CITY SPLIT WITH COUNTY IS THREATENED

WARDEN CONCURS WITH SEPARATION VIEWS OF LANCASTER COUNCILLOR

McCavour Claims Parish Business Interfered With by Urban Members of Municipal Council; Sees Crisis Imminent

FINANCE COMMITTEE IN SESSION

County Treasurer Authorized to Finance Work on Lancaster Highway When Government Decides to pay Share; \$5,000 C. P. R. Payment Is Withheld From Roads Board

THAT matters were approaching a crisis in the relations between the Parish of Lancaster and the City of Saint John and that the Parish business was hampered by the action of city commissioners sitting as members of the Municipal Council, was the opinion expressed this morning by Councillor McCavour at a meeting of the finance committee of the Municipal Council. He said the time had come for a show-down, and this view was heartily concurred in by the city representatives, the warden expressing the view that the city would do well to withdraw from the county altogether.

The county treasurer was authorized to finance the work now being done on the highway from the western end of the bridge to the pavement laid last year, when satisfied that the government of the province had undertaken to pay the cost of the work when it was completed.

The committee refused to authorize the transfer of \$5,000 received from the C. P. R. to the credit of the Lancaster Highway Board, holding it toward the payment of the first interest on the issue of \$240,000 of bonds for paving and sewers in Lancaster.

Hon. R. W. Wignore, warden, was in the chair, and others present were Councillors White, Bullock, Harding, Prink, Golding, McCavour, Smith, Simpson, O'Donnell and McLeod. Council guaranteeing payment filed with him. The amendment carried. Bills from the House of the Good Shepherd and the Inter-Provincial Home for Young Women, the former amounting to \$187.75, and the latter to \$39.46, were read. These were rendered under an act passed by the Legislature and coming into effect January 1, 1926, by proclamation. The warden said he thought when legislation affecting the municipalities was adopted notice should be sent to them. The amount charged for each inmate is \$2.00 a week and the province pays a like amount. The bills were ordered paid.

RATE TO BE DOUBLED The county secretary notified the committee that after January of next year the rate for the care of pauper inmates would be doubled and the number for which the municipality was liable increased from 100 to 120. The matter was referred to a committee composed of Councillors Harding, Golding and Simpson to report on the settlement of the patients charged to the Eastern Sanatorium Co. had refused to accept the \$8,400 of Lancaster Sewerage bonds on the ground that they were only a liability of the District No. 1 and there was no provision for interest and sinking fund on these bonds. Commissioner Prink said it seemed to him that all that could be done was to secure legislation making the bonds a charge on the parish but any motion should come from one of the Lancaster councillors.

Commissioner Bullock said he thought the time had come when the municipality should not be the guarantor of the bonds issued for purely parish purposes as the municipality involved the city. The city was issuing bonds only for necessary work. MR. McCAVOUR AGAIN Councillor McCavour said he had been listening to lectures on finance ever since he became a member of the council, but he did not see they had done much good. The city members had voted for the advances for the highway in Lancaster. The conditions under which the two first advances had been made had not been carried yet, he said, despite the fact they had supported a third advance of \$60,000, bringing the total up to \$381,000. This was not the time, he declared, to talk of what had been done, but to look to the future. He moved that a bill be prepared and sent to the Legislature.

WARDEN REPLIES The warden said he as one of the city members resented the charge of interference and said that so far as he was concerned he felt the city would be better off if divorced from the county. He was a taxpayer in the county and the burden was becoming very heavy there and more should not be added at present. Commissioner Bullock said that in view of what had taken place recently he was surprised that work had been started on the letter of an employe of the government, as he understood the only letter the Highway Board had was signed by the chief engineer. What they should have was a copy of an order in council, if such had been passed, he declared. Mayor White said what was wanted was an official notice that the government would pay for this work.

AMENDMENT CARRIES It was moved by Councillor Golding that the county treasurer be authorized to pay the amount over to the credit of the highway board. In amendment Mayor White moved that the money be paid over when the county secretary had a copy of the order-in-

\$350,000 Damage Done By Fire In Aberdeen Home of Lady Cathcart; Gems Saved

British United Press. LONDON, Sept. 16.—Historic Cluny Castle, in Aberdeen, Scotland, was partly destroyed by fire today. The loss was estimated at \$350,000. This palatial Scottish residence was the home of Lady Emily Elizabeth Cathcart. Lady Cathcart is the widow of Captain Reginald Cathcart. Assisted by members of her house party and house servants the hostesses rescued valuable pictures, furniture and other family treasures to the lawn. The house party found refuge in nearby cottages. Two wings of the castle and the richly decorated private chapel were destroyed. The fire was believed to have been caused by a defective fuse. After six hours' work, burning extinguished the blaze, which was the thirty-fourth fire to damage the big country estate since January 1, 1925. Seven of these country house parties were estimated today to have sustained an aggregate loss of \$2,137,500.

Public Despairs of Result From Cabinet Move

END UNEXPECTED Stopping of National Industries Causing Concern to Populace

Canadian Press. LONDON, Sept. 16.—With the retail price of coal in London approximately \$20 a ton, and coke about \$15 the public is watching, although somewhat despairingly, for some result of the cabinet meeting which discussed yesterday the deadlock between the miners and the mine owners. Premier Baldwin, who had just returned from a holiday on the continent, presided. Hope of a settlement of the dispute between the miners and mine owners, which has now lasted 20 weeks, has been so long deferred that few persons seem to have confidence in predictions made in some quarters of early government action to force the problem. No one apparently expects important developments this week.

ALARMING FIGURES Menstruating newspapers daily are printing alarming figures showing the tragic effect of the stoppage on national industries. It is contended that the loss in public revenue is likely to involve an increase in the already burdensome taxation early in 1927.

FROM QUEBEC AND N. S. Electrical Engineering is attracting a large number of new students. The appointment of Professor Hickey as assistant to Prof. Baird in physics and electrical engineering will make it possible for additional attention to be given that department. Forestry also is proving an attractive course. A number of students from Quebec and Nova Scotia have expressed the intention of entering for that course.

Igor Sikorsky, designer and builder of the huge three-motored biplane gave orders to put the plane back into its hangar when it proved difficult to stop the flow of gasoline, which was leaking at the rate of 10 gallons an hour.

MANY NEAR DEATH Jealous Husband Fires Four Shots Into Grandstand; Woman Slightly Hurt

MARLBOROUGH, Md., Sept. 16.—Only a miracle it is said, accounted for the escape from serious injury of many race fans here when Lawrence D. Pritchett of Tomolun, M. D., yesterday fired four shots into the crowded grandstands at a man who allegedly had been talking to Mrs. Pritchett. One bullet struck a colored woman in the ankle. The firing caused a panic in the stands during which many women fainted.

SHAW, IN LATEST OUTBURST, CALLS MAN DETESTABLE ANIMAL

British United Press. LONDON, Sept. 16.—Man is a "detestable animal," according to George Bernard Shaw, septuagenarian Socialist, playwright and critic. He has announced the summary of a forthcoming lecture in which he will support this assertion. He explained that modern science was permitting man to approach the "lighthouse ideal" of isolation, instancing the housewife, who instead of shopping, is able to sit at home and telephone for her groceries. Proof of man's detestation of man is contained in the scowls which greet a newcomer in small compartments of railway cars, according to Shaw. Men must have wives and children, Shaw admitted, and hence, he said, the family instead of the individual was becoming a solitary, misanthropic unit.

Patrick Flynn's Estate All
But Vanishes—Once
Big Man

MONTICELLO, N. Y., Sept. 16.—Thirty years ago, when Patrick H. Flynn built a \$1,000,000 mansion near De Bruce and suddenly abandoned politics, contracting and business and personal associations with such men as William C. Whitney, Russell Sage, Hugh McCaughin and Patrick H. McCarren, to live a reclusive and luxury and splendor, he had on good authority more than \$1,000,000.

This week, three months after his death at 86, his will, a three-line instrument in his own handwriting, bequeathing all he possessed to Helen J. Mehl, was offered for probate before Surrogate George H. Smith. And these possessions, according to William H. McGeehan, the executor, had been reduced by years of unfortunate litigation virtually to the value of a bale of stock in a salted gold mine.

WORTHLESS NOTES
Mrs. Mehl, Flynn's housekeeper for many years, has a stack of worthless notes, "J. O. U.S." and receipts representing tens of thousands of dollars Flynn lent to former associates in business and politics. There are one or two suits pending in Flynn's name; one involving a claim of \$800,000 against the city of New York in connection with the construction of Williamsburg Bridge. Citations have been served on five pieces of Flynn's District Attorney Sydney F. Foster, one of the witnesses to the will, which was drawn thirteen months ago. This is understood to be an effort to afford an opportunity for contest if the heirs-at-law so desire. But of actual substance, there is nothing left of the once rich estate.

Three weeks before Flynn's death last June the \$1,000,000 mansion, thereafter gone in decay, was burned. Flynn lived in the cottage of Clarence Flynn, who had long since passed out of Flynn's possession. Years before the last of the corpse of the estate had been sent down the hill over the railroad, stone road had built at an additional cost of \$100,000 when his mansion house was erected. Mrs. Mehl has a few dollars left at her disposal, not far from the scene of the vanished splendor, received a few hundred dollars from the sale of timber from the estate. But even this was regarded by these families with the case as in the nature of a gift, for the property stands in the name of Hanover.

Generous to Friends
After he retired to his mansion Flynn cut loose entirely from all former associations. He refused even to receive telegrams. When messengers appeared he paid the fees, with liberal tips, and told them to take the messages back to their offices. But when former associates appeared with pleas for financial aid, it was said he was accustomed to hand over the amounts they requested in cash or securities, and to take in return merely their notes of hand, or simply a receipt or "I. O. U." These, in large numbers, repose in a strong box guarded today by Mrs. Mehl.

RESIGNATION OF
MEIGHEN DUE
IN NEAR FUTURE

Continued from Page 1
Today, This Daily Herald, spokesman of the Labor Party, sees the Governor General's action as a decisive factor in securing victory, and says the Canadian people had decided "by their votes in the election that the Governor General of Canada must not regard himself as free to accept or reject the advice of his prime minister, but must under all circumstances accept such advice whatever maybe his private opinion and must act upon it."
The Herald calls this an important constitutional development. The Daily News, organ of the "Loyal" George Liberals, says that the inference to be drawn from the result of the election in Canada is disapproval of high tariffs and also of Lord Byng's attitude in refusing to grant dissolution upon the request of Mackenzie King.

Others Disagree
All other papers maintain that Lord Byng's action had nothing whatever to do with the result and that interest in the constitutional issue declined as the campaign progressed, most of them point out that the election was lost and won on such issues as tariffs, the Hudson Bay Railroad and the re-election of the voters to the customs scandal.

IMPERIAL CONFERENCE
Most speculation is as to whether Mackenzie King will be able to attend the Imperial Conference and even if he wants to do so.
The Ottawa correspondent of the Daily News says that King will try to escape from going to the Imperial Conference by this exactly means no one can tell.

Rev. Harry C. Rice performed the ceremony. The house was prettily decorated for the occasion with cut flowers and ferns. The bride, who was unattended, was given in marriage by her father. Average of \$5 Weekly in Unemployment Benefit During 1925

LONDON, Sept. 16.—A dole averaging about \$5 weekly per head was paid by the British Government to 97,600 unemployed during 1925, according to a report of the administration of the National Health Insurance Act. The total amount spent in dole was \$2,736,210.
Of 603,001 claims for the dole referred to the chief insurance officer, 443,001 were disallowed. Of these 140,603 claimants were found not genuinely seeking work, while 44,800 had refused suitable employment. The remaining 162,400 were employed in many cases in a particular type of work.
The report also declared that, despite the large number receiving the dole, the demand for domestic servants still exceeded the supply. However, the such employment was gradually breaking down, said the report.

