MISSIONARY TELLS A GREWSOME STORY OF THE MASSACRES OF ARMENIANS AT ADANA

Officials Made Absolutely No Effort to Prevent the Slaughter—Victims Defended Their Homes for Two Days—Streets Ran With Blood

BEIRUT, April 27.—Delayed despatches just received here say that the carnage in Adana was renewed Sunday night and was killed.

The first massacre in Adana, where an American missionary was killed, resulted in the slaughter of 10,000 persons. Advises indicate that the Moslem hordes have again attacked the city.

CONSTANTINOPLE, April 27.—Following account of the massacres in Adana has been received here by telegraph from the Rev. Herbert Adams Gibbons, a missionary. "The vilayet of Adana has been visited during the past five days by a terrible massacre of Armenians, the worst ever known in the history of the district. The terror has been universal and the Government is powerless to check the disorders. Adana, the capital of the province, has been the storm center. Conditions have been unsettled for some time and there has been animosity between Turks and Armenians owing to the political activity of the latter and their open purchasing of arms. Early last Wednesday morning I was in the market. I noticed that the Armenians were clearing their shops and hurrying to their homes. An Armenian and Turk had been killed during the night and the corpses were paraded through their respective quarters. The sight of the dead inflamed the inhabitants and crowds at once began to gather in the streets armed with sticks, axes and knives. A few young Armenians assembled in the center of the covered market and began firing revolver shots into the air. By 11 o'clock in the morning the crowd had begun the looting of shops. The military commander of Adana was by my side in the market when the firing commenced. He had not the courage to endeavor to disperse the mob. He returned to his residence and did not venture out for two days. William Chambers, Field Secretary of the Young Men's Christian Association, and myself proceeded to the Konsul. On the steps of the building we saw three Armenians who had been massacred. Their bodies were mutilated. While we were in the telegraph office a mob burst into the room and we were killed and thrown into the street. The mob then proceeded to the telegraph office. The telegraph office was the first to be looted. The telegraph office was the first to be looted. The telegraph office was the first to be looted.

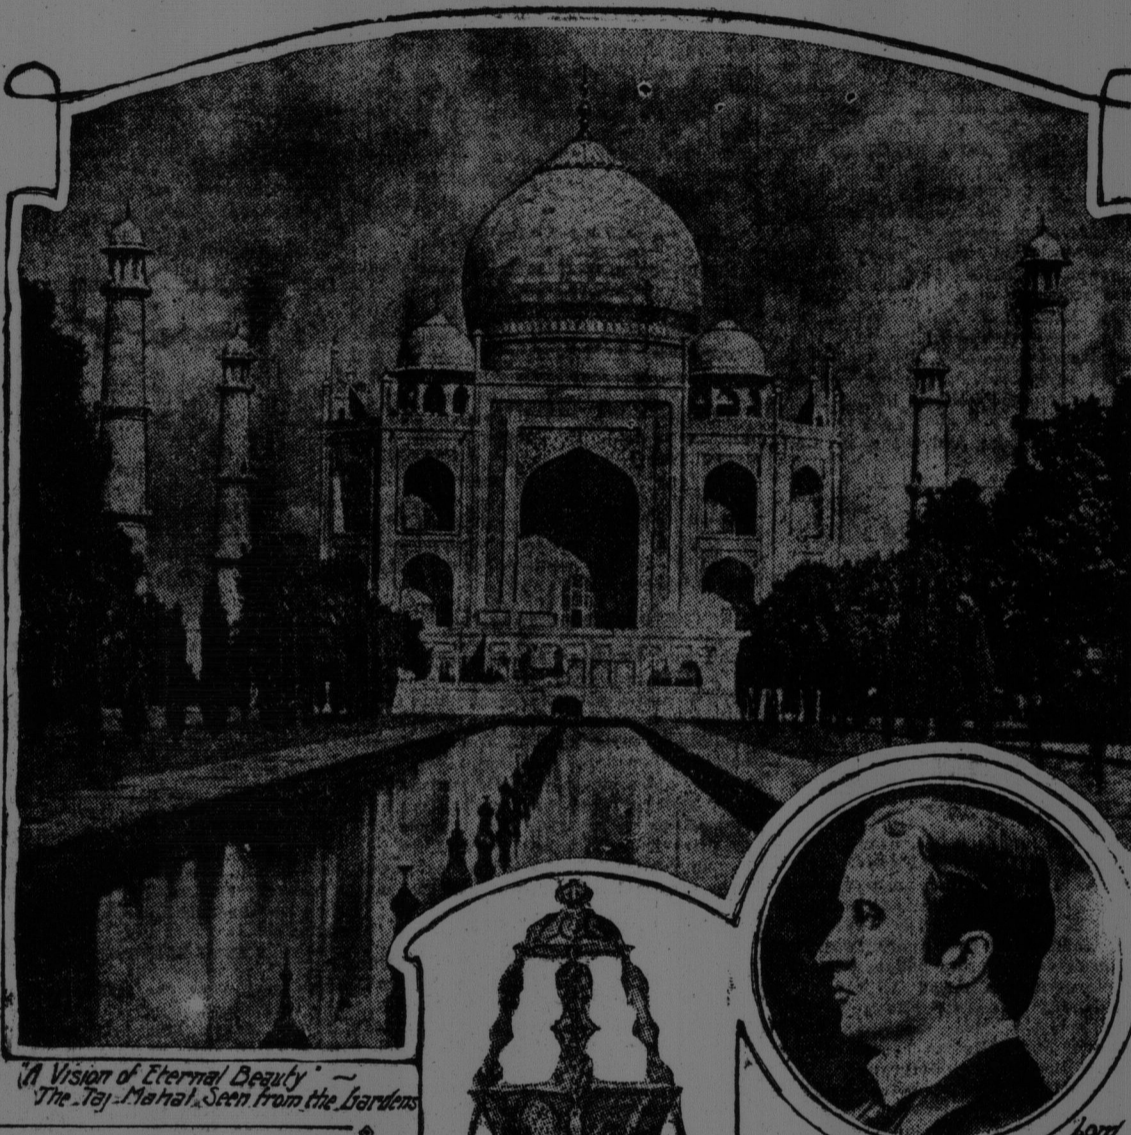

ABDUL'S ANXIETY OVER; LOSES HIS JOB AT LAST

Deposed Today and Mehmed Reschad Proclaimed Sultan in His Stead—A Fresh Revolt Among Young Turks Causes Some Excitement

CONSTANTINOPLE, April 27.—Abdul Hamid II. has been deposed as Sultan of the Turkish empire. Mehmed Reschad Effendi, his brother, will be proclaimed his successor probably at 3 o'clock this afternoon. The deposition will be through the regular form prescribed by the tenets of Mahomedan faith. It is understood that Sheikh Ul Islam, the head of the church, will issue the decree of deposition. The news of the deposition of Abdul Hamid and the selection of his brother to succeed him caused great excitement throughout the city. Crowds also began to gather in the principal squares and thoroughfares and around the imperial palace of Yildiz in anticipation of the proclamation of a new sultan.

CONSTANTINOPLE, April 27.—Fifty Turkish officers have been arrested in Erzerum by their troops and dispatched under escort to Trebizond. The exact significance of this action is not yet clear but it is feared that it means the beginning of a revolt of the provincial troops against the Young Turks officers.

LORD CURZON'S GIFT TO THE SHRINE OF UNDYING LOVE.

There has just been hung in the marvellous tomb which Shah Jehan erected in Agra, India, in the memory of his wife, a lamp which Lord Curzon has presented to this shrine of undying love. Lord Curzon gave it as "a last tribute of respect to the glories of Agra," which rise "like a vision of eternal beauty" in his memory.

GOVT. CONTRACTORS HAVE A LOVELY TIME

Get All the Money They Want from the Treasury

No Account Kept of Supplies—Morrissey Says Lumber Was Paid for at Excessive Prices.

FREDERICTON, N. B., April 27.—The public accounts committee occupied the entire morning with examining bills in connection with the public works department, under the head of bridges. Chief Commissioner Morrissey was present at most of the sittings. The bills showed that it had always been the custom to charge under repairs such articles as axes, shovels, pickaxes, tools and many other things. The commissioner said that he had no idea what had become of what was supplied, and he was strong in his language in condemnation of such a system.

The chief also criticized the high price paid for lumber and regarded certain work done, said it was over 100 per cent more than it was worth. Mr. Haines (the bridge contractor's) bills were criticized at length. In the case of the Shearwater bridge, Kent county, a statement showed that Haines had received \$300 in advance to procure articles. His bill showed but one expenditure of \$187. The commissioner said Mr. Haines' attention had been called to the matter and that this morning he had returned the balance. The chief said that he did not think that the articles that came to his notice amounted to the sum charged. Other bridges underwent the same criticism and the committee adjourned at 12.30.

SHOCKING ACCIDENT IN WOODSTOCK ROUNDHOUSE

Three Men Hurt, One Fatally, by Bursting of Cylinder Box.

WOODSTOCK, N. B., April 27.—A bad accident happened near the roundhouse in the yard late this morning, that may result fatally. Harry Cox, sr., John McElvany and H. Allan were at work straightening out a piston rod. From the action of the fire when the rod was struck by the hammer the compressed air exploded the cylinder box and it flew in places, horribly mangle Cox, breaking the leg of McElvany in three places, and severely cutting Allan in the face. Drs. Rankin, Sprague, Griffin, Grant and Kierstead are attending the sufferers, who have been conveyed to the hospital. It is thought that Mr. Cox will die from his injuries.

PAY AS YOU ENTER RULE IN TRENTON MARRYING PLACES

TRENTON, N. J., April 26.—All the Justices of the Peace of Trenton have entered into a combination to bar from matrimony all couples who do not have the necessary cash to have the nuptial knot tied. The justices say they have lost many fees through ungrateful brides and bridegrooms who have asked them to marry them on the plea that they would pay up later, needing all their spare cash for the wedding trip.

In numerous instances eloping couples have visited local justices and asked for the marriage ritual on trust, asserting that they had made hasty preparations for their marriages and were a little shy in cash. Now all those who wish to wed in Trenton and want the services of a justice will have to "pony up" beforehand. The installment plan is to be barred, no checks will be accepted, and ready cash will be the only thing that will induce the justices to perform the marriage ceremony.

CAMPBELLTON KICKS AT INCREASED DEBT

Protests Against Further Bond Issues

Several Other Bills Dealt With by the Municipalities and Corporations Committees Today.

FREDERICTON, N. B., April 27.—The committee on municipalities met at ten o'clock. The town of Campbellton bill was taken up and considered. Mr. Currie explained the bill, amendments sought being to change the close of the fiscal year from March to December, authority to cut off a customer's supply of water or electric light without his having redress for damages, and permission for a further bond issue, also being asked.

R. B. Hanson opposed the bill on behalf of certain clients. He said C. S. O'Crochet had litigation pending which the bill adversely affected. Mr. Hanson also claimed that the present bond issue was excessive.

Mr. Currie said that when the water works were first put in several industrial establishments were allowed to install water motors, but as the demand for water for domestic purposes increased it was found necessary to refuse to supply water for manufacturing purposes. After discussion the clause giving to the town authority to shut off a customer's supply of water or electricity without redress or damages was struck out.

(Continued on Page 7)

MR. BRADY IS HAVING A LOOK AT THE COUNTRY

New Member of Railway Board Comes to the Provinces to Size Up the Situation.

MONCTON, N. B., April 26.—F. B. Brady, of the government railways' management board, arrived in the city this morning in the private car of E. Tiffin, who is also a member of the board, attached to the Maritime express. Mr. Brady would say very little concerning the new scheme, saying he would visit St. John and many other points in this vicinity during the next three weeks merely to become acquainted with the country and people. He would say nothing as yet as there had been nothing done. An informal meeting of the board had been held in Ottawa a few days ago and the first regular meeting would probably be held here as soon as Mr. Pottinger returned from Ottawa. Mr. Tiffin also arrived home this morning.

