

WORKERS SAY LABOR PANIC "ARTIFICIAL"

Montreal Trades and Labor Congress Declares Situation is Self Made.

DEMAND PROFIT CUTS TO HELP WORKLESS

Suggests Starting of Much New Work to Relieve the Present State.

Montreal, Jan. 6.—Complete dissatisfaction from all present plans for the relief of unemployment was the keynote of the report which the executive of the trades and labor council made at the meeting of the council tonight. President Foster said the report was preliminary only and further information will be gathered.

The report says the cause of "unemployment" is more or less an engineered panic. It manufacturers and installers would cut their profits and sell on a reasonable basis industry could easily recover.

Twenty Thousand Out. As to unemployment the report says that of the unions who supplied figures, 55 per cent. of those affiliated with the council, reported 5,375 members unemployed. Some of the largest unions did not report and the executive finds the total number of unemployed in the city and district of men, women and children is 20,000. Here again the report finds the cause of unemployment are "largely artificial."

Some Remedies Suggested. Among remedies suggested are reduction of hours to six hours a day before business in any event the absolute application of the eight-hour day, by beginning at once semi-productive enterprises such as house building, new roads, etc., the Dominion government to open and increase trade with foreign countries, and deflation of wind capital in over-capitalized concerns.

O'CALLAGHAN IS LIKELY TO BE DEPORTED

Conflict Between State and Labor Dept's But Irishman Faces Trip Home.

CANNOT BE DEEMED A POLITICAL REFUGEE

Secretary Davis Declares Waiving of Passport Would Nullify Laws.

Washington, Jan. 6.—Conflict between the Department of State and Labor was foreshadowed today over final decision as to the admission of Daniel J. O'Callaghan, Lord Mayor of Cork, who was apprehended by immigration authorities upon his arrival at Newport News from Ireland as a steamer, without a passport.

Action of Secretary Wilson today in paroling O'Callaghan upon his own recognition, it was indicated, had been taken without consultation with the State Department, as the first knowledge of it was obtained by Secretary Davis of that department from newspaper reports.

Where Trouble Comes. Even should O'Callaghan now be deported, it was held that the Department that he held that could be brought about there would be nothing to prevent his coming to Washington and accomplishing his announced mission to the United States of testifying before "Commission of the Committee of One Hundred investigating the Irish conditions."

Acting in the impression that the case already had been referred to the State Department, Secretary Davis took it under advisement today and indicated that the policy of the department probably would be against waiving passport restrictions in O'Callaghan's favor.

Not Political Refugee. Secretary Davis said the Lord Mayor could scarcely be considered a political refugee when a fellow-focal of the so-called Irish Government, Eamon de Valera, was reported to have returned to Ireland, and he stated further that to waive passport restrictions in the case would serve only to nullify the passport law.

Later, Secretary Wilson announced that, in considering the case, he had been laboring under a misapprehension that it had been formally referred to the State Department by the Department of Labor, but that it had been the former department would not consider that it technically had come under its jurisdiction until the question had been presented to it by Secretary Wilson.

Went Whale Fishing Only Got Ducking

Children Try to Get Whale in
Central Park Lake—Fished
Out by Cop.

New York, Jan. 6.—May Rooney of
362 West Fifty-third street is only ten
years old, but she is decidedly acqui-
sitive, so when a man told her that
there were whales in Central Park she
concluded that the best thing for the
Rooney family would be to have a
whale. She set about catching one.
Having fastened herself a hook out of
a pin and tied the hook to a piece of
string she set forth yesterday after-
noon accompanied by her seven-year-
old brother, Henry; her four-year-old
sister, Kathleen, and Julia Khoury, 10
years old, who lives in the same house
as the Rooneys.

The hardy fisherfolk climbed a
large rock at the edge of the large
lake in Central Park and May cast her
hook aboard. She didn't get a bite,
but Henry thought she did. So he
leaped forward to help pull in the
whale and slipped off the rock, land-
ing with a mighty splash in the lake.
The water there isn't very deep, but
Henry is a plump young person and
every time he tried to get up he sank
further into the mud. So Julia jump-
ed into save him, and in the excite-
ment Kathleen slipped and went slid-
ing and screaming down the rock into
the lake. And then May had to
jump in to save the lot.

This was the situation when Patrol-
man William Quinan heard the chil-
dren screaming and the voice of May
admonishing them to keep perfectly
calm and declaring she would save
them. Quinan dragged them out of
the water one by one. Dr. Milligan
then wrapped them in blankets and
sent them to Flower Hospital to thaw
out. After getting dry they went
home. But the Rooney family will
set no whale today.

Blind Calculator In Wonderful Feats

In Other Respects is Mentally
Deficient—Has Been Blind
from Birth.

London, Jan. 6.—Extraordinary cal-
culating feats of a man of 26 named
Fleury, blind from birth, are describ-
ed by Dr. L. Letia, of the asylum at
Armentières. Despite his inability,
Fleury is of inferior general mental-
ity, if not insane.

"Fleury can give the square root
of any number running into six fig-
ures in six seconds," says the Lan-
cet. "He gave the cube root of 486,484,375
in 13 seconds.

"These seem mere trifles, however,
compared with the following: He was
asked how many grains of corn there
would be in any one of 64 boxes, with
one in the first, two in the second,
four in the third, eight in the fourth,
and so on in succession. He gave the
answers for the 14th (8,192), for the
18th (131,072), and the 24th (8,388,
608) instantaneously, and he gave the
figures for the 48th box (140,737,488;
355,232) in six seconds. On the re-
quest to give the total in all the
boxes he furnished the correct an-
swer (48,446,734,073,709,561,015) in 49
seconds.

Being blind from birth, he has
never seen figures, but has studied
Braille and devised some method of
his own. He has been offered the op-
portunity of further education.

81-Year-Old Miner Makes \$90 Weekly

Baniam, Pa., Has Production
Model in Welshman.

Pittsburg, Jan. 6.—Davy James, a
little old Welshman, who lives at Ban-
iam, is the youngest old man in Clear-
field county. Davy learned to mine
coal in Wales many years before he
came to America. He never forgot
how, and despite the fact that he has
passed his eighty-first milestone, dur-
ing the last year he has been one of
the most dependable miners Thomas
McGilly of Madera has on his pay-
roll.

The veteran miner, despite his
years, never lost a day the mine
worked during the last summer and
fall, and his pay checks for each two
weeks during the entire summer and
fall have averaged not less than \$170
and from that up to \$190.

Miners are willing to wager real
money there is not another eighty-
one-year-old kid in Pennsylvania or
any other State able to equal Davy
James's record.

Sir Wm. Peterson A War Victim

"Times" Pays Glowing Trib-
ute to Former Head of Mc-
Gill University.

London, Jan. 6.—The Times today
commenting on the death of Sir Wil-
liam Peterson, says that he resigned
the great post of president of McGill
University, wrecked in health by his
exertions to keep the university going
during the war and in rallying all the
resources of Canada in men and
material to aid of the Allies.