Candidates Comment On Election Results

Comments on the result of Tuesday's general election by the various candidates, successful and otherwise, in response to requests from The Telegraph-Journal and Times-Star, seem to indicate that, although the number who turned out to vote were less than in former elections, the workers were better organized on both sides than in the last election and the contests were bitterly fought in nearly all constituencies. Although the fight was strenuous in every riding it seems to have been carried on good-naturedly between the workers of opponents in every instance, no reports to the contrary having been received from any part of the province.

Outstanding among the comments made were those of Hon. George B. Jones, successful Conservative candidate in Royal, and Hon. P. J. Veniot, successful Liberal candidate in Gloucester. The former greatly regretted the defeat of Premier Meighen whom he referred to as the outstanding statesman in the Dominion today, but hoped that the Liberals would have enough strength in the House to do their best for the country. Hon. Mr. Veniot felt that the Liberal cause was vindicated and was particularly pleased with the solid liberal front from the North Shore.

The comments are received follows:

GLoucester
Hon. P. J. Veniot, former Liberal Premier of the province, and successful candidate in Gloucester county, wires as follows:

"Telegraph-Journal, Bathurst, Sept. 15, 1926—
Saint John.
"I consider general result of election throughout Canada as reported today a complete triumph of Liberal policy and a decided rebuke to the campaign of slander carried on by Conservative leaders in various provinces. I am pleased that Liberal party will now be able to give the country stable government and thus place our industrial life on a sound business basis. A solid Liberal North Shore gives me great satisfaction.

"P. J. VENIOT"
In a statement given over the long distance telephone by Hon. George B. Jones, successful Conservative candidate in Royal, Hon. Mr. Jones spoke as follows:

"After the battle at the polls on Sept. 14 and the subsidence of election excitement, I wish to say that I never saw the opposition so active at the polls as on yesterday.
"The splendid vote accorded myself, after 19 years of service, is a vindication from the electors. It was obtained in spite of a bitter campaign waged against me by my opponents.
"The personal drift of the Rt. Hon. Arthur Meighen is very regrettable. There is no doubt that he is the greatest statesman in public life in Canada. His defeat is not a verdict of policy for the country but one of sectional interest.
"I hope that the King party will have a clear majority and endeavor to do something in the interests of the Maritime Provinces and Canada in general."

ROYAL
In commenting on the results of the election, Dr. D. H. McAllister, of Sussex, unsuccessful Liberal candidate in Royal, stated over long distance telephone as follows:

"I am greatly pleased with the general results at the polls yesterday throughout the Dominion in favor of the Right Hon. Mackenzie King, other than in the Maritime Provinces which, I think, should have given the Liberal party more support than they did. To my mind the Maritimes will be as much if not more benefited by supporting the Liberal party, than any other province in the Dominion. Ontario has proved at the polls that the reduction on agricultural implements and autos, etc., does not hurt them in any way but is rather beneficial and also, Ontario is showing better feeling towards the Liberal party.

"Royal has made a mistake again at the polls yesterday. There are reasons for this besides the reduction of tariff and the Robb budget and those reasons, I think I can safely say, are money and misrepresentation and whispering canvasses which will sometimes influence any electorate against their own interests."

NORTHUMBERLAND
A wire from Charles J. Morrissey, of Newcastle, Liberal, successful candidate in Northumberland, reads as follows:

"The result of the election in Northumberland county yesterday shows that the people here appreciate the efforts of the King government in reducing taxation and is also a forecast of what will happen the provincial government when the time comes.
C. J. MORRISSEY, Newcastle, N. B., Sept. 15, 1926.

The following wire is from Charles E. Fish, former Conservative representative and unsuccessful candidate in Northumberland:

"Telegraph-Journal, Saint John, N. B.:
The misinformed opinion of the electors concerning provincial affairs such as the Grand Falls development, stampage increase, local appointments, etc., has generally been accepted as the cause of Liberal victory in this county.
C. E. FISH, Newcastle, Sept. 15, 1926.

YORK-SUNBURY
R. B. Hanson, K.C., Conservative, successful candidate in York-Sunbury, declined to make any comment. His wire reads:

"Prefer making no comment on general result of election.
R. B. HANSON, Fredericton, Sept. 15, 1926.

Peter J. Hughes, K.C., unsuccessful Liberal candidate in York-Sunbury, sent the following wire:

"Fredericton, Sept. 15, 1926.
"To Telegraph-Journal,
Saint John.
"The Liberal victory throughout the Dominion ought to further increase business in Canada at whole. If the Maritime Provinces can hope to recover their former prosperity it must be by a return of those principles which brought them prosperity in the past and if the promises made by Rt. Hon. Mr. King are implemented we may expect some advantage in this respect for the future here.
"I believe the permanent result of the election will be that no Governor-General, in any part of the British Empire will ever again decline to accept the advice of his constitutional advisers."
"PETER J. HUGHES."

RESTIGOUCHE-MADAWASKA
In response to a request for a statement on the election result, Stanislaus Blanchard, of Campbellton, successful Liberal candidate in Restigouche-Madawaska, made the following statement to our Campbellton representative:

"I have little to say expressing my sincere thanks to the electors of Restigouche-Madawaska for the splendid support given me in Tuesday's contest. With the large majority they have given me I will go to Ottawa with a clear sense of the responsibility thus placed upon me and will endeavor to represent the people of this constituency in a manner befitting the position for which I have been elected."
"The electors of Restigouche-Madawaska may feel assured that I will keep before me the needs of these two counties and that I will endeavor to power to see that the constituency gets the proper attention and treatment in all matters affecting this part of the country."
Signed,
"STANISLAUS BLANCHARD," former member for the constituency, and who was defeated by the King government, could not be reached yesterday. He resides at Jacques River and it was impossible to get his reply in time to use with those included herewith.

VICTORIA-CARLETON
The following statement was issued last night by Hon. J. K. Fleming, successful Conservative candidate in Victoria-Carleton:

"I am pleased to have been elected yesterday at the polls of the Carleton-Victoria constituency and at having the honor of again representing this constituency in the Federal parliament.
"Our victory in this constituency was one over a highly organized opposition and must be attributed to the faith and support of our followers and friends. To my supporters I extend my hearty thanks and appreciation.
When asked his opinion of the Dominion results, Hon. Mr. Fleming said that the Liberal victory in Carleton-Victoria, declined to make any statement whatsoever."

CHARLOTTE
There were no comments forthcoming last night from R. W. Grimmer, Conservative, successful candidate in Charlotte county, nor from his unsuccessful Liberal opponent, P. E. McLaughlin.

WESTMORLAND
O. B. Price, successful Conservative candidate in Westmorland, comments on the defeat of the Meighen government means the defeat of Maritime development of prosperity. It is important that we should stand by our rights and fight for those concerned. We were promised under confederation.

Weddings
King-Sharp.
APOHAQUET, Sept. 15—A wedding of wide-spread interest took place on Wednesday, Sept. 15, at 4 o'clock in the afternoon, when Miss Agnes Northrop Sharp, younger daughter of Mr. and Mrs. Geo. S. Sharp, of Lower Millstream, was united in marriage to James Hayes King, of Moncton, a son of Mr. and Mrs. Wm. J. King, of Smith's Creek, Kings county. Rev. Harry Harrison performed the ceremony in the presence of about 80 guests and a large assemblage of interested friends.

The church was beautifully decorated, the vows being taken beneath an arch of golden glow and autumn foliage woodland ferns were banded about the altar. The guests were marked by white ribbon and sweet peas.

The bride, who was given in marriage by her father, wore a French gown of navy georgette over jalapa crepe de chene, the georgette being brightened by a touch of silver. With the costume she wore a becoming black victrol hat, and carried a bouquet of lilies of the valley. Little Miss Anna Isabel Sharp, daughter of Mr. and Mrs. Fred Sharp, and niece of the bride, was ring-bearer, and looked winsome in a fairy like French dress of ruffled white marquisette with rosebud trimmings, wearing a quaint poke hat of tulle and roses.

Ralph J. Coy presided at the organ, the bride entered and Mendelssohn's wedding march as the bridal party retired from the church. Mr. Fred Sharp, brother of the bride, ushered.

A reception was held at the family residence immediately following the ceremony, when Mr. and Mrs. Sharp and Mr. and Mrs. King received their many guests. A profusion of sweet peas, pinks and asters, were the decorations in the house while roses adorned the bride's table, which was centered with the wedding cake, beautifully decorated and surrounded by rose tulle. A buffet luncheon was served when the Misses Kate Coy, Hazel Long, Marion Wiley, Laura

and Greta Robinson served. Many beautiful gifts were bestowed on the young couple, evidencing their popularity.

Mr. and Mrs. King left by motor and will tour the New England States to New York and return via Montreal. Mrs. King's going away costume was a navy fall cape dress with a muskrat trimmed sport coat and a Cheviot velvet sport hat.

The bride is a graduate in Household Science of Guelph College, Ontario, and has taught for a short time in Hamilton, Ontario. The groom also took a college course at Guelph, Ont., and is a graduate of McDonald College, Que. He is manager of the Co-operative Dairy in Moncton, where they will reside.

The guests from outside points were: Mr. and Mrs. W. J. King, of Smith's Creek, parents of the groom; Mrs. Jane Rommel, of Canon City, Colorado, aunt of the bride; Mrs. A. F. Robinson, Saint John; Mr. and Mrs. W. K. C. Parlee, Moncton; Mr. and Mrs. Harry King, Dartmouth, N. S.; Mr. and Mrs. J. Kenneth King, Moncton; Miss Emma Parlee, Moncton; Miss Dorothy King, New York; Mrs. John King and George King, Smith's Creek; Mr. and Mrs. H. Parlee, Hampton; Miss Grace Northrup, Saint John; Mr. and Mrs. Sherrard and Miss George Sherrard, of Moncton.

SAINT JOHN, N. B., SEPTEMBER 16, 1926.

THE COUNCIL AND TAXATION

The Mayor has announced that a special meeting of the Council is to be held tomorrow morning to discuss the citizens' petition for an audit and investigation in relation to taxation, as suggested by the conduct of the various civic departments and the engagement of an expert or experts to explore and report upon our methods of raising revenue and the fashion in which we use, or misuse, the money which is collected.

No one doubts that we can improve upon the present methods with respect to assessment and taxation, and probably few doubt that we can make better use of the revenue we do collect. Effective reform is not to be brought about in a few days, and it is necessary to keep in mind that if we are to have new legislation—and that is to be expected—we must make better use of the details well before the next session of the New Brunswick Legislature, which is due in March.

Legislation must have, but while we are preparing for it, while we are employing experts and pursuing the investigation rightly demanded by so great a proportion of the taxpayers, we should at the same time be doing something in addition, something which will actually affect the tax bills which will be sent out next summer.

If the Mayor and Commissioners will run through the list of 2153 year's bills, they will examine 200 or 1,000 of those bills, and will find a considerable portion of them will actually affect the tax bills which will be sent out next summer.

There is no method by which the people of Saint John as a body can evade the payment of the money they owe. That is to say, the charges for interest, for schools, and for the ordinary department work must be met, and many of the people who, properly thought, insist upon better school accommodation, upon more paved streets, and upon other comforts and conveniences, are often the first to demand City Hall because they are asked to pay for the improvements upon which they have insisted.

