finals of the association competition, had no trouble in downing D. G. Husband, Brantford Heathers, in the final today.

The Toronto skip piled up his lead early and had easy sailing, after the turf was the greens were in the best shape of the week, and his team showed cautiousness of the turf.

C. Dawson, the granite vice-skip, was called away, and it necessitated a snake-up in the rink. Norman Brown came over for the game and played lead, making two to second and a long drive as vice-skip. The rink was not weak, and they bowled in excellent style throughout.

Husband scored one in the first end, and was unable to count again until the tenth, when he did so. The Granites eased up at the finish, and the final was 18 to 10.

The tournament was brought to a close with the semi-finals and finals in the couples and singles.

Toronto failed to land the doubles. Collins and Coath, Thistles, met McCarron and Coath (Thistles). The Howard Park pair turned up victors, 16 to 8.

Toronto was strongly represented in the second round of the doubles. Robertson and Beag, Collins and Coath, Downey and McPhee, and DeCarie and Cromarty won their games.

They began to fall in the third round. Robertson and Beag were eliminated by the Howard Park representatives. The Howard Park pair and McCarron and Muir won their games.

C. Nelson, Montreal Westmont, an old Toronto skip, was the singles champion of the O.B.A. He defeated H. W. Hodgins, St. Catharines, 16 to 8. In the final this afternoon, Nelson defeated C. N. Sinking, the last Toronto hope, in the semi-finals, and Hodgins disposed of Dr. Vreelman, Guelph.

CLEVEREST GOLF BY WESTERN AMATEURS

Francis Oumet and Kenneth Edwards Left to Play Final Today at Chicago.

Chicago, July 13.—By virtue of spectacular par golf today, Francis Oumet, Boston, formerly national amateur and open champion, and Kenneth P. Edwards of Chicago will meet tomorrow in the hole final contest for the western amateur golf championship, winning a up and a Oumet today defeated Donald Edgerton, medalist of the tournament, 4 up and 2 to play after Edwards had made a three, bid for victory with a record of 33 strokes for the thru nine, three under par.

Kenneth Edwards had an earlier conquest in defeating John U. Anderson of New York, twice runner-up in the national championship, winning a up and a but he shot close to par to overcome the superior play of the champion.

The best golf of the tourney was played by Oumet, who pitched a superb stroke of 30 strokes, whereas his opponent pitched his best hole, but he was apparently scored at the first pace, missing several comparatively easy putts, as he was hit by the wind, and Oumet was able to show his burst of speed, and on the same nine holes in which he became four holes in four, he recouped the loss, hitting his drive, he lost one over par. He won the 20th with a par four, Oumet overapproaching; then Edwards pitched his best hole, a six, six feet of the pin on the 122-yard 21st hole, and scored a birdie-3 to Oumet's par 4. He played a good par 5 on the 120-yard 22nd hole, only to lose when Oumet pitched a 30-foot putt for 4. Both played four on the 119-yard 23rd hole, but Edwards added another six-foot putt, scoring another birdie-3 against Oumet's par 3. Oumet took the rough within a foot of the pin for a birdie three, while Oumet's 30-yard approach was 12 feet over, and he missed with the downhill putt.

Turning his back, Edwards went wild for three holes, lapping his second into the creek, and taking six on the 408-yard 28th hole, while Oumet was home in five after finding a green trap. Edwards took three putts on the 164-yard 29th hole, four to former champion's par three. He next pitched a good green on the 585-yard 30th hole, and took five to Oumet's par four. The next three holes were holed in four, but Edwards was on the defensive, and his final effort on the 538-yard 31th hole was weak, his three putts for a six giving Oumet the hole and victory, 4 and 2.

RED SOX COLLECT ONE HIT OFF JAMES

Are Whitewashed—Peculiar Play at Chicago Helps Yankees.

At Detroit (American)—James shut out Boston yesterday, holding them to one hit, and Detroit won 10 to 0. The only hit made by the visitors was a single by Lewis in the seventh, but James also pitched the ball, but in the ninth Cobb hit the first ball pitched to right for three runs and scored on Hooper's wild throw. Bush's fielding featured. Score: R. H. E. Detroit.....0 0 0 0 0 0 0 0 0 0 0
Boston.....1 0 0 0 0 0 0 0 0 0 0
Batteries—James and Agnew; James and Stangor.

