European Intelligence.

The steamship Arctic arrived at New York on Sunday night, at 11 o'clock, with 176 passengers, among whom was Madam Sontag and several distinguished vocalists. Liverpool dates are to the 25th ult. The Europa arrived at Liverpool on the morning of the 22d.

The Cotton market was steady. Flour remained without any material change.

During the week, to the 22d, ten ships, including the Great Britain steamer, of the aggregate of 9960 tons, sailed from the port of Liverpool for Australia, with 3000 immigrants.

On the night of the 23d, at 11 30, M. J. R. Hill discovered another planet, being the sixth he has discovered within the past five years. The new one is in the constellation Aquarius, and can be seen with a telescope of ordinary power.

Three arrivals from Australia, brought 30,278 ounces of gold, and reported another ship due with 15,464 ounces.

FRANCE.—The French Minister for Foreign Affairs has signed two treaties with the Belgian Plenipotentiary. The first was reciprocally guaranteeing all property in literary works and works of art; the second making certain modifications in the Customs Tariff.

PORTUGAL.—Oporto letters are to the 20th August, and state that the shipments from that port were almost entirely suspended in consequence of the expected reduction and equalization of the export duty on wines. Several vessels loading for ports in the United States were detained from the same cause and could not get cargoes. Matters would be still further affected by the ministerial changes in the capital. Garat, Minister of Foreign Affairs had resigned, and there were rumors of other modifications. Application had been made to the Cortes by the people of Madeira, praying them to grant permission for the free growth of tobacco in that Island, as the grape crop had entirely failed.

LATER FROM CALIFORNIA.

NEW ORLEANS, Aug. 4
The steamship Daniel Webster arrived here to day from San Juan Nicaragua, with 11 days later intelligence from San Francisco.

The steamship Northern Light left San Juan on the 29th August, with 250 passengers.

The California News possesses several features of interest, the most cheering of which is the announcement of the safety of the clipper ship Staffordshire, which arrived at San Francisco, after a passage of 100 days from Boston.

Magnificent funeral obsequies in honor of Henry Clay had taken place at San Francisco. Five hundred Chinese were in the procession.

The Hon. Edward Gilbert was killed in a duel with Gen. Deaver at San Francisco. The mining intelligence, owing to the dryness of the season, is less favorable, but rich discoveries of gold have been made on Klawatte, Salmon and Rogue rivers.

The steamship Black Warrior arrived at Mobile yesterday, from New York, via Havana. She brought the publisher of the revolutionary paper in Havana, who made his escape in disguise. He is now in New Orleans.

WOODSTOCK.

In a late number of the "Halifax Wesleyan" the following description of Woodstock, N. B., is given by a correspondent, of one of its exchanges. The picture is by no means overdrawn, as much more might have been written respecting the delightful scenery, fertile land, luxuriant crops, and hospitality of the inhabitants of the flourishing town of Woodstock, and vicinity. The writer says:—I have traversed many a river in North America, but the quiet beauty of the St. John is, in my opinion, unsurpassed; its character is placidity and cheerfulness, highly in keeping for the relief to the labourer induced by the July atmosphere of Fredericton. Farms are making and settlements progressing on the banks of the river, but slowly; too slowly for the length of time elapsed since the hardy pioneers of our Province first located their homesteads on the verdant banks of the noble stream.

Skirting the luxuriant banks as the river flowed through the fruitful County of Carleton, we at length arrived at Woodstock—whose white buildings showed prettily amidst the green shrubbery. The pleasantly situated Hotel of Mr. Balloch stood invitingly at hand while the kindness of its urbane landlord, showered his attentions on his guests with independent heartiness, as might a private host anxious for the accommodation of his visitors, his profit notwithstanding in competition with the comfort.

Woodstock is a rising village, fast increasing in importance, with every indication of present prosperity; many of its buildings are elegant, that belonging to one of its enterprising men to whose energy Woodstock is much indebted, might content the most fastidious, as impression on strangers is the conviction that our successful New Brunswick merchants can lodge themselves with equal elegance and taste as the wealthy British landholder of a many quartered eschusion; the kindly hospitality of the gentleman and the liberality of his establishment is in keeping with the means he possesses of displaying these qualities, and proves that fortune was not blind nor Providence unkindful of the good of others when he crowned his energy with success and smiled on his go ahead career.

The ladies of the family also, by their kindly and polite demeanor, and the cordiality of their reception, render the mansion delightful to visitors, and cheer the fatigue of the traveller who is fortunate enough to be introduced there, while they also largely dispense the blessings of Providence to all who stand in need, while the very children seem impelled by like cordiality. Many families abound in New Brunswick, and be equally successful.

BY LAWS

OF THE
CHARLOTTE COUNTY AGRICULTURAL SOCIETY,
Adopted at the Annual Meeting.

1st.—An annual subscription of five shillings shall constitute a Member, or a donation of two pounds ten shillings a Life Member.

2d.—The business of the Society shall be committed to, and be under the direction of the President, or in his absence the Vice-President, or either of them with the Treasurer or Secretary, and five Committee Men, so that there be five present, who shall in future form a quorum, and are authorized to transact the business of the Society at all Quarterly Meetings, and at special meetings.

3d.—The meetings of the Board shall be held at Saint Andrews, quarterly, to wit: on the second Tuesday in April; the second Tuesday in July; the second Tuesday in October, and the second Tuesday in January, (being the anniversary,) in each and every year; but a meeting of the Committee previously named may be called at any intervening period, at the requisition of five Members thereof, one of which shall be the President or one of the Vice Presidents; at all of which Meetings any Member of the Society may attend and speak upon any question under consideration, but only Members of the Board of Direction shall vote thereon, except at the Anniversary Meeting when all Members present shall be entitled to vote.

4th.—Any person who shall refuse or neglect to pay his subscription, on or before the Quarterly Meeting in October in each year in advance, shall not be entitled to vote for officers at the anniversary meeting ensuing, or to be elected an officer of the Society.

5th.—All donations of money shall be received as a special fund, and be put out at interest by the Treasurer, on good and sufficient security, in the Corporate name of the Society; the interest to be demanded half-yearly, and to be applied to the general purposes of the institution. No part of the principal to be used, except under some pressing emergency; when three-fourths of the Members present at the anniversary meeting, shall concur therein.

6th.—The particular object of any donation shall be strictly attended to.

7th.—No monies shall be paid for any purpose by the Treasurer, without an order in writing signed by the President, or in his absence by one of the Vice-Presidents, and countersigned by the Secretary, under the direction of the Committee of Management.

8th.—The premiums to be given shall be awarded by three Judges, who shall be appointed at the discretion of the committee at any quarterly meeting. The time and place for holding Cattle Shows and other exhibitions, to be appointed at the same time, and public notice thereof given by the Secretary.

9th.—The Secretary shall be exempt from paying any subscription, and shall receive such further compensation as the Society at their annual meeting may determine.

10th.—Any Member of the Society may propose a new rule, at the anniversary meeting; provided he has first given notice thereof, and left a copy at a quarterly meeting preceding; and if approved of at the said anniversary meeting, it shall be added to the by-laws.

11th.—A Report of the proceedings of the Society, to be drawn up by the President and Secretary, shall be exhibited at each anniversary meeting; and also the Treasurer's accounts; the said accounts having been previously audited and reported upon by three members of the Society, not being of the Board, appointed at the October quarterly meeting preceding each anniversary.