The whole family is ranged behind them in case of need. It is the nations outside the British Empire that are slow to recognize the gradual change of relationship, that assume that when the mother speaks it is necessarily on behalf of the whole family, and that she is to be addressed on behalf of her grown-up Dominions even as she is rightly consulted in regard to her still baby colonies, Canada, Australia and South Africa have denied no measure of liberty they have demanded and their entry into the League of Nations as separate countries should have been enough to proclaim to the world that they are individual nations, although still remaining members of the British Empire.

Up to now it has been the role of South Africa to point out that the nationalism after which she strives is a nationalism recognized by foreign countries. She has little or no complaint to make as regards acknowledgment of her standing within the Empire, but recently she has been seeking, and to have new legislation—and that is to be expected—we must make better use of the details well before the next session of the New Brunswick Legislature, which is due in March.

There were a number of non-permanent seats in the Council to be filled. Ireland took the lead in postulating that one seat should go to a British Dominion. Ireland offered herself as a candidate, but was willing to stand aside if Canada should put in a claim.

Odds and Ends

Nostalgia (Toronto Star). Now home again, I yearn—and do not you? With sharp, nostalgic pain For meadows drenched with dew, For magic, casual hours, Wild birds, wild flowers.

There, in the Out of Doors, On high rocks, lonely moors, At dawn and set of stars, Or when stars have risen, Do you not break the bars Of a city prison?

Here, my returning feet, Back on the city street, Lose, in this anti-hep maze, Their forest freshness, My lips still long for days Of woodland sweetness.

A Mausoleum Dance. (London Morning Post). A picturesque ceremony was witnessed recently near St. Ives, Cornwall. On a hill above the town stands a mausoleum erected in 1782 to the memory of John Knill, at one time private secretary to the Earl of Buckinghamshire when Viceroy of Ireland, and a well known collector of customs.

AN IMPARTIAL PROBE. (L'Action Catholique). For too long a time past smugglers, and especially bootleggers, have appeared to ridicule the law and its representatives. Queer Quirks of Nature

THE leaves of this pretty plant are, for some people, poisonous to the touch. But it is a useful plant, for the root stocks, known as nerve root, are sometimes used in medicine as a specific for various diseases.

FOR REMEMBRANCE

NEW YORK—One man in this busy city has devised the plan whereby he can remind himself of things he has

to do, having lost faith in a memorandum stuffed into his pocket or put on his desk and often lost in a mass of papers. He writes a post card to himself, calling his attention to the thing to be done, and posts it. When it arrives in the morning's mail it "explodes" in his face.

LOOK OUT FOR THE ATOMS! PHILADELPHIA, Pa.—Within a few years, the long predicted chemical discovery which shall release the energy of the atom will be entered in the history of civilization—and this let civilization look out!

Professor James F. Norris, President of the American Chemical Society, speaking before the convention of the society, foresees a new order, a completely changed world when the final steps are taken in the utilization of the energy stored in the atom and the electron. Chemistry, as a science, will have to be completely re-organized; science will have to be re-organized and the ordinary life of the "man" in the street will be so changed that the present day "modern" man will be stupefied by it.

LITERARY TRAFFIC COP KENSAL, RISE, England—Constant and enthusiastic demand for short, lighter-than-air fiction has given the local librarian some reason for asperity. If a reader can go through, say, "Green Prefer Blondes" in little over an hour, that means he may be back very soon for another book. And that complicates life in the library, he's all very well to serve the public, but this spending is something else again.

Just Fun

STILL if the nations were square enough to make the league work they could get along without it.

IF LIFE seems dull, sharpen your interests a bit. ONE Neighbor (to another)—Is this for an advertisement in the paper? "Yes."

FOR every man who is willing to "finish something," ten are ready to "start something."

LAMENT OF A BLIGHTED BUD I was just a prairie flower Growing wilder hour by hour; I got married—now you see I'm as tame as I can be.

FRIENDSHIP helps, of course, but you never heard of friendship alone bringing in repeat orders.

THE heights are lonely—whether they be intellectual, spiritual or social.

HE: Life would be all right except for two things. She: And what are they? He: Blondes and brunettes.

WHEN you get to the end of your rope tie a knot in it and hang on.

JOHNSON—My wife and I have a joint bank account. Jones—That's a good idea. Saves a lot of trouble, doesn't it? "Oh, yes, All I have to do is to put the money in. She draws it out."

SAMBO, who had had several weeks' hard life on a French battlefield, was asked by an officer, "Where are you from, Sambo?" "I'm from Alabama, boss," said Sambo, "and if I ever get back there again, I'll never be from there no more, boss."

"IT AIN'T the whistle that pulls the train." CIVILIZED? (Ottawa Citizen). We frequently hear eulogies of mankind and high tributes to the great progress being made in civilization, and they are sometimes justified. But grave doubts as to civilization's progress must assail those who read the news and come across items like that from Weymouth, England, the other day. A negro was lynched there, not for any crime, but because he looked at a white girl and she smiled at him. He was buried alive in prison under conditions of ferocious barbarity. The leader of the mob said: "We want him to scorch first, and then cook slow." The prison officials merely stood around with pails of water to keep the fire from spreading. No steps have been taken to punish these fiendish murderers.

DINNER STORIES

WHILE awaiting her turn at the Palace, Tessie, of Eddie and Tessie, novelty song and dance artists, picked up an evening paper. Tessie's eye fell on an item which, under a glaring headline told of a court decision awarding damages of \$20,000 to a chorus girl for a single skirt. Borrowing a pencil, she began figuring furiously. "What now, her father remarked. When he finished the newspaper he said, "And now how much does it come to?" "Exactly \$64,754," answered Tessie. "At \$20,000 a kiss I see."

A WOMAN raising funds for the starring Russians visited a cabin in the Ozarks. She told of the sufferings of the people, but the old mountaineer seemed unmoved. They are even eating the bark off the trees," she stated impressively. "Wall, I don't reckon the trees are worth much over in that country now," he remarked casually. Almost in despair the woman tried once more. "Many of the people are killing dogs and using them for food!" "Saryann, Saryann, bring the sock," he shouted sympathetically. "We can't let them dogs suffer."

Other Views TO STOP DUMPING (Norway). When the storming was discussing the proposed changes in the customs tariff, the chairman of the parliamentary Labor party submitted a motion to the effect that the storming should request the government to consider, and, if necessary, legislate on, dumping by foreign manufacturers which reflects very unfavorably on the industrial situation. This motion was unanimously agreed to and accepted by the minister of finance, who pointed out that the government was keeping its eye on the matter and that a full report would be submitted early next year.

IMPROVED BY PRINTER (London Observer). The psychology of printers' errors is an unusual topic for the British association, but Professor Sperrman was unfortunately not able to point out any way to avoid them. A writer in the Evening Standard says that he knows a poet "who hoots in one of his poems untill he is printed, having been unable to read his writing correctly, an exquisitely appropriate epithet, due But does not something like that happens."

COX DENOUNCES DEBT PLAN OF UNITED STATES

1920 Presidential Candidate Says Policy Will Breed Ill-Will

NEW YORK, Sept. 16.—James M. Cox, who campaigned in 1920 for a chance to carry on the policies of Woodrow Wilson, has followed the example of Newton D. Baker, Wilson's Secretary of War, in denouncing Republican debt policy as productive of European ill-will for the United States. The 1920 Democratic presidential candidate does not go as far as Mr. Baker, who recently urged debt cancellation as a means of reclaiming European friendship, but he does believe in more moderate terms.

After fighting "to save the soul of civilization," said Mr. Cox upon his return on the liner Majestic from a European visit of several weeks, "we now insist on filing a mortgage on it."

SAYS U. S. HATED.

"In 1920," he declared, "The United States occupied a position never before attained by any other in all history. No nation was more respected. Today none is more hated. It can hardly be just a coincidence that the present feeling is the same wherever you go. There is a basic reason for it. With the war ended, we recognized neither our opportunity nor duty to assume moral cooperation in peace. Instead of seeking to ascertain what other nations should pay in fair and equitable consideration of the circumstances of the war, we ask what they can pay by combining the assets of the present and the prospects of the future. Children yet unborn will be old before we have exacted our pound of flesh."

"Time was when our foreign policy brought the name of America to grateful lips all over the world, and Americanism was a synonym for usefulness and helpfulness. Now there is no foreign policy unless the collection agency which we are hard fastedly conducting, can be regarded as its expression."

DIRECTORS RESIGN

Drastic Reorganization of Oil-fields Ltd., Necessary, Says Company

LONDON, Sept. 16.—The British controlled Oilfields, Limited, the common shares of which have dropped in value from 17 shillings to four shillings 6d., has issued a report saying that \$2,000,000 capital has been lost and that drastic reorganization of the company is necessary. Lord Buckmaster, former Lord Chancellor, who was chairman of the board of directors of the company last November, and four of the other directors, have resigned. The Oilfields, Limited, has vast concessions in various parts of South America.

EIGHT KILLED UNDER MISSOURI RIVER BED

Premature Blast in Waterworks Tunnel from Kansas City is Fatal

KANSAS CITY, Sept. 16.—Eight workmen met death 300 feet under the bed of the Missouri River here yesterday in a premature explosion of dynamite in a waterworks tunnel being bored to North Kansas City. Rescue workers who had toiled all day in the gas laden air of the tunnel reached the bodies of the victims last night. All apparently had been killed instantly by the force of the blast, which did considerable damage to the bore.

Heroes and Laxatives

NOT all heroes are known to history. Anybody who had to swallow harsh, bitter laxatives was a hero, too. But those days are gone forever. Now, when a laxative is needed, one simply chews a couple of TRU-LAX chewing nuggets-like gum. You taste nothing but mint. A smooth, thorough action always follows. TRU-LAX is a laxative you'll like. "Flapper" Type Doomed By Victory

The decline of the Flapper is heralded in the victory of a quiet unbobbed girl as America's new Queen of Beauty. She is Miss Norma Smallwood, of Tulsa, Oklahoma, whose winsome loveliness gained the Atlantic City pageant decision for her over "Miss Washington" and "Miss New York," who took second and third places respectively. Her hair is unbobbed, her hair is dark, her eyes are blue and her complexion fair. She is far from the "flapper" style.

CONFESSED SLAYER IS DECLARED SANE

Native of B. C. Told Police He Had Killed Dozen Persons

MINNEAPOLIS, Minn., Sept. 16.—Tom Johnson, self-accused slayer and bandit, was declared sane in a report of alienists yesterday 24 hours before the time set for his trial on a charge of murdering Leonard Erdal here last December. Johnson was returned from Seattle six weeks ago, after he had told authorities there that he had killed a dozen persons. He pleaded not guilty to the murder charge because he "wants to stand trial in some state where he will be hanged," he said. Minnesota murder penalty is life imprisonment. Johnson is a native of Salmon Arm, B. C. Cleophs is the largest of the pyramids. It is 661 feet high, 746 feet square at the base, and covers 12 acres.

EXAMPLE TO CURE OIL WATER NUISANCE

Liverpool, England, set an example to cure the oily water nuisance. Recently the master of the oil tanker Alwaan was fined 20s in that city for allowing oil to float from his ship into the Heracleum Dock, but it is a step in the right direction. Untold damage is being done to British fisheries, sea birds and health resorts throughout the world by the oil water nuisance. Only a definite stand, and a strong policy of fines and regulations by the proper port authorities with the necessary powers can put a stop to this very unfortunate accompaniment of the motorship and the oil tanker.

SEAMEN DESERT FROM STEAMSHIP

MONTREAL, Sept. 15.—Six sailors belonging to the crew of the Ilford, a steamer at present in Quebec, were placed under arrest for insubordination and desertion Tuesday morning. The men wished to remain in Quebec although they had signed on in Sydney, Cape Breton, for a round trip, and when the vessel was about to sail they announced they were going ashore. The master of the ship called the local police to his aid and the insurgents were placed under arrest. The captain claims that he has been put to a great deal of inconvenience recently through repeated outbreaks of insubordination on board his ship.