The Times describes Sir William as
an excellent classical scholar and an
ardent imperialist, who, however, dis-
claimed any sympathy with militar-
ism or over lordship and strove for
the reconciliation of the spirit of
nationality with the idea of a united
empire.

IT GOT HIM OUT OF A MIGHTY BAD FIX

Halifax Man Says Tanlac
Overcame His Troubles
After Two Years Suffering.

"If the people who have suffered
and tried other medicines until they
have become discouraged and dis-
couraged only know what I know
about Tanlac, they would keep no time
in getting a bottle," declared
Giuseppe D. Benedetto, 182 Grafton
street, Halifax, N. S., recently.

"Nothing ever helped me until I
got Tanlac, and that's saying a good
deal, for I tried medicine after medi-
cine for over two years in my efforts
to find relief. My stomach was so
out of order my food just would not
digest properly, and after every meal
I bloated up terribly. I just had to
force myself to eat, for I had no desire
for food at all. I suffered terribly
from constipation, and always had a
dull headache. Often for days at a
time I was so dizzy I was almost
blind, and I was so nervous I had
trembling spells when I shook like a
leaf. Nights I often lay awake until
two or three o'clock in the morning
before I could go to sleep.

"Finally I began noticing Tanlac
testimonials in the papers and decided
as I had tried so many medicines, I
might as well try this one. So I got
a bottle and also a supply of the lax-
ative tablets. I got better right from
the start, and I want to say those
tablets are the best thing I ever saw
or heard of for constipation. I can
eat anything I want now without suf-
fering afterward, and my appetite is
simply enormous. I am completely
free from constipation and all those
headaches and dizzy spells, and I go
to sleep now almost as soon as my
head touches the pillow. Tanlac
certainly got me out of a mighty bad
fix."

Tanlac is sold in St. John by Ross
Drug Co., E. W. Munro and by R. D.
Wetmore, Perry's Point, N. B., under
the personal direction of a special
Tanlac representative—Advt.

BORROWS STREET CAR FOR MORNING JAUNT

Collision With Another Car
However, Kept Him Late
for Breakfast.

New York, Jan. 6.—Matthew Oech-
lemann of 674 Richmond road, Con-
cord, Staten Island, an air brake me-
chanic for the municipal trolley line,
was in Concord early on New Year's
morning when he was seized with an
uncontrollable desire to have break-
fast in Fort Richmond. Scores of
trolley cars were standing in the
barns, so Oechlemann climbed aboard
one and started for his favorite res-
taurant, four miles away.

Half past six, when the Richmond
Richardson, and the trolley then pro-
ceeded at top speed along Jewett av-
enue, making for the trolley line,
crashed into another street car that
was standing at a crossing. Both
cars were damaged to the extent of
about \$700 and he dented trolley line,
passengers and the other car were
damaged to the extent of approxi-
mately the same number of extremely
harsh words.

Charles T. Perry, master mechanic
for the line, had Oechlemann arrested
and another complaint was made
against him by a passenger who lost
a hat in the collision. Oechlemann
was arraigned before Magistrate
Croak in Stapleton and held in \$1,000
bail for further hearing today. He
furnished bail and was released.

HID HIS ROLL, THEN HAD FRIEND ARRESTED

Wife Found the Missing
Money While Case Was
Before Court.

New York, Jan. 6.—The delib-
erations of Magistrate Douras in Harlem
court were interrupted yesterday by
the sudden appearance of a woman
who ran down the aisle waving a roll
of greenbacks at him.

"Hey, Judge, stop a minute!" she
shouted.

"What's the idea?" said the Magis-
trate.

"I just found this \$100 under my
husband's pillow. I'm Mrs. Brodal. My
old man wasn't robbed, was he?"

The case of the alleged disappearance
of \$100 from the pocket of Isidor
Brodal, 215 East 10th street, was be-
fore the court. Brodal accused his
friend, Ernest Leguna, 170 East 110th
street, of picking his pocket after a
New Year's party at Brodal's home.
Leguna was held in \$1,000 bail.

"Discharged," said the court.

After apologies had been tendered
and accepted complainant and defend-
ant walked out of the court room
arm in arm.

"Small red pimples and black-
heads began on my face and my
face was badly disfigured.
Some of the pimples fe-
sted while others scaled
over and there were places
where the pimples were
in blotches. They used
to itch and burn terribly.
I saw an advertise-
ment for Cuticura and I tried them.
They stopped the itching and burn-
ing and I used four cakes of Soap
and three boxes of Ointment which
healed me." (Signed) Miss V. A.
Hayne, Stormont, N. B., Dec. 26, '18.

If our building were in the heart of the city, every Montrealer and stranger would know it for what it is—"The Home of the Largest Exclusive Tailored-to-Measure Clothing Establishment in the British Empire"—but if we had to pay the enormous uptown rent to show you this plant, we would not make such wonderful Tailored-to-Measure Clothes of known worth at our low common-sense Standardized Prices. On the parchment is written the following: "He whom this scroll commemorates was numbered among those who, at the call of King and country, left all that was dear to them, endured hardship, faced danger and finally passed out of sight of men by the pain of duty and self-sacrifice, giving up their own lives that others might live in freedom. Let those who come after see to it that his name be not forgotten."

HOW about it? Are you able to keep up to your prescribed task? Is the boss watching your time sheet? Has he reason to think you are slipping back?

The efforts put forth to keep up to the new scale of work in conjunction with "high pressure" mode of life these days soon tells on the strongest system, shatters the nerves and weakens the heart.

Thousands are finding life a burden and others an early grave. The strain on the system causes palpitation of the heart, nervous prostration, sleeplessness, faint and dizzy spells.

Milburn's Heart and Nerve Pills have helped hundreds just in such a condition by making rich new blood, strengthening and regulating the heart, renewing the nerve centres and infusing new life and energy into the system.

This remedy builds up and maintains a healthy, vigorous constitution, according to the testimony of hundreds who have used them.

Mr. Alfred Armstrong, Lot No. 6, P.E.I., writes:—"I was very nervous and run-down, and was unable to sleep at night. I used two boxes of Milburn's Heart and Nerve Pills, and I was relieved. That was one year ago, and I have been well ever since."

1921 Campaign

General Committee of the American Trapshooting Association meets in Chicago

Chicago, Jan. 6.—Members of the general committee of the American Trapshooting Association met here tomorrow to award the American handicap tournament prize classic of trap and line plans for the 1921 campaign.

In addition to the grand award, the committee will award the elaborate ones, suggested by crack trapshooters from many places.

The day it was practically assured the national championship targets this season will be 300 targets instead of 200, as was the case last year.

This will place the state championship shoots and the national championship on the same footing. The team race probably will be followed by state championship and finally zone championship country will be divided into 10 districts to determine the championship. Trapshooting 1921 Campaign

General Committee of American Trapshooting Assn. Meets in Chicago Today.

