P. E. ISLAND HAS A MURDER CASE
Farmer Near Souris Choked to Death by Caller at His Home

James A. McInnis, Said to Have Been Drinking, Maltreated Gallian McInnis and Then Left Him Dead—Now Sought By Police

(Special To Times) Charlottetown, P. E. I., May 27.—Gallian McInnis aged sixty-four, a farmer of North Lakeville, near Souris, was choked to death last night by his cousin, James A. McInnis, aged forty, who resides close by.

James A. McInnis, accompanied by another man named Macdonald, drove out from Souris and called at Gallian McInnis' on their way home. Gallian's son, James, came out of the house to assist Macdonald in putting up the team, leaving his father, mother and sister in the house.

Twenty minutes later Gallian's two other sons, Peter and Joseph, came from the shore to find their father dead. No motive for the deed is given, but it is reported that James A. had been drinking in Souris. One of the sons said that he did not seem to be much the worse for liquor.

"I have drunk it because of being chilled through. I never have drunk beer, nor do I drink red wine. The only wines that I have drunk have been white wines, Madeira, champagne or, very occasionally, a glass of sherry."

The May sitting of the County Court opened this morning. His Honor Judge Forbes presiding. Only nine grand jurors out of twenty-four summoned responded, and as it takes twelve to find a bill, a little delay was occasioned. The sheriff was instructed to telephone to the absentees, but as only one or two could be asked to attend court in this way—many were out of town—it was necessary to borrow two of the petit jurors to grand jury duty.

BRITAIN, IT IS SAID, WILL BACK BULGARIA

Course of France and Russia Yet a Matter of Doubt

London, May 27.—A correspondent of the Chronicle is informed on high authority that Bulgaria will have the support of Great Britain, but at the present moment it is uncertain what course France and Russia will take. Russia objects to the breaking up of the Balkan league, but, unless asked to do so by both Serbia and Bulgaria, will likely not act as mediator. It is believed that Serbia, relying on the support of Greece, intends to keep all districts occupied in Macedonia.

WHERE FRANCE STANDS

Paris, May 27.—The French foreign minister, M. Pichon, denied in the senate yesterday that France was being shut out of the port of Constantinople in Asiatic Turkey. While there was no intention of raising problems better left alone, he said, France would obtain full recognition of her special position before the port pariers had been concluded. The Baghdad Railway has been conceded to Germany and France could do nothing but insist on the recognition of her rights in the neighboring regions if they were not fully respected.

At present a gas main is being run in Wright street and the trench was dug without the city's permission. SIN GEORGE FARWELL RESIGNS

Judge Who Gave Decision in Famous Labor Picketing Case London, May 27.—The Right Hon. Sir George Farwell, lord justice since 1906, has resigned. Justice Farwell, as justice of the High Court, was author of the famous Taff Vale decision in 1900. This decision enjoined the general secretary of the Amalgamated Society of Railway Servants and the organizing secretary from watching and besetting the railway stations with the view of inducing non-unionists to refrain from taking the places of strikers. This judgment was extended against picketing during strikes, an injunction being placed on the Amalgamated Society of Railway Servants on the ground that trades union societies were responsible for the acts of their servants.

TORTURED WITH TERRIBLE ECZEMA

Had To Wear Rubber Gloves Until "Fruit-a-tives" Cured Her

Grande Ligne, Que., Jan. 2nd, 1910.
 "My wife was troubled for three years with Eczema on the hands, which made her hands almost useless. The doctor gave her several ointments to use, none of which had any effect. He also advised her to wear rubber gloves (she wore out three pairs.)
 I persuaded her, as a last resort to try "Fruit-a-tives." The effect was marvellous. Her hands are now cured. We both attribute our present good health to "Fruit-a-tives."

DIED BELIEVING HER MOTHER ALIVE

Pathetic Circumstances Mark Passing Away of Young Presque Isle Girl

Presque Isle, May 27—Miss Helen Fields, whose mother, Mrs. Zebulon Fields, formerly of New Brunswick, was burned to death in the fire which, it is believed, she started, which destroyed her husband's farm buildings, a mile out of town on May 15, died of tuberculosis at the home of her aunt, Mrs. I. T. Donaldson, without having learned of her mother's tragic death.
 Miss Fields has been in a critical condition from tuberculosis for some time past, and her death has been hourly expected since a week before the fire. It is believed that the girl's condition so preyed upon Mrs. Fields' mind as to upset her mental balance, and that she herself set the fire which proved so disastrous.
 Helen was carried from the farmhouse by neighbors as soon as it was seen that there was danger of its being destroyed. She was at first taken to the home of Mrs. B. I. Smart, across the road, and Saturday removed to her aunt's home in this village. She was kept under the influence of opiates for some time after the fire.
 Upon regaining consciousness Helen asked for her mother repeatedly. But it was thought best not to tell her of the tragedy which had occurred. She seemed to rally somewhat on Sunday, but commenced sinking again, and on Tuesday she died.

SQUAD OF POLICE AT BIG WEDDING

Ten Thousand People Wanted to See if Rejected Girl Would Start Anything

Chicago, May 27—Tumultuous demonstrations attended the wedding tonight of Dr. Frank Lagorio, son of Dr. Antonio Lagorio, head of the Pasteur Institute, and Miss Emily Trincer. More than a week ago Miss Emily Trincer sued young Lagorio for \$20,000 for what she called "unwarranted jilting." She said the doctor's marriage "would only take place over my dead body," so tonight Lagorio had fifty policemen as guards at the wedding party. The Church of St. Procopius was guarded by another squad of blue coats.
 A crowd, estimated at ten thousand, gathered to see if Miss Trincer would start anything. They rushed the church after the entrance of the bride party. A riot call was sent in for more police, who, upon arriving, began clubbing the crowd. Many were injured, but the riot did not stop the ceremony before the crowd dispersed.
 In the meantime Miss Trincer was seated at a piano in her home calmly playing "Heart Bowed Down."
 Prince Short of Cash.
 London, May 27—An Oxonian, who vouches for its truth, tells the following story: Frequently when undergraduates make up a dinner party preceding a visit to a theatre it is understood that each pays his own share.
 One day a Magdalen man, on meeting the Prince of Wales, asked him to join a party for a dinner and play.
 "I should love to go," the prince said, "but the fact is I haven't the three shillings."
 "Why don't you write home?" the friend asked.
 "I have done," the prince replied, "but mother says I must make what I have do until the end of the term."
 Prince of Wales in Man's Role
 New York, May 26—A London cable says: The Prince of Wales, who returns to London this week, will now begin to take a leading part in English society. He is to escort his sister, Princess Mary, to a League of Mercy concert at Albert Hall tomorrow. This will be his first public appearance as a man of royal family.

