A new furnace with fittings has been procured for the Hall at a cost of \$296.95, which has been found amply sufficient for the purpose required.

The Board, as yet, has not been able to afford to paint the gallery railings, but some necessary painting has been done by the Messrs. Neilson in an effective and artistic manner, and at a moderate cost, on the walls of the niche in the rear of the stage.

During the year, death has removed from the roll of members Mr. William F. Smith, an old and valued friend of the Institute, of which he was for several years a Director and Vice-President, who did great and good work on its account, and who, up to the day of his death, evinced the warmest interest in its welfare.

In the Museum, improvements have been made in some of the cases. The Archæological collection is in process of arrangement; and a list of donations to the Museum from its organization to the present time, has been made, for the purpose of tracing the origin and donors of objects, Archæological and otherwise. Valuable information has been recovered in this way respecting a number of articles, the labels of which had been lost or become illegible by the lapse of time.

Through the generosity of patrons of the Institute, to whom the Board and Members are greatly indebted, means have been provided to defray the expenses incurred in this work, and in procuring the valuable assistance of Mr. R. Chalmers, of the Canadian Geological Survey, for a month, in re-arranging the Museum generally.

The Lecture Course, which has been largely attended, and in every respect successful, comprised the following lectures and entertainments on the dates named :

1882.

ANNUAL REPORT 1882-83.

To the Members of the Mechanics' Institute of St. John :

THE history of the Institute for the past twelve months has been comparatively uneventful.

The increasing expenses in connection with the various works—especially the Lecture Course—has been a cause of some anxiety to the Board ; and the fact that the rents have been \$85 less than during the preceding year, and that the sale of certificates and members' tickets has been \$82.50 less than was realized from these sources in that year, has somewhat added to this anxiety. Through the generosity of a number of friends, however, \$75 was placed in the hands of the Treasurer, and this was supplemented by \$229.37, the proceeds of a series of entertainments promoted and conducted by a Committee of the Board.

These entertainments consisted of a lecture by the Hon. James G. Stevens, J. C. C., and of vocal and instrumental music. The price of admission was fixed at the moderate sum of ten cents ; and the audiences, which filled and almost overcrowded the Hall, prove the appreciation of the efforts made to gratify and instruct the public at a minimum cost. To Judge Stevens, and the many ladies and gentlemen, representing various ages and walks of life, who cheerfully gave the use of their time and talents to the Institute in connection with these entertainments, the Board, and doubtless the Members, are most grateful ; and it cannot but be admitted that this evidence of the existence of public spirit in the community is very cheering.