SAYS GIRLS ARE RUINED BY COLLEGE TEXT BOOKS

Toronto Clergyman Condemns Books Used in Ladies' Colleges.

TORONTO, April 27.—"I can point out text books in Toronto Young Ladies' Colleges which if your parents read them and your daughters were in those schools, you could scarcely sleep in your beds. If you want the books I will put them in your hands and I will give you the names of them. Young people are being poisoned, and that is the reason we are bringing men like Dr. Orr to speak to use," said Dr. Elmore Harris, at the Jarvis Street Baptist Church last night at the close of an address by Prof. James Orr, D. D., of Glasgow, on the "Biblical and Critical Views of Israel's Religion." Rev. Elmore Harris afterwards stated that the text book he referred to was Otley's short history of the Hebrews, which was in use at the University of Toronto, but he declined to present to give the names of the ladies' colleges where it was in use.

LOTS OF TROUBLE FOR THIS HORSE THIEF

Just Completing One Term at Dorchester and Will Get Another—Some More Also for Jail Breaking.

A man who has almost completed a term at Dorchester has a fresh bunch of trouble awaiting him in the shape of another dose of the same kind. Sheriff James Holden, of Ormoco, Sunbury County, passed through the city today en route for Dorchester, armed with an order signed by Judge McLeod to get a man who is now serving a two years' term in the penitentiary for horse stealing under the name of Walter Farnsworth. His case is a complicated one.

In March, 1907, he and a companion were arrested at Grand Bay by Detective Killen and Officer Lawson, on the charge of stealing a horse from Eldon Phillips, of Rushbrooke, Ormoco. When arrested they were both given a term of two years in the penitentiary. Farnsworth gave the name of Samuel Adams then and it was afterwards found that he had secured a term under the name of Jas. W. Shaw.

His companion, who was arrested under the name of Arthur McLean, had also at various times laid claim to the names of Fox and Carter.

The pair with the many surnames were sent to Sunbury, where a true bill was found against them by the grand jury. They did not wait for the trial, however, but on April 25th broke a hole in the wall of the jail and slipped out. McLean was never seen again.

A short time afterwards Farnsworth turned up in Charlotte County, where he was engaged to work by a farmer. His old proclivities soon broke out, however, and after beating the farmer badly, he stole his horse and decamped. He was soon captured and was given two years for horse stealing. This term expires on May 17th, and Sheriff Holden wants to have another sentence on the first charge all ready for him by that time. He also intimates that the prisoner may get a further extension of his enforced holiday at Dorchester for his last breaking escape.

HIGH INSURANCE FOR ST. LAWRENCE ROUTE

MONTEREAL, April 27.—The marine underwriters have announced the opening rate via the St. Lawrence at 20 cents per \$100 on provisions. The shippers are furious, as the rate in New York is 10 cents. In November the rate via Montreal goes to 30 cents. The chief reason for the high rate is that the buoys are about all down.

Up to date 101 steamers have reported at the Custom House the valuations of export cargoes from this port during the winter port season. The total valuation of these cargoes amounts to \$22,156,677. Of this \$15,731,598 was Canadian goods, and \$6,425,079 foreign. The total valuation for 101 steamers last year was \$21,191,143, which shows an increase so far this year of \$1,065,534.

WHISKEY IN THE 'PHONE

Raiders in Ashabula Take Down a Receiver and Discover New Way to Serve Liquor.

ASHABULA, Ohio, April 26.—What is believed to have been a clever scheme for violating the Prohibition law in a "dry" town came to light in a raid made by the police.

Some one who saw a barrel rolled into a building formerly a saloon reported to the police and a squad was detailed to search the place. Finding the barrel of whiskey, as expected, the police became curious about a screen and discovered that it hid what appeared to be a telephone booth.

Further scrutiny disclosed that it was a "wireless" telephone that hung on the wall and when a policeman lifted the receiver the box on the bottom of the instrument flew open, disclosing a receptacle of convenient size for a glass or bottle.

Four doors and one window were found open in that many business houses by the police Saturday night. A large pane of glass in the door of John O'Regan's establishment on Mill street was found broken.

Don't buy a house until you know about all the houses of the size and price you desire. A "watt" will give you the chance to examine the kind of houses you're interested in.

The delicious flavor of "Salada" Tea is largely due to the care used in the cultivation and preparation, and to the fact that it is packed in sealed packages, which prevents it coming in contact with articles that would affect its flavor.

The gross receipts from the Ladies' Auxiliary at the Seaman's Institute bazaar amounted to \$1,141.25; expenses \$90.70; net \$1,050.55.

Piles Cured in 6 to 14 Days
PAIN OINTMENT is guaranteed to cure any case of itching, blood, bleeding or protruding piles in 6 to 14 days or money refunded. 50c.

Daniel Hooker, assistant manager of the National Drug and Chemical Company at Halifax, has been transferred to the Vancouver branch of the company.

The concert party from the steamer "Victorian" will give a concert in the Seaman's Institute tomorrow night under the direction of John S. Charlton. This will mark the closing of the winter port season.

\$100 Reward \$100
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh of the Bladder. This is the only positive cure now known for Catarrh of the Bladder. It is a constitutional disease, requiring a constitutional treatment. Dr. Williams' Pink Pills for Pale People is the only medicine that cures it. It is sold by all druggists. 75c. Address F. J. CHENEY & CO., Toledo, O.

The annual meeting of the Rifle Association of the 3rd Regiment C. A. was held at the Drill Shed last evening, when Capt. J. T. McGowan was elected president, and Sergt. I. F. Archibald, secretary-treasurer. After the transaction of business, the meeting discussed the schedule for the coming season. A spoon match will be shot every Saturday afternoon commencing Saturday, May 17. On Saturday, June 15, the Solomon cup match will be shot and on the same day there will be cash and spoon matches. The membership of the association is limited to artillerymen.

The new 15,000 tons triple screw steamer "Laurentide," which inaugurates the White Star line's entry into the Canadian trade, left the builders' hands for Liverpool on Thursday, April 19. After the machinery trials at the end of January certain alterations in the passenger accommodations of the vessel were decided upon, and since then, in addition to these changes, Messrs. Harland and Wolff have been experimenting with the propellers of the ship, which is to be driven by a combination of turbine and reciprocating engines. It is expected that as a result the Laurentide's speed will be considerably increased. The final touches will be added in the Canada dock, Liverpool.

CHATHAM NEWS.

CHATHAM, N. B., April 27.—The Roman Catholic Church at Burnt Church was destroyed by fire which broke out about Sunday midnight. The residence of Father Guavin was saved after a hard battle.

The steamer "Alexandra" made the first trip of the season to Newcastle from Chatham.

The newly elected members of the Chatham town council met tomorrow afternoon for organization. Two important chairmanships are to be filled—board of works and police committee—and for these the names of Ald. Williams and Ald. Tweedie, respectively, have been mentioned. In all probability Ald. Loggie and Ald. Cassidy will remain at the head of the finance and night, water and sewerage boards.

Only One "PROMO QUININE" that is **Laetive Bromo Quinine** on every bottle. 25c. One Day, Crisp in 2 Days.

FORTNIGHTLY CLUB

DINES AT WHITE'S

Tenth Annual Affair of Its Kind Proves Most Enjoyable

The Fortnightly Club held their tenth annual dinner at White's last night, and to a menu of the usual excellence a goodly number did justice. On opening the door, which was not locked, he saw Fleuret stretched on the floor, in a pool of blood, with a six-chambered revolver, empty, beside him. He went for an English doctor, who lives next door, and then called in the police, who at once commenced an inquiry.

So far as can be learned, the deceased passed as a lawyer, but he lived in a mysterious manner, and had already resolved to quit. The coroner cannot remember having seen anybody call upon him during the night, but a fellow lodger on the fifth floor, immediately below the apartment occupied by the dead man, declares that between four and five o'clock on the previous day Fleuret went upstairs followed by a fair young man. Soon after the lodger heard a great noise, as of a scuffle, and furniture overturned about. In a few moments, however, all the noise ceased.

AN AUDIBLE WARNING FOR OVER-SPEEDING

Proposed in London, England, That Motor Cars be Fitted With Automatic Device.

LONDON, April 26.—A novelty is to be added to the din of the London streets. At a near date all public carriages propelled by mechanical means are to be fitted with an automatic device, which shall give audible warning to the driver and the police when the vehicle attains a speed in excess of that legally allowed. The new order promulgated by the Assistant Commissioner of Police, Sir Alexander Carmichael Bruce, is as follows:

"In consequence of the frequency of reports to the Commissioner of the excessive speeds of motor omnibuses and motor cabs, and consequent danger to the public and damage to property, it has been decided that means must be adopted which will make it possible to drive these vehicles at such speeds without detection.

The Commissioner has reason to believe that it is possible to give audible warning of excess of speed to the police and others, and to the driver himself by means of an automatic device. The Commissioner, therefore, wishes it to be understood that he will require at an early date, all public carriages propelled by mechanical means to be fitted with such a device, so made and attached that it can be sealed and cannot be tampered with. The audible warning must be loud and continuous so long as the statutory speed is being exceeded."

The order is doubtless aimed at motor taxi-cabs and motor omnibuses, which come under the jurisdiction of the Board of Trade, and the order, therefore, probably does not apply to electric trams.

HALIFAX MAN TAKES HIS OWN LIFE WHILE DRUNK

HALIFAX, N. S., April 26.—Newton Drysdale, an employe of the Dartmouth Rope Works, ended his life with a revolver at his boarding house in Dartmouth tonight.

He was fined in the police court this morning for being drunk and came across the harbor to spend the day. When he returned home he was intoxicated, and went to his room and shot himself. He was thirty years of age.

THOSE SALOON SCREENS.

FREDERICTON, N. B., April 26.—The statement made by Premier Hazen relative to the placing of screens in bar-rooms when he introduced the bill to amend the Liquor License Act is as follows:

"No screen, blind, or other device may be placed in the windows of any bar-room to obscure the view from outside though it is not necessary that the bar shall be in front. To move the bars to the street or the hotels in St. John would necessitate a reconstruction of the buildings. Any doors or partitions connecting the offices with the bars would have to be so constructed as to give a clear view into the bar at all times. He thought these provisions would be ample. If they did not work satisfactorily they could be changed."

The matter of the proof in solemn form of the will of the late Iden Rootes was before Judge Armstrong yesterday. A. A. Wilson, K.C., and William McMullin, witnesses to the will, were examined and his honor declared that a prima facie case had been made out. A witness against the will being ill, hearing was adjourned to Tuesday, May 4th, at 11 a. m. A. A. Wilson, K.C., represents the executrix, and G. H. V. Belyea represents the heirs.

DR. DANIEL WANTS TO KNOW

OTTAWA, Ont., April 26.—In the House today Mr. Fraser spoke on behalf of the people who have their savings in the government savings institutions. The finance minister at all events might pay these people the same rate as that which he pays to foreign money lenders. He went on to speak of the tunnel approving Mr. Foster's statement that he was ready to implement the bargain with Prince Edward Island and asking for an investigation to establish the cost of the tunnel.

Dr. Daniel is inquiring if Edward S. Carter employed as a seasonal clerk, what his duties are, what remuneration he receives, and if he is paid for the time absent from Ottawa, and is His Honor the Speaker aware that said Edward S. Carter has been recently spending a great deal of time in St. John, N. B., in connection with the civic elections recently held there?

