FIRE ON O'LEARY STREET ON SATURDAY

Mrs. A. J. LeBlanc and Daughter
Are Badly Burned in Blaze,
But Now Recovering

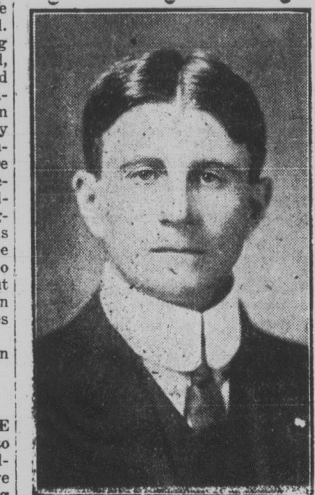

Last Saturday the fire department
were called out to a fire in the store
and dwelling on O'Leary street, oc-
cupied by A. J. LeBlanc tailor. The
brigade were early on the spot, but
the fire spread so rapidly that all their
efforts were directed to saving the sur-
rounding property. The building was
completely gutted and the rear of Mr.
Thos. Ellsworth's store, which adjoins,
was also damaged.
Mr. LeBlanc's loss will be between
\$5000 and \$6000, which is only partly
covered by insurance, and Mr. El-
sworth's loss will be small. Mrs. Le-
Blanc and her oldest daughters were
badly burned, but are making satis-
factory progress at the hospital.
Seen by our representative, Mrs.
LeBlanc said that she had been sweep-
ing up the floor, and had put the
sweepings in the stove, with some fine
kindlings and a lot of fine soft coal.
She lit the stove and was standing
near it, when an explosion occurred,
throwing the fire in all directions, and
even shaking the house. A large num-
ber of tailors patterns which were on
the wall, caught fire and burned very
rapidly. Mrs. LeBlanc, who was burn-
ed slightly by the explosion, became
alarmed and rushed out for help, re-
turning through the fire for her chil-
dren and carrying out the two young-
est through the flames, which by this
time had secured a firm hold on the
building. Mrs. LeBlanc states that no
coal oil or gasoline was used or put
on the fire by mistake as had been
stated, as neither of these articles
were on the premises.
Mr. LeBlanc was not at home when
the fire occurred.

**PROMINENT MEN
ILL AT DALHOUSIE**
Many friends here will regret to
know that Mr. A. H. Hilyard of Dal-
housie is seriously ill, and very grave
reports have been received regarding
his condition. Hon. C. H. LeBlanc
has also been confined to his home
through illness, but today is much im-
proved.

CAMPBELLTON HONORS HER ILLUSTRIOUS SONS

Complimentary Evening Spent on Tues-
day at the Campbellton Club Rooms,
When Major McKenzie, Capt. Fer-
guson and Lieut. Mowat Were
Presented With Watches.

On Tuesday evening the spacious
club rooms of the Campbellton Club
were en fete, the occasion being a fare-
well gathering of the few of Major
McKenzie's friends to say "Au revoir"
on the eve of his departure for the
front, as second in command of the
New Brunswick Regiment of the sec-
ond contingent. Owing to the hurried
nature of the arrangements, the com-

Major McKenzie, 2nd in Command of
New Brunswick Regiment, 2nd
Contingent

mittee in charge were unable to bring
all who would have desired to be pre-
sent, but as Capt. LeBlanc naively put
it, they would have required the Opera
House if the committee had invited all
the friends of Major McKenzie, and
those who had not been invited must
forgive the committee for the overlook.
Nevertheless about a hundred guests
partook of the hospitality of the club,
the rooms being nicely decorated for
the occasion with flags. Music and
cards were indulged in at the early
part of the evening, "Tipperary" being
the favorite chorus, rendered with var-
iations led by the genial "Muff." About
ten o'clock, Mr. Max Mowat, who was
chairman of the committee, called the
guests to the Billiard room, and in a
short speech welcomed them, explain-
ing the object of the gathering which
was to say "Farewell" to Major Mc-
Kenzie. It was felt, he said among
the people of Campbellton, and the
County of Restigouche, that they
could not allow Major McKenzie and
the other officers to depart from their
midst without expressing to them the
feelings of the community toward
them in the spirit of patriotism they
had shown. He then called on Judge
McLachy to make a small presenta-
tion.
On rising, His Honor Judge McLachy
was given a great reception. He
spoke of the honor he felt in being
called to make this presentation, to
men who had made sacrifices for the
glory of the empire, and in a brief
speech outlined Major McKenzie's car-
eer. He had known him for many
years, first as a scholar in Campbell-

WOMAN'S BEST MEDICINE

Mrs. Kelly Advises all Women to Take "Fruit-a-Tives"

HAGERSVILLE, ONT., Aug. 26th, 1913. "I can highly recommend 'Fruit-a-Tives' because they did me an awful lot of good and I cannot speak too highly about them. About four years ago, I commenced taking 'Fruit-a-Tives' for a general break-down and they did me a world of good. We bought a good many dollars' worth, but it was money well spent because they did all that you claim for them. Their action is so pleasant, compared with other laxatives, that I found only pleasure, as well as health, in taking them. They seemed to me to be particularly suited to women, on account of their mild and gentle action, and I trust that some other women may start taking 'Fruit-a-Tives' after reading my letter, and if they do, I am satisfied the results will be the same as in my own case."

Mrs. W. N. KELLY

"Fruit-a-Tives" are sold by all dealers at 50c. a box, 6 for \$2.50, trial size, 25c, or sent postpaid on receipt of price by Fruit-a-Tives Limited, Ottawa.

HAVE PRETTY HAIR

Taick, Soft, Fluffy, and no Dandruff—Use Parisian Sage. If your hair is losing its natural color, coming out and splitting, or lacks that enviable softness, gloss and beauty, do not despair—pretty hair is largely a matter of care. If it is too thin make it grow. If it is harsh and brittle soften it up—lubricate it. If you have dandruff it is because the scalp is too dry and flakes off. Freshen up the scalp with Parisian Sage—all dandruff disappears, falling hair and itching head cease, your hair is doubly beautiful.

Parisian Sage, sold by Thos. Wran and at all drug counters, is just what you need—a large bottle costs but 50 cents. It surely makes the hair lustrous and seem twice as abundant. You cannot be disappointed in Parisian Sage.

LETTERS TO EDITOR

Loggieville, N. B., Nov. 26th, 1914.