Almost Every Deserted Wife Pushes Her Husband Into Another Woman's Arms by Her Nagging, Laziness or Refusal to Pal or Climb With Him.

WHEN a middle-aged woman finds out that she "has lost her husband's affection" as the phrase goes, and that some younger and fairer lady love has taken her place in his heart, she invariably lays the blame entirely upon the man.

She calls upon heaven to witness that she has been a faithful wife. She points to the children she has borne him. She recounts the sacrifices she has made, and the work she has done as wife and mother, and she asks us to mingle our tears with hers over the base ingratitude of a man who has taken all of the best of a woman's life, and then thrown her aside as a spoiled child does a toy which he has tired.

Now I hold no brief for the unfaithful husband. Duty is duty, no matter how hard it is. Loyalty is loyalty, whatever the temptation to betray a trust. Because a man has lost his fancy for his wife gives him no liberty to philander after other women.

But I often wonder, as I listen to the wails and lamentations of these neglected and forsaken wives, why they do not realize that they help make the tragedy which has ruined their lives, for there is no denying that in nearly every case of an unfaithful husband the wife is accessory before the crime.

And the fact that she sins ignorantly, with no intention of alienating her husband's affections from her, with no perception that she is killing his love for her, does not alter the situation, nor absolve her from guilt.

NEARLY every man is deeply, truly, romantically in love when he marries. Otherwise, he would not marry, and burden himself with the support of a wife and family, nor curb his liberty by putting upon it the restrictions of matrimony. More than that, the woman he marries represents his taste and ideals. She is the one woman that he prefers above all other women, the one woman he has picked out to spend the remainder of his life with.

Thus the wife starts out with everything in her favor. She holds all the trump cards in her hand, and when she loses out it is because she brings the game. She is too dull and stupid, or too lazy and indifferent to play the hand fate has dealt her, and so she gets beaten.

ADMITTEDLY, there are a few men who are Don Juans by nature, who are attracted to every woman, and faithful to none, and whom no one woman could possibly satisfy, but there are not many such men.

The great majority of men do not desire to roam. They want to find happiness and contentment at home. They are not out deliberately seeking soul mates. They want to find their affinities in their wives. And so when they wander away from their own fireside, and fall in love with strange women, it is almost invariably because their wives have failed them in one way or another.

MANY men, for instance, never spend their evenings at home because their homes are places of torment in which no sane person would stay a minute longer than they could possibly help. There is nothing to make a man want to linger in a dirty, messy house, where the floors are un-swept, and the beds unmade, where every meal is an insult to the palate, and a menace to the stomach, and where a slovenly woman bickers with untidy, ill-raised children.

Are not the slattern, and the lazy loafer who feeds her husband out of paper bags and tin cans, and who is partially responsible for men leaving home? You will find few wife deserters among the men married to good cooks and good housekeepers.

MANY wives complain that their husbands are surly and grouchy at home, with never a word to say.

Do these women never consider how often a man's silence is merely the defense he hides behind? He does not say anything for fear of starting an argument, and bringing down on his head a certain lecture about something he has done, or left undone, and of which he never hears the last.

THERE are plenty of women whose only domestic conversation line is a litany of the day's woes. They recount to their husbands everything that has gone wrong. They dwell upon the children's misdemeanors, the high cost of living; they remind him of tasks undone, or bills unpaid; they whine and fret, and want to know why they can't have as much as rich women have. And this is so unbearable to a man, already worn and exhausted in mind and body by the strain of a business day, that he feels that he will scream if he speaks, so he shuts his teeth on his tongue and says nothing.

But there are few men who are not chatty enough with a wife who is cheerful and entertaining, and who is full of amusing gossip, nor is there any record of a husband who is unresponsive to the wife who is his best audience, who lets him see that she regards him as an article and a wife, and who never fails to express her appreciation of all he does for her.

MANY another woman drives her husband away from her by refusing to pal with him. If the husband is of a gay disposition, and loves amusement, she will not dance with him, nor go to the theatre with him, but is a killjoy who spoils his fun for him. If he likes outdoor sports, she sets her face against golf or tennis instead of learning how to play—or at least how to appreciate others' play.

If she likes to talk business she yawns in his face. If he is ambitious, she refuses to climb with him, and he goes on ahead without her.

Sooner or later all such women push their husbands into other women's arms. For a man has to have a woman comrade, and if his wife refuses to be one there is always some other lady ready to substitute for her.

ONE of Cable's stories he makes a little priest, in speaking of a criminal, say: "God forgive me and for that man's sin."

So might pray the wife of many an unfaithful husband.

BEHIND THE SCREEN

MAKING UP means more than a kiss to Dorothy Dwan, Larry Semon's wife and a film personage in her own right. It means hours of toil. She studied the makeup art for six months and she's now surprising Hollywood with her disguises. It takes her three hours to transform herself into a witch. Her soft brown hair, lovely eyes, carefully kept hands, arched brows, smooth cheeks and curved ankles are so completely disguised that it seems incredible. Even her hands are those of a woman accustomed to dirt and scrubbing. Neck muscles are sagging and the chin is sharpened.

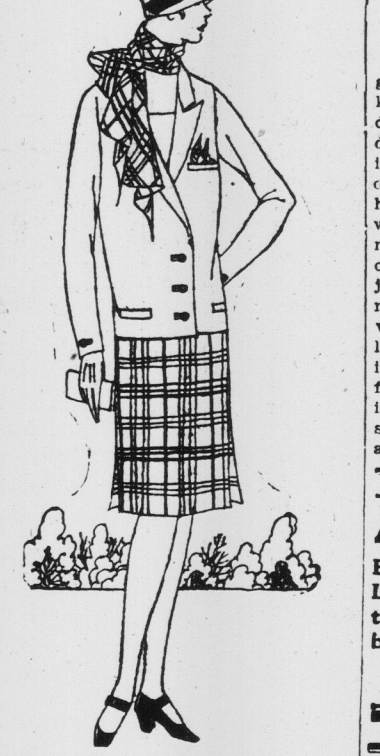

Belle Bennett has been stung for the title role in the Fox version of "The Story of Mother Machabe" based on Rida Johnson Young's story of the same name. She will play the role of Ellen Mcintosh, the mother in Ireland, who left a widow with a five-year-old son, goes to America in the hope of educating him and bringing him up to be a gentleman. The American scenes give Miss Bennett an opportunity to repeat some of her former successes in roles calling for mother love and sacrifice.

Now that "Annie Laurie" is well in production, Metro-Goldwyn-Mayer officials are planning to make a film version of the life of another woman whose name is known throughout the civilized world, Jenny Lind, who came to the U. S. in the 60's to charm audiences with her lovely voice.

TODAY'S RECIPES

Shamrock Salad—Wash a sweet red and a sweet green pepper and cut off the stem of each. Remove all seeds and pith. Mix cream cheese with a little cream, pepper, salt. Stuff pepper shells full and chill thoroughly. Then slice about three slices of each on each plate on a bed with lettuce leaves. Dress with mayonnaise.

Mock Chicken—Take one and one-half pounds veal (stripped from the shank), cut into serving size pieces, put into boiling water, salted, and cook until very tender. Remove from the broth, roll in flour and fry in butter very quickly. The shape of the pieces and the taste is very much like chicken.

Tomato and Nut Salad—Scoop out the centers of tomatoes, refill with fresh or canned cherries stuffed with nuts and covered with French dressing. Place tomatoes on lettuce leaves.

Peach Shortcake—Take one-third cup melted butter, put two eggs in the butter and fill cup with milk. Put into this one and one-fourth cups flour and one cup sugar sifted three times, add flavoring and baking powder. Bake in square pan. When done cut cake in strips about three inches long, and then once down the center. Place a piece on each plate and cut through it so as to make a top and bottom layer. Put two tablespoons of sliced peaches on lower layer and put top layer over this, add another two tablespoons of peaches and one of whipped cream.

SEE-SAVING BROADWAY

AND it so befell that upon a certain day in August of the year 1925 we were passing a flock of employment agencies on a side street of Manhattan when our eyes fell upon the following alluring offer: "Wanted: Good bartender. Wages \$75 a month and board. And, strange to say, the heavens have not yet fallen."

And, upon an imposing typewriting list that hangs on the walls of our worthy library and which bears the slogan, "Let of New Books" appears, I am told, this title, among others: "How to Play Mah Jong."

ONE of the 23-story New York hotels, that catches a considerable percentage of the "book and mail trade" issues a daily warning to wit: "Salesmen will please discontinue early morning calls to buyers."

It seems that in Manhattan the early bird loses the worm and, what is more, the worm gets mad at being disturbed so early.

The admonition reads: "Buyers from out of town frequently complain that their morning slumber is disturbed by salesmen from firms whose enthusiasm for business exceeds their consideration for the buyers' rest."

Flty, then, the poor buyer in a town like this!

After the arduous day of looking over the shapely models he retires to his convenient cabaret, hip flask on hand and a cutie on his arm. Comes the dawn and he is creeping drowsily to bed, only to hear the telephone jangle and a salesman calling him. And, on mere business! Who ever expected a buyer

CLARENCE DARROW, criminal lawyer, man of letters, and the United States foremost "reformer against reform" cracked another idol when speaking of his favorite hobby. He said he didn't have one and hoped that he never would have such a thing.

And as for playing golf or tennis, Mr. Darrow lit a cigarette and smiled contemptuously. He avowed that he could see no real reason for any man admittedly young no longer trying himself out on a golf course when he had a good light, and easy chair, and an interesting book on science available.

Darrow added that he had never taken a great deal of exercise, but had retained his health in spite of it, or perhaps—his eyes twinkled—"because of it."

GIRLS' WORK PLANS OF '27 ARE ANNOUNCED

Coming Year's Program is Very Attractive, Having Many Features

SPECIAL EVENTS FOR EACH MONTH

Track Meet, Halloween Party and Bazaar Scheduled For October

The program for the girls' work and gymnasium activities at the Y. W. C. A. for the coming season has just been prepared and announcement has also been made of the special events at the 'Y' during the coming months.

In the special events, October is to witness a "Y" track meet, a Halloween party and a big bazaar in which all departments of the "Y" are co-operating to raise money to pay off the association debts. In November there will be a Thanksgiving rally and during December there will be a number of Christmas festivities.

For January a mothers' reception is planned and in February there will be a Valentine festival. The special event for March will be a song service and the season's activities will conclude in April with the gymnasium display.

The popularity of the Y. W. C. A. clubs for girls and the ever increasing attendance at club meetings has made it necessary to sub-divide further the Booster groups and to form a new organization also. According to the new season program there will be four divisions of Boosters—Juniors, Intermediates, Seniors and Stars. Formerly there were only three groups, the Star group being new this year.

THE NEW PROGRAM

According to the new program the Junior Boosters will meet at 9:30 on Saturday morning for gymnasium singing and story telling. The children in this group are of five to seven years of age. Three of the clubs will hold their weekly meetings on Wednesday. The intermediates, whose ages range from 8 to 11 years, will meet at 8:30 p. m. The senior Boosters of the 12 to 14-year-old group will meet at 7:30. The Tri-Blue Club will assemble at 7:30 on Wednesday night.

The two remaining clubs will hold their meetings on Thursday. The Star Boosters, girls of 15 to 18 years, will meet at 7 o'clock and the Overseas Club meeting will open at 7:30 p. m. All of the clubs except the Juniors the activities will include physical training, basketball, handwork and Bible and educational talks.

