

MONTREAL HAVING DEAL
FASDED STORM

Seven inches of Snow Fell in
Twelve Hours.
TWENTY-EIGHT MILE
GALE LAST NIGHT.
Yesterday's Fall a Boon to
Hundreds of Unemployed
Men—Will Cost About \$25,000
for Removal.

Montreal, Jan. 12.—Montreal is in the grasp of the first severe wintry weather of the present season. Today's storm, in which upwards of seven inches of snow fell between midnight and noon, came as a boon to hundreds of the city's unemployed, providing them with temporary employment. With about fifteen inches of snow already on the ground the city now presents an appearance akin to the scenes of a few years ago when Canada's metropolis gained a world-wide reputation of the ice carnival city. Frequently shifting winds during the morning gave the impression that two or more storms had effected a junction in this vicinity, each marked by a westerly or westerly-northwesterly wind, the low temperature generally prevailing, resulted in a heavy precipitation of snow. The principal storms came from directly opposite points, east and west, the meeting of the winds resulting in a divergence first to northeast and then to northwest, the western disturbance apparently being the stronger. The temperature, which on Sunday had fallen as low as seven below zero, however today around the zero point, for tomorrow and Wednesday a much lower figure is promised. It is estimated that the present storm will cost the city the removal of about \$25,000 for snow removal. With the thermometer at 15 degrees below zero at eleven o'clock tonight, and steadily falling, the predictions point to the lowest temperature for some years. With the drop in temperature the wind rose higher until it gained the proportions of a moderate gale at 28 miles an hour, which, combined with the severe cold, made the lot of the pedestrian and the outdoor worker far from pleasant. All trains from a distance were reported from the quarters of an hour to an hour and a half late tonight. Incoming Toronto trains were upwards of an hour late, and from New York and Boston from an hour to an hour and a half behind time, and locals reported half an hour to an hour and a half delayed.

ABANDONED SCHOONER
PICKED UP AFIRE

The Glenafon Found in Gulf of
Mexico by Revenue Cutter
and Towed into Tampa, Fla.
Washington, Jan. 12.—The British schooner Glenafon, abandoned and burned to the main deck, was picked up afire in the Gulf of Mexico, and towed to Tampa, Fla., by a revenue cutter which reported the schooner to the Commandery of the revenue cutter headquarters. It is reported that an unknown merchant man, finding the Glenafon a derelict, set her afire.

SOUTH AFRICA LIKELY TO
HAVE A GENERAL STRIKE

Return of Votes from Centres Indicate Trades Will Go Out in
Sympathy With Railway Employees— Towns All Under
Military Protection.
Cape Town, Jan. 12.—Quiet prevails throughout South Africa tonight, but this may be the lull before the storm as the incoming bulletins from various centres make it practically certain that a general strike will be voted. The ballots received from the mines, Durban, Salt River, and elsewhere have been dismissed, and the strikers demand the cessation of this policy of retrenchment and the reinstatement of the dismissed men. They argue that the administration's real motive is to force wages down, as shown by the fact that some of the dismissed men have been offered other billets at reduced wages. The government is perfecting its plans for handling a general strike should one be precipitated, and all the towns in the disturbed area have been placed under the protection of troops. Reports from different districts are conflicting, but the general opinion is that the situation has grown worse. Meanwhile, the government is withholding the proclamation of martial law until the last moment.

HON. GEO. I. CLARKE TO
BECOME ATTORNEY GENERAL
IN PROVINCIAL CABINET

Understood in Political Circles
This Change Will Be
Made.
HON. DR. LANDRY FOR
PROVINCIAL SECRETARY
Hon. James A. Murray Likely to
Become Minister of Agriculture,
and W. B. Dickson, M.
L. A., New Speaker.

It is understood in political circles that Hon. George I. Clarke, now Speaker of the Legislative Assembly, will enter the Provincial Government as Attorney General. The elevation of Hon. W. C. H. Grimmer to the Supreme Court bench, as announced in The Standard on Saturday, has made vacant the position to which Premier Flemming is expected to call Hon. Mr. Clarke. The selection of a new Attorney General is only one of the important announcements which Premier Flemming will soon have to make, as there is another Cabinet vacancy caused by the recent resignation of Hon. H. F. McLeod, who has entered the wider field of Federal politics. It is generally believed that there will be almost an entire reconstruction of the Cabinet as a result of the two vacancies and that Hon. Dr. D. Landry, who has been Minister of Agriculture since the advent of the Hazen administration in 1905, will be promoted to Provincial Secretary-Treasurer. Hon. James A. Murray, now a member of the government without portfolio and representative of the great farming constituency of Kings County, will become the new Minister of Agriculture. Just how soon the changes will be officially announced is not yet known, but four by-elections will be necessary if the programme outlined above is carried out, viz.: one in York County, two in Charlotte County, and one in Kings County. These by-elections will probably take place some time before the opening of the legislature, which is now scheduled for about the latter part of February. The personnel of the Provincial Cabinet after the proposed changes have become effective will be as follows: Premier and Minister of Lands and Mines—Hon. J. K. Flemming. Attorney General—Hon. George I. Clarke. Provincial Secretary, Hon. D. V. Landry, M. P. Minister of Public Works—Hon. John Morrissey. Minister of Agriculture—Hon. James A. Murray. Without Portfolio—Hon. J. E. Wilson. There is also some probability of an additional forecast member being named when the other changes are announced. The elevation of Hon. Mr. Clarke to a Cabinet position vacates the Speakership of the Legislature and it is understood that Mr. W. B. Dickson, M. L. A. for Albert, who has been Deputy Speaker, will be proposed for this position when the approaching session of the Legislature opens. Hon. George Johnstone Clarke, who is to become Attorney General, was born at St. Andrews, N. B., on October 10th, 1857. He was educated at St. Andrews and in Fredericton and then took the practice of law, being admitted as an attorney on April 2nd, 1885. The following year he was called to the bar and in 1887 he was appointed King's counsel. Hon. Mr. Clarke has been mayor of the town of St. Stephen, where he now resides, and warden of the municipality of Charlotte. He is the editor of the St. Croix Courier, published at St. Stephen, and has been one of the most prominent citizens of the St. Croix Valley. He was first a candidate for political honors in 1891, when he unsuccessfully contested Charlotte County for the Federal Parliament. He was again defeated for the Legislative Assembly in 1899, being first returned in 1903, since which time he has been twice re-elected. Hon. Mr. Clarke is married and in religion is a Methodist. For the position of Attorney General of New Brunswick he is eminently qualified.

Cold Storage Magnates
Invade Washington

Armed With Proofs to Show That Refrigerator Storage of
Foodstuffs is Not Contributing to the High Cost of Living
Washington, Jan. 12.—Cold storage plant magnates, with press agents and lawyers are in Washington clamoring for an opportunity to prove to the House Committee on Interstate and Foreign Commerce that refrigerated storage of staples has nothing to do with the high cost of living. They came to Washington confident they would be heard tomorrow, but the committee has put the bill introduced by Representative MacKellar, on which hearings were to be held, into storage for at least a month. When Representative MacKellar introduced his bill, with a speech attacking the cold storage plants, it was referred to a sub-committee, of which Representative Covington of Maryland is chairman. In some way the word went forth that hearings were to be held tomorrow. But Representative Covington changed his mind, and the measure went to the regular committee calendar, where it will not be reached until some time in February.

Will Appeal Against
Release of Thaw

Attorney General Carmody Claims Judge Aldrich Exceeds Authority—Will Keep Close Surveillance Over Thaw if Given His Liberty.
Albany, N. Y., Jan. 12.—Attorney General Carmody will appeal to a higher federal tribunal, the Supreme Court, if necessary, should Judge Aldrich of the United States Circuit Court of New Hampshire, permit Harry K. Thaw's release on bail. He also will take steps to stay any such order by Judge Aldrich, pending final disposition of the case by the higher court. In announcing this determination tonight, the attorney general expressed the opinion that in entertaining Thaw's application for release Judge Aldrich had exceeded his authority. Thaw will be kept under close surveillance by New York authorities in case of his release and if he attempts to leave Judge Aldrich's jurisdiction his arrest will follow immediately. Mr. Carmody would regard the release of Thaw under bond as equivalent to giving him his permanent freedom, he said tonight.

PARDON FOR
USURER IS
REFUSED

Gov. Glynn Says Criminal Mil-
lonaire Should Not be
Treated Differently From a
Pauper.
Albany, N. Y., Jan. 12.—Governor Glynn today refused finally to pardon D. H. Tolman, the convicted New York money lender. District Attorney Whitman refused to say that he favored an absolute pardon for Tolman and this was the chief cause for the failure to obtain the prisoner's release. The governor requires the endorsement of the trial judge and the prosecutor in every case where he exercises clemency. "The governor said, in a statement, that the amount of indebtedness which would be cancelled by the notes Tolman promised to destroy, if released, and the number of people who would be benefited would be based on guess work. Tolman's offer of a bond as a guarantee of his sincerity was worthless, added the governor. "The acceptance of such a proposition would open the way for men of means to secure a pardon that is not open to poor men," he said. "I know of no reason why a millionaire criminal should be treated any differently from a pauper criminal. I do not feel justified in inaugurating a precedent of this kind."

CONDITION OF
SIR JAMES NOT
ENCOURAGING

Suffered Setback Yesterday—
Considerably Weaker than
on Sunday—No Immediate
Danger, Doctors Say.
New York, Jan. 12.—According to the official bulletins the condition of Sir James Whitney, the Ontario premier, is not nearly so encouraging as it was during the last few days. His condition, however, has increased, and he is making an alarming weakness has manifested itself. Dr. R. A. Pyne, his colleague and physician, admitted tonight that the patient's condition is not encouraging, but he intimated that no danger was to be apprehended within a short time. Dr. Pyne announced, about ten o'clock, that the restlessness which had characterized the premier's condition during the day had ceased. He is now resting quietly, he said, and the prospect is that he will have a fairly good night. The fact that Sir James had suffered a setback was but known in the hour until the forenoon bulletin was given out at 11.30 a. m. Up to that time the same guarded answer "no change" was made to all enquiries. After Dr. Pyne and Dr. Pyne had had their usual consultation they announced that the premier had had a poor night and that his condition was less favorable. This was a distinct surprise, as since Thursday there had apparently been, if not a definite gain, at least a strong light on the part of the patient to hold his own, and this had encouraged all concerned to hope for the best. Tonight the same pessimistic feeling was apparent with Dr. Pyne and Mr. Wallis as that which existed when the previous setback took place (last Friday). The fact that the patient has grown weaker in the meantime is not considered to have helped the case, and while those in charge do not admit that all hope is lost they are not looking forward to developments with any degree of confidence, although they maintain there is no ground for a fatal termination for some time.

EARTHQUAKES
IN JAPAN

Town of Kogoshima is Visited
by Over Three Hundred
Within Twenty-Four Hours.
Tokio, Japan, Jan. 12.—A series of 350 slight earthquakes shook the town of Kogoshima, at the southern end of the island of Kjusiu today and were followed by the eruption of a volcano on Sakura, a small island in the Gulf of Kogoshima, where two villages were buried in ashes. The earthquakes continued incessantly and the work of rescuing the inhabitants of Sakura by boats which have proceeded there across the intervening three miles of water from Kogoshima is extremely difficult. Ashes have fallen all day in Kogoshima itself and telegraphic communication with the capital is interrupted.

EARTHQUAKE AND TIDAL
WAVE STRIKE CALLOA

Seaport Inundated and Number
of Hotels Flooded—Tele-
graphic Communication with
Interior Cut Off.
Lima, Peru, Jan. 12.—The seaport of Callao was inundated today by a tidal wave accompanied at a quarter to two this morning by an earthquake lasting 55 seconds. No loss of life is reported. The naval school at La Punta and some of the hotels were flooded. Telegraphic communication between here and the coast was interrupted, but the telephone continued in operation. No similar inundation has occurred there since 1874.