The Editor of the Graphic, Campbellton,

Dear Sir:—In your issue of the 19th inst., an editorial appeared under the heading, "Church Disruption Threatened", in which a long quotation from the Chatham World was given and a few comments by yourself. The tendency of the whole article is to cause others, who are not very deeply interested in systems of church government, to think slightly of the Presbyterian system, particularly in the matter of calling a minister. The effort seems to be to lead the public to suppose that a great injustice has been done Mr. MacDonald who was irregularly called to be minister of the St. Andrew's congregation in Campbellton.

In the first place let me say, that had the article in the Chatham World and the addition by the Editor of the Graphic been written by Presbyterians, it would have been generally regarded as more appropriate. The day has not yet come when the Presbyterian church will apply to laymen of other denominations for instruction and advice as to how she should call her ministers to fill her vacancies.

The system of the Presbyterian church, safe-guards the interests of the church members. The rules regulating the calling and settling of pastors are not the result of a night dream, but have grown in the same way that laws regulating the affairs of the State have grown. Is it unreasonable that a man who has been ministering to a Congregational Church in the United States for a period of three years, should not be counted any longer a minister of the Presbyterian Church in Canada? How can one man be both? Why should we give out reports from the Presbyterian church that we have a certain number of ministers, when perhaps a large number of them are not ministers of Presbyterian congregations.

Is it unreasonable further, that when a minister from another church wishes to accept work in a congregation of the Presbyterian church, that he should apply and be accepted, only after careful examination by a committee of the Assembly? Is not such a course of procedure in the interests of the people? It causes some delay, but better so.

It should be remembered that the various denominations have a right and it is their duty to safe guard the interests of the people. We are living in a democratic age. The Presbyterian church collects funds in support of her Theological colleges, and for Bursaries to aid students in preparing for the ministry. Is it not reasonable that the church should expect the men, whose education has been paid for by the church to give their strength in her own congregations? Is it justice to the people of the Presbyterian church, to ask them to pay for the education of men who go to fill the pulpits of other churches when they have graduated? It is necessary for all churches to have rules of this nature to protect themselves.

If the Presbytery of St. John gave its approval of Mr. MacDonald to become a minister of a Congregational church, it acted beyond its powers, for the moment Mr. MacDonald admitted his Richmond congregation to take up work as minister of the Congregational church, he ceased to be a minister of our church and a member of that Presbytery.

The trouble that has arisen in St. Andrew's church is very regrettable, and the main difficulty seems to be that Mr. MacDonald was not settled in spite of all rules and order which the Presbytery of Miramichi refused to do.

E. E. HOWARTH, Clerk of Miramichi Presbytery.

Matapedia, Nov. 26th, 1914.

Editor "Graphic":—

Isn't it time that some one was looking after those men who have been camped in the woods, all along between Millstream and Flatlands, for the month past? They act in a most mysterious manner, changing their camps frequently, and stealing from people, but, strangely enough, only stealing food and clothing—or, as one would suppose, only supplies to keep them going while their work is being done. If they are ONLY thieves, they should be looked after, or else our laws are worth very little. Such a state of affairs would not be tolerated in a more progressive community. Perhaps Chief Hughes thought he had fulfilled his whole duty when he came up to Flatlands, took a look at one of their camps, and went peacefully back to town. Why, in Heaven's name, don't they send out a posse, to scour the woods, find them, and try to find out what they are really doing? We are at war—that fact seems hard to impress on the Angle-Saxon mind. These men may be making a map of the country, they may be getting ready for a raid—we are very near the Maine border. Everyone seems to say, "Why doesn't some one else look after and children to protect, will take some measures to disclose who these people are. If they are ONLY thieves, they can at least stop their thieving. Surely, we are a laughing-stock for taking things easy! How long would three or four strangers camp and steal in the woods of Germany, without being looked after?"

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

LETTERS FROM THE FRONT

Mrs. Ferguson has received the following letter from her son Byron.

Salisbury Plains, Nov. 12th, 1914.

Dear Mother—

How is the world using you. Hope you are well. The weather here is getting colder, I think we will be moving into tents before long. It is most uncomfortable when we wake in the morning with our heads half submerged in a pool of water. It rains every day, and the ground is so rocky on Salisbury Plains, that the water doesn't soak in. We are getting floors for our tents, or at least the promise of them, but it is like a kick in the rear end, a fellow can't tell when it's coming. You know there are so many to supply it takes a long time for our turn to come, but no one complains. Oh, this is a great crowd with the exception of a few, and they are tough guys, who used to hang around street corners and talk big, but do nothing. Gee its cold in the mornings now. We have to feed and water our horses before daylight and saddle them. Then we get our own breakfast, then out and mount our horses, and off to drill. Gee mother its great, if it would only stop raining. In the

MOST LIBERAL

CHRISTMAS GIVERS

The big private banking houses of Wall street are the most liberal of givers at Christmas, just as they are the heaviest salary payers throughout the year. The greatest house in the street has been known to give 100 per cent bonus to all employees at New Year's—that is, double pay for the entire year. In that firm New Year's is the greatest day. Nobody has ever explained exactly why it is preferred to Christmas. Often the house gives 40 per cent. But, like other private banking firms, it never lets it get out what bonus it will pay for fear that the size of the gift will be taken by the world to indicate the state of prosperity of the firm's preceding year. Every year the amount of the bonus naturally does not leak out afterward through the people who get pieces of cents from it to all employees at New Year's. So it is that almost everything in Wall street leaks out through the amiable weaknesses of luncheon gossip.

Nineteen volunteers in all signed the roll in these counties, and the men were all smart upstanding young fellows. NEW STEEL BRIDGES

CONSTRUCTED ON I.C.R.

Progressive Policy of Management in Putting I. C. R. in Good Position

By the first of the new year, the I. C. R. will have completed some 165 new steel bridges which are taking the place of the old light bridges all over the system. At the present time four bridge crews are at work installing new steel bridges, and the work is to be continued until the whole system of government railways is in a perfectly satisfactory condition for the handling of heavy traffic with greater dispatch and the utmost safety. When the present management of The People's Railway took charge, a number of bridges on different parts of the line were in a bad state of repair, and the result was a rush order to strengthen them until they could be replaced with heavier steel structures calculated to meet the requirements of the new railway. The replacing of the lighter bridges with new structures from one end of the road to the other, is in line with the progressive policy that has been inaugurated by the present Minister of railways, and the management to make the Intercolonial the equal of any railway on the continent of America.