Chicago, Jan. 6.—Members of the general committee of the American Trapshooting Association will meet here tomorrow to discuss the general American handicap tournament, the premier classic of trapshooting and outline plans for the 1921 campaign.

In addition to the grand American award, the committee will decide on new rules and the elaboration of old ones, suggested by crack shooters from many places. Officials said today it was practically assured that the national championship at single targets this season will be shot at 300 targets instead of 300, as was the case last year.

This will place the state championship shoots and the national championship on the same footing.

The team shoot probably will be added as one of the new features of the 1921 grand American tournament. The committee petition in the team race will first start among clubs, to be followed by state championships and finally zone championships. The country will be divided into five zones to determine a championship squad of five men who will compete in the national tournament.

Match Between One-Time Champion and Harry Wills Under Consideration.

New York, Jan. 6.—A match between Jack Johnson, one time heavy weight champion of the world, and Harry Wills, now the leading negro heavyweight, is under consideration for this city.

When the bout will take place depends on Johnson's luck in escaping from prison.

In the ordinary course of procedure his sentence would expire in June, but strong efforts are being made to have his time cut short, and it is expected that President Wilson will commute the sentence before he leaves office in March.

While in prison Johnson has paid strict attention to training and he is reported to be in better condition than at any time since he won the title from Jim Jeffries back in 1916.

St. John Against Important Problem

Hundreds of Unemployed Visitors Being Entertained at Great Expense.

Perhaps never in the history of St. John has there been so many suspected men waiting in the streets as there are at the present time. A large number of men who are out of employment are being looked after through the kindness of the citizens individually as well as the different organizations. Merchants and governments are doing their best to give employment to this throng of unemployed, and as a matter of fact the greater majority of those seeking aims are not citizens of St. John, but are a class who have been dumped into the city for one cause or another while the unfortunate bread-winner through circumstances are also unemployed.

It is possible to be given to the local unemployed and citizens are becoming annoyed that a large number of outsiders who are in idleness are being looked after in many cases by local support.

"Go hence from where you came," seems to be the slogan of the citizens but to get such an army out of the city means expense, or perhaps if other means were used, hardship on the visitor.

Undoubtedly there are many unfortunate among the class of unemployed in the city at the present time but then there is among the throng individuals who are unworthy of support, dangerous persons whom the city is better clear of. Terms in the County Jail gives such a nice warm boarding house, or the expense of the public. Stenmanship companies are not given to carrying such people from the city without passage money being paid in advance. The city is not going to put up the money. The men dumped into the city care little and it is becoming a problem that is difficult to handle.

The citizens are uneasy over the presence of affairs and will gladly welcome some means for the relief.

L. race when the Hamilton team fell before the Senators in a fast and exciting game at the arena here tonight by a score of five to one. The Ottawas were always best but in the first two periods, the locals managed to play a strong defensive game to keep the score close. But the visitors edge was always noticeable and the Hamilton fans gave up hopes of victory shortly after the game started.

First Bonspiel At St. Andrew's

Twenty Rinks of All Members Will Compete Saturday Afternoon and Evening.

A bonspiel will be curling on St. Andrew's ice tomorrow afternoon and evening, and every member of the club is expected to be present, as such and every one will have the chance to play. Ten rinks will curl in the afternoon and a similar number in the evening. In addition to this opportunity for a great get-together among the curlers there will be a curlers' supper running from 6 until 7:30 o'clock, and when it is stated that Harry Simmons is chairman of the entertainment committee it can be taken for granted that all members will be well looked after.

The bonspiel is the first of the season, and undoubtedly every member of the club will be on hand to take part. The prospects are excellent for good, keen ice, and the first real start of 1921 for St. Andrew's members will undoubtedly be taken advantage of by all.

POLITICS IN SOUTH AFRICA

Interesting news may be expected soon from South Africa. There has been for some months a complex political situation, which the soldier-statesman, General Smuts, thinks can only be cleared by a general election. The general and wise action of Great Britain at the close of the Boer war—action for which the Journal of Commerce says the memory of Sir Henry Campbell-Bannerman will long be honored—was responded to in a fine spirit by the late General Botha and his friend General Smuts. In time of peace and in time of war these leaders of the Dutch people gave loyal and effective service to the Empire. Botha, said to say, was carried off by death just when his great talents and services were most needed. He left a worthy successor in General Smuts, who has been laboring to carry on the Government in the same loyal spirit. One notable Dutch leader, General Hertzog, has been playing a different part, endeavoring to create a movement to separate South Africa from the Empire. He has had sufficient support to make the position of General Smuts and his friends uncomfortable. At the general election in March the Smuts Government was sustained, but not strongly. Something like the political confusion that is found in other parts of the Empire arose in South Africa, there being a Government party, a Unionist party (chiefly composed of the English settlers), a Labor party and a Hertzog party. General Smuts feels that to continue this confusing situation would be to give General Hertzog opportunity to do mischief. Therefore Smuts has decided on a direct appeal to the people on the plain issue of remaining in the Empire or leaving it. The Parliament of the Union of South Africa has not been dissolved. Nomination day will be January 14 and polling will take place on February 5. In the presence of the plain appeal of General Smuts on the Imperial question it will be difficult to introduce side issues. The Unionists, led by Sir Thomas Smartt may be expected to unite with the followers of General Smuts and it is believed that this combination will prove strong enough to win a substantial victory and make it clear to General Hertzog that his disloyal movement must fail.

SATAN REPROVING SIN

The Y. M. C. A. is the latest organization to incur the displeasure of the Catholic Hierarchy, the cause of offence being that the Association is using its influence to promote Protestantism. This is a new accusation; in most instances the complaint against the Association is that it is devoting its energies to recreation, welfare and benevolent work, and leaving the "Christian" feature of its work alone. We have no knowledge of what conditions in this regard may be in the United States, but certainly in this part of the continent, the charge that the Association is proselytizing for Protestantism is wholly unfounded. It is difficult to see just how any organization professedly formed for Christian purposes can properly carry out its objects without some connection with religion in its work, but it is just exactly this feature that the Papal secrete condemns, as calculated to "uproot the Christian faith under the cloak of welfare work." If the Y. M. C. A. is to discard the semi-religious features of its work, it may as well so out of business. It is the elevating influences which the Christian element in this work are supposed to have, that furnish it with its greatest claim to support. The Roman Hierarchy is condemning in others a practice which it not only permits but encourages within its own jurisdiction. It does not hesitate to permit the whole prestige and influence of the Church to be used, should circumstances require, to promote political propaganda where the interests of members of the Catholic faith are concerned and permits its priests to dictate to their people the line of conduct they shall follow in political matters. Under such circumstances condemnation of the Y. M. C. A. for preaching Christian doctrine, comes with very bad grace from the Church of Rome.