PHYSICAL DEPARTMENT

The physical department directed this season is Miss Hazel McCready and gymnasium classes are to open on Oct. 4. Registration commenced yesterday and there promises to be a big attendance this year. According to the gymnasium program for the coming season to be held each Monday and Thursday afternoon from 2:30 to 3:30. Senior school girls' classes will be from 4 to 5 on Monday afternoon and 4 to 5:30 on Friday afternoon. The beginners' dancing class will be held from 7 to 8 on Monday night and the beginners' gymnasium class from 9 to 9:30 on Monday night. The babies' gymnasium class will meet from 8 to 9 on Tuesday afternoon.

The Junior dancing class will be held from 4 to 5 p. m. on Tuesday and 11 a. m. to noon on Saturday. The advanced dancing class will meet from 7 to 8 p. m. on Tuesday and the advanced gymnasium class on the same evening from 8 to 9:30. The intermediate gymnasium class will meet from 4 to 5 p. m. on Thursday. The babies' dancing class will be held from 4 to 5 p. m. on Tuesday.

"MOST BEAUTIFUL GIRL IN FRANCE"

MISS JACQUELINE SCHALLY

EVIDENTLY they prefer blondes," exclaimed pretty 17-year-old Jacqueline Schally, when it was announced that a jury of American, British and French artists had voted her the prettiest woman in all France. The election took place a few days ago in the presence of at least 1,000 people who had paid \$10 apiece for the privilege of seeing the candidates pass before the jury.

The crowd of on-lookers as well as the judges were dazzled by Miss Schally's blond loveliness. She announced afterwards that she was very much surprised by the decision, and that she is really quite plain, in comparison with her elder sister, at home in Rouen.

The new beauty queen has danced for two years at the Folies Bergere, where she began her career as a Naïad in the stage tank. Then she learned to dance and became a star of minor magnitude.

The prize for being France's prettiest girl is a visit to the United States and a five-year contract with an American movie company.

CONVENERS FOR TRAVELERS' TAG DAY NAMED

Seek to Raise \$2,500 to Carry on Work Here

Organization for the tag days of the Travelers' Aid was further effected at a meeting of the committee yesterday afternoon when Mrs. J. Herbert Crockett, convenor, presided. Worked as follows: Dukes, Miss E. Poore; Kings, Mrs. J. H. Crockett; Lorne and Landdowne, Mrs. A. L. Roberts; Victoria, Mrs. George Parker; Prince, Mrs. H. T. Campbell; Wellington, Miss M. Hoyt and Miss J. Giblin; Queen, Miss Marion Peters; Brooks and Guy, Mrs. Norman P. McLeod.

The members of the advertising committee appointed were Mrs. J. H. Crockett, Mrs. Alfred Morrissey and Miss Louise Parks, Mrs. S. C. Young and Mrs. W. C. Cross, and finance committee, Mrs. J. H. Crockett, W. R. Pearce and Mrs. J. H. Crockett.

OBJECTIVE \$2,000.

The objective set for the tag day is \$2,000 and the workers are planning to carry out a very vigorous campaign to reach that objective. Every detail of organization is being carefully looked after.

In speaking of the "Travelers' Aid" work in St. John a member of the local committee yesterday described it as one of the city's most efficient and most beneficial welfare endeavours deserving of far greater public support than it has received. In the last year's report covering the period from May, 1925, to April of this year, the Travelers' Aid receipts were \$2,769.97 and there was a deficit of \$69.04 in the year's operation. Included in the receipts were \$737.77 from the tag day and \$1,032.20 from the \$200 Dominion grant, which is received as a contribution towards the care of overseas girls languishing in St. John.

With its comparatively small outlay the Travelers' Aid maintains a home at which the mothers and children are sheltered, and pays the salaries of the matron of the home and of the workers who make the trains and boats and give assistance, help or advice to all who need such care.

2,745 TRAINS MET.

During the period covered in the last yearly report the workers met 2,745 trains and assisted 2,177 travellers, of whom 41 were children under 16 years of age, travelling alone, and 51 were foreigners.

This spring the Travelers' Aid home was moved from Union street to Princess street where more desirable quarters are available. The change was made necessary as the landlady of the former premises had made structural alterations which rendered that building untenantable. The removal to new quarters brought some additional expenses for the current year. It is the earnest hope of the tag day conveners that their appeal to the public to continue their work in September will bring so generous a response that there will be no deficit this year.

In telling of the work of the Travelers' Aid Mrs. W. R. Pearce, the convenor of the Travelers' Aid committee, said: "While it is impossible to measure the results, the grateful appreciation of women travelling alone and their friends and often without financial means to protect further, makes it a special duty of the people who would otherwise walk into the streets that they should be able to do so with confidence and safety."

Two special groups of people that come under the Travelers' Aid care are those who are going to the United States and those who are being transported to the United States. The latter are the young women coming to Canada to work in the mills and who are 688 persons assisted in passing into the United States. The overseas girls are those who are in St. John and they have taken up work in the city making the home a place of regular call.

Intricate Undertaking Put Over in Record Time, is Word

For speed and accuracy in the reception and tabulation of election returns from all polling centres in New Brunswick, the system prepared by the New Brunswick Telephone Co., Ltd., on Tuesday night. Although the county and provincial polls closed at eight o'clock, the system prepared by the Telephone company worked so perfectly that at 9 o'clock, Saint John time, the returns from almost every poll in New Brunswick were received and attended to, they being relayed here.

The system was prepared early enough before Sept. 14 to ensure all details working as smoothly as possible. The names of the official returning officers throughout New Brunswick were obtained from Colonel O. M. Biggar, K.C., chief electoral officer for Canada. The district superintendents of the company then secured from these returning officers the names of the lists of polls retaining one and sending the other to the district superintendents.

These superintendents, in turn, made arrangements with the deputy returning officers to obtain the returns as soon as the vote was counted.

EXTRA OPERATORS.

Extra operators were used in all the offices of the company. Telephones in these offices were connected directly with the toll office here. As the returns came in the various section operators connected the parties, who were phoning in the results, directly with the staff that manned the telephones connected with the toll board here.

The returns were taken from the telephone staff and checked off by poll. The votes of the different polls were then handed to a staff of compilers who kept hauling progressive bulletins on the standing of the various candidates in New Brunswick.

When the returns were practically complete the totals were compiled by another staff of stenographers and clerks.

The progressive bulletins were given to representatives of the Canadian Press and The Times-Star as soon as they were issued. This made for rapid delivery to the public of Saint John and other places. On account of the great local interest in the results, extra operators were put on the switchboards in the local toll room. S. E. Ebbett, traffic manager, said yesterday that in all about 50 extra helpers were used in the election activities.

AUTOS USED, TOO.

Mr. Ebbett said that several polling districts in the province had no telephone communication. In these instances, the returns were secured by parties in automobiles who had been engaged by the various district superintendents. This detracted no whit from the speed of the service.

The success of the system Mr. Ebbett attributed to the whole-hearted cooperation of the entire staff of superintendents, operators and clerks. Complete organization was made before election day and the excellent work accomplished by the district superintendents and their assistants made the service afforded the public this year speedier than ever before, Mr. Ebbett said.

FOR Stomach Acid PHILLIPS' Milk of Magnesia

Instead of soda heretofore take a little "Phillips' Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

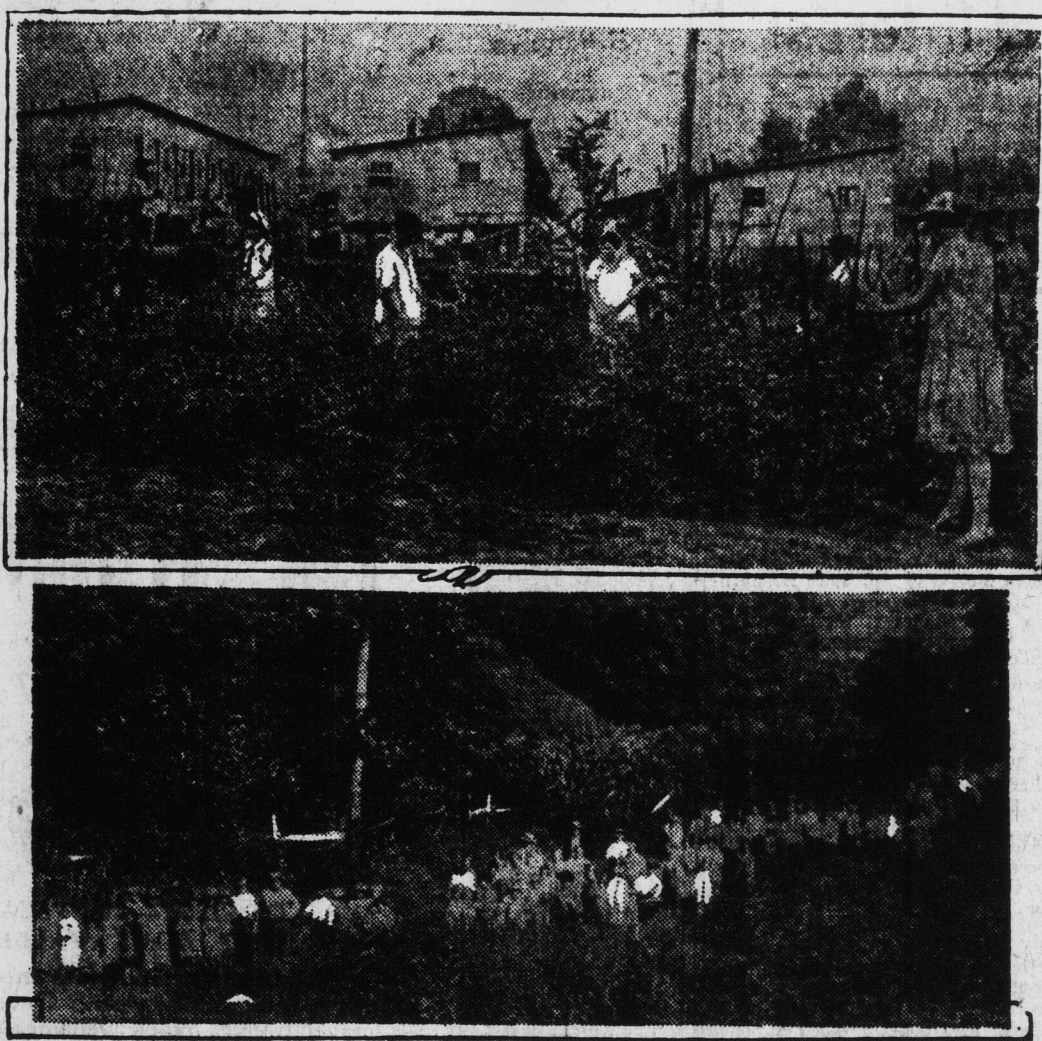

BETTER THAN SODA.

For fifty years genuine "Phillips' Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gas. Besides, it neutralizes acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

THEFT SENDS MAN BACK TO SING SING

Stole \$11,000 From Employer, Must Serve 2 1/2 Years in Pen

NEW YORK, Sept. 15.—Walter Scott, of 6904 74th Avenue, Brooklyn, whose career since his return from Sing Sing about four years ago has been somewhat varied, according to the probation officer, was sentenced to another two and half years in Sing Sing by Judge Mancuso in General Sessions for the theft of \$11,000 from his employer, the Wholesale Textile Corporation.

According to the probation officer, Scott had no difficulty in finding a job after his release, having provided himself with glowing recommendations which fellow prisoners in Sing Sing signed for him. He is said to have worked for the Baldwin Piano Company, from which company he stole \$11,000. He was credit manager for the Wholesale Textile Company.