YOUNG GIRLS TOO PRONE TO WEAR IMMODEST GARB

Boston, May 27—The tendency of young high school girls toward "immodest and questionable" styles of dressing, in which were classed the tube skirt, the slashed skirt and the low-necked waist was condemned by Mrs. Orville T. Bright, of Chicago, vice-president of the National Congress of Mothers and parent-teacher associations at the last meeting of the annual convention here Wednesday night.
 Mrs. Bright called upon the teachers who were present to "take a strong stand against this evil among our youth."
 "You teachers must make strenuous efforts to bring about more simple methods of dress for these young girls," she said.

WHOLESALE MURDER OF BABES.
 Berlin, May 27—A case of wholesale murder of new born infants has come to light at Mannheim. A dead body, which had been thrown on a rubbish heap, was found to be the child of a woman, whose wife had died that day as the result of an illegal operation.
 When the premises of the pair were searched another infant's corpse was discovered in a dust-pail, and ten more in various stages of decomposition were hidden in the cellar. It is said that a man who carried a large box was frequently seen to visit the house, and the woman is believed to have undertaken to dispose of the bodies for this stranger without the knowledge of her husband.

WARNING AGAINST WHITE WOMEN MARRYING MEN OF OTHER RACES THAN THEIRS

London, May 27—The perils undergone by white women who marry colored men are emphasized by Fester Fraser, an Asiatic traveler, in an interview here. These dangers formed the subject of a warning recently issued by the Australian government at the request of the colonial secretary, Mr. Harcourt. This warning primarily concerned marriages with the Pathans and others of the hill tribes of the north-west frontier of India, but Mr. Fraser extends the warning so as to include Mongols and Caucasians.
 "It is extraordinary," he said "to find the number of white women who are in the harems of Persia, for example. They are mostly English and American dancing girls who have met Persians who were traveling abroad and, fascinated by tales of life in eastern palaces, had married them."
 "Marriages between Chinese, Japanese, Egyptian, Siamese, or Persian men and white women are rarely happy. The men from these nations who travel are naturally wealthy, and women who become fascinated by them forget that they will have to live in a totally different atmosphere. An intolerable long-terming for home comes to them, and escape is impossible."
 As an example of the danger of mixed marriages to white women, a recent case may be cited in which it was held that a white woman married in England was no longer the wife of a Siamese after she had been deserted for three months, this process being sufficient for a husband to end his marriage in Siam, and the wife was bound by the laws of her husband's country.

SUNDAY REFRESHMENTS.

West St. John, 25, 3, '13
 The Editor of the Times:
 Sir—I am somewhat at a loss to understand what is gained by the present law governing the sale of refreshments in public parks, and other places, on Sunday.
 As an instance, the season is just commencing at Seaside Park. On a fine Sunday there are many and, and as a season advances there will be many more, who journey out from town for a day's outing, the great majority of whom are women. It is not only the one day in the week to themselves, they find a refreshment house open and enter to see long rows of ginger beer and other soft drinks which look very inviting after a long tramp in the hot sun; yet they are told with many regrets that they cannot buy ginger beer, lemonade, hop beer, etc.; yet may for the same sum purchase a glass of some mysteriously colored beverage under a pretentious name, one drink of which only helps to increase the unfortunate wayfarer's thirst.
 Now is there any more harm in selling ginger beer or Pilsener, than in selling orangeade or buttermilk? or, as a matter of fact is there any harm in selling any non-intoxicating refreshments on a Sunday? If it is wrong for a man to keep open a refreshment house on a Sunday to cater for the hundreds who are trying to enjoy their one day out of the seven, then it must be wrong for the cars to run to Seaside Park on a Sunday (which are apparently only put on for the holiday seekers).
 I may hold very erroneous and perverted views on the subject of keeping the Sabbath, but I really cannot understand how one could break the Sabbath by buying a bottle of ginger beer or a box of cigarettes on that particular day.

Gasoline Made From Gas

London, May 27—A gasoline famine is imminent, but it can be relieved by the recovery of benzol from ordinary illuminating gas, according to Mr. Doherty, a New York gas expert. He made these assertions at a dinner given by Lord Montagu of Beaulieu at the Savoy Hotel tonight.
 According to Mr. Doherty 12,000,000 gallons of benzol annually could be obtained from the gas of London alone.

Evading City's Dog Tax

Berlin, May 27—To beat the city government out of the dog tax, which is 88 for the first dog and 812 for the second, a local animal dealer hit upon the plan of domesticating foxes for pets. The Germans are as fond of dogs as the Turks and as many of the poorer classes are unable to keep them because of the high tax, this dealer advertising tamed young foxes at \$1.50 each point out that they don't come under the city dog tax law.

CENTRALIZATION

For a long time past Mr. Borden and his friends in Canada have been trying to make up their minds whether to launch boldly in support of a policy of centralization in connection with the defence of the Empire. Apparently the question has given Mr. Borden a considerable amount of worry, for whenever he has spoken and suggested the possibility of a policy under which control would be exercised entirely and at all times from London, he has also made vague allusions to a prospective Canadian navy, which might or might not be regarded as supplementary to the Imperial navy, to which the various Dominions would contribute, but over which they would have no control.

THREE-STORY FLATS

The question of three-story flats was discussed at the annual meeting of the National Housing Association of the United States in December last. Mayor Fitzgerald of Boston, in the course of an address told of efforts made in that city to improve the tenement house law and provide for its better enforcement and for better housing conditions generally. Then he said: "We have tried to secure the passage of an act which will make impossible the three-story flat. That is the curse of our part of the country, and I am very happy to say that where the people have had a chance to record their views on this proposition, they have voted that the three-story tenement house should be built. The act, which applies to towns, was passed by the Massachusetts legislature last year. Three of the towns in the neighborhood of Boston have already accepted it, and this type of construction, which menaces life and property in and about our city, will be impossible on our outskirts. We hope the example of these smaller towns will be followed by the city itself. When I attempted to secure the enactment of a similar law for the city in the legislature last year, it wasn't the politicians who opposed it. It was the laboring man and the wealthy man in the community whose business it should be to better conditions, but who feared that the amount of labor that would be required. So they got together and organized a lobby which defeated the measure."

