### General News

Charlottetown, Sept. 18.—A meeting of the Brotherhood of Railway Trainmen took place Sunday. There was a large attendance from Moncton, Campbellton, Fredericton and Stellarton. The officers are: Past President, George S. Ryan; president, O. V. Cruickshank; vice-president, R. A. MacDonald; secretary, J. Hughes; treasurer, Robert Sweetman; warden, O. Bonard; conductor, F. Robins; chaplain, F. M. Kie; inside guard, A. Jardine; outside, W. Wilbur.

Washington, Sept. 17.—The Klondike placer miner district in Alaska has produced \$150,000,000 in gold since 1898 and mining experts estimate the amount yet to be mined will equal that already produced. Consul Cole of Dawson, states that the gold output for 1910 will exceed that of 1909, when more than three and a half millions was produced. Most of this gold, he states, was shipped to the new Canadian mint. Consul Cole reports that rich deposits of copper ore have been discovered in the southern part of the Klondike district.

St. John's, Que., Sept. 17.—While sitting at his desk in his office, Gabriel Marchand, editor of the Canadian Francois, and member of the Quebec legislature, was suddenly stricken with heart failure and died at his home a few moments later. The deceased gentleman was the only son of the late Hon. F. Marchand, at one time premier of Quebec. He was prominently known in French journalistic circles and was a great Liberal worker, besides being a most talented speaker. Mrs. Dandurand, wife of Senator Dandurand is a sister. He was 50 years of age and leaves a wife and three children.

The "Greetings" is always pleased to receive news items from readers of the paper. The doing of your district interest the people of other localities and give the impression that your district is a live one. Kindly forward any news you may have. Write on one side of the paper only. Mail in time to reach us Monday of each week (or sooner). Avoid all items reflecting on personal character, but send all the news. Check off this list, it may assist you to remember an important item. Deaths, marriages, accidents, church news, suppers, or presentations, removals, visitors, lodge news fires, public improvements, law cases the crops, school matters.

Washington, Sept. 15.—The balance of trade, which the statistics of the last thirty years have generally shown to be largely in favor of this country, has turned over. It now stands \$1,000,000 on the other side of the ledger for the first eight months of the calendar year. The month of August swung the pendulum and brought to the United States \$3,563,425 more in trade than it ever took out.

From that condition students of economies may draw conclusions as varied as they may be many. One is that there has been no readjustment of prices in the United States since the panic of 1907-08. Another is that the balance of the trade has been against us for a long time without showing in the statistics of merchandise, because Americans spend \$150,000,000 a year in Europe and more millions are paid for ocean steamship freight rates to the German and British banks at the close of business on Sept. 1, now being compiled, will verify the latter conclusion in a measure, and it is predicted that the gold imports for August, which amounted to \$9,668,183, are but the forerunner of the flow of gold due from Europe in September and October in settlements for the shipments of grain and cotton.

### Sherman-McCallum St. Mark's Church Scene of a Pretty Wedding on Mouday Last.

A quiet but very pretty wedding took place at St. Mark's church St. George, N. B. on Monday, Sept. 19th, when Miss Jessie Agnes MacCallum youngest daughter of Mrs. J. A. MacCallum was united in marriage to Mr. Grant Simmons, Sherman of the C. P. R. engineering staff Brownville Junction, Me. The marriage took place at high noon, the bride who entered the church on the arm of her brother Mr. George C. MacCallum looked very charming in a handsome suit of tan cheifon broadcloth with a panne velvet picture hat to match and carried a bouquet of white sweet peas, white carnation and asparagus fern. The church was beautifully decorated with quantities of autumn leaves and ferns. The ceremony was performed by Rev. H. I. Lynds, the bride being given away by her mother. After the ceremony a dainty luncheon was served those present being the immediate relatives of the young couple and the Rector and Mrs. Lynds. The brides going away gown was a severely tailored costume of dark green English tweed with close fitting green velvet hat with persian band trimming. The happy couple left on the afternoon train enroute to Boston and vicinity followed by the good wishes of many friends. The honeymoon will be spent with Mr. Sherman's mother at East Derry, N. H. and his grandfather Judge Edgar J. Sherman of the Superior Court of Mass. at Jamaica Plain, Mass. Mr. and Mrs. Sherman will make their home at Brownville Junction. Many beautiful gifts testified to the popularity of the young people, Mr. Sherman having made many friends in St. George. The friends from out of town who were present for the wedding were Mr. Sherman's grandfather, Hon. M. H. Goudge, M. L. A. and Mrs. Goudge of Windsor, N. S., Mrs. Arthur G. Bailey of Woodstock, aunt of the bride and Mrs. T. H. White and little son of Shelburne, N. S. Music was furnished by the choir, the wedding march being played by Miss Jennie Meating, Mr. George Crink acted as usher.

### CORRESPONDENCE.

To the Editor of Greetings,

Dear Sir:-

I wish to call the attention of the Street Committee of the Council to the condition of the side walk on Carleton St.

The walk on one side would be greatly improved if the border which is gradually rotting away were replaced. The walk on the other side is in bad condition.

At small expense a great improvement could be made. Thanking you for the space and hoping this matter will be looked after

I am  
Yours truly  
Resident.

### Record Prices for American Apples in English Market

Washington, Sept. 18.—American apples tempt the English buyer, in proof of this statement, Albert W. Swalm, American consul at Southampton, reports that a shipment of apples from the State of Washington commanded a higher price than any other American apples ever offered in the open English market, much of the shipment being sold at from 8 to 12 cents a pound and eagerly taken at that price. The secret of success, he says, is for the American shipper to send good fruit, well packed, and kept out of an auction where a combination may control prices.

### Once Famous Atlantic Liner Sold for Junk.

Montreal, Sept. 18.—The Vancouver, of the Dominion line, has been sold for 15,000 pounds to be broken up, and one more veteran of the St. Lawrence is removed. The Vancouver before the advent of the big passenger liners was one of the largest and best known boats coming to Montreal. She has not been on the regular run for several seasons and visited port for the last time in 1908 when she brought a ship load of Salvation army immigrants.

### By The Way

The best part of a hunting trip is the anticipation—in the majority of cases.

A man who is continually looking for something to fight about generally finds it.

A great many sportsmen say they are "going shooting" when in reality they are only going hunting.

The granite men are still idle. The pulp mill accident has indeed been a severe loss to the granite concerns, in that a lot of work upon which they were figuring has been lost.

What about the letter from the "Resident" on Carleton St? If the street committee could make a few repairs as suggested it would add greatly to the appearance of the street.