The report of the probation officer shows that he has two wives and had promised to marry a third in January. Titles and centerpieces which his fiancee embroidered for his mother, Scott is said to have given to his second wife. She has a child twenty months old and expects another. His fifteen-year-old daughter by his first wife wrote to Judge Mancuso to plead for leniency for her father.

LONDON, Sept. 15.—The Westminster Gasette's Labor correspondent says he has obtained from A. J. Cook, secretary of the Miners' Union, a statement that the miners would agree to a national plan which might embody wage rates fixed in different districts. He said that provided a national agreement should be secured the men would agree to a reduction of wages and an extension of their hours of work.

Election Results Pleasing To Forke

BRANDON, Man., Sept. 15.—"The federal election results are very satisfactory," declared Robert Forke, former leader of the Progressive party, when interviewed here today.

Mr. Forke, who retained his seat in Brandon, having the endorsement of both the Liberal and Progressive parties, added the results were particularly gratifying both from a Dominion and provincial viewpoint.

The former Progressive leader had no comment to make when asked concerning rumors from Ottawa that he might enter the cabinet of Rt. Hon. W. L. Mackenzie King.

QUICK RECOVERY

While Man Informing Police Car Taken, It is Found

Albert Neely, of 801 Prince Edward street, parked his Ford car, possible on the northern side of Queen square at 7:30 o'clock last evening and on his return an hour later he discovered that it had been stolen. Just before he learned of his loss, Police Sergeant McLeese, with Constable Phinney received information from a resident that there was a vacant car on the corner of Princess and Cartwright streets. The officers hastened to the scene and found the car parked on the corner of Boston street. It was a traffic that it looked suspicious and thinking that perhaps it had been stolen, took it to police headquarters.

When Sergeant McLeese entered the building to report the matter he found Mr. Neely there informing the police that his car had been stolen. It was a quick recovery.

TRAFFIC IS HEAVY

Bulk of Tourists Returning Home Causes Rush at Depot

Quite a large number of tourists, who have been spending holidays in the Maritime Provinces, have returned to their homes by this time, it was reported at the Union Depot yesterday afternoon. But two Pullman cars are attached to the outgoing Boston train each night, officials said.

Up to last Saturday night it had been found necessary, during the last two weeks, to connect six or seven sleepers to the Boston express and C. N. R. officials said yesterday that unless several former citizens of the Maritimes, now residing in the United States, had stayed over for the election and were planning to take their departure today or tomorrow, the Saint John-Boston passenger traffic would probably assume its average proportion, usually prevalent between the tourist seasons.

The steamer Governor Dingley is taking large numbers of passengers back each week-end and is experiencing a busy trip.

First Car Potatoes Is Shipped From N. B.

FREDERICTON, Sept. 15.—The first new potato shipments from this district are now going forward to United States points. Yesterday the first carload lot was shipped from Cardigan.

Present indications are that the existing price of \$1.00 per barrel, which is being paid the farmers, will soon advance; in the State of Maine as high as \$2.50 and \$2.00 per barrel is now being paid. Higher prices in Maine have already led many Carleton and Victoria county farmers to haul their product across the border in order to take advantage of the Maine prices, which are expected to advance shortly in view of the crop reduction shown by the latest government crop report.

LIFE SENTENCE IMPOSED ON TWO AS HABITUALS

Criminals of 32 and 27 Sent Away Under Baumes Laws

NEW YORK, Sept. 16.—Life sentences under the new Baumes laws have been imposed in General Sessions on Theodore Hemenlein, 28 years old, 92 Second avenue, and Joseph Gowsky, 27 years old, of 221 Madison street, convicted as habitual criminals. Judge Francis X. Mancuso sentenced them to State Prison for the rest of their natural lives at hard labor.

The records in the case reveal a life of crime never revealed by the romance or wealth of booty popularly ascribed to bandits, but only a monotonous round of days of freedom and years in prison.

Hemenlein admitted having been sent to Elmira Reformatory for burglary in 1911; to the penitentiary for drug possession in 1911; to the penitentiary for burglary in 1912; to the penitentiary for carrying a revolver in 1918; the penitentiary for burglary in 1919 and state prison for four and a half years for burglary in 1922.

FREDERICTON, Sept. 15.—A ceremony of great interest will take place at 2:30 Friday afternoon at Sheffield when His Honor the Lieutenant-Governor will unveil the monument to the first Protestant church erected on the soil of the Province of New Brunswick. In addition to the unveiling there will be prayer by Rev. Sutherland, chairman of the Fredericton presbytery of the United Church, also is to be present. Rev. Albert T. King is the pastor at Sheffield now coming from Newfoundland two years ago.

Dr. J. C. Webster, of Shediac, representing the Historic Sites and Monuments Board of Canada, will attend.

OTTAWA GOES LIKE DOMINION IN VOTE

Elects Two Liberals While Conservatives Got in Last Autumn

OTTAWA, Sept. 15.—"As Ottawa goes, so goes the Dominion." The capital elected two Liberals yesterday. This city elects two members from the ballots of the entire constituency each elector having two votes. Usually returns two of the same political party. Only on two occasions since Confederation have its representatives been on opposite sides in the House of Commons. The only time that Ottawa did not have at least one member on the government side was during the last session when Mr. King was in power. The city elected two Conservatives last election when the country returned the Conservatives as the largest group, although they did not come into power until a few days before dissolution.

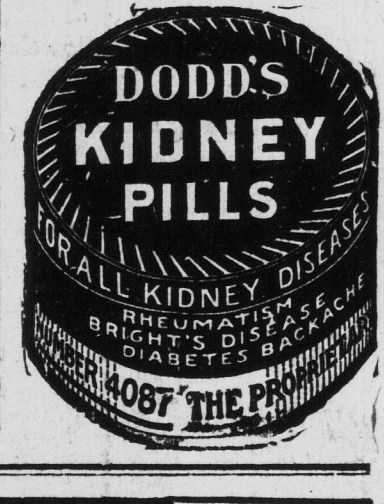

being no boulders or other stone in the soil of Sheffield.

The monument will be located on the roadside. A bronze tablet will be on the face of the cairn.

EARLY HISTORY.

The Maugerville settlement was established in 1768 the people coming from Rowley, Mass. The people were Congregationalists and at once established a church but had no church edifice until 1774. The church has never closed its doors. The present building is the second erected, the first having been torn down because it was too large and the beams and other material built into the present church.

Rev. Mr. King has the assurance of the attendance of representatives of the Burpee, Barker, Jewett and Harrison families who were among the first families of the place. Family names of other first settlers were Perley, Stickney, Coy and Estey.

BEAVERBROOK BLAMES BYNG FOR TURNOVER

Says Governor-General Made
Great Constitutional
Mistake

LONDON, Sept. 15.—The Evening Standard, owned by Lord Beaverbrook, regards the result of the Canadian general election as a sharp censure of Lord Byng, the Governor-General of the Dominion.

It recalls that it pointed out at the time of the occurrence that Lord Byng had made a great constitutional mistake in refusing Premier Mackenzie King dissolution and a short time later granting the same to the new premier, Rt. Hon. Arthur Meighen.

"By taking such action Lord Byng not only did an injury to his own reputation," The Standard says, "but an injury to Premier Meighen's electoral prospects following the dissolution. The liability of such an error is inevitable when a soldier is sent to fill a politician's place."

PROCESS IS DANGEROUS.

"During the war we heard much indignation expressed with regard to politicians filling soldiers' jobs. The reverse process, of which we have an example here, is at least as dangerous."

The Standard thinks that although a seat in Parliament should be speedily found for Mr. Meighen, the strongest figure, by far, for the Conservative leadership is Hon. R. B. Bennett, M.P. for West Calgary. The paper lauds Mr. Bennett for his lucid and great verbal facility, and says he is worth at least \$50,000.

BAD IMPRESSION CAUSED.

The Star, the evening edition of the

LARGEST FLYING BOAT IN THE WORLD IS COMPLETED

The largest flying boat in the world is ready for test flights at Paris, France, by the Chantiers Penhoet. The huge monoplane has five motors with a total of 2,100 horse power and is arranged that mechanics can make repairs in flight. Each wing measures 40 meters in length. The body is 88 meters high and divided into three stories. The plane can carry a useful load of 1/2 tons. Photos show two views of the plane.

Daily News, Liberal, says Lord Byng's action in refusing dissolution to Mr. King and granting it to Mr. Meighen, created a bad impression, "though doubtless he acted for the best."

The Star says the result of the election is a verdict against unfair political tactics. It deprecates the course of Hon. E. L. Patenaude, minister of justice, throughout the election campaign also the "insincerity" of the Conservatives on tariff matters. With regard to the latter the Star adds that it was typical of the protectionist policy, "which the Star is glad Canada has found out."

BOTH LEADERS LOYAL.

Liberal complaints concerning Lord Byng "cut no ice" in the contest, The Morning Post thinks.

"Both leaders," the paper says, "vied with each other in professing loyalty and devotion to the Crown and the British Empire, leaving the politicians free to range over the whole series of questions chiefly interesting Canada of its constituent provinces."

"The provinces made an unfortunate play with the customs scandals where

more was said than could be proved, and the death of the minister who had been the target caused a still further reaction. The issue of free trade versus protection did not really arise, the question being merely one of increasing or maintaining protection where the Liberals no doubt scored heavily with the agricultural vote."

POLITICAL QUIET WANTED.

"We gather that the Canadian electorate was determined as far as it could and unstable political equilibrium, no doubt considering that the best chance of obtaining stable government lay in plunging of the Liberals. What Canada wants is political quiet to go ahead with the agricultural and industrial development laying before it. These are better than barren controversies over constitutional issues, and if Mr. King's party turns its back on one and faces the other it will be carrying out the wishes of the Canadian people."

WORKING MAJORITY SEEN.

The Daily Mail is of the opinion and the new government, whether it be called "Liberal" or "Coalition" seems assured of a good working majority and may remain in power long enough to frame and carry into effect a consistent series of policies that the paper continues: "This would benefit Canada which has suffered too much in recent years from the instability and incoherence of the party situation."

The Liberal victory was due to various causes which cannot be too closely analyzed by observers at a distance. Personalities and charges of maladministration were bandied about in their violent campaign. Nor did they make any headway in Quebec, which remained, as usual, solidly Liberal.

U. S. INFLUENCE GROWING.

Touching on the constitutional issues, The Daily Mail thinks that few Canadians believe any imperial cabinet would attempt to abridge the rights of self-government. "Even fewer," it states, "are in favor of entering a political union with the United States, yet it must not be forgotten that this sentiment is exposed to a real and increasing severity, for, economically and financially,

andally, the American influence is growing in the Dominion."

DRAMATIC DEFEAT.

The Daily Herald, the Labor organ, describes the defeat of the Conservatives as "dramatic and of a significance beyond peradventure," the main decisive factor being the Governor-General's constitutional powers.

"Although Lord Byng's motives were not questioned," the paper states, "the Canadian people declared that the Governor-General must no longer regard himself free to accept or reject the advice of the premier and must, whatever his private opinion, under all circumstances accept and act under it. It marks one more step under which the Dominions are freeing themselves of every vestige of political control by the imperial government or its representatives."

The Herald adds that the Canadian labor movement in politics is still in its infancy, "but it is a viable and growing infant. Two seats in the last parliament have now become four."