WALKER'S LAST HOURS

MAON, Ga., May 27.—After bravely facing the inevitable result of his mistake in taking a tablet of bichloride of mercury, B. Sanders Walker, a young Macon banker, is dead. When the end neared Walker gave no sign of flinching, but went to his death cheerfully, and then he went to the parlor. He looked at his wife, kissed her and then sat on the floor to play with his little son for the last time. The baby laughed at his father's antics, and Mr. Walker pluckily answered the laughter. Then he became drowsy and went to bed and sank rapidly till the end. The death occurred at St. Bartholomew's Hospital, London, on the 19th ult., of R. B. Etherington-Smith, F. R. C. S., a distinguished surgeon on the hospital staff, and formerly a Cambridge University and Leander oarsman.

BOUND TO HAVE HIS JOKE

"Jokes about the slowness of trains, especially here in the south," says an Atlantic railway man, "always fire me a bit by their ancientness; but I heard a new and good one not long ago. 'It seems that trains are always slow and far between on a branch line in Mississippi. Nobody knows this better than the people at the junction, except the people on the line itself. One day the newsdealer came to me grinning. 'A fellow from the other end of the line just said a funny thing,' he remarked. 'He had missed his train and there wasn't another for two hours. He came to my stall to buy some reading matter to while away the time. He asked for a jokebook and I didn't have any. Then he poked around for a while and said, 'Well, I guess I'll take a time table instead.'"

A BAD JOKE.

"A famous college president declares that there are no new jokes," says an Atlantic railway man, "always fire me a bit by their ancientness; but I heard a new and good one not long ago. 'It seems that trains are always slow and far between on a branch line in Mississippi. Nobody knows this better than the people at the junction, except the people on the line itself. One day the newsdealer came to me grinning. 'A fellow from the other end of the line just said a funny thing,' he remarked. 'He had missed his train and there wasn't another for two hours. He came to my stall to buy some reading matter to while away the time. He asked for a jokebook and I didn't have any. Then he poked around for a while and said, 'Well, I guess I'll take a time table instead.'"

GETTING ON.

"How's that young son-in-law of yours getting on?" "Great. Last week he made within \$100 of my daughter's actual expenses."

HER FUN.

"Do you enjoy a baseball game?" "Very much. It's the one chance I have to annoy my husband and know absolutely that I'm doing it."

HAS SOME MERCY ON HIM.

"Does your husband give you all the money you want to spend?" "My goodness, no. Why, even I would not even think of being that extravagant."

CLEVER WRITER.

"Is he much of a writer?" "Much of a writer? I should say he is. Why, he can write sentences that mean nothing and make them sound like something."

OUT OF THE FRYING PAN.

"When she married, ten years ago, she said freely that it was simply to avoid working for a living?" "What does she do all the time?" "Takes care of seven small children."

More Rioting in Paterson.

Paterson, N. J., May 27.—Rioting was renewed in the city streets last night. Scores of strikers and sympathizers joined in an attack on Policeman Nathaniel Love, who was escorting two Weavers from a mill to their homes. Love drew a revolver and fired into the mob, but he was badly beaten before a police wedge divided the crowd and they were rescued. Four men suffered serious injuries from police clubs, and were arrested.

COLLEGE CLOSINGS

The students of Mount Allison Ladies' College gave a very fine physical culture drill yesterday afternoon in connection with the closing exercises of the institution. The young women were attired in white with ribbons and collars and green ties. The effect was very striking and the many difficult figures formed were the cause of great applause by those present. "The Sloops to Conquer" was presented by the Mount Allison Amateur Athletic Association and proved a great success. The Owens Museum of Fine Arts was visited by many yesterday to see the latest paintings by Professor Hammond, R. C. A., head of the Mt. Allison art department. Yesterday morning there was a senior recital in the Fawcett Memorial Hall presented.

At Acadia

The closing exercises of Acadia Academy took place yesterday in Wolfville. An interesting programme was carried out. The graduating class numbered forty two. Besides these twenty five received diplomas in the business course. The Acadia Seminary closing will take place today. Dr. DeWolfe said yesterday that the work of the institution had been most successful. The attendance had been 284 and of these 111 had been resident. Nineteen Russians who sought permission to settle in Acadia had their claims investigated the other day, and all but three were successful. The only luggage one man possessed was an accordion.

PROGRESS OF THE LUMBER DRIVES (Kings County Record) Jones Bros. Apohaqui are busy cutting their big winter's cut, which was landed some days ago without a mishap. The drive was a most successful one and already there has been a considerable reduction in the logs. A large crew of men are working at the mill. The drive at Great Salmon River is expected in safe waters this week. The Haslam contract is now well along and there is every reason to believe that it is now safe. The Wallace contract is also in good shape and the company's logs will be in the mill pond before many days. The cut amounts to six million in all and the managers of the concern naturally feel proud of the outlook. The new Rockville mill will be running in a few days. The plant is now practically ready to try out and operations will be commenced as soon as slight adjustments can be made. The mill is one of the best equipped in the district and will have a cut of about a million to deal with as a starter. Telephone advices from different points show that the lumber drives have progressed favorably during the past week. East Apple River, Alma, West River and Little Salmon River have helped things along nicely. Pollett River drive is not in yet but it is for its delivery at the mill within a few days are bright.

DEBATE ON NAVAL BILL IN UPPER CHAMBER Ottawa, May 27.—The second reading of the naval contribution was moved in the senate at Ottawa yesterday by Senator Loughheed, leader of the government in the upper house. He maintained that emergency was the main principle of the measure, and explained that it need not necessarily be permanent. His argument was for one central imperial fleet, and the trend showed clearly the campaign of the government would be for a "flag-waving" fight under the guise of "imperial centralization." Senator Loughheed made the rather wild statement that "if the senate rejected the bill it would not only invite but announce separation from England," saying that the government had a direct mandate from the people's representatives in the commons to proceed with the measure, but cries of "by the gas" were the answer to this, from other senators. Hon. Mr. Cochrane, minister of railways, announced yesterday that the P. E. I. car ferry would be completed by 1914. The four Ontario vacancies in the senate have been filled by the appointment of Col. James Mason, of Toronto, president of the Home Bank; E. D. Smith, of Winona, former member for Wentworth; J. J. Donnelly, the sitting member for South Bruce; Alex. McCall, of Simcoe, former member for Norfolk.