At St. Louis—Slater's hitting enabled St. Louis to win from Philadelphia, 10 to 1. In the fourth, after Austin and Sloan had singled and scored on Leach with a double. In the sixth Sloan was safe when Grover tumbled his grounder, and scored on Slater's second double. Score: R. H. E. Philadelphia.....0 0 0 0 0 0 0 0 0 0 0
St. Louis.....10 0 0 0 0 0 0 0 0 0 0
Batteries—Bush and Schang; Meyer; Davenport and Severid.

At Chicago—An unusual play in the eleven inning gave New York a 5 to 3 victory over Chicago. After one man was out Peckinpaugh singled and took second on a sacrifice. Schellenbach, who came to bat, and roused Peckinpaugh to centre and Peckinpaugh started home, Felsch's throw to the plate was perfect and Peckinpaugh was out. Schalk dropped upon him and also dropped the ball. While sitting on the New Yorker, he raised the ball and roused Peckinpaugh out. Peckinpaugh was trapped a foot from the base, but he was safe, claiming that Schalk held him while he was recovering the ball. The single and scored on Felsch's single. Score: R. H. E. New York.....0 1 0 0 0 1 0 0 0 0 0
Chicago.....4 0 0 0 0 1 0 0 0 0 0
Batteries—Lutz and Sandberg; Adams, C. Young and Koehler.

SOCCER NOTES

At the Varsity Stadium today, the T. and F. A. will stage the semi-finals of the Ontario Amateur Soccer Association football tournament. This competition last season created extraordinary interest, representing, as it does, the city championship for the winners. This season this interest is still maintained, and the preliminary games have lured four of the strongest teams in the city to right out the semi-finals. At 2:15 P. M. the home team will take the field, and this game will be played this afternoon at 2:15 P. M. Both teams are playing a very improved team since they met the Rubbermen in a league game, R. H. E. At Montreal—Providence defeated Montreal, 11 to 10, in a hard hitting and poor fielding game. Schellenbach, who had apparently lost the game, came thru with two home runs, one with two men on the base. Score: R. H. E. Providence.....0 0 2 0 0 1 5 0 0 11 11
Montreal.....0 0 0 0 0 0 5 0 0 10 10

At Buffalo—Buffalo-Newark-Wet grounds.

Judging by the activities of the three other managers, the Beaches will have considerable opposition in the second series of the City Amateur League, which commences at the Don Plaza this afternoon. The St. Marys and Park Nine meet at two o'clock, with Grandview and the Irons following in the run out. The Irons finished in the run out, but great improvement is expected for the balance of the season.

Here You Are, Gentlemen! Big Stock of the Finest Suits and Furnishings at Sweeping Reductions in Price

THE "I WILL MAN" has taken possession of this store for the next few days and intends to greatly reduce this magnificent stock of Men's Summer Clothing and Furnishings. Remember that everything here is high-class—nearly all the Furnishings are English made, the world's finest, and the Clothing from the most expert Canadian and American sources. It will be a wonderful sale, one YOU cannot afford to ignore.

TORONTO AVIATOR IS REPORTED DEAD

Led Attack on Twelve German Planes Early Last Month.

One of the most romantic stories of the war has just come to its end thru the cable advice from the admiralty yesterday of the death of Flight-Lieut. Percy McNeil, R.N.A.S. He was privately reported missing on June 4. A letter to the family from France, dated June 9, from Capt. W. F. Batterby, D.S.O., who left Canada two years ago with the Borden armoured battery, and was a close friend of Flight-Lieut. McNeil, tells of a visit to the late flight lieutenant on June 2, and a handwave "au revoir" from the machine as McNeil flew away in charge of three machines on an offensive patrol. The other machines returned in the evening and reported that some distance behind the German lines they sighted a squadron of twelve German planes below them. McNeil immediately dived down to them, but the others suddenly discovered four other machines above, to which they turned as the more dangerous to them. McNeil did not return, but the front line infantry behind them reported seeing a triplane come to earth under good

BEACHES RED CROSS.

Lamp Shade Presented by Mrs. Piper Realized Two Hundred Dollars.

Staunch and true friends to Toronto are Mr. and Mrs. Harry Piper of New York, whose latest gift to their "old home town" was a handsome gold-colored lampshade sent in to Mr. Noel Marshall for the Red Cross in the name of Mrs. Piper. This was raffled yesterday afternoon, netting \$200 for the fund. Mrs. Barker, president of the Beaches Red Cross Society, was in charge of the raffie, which was held at St. James' school-house, in connection with which a delightful program was given. Mr. Shork and a number of his pupils providing the musical numbers. The cheque for the amount realized was presented to Mr. Marshall by Mrs. Barker.