SEEKS SHARE OF MINTER FORTUNE

Father of Film Star Seeks Accounting and Half the Amount

LOS ANGELES, Sept. 16.—J. Homer Kelly, father of Mary Miles Minter and former husband of Pearl Miles Kelly, better known as Charlotte Shelby, has announced through his attorney that a complaint in equity had been prepared for filing in Federal Court here to obtain an accounting and a share of the fortune earned by the actress during the time she was a film star. The father asks for half the amount named in the audit. The sum involved is said to exceed \$1,500,000.

A legal fight over Miss Minter's fortune was precipitated when the actress filed suit here in January of last year, demanding an accounting of the money which she says she earned while a minor and which her mother is alleged to have received as her guardian.

Mr. Kelly will seek an accounting of his daughter's earnings from the time she appeared at an early age on the vaudeville stage, until she reached film stardom at 18, his attorney announces. Miss Minter's suit is scheduled to come up for hearing next March.

CANADA HOLDS UP DEMAND FOR COUNCIL SEAT

Sir George Foster Declares
Dominions Asks Only
Equal Rights

GENEVA, Sept. 15.—At a full meeting of British Empire delegates at the League of Nations Assembly tonight the question of the allocation of council seats was harmoniously discussed and it was generally agreed that while the Dominions had a good claim to a seat, the present was not an opportune time to press it.

Each delegation retains complete freedom of action but in regard to the British attitude it must be remembered that certain promises had been given to various countries before Ireland's claim was submitted.

Sir George Foster, Canadian delegate, told the Assembly of the League today that his country was not claiming a seat. However, the Dominion claims equal status and equal rights with any other state to a seat, he said. During the past few days the air had been full of rumors concerning the course the Irish Free State would pursue, but that country's intentions were not definitely known until this morning when its delegates informed the other delegations that they would press the Irish claim to a seat. Seemingly Sir George Foster was not aware of their intention until after he had delivered his speech for he later rose to utter a reference to the Free State's action.

AGREED SOME TIME AGO.

It is said in circles close to the Dominion delegates that it was agreed some time ago that at an opportune time a seat in the Council should be allocated to the Dominion, such allocation not to be by the group system but arranged to meet temporary circumstances. Subsequently, when Spain's candidate was rejected and no suitable candidate was forthcoming, some of the Dominion delegates mentioned, it being supposed that in European conversations were likely to ensue from the consideration of a Dominion's claim.

The best feeling prevails everywhere on the question, the issue being rather one of method.

GROUP RIGHT DENIED.

Desmond Fitzgerald, delegate of the Irish Free State, denied the right of any group to a seat on the council, declaring that the League of Nations should have a free hand in the selection. James Walsh, secretary of the Irish Free State delegation, said: "After careful consideration of the position of the Dominion delegates, it is the opinion of the Free State delegation, it has been definitely decided to proceed with the Irish candidature to a seat on the Council. The Irish delegates believe that this step will serve the best interest of the Dominion as they hope their candidature will meet the support of your delegation."

PUTS FIRE OUT.

While doing his rounds last night, Police Constable Bettle found a large bonfire started by boys burning on Fort Howe. The officer extinguished the fire which was in danger of catching the grass and doing damage.

USE THE WANT AD. WAY

Nightly—Before Bed

follow this simple rule
in skin care
By NORMA TALMADGE

Foremost beauty experts throughout the world urge it as the most effective way to gain natural skin clearness . . . what to do, and why

WHAT you do at night—before bed—for your skin is an all-important step in gaining the natural skin loveliness which all the world seeks today.

Leading skin experts urge the following rule. Urge that it be followed last thing every night, also every day. It has brought the reward of a naturally clear complexion to more women than any other method known.

Try it for one week. Note the improvement in the color and softness of your skin that follows regular cleansing with the gentle olive and palm lather of Palmolive, in this way:

THE RULE—MAKE IT YOURS STARTING TODAY

Wash your face gently with Palmolive Soap, massaging it softly into the skin. Rinse thoroughly, first with warm water, then with cold. If your skin is inclined to be dry, apply a touch of good cold cream—that's all.

Do this regularly, and particularly in the evening. Use powder and rouge if you wish. But never leave them on overnight. They clog the pores, often enlarge them. Blackheads and disfigurements often follow. They must be washed away. Follow these rules day in and day out.

BE SURE YOU GET THE REAL PALMOLIVE

It costs but 10c the cake!—so little that millions let it do for their bodies what it does for their faces. Obtain Palmolive today. Note what one week of its use brings you. The Palmolive Company of Canada, Limited, follows these rules day in and day out.

TO UNDERTAKE MATERNITY CARE FOR SOLDIERS' FAMILIES

Relief Work Will Be Discontinued By Local Red Cross

The Saint John Red Cross Society last night decided to discontinue giving relief to concentrate on providing maternity care for soldiers' families and clothing for the children in these homes, to undertake the support of a traveling housekeeper, who is to be a mother's helper in homes, where there is special emergency and also decided to carry out a vigorous campaign for members and funds during the week of October 4-9.

A province-wide campaign for members is being launched at that time by the various branches of the New Brunswick division. The Saint John branch met last night in the Depot in Prince William street with Mrs. I. F. Longley, president, in the chair.

Excellent reports of the work accomplished in the summer months were submitted and in order not to have those whom the society has aided in the past suffer unnecessary hardship it was decided to employ a relief worker for one month to wind up this branch of endeavor.

GRATIFYING REPORT. A very gratifying report of the management of the Red Cross nursery at the Saint John Exhibition was submitted. A hearty vote of thanks was extended to the Provincial Red Cross for carrying on relief work for the Saint John branch during the summer.

Mrs. W. H. Downie sent a report that from May to July 22 congratulations and "Canadian Mothers' Books" had been sent to 19 homes where new babies had been born.

A balance of \$406.80 on hand was reported. Miss Burns told of visiting homes where relief was needed and seeing that the required help was given.

Mrs. H. B. Mackay, superintendent of the V. O. N., told of the very satisfactory co-operation of the V. O. N. and Red Cross in help for the sick and ailing. The V. O. N. visited the homes reported to them for care by the Red Cross and the Red Cross provided comforts and delicacies.

RELIEF WORK. The report of relief work showed 126 applications had been received. Some were referred to other organizations, transportation was given four; groceries provided for nine; medical care for two; employment found for several cases. There were 218 treatments given out and 118 received. Correspondence read included the

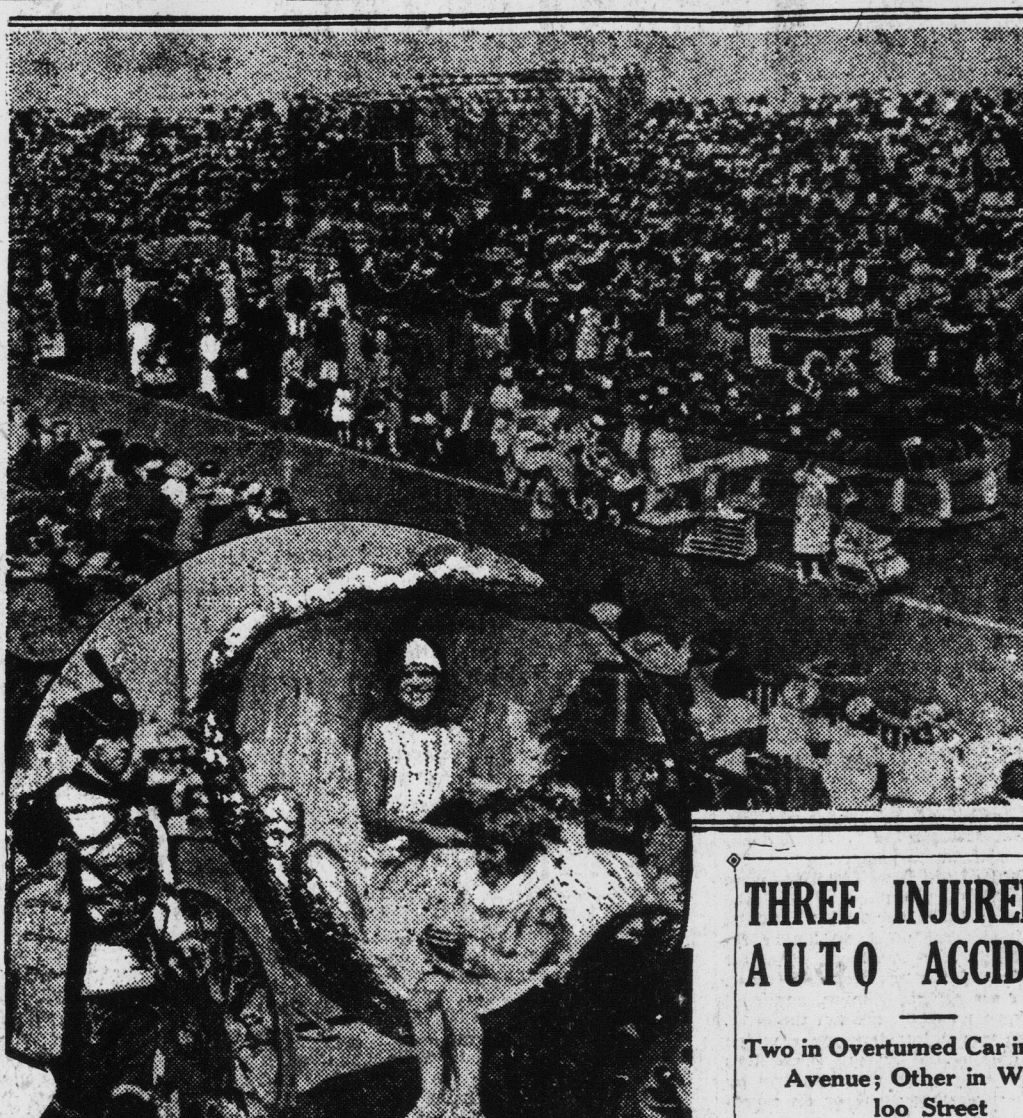

DR. PEAT SPEAKS. Dr. G. B. Peat spoke of the habitual relief seekers as existing entirely on relief supplied. The aided maternity work, he said, was greatly needed and he thought it might be extended to the families of others than soldiers.

CITY'S NEEDS. It was considered that in the maternity work the Red Cross would have as large a problem as it could meet, but it was suggested that a day nursery, a visiting housekeeper, a nurse housekeeper and a place for training nurses in their duties were all great needs in the city and might be undertaken as the work of the Red Cross, which also might undertake preparations for emergency relief.

COMMITTEE NAMED. A committee was appointed to find a room where home nursing classes could be held and where the distribution of the Red Cross garments be carried out once a week. It was decided to employ a relief worker for one month to wind up the activities in this department. Visitors for relief work appointed were Miss Frink and Miss Burns.

Notes of thanks were extended to the workers and the firms which gave contributions or loaned equipment for the Red Cross nursery at the exhibition.

W. A. ENTERTAINED. The W. A. of St. Bartholomew's church, Colbrook, was entertained to a garden party at the home of Mr. and Mrs. Allan Selfridge, Hillhurst, Golden Grove road, yesterday. A dainty supper was served by the hostess, assisted by Mrs. Sinclair and Mrs. Pierce. After supper the ladies adjourned to the church and held their usual Wednesday night sewing circle.

Calhoun, who resigned as assistant secretary of the Lincoln Trust Company of New York two years ago because of serious eye trouble, shot and killed himself in his little grocery store because he couldn't make a success of the business.

Big Ontario Cities Go Conservative. TORONTO, Sept. 15.—With the victory conceded by a small majority of W. H. Rule, the Jager Ontario cities returned Conservatives almost in entirety while the smaller cities and the rural districts were more inclined to the Liberal or Progressive. The notable exception, however, was Ottawa, where two Liberal members were returned.