THE PATRONAGE QUESTION

In the opinion of the London Free Press, "one of the biggest accomplishments of Union Government was the 'abolition of patronage. Ever since Confederation political parties have been promoting in their election platforms the 'right of patronage—a promise conveniently forgotten upon returning power. The Union Government, when it went to the country in 1917, repeated this promise, and, contrary to precedent, put its pledge into effect. It was a return, though, which did much to make Union Gov-

I SEE IN THE STANDARD

Mr. Lomer Gouh, former Premier of the Province of Quebec, is leaving on a trip to the Mediterranean for the winter months. Since he relinquished the post as Premier of Quebec he had an opportunity to enjoy travel and to visit scenes from which the cares of office barred him. The Quebec chieftain was born in Grouville, Que. in 1861, the son of one of the oldest French Canadian families in the province. His education was secured at the schools of his native province; then he entered the law office of the late Sir John Abbott to fit himself for the legal profession. Upon being called to the Bar his advancement was rapid so that by 1910 he was chosen Lieutenant-Governor of the Province. For one year Quebec an adherent of the City of Montreal, but the provincial arena had more attractions for him and he quit the municipal field to enter his career at the Legislature.

Premier in 1905.

In 1905 he was appointed Premier and three years later his Knighthood was conferred upon him. His position as Premier he retained until a few months ago, when he resigned it and also his seat in the House to enter into other work. He associated himself with Le Pressé of Montreal; that post he quit a few weeks ago when he was elected a director of the Bank of Montreal. Mr. Gouh is credited with being one of the first politicians of Canada to discern the danger of the United Farmers movement to the old-time parties of Canada. It is said that he urged all the Liberal premiers to hold elections in their districts at once so they would retain their power for the predicted drastic changes when the Agrarian movement was full grown. He took his own advice and swept the Province of Quebec, leaving his political rivals with only five seats in the Legislature.

WHAT OTHERS SAY

The Quicker and the Dead.

(Liverpool Post.) The conversation round the dinner table and at so many conversations nowadays, with the subject of spiritualism. Most of the company give their opinions as to whether or not the dead can be contacted with the living, but it remained for "Sweet Sixteen" to present the only original thought on the subject. "It's hard enough for me to get up my courage to say 'When I die I want a rest.'"

Impregnable Self-Concept.

(Philadelphia Ledger.) George L. Moore, the Y. M. C. A. worker who did so much for the soldiers abroad, said in New York. "I have seen some of the greatest resistance to deal with. We come across so many of them who are as bad as—"

Mr. Moore smiled and resumed:

"I had as bad as the Quaker lady who being confronted with a passage in the New Testament contrary to her views, remarked: 'I'm a Quaker, but I differ from Brother Paul.'"

"Extraordinary"

(Jay E. House of the Philadelphia Public Ledger.) For the most part we leave the discussion of the British and their affairs to the gentles south of us. We do so partly because of ignorance of the British and their affairs and partly because we believe there are certain peculiar and provincial matters having to do with the people of this country which should be discussed on the editorial page of every newspaper. But there is one achievement of the British—perhaps it is a gift rather than an achievement—to which we bow in humble admiration. We refer to their pronunciation of the word "extraordinary."

A BIT OF VERSE

THE FLAPPER.

Her tiny ears are covered
With her hair of golden brown,
Her swan-like neck is open
To the gaze of half the town;
To the gaze of half the town;
Her ankles, trim and graceful,
That delight the roving eye,
With a flimsy gauze are covered
That intrigues the passer-by.
A thing of youth and beauty,
As she gaily trips along,
With her saugh and with her giggle
And her little snatch of song;
Her head, both light and empty,
She holds high as any queen,
The "flapper" of the moment
This upon the street is seen.
What dwells within the compass
Of that decorated head?
What thoughts and what ambitions
And what dreams within are bred?
But for laughter and for scorn,
A little social butterfly
That but for play was born?
Will she sedate as a serpent,
As years speed on apace,
Grow more mature in wisdom,
And more mature in grace?
Shall she hold her own as queen,
Disappear, a lightsome gleam,
And the "flapper" be a woman,
Yes, a woman of our dream?

LOUDER ADMITS MURDER OF THE PICTOU CRIPPLE

Police Allege He Declared Crime Was Committed in Self Defence Only.

CLAIMS BOTH HAD BEEN DRINKING TOGETHER

Declares They Were Disputing Over Money When He Was Threatened.

Summerside, P. E. I., Jan. 6.—George Louder of Summerside, has confessed to shooting Daniel Barry, aged Pictou cripple, and setting fire to the oil-saturated bed in which the body lay, according to Chief Detective Kennedy of the Halifax police department. Louder alleges, the police say, that he shot Barry in self-defence after he had been threatened with a revolver in the course of an argument over the payment of Barry owed Louder for plastering and carpentry work.
 Broke Down in Cell

Louder broke down and wept in his cell at the Prince George jail last night as he told the detective and Chief of Police MacAulay of Pictou the circumstances of the occurrence at Barry's house on the night of December 30, volunteering Mr. Kennedy said, a full and complete statement which was borne out by investigations made by the police.

Claims Both Were Drinking.
 He came back in the afternoon. Both Louder and Barry had been drinking during an argument they got into a table. Barry picked up a revolver which was lying on the table and was going to fire at Louder, but the latter wrested the gun from the old man's hand. Barry then lay down on the bed and said: "Don't hurt me."

Louder told the police he shot Barry and then waited till dark when he threw a cut of oil on the bed and set it on fire with the lamp. He left the house after taking about \$100 and a watch which he found on the kitchen table. The revolver that the police discovered when Louder was arrested, belonged to Barry, the prisoner said.
 The prisoner was taken back to Pictou tonight, arriving there safely.

BUTTER REACHES LOWEST PRICES IN MANY MONTHS

Rice, Beans, Cornmeal and Flour Also Show Substantial Declines During Week.

Butter was selling at the lowest prices in a long time in the City Market this week and plentiful supplies were coming in from the country. Eggs were as scarce and high as ever.

The new year re-adjustment of prices caused general considerable reductions in wholesale groceries. Rice fell off \$2.50 per cwt. and is now quoted at \$4.50 to \$4.80. White eyed beans dropped a quarter of a dollar on the cwt. and meal is 15c a gallon.

Cornmeal in bags went down 10 cents, granulated from 35 to 40 cents. The former is now quoted at \$3.25 to \$3.50. Granulated at \$4.30 to \$4.50. Manitoba flour dropped 70 cents per barrel.

The only change in wholesale meats was in pork the large supply on hand effected a two cent drop. Pork is now quoted at 16 to 20 cents per lb. Large supplies of bestest sent that of yesterday's surprising advance especially British bills. Cables reported the suspension of an international bank in the British metropolis and failure of a Liverpool cotton firm.

For the most part the recent sharp rise in foreign remittances is believed to proceed mainly from speculative quarters, where the short interest in sterling and francs is said to have been unusually extensive.

Crucible Steel Leads.