MARY PICKFORD AT THE REGENT

It would take a good many catch lines and pet press agent phrases to adequately convey the quality of Mary Pickford's performance in her latest picture, "A Romance of the Redwoods," which will be the feature attraction at the Regent next week. This story provided her by Cecil B. De Mille includes some new lighting and other clever novelties that have never been seen before. Thruout the action of the play there are many hearty laughs. Playing opposite Miss Pickford is Elliott Dexter, who in the part of "Black" Brown gives a thro character-ization of the role, supported by a very capable cast. A special setting of incidental music has been arranged for this production, which will be played by the famous Regent Symphony Orchestra.

The famous Italian wonderful scientific discovery for paralysis and rheumatism brings quick relief to the sufferer and thoroughly treats these diseases in an entirely different manner. You can again have the full use of every muscle, cord or nerve free from all pain and again enjoy sound health, peaceful sleep and be vigorous and efficient. Many remarkable cures have already been effected of Toronto people, who were thoughtless before and after taking treatment, and grateful testimonials can be seen at my office. Sufferers from any form of paralysis or rheumatism do not neglect this opportunity. It never fails; no drugs or medicine used. My discovery is based on natural science and is of incalculable value to humanity. Call on Prof. Antonio Tassi, 183 John street. Consultation free. DIRECTORS APPEAL TO SHAREHOLDERS

A circular has been sent to the shareholders of Teck-Hughes Mining Co. by the management, complaining of the lack of response by the shareholders to the bond issue, recently made by the company. It is stated that the total issue of par value, \$500,000, one-half was subscribed by a syndicate, while outside the syndicate by the syndicate only one shareholder has taken bonds. It is explained that the money derived from the sale of the bonds was utilized in building the mill, development of property and the installation of mill machinery.

The directors announce that development will be pushed and that only such ore as is taken out in those processes will be put thru the mill thereby entailing further money needed to carry on the work. The directors feel that the shareholders have not taken sufficient interest in the carrying on of the work and are therefore making another offer of \$100,000 par value of bonds at the former rate. The bonds are 5 year 7 per cent, first mortgage gold debentures, payable 1920.

WEST DOME CON. ORE RESERVES INCREASING

R. E. Kemmer, in his weekly market letter, has the following to say: It is the purpose of the management of the West Dome Consolidated to issue to shareholders, about the end of the month or early in August, a statement of the progress made and the results achieved at the mine during the past twelve months and we are in a position to state that this will be very much greater than the statement of the shareholders have not taken and will show the condition of the mine to be very much better than has been indicated in our recent letters. It is stated that the mine has been blocked out had a value of something in excess of \$600,000.00; the actual figure which will show in the report will be very much greater than this amount, and will prove a most gratifying surprise to shareholders.

At the present time the company is working on four separate and distinct ore bodies and the amount of the drifts show values of \$9,000, \$9,500, and \$10,000 respectively, these being the average values for the whole mine. Bagging of ore from this vein six to ten feet, widths which, in all cases, are showing steady improvement as work progresses. The work is being done in an entirely exclusive manner, and the amount of ore which has a width of approximately 100 feet and which is not concluded in any of the estimates as it is still to be subjected to complete exploration before its real value is determined. The present value of this iron formation ore is from \$2.50 to \$3.00 per ton, and this value is pointing to increasing value with depth.

WINNIPEG GRAIN MARKET.
 Winnipeg, July 13.—Trading in the pit on the Winnipeg Exchange today was practically confined to cash wheat firms, for which there was a continuation of the recent good demand. There were bids for all grades of wheat, and a change in price. A premium of 1/4c was paid for No. 1 C.W. oats, and a special keen demand was apparent for No. 2 wheat. Decreasing stocks in the interior elevators tended to keep prices firm. Saskatchewan and Moose Jaw were in the market for oats. There was considerable dealing in futures. There was little doing in barley, and prices were off 4c to 5c from last quotations. There was a demand for fax. Little was offered in the cash market, and values were considerably higher. Winnipeg October wheat again closed unchanged from the previous close. July oats closed 1/2c down, October 1/4c lower, and December 1/2c up. July barley closed 5c lower, 1/2c higher. COBALT'S DAY HERE

Some time ago we anticipated the recent rise in the price of Cobalt stocks and advised their purchase. The apparently satisfactory settlement of the labor wage dispute and the consistent advance in silver metal to a higher level than has ruled for 25 years, are the new factors on which we base our conviction that much higher levels will be attained by Cobalt issues in the near future.