BERMUDA RUGBY TEAM WILL PLAY IN SAINT JOHN

Probably Here Next Month—Good Local Football Season Expected

From present indications football fans in Saint John will be given some rare gridiron treats this fall. A Bermuda Rugby team will probably stack up against the Trojans on Wednesday, Oct. 27, although Manager Walter Golding, of the locals, said last night that he was endeavoring to arrange the game for a Saturday afternoon. The Trojans, if present plans mature, will bring University of New Brunswick and Mount Allison football squads, and possibly others, here for contests.

The tour of the Canadian provinces by a Rugby team representing Bermuda in October is a pretty well determined now, and the following is the schedule of the tour so far as is known at present:

- Sept. 28—Leave Bermuda for Montreal via New York.
- Oct. 1—To arrive at Montreal.
- Oct. 2—To play McGill.
- Oct. 6—To play Sun Life Insurance Company.
- Oct. 8—To play Montreal English Rugby Club.
- Oct. 13—To play University of New Brunswick (at Fredericton).
- Oct. 16—To play the Wanderers (at Halifax).
- Oct. 20—To play Dalhousie (at Halifax).
- Oct. 23—To play Acadia (at Wolfville).

AMATEUR OUTFIT

The Bermuda 16, which is touring under the auspices of the Bermuda Athletic Association (affiliated to the Amateur Athletic Association of England), is composed chiefly of Bermudians, but it has been found necessary to include a few players from the army now stationed in Bermuda.

Manager Golding said last night that he had been in communication with the Bermudian management and that they had suggested Wednesday, Oct. 27, as a convenient date for them to play here. Manager Golding said he was endeavoring to have the southern aggregation show here on a Saturday as the crowds would naturally be larger than on a mid-week afternoon. Mr. Golding said the Trojans would be under a considerable expense in bringing the visitors

Texas Stars Beam In Film Sky

Moviedom thanks Texas for this galaxy. Left to right above: Florence Vidor, Ellen Sedgwick, Ruth Daniels. Center: Corinne Griffith. Left to right below: Mary Brian, King Vidor, Edward Sedgwick, Bebe Daniels.

Bebe Daniels, Mary Brian, Florence Vidor, Corinne Griffith, King Vidor, Edward Sedgwick, Ellen Sedgwick, Ruth Daniels—that's the list. King Vidor and Edward Sedgwick have gained their prominence behind the camera as directors, the others out in front.

TUNNEY IS ANXIOUS NOT TO GO STALE

Challenger Expects to Enter The Ring at 186 Pounds—Has a Two-day Rest

STROUDSBURG, Pa., Sept. 16.—With two full days of rest from boxing under his belt, Gene Tunney declared today that he felt much better and was ready to resume swapping punches with his sparring mates. The challenger decided yesterday that he would make his lay-off two days instead of one, the decision being prompted by the discovery that he was getting down to his fighting weight at a faster clip than he desired.

With the expectation of entering the ring at 186 pounds, Tunney found yesterday that he was only one pound over that figure. From the first there has been only one worry about condition in the Lunny camp—a fear that the contender might go stale.

Billy Gibson, Tunney's manager, today had received no reply to his calligram offering to make a "modest wager" with the Prince of Wales on Tunney's chances against Dempsey. However, Gibson's cable was sent to London, while the Prince is in Paris. The cablegram followed a published statement that His Royal Highness liked the champion rather well, but the challenger.

Insulin Demand Is Heavy In Ontario

TORONTO, Sept. 16.—At a total cost of \$2,806 to the province, 838 patients received 623,880 units of insulin during the month of August from the provincial laboratories, according to a statement handed to Dr. Forbes Godfrey, Minister of Health.

Distribution and manufacture was at the average cost of \$3.26 per patient. In Toronto 177 patients received treatment of 222,280 units, at a cost of \$1,000. In London, 11 patients received 18,800 units, at a cost of \$62. Ottawa had 22 patients, who received 17,200 units at a cost of \$77. Windsor had 11 patients who received 12,600 units at a cost of \$56.

MORSE IS DECLARED TOO ILL FOR TRIAL

Shipbuilder Excused But Case of Others, Including Three Sons, to go on

NEW YORK, Sept. 16.—Fletcher Dobbins and Sylvester R. Rush, special assistant U. S. attorney general, in charge of the prosecution of Charles W. Morse and 21 others for alleged using of the mails to defraud investors in three corporations capitalized at \$90,000,000, have filed with Judge Louis H. Burns in the Federal Court a report that Morse is not in a condition to go to trial.

The report was submitted to them by Dr. S. Philip Goddard, professor of clinical neurology at the College of Physicians and Surgeons, of Columbia University. Dr. Goddard's report said: "At present I do not regard the subject as able to undergo the excitement and strain of defendant in a protracted trial. I am also of the opinion that he is not now competent to give intelligent aid to his counsel in adequately and properly preparing his case."

How to Keep Age-Lines and Flabbiness Away

Don't forget that the woman who smiles will have a skin more free from wrinkles than the woman who frowns. When wrinkles begin to appear it is a good plan to rub the face once a day for a while in a harmless solution made by dissolving an ounce of powdered salicylic acid in a half pint of witch hazel.

This is remarkably effective in clearing the hateful lines, not only because of its astringent action, which tightens the skin and thus draws out the lines, but also because of a helpful tonic effect which improves capillary circulation and nerve tone. There is nothing better for flabby cheeks or chin. Be sure to ask the druggist for the powdered salicylic.

Rheumatic Pains Go Swollen Joints Vanish

Thousands of sufferers have freed themselves from the bondage of rheumatism and themselves of the torturing pain; reduced the swollen joints; thrown helpless bodies and crutches; and from and be of use to themselves and families.

They took Rheuma: the modern enemy of rheumatism and gout.

Don't be skeptical about Rheuma. You will know in a few days after beginning the treatment that the dangerous poisons are leaving your system through the natural channels. Rheuma should please you in a day and make you hopeful of quick recovery in a week or more.

Rheuma acts on the blood, stomach, liver, and must quickly bring boggy stores for comfort to distressed sufferers or money back. Watson's Great Peppercorn and Druggists everywhere sell it with this guarantee.

PILLOW SAVES LIFE OF CHILD IN FALL

Three Year Old Plunges Five Stories But Carries Cushion With Him

NEW YORK, Sept. 16.—Mrs. Anna L'Hommedieu, of the Bronx, put her three-year-old son Rudolph in the bedroom when she went to prepare dinner, and left him sitting on the floor happily tearing leaves from a book. But he soon tired of this and lugged a pillow from the bed to the window, where he put it on the sill and rested his elbow on it, looking across the courtyard.

Something attracted Rudolph's attention and he leaned eagerly out of the window, clutching the book in one hand and the pillow in the other. The pillow slipped and Rudolph plunged out of the window headfirst to the ground, five stories below. But during the fall he kept his hold on the pillow and when he landed the pillow was underneath. It broke his fall and when an ambulance surgeon came he found that the boy had suffered a lacerated scalp and a possible fracture of the skull.

He was sent to Fordham Hospital, where it was said he probably would recover.

Returning Officer at Ste. Anne de Bellevue Ill—Raid Report Denied

MONTREAL, Sept. 16.—Armand Lefebvre, returning officer at Ste. Anne de Bellevue, was stricken with apoplexy just after the polls closed at 7 o'clock daylight saving time, on election day. The collapse of Mr. Lefebvre led to the circulation of a report that the polls had been raided by a gang and a number of ballot boxes stolen.

Mayor Bouchard denied this report of a raid. "Everything is in order," he declared. "No ballot boxes are missing. The illness of Mr. Lefebvre is due to the strain of a hectic day's work."

The stricken returning officer was taken to his home, where he is reported to be doing well.

CLIFF STREET INSTITUTE TO OPEN ON MONDAY

Improvements Made at Y. M. C. I.—Arthur Martin New Secretary It was announced today that the Young Men's Catholic Institute, Cliff Street, would be reopened for the 1926-27 season on next Monday, Sept. 20. A. MARTIN, SECRETARY During the summer months the board of management arranged to have a change made at the entrance to the building leading to the auditorium upstairs and the bowling alleys downstairs. This work is now completed. The necessary decorating and painting have also been done, with the result that the entrance now presents a very bright and attractive appearance. A new office has been constructed on the ground floor, and both former and new members will be welcomed to the Institute by the new secretary, Arthur Martin, who has taken a great interest in the boys and in all branches of sport at the Y. M. C. I. during the last year. With these and several other changes the board of management looks forward to the coming season to be one of the Institute's best. Many successful activities took place during last season, and this year plans have been arranged by the committee of management to have 1926-1927 a year of keener and more varied physical, intellectual and social activities than last season. It is hoped to get the class work, bowling, basketball and other lines of sport away to an early start. All old members and those intending to join the Y. M. C. I. this year are invited to attend the first regular meeting for this season on Sunday, Sept. 26, at 4 p. m. The Institute will operate on the same time-plan this year as last year, which was most successful. The building will be open at 6.30 every night, and close at 10.30, excepting Saturdays, when it will open at 2 p. m. Special classes will be arranged for school-boys in the afternoon, and no schoolboys will be allowed in the building on school-day nights. Membership tickets must be presented to the secretary for admittance into the building. These will be available from the secretary any evening. During October a special drive for new members will be made and information regarding this will be given later.

COTTAGE IS BURNED

Summer Residence at Raynes Beach Victim of Flames Last Night A summer cottage at Raynes Beach, jointly owned by Edward Duffy, Bridge Street, and occupied by them during the summer months, was destroyed by fire last evening. The cottage was situated on a small peninsula, and was considered one of the most attractive of the summer colony. The owners had recently moved to the city for the opening of the school. Harry Fitzgerald, caretaker of the property, paid a visit to the cottages about 9.30 o'clock last evening as usual, and at that time there was no sign of fire. The reflection of the fire could be seen from the city. The origin of the blaze is far from known.

The following items are from the Maritime Baptist: Rev. Chas. R. Freeman, D. D., has accepted a call to Calvary Baptist church, North Sydney, N. S., and will begin his work there on September 26. DeWolfe has accepted a call to the Baptist church at Annapolis Royal, N. S. "I will stay with the church that has stayed with me," was the decision of Rev. F. S. Rev. O. N. Chipman, of Port Williams, N. S., has received a hearty and unanimous call to the pastorate of the Temple church, Yarmouth, N. S. We have not learned whether he will accept the call or not.

SEE THE FALLS

At high tide the water of the Bay of Fundy reaches a higher level than the water of the John River and forces its way through the falls, creating a "Falls" running up river. At low tide the water in the Bay becomes so much lower than that of the river, that the fall of water is backward and flows down river into the Bay. At the time when the level in the Bay and River are about equal, the falls disappear entirely, and the water at the Falls becomes smooth as the surface of a lake. To fully appreciate this wonder of the world it should be seen at all three stages. The best time to view this phenomenon is: TODAY (Daylight saving Time.) High Tide 7.36 p. m. Slack Tide 8.07 p. m. Low Tide 1.17 p. m. TOMORROW High Tide 8.14 a. m. Slack Tide 10.39 a. m. Low Tide 2.22 p. m.

When Seth seen 'em he says, says he: "Mister—them thorn-apples—that tree ain't no bilberry bush. It's a toothpick tree—see them thorns?" The town feller took the hull bunch back to the store an' bought every one of 'em a bottle of 'sody water. "The job's on me," says he, "Well, sir, after the frost has hit them thorn-apples—if you kin find 'em free from worms—let me see 'em. I'll give you my taste as a bilberry. My! How good they used to taste when I was a boy—before I took to chawin' tobacco. But my taste ain't what used to be."