The Democrats in Maine are jubilant of their recent victory. It is thought by some of the leading statesmen that the wave will sweep the United States and that the overthrow of the Republican party is not far distant.

Canada ranks third among the countries buying from the United States. With this standing surely a mutually profitable agreement can be reached between Canada and United States.

Now that baseball is out of season why cannot St. George organize a football team. We have a spacious field for a gridiron and very little funds would be required to set the thing going. Only a small majority can play a good game of baseball but everyone can kick and run. All it needs is a start.

The question of the advisability of amending the B. N. A. act is receiving considerable discussion. At the rate the west is going ahead and if we wish to have any say in the Federal House it would seem that such an amendment would be indeed a wise move.

Some people can never forget an old gradage. They keep it always before them, and go through a life with the one aim and object in view of trying to "get square" especially when they are in the wrong. If they do not "get square" in the first generation they remember it in the second. What a nice forgiving spirit a man like this has. Yet we have them right in our own town.

A traveller on the country roads of Central Vermont is impressed by the large number of signs which prohibit hunting and fishing on the premises. One farmer, however, introduced a pleasing variety by the following notice:

"Hunt, fish and be d---; if you get anything you will do better than I can, John Smith."

The old parson was endeavoring to do a little missionary work behind the big stone walls.

"What brought you hear my son?" he queried of an inmate.

"I am here, sir, because of my fondness for books," answered No. 2323.

"Indeed!" exclaimed the good man in surprise. "What kind of books, may I ask?"

"Pocket books," briefly replied the other.

Accompanying a check in payment for subscription last week a prominent St. Stephen man, writes the following letter. Editor "Greetings!"  
Dear Sir:-  
I enclose check for \$3.00 in payment of subscription. Let me add congratulations on your success in other respects, and a hope that the paper is a success financially. It is what I wanted to make when I lived in St. George—a good local paper.  
Yours truly  
Subscriber.  
The newspaper editor has a hard row to hoe and no one knows how good a little word of encouragement such as this makes him feel. Thanks.

### Chatham Police- man Shot

Chatham, N. B., Sept. 15th—

—Policeman Walter Coughlan lies in his home today severely wounded as the result of a shooting affray last night in the hill district. He was passing along St. Andrews street, near Buckley's store, when from a dark alley, a shot was fired hitting him in the right leg just above the knee. Three other shots were fired in quick succession and one bullet went through his uniform coat at the shoulder, while another whistled past close to his neck. The alley was pitch dark and all he could see was four bright flashes of flame. He made his way to the police station and, summoning another policeman, the two went back to the alley, but could find no one around. By the time his boot was full of blood, and when he reached Dr. Losier's he was laid up for some time. No arrests have been made as yet.

### Nestorian Society

The Nestorian Society of the High School held its weekly meeting and the following was the program:

Passy—Edith Dewar "Lake Utopia,"  
Recitation—Bessie Connel "Work,"  
Review of Current Events—Grade X.

Debate—"Resolved that money has more influence upon man than education."  
Affirmative—Arthur Dewar and Bessie Cawley.  
Negative—John Dewar and Lillian McGee.

The Pres. decided in favor of the Negative.

### Legal Newspaper Decisions.

1. Any person who takes a paper regularly from the Post Office, whether directed to his address or another, or whether he has subscribed or not, is responsible for the pay.

2. If any person order his paper discontinued he may pay all arrearage, or the publisher may continue to send it until payment is made and collect the whole amount whether it is taken from the office or not.

3. The Courts have decided that refusing to take newspapers and periodicals from the post-office, or removing and leaving them uncollected, is prima facie evidence of fraud.

If you want to stop your paper, write to the publisher yourself, and don't leave it to the postmaster.

### Imperial Defence

Applauding the statement of Sir Wilfrid Laurier in the west that Canadian loyalty is not dependent on any tariff agreement, the Maritime Merchant takes the ground that such an agreement is really not practicable. We quote—

"It would be a very sordid people that couldn't be loyal unless it were to the advantage of their pocket. It would be contradictory to British traditions were a race of Britons to develop now whose loyalty would depend upon an advantage in the markets of the motherland. But it may be said that the majority of good thinking Canadians, whatever they may think of the preference perse, are now agreed that as an intra-imperial measure the preference principle is not practicable. The best judgement of statement today seems to indicate that every unit of the empire will have to work out its own fiscal policy independently of each other part."

The merchant is right in its interpretation of the views of statesmen. Theoretically, an imperial preferential system has its merits as an attractive programme, but the moment we get down to cases, and ask how such a system is to be worked out to the mutual satisfaction, let us say, of Canada and Australia in the English market, the difficult nature of the task becomes evident.

### A Positive Cure for Indigestion.

If you have indigestion, your food ferments in the stomach and bowels. It does more; it decays, and the nutritious matter which should go to make new blood decays with it, and this leads to an impoverished condition of the blood, to nervousness, biliousness, constipation, sick headache, bad breath which disgusts your friends, and other disagreeable and unpleasant conditions.

And all this trouble is caused by the food that doesn't digest and oftentimes rots in the stomach.

And fermentation is caused by the stomach not being strong enough and energetic enough to thoroughly mix the food with the digestive juices.

Mona is responsible for tens of thousands of cures. In fact, it is such a positive cure for indigestion and all stomach troubles that is guaranteed by J. Sutton Clark to cure or money back. The price of a large box of Mona tablets is 50 cents, and they are sure to relieve the worst case of indigestion or gastritis. Try them.

#### All Sorts.

Some business opportunities by any other name would save a graft.

A narrow-minded person is just the one to make some broad assertions.

Lots of people are sorry they bought it every time the installment man calls.

The average man doesn't improve his time when he tinkers with his watch.

When you hear an undertaker growling about the increase cost of living he is probably trying to boost his business.

All men may be born equal, but they no sooner climb out of the cradle when one hall begins to work the other.

Pull together brethren. We are all here for the same purpose. Then live and let live. The best way to build up a town is for every man to pull together and not strive to read and tear down.

All likelihood the more business done by your rival the more you will do. Every merchant who treats his customers honestly and fairly will get his share and the more business that can be secured by united effort, the better it will be for all.

At 1,561 Pieces of Hardware

Kansas City, Mo., Sept. 9.—Fifteen hundred and fifty one separate pieces of hardware and other indigestible substances were found in the stomach of Sallie Roper, a negro, who died in the Mission Hospital for the Insane at St. Joseph the other day. She had been there since 1903. Rating had been the woman's mania. She suffered no ill effects for a long time. Then a pin worked its way into the lungs and caused her death.