Symptoms Warn to Remove the Cause The ordinary doctor spends his efforts in eradicating symptoms rather than removing the cause of trouble. He is often compelled to do this against his better judgment in order to satisfy the demands of his patient. Symptoms are removed at a dreadful expense to the organs of the body. As an example, consider the effect on the nervous system of drugs so powerful as to immediately stop headaches and other bodily pains. The reaction is most exhausting on the system, and the result is that the pains and aches return, and the system constantly grows weaker and weaker. Dr. Chase's Nerve Food cures by removing the cause. Gradually and naturally this food cure revitalizes the feeble, wasted nerves and by invigorating the system drives out pains, aches and disease. This is Nature's way of curing disease. It is the only way. The treatment of symptoms is only a makeshift way of avoiding pain. It overlooks the importance of symptoms as a warning of impending trouble. To get well and keep well use Dr. Chase's Nerve Food until the blood is rich and red, the nerves steady and the body filled with health and vigor.

SUSSEX MAN FINDS FOX WORTH THOUSANDS

Genuine Black Pup Discovered in Litter With Three Others—May Start a Ranch

Sussex, Kings county, May 27—Martin Ryan picked up a fortune of several thousand dollars the other day, when he discovered a fox den with four pups. One of the youngsters was a genuine black and the owner is happy in proportion to the number of thousands of dollars he is being offered for his find. Mr. Ryan made the discovery near his home a few days ago. After locating the den he had little trouble in getting the pups but could not induce the mother to return to the den. He took the pups home and is raising them. So far the little foxes have shown no evidence of discontent and the owner is confident that all danger of losing his find is past. Mr. Ryan has already had a number of offers for the black member of the family, running up into thousands of dollars, but he has refused to sell. At present he is strongly considering the advisability of starting a fox ranch, and if he does this he will hold the four pups. Since he made his first haul, Mr. Ryan has been prospecting and has located other families of foxes and will probably have more pups to add to his collection in the course of a few more days. If he decides to go into business, Mr. Ryan will probably locate his ranch near his home. The foxes are now in the present spring a large number of foxes have been located in Kings and Albert. The old practice of shooting Reynard on sight as an undesirable neighbor, and which has caused the species to pass into disuse. Mr. Fox is now worth considerably more alive than dead.

GUIDE TO STUDY OF ANIMALS

The Demand Is Growing

There are poultry and dog shows, and in addition to all other benefits you are sure to derive from a Telegraph and Times Dictionary and Treasury of Life, Nature and Facts you will enjoy such exhibitions much better with the colored illustrations than the many different breeds of fowls and canines to aid you. Six coupons clipped from consecutive issues of the Telegraph and Times and the Book that you will be showing your neighbors, after you have paid the small expense bonus incidental to the purchase, is yours. The coupons appear top of Page 2.

This is not the Dictionary that you will eventually buy. It is the dictionary that you certainly will buy at once when you see it.

That's the explanation for the unbroken chain of dictionary buyers which has been sweeping in and out of the Dictionary Department, carrying off the record-breaking number of the distribution. That's the reason that orders are pouring in fast as they can be filled through the mail.

MORNING NEWS OVER THE WIRES

C. Pizey, an English aviator, and his passenger, H. Helles, had a narrow escape from death yesterday, when in a flight near Salisbury, England, their aeroplane caught fire. They were blown from a height of 1200 feet on the blazing machine and a few moments after they alighted, it was completely wrecked by an explosion of the gasoline tank. The Reichstag in Berlin yesterday passed a measure providing for more severe penalties including life imprisonment for betrayal of national secrets.

President Wilson, in congress yesterday strongly denounced the methods of the lobbyists, who have been busy for the last few days promoting opposition against certain features of the Underwood tariff bill, particularly against free wool and free sugar. He said the lobbyists were so thick "one could not throw a brick without striking one of them. Senator Kenion of Iowa, and Representative Smith of New York, announced their intention to press early consideration of bills which would limit the work of the lobbyists.

Victoria Day was celebrated in Milltown, N. B., yesterday. In the morning a parade was held and a base ball game played. The women's sports were started in the morning but were stopped by rain. They made another attempt to finish them in the afternoon but the base ball race, won by Milltown, was the only event run off.

G. P. O. Fenwick, representing the attorney-general of Alberta, arrived in the city yesterday in connection with the cases against R. D. Isaacs, formerly of this city. William McIntosh, curator of the Natural History Society, who is acting as provincial entomologist, has reported to J. D. Tothill, dominion entomologist, that so far he had found no specimens of the tent caterpillar in the province this year, and he was hopeful that the parasitic influences had been instrumental in destroying the caterpillars in the early stages. Mr. McIntosh cautioned the people of the province to be on the look out for these pests and advised the use of arsenate of lead or Paris green on trees and shrubs. Another way was

to burn out the nests with a torch, but he did not approve of swabbing the trees with raw kerosene.

Mr. Tothill was in the city yesterday and said that the work of destroying the brown-tail moth in the province last year had been most successful. Ten thousand nests had been destroyed last year, while so far only 100 had been found this season.

Montreal, May 27—The Gazette says: In the annual report of Montreal Light, Heat and Power Co. President Holt's reference to the proposed increase in capital is merely to the effect that shareholders will be asked to authorize an increase of \$5,000,000 at the special general meeting next week, and to give the directors power to issue the same as when required.

Approximate gross earnings of the Brazilian Traction Co. for the week ending May 17 were \$451,198, against \$394,882 in the same week last year. The annual report of the Dominion Textile Co. made public yesterday, dealt in record figures. Gross sales were the largest in the history of the company, amounting to \$5,824,101 or \$785,637 more than in the previous year, and \$358,881 more than in 1911, the company's record year in point of value of the gross business.