SHOT DOWN IN A PARISIAN ATTIC

A Mysterious Murder in Which Criminal Left No Trace.

Shot Three Times and Calling of His Room.

PARIS, April 26.—Recently the conclave of a house in the Rue d'Anjou-Flour, within a stone's throw of the Place Vendôme, took up breakfast as usual to one of its lodgers, known as Louis Donald Fleuret, a Frenchman. On opening the door, which was not locked, he saw Fleuret stretched on the floor, in a pool of blood, with a six-chambered revolver, empty, beside him. He went for an English doctor, who lives next door, and then called in the police, who at once commenced an inquiry.

LIVED REGULARLY.

All that has been ascertained so far is that Parquharson or Fleuret had lived in the same apartment since October, 1927. It is on the top floor, immediately under the roof, and only has one small window looking out to the street. He always paid his rent regularly, though often with difficulty, and seemed poorly off. His orders were to let anybody who asked for him up to his "bureau," but the neighbors were very sceptical of his business existence.

THREE BULLETS.

His body bears the traces of three bullets, one in the neck, one in the throat, and another in the left cheek, while three other bullets were found in the ceiling. A silk handkerchief, torn in two, seems to show that his assailant was a man of small stature. The bullet wounds were deep and the bullet wounds were deep and the bullet wounds were deep.

AMERICAN AND JAPANESE ADMIRALS QUITE CHUMMY

Agree That War is Impossible—Receivers for General Company—Benefit for Jake Sebaefer.

LOS ANGELES, Cal., April 26.—Admiral H. D. Jillett, commander of the Japanese training squadron now at San Pedro, had a long talk today with Rear Admiral Robley D. Evans, the admiral, who were old friends and who are now staying at the same hotel, discussed international questions including the possibility of war between the United States and Japan.

FITCHBURG, Mass., April 26.—Vice-Chairman Chas. E. Ware of the Board of Trustees of the Burpee Hospital, today resigned his office as vice-chairman and from the executive committee, although retaining his membership in the board. He gave no reason.

BUFFALO, N. Y., April 26.—Judge Haze in the United States court today appointed A. L. Culver, Lyman M. Bass and Frank A. Abbott receivers for the H. C. Company, a cereal food company with a capital stock of \$2,000,000 and a bonded indebtedness of \$1,900,000. The application for a receivership was made by counsel for the company and it was unopposed.

NEW YORK, April 26.—Billard enthusiasts and admirers of Jake Schaefer, "the Wizard of the cue," who is critically ill at Denver, Colo., played benefit games and took up collections for the former champion, in practically all the larger cities throughout the country tonight. Men prominent in other sports gave their support to the testimonial liberally.

BOLD HOLDUP OF CANADIANS BY AMERICAN AUTHORITIES

A head tax of \$4 levied by the United States authorities upon returning Canadians from the West Indies has brought forward a story from G. A. Hilyard of St. John which may be taken as a warning to intending travelers. Mr. Hilyard booked his passage and that of L. T. Rowley on the Prinz August Wilhelm of the Hamburg-American line on April 15th for Canada via New York. Before, however, receiving the tickets he was told that \$8 more was required for a head tax, otherwise tickets could not be issued. At New York on the 21st of April the two gentlemen applied for a refund according to instructions, and were informed that they could not get their money back. After a considerable period, in which endless arguments were used, they were told that if they signed a declaration to the effect that they were going right through into Canada, it might be possible to refund the money. This Mr. Hilyard and Mr. Rowley did, but could not even after doing so obtain a refund. Finally the clerk informed them that if they were not badly in need of the money they might apply upon their arrival at their destination and they, the Hamburg-American line, would endeavor to get them the money. Mr. Rowley continued his journey to Montreal, vowing that he would never patronize the Hamburg-American line again, and Mr. Hilyard, in disgust, with the same determination, continued on to St. John.

Mr. Hilyard, in speaking to The Sun yesterday said that he understood that from all such taxes Canadians, Cubans and Mexicans were exempt, and then such taxes were only placed upon second class, third class and steerage passengers. The Royal Mail Steamship Company did not mail such taxes. Where the taxes which are guaranteed, but never used, they are returned—and are not—go to and who benefits through such iniquitous practices is a question which ought to be answered.

LINTON AND OLIVE WILL BE REMUNERATED BY CITY

Police Officers Linton and Olive are to receive their pay. By hook or crook the men who received their appointments unauthorized at the hands of the Common Council will be remunerated from the coffers of the city. The decision was reached at last night's meeting of the Board of Public Safety, over which Ald. Vanwart presided and at which there were present Ald. Elkin, Scully, Kelly, Sprout, McGowan, Baskin, Baxter and Frink, with the director and Chiefs Kerr and Clark.

The matter of the policemen's pay was first disposed of. Officers Hipwell and Clark were granted leave of absence for terms of six months and one year respectively. Chief Clerk appointed Officers Olive and Linton to the force. Subsequently and upon the estimate forwarded by the council refused to ratify their appointments as increasing the force above its legal force. Chief Clerk Frink the council refused to take the decision seriously and the men remained with the understanding that, their salaries would be forthcoming whichever way the pendulum swung.

The chief claimed that the men were appointed for a certain period, and that they would have a cause for action in the court of their summary dismissal. Ald. Baxter thought that the wherewithal might be forthcoming by way of manipulation, and on motion of Ald. Frink the salaries were ordered paid. Officer Olive, who retired upon Officer Ross reporting recently for duty is entitled to eighteen days pay. Officer Linton will be retained until the expiration of Sergeant Hipwell's leave of absence, which occurs December 15. With the disposal of this matter the board discussed the procedure of Chief

CLAIM OFFICIALS TRAFFIC IN VICE

CHICAGO, April 26.—Investigation of an allegation that vice in the Tenderloin district of Chicago is protected by a ring composed of two aldermen, two resort keepers and a high police official, all of whom are said to have formed a stock company for the purpose, was begun by States Attorney Wayman today. Money for protection is alleged to be collected weekly by a leader of the ring, who employs several assistants. Every saloon and dive in the so-called "light" district is required to contribute. Information concerning the "vice trust" will be presented to the grand jury, which is conducting a sweeping investigation of the alleged "grating" in the city hall.

DOAKTOWN GIRL IS DEAD IN TORONTO

TORONTO, April 26.—Maud Preece, a nurse in training at Toronto General Hospital, died there early this morning of disease of the foot. Miss Preece had been ill three weeks. Deceased was her twenty-second year and came nine months ago from Doaktown, N. B., where her parents reside. The body will be shipped to her home in New Brunswick tonight.

TWO OF THE VICTIMS DEAD

MONTREAL, April 26.—Two of the victims of the boilers explosion which occurred in the Convent of the Conception of Notre Dame at Cote St. Paul on Sunday morning, Florence Nault and Bernadette Dubreuil, died from their injuries today. Hopes are entertained for the recovery of Sister Nom de Jesus, the superior.

MERAN, Tyrol, Austria, April 27.—Heinrich Corred, former director of the Metropolitan Opera House in New York, who suffered an apoplectic stroke several days ago, died peacefully at 2:30 o'clock this morning.

QUESTION SHERRING'S AMATEUR STANDING

C. A. A. U. Send Back Hamilton Runner's Affidavit

HAMILTON, April 26.—William Sherring of Hamilton, noted Marathon runner, has been refused a card by the Canadian Amateur Athletic Union, so he cannot enter the Hamilton Spectator's races May 24. The C. A. A. U. sent Sherring a blank affidavit to fill out, and he returned one of his own composition, but it was not acceptable to the union. It seems that the testimonial offered him by Hamilton citizens after he won the Marathon at Athens raised the question of his amateur standing.

OPERA HOUSE THIS WEEK—APRIL 25-27

Mr. Arthur McCloskey Presenting
"THE BELLS" and "THE LOST PARADISE"
Prices, 25c, 35c, 50c.

OPERA HOUSE APRIL 28

You Must Laugh—You Will Laugh.
Prices, 16, 25, 35, 50c.

At Harford—Harford, 4; Holyoke—At Northampton—Bridgeport, 3; Northampton, 2.
At Waterbury—Waterbury, 7; New Haven, 6.
New England League Games.
At Lawrence—Brookline, 1; Lawrence, 0.
At New Bedford—New Bedford—Lynn, cold weather.
At Haverhill—Haverhill, 7; Worcester, 2.
At Fall River—Fall River, 4; Lowell, 2.

MORAN IS A BETTER MAN

NEW HAVEN, Conn., April 26.—Frankie Neil of San Francisco fought 12 hard rounds with Owen Moran of England here tonight. No decision was given but Neil looked as if he would be knocked out, but he was game and came back with a rush which finished without a scratch, but his opponent was badly cut about the face. The men were to have fought at 124 pounds, but Moran refused to weigh in and lost his forfeit. Neil weighed 121 and Moran looked to be many pounds heavier. It was whitewind fighting from beginning to end, both jabs continually rushing.

BOWLING TOURNAMENT

On Black's alleys last evening the weekly roll-off was captured by H. Stanton with a score of 115. Plans have been perfected for the tournament, which will open at the alleys tomorrow morning. Three teams have entered and doubtless some new records will be established. The programme for the opening day was announced last evening. It is as follows:

9:30 a. m.—St. Croix Club v. Marshalls.
11:15 a. m.—Victoria Alleys v. Black's Alleys.
2 p. m.—St. Croix v. Victoria Alleys.
3:45 p. m.—Black's Alleys v. Marshalls.
7 p. m.—Marshalls v. Victoria Alleys.
9 p. m.—St. Croix v. Black's Alleys.

SHERIFF TIBBITS WILL HANG THE ITALIANS

Sheriff James Tibbets, of Andover, says that the fee asked for by Henryman Radcliffe is exorbitant and he will execute Tony Aroska and Leon Seppeli himself on May 4th. The hangings will take place between the hours of six and ten o'clock on the morning of May 4th.

SHE PROPOSED TO BOSS.

Newsed (after the ceremony): "Dearest, do you really think I'll prove a satisfactory mate?"
Mrs. Newsed: "Oh, I guess you'll do as a mate, all right. Now look me over and tell me what you think of your captain."

HE WAS TOO COLD FOR HER.

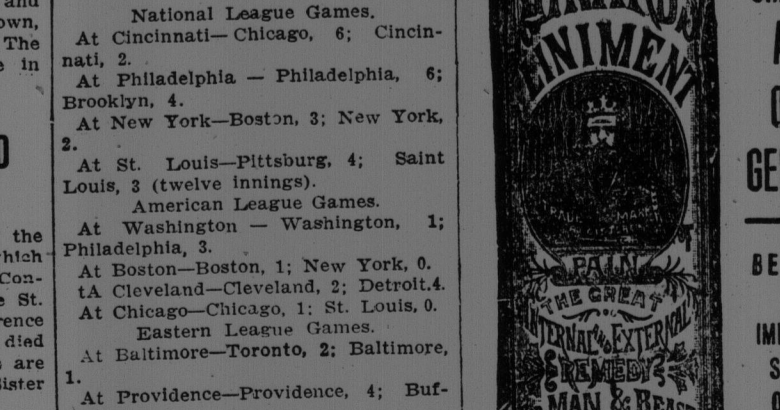

"Agnes broke her engagement to Louis because he was too cold and indifferent."
"He doesn't strike me that way."
"He is, though. He said as long as they saw each other every day, he didn't see any need of their corresponding."

BASEBALL

National League Games.
At Cincinnati—Chicago, 6; Cincinnati, 2.

CARNEGIE HEROES.