H. D. Faxon, of Kansas City, a member of the Board of Managers, vouches for the correctness of the following inventory of the more than five pounds of "insolubles" taken from the stomach: 453 nails, 42 screws, 9 bolts, 3 teaspoon handles, 1 nail file, 3 pieces of steel, 5 thumbtacks, 3 salt shaker tops, 10 taps of three-eighths inch bolts, 63 buttons, 105 safety pins, 115 hair pins, 32 carpet tacks, 136 common pins, 16 large white headed pins, 57 needles, 7 broken coat rack hooks, 1 string beads four stones and pieces of glass, 7 prune seeds, 54 pieces of metal weighing three ounces, 19 hooks and eyes, 148 grape and other small seeds.

#### Nine Points in Law.

A little three-year old was being made ready for a bath, much to her discomfort, as she heartily disliked soap and water. "Don't dit water in my eyes," she said, "and don't dit soap in my nose."

Thinking to quiet her, her mother said, "Never mind, Dorothy, it's my nose anyway."

"Well, I don't care," replied Dorothy with feeling, it's me that's using it." — *Uncle Delator.*

### A Great Fair,

The big Charlotte county exhibition is at hand and, weather permitting one of the largest and finest agricultural shows ever held down east, is assured. Entries in all departments are pouring in and the secretary and other officials are kept busy.

There will be many features, for besides the exhibits of live stock and farm produce, the arts and fancy work, there will be many attractions of an amusing and instructive character, some of the very best and most expensive having been booked.

The strong woman will be there, and so will 'Maui' the celebrated kicking mule, and the one footed monkey with its marvellous tricks.

The ponies in their wonderful counting contest, the fakir, with his merry laugh and shout, and a lot of other good clean attractions are surely coming to the midway.

The five big trotting events are all filling nicely and you should surely see the big league talent that is being gathered by the various teams to help them win the New Brunswick and Maine championships games.

Excursion rates are offered on all railroad and steamboat lines and everything will be done to amuse and interest the people.

A commodious new building has been erected for the housing of poultry and vegetables, as well as a lot of new cattle sheds and horse stalls.

Tell all your friends that the show at St. Stephen this year is to be the biggest thing of the kind ever seen down east.

At a meeting of the directors of the agricultural society held last week, it was decided to all cattle to enter and compete for a premium, without the sire being registered. This was done to allow owners of good cattle, even if unregistered stock, to exhibit and the society trusts that all interested will take advantage of the generous provision.

#### Revenge of the Jilted

A lover who was jilted by his sweetheart because he had shaved off his beard, tried to revenge himself in a novel fashion in a Swiss town recently.

Pedestrians who passed along the main street early in the morning were astonished to find a large plank wall covered with letters, all of them in the most endearing terms.

It was the work of the jilted lover, who had spent half the night pasting all the love letters received by him from his sweetheart on the walls adjoining her residence, with the sentence above them.

"Heartless girl, I return you your letters."

Before a gentleman removed the letters they had been read by many townspeople.

The girl now threatens to paste her former lover's missives on the walls of his residence.

The Italian Supreme Court has rendered a judgment affirming the right of the Holy See to sell property without authorization from the government. The decision has created a sensation in art circles. It is feared that art treasures are to be sold and it is proposed to introduce a bill in parliament without delay prohibiting the Holy See from disposing of pictures or other works of art.

#### RUB THAT SORE SPOT

With Father Morrissy's Liniment and Promptly Stop the Ache.

Every household has its share of aches, pains, bruises, chilblains, burns, stiff joints, chest colds, sore throats, muscular soreness and similar troubles. It is surely unwise to suffer with even the least of these, when there is a sure and speedy remedy.

Father Morrissy, the famous physician, was especially successful in devising a prescription for the prompt relief of these ailments. Many thousands of families keep a bottle of Father Morrissy's Liniment constantly in the house, ready for any emergency.

Unlike most liniments, it has both a pleasant feeling and a clean, wholesome smell. It is a splendid rubbing liniment, as it makes the skin soft and smooth, and does not blister. Better yet, it goes straight to the seat of the trouble, very little remaining on the skin.

In rheumatism and backache, it is a helpful adjunct to Father Morrissy's "No. 7," and in cases of sore throat and cold on the chest it supplements his well-known "No. 10."

The liniment should be always on hand against a case of need. 25c. a bottle, at your druggist's, or from Father Morrissy Medicine Co., Ltd., Chatham, N.B. 89

### Honored by Women

When a woman speaks of her silent secret suffering she trusts you. Millions have bestowed this mark of confidence on Dr. R. V. Pierce, of Buffalo, N. Y. Everywhere there are women who bear witness to the wonder-working, curing power of Dr. Pierce's Favorite Prescription — which saves the suffering sex from pain, and successfully grapples with woman's weaknesses and stubborn ills.

**IT MAKES WEAK WOMEN STRONG IT MAKES SICK WOMEN WELL.**

No woman's appeal was ever misdirected or her confidence misplaced when she wrote for advice, to the **WORLD'S DISPENSARY MEDICAL ASSOCIATION, Dr. R. V. Pierce, President, Buffalo, N. Y.**

## THE GRANITE TOWN GREETINGS

### Good, Better or Best?

**QUALITY** you know is comparative. Just as much so in bread, as in woollens or linens.

If you make bread at all you naturally want it to be good—as good as, or better than your neighbor's.

But is your bread as good as it ought to be? Does it furnish its full quantum of health and strength? Is it nutritious as well as delicious?

Ordinary flour may make fairly good looking bread. But if you care for food value, for nutrition, for digestibility, for bone and muscle and blood building quality, you will want a flour rich in the highest quality of gluten.

"ROYAL HOUSEHOLD" is the finest flour in the world and makes the best bread in the world.

And it is just as good for Pastry as it is for Bread. It is the one flour which has proved an unqualified success for every household purpose. And its absolute uniformity guarantees you against failure.

**ROYAL HOUSEHOLD FLOUR** is made of Manitoba Red Fyfe Wheat, which is especially rich in high quality gluten.

It is scientifically milled in the finest mills in the British Empire and samples are regularly subjected to the most exacting of all tests, the oven test, to insure uniformity.

"ROYAL HOUSEHOLD" always makes the finest and most nourishing bread, the lightest, flakiest and most healthful pies, cakes, biscuits, muffins, rolls.

Order "ROYAL HOUSEHOLD" at once. Don't delay. The sooner you commence using this finest of all flours the better for your family.

### Interesting Items

Rev. Peter Henry, pastor of the first Reformed Church at Groveville, N. J., has issued the mandate that no woman clad in one of the new "hobble" skirts will be allowed to enter his church.