Dealings in stocks were most active during the final hour under leadership of Crucible Steel, general Asphalt and the rubber group, these and kindred issues showing net gains of 2 to 5 points. This also included, but was restrained by pressure against Mexican Petroleum and rails forfeited part of their advance. Sales amounted to 255,000 shares.

Bonds, notably Convertible rails were active and materially higher, as well as some of the foreign issues, particularly the Swiss division. There was a good inquiry for Libertine, most of which closed at gains. Total sales per value, aggregated \$18,975,000. Old United States bonds were unchanged on call.

HIGHER PRICES BROADER SALES ON WALL STREET

Profit-taking Sales Did Not Break Down the Sharp Early Rally.

New York, Jan. 6.—Trading on the stock exchange today was lively and broad price movements were mainly towards substantially higher levels. Selling to insure profits caused occasional reactions, but a strong trend prevailed among favorite issues at the close. The advance derived much of its impetus from further accumulation of copper, motor, steel, equipment and shipping issues, together with many miscellaneous shares which suffered severely in the December liquidation, but now are in demand because of seemingly improved trade conditions.

Benefit in Reductions.

Other propelling factors were furnished by the day's news which strengthened the growing conviction that further downward revision of commodity prices is exerting a more beneficial effect in many lines of commodities. Foreign exchange opened strong, but soon cancelled the greater part of yesterday's surprising advance especially British bills. Cables reported the suspension of an international bank in the British metropolis and failure of a Liverpool cotton firm.

For the most part the recent sharp rise in foreign remittances is believed to proceed mainly from speculative quarters, where the short interest in sterling and francs is said to have been unusually extensive.

FOCH FINDS GERMANY AT OLD TRICKS

Attitude of Today Recalls Her Actions in Year 1899.

CIVIC MILITIA AND SAFETY POLICE

Merely Training Forces for Soldiers—Ready for Speedy Mobilization.

By WYTHE WILLIAMS. (Copyright, 1921, by Public Ledger.)

Paris, Jan. 6.—Last Friday marked the expiration of the period of delay granted Germany at Spa in which to complete the evacuation of the inter-allied military commissions at Versailles, provided over by Marshal Foch, to submit complete details concerning violations of the Spa agreement. This report was presented to the ambassadors Friday.

Marshal Foch in the report declared the Germans had violated their engagements not only concerning disarmament but the clauses concerning the reduction of troops. As to disarmament, he says Germany has not delivered the heavy artillery from the western frontiers; in fact from completely the destruction of airplanes and has conserved quantities of field artillery, machine guns and rifles in her depots over the numbers permitted at Spa, under the pretext of having to arm her reserves. Finally Germany has not even continued disarmament of the "safety police" and the bourgeoisie militia, notably in Bavaria and East Prussia. These constitute several hundred thousand men—a veritable reserve army.

Mobilization Machinery Intact.

Germany has to all appearances followed the orders given at Spa and reduced the Reichwehr to 100,000 men. But under the pretext of liquidation her old army she kept the entire organization of mobilization which is in direct opposition to the treaty of Versailles.

In reality, according to Marshal Foch's report, Germany has returned to the system by which she succeeded in 1918. The allusion is to the evasion of the condition of the Treaty of Tilsit imposed in 1807 by Napoleon that the Prussian army should not exceed 42,000 men. Each body of men in the treaty was replaced by another as soon as it was fairly verged in military exercises. In 1917, when Napoleon met with disaster in Russia, the Prussian people were ready to rise en masse for the War of Liberation.

Ready for Swift Expansion.

One hundred thousand men of the Reichwehr and safety police, which are, in fact, a second army, will constitute the frame. The civic militia will furnish the men. The offices of demobilization will be the organization of mobilization. Germany will thus be able to have as many men for war as are capable of bearing arms. This army could be equipped with engines of war kept in secret and those made from a powerful, organized industry able to pass overnight from production for peace to production for war.

The French Government has sent a note to the German ambassador protesting in its own name against the specific violations of the Spa agreement and intimating that French intervention would be but a prelude to international intervention. England already has let it be known officially that she will support France. Italy is nervous concerning the development of the Bavarian and Austrian militia. Belgian concurrence is certain.

According to French authorities the only concessions will be to permit a certain delay in the dissolution of the bourgeoisie militia.

Translating English.

(New York Independent.) The most truthful of us do not say exactly what we mean; there are phrases and idioms which must be explained in a purely symbolical sense, although we use them so often as to be unconscious of this. Thus—

"Two or three" always means three and usually "at least three" or "three and upwards." "One or two" never means one, save by a accident.

"In a minute" averages anywhere from five to fifty minutes.

"O, I beg your pardon" (in case of a collision on the sidewalk) means "I am too polite to ask you to beg my pardon for getting in my way."

"That reminds me of a story" means "Now will you quit quiet while I tell my joke?"

"I hold no brief for" means "I am now going to defend."

"While I do wish to appear critical" means "But I am going to have my say out anyhow."

"Of course, it's no business of mine" means "But I am stamperily devoured with curiosity."

"My conduct calls for no apology and needs no explanation" is the usual introduction for an explanation or apology.

"No one could possibly have mistaken my meaning" is what we begin with when it is evident that someone has mistaken it.

MADAGASCAR RICH SOURCE OF RADIUM

Radio-Active Minerals on Island Offer Field for Exploitation.

Paris, Jan. 6.—One of the richest countries in the world in the possession of radium-containing minerals is, according to the official year book, the French colony island, Madagascar.

Discovery was made several years ago by a Frenchman, M. Lacroix, now secretary of the Academy of Sciences, and during the past few years he has continued his researches with the most satisfactory results.

In an interview he declared that it is impossible to state in any way the extent to which radium can be profitably extracted, but at present price of one million francs for each gramme of bromide radium, the island presents apparently a richer field for exploitation than even Dawson.

"Radioactive minerals of the great island," Lacroix declared, "belong to the group of Titanite-like minerals, of which I have named the principal variety, from the district in which it is found. It is dark brown in color and only found, so far as I know, in Madagascar. At the time of the discovery no one attached much importance to the metal, but statistics of mineral exports from Madagascar, which were made in 1915 and 1917, were over seven thousand, show how much more valuable the mineral is now considered."

Deposits Irregular.

The radium course irregularly, and certain batonies are naturally more valuable than others, some reaching as high as fifteen thousand francs a ton. The mineral is exported to France, where the radium salt is extracted in several works.

The means of discovering the presence of radium are simple, says Lacroix. All that is necessary is a camera and a gold leaf electroscope. In making the radiographic test, one places the metal to be examined between several folds of black paper and lays it on a sensitive plate. When the plate is developed, the picture of radium-containing metal is found. The electric test is even more simple and easily applied and with two instruments of electroscope and photographic plates the explorer may discover metal far more precious than any gold leaf in the world.

Mrs. Aquith's Book Banned.