12th.—The Secretary shall keep a book in which the names of all the members shall be inserted; with columns showing the yearly payments and non-paying members.

13th.—The Treasurer of the Society hereafter to be chosen, shall give a bond with two sureties to the Society in such reasonable sum as shall be deemed sufficient by the Board of Direction for the due performance of the trust reposed in said Treasurer.

14th.—Each member of the Society shall be furnished with a printed copy of the foregoing By-Laws.

15th.—All former By-Laws, Rules and Regulations of the Society are hereby discontinued.

A LONDON PARLIAMENTARY REPORTER.—Proby had never been out of London, never in a boat, never on the back of a horse. To the end of bag-wigs he wore a bag; he was the last man that walked with a cane as long as himself, ultimately exchanged for an umbrella, which he was never seen without in wet weather or dry, yet he usually reported the whole debates in the Peers from memory, without a note, for the Morning Chronicle, and wrote two or three novels, depicting the social manners of the times! He was a strange feeder, and ruined himself by eating pastry at the confectioners' shops (for one of whose scores Taylor and I bailed him); he was always in a perspiration, whence George Colman christened him "King Porus!" and he was always so punctual to a minute, that when he arrived in sight of the office, the remark used to be, "There's Proby—it's half past two; and he never let his watch. If ever it came to right, I cannot tell; but if you asked him what o'clock it was, he would look at it, and calculate something after this sort: "I am twenty-six minutes past seven—four, twenty-one from twelve, forty—it is just three minutes past three!" Poor, strange and simple, yet curiously informed Proby, his last domicile was the Lambeth parish workhouse, grey garb, and call upon his friends as freely and unceremoniously as before, to the surprise of servants, who entertained "an odd" jealousy of paupers; and who could not comprehend why a person so clad was shown in. The letter I had from him spoke exultingly of his having been chosen to teach the children in the house their A. B. C, which conferred some extra accommodations upon him.—Autobiography of W. Jerdan.

PULLING ONE WAY.—A story is told of a bridegroom who rejoiced in certain eccentricities. A day or two after his wedding, he requested his bride to accompany him into the garden. He then threw a line over the roof of their cottage. Giving his wife one end of it, he retreated to the other side of it, and called out, "Pull the line!" She pulled at his request as far as she could. He cried, "Pull it over!" "I can't," she replied. "Pull with all your might!" he shouted the whimsical husband. But in vain were all the efforts of the bride to pull over the line, so long as the husband held on to the opposite end. But when he came round, and they pulled at one end, it came over with great ease. "There," said he, as the line fell from the roof, "you see how hard and ineffectual is our labour when we pulled in opposition to each other; but how easy and pleasant it is when we both pull together. It will be so, my dear, through life. Let us, therefore, always pull together." In this illustration, homely as it may appear, there is sound philosophy. Husband and wife must mutually bear and concede, if they wish to make hope a retreat of joy and bliss. One alone cannot make home happy. There must be a unity of action, sweetness of spirit, a great forbearance and love in both husband and wife, to secure the great end of happiness in the domestic circle.

VALUE OF GEOLOGICAL KNOWLEDGE.—The neglect of geological knowledge in architecture has produced the most deplorable consequences, in the premature decomposition of magnificent structures, owing to the perishable quality of the stone employed in their erection. The Capitol, at Washington, in the United States, is rapidly crumbling down to its very base; and thus one of the most splendid senate houses in the world, presents a memorable record of the human ignorance which refused, although a very easy page in nature's book was offered for perusal. This Capitol is built of perishable sandstone, while the marble quarries which have supplied materials for the admired public buildings of Baltimore lie within forty miles. The new church of St. Peter's, at Brighton, has already the appearance of dilapidated antiquity. Several colleges have been entirely rebuilt. The bridges of Westminster and Blackfriars, which cost respectively £427,000 and £153,000, and are neither of them more than a century old, have several times required repairs nearly equivalent to renewal.

SUMMARY OF NEWS.

THE EXECUTIVE COUNCIL met at Fredericton this week, when some matters of importance were discussed, and action taken on the most prominent. The Fishery question was fully considered, and such a course adopted as will place the views of our Government fairly before the Imperial Ministry.

The scarcity of Copper Coin was also brought before the Council, and it was decided that a committee be appointed to obviate the difficulty by importing a sufficient quantity for business purposes. The Hon. Mr. Partridge and the Provincial Treasurer are the Committee for carrying out this object.

It was also ordered, that the snags in the river St. John, of which there are several very dangerous ones, be forthwith removed.

The attention of the Executive to matters of such importance shows that they are determined to do everything in their power to facilitate the trade and benefit the best interests of the people of New-Brunswick.—New-Brunswick.

THE RAILWAY.

Mr. Archibald arrived in town on Thursday evening, and left again yesterday morning for the Acadia Mines, at Annapolis, but will return on Tuesday, to attend the meeting of the Stockholders of the European and North American Railway Company.

We are informed that Mr. Jackson, M.P., having completed his contract with the Canadian Government for the construction of the Canadian Railway, has proceeded on a tour through Upper Canada and the Western States. Mr. Jackson is expected to visit New-Brunswick about the middle of this month, by which time the Railway surveys will probably be so far completed as to enable him to estimate for the work.

We entertain a confident hope, that from the very favourable character of the country through which the road has to be built, as well as the vast means at the command of the Contractors, such an estimate will be made as will meet the views of all interested.—[St. John Courier.

CANADA RAILROADS.

The Canadian Government is about to commence a singular project (as we view it), it being nothing less than a railroad from Quebec to Hudson's Bay, a distance of 600 miles. What to all the world is to be the traffic, we cannot divine. The Hudson Bay lies a way up north, far beyond the bounds of habitation and civilization, and what our Canadian neighbours can find there for the support and maintenance of such a long line, is more than we can conjecture. It is so cold up at Hudson Bay, the winters are so long, and the snows so deep, that the railroad must cease operations during a great part of the year. It is expected that the timber regions of the north are to supply traffic enough for this road; or is Hudson Bay so prolific of fowl, fish, and peltries, that a large commerce in these will be established and maintained. It is a prevalent opinion, on this side of the Canadian line, that excepting a strip of about 60 or 70 miles wide along the frontier, all north of that, in Canada, will never be peopled, owing to the severity of the winter seasons there.—Scientific American.

PAUPER EMIGRATION.

The Jane Black, Captain Gorman from Liverpool arrived in this port on 25th ult. with 312 passengers, 233 of whom were sent out by the guardians of the Rathfriland Union, and were informed that upon landing they would receive the sum of one pound sterling each adult, which money it was stated had been sent to the Emigration Department here. On enquiry, we learn, that no money, nor any advice or instructions whatever has been received by that Department.

The great majority who were simple families and widows with one or two children, were perfectly healthy, and cheerfully prepared to embark, and another (her sister) perfectly out of her mind, and few of them had worn a change of clothing. Some 15 or 20 abandoned wretches in this city, and the remainder were forwarded up the country, and we hope the government will oblige the guardians of the Rathfriland Union to pay any expense the country may be put to on their account.