TITANIC CLAIMS CASE
UP FOR HEARING TODAY

BOTH ARE
BUNK FIDE
DETECTIVES

Thiel Agency Reassures P. E.
Island People; Also Cautious
Against Violence—Immoral-
ity Charges Not Supported.
Charlottetown, P. E. I., Jan. 12.—Judgments were given in prohibition cases here today. George Caver and Owen Trainor were each convicted of first offences and fined \$100 and costs. The cases against Ronald Steele, and George V. Moore were dismissed. Another case against Carver was adjourned. There was a case against Byron Brown of the Revere Hotel. The detectives swore that they purchased whiskey from him. The case was adjourned till the 19th. Tomorrow the detectives will give evidence at Souris, where there are thirteen cases, druggists and doctors being among the defendants. The Moral and Social Reform council, including almost all the clergymen of the city, held a meeting today with closed doors to deal with published statements re girls being kept in immoral purposes in a certain illicit liquor den. The council decided they must have more definite information before they could take action, the opinion being expressed that Charlottetown is one of the cleanest cities in Canada as far as red light houses are concerned. One of the defendants in the prohibition trials wired the Thiel Agency in Montreal asking whether Eirad and Valade, operating here, were bona fide detectives connected with that agency. The reply came, "yes." A member of the Temperance Alliance also received a wire from the Thiel people to the same effect, with the additional intimation that they were in charge of parcels under which the representatives to see that the detectives have every protection, any malicious interference with them to be punished to the full extent of the resources of the agency.

Over Thirteen Million Dollars
Involved in Argument.
CASE PROMISES TO
BE INTERESTING.
Many Intricate Legal Questions
Will Come Up for Decision—
Eminent Admiralty Lawyers
Taking Part.
Washington, Jan. 12.—Compensation for the stupendous loss of life and property when the steamship Titanic went to the bottom of the ocean will be up for consideration tomorrow by the Supreme Court. On the outcome of the argument of some of America's leading admiralty lawyers will depend whether the Oceanic Steam Navigation Company, the owners of the Titanic, must face the payment of some \$13,000,000 of claims, or whether its liability is to be limited to some \$90,000. Intricate questions of law which have perplexed legal minds of the United States and Great Britain, ever since the Titanic's maiden voyage was ended by the iceberg's fatal blow, and which have not yet been decided by the British courts, will be up for decision. The Navigation Company seeks to have the American court hold the Admiralty laws and rules of the United States applicable to the case and thereby limit the liability of the company to the salvage from the wreck, and the passenger and freight money received on the voyage, amounting in all to some \$90,000. Claimants seeking to recover for loss of lives, baggage and freight have despatched about a score of lawyers to the Supreme Court with briefs in their behalf. Every inch of the ground upon which the Navigation Company is basing its claim to a limitation of liability is to be contested. In the first place it is claimed that American law does not apply, because the disaster occurred on the high seas. Furthermore, it is contended that the American law contemplates limitation of liability only when the disaster results from the collision of two vessels and not when it occurs from striking an iceberg. Some of the lawyers also argue further that British law fixes the liability of the owner because the Titanic carried the British flag, and that the Supreme Court should so hold. Should the British law be held applicable, the American court would have to determine whether it shall proceed to take jurisdiction of the claims and enforce the British law, or whether the claimants must sue in England. In either case, it is said, a prolonged contest would result. Should it be found that the disaster occurred without the owner's fault or privity, the damages recoverable by the claimants under British law, it is said, would be about \$2,000,000. Should it be held the disaster occurred with the owners' fault or privity, it would be liable for full damages, now claimed to be about \$13,000,000.

NEW POSTAL
AGREEMENT

New Arrangement Regarding
Exchange of Parcels Be-
tween this Country and Aus-
tralia Goes Into Effect.
Ottawa, Jan. 12.—Hon. L. P. Pelletier, postmaster-general of Canada, has entered into a new agreement with the government of the Commonwealth of Australia for the direct exchange of parcels under which the present rate of twenty-four cents a pound is reduced, either way, after the first pound to twelve cents a pound. The reduced rates take effect from the first of January, 1914. It will be a decided improvement on the previous rate and will no doubt lead to an increased volume of parcel post business between the two countries.

STATE HIGHWAY FROM
QUÉBEC TO AUGUSTA
IS ANNOUNCED

Portland, Maine, Jan. 12.—A new highway 224 miles long, connecting Augusta and the City of Quebec, is assured, according to an announcement by the State Highway Commission today. The Quebec government has appropriated \$300,000 to build the road from Quebec to the Maine boundary, a distance of ninety-three miles, and the remaining 131 miles will be constructed by this state.

CANADA MAY NOT SEND A
TEAM TO BISLEY THIS YEAR

Attempt of War Office to Revolutionize Conditions for King's
Prize and Other Competitions Not Fair to Dominion
Rifleman.
Special to The Standard.
Ottawa, Jan. 12.—As foreshadowed in this correspondence, no Canadian team will be sent to Bisley this summer if the war office persists in its attempt to revolutionize the conditions governing the King's prize and other leading competitions at Bisley. As noted some days ago, the element at the war office which desires to substitute so-called active service targets for the present bullseye variety obtained sufficient control to require the National Rifle Association to change the conditions of the leading matches. In part this was to be effected by "service" targets, in part by the introduction of rapid firing at certain stages, and in part by the forbidding of the aperture sight. Col. Hughes, who during the holidays was in the west, returned the other day and took stock of the situ-

MAYOR HOCKEN ADVISES
JUDICIOUS EXPENDITURE.

Toronto, Jan. 12.—Caution was the keynote of Mayor Hocken's inaugural address to the city council this morning. Council should be careful about placing additional burdens on the taxpayers, even for improvements, which might be desirable. His Worship devoted a large part of his address to the question of the purchase of the street railway system. The finances of the city, he stated, were never in better condition.

ATTEMPT OF WAR OFFICE TO REVOLUTIONIZE CONDITIONS FOR KING'S
PRIZE AND OTHER COMPETITIONS NOT FAIR TO DOMINION
RIFLEMAN.

His decision was rapidly reached. If the proposal made by the war office are insisted upon Canada will not send a team. What particularly attracted the attention of the Minister was the proposal to bar the aperture sight. This seems to be aimed directly at the Canadian service weapon, for its design is such that the aperture sight is essential to its use; there is no middle sight and no place for it, the rear sight being an aperture sight. If this sight is forbidden the Canadian rifle cannot be used. Colonel Hughes also disapproved heartily of the so-called active service target. As in all branches of knowledge the teaching of rifle shooting should proceed from the known to the unknown, and individual skill, for the testing of which Bisley exists, can best be proved by the bulls eye target.

A DETERGENT FOR THE TANNON

Canada's Dairy Commissioner on Export of Cattle to States.

PEOPLE CONSUME MUCH MORE MILK

In Increased Consumption of Dairy Products can be Found One Reason for Advance in Cost of Living.

Ottawa, Jan. 12.—An expert view of the effect of the new United States tariff, a view that the temporary draining from this country of its beef cattle will prove a highly beneficial rather than deterrent factor, has been expressed by Mr. J. A. Ruddick, Dominion Dairy Commissioner, who recently gave evidence before the Cost of Living Commission.

Mr. Ruddick's opinions would not make good reading for the United States cattle buyer. "The swarm of Yankee drovers," he states, "which overran some parts of Ontario and Quebec when the duty on cattle into the United States was removed, was not an unmitigated evil from the standpoint of the dairy industry. They are welcome to the worn out and discredited farms which were picked up in railroad or large numbers. This is a better way for the progressive farmer to dispose of his unprofitable animals than to sell them to his own neighbors. The only regret we need to have over this export of cattle from the dairy point of view is for the young, untried feeders which unprecedented prices induced some farmers to part with, thinking perhaps it was too good a chance to lose. There need be no fear of loss of opportunity in this matter. The price of cattle must rise high for some years to come if the law of supply and demand is to hold good."

Mr. Ruddick does not take a very serious view of the effect of the new United States tariff. "Milk and cream," he says, "will probably be exported as long as the present tariff remains in force, especially at convenient shipping points, but there does not seem to be any immediate prospect of a large quantity of either cheese or butter being exported. In the present condition of the Canadian market, a very small movement in that direction would boost prices to a prohibitive point. The circumstances are such that New Zealand and Australian butter is more likely to be demanded than Canadian. Having a large surplus for export, both these countries must accept for their surplus the international market value which is lower than the ruling price promises to be in Canada."

Mr. Ruddick who gave some remarkable figures of the home consumption of dairy products showing that whereas the per capita consumption of Canadians was 800 pounds of milk in 1912 it had risen to have a ton per head on the average and the production of milk had not risen in anything like the same ratio, being 3,871,178,103 pounds in 1910 as compared with 3,866,234 pounds in 1900. The per capita consumption of butter in the ten years rose from 23.49 pounds to 27.88 pounds. This increase of consumption Mr. Ruddick attributes to the great prosperity of the country and consequent increase in purchasing power and partly to the better quality of milk and products in recent years. "In the ground of consumption can be found one reason for the advance in the cost of living."

Cranston Avenue Fire.

Fire destroyed a barn on Cranston avenue owned by Lewis Millidge shortly after five o'clock yesterday. The barn was occupied by Mrs. Brown. The fire was discovered by Herbert Armstrong and was extinguished from box 312. A quick response from the fire department extinguished the flames before much damage had been done. A still alarm was given about nine o'clock last evening when fire again broke out in the barn, but the North End chemical engine soon extinguished the blaze.

Troubled With Weak Back and Kidneys For 10 Years.

Many people fail to understand the significance of a lame, weak, sore or aching back.

When the back aches or becomes weak it is a warning that the kidneys are affected in some way.

Take notice to the warning and cure the backache on the first sign, for if you don't do this, serious complications are sure to arise and perhaps develop into Dropsy, Diabetes or Bright's Disease, the three most deadly forms of kidney trouble.

Doan's Kidney Pills will strengthen the weak back, and prevent any form of kidney trouble entering the system.

Doan's Kidney Pills are 50 cents a box, or 3 boxes for \$1.50, at all druggists and country stores by the T. J. Milliken Co., Limited, Toronto, Ont.

A DISASTROUS FIRE IN QUEBEC

Large Furniture Factory Burned Last Night—Started in Boiler Room—Damage Over \$100,000.

Quebec, Jan. 12.—A general alarm was rung in tonight about eleven o'clock for a fire that had broken out in the Valliere furniture factory at the corner of St. Roch and St. Vallier streets.

The buildings were four-stories in height, built of brick. Nothing is left standing but the walls. A conservative estimate places the loss at \$100,000. The fire is supposed to have started in the boiler room.

KILLED FIRST WIFE, TRIED TO POISON HER TWO SUCCESSORS

Protests Drug Used on His Wives Was to Improve their Looks—Also Used Fever Germ.

Frankfort-on-Main, Jan. 12.—The plea of "not guilty" was entered today by Carl Hopf, the local druggist and former fencing master, when brought up for trial charged with killing his two children, his father, and his first wife by administering poison and with attempting to commit similar crimes on his second and third wives and another person.

The accused admitted today that he had given a poisonous drug to his three successive wives, ostensibly as a means of improving their looks. To his third wife he had also given fever germs, but she escaped death owing to the vigilance of the doctor.

The three women had been insured by the prisoner for \$5,000, \$7,500 and \$20,000, respectively. His wife fell seriously ill within a year after her marriage to the accused.

The accused admitted today that he had given a poisonous drug to his three successive wives, ostensibly as a means of improving their looks. To his third wife he had also given fever germs, but she escaped death owing to the vigilance of the doctor.

BULGARIA AT PEACE WITH ALL BUT GREECE.

Sofia, Jan. 12.—At the re-opening of the Sobranie today, the premier, M. Radoloff, energetically repudiated the rumor that the government next spring, or at any time whatever, intended to draw the honor of a new treaty from Bulgaria. He added that diplomatic relations between Bulgaria and her neighbors, with the exception of Greece, had been resumed.

JULIAN HAWTHORNE'S CHARGES WERE NOT SUSTAINED.

Washington, Jan. 12.—Julian Hawthorne's charges against the manager of the Atlanta Penitentiary were not sustained in a report of a special investigation by Dr. A. J. McKelway, submitted today to Attorney-General McKeen. All allegations by Hawthorne involving Warden Moyer were declared to be without foundation.

LARGE STILL PLANT RESUMES OPERATIONS.

Wheeling, W. Va., Jan. 12.—The Riverdale plant of the United States Steel Corporation resumed operations in full today after a idleness of four months. Approximately 5,000 men were affected.

BILL TO ABOLISH CAPITAL PUNISHMENT IN CANADA.

Ottawa, Jan. 12.—Robert Biekerdike, M. P., Montreal, has given notice that he will move at the forthcoming session to abolish capital punishment in Canada. All allegations by Hawthorne involving Warden Moyer were declared to be without foundation.

AGED WOMAN FOUND DEAD ON FLOOR OF KITCHEN.