Some idea of the different nationalities that go to make a single parish in the West may be had from the following census taken in St. Augustine's parish, Brandon, Man. The entire parish comprises a membership of about 1,400 souls divided as given below: English-speaking families, 70; German, 30; French, 10; Polish, 60; Ruthenian, 50; Polish and Ruthenian mixed, 55.

Queen Alexandra paid her first private visit after going to Sandringham to Cora Countess of Strafford; formerly Mrs. Samuel Colgate of New York. She arrived in time for luncheon and had along her nephew, Prince Christopher of Greece, her favorite among the younger members of her family. The Countess rents Houghton Hall, about thirty miles from Sandringham. It is rich in historic associations and is one of the finest mansions in England.

Leading automobile makers consider themselves safe—so effective has become the art of building the machines—in giving the 1911 models a guarantee, extending over a period of twelve months, against breakage or defect on any part of the car, caused by any means except in a collision or accident. That these firms will reap the benefit of such a move is beyond a doubt as every man likes to feel that he is being protected, no matter what he may be buying.

Miss Mabel Powers, of East Aurora, N. Y., has been normally adopted into the Smilge clan of the Seneca nation of Indiana, according to the Buffalo Illustrated Times, in recognition of the sympathetic insight she has shown in depicting the poetry, passion and pathos of this vanishing race. The name they bestowed upon her "Ga-Sar-Navh-We," says the Times, means "one who carries the names and traditions to others." Our wonders who is the Seneca's press agent, or perhaps it is Miss Powers, since the attractive young woman is a well known elocutionist, impersonator and author.

Four of the largest lumber companies in British Columbia have been merged by a deal just completed. The new corporation which will be known as the Canadian Pacific Lumber Company, of Port Moody; the Barkley Sound Cedar Company of Port Alberni; the Anglo-American Lumber Company, Vancouver, and the Gibbons Lumber Mills, Arrow Lakes. The timber holdings which have been merged approximate 135 square miles of valuable limits, and the total capacity of the four mills at present is about 300,000 feet for a working day of ten hours.

With the view of tracing the flight of shells during night firing, the British military authorities have tested a new invention with 12 pounder guns from Fort Albert, Isle of Wight. It consists of a metal cylinder which is screwed to the base of the shell, and contains some powerful illuminant. This is fired by the explosion, and continues to burn brightly during the flight of the missile. The invention is said to have proved very satisfactory, and is likely to be of great use in correcting ranges.

The very enterprising city of Los Angeles, in California, is to have a home for young women, to be built by Mr. Wm. Clark, a copper magnate, former United States senator, as a memorial to his mother, Mary Andrews Clark. The home will cost \$300,000. A site has been bought and ground will be broken this month. Mr. Clark's plan is to provide a home for young working women, especially those employed in department stores and offices, who will be required to pay a moderate weekly rental for apartments.

### Some Peculiar Names

"There is a lot of peculiar names of persons and many peculiar businesses," said a man by the window seat on the trolley coming down town, to his neighbor, "and frequently the odd names and the odd business get together.

"There is a bank firm of Steel & Hoar in Midway, Ky., composed of John Andrew Steel and George Hoar, both good fellows, in spite of their names, and good bankers, too. Then you've heard of the official rat catcher of Paris, and the man whose profession is 'book stealing,' who is trying to get out a license so he can pursue his vocation without interference from authors, publishers, etc.

"I know a Rev. Mr. Croke and a Rev. Mr. Tank, both ardent optimists and prohibitionists. I noticed the other day that a Mr. Marr down in Kansas, had been imitating his planetary namesake by taking a flight through the air in an aeroplane—though not with brilliant success.

"The odd association of names with the saloon business is a frequent occurrence. Out in Kensington lives a man whose name is Hell Peter Hell who keeps a saloon. On a circular sign extending out over the sidewalk appears 'Go to Hell-Buffer.' Inside is a safe made by the Sabbath Safe Company. Across the street hangs a sign which says 'Dr. Swindle,' and on a nearby corner is a drug store kept by Charles H. Bury.

"Out on Archer avenue is a saloon run by Peter Kull, and on Wentworth avenue is an undertaker with the same name. Perhaps the same man runs both places. Halsted street has a saloon-keeper whose name is E. F. Fall.

### Beware of Ointments for Catarrh that Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free. Sold by Druggists, Price 75c. per bottle. Take Hall's Family Pills for Constipation.

### Four Flushing.

Mrs. Jones and her husband had just moved into a fifteen dollar seventeen room house. The first Sunday morning there, as Mr. Jones sat with his newspaper on his little porch and all the neighbors on both sides of the street sat with their newspapers on their little porches, Mrs. Jones suddenly came to the front door and shouted at her husband in a loud tone:

"John Henry Jones, will you or will you not come in to luncheon? The champagne is nearly flat, and you know how soon a dish of terrapin gets cold!"

Jones tossed down the paper and hurried indoors with a dazed smile. He sized up the rump steak and potatoes on the table, and then asked his wife reproachfully: "Mav, what are you kidding me for?"

"It's not you, John, I'm kidding," said his wife. "It's the neighbors."

Marin Berkins, democratic candidate for the California State senatorship, and president of the Berkins Van & Storage Company, with branches in every city of importance on the Pacific coast, was arraigned before Police Judge Williams at Los Angeles, charged with cruelty to animals in endeavoring to cure a horse afflicted with colic by mental science, and refusing to provide medical attention. Berkins pleaded not guilty, and asked for a jury trial. September 27 was the date set by the court. The prosecution of Mr. Berkins brings to light the first application for mental science for the treatment of dumb brutes.

"Many and many a time," said the leading lady, "my father implored me not to become an actress."

"And I suppose," rejoined the pretty soubrette, "that's why you never did."

A Grand Army veteran who attends all the national encampments tells this story of Corporal Tanner, both of whose legs, as most everybody knows are artificial:

"It was a hot night and a crowd of us were sitting on the hotel piazza, spinning stories. Suddenly Tanner looked up and said: 'Has anybody got a couple of tacks?'"

"I can get some said somebody, what do you want them for?"

"These darned stockings of mine keep falling down," said Tanner.

"Youth is apt to be selfish," said Mrs. Mary E. Wilkins-Freeman, the novelist, at the metuchen picnic.

"Wo...an in your youth," she went on, "is especially apt to be selfish. I'll never forget the story of the young man from Boston who stood in the Corner of Boston Common in a downpour of torrential rain.

"As he stood there, soaked to the skin, a little boy in a mackintosh second ed him.

"Excuse me, sir," said the boy, "but are you the gentleman who is waiting for Miss Endicott?"

"Yes," the young man answered.