Canada will, we have no doubt, willingly receive the superabundant population of the mother country who may be desirous of seeking a home in this prosperous colony, where all who are industrious and disposed can readily obtain profitable employment; but we must protest against this wholesale exportation of young and helpless females to be thrown on our wharves destitute, and liable to be exposed to all the temptations of a large seaport town, and the more particularly as in this case where these poor females were led to suppose that a sufficient sum would be given them on arrival here to place them above immediate want, or to enable them to reach such sections of the country as would afford them employment.

Such conduct on the part of the guardians of the Rathfriland Union is most heartless and cruel, and we trust such representations of it will be made to prevent the possibility of its recurrence.—[Quebec Chronicle.

YANKEE NOTIONS. The prosperity of Smith's Island, as is commonly known, is due to the fact that it is a very fertile soil, and the main source of its wealth is the sugar cane. The island is a very small one, and is situated in the Bay of Fundy. It is a very fertile soil, and the main source of its wealth is the sugar cane. The island is a very small one, and is situated in the Bay of Fundy. It is a very fertile soil, and the main source of its wealth is the sugar cane.

POPULATION AND OTHER STATISTICS OF NEW BRUNSWICK.

Our readers are aware that the census of this Province was taken last year, and the returns were laid before the Legislature at their last meeting. We have just received an abstract of these returns, from the Queen's Printer, which contain many valuable statistics of the buildings, amount of stock, crops raised, &c. in each County. The population of New-Brunswick now numbers 193,500 souls, of which the City and County of St. John contains 38,475, being by far the largest of any County in the Province. Charlotte comes next, containing a population of 19,938; King's next, with a population of 18,842; then Westmorland with its 17,814 inhabitants; and York with its 17,628. The other Counties contain the following numbers:—Northumberland, 15,064; Gloucester, 11,794; Kent, 11,410; Carleton, 11,108; Queen's, 10,634; Albert, 6,313; Victoria, 5,409; Sunbury, 5,301; and Restigouche, 4,161 inhabitants.

In 1840, the total population of this Province was 154,000 souls, so that in 11 years they have increased 39,500.

ARRIVAL OF DISTINGUISHED PERSONAGES.

His Excellency Sir Edmund Head, Lady and family, who came passengers in the steamer America, from England, arrived in this city early yesterday morning, in the steamer Commodore, via Windsor, and left at 9 o'clock for Fredericton, in the steamer Anna Augusta. His Excellency was received by a guard of honour, and on his departure, a salute was fired from the Battery.

Lady Lyell accompanied His Excellency and family to Head Quarters. Sir Charles Lyell, the distinguished Geologist, who came out in the steamer for the purpose of visiting the Mining districts of this Province, proceeded round by land, in order to ascertain

STEAM BOAT COLLISION.

The steamship Daniel Webster arrived here to day from San Juan Nicaragua, with 11 days later intelligence from San Francisco.

YANKEE NOTIONS.

The prosperity of Smith's Island, as is commonly known, is due to the fact that it is a very fertile soil, and the main source of its wealth is the sugar cane. The island is a very small one, and is situated in the Bay of Fundy. It is a very fertile soil, and the main source of its wealth is the sugar cane.

Acres of Land, situated on the River, being Lot No. 13, particulars and a copy of the title of the same at the office of the Surveyor General, WILLIAM KER.

MANIC AND HIS KNIFE.

One Man mortally Wounded, and several Injured. White in a desperate state of delirium tremens, James Mahoney, who resides in Mason street, Charlottetown, on Sunday evening made an attack on John Kilman, stabbing him with a knife in the abdomen, which is considered a mortal wound. He then ran into the street, nearly in a state of nudity, where he stabbed a well known citizen of Charlottetown, Mr. Joseph Hannewell, in whose thigh several gas-bubbles were injected. Passing on, like a man mad, as he was, he attacked John O'Hanagan, stabbing him also quite severely in the thigh. A man named John McCarthy, was also stabbed severely. Some others were likewise cut. Mahoney then ran into the City Marshal's office, where he was secured, and subsequently conveyed to the jail at East Cambridge. It is nearly a miracle he did not kill several persons outright. Mahoney was employed in Tamplin's Carriage Mart, Charlottetown. He had been on a hard drink for several days.—[Bayton Joke.

STEAM BOAT COLLISION.

The steamship Daniel Webster arrived here to day from San Juan Nicaragua, with 11 days later intelligence from San Francisco.

European Intelligence.

The steamship Europa, with Liverpool dates to 28th ult., has arrived at New York. The Niagara, from Boston and Halifax, was off Liverpool when the Europa came out.

The Cotton Market was the same as last quoted. Corn and flour were also unchanged.

The potato disease was apparently stopped, and the tidings of harvest operations from all quarters were good.

The political and general news from England is without interest. There is nothing from France worth reporting.

The town of Wara, in Sweden, has been utterly destroyed by fire.

ENGLAND.—Lord Cowley's sudden return from Paris has renewed the rumor that he is to be succeeded as Ambassador to France by Lord Malmesbury, and that Lord Stratford de Redcliffe, late Ambassador to Turkey, will succeed the appointment as Foreign Secretary. These changes will take place in the course of September.

The Observer states that unless something important and unforeseen takes place, Parliament will not be called together for dispatch of business until 11th November, when it will be assembled for a session of four or five weeks previous to adjournment for the Christmas holidays.

On the 24th, a meeting of the Jamaica Association was held for the purpose of hearing a statement of the distressed condition of the British West India Islands, by Messrs. Edward Thomson, Wm. Smith, and Wm. G. Ad. delegates from Jamaica.

The Liverpool Chamber of Commerce held its quarterly meeting on the 23d. With the exception of a recommendation to have letters from the United States sorted on board the Mail steamers and a reference to the proceedings of the Mexican government, respecting the important duties at Matamoras and Tampico; their report touched on nothing of interest.

The letter of Mr. Webster to Capt. Jewett is published in the London papers and excites a good deal of interest. The Times is particularly severe on Mr. Webster's course.

IRELAND.—The Dublin Morning Post states that the Government Commissioners have selected Limerick as the trans-Atlantic packet station.

The Six Mile Bridge affair continues to excite much angry feeling in the locality where it occurred. M. C. Delmege, Justice of the Peace, and eight soldiers of the 31st regiment, are stationed within the jail, where the prisoners are confined, to protect it against any attack from the people.

Robert J. Walker was expected at Galway on the 21st, and the Galway Vicar reports that his visit has some connection with the establishment of a steamboat line between New York and Galway.

SPAIN.—A Cadiz journal announces that the line of steamships plying between Spain and Cuba, would be speedily reinforced by two other large steamers, and the departure from Cadiz will then take place twice a month.

The "Vestal" of 20 guns, Capt. C. B. Hamilton, has been sent to Portsmouth to be paid in advance, she will then sail for the North American station. The "Figer," 16 guns, Capt. Gillard, is at Spithead under orders for foreign service, and is taking in stores and provisions for six months foreign supply. Her destination is not at present known, but is conjectured to be the North American coast. At Sheerness, the paddle wheel steam vessel Cyclops 6, and screw steam frigates "Amphion" and "Horatio," of the advanced steam squadron of reserve, have taken on board their full quantity of coals; so as to be in readiness to proceed to sea (if required) at the shortest possible notice. It is conjectured that the screw steamers Arrogant 46, Dauntless 33, Highflyer 21; Encounter 14, now on their way to Spithead, will also set to join Admiral Seymour's squadron.