Trenton, Ont., Jan. 12.—Mrs. C. O. Simpson, a widow, was found dead in her home in East Trenton today. She was about seventy years of age and lived alone. It is supposed that she died on Saturday evening. Her body was found on the kitchen floor.

JACK "TWIN" AT IT

Jack (Twin) Sullivan is determined not to let them force him to retire, and has a bout on with Johnny Howard at Brooklyn for next Saturday night.

DROPS DEAD WHILE BOXING

Danville, Va., Jan. 12.—Conrad Clayton, six-foot six-inch old, dropped dead while boxing with his friend, James Talley, aged fifteen. Death was attributed to heart failure due to exertion.

AMERICAN Lotion

FREE BOX

To enable you to test Zam-Buk at our expense we will send you a free trial box of our Lotion on this card, with a stamp and name of the doctor who has used it.

ZAM-BUK CO. Toronto

Mrs. F. Gervais, of 126 Bleury Street, Montreal, writes: "My baby girl developed a bad rash on her body and it made her very fretful and ill. She would not take food, and seemed very sick indeed. From fifteen pounds, her weight fell away to nine and a half pounds.

"I took her to a doctor who gave me a kind of lotion to use and I used it regularly, but the baby got no relief. The skin disease seemed to get worse and worse all the time we were doctoring for it, so we took the child to a second doctor. He told me to stop nursing the baby, and gave me other advice which I followed, but the skin disease got worse and worse.

"At this time a friend of mine visited us and, having seen the sad plight the baby was in, she said I did not know how to go about things. She took my baby to her home and applied Zam-Buk to its little body. This seemed to give the baby case right from the first. It cured the sores and began to restore the inflammation. I went on with the Zam-Buk treatment, and to my delight, within one week from first starting

FEDERAL REFUGEES WILL BE INTERNED AT FORT BLISS

U. S. Secretary of War Gives Permission for Women and Children to Accompany Soldiers if they Wish.

Washington, Jan. 12.—All the Mexican federal soldiers now in one camp at Fort Bliss, Texas, will be transferred to Fort Bliss and interned there indefinitely. Secretary Garrison ordered the transfer late today, with permission for the refugee women and children to accompany the soldiers if they desire.

There are about three thousand of the Mexican officers and men who fled across the Rio Grande when the victorious constitutionalists entered Ojinaga and had them, besides many women and children, are fifteen hundred civilian refugees. The latter are not with their families, but are being held in a military camp as they please by the military authorities, those desiring to remain in American territory will have to be interned in the United States.

OVER TWO THOUSAND MINE ACCIDENTS LAST YEAR.

Washington, Jan. 12.—Alarmed by the increase of mine accidents during 1913, when 2,360 deaths were recorded in the United States, the greatest number since the Federal Bureau of Mines was created, John Mitchell, former president of the United Mine Workers, Vice-President Hayes, of the United Secretaries of Labor, and Dr. John A. Holmes, director of the federal bureau, conferred here today to discuss the probable cause of the increase and a possible remedy.

TWO CANDIDATES FOR MAYOR IN HULL, P. Q.

Ottawa, Jan. 12.—Mayor Henriques Dupuis and ex-Alderman Joe. Borque were today nominated for the mayoralty of Hull, Quebec, eight aldermen were elected by acclamation and there will be aldermanic contests in three out of the six wards.

WILL WRESTLE IN BOSTON

Boston, Jan. 12.—Alex. Aberg, the European wrestling champion, and Frank Ehrler, a young German heavy weight wrestler, will be matched to meet in one of a card of all-star wrestling bouts to be staged at Mechanics building on January 20 next by George V. Tuohy. Arrangements for the match will be completed today or tomorrow when Tuohy will meet the two grapplers. Tuohy has several other star bouts in mind which he will announce shortly. Ehrler is a giant in size, standing six feet two and weighing 240 pounds. Ehrler was at one time a special protégé of the Hackenschmidt, the Russian marvel.

AFTER HEAVY WEIGHT TITLE

New York, Jan. 12.—Levinsky, who has offered no excuses for his defeat at the hands of McAllister, says that he is still a contender for the white heavy weight title. His fight to a battle with Gusnot Smith will be disputed by Porky Flynn, the Boston pugilist, at the National Sporting Club tomorrow night. Tom O'Rourke, who is supervising Flynn's training preparations, says that his man will win by a knockout—a bold assertion. Flynn will have a special protegee of twenty pounds and if he is really fit Levinsky will have the liveliest kind of a time.

DROPS DEAD WHILE BOXING

Danville, Va., Jan. 12.—Conrad Clayton, six-foot six-inch old, dropped dead while boxing with his friend, James Talley, aged fifteen. Death was attributed to heart failure due to exertion.

CASTORIA

For Infants and Children. The Kind You Have Always Bought. Sours the Stomach. Castoria is a safe and reliable remedy for infants and children. It is a natural and healthful laxative, and is the only one that is both safe and effective. It is the only one that is both safe and effective. It is the only one that is both safe and effective.

AMERICAN Lotion

FREE BOX

To enable you to test Zam-Buk at our expense we will send you a free trial box of our Lotion on this card, with a stamp and name of the doctor who has used it.

ZAM-BUK CO. Toronto

The skin disease seemed to get worse and worse all the time we were doctoring for it, so we took the child to a second doctor. He told me to stop nursing the baby, and gave me other advice which I followed, but the skin disease got worse and worse.

"At this time a friend of mine visited us and, having seen the sad plight the baby was in, she said I did not know how to go about things. She took my baby to her home and applied Zam-Buk to its little body. This seemed to give the baby case right from the first. It cured the sores and began to restore the inflammation. I went on with the Zam-Buk treatment, and to my delight, within one week from first starting

THE GREAT HERBAL HEALER

WANT PROVINCIAL HOME FOR DELINQUENT WOMEN. The Local Council of Women and Social Workers Present Request to Hon. Mr. Doherty.

Montreal, Jan. 12.—An influential deputation from the Local Council of Women, accompanied by representatives of other bodies, waited upon Hon. C. J. Doherty, minister of justice, this afternoon, to ask for amendments to the Criminal Code which will permit the establishment of a provincial reformatory institution for delinquent women upon the most modern lines of prison reform ideas.

Members of the deputation stated afterwards that not only had Hon. Mr. Doherty received them most courteously, he showed deep interest in the subject, and he had promised to call on them before he left for his home. He had also promised to call on them before he left for his home. He had also promised to call on them before he left for his home.

EXTRADITION PAPERS FOR AMERICAN ARTIST

Decree for Arrest of Earle and His Companion, Charged With Kidnapping, is Sent to Norwegian Authorities.

Christiania, Jan. 12.—The Norwegian authorities received today from the French tribunal the decree of arrest and a demand for the extradition of Ferdinand Pinney Earle, the American artist, and Miss Charlotte Herdman, who are charged with the kidnapping of Earle's eight-year-old son from a school in France. It is understood that the demand will be complied with.

ARRIVES AT MONCTON ON INSPECTION TRIP

Hon. FRANK COCHRANE Will Visit I. C. R. Shops Today and Then Proceed to Halifax—Rest of Itinerary Unsettled.

Moncton, N. B., Jan. 12.—Hon. Frank Cochrane, Minister of Railways, arrived in Moncton this afternoon from Ottawa by special train on a short inspection trip over the route. Tomorrow morning he will visit the Moncton shops and in the afternoon, accompanied by General Manager Gutelius and other officials he will leave for Halifax to look over the work at the terminals. The rest of the itinerary has not yet been definitely arranged.

Had Narrow Escape.

As the Prefectorial train was leaving the Union depot yesterday afternoon a serious accident was narrowly averted, when an elderly lady carrying a baby in her arms and accompanied by two boys attempted to get aboard just as the train was starting. In the excitement of the moment, and owing to the fact that a big crowd was in the station at the time, one of the lady slipped and nearly fell from the wheels. A shout from the crowd attracted the attention of the engineer who immediately stopped the train. A young lady seeing the affair faintly and was carried to the baggage room where she did not recover fully half an hour.

MARRIED.

McGLOAN-SULLIVAN—At Holy Trinity Church, on January 12th, 1914, by Rev. J. J. Walsh, Agnes L., daughter of Mr. and Mrs. Richard Sullivan, to Norman L. McGloan, of Moncton.

PROVINCIAL CABINET CHANGES

The changes in the personnel of the provincial cabinet which are published elsewhere will not occasion surprise. In every case the logical choice has been made. The elevation to the bench of Hon. W. C. H. Grimmer made it necessary that Hon. J. K. Fleming should choose from among his conferees a successor to head the legal department of the government. His choice was a wise one and in Hon. George J. Clarke he selected a gentleman who will worthily fill the office. The Times, last evening, intimated that Mr. J. B. M. Baxter and Mr. A. R. Slipp had aspirations toward the office and that in the event of the choice falling upon Hon. Mr. Clarke might feel aggrieved. This report is as silly as most of the things that find their way into the columns of the Times. The new attorney-general has no better friends and well wishers than the gentlemen named, neither of whom were candidates for the position. In fact the appointment of Hon. Mr. Clarke comes as a well merited promotion. He has been speaker of the House of Assembly since 1909 and by his fact and absolute fairness in that position has won the confidence and esteem of all members, whether government supporters or not. He will take to his more important office the best wishes of hosts of friends and admirers.

The entry into the broader field of federal politics of Hon. H. F. McLeod, provincial secretary, created a vacancy in another important department of the provincial administration. In selecting Hon. Mr. McLeod's successor Premier Fleming again followed the line of promotion and Hon. Dr. Landry, who has administered the agricultural department with marked success, is the new provincial secretary. Hon. Dr. Landry is an Acadian and his selection for the important office is a nice compliment to the Acadian people.

Hon. James A. Murray, who has been a member of the cabinet without portfolio, becomes Commissioner of Agriculture in succession to Dr. Landry. Hon. Mr. Murray represents the great agricultural county of Kings and is well qualified for his new duties. His appointment also will be a most popular one. The new speaker will be Mr. W. B. Dickson of Albert county, who has been deputy speaker and is therefore well fitted for the more important office.

The changes will render necessary the holding of four bye-elections, and it is expected the writs will be issued at once and the elections held before the legislature is summoned about the middle of next month. The constituencies affected are Charlotte, Kent, Kings and York counties. It is doubtful if there will be opposition in any of them. The provincial government is now more strongly entrenched in the affections of the people than at any time in its history, and it would seem as if the Liberals, who, judging from the recent federal bye-elections in York county, have buried the "fighting spirit of Liberalism," must realize that their chances of victory in any of the constituencies to be opened are very small. It is far more probable that when the legislature opens Premier Fleming's advisers will find themselves confirmed in their new positions without the province being put to the expense of needless elections.

THE FOOD DUTIES.

The local Pugsley newspapers persist in relying on the cost of bread in England compared with Canada as an argument to show that the duties should be either reduced or abolished on Canadian foodstuffs. The Standard has endeavored to point out that the price of bread, or meat, or sugar, in any country, cannot bear any relation to the cost of living in that country unless consideration is also given to the standard of living and the price of labor. In other words, it is not the price so much as the ability of the consumer to pay the price that establishes a true and real test whether the cost of living is or is not high. What might be considered high under the low scale of wages obtainable in Free Trade England would be very reasonable in Canada.

If the Telegraph and Times can find in the fact that bread sells for one cent per pound less in England than in Canada, an argument in favor of the reduction in duties on foodstuffs coming into Canada, why is it that in Germany, where there is a high protective tariff, foods are also cheaper than in Canada?

The whole amount of the duties levied on the most important items of food imported into Canada and which Sir Wilfrid Laurier would wipe out, figures out at the rate of thirty cents per head of population in one year. In other words, for the opportunity to see the English price for thirty cents of bread per year, and reap the benefit of one cent per pound

duction over the present prices, the Liberal newspapers would have the people sanction what will really prove to be the entering wedge of free trade.

If the Telegraph and Times desire to stand by their argument that the difference in the price of foods in England and Canada is really due to the tariff they might explain the case of sugar. It is well known that in England granulated sugar sells for four cents per pound, while in Canada it is five cents per pound. Possibly according to the argument of the Liberal papers nothing but freedom from taxation can explain the difference. According to the Statesman's Year Book, and the Telegraph and the Times can find no better authority, the people of the British Isles paid sugar duties in the year 1909 alone to the extent of nearly \$16,000,000. The high tariff on sugar is one of England's great sources of revenue, yet sugar is sold more cheaply there than in Canada. If the food duties, and not the ability of the people to pay the price are really responsible for the English prices, compared with the Canadian prices, the case of sugar stands in a peculiar light. In fact it may be said that this one item alone completely knocks the supports from under the feeble and unintelligent argument of the free-traders are laboring so hard to build.