In setting aside \$5,000,000 worth of United States Steel bonds for the establishment of a hero fund, Mr. Andrew Carnegie had several objects in view. Some of these are outlined in the deed of trust by which the fund is transferred to a commission. Perhaps the most important of all his reasons was that Mr. Carnegie desired by this means to add another to the series of acts by which he hopes to secure for himself an immortal name. If such is the case, he can scarcely be criticized, for who shall say that a man having failed to perform personally anything which would bring him undying fame may not purchase, even with tainted money, that glory of which he is desirous?

"Mr. John E. Wilson, the poor man's friend." Remember how this was shouted about the streets, and every stammering speech during the last provincial election campaign? And now this poor man's friend says his dupes must pay \$5 poll tax instead of \$3 or else lose their votes. Such a generous friend, isn't he?

The council ordered that two temporary officers be dismissed, and added that if, he retained, would not be paid. Chief Clerk retained the men, and now the Safety Board finds plenty of money. The question is, does the council run the city, or is Chief Clerk worthy praise for keeping the corporation out of a ticklish corner?

It appears that although several important grants had to be cut down by the council because there was no money in the general revenue fund, sufficient can be found in this fund to provide a portion of the safety board's expenditures and thus get over another piece of bungling in regard to the police force.

LAY OF A MODERN HOME.
"Let's build us a beautiful home," said she.
"With pillared porches galore;
With great bay windows and whitened halls,
And curled birch finish on all the walls,
And with a polished oaken floor."
"And how shall the kitchen be?" said he.
"Pray, how shall the kitchen be?"
"We'll plan a dainty boudoir," said she.
"For me, and a den for you;
Of course, an art and a music room,
A handsome greenhouse with plants a-bloom.
A pretty pergola, too."
"But how shall the kitchen be?" said he.
"Say, how shall the kitchen be?"
"We'll have a lofty tower," said she.
"And an observation dome;
A bath with the newest kinks and quirks,
A library with the finest works,
For our lovely modern home."
"But how shall the kitchen be?" said he.
"Say, how shall the kitchen be?"
"You make of my life a care," said she.
"With wall of your woful fret;
We'd do quite well with a chaffing-dish,
But if more bountiful meals you wish,
We'll plan for a kitchenette."
"A plain little kitchenette," said she.
"A cheap little kitchenette."
—May Lippincott's.

SHE KEPT QUIET AND LET BURGLAR FINISH HIS JOB
Caught by Woman's Strategy, Thief of Nineteen Years Confessed Eighteen Robberies.

MR. McMULKIN'S CASE.
When Mr. John McMullin was appointed factory inspector he was advised—and in this the members of the then opposition joined—to enforce the Factory Act with due regard to the rights of employers, not to exercise unnecessary harshness, but to first of all instruct proprietors of factories as to changes or improvements necessary to bring their plants up to the requirements of the act. It was his duty subsequently to see that his instructions were carried out. Mr. McMullin has so far faithfully performed the task set

before him. Under his careful and painstaking supervision the various provisions of the Factory Act have been fairly enforced, without any opposition being aroused on the part of employers. Workmen all over the province are thoroughly satisfied with what has been done, while their employers acknowledge that the introduction of new conditions has been accomplished in a manner to which no objection can be taken. It is not to be contended that Mr. McMullin is a lively youngster; he is upwards of seventy years and admits his age, but he is an exceedingly well-preserved man, one who has taken good care of himself and is still in the enjoyment of health and strength. He is, and to all appearances will be for some years yet, sufficiently active to discharge faithfully the duties of his office. But Mr. McMullin is a Liberal, and the position he holds, although not by any means highly remunerative, is sought by many hangers-on of the Hazen government, consequently Mr. McMullin the manner of his dismissal is thoroughly characteristic of the party now in power. He is being shelved on an undervalued excuse of inability to perform his duties, while men older and less active are being appointed to positions demanding greater energy.

The council ordered that two temporary officers be dismissed, and added that if, he retained, would not be paid. Chief Clerk retained the men, and now the Safety Board finds plenty of money. The question is, does the council run the city, or is Chief Clerk worthy praise for keeping the corporation out of a ticklish corner?

It appears that although several important grants had to be cut down by the council because there was no money in the general revenue fund, sufficient can be found in this fund to provide a portion of the safety board's expenditures and thus get over another piece of bungling in regard to the police force.

The question is, does the council run the city, or is Chief Clerk worthy praise for keeping the corporation out of a ticklish corner?

PARTY VOTE ON POLL TAX; MR. McMULKIN MUST GO; TWO HIGHWAY POLICIES

FREDERICTON, April 26.—The legislature had a lively session both this afternoon and evening, and the opposition called for several divisions under Mr. McMullin's leadership before the house with all their power.

The St. John Assessment Act was the first to bring forth a lively discussion, and this was caused by an amendment moved to the effect that the poll tax on those taxed \$300 or over should be placed at \$3 instead of \$5. On the vote being taken the amendment was lost, 15 to 25, the largest vote received up to the present time. The opposition voted solidly for the amendment as did two government supporters, Messrs. Hatherly and Baker, the absentees were: Government, Maxwell, Cyr and Taylor; opposition, Lablache, (independent), and Burgess.

The Factory Act amendment brought forth the strongest speeches. Messrs. Robinson, McKewen, Copp, Byrne and Lowell denounced the amendment to the act placing the limit age of the factory inspector at 70 and said that the object was simply to get rid of Mr. McMullin because he was a Liberal, and it was an underhand way of accomplishing the purpose. Mr. Hatherly and the solicitor general defended the amendment. The opposition moved as an amendment that the age be placed at 75. The vote resulted in a straight party one-government, 25 opposition, 13.

The Highway Act was next taken up for its third reading, and to this five different amendments were made by the opposition and the vote taken on each. The amendments were all voted down with the average government majority.

The most important amendment was that which reduced the road tax from \$2.50 to \$1.50 per hundred feet of road from 20 cents per hundred to 12 cents. The house adjourned at 10.15.

The bill to amend the act relating to the construction of buildings in the city of St. John was read a third time and passed. On motion for the third reading of the bill relating to city elections in St. John, Mr. Lowell moved that the poll tax on incomes less than \$200 at \$3. He said he made the motion because he had seen a number of working men of St. John city. It was represented to him that the settlement made by the city council street railway and civil servants when the bill was before the house a few days ago did not meet the case of the men who earned small incomes. The poll tax of \$5 bore very heavily upon such men. Last year out of 2,200 working men who were assessed on income of less than \$200 in St. John, only 400 were able to pay their taxes. For the last three years the poll tax has been 40 or 50 per cent of the wages of small wage earners had been collected. Every year the percentage of non-payers seemed to increase. Assuming that the average tax of persons assessed on incomes of \$200 or less last year, as \$6 it would give the city a revenue of twenty-four hundred from the four hundred who paid. There was a feeling that a three dollar poll tax could be collected from all and 2,200 polls would give the city treasury \$9,900 instead of \$4,000.

Yves—Messrs. Currie, Robinson, McKewen, Sweeney, Copp, Tweeddale, Burgess, Leger (Westmorland), Lowell, Baker, Byrne, Sormany, Leger (Goulet), Hatherly, Upham—
Nays—Hon. Messrs. Hazen, Fleming, Grimmer, Morrissey, Landry, McLeod, Messrs. Jenkins, Wood, Hume, Hart, Jones, Munroe, Sprout, Pinder, Young, Robinson (York), Glazier, Prescott, Wilson, MacLachlan, Bourque, Sheridan, McInerney—
Mr. MacLachlan gave notice of a motion that in the opinion of the House all wood on the crown land should be manufactured in the province.
Hon. Mr. Fleming announced a message from the lieutenant governor, asking that provision be made for supplementary estimates.

The House went into committee on supply.
Hon. Mr. Fleming explained that on account of unusual circumstances connected with the Collins murder case in Albert County, necessitating three trials and consequently unusual expenses, it had been decided to ask the House to vote \$2,500 to that municipality as contribution towards those very large expenses. Other amounts which the House was asked to vote was to settle the long standing claim known as the Amelia Norton claim, which since the award made some years ago by order-in-council had now considerable interest accrued, and to pay the award of \$2,500 and interest a vote of \$4,125 was asked.

The house went into committee, Mr. MacLachlan in the chair, to consider the bill relating to St. John River Log. Mr. Pinder said he had an amendment to offer which had been agreed to by all parties interested, differing from the amendment passed the other day. In that it provided that parties who made application to a county court judge for claims against the company should pay costs of such application.

The bill was agreed to and reported. The house went into committee, Mr. Sprout in the chair, to consider bill respecting sales and chattels.
Hon. Mr. Hazen said it had been considered by the law committee and slightly amended. It provided for the cancelling of lien notes in the hands of registrars of deeds. The bill was agreed to. Also a bill to authorize the loan of thirty thousand dollars for the betterment of the N. B. Coal and Railway street works was agreed to.

Also bill to amend schools act the enabling of the Board of Education to since the burning of the school at Kingston the districts now comprising the consolidation did not all wish to remain united, while some of the districts did wish to consolidate, which they could do under the general act, and the bill would enable them to do so. It required an office in the city. Unlike any other office of this kind yet proposed, these offices are now modernly equipped with forty new model typewriters, billing machines, Mimeographs, Burroughs adding machine, etc., etc. A competent staff of office helpers will be constantly on hand to handle all clerical work, so that in the absence of the agent or broker his absence will be looked after in a modern up-to-date manner by a responsible staff. In this way the broker may have his office, with light, heat, telephone, stenographic looking and auditing services at a very nominal expense and have a feeling of assurance that his business will be well looked after in his absence. These offices are situated No. 20 and 22 Canterbury street, in the heart of the business centre, and the new scheme should certainly prove mutually profitable for all parties concerned.

ORDER FORMER HERO HIDES, SPURRING REWARD OF A BANKER
At Great Danger, He Stopped a Runaway Horse, and Saved Banker's Wife

CHICAGO, April 26.—Fireman James Joyce is in hiding. Louis B. Clarke, a banker, is looking for him with what he describes as a "search warrant." He wants to reward him for his heroism. Joyce was sitting with a newspaper and a pipe in front of his quarters when a runaway, dragging a light cab, in which were Mrs. Clarke and a woman friend, dashed by. The fireman leaped and clutched the horse's bridle. He was dragged more than a block before he stopped the brute. Cut and bruised, bemused and bewildered, he untangled himself from under the iron hoofs, saw that the women were lifted out and taken care of, and then hastened back to his company's quarters.

\$15,000 OFFERED FOR WRESTLING MATCH
Seattle Fair Willing to Pay for Attractions

Snowslides in Montana—Ice Running Out of Niagara River—Nobleman Killed in Auto Smash.

SEATTLE, Wn., April 27.—The Alaska Yukon Pacific exposition has offered \$15,000 for a finish "go" between Frank Gotch and Gen. Hackenschmidt for the wrestling championship of the world. Sixty per cent of the gate receipts, guaranteed not to be less than \$15,000, together with a half interest in the picture rights and travelling and train expenses, are used as the bait to blind the eye of the wrestler to the offer of \$25,000 from Australia, which is said to have been made.

SNOW SLIDES IN MONTANA.
KALISHIEL, Mont., April 27.—Earth and snow slides which have continued intermittently for the last sixteen hours at a point on the Great Northern, one mile east of Nyack, have blocked traffic and the dozen trains including four passenger trains, are tied up on either side.

KILLED IN AN AUTO SMASH.
KATOWITZ, Prussian Silesia, April 27.—Count Gustav Von Belless was killed yesterday when his automobile crashed into a tree. The count's skull was fractured. Baroness Von Fuensternburg and her two children also were thrown out of the car, but were uninjured.

ICE BLOCKADE BROKEN.
S. S. MARIE, Mich., April 27.—The ice blockade between the upper and lower lakes which has kept a fleet of nearly 100 steamers held up in the river here, was broken yesterday afternoon.