THE PERILS OF THE SEA.—The steamship Pacific, Capt. Nye, left Liverpool on the 25th of July last, bound for New York, with about one hundred passengers, besides engineers, sailors, and servants, about 1200 tons. On the outward passage to Liverpool, Capt. Nye discovered a difference in his compasses—the one in the binnacle differing from the one on deck. On leaving Liverpool, an allowance was made for this difference, which proved correct; as the ship passed the Tuskar Light and Cape Clear at about the distance intended. The first 26 hours run was very favorable, being 327 miles—the second—equally so, being 300 miles. On Friday, the 3d day out, being then entirely clear of Ireland and on the broad Atlantic, a thick fog set in, which lasted until Monday, when we were enabled to get a good observation, and found the ship nine miles north of the great circle or latitude intended. The ship's course was then altered so as to place her on that circle line, and which would carry her about five or ten miles south of Cape Race.

On Wednesday morning, at 6 o'clock, it was supposed we were about abreast of the Cape, and the officers and men forward were told to keep a good lookout for land. At half past 8 the same morning, the sea being very smooth, the fog thick, a sudden call was made of "a boat along side!" The engines were ordered to be stopped, but before this could be done, the boat, in which were two men, was swept under our paddle wheels, and the two men instantly killed, fragments of the boat only being seen floating on the surface. By this time the engine was stopped, and the ship's headway checked; when about the length of the ship ahead, a rock rose up as it were, out of the ocean, the top of which could not be seen.

The helm was ordered to the starboard, the ship rounded to, almost as it were on a pivot, our paddle boxes coming within about twenty feet of an immense rock, supposed to be from three to five hundred feet high, and about 25 long. Another boat, in which were five men, was soon seen on the projecting rock, which soon came down to us and told Capt. Nye our position—which was Cape Creole, on the eastern end of Newfoundland, and twenty miles north of Cape Race. Our ship's head was then put to the southward, and after running on that course about thirty miles, it was changed to the westward. The imminent danger that we thus so providentially escaped, caused many a heart to beat with gratitude to the great Disposer of events; so many lives, with that noble ship, having been saved by the sacrifice offered by the two men so suddenly called to eternity. It was the opinion of the passengers that they heard through the fog, the noise of our paddle wheels, and put off from the land to warn us of our danger.—[Boston Transcript]

Province in the present season." THE STANDARD. WEDNESDAY, SEP. 15, 1852. POPULATION OF NEW BRUNSWICK.—We have received from the Queen's Printer, a pamphlet, containing a return of the "Population and other Statistics of the Province of New Brunswick, for the year 1851." From this well printed and carefully arranged work, we learn, that the population of the Province "has advanced nearly two per cent faster than the combined population of the four northern States of the American Union; and much more rapidly than each of them separately considered, for the ratio of Massachusetts alone has exceeded that of this Province." This gratifying statement proves that the Province is not retrograding. The following information respecting the agriculture of the Province, we gather from this work: "During the year 1851, there were raised in this Province no less than 225,093 tons of hay; 206,635 bushels of wheat; 74,300 bushels of barley; 1,411,164 bushels of oats; 689,001 bushels of buckwheat; 62,225 bushels of Indian corn; 42,683 bushels of peas and beans; 539,593 bushels of turnips; 2,792,364 bushels of potatoes; and 47,880 bushels of other roots.

THE RAILWAY. Now that the Engineers for the European and North American Railway are engaged on the route, it may not be out of place to make a few remarks on the prospect of success, and notice the leading events since the return of the Railway delegates from their unsuccessful mission. The excitement on their return, and the filling up of the newspapers with articles on the topic tired out the people, and little has been said on the subject for a considerable time.

On the arrival of the delegates in Halifax their failure was announced, and their proceedings were placed in the best possible light. It was announced through the Halifax papers, (in all probability by Mr. Chandler), that in lieu of the money for the Halifax and Quebec Railway at three and a half per cent, arrangements had been made for a new scheme for building the European and North American line, and the plans were detailed at length, care being taken that the people should be deceived, and that it should not be known that the land must be thrown into the bargain, against which the people of the Province had expressed their disapprobation. The people had long been tired with Railway failures, and taking it for granted that there was some reliance to be placed on their delegate, but little opposition was presented to the scheme, and on the meeting of the Executive a vote of thanks was passed to Mr. Chandler, (no doubt for mollifying the people) and the public were informed that the terms of the Contractors were accepted, receiving the additional information that four or five miles of the unoccupied land on each side of the line was to be given to the Company. Agreement was made that the engineers should be sent for, and that their estimate should be submitted before a final arrangement, and that if the Province considered the estimate too high, the expense of the engineers should be paid. They are now surveying the route, and the people have been led to believe that the Railway is about to be built, we have no guarantee that the Legislature will support the Government in doing what they have done.

The Executive Government has not the power to appropriate the money of the Province to any purpose, and their act in doing so is of no consequence unless ratified by the Legislature, and no matter whether the people are in favor of the scheme or not, the Government should have acted in good faith, given all the information to the people, and not by a subterfuge blind them in order to make themselves firm in their position. It rests with the Legislature whether the government will be permitted to act in such a manner. Until the Legislature meets the carrying out of the scheme is doubtful, and it may be that the people will again be disappointed in their expectations of hearing the whistle of the engine and the ringing of the railway bell. While those in authority will not act in good faith with the people, whom they are supposed to represent, nothing can rest on a firm foundation, and the public can place no confidence in words.—[St. John Morning Times.

E. & N. A. RAILWAY COMPANY.—The Annual meeting of the Stockholders of this Company took place on the 7th inst., and on the close of the ballot for the election of officers, it was found that the following gentlemen were unanimously elected:—Directors—G. D. Archibald, George Borsford, R. Jardine, John Robertson, Edward Allison, D. J. MacLaughlin, and W. J. Ritchie. Auditors—John W. Cudlip, and George P. Scanlon. SCRUTINEERS—W. Jack, and Wm. Parks. Subsequently, Robert Jardine, Esq. was elected President.

At this meeting, it was resolved that the Company protest against the 4th and 5th sections of the Act incorporating the Company, and that the Legislature be petitioned for their repeal.—[Ibid.]

THE SEASON.—The Fredericton Reporter, alluding to the season and abundant crops, says: "The present reminds us of one of those old fashioned seasons twenty or thirty years ago, when neither frost blight nor weevil, interfered with the crops all the way to their maturity. Potatoes are large, abundant, and as good as they can be. Oats, Buckwheat and Corn, excellent in the first degree. Wheat, in some instances slightly injured by the weevil, but nevertheless far beyond the general standard; Turnips good beyond any comparison for many years. The blessings of a beautiful Providence here thus we believe, have been rendered broadcast over the whole

Province in the present season." THE STANDARD. WEDNESDAY, SEP. 15, 1852. POPULATION OF NEW BRUNSWICK.—We have received from the Queen's Printer, a pamphlet, containing a return of the "Population and other Statistics of the Province of New Brunswick, for the year 1851." From this well printed and carefully arranged work, we learn, that the population of the Province "has advanced nearly two per cent faster than the combined population of the four northern States of the American Union; and much more rapidly than each of them separately considered, for the ratio of Massachusetts alone has exceeded that of this Province." This gratifying statement proves that the Province is not retrograding. The following information respecting the agriculture of the Province, we gather from this work: "During the year 1851, there were raised in this Province no less than 225,093 tons of hay; 206,635 bushels of wheat; 74,300 bushels of barley; 1,411,164 bushels of oats; 689,001 bushels of buckwheat; 62,225 bushels of Indian corn; 42,683 bushels of peas and beans; 539,593 bushels of turnips; 2,792,364 bushels of potatoes; and 47,880 bushels of other roots.