STREET LIGHTING.

There will be general agreement with the opinion of Mayor Frink, expressed at yesterday's meeting of the city council, that there should be a scheme or agreement for uniform street lighting in St. John, especially in the business streets. Recently the appearance of Charlotte, King and Prince William streets and the north and south sides of King Square has been materially improved by the installation of ornamental lights by private individuals. The additional lights placed in front of the Market building have done much to add to the attractiveness of that portion of Charlotte street.

There is no better investment for any city than plenty of street lights. It has been said that every city street turned from a condition of semi-darkness to one of bright light is as much protection to property owners in that locality as an additional police officer. Whether this claim is well founded is not known, but the fact remains that a city is often judged by its streets and its lighting conditions. A brightly lighted city, with well kept streets, impresses one at once as a brisk business locality while a city poorly lighted and with streets but indifferently cared for creates an impression just the reverse. The condition of St. John's streets and sidewalks, as well as the street lighting system, has been greatly bettered during the last few years, but there is still room for improvement in both lines. If it were possible to follow the example of Halifax, and create a "white way" on one of the principal business streets, it would probably be found good business on the part of the property owners in the locality so dealt with to pay a portion of the cost. Adequate street lighting not only adds to the attractiveness of a city but also to the value of the property on the streets so lighted. The suggestion of the Mayor might well be acted upon during the coming year. Public money could be expended in ways that would bring less return.

THE NAVAL BILL.

The naval bill of the Borden Government was defeated last session in but one way, says the London Free Press, namely, by the interposition of a partisan majority in a chamber that is not directly responsible to the people. When, by a large majority and after a bitter struggle, the House of Commons had carried the bill through all its readings it was thrown out by men who were willing to obey the demands of the man who had placed them in their office.

The situation that existed at the close of last session remains unchanged. The majority of the Senate is no doubt just as ready to kill the bill today as in the past. They will still do their part when the strings are pulled by Sir Wilfrid Laurier.

These are facts that will have a bearing upon the course to be pursued by the Government when Parliament reassembles. To present the bill anew, fight for it through all readings and have it again slaughtered by the Upper House would be a waste of effort which Mr. Borden will probably avoid.

Coming Back.
(Brockville Times.)
Hon. Mr. White, in a speech at Montreal, referred to the "ebb and flow" of trade. True, true, all over the border and nothing coming back—Ottawa Free Press.
Waka up, waka up! "Nothing coming back." Ask the farmers what is coming back in the form of high prices for cattle, cream and butter.
"Come back" is the old Liberal administration.

Diary of Events

FIRST THINGS

"MOTHER GOOSE."
The first writer of fairy tales to gain an international reputation was Charles Perrault, the "father" of "Mother Goose," who was born in Paris on this date in the year 1628. Perrault has no claim to the invention of "Mother Goose," "Cinderella," "Jack and the Bean Stalk," "Beauty and the Beast," and other nursery tales, but he is entitled to immortality for his skill in adapting style to matter. The Frenchman was famous as biographer and historian before he began writing his "Contes des Fees," or "Tales of the Fairies." He was in his seventieth year when the book was published. Many of the legends to which he has given immortality were of German origin, while others were French and English, and they had been told and re-told, but never written, for centuries before Perrault gave them enduring form. Paris has a monument to Perrault's memory, and thousands of children annually visit the Garden of the Tuilleries to gaze in awe upon the wax face of the man who gave the world its most delightful fairy tales.

THE PASSING DAY

BRITISH THANKSGIVING DAY.
While Thanksgiving Day, as an annual institution, is peculiar to the United States and Canada, many people of the British Isles have observed it in Great Britain. One of these was celebrated just a century ago today, Jan. 13, 1814, when the whole British people gave thanks for the successes of England and the allies over Napoleon Bonaparte. The first English thanksgiving day was held in 1588, for the defeat of the Spanish Armada. Queen Elizabeth attended the services at St. Paul's. In 1702 and again in 1704 Marlborough's victories were the occasion of national rejoicings. Thanksgiving days for the recovery of members of the royal family from illness have been held several times, notably in 1789, for George III., and in 1872 for the recovery of the Prince of Wales.

THE HUMAN PROCESSION

PRINCE ARTHUR OF CONNAUGHT 31 TODAY.

Birthday celebrations are due today to that royal newlywed, Prince Arthur of Connaught, grandson of Queen Victoria and only son of His Royal Highness the Duke of Connaught, Governor General of Canada. The Prince, who is described as the handsomest and tallest man in the British royal family, married in October the Duchess of Edouard VIII. The bride was often referred to as "her royal shyness," owing to her timidity and bashfulness, but since her marriage, according to dispatches, she has blossomed into a gay and smart woman, and is much more beautiful than before her marriage.

Prince Arthur is very popular all over the Empire because of his democratic air and his lack of affectations and "side." As a sportsman he is a shot, and is very fond of hunting. He is slightly lame because of an accident received while hunting. He also fond of tennis and many other outdoor sports. The Prince has been given a number of important missions, and represented the British royal family in Japan, Italy and Germany. He has interested himself in many philanthropic and scientific movements.

The Prince was long considered a confirmed bachelor. Both King Edward and King George, it is alleged, suggested matrimonial alliances with foreign princesses that would be advantageous to England, but the Prince was fond of American and Canadian girls, and before his marriage his name was coupled with those of several young women of the London Anglo-American colony.

As a big game hunter the Prince is entitled to rank with Col. Roosevelt. He headed an expedition into the west of Africa and killed many lions, tigers and other beasts, but there were no newspaper reporters along and the world did not make much mention of the expedition. He has also hunted in Russia and Canada, and in the Dominion he won golden opinions. Among the English newspapers were requested to make mention of the expedition. He has also hunted in Russia and Canada, and in the Dominion he won golden opinions. Among the English newspapers were requested to make mention of the expedition.

CIVIC APPROPRIATIONS FOR MANY DEPARTMENTS PASSED BY THE COUNCIL

Commissioner Wigmore Authorized to Bring Expert Here to Inspect Water System of St. John—Police Estimates Decreased by \$8,127.

FOUR PERMANENT HOSE CART TAIL MEN FOR FIRE DEPARTMENT; MOTOR TRUCKS

Additional \$5,000 for Hydrants—Steam Fire Alarm Whistles—Ferry Appropriations, Increased Pay for Men in this Branch of Service—Public Work Appropriations Make Ample Provision for Many Improvements.

At the meeting of the city council yesterday appropriations of a number of departments were passed, and Com. Wigmore was authorized to have an expert from Boston make a report on the water service.

Civic appropriations passed yesterday were as follows:—

	Limit of Expenditure	Warrant	Compared with 1913
Fire	\$ 76,103	\$ 77,825	\$ 1,722 inc.
Police	51,439	52,466	1,027 dec.
Lighting	32,378	38,024	5,646 inc.
Public Works	107,150	109,293	2,143 inc.
Ferry	6,000	6,120	120 inc.
Sewerage	16,000	16,320	320 inc.
Hydrants	10,000	10,200	200 inc.

In the statement submitted by Com. Agar appropriations for last year were placed at \$89,000, which would make the increase for this department rather large. He admitted, however, that this was not correct, as the appropriation of \$10,000 for King street and \$5,000 for sidewalks was not included. Last year the limit of expenditure for the public works department was \$104,235, and the amount of the warrant was \$104,235. The increase for this department is therefore a little less than \$7,000.

Police.
The difference in the appropriation for the police is mainly due to the fact that last year the appropriation for the wages of 34 police officers was \$34,676, while this year the appropriation was \$35,645. Last year it was the intention to raise salaries of police officers. Com. McLellan announced that the force would be raised to the full strength it was when he came to office. Sergeants salaries this year will run to \$6,387, whereas the appropriation last year was \$7,025. The estimated revenue of the police court is reduced from \$6,000 to \$5,000.

Fire Department.
The increase in the fire department appropriations provides for the appointment of four permanent hose cart drivers at \$720 a year. They will be selected with a view to eventually forming a squad for a motor truck fire engine.

Lighting.
The lighting appropriation provides for the installation of 20 new street arc lights and 10 one hundred watt street lamps, at a cost of \$2,000.

Big Interest Charges.
The big increase in the public works appropriation is made up largely of increased interest charges. Interest this year will be \$18,200, as against \$15,000 last year. \$2,000 is added for plant maintenance; \$2,000 for asphalt work; \$500 for public grounds on the West Side, and \$1,000 for new machinery.

The additional \$5,000 for hydrants provides for the installation of 50 new hydrants and repairs to stop cocks.
When the police estimates were being considered, Com. Schofield asked: Suppose the local government would grant our request to remove the dead-end regarding the police force, wouldn't you want to improve it?
Com. McLellan—Yes, but I'm not sure provision for that this year. If such a thing should happen, we will be able to do something.
Com. McLellan moved that a bond issue of \$1,500 be made to install a steam fire alarm whistle and electric hose. This was adopted.

Ferry Appropriations.
On motion of Com. Schofield the following ferry appropriations were passed:
Rebuilding two boats... \$1,500
Hot well for Ludlow... 400
Tail shaft for Carleton... 500
Spare shaft... 500
Docking gear... 500
Increase in wages... 1,200
Contingencies... 1,100
Total... \$6,000

Captains and mates are to get an increase in wages of \$5.00 a month; deckhands and others of \$2.50 a month; carpenter 50 cents a day; watchman, 25 cents a day.

Ferry Traffic.
Last year the ferry carried 2,400,233 passengers, against 2,177,831 in 1913, an increase of 222,402. The number of teams crossing was 120,736, against 111,324, an increase of 9,412. The receipts, including an assessment of \$7,182, was \$58,183, and the expenditures \$56,858, leaving a balance of \$1,325.

For Level Surface.
A communication was received from H. C. Groat requesting permission to erect a platform so as to provide a level surface over the side walk on Union street to allow motor trucks to get down to the warehouse. The C. P. R. would do the work at its own expense.
On motion it was decided to grant the necessary permission to put the

ASSISTANCE GIVEN POOR

Reports at Monthly Meeting of St. Monica's Society Show Much Good Work Done.

The regular monthly meeting of St. Monica's Society was held last evening, there being a good attendance. Reports of the standing committees were presented, and all were of an encouraging nature. Among the reports, it is pleasing to note, was that of the charity committee, which was able to carry a great deal of happiness to a number of families at Christmas by the distribution of baskets containing provisions and gifts. This committee reported that it had received quite a number of applications for assistance which it was endeavoring to meet.

The treasurer's report showed that the bridge party held on December 20 had been a great financial success. The society decided to add a new feature to its work during the winter, and every second Monday in the month a literary evening will be held, at which lectures on various subjects of a literary character will be delivered. The first literary meeting will be held on Monday, the 19th inst.

LYRIC IS OFFERING A FINE PROGRAMME

Vaudeville Stars in Clever Stunts Win Rounds of Applause—Good Picture Bill.

Nothing but favorable comments were heard yesterday on the Lyric show for the first of the week, and the common comment of the patrons of the theatre was a just criticism of the bill chosen for this change. The management presented its patrons yesterday with an all around good bill and a show featy up to the standard of the Lyric. The picture bill, featuring "The Whirlwind Cyclone Berlin," in good comedy and sensational acts gave a line of entertainment rarely offered in the low price vaudeville houses, and elicited much applause from the audience.

Lower Cove Wharf.
Hon. J. D. Hazen wrote saying that he was bringing the council's resolution relative to the building of a wharf at Lower Cove to the attention of the Minister of Railways and Mr. Guellet.

Brick Clay.
A report was received from Director Wisely saying that engineers had prospect on the school lot in Lancaster, and at a depth of 20 feet or so had found brick clay, and also very fine sand. The mayor was authorized to have an analysis made of the clay.

Water Expert.
Com. Wigmore moved that he be authorized to engage the services of Mr. Goldsmith, now in charge of the water service at Boston, to make a report on the water system here. He said he had been to Boston and supplied Mr. Goldsmith with charts of the distribution system, and other information. Mr. Goldsmith was willing to come here, and ought to be able to make an inspection in a week. He had done similar work in 40 other cities.