NIAGARA ICE RUNNING OUT.
YOUNGSTOWN, N. Y., April 27.—The mountains of ice in the Niagara River which were visible between Youngstown and Lewiston yesterday have at least weakened under the mighty strain of the current and have joined the procession of floating icebergs which are continually floating into Lake Ontario.

WHEATON—At Perry Point, Kings Co., April 24, 1909, Walter, infant son of Garfield and Mrs. Wheaton, aged 8 months.

THE SECRET OF KEEPING YOUTH.
Lord Weymas, that vigorous nonagenarian peer, has been questioned as to the secret of keeping young, of which he is such a typical example—tall, alert, firm of step, and strong in voice, with only the fringe of silver hair under his clean shaven boyish chin to suggest that on Tuesday last he entered on his ninety-first year. His Lordship's reply to his interviewer was:
"Be moderate in all things."
Sleep at least eight hours a night.
Eat well and take plenty of good exercise.
His belief in the possibilities of the future is quaintly expressed:—"I have seen miracles happen in my lifetime, the unexpected has come true so often that I am determined not to be surprised at anything nowadays. I began life with tall, dips, an ending with the electric light. Perhaps we may yet light London by rubbing radium on the dome of St. Paul's. We now have motor cars, and the next decade will be wireless."—Business

Seely's Perfumed Borax
THIS BORAX is imported from France and is much purer and stronger than commercial Borax, a much smaller quantity may therefore be used to get the same results. The perfume contains nothing harmful, permitting the Borax to be used medicinally. TEN CENTS A PACKAGE. Sample free.

EGYPT MAKES WAR ON HASHEESH TRADE
Direct Supply via Malta Being Suppressed, But Route via Khartoum is Still Open.

ADEN, April 26.—The smuggling of opium hasheesh into Egypt has long been a matter of considerable trouble to the British government, and the recent decision regarding the opening of an enquiry into the system adopted by dealers in this contraband is a move in the right direction. But apparently these proceedings practically cover only consignments which are conveyed from Austria via Malta into Egypt, and no reference is made to other routes and methods.

A similar trade is being carried on in the Sudan, with Khartoum as the distributing centre. In this instance the contraband is imported over a much more circuitous route. It is reported that the hasheesh is primarily purchased in Greece and conveyed to Marseilles, thence shipped to Jibuti, in French Somaliland, and

transported over land via Dird Douna, Addis Ababa and the Blue Nile to Khartoum. It is stated that the average monthly quantity smuggled into the Sudan in this manner is between 400 and 600 kilos. If the present commission is eventually to be the means of dealing an effective blow at this class of smuggling some steps should be taken to prevent further shipments in the above manner. The probability is that this route would be utilized to a much greater extent should it be rendered impossible to deal from Austria via Malta, as it would be an easy matter to import the hasheesh through the Sudan provinces into Egypt proper.

THE DUTIFUL MOTHER.
John's mother does a mother's part. (They're others like her in the land): She has a warmly-beating heart. That guides a warmly-beating hand.

DIFFERENCE OF OPINION.
Kitty: Mrs. Cartwright thinks her son, Harry, is the salt of the earth.
Janet: "Well, I can't see why. I think he is about the freshest thing I ever met."

FINDS PROFIT IN RUNNING DEER FARM

John Griggs, Pioneer Iowan Trapper, Has Made Success of Unique Occupation.

Began With Pair of Deer and is Now the Owner of a Herd of Nearly One Hundred.

MASON CITY, Iowa, April 26.—Deer farming in Iowa is limited to one farm and to one man—John W. Griggs, who lives twenty miles southwest of Mason City, near the border line between Hancock and Curry County, where there may be seen a herd of nearly one hundred deer, with all the instincts of the wild life from which they are but a few generations removed, and where the visitor may spend half a day in as delightful an outing as can be imagined.

John Griggs is a typical pioneer, who came to Iowa as a trapper and hunter forty years ago, but who, unlike others of his profession, settled down upon his virgin soil and applied himself to farming, while at the same time he surrounded himself with all the wild life he could induce through domestication or captivity to remain with him.

Mr. Griggs' farm for more than three decades has been a zoological garden of animal curiosities fresh from their wild haunts, not because Mr. Griggs wanted to be different from other Iowa farmers, but because the animals and wanted them for their company and for the inspiration they gave him.

He has made a success of tilling the soil and now, after attaining years when the activities of farm life are ceased up, he finds ample and constant employment with a side line as unique as any in the world—deer farming. Fifteen years he has been in the deer business. Wolves, wild geese, antelope, elk and other animals have in succession occupied his spare moments in cultivating their acquaintance for thirty years, but in no line has he succeeded so well as with deer. Fifteen years ago Mr. Griggs began with a pair of Virginia deer, but by careful study and added care blood has been built up a herd which are crosses or true bloods of black tails, Columbia black tails, Virginians and Minnesotas, though none of these breeds seem to do so well in Iowa as the northern deer, which vary little in size from other breeds, but seem better adapted to Iowa climatic conditions.

INBREEDING DISASTROUS.
The white tail is a much finer bodied, finer haired animal than the Minnesota deer, but is not hardy; so it may be said that this herd has veered around in its breeding for fifteen years to practically full blooded northern deer, of many types, but nearly all the same, and has grown from two to a hundred head.

This has been done by careful management and selection of the best breeding stock, which, as with other animals, is disastrous to the health of the herd and will in time produce mere scraps from beautiful, healthy, agile progenitors. Mr. Griggs thinks that careful selection of the does and securing of intervals a buck, caught young in the woods of Northern Wisconsin or Minnesota, is the best and safest way to keep up the standard of his herd. Strange as it may seem, deer in captivity are generally prolific breeders. The mating season is in November and the fawns are born alone in June or May, from the young does one or two, and from the older ones usually twins. As Mr. Griggs has it figured, from thirty does on his farm a crop of fifty fawns is expected. The fawns are spotted until fall, when their new coat comes. They require no attention, only to be let severely alone with the does.

Years in domestication of the parents does not rob the young of all the instincts of their wild life. It is impossible to get near them for some weeks, and even when practically mature if frightened they will charge a wire fence at breakneck speed in an effort to get away. For this reason Mr. Griggs finds that woven wire fencing is best, eight feet high and with posts set close to each other to hold it. The natural food of the deer is tender plants, shoots, leaves, sprouts, fruit and berries, which generally are found in the woods; so a wood is essential in breeding deer. They eat weeds but do not care much for ordinary grass, though clover and alfalfa are delicacies for which they pass by fencer, oats, straw and the like. Corn is the best grain, and the does must be fed a little grain during the summer to keep the doe in milk if the young are to be pushed for market. In winter the deer lose their appetite and will eat little food, thus coming out in the spring thin though not poor.

MICHIGAN HAS GOAL TO LAST CENTURIES

With 12,000,000,000 Tons to Start With, She Has Mined Only 24,000,000 Tons

DETROIT, Mich., April 27.—Michigan has a coal supply of 11,979,000,000 tons. According to Marlin H. Campbell, of the United States Geological Survey, the state's original supply of coal was 12,000,000,000 tons contained in an area of 11,900 square miles of coal producing territory. Up to the end of 1907 the production of the state had amounted to 13,842,013 tons, including the waste involved in the mining operations. This represented a total exhaustion of any 21,000,000 tons, leaving still available, as stated, 11,979,000,000 tons. The use of coal is only 0.15 of one per cent. of the original supply.

LAWS RESTRICT HUNTING.
Plenty of running water is needed, though in winter they need no water if snow is on the ground, as they eat that.

No shelter is needed save that of a grove of trees to break off the wind. The coat of hair of a deer is water-proof and they will not enter a shed. There is good profit in raising deer for the market, as Mr. Griggs is well able to testify. Deer are not as large as one would think. A full grown buck would weigh from 120 to 200 pounds and does from 120 to 175. Deer are fully developed at four years of age. The fawns, if they come early and the does are well fed, weigh at the age of six months from 70 to 90 pounds, and at eighteen months from 120 to 170 pounds.

A Great Bargain in Ladies' Gowns FOR THURSDAY NEXT

We have been very fortunate in securing a large lot of Ladies' Night Gowns at a great bargain. They are the over production of one of the largest underwear manufacturers. They are Gowns that were made to sell at from \$1.25 to 2.00 each. At Special Sale Thursday 9 a. m.

G. K. CHESTERTON'S CREW OF THE WAR SCARE

(The Graphic)
Everyone is talking just now about machines of death made out of steel or iron. People whisper in a panic-stricken way that Germany is building ironclads of the size of small islands, and one can almost fancy that the sun is darkened at noon with flying ships, like a flight of iron birds. I have my doubts about both the moral and the military value of this sort of imagination. Machinery is only armor, and armor is only clothes; and a very superficial study of some suburban dandies will suffice to show that it is no good to have clothes if you do not know how to put them on. We do not offer exquisite trousers to a man who has no legs. Neither do we offer difficult machinery to men who have no heads, nor dangerous machinery to men who have no hearts.

An obvious historical parallel suggests itself. Armor-plating is no new thing; ironclads are very old and romantic objects. Only in the old time the individual was an ironclad. They plated the man instead of the ship; but they calculated it carefully, so as to repel the shafts and bullets of the enemy. And this making of helmets and breast plates was a very subtle and exacting trade; the armorers were both an artist and a man of science. A great deal depended on him; men were often killed, like Dundee at Balaclava, only because one hole was found in their harness. No doubt there was a certain amount of international competition, and the advisers of a nation said: "Remember that you have to meet the steel coats of the English." "Remember that your enemies have admirable blades from Damascus."

Still, these fears were kept within the four corners of dignity. I absolutely refuse to believe that any English gentleman at the time of Crewe ever shrieked at the top of his voice: "Five more new visors for the Knights of Aquitaine" or "Six more Barbary horses seen in Gascony" or "French Government still buying Florentine gauntlets!" And, if we attempt to analyze the difference, I think we shall simply find it to lie in a sense of honor. Such an Englishman would have thought it cowardly to attach so much importance as all that to a difference of armaments. He would, as a reasonable person, inform himself about the weapons of his enemy; or he would not talk as if he had a curial axe which was rather a neat thing, he would probably go and buy a better one.

But he would not talk as if he could be conquered by the axe, and not by any other means. He would not talk as if there were a shower and hail of curial axes darkening the sun. He would not say that the German axes were growing larger and larger by a huge, incurable law of the cosmos. In the last resort, his own manhood would be his only possible source of defeat; that it may have betaken us through fear. But we seem eager to confess the fear before we need confess the defeat.

That is the obvious difference between the medieval Englishman and the modern. He talked of contending against a German knight, not against a German lance. Nor would he have been scared if you had told him that German lances were growing longer and longer, and that whereas ten years ago a German lance was forty feet long, it was now two hundred and forty feet long, and would soon be a mile long. He would deny that this was any reason for his really being afraid of the German knight—a degree of degradation which he would, indeed, have refused altogether to discuss. He would have denied it for two very forcible reasons, both of which are in their turn well worth consideration at the present time.

He would have denied it, first, because his common-sense would have told him that the mere elongation of lances, at enormous expense and with out any reference to the swift accidents of battle, was a piece of clumsiness and stupidity the more art of which would be much more worth while to teach a large number of healthy men to manage a short lance than to teach a few crook-backs to manage partially a long lance that could not really be managed. And while a man might be likely to strike an enemy first, it would be much worse than useless if it did not strike him at all, as he would simply sit smiling with a spiked lance in his hand until the monotonous length of timber had done by him.