"Well," said the boy, "she asked me to tell you that she'd be here just as soon as it clears up."

### Tommy and the Worm.

There were only two pieces of cake and three hungry boys upstairs throwing their clothes on in the race to get down first. Tommy won out and ran into the dining room breathlessly.

"That's a good boy Tommy, the early bird gets the worm. Take a piece of cake," said the mother.

Tommy looked at the cake quizzically, inspecting it from all sides. "What's the matter Tommy?" asked his mother. "What are you trying to do?"

"Sav ma, which piece has the worm in it?" he inquired soberly.—National Monthly.

An increase for August of 17 per cent. of the revolver committed crimes in Paris over the July record, has stirred the Parisians to wonder what can be done to check the crimes and break up the Apache system of lawlessness. Lepine, prefect of police, lays the blame on non-enforcement of the law; he blames over-lenient judges. He urges drastic sentences, with whipping. It is possible that the problem will come before the government when parliament reconvenes. It is suspected, however that there may be deeper problems. Defects in the penal system are believed to be favorable for creating Apaches.

Minister—And how did Noah spend his time in the ark?

Small Boy—Fishin'.

Minister—A very reasonable suggestion, my lad.

Small Boy (guardedly)—But he would catch muckle.

Minister (surprised)—What makes you think that?

Small boy (knowingly)—Because, ye see, he had only two-wir' rms!

"Keep it out of the paper" is the cry which the local newspaper publisher daily hears. To oblige often costs considerable, though the party who makes the request thinks the granting worth saying "thank you" for. A newspaper is a peculiar thing in the public's eye. The news gatherer is stormed at because he gets hold of one item and is abused because he does not get another. Young men, and often young women, as well as older persons, perform acts which become legitimate items for publication and then rush to the newspaper office and beg the editor not to notice their escapades. The next day they condemn the same paper for not having published another party doing the same they were guilty of forgetting apparently their late visit to the printing office.

### Cruelty to Animals.

Hazel, aged seven, while feeding the cat at the dinner table was reproved by her father, who told her that the cat must wait until later, whereupon the girl wept and said:

"I think it is a shame, just because she is a poor dumb animal, to treat her just like a hired girl."

### Maritime Representation.

On Wednesday last an important conference was held in St. John, the object being the discussion of the question of representation in the Federal Parliament. Representatives were present from Nova Scotia, New Brunswick and Prince Edward Island.

Among those present were Hon. A. K. McLean from Nova Scotia and Hon. F. L. Hacyard of P. E. I., also Premier Hazen and Dr. Daniel of St. John.

The result was that a unanimous resolution was passed the substance of it being that the Maritime provinces should at least retain the same representation in the Federal house that they had at the time of entering into Confederation.

All the representatives were favorable to an amendment of the B. N. A. act to the effect that the representation of the provinces should not fall below the number each had at the time of the union.

Owing to the fact that the population of the West is steadily on the increase while our population is about uniform there is a fear that in a short time the Maritime Provinces would cut an insignificant figure in the Federal House.

It is apparent now that the matter has been taken up in earnest by our provinces and when the Maritime Provinces write on any question such as the case in point—the alteration of the B. N. A. act—they can cause a great deal of trouble.

As two of our provinces are liberal and one Conservative it would appear that the move is one outside of ordinary political lines.

### Fishermen Confer

#### Will Fight Decrease

An indignation meeting was held in St. John on Monday by the sardine fishermen of St. John and Charlotte counties. They are again at war with the canneries. A reduction in the price of sardines from \$10 to \$8 to \$6 per hoghead made by the canneries is the cause of all the trouble. It was decided at the meeting to sell no sardines to the canneries at a price less than \$8 per hoghead. The trouble started when at the meeting held at Eastport on Saturday the proprietors of the canning concerns decided to pay a uniform price of \$6 per head to the fishermen for sardines. This having been made known, the fishermen who certainly have been experiencing some hard times this season were very indignant and the result is as above. They claim, and we think their claims are just, that six dollars per hoghead for sardines is an insufficient recompense. They experience many difficulties and undergo many hardships in catching them. We are informed that drawing the seines is made very difficult on account of dogfish and rock bottom. The fishermen say "eight dollars or nothing" and will stand by it. Some men went so far as to say they will give up their business unless their request be granted. Over three hundred men are affected and in the event of a strike it would be disastrous to the canning concerns. The canneries men claim that as they are only paying \$6 per hoghead for fish in the waters in Charlotte County, they see no reason why they should pay more for sardines. There is a strong possibility that the canning men will raise the price immediately and avoid trouble.

### The Maine Election

The State of Maine, which for so many years has been looked upon as an impregnable centre of R-publicanism went by the board in the election of Monday and when the full returns had come in

practically every republican officer of the state had been removed. For over thirty years such a thing as a Democratic victory has been hopeless. In the campaign which has just been closed with such great success for the Democrats, not even their most optimistic friends looked for a so sweeping a victory. When the returns came in on Monday evening they showed a defeat of Republican Governor Pernald by over sixty-five hundred. The legislature was overturned and all four congressmen defeated. And what makes the defeat more bitter the Democratic government will have the opportunity to elect a successor to Senator Hale and surely the spirits of Neal Dow and James G. Blaine shall suffer in the thought of a Democratic Senator going from Maine.

Different reasons are assigned for the sweeping defeat, but a defeat so complete cannot be assigned to local causes. Every party suffers to a certain extent from petty jealousy and disgruntled followers, but these are inadequate for explaining a defeat as sweeping as that which occurred in Maine Monday. One will have to seek a wider sphere of influence. It is generally conceded that the desire for reciprocity which is steadily growing throughout the State. In several places throughout the northern part of United States where elections have been held within the past year a startling toward the Democratic party has been witnessed. In addition to a desire for reciprocity or at least a lower tariff, the influence of the combines and the high price of food have all had their influence, and from present indications, with the uncertain results of the influence of Mr. Roosevelt's present activity it would not be surprising if the next general election saw the Democratic Party in the power in the United States.

### ST. ANDREWS

Mrs. Vera Whitman sang in the Methodist church on Sunday evening. Her selections are always prettily rendered and delight those who listen. Mrs. Whitman and son Victor have been guests of Mr. and Mrs. John Maloney and returned to their home on Wednesday.

Truro has a murder case to deal with. On Sunday night or Monday morning a man named Perry is thought to have slain a woman named Mrs. Wright. Two razors found on the floor along side of the slain woman whose throat was cut from ear to ear tell the tale.