NOT HIS FUNERAL

It was the kindly custom in the village for the well-to-do inhabitants to make good any loss the villagers might sustain, through the death of any life stock. The retired manufacturer who had only recently settled in the village was ignorant of this laudable proceeding, and was considerably puzzled by the visit of a laborer's wife who explained that she had lost a pig.

"Well, I ain't got it," explained the bewildered newcomer.

"What I mean, sir, of course, the pig died," nervously explained the woman.

"Well, what do you want me to do?" cried the thoroughly exasperated man. "Send a wreath?"

And for all of which we are really truly thankful. "Busy East."

NEW CARLISLE BANGUETS VOLUNTEERS

High Pitch of Enthusiasm in Bonaventure County.—Great Send off to Men

(Special to Graphic)

New Carlisle, Nov. 30th.—The railway station here was crowded on Saturday last with relatives, friends and well wishers, who thronged to bid God speed to ten volunteers, who answering the call of the Motherland, have enlisted with the Second Contingent of the Canadian Expeditionary Force. The night previous to their departure, the branch of the Red Cross Society here, gave a banquet in the Parish Hall in their honor. Covers were laid for twenty-six, including Volunteers, immediate relatives, and some of the most prominent people of the place. While still seated at dinner, short addresses were given to the volunteers by Mayor Blois, Hon. Jean well gathering of a few of Major A. Rev. Mr. Duckland and Rev. J. M. Sutherland, which were replied to by the young men in turn.

New Carlisle, although sorry to part with some of her most promising men, is proud to have contributed so many to the cause.

The young men who left on Saturday were E. Graib, E. Dorso, A. Dawson, B. Allison, C. LeMaitre, T. Blampied, Jim LeQueune, Colin Gilker, Lionel Caldwell and Joe Beaulieu, besides which Francis Maguire and Will Smith left with the First Contingent, and also Miss Ida Smith as nurse, making in all twelve soldiers and one nurse. And still there's more to follow.

The death occurred here on Friday morning of Mrs. Mary Starnes Smollett, wife of the late Digby Smollett. Mrs. Smollett was one of the most respected citizens of this place, and will be sadly missed in the home. She leaves to mourn her loss five daughters and two sons. The funeral took place on Monday from her late residence to the Presbyterian cemetery.

Mr. John H. oberts, Secretary of the Dominion Alliance, was in town on Tuesday on business. He left the following day for Campbellton.

Miss Smith, who has been the guest of her aunt, Mrs. Sherar, left on Wednesday last week for Montreal.

Mrs. G. Maguire, who has been visiting in Quebec city for the past two months, returned home on Saturday.

Miss Leora Smollett at present of Maria, came home on Saturday to attend the funeral of her grandmother. Owing to the sudden death of her mother, Mrs. Cates, of Montreal, returned home on Saturday.

Wakem Sherar and Miss Grenier, both of this place, were united in marriage in Campbellton on Tuesday of last week.

In the last report it was drawn to Councillor Goss attention, that the charge for drying hose, was not in accordance with the agreement entered into by the Firemen with the Council. When the schedule was arranged with the Council, it was agreed that there would be no more charges for drying hose and repairs to engine, etc.

However, as it was felt that this work was done and the man was leaving as a volunteer, it would be a hardship on him, the charge was allowed to pass.

After questions on streets and lights put by Councillor McLean, had been answered by Councillors Paterson and His Worship, the Council adjourned.

HE BOUGHT A SAW

Down in Alabama some time ago a man went into a store to buy a saw. He saw the kind he wanted and asked the price. It was \$1.65, the dealer said.

"Good gracious," said the man; "I can get the same thing from the mail order house for \$1.35."

"That's less than it cost me," said the dealer; "but I'll sell it on the same terms as the mail order house, just the same."

All right," said the customer. "You can send it along and charge it to my account."

"Not on your life," the dealer replied. "No charge accounts. You can't do business with the mail order house that way. Fork over the cash."

The customer complied.

"Now, two cents postage and five cents for a money order."

"What?"

"Now, two cents postage and five cents for a money order, to a mail order house, you know."

The customer, inwardly raving, kept to his agreement and paid the seven cents.

"Now, twenty-five cents for expressage."

"Well, I'll be—," he said, but paid it, saying: "Now, hand me that saw and I'll take it home myself and be rid of this foolery."

"Hand it to you? Where do you think you are? You're in Alabama and I'm in Chicago, and you'll have to wait two weeks for that saw."

Whereupon the dealer hung the saw on a peg and put the money in his cash drawer.

"That makes \$1.67," he said. "It has cost you two cents more and you have to wait two weeks."

BUSINESS AS USUAL

MANY ACCIDENTS

MARK LUMBERING

One Man Hurt on Saturday Did Not Reach Hospital Till Wednesday.—All Doing Well

The lumber business this year is taking more than its usual toll of the men. One physician was heard to remark that he could not remember when he had so many calls for accidents as he has had so far this year.

Among the recent injuries received was that to Thomas Belanger, working for the Chaleurs Bay Mills Co., in Quebec just across the New Brunswick line. Belanger had his hand almost severed from the wrist by a fellow workman who struck at Belanger, reached his hand for the tree. It was at first feared that the hand could not be saved, hopes are now indulged however that it may be spared.

Another victim is that of Rudolph Maltis who while working on the Kedgewick accidentally struck the axe into his foot completely severing the toes. Though the accident happened on Saturday he did not reach the hospital in Campbellton till Wednesday, many miles having to be traversed on a wooded.

Another unfortunate was Napoleon Alonson upon whom a tree fell fracturing his leg while working for Andrea Mishoud, contractor on the Tobique. Alonson was brought into Campbellton on Friday evening, the 27.

BAD WATER

Many citizens were complaining this week regarding the taste of the drinking water in town. The water department explained that this was caused through a large area being added to Smith's Lake, which was lately cleared, and the taste is coming from the vegetable growths on the land. The water being so very high, the overflow has been running to the town reservoir, but this taste in the water, which is harmless and purely vegetable, will disappear in a few days.

KING'S COLLEGE

STUDENT'S ENLIST

Supporters of King's College will be proud to know that eight more men signed on as privates from this institution last week. Amongst the number were Mr. G. B. Murray, son of the Premier of Nova Scotia, and Mr. George Harley, son of Professor Harley of King's. Including those who went with the 1st Contingent and four chaplains, twenty-three are now serving in King and Country at the front.

Supporters of King's College will be proud to know that eight more men signed on as privates from this institution last week. Amongst the number were Mr. G. B. Murray, son of the Premier of Nova Scotia, and Mr. George Harley, son of Professor Harley of Kings. Including those who signed with the 1st Contingent and four chaplains, twenty-three are now serving King and Country at the front.