Net profits also constituted a new record, and the surplus carried forward was the largest since the inauguration of dividends on the common stock, being \$50,000 larger than in the previous year despite the advance in the common stocks dividend from 5 to 6 per cent. last autumn. Earnings on the common stock indicated by the statement presented yesterday would be approximately 8 1/2 per cent.

Wall Street Notes New York, May 27—Americans in London irregular, 8-8 up to 8-4 lower; consols 74 7/8, unchanged. President Wilson favors government railroads in Alaska.

Twenty-two railroads file briefs protesting against some features in the proposed income tax bill. Wilson is struggling to get the free wool and sugar clauses through the senate. Washington says the lobby trying to get the bill passed is larger than the one opposed to it.

Money still close in Berlin and the wonder is where all the money is coming from to meet the numerous demands: \$120,000,000 for China; \$200,000,000 for Brazil; French loan of \$300,000,000; Germany's \$250,000,000 for armaments; to say nothing of the \$350,000,000 for our subway credit.

The Frisco system seems likely to go through. It will be known today probably publicly. The offer of money has been made. Pennsylvania loaned at a premium again yesterday and the general list was in active demand in the loan crowd. Yesterday's decline brought in renewed selling from the professional bears and traders. An uneasiness market today is likely. C. P. R. seems to be under pressure again and is likely to sell lower. Berlin is selling stocks this morning. Con. Gas, Reading, Coppers,

St. Paul, Atchison, and B. R. T. can be bought for fair profits on the recessions. There will be plenty of reactions. It is a good trading market. SHEARSON HAMMILL & CO. Hammering C. P. R. New York, May 27, 11:40 a. m.—The bear crowd still hammering C. P. R. Each new low level brings out more liquidation.

FIRST GAME HERE IN N. B. & M. LEAGUE THIS AFTERNOON. Marathons and Fredericton Teams Meet Again With One Win Each—The Local Players and Their Records.

At last the weather man has come to terms with the baseball fans, and this afternoon we get away with the two postponed openings of the New Brunswick and Maine league in this city. This afternoon's game will be between the Marathons and the Fredericton Pats and should draw large crowds on account of the two teams breaking even on yesterday's double header at Fredericton. The probable lineup of the Marathons for today's contest is: Waterhouse, pitcher; Little, r. f.; O'Brien, 3rd base; Black, l. f.; Biern, c.; Nolan, 2nd base; Riley or Hoffman, c. f.; Mulligan, base; and Shanley or Delrich, p.

The majority of the players mentioned above are strangers to the followers of the game in this city, but all have been in the game for some time, although this year is the first in professional baseball for a few of them. Heinie Pietz Says Rusie Had More Speed Than Any Pitcher

No doubt baseball fans throughout the country will agree that Walter Johnson, the pitching marvel of the Washington baseball club, is the speediest twirler of the present time. But is Johnson more speedy than some of the stars of former days?

The phenomenal work of Johnson during 1912 and also up to the present time this season has made him the most talked-of ball player in the country today, not excepting the wonderful Ty Cobb, and all this is due to the fact that Johnson is considered the speediest man in baseball.

There are many baseball fans and critics, however, who declared that Amos Rusie, who was the star of the New York Giants for a number of years, had the most speed of any pitcher that ever delivered a ball. This recalls a story that Heinie Pietz, the former manager of the Louisville ball club in the American association, told while in Milwaukee last season. At that time the name of Walter Johnson was on every fan's lips the same as to-day, for he had been pitching remarkable ball for the Nationals and keeping them near the top.

"You may talk about speed," remarked Heinie, "but to my mind, Amos Rusie had them all beat when it came to using the cannon ball delivery. I say this, because I have caught many of the greatest pitchers the country has ever seen, and I must admit that Rusie country has ever seen, and I must admit that Rusie had it on all of them."

"We were playing in Louisville some years ago and I was catching Rusie at that time. It was in the ninth inning and just beginning to get a bit dark. Our opponents had three men on bases with one out, and the three runs would have won the game for them as we had scored only two up to our own time. The three men who got on the bases did so through errors of our own players and not through any fault of Rusie's.

"I was then that the famous pitcher called to me to come to the pitcher's box, which I did. He was very serious and said to me: 'Heinie can you catch the ball if I put more speed on them?' to which I replied that I felt sure I could. 'Well,' said Rusie, 'I am going to put the ball directly over the plate and all you have to do is hang on to it. These fellows will never get a chance to hit it!'

"With that I returned to the catcher's box and set myself for a little extra steam. I am telling you the absolute truth when I say that Rusie pitched a one-hundred and thirty-five mile an hour ball that was called a cannon. The one ball that was called a cannon, strike and no mistake made. The players stood at the plate, and of the three, only two of them made a swing at it and they did so after the ball was in my hands. I have caught many speedy pitchers, but never in my life did I witness such an exhibition of speed as Rusie displayed that day. The three men were struck out while they were standing there practically helpless.

"There may possibly have been a pitcher with as much speed as Rusie but I have never seen him. It is no discredit to Walter Johnson to say that he has not as much speed as Rusie, for to my mind, the latter was in a class by himself and no doubt the day that he fanned the three men he put all the strength into his work that time that he possessed. I am only sorry that Rusie did not stick to the game and give more evidence of his wonderful work."

The extension of the Marble Cove sewer engaged the attention of the city council yesterday at the weekly meeting. It was said by His Worship the Mayor that the proposed extension, with previous outlays, would total about \$25,000. Nearly \$10,000 had already been spent, and he could never understand just what good the expenditure had done. The money might have been thrown into the harbor for all the good it had been to the sewer.

Commissioner Wigmore spoke of the need of the extension, saying that he considered the extension of the Marble Cove sewer to be one of the most important questions before the council. The Marble Cove sewer is a sewer which has been denounced by Dr. Melvin as a menace to the public health and he believed that the work should be undertaken at once. The Recorder was instructed to commence expropriation proceedings to secure a right of way for the sewer.

Calgary, Alta., May 27.—The proposal to hold Scottish national games in this city about the middle of July has been enthusiastically received by all Scots in Alberta and a record number of entries are looked for.

There are four large Scottish societies in Calgary, the St. Andrew society, the Sons of Scotland, the Gaelic society and the Order of Scottish Clans. Each of these numbers among its members some who can play the bagpipes or dance the Highland fling or sword dance and more competitors are expected from country points.