EUROPEAN AND NORTH AMERICAN RAILWAY COMPANY.—The "Courier" of Saturday last, contains an account of the Annual Meeting of the Stockholders of this Company on the 7th inst., together with the Report of the Directors for the past year. From the Report we learn, that the whole outlay of the Company including their share of the memorable Portland Convention, surveys, right of way, &c., amounted only to £250! A small sum truly, when the amount of work is taken into account. Mr. Jackson M. P. is expected at St. John this week, and is to be met by a committee of the Executive Council, who have been appointed to confer with him. We trust that the high contracting parties may come to terms, and that the people of St. John may ere long be able to say that their Railroad is a "fixed fact."

We have received from the Publisher of the Head Quarters, a neatly printed pamphlet, of 100 pages, entitled "Journal of the New Brunswick Society for the Encouragement of Agriculture, Home Manufactures and Commerce throughout the Province." The original essay of Mr. W. A. senior, on fruit trees &c., is an able paper. The "Journal" should be in the hands of every farmer.

REDUCTION OF TELEGRAPH RATES.—We understand that D. B. Stevens, Esq., the Superintendent of the Telegraph lines in New Brunswick, has succeeded in effecting an arrangement with the Nova-Scotia Telegraph Company, by which a large reduction (one-third) on the present rates through Nova-Scotia, New-Brunswick, and Maine, was agreed upon, to take place at once. This will have the effect, no doubt, of increasing the number of messages.

Owing to the heavy rains during last week, and probably a predisposed state to disease, we learn that several persons in this neighborhood have lost their entire crop of potatoes. In the upper Parishes, however, there was but little damage done to this crop.

We copy the following from the Quebec Morning Chronicle of the 3d instant. Our respected contemporary, of the Chronicle has taken a lively interest in the success of our Railroad; he should visit St. Andrews. QUEBEC AND ST. ANDREWS RAILROAD.—When we yesterday wrote our leading article, we were not aware that Mr. Forsyth and Mr. Angers were authorized by the President and Directors of the Quebec and St. Andrews Railroad to ask for aid from the Provincial Government for that portion of the line from Quebec to the Province of New Brunswick which will give to Canada the choice of St. Andrews, St. John, or Halifax, as places of export in winter, whenever the North American and European Railroad is completed. The petition of the above gentlemen will be simply for continuing the Act of Incorporation already passed, and which has been allowed to lapse from want of action; and, in justice to these gentlemen, we may state these services are gratuitous, and that they act on public grounds, and with the concurrence and by the desire of the Board at St. Andrews.

The people of Halifax held a Public meeting to protest against any surrender of the right of the Province to their Fisheries, and to memorial the Queen that all negotiations on the subject should be dropped, and their undoubted rights asserted and maintained. The meeting was large, respectable, and unanimous. The Mayor presided.

RAILWAY COMMENCEMENT IN CANADA. The English Contractors, viz.—Messrs. Jackson, Peto, Brassey, Betts & Co. advertise in the Canadian papers for persons to work upon the Quebec and Richmond Railroad. The same advertisement, no doubt, will be put in force upon our European and North American Railroad, by the same eminent Contractors—so that our arizans, and all others, will take due notice and govern themselves accordingly. It seems that the contractors in Canada are not going to wait for the action of the Legislature, but go to work at once. We shall be able to begin this Fall too, perhaps. Here are the advertisements:—Messrs. Jackson, Peto, Brassey & Betts, contractors for the works on the line of railway from Quebec to Richmond, are prepared to receive proposals for Chopping, Grubbing, Excavating, Masonry, and various descriptions of work connected with Railway Construction. Payment will be made in cash every fortnight. "W. JACKSON.

Messrs. Jackson, Brassey, Peto & Betts beg to inform Provision and Store Merchants that the supply of stores and provisions for the men and horses employed on the works of the Quebec and Richmond Railway will be open to competitors, as no one in their employ will be allowed to traffic in stores or provisions. All payments for labour and works will be made in cash every fortnight. "W. JACKSON. "Quebec, 27th Aug. 1852."

St. John, Sept. 11.—We understand that Wm. Jackson, Esq. M. P. is expected to leave Quebec to-day, and to arrive in this City, via the Valley of the River St. John, on Friday next, the 17th inst. A meeting of Council was held yesterday, and we understand that the Hon. Messrs. Parclow, Chandler, Hazen, and Gray, were appointed a committee to meet and confer with Mr. Jackson.—[Courier.

Next week will be quite an eventful one in the history of the Province. If Mr. Jackson and the Government manage to agree upon terms, which we fervently trust they will, a speedy commencement to our Railways, and the dawn of a new era in the prospects of the Province, may be considered as secured; for if the present Legislature should happen not to sanction Mr. Chandler's agreement, the people would very soon find Members who would. We understand that Mr. Morion, Mr. John A. Poir, and Mr. Archibald may be expected here to meet Mr. Jackson. The Delegates to the Portland Convention have good reason to remember Mr. Poir's many kindnesses—our many obligations to Mr. Archibald are well known—and we have no doubt that our citizens will take the opportunity of the visit of these gentlemen to make some public manifestation of their appreciation of worth and talent.—[Ib.

An early meeting of the Legislature is talked of as certain. Some think it will be called before the first of December. The reason of course is, that the Railway scheme should be finally disposed of, and the arrangement with the contractors completed.—Freeman.

The Right Rev. Dr. Conolly will arrive by the steamer Pilot to-day.—Ib. Mr. Wilkins was elected for Windsor by a majority of eight.—Tel. to News Room.

HORRIBLE MURDER.—On yesterday (Friday) morning, about 8 o'clock, the body of a man was found at Fisher's wharf, Lower Cove, between two rafts of logs, and it was at once seen that a foul and deliberate murder had been perpetrated. A wide gash made with an axe or other keen strong instrument, extended from the back of the neck under the right jaw to the throat, severing arteries, muscles, and tendons, completely. The face is horribly mutilated, evidently for the purpose of preventing the identification of the deceased. One gash extends down the face across the eye, another almost cuts away the nose, and the chin, lips, cheeks and forehead, are all hacked in a shocking manner; there is also the mark of a blow on the temple. There is no mark on the rest of the body, nor are the hands even scratched.—When found, he had on only a check shirt and brownish striped trousers. The trousers were loose, and strange to say there was no blood on them. The feet were tied together by a rope. It is probable the man was murdered somewhere in the neighbourhood, stripped of his clothes, and mutilated to prevent identification, and conveyed to the place where he was found. The Coroner's Jury sat all day, but no clue was obtained that seems to promise a discovery of the murderer, nor could it be ascertained who the man was. He was middle aged and had lost some of his teeth, and from these facts and the color of his hair, his want of whiskers, &c., some witnesses were of opinion that it was a man named Paddy Sullivan, a drover, who was known to have money always in his possession, and who has not been seen since Wednesday.