SUBSCRIPTIONS

TO PATRIOTIC FUND

Now Over \$5000 and More Still to Come in.—County Lists Yet to Come in

The subscriptions to the Patriotic Fund are much smaller this week, but the amount should be greatly swelled by the county lists, which ought soon to be coming in now. The sum collected in the town is now well over \$5000, and there are still a few subscriptions to be received. The Graphic again brings this fund to the notice of their subscribers, and any amounts sent in to this office, will be gratefully acknowledged and handed to the proper authorities.

WHIST PARTY

On Tuesday evening, a Whist party was given in the council chambers on behalf of the Hotel Dieu. About 30 tables were engaged, and a most enjoyable evening was spent. During the evening the ladies served refreshments. The prize winners were: Ladies first prize, Mrs. Hogan; Booby prize, Miss Dufour; Gent's first prize, Mr. Renaud; Booby prize, Dub Sullivan.

NOT PROFICIENT

A member of an athletic club, after swimming the length of a large tank in the basement of the institution came out puffing and blowing and apparently exhausted.

"You don't manage your breathing right," said the swimming instructor. "It ought not to tire you so. As to the upper part of your body, including your arms, you use exactly the same muscles and in very much the same way in swimming as in sawing wood."

"No I don't," gasped the swimmer, "when it comes to sawing wood I use the muscles of some other man."

NO TRACE YET

Judge Matheson is still conducting the investigation at the Kedgwick into the disappearance of Mr. John Dawson, but so far no trace has been found of the missing man.

CARD OF THANKS

Mrs. J. F. Andrew desires to thank her friends for the kindness and sympathy shown her in her recent sad bereavement.

DECREASE OF CRIME IN ENGLAND

Due to Reduction in Number of Hours Saloons May Stay Open

The falling off of crime in this country since the beginning of the war has been truly remarkable as compared to three years ago. There has been a diminution of thirty per cent in indictable offences said Justice Robert Wallace today in charge of the grand jury.

The Justice explained that he attributed this decrease partly to public restraint in war time but principally to the reduction in the numbers of hours saloons are permitted to stay open. "The effect of this," said the Justice, "has been truly wonderful."

SOCIETY OBSERVES

ST. ANDREW'S NIGHT

Caledonian Society Hold Enjoyable Smoker on Monday Evening.—Officers Installed

Last Monday, St. Andrew's Day was duly observed by the Caledonian Society of Restigouche by their holding a smoking concert in the Council Chambers, Water St. The retiring President, Mr. A. D. MacKendrick, presided over a goodly number of members. Music and conversation were indulged in, and about ten o'clock, the chairman installed the officers for the ensuing year, Judge McLatchy as President and Mr. Thos. Busted as Vice President.

Both these gentlemen returned thanks in short speeches, after which a most enjoyable impromptu program was gone through, taken part in by Piper H. M. McLennan, Messrs. H. R. Smith, H. W. Ferguson, Thos. J. McDevitt, Frank McCallum, and G. A. Mesereau. Mr. Smith's reading of "Hoch Der Kaiser" was greatly enjoyed. Mr. Smith's impromptu verses to Canada and Australia tickled the audience immensely.

During the evening congratulatory messages were read from Frederickton and St. John Societies.

In the course of the President's address, he mentioned that owing to the abnormal condition of affairs prevailing during the war, it was thought well to dispense with the St. Andrew's Day Banquet this year, and it was resolved that each member of the Society be assessed the sum of \$1.50 in addition to their yearly dues of \$1.00, which sum would be forwarded to the Prince of Wales Fund in the Old Country, with instructions that this amount should be disbursed among the families of poor and needy Scotsmen. The entertainment then closed with the singing of "Auld Lang Syne" and "God Save the King".

MARK TODAY'S NEWS

Large Re-inforcements Received by German in Western Front. Servia in Desperate Plight

(Special to the Graphic)

Paris, Dec. 2.—Heavy cannonading by Germans, with vigorous reply by allied guns marked the fighting in the region between Ypres and Arras today. Allies continued to press their offensive south of Laon, but only slight progress is reported. Both French and British armies are preparing for new attempt of Germans to drive their way through strongly entrenched line to coast. Upwards of six hundred thousand Germans are declared to be on front from sea to Ypres.

Heavy reinforcements are reported south of Ostend. During the last few days 160,000 German reinforcements are reported to have arrived. Apparently the concentration on the west may prove to be a feint. Full force of renewed attack may fall within Yser region. Fresh troops of second British army relieved the French in this district in anticipation of new drive. German attack along coast has been resumed and fighting is also in region south of Ypres.

Official communique today declares there are lively cannonading both at Nieuport and in Ypres region. Germans are again being flooded out about Dixmude. Inundation by opening of dykes is now extending south of Dixmude. Communique states Aix Noullet was violently bombarded. Slight progress was made in Argonne, where several attacks of enemy were repulsed.

Petrograd, Dec. 3.—The failure of the Russian forces to envelop the German army in vicinity of Lodz, and the determined offensive taken by Kaiser's army in fighting its way out of corner into which it had been driven, placed the Russians in serious position for a time. This, it was evident today, made necessary the reforming of the Russian centre in Poland. There has consequently been a lull in fighting, but forces of Grand Duke Nicholas are now declared to present solid front and are prepared to press vigorous attack.

London, Dec. 3.—The capture of Belgrade by the Austrians has created a serious state of things in Europe. Servia is now appealing for assistance to Great Britain, France and Russia. Opposed to Servian army, estimated at about 200,000, are probably half million Austrians. The Servians are also badly in need of equipment. Drained of men and money by Balkan war, Servia entered present conflict in a crippled condition and her complete subjugation by Austrians appears inevitable, unless assistance is given.

King George of England, who has been visiting British lines in Flanders, went out to firing line today, according to telephone message received this afternoon by Evening News from Calais.

ton School, later as a student at U. N. B. Fredericton, where he graduated with the M. A. degree. He was afterwards a teacher on the Campbellton school staff, then principal of Harkins Academy, Newcastle, later was a teacher in St. John schools, at which city he studied law, and successfully passed his law examinations with the degree of B. C. L., since when he had successfully carried on his practise in Campbellton, and had built up a large practise. For the last fifteen years Major McKenzie had taken a deep interest in all militia matters, and it was greatly to his efforts that the 73rd regiment was brought to its present high state of efficiency. He brought the qualities of leader of men into play with much tact and ability, and received the respect and admiration of the men of his regiment. Only a few days ago he had taken a trip down through the County of Bonaventure, and had returned with nineteen volunteers.