The West Ham Public Libraries Committee, having had recommended to them for purchase for their Central and Plaster Libraries "The Autobiography of Margot Aquith," have disapproved of the suggestions. In each case the book was reported as "suggested by readers," and the central librarian recommended that it be added to his stock. Labor has a decided majority on the committee.

FAMOUS CATARACT HAS DISAPPEARED

The Drought in Switzerland Causes Disappointment to Sightseers.

Berno, Jan. 6.—The largest and most famous cataract on the Continent, the Falls of the Rhine, near Schaffhausen, has now disappeared. In summer the falls are generally 600 feet wide with a drop of 100 feet and a discharge of water estimated at 85,000 cubic feet per second. But now only a few trickles of water remain and the bed of the falls, except in the very middle, where there is still a pool of water, is so dry that people are walking across it. Not since the exceptionally cold weather of 1850 has it been possible to walk across the bed of the falls and even then, an old Schaffhausen resident says, there was not so little water as now.

Three Months Since Rain.

It is now three months since any rain of importance has fallen in Switzerland, and hitherto the winter has been singularly lacking in snow. The warmth of the last few days throughout Switzerland has been wholly exceptional, and the temperature at all the high winter sports centres, except St. Moritz, has been above the freezing point. In Swiss towns people go about wearing straw hats. The high alpine pastures were found blooming on New Year's day and in valleys hay stacks were in bloom and even straw wildflowers.

The shortage of water still continues and is getting worse. Electric car lines in the Swiss capital have had to curtail service because of lack of current and the lighting of shops and windows and streets is restricted. The electric railways are obliged either to reduce steam traction or curtail train service.

The English and Americans visiting Switzerland for winter sports are oppressed with the warm clothing they are obliged to wear. They are disappointed at being able to do so little. None can remember such a warm New Year in the Alps.

FREAK WEATHER AT PHILADELPHIA

Rain, Sun and Rainbow Some of the Features of One Day's Weather.

Philadelphia, Jan. 6.—Philadelphia weather today displayed a wide variety of samples. The thermometer rose to 77, the highest for this date in five years, and within three degrees of the record made in 1874.

Later in the day it rained, while the sun shone brightly from an unclouded sky, making that rare winter phenomenon, a sun shower. At one time it was raining hard at city hall, while the streets were dry and the sun was shining at Broad and Arch streets, a block away.

One of the most brilliant rainbows of the winter appeared in the northern skies.

PEPS

the real breathable tablets, make the throat, chest, and lungs cold, relaxing. When a nasty cold or a coughing bout forestalls the revival of your old bronchial trouble, the best thing to do is to take Peps at once to strengthen and

PROTECT

the chest. When a Peps tablet is taken from its preservering silver wrapper and allowed to dissolve in the mouth, it gives off powerful medicinal and germicidal fumes that immediately circulate with the breath through all the air passages, and destroy any germs that have got into

YOUR

nose and throat. At the same time the sore, inflamed membrane is soothed, healed, and protected, phlegm is released from the bronchials, breathing is made easy, and that distressing cough and throat soreness disappear.

By this direct treatment Peps keeps trouble off the

and lungs, and the worst weather can be faced without fear of evil consequences. It is the safest plan to always have a few Peps handy to arrest a cold, and prevent it reaching the lungs or starting bronchitis and chest weakness.

Great Demand For Bibles Reported

Annual Meeting St. John Branch of Canadian Bible Society.

"I want a Gospel to read about Jesus Christ on the train." This request, which is frequently heard at the Port of St. John by Dr. Heine, Colporteur of the Canadian Bible Society, is a sign of the magnificent work being done among immigrants by the Bible Society, the St. John branch of which held its annual meeting last evening. Central Baptist church was filled to the doors with a representative gathering. Three excellent addresses on the Society and on the Bible, which its object is to distribute, were listened to with deep interest.

J. M. Rogers, president, was in the chair, and with him on the platform were Dr. Hamilton Wigle, of Sackville, and Rev. Dr. Heine, Rev. F. H. Dore, of the church, led in prayer. Rev. H. A. Goodwin read the Scripture lesson.

Treasurer's Report

The treasurer, R. T. Hayes, gave a report which included the following statements:—Collected by Miss Henderson, \$52.38; collected by Miss Wesley, Trinity church, \$292.96; St. John's (Stone) church, \$95.45; St. Paul's church, \$23.15; St. James' church, \$37.09; Centenary church contribution, \$195; St. Andrew's church contribution, \$150; Douglas avenue and Coburg street Christian churches, \$15.

Millions of Copies Distributed

Rev. S. S. Poole said that the object of the Bible Society is to give the Scriptures to all nations of the earth in their own language. The study of this book, which is the word of life, must influence the world for good. Last year 2,247,000 copies were sent to China. If Canada is to become a great nation, righteousness must be exalted above what, God above gold, and giving above getting. Providing settlers with Bibles will develop in them the right ideals.

Helps Missionaries

Dr. Wigle stated that if it were not for the Bible Society, every church member would have to give much more largely to missions, as missionaries could not carry on their work without the Bibles supplied by the society. The Bible is published in seventy-three tongues. Johannesburg, South Africa, has the largest local circulation with seventy-five different dialects; Chicago has seventy, and Winnipeg, sixty-five.

The Bible satisfies the mind of man, it is a reasonable interpretation of life, an explanation of creation, and shows development of heart and moral life. There is no modern social idea which can improve upon the Golden Rule. Its writers claim that it stands any test. The Bible has human endorsement, as to its authority, among its credentialed is the fact that it transforms character. Modern testimonials to the Book of Books are given by the world's greatest writers, poets, painters and musicians. Its thirty-seven different authors wrote amid many different surroundings, and yet they made a perfect mosaic. The Bible has stood criticism and persecution. Its authority is proved by events of history. Its beauty is an other credential. Where can you find such poetry, rhetoric, drama, tragedy, and above all, the speaker asked, where is there such hope as is given in the words of the Saviour regarding the Resurrection? It is our duty to give our prayers and money so that its pages may be revealed to every soul.

Rev. Dr. Heine, whose splendid

work at the port was shown by some of the statements made, told of visiting in Halifax a camp, where there were Bulgarians, Russians, Galicians and Italians. He held four services, speaking in these languages, and last evening sang several verses of hymns in each tongue. At the Russian camp Bolsheviks had been trying to inflame the men, and one trouble-maker was confronted with a Bible purchase from Dr. Heine, its owner, saying: "This will cure your poison." In the Italian camp men were gambling, and Dr. Heine prayed quietly till the men were touched, and insisted on the game being stopped.

He described a scene at St. John recently when his supply of Italian Bibles being low, he tried to leave the shed to save some for the next boat. The Italian goods master insisted on his coming back, and bought all his Bibles. They call him "The Man Who Sells the Book Which Tells About Jesus."

Speaks Many Languages

Dr. Heine spoke last evening in Chinese, Gaelic, Russian, Bulgarian, Italian, and English. He emphasized the duty of educating as Christians, the horde of people coming to Canada.