Now, the average citizen is not an expert either upon lances or battleships. He cannot know much about the subject; but he can (I think) know a good deal about the expert. The good citizen possesses a sense of smell, given to him by God, like that of the dog; he has, in a mystical way, a nose for nonsense. And he smells something wrong when people go on talking blindly about bigger and bigger ships, though he might know nothing about naval wars; just as he would smell something wrong if people went on talking about longer and longer lances, though he might know nothing about the technique of tilting. Common-sense tells a man that indefinite development in one direction must in practice over-reach itself; that wearing ninety overcoats cannot be the way to cure cold; that drinking ninety pots of beer is by no means a protection against thirst; if you perceive your enemy plunging on blindly in a particular direction, the right thing to do, if you have any spirit and invention, is to calculate the weakness in his course and advance yourself in some other direction. You ought to take advantage of his infatuation, not to imitate it; you ought to surprise his plan of campaign, not copy it laboriously. If he is building very big ships, the best thing you could do would probably be to build small ones; ships lighter, quicker, and more capable of navigating rivers. If he has gone quite dotty on long lances, the chances are that you will win the battle with daggers.

But there is another reason besides

Therefore with all the heartiness proper to one who is wholly ignorant of the subject, I throw down my two private doubts, which are almost strong enough to be called suggestions. First, I gravely doubt whether our hurried emulation in arms is not a great deal too much a mere breathless and crazy copying. If the other schoolboy throws big snowballs, it is the mere instinct of burly to throw bigger ones; but it might be much better strategy to keep one's head, to throw a smaller snowball and to throw it straight. In short, I disbelieve in this modern war exactly because it is always laked as of a war of guns and ships, and never as a war of men and secondly, I doubt whether this competition of longer spears or larger ships need go on at all, if once the nations could find something positive upon which to combine. Of course they cannot combine on mere peace; peace is a negation, like darkness.

Is there any affection or institution or creed on which we can combine?—that is the interesting question. It is our dreadful condition that we agree too much on all the things in which we ought to agree—motives, reasons, and beliefs. In the things of life and love we are separated; in the things of death and blood we imitate each other. In a healthy existence the inmost thing should be secure, but the outer gestures energetic and varied. But with modern Europe it is the limbs that are heavy and the heart that has unrest.

G. K. CHESTERTON.

LOOKS RATHER BAD FOR THEM

Those Seven Aldermen Still Out
Legislature May Adjourn Before Case is Settled

MONTREAL, April 26.—The seven Montreal aldermen unseated and disqualified by the court of review are getting a great deal more law than they desired these days. When the decision of the court was announced they at once entered an appeal to the court of appeals, though the statutes plainly declare that such an appeal does not lie. The hope was to keep themselves aloof for a while longer. In the meantime the aldermen secured re-election from their constituents. The legislature was found willing to afford this relief, but to the honor of the state is from coal brought from Ohio and Pennsylvania.

All of the coals produced in Michigan are of the dry non-cooking bituminous variety. Such coals as are made in the state are from coal brought from Ohio and Pennsylvania. Though the coals of Michigan are, as a usual thing, of a lower grade than those which they have to compete, yet so rapid has been the development and increase of population in the cities along Lake Michigan and Lake Huron and the Detroit and St. Clair rivers that local markets for them have been created, and the increase in production during the last ten years is unrivalled, proportionately, in the coal-mining industry of the United States. The various coal beds of Michigan are designated by Professor Alfred C. Lane as the Upper Ridge, Upper Verne, Lower Verne, Middle Rider, Saginaw, Lower Rider and Lower Coal. With nearly 12,000,000,000 tons yet to draw upon the day will come when Michigan will be one of the most important coal producing states of the union.

But there is another reason besides

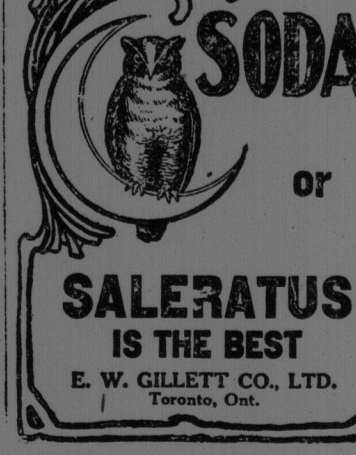

TERRIBLE EXPERIENCES OF SCHOONER'S CREW

Vessel From West Indies Arrives at Halifax After Voyage Crowded With Perils.

The schooner Advance, Captain Burgess, arrived at Halifax yesterday from Fernandina, Florida, with a cargo of hard pine and cypress wood, after a hard voyage. Heavy seas smashed the windows and loots and the wind ripped the sails. Part of the deckload was washed away and one of the crew, Fred Hannan, was washed overboard and was rescued with difficulty. The vessel ran into a wreck and was damaged, the tarball was broken, fore boom smashed, forecastle torn open and the men were obliged to work continually at the pumps until the schooner reached Bermuda on December 30th, and repairs were made. The schooner left Bermuda on Jan. 4th, and experienced hurricanes and gales of wind for about twenty days. A man who was lashed to the wheel was torn away and washed over the forecastle and bruised against the mast.

The vessel became unmanageable. By Feb. 15 the schooner was driven back to Barbadoes, having sustained heavy damage and lost 16,000 feet of valuable lumber.

Repairs were made at this port at a cost of \$3,500. On March 30 she left for Halifax and arrived after an awful four months' voyage.

POOR DOCUMENT

APRIL 27, 1909

THE STAR, ST JOHN N. B. TUESDAY, APRIL 27, 1909

SEVEN

FIVE GRADUATES FROM LAW SCHOOL

(Continued from page 8)

Some years before the organization of the law school an effort was made to establish a department of law in connection with the University of New Brunswick, the school to be situated in St. John. His Honor Chief Justice Barker who was then practicing at the bar, took a very active part in the matter, but the authorities of the University of New Brunswick did not seem to take to the idea. The late Dr. Stockton also brought the matter before the board of regents of M. Allison, but there seemed to be no disposition to take hold of it. Later on Rev. Dr. Partridge interviewed a number of the professors of St. John with respect to the organization of a school under the auspices of Kings College, Windsor, N. S. It was through the efforts of Dr. Partridge that the school was started and the first classes were held in successful operation ever since. The first dean was Dr. Allen O. Earle, K. C., who occupied that position for ten years. Upon his resignation, Oct. 27, 1892, Dr. Silas Alward, K. C., succeeded him.

On the death of Sir John C. Allen, who was the first acton, His Honor Mr. Justice Hamilton was appointed patron, and he now fills that office.

The faculty at present consists of the Hon. Mr. Justice Hamilton and the president of Kings College, dean of the faculty and professor of Roman and common law, Dr. Allen O. Earle, K. C., evidence and wills; Dr. T. D. Walker, medical jurisprudence; John E. Baxter, B. C., K. C., bills and contracts; K. C., procedure and pleading; E. P. Raymond, B. A., procedure; J. D. Phinney, M. A., K. C., constitutional law; Hon. H. A. McKeown, M. A., K. C., contracts and evidence; Fred Taylor, B. A., K. C., bills and contracts; H. A. Powell, M. A., K. C., constitutional law; Hon. H. A. McKeown, M. A., K. C., contracts and evidence; Fred Taylor, B. A., K. C., bills and contracts; H. A. Powell, M. A., K. C., constitutional law.

Besides the faculty the following are members of the board of examiners: Attorney General Hazen and M. G. Teed, K. C., president of the New Brunswick Baristers' Society.

ANTICS OF A RUNAWAY HORSE

A runaway horse caused some excitement on Mill street this morning. It came dashing down Pond street about twelve o'clock and cut across the lot opposite the depot, where it stopped at the edge of the wharf. The C. E. gateman made a gallant attempt to capture it, but the horse saw him coming and made for him in a vicious manner. The ant and flew, pursued by the horse, and finally dived behind one of the gates. Just then the Atlantic came along and the animal had a narrow escape from being run over. It was finally captured by its owner.

VOICES FOR WOMEN

The Iowa Woman Suffrage Association has addressed a letter to each candidate for the state legislature asking him what action he will take on the woman suffrage question, if elected, and telling him that if he does not reply before a certain date, his silence will be construed as opposition.

Miss Perle Penfield is making a complaint for woman suffrage in Kentucky under the auspices of the Kentucky Equal Rights Association, of which Miss Laura Clay is the president. She is speaking at parlor and public meetings, to labor unions, schools, colleges, etc.

Mrs. Helen Hoy-Greeley, a clever young New York woman, who was admitted to practice before the Supreme Court of the United States, April 10th, is president of the New York Co-operative Woman Suffrage League.

While the women of the United States are being admonished on their hand not to emulate the example of the English suffragettes, an Ohio editor is suggesting that "what the women should do is to forcibly release every woman prisoner confined in any place, and take forcible possession of every woman's institution." He says, "The correction, every application of law, should be resisted forcibly and I wish the rebellion would start in Ohio."

The Central Labor Council of Los Angeles, Cal., on April 2, adopted a set of resolutions strongly endorsing woman suffrage, and recommending all members to sign the woman suffrage petition to congress. On April 8, the District Council of Carpenters and Philadelphia took similar action, pledging to assist the Pennsylvania Woman Suffrage Association in securing signatures to the national petition to congress to submit to the legislature of the several states for ratification an amendment to the national constitution which shall enable women to vote.

WOO LATE FOR CLASSIFICATION

LOST—On Paradise Row, or Main street, Round Gold Locket and Chain. Monogram, D. M. C., containing picture of great value. Reward if left at Star Office. 27-4-2

FOR SALE—Horse, 1200 lbs. Good worker. Sold at bargain. Apply to ALBERT MCINERNEY, 61 St. Patrick street. 27-4-4

WANTED—Young woman wants work by day or week, washing, scrubbing or house-cleaning. Apply in rear of 14 Cliff St. 27-4-2

WANTED—By young lady formerly May 1st, boarding in private family. State terms. Box 57, Star Office. 27-1-1

FOR SALE—Dinghy perfectly new first class boat, for sale cheap for quick sale. Address Box 57, Star Office. 27-4-4

ROBBER TRACED BY INK UPON BLOTTER

San Francisco Police Find Identity of Letter Box Thief Through Unusual Clue.

SAN FRANCISCO, April 26.—Ink stains on a blotter have enabled the local post office officials to discover the identity of P. B. Mills, alias Frank Langham, a letter box robber, who was arrested recently while trying to pass on Ross Brothers a check for \$500 drawn in favor of Benjamin Fay Mills, an evangelist, which had been stolen from a letter box in Alameda.

The blotter was found among the prisoner's effects in his room in Oakland, the address being read by holding it before a mirror.

The only words discernible were "San Antonio, Texas." With this slight clue Post Office Inspector Joseph P. Johnson communicated with the postmaster at San Antonio, enclosing a picture of Mills in the letter. A reply to Johnson's inquiry was received in due season.

Mills, whose correct name is given as S. H. Fisher, has served two terms in the Texas penitentiary. His last conviction was on a charge of burglary committed in San Antonio in 1897. For this crime Fisher served two years.

It was a letter addressed to Chief of Police Charles Van Riper, of San Antonio, that Fisher had blotted. This letter was received by Inspector Johnson, with a full history of the prisoner. In the letter Fisher thanked the chief for past kindnesses, saying he was living a good life and expected to return to Texas in about two years.

The letter was written from Los Angeles, where Fisher was working at his trade of machinist, which he had learned while in the penitentiary. He complained of the low wages paid in Los Angeles, stating that he was then working for \$2.50 a day.

Fisher was first arrested in Austin, Texas, on a charge of arson. On serving his term for this offense he was arrested for burglary by Detective Van Riper while in the penitentiary. While in Texas he travelled under many aliases. The initials "J. M. C." are tattooed on his arm, this work having been done while he was a convict.