The holding of the games here will prove a decided innovation, but it is believed that there will be sufficient public interest to make the Calgary Scottish games one of Canada's great annual sporting attractions.

Calgary, Alta., May 27.—Pelkey was given a preliminary hearing yesterday on the police charge of manslaughter in connection with the death of Luther McCarty. The hearing was adjourned until this afternoon. Pelkey's bail of \$10,000 was continued. Referee Ed Smith, Tommy Burns, Wm. McCarty, McCarty's manager, together with a doctor and attendants and newspaper men were called to appear as witnesses today. The course of investigation planned by the authorities was somewhat changed as a result of the doctor's announcement that McCarty's death was due to a blow on the jaw which dislocated the neck.

Dr. H. H. Mosher, who made the autopsy at the inquest last night testified that a blow on the edge of the right jaw, the dislocation of the fourth cervical vertebra, the hemorrhaging of the brain that followed, and the forcing of blood into the spinal canal were the causes of McCarty's death.

Crown Prosecutor Shaw questioned Burns, who acknowledged that he promoted the fight and that McCarty and Pelkey were to receive \$5,000 each. Referee Smith testified that not one hard blow was struck during the battle.

Manager McCarty asserted on the witness stand that McCarty was in good condition when he entered the ring. He said that in his opinion death was not caused by a blow. McCarty's body was sent to his home in Ohio last night. McCarty had planned to accompany the body, but was detained here by the authorities.

The coroner's jury exonerated Pelkey. Despite the wonderful advance of exploration in various parts of the world, the Royal Geographical Society of London declares that no fewer than 20,000,000 square miles of earth yet remain unexplored.

CALGARY PLANS TOURNAMENT OF SCOTTISH GAMES

An Innovation in Canada—Popular Support Encourages Promoters To Plan Annual Meet on National Lines

Calgary, Alberta, May 27.—The proposal to hold Scottish national games in this city about the middle of July has been enthusiastically received by all Scots in Alberta and a record number of entries are looked for.

There are four large Scottish societies in Calgary, the St. Andrew society, the Sons of Scotland, the Gaelic society and the Order of Scottish Clans. Each of these numbers among its members some who can play the bagpipes or dance the Highland fling or sword dance and more competitors are expected from country points.

The holding of the games here will prove a decided innovation, but it is believed that there will be sufficient public interest to make the Calgary Scottish games one of Canada's great annual sporting attractions.

Others Imitate and Make Similar Claims, But the "Genuine and Original Dandruff Germ Destroyer" is Newbro's Herpicide

The discovery of the dandruff germ as the cause of all hair troubles is not a recent event. Prof. Unna gave the germ theory to the world in 1887 and two years later Sabouraud by his experiments with a rabbit proved beyond doubt the actual existence of this germ.

On the heels of this establishment of the germ theory came the discovery of Newbro's Herpicide. This was the first and only remedy ever prepared in harmony with this theory.

There are other preparations for which the same claims are made as for Herpicide. But the thousands of enthusiastic users testify to the genuine merit of Newbro's Herpicide as a scalp prophylactic. It does as promised. For this reason it has long been known as the original remedy and the only one that is genuine.

Don't be fooled by preparations which are trading upon the marvelous success of Herpicide. Remember you take no chances with Newbro's Herpicide. It is absolutely guaranteed. Newbro's Herpicide is 50c. and \$1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.

Health and Beauty Aids BY MRS. MAE MARTYN Bessie: I have constantly advised against the use of hair-brushes and dyes. Clara: I think you are foolish to worry about a few pounds of extra flesh, but if you fear that your waist line will disappear entirely, go to your druggist and get 4 ounces of paraffin. Dissolve in 1/2 pint of alcohol 1 ounce of quinine and add 1/2 pint of cold water. Rub well until absorbed by the scalp and hair. Christina: If your hair is falling out and your scalp sealy with dandruff, apply this hair tonic. It is better to use plain castor oil for shampooing purposes. Simply dissolve a teaspoonful of canthrox in a cupful of hot water and stir well until it is all dissolved. Then take your shampoo by pouring the mixture on the hair and rubbing in well. It will cleanse the scalp thoroughly, and prevent dandruff. Miss Wood: Plenty of good letter is an essential to the success of any business. Some soaps that lather well make the hair brittle and hard. It is better to use plain castor oil for shampooing purposes. The wrinkle-remover formula which your friend says she read in these columns and found absolute in its action is easily and cheaply made at home by mixing one ounce of almond oil with one-half pint of cold water and adding two teaspoonfuls of glycerine. Stir and stand for one day. To remove or prevent wrinkles apply this vegetable cream-thickly and leave over night, then wash off and with more of the cream massage thoroughly. I have never found anything to equal almond jelly-cream to remove wrinkles and keep them away. It contains no oil or fatty substances which might promote the growth of hair. You will also notice by its use not only your wrinkles disappearing but the large pores of the entire face getting much smaller and the skin very soft and velvety. Mrs. L. Here's the BIGGEST DEFECT in Most Tires of To-day:

Loosening of the Tread

All other made-in-Canada anti-skid tires, except Dunlop Traction Tread, are manufactured by the old method—the tread is simply a strip of rubber stuck on the tire proper. Naturally, in service, the stuck-on piece soon wears loose. Some tire users don't know what's going on in their tires until one day they find "loosening of the tread."

Unless your anti-skid is a Dunlop Traction Tread you have a stuck-on-tread tire. We control the only successful way to make a built-in tread tire. That's why Dunlop Traction Tread is the most envied tire in all America.

Thousands of motorists say: "Dunlop Straight Side, with or without Traction Tread, is the one tire which never did rim-cut." Dunlop Straight Side Tires have a larger air capacity than any other tires made-in-Canada.

"Spitter" Hurts Digestion
Excessive use of the spitball has injured Ed Walsh's digestion and has affected his condition, so that he has not yet reached his best form this year, according to Dr. James H. Blair, club physician of the Chicago Americans, in a report on the pitcher's condition. Walsh is quoted as saying his arm "is far from right," and attributing his success in the game with New York last Sunday to his "headwork." According to the doctor saliva needed for Walsh's digestion has been used on the ball, but with care the pitcher may be in his old-time form in a month.