A relation of Sullivan's, a shoemaker, applied his size, rick to the foot of the deceased, and says the measure is precisely the same as that of Sullivan.

The deceased has a wart on his forehead, and a mole on the neck which none of the parties seemed to recognise.—Freeman.

Brigt. Stephen Binney, from Montego Bay, for Quebec, laden with sugar, coffee and plums, was wrecked on the 31st ult., on Broken Back Reef, near Beaver Harbour. Cargo to be shipped to Halifax in four vessels, which were to leave on the 6th inst.

MARRIAGES. On the 1st inst., by the Rev. Dr. Alley, Mr. Wm. P. Foy, to Miss Maria Elizabeth Isabella Wilson, of this place. On the 9th inst. by the Rev. Mr. Ross, Mr. John Woodworth, of Hopewell, County Albert, to Miss Lucinda Dawson, of St. Patrick. DEATHS. On the 8th inst. after a lingering illness, Mr. John Bolton, senr., aged 69 years, a native of Northumberland, England, leaving a wife and family to mourn their loss. On the 13th inst. John B. infant son of Mr. Elias Walker aged 2 years and 4 months.

A Full blooded entire Horse FOR SALE. THE THOROUGH-BRED HORSE JOHN O'GAUNT, IMPORTED by the Carleton Agricultural Society in 1847, will be exhibited at the Show and Fair of the New-Brunswick Society, in Fredericton on Wednesday the 6th of October next, and at the close thereof sold at AUCTION.—This Horse combines the speediest and stoutest blood as will be seen from his Pedigree, and took the first premium (£200) awarded by the Legislature of the Province in 1847. He is 11 years old, perfectly sound, stands 19 hands high, and weighs 1080 pounds. His stock ranging in age from Colic of the present season to those rising from Colic and decidedly superior. JOHN O'GAUNT was got by Rockingham out of Purity; Rockingham by Humphrey Clarke out of Medora by Swordsman; grand dam by "Trumpet" out of Melora by Swordsman; grand dam by Triumpator, out of Peppermint, sister to Francelia, by Highflyer; Purity by Thilo de Puta, winner of the Ft. Ledger in 1845, out of Rachel; Ruysch, sister to Claude Lorraine by Rubens; grand dam by Cesar, Miss Holt by Buzzard.—Rockingham won the steeple at York, the Great St. Ledger, and the Cup and Doncaster—the Goodwood Cup in 1845; the Brighton Cup three years in succession; and six King's Plates—beating all the best Horses of the day. Purity never started but twice, winning both her races. JOHN O'GAUNT walked over for the Two-years-old stakes at Lichfield, and was beat by a head by Henri Quatre; the fastest horse of his day; fifteen started. By Order, H. E. DIBBLEE, Secretary.

Woodstock, Sept. 11, 1852. ST. STEPHENS BANK, St. Stephens, September 1, 1852. A DIVIDEND of Five per cent. will be made payable on the 30th instant. D. UFFTON, Cashier.

Meeting of Courts. The Courts of General Sessions of the Peace and Common Pleas, for the County of Charlotte will sit at the Court House in St. Andrews on Tuesday the 21st day of September, at 12 o'clock. The Courts of Oyer and Terminer and General Jail Delivery and Nisi Prius for the said County will be held at the Court House in St. Andrews, on Tuesday 2d day of November next, at 12 o'clock. At which time and place all Magistrates, Coroners, and Constables of said County and all persons required to be at these Courts are hereby Publicly Notified to give their attendance. By Order of Her Majesty's Justices, THOS. JONES, Sheriff of Charlotte. St. Andrews, Sep. 7, 1852.

BOYS WANTED. WANTED TWO BOYS from 12 to 16 years of age, at the STANDARD Office, to learn the Printing business. August 25. Apply immediately.

Leaschold Property by AUCTION. ON Tuesday the 21st day of September next, at 4 o'clock in the afternoon, the subscriber will sell by Public Auction, on the premises, those two commodious and substantially built DWELLING HOUSES, and out Houses, situated in Queen Street (Church Block) together with this piece of ground in rear of each sufficient for a garden. A new lease has been lately obtained from the Church Corporation for five years from first May last, at £149, for both, renewable at the expiration for 21 years, at such rent as may be considered equitable by arbitrators, or Church Corporation take the property at a valuation to be ascertained by two disinterested persons; mutually chosen. Houses for Sale. THE subscriber offers for Sale, the HOUSE occupied at present by Mr. James Smith, and the adjoining ten-story HOUSE at the corner of the Wharf below Happy Corner, in Williams Street...

PAPER & PAPER. THE Grocers, Hardware and Dry Goods Merchants, and the Public in general, are hereby notified, that the subscriber has been appointed by Philips Brothers, Paper Manufacturers, Saint John, their Agent for the sale of their WRAPPING PAPER, and that a general assortment will be kept constantly on hand...

NEW PACKET. THE subscriber respectfully informs the Public, that he will commence running his schooner the 'SUSAN' as a Packet between St. Stephen, St. Andrews and St. John, about the 15th April. His vessel is well adapted for passengers and freight, and he trusts by attention and despatch, to merit a share of public patronage...

TO LET. Possession given 1st May next. That STORE occupied by J. W. Street, Esq. Apply on the Premises. April 6, 1852.

TO LET. IN consequence of the Admiralty having ordered the remaining Stores to be sold off, the Government Property, situated at Widdow's, Campobello, WILL BE LET for a term as may be agreed upon. The property consists of Provision Stores, Boat-House, Coal House, and Sail Loft; is well situated, the stores spacious, and admirably adapted for doing an extensive business in dry, pickled, and smoked fish. Any quantity of salt, iron, paint, putty oil, and of British staple and fancy Goods, can be disposed of to advantage by whole sale or retail, owing to its proximity to the United States. Campobello, August 19, 1851.

REMOVAL. THE undersigned has removed to the new Building lately erected by Mr. CHARLES KENNEDY, and nearly opposite his former establishment. J. W. STREET. May 29, 1852.

NOTICE. ALL persons having any demands against the estate of John Porter, late of Saint Stephen, deceased, are requested to present the same daily attested within three months; and all those indebted to the said estate, are requested to make immediate payment to ANN PORTER, Administrator. GEO. M. PORTER, Registrar. St. Stephen May 12, 1852.

W. WHITLOCK, JUST RECEIVED. 10,000 PIECES Handsome Room Paper, Also, 6 Prints & Mears FLOWS, and FARMING TOOLS, CLOVER, GRASS and GARDEN SEEDS. Constantly on hand—A good assortment of FLOUR, MEAL, GROCERIES, Boots and Shoes, &c. &c.

TO BE LET. THE COTTAGE opposite the residence of D. W. JACK, Esq., lately occupied by Mr. Rice. Possession on the 1st of May. Apply to J. W. STREET, Esq., or the subscriber. JEROME ALLEY. St. Andrews, April 20th, 1852—4i.

For sale or to Let, FOR A TERM OF YEARS, AND Possession given 1st May next. THE House in St. George, owned and occupied by the Subscriber, contains sixteen rooms, and a very large and perfectly frost proof cellar. The building is well known as a Public House, and is by far the best situated in the Village. The lot on which it stands, is sufficiently large for several other buildings. STUART SELBY. St. George, Feb. 23, 1852. tm.