Fisher comes from one of the best families in the South, according to Van Riper, although he failed to give the address of Fisher's parents. In the letter written to Van Riper Fisher tells of visiting his sister in El Paso while on his way to California.

AMATEUR PERFORMANCE AT THE OPERA HOUSE

In the Opera House last evening Arthur McCloskey, well known in local dramatic circles, supported by a company of St. John amateurs, presented "The Belle." He is to be congratulated on his success.

McCloskey's work last night was most praiseworthy and showed talent above the average. He has a pleasing voice and his portrayal of the emulous of gully four and impudent which consumes the breast of Mathias the burgomaster, was impressive and fascinating.

He was ably supported by Miss O'Reilly as the Burgomaster's wife, and by F. Conroy as Christian, the French quartermaster. Miss Birchill, as Annette, was most pleasing. The company of Hans, Father Walker, Zimmerman were very adequately sustained by L. Conlon, J. R. McCloskey and H. Taylor, respectively. The work of Miss O'Brien as Rozel, also well praised for her. Tonight's bill is Lost Paradise.

PERSONAL

A. W. Mackay returned to the city this morning. He came in on the Boston train at noon today.

C. T. Gillespie arrived on the Boston express this morning.

Mrs. A. M. Rowan returned to the city this morning.

W. M. Jarvis came in on the Atlantic express today.

Sydney Bowden, formerly of the firm of Dillon and Bowden, of this city, and now of Toronto, arrived in the city today, and will leave on the Victorian at 10 o'clock of the week for a visit to England.

C. W. Miller, representing the Kirk Brown Company, is in the city for the company an engagement at the Opera House next Monday.

THE MAT ROD AND GUN.

Variety is the dominating feature of the May number of Rod and Gun in Canada, published by W. J. Taylor, Woodstock, Ont. In accord with the season there are some good fishing stories, while hunting receives such a full share of attention that moose, deer, bear, wolves and wild geese all have particular stories given up to them. Two fine exploration papers—an illustrated review of "Mr. Tyrrell's" book, "Through the sub-Arctic of Canada," and one by Mr. Dickson describing a personal trip through Northern Ontario—give us some little idea of how much remains to be done in exploration work in Canada. Mr. Clapham has another fine dog article, "The Beggle for Sport," which all dog-lovers will peruse with interest. The declaration of the Ontario government to have licensed guides is noted and the order-in-council dealing with the matter printed in full. Dr. C. Y. Warren's paper on Wild Life appeals to every lover of the outdoors and cannot fail to have some effect in the direction the author wishes. This number completes the tenth volume and attention is drawn to the work of the magazine in Forest, Fish and Game Protection, and the manner in which the movement in its favor has spread throughout Canada. The position achieved by the magazine is well set out with pride and credit given to all those who have assisted Canada's sporting magazine. If future numbers are as good as this birthday issue—and we are assured that not only will the high standing be kept up but efforts made to improve upon it—there can be no doubt at all as to the future of Rod and Gun. The magazine has now secured for itself a position not easily to be shaken.

CAMPBELLON KICKS AT INCREASED DEBT

(Continued from page one)

Mr. Crockett of Campbellton said last summer the town council passed \$25,000 water bonds and the citizens did not know where the money had gone. Later they made extensions to the water system and made another bond issue of \$50,000 additional water bonds to be sure to a satisfactory collection of delinquent taxes.

The bill to amend the act relating to rates and taxes was taken up. There were really three bills under discussion, that introduced by Mr. Woods, York, and one brought forward by J. H. Fiewelling, of Kings. The object in the three bills was identical and was to make more effective the collection of delinquent taxes.

Dr. Brynne said that the question was discussed at the last meeting of the Gloucester Municipal Council and a resolution was adopted in favor of Secretary Treasurer B. S. York, explained some of the difficulties that the county had in collecting taxes from non-residents and incorporated companies and to which Mr. Robinson's bill was intended to obviate.

A bill was drafted satisfactory to all the parties and will be recommended to the house.

The corporation committee further considered the N. B. Cold Storage bill. At Mr. Macdonald's suggestion, with Mr. Baxter's consent, the bond issue was limited to one hundred thousand dollars.

The General Oil Shales Company's bill amendment to the N. B. Aluminum Production Company's charter, received from the legislature five years ago, is to authorize the taking over of the latter company.

Mr. Wilson thought the legislature should be careful of legislation of this character. It was intended to interest a large amount of English capital and the investment should be protected as far as possible. Foreign capital had been lost in companies previously incorporated here.

In the letter written to Van Riper Fisher tells of visiting his sister in El Paso while on his way to California.

TOREADOR SLAIN BEFORE ROYALTY

Two Princesses and the Infante Carlos Horrified at Tragedy in Bull Ring.

MADRID, April 26.—A brilliant day ended in a tragedy at the bull ring this afternoon. Princess Maria del Pilar and the Infante Carlos were present in the royal box. They were watching the fight between a French and an English visitor mingled with thousands of spectators.

The last bull had been in the ring for some time when it suddenly took the Mexican torreador, La Garrillita, unaware of the bull's horns, pierced his neck.

Wild uproar started when the people saw the twenty-two year old torreador fall. As it became evident that La Garrillita was terribly wounded screams went up from many women about the arena, several of whom fainted.

The bull was almost immediately turned away from the body, dead in its glittering costume, lying dead on the sand of the arena.

There was one other torreador in the ring. This was also a Mexican, named Geona, who proved more fortunate than his competitor. He was killed by a charge of the bull's horn.

Brown laughed and started for the arena. He is a self-possessed but most cheerful thirty-seven year old. His well knit form indicated the strength that carried him through the ordeal.

He was taken to the place where he landed, near Gratford, Friday night, and roved the boat ten miles to Bourg, to get it aboard the ferry.

FUNERALS.

MRS. JOHN DINEEN.

The funeral of Mrs. John Dineen took place at 8:15 o'clock this morning from her late home, 175 Rodney street, West End. The remains were taken to the Church of Assumption, where Rev. J. O'Donovan said Requiem Mass. Interment was in Sand Cove Cemetery.

FLIGHT OF GEESSE FROM SOUTH NOW RARE SIGHT

Route of Birds Brings Them Over Great Wheat Belt, Upon Which They Feed.

PARIS, April 26.—The Figaro says that Father Maggioni, director of the seismic observatory near Siena, has discovered a new class of waves which he has named "waves of earthquakes." He has constructed an apparatus which renders the new waves perceptible and permits the forecasting of an earthquake.

The apparatus was successfully tested on April 11, when it twice announced earthquakes which occurred within a radius of twelve miles from the location indicated four minutes after the apparatus had signalled them.

MESSINA'S DEATH ROLL

Official Estimate Makes 70,000 Minimum Figure for Stricken City.

MESSINA, April 26.—An official estimate places the number of bodies of the earthquake victims at 25,000, and of those still in the ruins at 45,000. Both figures are the minimum.

SPRINGFIELD, Ill., April 26.—Edward Payson Weston, who is walking from the Atlantic to the Pacific, passed through Springfield today and left for Grand, where he expects to spend the night.

TIN TOMATO CAN SAVES MAN'S LIFE

With it a Castaway Farm Hand Bails His Boat for 29 Hours

Blown 62 Miles by Storm—Unable to Row in Great Gale, Edgar L. Brown is Driven Across Lake Ontario.

ROCHESTER, N. Y., April 26.—Edgar L. Brown, who was blown across Lake Ontario in a recent big storm in a flat bottom punt, walked down the gangway of the ferryboat Ontario at Charlotte at five o'clock a few days later and was cheered by half the population of the village. The famous boat was on the ferry and was immediately claimed by Michael Burns, a farmer, who owns it. A neighbor offered to buy Burns and the boat a lift home in his wagon.

"Not on your life," said Burns; "that boat has a record. It has sailed in the first hour at sea, and was sodden when he landed. He says the waves looked as tall as church steeples."

"What did I think of?" echoed Brown when asked about his experience. "I simply couldn't think. Every faculty seemed concentrated in that tomato can. It was only Almighty God that kept me afloat. Had alone I could not have survived. I suffered from cold terribly and the exercise of bailing absolutely prevented me from succumbing from exposure."

"I tried to use the oars but saw it was impossible to make headway against the wind. The only course open to me was to go with the wind and keep her afloat until I was blown to the other shore."

"I alternately rowed and bailed all day and night. I stopped rowing and bailed all night. About ten o'clock Tuesday morning I was blown up the lake and saw the blue haze of the Canadian shore. It was looking up a sale then. The wind was southeast and I kept her afloat until I was blown from the south. I got near the land about noon."

The boat was swamped several rods from shore and I took my last ounce of strength to get her in and pull her up on the land. She collapsed, but managed to get her afloat into the water."

GOT FOOD AT FARMHOUSE.

"When I got so I could walk I made my way to a farmhouse, where I got food and dry clothing. I had eaten nothing since supper Sunday evening."

Brown rested a little while and then walked to a house in Rochester. He was to finish the seven miles to his wife's house in Port Huron on foot and went to the house of a friend who had heard nothing about his being blown out to sea, but his first thought was that she would have heard it and he wanted to relieve her mind. A letter announcing his supposed drowning reached her in Rochester in Charlotte.

Port Hope. He was a hero in Port Hope and the Canadian papers of the section were full of the story of the rescue.

"There's a plough out on the farm that just fits Edgar," Mr. Rigney said, decisively. "Come home, Edgar."

Brown laughed and started for the farm. He is a self-possessed but most cheerful thirty-seven year old. His well knit form indicated the strength that carried him through the ordeal.

He was taken to the place where he landed, near Gratford, Friday night, and roved the boat ten miles to Bourg, to get it aboard the ferry.

SAY MURDER VICTIM LIVES; 'LORD' SERVING A LIFE TERM

Two Persons Identify Man as One Supposed to Have Been Slain by Barrington; Who Posed as Nobleman.

DES MOINES, Iowa, April 26.—In J. C. Maybray, a man in jail here, on charges of working fake horse races throughout the country, federal authorities have identified "Jim" McCann, the St. Louis turfman, who was supposed to have been murdered in St. Louis in 1902, and for whose death "Lord" Frederick Barrington is serving a life sentence in the penitentiary at Jefferson City.

Two persons are positive that Maybray is McCann. Later, further identification was made by Barrington.

Barrington is an Englishman, who came to this country after a race as a crook and petty thief, which extended from England half way around the globe. He posed as a member of the British nobility and a former officer in the English army.

Under this pretense, he won the love of a girl in Kansas City and married her. Later his wife left him, and he shortly after he had been discharged that he met McCann. The turfman took a liking to him.

One night McCann disappeared and Barrington told his wife that he had seen him in a fight the night before. Several weeks later, when the horseman did not return, Barrington was arrested.

Barrington was convicted and sentenced to be hanged. There seemed to be a doubt of his guilt and many persons protested against his execution. Governor Frank granted a commutation to life sentence in 1907.

WAVES BEFORE EARTHQUAKES

Discovery by Italian Priest—Pronouncements Too Late for Use.

PARIS, April 26.—The Figaro says that Father Maggioni, director of the seismic observatory near Siena, has discovered a new class of waves which he has named "waves of earthquakes." He has constructed an apparatus which renders the new waves perceptible and permits the forecasting of an earthquake.

The apparatus was successfully tested on April 11, when it twice announced earthquakes which occurred within a radius of twelve miles from the location indicated four minutes after the apparatus had signalled them.

MESSINA'S DEATH ROLL

Official Estimate Makes 70,000 Minimum Figure for Stricken City.

MESSINA, April 26.—An official estimate places the number of bodies of the earthquake victims at 25,000, and of those still in the ruins at 45,000. Both figures are the minimum.