Public Works Appropriations
The appropriation for public works were as follows:—

Streets, east, ...	\$10,000	\$10,000
Streets, north, ...	10,000	10,000
Streets, west, ...	4,000	3,000
Asphalt west side, ...	1,400	1,400
Public ground, west side, ...	500	500
Street cleaning and watering, ...	18,000	20,000
Stables, ...	2,500	4,500
Public grounds, ...	4,000	4,500
New houses, ...	1,400	800
New machinery, ...	2,500	3,500
Bridges and fences, ...	500	500
Asphalt, ...	8,000	10,000
Retaining walls, ...	8,500	16,200
Salaries, ...	6,500	8,800
Crusher, ...	7,000	7,000
Plank walks, ...	500	500
Rent of offices, ...	700	700
Com. McLellan said, ...	50	100
Veterinary fees, ...	100	100
Insurance, ...	300	300
Total, ...	\$89,000	\$107,150

Answers to Questions On the Water Service

Engineer Murdock Submitted Last Instalment to the Council Yesterday.

STATISTICS OF OTHER LARGE CITIES

Under Combined Service and with Greater Pressure, Nine Million Gallons per Day Registered by Metres.

At yesterday's meeting of the city council, Com. Wigmore presented the report from Engineer Murdock which covers the remainder of the questions asked by Com. McLellan in regard to the water service. Other questions were replied to two weeks ago.

City	Population	Pumping or Gravity	Gallons per Capita
Providence (R. I.)	254,100	P.	65
Lowell (Mass.)	106,234	P.	51.21
New London (Conn.)	19,300	P.	128
Ottawa (Ont.)	70,000	G.	192
Reading (Pa.)	100,930	G.	142
Wellesley (Mass.)	7,500	P.	47.2
Madison (Wis.)	25,190	G. & P.	89
Somerville (Mass.)	74,000	P.	104.6
Wilmington (Del.)	75,000	P.	67.76
Worcester (Mass.)	155,182	G.	76
Dayton, Ohio	84,000	P.	121
Springfield (Mass.)	87,500	G.	99.1
Toronto (Ont. East Side), 1913	425,000	P.	220
St. John (East Side), 1906, say	37,000	G. & P.	154

This shows that the damage foreseen by the writer, when the union of the services was discussed, has taken place, and it is now too late to discuss restricting the city to high and low level supplies. Some of the old pipes which were laid for low pressure water would seem to have been unable to stand under high pressure, and it is possible that waste is taking place in houses. The leaks would be hard to find as the pipes are generally near, and sometimes inside of, sewers, and could carry the leakage away.

Besides this a common gridiron service having been pronounced as the policy of the city, all extensions and renewals have been made with that end in view; the last improvement recommended having been a 24-inch main from Marsh Bridge via Waterloo street, to Union street. It has also been suggested at various times, to add an additional main of 36-inches diameter to be laid from Little River via Lech Lomond to the city. Such a pipe service at the present rate of draught if the city were again restricted.

Location of Hydrant	Oct. 1896	Nov. 1902	Sept. 1905	Sept. 1909	Aug. 1913
Wentworth and Princess	27	27	31	26	25

Adelaide Road, opposite Bentley	17	43	40	47	28
Douglas avenue, between Alexandra and Bentley	104	33	32	38	31
Douglas avenue, between Bentley and Alexandra	16	41	39	42	25
Low Levels—					
King and Germain, 12 in. main	204	32	29	43	46
King and Germain, 8 in. main	34	28	44	46	47
Norfolk side King St. between Charlotte and Sydney	23	23	18	40	37
Princess and Germain	20	22	21	28	35
Horsfield and Charlotte	18	20	16	28	32
King and Germain	18	20	16	28	32
Union and Dock	374	36	35	47	41
Sheriff and Brooks	44	32	44	54	41
Main and Cedar	20	30	15	28	41
Metcalf and Cunard	24	20	13	24	34

It is estimated that with such a high service as was set apart for Silver Falls pump, somewhat enlarged, making a square its western boundary as far south as Duke street, Queen Square, waste and leakage being entirely stopped, the static pressure would be fully 30 pounds greater effect than that of the pump, as shown in the second and third columns of pressures.

23. Corner Sheriff and Brooks
24. Corner Main and Cedar
25. Corner Metcalf and Cunard (add to high)

The foregoing table is prepared from the result of an exhaustive series of experiments made at Springfield (Mass.), as published by George A. Ellis, civil engineer, in the year 1878. Here it is shown that a volume of 200 imperial gallons per minute passing through rubber hose and a 1 3/8 inch smooth nozzle would require a pressure of about 20 pounds per square inch. In order to have an effective divided service, to give such pressure as herein stated, it would be necessary to lay a large number of new mains of larger size than the present, as shown on the accompanying plan.

It would also be necessary to have pressure regulators at various points connecting the high and low services, so that an extra supply would pass from one to the other when the pressure fell below a given amount. It is on this account that the 22nd, 23rd and 24th hydrants in the list are rated so high. All of the others would be connected with the high service as well as many more which would be found on studying the plan. But

ninety-two feet horizontally and fifty-five feet vertically in still air. The friction in each fifty feet joint or length of hose is here found to be about ten pounds while delivering this amount of water. Therefore five joints would require in each case about 20 lbs. per square inch more pressure than is shown in the table.

LAXATIVE FOR OLD PEOPLE—"CASCARETS"
Salts, calomel, pills, act on the bowels like pepper acts on the nostrils.

Get a 10-cent box now. Most old people must give to the bowels some regular help else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles. So all old people need Cascares. One might as well refuse to add weak eyes with glasses as to neglect the bowels and risk weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. You can occasionally walk the bowels into activity. But a lax can't be used every day. What the bowels need is a laxative that can be constantly used without harm. The only such laxative is Cascares, and they cost only 10 cents per box at any drug store. They work while you sleep.

question I beg to state: Some years ago, and until the year 1906, when our water supply was taken from Little River reservoir with the city divided into two districts, viz., a high service assisted by a power pump at Silver Falls, and a low service supplied by gravitation, the consumption registered by the Venturi meters was as follows, viz.:

High service	1,562,000 gallons per day
Low service	3,324,000 gallons per day
Total	5,386,000 gallons per day

Now that the services are combined and under the greater pressure due to Lake Latimer head, the same metres register a total consumption of 8,400,000 gallons per twenty-four hours. There is reason, however, to believe that these instruments register too much, as they were not made for so high a pressure and such large volume as flow at times, and that the correct registration would be 8,234,000 gallons. This, for a population of say 37,000, would mean about 220 gallons per capita in that part of the city supplied from Loch Lomond.

Following is a short list of cities, the populations and the quantities of water consumed per capita:

As already stated earlier in this communication, a discussion of the question now is merely academic, as the policy laid down by the city government on the installation of the Lake Latimer system was to have one undivided common service, and until the subscriber was relieved of the management of the works, this policy was loyally adhered to and all new pipes planned accordingly.

A question not listed in those propounded me, but to which attention has been called as having been among those asked in common council, is "Since the new system has been installed, what number and sizes of pipes convey the water from Little River to the Marsh Bridge?" I beg to state: There has been no change in the main pipe between Little River and Marsh Bridge since the new system was installed. There are one twelve inch and two twenty-four inch leading from Little River to the city line at the One Mile House and thence to the Marsh Bridge, are one twenty-four and one thirty-six.

Replying to your supplementary question of January 6th, I beg to state: The draft from Lake Latimer as registered by the apparatus placed there by the designing engineers has appeared for some years to be excessive. According to this matter was reported to yourself and an examination recommended. This took place on November 8th last with the result that an iron bucket was found to have been carried by the current to the measuring office in the gate well of Lake Latimer, thus causing a greater head than was justifiable. When the obstruction was removed the head showed a much less flow than before. In addition the orifice was enlarged so that measuring can be made more accurately, as the water in the well is less disturbed. Therefore the measurements since that date are considered reliable and those before excessive.

On taking simultaneous observations on the wood waste pipe with two stop meters, one at each side of the river in the Arthur's farm, and little transposing the instruments several times on the 8th, 10th, and 13th of July, 1912, it was determined that a leakage of about 664,000 gallons per day was taking place under the bed of Little River where the pipe crosses. The Lake Latimer readings, having been found immensely in excess of the pitometer results, gave the clue to make the examination already referred to, where the obstruction was found to be in the orifice. Thus it is that the reading at the lake at that time are of no value.

Respectfully submitted,
WILLIAM MURDOCK,
City Engineer.

BREAKS A BAD IN JIFFY! TRY IT!

"Pape's Cold Compound"
gives quick relief—Don't stay stuffed-up!

You can end gripe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge of mucus, relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't mope! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine.

Ask Your Doctor

Is alcohol a tonic? No! Does it make the blood pure? No! Does it strengthen the nerves? No! Is Ayer's Sarsaparilla a tonic? Yes! Does it make the blood pure? Yes! Does it strengthen the nerves? Yes! Ask your doctor about this.

FINANCIAL AND COMMERCIAL NEWS AND COMMENT

LAIDLAW & CO'S CLOSING STOCK LETTER

(J. C. MACKINTOSH & CO.)
 New York, Jan. 15.—The morning's news embraced the favorable steel tonnage statement of Saturday, reported advance in certain lines of steel products and an exceptionally fine bank statement, which was fully up to the indications of last week's money movement. The market responded with a good volume of buying for both accounts and although prices reacted under profit taking in the last hour, the general undertone was strong throughout. Bears tried to take the edge off bullish enthusiasm by predicting very drastic anti-trust recommendations by the president in his message to congress but the recent attitude of the administration has been such as to inspire confidence rather than fear on the part of business interests. Fundamental conditions appear to be growing stronger each day and even business appears to be feeling the effects of a more cheerful sentiment. There is still every reason to believe that the next substantial movement in the security market will be toward a higher level.
 LAIDLAW & CO.

LONDON MARKET.

(F. B. McCURDY & CO.)

NEW YORK'S HARBOR POLICE FACE DEATH AND DANGER DAILY IN WAR ON PIRATES

SPEED LAUNCH WHICH TRAILS THE PATROL

SERGEANT JAMES W. HALLOCK

The most hardened, villainous and cowardly band of criminals the New York police have to cope with are the river pirates and thieves who lurk in the inky blackness of the slips and waterways that surround New York city. They invariably operate at hours when Father Knickerbocker is peacefully sleeping, secure in the knowledge that the brave and hardy set of men composing the harbor police are wide awake safeguarding the lives and property of those whom these pirates seek to prey upon.
 Sergeant James W. Hallock is in charge of the floating squad.
 "Many crimes along the river front now—murders and the like," Hallock was asked.
 "The records show there hasn't been one real river front murder in two years."
 "How do you account for that?"
 "It's the way we work. For instance, the patrol starts out from pier A around ten o'clock every night. These pirates

and over every square inch of pier and water on the way. She then comes back down the river, her searchlights still working and all lights going at full power. The pirates are laying close all

this time and wouldn't dare show their heads above the water.
 "But probably half an hour behind the patrol one of our launches will stealthily creep. Not a light aboard her

is shown and the men who are detailed to her have cars as sharp as hawks, and they can detect in an instant if any craft, no matter how dark the night, is astir. Then they locate their quarry,

flash on their lights, while the men aboard her open fire with their revolvers, and the pirates either have to surrender then and there or else set themselves for a battle."

Resolutions to be introduced in congress today will urge Interstate Commerce Commission to investigate N. Y. Central's control of subsidiaries and its interlocking directorates.

NEWS SUMMARY AFFECTING MARKET

(F. B. McCURDY & CO.)
 Rates for call money are expected to decline materially during the next two weeks.
 The steel interests of Pittsburgh are reported to be much encouraged now over the tariff developments, which are no longer feared.
 Washington private advices say the stand of Chicago and northwest shippers for increased freight rates has caused the Interstate Commerce Commission to shift Brandeis into the background as much as possible.
 "We believe the course of least resistance will be on the up side," says a big wire institution.
 A trading market position is being advised now by a number of high class stock exchange institutions, pending developments of the week, including the trust message.

EVANS ON STOCKS.

(F. B. McCURDY & CO.)
 New York, Jan. 12.—The market continues to act as if it would still work higher in spite of the very bad railroad and industrial reports which continue to come to hand. There are too many uncertainties and unfavorable factors to expect any big movement at present, but temporarily at least I look for better prices.
 H. K. EVANS.

ATTRACTIVE SHOW AT UNIQUE THEATRE

Popular House Opens Week with Banner Programme—Scenic Effects Add Much to Pictures.