The difficulty which has arisen in Great Britain as to assessing labor unions to pay the election expenses and maintenance of their parliamentary representatives will probably tend to a reform in the British law so as to provide that the country will bear the legitimate expenses and will identify the members. This would be the proper course, and will do away with all private contributions toward the maintenance of representing special interests.

### How to be Popular

Have you noticed that the otherwise good man who lacks politeness or assumes a gruff, repellent manner really sacrifices a part of his gift? Very few people discover his good qualities under his pursive manners.

You may have patience to bear with him, knowing that his heart is right, but others will judge him by his manners, and finding him disagreeable, will avoid intimacy with him. It is not enough, therefore, to be just or kind hearted; you should also be agreeable in manner, and it requires very little effort to be so.

The foundation of agreeable manners is thoughtful consideration of others of true politeness. This does not imply any necessary sacrifices of frankness and honesty. It does not mean that you shall not contradict or dispute, but it does mean that when a contradiction is made necessary it shall be expressed courteously and inoffensively.

Everyone should cultivate this kind of politeness, for so far as it helps to make you agreeable, it extends your opportunities for usefulness, and helps to give full play to your other good qualities.

A popular girl will forget herself, if she joins in sports and games it will be for the enjoyment of the pastime, not in order to "get in" with this or that set. If she looks on the tennis court as a place of pleasure and the pleasure of those around her, and goes there to play to the end that she may enjoy the game and help her companions to do so also, she will become popular.

The affectionate woman is always popular, and is as different as possible from the insincere woman, who but simulates affection in order to make herself agreeable.

### Drowning as a Livelihood.

A remarkable association of youthful professional divers and life-saving heroes has been discovered by the police. The number of boys who have fallen into the river and been rescued by their companions during the past two weeks has grown to such an extent in the St. Louis district that the local magistrate ordered that the boys on the embankment should be watched. Louis Gerbaud, aged thirteen, was seen yesterday to let himself drop cautiously into the water, and the next instant two of his comrades sprang helpfully after him and brought him to land. Gerbaud played his part to perfection, and feigning illness, was transported to the salvage station. One of his gallant rescuers remained with him, while the other hastened away, as it was afterward ascertained, to give the news to the press in order to obtain a reward.

Gerbaud and his friend afterward made a full confession. Their association had a number of members, they said, but they refused to give the names. They had had found the profession a playing one, as the horses were nearly always recompensed, and they always joyfully shared all their profits.

Estimates compiled by Mr. Benjamin H. Rice, president of the United States Motor Company, fix the total number of automobiles sold in the year ending July 31, 1910, at 190,000, with an aggregate retail price of about \$740,000,000. With the addition of maintenance, motor cars absorbed about \$325,000,000.

Russian manufacturers invest \$50,000,000 annually in American cotton, and it is stated that should a Russo-American bank be established in St. Petersburg the cotton import would reach \$100,000,000 annually.

The Mexican Government is preparing to build what will be the longest fence ever constructed in the world. It will be of barbed wire and will extend from this city to the Pacific coast, a distance of over 7,000 miles, and will divide the United States and Mexico.

Officials of the Southern Railway, Argentina, Friday, received a letter from the manager of the Canadian Pacific Railway asking for information concerning what opportunities and conditions Argentina may have to offer foreign settlers. It is believed this indicates a plan for Canadian emigration.

The Spanish Government has authorized the holding of Catholic demonstrations in the principal cities of Spain on October 2. The organizers say that they intend to fight "the prevailing impiety." Cardinal Aguirre, Primate of Spain, has sent his blessing to the justly inviting them to maintain order and recommendation the invocation of Christ or the Virgin, according to the devotion of the respective regions.

Philadelphia Record: Tramp train riding is pretty popular, but it leads to the county jail nowadays. The report of the number of persons confined in the Danphin county prison the year 1909 has just been made public. It shows that 7,333 persons were committed for various offences of which number 1,762 served terms for illegal train riding and 335 for trespass. The total expense to the country was \$23,355.22.

Last year 47,180 persons emigrated to America from Havre, and 19,000 returned. The greatest number of emigrants passing through Havre for America are Italians. The Italian State railroad runs special emigrant trains from all parts of northern Italy, converting on Modane, and then proceeding to Havre in two different sections, arriving every Saturday morning soon after midnight.

Burglars entered the chapel of the Historical Castle Gavina, near Florence, Thursday night and sawed in halves and stole the upper portion of a terra cotta panel 6 feet by 3, the work of Santi Buglioni, the best known pupil of Della Robbia. The panel represented St. Anthony and the Angel. The burglars damaged a similar panel representing the Crucifixion, which they did not succeed in detaching from the wall. The panels were dated 1530 and were valued at over \$10,000.

Evaporating low grade apples for export has lately had a good start in the apple-producing districts of Tasmania, and promises much increase. During the last year on account of the establishment of several good evaporating plants, utilizing up-to-date machinery, about \$500,000 was saved to apple growers on apples which would otherwise have nearly all been thrown away as unsalable paste on account of low grade.

Ever since Paris was visited by the great floods of last winter, which did damage to such an enormous extent, the engineers have been devising methods to prevent a recurrence. At last, it is announced, their efforts have been crowned with success, and it is believed that coping with the situation has been solved. It is intended to sink a large number of shafts along the front of the River Marne so that in the event of the river rising beyond its banks the surplus water shall be carried off by these shafts. In that way the water would not rise as rapidly as it can now. At the same time the Seine would be kept at a normal height and there would be no possible chance, it is believed, for a flood.

### HOME READING COLUMNS

#### Throw it Away

Stand up, little kid, with your cigarette burned clean up to your profane lips. Do you know that the poison you are so eager to infuse into every inch of your youthful hide, may, before a hundred years have rolled over your head, make you not only color blind, but blind as a bat as well? "Naw," you don't. Well that is the next affliction we are threatened with. The scientific American says so, and we have grown in the habit of relying upon that staunch sheet. In London, tobacco blindness has become quite prevalent, and instances are cropping out on our own side of the pond, too. Throw away your cigar and wait at least until you have a hundred and eighty pounds of round avoirdupois to carry around before you begin to stuff your skin with nicotine poison. Then maybe it will take you the rest of your natural lifetime to get enough of the weed to put out your eyes and plant a malignant cancer on the root of your sunny little tongue. "Your grandfather smoked till he was eighty did he, and cheved, too." Yes and that is the reason you should let it alone, at least until you are twenty-five. You were born with enough poison in your blood without beginning to stuff more down your throat before you are out of the nursery. Throw it away. Nobody expects babies to help pay the national debt.