SPRINGFIELD, Ill., April 26.—Edward Payson Weston, who is walking from the Atlantic to the Pacific, passed through Springfield today and left for Grand, where he expects to spend the night.

HEN "SET" ON GOLF BALL, NOW "MOTHER" OF KITTENS

Order in Years Than in Experience, She Tries to Hatch Out Robber Nest Egg—Finds Herself Responsible for Family of Black Tabbies

ST. LOUIS, Mo., April 26.—St. Louis is county sparrow hen, not having had any domestic experience, though she is no spruce chicken, is mothering a litter of kittens, fondly believing that she hatched them from a golf ball. Reasoning quickly from causes to effect, she decided that they were hers.

Since then she has cuddled the kittens under her wings most of the time. When Tabby comes near Biddy refuses her feathers and "peeks" at her. She sits on a roost above the nest and snarls. Her only object is to keep her offspring safe when Biddy goes to bed with the chickens at sundown.

"Then came Tabby, house hunting. The nest to her was a 'lovely flat,' and she moved in with her family."

The next time Biddy peeped over the edge of the box she saw the kittens. Reasoning quickly from causes to effect, she decided that they were hers.

Since then she has cuddled the kittens under her wings most of the time. When Tabby comes near Biddy refuses her feathers and "peeks" at her. She sits on a roost above the nest and snarls. Her only object is to keep her offspring safe when Biddy goes to bed with the chickens at sundown.

LEARNING THINGS

We are all in the Apprentices Class

When a simple change of diet leads to health and happiness the story is briefly told. A lady of Springfield, Ill., says:

"After being afflicted for years with nervousness and heart trouble, I received a shock four years ago that left me in such a condition that my life was despaired of."

"I could get no relief from doctors nor from the numerous heart and nerve remedies I tried, because I didn't know that coffee was doing me back more than the doctors could put me ahead."

"Finally at the request of a friend I left off coffee and began the use of Postum and against my convictions I gradually improved in health until the past 6 or 8 months I have been entirely free from nervousness and those terrible aching, weakening spells of heart trouble."

"My troubles all came from the use of coffee which I had drunk from childhood and yet they disappeared when I quit coffee and took up the use of Postum."

"Many people marvel at the effects of leaving off coffee and drinking Postum, but there is nothing marvelous about it—only common sense."

Coffee is a destroyer—Postum is a builder. That's the reason.

Look in plans for the famous little book "The Road to Wellville."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Eric P. Maciel left yesterday for Antigonish, N.S. Mr. Maciel has been appointed manager of the Bank of Nova Scotia in that town.

To assist in office and learn the business. Must be bright and active. Apply A. E. HAMILTON & GAY FAC-TORY, 215 St. Wednesday, 28th, between 5 and 6 p. m.

Synopsis of Canadian North-west Land Regulations.

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Land Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead, a farm of at least 30 acres solely owned and occupied by him, or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section along his homestead. Price \$3.00 per acre. Duties—Must reside six months in each of six years from date of homestead application. The time required to earn homestead patent and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchase homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

59 CHARLOTTE ST.

The Real Facts

There is not a man or a young man today in St. John who buys clothing who doesn't want the right kind at right prices. There is scarcely one but has his ideas of what he wants for Spring in a suit of Overcoat and knows what he can afford to pay for it. This being the case does he know where to get his wants supplied in an honest straight-forward manner? We say right here—Why?—Because our business of to-day and the future depends on using our trade the best we know how; seeing to it that they get full value for their money and clothing of the right character and style. This is the reason we wear 20th Century Brand Fine Tailored, Ready-to-wear Garments. Suits from \$15 to \$25. Other reliable makes \$10 to \$20.

LOCAL NEWS

Two reasons why you should buy at C. B. Pidgeon's North End store: The goods are the best and the prices are lower. Do you know of a better inducement?

Mrs. R. W. Robinson will be at home to her friends Wednesday afternoon and evening, April 28th, at 107 Victoria Street.

St. John County District Division Sons of Temperance meet in the Temperance Hall, West Side, this evening. All members of the order invited to attend.

This evening the St. John district division Sons of Temperance will hold their second quarterly meeting in the Temperance Hall, West End. Members are invited to be present.

DOG OWNERS WILL BE HEARD TOMORROW

Invited to Meet the Bills and By Laws Committee and State Their Objections to New Regulations.

The prolonged howl which has been raised by local dog fanciers, and those who do not include themselves in the class but who own dogs of one description or another, ever since the increased license fee was suggested, has evidently made some impression at last.

Ald. Pickett, chairman of the Bills and By Laws Committee, who is in Fredericton at present, wired the common clerk this morning asking him to announce a meeting of the committee at which the dog owners will be heard. The meeting will be held at City Hall at 2:15 tomorrow afternoon. All those who have any objection to the proposed legislation are invited to attend and state their ideas on the subject. If the committee expected their invitation to be accepted they should have hired the sink. It is expected that the Kennel Club will be represented by its officials and that other private citizens will also be present.

SAID HE WAS GOING TO, BUT CHANGED HIS MIND

Police Summoned by Report That J. W. Fanjoy Was About to Cut His Throat.

There was considerable alarm in the household of James W. Fanjoy at 50 Clarence street, about 9:30 o'clock, when Mr. Fanjoy, taking a razor, threatened to cut his throat and then looked himself up in his room. Mr. Fanjoy, who is a carpenter by trade, has been ill with pneumonia, and it is thought that his illness is the cause of him making the threat.

Policemen Crawford and Goelie were hastily summoned to the home as it was feared that the man might injure and kill himself. He was found when he arrived the bedroom door was unlocked and Mr. Fanjoy was found lying peacefully in his bed.

ALBERT ELLS IS IN A SERIOUS CONDITION

Shot Himself on Board a Schooner While Suffering From Kidney Trouble.

The schooner Lavana, of St. John, bound from New York to Bridgeport, put into Shelburne yesterday to land the cook, Albert Ellis, of West St. John, who early in the morning had shot himself in the abdomen. Mr. Ellis, who is a son of Capt. Alfred Ellis, of the West Side, now in command of the schooner Swallow, has been in poor health for the last seven years and has undergone a number of operations for kidney trouble. Some three months ago he left St. John on a trip to New York for treatment, and his friends here were under the impression that he was still in New York. They were consequently surprised last night to receive a message that he was dangerously ill in Shelburne. They did not know until this morning his real condition.

Mr. Ellis was taken ill on Sunday afternoon and went to bed. It is believed that a sharp attack of his disease caused temporary insanity and that while in this state he shot himself. Upon recovering consciousness after the shooting he was perfectly rational and had no recollection of what he had done.

Information received this morning was to the effect that Mr. Ellis is now under the care of two Shelburne doctors and that while his condition is very serious there is some hope for his recovery.

Capt. Alfred Ellis, who is now with the schooner Swallow at Salmon River, will go to Shelburne today.

PROBATE COURT

Estate of Eliza J. Fish. The passing of the accounts of the administrator, the husband of the deceased, was continued. At the time of the death of the deceased a leasehold was in her name. The husband claims that this property was his own and that he is now entitled thereto. A son disputes this and claims that he is entitled to a share as one of the next of kin. Further hearing adjourned till Monday, 3rd May next. Mr. R. G. Murray, proctor for the administrator, Mr. Daniel Mulh, K. C., proctor for the son.

FIVE GRADUATES FROM LAW SCHOOL

Leave for Windsor Tomorrow to Receive Degrees.

A Sketch of the School and the Faculty—The Study of Law Now and in the Past.

The examinations of King's College Law School of this city have been completed and the graduating class consists of D. King Logan, G. Darle Logan, Harry W. Lunney, J. Starr Tat and Enoch Thompson.

Douglas King Logan, B. A., is the son of Premier Logan. He is president of the student body and is articled in the office of Messrs. Hazen and Raymond.

Gilbert Darle Logan, is the son of E. Logan, barber, of this city. Mr. Logan is articled with J. B. M. Baxter, K. C.

Harry William Lunney, B. A., is the son of the late Thomas Lunney, retired merchant. Mr. Lunney is articled with M. Price.

James Starr Tat, B. A., is the son of John B. Tat, manager of the I. S. Johnston Co., Ltd. Mr. Tat is articled with M. Price.

Enoch Thompson is principal of La Tour School, Charlott. Mr. Thompson is articled with Dr. Alward, K. C.

The class, with the exception of Mr. Hazen, who is confined to the house through illness, leave tomorrow morning for Windsor, N. S., where the degree of Bachelor of Civil Law will be conferred on each. Mr. Hazen will take his degree in absentia.

Dr. Alward and J. Roy Campbell will accompany the students.

Besides the graduating class the undergraduates are: John C. Belyea, Lester Hollis Smith, Harry P. Saunders, Geo. H. Adair and William A. Nelson. These compose the '10 class. The freshmen are John P. H. Teed, Horace A. Parter, Leonard Conlon, Alexander M. Funnigham, Bruce S. Robb and Herbert McLean.

A leading barrister in conversation with The Star recently contrasted the opportunities of studying law in Saint John in former years with those of the present day. It used to be the custom for students at law to go into the office of leading practitioners, who, being very busy, had little time to give instructions to students. The young men were left to grope their way as best they could, there being no systematic course of study laid down. About the only text books were Blackstone's Commentaries, and Chitty on Contracts, Chitty on Bills of Exchange and Chitty on Pleading. Some of the barristers would occasionally examine the students, but this was an exception rather a rule. Unless a student had a very strong determination to learn the law he would put in four years without acquiring very much legal knowledge. The advantages now were as good as could be had anywhere, there being a systematic course of study directed by competent lecturers, and regular examinations. He remarked that school of this city was unusually high, 50 per cent being the lowest that could be made on each paper to entitle the student to pass. In the course at universities for the degree of bachelor of arts 25-30 per cent was the pass mark, and at Harvard, McGill, Toronto and Dalhousie Law School he understood the pass mark was only 50 per cent, which was 10 per cent below that of our law school.

The faculty met yesterday afternoon in the secretary's office and transacted routine business.

King's College Law School was established in 1892. Rev. Dr. Partridge was its prime mover, and the first meeting for the purpose of establishment was held in the office of Mr. I. Allen Jack on August 17th, 1892. The school formally opened October 8th, 1892, and the first faculty consisted of the late Mr. Justice Palmer, the late Mr. Justice King, the late Hon. Judge Peters, Mr. Justice Hamilton, Dr. A. O. Earle, (dean), the late I. Allen Jack, the late Dr. A. A. Stockton, K. C., the late Hon. A. G. Blair, the present Minister of Public Works, Dr. W. W. Weldon, the late Mr. C. N. Skinner, the late Judge Trusman, Dr. L. A. Curry, Premier Hazen, and J. Roy Campbell, (secretary). Mr. Justice White, Dr. Elias Alward, K. C., Dr. T. D. Walker and Mr. A. E. McIntyre.

(Continued on Page 7)

STILL TALKING ABOUT THAT C. P. R. PASSENGER

Mr. Taylor Wants a Commission to Take Evidence in Liverpool.

The case preferred against the C. P. R. by the immigration department for permitting an insane passenger to land in Canada, was resumed in the police court this morning. James V. Leask, the local immigration agent, was recalled to prove his appointment to the position he occupies.

Fred R. Taylor, for the C. P. R., informed the court that if there was not to be a dismissal of the case he would ask for an adjournment and a commission to take evidence in Liverpool, Eng.

Both Mr. Taylor and E. H. McAlpine, the latter representing the Government, argued on the point and Magistrate Strickland adjourned the hearing until Friday morning at ten o'clock when he will give judgment.

Two prisoners were on the police court bench this morning. Wm. Graham, aged 21 years, resisted arrested on the Marsh road while being arrested for being drunk, and was fined \$30 or 70 days jail.