An exceptionally attractive show is that offered at the Unique Theatre for the opening bill of the week. The moving pictures make a well varied programme and the acting and scenic effects in the different productions show much attention to detail. This consideration in production makes the present offering at the Unique a strong bill.
 "The Stakes," the leading picture at yesterday's show, featuring leading Majestic stars to good advantage, is one of those thrilling motion picture dramas which holds the constant attention of the audience and is enacted in an excellent manner. The picture is one of the sensational type and presents many thrilling situations.
 "Polites of the Day," on the other hand is a ludicrous picture, depicting in an imitatively funny manner the trying adventures of a henpecked man. The doings of a criminal which end in his final reformation as told on curtain in "When the Debt is Paid" completed the bill, which is one of unusual attraction. Altogether the show is one of rare quality.
 New Songs Too French.
 I cannot sing the old songs—
 A mournful thought, and true;
 But I am rather grateful
 I do not know the new.

CHICAGO GRAIN AND PRODUCE LETTER

(F. B. McCURDY & CO.)
 Chicago, Jan. 12.—Wheat—Market has been firm, due to fears of damage to the growing crop from cold weather without snow protection. The volume of outside trade, however, has been rather limited and prices held within a narrow range. Believe the market will develop more activity from now on and we expect to see higher prices.
 Corn—Cold weather had a strengthening effect on the corn market and commission houses and local professionals were good buyers. Would not get enthusiastic on the buying side on bulges.
 Oats—Followed corn and made a moderate advance, trade light.
 Provisions—Higher under a fair commission house demand.
 A. O. SLAUGHTER & CO.
 St. Matthew's Sunday school.
 The following are the officers elected in the St. Matthew's church Sunday school: Superintendent, Austin Galbraith; asst. supt., Chas. Stevens; secretary, Miss Annie Patterson; treasurer, Helena Hastings; librarians John Thornton, Harry Andrews; corresponding secretary and treasurer of missions, Harry Klein; supt. of primary department, Jennie Klein; supt. of home department, Jas. Scott; supt. of cradle roll, Blanch Robertson.

DOW JONES CO'S SUMMARY OF NEWS

(J. C. MACKINTOSH & CO.)
 New York, Jan. 12.—Congress re-assembles today.
 Supreme court meets at noon.
 Attorney general and Chairman Elliott reach agreement to split up New Haven to be divorced from system as well as trolley and some boat lines.
 U. S. steel reports unfilled orders Dec. 31st at 4,282,108 tons compared with 4,396,347 No. 30th.
 Bank statement shows actual surplus reserve gained \$19,999,550.
 Texas campaign reduces gasoline two cents, restoring old price of sixteen cents.
 Annual election of stock exchange nominating committee today.
 President Vail of Amn. Tel. and Tel. Co. says country is facing a boom year.
 President Cannon of Fourth National Bank declares merchants and manufacturers are taking more hopeful attitude.
 Twelve industrial advance .09 per cent.
 Twenty active railroads advanced 24 per cent.
 Americans in London firm 1-8 to 3-4 up.
 DOW JONES & CO.
 Another Antarctic Expedition.
 (Montreal Star.)
 It is no wonder that the British press is loud in its praise of Sir Ernest Shackleton for his determination to lead another Antarctic expedition next year. No matter what splendid compensations there were in the story of Scott's journey to the Pole, his failure to be the first there was a sore blow to British pride. What Shackleton proposes to do now will not only be valuable from a scientific standpoint, but it will be an example of courage which cannot fail to be of moral value.

PRODUCE PRICES IN CANADIAN CENTRES

Montreal, Jan. 12.—CORN—American, No. 2 yellow, 72 @ 73.
 OATS—Canadian western, No. 2, 41.1-2 @ 42; No. 3, 40.1-2 @ 41; extra No. 1 feed, 41 @ 41.1-2.
 FLOUR—Manitoba spring wheat patents, firsts, \$3.40; seconds, \$4.90; strong bakers, \$4.70; winter patents, choice \$4.75-55; straight rollers, \$4.50 @ \$4.60; bags, \$2 @ \$2.10.
 MILLFEED—Bran, \$20 @ \$21; shorts, \$22 @ \$23; middlings, \$25 @ \$26; moultie, \$27 @ \$28.
 HAY—No. 2, per ton car lots, \$13.50 @ \$15.
 POTATOES—75 @ \$5.

NEWSPAPERS ON THE MARKET SITUATION

(F. B. McCURDY & CO.)
 New York, Jan. 12.—Herald—The cheapness of money must stimulate the demand for securities that yield more than current rates of interest.
 Times—Money market improvement tendencies are clearly marked, not only here but in most of the European financial centres as well.
 American—The tone of the market is decidedly hopeful.
 Sun—Sentiment in banking and to some extent in industrial circles seems more hopefully disposed and later statistics may disclose that the December slump in trade has marked the low point from which improvement may date.

IN THE COURTS

Probate Court.
 Estate of Shubael S. Carvell, ship-builder, deceased. Adjourning hearing on return of the citation to prove will in solemn form. Adjourning having been made for the purpose of giving the opposing parties the opportunity of filing allegations should they so desire, at the opening of the court Daniel Mullin, K. C., announced that allegations would not be filed, whereupon the will was pronounced to be proved in solemn form and one of the executors therein named, George F. Carvell, a son of the deceased, was sworn in. The other executor, Harry Woodworth, now of Sackville, date. No real estate. Personality about \$1,700. L. P. D. Tilley, proctor for the will.
 Acorn Mission Band.
 The annual meeting of the Acorn Senior Mission church was held last evening. The following officers were elected: President, Mrs. J. H. A. Anderson; vice-president, Edna A. Haman; secretary, Muriel Bond; treasurer, Lyle V. Kennedy.
 Same Experience.
 Mrs. Newlywed (to cook, whom she has just engaged)—You see, my husband is so very particular about his food.
 Cook (sympathetically)—They're all alike, mum. My old man was just the same; I never cooked anything to please 'im in me life.

MEMORIAL CHIMES RING DEFIANCE WHEN LISTENERS APPEAL TO LAW

Following a rumor that a court order and stifled the memorial chimes which for more than three months had pealed forth at fifteen-minute intervals from the belfry of a Gothic tower erected by the widow of John B. Lyle on the heights of Tenafly, N. J., the bells rang out in melodious repudiation.
 The residents gazed in wonder toward the tower. Had not the belfring been equipped to cease? Perhaps he had, but the song of the bells was distinct in note and meaning. It was "The Wearin' of the Green."
 Mrs. Julia Gertrude Lyle, widow of the elderly philanthropist who left the major part of his \$50,000,000 estate to her, caused the handsome memorial tower to be erected on the topmost hill on her Tenafly estate.

THE JOHN SAMUEL LYLE MEMORIAL TOWER.

DELIGHTFUL CONCERT IN SEAMEN'S INSTITUTE

The members of the crew on the steamship Royal George gave one of the most interesting entertainments last night that has ever been given in the Seamen's Institute.
 Mr. Chandler, the chief steward, and Mr. McPherson, the conductor of the Foo-Foo band, were the leaders of the entertainment. The programme was completed in every detail. The band of thirty members who were attired in all kinds of native costumes made a great hit.
 The large hall was crowded to the doors and every number was encored. Some of the selections by the soloists were indeed a treat and the Royal George concert party will be eagerly looked for on their return to the city.
 The concert was under the auspices of Captain Thompson, R. N. R., and the programmes were printed in an artistic manner on board the ship.

CLEAN, CLINKERLESS COAL

Coal Rich in Heat Units
 THIS KIND BURNS GRADUALLY AND EVENLY.
 All coal is alike in appearance but there is a great difference in the work it does. A low grade coal will burn out quickly without much heat except at starting. A high grade coal burns gradually and evenly and holds its heat continually and under closed drafts. The new coal sold by The Consumers' Coal Co., is a coal rich in heat units, lasting in effect and with a surprisingly small amount of residue. Clean and all coal it means more than the ordinary fund of fuel to the ton.

THE LATEST NEWS FROM THE ATHLETIC WORLD

ST. JOHN WINS FROM SACKVILLE IN AN OVERTIME HOCKEY MATCH

Sackville, N. B., Jan. 12.—In a game replete with roughness the Sackville sextette went down before the St. John sextette tonight.

The first period started off very slow, but toward the end it livened up and ended with three penalties for the St. John team. A number of penalties were handed out to several on each team.

Ten minutes elapsed and they were at it again and play started off very lively. The disc was kept on the move at a lively pace for some time and the period ended 3 to 2 in favor of St. John. After ten minutes break the teams went onto the ice with no other purpose but to win. Play was fast and the spectators were at fever heat when Sackville scored making the play a tie. Sackville rosters were very anxious when the teams faced off again. A few minutes elapsed when Sackville scored. A dispute followed in which St. John claimed that the goal was not scored.

Twenty minutes overtime was played, which was very rough and many penalties were handed out. Tait, the fast centre of the St. John team, was a feature when he made some of his spectacular rushes scoring four times in ten minutes. The game ended with the score 8 to 4.

Charlie Appleton of Mount Allison University, and one of the stars of this year's college team, referred to the satisfaction of all.

The lineup was picked from the following men:

St. John—Lee, McAvity, H. B. Gilbert, Tait, Courneye, Frazier, Campbell, J. McGowan, T. McGowan, J. Gilbert.

Sackville—S. Fawcett, Rainie, Knapp, Dixon, McDonald, Scott, M. Fawcett, Estabrooks.

The next game will be played at Sackville on the 15th inst., when Sackville plays in that town and journeys to St. John the following day.

BRITISH BOXING DISCUSSED

Charley Mitchell, the veteran English heavyweight, who, although sick at his home in Brighton, Eng., has not lost interest in the game, says:

"The man who says the fighting instinct is dead in Great Britain is a fool. I wish all the problems of life were as easy to explain. The British so-called champions have of late years been boosted into prominence; they have not fought their way to the front. As soon as they did one or two decent things in public they were hailed as world whippers, when, as a matter of fact, they were little better than novices and had no right in the limelight at all.

"As soon as they bumped into a man of any class they were dropped out and made us as a nation something of a laughing stock for the world.

"It needed only a French middleweight to come over and knock out our best heavyweight to make us fully realize where we stood in the game of fighting. How would we feel if a German repeated the French boy's victory?

Asked as to whether there are boys in Great Britain who can whip Carpenter, the old fighter said:

"I think we can find 50 men for that job, and with more than a fair chance of success. We have the stuff, for all we want to do is to bring it to the front on a piece of ribbon. We want to make our man fight his way from the bottom to top; he'll have to meet all comers in all kinds of ways with the gloves and prove he has a heart, a constitution and a proper amount of skill.

Mitchell has an idea the best way to go about finding British champions is to get the best foreign men from England, Ireland, Scotland and Wales, match them and pit the winner against the world.

Scotland has its Dan Flynn (with out the sobriquet of Porky), who is also a heavyweight, with the same ambition as our own Dan. The Scotchman's father believes his son is good enough to trim George Carpentier. So great is the confidence of father Flynn in his son's ability that he has put up a forfeit of \$2,500 with a challenge to Carpentier.

The sporting men of Glasgow, where Flynn lives, say that Dan can in no sense be considered as more than a mere novice in the game, and they refuse to put on the gloves with such an experienced artist as the French champion makes the challenge little short of ludicrous.

THIS DATE IN RING ANNALS

1890—Australian Billy Murphy defeated the little Australian in the 14th round of a bout for the featherweight championship of the world at San Francisco. The "Belfast Spider" had won the featherweight title in 1887 by whipping Tommy Warren, and had held it against all comers, and his defeat by the little Australian was a great surprise. He got along nicely during the early rounds, and in the fourteenth he sought to show his unconcern by doing a back flip. As he alighted Australian Billy planted one on the jaw that won the featherweight title. Billy had been in America only a short time when he beat Weir. His first bout was with Johnny Griffen, who was knocked out in the 3rd round. Murphy then took on Frank Murphy, the British featherweight champion, who had fought an 80-round draw with Weir, and the bout in San Francisco between the two Murphys went 27 rounds to a draw.

1908—Balding Nelson knocked out Jack Clifford in 8th round at Ogden.

1909—Joe Jeannette knocked out Joe Phillips and Grif Jones at New York.

ENGLISH GOLFER AGAIN.

New York, Jan. 12.—Osgood Duncan, the professional golfer of England will come here again this year. Only one condition is necessary to be fulfilled, and that is that he can obtain a suitable partner, such as James Brand or J. H. Taylor, the present open champion. These facts were disclosed to a friend in this city.