#### Where did you get That Ring

With what an elaborate argument, perhaps spiced with some temper, the youngling tries to reverse the opinion of the olding. The sprinkle of gray on the maternal forehead is rather an indication to the recent graduate of the female seminary that the circumstances of today or tonight are fully appreciated. What a wise boarding school that would be if the mothers were the pupils and the daughters the teachers! How well the teens would chaperon the fifties! Then mothers do not amount to much anyhow. They are in the way and are always asking questions about postage marks of letters and asking, "Who is that Mary D?" and "Where did you get that ring, Flora?" and "Where did you get that ring, Myria." For mothers have such unprecedented means of knowing everything. They say "it was a bird in the air" that told them. Alas for that bird in the air! Will not some one lift his gun and shoot it? It would take whole libraries to hold the wisdom which the daughter knows more than her mother. "Why cannot I have this?" "Why cannot I do that?"

#### Self Taxation

People in general seem to enjoy growling about the taxes. This subject makes a theme for conversation in the family. It inspires the loungers in the corner grocery, and it puts life into many a political campaign. Why, our forefathers actually plunged into rebellion, fought seven years, and finally won our national independence from Great Britain, on a question of taxes. If you want to see a "hot" town meeting in a back country township, just propose an extra tax for some new road and a bridge.

And yet there is one sort of tax that is not grumbled at. That is to say, the taxpayers themselves rarely denounce it.

or dispute it. They keep on paying it serenely all their lives unless they happen to tumble into the poor house. Their friends and relatives often scold about it, but they, while they feel its pressure, go right on paying out. Even the poor men keep these payments up when all others are cut off.

We refer to the tax which men pay to passion and appetite. The sums thus expended every year—say for tobacco and liquors only—are stupendous. This sort of tax paying begins early in life, when the youngster gets into the habit of treating himself to cider, beer, ale, porter, whiskey, a cigarette, or a cigar. After a bit he can't get along without it, and so he binds himself to pay taxes to it all his life. He growls about his road tax when he grows up, his school tax, and his church tax, but his self-indulgence tax he passes out without a murmur even though it may have made him a poor man. Sometimes he is conscious of it, but he has become a slave to his habits and cannot free himself. The socialists do a great deal of growling about the burdens put by capital upon the poor. The worst burden poverty has to bear is the tax which it voluntarily pays to appetite and passion.

#### Boys Don't

Don't cultivate a taste for liquor or tobacco. They do you no good. They are expensive, and until your tastes and stomach are perverted they rebel against them.

Don't go out of the hall between acts. It looks bad. If you wish to let people know that you are there, you have the manager announce it. It's better taste.

Don't forget that you are to run this great country some day—fill all the public offices, make all the laws decide all judicial questions, manage all the business enterprises, and in a word, own and control this great world.

Don't spend your entire income in fine clothes. Good manners, good sense and good habits will bind your friends closer to you, make you think more of yourself, be respected more by others, and better received into society than any amount of fine clothes will that you can buy.

Don't consider it manly to be around with bowie knife and revolver; to carry a pipe and to swear. Keep well in mind that this is not what constitutes a man. No, boys, this will never gain for you the place that a true man may occupy. Not even the wearing of a big mustache makes the man. Uprightness in dealings and honorable convictions are what we admire in a man, and what constitutes manliness.

#### Heads of Households

It is the mothers who are the heads of the households. The culinary department of your household is in your dominion. You decide all questions of diet. All the sanitary regulations of your house are under your supervision. To regulate the food, and the apparel, and the habits and decide the thousand questions of home life in a tax upon your brain and nerve and general health absolutely appalling if there be no divine alleviation.

It does not help you much to be told that Elizabeth Fry did wonderful things and the criminals of Newgate. It does not help you much to be told that Mrs.

Judson was very brave among the Bornean cannibals. It does not help you much to be told that Florence Nightingale was very kind to the wounded in Crimea. It would be better for us to tell you that the divine friend of Mary and Martha is your friend, and that he sees all the annoyances and disappointments and abrasions and exasperations of an ordinary housekeeper from morn till night and from the first day of the year to the last day of the year and at your call he is ready with help and reinforcement.

#### Make Some one Happy

For God's sake make some one happy for ten minutes if for no longer a time.

A young woman bound on such a mission, what might she not accomplish. Oh, there are thousands of these manufacturers of sunshine! They are King's Daughters, whether inside or outside of that delightful organization. They do more good before they are twenty years of age than selfish women who live ninety and they are so happy just because they make others happy. Compare such a young woman who feels she has such a mission with one who lives a round of vanities, card-case in hand, calling on people for whom she does not care, except for some social advantage, and insufferably bored when the call is returned, and trying to look young after she is old, and living a life of insincerity and hollowness and dramatization and show.

#### Wind on the Stomach

A Well-Known Westerner Tells of Suffering, Misery and Pain That he Cured With Nerviline.

"A few weeks ago I ate some green vegetables and some fruit that was not quite ripe. It first brought on a fit of indigestion, but unfortunately it developed into hiccogs, accompanied by nausea and cramps. I was dreadfully ill for two days, my head ached and throbbled; I belched gas continually, and I was unable to sleep at night. A neighbor happened in to see me and urged me to try Nerviline.

Well, I wouldn't have believed that STRENGTHENERS any preparation could help so quickly. I took half a teaspoonful of Nerviline in hot sweetened water, and my stomach felt better at once. I used Nerviline several times, and was completely restored."

The above is from a letter written by O. E. Braun, a well known stock man and farmer near Lethbridge, Alta. Mr. Braun's favorite opinion of the high merit of Nerviline is shared by thousands of Canadians who have proved Nerviline is simply a marvel for cramps, diarrhoea, flatulence, nausea and stomach disorders. Safe to use and guaranteed to cure, you can make no mistake in keeping Nerviline for your family remedy. In two sizes 50c. and 25c. Sold everywhere or The Catarhozone Co., Kingston, Ont.

#### Minister and Man from Missouri

A number of Denver men had concluded their hunt for wild geese a few miles out of Fremont, Neb. Rev. Myron W. Reed was one of the party. Leading citizens planned a banquet for the hunters. It was an up to date affair and the table bore rare dishes and rarer wines. The speeches sparkled with the wit; wit had full sway. One of the guests, a resident of Governor Bradley's estate mellowed to the merry point, and whenever a story of doubtful proportions was told he interrupted with the same remark: "I am from Missouri; you will have to show me." He had made the remark a score of times before it came Dr. Reed's turn to talk. It had been noticed that he was much annoyed by the interrupter.

Get busy and start something even if it's only a bank account.

#### A Good Word for the Frivolous.

Our besetting sin is to be too serious and set too high a value upon sobriety," says Margaret E. Sangster in the Woman's Home Companion for August.