Apprentice Wanted. WANTED an Apprentice to the Carriage, Sleigh, and Wheelwright business. A desirable situation may be obtained on application to E. STENTIFORD. Andrews, Aug. 3, 1852.

**JUDSON'S
CHEMICAL EXTRACT OF**

CHERRY AND LUNGWORT,
FOR THE CURE OF

Coughs, Colds, Hoarseness, Spitting
of Blood, Night Sweats, Asthma,
Liver Complaints, and
CONSUMPTION.

DO NOT NEGLECT IT.
CONSUMPTION

Can be and has been cured in thousands of cases by this only certain remedy.

JUDSON'S CHEMICAL EXTRACT OF
CHERRY AND LUNGWORT,
and no remedy has ever before been discovered that will certainly

CURE CONSUMPTION.
The most strongly marked and developed cases of Pulmonary Consumption where the lungs have become diseased and ulcerated and the case so utterly hopeless, as to have been pronounced by Physicians and friends, to be past all possibility of recovery, and at times thought to be dying, has been cured by this wonderful remedy, and are now as well and hearty as ever.

It is a compound of medications which are regularly adapted to and essentially necessary for the cure of

COUGHS AND CONSUMPTION.
Its operation is mild, yet efficacious; it loosens the phlegm which creates so much difficulty, relieves the cough and assists nature to expel from the system all diseased matter by expiration, producing a most delightful change in the breathing and chest, and this, after the preparations of the very best medical men and the inventions of kind-sorrowing friends and Nurses, have failed to give the smallest relief to the Consumptive sufferer.

THOUSANDS OF CONSUMPTIVE persons have been deceived in buying medicines which were said to be infallible cures, but which have proved only palliatives, but this medicine is not only a palliative, but a cure for ulcerated lungs. It contains no deleterious Drugs and one trial will prove its astonishing efficacy better than any assertions or certificates in curing consumption and all diseases of the Lungs, such as Spitting of Blood, Coughs pains in the side and chest, night sweats, &c. &c.

About 1000 certificates of almost miraculous cures, performed by this medicine, from some of the first Doctors, Clergymen, and Merchants, have been sent us for this medicine, but the publication of them looks too much like Quackery. [We show them to any person calling at our office.] This medicine will speak for itself and enough in its own favour wherever it is tried.

Caution.—This medicine is put up in a large bottle and you must find the name of Comstock & Brother, Proprietors, New York, on the splendid wrapper around the bottle. All orders must be addressed to Comstock & Brother, No. 9, John St., New York.

TO OWNERS OF AND DEALERS IN HORSES.

CARLTON'S FOUNDER OINTMENT
For the cure of Founder, Split Hoof, Hoof bound Horses, and contracted and Feverish Feet, Wounds, Bruises in the flesh, Galled Backs, Cracked Heels, Scarcies, Cuts, Kicks, &c., on horses.

CARLTON'S KING BONE CURE.
For the cure of Ring Bone, Blood Spavin, Bone Spavin, Windgalls, and Splint—a certain remedy.

CARLTON'S CONDITION POWDERS FOR HORSES AND CATTLE.
The changes of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at those changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Worms, Boils, &c. All of which will be prevented by giving one of these powders, and will at any time cure, when any symptoms of disease appears, if used in time. They purify the blood, remove all inflammation, and fever, loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same food. The action of these powders is direct upon all the secret glands, and therefore have the same effect upon the Horse as the Ars. and other Herbitarian Animals.—All diseases arising from or producing a bad state of the blood are speedily cured by them. Remedy

ask for CARLTON'S CONDITION POWDERS, and take no others.

CARLTON'S NERVE AND BONE LINIMENT FOR HORSES,
and for the cure of all diseases of man or beast that require external application, and for contracted cords and muscles, strengthen weak limbs, and is also used for sprains, bruises, saddle galls, scalded legs, sores of all kinds on horses.

CARLTON'S articles for Horses and Cattle are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety nine cases out of one hundred any of the above complaints. They have been used by Farmers, liverymen, sage proprietors and others, with the most marked and decided success.

CAUTION.—None can be genuine unless you find the name of J. Carlton Comstock on the wrapper of each article.

COMSTOCK'S VERMIFUGE.

This is the most extraordinary remedy for Worms ever used; it effectually eradicates Worms from both adults and children. It cannot harm the most delicate infant or strongest adult, and never fails to completely root out and destroy all kinds of Worms. The cost, 25 cts. per bottle, puts it within the reach of all, and all parents who are without it are wantonly exposing the lives of their children to those fell destroyers of youth, "Worms." Look for the name of "Comstock & Brother, proprietors, on the wrapper of each bottle.

RHEUMATISM.
Comstock's Nerve and Bone Liniment, is warranted to cure any case of Rheumatism, Gout, Contracted Cords, and Muscles, or stiff joints, strengthen Weak Limbs, and enables those who are crippled to walk again. Comstock & Brother, Proprietors, New York, send none genuine without their name on the wrapper.

TOOTHACHE.
Dr. Kline's Drops, for the cure of the Toothache. It is with confidence that we can recommend its use in all cases, without any injury to the teeth or gums. Price 25 cts.

CARLTON'S LINIMENT FOR THE PILES.
It is now used in the principal hospitals, and in the private practice in our country, by an immense number of individuals and families, first and most certainly for the cure of the PILES, an also extensively and effectually as to relieve the pain and where its effects are witnessed, Extraordinary relief is afforded in the following complaints:—
Dropsy, Swelling, extraordinary absorption at once. Scalding, Reducing them in a few hours. Rheumatism, Acute or Chronic, giving immediate ease. Sore Throat, By Cancer, Ulcers, or Colic. Cramp and Whooping Cough, Asthma, and over the chest. All Brains, Sprains, and Burns, Curing in a few hours. Sores and Ulcers. Whether the result of long standing, and feverish sores.

It operates upon adults and children in reducing rheumatic swellings, and loosening cough and tightness of the chest by relaxation of the parts, has been surprising beyond conception.

CAUTION.—All of the above named Articles are sold only New York by Comstock & Brother, No. 9, John Street, the others from Everywhere.

Sold also in St. Andrews, by Odell & Tones, D. Clarke, S. L. Filley, St. John; L. Ryder, S. Stephen; J. W. Brayley, Fredericton; B. Ferguson, Woodstock; G. Spear, Robinsonston; and our Agents every Town in New Brunswick. Enquire for Comstock's Almanac for 1852 which is given gratis.

Grocery & Provision Store.

JOHN B. BALSON,
Respectfully announces to the inhabitants of St. Andrews, and vicinity, that he has opened the store next Pheasant's Hotel where he has received a his supply of Groceries and Provisions, suitable for this market—consisting of—

SUPERFINE FLOUR in bags and Barrels; Fancy Biscuit, Meal Tea, Coff. e. Brown and crushed Sugar Molasses, Mould and Dip Candles, Fine and coarse Salt.

BARLEY, Mustard, Pepper, Ginger, Allspice, Salaratus, Nutmegs, London Pickles, Pepper Sauce, Lemon Syrup, CONFECTIONER'S Dates.

Tobacco, Cigars, Snuff, Pipes, Starch, Button Duc. Blacking, Baking and Washing Soda, Boots and Shoes, Pails, Brooms, &c.