NEWSBOY, JOCKEY AND TEACHER OF A COUNTRY SCHOOL OF COWBOYS, JOHN A. KINGSBURY IS NOW NEW YORK'S COMMISSIONER OF CHARITIES

If real charity be a sympathetic, intelligent response to the demand on humanity of human suffering, the man who has had widest opportunity to learn sympathy among the sufferers and to translate it into intelligent, helpful effort in his own career might make a good fist in the official direction of benevolence. Maybe Mayor Mitchell, of New York, had in mind some such thought when he selected John A. Kingsbury to head the municipal Department of Charities.

SPORTOGRAPHY BY "GRAVY"

Australian Billy Murphy, who annexed the featherweight championship of the world by defeating Ike Weir at the old California Athletic Club in San Francisco twenty-four years ago today, had a career very much like that of Bob Fitzsimmons. His language was a pronounced cockney dialect, just like Ruby Robert's. Like the great Fitz, he began fighting in New Zealand, and, also like Bob, later went to Australia. In that country he whipped the best of the little men and many well-to-do lightweights. At that time the Weir was featherweight champion and the members of the California Athletic Club were anxious to get somebody who could whip the Belfast Spider. The skipper of the Zealandia, which ran between San Francisco and Australia, was a great sport, and he told the Californians about Murphy. The cap'n was commissioner to bring Murphy over. Billy came on the Zealandia and kept in training by boxing with the sailors, arriving at the Golden Gate the middle of 1889. Soon after Murphy's arrival the California Athletic Club officials wanted a man

Australian Billy Murphy's "Mary Ann" was a Terror.

who could whip Jack Dempsey, then middleweight champion, and they again appealed to the skipper of the Zealandia. In 1890 Ruby Robert came over on that vessel and kept in shape by boxing with the sailors, and also offered to box the compass. Within a year after Billy Murphy's arrival on this side he won the world's featherweight title by defeating Ike Weir, and Irish-middleweight championship of the world by whipping Jack Dempsey, an Irishman. Both Australian Billy Murphy and Bob Fitz fought their first American battles at the California A. C. in San Francisco, and both were victorious.

Ruby Robert whipped Jim Corbett with his "solar plexus" blow, but it was his "Mary Ann" that brought home the bacon for Australian Billy. That "Mary Ann" was a terror, and when it landed the recipient was due to go to sleep. Billy was the Champion of the world, and never missed an opportunity to make a speech. Roars of applause and laughter greeted his every word, for his cockney dialect was irresistible.

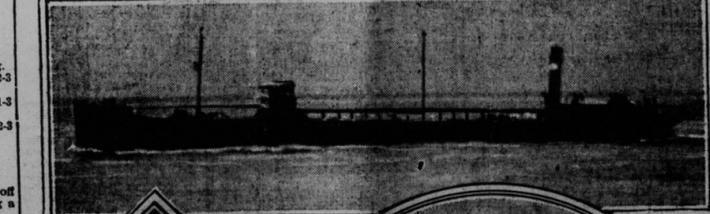

WHOLE OUTFIT FOR MAJORS

Chicago, Jan. 12.—Nine "big league" ball players will be in the line-up of the Baltimore team when the Federal League begins its campaign next spring, according to Otto Knabe, manager of the Baltimore club who will discuss matters with President Gilmore here today. Among the men he said he had signed was "one of the best third basemen in the game, who hit better than 300 last year." This man, it was hinted, is Hans Lobert. Knabe admitted he was after Victor Saler, the Cub first baseman.

MILBURN IN LINE-UP

New York, Jan. 12.—Deveroux Milburn, known as the greatest back in the world, will without doubt be in the line-up of the American polo team against the challenging Britishers next June. Some concern was felt that Milburn might not play this year on account of his recent marriage. No sooner had the polo player returned from his honeymoon, however, than he began to take an interest in the polo situation. He visited the Whitney stables at Wheatley Hills and had a long conference with Larry Fitzpatrick, the pony manager for the American team. His friends say that Dev will be in the series for sure.

WRECK OF THE OKLAHOMA, IN WHICH MANY LIVES WERE LOST

Thirty men, including a captain, were drowned on January 5 when the oil tank steamer Oklahoma broke in two sixty miles off Sandy Hook. The stern part plunged into the sea, while six rescue vessels stood by waiting for the doomed ship to abate so boats could be sent to her aid.

Finally, after the doomed ship had been battered by the mountainous waves for twenty-four hours, six ships formed a breakwater about her, protecting the enclosed area, a third of a mile across, so that lifeboats could get to the wreck. Only eight men, all but one of these officers, were taken off.

Even when the rescue was effected with great difficulty, and only as a result of heroic efforts by the men in the lifeboats.

ST. PAUL'S WON FROM EXMOUTH

The opening game in the Intermediate Church Basket Ball League took place last evening in St. Paul's school, when St. Paul's team won from Exmouth street twelve to eleven. The score was tied at the end of the time, but five minutes extra was enough for St. Paul's to secure the needed baskets. The teams lined up as follows:

St. Paul's: McPherson, McKay, forwards; Hammond, centre; H. McKay, H. Evans, guards.

Exmouth: Mooney, Holder, forwards; Higgins, centre; Miller, McDonald, guards.

SPALDING SEES FIGHT

New York, Jan. 12.—American athletes will have to put up the "fight of their lives" if they win the next Olympic contest, according to A. G. Spalding. He stated that all the European nations are preparing to give the Americans "a great tussle." When asked his views on the Federal League, Mr. Spalding said: "I cannot see where there is room for another league. It seems to me we have all the big leagues the country can take care of now."

OLYMPIC STARS TO COMPETE IN BOSTON MEET

Boston, Jan. 12.—Lawson Robertson, trainer of the Irish-American A. C. of New York, will send his full list of champions to the Irish-American A. C. games at Mechanics' building Jan. 31. The "Winged Flat" organization has decided to do all in its power to make the initial game of the new sister association here in Boston one of the greatest sets of games ever held.

The champions whom Robertson will send will be headed by Captain Mel Sheppard, the peerless middle-distance runner. Sheppard will start in the local 600-yard event. Abel Kiviat will be entered in the mile run and will start from scratch. "Big Babe" McDonald, the policeman champion shot-putter, who won the Olympic shot-putting championship, will compete in the sixteen-pound shot event.

As yet Robertson has not decided whether Hannes Kolehmainen will be on hand for the special three-mile invitation event, but if the Finn can be brought back to proper condition he will positively be a starter. Pat Conway, founder of the New York Irish-American A. C., has been invited to referee the local games.

E. S. Ritchie, President of Fire Underwriters - Police Court - S. P. C. Cases Dealt with.

R. S. Ritchie President. The annual meeting of the New Brunswick Board of Fire Underwriters was held yesterday morning in the office of the secretary.

For African Missions. The collection in the Cathedral on Tuesday, the feast of the Epiphany, amounted to \$116.15.

Increase in Exports. The quarterly report from the American Consulate shows that the exports from St. John to the United States during October, November and December were valued at \$761,239.42.

Police Court. In the police court yesterday morning George Brown charged with drunkenness and resisting the police; Edward Hunter charged with drunkenness and maliciously breaking a window in E. P. Watson's store; and another prisoner charged with drunkenness were remanded.

S. P. C. A. Cases. Edmund Riley, coal dealer, was before Magistrate Ritchie in the police court yesterday morning charged with cruelty to animals. He was reported by S. M. Wetmore, secretary of the S. P. C. A. for driving horses he was condemned by Dr. W. H. Simon, veterinary, early in October.

CAPTAIN AND MEN REWARDED FOR BRAVERY. Receive \$500 each for Jumping Overboard and Rescuing Sailors from Shipwrecked Steamer.

New York, Jan. 12.—Captain W. T. Aspinwall, of the Booth liner Gregory, and his three officers, who jumped overboard and saved five sailors from the wreck of the steamer Okla-homa, a week ago, have received \$500 each from the Gulf Refining Company, owners of the vessel.

TAKES OFF DANDRUFF HAIR STOPS FALLING. Girls! Try this! Makes your hair thick, glossy, fluffy, beautiful.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

Do Reasonable. Don't let the efficiency cease run away with you. A man can do wonders but not miracles.

THE THIRDEGREE HIS LICENSE

THOUSANDS SEE "THE THIRDEGREE" Imperial Theatre Once More Presents a Startling Feature—A Picture that Grips Interest.

CURED WHERE WHITE DOCTOR'S FAILED. Father and Grandfather were Medicine Men—Fine of Ten Dollars and Costs Imposed by Judge.

Montreal, Jan. 12.—Slowly civilization has pushed the noble red man farther and farther back and he has lost many of his most picturesque habits, some of them fallen in disuse.

Today in the police court a case came up which was probably unique in the annals of the court. A Cansuawada Indian medicine man by the name of Dominick Twoaxe was brought before the court charged with practicing medicine without a license.

The action was taken by the College of Physicians and Surgeons of the province of Quebec, which is the governing body of the medical profession in this province.

Mrs. R. Montour, a Cansuawada Indian, had been suffering from an illness for many years, and she had been treated by the white man's doctors without avail, and finally turned to one of her own race, Dominick Twoaxe, the accused.

Under examination Twoaxe stated that his father and grandfather had been Indian medicine men and that they had always been the medicine men of one tribe of the Iroquois. He stated that he had been compounding and selling his medicine for the past ten years.

No defence can be offered when you apply Putnam's to a sore corn—the offender has to die. Nothing so certain to quickly cure corns as Putnam's Corn and Wart Extractor; try Putnam's, it's free from acids, and painless. 25c. bottles sold by all dealers.

WEDDINGS.

Rowley-Simpson. The marriage of Olive May Simpson, only daughter of Mr. and Mrs. J. Arthur Simpson, of Arnprior, Ont., to Norman L. McGloan, manager of the Trust Company of North America, Montreal, took place in Holy Trinity Church yesterday morning.

The bride, who was given away by her father, wore a beautiful gown of white satin draped with old family lace the gift of her aunt, Miss Simpson, and carried a shower bouquet of lilies of the valley. Her only bridesmaid was Miss Helen Fraser, of Toronto; the bridesmaids, Miss Dora Mitchell, of Winnipeg, and Miss Dorothy Cotton, of Ottawa, a cousin of the bride.

The marriage of Miss Agnes L. Sullivan, eldest daughter of Mr. and Mrs. Richard Sullivan, Rockland Road, to Norman L. McGloan, manager of the Trust Company of North America, Montreal, took place in Holy Trinity Church yesterday morning.

At the Methodist parsonage, in High street, Rev. Henry Pierce, pastor of Portland Methodist church, on January 7 performed an interesting marriage ceremony when he officiated at the wedding of Emanuel Vaughan and Miss Julia Lacey. The bride was nicely dressed in brown with a white picture hat and carried a bouquet of pink carnations and lilies.

SCREAMED WITH THE TERRIBLE PAIN FROM HEADSTRAIN

"Fruit-a-tives" Completely Cured Distressing Kidney Trouble. St. Thomas, Ont., April 1st, 1913. "In 1911, I was laid up with kidney trouble and not able to get out of my chair. Had tried many kidney remedies without satisfactory results.

The large crowds who attended Imperial Theatre yesterday afternoon and evening most surely have realized the force of the oft-made forecast that eventually all good literature, plays and artistic action would find its way to the eyes of the masses through the medium of motion pictures.

The play, which lasted the best part of one and one half hours, was most clearly portrayed by the setting of the well-balanced company. Stage settings were varied and elaborate, the costuming correct, and from the standpoint of photography every foot of film stood out in sharp black and white with occasional special lighting effects.

The death of Mrs. Caroline Kelly, wife of Michael Kelly, temperance orator and organizer, occurred yesterday morning at their home in Delhi street after a lengthy illness, and will be heard of with regret by many friends of herself and the family.

SPAINS MINISTER TO MEXICO WILL NOT ASK FOR RECALL

Huerta Says His Disparaging Remark about the Spaniards, was Only a Jest. Mexico City, Jan. 12.—The Spanish minister to Mexico, Jacinto De Coloman today declared that he had no intention of asking his government to recall him as reported in the United States.

Have you ever been stuck for a thought? Of something to do or say? Have you ever been hopelessly in a trap of despair and dismay? Have you ever looked down at the floor expecting the boards to reveal the phrase you were stammering for. You have? Then you know how I feel.

Child Had Bronchitis

Once people get acquainted with the wonderful control which Dr. Chase's Syrup of Limes and Turpentine exerts over bronchitis, whooping cough, croup and colds it is not easy to persuade them that anything else is "just as good." This is why the imitators never get very far.