Major McKenzie was going with the second contingent as second in command of the New Brunswick Regiment, and it was a credit to him and a testimonial to his merits, and the town of Campbellton, the County of Restigouche, even the whole of the North Shore were proud of the honor done him.

In concluding His Honor, said that Major McKenzie carried with him the best wishes of everyone, knowing that he would give a good account of himself, and return to them covered with honor and glory. The friends had turned out in large numbers to bid him farewell, but this was nothing to what it would be when they turned out to welcome his return. He then presented Major McKenzie with a beautiful wrist watch.

His Honor's speech was frequently interrupted by bursts of cheering, and Major McKenzie was greatly touched by the warmth of his reception. His Honor then addressed Capt. Ferguson and presented him with a wrist watch and said that although Capt. Ferguson had not yet received his appointment, he was sure that he would also be with the officers in the second contingent. Capt. Ferguson had done his part, and if he did not go with the second he would be there for the third contingent.

Owing to the absence of Lieut. Mowat at St. John, His Honor extended the feelings of the meeting to the worthy father, (Mr. Max M. Mowat) of a worthy son, and presented him with a wrist watch in token of the esteem of their friends here.

Major McKenzie, Capt. Ferguson and Mr. Max Mowat briefly replied thanking the friends for their kindness, Mr. Mowat handing the watch to Major McKenzie for his son, and asking to express to him the sentiments of the gathering.

Interesting speeches were also given by Capt. A. T. LeBlanc, W. W. Doherty, Archd. McKenzie, and David Champoux, all of which were splendidly received.

Mr. Doherty's remarks were rich and to the point. He said "Britain has all the ships she needs, Britain has all the money she needs, Britain has all the land she needs, but she needs more men, and Major McKenzie goes to fill the bill."

Mr. Archd. McKenzie, the father of Major McKenzie, was received with tumultuous applause, the audience standing and cheering to the echo. In his own dry humorous way he said that he felt his oldest son was doing

his duty, he wouldn't be a Scotsman if he didn't. If there was a scrap on, a Scotsman was sure to be in it.

The speeches were all of a high order and expressed the feeling that this was perhaps the best thing for Canada, which was bringing all races, all creeds and all classes, into one large brotherhood, "Canadians all." During the evening, Mr. Harry R. Smith delighted the audience with "Hoch Der Kaiser", which brought down the house. Light refreshments, tea, coffee, sandwiches and cake were served, after which the gathering dispersed.

This department is conducted by the local Union, and is under the charge of an editor appointed by them. This Editor assumes the responsibility for the statements and articles which appear in this column.

At the regular meeting of the Union on Nov. 24th, Rev. Mr. Squires addressed the members. His subject was "Woman's Place in the fixing of Ideals," and the address was listened to with careful attention by the members present. One important point which he made was, that one should be careful to have only the best ideals, as low ideals exercise as great weight in determining conduct as higher ones, ideals of wisdom, courage, and temperance. Woman's work is educational, and calls for sacrifice. We should not be easily discouraged, for nothing is lost.

At the conclusion of the address, a vote of thanks to the speaker was moved by Mrs. D. C. Firth, seconded by Mrs. A. Dewar.

The members are reminded that the next regular meeting takes place on Dec. 8th. Mrs. E. Hazelton's name appears as leader; subject, "Women who have helped to make the world better." Owing to Mrs. Hazelton's absence from town, some change will be necessary.

BAR-ROOM PUPILS

Some of our Canadian soldier boys are coming home in disgrace. They would probably have given a good account of themselves if they had faced the foreign foe. They were caught in the ambush of a liquor traffic, licensed by the laws of the nation which they were ready to risk their lives to protect. It is a sad commentary upon the weakness of humanity, the folly of legislators, and the heartless, degrading treason to the welfare of the community, which the liquor traffic embodies.

As usual the traffic has ready a lying explanation of the mischief it has caused. We are told that the enforced restraint of teetotal camps led to a reaction when the restrained young men were brought into contact with temptation. The old sophistry

DEATH PREVENTED HIS MARRIAGE, BUT HE LEFT FIANCEE \$250,000

The accompanying photograph shows Miss Bertha Bates, of St. Louis, who received \$250,000 from the estate of her fiancé, William R. Donaldson, Jr. She is a descendant of one of the first families of Missouri and is a granddaughter of Edward Bates, Attorney General of the United States in President Lincoln's Cabinet, and lives with her mother, Mrs. Charles W. Bates, a widow. The family was prominent in St. Louis during the days of the civil war. Mr. Donaldson was burned while cleaning his automobile after taking Miss Bates home from an outing on October 12. He died soon afterward. Miss Bates was hurried to his bedside and fainted when she saw his condition. It was arranged for them to marry that night, but the deathbed wedding was postponed until the following day, when it was thought Mr. Donaldson would be stronger. He died that day.

PENINSULA, P. Q.

In vain have I looked through the Graphic for an item from this place, but always failed to find even a "Bon jour," hence I will endeavour to let people know that this little Peninsula, the place of rest, is still in existence. The chief topic at present is the I. O. G. T., who with some 120 persons as members, are doing great work.

The meetings are held once a week in the Lodge Hall, where a most enjoyable evening is passed.

One of the worst storms of the season passed over here Friday last, causing quite a lot of damage, owing to the highest tide known here for many years.

Indications point to a very dull winter, owing to the lumber companies not operating as heavily as other years. Mr. Will Arnet has returned home for the winter, and expects daily the arrival of his brother Sydney, who shall be greatly welcomed.

The Red Cross Society held their first meeting at the home of Mrs. John Mullins on Thursday last, where a great quantity of sewing and knitting was accomplished. Let us wish them prosperity in this good work.

"Tipperary" is becoming quite famous here, being sung by all, both old and young, big and small.

Mr. W. A. Miller has had a very busy fall in his store, and we hope it shall continue.

Rumours of a marriage to take place here in the early winter. Well! The Parish Church has the benefit of a beautiful large lamp near the door, which was greatly needed.

Our minds have been greatly delayed owing to the track being washed away in the storm, but let us hope we shall have better service from now on.

This cruel war has certainly made business very quiet, but let us hope the near future that everything will be O. K.