A. A. Wilson, secretary, moved that last year's officers be re-appointed. President, E. N. Rogers; secretary, A. A. Wilson; treasurer, R. T. Hayes, with a board of twenty-five members. Music included an anthem by the choir of Central church, solos by Miss Campbell and Douglas, "Thorne," an organ selection by Miss Beryl Branch.

J. N. Rogers thanked the pastor and trustees for the use of the church, and the choir for the music. Rev. Canon Kohring pronounced the Benediction.

United Women's Missionary Society

Miss Flora Clark Tells of Seven Years' Work Among Lepers.

The meeting of the United Women's Missionary Society held at St. John's (Stone) church school rooms yesterday was splendidly attended, and its program was one of much interest and inspiration. Mrs. James F. Robertson, president, was in the chair, and with her on the platform were Miss Flora Clark of Moncton, a returned missionary; Mrs. H. A. Goodwin, first vice-president; Mrs. C. F. Sanford and Mrs. J. R. Vanwart, secretary.

Among The Lepers.

Miss Flora Clark gave a most interesting account of her seven years' work among the lepers of Vizanagram, in the Madras Presidency, India. She told very simply, a story of courage and devotion while describing how the missionaries go about among the victims of this dreadful disease. Seven years ago there were only a few leprosy huts with ten lepers, none of whom were Christians. Now there are suitable stone buildings and seventy lepers who have embraced the faith of Jesus. Many have died sincere believers, and Christianity has made their sufferings bearable. Miss Clark told of the joy of the missionaries over the first baptism. She spoke of the missionaries taking due precautions against the disease, but said that they visited those too ill to attend the open air services held. There are fifty-five thousand inhabitants in Vizanagram.

At the close of the fine address Mrs. George F. Smith spoke in appreciation of the address. She emphasized the virtues pointed out by Mrs. Clark of willingness, courage and intensity of purpose. Mrs. Davidson, Rothsay, seconding a vote of thanks referred to the fact that leprosy in the Bible is a type of sin, and that in God's sight all are suffering from disease and need the healing power of the Saviour.

Election of Officers.

Mrs. J. S. Maglor read the report of the nominating committee, which was adopted, electing the following officers:

Mrs. David Willett, president. Mrs. James F. Robertson, 1st vice-president. Mrs. David Hutchinson, 2nd vice-president. Mrs. R. A. Vanwart, secretary. Miss Annie Scammell, assistant secretary.

Executive—Anglican, Mrs. George F. Smith, Mrs. H. H. Pickett; Methodist, Mrs. Jacob Heaney, Mrs. Nell McLaughlin; Presbyterian, Mrs. J. S. Armstrong; Miss Homer, Christian, Mrs. P. J. M. Appleman, Mrs. J. S. Fladler; Congregational, Mrs. C. H. Flowelling, Mrs. J. H. Flowelling; Baptist, Mrs. George Hudson, Mrs. George J. Coggin.

An offering amounting to nearly forty dollars was taken for the benefit of the Free Kindergarten. Miss Clark made a donation to the funds.

Prayer was offered by Mrs. C. F. Sanford. Mrs. George Bell then sang a solo very acceptably and the meeting closed with the American Women's auxiliary members. The report of the Beneficent led by Mrs. Robertson.

Berlin, Jan. 6.—The "silent drama" here, at elsewhere, recently has won surprising favor with the public. The Berlin statistical yearbook says attendance at moving picture theatres now is 27 to 1 in favor over the spoken drama. There are 254 moving picture theatres in Berlin with a seating capacity of 117,000 and 34 "silent" theatres with a capacity of 44,000.

REFLECTIONS OF A BACHELOR GIRL

By HELEN ROWLAND (Copyright, 1920, by The Wheeler Syndicate, Inc.)

Man wants but little here below—and what he wants, he usually wants merely in order to hand it over to some woman.

To the callow youth, a girl is just some place to park his kisses and sort of localize his bloomy emotions.

The feat of a married woman's life is to keep the "tie-that-binds" at just that stage of elasticity, which will permit her husband to feel free to roam, and yet pull him back at the psychological moment—like one of those "baby-walkers" you've seen. The baby fancies that he is walking all over the house, whereas he is just toddling around himself, in a circle.

A man does the courting, the choosing, and the proposing, and then blames it all on the woman if it turns out unhappily—just as he blames his nightmare on the rabbit, which he insisted on eating.

The lower the back, the higher the price of the evening gown, but every man, who will cheerfully pay fifteen dollars for an extra "Nice boy!" to charm a college professor, read his palm, teach him to fox-trot, or eat a filipina with him.

Nowadays, a man can tell you the color of a girl's stockings, long before he has the faintest idea of the color of her eyes.

Scalded With Pot of Soup

Stoker from S.S. Pretorian Badly Injured During Fight With Another.

One of the stokers from the Pretorian was taken to the Public Hospital yesterday in the ambulance, suffering from scalds. He had some trouble with another member of the crew on New Year's Day, and in the fight that followed, a kettle of boiling soup was thrown over him. He was badly scalded about the neck, back and right shoulder. The burns became infected, and blood poisoning resulted, necessitating the removal of the patient to the hospital for careful and thorough treatment.

Young Girl Dies Of Her Injuries

Marguerite McNeil Struck by Street Car Died in Hospital Last Night.

An operation failed to save the life of fourteen-year-old Marguerite McNeil, who died in the hospital at ten minutes to ten last night. The young girl was hit by a street car near the corner of Hanover and Brussels street at nine o'clock Wednesday morning, and was taken to the hospital, suffering from a fractured hip and collar-bone and internal injuries.

Her condition was considered serious from the outset, but it was hoped that her life might be saved with an operation. The operation was performed yesterday morning, but was unsuccessful, and she passed away last evening.

She was a bright and intelligent child and a favorite with all who knew her. Besides her father, Police Constable Walter McNeil, and her mother, she leaves two sisters and a brother.

Never Stayed At People's Palace

Alleged V. C. Winner Told Falsehood—Salvation Army Officers Prove Man a Fraud.

Denial of the story that the alleged Sergeant Major Albert E. Wood, V. C., had been turned out of The People's Palace, St. James Street in this city was made at the headquarters of the Salvation Army at Toronto yesterday. Immediately upon reading the dispatch to the effect that this alleged hero veteran of four wars had appealed to the mayor of St. John and that through lack of funds he was unable to return to his room at the People's Palace, an investigation was instituted by the Salvation Army officials, in view of the fact that the People's Palace is a Salvation Army institution. As a result of this investigation, word was received at headquarters, Toronto, to the effect that Sergeant Major Wood, V. C., while known to St. John Salvationists, had never stayed at the

Will Purchase Red Triangle Hut

St. John Playgrounds Assn. the Purchasers—Fitted up for South End Boys' Club.

The Red Triangle Hut on the Exhibition Grounds will be purchased by the St. John Playgrounds Association and fitted up as a Boys' Club for the boys of the South End.