Tinker Buys a Pitcher
Manager Tinker, of the Cincinnati National League baseball team, has purchased Pitcher Nelson from the Philadelphia National League team for \$1,500, his waiver price. Nelson will don a Cincinnati uniform today.

The Batmen
Chicago, May 28—Two National League, C. McDonald, of Boston, and Randall, of New York, topped the 400 mark in the batting averages last week, each hitting .429, the former in eleven games, and the latter in eleven. They are still considerably behind the pace set by Ty Cobb, however. The Detroit star pushed his average up to .51.

Cravath of Philadelphia, with 286 at-bats, of St. Louis, with 201, and Killifer, of Philadelphia, rank third, fourth and fifth in the National League. "Corny" Souffer's return to active participation in the game has enabled him

to rank next to Cobb with 450. Jackson, of Cleveland, follows the Washington comedian with 422. Ed Collins, of Philadelphia, is fourth with 409, and Henri Henriksen, of Boston, is fifth best batter for the week in the American league with 381. Milan, of the Washington team is as fast as ever on the bases.

Records show he has stolen 24 bases so far this season, ten ahead of his nearest rival, as a base runner. Bush, of Detroit, and Mueller, Washington, are next with 14 each. Herzog, New York, leads the National league with 121. R. Meyers, of Boston, has 11, and Murray, New York, B. Merkle, New York, and Lobert, Philadelphia, ten each.

Chance Gets New Man.
New York, May 26—The trade by which shortstop Peckinbaugh comes from the Cleveland club to the New York Americans in exchange for infielder Stump and outfielder Leibold is expected by Manager Chance to fill the long existing gap in the Yankee's field.

THE RING
Rivers and Ritchie
Joe Rivers will fight Champion Willie Ritchie in San Francisco on July 4 for the light-weight title. Following the announcement today by promoter McCarey that he had been unable to induce Ritchie to meet the Spanish boxer at Vernon on Independence Day and consequently he, McCarey, would release Rivers from his agreement to appear at Vernon on that date, Manager Joe Levy wired an acceptance of the terms offered by Ed Graney, the San Francisco promoter. McCarey today received a telegram from Nolan flatly refusing to fight Vernon, and declaring that Ritchie would fight at San Francisco on the holiday date and nowhere else.

Great Danger
The great danger that is threatening the Quakers is from the lead that the Quakers are opening up on the field. If we can hold them to the margin they have attained now, the team will break the heart wrenching task of setting the pace before the end of August. It will take a well balanced club to go to the front in April and stay there through October. The Giants had attained bigger jumps last summer than the Philadelphia boys have now, and they were almost caught in late August.

He entered an action against Doctor Maurice, the owner of the car, and was awarded \$7,000. It appears that twelve years ago Albert was one of the few men thought worthy of next prizes for the world's championship, and he earned from \$1,500 to \$2,000 a year in boxing and teaching.

Rives vs. Ritchie
Los Angeles, May 27—Joe Levy, manager of Joe Rivers, Los Angeles light-weight, has telegraphed a final acceptance of the offer of Eddie Graney, a San Francisco promoter, for a twenty-round bout with Willie Ritchie on July 4, for the light-weight championship.

Johnson Arrested Again
Jack Johnson, negro pugilist, and his chauffeur, J. H. Robinson, were arrested in front of the Chicago City Hall, on Monday afternoon, by Sergeant Lobell, of the city vehicle department. Johnson was charged with failing to have a state license on his automobile and Robinson was arrested because he was unable to produce a chauffeur's license. They were taken to Central station and hooded and then released.

Argonauts May Not Go
Toronto, May 27—Unless W. E. G. Murphy can obtain leave of absence from the Dominion Bank, the Argonaut senior eight will not go to England this year to row for the Grand Challenge cup. This decision was arrived at last night. Number two position in the eight has not yet been settled on; Rice, Wickson and Keith fighting for the honors. Murphy's position, number four, will be hard to fill.

At a meeting of the St. John Power Boat Club last evening nineteen new boats were admitted to the club and the preliminary arrangements were made for a regatta to take place at Indian Point on July 26.

McGraw's Review of the Big Leagues By JOHN J. MCGRAW Manager of the Champion Giants

(Copyrighted, 1913, by John J. McGraw) From the flock of clubs in the National League a dark horse has shot out into the lead, and a team of which nothing was expected before the race started is making threatening gestures toward the pennant. The Philadelphia Phillies, to which scant attention was paid at first, is holding up altogether too well for comfort. The Quakers may repeat the trick the Boston Sox pulled last year when nobody thought that team would win the flag until they had it flying at the masthead.

The Giants will play the Philadelphia club at the Polo Grounds this week, beginning on Thursday. The two teams will meet in four games in three days, a double header being scheduled for Friday, Memorial Day. This is our best chance to stop the Quakers now, because immediately afterwards they will swing out through the west and encounter the weaker part of the league as it is rated at present. Three four games are bound to be pitchers' battles and a good deal depends upon their outcome. The Philadelphia club has ways been a tough one for the Giants to beat, but I believe we will clean up in this series because my team is in better shape right now than it has been so far this season.

To recall a little ancient history, it was the Philadelphia bunch that had apparently thrown the Giants out of the running back in 1911, when they best my club badly in a disastrous series in the first part of July. Later, the Giants swung through the west on the Philadelphia team and won the pennant in a whirlwind or a Garstion finish. It strikes me that the Philadelphia club will be settled in the final month or six weeks of the race this season as it was back in 1911.

up day by day. It takes all the drive that a manager can muster to hold his team together under these circumstances. It was this which almost cracked the Giants wide open last season. But the Philadelphia team is going to be a dangerous factor if it can open such a wide margin now that it is able to afford a liberal slump later. If there is room enough to drop several games, the manager has a chance to steady his team up and give it its second wind before it is too late. The big thing is to hold the Phillies just where they are today and not permit them to open up any wider gap than they have so far. It is my opinion that the Giants and Phillies can do this. Both have come fast within the last week, although St. Louis surprised my club.