Which, together with a great variety of other articles, will be sold at the lowest prices for cash.

ALSO, in Store,—
Coils of CORDAGE, a lot of Grind Stones &c.
St. Andrews, June 17, 1851.

FRUIT TREES.

THE NURSERIES and ORCHARDS of the Subscriber, consisting of nearly Forty Thousand Trees, are now offered for the inspection of the Public and for sale. Persons planting these Trees may be assured of success, as every possible precaution has been used in the selection of varieties; all that have not proved hardy, have been at once discarded, and those which have not yet fruited here have been propagated with the advice of the most distinguished cultivators of New England and Canada.

The Subscriber flatters himself that his assortment is unrivalled for this climate, as it contains nearly all the varieties of Apples and Plums which have proved valuable in cold and extreme climates, with many new and splendid sorts lately brought from Russia, England, Germany, Canada, and the Northern States.

Price of Grafted Apple Trees, assorted, one shilling each.—Any person or number of persons ordering 1000 or upwards in one lot may, if desired, have a credit of two or three years for half the amount, and receive the trees free of freight at any place within the Province.

FRANCIS P. SHARP,
Woodstock, Oct. 22, 1851.—31

HEALTH where 'tis thought.

Holloway's Pills.

CURE OF A DISORDERED LIVER AND STOMACH, WHEN IN A MOST HOPELESS STATE.

Extract of a Letter from Mr. Matthew Harvey, of Chapel Hill, North Carolina, dated the 15th of January, 1850.

SIR—Your valuable Pills have been the means with God's blessing, of restoring me to a state of perfect health, and a time when I thought I was in the "grave." I had consulted several eminent doctors, who after doing what they could, for me, stated that they considered my case hopeless. I ought to say that I had been suffering from a Liver and stomach complaint of long standing, which during the last two years got so much worse, that every one considered my condition as hopeless. As a last resource, I got a Box of your Pills, which soon gave relief, and by persevering in their use for some weeks, together with rubbing night ointment on my stomach, and eating a light diet, I have by their means got completely cured, and to the astonishment of myself and every body who knows me.

I signed) **MATTHEW HARVEY**
Extract of a Letter from M^r. Smith of No. 5, or Thomas Street, Gibson Street, Lambeth, dated Dec. 12th, 1849.

SIR—I beg to inform you that for nearly five years I hardly knew what it was to have a day's health suffering from extreme weakness and debility, with constant nervous headache, giddiness, some spinal complaint beyond the reach of cure, together with a very disordered state of the stomach and liver, making my case so complicated that nothing could be done for me. One day I saw your Pills usually ill and in adjoining papers, I saw your Pills advertised, and resolved to give them a trial, more perhaps from curiosity than with a hope of being cured, however I soon found myself better by using them, and so I went on persevering in their use for six months, when I am happy to say they effected a perfect cure.

(Signed) **WILLIAM SMITH**
(frequently called EDWARD.)
CURE OF ASTHMA, OF TWENTY YEARS STANDING.

Extract of a Letter from Mr. J. K. Heydon, 75 King Street, Sydney, dated 10th of November 1849.

To Professor Holloway.
SIR,—I have the pleasure to inform you that many exceedingly bad cases of Asthma have been cured here by means of your Pills. One is that of a Lady residing near the "Razooack," who after having for twenty years been unable to make the slightest exertion, suffering very severely from shortness of breath, coughing, and spitting, but is now, to use her own expression, able to run up to the top of the mountain. Another case is that of Mr. Eaton, Tailor, Hutchinson's Buildings, Clarence Street, who was confined to his bed-room for six months, since his commencing with your Pills, and attended regularly by his medical man, who pronounced him to be in a dying state, yet he, likewise, to my great joy, has been restored to perfect health by the use of your Pills, and rubbing your Ointment night and morning into his chest.

(Signed) **J. R. HEYDON**
ASTONISHING CURE OF THE FALL OF ALBERT GACH.

By the Miraculous Means of your EXCELLENT MEANS had fallen!!!
A Copy of a Letter from the Earl of Aldborough dated Villa Mexiana, Leghorn, 21st Feb. 1845.

SIR,—I have the pleasure to present the possibility of my thanking you before this time for your politeness in sending me your PILLS as you did. I now take this opportunity of sending you an order for the amount, and at the same time, to add that your PILLS have effected a cure of a disorder in my Liver and Stomach, which all the most eminent of the Faculty at home, and all over the Continent had not been able to effect; may I not even the waters of Carlsbad and Montecatini. I wish to have another Box, and a Part of the Pills, as I have been obliged to my ever-requ岸ent friend.

I remain, with much respect,
Your most obliged and obedient servant,
ALBERT GACH.

THE above will be sold in taking it in Kennedy's company of the following diseases:—Rheumatism, Gout, Consumption, Dropsy, Debility, Gravel, Retention of Urine, Piles, Bilious Colic, Venereal Affections, Sores Throat, General Abfections, Blisters on the skin, Dysentery, Indigestion, Scalds, or King's Evil, Worms of all kinds, Erysipelas, Inflammation, Bowel Complaints, Female Irregularities, Jaundice, Stone and Gravel, Colic, Liver Complaints, Secondary Symptoms, Weakness from whatever cause, Lumbago, Constipation of Bowels, Fevers of all kinds, Piles, the Doublesex, &c. &c.

SURROGATE COURT.

COUNTY OF CHARLOTTE
In the matter of the Estate of Daniel Cunningham late of the Parish of Saint David in the County of Charlotte, deceased.

WHEREAS Lachlan Doon administrator of the said Daniel Cunningham deceased, at the time of his death, had in his last will and testament, appointed the said Lachlan Doon, and all persons interested in the said Estate, may appear and attend the passing and allowance of the said account.

NOTICE thereof is therefore hereby given, to all the Creditors and next of Kin of the said deceased, and to all persons interested in the said Estate, and they are hereby cited to appear before me at a Court of Probate, to be held at the Office of the Registrar of Probates in Saint Andrews, in the said County of Charlotte, on Saturday the Tenth day of APRIL next, at the hour of one in the afternoon, to attend the passing and allowance of the Account of the said Administrator.

Given under my hand and the Seal of the said Court, this tenth day of December A. D. 1851.

(Signed) **H. HATCH,**
Surr. Judge.

Geo. D. Street,
Registrar of Probates.

NEW BRUNSWICK.

HOUSE OF ASSEMBLY.

The following were adopted as Standing Rules in the Session of 1851:—

37th.—That no Bill of a private nature or petition for money or relief, shall be received by the House after the fourteenth day from the opening of the Session, but in cases of emergency the Clerk of this House may receive such petitions.

38th.—That the Clerk of this House shall cause to be printed and distributed to each of the Clerks of the Peace in the several Counties for distribution, and cause the same to be inserted in the Royal Gazette, and two Newspapers in such County where Newspapers are published.

39th.—That this House will sustain no application for allowances to Teachers of Common or Parish Schools, unless it shall be certified by at least two Trustees of Schools for the Parish, where such School has been taught, showing the time actually taught; the Teacher to be benefited—the cause why such Teacher was not certified to the Sessions in the ordinary way—and that such Teacher was not called to discontinue his or her School on account of any improper conduct.