A motion that the original offer made by the Playgrounds Association to purchase the building, provided the South End Improvement League take over the direction of the club, was confirmed at a meeting of representatives of the league and other citizens of the South End held in the Board of Trade rooms last night.

Thomas Killen, the president of the South End League, was in the chair, and E. A. Ellis, secretary, recorded the minutes.

Offer Accepted
K. A. Haley, president of the Playgrounds Association, made a motion that the original offer of the Y. M. C. A. be accepted, and that the Red Triangle Hut be bought from them for the sum of \$500. Frank White seconded the motion, and it was unanimously carried.

It was announced that Dr. L. D. V. Chipman had kindly offered to pay all expenses to be incurred in cutting a gateway and effecting an entrance to the building from Sheffield street. The doctor's generous offer was met with much appreciable comment, and it was moved that he be forthwith elected a member of the boys' committee.

Conditions Not Satisfactory
Mr. White expressed himself as disatisfied with present conditions in the South End League. He felt that meetings should be held more often, and monthly statements of the club's activities, financial and otherwise, be submitted. New and younger blood was needed, he said, and a re-organization might well be made with that object in view. Mr. White also suggested that a committee be appointed to supervise each one of the departments of the league.

Same Opinion
A. M. Belding concurred in Mr. White's views. He said that the South End League at the present time consisted of an executive of a few men. While they have been able to build the best 100-yard sprinting track in town, a good baseball diamond, playgrounds and skating rink, he felt that more citizens should join in the work. He spoke of the lack of checkers for the waiting rooms at the rink, and invited citizens of the South End to help in the work by volunteering. An offer to carry on one night each week, made by A. F. Weatherhead, on behalf of himself and wife was gratefully accepted.

The meeting expressed themselves in favor of re-organizing the league and a motion was passed that a meeting for that purpose be called of all citizens in the South End, the meeting to be held in the King Edward School next Tuesday evening.

42 TONS OF MILK FROM ONE COW.
(Copyright, 1920, by Cross Atlantic.)
London, Jan. 6.—Hodges Moss Rose, a British Friesian cow belonging to J. H. Bean, of Chaddesley, Corbett, Kidderminster, which gave more than 2,000 gallons of milk last year, has set a new record by repeating the performance this year.

In the two years her output of milk amounted to considerably more than 4,000 gallons and weighs more than 18 tons. In less than six years Moss Rose has had 7 calves and given more than 42 tons of milk.

BALLOONISTS NOT OUT OF FORESTS

Scouts Are Out on Hail to Give Notice of Approach of American Trio.

Cochrane, Ont., Jan. 6.—At three o'clock this afternoon there was no word in Cochrane of the missing American balloonists. Cecil Goulding, mail carrier between Cochrane and Clute, news on today and reported that the party and their guides had not been sighted when he left his home, eleven miles north of here, this morning. Scouts are being placed on both the Clute and Mattice trails to give notice of the arrival of the Americans and word of their approach to the railway will be sent ahead of them into Cochrane.

Madrid, Jan. 6.—The possibility of the future union of the Spanish and Belgian royal families is the subject of a rumor in the circles of the aristocracy of Madrid in connection with the coming visit of King Albert and Queen Elizabeth, and their daughter, the Princess Marie, who will arrive here in February.

The succession of the dynasty has already been discussed, although the Prince of the Asturias is not fourteen years old yet, while Princess Marie is seventeen.

All Countries Will Have Privation and Suffering in Some Degree, He Declares

FAILURE OF MANY BANKS IS CITED

Governments Expected to Aid Credit Institutions Unable to Withstand Losses

By SIR GEORGE PAISH, (Copyright, 1921, by Public Ledger)

London, Jan. 6.—Never has the world been so full of trouble as it is today. The year 1921 has opened with the most gloomy and pessimistic outlook that has ever been known in the history of the world.

Production Falls to Fill Need There is a real danger of nations not being in position to buy or sell even as much as they did in 1920 and consequently it seems to be practically certain that an era of privation and suffering will in the next twelve months be extended to every country in the world in greater or lesser degree.

COLLAPSE OF "POET SOLDIER" FORTUNATE FOR THE ITALIANS

Such is Opinion of Thomas Nelson Page — Expresses Belief in League of Nations

By WYTHE WILLIAMS, (Copyright, 1921, by Public Ledger)

Paris, Jan. 6.—Thomas Nelson Page, author of many novels and ambassador at Rome during the war, has returned to Europe and has just left Paris for the Riviera, where he intends to pass several months polishing off a new novel of the South, dealing with reconstruction days.

Mr. Page said his visit this time was purely a literary mission and that he only had an academic interest in the political situation. However, he expressed the warmest sympathy for Italy, declaring that D'Annunzio's collapse was the most fortunate event in recent Italian history.

"I have always considered it a great misfortune," he said, "not only on Italy's account, but on account of her Allies, that her relation to the war was so little understood abroad as I think that, had she been given to feel that her part in the war was appreciated, the whole complication of the Adriatic question, resulting in the unhappy Plume episode, might have been avoided."

Mr. Page declared he still believed in the League of Nations. He said: "It is the only thing to save the world from perdition. We ought to get into it now while it is in its present form."

Mr. Page desired to refute rumors in certain reviews to the effect that he had been recalled by President Wilson. He said: "On the contrary, I urged the President to accept my resignation owing to my personal affairs in America."

Mr. Page has covered much of recent Italian history in his new book, "Italy and the World War."

Long Reach Churches HOLD ENTERTAINMENTS Long Reach, N. B., Jan. 5.—The annual Christmas tree and supper of the St. James Church, Long Reach, Sunday school, was held in the Victoria Hall, Long Reach. The scholars and friends gathered for an excellent supper about 5 o'clock, after which the children gave recitations and songs. Mrs. Waterson also sang "Come Through the Eye" and "It is Only a Tiny Garden."

Then the presents were distributed from the Christmas tree by the Rector, who acted as Santa Claus. The Rev. Henry Waterson gave a short address and thanked the Sunday school teachers, Mrs. Frank Gorham, Dr. P. R. Royden and Miss Zardoe for their generous contributions. Mr. Frank Gorham and Mrs. P. R. Roden. Mr. Waterson presented two special prizes for attendance, one to Kathleen Roden, who had not missed once during the last four years, and the other to her sister, Marjorie, who had not missed during the last three years. The Rector also presented a book and a Christmas stocking containing a purse, as well as other things, to Mrs. Geo. Andrews, the organist of St. James Church. Unfortunately Mrs. Andrews was unable to be present through illness, and Mr. Andrews received the presents for her and expressed grateful thanks on her behalf.

Reed's Point Sunday School. A successful concert, supper and Christmas tree was held in the Reed's Point hall on Tuesday evening last by the scholars and friends of the Reed's Point Sunday school. The program consisted of songs, dialogues, recitations, violin and mandolin solos, etc. Rev. Henry Waterson presided, and during an interval gave a short address.