Mr. Bier now writes that she has since proven this medicine to be a cure for whooping cough, and would not be without it in the house.

Head of Hearst Papers in Dominion, on Visit, Gives Assurance He Don't Intend to Invade.

Montreal, Jan. 12.—William Randolph Hearst, owner of the Hearst chain of newspapers in the United States, assured a Canadian Press representative today that he has no intention whatever of invading the daily newspaper field outside of his own country.

Mr. Hearst arrived here this morning from New York, accompanied by Mrs. Hearst, their children and a party of six friends. They spent the morning and afternoon seeing the sights of the city, leaving at five o'clock for Quebec, where they will remain until Thursday.

Do not suffer from itching, bleeding, or protruding piles. Dr. Chase's Ointment will relieve you at once. Sample box free. Write to Dr. Chase, Toronto. Sample box free. Write to Dr. Chase, Toronto. Sample box free. Write to Dr. Chase, Toronto.

FUNERALS.

The funeral of Mrs. Mary Ellsworth was held at 2:30 yesterday afternoon at her late residence, 123 Metcalf street. Rev. H. H. Nobles conducted services at the house and grave.

BURDOCK BLOOD BITTERS

It drives out all the humor from the blood, and makes it pure and rich, and not only cures the uncleanly diseases, but a bright clean complexion produced, but the entire system is renovated and invigorated at the same time.

AROUND THE CITY

No. 8 Field Ambulance.
On Thursday evening a course of lectures for the benefit of the non-commissioned officers and men of No. 8 Field Ambulance will be commenced. An instructor will be here from Halifax.

St. Andrew's Sunday School.
The annual meeting of St. Andrew's Church Sunday school was held last evening and the following officers were elected: Hon. superintendent, W. C. Whitaker; superintendent, J. B. Magee; assistant superintendent, Jas. McG. Burgess; secretary, W. C. Simons; treasurer, John McInosh; librarian, Geo. Turcotte; assistant librarian, Marvin White.

Saw Many Chances.
J. W. Bennett, of Seattle, but formerly of this city, returned to the coast on Saturday via Boston and New York, after spending Christmas and New Year's with his parents here. Mr. Bennett, when speaking of St. John, said many wonderful changes had taken place in his native city, and expressed the opinion that the new Park was not excelled by any he had yet visited.

Young Men's Guild.
The annual meeting of the Young Men's Guild of St. John's Presbyterian church was held last evening. The following officers were elected: Hon. pres., Rev. J. H. Anderson; pres., Ralph Cummins; vice-pres., George J. McKinney; sec., W. D. McKay; treas., W. J. Capson; convenors of committees: social and amusements, W. W. Armstrong; education, R. McAfee.

School Reports.
The report of the secretary of the Board of School Trustees, as submitted at the regular meeting last night, showed that the average daily attendance of pupils in the city schools for December was 85.52. Nine cases of diphtheria, two of scarlet fever and one of measles were reported. The trust officer's report showed 19 pupils attending irregularly and three truants.

Trees Need Pruning.
Several persons have been severely scratched about the face by the branches of small trees, which protrude over the sidewalk on Park street. The snow has raised the level of the sidewalk and at night a person going up or down the hill runs the risk of having his eyes scratched or one of the public works department employees should be given a chance to prune the trees before a serious accident occurs.

Every Day Club.
More than forty boys were present in the rooms of the Every Day Club last night when the formal opening took place. Harry Scott was in charge and he will be at the club rooms every night while the boys are there. Those who helped with the opening exercises last night were: A. M. Belding, Sergeant James Sullivan, Frederick Shear and Ernest Sheppard. Sergeant Sullivan addressed the boys and put them through physical drill and marching practice. The club rooms will be open for boys every night until 9 o'clock.

North End Conservative Club.
At the monthly meeting of the North End Conservative Club in Orange Hall, last night, S. A. Payne retired from the office of secretary-treasurer which he has held since the club was organized. The two offices were separated and Wm. Brown became the new secretary and Charles McConnell was selected treasurer. There was a large attendance at the meeting and routine business was transacted. Mr. Payne, who retired from the office of secretary-treasurer, has accepted a position in the Public Works Department as assistant accountant. He will take up his new duties in February. A hearty vote of thanks was tendered him for his work in connection with the club.

Twelve hundred yards of real good flannel to be sold at a very special price at F. A. Dykeman and Co.'s store. This flannel was bought, with the understanding that it was to be one yard wide, but it only measured thirty-three inches, consequently a considerable rebate had to be made in the price. You will profit by this mistake and get a 15 cent flannel for 9 1/2 cents; that is, ten yards for 85 cents. This flannel is a yard for a short length. Shown in a large assortment of stripes. The extra wide width makes it economical to cut from. They also have a lot of fancy flannel waistings, also suitable for kimono and children's garments. The regular price is 30 cents a yard, now on sale at 15 cents.

YOUNG PEOPLE'S SOCIETIES IN DEDICATION EXERCISES

Enthusiastic and Successful Rally in New Wing of Germain Street Baptist Church Last Evening—Interesting and Instructive Addresses Tell of Good Work.

Germain street Baptist church showing wing.

The young people's rally service held in the new addition to Germain St. Baptist church, last evening, in connection with the dedication of the new wing, was largely attended, and proved an inspiring and interesting event. Rev. F. S. Porter, pastor of the church, presided, and interesting addresses were delivered by Rev. David Hutchinson, Rev. G. O. Gates, Rev. Wilfred Gaetz and Prof. Nowlan of the staff of Acadia University. Dr. Hutchinson congratulated the young people and the congregation generally upon their achievement in providing such a splendid building, and said he hoped his own church in Main street would be inspired to provide similar facilities. Rev. G. O. Gates spoke of the early work of the Christian Endeavor Society, which took the lead in the rally, and which was in its infancy when he became pastor of the church. He was glad to see the church in such a flourishing condition and paid an eloquent tribute to the work of the young people's societies. Rev. Wilfred Gaetz spoke of the value of young people's work. Prof. Nowlan addressed the young people on the work of the church along educational lines and was of a very instructive character. Miss Turner gave several interesting readings and there were musical selections by Messrs. McIntyre and Dirvan. After the exercises in the new wing the young people adjourned to the large assembly hall upstairs where refreshments were served and an enjoyable half hour spent in a social way. This evening the annual business meeting of the church will be held.

AMENDMENT EXPLAINED

Not so Draconic as Supposed by General Public—Position of Abutters Made Clear.

Com. Agar's bill amending the local improvement Act is not so drastic as the general public has been led to expect. It has been supposed that the bill which the council would present to the legislature would ask for authority to go ahead and pave a street and charge half the cost to abutters, whether they wanted the street paved or not. Com. Agar's bill provides that if the common council resolves to pave a street a petition presented within one month and signed by 60 per cent. of the property owners may prevent the council assessing one half the cost against property owners and stop the council from installing a project to pave such street under the provisions of the act for a period of one year. The bill makes another concession to property owners by providing that there shall be deducted from the amount to be assessed upon the owners of frontages such sums as by law or agreement shall be payable by a street railway or other public service corporation towards the paving of any street or portion of a street. The bill, however, provides that the city may construct new sidewalks at its discretion, and charge half the cost of the sidewalk, curb and gutter to abutting property owners without regard to their desires. It also provides that the city may renew a pavement which has been down for ten years, and charge half the cost to abutters.

NEED NEW SCHOOL BUILDINGS HERE

Necessary on Douglas Avenue, Newman Street, Cliff Street and on Site Present St. Malachi Building—Board Meeting Last Evening.

The details of the estimates for school purposes in St. John for the present year were approved at the meeting of the school trustees last evening, and it was decided to forward them to the city commissioners at once so that the amount may be included in the assessment for this year. The amount required for 1914 is \$182,913, which is about \$23,000 more than last year. Several slight changes were made in the estimates last night but they were responsible for an increase of only about \$300. The buildings committee is to make an inspection of the North End with the idea of ascertaining just what improvements are necessary in order to make the school system adequate for the needs of that section of the city. During the discussion it was pointed out that new buildings were necessary in Douglas avenue, Newman street, Cliff street and on the site of the present St. Malachi building. A letter of regret is to be prepared by Dr. Bridges on behalf of the board and sent to the relatives of Miss McKay, who died recently. Miss McKay had been on the city school staff for thirty two years, but had been forced to retire on account of ill health a year ago. The principals of the Newman street and Douglas avenue schools were granted an additional increase of \$50 a year. This was in accordance with the treatment of the other principals. Miss Robinson, who is to give instruction in music to the teachers of the city was granted an increase of \$200. Those present were R. B. Emerson, chairman; C. B. Lockhart, George E. Smith, Mrs. Dever, Dr. H. S. Bridges, superintendent; A. B. McManis, trustee officer; T. H. Bullock, A. Gordon Leavitt, secretary; Dr. James Manning and M. Coll. The minutes of all meetings held since the last regular meeting were read and approved. It was agreed to pay Miss Robinson, teacher of Music, an additional sum of \$200. It had been moved by Mr. Coll that the increase be only \$100, but this was not approved. Mr. Bullock's motion that the increase be \$200 was then passed. The principals of Newman street and Douglas avenue schools were granted an extra increase of \$50. This

FARMER FROM WEST SETTLES IN PROVINCE

Old Countryman Found Conditions in West Very Unfavorable—Takes New Brunswick Farm.

After trying his luck in the west for four years, Mr. Barnes and his family have come to New Brunswick and taken up a farm in King's County under the provisions of the Farm Settlement Act. Mr. Barnes, who was an old country farmer, went west four years ago with his wife and took up a homestead. Although a man of industrious habits he was not able to make a fortune on his 150 acres, and his wife did not like the country because she was miles from neighbors or a church. A few weeks ago he had an opportunity to sell his farm. The price he got for it did not pay for the improvements he had made, but having become convinced that the future in the west was not promising, he sold out and came east. He did not spend many days in New Brunswick before he found a farm which he considered suitable and desirable and he and his wife are now natives of New Brunswick. After trying his luck in the west for four years, Mr. Barnes and his family have come to New Brunswick and taken up a farm in King's County under the provisions of the Farm Settlement Act. FREDERICTON BOARD OF TRADE MEETING

Reports for 1913 Read at Annual Session Very Encouraging—Membership Doubled During Year.

At the annual meeting of the Fredericton Board of Trade yesterday, John D. Palmer was elected president and R. F. Randolph vice-president. H. S. Campbell and J. L. Lemont were re-elected secretary and treasurer respectively. The reports for the year showed that the membership had doubled as a result of the recent campaign, and now stood at 203. The question of a civic grant for publicity purposes was discussed and the retiring president, J. T. Jennings, suggested that the city should be asked to secure legislation authorizing a permanent grant for advertising purposes. A delegation will wait on the city council and urge that the grant be renewed for this year. C. Fred Chestnut for the transportation committee reported that thirty trains a day ran in and out of Fredericton and another daily train between St. John and Fredericton would likely be secured during the year. I. C. R. Change. On the Intercolonial Railway trains number three and four, between St. John and Moncton, will be discontinued. Connection at Moncton with Ocean Limited for Montreal will be number two leaving St. John at 7:10 a. m. Connection with Ocean Limited from Montreal at Moncton with number one arriving at St. John twenty-three.

I. C. R. AMBULANCE TEAM DEMONSTRATES SKILL

Right on Hand at Accident in Union Station, Last Evening—John McBride Hurt.

The members of the I. C. R. ambulance team, who are to try for the Canadian honors in first aid work, had a chance to demonstrate their skill last evening in the Union Station, when John McBride had his head seriously cut by falling against a spring of a passenger coach. The members of the team were practicing in the ambulance room of the station at the time of the accident and rendered first aid. McBride was given every possible attention and was later sent to the general public hospital. Early this morning he was said to be resting comfortably. The members of the I. C. R. ambulance corps who cared for McBride have been preparing for competition in a contest to decide the first aid honors of Canada. The team will go to Moncton on Wednesday and compete against an I. C. R. team there and the successful aggregation will later go to Montreal to compete in the finals. The local men have been practicing first aid tactics for several weeks and hope to make a favorable showing against other teams. The St. John representatives are B. Gallagher (captain), W. M. Collins, C. N. James, James Downes and James Fisher.

Masters and Mates.

Any candidates desirous of being examined for certificates of competency for masters and mates are requested to be at the Custom House in St. John at ten a. m. on Wednesday, January 14th. THE PRINCE WILLIAM HOTEL. Band at Queen's Rink tonight.