BLACK CAPE

It is with much sorrow that we are called upon to record the death of Mrs. Jeffrey McKenzie, which occurred very suddenly on Sunday morning at 4 o'clock, and which cast a gloom over the whole community. The deceased had not been in the best of health for some time, but of late she had been feeling better, and had been able to drive out, and had retired that night in her usual good health. She was only 26 years of age, and was much thought of by all who knew her. She was the eldest daughter of Mr. and Mrs. John Fairweather of this place. She leaves to mourn her loss a husband, two sisters, Rhoda and Gertrude, four brothers, Clement, Philip, Claude and Scott, besides a large number of relatives and friends. The funeral will take place on Wednesday at 2 o'clock. Our minds have been greatly delayed owing to the track being washed away in the storm, but let us hope we shall have better service from now on.

This cruel war has certainly made business very quiet, but let us hope the near future that everything will be O. K.

WHEN YOUR SICK

YOUR WAGES STOP

You know what that means—misery—worry—big bills—debt!

You know you can't afford to get sick. Keeping in good health means food and clothing for you and your family. It is up to you to take care of yourself. It is up to you, whenever you don't feel right, to take something to make you right, to strengthen you, build you up, ward off worse sickness—protect you and your family. That thing we have in Rexall Olive Oil Emulsion. In offering it to you, we protect you against money-risk, by personally promising you that, if it does not restore your health, we will give back your money without word or question. It is the best builder of health, energy and strength you can get. It is helping many of your neighbors. If it don't help you, we will give back your money.

Rexall Olive Oil Emulsion is composed principally of pure Olive Oil and the Hypophosphites. Each has long been endorsed by successful physicians. Here they are for the first time combined. The result is a remarkable remedy that is both food and medicine. For all who are nervous, run-down and debilitated—no matter what the cause; for old people; for convalescents; for puny children, we know of nothing that will give health and strength as quickly as Rexall Olive Oil Emulsion. It is a real builder of good blood, strong muscles, good digestion. Pleasant to take. It contains no alcohol or habit-forming drugs. If you don't feel well, economize both money and strength by beginning today to take Rexall Olive Oil Emulsion. Sold only at the Rexall Stores, and in this town only by us. \$1.00.

Thos. Wran, druggist.

SEAL COVE

Last Friday we were visited by one of the worst storms of recent years. Nearly a foot of snow fell and accompanied by a heavy gale of wind, drifted to a great depth in many places. A heavy sea was running, causing a great deal of damage to the fishing boats, these being torn from their winter quarters, and broken along the beach.

The bridge at Seal Cove was damaged by loose timbers in the river, and the railway communication was interrupted for two days.

Of course, prohibition does not prohibit. And yet, do they really sell as much in your town on Sunday as they do on Saturday?

Have you Catarrh?

Is nasal breathing impaired? Does your throat get husky or clogged?

These symptoms result from run-down health. Snuffs and vapors are irritating and do not cure.

The oil-food in Scott's Emulsion will enrich and soothe the throat, and check the inflammation and heal the sensitive membranes.

Shun Alcoholic mixtures and insist upon SCOTT'S.

There is a Rexall Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Rexall Emulsion for nearly every ordinary human ailment—each especially designed for the particular ailment.

The Rexall Stores are America's Greatest Drug Stores.

PORT DANIEL

A very pretty wedding took place here at 10:30 a.m. Wednesday, November 25, in St. James Church, Rev. A. T. Love officiating. The bride, formerly Miss Della Sullivan of Port Daniel, was beautifully dressed in a gown of Copenhagen blue satin-de-Chene, with coral trimming. She was attended by her sister, Miss Nellie Sullivan, who was given in navy blue palmette silk. The groom, Mr. Philip N. Swetman, also of Port Daniel, was supported by his cousin, Mr. George Acton of Gascons. The newly-married pair left the church amid showers of rice, after the congratulations of their many friends, who had gathered to witness the ceremony.

LITTLE PABOS

Mr. C. Elliott paid us a flying visit on Sunday, accompanied by Messrs. C. and E. Sutton.

Mr. G. Murray spent Sunday afternoon the guest of Miss E. Sutton.

Mr. and Mrs. D. Jones are receiving congratulations on the arrival of a baby girl.

A very pleasant evening was spent on Saturday, Nov. 21st, at a box social held in the school at Little Pabos East, dancing and card playing being the chief amusements. The proceeds are for the patriotic fund.

Much sympathy is felt for Mr. and Mrs. M. Jones on the death of their baby girl.

Misses L. and B. LaTerre spent Tuesday afternoon with Miss M. A. Sutton.

LORD KITCHENER SAYS:—

"To the People of the Empire:—Every Fighting Unit We can Send to the Front Means One Step Nearer Peace"

WHO WILL VOLUNTEER TODAY FOR OVERSEAS SERVICE HERE ARE THE CONDITIONS

Recruiting for the New Brunswick Regiment Must be Completed Within Ten Days

THE VOLUNTEERS

THE PERIOD OF ENLISTMENT is for the duration of the war and for six months after termination is required.

THE RATE OF PAY is \$1.10 per day and found for seven days a week, equal to \$33.00 per month.

IF DISABLED, the soldier will receive a pension at such rates as may be fixed by the Government.

IF WOUNDED OR ILL, the soldier will be well cared for and sent back to his home at the proper time.

THEIR FAMILIES

SOLDIERS MAY ASSIGN any portion of their regular pay to wives or others, and such sums will be paid regularly to the persons so designated.

WIVES OF VOLUNTEERS will receive twenty dollars per month separation allowance from the Canadian Government over and above the soldiers pay.

THE PATRIOTIC FUND will supplement this with an additional allowance as described hereafter. **SHOULD ANY OF THE SOLDIERS BE KILLED**, their wives and children will become wards of the Canadian Government, and generous provision will be made for them.

The National Patriotic Fund Committee has decided on a basis of distribution of funds among the wives and children, and other dependents of volunteers. It is estimated that a wife on her own account requires Thirty Dollars Per Month for her maintenance. The Canadian Government provides Twenty Dollars per month of this amount and the Patriotic Fund the remaining Ten Dollars, if required. Children between ten and fifteen years of age are allowed twenty-five cents per day; from five to ten years of age, fifteen cents per day; and under five years of age, ten cents per day. Thus a wife and three children of the ages of three, seven and twelve, may receive a total monthly allowance of Forty-five Dollars, of which Twenty Dollars is payable by the Canadian Government and Twenty-five Dollars by the Patriotic Fund. This is of course in addition to the Thirty-three Dollars per month paid to the soldier, and which may be assigned by him to his family.