I hold a brief for pure fun. Laughter is wholesome; mirth does more good than medicine. Not merely when we are the better for an interlude of amusement. The person who was born without a sense of humor is greatly to be pitied. No situation is intolerable if one can see the fun in it. When I hear or see condemnation of a girl's gaiety, I am forced to the conviction that the grave censor never had a girlhood worth the name or else was born under a baleful star. Immoderate giggling belongs to a transient phase and should not be reproved when children are in their early teens; rather it should be rejoiced in, and their elders look back in tender wistfulness on their own days of such thoughtless delight. Be as frivolous as you please, dear maiden and matron, in the summer days and be assured that in its place frivolity is the sunshine that dances on the wave. Some of the most protestant people one meets people solemn and severe, and given to frowning, are fools underneath their masks. Some of the light-hearted, gayer and most winsome in their capacity for seeing fun and making it are among the great and wise. If one has no native sense of humor, one should endeavor by every legitimate means to acquire it. An evening spent at a play which from the first act to the last scintillates with jests and irresistibly provokes mirth is a boon to tired folk; so too, is an hour with a novel in which the serious underlying purpose is illuminated by flashes of fun on a summer day or a winter afternoon.

#### A Great Curse

One of the greatest curses of this intellectual age is the great lack of a proper education of our girls in the practical affairs of every day life. They all want to be "school marmas," governesses or the wives of rich men. Housework, which should form the basic principle of our economic life, is shunned by them as something degrading. A young woman will stand behind a dry goods counter fourteen hours a day for a mere pittance—not enough to clothe her—lose her health become anemic and unfitted for the performance of her natural duties, than accept a position as a domestic where she would have a comfortable home, good health, and become properly fitted for the duties of a wife and mother.

The spiritual advance made by man is seen chiefly in this, that so much of the money he earns goes to the ministry of refinement, education, embellishment, to the wife and children he loves. But the woman sees no money for her toil. Her sufficient, her simple reward is a husband, content, happy, growing in grace; in children, bounding to gracious maturity.

There is just as much reason that a man should work within the house as there is that a woman should work outside the house. He is just as well qualified to work indoors as she is to work outdoors. It is just as much his duty to do the one as it is her duty to do the other. But it seldom or never occurs to his wife to ask him to do it, or to think that he ought to do it.

Dandies and fops are like a body without a soul, power without ball, lightning without thunder-bolt. It is a dress on a doll, paint on sand. There is much of this in the world. We see it in respect to everything considered valuable. The counterfeiter gives the show of gold to his base coin, and show the value of his living bank note. The thief hangs out the show of honesty on his face, and the liar is thunderstruck if any one suspects him of equivocation. The bankrupt carries about him the insignia of wealth. The fops put on the masquerade of dignity and importance and the poor belle, whose mother waxes to buy her plumes, outshines the peeress of the court.

France plans to spend \$120,000,000 in four years for a new equipment of rifles. Expenditure of \$30,000,000 a year could do a deal of good in other directions in France.

## Two Minute Talks About PANDORA RANGE for Coal or Wood

THE Pandora Range is for those who desire to make a permanent investment. The high quality of the materials and the superior method of construction assure long life.

The Body of the Pandora is very heavy. The Rods and Bolts are on the outside where they cannot burn or rust out. The Expansion Rings of the cooking section provide ample allowance for extreme expansion and contraction and eliminate the possibility of the metal cracking.

The Cooking Top is Burnished which toughens the surface of the metal and increases its strength. McClary Oil Cement is used between the joints. Unlike cheap, ordinary cement, it will not dry out and need replacing. The Nickelling will not tarnish and is many times more durable than the single coat of nickel on ordinary ranges.

The Semi-Steel Fire Box Linings are twenty per cent. heavier than cast or gray iron linings. Sulphur fumes, so destructive to cast iron, cannot penetrate the hard, smooth as glass surface of Semi-Steel. The Grates have Three Faces, which allows the wear to be distributed on three sides, insuring triple durability.

If you want a range of guaranteed quality get the Pandora. It's built to give you lasting service.

THE GRANITE TOWN GREETINGS

## OUR NEIGHBORS

### ST. STEPHEN

St. Stephen, Sept. 13.—Miss Alice Robinson, who has been spending the summer at the Adirondack, has returned to her home on Prince William street.

Arthur Chipman and Jack Chipman of Montreal, and Mrs. Royden Thomson, of St. John, have been in town visiting their parents, Col. and Mrs. J. S. Chipman.

Mrs. Edgar Beer, who has enjoyed the summer months here with her parents, Mr. and Mrs. F. M. Marchie, has returned to her home in Toronto.

Energetic committees are completing the arrangements and getting things in shape for the big fair on the last four days of this month.

John Trimble, Republican, was re-elected representative to the Maine legislature from Calais on Monday last.

The body of Professor Archibald C. Boyd, of Chicago, arrived in Calais today and was interred in the St. Stephen rural cemetery this afternoon, with Masonic ceremonies. Mr. Boyd was a son of the late John and Janet Boyd, of Calais.

Rev. S. Howard and Mrs. Howard will arrive home tomorrow from their trip to Victoria, B. C.

Robert McComb and Alex. Reid, two prominent business men, went to the country yesterday, and after putting up their horse started for the woods, where unfortunately they having lost their bearings, were obliged to spend the night in the Coan-pounding rain.

Mrs. P. F. Warr and Miss G. Fitzsimmons are spending a few days in St. John.

Miss Northrup, of Ottawa, is the guest of Mrs. G. W. Ganong.

Mrs. John Smiley and young daughter, and Mrs. Stanley's mother, Mrs. E. Kierstead, will leave for Halifax on Friday morning, where they will remain for some months.

Miss Marjorie Baskin, daughter of Mr. and Mrs. G. F. Baskin, has gone to Sackville, where she will be a student at the Ladies college.

Will Keirstead, of Chicago, has been in town a few days, the guest of his mother, Mrs. E. Keirstead.

W. Blair of the finance department at Ottawa, who has been the guest of his brother, Dr. F. I. Blair, returned to his home in that city last evening.

Miss Verna Brown, of Fredericton was a recent guest of her grandmother, Mrs. P. M. Abbott.

### NEW RIVER.

Mrs. Andrew McCallan of St. John returned to her home after spending a week the guest of Mrs. Gil's.

Synopsis of Canadian North-West Land Regulations.

Any person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months residence and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section along side his homestead. Price \$3.00 per acre. Duties—must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$3.00 per acre. Duties—must reside six months in each of three years, cultivate fifty acres, erect a house worth \$300.00.