Steady Old Mat
The Giants lost their early season games for three reasons—the club floundered, did not hit, and only one of the regular pitchers was anywhere near his form. These reasons seem to be sufficient. This one twirler was Christy Mathewson, who has always been the man to step into the breach any time the New York club needed a steadier. Marquard is back in shape once more now, and I look to see him aid the team more this year than he did last, although I do not anticipate any such sensational winning run as he made in 1912. It was this that slowed him up so much later along in the season after his long streak was broken, and he began to let down from his nerve strain.

Pitching has been my urgent need and that is why I made the trade with Cincinnati last week by which Fromme came to New York. Fromme is a good pitcher, a man who has improved greatly within the last two seasons. He should be better with the Giants than he ever was with Cincinnati since he will

have a better ball club behind him and one that will keep him working continually to win games. I hated to let the other players go, but, as I have frequently said, there is no sentiment in baseball, and I thought I saw a chance to strengthen my team where it needed bolstering. The exchange of players should benefit both clubs. Tinker is building for the future as he knows that he has not a chance this year. I wanted quick relief to improve my chances of winning the pennant. One more pitcher who is reliable should help the club immensely.

Most of all, I hated to let Ames go, because, with Mathewson and Witte, he was the last of the old guard of 1904 and 1905, my first championship team. Ames is a good pitcher, but he is famous for his hard luck. Devere is another pitcher who has done much for the Giants, especially in important series, such as the games for the world's title. He is game and fast. He hated to leave New York, too.

"Where am I going, Mac?" he asked me when he heard of the swap.

"Cincinnati," I told him. "New York has always looked good to me," he answered. "A baseball player is like a soldier; he is liable to move his residence any time," I replied. "What does it cost to ship a car out there, do you know?" he said, gamely. My team has the old gameness and it is on this that I depend to make my final stand for the pennant and win. This quality was displayed last week when the Giants took a fourteen inning game from the Pirates after it looked as if we had surely been beaten two or three times. The batting and fielding of the club has always improved during the last week, and the players have gained more confidence in themselves. They have entirely lost the notion that the race is going to be a cinch for the team, and every man on the club is scratching

gravel now. It took about a month to drive this cinch idea out of the heads of my players. It was the same feeling of self-sufficiency which caused the Athletics and Cubs to lose pennants in 1912 and 1909 respectively. Pirates are Formidable The Pirates had been so highly boosted before the season started that some of them acquired the idea that the winning of the pennant only meant that their pitchers should go and shut the other teams out, and then they should loaf around until they got a run or two. But the pitchers did not show anything in the early days of the race and the rest of the team became excited at this failure and played very bad ball. Clarke is getting good twirling now, and the Pittsburgh team is a dangerous one. (Continued tomorrow).

gravel now. It took about a month to drive this cinch idea out of the heads of my players. It was the same feeling of self-sufficiency which caused the Athletics and Cubs to lose pennants in 1912 and 1909 respectively. Pirates are Formidable The Pirates had been so highly boosted before the season started that some of them acquired the idea that the winning of the pennant only meant that their pitchers should go and shut the other teams out, and then they should loaf around until they got a run or two. But the pitchers did not show anything in the early days of the race and the rest of the team became excited at this failure and played very bad ball. Clarke is getting good twirling now, and the Pittsburgh team is a dangerous one. (Continued tomorrow).

H., and a native of St. John, received last night a purse of gold amounting to more than \$800 from his parishioners at a public reception in the town hall in honor of the twenty-fifth anniversary of his ordination to the priesthood. He prepared for the priesthood in Laval University in Quebec and has been the pastor of St. Michael's church for nine years. At one time he was strongly considered for the bishopric of the Catholic diocese of Maine. Rev. Dr. Finen is the author of 'A History of the Catholic Church in New Hampshire.'"

KNIFING CASE AIRD IN POLICE COURT

Witnesses Tell of Fight in South Wharf Boarding House—A Militant Prisoner—Would Take the Law in Her Own Hands

The preliminary hearing in the case against William Leander, charged with cutting John Sirostrom about the face, was held in the police court this morning. The injured man was in court with his head bandaged and gave evidence. He said that he was sitting in the kitchen on the night in question when he heard a noise up stairs and, going to see what was the matter, he saw two men wrestling in the hall. He stopped them and as he did he felt a blow in the side of the head and the blood began to run down his face. He immediately went out and got medical assistance. The witness said he did not know who struck him.

Oscar Johns, sworn, said that he had room in Sirostrom's house and he saw Sirostrom try to separate two men who were quarrelling upstairs. The defendant was seen with a knife in his hand. When Sirostrom interfered, he said, the defendant struck him in the face with a knife. The prisoner was remanded.

The case against Mary Robinson, charged with using threatening language to Wm. J. Hatfield, also came up this morning. Mr. Hatfield told of receiving a communication from C. F. E. in the form of going to his office where he met the defendant, who accused him of following her about and threatened that she would blow his brains out, stick a knife into him or poison him. Witness said that he did not know the woman until she had come to work in the place where he boarded a short time ago. The magistrate remanded the defendant as she wanted to have her lawyer in court. Before going down stairs, however, the prisoner insisted on making a statement in which she accused Mr. Hatfield of continually persecuting her and even following her to St. Stephen, and she said that if she could not get a judge who would give her justice, she would take the matter in her own hands in order to protect her own life and reputation. She was then taken below.

Louis Walsh, arrested for acting in a disorderly manner on Sheriff street, was fined \$8 or two months in jail, but the fine was allowed to stand on condition that he keep the peace in future.

One man charged with drunkenness was remanded.

You Must Admit, Sir, That the World is Pretty Apt to Judge Your Brains by Your Clothes

A wrong way, you may say, but such is the fact, and "while facts are stubborn things" it is with facts and realities that real men have to reckon.

Your appearance depends chiefly upon your clothes—that fact is pretty clear, is it not? Now the question is, are you wearing clothes that do you justice, and if not why not?

Clothes that do the wearer justice cost no more than clothes that do not.

Every suit that comes into this store is made to a degree of excellence that scarcely any other store thinks necessary. Maybe it is not necessary, but it is not better for you to buy a suit made better than most stores think necessary, than to buy one that has been made just good enough, considering that there is a difference of from 25 to 30 per cent. in the price.

The difference in price is in our favor, because as manufacturers we sell to you direct saving you the manufacturers' profit which other stores must first pay and then exact it from you in addition to their own profit.