Besides the above, provision is made for a compassionate allowance for temporary extraordinary need such as accident, sickness, etc. In short, the whole purpose of the Patriotic Fund is so to supplement the Government allowance as to provide all reasonable comfort for the families of men on service. Such provision, in each individual case, is subject to the report of local committees, who shall consider all the circumstances of families affected, with respect to the earnings of members of such families, amounts received from former employer of the soldiers, and other sources of income.

Every reasonable provision is thus made for dependent relatives, and volunteers need have no anxiety regarding the welfare of those left behind.

PARIS VIEW OF

THE SITUATION

How the War Was Regarded in Paris Two Weeks Ago.—Tensivity of The British

General Joffre—the Kitchener of France—is well pleased with his recent work in the North of France and Belgium, and "he has every reason to do so," declare his countrymen and supporters. The battle of the Yser has been won by the Allies, not without very heavy losses on both sides—the Germans, as usual, suffering the most. The proverbial tenacity of the British, together with the equally magnificent courage displayed by their French and Belgian comrades, and inundation have forced the Germans to abandon their attack towards the Channel ports. The huge sacrifices had to be made on the part of the Allies in order to ensure success; the result has been all that could be desired; not only have the courageous Germans been driven back from the coast in disorder, but the Kaiser's cherished plans to capture Calais and Boulogne, and so get a closer view of the cliffs of Dover, have been completely upset. That the Germans did not get a Channel port was not for want of trying, for thousands of brave men have been hurled to certain death in the attempt, only to finally abandon the Imperial idea. The attack on England was purposely postponed until the battle of the Yser had been decided; now that the Allies have won it, the Kaiser feels terribly depressed, and less ambitious to smash England according to original plans. That the Kaiser—who has lost all human feeling for his men—is personally directing operations in Northern Belgium is an ill-omen, and largely accounts for German defeats and "real disasters" to his troops. His presence has failed to infuse courage in his soldiers, most of whom are too worn-out, demoralized and hungry to offer the necessary resistance. Already reports are being circulated that the Germans have surrendered to the French after shooting their officers; this may well be true, for the men have been driven to it out of sheer despair. When the Germans besieged Liege, they observed that that place would be their grave. Belgium has proved to be, and will continue to be, the grave of thousands of more Germans, before they evacuate that plucky kingdom. From all accounts the common enemy seems to be wearing itself out more and more, while not a few must be getting disgusted and disheartened upon discovering that their Emperor is so great a liar. No enemy, however powerful, in numbers, can hope to win through on such rations and false means of encouragement. The first chapter of the war—to say nothing of subsequent ones—will not finish with a peroration gratifying to the German nation. We know what has happened with in the past few months. Belgium is laid in utter and IRRETRIEVABLE RUIN.

A portion of France has suffered the same fate. Non-combatant humans have been put to the spear, their property and their nation's treasures reduced to ashes, their means of livelihood demolished. The young daughters of a whole nation are the victims of a drunken and bloody vice worse than murder itself. The towns and villages of Belgium and France cannot find room enough to succor the wounded. The appalling crime is greater still when one considers with bowed head, the fate of the thousands of men and mere youths, who have been slaughtered to gratify the greed and devilish pride for power of a satanic monarch. They, side by side with innocent victims, lie in rude and unseparated graves, thousands of huge pits of blood and sacrifice, a mad profession that Europe should be "civilized" according to Germany's culture or super-intelligence. Is the Kaiser beginning to regain his senses? That the Germans are very largely chandoning their former terrorism, paying for stores, and no longer taking hostages in Belgium are significant facts that tend to indicate that the Germans knowing there must be a reckoning day sooner or later, when they will be forced to pay heavily, are now counting the cost of their diabolical campaign. That time is rapidly approaching.

Few countries felt more certain than France did that

TURKEY would "make a fool of herself," and allow herself to be made the tool of Germany. By her mad-brained dash into war, she has signed her own death warrant. She was repeatedly warned by her best friends to remain neutral when she would lose any thing by so conducting herself. The German party in Turkey was too powerful, and she succumbed to its evil influence—a fatal mistake that will cost her Empire in Europe, Turkey's "Turk" apologies were tendered and could not possibly be entertained by the allies, who have already punished her severely. The Kaiser, by utilizing Turkey, cherishes the old idea of making trouble in different parts of the world for the British and Russia. To his surprise, he has found that he has once more committed a very serious mistake; that Britain, France and Russia are directly ready to deal with him.

THE HEAVY TOLL OF WAR is illustrated by Rev. R. J. Campbell, pastor of the City Temple of London, who told the congregation the other Sunday of a dinner given last July in honor of a young man who had attained his majority. Of that gathering all have been killed so far, he said, except one, and that one is thought to be dead.

presented itself for clearing up the whole European map, and leave to coming generations a world freed from the menace of the three incorrigible troublemakers of the peace—Germany, Austria and Turkey—what a wretched trio! The Kaiser must by this time feel convinced that he has done his country or Turkey no good by forcing the latter Empire to go to war. Responsible Turks have only to thank Enver Pasha and his pro-German young Turk party for hurrying their country into suicide. This time Turkey will be driven bag and baggage out of Europe, and there will be no mistake about this on the present occasion. Bulgaria ought to have been allowed to complete her work two years ago. Now that other powers have joined the allies, as the result of Turkey's suicidal move, it is to be hoped that the Kaiser feels happy. Wilhelm II will soon have realized his ambition—that of setting the whole world ablaze. His Majesty must not, however, forget that the bill will be presented to him in due course. "They laugh that win," Shakespeare tells us. Turkey should have thought out the consequences of becoming Potsdam's ally before doing what she has done. Between the allies and adjoining Balkan States, she can consider herself doomed in advance. She is deserving of pity.

Grosgrain faille, crepe, taffeta, satinated silks and cloths, poplins, soft banded striped woollens, serge and novelty materials are used for dresses. The skirts are extremely short for walking and dancing, but evening of men and mere youths, who have been slaughtered to gratify the greed and devilish pride for power of a satanic monarch. They, side by side with innocent victims, lie in rude and unseparated graves, thousands of huge pits of blood and sacrifice, a mad profession that Europe should be "civilized" according to Germany's culture or super-intelligence. That time is rapidly approaching.

When British airmen are able to drop bombs on the Zeppelin factory, the chances of an air raid on London are greatly diminished. It is the possibility even the probability of destroying the danger at its source.

Public opinion is beginning to rebel throughout Canada against openly selling newspapers which are disloyal in the worst form. They are not advocating a change in the system of government, but they are virtually sympathetic with the military movement to destroy our existence as a free country. These publications are absolutely maliciously hostile to the

That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. Britain. The Montreal newspapers have been doing a good service by directing the Government's attention to the fact that newspapers were exposed in that city upon the newsstands which vilified the British cause and the British people. The Government now finds itself driven by public opinion to stamp the evil out. Newspapers naturally uphold a free press, but when publications act as if they were subsidized by agents of the very power which has its hands upon the throat of the British empire to strangle it, it is not the time to discuss an academic question, but rather one of decisive action. There are some papers like The Saturday Evening Post and The Literary Digest, which are doubly dangerous, because pretending to be impartial they publish maliciously untrue statements about the motives and actions of the British authorities in this world's crisis.

The heavy toll of war is illustrated by Rev. R. J. Campbell, pastor of the City Temple of London, who told the congregation the other Sunday of a dinner given last July in honor of a young man who had attained his majority. What's the Use of Missing So Much Pleasure that you Could Have?

YES, you can live without music and brightness and happiness and friends. But why should you, when these things cost so little and mean so much?

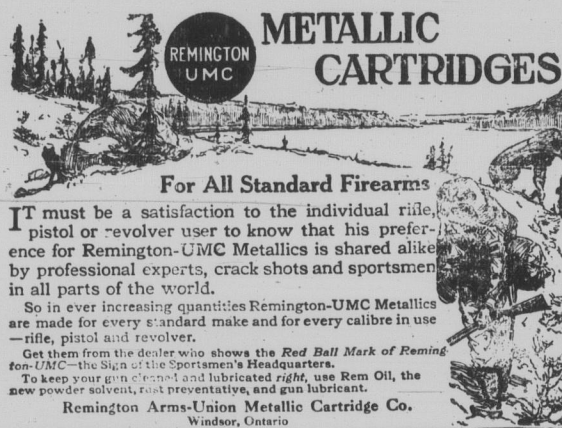

Lots of people, who said they "could do without an Edison Phonograph" before they owned one, now say they "could not do without it"—it has brought so much pleasure into their lives.

The Edison appeal is universal. To those who love good music—to those who enjoy most the old airs—to those who prefer instrumental music—to the younger set and even to the children—the Edison is a daily source of pleasure and recreation.

And the prices for Edison Phonographs and Edison Records are so moderate—the variety is so great—that there can be no question as to our ability to suit you. What's the use of missing so much pleasure? Get

A London cable in an American newspaper, which has not the reputation of being particularly friendly to the British empire, states that Great Britain is getting its second wind in its war organization, and is settling down for a two years' war. The writer (Mr. Sydney Lacelles) says does not say so, but it is the old story that Lord Kitchener is planning the organization of the largest army in the world's history and that Great Britain will in less than a year have under arms to maintain the integrity of her empire no less than 12,000,000 fighting men instead of the 1,200,000 now being drilled. He says that in India, the most powerful princes, aided by British drill sergeants, are actually organizing 7,000,000 men for fear of contingencies. The self-governing

SHE ENDEAVORED TO PLEASE HIM

"Do you like it?" inquired the man's wife, twisting her head about. The man regarded her with the helpless expression that masculinity is always reduced to when considering styles.

"I know what he means now!" the man burst out at length, relevantly. "At the time I couldn't understand, but now I see—I heard a man say that the new style of hairdressing made a woman look like a cat with its ears tied back! That's just it! It's it exactly! It—"

"You can stop your chant," said the man's wife in an offended tone. "I deduce that you don't like it! Well, let me tell you, Howard Arthur Bops, that I paid one good dollar to get my hair dressed this way, and it's the way every one is wearing her hair, and it's stylish and you've got to like it! Haven't you noticed?"

"Well," admitted the man slowly, "seems to me that I have for some time now been wondering what had happened to the scenery. Of course I noticed that their ears were showing scandalously, and then I did wonder why they fixed their hair to look as though somebody had poked it back and nearly pulled it out by the roots and wadded it up way back on the tiptop of their heads! Is that really the style?"

"It certainly is!" said his wife. "And when you get used to it it has an air of its own!"

"I guess so," admitted her husband sadly. "Only women never looked so sweet as when they curled it all around their faces and fluffed it loose, and, oh, you know how! They look so queer nowadays!"

"I suppose," said his wife indignantly, "that you don't like this dress, either? I bought it last week!"

"Did you?" asked the man. "Couldn't you get away? Or maybe they chloroformed you! Amelia, tell me honestly, didn't women look nicer when they were gently flowing garments that swished around their feet that you couldn't see, and that covered up their chests and protected their spinal column from the blasts of a cold, censorious world? What is style against really artistic clothes with real beauty in their lines? Why, when I look back and remember how sweet you looked then it doesn't seem possible that you are you, now! That dress you have on this minute resembles a dancing dervish's skirt, worn over a salt sack around your ankles—and I'd hate to say what the waist looks like. I can't see enough of it to describe it! Did you really part with good money for that?"

"How you women do need a strong, protecting hand to guard you every minute! I've not doubt the clerk who sold you that garment received enough bonus to retire on for the season for getting rid of a lithero unsaleable atrocity!"

"You don't want me to look like a frump, do you? That's what I'd be if I didn't follow the styles!"

The man sighed. "How foolish women are," he meditated. "Why can't they realize how much better they would look in sensible clothes such as I have described! How much more attractive they would be, and appealing to the masculine eye! I certainly would be proud if my wife showed that she was sensible enough and independent enough to abandon freak dressing and—er, where are you, Amelia?"

The man granted with disapproval when he found she had indeed vanished. He considered it rather rude of her when he was getting along so swimmingly in his oration.

For half an hour he read fitfully, still wondering. Then there was a cough at the door and he looked up. He started and his eyes bulged.

Under a huge pompadour that dripped with curls his wife's face shimmered at him. A hat so big that it touched the door jambs towered above her skirt five yards around the hem filling part of the door and her eyes that of an hour—high color—

WAR COURAGE

MANY a man in Canada, willing to go a-warring across the seas, is unwilling to fight at home—against the shadowy toes or bad times or of business depression.

This is a time in Canada when Canadian business men should fight—fight to capture new trade and to hold old trade. To stop one's advertising is to withdraw a powerful offensive and defensive force, and to expose one's business without a guard.

If the courage of manufacturers, wholesalers, retailers—the generals and captains of trade and industry—fails, the courage of the nation will ebb.
